The following communication from his Honor the Mayor was read:

CITY OF NEW YORK—OFFICE OF THE MAYOR, }
June 1, 1899. }

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements, New York:

DEAR SIR—I inclose herewith a copy of chapter 567 of the Laws of 1899, being an amendment to the Labor Law.

This Act, by its terms, took effect on May 12, 1899.

Aside from the responsibility imposed on city officers by this act, it is their duty to see that this amendment and the entire statute known as the "Labor Law," of which it is a part, are enforced not merely according to their letter, but according to their spirit.

Every public officer should see to it that all proposals for work and all contracts for public work, payment for which is to be made from the City Treasury, shall contain such provisions, in clear and unmistakable language, as will insure the complete enforcement of the law.

To secure this end, the Corporation Counsel should be consulted.

Respectfully yours,

ROBERT A. VAN WYCK, Mayor.

CHAPTER 567.

AN ACT to amend chapter four hundred and fifteen of the Laws of eighteen hundred and ninety-seven, entitled, "An act in relation to Labor," constituting chapter thirty-two of the general laws relative to the hours of labor and the prevailing rate of wages. Became a law May 12, 1899, with the approval of the Governor. Passed, three-fifths being present. The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section third of chapter four hundred and fifteen of the laws of eighteen hundred and ninety-seven, entitled "An act in relation to labor, constituting chapter thirty-two of the general laws," is hereby amended to read as follows:

3. Hours to constitute a day's work.—Eight hours shall constitute a legal day's work for all classes of employees in this state except those engaged in farm and domestic service, unless otherwise provided by law. This section does not prevent an agreement for overwork at an increased compensation except upon work by or for the state or a municipal corporation or by contractors or sub-contractors therewith. Each contract, to which the state or a municipal corporation is a party which may involve the employment of laborers, workman or mechanics shall contain a stipulation that no laborer, workman or mechanic in the employ of the contractor, sub-contractor or other person doing or contracting to do the whole or a part of the work contemplated by the contract shall be permitted or required to work more than eight hours in any calendar day, except in cases of extraordinary emergency caused by fire, flood or danger to life or property. The wages to be paid for a legal day's work, as hereinbefore defined, to all classes of such laborers, workmen or mechanics upon all such public work, or upon any material to be used upon or in connection therewith, shall not be less than the prevailing rate for a day's work in the same trade or occupation in the locality within the state where such public work, or about and in connection with such labor, is performed in its final or completed form is to be situated, erected or used. Each such contract hereafter made shall contain a stipulation that each such laborer, workman or mechanic employed by such contractor, sub-contractor or other person on, about or upon such public work, shall receive such wages herein provided for. Each contract for public work hereafter made shall contain a provision that the same shall be void and of no effect unless the person or corporation making or performing the same shall comply with the provision of this section; and no such person or corporation shall be entitled to receive any sum, nor shall any officer, agent or employee of the state or the municipal corporation pay the same or authorize its payment from the funds under his charge or control to any such person or corporation for work done upon any contract which in its form or manner of performance violates the provisions of this section, but nothing in this section shall be construed to apply to persons regularly employed in state institutions.

2. Section four of chapter four hundred and fifteen of the laws of eighteen hundred and ninety-seven, article one, entitled "An act in relation to labor constituting chapter thirty-two of the general laws" is hereby amended so as to read as follows:

4. Violation of the labor law.—Any officer, agent or employee of this state or of a municipal corporation therein having a duty to act in the premises who violates, evades or knowingly permits the violation or evasion of any of the provisions of this act shall be guilty of malfeasance in office and shall be suspended or removed by the authority having power to appoint or remove such officer, agent or employee, otherwise by the governor. Any citizen of this state may maintain proceedings for the suspension or removal of such officer, agent or employee or may maintain an action for the purpose of securing the cancellation or avoidance of any contract which by its terms or manner of performance violates this act or for the purpose of preventing any officer, agent, or employee of such municipal corporation from paying or authorizing the payment of any public money for work done thereupon.

3. All acts or parts of acts inconsistent with the provisions of this act, in so far as they are inconsistent, are hereby repealed. But nothing in this act shall apply to any existing contract for public work.

4. This act shall take effect immediately.

State of New York, Office of the Secretary of State, ss.:

I have compared the preceding with original law on file in this office, and do hereby certify that the same is a correct transcript therefrom, and the whole of said original law.

Given under my hand and the seal of office of the Secretary of State, at the City of Albany, this 27th day of May, in the year one thousand eight hundred and ninety-nine.

[L. S.]

J. B. H. MONGIN, Deputy Secretary of State.

And the following resolution was thereupon adopted:

"Whereas, The act in relation to labor, section 3, chapter 415, Laws of 1897, constituting chapter 32 of the General Laws, has been amended by the Legislature of 1899, making it necessary to insert additional provisions in all contracts, now be it

Resolved, That, in pursuance of section 416, subdivision 13, chapter 378, Laws of 1897, the following clauses in accordance with said law shall hereafter be inserted in all contracts for public work or supplies or agreements in relation thereof, by which the city shall be liable to pay money:

1st. No mechanic, workman or laborer employed in the performance of this contract, shall be permitted or required to work more than eight hours in any calendar day, except in cases of extraordinary emergency caused by fire, flood, or danger to life and property.

2d. All mechanics, workmen and laborers employed in the performance of this contract shall receive not less than the prevailing rate of wages in the respective trades or callings in which such mechanics, workmen or laborers are employed in this locality, and this said contract shall be void and of no effect, and no official or employee shall pay funds or authorize or certify the payment of any funds on account of same, unless the provisions of this section have been complied with.

Section 3, chapter 507, Laws of 1899.

Resolved, That the above be submitted to the Corporation Counsel for his approval.

Affirmative—Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges, President of the Borough of Richmond, President of the Board. Negative—None.

In the matter of the proposed widening of One Hundred and Forty-fifth street, which was laid over at the last meeting, the following petition in opposition to the widening was submitted by Mr. John C. Shaw, attorney for Mary G. Pinkney:

To the Board of Public Improvements:

The petition of Mary G. Pinkney respectfully represents to your Honorable Body—

That she is the owner of all property affected by the proposed plan for the widening of One Hundred and Forty-fifth street, between Lenox avenue and the bulkhead line, and according to which it is intended to widen the street twenty-five feet on the northerly and southerly sides thereof.

That One Hundred and Forty-fifth street was laid out by the Commissioners under the Act of 1807 as a hundred foot street, but, by reason of the fact that One Hundred and Forty-fifth street bridge will occupy seventy feet of the middle of the street, the present street will be reduced to a width of only fifteen feet on either side of the approach for the proposed bridge. If the street is widened twenty-five feet on either side it will then only be forty feet wide, including the sidewalk. If the sidewalk is fifteen feet wide, as it is to be upon the present One Hundred and Forty-fifth street, the roadway will only be twenty-five feet wide; if the sidewalk is reduced to the width of twelve feet, there would only then be a driveway of twenty-eight feet, which, in the opinion of the undersigned, is entirely inadequate when the question of access to the water front is to be taken into consideration.

That the Dock Department has prepared plans for the development of this territory, showing basins of varying depths along the bulkhead line, and it is important to the owner of this property which will be affected by the proposed improvement that the access to this water front shall be as great, at least, as over an ordinary street.

Your petitioner, therefore, respectfully requests that the said widening on the southerly and northerly sides of One Hundred and Forty-fifth street, shall be increased at least five feet more, so that the carriageway should be of the width, at least, of thirty feet.

All of which is respectfully submitted,

MARY G. PINKNEY,

By JOHN C. SHAW, Attorney.

In the matter of closing and discontinuing that portion of Van Brunt's or Bennett's lane, between Third avenue and Shore road, not included within Seventy-ninth street, in the Borough of Brooklyn, the report of the Secretary was read showing that the matter had been duly advertised for a hearing on June 7, as provided by law.

No one appearing in opposition to the proposed closing, the following resolution was adopted:

Whereas, At a meeting of this Board, held on the 17th day of May, 1899, resolutions were adopted proposing to alter the map or plan of The City of New York, by closing and discontinuing that portion of Van Brunt's or Bennett's lane, between Third avenue and Shore road, which is not included within Seventy-ninth street, in the Borough of Brooklyn, City of New York, and for a meeting of this Board to be held in the office of this Board on the 7th day of June, 1899, at 2 o'clock P. Affirmative—Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Public Buildings, Lighting and Supplies, Commissioner of Bridges, President of the Borough of Brooklyn and President of the Board.

Negative—None.

In connection with the foregoing resolution, the following form of ordinance was approved for transmission to the Municipal Assembly:

At the request of the President of the Borough of Brooklyn, the matter was laid over for one week.

