Mr. ROBERT L. LUCE: DEAR Six.—In reply to your letters of recent date asking for a change of grade of Station place at Williamshridge yard at the New York and Harton Railroad, and inclosing a blue print of Part Two Hundred and Tenth street, from Webster areans to the Bronz river, in the Bossugh of The Bronz, I have to report as follows:

The grades, as established on the final maps and profiles of the Twenty-third and Twenty-touch wards of East Two Hundred and Tenth street, from Webster avenue to Station place, do

nor allow the complete use of the railines) yand between the two (a) avenues. A read bridge over the main tracts of the New York and Harlem Railrond only is provided to, and how them to fration place the height between the tracks and the fature stadies is insufficient to allow the cars to pass under the same.

In order to overcome this defect, and not make the adjoining streets not expensive on account of excessive filling, a shorth was prepared in the Topographical fluorate reducing the width of East Two Hundred and Tenth street, between Welmer avenue and Station place, from 60 to 30 feet, with the insention in provide only a foot bridge, and connect the same by step at Station place with the street, the grades of Station place to be lowered from the filled grades and to conform more closely to the surface of the ground.

Should the railroad company and the adjoining property owners agree upon the project, a petition to the Board of Public Improvements will have to be presented by them. I transmit herewith a sketch showing the proposed amendment to the present lay-out of East Two Hundred and Tenth street and Station place.

Respectfully,

Respectfully,

DEAR SECTION. And directed by the Mayor to return to you berewith Certificate of Tax Sale, issued by the Register of Arrears of the City of Brooklyn under date of July 28, 1886, being registered No. 5, 65, relating to a parcel of land described as Lat No. 1, Block 197, in the Twenty-tourth Ward of the City of Brooklyn, and also a receipt of Edward Gilon, Collector of Assessments and Arrears, ducid March 5, 1900, for \$270.52 paid open application for assignment of said Certificate of Tax Sale, negether with a copy of the opinion of the Corporation Counsel, dated April 2, 1922, with respect to the same.

Kindly acknowledge receipt.

Very respectfully yours,

LAW DEPARTMENT, OFFICE OF THE CORFORATION COUNSEL, NEW YORK, April 2, 1900.

Hon. ROBERT A. VAN WYCK, Master !

518-1 have received the communication of March 15, 1900, signed by your Secretary, which

"I am directed by the Mayor to transmit in you herewith inclosed a Certificate of Tax Sale, issued by the Krgistrar of Arrears of the City of Brooklyn under date of July 28, 1886, being registered No. 6:64, relating to a purcel of land described as Lut No. 1, Block 197, in the Twenty-tourth Ward of the City of Brooklyn, and also a receipt of Edward Gilon, Collector of Assessments and Arrears, dated March 5, 1900, for \$120.62, paid upon application for assignment of said Certificate at Tax Sole.

"I am nother directed by the Mayor to request your opinion as to whether his signature is necessary to an assignment or transfer of this certificate, and if so, whether the prerequisites to an assignment or transfer of the same have been completed with, and particularly whether the proposed assignment indexed on the back of the certificate is correct and formal."

In reply thereto I would say that the assignment of the certificate under consideration seems to have been made in presument of the provisions of section 4 of Title VIII. of the Charter of the City of Brooklyn. The tale provided among other things for the sale of lands for the non-payment of taxes and assessments, and section 4 provided partly as follows:

"The City of Brooklyn may be a purchaser at any sale of lands under the provisions of this title, and the same right, title and effect as any other purchaser, whenever the Mayor, Comptroller and Corporation Counsel, or a majority of them, shall so determine, and the certificates of such sale to said edity and to the Comptroller, who shall, in behalf of said city, cause a notice of said sale to be served on the owners and mortgagers of the lands so purchased, as provided in section 5 of this title. And the Comptroller may, with the assent of the Mayor, assign and convey any of said certificates or the right and title of the City in any lands acquired under such sale on payment of a sum not less than the amount which would be required to redeem such lands under the provisions of this act."

