BOARD OF STREET OPENING AND IMPROVEMENT.

The Board of Street Opening and Improvement met at the Mayor's Office, on Friday, February 17, 1888, at 1 o'clock P. M., pursuant to the following notice:

OFFICE OF THE BOARD OF STREET OPENING AND IMPROVEMENT,
MAYOR'S OFFICE, NEW YORK, February 16, 1888.

SIR—You are respectfully requested to attend a meeting of the Board of Street Opening and Improvement, to be held at the office of the Mayor, on Friday, February 17, 1888, at 1 o'clock P. M., to take into consideration unfinished business and such other matters as may be brought before the Board.

Yours, respectfully,
WM. V. I. MERCER, Secretary.

Present—Abram S. Hewitt, Mayor; Theodore W. Myers, Comptroller; John Newton, Commissioner of Public Works; M. C. D. Borden, President of the Department of Public Parks; George H. Forster, President of the Board of Aldermen.

All the members present.

The minutes of the meeting of February 3, 1888, were read and, on motion, approved.

The Secretary presented and read the following communication from the Counsel to the Corporation, which was ordered to be printed in full in the minutes:

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION,
NEW YORK, February 16, 1888.

Hon. ABRAM S. HEWITT, Mayor and Chairman of the Board of Street Opening and Improvement:

SIR—I observe in the minutes of the proceedings of the Board of Street Opening and Improvement, at a meeting held on the 3d instant, that a resolution was passed laying out a park between Mulberry, Baxter, Park and Bayard streets, and requesting the Counsel to the Corporation to take the necessary proceedings, in the name and on behalf of the Mayor, Aldermen and Commonality of the City of New York, to acquire title to said lands for the purposes of said park, in accordance with the provisions of chapter 320 of the Laws of 1887.

The law in question, in section 1, provides for the laying-out of public parks in the City of New York, south of One Hundred and Fifty-fifth street, from time to time, in the discretion of the Board. It also provides as follows: "In the case of each park selected, located and laid out as herein provided, the said Board of Street Opening and Improvement shall have the power to determine, in its discretion, whether any, and if any, what proportion of the expense to be incurred in acquiring the land for such park shall be assessed upon the property, persons and estates to be benefited by the acquisition and construction of such park, and in each case in which the said Board shall determine that any part of such expense shall be so assessed, the said Board shall also determine the area within which such part of said expense shall be so assessed."

It, in the case in question, the Board of Street Opening and Improvement proposes to provide for any assessment for benefit by reason of said park, it should take action in the matter before application is made to the court for the appointment of Commissioners of Estimate and Assessment. The reason for this will be obvious when I state that upon such an application any property-owner who might be affected by any assessment would have the right to appear before the court and be heard upon the question of the appointment of the Commissioners.

I have, therefore, ventured to anticipate the receipt of a copy of your resolution by addressing you now upon this subject, in order that as little time may be lost as possible in taking such action in the matter as may commend itself to your judgment. Should you be of the opinion that an assessment should be laid, I would recommend a reconsideration of the resolution requesting the Counsel to the Corporation to take proceedings to acquire title to the property in question, and the adoption of a new resolution which, while making such request, shall also specify whether any, and if any, what proportion of the expense to be incurred in acquiring land for such park, shall be assessed upon the property, persons and estates to be benefited by the acquisition and construction of such park, and if your Board shall determine that any part of such expense shall be so assessed, specifying the area within which such part of said expense shall be so assessed.

Yours, respectfully,
HENRY R. BEEKMAN, Counsel to the Corporation.

The President of the Department of Public Parks offered the following resolution:

Resolved, That the resolution adopted by this Board on February 3, 1888, requesting the Counsel to the Corporation to take proceedings for acquiring title to land required for a park at Baxter, Park, Bayard and Mulberry streets, be reconsidered.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Commissioner of Public Works, the President of the Department of Public Parks, the President of the Board of Aldermen—5.