In the matter of the laying out and extending of East One Hundred and Sixty-fifth street, from Third avenue to Boston road, Borough of The Bronx, the report of the Secretary was read showing that the matter had been duly advertised for hearing on June 7, as provided by law.

In the matter of widening Clinton avenue, in the Borough of Brooklyn, the following resolution was adopted:

Whereas, Chapter 257 of the Laws of 1899 provides that "the boundaries of Clinton avenue, in the Borough of Brooklyn and The City of New York, are hereby so changed that between Gates avenue and Willoughby avenue, the eastern side or line of said Clinton avenue shall be twenty (20) feet east of its present easterly side or line, and its westerly side or line shall be twenty (20) feet west of its present westerly side or line;" and the said chapter further provides that "immediately

after the passage of this act the Board of Public Improvements of The City of New York shall cause said avenue to be widened as herein provided," in such manner as is provided by existing laws for the opening of streets, and "shall fix the limits of the district of assessment for the expense of the improvement by this act authorized," therefore,

Resolved, That the Board of Public Improvements of The City of New York, in pursuance of the provisions of chapter 257, Laws of 1899, does hereby request the Corporation Counsel to make application to a special term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings in the name of The City of New York, to acquire title, whenever the same has not been heretofore acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and widening Clinton avenue, between Gates avenue and Willoughby avenue, in the Borough of Brooklyn, City of New York, as authorized and directed by said chapter 257, Laws of 1899.

Resolved, That the limits of the district of assessment for the expense of the said improvement authorized by said chapter 257 of the Laws of 1899 be and are hereby fixed as follows: From Gates avenue to Willoughby avenue, for one hundred feet on both sides of the old lines of said Clinton avenue, between said Gates avenue and said Willoughby avenue, in the Borough of Brooklyn, City of New York.

Resolved, That the entire cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Negative—None.

The following report from the Chief Topographical Engineer was read, and the matter was referred back to the President of the Borough of Brooklyn for the further consideration of the Local Board:

CITY OF NEW YORK,
PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS,
TOPOGRAPHICAL BUREAU,
ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIRD AVENUE,
June 1, 1899.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—At the meeting of the Board of Public Improvements held March 29, 1899, the President of the Borough of Brooklyn requested the legal opening of Tenth avenue, between Thirty-eighth street and Eighty-seventh street, in the Borough of Brooklyn; and at the meeting of April 2, 1899, after a report on this subject had been received from the Chief Topographical Engineer, the Board requested the Corporation Counsel to initiate proceedings for the opening of Tenth avenue, between Thirty-eighth street and Eighty-seventh street, in the Borough of Brooklyn.

Searches of the records in the Borough of Brooklyn, which were made since that time, revealed the fact that Tenth avenue, from the west side of Fifty-third street to the northerly side of Fort Hamilton avenue, was struck from the map by resolution of the Common Council of the former City of Brooklyn, December 3, 1897, which resolution was approved by the Mayor, December 20, 1897.

It was further found that Eighty-seventh street is not on the official map, and that the next street southerly from Eighty-sixth street is Seventh avenue.

I recommend, therefore, that the resolution adopted by the Board on April 12, 1899, be rescinded, and that a new resolution be adopted for acquiring title to Tenth avenue, from Thirty-eighth street to Fifty-third street, and from Fort Hamilton avenue to Seventh avenue, in the Borough of Brooklyn.

I recommend that the matter be referred back to the President of the Borough of Brooklyn.

Respectfully,

LOUIS A. RISSE,
Chief Topographical Engineer and Engineer of Concourse.

The following report from the Engineer of Street Openings was read:

BOARD OF PUBLIC IMPROVEMENTS—BOROUGH OF MANHATTAN,
NO. 346 BROADWAY,
NEW YORK, June 6, 1899.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

SIR—The resolution of the Board of Local Improvements of the Borough of Manhattan, at the meeting of May 16, 1899, relative to the opening of West Two Hundred and Sixteenth street, from Broadway to United States channel line, Harlem river, referred to me for report at the meeting of the Board of Public Improvements held on the 17th of May.

West Two Hundred and Sixteenth street, from Broadway to United States channel line, Harlem river, is not legally laid out; it is shown as a proposed street of various width on a map filed by the Department of Public Parks, April 2, 1884, but was never perfected. The Board of Street Openings and Improvement on January 18, 1889 filed a map of streets and avenues, south of Two Hundred and Sixteenth street, and on May 6, 1892, a map of streets and avenues showing Two Hundred and Eighteenth street and streets northerly.

I have prepared map and profile of a street sixty feet wide to be known as West Two Hundred and Sixteenth street, from Broadway to United States channel line, Harlem river, on the original lines of the Dyckman sale, and submitted to the Board for its approval.

Respectfully,

JOS. O. B. WEBSTER, Engineer of Street Openings.

The following resolution was thereupon unanimously adopted:

Resolved, That the Board of Public Improvements of The City of New York, in pursuance of the provisions of section 436 of chapter 378, Laws of 1897, deeming it for the public interest so to do, proposes to alter the map or plan of The City of New York by laying out and extending a new street, to be known as West Two Hundred and Sixteenth street, from Broadway to United States channel line Harlem river, in the Borough of Manhattan, City of New York, more particularly described as follows:

Beginning at a point in the westerly line of Tenth or Amsterdam avenue distant 16,129.83 feet northerly from the southerly line of One Hundred and Fifty-fifth street; thence westerly and parallel to said street, distance 43.31 feet to the easterly line of Broadway; thence northerly along said line, distance 62.18 feet; thence easterly and parallel to One Hundred and Fifty-fifth street, distance 26.96 feet to the westerly line of Tenth or Amsterdam avenue; thence southerly and along said line, distance 60 feet to the point or place of beginning.

Also, beginning at a point in the easterly line of Tenth or Amsterdam avenue distant 16,129.83 feet northerly from the southerly line of One Hundred and Fifty-fifth street; thence easterly and parallel to said street, distance 500 feet to the westerly line of Ninth avenue; thence northerly along said line, distance 60 feet; thence westerly and parallel to One Hundred and Fifty-fifth street, distance 500 feet to the easterly line of Tenth or Amsterdam avenue; thence southerly along said line, distance 60 feet to the point or place of beginning.

Also, beginning at a point in the easterly line of Ninth avenue distant 16,129.83 feet northerly from the southerly line of One Hundred and Fifty-fifth street; thence easterly and parallel to One Hundred and Fifty-fifth street, distance 494.40 feet to the United States channel line, Harlem river, bulkhead line; thence northerly along said bulkhead line, distance 61.32 feet; thence westerly and parallel to One Hundred and Fifty-fifth street, distance 482.66 feet to the easterly line of Ninth avenue; thence southerly along said line, distance 60 feet to the point or place of beginning.

Said street to be 60 feet wide between the lines of Broadway and the United States channel line, Harlem river.

Resolved, That the President of this Board cause to be prepared for submission to this Board, three similar maps or plans, for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed laying out and extending of the above-named street, and the location of the immediate adjacent or intersecting open or established public streets, avenues, roads, squares or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed laying out and extending of the above-named street at a meeting of this Board, to be held in the office of this Board on the 28th day of June, 1899, at 2 o'clock P. M.

Resolved, That the Secretary of this Board cause these resolutions, and a notice to all persons affected thereby, that the proposed laying out and extending of the above-named street will be considered at a meeting of this Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 28th day of June, 1899.

CITY OF NEW YORK,
PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS,
TOPOGRAPHICAL BUREAU,
ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIRD AVENUE,
June 3, 1899.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In reply to the action taken by the Board of Public Improvements, referring for report copy of a communication from the Commissioner of Highways, stating that the owners of prop-

erty on the north side of Linden avenue, from Flatbush to Bedford avenue, in the Borough of Brooklyn, claim that part of Linden avenue does not conform to the line of the said avenue as laid down on the Commissioners' Map of that avenue, and is not, therefore, a legal highway, and requesting to be furnished with the correct line and grade of Linden avenue, between the points named above, I have to state as follows:

Linden avenue, from Flatbush avenue to Nostrand avenue, was declared legally open by the resolution of the Common Council of the former city of Brooklyn, August 9, 1897, in accordance with the filed maps in existence, which show a width of 95 feet for part of the block between Flatbush avenue and Bedford avenue, and 100 feet for part of the block near Bedford avenue. An amended map of Linden "terrace," filed in the Register's office of the former city of Brooklyn July 29, 1868, covers that portion of Linden avenue 95 feet wide, and a map of Linden "boulevard" corresponds to that portion of Linden avenue 100 feet wide. The owners along the north side do not conform to these lines, and it is a question whether they can be compelled to move their fences back to the proper width of said avenue.

Linden avenue after having been declared legally open, no awards for property were made, and I recommend, therefore, that the matter be referred to the Corporation Counsel for his opinion. I submit herein sketch showing the supposed encroachments within the lines of the said avenue.

In addition, I wish to recommend that Linden avenue be made of a uniform width of 100 feet between Flatbush avenue and Bedford avenue, which matter should be taken up after the Corporation Counsel gives his opinion whether the owners who encroach at present upon Linden avenue have a claim to awards or not.

The papers in the matter are herein returned.

Respectfully,
LOUIS A. RISSE,

Chief Topographical Engineer and Engineer of Concourse.

The following report from the Chief Topographical Engineer was read:

CITY OF NEW YORK,
PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS,
TOPOGRAPHICAL BUREAU,
ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIRD AVENUE,
June 5, 1899.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In reply to the communication from the Corporation Counsel, stating that Silliman place, between Second and Third avenues, in the Borough of Brooklyn, is not shown on the Commissioners' Map for laying out avenues, etc., in the late towns of Kings County, and that the Board of Public Improvements having initiated proceedings to acquire title to said Silliman place, which is not on the official maps, the resolution for that purpose becomes inoperative, and I recommend, therefore, that the said resolution, adopted March 15, 1899, be rescinded. This error occurred because the official map of New Utrecht, in the office of the Deputy Commissioner of Highways of the Borough of Brooklyn, shows on a separate tracing Silliman place as having been laid out by a special resolution of the Common Council of the former City of Brooklyn, and it was not deemed necessary to examine this matter any further. The Corporation Counsel discovered that the said resolution of the Common Council of the former City of Brooklyn was never signed by the Mayor, and that, therefore, it was not legal.

In view of this fact a map or plan has been prepared in the Topographical Bureau, and is herewith submitted for adoption, showing the laying out of Silliman place, from Second avenue to Third avenue, in the Borough of Brooklyn. A slight alteration has been made from the lines as shown on the amended map of New Utrecht, by extending the southerly line of Ovington avenue westerly until it intersects the southerly line of Silliman place.

A technical description for the purpose of giving a public hearing is herein submitted. The papers in this matter are herewith returned.

Respectfully,
LOUIS A. RISSE,

Chief Topographical Engineer and Engineer of Concourse.

Thereupon the following resolution was adopted, rescinding the original resolution:

Resolved, That the resolution adopted by this Board on the 15th day of March, 1899, for the opening of Silliman place, between Second avenue and Third avenue, in the Borough of Brooklyn, City of New York, be and the same is hereby rescinded.

Affirmative—Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Public Buildings, Lighting and Supplies, Commissioner of Bridges, President of the Borough of Brooklyn and President of the Board.

Negative—None.

The following resolution was then unanimously adopted:

Resolved, That the Board of Public Improvements of The City of New York, in pursuance of the provisions of section 436 of chapter 378, Laws of 1897, deeming it for the public interest so to do, proposes to alter the map or plan of The City of New York by laying out and extending Silliman place, from Second avenue to Third avenue, in the Borough of Brooklyn, City of New York.

Beginning at a point in the western line of Third avenue distant 236.36 feet from the intersection of the western line of Third avenue with the southern line of Bay Ridge avenue as the same are laid down on the Commissioners' Map of the Town of New Utrecht, filed in the office of the Register of the County, June 17, 1874.

1st. Thence westerly and deflecting 83 degrees 0 minutes 9 seconds to the right from the prolongation of the western line of Third avenue for 705.25 feet to the eastern line of Second avenue.

2d. Thence southerly along the eastern line of Second avenue for 64.50 feet.

3d. Thence easterly deflecting 96 degrees 59 minutes 51 seconds to the right for 633.37 feet.

4th. Thence easterly deflecting 20 degrees 39 minutes 21 seconds to the right for 73.42 feet to the western line of Third avenue.

5th. Thence northerly for 86.54 feet to the point of beginning.

Resolved, That the President of this Board cause to be prepared for submission to this Board three similar maps or plans, for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed laying out and extending of the above-named place, and the location of the immediate adjacent or intersecting open or established public streets, avenues, roads, squares or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed laying out and extending of the above-named place at a meeting of this Board, to be held in the office of this Board on the 28th day of June, 1899, at 2 o'clock P. M.

Resolved, That the Secretary of this Board cause these resolutions, and a notice to all persons affected thereby, that the proposed laying out and extending of the above-named place will be considered at a meeting of this Board to be held at the aforesaid time and place, to be published in the CITY RECORD and corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 28th day of June, 1899.

The following opinion from the Corporation Counsel was read:

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, May 31, 1899.

To the Board of Public Improvements of The City of New York:

GENTLEMEN—I am in receipt of a communication from you dated the 19th day of May, 1899, which reads as follows:

"At a meeting of the Board of Public Improvements of The City of New York, held on the 17th day of May, 1899, resolutions were adopted, copy of which I herewith inclose, requesting you to take the necessary proceedings to acquire title to the land required for the opening of Sixty-first street, from First avenue to Third avenue, and from Sixth to Seventh avenue in the Borough of Brooklyn, City of New York."

In reply thereto I would say that on the 22d of April, 1899, I received an application to cede to the City the lands lying in Sixty-first street, from Second avenue to New York Bay, from Messrs. Hubbard & Rushmore, attorneys for the estate of William C. Langley, the owner of the property in question. The executors of the said estate have complied with all the requirements of the Charter, and I have accepted a deed from them to The City of New York of the lands forming the aforesaid street, between said respective points.

In view of these facts I am of the opinion that the best interests of the City would be served by rescinding the resolution to open Sixty-first street, from First to Third avenue, and from Sixth to Seventh avenue, and the adoption of a new resolution opening it from Second to Third avenue and from Sixth to Seventh avenue.

Respectfully,
JOHN WHALEN, Corporation Counsel.

In accordance with the foregoing opinion, the following resolution was adopted:

Resolved, That the resolution adopted by this Board on the 17th of May, 1899, for the opening and extension of Sixty-first street, from First avenue to Third avenue and from Sixth avenue to Seventh avenue, in the Borough of Brooklyn, City of New York, be and the same is hereby rescinded.

Affirmative—Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Public Buildings, Lighting and Supplies, Commissioner of Bridges, President of the Borough of Brooklyn and President of the Board.

Negative—None.

The following amended resolution was then adopted:

"Resolved, That the Board of Public Improvements of The City of New York, in pursuance of the provisions of sections 970 and 990 of chapter 378, Laws of 1897, deems it for the public interest that the title to the lands and premises required for the opening and extending of Sixty-first street, from Second avenue to Third avenue, and from Sixth avenue to Seventh avenue, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York at a fixed or specified time.

"Resolved, That it appears to this Board, from the surveys made and information furnished to it by the President of the Board of Public Improvements, that there are buildings upon the lands that shall or may be required for the purpose of opening and extending said Sixty-first street, from Second avenue to Third avenue, and from Sixth avenue to Seventh avenue.

"Resolved, That this Board directs that upon a date to be hereafter more fully specified, not less than six months after the filing of the oaths of the Commissioners of Estimate and Assessment who may be appointed by the Supreme Court in proceedings for the acquisition of title to said street or avenue, that the title to any piece or parcel of land lying within the lines of such Sixty-first street, from Second avenue to Third avenue, and from Sixth avenue to Seventh avenue, so required, shall be vested in The City of New York.

"Resolved, That the Board of Public Improvements, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to the Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, whenever the same has not been heretofore acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Sixty-first street, from Second avenue to Third avenue, and from Sixth avenue to Seventh avenue, in the Borough of Brooklyn, City of New York.

"Resolved, That the entire cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby."

Affirmative—Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Public Buildings, Lighting and Supplies, Commissioner of Bridges, President of the Borough of Brooklyn and President of the Board.

Negative—None.

The following communication from the Commissioner of Water Supply was read:

DEPARTMENT OF WATER SUPPLY—COMMISSIONER'S OFFICE,
NOS. 13 TO 21 PARK ROW,
NEW YORK, June 5, 1899.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—From report made to me by the Chief Engineer of this Department, I find it necessary that water-mains be laid in Nelson avenue, between One Hundred and Sixty-ninth street and Boscobel avenue, Borough of The Bronx, where there are twelve houses to be supplied with water, a distance of 900 feet. The estimated cost of the proposed mains is \$950, and I submit herewith, for adoption by your Board, and for presentation in the Municipal Assembly, drafts of a resolution and ordinance authorizing this work.

Very respectfully,

WILLIAM DALTON, Commissioner of Water Supply.

GENTLEMEN—The Local Board of the Ninth District, Borough of Brooklyn, after hearing had at a meeting held on June 3, 1899, duly advertised, adopted the following:

"Resolved, That the Local Board of the Ninth District, Borough of Brooklyn, after hearing had this 3d day of June, 1899, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York that a sewer be constructed in St. Nicholas avenue, between Hart street and Flushing avenue, in the Borough of Brooklyn."