It will be noticed that the assignment of certificates here authorized related only to certificate

In will be noticed that the assignment of certificates here authorized related only to certificates of such sales as were made under the provisions of Title VIII. of the Charter. The certificate of sale accompanying your communication, however, was made in paramance of a sale had under chapter 114 of the Laws of 1882. This act was a special set relating to the arrears of taxes, and water rates existing at the time of its passage in the City of Brooklyn, and provided a means of determining what proportion of such arrears usually fairly be paid in order to cancel the whole indebtechases. For the non-payment of the amounts so fixed sales of the property affected were authorized. The benefits and penalties of this act were limited to the existing limity of arrears. No such provision as is found in Title VIII, above cited is to be found in this act. The only way in which an assignment of such a certificate as that now under consideration could have been made with by authority of the Common Ceancil of the City of Brooklyn, and the only legal way to which it can now be made in ander the authority of the Municipal Assembly as the successor of the Common Council in that respect.

I advise you, therefore, that no action is called for on your part in relation to this certificate.

Respectively yours.

Respectfully JOHN WHALEN, Corporation Counsel, (Signed)

BOARD OF ESTIMATE AND APPORTIONMENT, P. NEW YORK, February 2, 1900.

Hon. P. J. Sciller, City Chris;

DEAR Siz.—Herewith I transmit a copy of a communication from the Department of Street
Cleaning, dated January 23, 1900, containing an estimate for new stock (Bond Ascount) for the
present year for the forcoughs of Manhattan and The Bronx, also a resolution of the Board of
Estimate and Apportionment adopted February 1, 1900.

Very respectfully,

CHAS. V. ADEE, Clerk.

DEPARTMENT OF STREET CLEANING, & NEW YORK, January 23, 1900.

Hon. ROBERT A. VAN WYCK, Mayor, Chairman, Board of Estimate and Apportionment:

Sig-I have the honor to transmit herewith my estimate for New Stock (Bond Account) for the present year. In my opinion, the items enumerated will be necessary to supply and properly equip the boroughs of Manhattan and The Brests. I find that there is a sufficient susplus left over in the Bond Accounts for the other boroughs to suffice for 1920, and therefore the estimate is confined to the two boroughs named.

confined to the two boroughs named.

In submitting this estimate I carnestly desire that it may be allowed just as submitted, as 1 have gone over each of these items and find that the quantities and prices are both as low as the prevailing conditions will admit.

The sum total, as will be seen, amounts to \$444,649, and in this connection I desire in call attention to the fact that in my estimate for Ismil Account for 1899, for the Borough of Queens, there was allowed four (4) crematories for the destruction of refuse at \$30,000 each, amounting to \$120,000, and for the Borough of Richmond there (3) crematories, also at \$30,000, amounting to \$120,000.

\$720,000, and for the Borough of Richmond three (3) trematories, also at \$30,000, annualing to \$90,000.

After these some were allowed, it was for potent reasons considered unadvisable at the time to appropriate the money for the purpose indicated in these two boroughs, consequently the money so allowed has not born used. It is quite within the possibilities that a portion of these amounts for crematories in these two boroughs may be expended in the near future, but even if the contemplated moments are expended, it will still leave a balance in those two accounts for the boroughs of Queens and Richmond sufficient for the needs of the boroughs of Manhattan and The Bronx for the present year.

Therefore if the \$144,540 could be transferred from the \$220,000 appropriated for crematories in Queens and Richmond, to the Bond Account of the boroughs of Manhattan and The Bronx, in the following manner—\$50,000 from the \$120,000 in the Bond Account for Queens, and \$64,649 from the \$50,000 in the Bond Account for Richmond—it would provide the necessary \$44,040 in the Bond Account for the boroughs of Manhattan and The Bronx, thus obviating the necessity for a bond issue for that purpose.

This request is made subject to the action of the Board of Public Improvements and consent of the Municipal Assembly, if such action and consent are legal requirements.

The following are the items with their prices, which, is my judgment, are necessary:
