PRESIDENT'S ADDRESS.

No. 2.

On behalf of the older members of the Board and myself personally I extend to the new members a cordial and hearty welcome. I sincerely trust that your record will surpass that of any Board, and go into the history of this City as one of the best Boards that has ever represented the people in this historic Chamber. It depends entirely upon yourselves, and each man should see to it that the part which he plays during the coming two years will not only reflect credit upon himself but upon his constituents and the City at large. Again I bid you a most hearty welcome to this historic Board of Aldermen.

MOTIONS, ORDINANCES AND RESOLUTIONS.

MOTIONS, ORDINANCES AND RESOLUTIONS RESUMED.

No. 10.

By Alderman B. W. B. Brown—

AN ORDINANCE amending the Code of Ordinances of The City of New York so far as the same relates to street peddling in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. Section 347 of subdivision 8 of article 4a of chapter 7, title 2 of part 1 of the Code of Ordinances of The City of New York, as approved November 8, 1906, is hereby amended so that the same shall read as follows:

Sec. 347. Any person hawking, peddling, vending or selling merchandise in the streets of The City of New York shall be deemed to be a peddler, and shall be classified as follows: A peddler using a horse and wagon, a peddler using a pushcart, and a peddler carrying merchandise in business; but the selling of newspapers or periodicals in the street is not hereby regulated in any way.

Sec. 347a. No peddler, hawker, vendor or huckster of any kind of merchandise shall conduct or carry on in The City of New York any business as such peddler, hawker, vendor or huckster or shall barter, sell or exchange any goods, wares or merchandise of any kind in the streets of said City without a license issued in accordance with the provisions of this ordinance.

Sec. 347b. The Police Commissioner of The City of New York may, subject to the restrictions hereinafter mentioned, grant a license to any peddler, hawker, vendor or huckster of any kind of merchandise using a horse and wagon, handcart or pushcart in the streets of said City, and may at any time revoke any such license for proper cause. Said Police Commissioner shall have full and exclusive jurisdiction and control of street peddling in said City.

Sec. 347c. Applications for licenses shall be made on a blank form to be prescribed by the Police Commissioner, and shall set forth the full name of the applicant, his address, age and nationality; and such other data or information as the Police Commissioner may require shall be furnished by said applicant. All applications for licenses shall be certified to under oath by the applicant. Every license issued under the provisions of this ordinance shall be a personal license and shall not be transferable. No person shall be granted more than one license in any license year; no license shall be issued to any one under twenty-one years of age, nor to any person other than the owner of the wagon, handcart or pushcart that it is proposed to license; nor to any proprietor of a store or shop. No license shall be issued until the applicant therefor has paid a fee of ten dollars per annum in currency to such officer of the Police Department as may be designated by the Commissioner. All fees received from licenses under this ordinance shall be turned into the contingent fund of the Police Department of said City. In addition to such fee, the holder of a "restricted" license shall pay the amount of his bid at auction, as hereinafter prescribed. Every license shall expire upon August 31 of each year, unless sooner revoked. No license shall be renewed, but a new license shall be issued in each case. Applicants receiving licenses between March 1 and August 31 of any year shall pay but one-half the annual fee—namely, five dollars—and the license thus issued shall expire upon August 31; applicants receiving licenses between the 31st of August and the 1st of March next ensuing shall pay the full fee of ten dollars, and the license shall expire on August 31. The holder of a license may surrender the same at any time; if surrendered prior to March 1, one-half of the license fee—namely, five dollars—shall be refunded to him by the Police Department and a receipt obtained therefor, but no such refund shall be made for any license surrendered after March 1, or for any license that may be revoked.

Sec. 347d. Licenses shall be of three kinds—"restricted," "traveling" and "holiday" licenses. A "restricted" license is one that permits the sale of goods in the "restricted districts" only, and no holder of such a license shall barter, sell or exchange any goods, wares or merchandise of any kind in the streets of New York except within the "restricted districts" of said City, as hereinafter defined, and in the locality and position named in said license. No such license shall be issued for a horse and wagon. A "traveling" license is one that permits the sale of goods in the "unrestricted" district only, and no holder of such a license shall barter, sell or exchange any goods, wares or merchandise of any kind in the streets of New York except within the "unrestricted districts" of said City, as hereinafter defined. A "holiday" license is a temporary one, good for but two weeks, and one which permits the sale of goods in the "unrestricted" districts only. Such licenses may be issued upon receipt of a license fee of three dollars, and upon compliance with the other provisions of this ordinance, for a period of two weeks immediately preceding Christmas and the following Hebrew holy days: Hebrew New Year, Day of Atonement, Feast of Tabernacles, Passover, Feast of Purim; also the following Italian holy days: Feast of Mount Carmel, Assumption, St. Rocco and All Souls.

Sec. 347e. The "restricted districts" of The City of New York shall, for the present, consist of the entire part of the Borough of Manhattan bounded by and including Fourteenth street, Broadway, Chambers street and the East river. The "unrestricted districts" shall, for the present, consist of the remainder of The City of New York.

Sec. 347f. Within the "restricted districts," no peddler, vendor, hawker or huckster shall barter, sell or exchange any goods, wares or merchandise of any kind from any wagon, handcart or pushcart upon the streets, highways or squares of such districts, except at a point in the street adjoining the curb at least twenty-five feet distant from the corner of the curb at the intersection of two streets. No more than two peddlers, vendors, hawkers or hucksters upon the one side of each street shall ply their trade upon any one city block.

Sec. 347g. Each applicant for a "restricted" license shall be assigned a position on one side of some street within the "restricted" districts, in the following manner: Upon July 15 of each year the Police Commissioner shall cause a notice of public auction of "restricted" licenses for the year beginning September 1, to be inserted for two weeks in the CITY RECORD, and in at least one Jewish, one Italian and one Greek newspaper, and such other papers as the Mayor shall designate. A position or location on one side of each street within the "restricted districts" adjoining the curb, but not within twenty-five feet of the corner of the curb at the intersection of two streets, shall be named in each of said "restricted" licenses. But no more than two such positions or locations on one side of any street on the same block shall be so named or assigned. Each "restricted" license shall be auctioned at some convenient place within the "restricted districts," beginning on August 1 of each year, and shall be continued, as may be deemed necessary by the Police Commissioner. Each "restricted" license shall be awarded to the highest bidder therefor upon said auction, who shall pay, in addition to the annual license fee of \$10, the amount of his bid in cash forthwith, or said bid shall be declared forfeited and the license again auctioned.

Sec. 347h. Within the "unrestricted districts" no peddler, vendor, hawker or huckster shall barter, sell or exchange any goods, wares or merchandise of any kind from any wagon, handcart or pushcart upon the streets, highways or squares of such districts except at a point in the street adjoining the curb, but not within twenty-five feet of the corner of the curb at the intersection of two streets. No more than two peddlers, vendors, hawkers or hucksters shall ply their trade upon one side of each street upon any one city block. Any peddler who finds two peddlers stationed with their carts or wagons on one side of any street shall not be permitted to stop on such

street, but shall immediately proceed to another street on which there are not two peddlers.

Sec. 347i. Each license issued under the provisions of this ordinance shall contain a statement whether it is a "restricted," "traveling" or "holiday" license, the date on which it is issued and on which it expires, the amount of the fee paid for it, the name and address of the person licensed, and whether for a horse and wagon, hand-cart, or push-cart, a statement that the license is a personal one, and not transferable; if a "restricted" license, the location and street for which it is issued; and if a "traveling" license, a statement that it cannot be used in the "restricted districts." Such licenses shall be printed in English, and when issued to an Italian, Greek or Hebrew, a translation of it shall also be printed in Italian, Greek or Yiddish, respectively; each license shall contain printed prominently across it, the year for which it is issued; also a statement that it is revocable by the Police Commissioner at any time.

Sec. 347j. The police commissioner upon issuing a license shall furnish each holder thereof with two signs, one bearing the number of the license, also the year for which it is issued; the other sign in the case of a "traveling" license, shall contain the word "traveling," in the case of a "holiday" license, the word "holiday," and in the case of a "restricted" license the street and exact location for which such license is issued, thus: "North Side, Rivington Street, twenty-five feet east of Orchard Street." Such signs shall be clear and easily legible, and, so far as practicable, uniform in size, and the letters and figures thereon shall each be not less than two inches high. Such signs shall be of blue and white, or black and white enamel or may be printed on cardboard in black and white and framed. Each person securing a license under the terms of this ordinance shall present his wagon, hand-cart, or push-cart to such employee of the police department as shall be designated for this purpose by the police commissioner, and the said sign shall be affixed by him upon one end or side of said wagon, hand-cart or push-cart, where they can be readily seen. Such signs, as well as the license itself, shall be surrendered by the holder thereof upon its expiration. No person shall use any such sign or similar sign without authority. No badges shall be furnished. No extra charge shall be made for the above-mentioned signs or for any other reason. The expense of furnishing such signs and the conduct of the bureau shall be defrayed by the police commissioner out of the receipts for licenses. Each person securing a license under the terms of this ordinance shall at the same time be furnished by the police commissioner, free of charge, with a copy of this act, printed in English, and, in the case of an Italian, Greek or Hebrew, in addition, a translation of the same in Italian, Greek or Yiddish, as the case may be.

Sec. 347k. Peddlers, vendors, hawkers and hucksters shall not use any part of the sidewalk or crosswalk in conducting their business nor cast or throw any article of any kind upon the streets, nor interfere with or prevent to any degree the Street Cleaning Department from sweeping or cleaning the streets or avenues. No peddler, vendor, hawker or huckster in the streets of said City shall blow upon or use or suffer or permit to be blown upon or used, any horn or other instrument. No peddler, vendor, hawker or huckster shall cry his wares or merchandise on Sunday, nor after 9 o'clock in the night nor before 8 o'clock in the morning on any day except Saturday, nor within two hundred and fifty feet of any school, courthouse, church or hospital.

Sec. 347l. Every person who shall violate any provision of this ordinance shall be liable to a fine to be imposed by a City Magistrate of not less than five dollars nor more than fifty dollars in the discretion of the Magistrate, and shall upon conviction, forfeit any license held under this ordinance. No person shall be so punished for a first offense, but shall be cited to appear at the office of the Police Commissioner.

Sec. 347m. All outstanding licenses heretofore issued to street peddlers in The City of New York, are hereby declared void and of no effect, this provision to take effect on August first, nineteen hundred and seven.

Sec. 347n. All ordinances inconsistent with the foregoing ordinance, are hereby repealed.

Sec. 347o. This shall take effect immediately.

Old matter, underlined, being section 347; balance, new, in italic.

Which was referred to the Committee on Laws and Legislation, when appointed.

No. 11.

By the same—

AN ORDINANCE relating to public places of amusement.

(Changing section 1472 of title 2, chapter 22, Part 3, of the Greater New York Charter; amending sections 305 and 308 of the Code of Ordinances of The City of New York, adopted October 30, 1906, and approved November 8, 1906; and repealing sections 349 and 350 of said Code of Ordinances.)

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. It shall not be lawful to exhibit to the public in any building, garden or grounds, concert room or other place or room within The City of New York, any interlude, tragedy, comedy, opera, ballet, play, farce, minstrelsy or dancing, or any other entertainment of the stage, or any part or parts therein, or any equestrian, circus or dramatic performance, or any performance of jugglers, or rope dancing or acrobats, until a license for the place of such exhibition for such purpose shall have been first had and obtained, as hereinafter provided.

Sec. 2. No license shall be granted for any or all of the purposes aforesaid unless an application therefor, subscribed by the person or corporation seeking said license, shall first be made to the Police Department upon a printed form of application to be furnished by said department; which said application shall contain, plainly printed therein, the following conditions; and every license granted thereon shall be so granted upon, and shall also contain, plainly printed therein, said conditions, to wit:

First—The price of each and every ticket of admission issued by or on behalf of the licensee herein shall be plainly and legibly printed on such ticket, and no price in excess of that so designated shall be asked or accepted by or on behalf of the licensee.

Second—No ticket of admission shall be issued, sold or offered for sale by or on behalf of the licensee to any person, persons or corporation, with the knowledge or connivance of the licensee, his managers, officers, agents or employees, or with the purpose or intention that such ticket shall be resold or offered for resale at a price in excess of that designated thereon.

Third—A violation of any of the foregoing conditions by such licensee, or his agents or employees, shall subject such licensee to the revocation of this license.

Sec. 3. Except as above provided, sections 1473 to 1487, inclusive, of title 2, chapter 22, part 3, of the Greater New York Charter, shall remain in full force and effect, and the provisions of said sections shall be construed to relate to the subjects set forth in the foregoing sections of this ordinance.

Sec. 4. No theatre ticket, pass or other evidence or instrument admitting any person to a theatre, or any public place of amusement designated in section 1 of this ordinance shall be sold or offered for sale on any sidewalk or street in The City of New York, or upon any property belonging to said City.

Sec. 5. Every person violating any of the provisions of the foregoing section of this ordinance shall be liable to a penalty of \$50 for each offence, to be recovered in an action to be brought therefor in the name of The City of New York.

Sec. 6. Section 305 of article 1, title 2, chapter 7, part 1, of the Code of Ordinances of The City of New York, adopted October 30, 1906, and approved November 8, 1906, hereby is amended by striking therefrom the words "ticket speculators;" section 308 of article 2, title 2, chapter 7, part 1, of said Code of Ordinances, hereby is amended by striking therefrom the words "for each ticket speculator, \$50;" sections 349 and 350 of article 3, title 2, chapter 7, part 1, of said Code of Ordinances hereby are repealed.

Sec. 7. This ordinance shall take effect immediately.

Which was referred to the Committee on Laws and Legislation, when appointed.

No. 12.

By the same—

Whereas, In front of and around the Grand Central Depot is a regularly established hack stand known as Stand No. 20, established under section 451 of the revised Ordinances passed by the Board of Aldermen, September 28, 1897; and

Whereas, Hackmen under this ordinance may stand on the sidewalk, but not more than three feet within the curb, and Patrolmen are stationed at this point to see that this ordinance is complied with; and

Whereas, Patrolmen stationed there have found trouble in designating the space within which the said hackmen may stand, to the inconvenience of the public and to the hackmen themselves; therefore be it

Resolved, That the President of the Borough of Manhattan be and he hereby is requested to designate upon the sidewalk in front of said Stand No. 20, by a painted line, the distance within the curb within which and from which the hackmen may solicit fares.

Which was adopted.

Subsequently, on motion of Alderman B. W. B. Brown, the above vote was reconsidered, and the paper was referred to the Committee on Streets, Highways and Sewers, when appointed.

MESSAGE FROM HIS HONOR THE MAYOR.

At this point the Mayor's Secretary, Frank M. O'Brien, was escorted to the desk, where he presented the following message:

No. 13.

New York, January 6, 1908.

The foregoing statement displays the debt of the City so far as its funded and temporary debts are concerned.

To ascertain the borrowing capacity or margin for incurring further indebtedness we must take into consideration an item not shown in the foregoing statement. That item consists of obligations incurred by the City in connection with contracts entered into; the liability accruing for lands acquired in condemnation proceedings and not paid for, and the liability of the City on account of judgments in litigations not yet liquidated.

The condition of the City's finances in relation to its borrowing capacity or margin for incurring further indebtedness on October 1, 1907, was as follows:

Ten (10) per cent. of the Assessed Valuation of Real Estate for 1907..	\$624,048,060 20
Net Funded Debt (excluding County Indebtedness and Water Bonds issued since January 1, 1904).....	\$498,487,118 05

There remains at October 1, 1907, of the Proceeds of the Sale of Bonds held on the dates mentioned below the following amount which has not been apportioned and transferred to the credit of the various Accounts on account of which said Bonds were authorized to be sold:

Sale of August 12, 1907, Corporate Stock for Various Municipal Purposes	\$48 01
Sale of September 10, 1907, Corporate Stock for Various Municipal Purposes	13,237,838 18
Sale of August 12, 1907, Corporate Stock for Rapid Transit Construction	1,001,505 13
Sale of September 10, 1907, Corporate Stock for Rapid Transit Construction	2,041,275 00
Sale of September 10, 1907, Assessment Bonds.....	250,610 95

*This includes \$6,862,357.87 "Liability of Street Improvement Fund."

The foregoing estimated margin of \$36,093,123.34 of borrowing capacity furnished by the Comptroller is as of October 1, 1907, and does not include certain incomes of the Sinking Funds and redemption of debt that have accrued since then, and which furnish a further margin.

The Budget.

In my last annual message to your Honorable Board, I called attention to the desirability of segregating the various appropriation accounts in the Budget, so that, as far as possible, each separate item of expense should be clearly specified. This course has been followed to a great extent in making up the Budget for 1908, with the result that for the first time the appropriations for the City's maintenance are in a great measure self explanatory. There is, of course, room for further improvement in this direction, but, if we continue the work along these lines, it should be possible in the near future to have the entire Budget segregated in its every detail.

In spite of the most rigid economy the Budget has grown from \$130,421,505.66 for the year 1907 to \$143,572,266.17 for the year 1908. This increase of \$13,150,760.51 is due almost entirely to the increased cost of City government caused by two reasons. First: The enactment by the State Legislature of laws interfering with the local regulation of our expenditures, thus entailing upon the City every year large mandatory increases to which it must submit. Second: The constantly increasing volume of the City's business and the higher prices which it has been forced to pay for its supplies. The City cannot be accused of any extravagance in allowing these increases. It has not embarked in any unnecessary enterprises nor has it countenanced any general raise of salaries. As a matter of fact, there were many increases which, although they appeared to be fairly warranted, had to be disallowed on account of financial conditions. For example, it was found necessary to refuse the request of the Board of Education for an increase of pay for the School Teachers, although some increase for these Teachers seemed to all the members of the Board of Estimate and Apportionment to have been deserved.

The citizens of this City must bear in mind that if they demand from the municipality, schools, docks, bridges and ferries, as well as adequate fire and police protection, the public must pay for them. As long as the City continues to give the public increased facilities and improvements, the expense account of the City must continue to grow. By economizing in every direction we may keep down the amount of the

increases, but we cannot prevent incurring a greater expenditure year by year. I believe, however, that if all mandatory legislation were done away with and the City were left to manage its own affairs without the State forcing it to pay large sums every year over which it has no control, it could keep its annual increases down to a very much smaller figure than at present. This is a matter which has received the earnest attention of the Charter Revision Commission, and if their recommendations in this regard are to be finally accepted, we may look for great improvement in this direction in the near future. There are other plans under contemplation which, in my opinion, will work great financial benefit to the City such as new methods in the collection of taxes, the equalization of salaries and the adoption of an improved system of keeping and stating the City accounts. To these matters, however, I shall refer in detail later in this message.

Financial Methods of the City. Advisory Commission.

In my message to the Board of Aldermen on January 2, 1905, I pointed out certain defects in the financial methods of the City, and stated that I proposed to appoint a commission to recommend remedies. In the following February I appointed such a commission, and directed their attention to what I considered the most important subjects for investigation as follows:

"Methods of collecting and enforcing the payment of taxes for The City of New York, bearing in mind the ever increasing amount of uncollected personal taxes, and the difficulty of properly conducting the finances of the City, with the product of the tax levy each year falling further and further behind the total appropriations.

"The relation of the City debt, present and future, to the constitutional limit of indebtedness, bearing in mind the probable needs of the City in the way of future permanent improvements.

"The reorganization of the City's method of keeping and stating accounts"

In the month of December following their appointment the Commission made a report concerning the deficiency caused by arrears of uncollectible taxes and as to the propriety of a change of the time of collecting taxes. In the report the Commission set forth that the provision for the annual deficiency in the product of taxes was inadequate, and that the annual deficiency exceeded the amount inserted in the tax levy by about three million dollars a year. The Commission estimated that on October 1, 1905, the deficiency due to uncollectible taxes in excess of all provisions theretofore made was nearly thirty-four million dollars. The Commission recommended two bills: First, authorizing an issue of Corporate Stock equal to so much of the deficiency on the first day of January, 1905, in the product of the taxes theretofore levied, and deemed by the Board of Estimate and Apportionment to be uncollectible, as had not been provided for in prior tax levies or by prior issues of Corporate Stock. Second, a bill amending the Charter, providing that the Board of Estimate and Apportionment shall annually insert in the Budget an amount equal to the deficiency on the preceding first day of January in the product of taxes theretofore levied and deemed by the Board to be uncollectible, as shall not have been provided for in prior tax levies or by the issue of Corporate Stock.

These two bills were enacted by the Legislature of 1906, and since that date deficiencies arising subsequently to January 1, 1905, have been provided for in the Budgets of 1907 and 1908, and will annually be provided for hereafter.

Corporate Stock to the amount of three million dollars has been sold on account of the issue authorized by the Board of Estimate and Apportionment to provide for the deficiency of thirty-six millions, the amount deemed by the Board to be uncollectible on January 1, 1905. The depleted state of the City's treasury was in large part due to the deficiency on account of uncollectible taxes. When financial conditions are such that the remainder of the Corporate Stock authorized for the purpose can be issued, the City will have a fund of thirty-six million dollars for current expenses, in excess of its available resources in 1905.

The Propriety of a Change in the Time of Collecting Taxes.

In considering a change in the time for collecting taxes, the Commission had before it several plans, which had previously been presented. One plan was contained in a bill, disapproved by Mayor Low in 1903. By another plan provision was made for advancing the date one month annually for twelve years, so that at the end of the twelve years the City would have on hand on October 1 nearly a full year's taxes, and the necessity for borrowing on short time revenue bonds would no longer exist. A third plan was contained in a bill, which failed of passage by the Legislature of 1905, designed to permit the payment of taxes on January 1 based on the assessment roll of the preceding year, and to effect this the same assessment roll was to be used for two years. All of these plans involved the change of dates long established for the various operations of the Tax and Finance Departments, a course which could only be justified by the highest considerations of necessity.

The Commission, however, did not deem it necessary to discuss the merits of these particular plans, for the reason that, after careful consideration of the whole subject, it was convinced that it is not desirable to change the present method of providing current funds for the City's needs. Even if the conclusions of the Commission should not prevail, it would be quite unnecessary to resort to a method so disorganizing to the City's affairs as that of changing the financial calendar. By the plan of advancing the date for the payment of taxes by one month annually for twelve years, taxpayers would pay a full year's taxes every eleven months, which is equivalent to an excess of one-twelfth of a year's taxes annually. The same result could be reached by a much simpler method, that is, by adding one-twelfth to the amount of the Budget annually for twelve years, until the City had on hand a sufficient sum of money to avoid the necessity for borrowing in anticipation of the collection of taxes.

In their consideration of this subject the Commission said:

"Those who object to this method of financing the City contend that it is wasteful and costly for the City to live on borrowed money for its current needs, because of

the amount of interest that has to be paid, which is a charge upon the taxpayers. It is, moreover, often assumed that this condition is the result of carelessness and extravagance in past years, and not of any carefully planned system. The fact is, however, that this method was adopted after due consideration for what your Committee believes to be good and sufficient reasons. Under the present method there is not at any time in the City Treasury a sum of money in excess of the balance which the City should have on hand, whereas under any plan which would obviate the necessity for borrowing there would be large sums in the City Treasury far in excess of its necessities. Upon such large sums the City could not obtain a high rate of interest. Ordinarily it receives 2 per cent. upon its deposits in city banks and trust companies. While the City has been fortunate in having men of thorough integrity and great ability at the head of the Finance Department, the Committee does not deem that it is wise to count too confidently upon there never being an exception to that condition, and put upon the Comptroller and Chamberlain the burden of caring for larger sums of money at any time than is necessary. Indeed, the Comptroller and Chamberlain would have difficulty in properly placing fifty millions of dollars or more which they might have on hand in case the City were relieved of the necessity of borrowing for current needs. It is clear that the burden of caring for so large a sum would be onerous, and the temptation to grant favors by the disposition of deposits would be severe.

"The Committee has fairly faced the only argument advanced, which is that if the City were not obliged to borrow, the sum now paid as interest would be saved to taxpayers. This argument appears to be without merit. The only source from which the City can obtain current moneys is the payment of taxes. If taxpayers provide a sum sufficiently large to obviate the necessity for borrowing, the taxpayers lose the use of the money so advanced, which presumably in any state of the money market is worth more to taxpayers than the interest which the City could obtain for deposits in banks and trust companies. Thus under ordinary circumstances the City pays for loans 3 per cent. or $3\frac{1}{2}$ per cent., and obtains 2 per cent. upon its deposits. Under such conditions the money is certainly worth more to the taxpayers, as a rule, and the 3 per cent. or $3\frac{1}{2}$ per cent. which the City is obliged to pay. If, on the other hand, the conditions of the money market are such that the City is obliged to pay the highest rate of interest, under these conditions again the money is worth more to the taxpayers, for such use as they can make of it, than the sum the City has to pay in interest."

The real reason for the urgent demands during the last few years for a change in the date for the collection of taxes is the large deficiency in the collection of taxes. As I have already pointed out, the past deficiencies due to uncollectible taxes have been provided for by the authorization of an issue of Corporate Stock, and current deficiencies are provided for annually in the Budget. A further deficiency in the current funds of the City is due to the inability of the City to enforce the prompt payment of taxes on real estate. The existing remedy for the collection of taxes on real estate by the sale of leases is so ineffective, that it has been resorted to but six times in thirty-two years. The Commission has recently presented a report on the collection of taxes.

Collection of Taxes.

The City has suffered greatly in the past through its inability to collect arrears of taxes on real property, due to the lack of an effective statute under which clear title may be passed eventually upon a tax sale.

The report of the Commission is accompanied by a proposed amendment to the Charter, which I am satisfied will result in the City being able to collect all taxes on real estate which are in arrears, more than three years, the period now allowed by law before proceedings can be taken to enforce collection. The method of collection proposed is lenient to the taxpayer, but effective as a remedy for the City, and also has the merit of the Pennsylvania system, by which defects in titles to real property can be cured. The reasonably prompt collection of real estate taxes will add to the City's current resources over five million dollars.

A further cause for the inadequacy of the City's current funds is due to the large sum of special franchise taxes in arrears. So far as these special franchise taxes are not involved in litigation, they can be collected by the new method planned for the collection of taxes on ordinary real estate. A large part of the arrears of special franchise taxes, however, is due to the litigation still pending to determine the amount due. Over this litigation the City has no control, except by the courtesy of the Court, as the duty is imposed upon the Attorney General of the State, and not upon the officers of the City. When the questions of law, involved in special franchise taxation, are finally determined, this occasion for delay in payment will no longer exist and in most cases payment can be enforced.

From this explanation, it appears that the ordinary current resources of the City may be increased by appropriate legislation and effective administration, by a sum probably exceeding forty-five million dollars. With this addition to the City's current resources, the apparent reason for a change of the date for the payment of taxes will in large part disappear.

The Constitutional Limit of Indebtedness.

In submitting to the Commission for their consideration the question of the City debt in its relation to the constitutional limit of indebtedness, I desired to have made a careful study of the further needs of the City, for which provision could only be made by increasing the City's debt. For a number of years it has been proposed that some change should be made in the constitutional limitation which would authorize debts to be incurred in excess of ten per cent. of the assessed value of real estate for the purchase of productive property. The Commission submitted a report in April last in which after careful consideration of the future needs of the City, and the

amount of indebtedness which can probably be incurred during the next five years, the Commission said:

"The chief purpose of this constitutional provision is to prevent cities from imposing too great a burden of debt upon their taxpayers, present and future. What constitutes the burden of debt? Solely the interest charge, and in the case of anticipated debt liquidation, a certain small additional charge for amortization. Now, if a public improvement be self-supporting or profitable, there is no burden upon the taxpayers, and the necessity for this constitutional restriction falls. The danger to be avoided, in the judgment of your Commission, is the possibility of a public work, in its inception profitable, becoming subsequently unprofitable—and this not so much by natural causes as by legislation enacted in deference to a supposed public demand.

* * * * *

"Your Commission, therefore, has deemed it the part of wisdom to prepare a conservative plan for a proposed constitutional amendment which, while exempting from the terms of the constitutional limitation bonds issued for self-supporting enterprises, would at the same time provide a nearly automatic scheme by which, should such an enterprise ever becoming self-supporting, the bonds issued to defray its cost would immediately be counted in estimating the City's indebtedness."

The Commission, therefore, recommended an amendment to the constitution which would permit debt incurred for productive property to be excluded from the debt limited by the constitution when the Board of Estimate and Apportionment should obtain the consent of the Appellate Division of the Supreme Court, upon proof that the return to the City from such property had been in excess of the interest upon such debt. Such determination of the Appellate Division would be effectual for no more than five years, when the application must be renewed. Provision is made for notice to the Governor, Attorney General, the Mayor and taxpayers generally who may appear and be heard in the proceeding.

As to the advisability of such an amendment I entertain grave doubt. Theoretically, I admit, it is attractive. From a practical standpoint, however, it may be found dangerous and ill-advised. The possibility of extending the present constitutional debt limit might tempt the City into enterprises which in the end would result in shaking its financial stability, encouraging extravagance and injuring the value of its outstanding securities. My only reason for calling attention to this subject at the present time is that I feel it should receive the most careful consideration and the fullest discussion before any definite action is taken in the matter.

The City Accounts.

In April last the Commission made a report in regard to the methods of keeping and stating the City accounts, and I believe that the suggestions contained in this report will prove of value to the City. In fact, the Charter Revision Commission in their report, which was filed with the Governor, quoted extensively from this report of the Advisory Commission and specifically concurred in its conclusions and recommendations.

Refunding Bonds.

The Charter provides that Corporate Stock of the City must be made redeemable in not less than ten nor more than fifty years, and a sinking fund must be provided for its redemption at maturity. When interest rates are high, as during the past year, there is no alternative but to bind the City to a high rate of interest for the entire period the Corporate Stock is made to run. The Charter should be so amended that the Commissioners of the Sinking Fund might in their discretion issue Corporate Stock redeemable at the option of the City after a brief period of from one to five years, and payable in any event in ten to fifty years. With this power and the power to issue Refunding Bonds, already contained in the Charter, Corporate Stock issued under conditions requiring a high rate of interest could be made redeemable at the option of the City at an early date and the debt could be refunded later at a lower rate of interest. It is evident that Corporate Stock redeemable at the option of the City would not sell at as high a price as though the redemption clause were omitted, but it may often be the case that an additional half per cent. of interest paid for two or three years will save the City more than one-half per cent. annually for the remainder of the term of fifty years.

I have caused such an amendment to the Charter to be prepared and it will be submitted to the Legislature.

The Commission on Salaries and Grades.

This Commission was appointed as the result of my message sent to your Honorable Board on the 29th of May, 1906, in which I discussed the apparent inadequacy of the classification of the Civil Service in the various departments, evidenced by the numerous applications made to the Board of Estimate and Apportionment for the creation of new positions and the establishment of additional grades of existing positions, and in which I recommended a permanent and more systematic classification of such grades.

On January 11, 1907, the Board of Estimate and Apportionment directed the Commission to develop a general classification of titles and grades in accordance with recommendations contained in a report made by the Commission and submitted to the said Board September 14, 1906, applicable, as far as possible, to the requirements of the entire service.

In the several reports submitted, the Commission outlined a classification for certain schedules, including one relating to the entire clerical service of the City, which has since been adopted by the Municipal Civil Service Commission and approved by the State Civil Service Board.

As the result of such reports the Board of Estimate and Apportionment, on the 13th day of December, 1907, passed certain resolutions recommending the adoption by your Honorable Board of the schedules of positions and grades in

The "Clerical Service,"

The "Engineering Service,"

The "Inspection Service,"
The "Attendance Service,"
The "Ferry Service,"
The "Prison Service," and
The "Medical Service"

of The City of New York. It has not as yet acted upon the schedules relating to the Hospital, Steamboat and Laboratory Service and to positions of a "special" character.

The City of New York has long suffered from the lack of uniformity in the grades and positions in its various departments. Such a condition has bred extravagance and confusion, to say nothing of injustice to those employees who have suffered in comparison with others more highly paid for the same service. The adoption of these proposed schedules by your Board will result not only in ultimately saving the City a large sum of money by limiting the amount of annual increases that are now made without the consent of the Board of Estimate and Apportionment, but for the first time will give the City a systematic and comprehensive classification of its civil service. It will also eliminate the existing necessity for continual application by the departments to the Board of Estimate and Apportionment and the Board of Aldermen for the establishment of new grades in the clerical service. Future applications will be limited to special positions and grades.