On motion of the Mayor, the Comptroller, the Commissioner of Public Works and the Counsel to the Corporation were appointed a committee to examine and report to the Board of Street Opening and Improvement, with recommendations, as to whether any, and if any, what proportion of the expense to be incurred in acquiring title to the land required for the contemplated park at Baxter, Bayard, Mulberry and Park streets shall be assessed upon the property and estates deemed to be benefited by the acquisition and construction of such park, and in case it is recommended that any part of such expense shall be so assessed, to report the area within which such part of such expense shall be so assessed, or whether the whole expense should be borne by the City.

Which was adopted.

The Secretary presented and read the following communications from the Department of Public Parks, which were ordered to be printed in the minutes:

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS,
COMMISSIONER'S OFFICE, NOS. 49 AND 51 CHAMBERS STREET,
February 13, 1888.

Mr. W. V. I. MERCER, Secretary Board of Street Opening and Improvement:

SIR—It being the desire of the owners of the property within the lines of Wolf street, from Union street to the Harlem river, to cede the same to the City in pursuance of chapter 407 of the Laws of 1886, I am directed by the Board of Parks to forward the enclosed form of resolution for adoption by the Board of Street Opening and Improvement, to discontinue the proceeding now pending to open that part of Wolf street lying between Sedgwick avenue and Union street, in the Twenty-third Ward. I also enclose herewith copy of a report of the Topographical Engineer of this Department, in which the matter is fully explained, and am,

Yours, respectfully,
CHARLES DE F. BURNS, Secretary Department of Public Parks.

NEW YORK, January 25, 1888.

Mr. CHARLES DE F. BURNS, Secretary, Department Public Parks:

SIR—My communication to you of the 20th instant, stating that Mr. Andrew H. Green desired to have the proceeding to open Wolf street, from Union street to Sedgwick avenue, discontinued, with a view to having the land ceded to the City for the opening of the street from Union street to the Harlem river, and enclosing a resolution to discontinue said proceeding, having been referred back to me by the Board on the 23d instant for additional report, I have the honor to state, Wolf street is of the first class from Union street to Sedgwick avenue, and of the second class from Sedgwick avenue to the Harlem river. The street being required to be opened for drainage purposes, proceedings were initiated at the request of this Department, for the opening of the first-class portion, that is, from Union street to Sedgwick avenue.

The second-class portion, between Sedgwick avenue and the Harlem river, is particularly required to be opened as an outlet to the sewer in that street, which sewer will be the main outlet sewer for a large sewerage district. The second-class portion can, however, only be opened on the petition of the owners of at least one-third of the frontage on the street, and on the intersecting streets for 500 feet in each direction from such intersection. No application has been made to open this portion. The William B. Ogden estate owns all but 130 feet of the land fronting on the north side of the street, and when Mr. Green, who is one of the executors of that estate, learned from me several months since that proceedings had been initiated to open the first-class portion, he stated that he would ask to have the proceeding discontinued, and that he and the other abutting owners would cede to the City the land required for the opening from Union street to the Harlem river, that is, through both the first and second class portions; and that they not only preferred to cede the land, but also to build the required sewer at their own expense. On the 10th instant, when the rule map in the proceeding to open the first-class portion was ready to be sent, I wrote to Mr. Green, informing him of the fact, and calling his attention to what he had said relative to discontinuing the proceeding. He sent me word the next day, by one of my assistants, that he would make the request to have the proceedings discontinued, and asked me in the meanwhile to hold back the rule map. On the supposition that he had accordingly made such request, and given the reasons therefor, I simply referred to his expressed desire in the matter, and enclosed the form of resolution to be passed by the Board of Street Opening and Improvement.

Very respectfully,
S. F. CHALFIN, Topographical Engineer, Department Public Parks.

The President of the Department of Public Parks offered the following resolution:

Resolved, That the Counsel to the Corporation be and, he is hereby respectfully requested to discontinue the proceeding to open Wolf street, from Sedgwick avenue to Union street, in the Twenty-third Ward of the City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Commissioner of Public Works, the President of the Department of Public Parks, the President of the Board of Aldermen—5.