Proceedings for the grading and paving of this street have been suspended by the Board of Public Improvements in order that the sewer herewith petitioned for may be constructed, and water and gas-mains laid in the street before the paving is done. It is desired, therefore, that proceedings for the construction of the sewer may be hastened as much as possible. Petitions for the construction of the outlet sewers referred to in the report of the Department of Sewers will be laid before the Local Board of the Ninth District at the next meeting.

CITY OF NEW YORK—BOROUGH OF BROOKLYN,
DEPARTMENT OF SEWERS,

Hon. JAMES KANE, Commissioner of Sewers:

DEAR SIR—I herewith enclose a copy of a letter from the President of the Borough, dated May 24, relative to the construction of a sewer in St. Nicholas avenue, between Hart street and Flushing avenue.

The Chief Engineer of Sewers of this Borough reports as follows:

"The estimated cost for the construction of above improvement is \$2,155; the assessed valuation within the probable area of assessment is \$62,790.

"In order to build these sewers, it will be necessary to construct outlet sewers as follows: "A 54-inch main in Johnson avenue, from Morgan avenue to Gardner street; in Gardner street, between Johnson and Flushing avenues.

"A 48-inch main in Wyckoff avenue, from Flushing avenue to Suydam street, and lateral sewers in the following streets, between St. Nicholas and Wyckoff avenues, viz.: Suydam street, Willoughby avenue, Starr street, Troutman street, Jefferson street and Flushing avenue.

"The estimated cost of these outlet sewers is \$27,775, and the assessed valuation of the property drained thereby is \$2,077,640.

"The construction of this main sewer is certainly advisable, and should be extended in Wyckoff avenue as far as Myrtle avenue.

"I do not believe that the progress of paving could be delayed for a sufficient time to enable the construction of the sewers in St. Nicholas avenue, as petitioned for, together with the necessary outlet mains."

All of which is respectfully endorsed.

Very respectfully,

(Signed) WM. BRENNAN, Deputy Commissioner of Sewers, Borough of Brooklyn.

The following resolution was then adopted:

Resolved, by the Board of Public Improvements, That, in pursuance of sections 415 and 422 of the Greater New York Charter, the construction of a sewer in St. Nicholas avenue, between Hart street and Flushing avenue, in the Borough of Brooklyn, under the direction of the Commissioner of Sewers, be and the same hereby is authorized and approved, there having been presented to said Board an estimate in writing, in such detail as the said Board has directed, of the cost of the proposed work or improvement, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, the estimated cost of said work being two thousand one hundred and fifty-five dollars. The said assessed value of the real estate included within the probable area of assessment is sixty-two thousand seven hundred and ninety dollars.

And the said Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but the whole of such cost and expense shall be assessed upon the property deemed to be benefited thereby.

Affirmative—Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges, President of the Borough of Brooklyn and President of the Board.

DEPARTMENT OF HIGHWAYS—COMMISSIONER'S OFFICE,
No. 150 NASSAU STREET,
NEW YORK, March 29, 1899.

Hon. EDWARD M. GROUT, President of the Borough of Brooklyn:

DEAR SIR—I have the honor to acknowledge receipt of a letter, dated February 6, from your Secretary, and to submit reports on the following improvements, as requested:

Curbing, grading, etc., Fifty-fourth street, between Seventh avenue and Fort Hamilton avenue. The estimated cost of regulating, grading, curbing, laying gutters and crosswalks, and flagging the sidewalks, is \$17,700, and the assessed value of the real estate within the probable area of assessment is \$27,780.

Section 947 of the Charter provides that the assessors shall in no case assess any house or lot, improved or unimproved lands more than one-half the fair value of such house, lot or unimproved lands. If by "fair value" is meant the assessed value, the assessment for this improvement would amount to more than one-half of the total assessed value, and would thus be greater than allowed by the Charter. To comply with the provisions of the Charter, the estimate could be reduced by omitting the flagging, would cost \$4,000, thus making the total estimated cost \$13,700.

There is no record in the office of the Deputy Commissioner of Highways, Borough of Brooklyn, to show that the part of Fifty-fourth street between the old city line, or the line between the Eighth Ward and the Thirtieth ward, has been opened. A deed of cession is recorded in the Register's Office under date of March 28, 1892, for that part of Fifty-fourth street between Seventh avenue and the Eighth Ward line, which is only about half a block, but there is no record to show that the balance of the street has been opened. This matter should be carefully looked into, as it may be necessary to have the street legally opened before steps are taken toward improving it.

Very respectfully,
(Signed) W. N. SHANNON, Commissioner of Highways.

Hon. JAMES KANE, Commissioner of Sewers:

DEAR SIR—In reply to the communication from the President of the Borough, dated March 1, 1899, I respectfully report as follows:

The cost of the construction of a sewer in Eighty-fifth street, between Sixteenth and Seventeenth avenues, is estimated as \$2,100; the assessed valuation of the property within the probable area of assessment is \$32,700.

In order that this sewer may be built, outlet sewers will have to be constructed through Sixteenth avenue, between Eighty-fifth and Eighty-sixth streets, thence through Eighty-sixth street to Fourteenth avenue, through Fourteenth avenue to a proposed street crossing Dyker Beach Park, thence through this proposed street to Ninety-second street, and through Ninety-second street to New York Bay—the estimated cost of which is \$752,000; the assessed valuation within the probable area of assessment is \$6,344,489.

I respectfully attach a sketch showing this sewer and its outlet. I also inclose two prints of an alternate design for the proposed street which crosses Dyker Beach Park. Either of these, I understand, has been advocated by the Department of Parks. I respectfully suggest that information may be requested from said Department in relation to the outlay of this proposed street, as to their intention for adoption. This is an important matter, as the construction of main sewers in Map W. will be contingent upon the layout of the above proposed street. No record can be found for the opening of Fourteenth avenue, between Eighty-sixth street and Gravesend Bay.

Very respectfully,

Very respectfully,
JAMES P. KEATING, Commissioner of Highways.

CITY OF NEW YORK,
DEPARTMENT OF HIGHWAYS—COMMISSIONER'S OFFICE,
Nos. 17 TO 21 PARK ROW, BOROUGH OF MANHATTAN,
June 5, 1899.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—I have the honor to report on a resolution adopted by the Municipal Assembly, recommending that the carriageway of Marion street, from Fulton street to Broadway, Borough of Brooklyn, be repaved with granite-block pavement, said resolution having been received with a letter dated May 22 from the Secretary of the Board.

There are many other streets in the Borough of Brooklyn which are more in need of new pavement than Marion street.

The estimated cost of repaving that street, from Fulton street to Broadway, with granite-blocks on concrete foundation, is \$74,400. At present there are no funds to meet this expenditure.

Very respectfully,
JAMES P. KEATING, Commissioner of Highways.

The following report from the Commissioner of Sewers was read, and the matter was laid over:

DEPARTMENT OF SEWERS, BOROUGH OF MANHATTAN,
COMMISSIONER'S OFFICE, NOS. 13 TO 21 PARK ROW,

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—In reply to your communication under date of April 6, transmitting copy of resolution, adopted on the 30th day of March, 1899, by the Local Board of the Twenty-first District, recommending that a sewer and appurtenances be constructed in East One Hundred and Seventy-first street, from Webster to Brook avenues, in the Borough of The Bronx.

I beg leave to say the estimated cost is \$1,850, and the assessed value of property within the probable area of assessment is \$56,400.

Yours respectfully,
JAS. KANE, Commissioner of Sewers.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

SIR—Having been informed that it is the desire of the New York State Committee of the World's Fair in Paris to ask the municipal authorities of The City of New York for an appropriation for the purpose of providing a distinctive New York City exhibit, I have the honor to respectfully suggest that among other exhibits, a map or plan of the Greater New York should be made for exhibition in the New York State Building. On this map could be shown the topographical features of this city as far as in the possession of the Topographical Bureau; also its present and prospective street system, as far as adopted, with its tunnels, bridges, railways, parks, parkways, boulevards and drives, canals, waterways, hospitals, institutions, school-houses, churches, station and fire-houses, armories, public markets, recreation piers and bathing pavilions, in fact, all the prominent public features within the great city.

The map can be made on a scale of 600 feet to one inch, in 31 sections, and when put together would be 26 feet long by 17 feet wide, or cover an area of 520 square feet. This map, I believe, would be unique as an exhibit, and would show the world the wonderful development and size of the greatest city of the western hemisphere.

The map can be completed by the 1st of March, 1900, and would be a distinctive exhibit of the Board of Public Improvements.

This map can be copyrighted, and after its return from the exhibition, reduced copies can be made and sold to cover the expenses.

An additional appropriation for the Topographical Bureau of \$10,000 would be sufficient for that purpose.