The work of this Commission will not be entirely completed with the adoption of these recommendations, for there remain several other schedules to be adjusted, such as those relating to "mandatory" positions and the prevailing rate of wages. These recommendations, however, will be taken up at the first opportunity.

In this connection it is satisfactory to note that the Civil Service Commission of Chicago and the United States Commission have requested copies of these reports, and have, I understand, given careful consideration to the plans suggested by our Commission. Its recommendations have also received the indorsement of the Civil Service Reform Association.

Charter Revision.

A year ago, in my message to your Honorable Board, I called attention to the urgent need of Charter revision, and stated that I intended to appoint a local commission to undertake this task at the earliest possible moment. Shortly after I made this recommendation, however, a bill was introduced in the State Legislature authorizing the appointment of a commission for this purpose by the Governor. This bill was subsequently passed by the Legislature, and although disapproved by the City, became a law with the approval of the Governor. My only reason for rejecting this measure on behalf of the City was my belief that such a revision should be initiated by the City itself rather than by the State. After this law had been finally passed, however, I considered it my duty to co-operate in every way with the work of this Commission, and therefore requested all City departments to aid the undertaking in every manner possible. Their preliminary report, which was filed with the Governor on December 1, and in which, as an ex-officio member of that Commission, I heartily concurred, justified the efforts of the City officials toward this end. If the new Commission, which, I trust, will be authorized by the Legislature to complete this work, carries on the revision along the lines suggested in this report, the City will soon acquire a Charter under which it will obtain a far more effective and comprehensive system of government than that which it possesses at present.

During the past two years I have appointed from time to time various commissions to consider the advisability of concentrating the powers of several departments exercising similar yet conflicting jurisdictions under one central control. Among others I have named a street control commission and a hospital commission. The appointment of the Charter Revision Commission has, of course, made the work of these various bodies one of supererogation. I am glad to say, however, that my ideas on those subjects have been adopted by the Charter Revision Commission, and that they have unanimously recommended, among other things, the creation of a department of street control.

In case a new commission is to be appointed, however, I have suggested to the Governor that the Mayor, in view of his other duties, and also in view of the fact that he will be obliged in his capacity as chief executive of the City to pass eventually upon any Charter revision which may be enacted by the Legislature, should not be named as an ex-officio member of such Board. In his place I have recommended that the President of the Board of Aldermen be appointed as a member of the Commission. To this suggestion the Governor has given his approval.

Fifth Avenue Widening.

The time has now arrived, in my judgment, for the municipal authorities to proceed in the matter of the Fifth avenue widening. By such widening I mean the removal of all obstructions and encroachments beyond the building line, the curtailment of the outer line of the sidewalks by about seven and one-half feet on either side of the avenue, and the consequent enlargement of the roadway by about fifteen feet.

During the past few years several cases have been prosecuted in the courts for the purpose of testing the City's right to demand the removal of these encroachments. The decisions of the courts, the last of which was handed down in the past few months, have uniformly upheld the contention of the City that all obstructions beyond the building line are illegal, and the way is therefore now open for the authorities to compel the removal of these encroachments. I have accordingly instructed the Corporation Counsel to have prepared the necessary surveys and maps showing all the encroachments beyond the building line on either side of Fifth avenue from Twenty-third street north as far as the present congestion of traffic exists. The less crowded portions of the avenue can be dealt with later. As soon as these maps are prepared, the Corporation Counsel will send out notices to all property owners who are shown to be maintaining encroachments beyond the building line, ordering them to have such obstructions removed. In case any property owner refuses to comply

with this request, the City will immediately institute proceedings to compel such action through the courts. On the other hand, to those property owners who will consent to remove their encroachments without forcing the City into litigation, the utmost consideration will be shown and they will be given ample time, probably a year, in which to make such removals. I recognize that it would be an injustice to innocent trespassers who are ready and willing to remove their encroachments as soon as the City is ready to actually proceed with the physical widening of the avenue to force them into such action before the improvement can be made because of litigation on the part of others. If this improvement is to be made, it must in all fairness involve the removal of every encroachment, and it cannot proceed until the City is ready to move in every case.

The New York Chapter of the American Institute of Architects has appointed a committee to consider the question as to how far cornices or other ornamental work in the upper stories of the buildings should be allowed in order to preserve the architectural effect. This committee has made a report as to what in their views would be sufficient for the purpose without interfering with the use of the sidewalks. The congestion at Fifth avenue and Forty-second street is so great, in view of the large traffic across town at that point, that it would seem necessary to meet the situation by lowering the level of a part of Forty-second street so that the east and west traffic will pass under Fifth avenue, leaving the north and south traffic on Fifth avenue unimpeded. This matter could be taken up as part of the work to be done at the time of the widening of Fifth avenue.

Congestion in Downtown Streets.

In last year's message reference was made to the concentration of large office buildings on Manhattan Island and the effect of these structures upon the rapid runoff of storm water and the consequent overtaxing of the sewers.

The tendency to concentrate large numbers in such buildings during the working hours is not abating, but is still more marked, and involves problems even more serious than those already noted. It is said that two office buildings in one small block in lower Broadway will accommodate fourteen thousand people, while on adjacent blocks are two great buildings which will contain nearly as many more. This army of working men and women will arrive in the morning and leave at night within a very brief space of time, and the congestion in the streets as they go to and from the different transportation lines will present a very serious problem. It would appear that any additions to our transit facilities that do not take into account the relief of this congestion will not be thoroughly effective; in other words, the transportation problem of each section of the City must be worked out in its relation to that portion of the traffic which will begin or end in the office district of the Borough of Manhattan.

Automobiles.

There is no general ordinance in existence at the present time which specifically applies to the licensing of public automobiles. Under an order of the Supreme Court the Bureau of Licenses is now issuing licenses to such vehicles under the general ordinance relating to public hacks and cabs. This ordinance, however, was never intended, in my opinion, to apply to automobiles and fails to regulate their charges in proper fashion. I recommend, therefore, the adoption of an ordinance which will apply directly to these vehicles. At the same time I believe that some provision should be made for licensing all sight-seeing automobiles which, at present, pay no fee whatsoever to the City.

In this connection I also desire to call your attention to the necessity of preventing the use of sirens upon all automobiles other than those of the Fire Department within the City limits. The siren has been adopted as the particular signal of the approach of the apparatus and officials of the Fire Department, and its indiscriminate use by others results in confusion of traffic, which necessarily detracts from the value of such signal to the Fire Department. I have caused such an ordinance to be prepared for introduction in your Board, and trust that it will receive your favorable consideration.

I think it also most important that the following regulations should be adopted in regard to the use of all automobiles, both public and private, within the City:

First—That all automobiles should be equipped with adequate mufflers, which never should be cut out within the limits of the built-up portions of the City.

Second—That, except for the first ten seconds after starting the engines of an automobile, no smoke should be allowed to come out of the exhaust pipe. It is wholly unnecessary and is simply an evidence of carelessness and incompetence.

Third—That the use of acetylene headlights within the built-up portions of the City should be prohibited. The use of these lights is very dangerous and has resulted in causing many accidents by dazzling pedestrians and drivers of vehicles coming in the opposite direction. These lights are unnecessary on the City street, and I understand that responsible drivers, of their own volition, refuse to use them.

Better Sewers.

Repeated requests for large issues of Corporate Stock to meet the cost of constructing relief sewers at the expense of the City at large have emphasized the necessity for greater care and more thorough study in the preparation of sewerage plans. The policy of building such relief sewers at the general public expense is calculated to set a premium upon ill-considered design and cheap construction, with a saving to the property owner in first cost, but with incalculable damage to private property through inadequate drainage when the territory shall have become thickly settled, and immense expense to the general public to remedy defects in the sewerage system.

The Board of Estimate and Apportionment has accordingly appointed a special Consulting Engineer on sewerage plans, whose services and advice are at the disposal of the Borough Presidents and the engineering staff of the Board, and it is hoped that more intelligent and comprehensive drainage plans will result. Meanwhile it would

seem only just that at least a part of the cost of providing the relief sewers now needed should be assessed upon the property benefited.

Streets, Pavements, Roadways—The International Congress at Paris.

Among the many difficult problems of municipal government, there is none, to my mind, of greater importance than that of the proper maintenance of streets, roadways, parkways and pavements. In a city so largely given over to traffic as ours, the solution of this question is not easy. I question if any municipality in the world has spent more money or given more study to the street problem than New York. In spite of this, and the energy and unselfish assistance of civic bodies like the Merchants' Association, in independently grappling with problems, the solution of which properly belongs to City officials, results have been far from satisfactory. The failure of contractors to live up to their obligations in repairing and replacing surfaces, the neglect of City officials entrusted with the supervision of their work to compel them to live up to the letter of their contracts, the necessary tearing up of roadways for subsurface improvements, and the great increase in heavy trucking, have all combined to bring about conditions with which I am not surprised to find the great body of our citizens discontented.

Under the energetic administration of the new Commissioner of Public Works, Mr. Thompson, many of the evils which brought about these deplorable conditions have disappeared, and steady improvement is noticeable. Nevertheless, we are far from where we should be in matters of street administration, and it is with great pleasure that I inform your Honorable Board that the Chief Executive of the greatest of the old cities, the Prefect of the Seine, recently informed Mr. Collin M. Ingersoll, Chief Engineer of the Department of Bridges, who went to Paris at my request to study materials and methods employed there in roadways and pavements, of the intention of the French Government to call an international congress during the present year for a discussion of this important subject.

In my judgment, the calling of such a congress would present an opportunity for an exchange of views on the many difficult problems of municipal government. Each of the great cities of the world has its history of such problems, solved and unsolved. Some have succeeded where others have failed, and an exchange of ideas between representatives of the great cities of the world would, in my opinion, result in incalculable benefit to all. In some respects we are fortunate enough to lead the other cities of the world, but in many we are behind, and we are certain to profit ourselves as well as to contribute our share toward the general fund of information based on actual experience in municipal government, by being represented at such a congress.

I accordingly addressed a letter to the Prefect of the Seine urging that the congress be not confined to the discussion of roadways and pavements, but that its scope be increased so as to take in all problems of municipal government. Unfortunately, while this letter was on the ocean, cable dispatches brought the news that the French Government had already called the congress and confined its work to the original purpose communicated to Mr. Ingersoll by the Prefect of the Seine. I assume that it is now too late to make the congress a general one, but sincerely hope that next year an International Congress of this kind may be arranged in some city, either here or in Europe.

Mr. Ingersoll's visit to Paris was brief, but owing to the courtesy of the State Department, the American Ambassador and the Prefect of the Seine, he was enabled to make observations which will be of great benefit to us.

The City of Paris is largely using wood block pavement, laid on a concrete base. The blocks are made from the native woods of France, treated in an inexpensive manner. The municipality has its own plant for the manufacture and treatment of the wood blocks and for redressing blocks which are used in pavement repairs. The methods there in use, if employed here, would permit of wide competition for contracts to lay wood block pavements, as against the present time limited competition, confined practically to owners of patented processes. The wood block pavements, notwithstanding the heavy traffic of Paris, last six or seven years, are easily repaired, and practically noiseless.

The serious question of the maintenance of macadam parkways is receiving consideration abroad, as here, on account of the wear by automobiles which, taking their power from the road, destroy the roadway surface much quicker than in the case of ordinary vehicular traffic. To counteract this effect, experiments are being made abroad with a tar covering for macadam roadways. These experiments have been very successful. The tar covering is not expensive, and is applied by means of tank machines drawn by horses. It forms a thin coat of binding material on the roadway surface which resists for some time the wear due to automobile traffic, is free from dust, and effects a saving in cost of maintenance, as the roadway so coated does not require to be frequently watered. Several of the roadways in the Bois are treated by this method and the artistic effect of the parkways is not marred.

As the use of automobiles for heavy trucking is becoming extensive, the time has arrived when the City should define the maximum limit of size and weight of machines which may be used on its streets, and the character of tires with which machines shall be equipped.

In the city of Paris the weight of many automobile trucks now exceeds the weight of vehicles properly allowable even on stone pavements. The operation of these heavy machines is there restricted to certain fixed localities and the company operating them is required to pay for pavement repairs.

Transit, Bridges, Etc.

The legislation providing for a Public Service Commission, passed at the last session, which Commission has since been appointed by the Governor of the State and is now in active operation, has practically taken from the local authorities the control of transit facilities. The work of this Commission is well known to your Honorable Board and needs no comment from me. The local authorities, however, are directly responsible for transportation in so far as it relates to the operation of

the City's bridges, and it is my desire to bring to your attention what has been done during the year to improve conditions on the Brooklyn and Williamsburg bridges. The temporary extension of the Manhattan terminal of the Brooklyn Bridge across Park row will soon be completed. This will provide facilities for elevated railway traffic during the reconstruction of the main station and will permit the operation of six-car instead of five-car trains all day, doing away with the necessity of making passengers change at the Brooklyn terminal.

That through passengers may have the maximum service on the bridge elevated trains arrangements have been made to take the local traffic on surface cars crossing the bridge, and work is now in progress on the construction of the necessary loops through the ground floor of the Brooklyn station, which will permit the removal of the local service from the elevated to the surface tracks. A new line of surface cars will be operated exclusively for this local traffic from one terminal of the bridge to the other.

One obstacle to the speedy operation of surface cars over the bridge has been the congestion existing at the entrance and exit to the bridge at Sands street, Brooklyn. To remedy this congestion a steel viaduct is being built which will allow all surface cars entering or leaving the bridge to pass over Sands street along the outside of the Brooklyn station, thus separating the car traffic without grade crossings. This improvement will add very materially to the surface car capacity of the bridge.

To permit the maximum operation of elevated trains, an efficient system of block signals is being installed. In anticipation of the connection of the bridge railroad with the subway loop to the Williamsburg Bridge, which is now under construction, various improvements are in progress with a view to the construction of a new station in Manhattan which will provide for the adequate necessities of all classes of traffic. The roadways on the Manhattan approach are being widened in connection with this improvement.

The space required at the Manhattan terminal of the Brooklyn Bridge for subway and underground station purposes is also available for a municipal office building. Such a building will facilitate business between City Departments and will greatly reduce the cost of office space.

The trolley car service over the Williamsburg Bridge has been increased about 7 per cent. over last year. The work of constructing a subway station at the Manhattan end of the bridge is drawing to a close. This station will provide, by a series of eight loops, for the trolley cars and will also provide for the operation of the elevated trains. The construction is such that a connection can easily be made with the subway now being built through Delancey street, affording through traffic when the subway is finished.

Work on several other contracts to provide for the operation of elevated trains and surface cars across the bridge and into this station is progressing. This work has involved not only the construction of the subway station before mentioned, but also the alteration of the Manhattan steel viaduct and masonry approach, and the construction of an elevated railway connection on the Brooklyn plaza, which is practically finished.

When all improvements are completed, in addition to the four tracks now used for surface car traffic there will be two more tracks used by elevated railway trains, operating from Brooklyn. These tracks may also be used by subway trains operated from Manhattan into Brooklyn.

The work on the Manhattan Bridge is progressing rapidly, and there is every reason to believe that it will be completed within contract time.

The construction of the steel superstructure of the Blackwell's Island Bridge is nearing completion, and it is expected that the spans will meet by the 1st of June. Contracts have been let for the construction of the approaches on the Queens and Manhattan sides, and the construction of these approaches is being vigorously pushed.

This bridge when completed will have six railway tracks ready for the operation of subway and elevated trains and surface cars, and will have space available for two additional tracks.

On the Manhattan side a subway station is being constructed which will provide a station for trolley cars crossing the bridge from Queens, and which may be used in conjunction with future subway connections.

The design for the proposed Hendrick Hudson Memorial Bridge has been approved by the Art Commission. The bridge as planned is to be a reinforced concrete structure consisting of a main central span 703 feet in the clear over the Harlem river, with a clear height of 183 feet, flanked with two approaches, the southern approach consisting of three 100-foot clear spans, and four 100-foot clear spans for the northern approach, together with stairway facilities to adjacent lands.

It affords a 50-foot roadway, with two 15-foot sidewalks on its upper deck, and provisions for four subway tracks below the roadway floor. The piers of the main span and of the approach spans will be faced with natural stone. The total length of the structure will be about 2,845 feet.

