
Proposed Consolidated Plan

ANNUAL PERFORMANCE REPORT 2018

Volume III

COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

APPENDIX A

The City of New York
CD Year 44: January 1, 2018 to December 31, 2018

**NEW YORK CITY
COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM
2018 CONSOLIDATED PLAN ANNUAL PERFORMANCE REPORT**

APPENDIX A

The data contained in these Appendices are comprised of site listings and census tracts for several Community Development (CD) programs funded during Calendar Year 2018 (the Forty-Fourth Program Year). Wherever possible, the City reports specific addresses that benefitted from its CD-funded programs in HUD's Integrated Disbursement and Information System (IDIS). However, this is not possible for all programs due to the large number of locations served. Due to the voluminous nature of the data, it is published as two separate appendices to the 2018 / Forty-Fourth Program Year Community Development Annual Performance Report.

Appendix A is split into two sections:

- **Section A** provides a brief explanation of how each program served the locations in its respective site listing. Additionally, this section contains a chart that summarizes, by program, the percent of low- and moderate-income (low/mod) persons that live within the program's CD-funded service area and the amount of work that took place in CD-eligible census tracts. A CD-eligible census tract is one that is comprised at least 51.0 percent of persons from low/mod households and at least 50.0 percent of residential floor area.
- **Section B** lists the specific locations served by each program and their respective census tract, tract eligibility, and number of units served (for residential properties). The information was extracted from databases maintained by City agencies responsible for the administration of the CD-funded programs. The NYC Department of City Planning has appended other locational information that users may find helpful, including census tract, Congressional District, Community District, and New York City Council District.

Appendix A Table of Contents

Program Listing and Descriptions	Section A – Page 1
Program Summary Chart	Section A – Page 4
Program Location Listings	
Emergency Repair Program (ERP) General Repairs	Section B – Page 1
ERP: Alternative Enforcement Program (AEP) Emergency Repairs	Section B – Page 112
ERP: Lead-Based Paint Hazard Reduction	Section B – Page 117
Litigation	Section B – Page 126
Maintenance and Operation of Tax-Foreclosed Housing (MOTH)	Section B – Page 323
MOTH: Tenant Interim Lease (TIL)	Section B – Page 324
MOTH: Third Party Transfer (TPT)	Section B – Page 326
Targeted Code Enforcement (TCE)	Section B – Page 327

SECTION A

Below is a listing of the programs (and, if applicable, subprograms) identified in these appendices and a brief explanation of how each served the locations in its respective site listing. For accomplishment narratives, please see the individual program entries in the APR Addenda.

NYC Department of Housing Preservation and Development (HPD) Programs

- **Emergency Repair Program:** The Emergency Repair Program (ERP) works to correct immediately hazardous "Class C" violations of the New York City Housing Maintenance Code. The goal is to secure voluntary corrective actions by landlords, eliminating the need for direct City involvement.

The first ERP site listing includes multi-unit residential properties at which HPD staff or CD-funded contractors made emergency repairs that were not related to lead-based paint violations. These properties are not part of the City's Alternative Enforcement Program. Because these repairs address emergency, life-threatening conditions, CD-funded repairs can take place at residential buildings throughout the city and are not limited to CD-eligible census tracts. However, the City cost allocates the program's expenditures such that the percentage of work that took place in ineligible census tracts is used to apportion charges to the Slum or Blight Spot national objective.

- **ERP Alternative Enforcement Program (AEP) Emergency Repairs:** AEP is an HPD enforcement program for the most distressed privately-owned multi-unit residential properties in the city. The goal of the program is to improve housing conditions by having HPD perform frequent inspections to monitor correction of violations and issue Orders to Correct if the owner fails to act. The program also allows HPD to make repairs and replace building systems if necessary when the owner fails to do so.

The site listing in this Appendix includes AEP locations at which CD-funded emergency repairs took place. More comprehensive systems replacement work is conducted through and charged to AEP; accomplishments associated with that work are reported under the AEP entry in the APR Addenda.

- **ERP Lead-Based Paint Hazard Reduction:** This list includes multi-unit residential properties at which HPD made CD-funded repairs to address lead-based paint hazards when an owner failed to do so. All charges for lead-based paint corrective actions are charged to the Slum or Blight Spot national objective.

- **Litigation:** Through the Litigation program, HPD's Housing Litigation Division initiates actions in the Housing Court against owners of privately-owned buildings to enforce compliance with the housing quality standards contained in the New York State Multiple Dwelling Law and the New York City Housing Maintenance Code (Housing Code).

This program receives both CD and City tax levy funding: CD funds pay for activity that benefits CD-eligible census tracts, while tax levy supports efforts in ineligible tracts. The site listing for this program is used to determine the amount of work that took place in CD-eligible areas and cost-allocate the expenditures accordingly. Additionally, this program generates revenue from civil penalties assessed

against property owners for violating the State and City Housing Codes. This revenue is also cost-allocated.

- **Maintenance and Operation of Tax-Foreclosed Housing (MOTH):** Through foreclosure for tax delinquency (in rem), the City assumed ownership and management responsibility of formerly privately-owned residential buildings. These buildings are most often located within distressed neighborhoods and are in need of various levels of renovation. This program is designed to benefit the low- and moderate-income people who occupy these buildings. CD funds are used for maintenance and repair within these properties.

The first MOTH listing includes occupied properties managed by HPD's Division of Property Management.

Please note that this listing is for informational purposes only and that the eligibility of each census tract is not used to support compliance with a CD national objective. In a letter dated January 26, 1996, HUD accepted the City's proposal to use the triennial New York City Housing and Vacancy Survey (HVS) to document the income eligibility of tenants residing in City-owned buildings. The 2017 HVS, using data compiled by the U.S. Census Bureau, demonstrated that 84.4 percent of all in rem households have incomes at or below 80 percent of the HUD-defined median for the New York Primary Metropolitan Statistical Area (PMSA).

- **MOTH Tenant Interim Lease (TIL):** The properties in this listing are City-owned tax-foreclosed residential buildings that are in the process of becoming independent housing cooperatives under a Housing Development Fund Corporation (HDFC) structure where tenants become homeowners. Please note that this listing is for informational purposes only and that the eligibility of each census tract is not used to support compliance with a CD national objective. This component of the MOTH program also uses the HVS to document compliance with the Low- and Moderate-Income Housing national objective, as approved by HUD.
 - **MOTH Third Party Transfer (TPT):** As of 1996, the City no longer takes full ownership of tax-foreclosed residential buildings. Instead, the City may petition the Court to convey the property to a qualified third party. Until the properties can actually be transferred to a permanent owner, Neighborhood Restore Housing Development Fund Corporation, a nonprofit entity, assumes interim ownership and provides technical assistance to and oversees management. This listing includes properties at which CD funds were used for fuel and utility payments during the interim ownership period. Please note that this component of the MOTH program uses the Low- and Moderate-Income Area national objective. Accordingly, all CD-supported sites must be located in CD-eligible census tracts.
- **Targeted Code Enforcement (TCE):** This listing includes addresses at which HPD used CD funds for Housing Code inspections that were not related to lead-based paint.

Please note that national objective compliance for this program is not determined at the census tract level. Instead, HPD uses sub-borough areas, as defined by the U.S. Census Bureau, to designate areas as deteriorated and deteriorating. Areas are determined to be eligible for CD funds if they meet the following criteria:

- At least 51 percent of the population is at or below 80 percent of the area median income; and
 - At least 50 percent of the sub-borough area is categorized as residential in nature; and
 - At least 15 percent of the occupied rental units are in multiple dwellings with three or more maintenance deficiencies.
- **TCE Lead-Based Paint Inspections:** This listing includes addresses at which HPD conducted inspections for lead-based paint hazards with X-Ray fluorescence (XRF) analysis machines. Please note that this listing is for informational purposes only and that the eligibility of each census tract is not used to support compliance with a CD national objective. CD-funded repairs can take place at residential buildings throughout the city and are not limited to CD-eligible census tracts. All charges for lead-based paint inspections are charged to the Slum or Blight Spot national objective.
 - **TCE Proactive Preservation Initiative:** HPD's Proactive Preservation Initiative is an approach to identifying deteriorating physical conditions in buildings in CD-eligible areas and addressing those issues through a combination of assistance and enforcement. HPD staff perform an initial roof-to-cellar inspection (after posting notice to tenants) and a re-inspection 45 days later. Throughout this process, HPD field staff is available to work with owners to ensure they understand the process of correcting and certifying violations and to provide other technical assistance. If the 45-day re-inspection does not show any improvement, the building may be referred to the Housing Litigation Division for appropriate action in Housing Court.

This listing includes buildings at which HPD performed CD-funded inspections through the Proactive Preservation Initiative.

NYC Department of Parks and Recreation (PARKS) Programs

The GreenThumb program manages the license agreements for and oversees all community gardens located on City property. CD funds are used to support community gardens in low- and moderate-income census tracts; City tax levy funds are used for other gardens. The listing includes the blocks and lots for community gardens that received CD-funded services through either of the program's two components:

- **GreenThumb Public Facilities:** Through this component, CD funds are used to make physical improvements in community gardens, such as creating a new garden from scratch, planting trees, or installing sidewalks, fences, or retaining walls.
- **GreenThumb Public Services:** Through this component, CD funds are used for materials, supplies, education, minor repairs, and technical support/assistance for community gardens.

SECTION B

The following pages contain listings of discrete addresses or blocks and lots served by program. Below is an explanation of the headings used in this file. Please note that the addresses are sorted alphabetically by agency, then by program name, borough abbreviation, and finally street name and house number (or block and lot for GreenThumb gardens).

<u>Heading</u>	<u>Information Provided</u>
Agency	Acronym of the City agency that administers the program.
Program Name	Name of the CD-funded program and, if applicable, the subprogram.
Boro	The borough in which the site is located. To save space, the City has abbreviated the borough names as follows: <ul style="list-style-type: none">• BK = Brooklyn• BX = The Bronx• MN = Manhattan• QN = Queens• SI = Staten Island
Street Address	For housing programs, the street numbers and names for the properties served in 2018.
Block and Lot	The block and lot number for each location served in 2018. Please note that the GreenThumb program sometimes benefits gardens that are located on an unmapped lot. In such cases, the City has listed the block and lot of the nearest mapped property.
# of Res. Units	For residential properties, the total number of housing units in the building. This column is for informational purposes only.
# of Units Served	For residential properties, the number of housing units that the program served during 2018. Please note that the number of units in this column may be higher than the total number of units in the building because the program may serve a unit multiple times.
Census Tract (CT)	The census tract in which the site is located (using tract boundaries from the 2010 Census).
Total Persons in CT	The total population of the census tract in which the site is located. The information in this column and the two that follow is provided to the City by the U.S. Department of Housing and Urban Development and the U.S. Census Bureau.
Low/Mod Persons in CT	The number of persons from low- and moderate-income (low/mod) households who live in the census tract in which the site is located.
% Low/Mod	The percentage of the census tract's population that is low/mod.
% Residential	The percentage of the census tract's floor area that is residential in nature. This information was developed using the NYC Department of City Planning's Primary Land Use Tax Lot Output (PLUTO) data set, specifically release 16v1.
CD Eligibility	Indicates whether the census tract in which the site is located is CD-eligible (E) or -ineligible (I). In order to be CD-eligible, the % Low/Mod value must be at least 51.0 percent <i>and</i> the % Residential value must be at least 50.0 percent.
Comm. Dist.	The NYC Community District in which the site is located.
Cong. Dist.	The U.S. Congressional District in which the site is located.
Council Dist.	The NYC Council District in which the site is located.