Respectfully,
LOUIS A. RISSE,
Chief Topographical Engineer and Engineer of Concourse.

SIR—In reply to the communication from the President of the Borough of Queens, giving a brief history of North Washington place, east and west of Van Alst avenue, etc., in the Borough of Queens, I wish to report that it is the intention to place North Washington place, between Van Alst avenue and Willow street, on the new map of Long Island City, which will be presented for adoption to the Board of Public Improvements within a short time.

The papers in this matter are herein returned.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements, Nos. 13 to 21 Park row, City:

DEAR SIR—Referring to a communication from your office of June 5, inclosing copy of a communication from the President of the Borough of Queens, dated May 24, 1899, recommending that electric lights be placed along the highway from Whitestone line to Bell and Crocheron avenues, Bayside.

Replying to the above, would say that the appropriation for lighting the Borough of Queens this year is so limited that it will not admit of any additional lights being ordered.

Very truly yours,
HENRY S. KEARNY, Commissioner.

Board of Public Improvements:

GENTLEMEN—The Local Board of the Fifth District, Borough of Brooklyn, after hearing had at a meeting held on June 1, 1899, duly advertised, adopted the following:

"Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had the 1st day of June, 1899, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of the City of New York, that the Department of Water Supply be directed to make such inquiries, to be reported to the Board of Public Improvements as will enable said Board to determine whether it is advisable for The City of New York to acquire the pipes, hydrants and plant of the said West Brooklyn Water Company."

Attached:

Copy of petition.

Copy of report from the Department of Water Supply, and diagram showing the locality.

In connection with the above resolution, I desire to submit to you the following additional facts:

The petition upon which the Local Board acted is a petition of property-owners in Forty-third, Forty-fourth and Forty-fifth streets, requesting that City water-mains be laid in such streets in substitution for the water-mains of the private corporation. The petition is based upon the allegation that the water supplied by the West Brooklyn Water Company is inadequate in quantity, often shut off without notice and of bad quality. This petition was submitted to the Department of Water Supply for investigation, and the report of that Department sustained the petition as to its allegation, as to the poor quality and insufficient quantity of the water now supplied by the West Brooklyn Water Company.

After this petition was filed here the West Brooklyn Water Company lost its main plant by fire, and has since been supplying its customers largely by water furnished them by the City through the connection between the City's pipes and the West Brooklyn Water Company's pipes which exists. The water company has just settled with the insurance company, but has not taken any steps toward rebuilding its plant, and the main part of the assets which it now has outside of its franchise consists of water-mains and fire-hydrants. The water-mains have been largely relaid within the last year or two, and, I understand, are laid in conformity with the system followed by the City, so that the property of the company would be almost entirely usable by the City. The plant and business of the West Brooklyn Water Company is not a source of profit, and the owners of the company would be entirely willing to get out of the business. Meanwhile the section is rapidly building up, and as the water is drawn from the wells located just in the neighborhood where houses are building so rapidly, it cannot be many years before the Health Department of the City will interfere with the use of such water.

If the company goes ahead and replaces its burned plant it will therefore incur an expenditure which cannot be of permanent value to itself, and which could not be of value to the City in the future. The present is, therefore, a very opportune moment for the City to displace, either by purchase or the condemnation, this West Brooklyn Water Company, and for these reasons the Local Board has adopted the above resolution.

Yours very truly,

EDWARD M. GROUT, President of the Borough.

The following petition was referred to the Engineer of Street Openings to prepare a map for submission to the Local Board:

To the Board of Public Improvements, Honorable MAURICE F. HOLAHAN, President:

The petition of the undersigned respectfully shows:

That your petitioners are the owners and occupants of property located in that section of the Borough of Manhattan known as Marble Hill, in the Twelfth Ward of The City of New York.

That, in consequence of the growth of improvements in this section, it becomes necessary to apply to your Board for relief.

That the construction of a new bridge over the Harlem river at Broadway has opened a continuous thoroughfare, uniting two boroughs, namely, Manhattan and The Bronx, with steadily increasing traffic between these two points.

That your petitioners, as residents of the said Marble Hill, feel the necessity of establishing a street, running to and from lands to this bridge and Broadway, which will obviate the existing inconvenience.

That the only means of reaching this new bridge and the Borough of The Bronx from the interior of Marble Hill, under present conditions, is by a circuitous route leading from Van Corlear place south through Kingsbridge avenue to Broadway and thence north to the section named.

That such street or avenue of access should lead from the interior of the said Marble Hill by the most direct route to Broadway for travel south and to the new bridge for travel north.

That the extension of Van Corlear place from its present terminus to Broadway will afford your petitioners the necessary relief.

Wherefore your petitioners pray that your Honorable Board will take the necessary steps to extend said Van Corlear place.

EDWARD A. POWERS and others.

The following communication from the Commissioner of Water Supply was read, and the matter was referred back for a more complete report and copy of contract:

DEPARTMENT OF WATER SUPPLY—COMMISSIONER'S OFFICE, }
Nos. 13 to 21 PARK ROW, }
NEW YORK, May 19, 1899.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—Under chapter 669 of the Laws of 1896, the late Commissioner of Public Works made a contract on December 6, 1897, for the laying of water-mains in the Boulevard, between One Hundred and Seventy-ninth street and Fifty-ninth street, and in Elm street between Great Jones street and Chambers street, amounting to \$275,397. This work has been performed and completed under the direction of this Department, and it is found that in consequence of larger quantities of rock encountered, additional area of paving to be done, and additional changes in connecting water-mains to be made, all of which were not contemplated in the preliminary estimate for the contract, the cost of the work exceeds the contract estimate by \$30,000.

The legislative authority for the issue of bonds to cover this excess of cost is contained in chapter 646 of the Laws of 1897, which supplements the Act of 1896, and authorizes an additional issue of bonds to the amount of \$500,000.

I now respectfully ask that your Board will approve and transmit to the Municipal Assembly, for adoption, a draft of an ordinance herewith submitted, authorizing the issue of Corporate Stock of The City of New York to the amount of \$30,000 for this purpose.

Very respectfully,

WILLIAM DALTON, Commissioner of Water Supply.

DEPARTMENT OF WATER SUPPLY—CHIEF ENGINEER'S OFFICE, }
May 24, 1899.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—In explanation of the \$30,000 for completing contract of L. C. Gillespie & Co., for the laying of 36-inch mains in the Boulevard, between One Hundred and Seventy-ninth street and Fifty-ninth street, and in Elm street, from Great Jones street to Chambers street.

The following quantities of work was found necessary and done by the contractor over and above the quantities estimated by the engineer before the contract was made:

570 cubic yards of rock without blasting; 4,200 cubic yards of rock excavation; 4,000 cubic yards of filling; 300 linear feet of 12-inch pipe laid; 20 tons branch pipes; 600 linear feet of 6-inch pipe laid; 4 twenty-inch stop-cocks; 5 six-inch stop-cocks; 7,500 square yards of telford pavement; 1,000 square yards of asphalt pavement; 200 cubic yards of brickwork; 6 blowoffs and 60 cubic yards of concrete.

Respectfully yours,

G. M. BIRDSALL, Chief Engineer.

COMMISSIONER'S OFFICE, Nos. 13 to 21 PARK ROW, }
NEW YORK, June 5, 1899.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—I herewith submit blue prints of section 3 of the main relief sewer extension, through—

Greene avenue, from Patchen avenue to Bushwick avenue.
Bushwick avenue, from Greene avenue to Weirfield street.
Weirfield street, from Bushwick avenue to Evergreen avenue.
Evergreen avenue, from Weirfield street to Halsey street.
Halsey street, from Evergreen avenue to Central avenue.
Central avenue, from Halsey street to Eldert street.

The estimated cost of this proposed extension is \$170,000.

I desire to call your attention to the fact that much damage is done to property by the continuous flooding of cellars along the proposed course of this main from Johnson avenue to Central avenue and Woodbine street. Damage suits against the City are frequent and will continue until relief is obtained. The course of flooding is due entirely to the sectional area of the sewers being too small to care for a two-inch rainfall per hour. They were designed forty years ago for a rainfall of one inch per hour.

I urgently recommend the authorization of this work.

I am, yours respectfully,

(Signed) JAS. KANE, Commissioner of Sewers.

DEAR SIR—I hereby certify that at a meeting of the Local Board, First District, Borough of Richmond, The City of New York, held on the 29th day of May, 1899, the following resolution was adopted:

"Resolved, That the Local Board, First District, Borough of Richmond, hereby recommends to the Board of Public Improvements that fire-hydrants as below stated be placed on the following turnpike and avenues in that part of the Third Ward of the Borough of Richmond known as Linoleumville:

On Richmond turnpike, between Travis Hall and Linoleum factory gate, 10 hydrants;
On Lexington avenue, 6 hydrants;
On Chelsea avenue, 1 hydrant;
On Burke avenue, 2 hydrants; and
On Decker avenue, 2 hydrants."