The main span has more than twice the length of any other masonry arch ever constructed.

Water Supply.

The Aqueduct Commission.

At my request the Secretary of the Aqueduct Commission has furnished me with a statement of the running expenses of the Commission during the year 1906, which is approximately the same, if not a trifle lower, than the running expenses for 1907. The Chief Engineer has furnished me with a report showing the percentage of work on the Jerome Park Reservoir, the Cross River Reservoir and the Croton Falls Reservoir, the only work the Commission now has under way. I have also been furnished with a statement of the percentage of time expired on these contracts. The Cross River Reservoir is practically completed, 96 per cent. of the work being done in November, 1907. The contract time expired in September, 1907. The contract time on the Jerome

Park Reservoir expired long ago, and but 50 per cent. of the work has been done. This is due in a measure to the suspension of work, pending the decision of the City to use the easterly basin for a filtration plant. Forty-four per cent. of the contract time on the Croton Falls Reservoir has expired and but 17 per cent. of the work has been completed. With the exception of the work on this latter reservoir, which is woefully behind, the Aqueduct Commission has practically nothing to do, as there seems little doubt that the easterly basin of the Jerome Park Reservoir will be used in time for purposes of filtration.

The running expenses of the Aqueduct Commission during 1906 were \$308,290.93, of which \$274,531.92 was for salaries. The expense of this Commission is so vastly out of proportion to the work it has on hand that its abolition at any time would seem to me advisable. At the present time, when general financial conditions make every effort at economy in administration necessary, the abolition of this Commission is, in my opinion, a duty. It is not my intention to reflect on the Commissioners or their engineers. The great works they undertook are, with the exception of one reservoir, practically completed, and the time has come, in my opinion, to merge their functions with those of the Commissioner of Water Supply, Gas and Electricity, the latter to take into his Department such of the engineers of the Commission as are necessary for the proper completion of the work under way. In this way a great saving of public money will be accomplished and the balance of the work pushed to early completion. It is my intention to ask for legislation to this end during the present session of the Legislature.

Department of Water Supply, Gas and Electricity.

It is most gratifying to me to be able to inform your Honorable Board that all of the mains for the high pressure fire service have been laid and are now filled with water. This work, which gives the lower part of our city the best fire protection in the world, has been completed five months inside of the time allowed by the contract. It has been a matter of great regret to the Commissioner of Water Supply and to me that the pushing of this work necessitated so general a tearing up of streets along its route, working hardship on many. The benefits to accrue to all from the installation of the system, however, certainly more than compensates for the discomforts and inconveniences suffered during its building.

The pumping stations are completed and practical operation is only halted by an unavoidable delay in the installation of the electrical pumps and the delivery of power thereto by the Edison Company, with which a contract has been made. As soon as the success of this system is established by actual operation, the Department is prepared to extend it throughout the lower east side of Manhattan.

Plans are ready for the filtration of the Croton water supply. Sanitary and engineering authorities are agreed that filtration is an ultimate necessity. By making use of the east basin of the Jerome Park Reservoir, the cost of a plant to purify the four hundred million gallons a day can be kept to \$8,500,000. The cost of operation is estimated at \$2.50 a million gallons. As soon as the City can prudently assume the financing of this project, I believe it should be done. In spite of constant vigilance, the protection of a watershed of 360 square miles is annually becoming more difficult, expensive and uncertain. The only real safety lies in filtration.

In its efforts to safeguard the watershed the City has negotiated with Mount Kisco on a plan for the disposal of its sewage, which was adopted by a vote of the people of Mount Kisco at the special election last fall. Mount Kisco is to put in a new sewage system at its own expense and The City of New York is to provide the sewage disposal plant, at an estimated cost of \$200,000. By this arrangement a conspicuous menace to our water supply and a demonstrated source of communicable diseases will be eliminated.

Contracts made by the City during the year insure an increased supply directly into the distribution mains of the Borough of Brooklyn, sufficient to guarantee us against a water famine until the new 72-inch main to Massapequa has been completed. This aqueduct now extends to Clear Stream, and during this year will be carried far enough to make serviceable much of the storage waters of Nassau County, for which the existing conduits have not sufficient capacity. It will give us access to the products of the infiltration galleries at Massapequa. New pumps and a new station are in course of construction at Ridgewood to handle the increased supply.

Arrangements have also been made for a larger supply in Queens Borough. Among the measures awaiting financial help is one to filter Oakland Lake, which is the property of the City, and make its waters available for use. As an emergency measure for Long Island City, the Water Department has prepared plans for a 24-inch main, either across Blackwell's Island Bridge or under the East river, to connect the 48-inch Croton main in First avenue, Manhattan, with Long Island City. Whenever the Croton supply could spare the water, or when it might be wanted for fire purposes, five million gallons daily could be delivered in Long Island City.

By amending an inoperative contract, a supply of three to ten million gallons a day has been provided for Staten Island from New Jersey. This will be ready for delivery in August. Meantime, the City has taken the Staten Island and Crystal Water Companies, which, in addition to their local source of supply, owned most of the distribution mains on the island. This amply provides for Staten Island for years to come.

Under an agreement between the City and the Kings County Lighting Company the 4,500 open-flame 16 candle-power gas lamps in Brooklyn are being displaced by mantle lamps of 60 candle-power, and before the end of this month the last open-flame lamp will have disappeared from New York. Extensions of the gas and electric lighting system in all the boroughs have kept pace with our growth, preserving to New York its prestige as the best lighted city in the world.

Board of Water Supply.

During the year maps for the acquisition of some 11,637 acres of land have been prepared and approved by the Board of Water Supply and by the Board of Estimate

and Apportionment. These maps are separated into twenty-two sections and include 1,314 parcels of land. Eleven sections show land to be acquired for the Ashokan Reservoir, including dams and the reservoir basin. Three sections indicate land to be acquired for the aqueduct from the Ashokan Reservoir at Olive Bridge to the Orange County line. Six sections are for land for the Kensico Reservoir, including the dam at Valhalla, and two sections for the Hill View Reservoir at Yonkers. Commissioners of Appraisal in condemnation proceedings are sitting in Ulster and in Westchester and Putnam Counties. Maps covering 2,530 acres divided into 171 parcels and three sections for land in Ulster County for the Ashokan Reservoir have also been prepared.

Measures were taken early in 1907 to induce owners of property to sell direct to the City, so as to save such owners the expense of employing attorneys or agents, and the City the expense of condemnation proceedings. Some property has been acquired by private purchase, with the approval of the Board of Estimate and Apportionment, and at prices low enough to fix favorable standards of value for condemnation proceedings. A department was organized to handle this business, and also the adjustment of claims. Claims of various kinds have been received, and a number have been adjusted and settled.

The work on the aqueduct line between Cold Spring and Hunters Brook, which has been proceeding under contract let on March 27, 1907, has progressed favorably. A large amount of work has been done in preparing designs, contract drawings and specifications for the various contracts, let and to be let. It is estimated that about \$20,000,000 worth of work is practically ready for contract. This includes the Rondout and Wallkill siphons and the dam at Kensico. Investigations and studies have progressed to a point where contracts for nearly all the work necessary for the delivery of water to the Croton Water Shed can be prepared and advertised during this year.

Docks and Ferries.

The work on the piers in the Chelsea section, with the exception of the construction of sheds, is now practically completed for the entire length of the section—from Gansevoort to West Twenty-third street—and the work of grading, curbing and paving the marginal street is almost finished. Passenger and freight sheds on two of the piers are being built, and contracts for sheds on the other piers of the section have been awarded. The three transatlantic steamship lines which will occupy these piers, will pay to the city a rental aggregating \$560,000 a year. The piers now occupied by these lines further south have been leased to other parties at an advance of \$93,327 per annum over the rental paid by the present occupants. Thus the completion of the Chelsea sheds will mean an increase in revenue to the City of over \$653,000 a year, hence the importance of pushing this work to completion as rapidly as possible.

The Long Island Railroad Company abandoned the operation of its ferry service between James slip and Long Island City on May 11, 1907, and since that time the Department has been engaged in removing the old structures and carrying on work in accordance with the new plan.

The work of building a bulkhead wall between Twenty-sixth and Twenty-ninth streets, East river, about 980 feet in length, including the return on the northerly side of East Twenty-ninth street, for Bellevue and Allied Hospitals, is progressing. This improvement, when completed, will add about 2½ acres of new made land to the City's real estate to be used by the hospital.

The Department is also engaged in the construction of a sea wall at the easterly side of North Brother Island, in order to enlarge the Island. This wall will, when completed, and filling placed in the rear, increase the area of the Island about 4½ acres.

The retaining structure built by the Department around the easterly end of Riker's Island was completed during the year, thereby forming a basin of over 150 acres in extent for the use of the Department of Street Cleaning where street refuse, etc., may be deposited.

Work on the slips and terminals of the Municipal Ferries has been in progress during the year. The terminal at St. George is practically finished and the building opened for the use of the public. At Stapleton the work of building ferry slip and pier, to be used in connection with the operation of the ferry, has been completed. At the New York end of the ferry to South Brooklyn, near the foot of Whitehall street, work is now in progress under contract for the erection of ferry structures and a temporary waiting room has been built which is now in use, together with one of the new ferry slips. At the Brooklyn end of this ferry the work of building ferry slips, etc., is in progress.

Plans and forms of contracts have been prepared for the ferry houses to be erected at Stapleton, Staten Island, foot of Whitehall street, Manhattan, for the Staten Island Ferry and at Thirty-ninth street, South Brooklyn. The Department will advertise for bids on these contracts as soon as it is possible.

The receipts of the Staten Island Ferry from passenger and vehicle traffic for the year ending November 1, 1906—the first year of municipal operation—showed an increase over the last year of private ownership of \$98,382.67, or about 20 per cent. The receipts for the year ending November 1, 1907, show an increase over the previous year (first year of municipal operation) of \$53,305.08, or about 9 per cent. The City commenced the operation of the ferry to Thirty-ninth street, South Brooklyn, on November 1, 1906. The receipts for the year ending November 1, 1907, show an increase of \$24,155.55, or about 15 per cent. Three ferry-boats, the "Gowanus," "Nassau" and "Bay Ridge," built by the Harlan & Hollingsworth Company for service on the ferry to Thirty-ninth street, South Brooklyn, were completed during the year, at a cost of \$640,000. These boats are now in commission.

As the municipal improvement of the waterfront of Manhattan Island, begun in 1870, is practically complete, the City has found it advisable, for the purpose of increasing the facilities for transatlantic trade, to build nine piers between Twenty-

eighth and Sixty-fifth streets, South Brooklyn. The approach to these will allow the largest vessels to dock. The new plan has been approved and the necessary funds for beginning the work will be provided as soon as the financial situation is better.

The Parks.

Central Park is being rehabilitated as rapidly as the finances of the Department of Parks will permit. Spring will show what has been accomplished by the treatment of the soil on the east side of the park and this work will be continued until a complete restoration has been accomplished. The park drives have been thoroughly repaired and the bridle roads have received much attention. A modern water supply and irrigation system between Fifty-ninth and Seventy-second streets and between Ninety-seventh and One Hundred and Tenth streets, has been contracted for and the work will be finished at the close of this year. The repaving of Fifth avenue, between Ninetieth and One Hundred and Tenth streets, is in progress and will be half finished at the close of the year.

Two-thirds of the roadways in Prospect Park were reconstructed with gravel and the remaining drives were put in thorough repair. The bridle paths in the park were recoated with gravel. Asphalt tiles are replacing 148,000 square feet of old tar walks. Nearly a thousand dead or diseased trees were removed from the park.

Two miles of the main roadway on the Ocean Parkway was rebuilt with Hudson river road gravel. It is recommended by the Commissioner of Parks for Brooklyn and Queens that the westerly traffic road of the Ocean Parkway from Prospect Park to Coney Island be paved with a permanent pavement, such as asphalt or granite blocks on a concrete foundation. He also suggests the same treatment of Fort Hamilton avenue from Flatbush avenue to the Bay, as this is the main artery of heavy traffic between South Brooklyn and Fort Hamilton.

Beautiful as Prospect Park is, there is still room for improvement on the line of resoiling and replanting, repair of the walks and the establishment of a new system of water supply and distribution.

Work proposed for the coming year includes the construction and improvement of playgrounds between One Hundred and Thirty-sixth and One Hundred and Thirty-eighth streets, St. Nicholas terrace and Amsterdam avenue; the planting of St. Nicholas and Colonial parks, the improvement of John Jay Park and the Corlears Hook Park extension, the improvement and laying out of Chelsea Park and the construction of Colonial Park between One Hundred and Forty-fifth and One Hundred and Fiftieth streets. Most important of all, however, will be the further improvement, reconstruction and restoration of Central Park.

Assessments for Parks.

Since consolidation the City has followed an exceedingly liberal policy in assuming the entire expense of the acquisition of parks and a large part, and in many cases all, of the cost of opening important streets, although there has been in each case enormous local benefit. The contribution of the City at large towards such improvements during the last five years will approximate \$40,000,000, and the City's capacity to extend its rapid transit system, to improve its waterfront and to build additional schools has been decreased by that amount.

A large part of the cost of acquiring Central and Prospect Parks was assessed in accordance with the direct local benefit, and it would seem not only fair and prudent, but positively necessary, to return to such a policy. It does not appear equitable to assess property owners in The Bronx and Richmond for the purchase of parks which will especially, if not exclusively, benefit those in Brooklyn or Queens.

The Metropolitan Museum of Art.

During the year just ended the Metropolitan Museum of Art has made gratifying progress in the work it has accomplished, in the number and importance of its acquisitions, and in its power to attract the public. The recorded number of visitors during the year has been close upon 800,000. Its educational opportunities have been placed at the disposal of the public to a greater extent than ever before; and teachers and pupils, both of the public schools and of private institutions and colleges, have been quick to take advantage of them.

During the summer there were unavoidable delays in the construction of the extension of the building on Fifth avenue, but good progress has been made in the last months, and there is now a prospect that it will be completed in the early summer. Work is also well under way on the new wing which is to be erected back of this extension. This new wing is intended primarily to contain the great Hoentschel collection of objects illustrating the decorative arts of the Gothic period and the eighteenth century in France, which the museum owes to the generosity of its President, Mr. J. Pierpont Morgan. As was announced last spring, Mr. Morgan has presented the eighteenth century section of this collection to the museum, and has deposited the Gothic section as an indefinite loan. To the latter he has already made most important additions in the famous groups of the Entombment and the Pietà from the Château de Biron. All these treasures and many more are stored in the basement of the building awaiting proper space for their exhibition. Mr. Morgan's other gifts during the year include a unique set of early Burgundian tapestries, and he has made valuable loans of paintings and sculptures, as well as numerous additions to his collection of Chinese porcelains. A gratifying indication of the willingness of the private collectors of the City to allow the public to share the enjoyment of their artistic possessions is the number of important loans of paintings and other works of art.

As to the needs of the museum, and especially to those which can be met by the City, what is most urgently required at present is an increase in its maintenance fund. Last year the City made an appropriation of \$160,000 towards its support, which sum has been renewed for the current year. The actual cost of maintaining the museum is now about \$100,000 in excess of this amount, and has always been considerably in excess of the City appropriation. The deficiency is partially made up by the annual

subscriptions of members, by admissions on pay days, and by the sale of catalogues and other publications; but it is perhaps not generally known that beyond these resources there is an annual deficit which has been regularly supplied hitherto by large subscriptions from individual trustees.

Another need of the museum is a well equipped library of works relating to the history and theory of the fine arts for the use of students of the subject, as a supplement to its collection. The trustees are doing their share towards the development of this by a liberal annual appropriation for the purchase of books, but the present quarters of the library are wholly inadequate and unworthy of a great institution such as the Metropolitan Museum has become.

Mrs. Sage's Gift.

The City is to be congratulated on the fact that owing to the generosity of Mrs. Sage, and the discovery in possession of the New York Historical Society, of John McComb's original drawings of the plans of the City Hall, it will be possible to restore the Governor's room as it was when the building was completed in 1803.

There are nearly a hundred of these drawings, all executed by McComb himself, and in an excellent state of preservation. They, of course, cover the construction of the entire building, but there is one cross-section running from north to south, which cuts directly through the Governor's room, showing the vaulted ceiling which the room originally had, and the style of decoration at the ends. The windows in the room, in fact, the windows throughout the entire building, have evidently never been changed. Mrs. Sage's gift of \$25,000 will, I believe, cover the entire cost of the work of restoration.

Architects.

In my message of January 7, 1907, I recommended to your Honorable Board the appointment of a City Architect to bear the same relation to the Board of Estimate that the City Engineer does to that body. On March 15, 1907, the Board of Estimate made provision for such an appointment, but your Board failed to act on its resolution, and it is still pending before you. The necessity for such an appointment became so urgent, in the judgment of the members of the Board of Estimate, that on June 21, 1907, the Board made temporary provision for the appointment of a City Architect, under the power given it by paragraph 6, rule 12 of the Civil Service regulations. The appointment of Mr. Walter Cook to this place has been followed by most satisfactory results, and I sincerely hope that your Honorable Board will see fit to concur in the resolution of the Board of Estimate referred to.

My recommendation of last year that all architectural work outside of the minor work of the departments be awarded after competition, the contestants to select their own jury, has been followed, the most conspicuous instance being the new municipal building, the competition for which is now under way.

Too much care cannot be exercised, in my opinion, in keeping all municipal work up to the highest artistic standard. The work of the Art Commission in this respect is well known to you. The jurisdiction of this Commission now extends to all work involving the expenditure of \$250,000 or over. It has been my constant aim to assist the Commission in every way possible, with what excellent results is shown by the plans for the new armories for the Second Battery and the Twenty-second Regiment, the new penitentiary, the South ferry and Staten Island ferry terminals, the Chelsea improvement and the Hendrick Hudson Memorial Bridge at Spuyten Duyvil.

I desire to call the attention of your Honorable Board to the excellent work inaugurated during the year by the Municipal Art Commission in completely cataloguing the art works of the City. This work I am informed will be completed next month.

The Public Library.

Work on the New York Public Library has gone on without serious interruption. The marble structure is complete and the interior work, which will cost \$3,133,000, has been started.

The New Penitentiary.

Plans have been approved and architects selected for a new penitentiary for all of the boroughs, on Riker's Island, at an estimated cost of \$4,000,000. Pending its completion only such minor repairs as are necessary will be done at the Penitentiary on Blackwell's Island. The manufacturing industries formerly carried on at the Kings County Penitentiary are now in successful operation at the Blackwell's Island Penitentiary, the output being used by the Departments of Charities and Education.

Board of Education.

The amount allowed the Board of Education in the Budget for 1907 was \$24,915,928.16, which was \$1,879,469.97 less than the sum asked for by the Board.

It is greatly to be regretted that existing financial conditions made this reduction necessary, and that the continuance of this stringency has curtailed the allowance of Corporate Stock for new school buildings and sites, to meet the ever increasing demands for additional school accommodations.

Notwithstanding the necessity for this economy, considerable progress has been made in providing new sittings in the public schools. Since January 1, 1907, 50,235 additional sittings have been provided in eighteen new buildings and in twenty-four additions. During the year contracts have been awarded for thirteen new buildings and ten additions, to contain 36,000 sittings, and there are now under contract or construction twenty-eight new buildings and eighteen additions, which will provide 74,560 additional sittings. Plans are also under way for ten new buildings and nine additions, which will contain 29,980 sittings. During the year forty-eight sites have been acquired, and the Board of Estimate has authorized the acquisition of thirty-three other sites.

The number of schools under the jurisdiction of the Board of Education is 514; three training schools for teachers, nineteen high schools, four hundred and eighty-nine elementary schools, two truant schools and one nautical school.

According to a report submitted to me by the City Superintendent of Schools, there has been the usual increase in the number of new pupils applying for admission to the schools. While it is not possible to give the exact figures for the current year at this date, a very good idea of the growth of the system may be obtained by comparing the attendance for any one month with the attendance for the same month in the preceding year. On May 31, 1907, the total number of pupils on register in the public schools was 589,203, an increase of 22,841 over the registration on the same date in the previous year; the number of pupils on part time was 67,424, a decrease of 5,219 compared with the corresponding date in 1906.

The school population in the Borough of Manhattan is about stationary, while in Brooklyn, The Bronx and Queens it is growing rapidly. Brooklyn especially shows a heavy increase. The number on register in the elementary schools in that Borough on May 31, 1907, was 204,481, an increase of 10,395 compared with May 31, 1906; in The Bronx, 53,584, an increase of 4,782; in Queens, 41,014, an increase of 3,209; in Manhattan, 253,943, an increase of only 2,269.

The total number of pupils on register in all the public schools on October 31, 1907, was 620,380, an increase of 23,056, compared with October 31, 1906. The total number of pupils on register in the elementary schools on October 31, 1907, was 595,031.

The City Superintendent calls attention to the fact that 62 per cent. of all the pupils on part time are in the Borough of Brooklyn, and states that "nearly all our efforts should be directed to relieving the conditions in that Borough." He further states that there is great need of high school accommodations in Brooklyn, and that it is only possible to prevent part time classes in the high schools in that Borough by establishing annexes in the elementary school buildings in the least congested districts.

The nineteenth season of public lectures under the auspices of the Department of Education closed on May 1, 1907. Lectures were delivered in 166 places, and the total attendance for the season was 1,141,447.

The Board of Education has been fortunate enough this year to obtain the gunboat "Newport" from the Navy Department for the purposes of the Nautical School. This vessel is loaned to the State of New York, and was turned over to the Board of Education on October 24. It is not as large a vessel as desired, and with the consent of the Navy Department, the "St. Mary's" is to be retained for the work of the Nautical School.

Department of Health.

In no branch of the City Government have more satisfactory results been achieved during the year than in the Health Department. The report of the Bureau of Vital Statistics shows a marked falling off in the number of deaths, and the increased rigor of the sanitary inspections has kept disease among children and adults down to a figure encouragingly below the figures of 1906.

The total number of inspections made was 1,742,540, resulting in the destruction of 12,483,628 pounds of fruit, fish, meat and other foodstuffs. There was a marked decrease in the number of children excluded from the schools for contagious diseases, due in a measure to the system whereby children suffering from minor ailments are allowed to remain in school so long as they are receiving treatment. In this connection I wish to call your attention to the excellent work of the School Nurses, which contributed largely to this result.

The provisions of the Sanitary Code have been rigorously enforced. New sections regarding the supervision of lodging houses, meat and poultry, milk, and the sale of cocaine have been added, and numerous arrests and prosecutions have been made for violation of these sections. For spitting in public places alone 1,784 arrests were made.

The enforcement of the food and drug law has received particular attention. Conferences have been held with representatives of the business interests involved, and as a rule they have co-operated with the Department in enforcing the provisions of this regulation. Vast numbers of specimens of suspected food and drugs have been taken by the Inspectors and submitted for analysis to the Chemical Laboratory of this Department. Whenever evidence of adulteration or misbranding has been found, the offenders have been vigorously prosecuted.

The question of the City's milk supply is one of the most important that the Department of Health has to deal with. Last summer I appointed a Commission, made up of the leading experts on this subject in the City, and the recommendations made by that Commission are being carried out in part now, and will all be carried out when the City is able to assume the additional financial burden which they entail.

All of the dairies and creameries supplying milk to the City have been inspected during the year, and a system of reinspections will be inaugurated as soon as it is possible to increase the Health Commissioner's corps of Inspectors.

In April an increase in the number of typhoid fever cases was noted. Investigation showed that few cases were due to infected milk. A strict sanitary supervision of the Croton watershed showed that cases of this disease were occurring adjacent to the streams supplying the City with water. Strict sanitary precautions throughout this vicinity were instituted, with the result that there was an early and decided decrease in the number of cases.

In the early part of August an increase in the number of cases of typhoid fever was noted in the Borough of Richmond. On investigation its source was traced to an impure water supply. The conditions existing on the Staten Island watershed were immediately investigated. Over 1,000 inspections have been made, and in all instances where nuisances have been found to exist, orders have been issued for their abatement.

About 300 fewer cases of tuberculosis have been reported in Greater New York than during the same period of 1906. There has been a slight increase in Manhattan and The Bronx and Queens, but a decrease in the other boroughs. About 4,500 more inspections for this disease were made during this period than during the same period in 1906.

Cerebro-spinal meningitis has shown a decided decrease, there being 200 fewer cases reported than during the same period of 1906.

The number of deaths reported during the ten months ending October 31, 1907, was 66,417, with a death rate of 18.60 per thousand, against 64,126 deaths and a rate of 18.53 for the corresponding period of the year 1906.

There was a decrease in the number of deaths reported from infectious diseases of 380. Deaths occurring under five years of age showed a decrease of 384.

The death rate from diarrhoeal diseases in children under five years of age during the months of July, August and September of this year shows a rate of 16.1, as against 18.2 for the same period of 1906. An investigation of the methods of feeding in 1,153 instances of children dying from diarrhoeal diseases shows that only 19 of these babies were fed on raw milk.

The contract for the erection of a new building in the Borough of Brooklyn for the Department of Health was signed during the early fall, and ground was broken in October. Additional facilities have also been provided at the Otisville Sanatorium.

Hospitals.

The work of construction on the building to be used by the Bellevue Training School for Nurses is progressing with great rapidity and it will be ready for occupation during the coming year. When completed it will have a capacity of 300 and will achieve a marked advance in hospital improvements, not only in providing facilities for the higher and better education of nurses, but also in enabling the City to equip Bellevue, Harlem, Fordham, and the hospitals of the Department of Health with graduates from its own school under the supervision of the Board of Trustees of Bellevue and Allied Hospitals. During the year the Bellevue Training School for Nurses took over the duty of tending the sick of Harlem and Fordham Hospitals, formerly in charge of the City Hospital Training School, and established a post-graduate course for Nurses in both these institutions. An improved system of accounting recommended by the Finance Department was installed in all the hospitals.

The most important features of the year have been the opening of the new Harlem and Fordham hospitals on May 1, each of which accommodates 150 patients, or 100 more than the structures which they replaced, and of the addition of a new wing to the Gouverneur Hospital. The first two pavilions of the new Bellevue Hospital, with provisions for 360 patients, and the foundations for the second section are approaching completion.

Under the administration of the Department of Public Charities contracts have been let for the erection of the new Coney Island Hospital and of six new pavilions for the Sea View Hospital, at Richmond. On Blackwell's Island dormitories for employees have been added to both the Metropolitan and the City hospitals and other improvements are being built; while on Blackwell's Island the old dormitory has been enlarged and two isolation pavilions opened.

Tenement House Department.

There has been a great decrease since 1906 in the building of new tenements, particularly in Manhattan. Two-thirds of the new building work of the whole City last year was done in Brooklyn, where the number of new buildings was 2,113 in the first nine months of 1907, as compared with 2,604 for the corresponding period in 1906. Fewer new buildings has not decreased the work of the Tenement House Department to any considerable extent, however, for the reason that only 15 per cent. of the force is detailed to new building work.

Fire Department.

Three new fireboats—the "Thomas Willett," the "James Duane" and the "Cornelius W. Lawrence"—were launched. The "Willett" and the "Duane," named for the first Mayor of New York and the first Mayor after the Revolution, will be in service in a few weeks, while the "Lawrence," named after the first elected Mayor, will be under steam in a few months.

Ten fire companies have been established in territory hitherto protected by the volunteer companies, while eight companies have been added to the regular service in Manhattan, The Bronx and Brooklyn. The uniformed force has been increased by 445 men.

The establishment of a school for firemen, where they may be trained and educated in the driving of engines and other apparatus of the Department, is advocated by the Commissioner, the Deputy Commissioner and the Chief of Department. The estimated cost is \$250,000. The present training school in the rear of the headquarters building in East Sixty-seventh street appears to be inadequate.

The Department is planning to build three new apparatus houses in The Bronx this year, yet that will leave a considerable territory uncovered. In Manhattan and The Bronx three new buildings were completed in the last year; two were finished in Brooklyn and Queens and five old buildings were practically rebuilt in the four boroughs.

While this city has the best fire protection in the world, more men and more apparatus must be added to the Department.

In my last message I called attention to the desirability of obtaining legislation by which the City might avoid selling to indiscriminate purchasers such horses of the Fire Department as had passed their period of usefulness. In accordance with this recommendation a law was introduced in and passed by the Legislature allowing the City to turn over such animals to the care of the Society for the Prevention of Cruelty to Animals. Unfortunately the society, because of lack of funds, has been unable so far to accept this trust. I believe, however, that until it is able to undertake this work arrangements can be made to have these horses transferred to other City departments where their work will be commensurate with their age and disabilities, and if necessary legislation can be obtained for this purpose.

Police Department.

Important legislation affecting the Police Department was enacted during the year. It gave to the Commissioner the power to reduce Inspectors and to reorganize the Detective Bureau. One branch of the Bureau has already been established and

it is the purpose of the Commissioner to start others in various parts of the City, systematizing the work and making it more effective. With my approval the Commissioner established a new patrol system, which appears to be accomplishing better results than did the old.

The uniform force acquitted itself most admirably in the arduous and extra duty of strike work. There was practically no disorder on primary and election days.

During the year the force was increased by 607 Patrolmen, making a total patrol force of 7,839 men. The new headquarters building will be ready for occupancy, it is expected, this spring.

Bureau of Weights and Measures.

Under the supervision of this Bureau of the Mayor's office an excellent system has been maintained for the fair and uniform measurement of produce. By confiscating over a thousand ice scales its Inspectors have impartially enforced the law against the ice dealers of the City, with the result that complaints against them have practically ceased. The principal work of the Bureau for the last year, however, has been to put a stop to the practice of selling coal at short weight. Numerous inexact scales have been condemned. A general test of 729 loads of coal detected an average deficiency in 164 loads of 19 pounds to the ton, while 67 loads reweighed on complaint showed a shortage of up to 25 per cent. to the ton.

It has been found that certain species of merchandise are being shipped and sold without regard to measure or weight and under confusing labels. Plans are being drafted to enforce the use of uniform packages and correct labels in order that such questionable practices may be prevented.

During the past year 40,000 investigations have disclosed 2,901 violations involving \$60,000 in penalties, for the recovering of which the City has instituted legal proceedings.

Ten Years of Greater New York.

It is now ten years since the consolidation of the four counties comprising the present City of New York was accomplished. The results may not be all that were dreamed of by the fathers of consolidation, but they have been satisfactory in the main, and, it is to be hoped, may be brought nearer to perfection by a new Charter designed to correct the faults which experience has shown in the old.

This much, at least, can be said: That all the five boroughs have benefited by the union which has made New York the largest single city of the world. Few citizens would care to destroy the centralization of power which, working through the great departments, has provided the best of police and fire protection, pure and regular water supply, cleanliness of streets and safeguarding of public health, a greater and better school system, and, in short, progress along all lines of municipal government.

The history of these ten years has shown that the faults which remain in our methods of city government are not due to the centralization of municipal functions, but rather are found where such centralization was not provided. These are the faults which a new Charter must remedy.

I desire to express my appreciation of the loyal and hearty co-operation my administration has received from the heads of the City Departments during the year.

Respectfully,

GEO. B. McCLELLAN, Mayor.

MOTIONS, ORDINANCES AND RESOLUTIONS AGAIN RESUMED.

No. 14.

By the Vice-Chairman—

AN ORDINANCE for the preservation of good order in The City of New York, contemplating the provisions of subdivision 14 of section 49 of the Greater New York Charter.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. No person, firm, partnership, corporation or association, of whatever character, owning or controlling, either as proprietor or manager, any hotel, restaurant, place of public entertainment or other place of public resort, in The City of New York, in which people meet and congregate, whether for purposes of refreshment or entertainment, shall allow any female to smoke in any such hotel, restaurant, place of public entertainment or other place of public resort, such an act being construed as in contravention of the provisions of subdivision 14 of section 49 of the Greater New York Charter.

Sec. 2. Any violation of the provisions of this ordinance, upon conviction thereof, before a City Magistrate, shall be punishable by a fine of not less than five dollars nor more than twenty-five dollars; or by imprisonment in the City Prison, or by both; but no such imprisonment, however, shall exceed a term of ten days.

The resolution was then adopted.

PROTESTS.

No. 21.

P. J. Scully, Esq., Clerk of the Board of Aldermen, New York City:

Sir—Please take notice that I claim to have been on November 5, 1907, duly elected to membership in the Board of Aldermen of The City of New York from the Fifteenth Aldermanic District of The City of New York, and that I enter this my protest against the right and title of Barton L. Case to membership in said Board of Aldermen, by virtue of a certificate of election delivered to him by the Board of Elections, whereby it is made to appear that said Barton L. Case was, on November 5, 1907, duly elected to membership in said Board of Aldermen, and that I propose to and do hereby contest the title of said Barton L. Case to membership in said Board of Aldermen, and his right to represent the people of the Fifteenth Aldermanic District therein.

Dated, New York, December 27, 1907.

Respectfully,

JOHN J. DOYLE, Protestant.

Thomas C. McDonald, Counsel.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the City Clerk:

No. 23.

Office of the City Clerk,
City Hall,
New York, January 6, 1908.

To the Board of Aldermen of The City of New York for the Years 1908 and 1909:

Gentlemen—Pursuant to a recommendation of the Committee on Rules of the Board of Aldermen, adopted at its stated and final meeting, held December 31, 1907, in relation to a celebration of the tenth anniversary of the creation of Greater New York, I transmit herewith said report.

Respectfully,

P. J. SCULLY, City Clerk.

The Committee on Rules, to which the annexed resolution (Int. No. 2628) was referred on December 10, 1907, respectfully

REPORTS:

That it has given full consideration to the suggestion of a celebration of the tenth anniversary of the creation of Greater New York, and reached the conclusion that the time at the disposal of the present Board of Aldermen was not sufficient to make the arrangements necessary to assure a dignified and appropriate celebration. If a special committee were to be appointed, as provided for by the resolution, it would be properly made up of members of the next Board of Aldermen, and it seems to the Committee on Rules that if such a special committee is to be appointed its selection should be left to the new Board. The Committee, therefore, recommends that the Clerk of the Board be directed to submit the resolution and this report to the Board of Aldermen at its first meeting in the year 1908.

Whereas, The tenth anniversary of the birth of the Greater New York will take place on January 1, 1908; and

Whereas, It is fitting that an event of such far-reaching importance to the greatness of the national metropolis be commemorated by suitable exercises,

Resolved, That the President of the Board be and he hereby is authorized to appoint a committee, of as many members as he may deem advisable, on which each of the Boroughs shall be represented, to arrange for the celebration of the tenth anniversary of the Greater New York, either on January 1 next or as soon thereafter as may be found practicable; and that said committee invite the officers and members of the original Greater New York Commission, of the Greater New York Charter Commission of the various Commissions that have been, from time to time, appointed to revise the Charter, and such other persons as they may deem proper for this occasion.

JAMES COWDEN MEYERS, ELIAS GOODMAN, T. P. SULLIVAN, Committee on Rules.

Which was referred to the Committee on Rules.

The President laid before the Board the following communication from the City Clerk:

Nos. 24 to 24 j.

Office of the City Clerk, City Hall. }
New York, January 6, 1908. }

To the Board of Aldermen of The City of New York for the Years 1908 and 1909:

Gentlemen—Pursuant to direction of a resolution adopted by the Board of Aldermen at its stated and final meeting, held December 31, 1907, I herewith transmit resolutions of the Board of Estimate and Apportionment in relation to the establishment of certain grades in the various departments of the government of The City of New York.

Respectfully,

P. J. SCULLY, City Clerk.

No. 24 a.

Whereas, The Board of Estimate and Apportionment, at a meeting held December 13, 1907, adopted the following resolutions:

No. 38.

The College of The City of New York,
 St. Nicholas Terrace and One Hundred and Thirty-ninth Street,
 New York, October 21, 1907.

Hon. GEORGE B. McCLELLAN, Mayor and Chairman of the Board of Estimate and Apportionment, New York, N. Y.:

Dear Sir—On the 26th of October, 1906, the Board of Estimate and Apportionment adopted a resolution fixing the salaries of various positions in the College of The City of New York, among which were the salaries of Assistant Engineers, limiting the number of incumbents to be employed at \$1,400 per annum to two.

In accordance with the advice and recommendations of Mr. Alfred E. Wolfe, Consulting Engineer of the Mechanical Plant, there will be required, to safely operate the plant in all its branches, seven additional engineers.

The buildings are now gradually being transferred to the Board of Trustees for maintenance and operation of the Mechanical Plant, but before the plant can be successfully and safely operated it will be necessary to employ at least seven additional Assistant Engineers. As the original resolution of October 26, 1906, limits to two, the number of Assistant Engineers to be employed at \$1,400 per annum, request is herewith made to the Board of Estimate and Apportionment, pursuant to section 56 of the Charter, to fix the salaries of Assistant Engineers at \$1,400 per annum, effective

October 21, 1906, thus empowering the Board of Trustees to employ as many Assistant Engineers as may be needed. It is requested that early action be taken on this application, as the services of additional engineers are needed immediately.

Yours very truly,

(Signed) JAS. W. HYDE,
Secretary, Board of Trustees.

December 10, 1907.

To the Honorable Board of Estimate and Apportionment:

Gentlemen—In a communication referred to the Select Committee at a meeting of the Board of Estimate and Apportionment, under date of October 18, 1907, a request is made by the Board of Trustees of the College of The City of New York for the establishment of the grade of Assistant Engineman in that institution at a rate of \$4.50 per diem.

Under date of October 25, 1907, there was referred to this Committee a second request of said Board of Trustees, relative to the establishment of said grade, and also asking that the Department be allowed seven additional Assistant Enginemen at said per diem rate.

Your Committee recommends the adoption of the accompanying resolution, which approves of the establishment of the grade of Assistant Engineman at \$4.50 per diem for six (6) incumbents.

Yours truly,

H. A. METZ, Comptroller;
P. F. McGOWAN, President, Board of Aldermen,
Select Committee.

Whereas, the Board of Estimate and Apportionment, at a meeting held December 13, 1907, adopted the following resolution:

"Resolved, that the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen, the establishment of the grade of position of Assistant Engineman in the College of The City of New York, in addition to those already existing therein, with compensation at the rate of \$4.50 per diem for six incumbents."

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the compensation of said position as set forth therein.

No. 39.

Department of Finance,
Bureau of Municipal Investigation and Statistics,
December 10, 1907.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Transmitted herewith is a report of the Bureau of Municipal Investigation and Statistics, of the Department of Finance, dated December 9, 1907, relative to a communication from the Secretary of the Board of Trustees, College of The City of New York, requesting the fixing of the salary of the position of Pipefitter at \$4.75 per diem, to take effect October 1, 1907, which matter was referred to a select committee consisting of the Comptroller and the President of the Board of Aldermen.

In view of the facts contained in said report, the adoption of the resolution attached hereto is recommended.

Yours respectfully,

(Signed) H. A. METZ, Comptroller;
(Signed) P. F. McGOWAN, President, Board of Aldermen;
Select Committee.

December 9, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—In regard to a communication from the Secretary of the Board of Trustees, College of The City of New York, requesting the fixing of the salary of position of Pipefitter at \$4.75 per diem, to take effect October 1, 1907, which was referred by the Board of Estimate and Apportionment to the Comptroller and President of the Board of Aldermen for consideration and report, and by you referred to the Bureau of Municipal Investigation and Statistics, I beg to report as follows:

The Secretary of the Board of Trustees explained to your Examiner that the application is intended for a Steam Pipefitter, the Civil Service title being "Pipefitter." In order that the large steam-heating plant of the new buildings of the College of The City of New York might be placed in charge of a competent Steamfitter in October last, it became necessary to make the appointment on the first of that month, and also to compensate the incumbent at the rate of \$4.75 a day.

It is the desire of the Board of Trustees to have a grade of Steam Pipefitter fixed at the rate of \$4.75 a day, the salary of the position to be made effective as of the date of October 1, 1907.

I recommend that the request of the Board of Trustees of the College of The City of New York be granted, and that the accompanying resolution be adopted by the Board of Estimate and Apportionment.

Yours respectfully,

(Signed) CHAS. S. HERVEY,
Supervising Statistician and Examiner.

Whereas, The Board of Estimate and Apportionment at a meeting held December 13, 1907, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen, the establishment of the position of Steam Pipefitter in the College of The City of New York, with compensation at the rate of four dollars and seventy-five cents (\$4.75) per diem, to take effect October 1, 1907, for one incumbent.

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution, and fixes the compensation of said position as set forth therein, to take effect October 1, 1907.

Which were severally referred to the Committee on Salaries and Offices, when appointed.

MOTIONS, ORDINANCES AND RESOLUTIONS AGAIN RESUMED.

No. 41.

By Alderman Levine—

Whereas, The vending of merchandise on pushcarts in the streets of The City of New York has become a fixed method by which many people have grown accustomed to make a livelihood; and

Whereas, The practice has assumed such proportions that many have begun to view it as a condition which should either be checked or better regulated before it becomes a nuisance beyond the control of the municipal authorities; and

Whereas, His Honor the Mayor, during the last term, appointed a commission to investigate the question, apparently with a view to eliciting information to the end that the vending of merchandise in this manner on the public highways might be better regulated; and

Whereas, To be deprived of the opportunity of seeking a livelihood in this manner, all these years privileged, would prove a hardship to the very many who have found it their only means, being unequipped by trade or calling for other pursuit; therefore

Resolved, That the Committee on Laws and Legislation be and hereby is instructed to hold a public hearing on the question set forth in the preamble hereof, the said hearing to be on a day as early as practicable and to be given as wide a publicity as possible, its object to be to get a consensus of public opinion and a fuller understanding of the question than has been had heretofore, so that this Board may adopt appropriate and equitable ordinances governing the same, which the said Committee is requested to prepare and present, as based upon its findings.

Resolved, further, That in order that the Committee may be aided in fullest measure in the preparation of appropriate ordinances on this question, his Honor the Mayor is hereby respectfully requested to transmit to this Board for their information a copy of the report of the Commission appointed by him in the matter.

Which was referred to the Committee on Laws and Legislation, when appointed.

No. 42.

By Alderman McCann—

Resolved, That permission is granted to Charles E. Blaney, manager, "The Bad Boy and His Teddy Bears" Company, to parade five small pony advertising wagons through the streets and highways of the Borough of Manhattan, from January 5 to January 25, 1908.

Which was adopted.

Alderman Dowling moved that the Board do now adjourn.

The President put the question whether the Board would agree with said motion. Which was decided in the affirmative.

And the President declared that the Board stood adjourned until Tuesday, January 14, 1908, at 1.30 o'clock p. m.

P. J. SCULLY, City Clerk,
and Clerk of the Board of Aldermen.

PROCEEDINGS OF THE PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

WEDNESDAY, OCTOBER 2, 1907,

AT TRIBUNE BUILDING, 154 NASSAU STREET,
BOROUGH OF MANHATTAN, CITY OF NEW YORK.

There were present—Chairman William R. Willcox, Commissioners William McCarrroll, Edward M. Bassett, Milo R. Maltbie, John E. Eustis, Secretary Travis H. Whitney.

It was moved, duly seconded and carried, that a hearing on the proposed subway through Broadway and Lafayette avenue, Brooklyn, be held at 4 p. m., Friday, October 11, for those who wished to present arguments, pursuant to requests from Kings and Queens Counties.

Commissioner Eustis presented the following report:

Your Committee, to whom was referred the recommendation of George S. Rice, Engineer, dated August 7, 1907, recommending the discontinuance of the pipe galleries in the contract for the construction of Section 9-0-5 of the so-called "bridge loop," being that part of the subway in Delancey street, begs to make the following report:

After examination of the plans and specifications, and conferring with the Engineer and also with various members of the Commission, while at first it would seem that the recommendation of the Engineer had merit, in that the galleries on this section of the subway would not be used to any very great extent, it does appear that some of the pipes along this section of the subway could be put in the pipe galleries, and that to leave out this section would break the continuity of the galleries extending from the Brooklyn bridge to Williamsburg bridge, and, in view of the fact that the city owns the bridges and will own the subway and the galleries, it would seem to be poor judgment at this time to leave such a break in the galleries, and for the further reason that the

galleries at the contract price can be constructed now at far less cost than they could be supplied hereafter; therefore, your Committee is of the opinion that the galleries should not be omitted from this section of the contract, and that the recommendation of the Engineer relating to the same should be disapproved, and submits for adoption the following resolution:

Resolved, That the recommendation of the Chief Engineer, dated August 7, 1907, that the plans and contract for Section 9-0-5 of the "bridge loop" be modified by omitting from said plans and contract the pipe galleries, be not approved.

Dated October 2, 1907.

JOHN E. EUSTIS, Committee.

The said resolution was thereupon moved and duly seconded.

Ayes—Commissioners Willcox, McCarroll, Bassett, Maltbie, Eustis.

Nays—None.

Carried.

Fourth Avenue Subway.

Commissioner McCarroll presented a resolution, and said:

"Of course it is well known to the Commission, as it is to the public, that the question of the Fourth avenue subway has been under consideration by the Committee of the Commission for some little time. The public has perhaps naturally been somewhat impatient, assuming that the newspapers may have expressed the public sentiment, but it seems to me, Mr. Chairman, that the thinking public should know that on acting on a matter of such importance as this, this Commission was under obligation to take such time as the Commissioners deemed necessary and wise for the proper consideration of the subject, and so while there may have been some impatience on the part of some of those to know the attitude and determination of this Commission, yet the Commission has proceeded with proper deliberation and discussion, appropriate to the importance of the subject. That having been closed, I now desire to offer this resolution."

Resolved, That this Commission proceed at once with the prosecution of the work of the Fourth avenue subway, pursuant to the plan as laid out by the Board of Rapid Transit Commissioners, and duly approved in accordance with law by the Board of Estimate and Apportionment, and that the contracts now before us for such construction be offered for bids and duly let after the same shall have received the final approval of this Commission.

The resolution was moved and duly seconded. Upon the roll call the following statements were made:

Chairman Willcox—"In voting on this resolution, I desire to state that inasmuch as I understand, memoranda are to be filed with the Commission, that the Fourth avenue subway plans were prepared and adopted by the Board of Rapid Transit Commissioners before they went out of office in July last. These plans were adopted after one or two years' deliberation by the said Board. Subsequently, the Board of Estimate and Apportionment, by resolution unanimously passed, approved of the same and practically set aside funds for the construction of the subway in question. It seems to me, therefore, that this whole matter has been duly passed upon, and that the action taken by these two Boards, if not legally, is morally binding upon this Commission. While it is doubtless true that this Commission could refuse to proceed with the advertising of contracts now before it, I believe that such a step should not be taken, except for the most weighty reasons and for causes which were not properly considered by the Board of Rapid Transit Commissioners and the Board of Estimate and Apportionment. Whether the amount of money necessary for the building of this road, in the judgment of any person, could be better applied for the building of some other road, does not seem to me relevant at this time. This Commission has not the power to appropriate money for transit purposes, and inasmuch as the City, through its duly elected Board, has practically set aside the funds for the building of this road in accordance with the plans of the Rapid Transit Commission for its construction, this Commission should now proceed to advertise for bidders and to award the contract.

I therefore vote aye."

Commissioner McCarroll—"In voting on this motion I prefer not to make any statement, and certainly not an argument, which is scarcely appropriate now; but in view of the fact that this has been done, I would like to submit the following reasons:

As is known to the Commission, I found many reasons which decided my vote for this resolution. I will now specify four. I vote for it, first and foremost, because I am a confident believer in the development and growth of The City of New York. I consider that we cannot be too foresighted and diligent in doing everything in our power to promote this, especially so when enterprising men are spending many more millions to take people to New Jersey and the suburbs than New York has yet spent altogether or will spend for some time to come, including this Fourth avenue and additional systems of transit.

Second, because this is a part and a beginning of a comprehensive system of transit development—the trunk of the lines, so to speak—reaching from one end to the other and serving the whole City, the construction of which we should progress and hasten with all possible dispatch.

Third, because this Fourth avenue route, going as it does over the Manhattan Bridge and through the congested section of travel at Flatbush avenue and Fulton street, supplies another outlet, which will distribute the travel away from the Brooklyn Bridge and thus give relief and local facilities to a large and crowded section, while fulfilling the larger purpose of development and growth of the City.