Yours, very respectfully,

for the fourth best, a premium of TWO THOUSAND
DOLLARS, and for the fifth best, a premium of ONE
THOUSAND DOLLARS. But no obligation shall rest upon the Commission to award
premiums to any plan which shall not be regarded as
meritorious.

The promoted plans shall become the property of the
City, and may be used and combined in any manner
which the Commission may approve. No obligation
shall be created by the acceptance of any plan to employ
the author thereof as the architect to construct the
building, it being discretionary with the Commissioner of
Public Works to determine in what manner the super-
vision of the building shall be provided for. Each plan
submitted shall be marked with such assumed designa-
tion as the architect may select, provided there shall be
filed with the Mayor a sealed envelope giving the real
name of the author of the plan so designated, which will
not be opened until after the award of the premiums.

For Lithograph copies of the general plans of the
building, adopted by the Commissioners of the Sinking
Fund October 7, 1887, can be obtained by architects
upon application at the Comptroller's Office

designated place or places within a radius of two and a half miles of the same.

3,500 cubic yards of trap-rock stone, 1,800 cubic yards of screenings and 1,000 cubic yards of gravel can be discharged at Kingsbridge, but are to be hauled, when required, to any designated place or places within a radius of two miles and a half of the same.

All the gravel to be furnished and delivered shall be of the kind generally known as Roa Hook Gravel, and equal in all respects to the gravel bank situated on the east side of the Hudson river, north of Peckskill, and known as the Roa Hook Gravel Bank. It shall be of the best quality double-screened gravel, and clean and free from loam and dirt, and in grade such as will pass through a screen with a two-inch mesh diagonal measure, but not to contain more than fifteen per cent. and not less than ten per cent. of material that will pass through a screen with a mesh having a diagonal measure of one thirty-second of an inch.

Bidders must satisfy themselves by personal examination of the location of the roads, avenues and streets in the Twenty-third and Twenty-fourth Wards, where the material is to be delivered; also as to the distances from any pier or dock, or depth of water where such material can be landed, and shall not at any time after the submission of an estimate, dispute or complain, nor assert that there was any misunderstanding in regard to the places, or the nature or amount of work to be done.

Bidders will be required to complete the entire work to the satisfaction of the Department of Public Parks, and in substantial accordance with the specifications for the work. No extra compensation will be made payable for the several classes of work before enumerated, which shall be actually performed at the prices therefor, to be specified by the lowest bidder, shall be due or payable for the same.

The person making any bid or estimate must furnish the same inclosed in a sealed envelope, to the head of said Department, at his office, on or before the day and hour above mentioned.

The envelope must be indorsed with the name or names of the person presenting the same, the date of its presentation, and a statement of the work to which it relates.

The estimates received will be publicly opened by the head of the said Department at the place and hour last above mentioned and read.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his or her sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and the sum to which he would be entitled on its completion, if he had executed the same. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above his liabilities as bail, surety or otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimates, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

N. B.—The prices must be written in the estimate and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items for which bids are called for or which contain bids for items for which bids are not herewith called for. Permission will not be given for the withdrawal of any bid or estimate. No bid will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The amount in which security will be required for the performance of the contract is \$25,000.

The Department of Public Parks reserves the right to reject any or all the bids received in response to this advertisement if it should deem it for the interest of the city so to do, and to readvertise until satisfactory bids or proposals shall be received. But the contract, when awarded, will be awarded to the lowest bidder.

Blank forms for proposal and forms of contract, which the successful bidder will be required to execute, can be had at the office of the Secretary, and Nos. 49 and 51 Chambers street.

N. B.—As the above-mentioned quantities, though stated as approximate, are as possible in advance, are approximate only, bidders are requested to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination, of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work, to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work of removing that portion of the old pier and shed thereon to be removed under this contract is to be commenced on the 1st day of March, 1888, or at such subsequent date as may be directed by the Engineer, and all work to be done under the contract (except the removal of the shore end of the pier, which will not be constructed until the bulkhead wall in the rear is erected) is to be fully completed on or before the 30th day of June, 1888, or within as many days thereafter as the site of the new pier may have been actually occupied by the Department of Docks after the removal of the old pier to be removed under this agreement, in dredging for the pier, and within as many days thereafter as may transpire after the 1st March, 1888, before a subsequent date, if any, to be fixed as above by the Engineer for the beginning of the work under this agreement. And the said about 100 feet to be completed within thirty days after notice shall be given to the Contractor by said Department of Docks that work on the said about 100 feet may be begun; and the damages to be paid by the Contractor for each day that the contract may be delayed after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

All the old material taken from said Pier, old 36, and the shed thereon, to be removed under this contract, is to be relinquished to the Contractor, and bidders must estimate the value of such material when considering the price for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be bound at this office, with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned the contract, and as in default of the Corporation; and the contract will be re-advertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of the persons interested with them; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and true, without collusion or fraud; and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are true in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any sum that may be awarded by the Corporation, or that may be paid by the Corporation to the person or persons to whom the contract may be awarded, in any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as surety or otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval of the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but he shall not forfeit the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if deemed for the interest of the Corporation of the City of New York.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

All lumber to be delivered at Blackwell's Island.

—will be received at the Department of Public Charities and Correction, in the City of New York, until 9 o'clock a. m. of Friday, March 9, 1888. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, marked "Bid or Estimate for Groceries, Dry Goods, Lumber, etc.," with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be

entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be enclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him, or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the sample of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine. Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

Dated New York, February 27, 1888.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be

entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be enclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him, or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the sample of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine. Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

Deputy and Acting Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, November 10, 1886.

NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore given to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of waste of water occurring through leaks, from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will be allowed for any portion of one year.

Commissioner of Public Works.

SCHEDULE No. 5.

This is a list of claims received for collection, showing their disposition. To a certain extent it is intended to be a ledger account with the various departments transmitting claims, with the qualification that when a claim is put in suit, it disappears from this schedule to reappear in one or more of those concerned with litigated business. The recapitulation of this schedule is at present incomplete. I have reason to believe, however, that it will be fully made up when the detailed schedules are sent to you. The collections for the year are shown in the cognate schedule No. 8, *post*.

SCHEDULE No. 6.

This is a list of the payments from the appropriations for contingencies and special services for the office of the Counsel to the Corporation, exclusive of salaries and the payments for the Bureaus. The amounts thus disbursed were:

General Contingencies	\$20,447 16
Contingent Counsel Fees	44,099 72
For preparing and presenting case of the City before Commission for New Parks in Annexed District and Westchester County	14,943 28
Total	\$79,490 16

SCHEDULE No. 7.

This is a table showing the disposition of calendar cases. It shows what actions and special proceedings appeared on the day calendars of the courts during the year; which ones were tried or argued, with the results of such trials or arguments, and which were adjourned. But a very small number of adjournments were had on the City's motion, and it may confidently be asserted that nine-tenths of the cases included in the list were fully prepared for trial by this office. This fact must be borne in mind when the table is examined as a record of work done, because the labor of preparation is almost always greater than the labor of trial or argument. If the Department were to be credited only with the cases actually disposed of the full measure of its yearly work would not be appreciated. The complete details of Schedule No. 7 are not, at present writing, available to me. A statement of the essential results accomplished by the office in court during the year is embraced, however, in the table inserted at the end of this report in which the work of the three years, 1885, 1886 and 1887, are contrasted.

SCHEDULE No. 8.

This is a list of the moneys collected by the Office of the Corporation Counsel, as distinguished from the bureaus, during the year. The total, including the amount of the Erie settlement herein-after mentioned, was \$435,533.24.

SCHEDULE No. 9.

This is a table showing the condition and disposition of street and park opening proceedings. The year has been one of extraordinary and unprecedented activity in street opening proceedings, and I view the results with great satisfaction.

The following table, exhibiting a contrasted statement between 1886 and 1887, speaks for itself:

	1886.	1887.
Lineal feet of streets opened	850	28,935.80
Total amounts of awards	\$151,320 00	\$299,800 21
Total amount of assessments	151,725 00	269,429 30

Number of proceedings discontinued	4	2
Number of proceedings pending December 31	54	66

MISCELLANEOUS WORK.

Water-front Litigation.

In matters relating to the water-front of the City the record for the year presents several matters of great importance. In April the action against the executors, etc., of George Law, was finally decided in favor of the City by Hon. H. C. Van Vorst, the Referee therein. By this decision valuable wharf property on the East river at the foot of Tenth street was secured to the City, and a precedent established by which it will become entitled to several valuable pieces of pier property between Sixth and Thirteenth streets.

In June the General Term of the Supreme Court handed down decisions reversing the judgment in the case of Kingsland, and setting aside reports of amount of damage in Langdon against the Mayor, establishing the important principle as claimed by the City, that in estimating the value of wharfage rights taken by the City in connection with the West street improvement, it is improper to include the value based upon and derivable from the use or rental of sheds built upon the land under water in front of the bulkhead. The amount directly involved in these decisions is over \$700,000, and the saving to the City involved in the application of the principle to other like property will be several millions more. Several important acquisitions of property on the North river for the purpose of this improvement have been made, requiring the advice and assistance of this Department. The Comptroller has made a settlement and adjustment of the claims in the important action brought against the heirs and devisees of Henry A. Burr, deceased. By this settlement the City secures the preemptive and water rights of the owners in front of the block between Twenty-seventh and Twenty-eighth streets, North river, relinquishes to the owners the land partly filled up by them from Eleventh to Thirteenth avenue, and receives in cash therefor nearly \$100,000.

The City's Interests at Albany.

An important part of the work of the Counsel to the Corporation consists in watching the course of legislation affecting the interests of the City, and this duty increases each year as the volume of proposed legislation grows greater. For some years past the exclusive attention of one of the Assistants has been devoted to this portion of the work, from the commencement of the legislative session in January to the final hearings before the Governor during the thirty days allowed him after the adjournment of the Legislature to pass upon all bills left in his hands.

During the session of 1887 upwards of 300 bills directly affecting the public interests of the City were introduced, and of these 268 were found upon examination to be of sufficient importance to require records to be kept showing their progress. Each bill, when introduced, was carefully examined, and a record made of its introductory number, the title, and, in a summary form, its purpose, as well as a note of the Committee to which it was referred. Each bill was then compared with existing laws for the purpose of determining its precise effect, and the Assistant detailed for that duty appeared before the Committee to which the bill was referred opposing it, favoring it, or suggesting amendments, as the occasion might require. Of the bills of which such a record was kept at the last session of the Legislature, 34 were prepared by the Law Department at the request of the Mayor, or of some of the heads of departments. To 26 others amendments were drawn for the purpose either of eradicating objectionable provisions, or of conforming the proposed bill to existing laws.

Of the bills thus introduced, nearly 100 passed both houses of the Legislature and went to the Governor for action. In the case of each bill thus passed, it became necessary to carefully examine the engrossed bill and compare it with the printed bill acted upon by the Legislature, and in every case of a bill affecting the City's interests, which reached the Governor, a brief was prepared and submitted to him showing the purpose and effect of the bill, and stating the approval or disapproval of the municipal authorities.

Eighty-nine bills directly affecting the City of New York became laws. The results attending this careful and laborious scrutiny and watchfulness over proposed legislation have been found to be most satisfactory.

Number of Opinions Given.

Another very important branch of the office work, the nature and extent of which is perhaps not fully appreciated by the public, is the preparation of opinions. During 1887 there were opinions given, as follows:

Comptroller	247
-------------------	-----

Public Works Department	77
Dock Department	12
Park Department	48
The Mayor	56
Police Department	45
Fire Department	7
Street Cleaning Department	2
Aqueduct Commission	14
Board of Street Openings	7
Department of Charities and Correction	9
Common Council	14
Board of Assessors	12
Taxes and Assessments	6
Board of Estimate	12
Board of Education	1
Board of Revision and Correction of Assessments	1
Armory Board	9
Board of Electrical Control	2
Total	581

There were received from the Police Department 339 reports of accidents, which were examined into and filed.

There were received from the Finance Department 975 requests for the examination of claimants. Oral examinations, under oath, were conducted in 510 of these; that 510 claimants only were examined, where 975 requests for examination were received, is explained by the fact that a large number of the claims filed were in assessment matters, where, all the facts being already within the knowledge of City officers, examinations were unnecessary.

There were contracts examined or drafted and approved as to form, as follows:

Department of Public Works	243
Department of Public Parks	29
Department of Charities and Correction	66
Department of Docks	26
Fire Department	14
Armory Board	12
Aqueduct Commission	10
Police Department	3
Total	397

GENERAL REMARKS.

The office force, which varied from time to time during the year, owing to various causes, consisted at its close, as shown by the December pay-roll, of:

The Counsel to the Corporation.
One First Assistant.
Seven Assistants.
Eight Junior Assistants.
Four Senior Law Clerks.
Four Junior Law Clerks.
One Chief Clerk.
One Deputy Chief Clerk.
One Register Clerk.
Four Clerks.
One Copyist.
Five Typewriters.
Five Stenographers.
Two Examiners.
One Librarian.
Three Messengers.
Two Messenger Boys.

In all, 51 individuals; at the end of the year 1886, 44 individuals composed the force.

THE RING SUITS.

It is proper to make some mention of the litigation which arose out of the frauds perpetrated by the Tweed Ring.

When I was appointed to be Counsel to the Corporation, I found a number of old suits still pending and undisposed of. With regard to these cases, I ascertained that it was recommended in May, 1885, by Horace E. Deming, Esq., Special Counsel to the Commissioners of Accounts, in his report on the office of the Counsel to the Corporation, that as soon as possible the Corporation Counsel should secure written reports from the various eminent counsel who had been originally retained by the City, as to whether it was desirable to prosecute the cases further, or whether on account of defective proof or the pecuniary irresponsibility of the defendants, the cases should be discontinued. With the intention of finally disposing of these old cases, my predecessor, Judge Lacombe, addressed letters to several of the counsel in whose hands, respectively, the cases appeared to be, inquiring as to the status of each case, and Judge Lacombe, himself, collected a great deal of information touching the situation and present condition of the respective defendants. Following upon the lines indicated by him, I pursued further inquiries as to this group of old cases and consulted Judge Lacombe about them, and advised with eminent counsel. In pursuance of the recommendations made by these gentlemen, namely: Messrs. Wheeler H. Peckham, Francis C. Barlow, James C. Carter, Thomas Allison and George Ticknor Curtis, I wrote you on the 12th instant, enumerating 31 separate suits, that it was my intention to finally dispose of them all by appropriate stipulations with the respective defendants or their representatives, unless good reason should be shown to the contrary.

Considerable public interest seems to have been excited by this recommendation, and further inquiries are now being made concerning one of the cases, in view of facts recently called to our attention. I feel satisfied, however, that it will be the better course to discontinue them as originally proposed, with perhaps one or two exceptions; and I shall make a suggestion accordingly, to my successor.

THE ERIE SETTLEMENT.

Among the moneys collected during the year was the sum of one hundred thousand dollars (\$100,000), received from the New York, Lake Erie and Western Railroad Company in settlement of taxes and assessments imposed upon the premises bounded by Washington, West, Duane and Reade streets, in this city, since 1869.

These premises are occupied by the railroad company under a lease made in 1850 by the City to the old New York and Erie Railroad Company. The lease contained a covenant that the lessee should pay the taxes and assessments imposed upon the premises during the term of the lease; but since 1869 the company and its predecessors have declined to pay.

In 1878, therefore, an action was brought to recover the taxes and assessments accrued at that time. The company defended, and retained eminent counsel who contended that only taxes and assessments to be imposed upon their leasehold interest was intended by the covenant and that as they were imposed upon the fee, the company was not bound to pay them, and further that the City had no right to tax its own property and so could create no obligation thereby which the company was bound to discharge. Other questions arose as to whether the present corporation was liable at all for the taxes and assessments accruing before its organization. The legal propositions presented by these contentions are not free from doubt, and although many offers of settlement at a much

THE CITY RECORD.

SUPPLEMENT.

smaller amount were made and rejected as being inadequate, the one mentioned was regarded as very advantageous to the City, and was therefore accepted, and this long pending litigation disposed of.

In his annual report for 1885, Judge Lacombe stated that the force provided to deal with the business of 1886 was for the first time in several years adequate to cope with the demands of current business, and at the same time attack the large accumulation of unfinished cases; it was shown that more work was done in the year 1885 than in the preceding years, and confidence was expressed that "the ensuing year (1886) would witness a still greater measure of equally efficient work." And so it was. Equally significant, however, is the record of the work done in 1887, as the following table will show:

	1885.	1886.	1887.
Total actions and special proceedings pending and undisposed of December 31, 1887.....	5,646	4,960	4,600

Total cost to the City of the Office of the Counsel to the Corporation.....	\$136,397 51	\$148,378 56	\$176,645 40

The municipal tax-payers can view this statement with entire satisfaction. Considering the nature and extent of the City's legal affairs, it clearly appears that the transactions of the year, which are probably greater than those of any other law office in the United States, have been conducted on sound business principles.

The ensuing year will make large demands upon the office, but with the existing force and equipment and with the means recently appropriated to carry on the work, the record for 1888 should exhibit equally substantial results.

I am, sir, very respectfully yours,

MORGAN J. O'BRIEN,

Counsel to the Corporation.

Schedule 9.

REPORT OF STREET OPENING PROCEEDINGS FOR YEAR 1887.

OFFICE OF THE CLERK OF STREET OPENINGS,
NEW YORK, December 31, 1887.

Hon. MORGAN J. O'BRIEN, Counsel to the Corporation:

SIR—I have the honor to transmit herewith report of street opening proceedings for the year terminating December 31, 1887.

You will observe that the report is in a somewhat different form from that heretofore adopted. The change, I think, will render the report more convenient and easy of reference.

The statistics of the work performed during the year are embraced in six schedules, as follows:

SCHEDULE 1.

This schedule is sub-divided into two heads "A" and "B."

"A" is a complete list of proceedings considered during the year terminating December 31, 1887, showing the length of the street or avenue or portion of the street or avenue sought to be opened, and where reports were confirmed during the year or preliminary reports completed, the amount of awards, total assessment, number of parcels assessed and number of city lots assessed.

"B" is a statement showing the condition of each proceeding, considered under "A," on the 31st day of December, 1887.

This schedule shows that there have been under consideration during the year ninety proceedings.

SCHEDULE 2.

This is a list of proceedings confirmed during the year, with the dates of the entries of orders of confirmation.

It appears from this schedule that there have been confirmed during the year twenty-four proceedings.

SCHEDULE 3.

This is a list of proceedings discontinued during the year, with the dates of the entries of orders of discontinuance.

This schedule shows that two proceedings have been discontinued during the year.

SCHEDULE 4.

This is a list of proceedings instituted during the year, with the dates of the appointments of Commissioners of Estimate and Assessment.

The number of proceedings instituted during the year as shown by this schedule is thirty-six.

SCHEDULE 5.

This is a list of proceedings pending on the 31st day of December, 1887.

This schedule shows the number of proceedings pending to be sixty-six.

SCHEDULE 6.

This is a list of proceedings in which appeals have been taken to the General Term, either on the part of the City or on the part of property-owners.

The number of such proceedings is shown by this schedule to be four.

These schedules are followed by a summary of the work performed during the year.

It will be observed that the aggregate of the awards is somewhat over \$30,000 greater than the aggregate of the assessments.

The explanation of this is that in the Twenty-second Ward Park matter there was, under the provisions of the act pursuant to which title was sought to be acquired, no assessment levied for benefit.

The communications written during the year greatly exceed those written last year, aggregating thirteen hundred and eighty-two.

Respectfully yours,

CARROLL BERRY, Clerk of Street Openings.