I inclose herewith a copy of the petition on which the Local Board acted, together with the report of Hon. Henry P. Morrison, Deputy Commissioner of Water Supply, on the subject.

DEPARTMENT OF WATER SUPPLY, }
CITY OF NEW YORK—BOROUGH OF RICHMOND, }
NEW BRIGHTON, May 29, 1899.

The Honorable, the Borough Board, New Brighton, N. Y.:

GENTLEMEN—In reference to the petition received by your honorable Board from the residents of Linoleumville in relation to the placing of fire-hydrants in that locality, I would report as follows:

I have had an examination made as to the location and number of houses in Linoleumville, without adequate fire protection, with results as follows:

Richmond turnpike, from Travis Hall to Linoleum factory gate, 5,700 feet, 69 houses, (10 hydrants).

Lexington avenue, 3,300 feet, 46 houses, (6 hydrants).

Chelsea avenue, 400 feet, 9 houses, (1 hydrant).

Burke avenue, 1,140 feet, 14 houses, (2 hydrants).

Decker avenue, 1,080 feet, 11 houses, (2 hydrants).

Pennsylvania avenue and adjoining streets, 23 houses; total 172 houses, for the protection of which 21 hydrants will be sufficient. The Crystal Water Company has an existing 8-inch main from its pumping station near Bull's Head to Travis Hall, Linoleumville, which is reduced to 6 inches from that point to the terminus of the turnpike. No question of the advisability of furnishing the necessary fire protection to this locality remains in my mind, and I respectfully recommend that the relief asked for by your petitioners be granted as soon as possible.

Respectfully yours,

(Signed) HENRY P. MORRISON, Deputy Commissioner.

378 MOTT AVENUE, NEW YORK, May 23, 1899.

Mr. LOUIS F. HAFFEN, President, Local Board of Improvements, Bronx Borough, of Greater New York City:

GENTLEMEN—Enclosed please find six surveys of property of Van Riper & LaCoste, commencing at southeast corner of Railroad avenue and One Hundred and Seventieth street, being 290.4 feet on Railroad avenue, and 150 feet on One Hundred and Seventieth street. Your petitioners respectfully ask that the monuments for Park avenue, between One Hundred and Sixty-fifth street and Twenty-third Ward line, be reset upon the lines of Railroad avenue, as monumented about the year 1890, by the Department of Street Improvements.

When the depression of the railroad track was done, the Department of Street Improvements done the grading, curbing and flagging and set the basins, also paving of Railroad avenue, by the same monuments of 1890 to the best of their knowledge.

When the petitioners built upon said land they built according to said monuments and surveys. The petitioners leased said corner house to a tenant with the privilege of buying the same. The lawyer upon searching the property found it all right, except a survey made by Douglass Knox, of Fordham, which is here inclosed, which he shows an encroachment on Park avenue of about six (6) inches by new line laid to set monuments.

There is still a sidewalk of thirteen (13) feet or more to the buildings from the curb, not only our buildings, but some that was built a long time before the change of Railroad avenue. The purchaser refused to take the title upon that ground, and it effects all the line of the buildings fronting on Railroad avenue (or Park avenue), also the others. Some has been sold, and according to the surveys of Murgatroyd and map Surveyors, the map is also filed in the Register Office, March 10, 1892, by Henry E. Murgatroyd, City Surveyor, as property of Van Riper & Lacoste.

Will you please look into this matter and let us know if the monuments cannot be reset as of 1890.

Yours respectfully,

(Signed.) VAN RIPER & LACOSTE.

DEPARTMENT OF WATER SUPPLY—COMMISSIONER'S OFFICE,
 NEW YORK, June 5, 1899.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—In my communication to the Board dated July 5, 1898, which was acted upon at the meeting of July 13, 1898, I presented the necessity of driving four additional 6-inch wells, and providing deep-well pumps and steam and water connections at an estimated cost of \$3,000, payable from the issue of bonds, to properly utilize the water supply plant owned by the City of Tottenville, Borough of Richmond, and the Board thereupon adopted a resolution (meeting of July 13, 1898, pages 553 and 554 of the Minutes), authorizing the work, and presenting to the Municipal Assembly, and I now have report from the Chief Engineer of this Department that the recent experience with 6-inch wells has demonstrated that 10-inch wells with suitable connections and pumps are far preferable. In the interval of eleven months since the date of my communication of July 5, 1898, the prices of all kinds of materials required for this work have also largely advanced, so that even the 6-inch wells and appurtenances could not now be built for \$3,000, as then estimated.

Under the altered circumstances, I respectfully ask that the resolution of July 13, 1898, be rescinded by your Board, and I submit and recommend for adoption and for presentation to the Municipal Assembly, a resolution and ordinance, providing for four 10-inch wells, and the necessary deep-well pumps and steam and water connections, at an estimated cost of \$6,000, to be provided for by the issue of bonds.

Very respectfully,

WILLIAM DALTON, Commissioner of Water Supply.

Thereupon the following resolution was adopted:

Resolved, That, in accordance with the recommendation of the Commissioner of Water Supply on June 5, 1899, the resolution adopted by this Board on July 13, 1898, for driving four (4) six (6) inch wells and providing the necessary deep-well pumps and steam and water connections at the pumping station at Tottenville, Borough of Richmond, be and is hereby rescinded and repealed, and the Secretary is hereby requested to recall the same from the Municipal Assembly.

Affirmative—Commissioner of Water Supply, Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges, President of the Borough of Richmond and President of the Board.

Negative—None.

The following amended resolution was then adopted:

Resolved, by the Board of Public Improvements, That, in pursuance of section 413 of the Greater New York Charter, the driving of four additional ten-inch wells, and the placing of the necessary deep-well pumps and steam and water connections at the pumping station owned by the City at Tottenville, Borough of Richmond, and the making of a contract or contracts for the same by the Commissioner of Water Supply, be and the same is hereby authorized and approved, the cost of said public work or improvement to be paid for from the issue of Corporate Stock of The City of New York.

Affirmative—Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges, President of the Borough of Richmond and President of the Board.

Negative—None.

In accordance with the foregoing resolution, the following forms of ordinance were approved for transmission to the Municipal Assembly:

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

That, in pursuance of section 413 of the Greater New York Charter, the following resolution of the Board of Public Improvements, adopted by that Board on the 7th day of June, 1899, be and the same hereby is approved, and the public work or improvement therein provided for is hereby authorized, viz.:

"Resolved, by the Board of Public Improvements, That, in pursuance of section 413 of the Greater New York Charter, the driving of four additional ten-inch wells, and the placing of the necessary deep-well pumps and steam and water connections at the pumping station owned by the City at Tottenville, Borough of Richmond, and the making of a contract or contracts for the same by the Commissioner of Water Supply, be and the same is hereby authorized and approved, the cost of said public work or improvement to be paid for from the issue of Corporate Stock of The City of New York."

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

The following communication from the Corporation Counsel was read and placed on file :

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, June 7, 1899.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements :

SIR—Your communication, dated March 23, 1899, is received. It reads as follows :

"At a meeting of this Board, held on the 22d instant, a communication from the Flatbush Water Works Company, referring to resolution adopted by this Board regulating the conditions on which permission would be granted to private water companies to extend their water systems, and claiming that by its charter, and its contract with The City of New York, it has the right to lay its mains without any restrictions other than by its charter required.

"The matter was referred to you for consideration, and in accordance with this action of the Board, I enclose herewith copy of said communication and of the contract referred to, for your opinion in the matter."

The communication therein referred to is a petition, dated March 8, 1899, and is as follows :

"The Flatbush Water Works Company respectfully shows that it is a corporation supplying the Twenty-ninth Ward of the Borough of Brooklyn with water ; that it has a contract with the City of New York for the supplying of water for fire hydrants and sewer cleaning, a copy of which is hereto annexed.

"That it is desirous of laying mains in the streets and avenues of said Twenty-ninth Ward for the supplying of water to the property-owners in said ward, who desire to improve their property.

"That it has made application to the Commissioner of Highways of the Borough of Brooklyn for permit to open certain streets in said ward for the purpose aforesaid, and the permit has been refused by said Commissioner, on the ground that your Honorable Board has passed a resolution forbidding the granting of a permit unless certain concessions are made by said Water Company."

"The following is a copy of said resolutions :

"The Flatbush Water Works Company claims that by its charter and by its contract with the City, it has a right to lay its mains without any restrictions other than by its charter required. It cannot charge during the continuance of its contract for any additional fire-hydrants, and the City will not be at any expense by reason of the laying of said mains."

The so-called charter of the company (a copy of which has been furnished to me by Mr. John Z. Lott, its Secretary), is a certification of incorporation of "Flatbush Water Works Company," in the Town of Flatbush, dated June 9, 1881, and filed in the office of the Secretary of State, June 14, 1881.

It certifies "that, pursuant to and in conformity with said acts" (chapter 737, Laws of 1873, and acts amendatory thereof and supplementary thereto), the seven incorporations (application having been made and the consent given as therein provided) "have associated themselves together and formed a body corporate to supply the Town of Flatbush, in the County of Kings and the State of New York or the inhabitants thereof with pure and wholesome water as provided by said statutes."

The foregoing is the only portion of the certificate material to the question under consideration.

Chapter 737 of the Laws of 1873, as amended by chapter 213 of the Laws of 1881, passed May 5, 1881, and taking effect immediately, among other things, provides as follows :

"Upon the filing of said certificate said Water Works Company * * * shall have the right to lay and maintain their pipes and hydrants for delivering and distributing water in any street, highway or place of such town or village for which consent shall be given as heretofore provided."

The Town of Flatbush was annexed to the City of Brooklyn by chapter 450 of the Laws of 1894, and section 4 of said act contains the following provisions :

"And the said City of Brooklyn shall not distribute or furnish water for consumption or use within said territory or lay any pipes or mains for the distribution or supply of water within the said territory, until the expiration of the charter of the said Water Works Company, or until the said city shall acquire the property of the said company" (so in original) public use by condemnation, power to so acquire the same at any time being hereby vested in the said City. But nothing herein contained shall be deemed to confer an exclusive franchise upon the said company or enhance the value of or add to its franchise or assets ; but, on the contrary, the stock, assets and franchises of said company shall be valued in any such proceedings to condemn the same without enhancement from any provision of this act being considered or allowed. The said City of Brooklyn is hereby authorized to enter into contracts with the said Water Works Company for water and fire hydrants until the said City acquires the property of the said company as aforesaid."

Chapter 735 of the Laws of 1896, which became a law May 19, 1896, is entitled :

"An Act to authorize the City of Brooklyn to enter into contracts with the Flatbush Water Works Company for the supply of water for public purposes in the Twenty-ninth Ward of the City of Brooklyn."

The second action, among other things, provides as follows :

"Then it (said Board of Estimate) shall authorize a contract to be entered into between the City of Brooklyn and the said Flatbush Water Works Company for a period not exceeding a term of five years, and shall determine the amount of money which may be expended in each year to meet the terms of said contract. Thereupon the Commissioner of City Works shall enter into a contract for the purpose aforesaid with the said Flatbush Water Works Company for the period of time so authorized, and said contract shall be executed as other contracts are executed in said City, and shall thereupon become binding and valid contract against the said City."

Section 3, among other things, provides as follows :

"To meet the expense of carrying out the said contract in said City, the Board of Estimate shall place in their annual estimate for each year the amount necessary for that purpose, and the same shall be raised in the annual taxes each year and be a charge upon the territory comprised within the Twenty-ninth Ward of said City, in the same manner as other taxes are apportioned and levied in said City."

Under the provisions of this statute a contract dated June 2, 1896, was entered into between the City of Brooklyn and the Flatbush Water Works Company, which provided as follows :

"1. The said party of the first part will, during the continuance of this contract, at such times and in such places in said ward, as shall be designated by the Commissioner of the Department of Fire of the City of Brooklyn, erect and connect with its mains three hundred fire hydrants in addition to those now erected in said ward and connect with its mains, and will, during the entire time covered by this contract, keep all the fire and drinking hydrants in the said ward, which are now or shall be hereafter connected with its mains, in good order and repair, and will furnish a supply of water to extinguish fires and to flush the sewers in said ward, and will also supply with water all the public buildings now in the said ward or hereafter during the term of this contract, to be erected therein, and which buildings belong to the said party of the second part (except only those buildings which formerly belonged to the County of Kings, and which are under the control of the Board of Charities and Corrections), and will at all times keep constantly in said mains and hydrants already laid and furnished, or to be hereafter laid and furnished, a sufficient supply of water for the purposes aforesaid.

"2. The said party of the first part further covenants and agrees with the said party of the second part contracting, in its own behalf and in behalf of those of the inhabitants of the said City of Brooklyn, residing in the territory known as the Twenty-ninth Ward of the City of Brooklyn, and formerly known as the Town of Flatbush, that it will supply water to the said inhabitants of the said Ward, at a rate not to exceed the regular rates charged by the City of Brooklyn and at that time prevailing for the supply of water to those persons residing in the first twenty-eight wards of said City, together with such extra and special rates as are charged by the said City in the territory aforesaid, it being expressly understood and agreed that the party of the first part in determining such rates shall not include or consider any vacant land, either uninclosed or inclosed with any building, but shall regard only the building and the land upon which it stands to be the width thereof.

"3. The said party of the second part will pay to the said party of the first part, for the water so furnished to it as aforesaid, the sum of eight thousand five hundred and ninety-six dollars, on the thirtieth day of September, eighteen hundred and ninety-six, the further sum of six thousand four hundred and fifty dollars on the thirty-first day of December, eighteen hundred and ninety-six, and the sum of thirty thousand dollars annually thereafter in equal quarterly payments of seventy-five hundred dollars each on the thirty-first day of March, the thirtieth day of June, the thirtieth day of September and the thirty-first day of December in each year, during the continuance of this contract.

"4. It is further understood and agreed that this contract is not to bar or in any manner effect the right of the party of the second part to acquire the franchises and the property of the said party of the first part, by condemnation proceedings at any time, or to restrict its right, if any it has, to lay pipes or mains in said ward, to furnish water for its own use, or to confer any exclusive franchise upon the party of the first part, or to enhance the value of or add to its franchises or assets ; but, on the contrary, the stocks, assets and franchises of said company shall be valued in any such proceeding to condemn the same, without enhancement from any provision of this contract being considered or allowed.

"This contract is to commence on the day of the date hereof, and terminate on the thirty-first day of December, nineteen hundred."

In my opinion, this was a valid contract, binding upon The City of Brooklyn, and by the provisions of The Greater New York Charter (sections 1 and 4) is binding upon and a liability of

The City of New York, and must be "defrayed and answered unto" by it to the same extent and "no further than the" City of Brooklyn would have been bound if the Charter had not been passed.

The resolutions of the Board of Public Improvements, referred to in the petition of the Water Works Company, were passed by the said Board August 24, 1898, and are found on pages 683 and 684 of the printed minutes of the Board. The last resolution is as follows :

"Resolved, That before consent can be given by this Board for the issuing of permits to extend water-mains or to erect hydrants by private water companies, an agreement must be executed by said private water companies accepting the rates and rules as set forth in this resolution."

By reason of the passage of these resolutions, the Commissioner of Highways has refused to grant a permit to said Flatbush Water Works Company to open certain streets in the Twenty-ninth Ward (former Town of Flatbush), for the supplying of water to the property-owners in said ward who desire to improve their property.

In my opinion the passage of said resolution is not a valid and legal reason for refusing to grant the permit applied for, and if it is the only reason, I am of the opinion that the courts would, on proper application, grant a mandamus against said Commissioner of Highways, commanding him to issue said permit.

I have sent a copy of this communication to the Commissioner of Highways.

Yours respectfully,

JOHN WHALEN,
Corporation Counsel.

The following resolutions were adopted :

BOARDS OF LOCAL IMPROVEMENTS.

FIFTH DISTRICT, BOROUGH OF BROOKLYN.

Meeting in Room 11, Borough Hall, at 4.30 P. M., Thursday, June 1, 1899.

The roll was called, and the following members answered to their names:

Edward M. Grout, President, in the chair, Councilman Doyle and Aldermen Kenney, Keegan and Hennessy.

The President submitted the following:

(No. 76a.)

Petition of Sherman Cummin, Charles W. Wright and others, for laying city water-mains in Forty-third street, between New Utrecht avenue and Thirteenth avenue; in Forty-fourth street, between Fort Hamilton avenue and Thirteenth avenue, and in Forty-fifth street, between New Utrecht avenue and Thirteenth avenue, to take the place of the water-mains of the West Brooklyn Water Company.

Senator William H. Reynolds was heard in behalf of the water company and stated that while he would oppose any action that would deprive the company of the right of supplying water in the three streets above mentioned, the company would not oppose steps taken to have the entire plant of the West Brooklyn Water Company acquired by the city.

Following report from the Department of Water Supply:

DEPARTMENT OF WATER SUPPLY,
DEPUTY COMMISSIONER'S OFFICE, BOROUGH OF BROOKLYN,
NEW YORK, N. Y., May 24, 1899.