Fourth, because The City of New York, by its legally constituted authorities, namely, the Board of Rapid Transit Commissioners and the Board of Estimate and Apportionment, has in due form of procedure authorized and approved the construction of this route. We ought to give all respect and weight to its decision thus expressed and follow it in the absence of some commanding reason why we should do otherwise.

I vote aye."

Commissioner Bassett—"Mr. Chairman, in voting 'no' on this resolution, I wish to file this memorandum:

This resolution commits this Board to the building of the Fourth avenue subway beyond the locality of the Long Island Railroad station, and on this account I wish to register my objections briefly in writing. I would be strongly in favor of building it to the corner of Flatbush and Fourth avenues approximately.

While there is much force in the contention that decisive action has been taken by the Board of Estimate and our predecessors, the Board of Rapid Transit Commissioners, and that ours is the somewhat perfunctory duty of carrying out what has already been determined upon, yet under the provisions of the Rapid Transit Act, which gives us power to rescind or alter up to the time of signing a contract, it seems to me that if in the opinion of any member of this Commission the objections to the construction of this subway on the plan proposed are so grave as my own are, he is in duty bound to vote against the proposition. Under the present law I do not think that an operator will be found for this subway when completed, and I consider that I am bound by my oath of office to act according to my best judgment under the law as it now is, and without dependence upon expected future changes. If an operator cannot be found, the City will have to operate the road, and my belief is that for an indefinite time it will be operated at a loss.

The only congestion that the subway will relieve exists between the Long Island Railroad station and Manhattan, and a short subway, about one and one-half miles in length, would accomplish this instead of building one thirteen and one-half miles long. The Fifth avenue elevated road south of the Long Island station is not used to more than one-third of its present capacity. Third-tracking that road would double its present capacity, making it possible to transport six times the people that are now carried.

South Brooklyn suffers to-day from two things: (1) Non-fulfillment by the railroad companies of their franchise obligation, and (2) extreme congestion between the Long Island Railroad depot and the Borough of Manhattan. The first item is capable of compulsory remedy; a short subway would remedy the second and leave from fifteen millions to twenty-five millions to construct and equip other subways in the downtown district and lower Manhattan for the benefit of all Brooklyn. If twenty-five millions of the City's money goes into the construction of the Fourth avenue subway and fifteen millions more into its equipment, I fear that other relief now urgently needed for the benefit of all Brooklyn in the congested districts may be indefinitely postponed. A subway terminating in the vicinity of the Long Island Railroad station could be used by express trains operated on the Fifth avenue elevated road, which could carry the identical traffic across the Manhattan Bridge that would be carried by the proposed subway, thus doing away with any demand for elevated tracks on the

Flatbush avenue extension. Later, the subway could be extended to South Brooklyn, when the traffic warrants it.

If the argument is that a municipal subway is justified to open undeveloped sections and increase assessed valuations, then this subway should run in some direction that now has no rapid transit, like Rugby or Eastern Parkway. I do not believe in that argument. The Fourth avenue subway parallels existing rapid transit lines, and along New Utrecht avenue it runs for miles underneath the Rapid Transit railroad. Grade crossings must before long be eliminated on New Utrecht avenue, which will mean an elevated structure probably paid for to the extent of one-half by the City, or else the condemnation at enormous figure of the property and franchise now owned by the Brooklyn Rapid Transit Company.

For several years past, my opinion has been that the solution of Brooklyn's traffic problem lies in the expenditure of money in the downtown, East river and lower Manhattan districts, and that this region should be attended to before running subways to the suburbs. When I was appointed on this Commission I was, like most other residents of Brooklyn, loath to do or say anything that might mean the loss of the twenty-six millions dedicated by the Board of Estimate to the Fourth avenue subway. My position at that time could not be better illustrated than by reminding my fellow Commissioners that, early in July, I spent a considerable time in pointing out the geographical features of Brooklyn transit, and in general strongly advocated the desirability of the Fourth avenue subway, not having then made a special study of the relation of the enterprise to the Elsborg law and the contingency of not finding an operator under that law. You will remember that the Chairman and Commissioner Maltbie asked me, at that time, to look more especially into the subject of the operating contract under the Elsborg law. This I proceeded to do, with the result that I found myself unable longer to favor the entire Fourth avenue subway under existing law, and of course I could not act one way and believe another."

Commissioner Maltbie—"I wish to file the following memorandum:

Mr. Chairman, it is with great regret that I feel compelled to vote against the majority of the Commission upon this resolution, and particularly because I realize with what care and thoroughness you have considered every phase of the question. But the facts have convinced me that it would be unwise to proceed at present with the construction of the Fourth avenue and Bensonhurst subway, and I must, therefore, vote in the negative. In my opinion, The City of New York as a whole, and Brooklyn particularly, would be benefited to a far greater degree by the construction of subways in the already congested portion of Manhattan and Brooklyn than by the construction of a line which, in the main, will run through an undeveloped and sparsely settled area, and which will benefit only a small part of Brooklyn.

I do not wish to be understood as favoring the revocation of the route, for lines must be projected into undeveloped suburbs, but it does seem unwise at this time to begin the expensive construction of a subway so largely in an undeveloped district, when there are other areas already densely populated and already far more in need of rapid transit than the southwestern part of Brooklyn.

Further, this district has been provided with transportation facilities to a degree, and with the improvements which this Commission could order, they would be more nearly adequate than those in other sections of Brooklyn, Manhattan, and The Bronx.

However, if it were financially possible to proceed simultaneously with subways in other parts of the City where there is greater need, the objections to the immediate construction of the Fourth avenue subway would be less serious. But the Comptroller has asserted that there is no more money available for subway construction, which means that if the sum of \$25,000,000 or thereabouts is used upon the Fourth avenue subway, the rest of Greater New York must wait for relief until the assessed value of property increases or the constitutional provisions regarding the debt limit are amended.

There is still another point of view. It has generally been admitted by those who favor the immediate construction of the Fourth avenue subway that no bids would be received if a contract for construction equipment and operation were advertised. It is also maintained that the subway will not be self-sustaining for a considerable period of time. If this is true, and those who have favored the subway have presented no tangible evidence to this Commission or its predecessor to prove it is false, the City will be in the position of having constructed a deficit-producing subway, when it is generally conceded that subways in other parts of the City would be self-supporting from the start. Then, too, if the City does not find a company willing to equip and operate the subway when built, the City itself must equip, and this will require an additional outlay of approximately \$15,000,000, which may still further delay the construction of subways in other parts of the City.

But assume that the residents of Brooklyn are entitled to an expenditure of \$25,000,000 for the relief of their transit congestion, where could this sum be spent most advantageously? The Fourth avenue subway, at least that portion of it beyond Flatbush avenue, will not greatly relieve congestion, for there is little congestion beyond Flatbush avenue which could not be relieved by the present facilities when improved; and the main argument in favor of the proposed subway is that it will build up a traffic of its own. If this is true, the line will afford practically no relief to the congestion in the central portion of Brooklyn or on the Brooklyn Bridge, and the vast majority of the residents of Brooklyn—those who do not live in the Fourth avenue and Bensonhurst district—will receive practically no benefit from the construction of this route. Hence, far greater relief would be obtained for Brooklyn as a whole if a portion, at least, of the funds now available were spent upon additional lines in the centre of Brooklyn and the lower portion of Manhattan to relieve the present crush at the Manhattan terminal of the Brooklyn Bridge and to carry those residing in Brooklyn from their homes to their offices without a long walk from the bridge to their offices, 70 per cent. of which are located south and west of the Bridge terminal.

In the opinion of many, Mr. Chairman, the question of the advisability of letting these contracts for construction only had been settled by our predecessor, the Rapid Transit Commission, and the Board of Estimate and Apportionment prior to July 1, when we took office. It is also held that if a mistake has been made the Public Service Commission is entirely relieved from any responsibility. A brief resume will show to what extent these statements are true:

On October 11, 1906, the Rapid Transit Commission sent a communication to the Board of Estimate suggesting to the Board that alternate bids be invited for a number of rapid transit lines which had previously been approved by the various authorities; one set of bids for construction, equipment and operation combined; and another set for construction alone.

The Board of Estimate adopted this suggestion upon December 7, and made it valid so far as the following seven lines were concerned:

1. The Seventh and Eighth avenue route.
2. The Lexington avenue route.
3. The Third avenue route.
4. The Jerome avenue route.
5. The Fourth avenue and Bensonhurst route.
6. The Tri-Borough route (so-called).
7. West Farms and White Plains route.

The Rapid Transit Commission decided to proceed first with the Lexington avenue route, the Seventh and Eighth avenue route, and the Jerome avenue route, apparently believing, as the public did generally, that these were the routes which would be of the greatest benefit to the City and which were most urgently needed, as they would relieve areas of great congestion.

The contracts were prepared and alternate bids were invited, but no bids of any nature were received, not even for the construction of a single section.

The natural course to have been adopted then, it would seem, because of obvious defects in the plan of alternate bidding, especially in this instance, was for the Board of Estimate to authorize the advertising of contracts for the same lines for construction alone, and this had been done successfully in the case of the Bridge loop subway in Centre street. But this was not done, and the Rapid Transit Commission did not suggest that it should be done, although upon May 31 the Commission did adopt a resolution requesting the Board of Estimate to rescind its resolution of December 7 (authorizing alternative bidding), and to empower the Commission to let contracts for construction alone upon the Fourth avenue and Bensonhurst route. This suggestion the Board of Estimate approved upon June 4, 1907, and upon June 27 the Rapid Transit Commission passed a resolution fixing the last Thursday of July as the date for the hearing upon the form of the contract.

These facts show that the Rapid Transit Commission did not attempt to go further with the lines considered most important and indeed could not have gone any further until a resolution authorizing the Commission to do so had been passed

by the Board of Estimate. But it was possible for the Rapid Transit Commission to have requested the Board of Estimate to pass a resolution permitting the advertising of contracts for construction alone in small sections, if it had been considered wise. But instead, the Rapid Transit Commission requested the Board of Estimate to rescind its previous action upon the Fourth avenue route and to authorize the letting of contracts for the construction alone, which was done.

If the case is to be considered as having been closed by this action, the Public Service Commission is already obligated to proceed with the advertising and letting of the contract regardless of the merits of the route over all others. But I cannot believe that the Rapid Transit Commission intended to take such an important and irrevocable step within one month from the expiration of their term of office. In my opinion, they merely wished to progress matters as rapidly as possible, and leave the question to be threshed out upon its merits, recognizing that this Commission has the right at any time to ask the Board of Estimate to rescind its previous action and authorize a different form of contract.

In conclusion, therefore, Mr. Chairman, I am forced reluctantly to vote against this resolution, because I believe that there are other routes which would benefit the City to a far greater degree and which ought to have the preference in view of financial conditions, and because I do not believe that it is incumbent upon us to proceed at once under the resolutions now in force, at least not until the Board of Estimate has been requested to allow the advertising of contracts for construction alone for small sections of these subways which admittedly would be of greater service to the whole City in relieving the traffic congestion which now exists than the Fourth avenue subway.

I vote no."

Commissioner Eustis—"Mr. Chairman, I have not prepared any written statement in explaining my vote. I simply wish to say if this was a new proposition being considered for the first time, the statements made by Commissioners Maltbie and Bassett would be controlling with me, for I consider they have great bearing.

Or, if this so-called Fourth avenue route stood alone by itself and was to be constructed without any connection with any other line, I should also feel constrained to vote against it. But, in view of the fact that this line is a part, or a link, of what has been called the Tri-Borough route, running from near the Atlantic Ocean, to Pelham Bay Park, in The Bronx, I feel it my duty to consider it in that connection, and if I felt by voting against the construction of this route, that the money that has been granted for the construction of it, could be obtained for any other section of the Tri-Borough route, I would then be constrained to vote against it, because I believe that if the Manhattan or main route had been first constructed, it would have been a paying route from the start, for everybody knows a subway on Manhattan Island would not have to look for passengers at any time of the day. But I have not the chance, nor has this Commission, of saying where we shall begin the Tri-Borough route. Our predecessors appropriated this money for one end of it and not the middle, and I believe if we apply the money now to the Brooklyn end of that route and urge and strive for the means to construct the Manhattan and then The Bronx part of it, it will not be very long that that route will be considered a non-paying one, and for that reason I vote aye."

The Chairman announced the resolution as carried.

A hearing was held on the subject of subway facilities in the County of Queens.

The following persons spoke:

John L. Lindsay, of Flushing, Long Island;

Isaac P. Hubbard, of Richmond Hill, L. I., representing the United Civic Societies;

George Webster Peck, of Flushing, L. I., representing the Flushing Association;

William C. Kirkland, of Flushing, L. I.;

Frank E. Nabb, of Whitestone, L. I.;

Daniel S. Sanborn, of Flushing, L. I.;

Clarence A. Drew, Flushing, L. I.

The hearing was then adjourned.

The Commission here resolved itself into the Committee of the Whole.

TRAVIS H. WHITNEY, SECRETARY.

PROCEEDINGS OF THE
PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,
THURSDAY, OCTOBER 3, 1907,
AT TRIBUNE BUILDING, 154 NASSAU STREET,
BOROUGH OF MANHATTAN, CITY OF NEW YORK.

There were present—Chairman William R. Willcox, Commissioners William McCarroll, Edward M. Bassett, Milo R. Maltbie, John E. Eustis, Secretary Travis H. Whitney.

A hearing was held on the complaint of the Chamber of Commerce of Staten Island on transit facilities in Staten Island.

The following persons spoke:

Hon. George Cromwell, President of Borough of Richmond;

DEPARTMENT OF DOCKS AND FERRIES.

FILLING PRIVILEGE.

OFFICE OF THE DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

MONDAY, JANUARY 13, 1908.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT OR TO BE BUILT ON THE NORTHERLY PART OF THE NEW BELLEVUE SECTION ON THE EAST RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from the present line of the filling, which is about the southerly side of East Twenty-eighth street, northerly a distance of about 241 feet to a line which is about 17 feet southerly from the southerly side of West Twenty-ninth street, at which point, or as near thereto as possible, it is the intention to build a temporary bulkhead, and extending from the rear of the bulkhead wall, when it is completed, inshore a distance of from about 170 feet to 265 feet to an old crib bulkhead.

The exact limits of the basin to be filled under this agreement may be seen on a map at Pier "A," together with the soundings and other data used, the said map being a part of this agreement.

The filling will be brought to a grade level with the top of the coping of the bulkhead wall, and will extend inshore on a regular grade to the level of the filling or crib bulkhead adjacent.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to about 43,200 cubic yards.

Bidders will state in writing a lump sum price which they agree to pay for the privilege of filling in the void space behind the bulkhead wall built or to be built on the northerly part of the New Bellevue section, as described above, and as appears in detail on the map at Pier "A," and which becomes a part of the contract or agreement.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 30 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling shall be started at the bank and carried outshore toward the bulkhead wall.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions must be given by the Engineer, and wherever the word Engineer is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun. The Department reserves the right of ordering the contractor to deposit not less than 100 cubic yards per day, as directed by the Engineer, and the whole amount of the filling called for to bring the above-described basin up to grade, shall be completed within four hundred and thirty-two

calendar days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser, in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

J. A. BENSEL,
Commissioner of Docks.

Dated The City of New York, January 2, 1908.

OFFICE OF THE DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS WILL BE RECEIVED BY the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

WEDNESDAY, JANUARY 15, 1908.

FOR A LEASE FOR A TERM OF FIVE YEARS, BEGINNING ON A DATE TEN DAYS AFTER SAID LEASE SHALL BE APPROVED BY THE COMMISSIONERS OF THE SINKING FUND, OF THE RIGHT TO USE AND OCCUPY THE INSHORE OR MOST EASTERLY DUMP ON THE NORTHERLY SIDE OF THE PIER AT THE FOOT OF WEST THIRTIETH STREET, NORTH RIVER, BOROUGH OF MANHATTAN, TOGETHER WITH THE RIGHT TO USE THE RAMP OR APPROACH THERETO.

It being understood that the lessee shall not in any way interfere with the operation of the Department of Street Cleaning dumps on the northerly side of said pier.

The lessee shall make all repairs to the dumping board above described.