Hon. EDWARD M. GROUT, President, Borough of Brooklyn:

DEAR SIR—Replying to your communication of the 22d instant, in regard to the petition from the citizens of Borough Park for water-main in Forty-third street.

On investigation I find that the complaints of the petitioners on account of the poor quality and insufficient quantity of the supply are well founded. A connection exists between our Ridgewood stream and the pipes of the West Brooklyn Company on Hamilton avenue, both on Forty-third and Forty-fourth streets; that it would be easy to supply the petitioners with Ridgewood water.

I annex hereto diagram showing the locality and give also an approximate estimate of the cost, which amounts to about \$3,035.

Very respectfully,
(Signed) JAMES MOFFETT,

Deputy Commissioner of Water Supply for the Borough of Brooklyn.

Following resolution was adopted:

Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had this 1st day of June, 1899, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York that the Department of Water Supply be directed to make such inquiries, to be reported to the Board of Public Improvements, as will enable said Board to determine whether it is advisable for The City of New York to acquire the pipes, hydrants and plant of said West Brooklyn Water Company.

(No. 77.)

Petition of John Krapp, Jr., and others, for the construction of sewer in Eighty-fifth street, between Sixteenth and Seventeenth avenues.

Following report from the Department of Sewers:

DEPARTMENT OF SEWERS—BOROUGH OF MANHATTAN,
COMMISSIONER'S OFFICE,
NEW YORK, May 15, 1899.

Hon. EDWARD M. GROUT, President, Borough of Brooklyn:

DEAR SIR—In reply to your letter of March 1, 1899, transmitting copy of petition of property-owners on Eighty-fifth street, between Sixteenth and Seventeenth avenues, Borough of Brooklyn, to have a sewer constructed in Eighty-fifth street, between the points above mentioned.

You also wished to know if the sewer was desirable; also all information that can be furnished in relation thereto.

I inclose you copy of report of Mr. William Brennan, Deputy Commissioner of Sewers, Borough of Brooklyn. I also transmit blue prints and sketch in connection with the same. I am

Yours respectfully,

(Signed) JAMES KANE, Commissioner of Sewers,
CITY OF NEW YORK—BOROUGH OF BROOKLYN,
DEPARTMENT OF SEWERS,
May 12, 1899.

Hon. JAMES KANE, Commissioner of Sewers:

DEAR SIR—In reply to the communication from the President of the borough, dated March 1, 1899, I respectfully report as follows:

The cost of the construction of a sewer in Eighty-fifth street, between Sixteenth and Seventeenth avenues, is estimated at \$2,100; the assessed valuation of the property within the probable area of assessment is \$32,700.

In order that this sewer may be built, outlet-sewers will have to be constructed through Sixteenth avenue, between Eighty-fifth and Eighty-sixth streets; thence through Eighty-sixth street to Fourteenth avenue; through Fourteenth avenue to a proposed street crossing Dyker Beach Park; thence through this proposed street to Ninety-second street, and through Ninety-second street to New York bay, the estimated cost of which is \$752,000; the assessed valuation within the probable area of assessment is \$6,344,489.

I respectfully attach a sketch showing this sewer and its outlet. I also inclose two prints of an alternative design for the proposed street which crosses the Dyker Beach Park. Either one of these, I understand, has been advocated by the Department of Parks. I respectfully suggest that information may be requested from said Department in relation to the lay-out of this proposed street as to their intention for adoption. This is an important matter, as the construction of main sewers in Map W will be contingent upon the lay-out of the above proposed street. No record can be found for the opening of Fourteenth avenue, between Eighty-sixth street and Gravesend bay.

Yours respectfully,

(Signed) WILLIAM BRENNAN,
Deputy Commissioner of Sewers, Borough of Brooklyn.

The following resolution was adopted:

Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had this 1st day of June, 1899, and deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York that a sewer be constructed in Eighty-fifth street, between Sixteenth and Seventeenth avenues, and outlet sewers through Sixteenth avenue, between Eighty-fifth and Eighty-sixth streets; thence through Eighty-sixth street to Fourteenth avenue, thence through Fourteenth avenue to a proposed street crossing Dyker Beach Park;

thence through this proposed street to Ninety-second street; thence through Ninety-second street to New York bay, in the Borough of Brooklyn.

Communication from the Board of Public Improvements, transmitting report from the Department of Highways, showing that the cost of grading and paving Fifty-fourth street, between Seventh and Fort Hamilton avenues, would be in excess of one-half the assessed value of the property within the probable area of assessment.

Resolution No. 52, adopted at the meeting of the Local Board on April 7, 1899, was accordingly reconsidered and rescinded.

Following resolution was adopted:

Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had this 1st day of June, 1899, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York, that proceedings be initiated to grade Fifty-fourth street, between Seventh avenue and Fort Hamilton avenue, in the Borough of Brooklyn, and to set or reset curb, pave gutters and set bridge-stones of said street where not already done.

The Trial Commissioner reports to the Board in the matter of Patrolman John M. Lanigan, Fifty-third Precinct, tried before him on May 19, 1899, on the charge of assaulting a boy with his fists, that from the evidence taken upon the trial in said case it appears that the officer struck the boy, but not a vicious blow, in his attempt to disperse what he believed to be a crowd gathered on the corner and without intent to inflict bodily injury. In view of the good record of the officer in the Department the Commissioner recommends his conviction and that he be reprimanded, and the Board concurs in the recommendation of the Commissioner.

No bonds or deposit required on bids under One Thousand Dollars.

No empty packages are to be returned to bidders or contractors except such as are designated in the specifications.

Bidders will state the price for each article, by which the bids are tested.

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 479, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids. Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (\$50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate of \$1,000 or over shall be accompanied by the consent, in writing, of two householders or freeholders, or security, trust or deposit companies in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by law, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the Department, Nos. 126 and 128 Livingston street, Brooklyn, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

ADOLPH SIMS, Jr., Commissioner,
JAMES FEENEY, Commissioner,

The articles, supplies, goods, wares and merchandise are to be delivered, free of expense, at the Storehouse, Flatbush, and are to be delivered in such quantities and at such times as may be required.

The quality of the Hospital Supplies must conform in every respect to the specifications and samples, and bidders are cautioned to examine both specifications and samples of the articles required before making their estimates.

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate of \$1,000 or over shall be accompanied by the consent, in writing, of two householders or freeholders or security, trust or deposit companies in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as surety in good faith and with the intention to execute the bond required by law if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Payment will be made by a requisition on the Comptroller in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the Department, Nos. 126 and 128 Livingston street, Brooklyn, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

DEPARTMENT OF PUBLIC CHARITIES,
BOROUGH OF MANHATTAN AND THE BRONX,
FOOT OF EAST TWENTY-SIXTH STREET,
NEW YORK, June 6, 1899.

PROPOSALS FOR THE MATERIALS AND WORK REQUIRED FOR NEW TILE SEWERS TO BE LAID IN THE GROUNDS AT BELLEVUE HOSPITAL.

SEALED BIDS OR ESTIMATES FOR THE above-mentioned work, in conformity with plans and specifications, will be received at the office of the Department of Public Charities, foot of East Twenty-sixth street, in The City of New York, until 12 o'clock m.,

MONDAY, JUNE 19, 1899.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for the Materials and Work required for New Tile Sewers to be laid in the Grounds at Bellevue Hospital," with his or their name or names and the date of presentation to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department, or his duly authorized agent, and read.

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of Seven Hundred (\$700) Dollars.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. When more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for his faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Bidders are cautioned to examine the plans and specifications for particulars of the work, etc., required before making their estimates, and are cautioned against referring to the specifications other than those furnished by the Department. Such references are cause for rejecting bids whereon they are written, and will in no case govern the action of the Department officers in passing upon tenders.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

The form of the contract, including specifications, and showing the manner of payment, can be obtained and plans seen at the office of Horgan & Slattery, architects, No. 1 Madison Avenue, New York City, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

Bidders are required to foot up their bids.

Awards will be made on the lowest items.

Goods will be received in one delivery.

No empty packages are to be returned to bidders or contractors.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or estimate for Materials for the Manufacturing Bureau, for the Kings County Penitentiary," with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the date and hour above named, at which time and place the bids or estimates received will be publicly opened by the Commissioner of Correction, or his duly authorized agent, and read.

THE COMMISSIONER OF CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (\$50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders, or security, trust or deposit companies in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the

National or State Banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having

abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the Kings County Penitentiary, or in the absence of samples, to the specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioner may determine.

The form of the contract, including specifications, and showing the manner of payment, will be furnished at the office of the Department, No. 148 East Twentieth street, or James J. Kirwin, Deputy Commissioner, No. 5 City Hall, Borough of Brooklyn, and bidders are cautioned to examine each and all of its provisions carefully, as the Commissioner will insist upon its absolute enforcement in every particular.