All repairs to that portion of the ramp or approach extending from the easterly end thereof to the westerly end of the inshore dumping board shall be made by the Department of Street Cleaning, but one-half of the cost thereof, as shown by the books and accounts of the Department of Street Cleaning shall be borne by the lessee.

The lessee shall covenant and agree that he will at all times do such dredging from time to time during the term of said lease as may be considered necessary or proper by the Commissioner of Docks to a depth of at least 20 feet at mean low water, in the basin or slips or water adjacent at the northerly side of said pier, commencing at the bulkhead line and extending outshore to the westerly end of the inshore or most easterly dumping board.

The Commissioner of Docks expressly reserves the right to reject any and all bids; should a bid, however, be accepted, the said Commissioner will prepare a form of lease and transmit same to the Commissioners of the Sinking Fund, with a recommendation that said lease be approved by said Commissioners. The said form of lease shall contain the usual terms, conditions and covenants at present embodied in leases of wharf property now used by this Department.

No bid will be considered unless accompanied by a certified check payable to order of Department of Docks and Ferries, or cash in the sum of \$500 as security for the execution of the lease, which \$500 will be applied to the payment of the rent first accruing under the lease, when executed, or will be forfeited to the Department if the purchaser neglects or refuses to execute the lease, and the successful bidder will be required to agree that he will, upon three days' notice so to do, execute a lease, the form of which may be seen and examined upon application to the Secretary, at the office of the Department, Pier "A," Battery place; and also to furnish a bond or obligation in the sum of double the annual rent for the faithful performance of all the covenants and conditions of the lease, the sureties on bond to be approved by the Commissioner of Docks.

J. A. BENSEL,
Commissioner of Docks.

BOARD OF ESTIMATE AND APPORTIONMENT.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment, held on December 20, 1907, the following resolutions were adopted:

Whereas, the Board of Estimate and Apportionment of the City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Grandview avenue, between Metropolitan avenue and Stanhope street, and between Linden street and Forest avenue, in the Borough of Queens, City of New York; and Whereas, the Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the southerly line of Metropolitan avenue where it is intersected by the prolongation of a line midway between Amory street and Grandview avenue, as laid out between Metropolitan avenue and Amory court, and running thence southeasterly along the said line midway between Grandview avenue and Amory street and the prolongation of the said line to the center line of Stanhope street; thence southwesterly along the center line of Stanhope street to the intersection with the prolongation of a line midway between Grandview avenue and Amory street as laid out between Stanhope street and Ralph street; thence southeasterly along the said line midway between Grandview avenue and Amory street and the prolongation of the said line to the intersection with a line which is the bisector of the angle formed by the intersection of the westerly line of Forest avenue and the northeasterly line of Grandview avenue; thence southeasterly along the said bisecting line to a point distant 100 feet northeasterly from the northeasterly line of Grandview avenue, the said distance being measured at right angles to the line of Grandview avenue; thence southeasterly and parallel with Grandview avenue to the easterly line of Forest avenue; thence easterly at right angles to the line of Forest avenue a distance of 100 feet; thence southwardly and parallel with Forest avenue to a point distant 100 feet southerly from the southerly line of Palmetto street; thence westwardly and southwesterly and always distant 100 feet from Palmetto street to the intersection with the prolongation of a line midway between Grandview avenue and Fairview avenue; thence northwesterly along the said line midway between Grandview avenue and Fairview avenue and the prolongations of the said line to the intersection with a line at right angles to Metropolitan avenue and passing through a point on the southerly line of Metropolitan avenue midway between Grandview avenue and Starr street; thence northwardly along the said line at right angles to Metropolitan avenue to a point distant 100 feet northerly from the northerly line of Metropolitan avenue; thence easterly and parallel with Metropolitan avenue to the intersection with a line at right angles to Metropolitan avenue, and passing through the point described as the point of beginning; thence southwardly along the said line at right angles to Metropolitan avenue to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 17th day of

sons affected thereby to be published in the CITY RECORD for ten days prior to the 17th day of January, 1908.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment, held on December 6, 1907, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Seaman avenue, from Two Hundred and Fifteenth street to Two Hundred and Eighteenth street, in the Borough of Manhattan, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at the intersection of a line midway between Seaman avenue and Isham street with a line distant 100 feet southerly from and parallel with the southerly line of West Two Hundred and Fifteenth street, the said distance being measured at right angles to the line of West Two Hundred and Fifteenth street, and running thence northwesterly along the said line midway between Seaman avenue and Isham street to the northerly line of West Two Hundred and Eighteenth street; thence northwesterly at right angles to the northerly line of West Two Hundred and Eighteenth street a distance of 100 feet; thence eastwardly along a line parallel with West Two Hundred and Eighteenth street to its intersection with a line at right angles to the northerly line of West Two Hundred and Eighteenth street, and passing through a point on the said northerly line of West Two Hundred and Eighteenth street where it is intersected by the prolongation of a line distant 165 feet easterly from the easterly line of Park Terrace West, the said distance being measured at right angles to the line of Park Terrace West; thence southwardly at right angles to the line of West Two Hundred and Eighteenth street to the aforesaid point on the northerly line of the said West Two Hundred and Eighteenth street; thence southwardly along a line distant 165 feet easterly from and parallel with the easterly line of Park Terrace West, and along the prolongation of the said line, to the intersection with a line distant 100 feet south of and parallel with the southerly line of West Two Hundred and Fifteenth street, the said distance being measured at right angles to the line of West Two Hundred and Fifteenth street; thence westwardly and parallel with the southerly line of West Two Hundred and Fifteenth street to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 10th day of January, 1908, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the City Record for ten days prior to the 10th day of January, 1908.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS IN THE BOROUGH OF MANHATTAN:

TWELFTH WARD, SECTION 8.

WEST ONE HUNDRED AND SIXTY-NINTH STREET—REGULATING, GRADING, CURBING AND FLAGGING, from Broadway to Fort Washington avenue. Area of assessment: Both sides of West One Hundred and Sixty-ninth street, from Broadway to Fort Washington avenue, and to the extent of half the block at the intersecting and terminating streets and avenues.

—that the same was confirmed by the Board of Assessors on January 7, 1908, and entered on January 7, 1908, in the Board of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that: "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of 7 per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room H, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before March 7, 1908, will be exempt from interest as above provided, and after that date will be subject to a charge of interest at the rate of 7 per centum per annum from the date when above assessment became a lien to the date of payment.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE PARK COMMISSIONER, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction all the buildings, parts of buildings, etc., now standing upon property owned by The City of New York acquired for park purposes in the

Borough of Manhattan.

Being all those buildings, parts of buildings, etc., on West One Hundred and Forty-fifth street and Edgecombe avenue, more particularly known as Nos. 335, 337, 339, 341 and 343 West One Hundred and Forty-fifth street and No. 245 Edgecombe avenue, and which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held October 23, 1907, the sale of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

MONDAY, JANUARY 20, 1908,

at 10 a. m. on the premises, upon the following

TERMS AND CONDITIONS.

It being understood that the purchasers at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages

at so much per day for each and every day the removal of the buildings, etc., remains incomplete after the expiration of sixty days from the day of sale. A copy of the contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the purchase price does not equal or exceed the sum of fifty dollars the sum of fifty dollars shall be the amount of the security deposited. This security must be deposited within forty-eight hours after the sale, and may at any time after the expiration of the contract period be applied by the City to the cost of completing any work required under the contract but unfinished at the expiration of the contract period.

All the buildings, structures and parts thereof, their fixtures and foundations, of every class and description, within the described area are to be torn down to the existing curb level, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studs, flooring, ceiling, roofing, boards and work of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value shall be gathered together by the contractor and burned or carried away.

The purchaser at the sale shall also shut off and cap all water pipes at the main pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings or appurtenances, or any portion thereof, within sixty days from the day of sale will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expenses thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they, or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids.

J. H. MCCOOEY,
Deputy and Acting Comptroller.
City of New York, Department of Finance,

The Board of Assessors has levied and assessed the foregoing assessments in twenty equal annual installments:

The "Fifth Installment" in each case is now due and payable, and hereafter for fifteen years an amount equal to one of the aforesaid annual installments with interest shall be assessed upon the lots or parcels of land benefited by said improvements. These assessments were confirmed by the Board of Revision of Assessments on December 29, 1907, and the "Fifth Installment," entered on December 29, 1907, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents.

Unless the amount of the fifth installment in each case shall be paid within sixty days after said date of entry, interest shall be charged, collected and received thereon as provided in section 1019 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record." * * * "The above assessments are payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, at the Hackett Building, No. 51 Jackson avenue, Long Island City, Borough of Queens, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. until 12 m., and all payments made thereon on or before February 27, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments became liens to the date of payment."

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

SIXTEENTH WARD, SECTION 3.
RESTORING ASPHALT PAVEMENT in front of premises Nos. 120-122 West Eighteenth street, known as Lot No. 51, in Block 793, Borough of Manhattan.

The above assessment was certified to the Collector of Assessments and Arrears, under the provisions of section 391 of the Greater New York Charter.

—that the same were entered on December 24, 1907, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments interest will be collected thereon as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest

thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room H, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before February 24, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

NOTICE OF SALE OF LANDS AND TENEMENTS WITHIN THAT PART OF THE CITY OF NEW YORK NOW KNOWN AS THE BOROUGH OF RICHMOND, FOR UNPAID TAXES AND ASSESSMENTS.

THE CITY OF NEW YORK, DEPARTMENT OF FINANCE, BUREAU FOR THE COLLECTION OF ASSESSMENTS AND ARREARS OF TAXES, ASSESSMENTS AND WATER RENTS, STEWART BUILDING, No. 280 BROADWAY, BOROUGH OF MANHATTAN, NEW YORK CITY, August 10, 1907.

UNDER THE DIRECTION OF HERMAN A. Metz, Comptroller of The City of New York, the undersigned hereby gives public notice pursuant to the provisions of section 1027 of the Greater New York Charter:

That the respective owners of the lands and tenements within that part of The City of New York now known as the Borough of Richmond, on which taxes have been laid and confirmed according to law by The City of New York for the years 1899, 1900, 1901, 1902 and 1903, including taxes on the real estate of corporations for the said years and taxes on the special franchises of corporations for the years 1900, 1901, 1902 and 1903, and which now remain due and unpaid:

And also the respective owners of all lands and tenements in The City of New York, situated in the borough aforesaid, on which the assessments have been laid according to law by the said City of New York for the years 1899, 1900, 1901, 1902, 1903 and 1904, and which now remain due and unpaid, are required to pay the amount of the said taxes and assessments so remaining due and unpaid, with the interest thereon at the rate of seven (7) per centum per annum, from the time when the same became due to the time of payment, together with the charges of this notice and advertisement, to the Collector of Assessments and Arrears, at his office in the Borough Hall, New Brighton, in the Borough of Richmond, in The City of New York.

And that, if default shall be made in such payment, such lands and tenements will be sold at public auction, in Room 129, Borough Hall, New Brighton, in the Borough of Richmond, in The City of New York, on

WEDNESDAY, NOVEMBER 20, 1907,

at 10 o'clock in the forenoon of that day, for the lowest term of years at which any person shall offer to take the same, in consideration of advancing the said taxes or assessments, as the case may be, and the interest thereon as aforesaid, to the time of sale, together with the charges of this notice and advertisement, and all other costs and charges accrued thereon; and that such sale will be continued from time to time until all the lands and tenements so advertised for sale shall be sold.

Notice is hereby further given that a detailed statement of such taxes and assessments and the ownership of the property taxed and on which such taxes and assessments remain unpaid, is published in a pamphlet and that copies of the said pamphlet are deposited in the offices of the Collector of Assessments and Arrears in the Boroughs of Manhattan and Richmond, and will be delivered to any person applying for the same.

DANIEL MOYNAHAN,
Collector of Assessments and Arrears
of The City of New York.

The foregoing sale will continue on
WEDNESDAY, JANUARY 15, 1908,
at 10 o'clock a. m., in Room 129, Borough Hall,
Borough of Richmond.

SUPREME COURT—FIRST DEPARTMENT.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the extending of HIGH BRIDGE PARK, as shown on a map filed in the office of the Register of the County of New York, December 21, 1903, in accordance with the plan adopted by the Board of Estimate and Apportionment December 11, 1903, and approved by the Mayor on December 18, 1903, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMIS-sioners of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our first partial and separate estimate of damage and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 27th day of January, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 28th day of January, 1908, at 1 o'clock p. m.

Second—That the abstract of our said first partial and separate estimate of damage, together with our damage maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 6th day of February, 1908.

Third—That, provided there be no objections filed to said

Term thereof, Part I., to be held at the County Court House, in the Borough of Manhattan, in the City of New York, on the 20th day of January, 1908, at 10.30 o'clock in forenoon of that day, or as soon thereafter as counsel can be heard thereon, and that the said bill of costs, charges and expenses has been deposited in the office of the Clerk of the County of New York, there to remain for and during the space of ten days, as required by the provisions of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, January 4, 1908.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of EAST TWO HUNDRED AND THIRTY-THIRD STREET (although not yet named by proper authority), from Bronx river to Hutchinson river; also the PUBLIC PLACE at the intersection of East Two Hundred and Thirty-third street with Morris Park avenue, and the PUBLIC PLACE at the eastern terminus of East Two Hundred and Thirty-third street and Hutchinson river, in the Twenty-fourth Ward, Borough of The Bronx, The City of New York, as amended by an order entered herein discontinuing the above-entitled proceeding, so far as the same affects that part of East Two Hundred and Thirty-third street lying between the westerly side of Baychester avenue and Hutchinson river.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 10th day of January, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 13th day of January, 1908, at 2 o'clock p. m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and

also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 20th day of January, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises, situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at the point of intersection of a line parallel to and distant 1,500 feet southerly from the southerly line of East Two Hundred and Thirty-third street with the centre line of the Bronx river; running thence northerly along the centre line of the Bronx river to its intersection with a line parallel to and distant 1,500 feet northerly from the northerly line of East Two Hundred and Thirty-third street; thence easterly along said parallel line to its intersection with a line parallel to and distant 500 feet easterly from the easterly line of Baychester avenue; thence southerly along said last-mentioned parallel line to its intersection with the easterly prolongation of a line parallel to and distant 1,500 feet southerly from the southerly line of East Two Hundred and Thirty-third street; thence westerly along said prolongation and parallel line to the point or place of beginning; as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 27th day of February, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 252 Jackson avenue, in the Borough of Queens, in The City of New York, on or before the 18th day of January, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 22d day of January, 1908, at 1 o'clock p. m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 252 Jackson avenue, in the Borough of Queens, in said City, there to remain until the 28th day of January, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the southeasterly line of Van Alst avenue with a line parallel to and distant 100 feet northeasterly from the northeasterly line of Paynter avenue; running thence southeasterly along said parallel line to its intersection with the northwesterly line of DeBevoise avenue; thence in a southwesterly direction along the northwesterly line of DeBevoise avenue and along the northwesterly line of Jackson avenue to its intersection with a line parallel to and distant 100 feet southwesterly from the southwesterly line of Paynter avenue; thence northwesterly along the last-mentioned parallel line to its intersection with the southeasterly line of Van Alst avenue; thence northeasterly along the southeasterly line of Van Alst avenue to the point or place of beginning; excepting from said area all streets, avenues and roads, or portions thereof, heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 9th day of April, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, December 20, 1907.

SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the opening and extending of WEBSTER AVENUE (although not yet named by proper authority), from the East river to Jackson avenue, in the First Ward, Borough of Queens, in The City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 252 Jackson avenue, in the Borough of Queens, in The City of New York, on or before the 18th day of January, 1908, and that we, the

said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 22d day of January, 1908, at 10 o'clock a. m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 252 Jackson avenue, in the Borough of Queens, in said City, there to remain until the 28th day of January, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the middle line of the block between Webster avenue and Washington avenue and the southeasterly line of the East river; thence southeasterly along said middle line of the block and its prolongation to its intersection with a line parallel to and 100 feet southeasterly from the southerly line of Jackson avenue; thence southwesterly along said parallel line to its intersection with the southeasterly prolongation of the middle line of the block between Webster avenue and Freeman avenue; thence northwesterly along said prolongation and middle line to its intersection with the southeasterly line of the East river; thence northeasterly along said southeasterly line of the East river to the point or place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 9th day of April, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, December 20, 1907.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the bid or estimate, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
