MOTIONS AND RESOLUTIONS RESUMED.

(G. O. 535½.)

Alderman Quinn moved that the Committee on Street Pavements be discharged from the further consideration of the following:

Resolved, That the roadway of Kingsbridge road, from One Hundred and Fifty-fifth to One Hundred and Ninetieth street, be established of the width of forty-eight feet, and that the said roadway be paved with macadam pavement, with Telford foundation, except that the gutters be paved four feet wide with trap-block pavement, and that the space included between the line of the gutter nearest the centre of the road and the crosswalks at the intersecting streets be also paved with trap-block pavement, the curb-stones and receiving-basins now set in said road to be removed and reset in such manner as to conform to this ordinance, also that crosswalks be laid on both sides thereof across the intersecting streets, where not already laid, under the direction of the Commissioner of Public Works; and that the accompanying ordinance therefor be adopted.

In connection therewith, the President laid before the Board the following message from his Honor the Mayor:

MAYOR'S OFFICE, NEW YORK, October 22, 1887.

To the Honorable the Board of Aldermen:

I have the honor to transmit herewith a letter and memorandum which has been addressed to me by the Commissioner of Public Works in reference to the contemplated pavement of Kingsbridge road, now pending before your Committee. Under the circumstances it would seem that early action is desirable.

ABRAM S. HEWITT, Mayor.

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, October 20, 1887.

Hon. ABRAM S. HEWITT, Mayor:

SIR—I take the liberty of transmitting to you two papers, one a memorandum in reference to the improvement of Kingsbridge road, from One Hundred and Fifty-fifth to One Hundred and Ninetieth street, the other, a copy of a letter, of June 15, to yourself upon the same subject. The memorandum will give a complete history and present status of matters in relation to the contemplated pavement of Kingsbridge road.

I think it highly important that this matter should receive the attention of the Board of Aldermen without delay. It is true that we could do nothing this season, but we could have the contracts and everything else prepared to commence work at the earliest possible opportunity during the next spring. You will observe that there were two plans; one for a 60-foot roadway, and the other and last, for a 48-foot roadway. It is very questionable at the very least whether the 60-foot roadway would not be fully as cheap as the 48-foot roadway, when you take into consideration the additional width of the sidewalks in the latter case, and the fact that it is the expressed intention, as I understand it, to plant the portion of the sidewalk next the curb with two rows of shade trees.

Respectfully yours,

JOHN NEWTON, Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, June 15, 1887.

Hon. ABRAM S. HEWITT, Mayor:

SIR—I understand that it is proposed to diminish the carriageway of the Kingsbridge road from 60 feet to 48 feet. I think that this would be injudicious, as Kingsbridge road, between Tenth avenue and the river, would be the main line of travel to the upper end of the island, and from Yonkers to the city. I have had an estimate prepared to show the difference of cost between a certain length of this road, 9,700 feet, between the widths of 60 feet and 48 feet for the roadway, and find that it amounts to a little more than one dollar per running foot of frontage, reckoning both sides of the road. This is so inconsiderable in comparison with the future values of property after the road shall have been improved, as scarce to merit consideration; and yet this difference of cost constitutes the only argument that has been used for the purpose of diminishing the width of the roadway.

Respectfully yours,
(Signed)

JOHN NEWTON, Commissioner of Public Works.

Memorandum in Reference to the Improvement of Kingsbridge Road.

The work of regulating, grading, etc., Kingsbridge road, from One Hundred and Fifty-fifth to One Hundred and Ninetieth street, was completed and accepted July 1, 1886.

Width of roadway, from One Hundred and Fifty-fifth street to Tenth avenue, 55 feet; width of sidewalks, 22½ feet.

Width of roadway, from Tenth avenue to One Hundred and Ninetieth street, 60 feet; sidewalks, 20 feet.

On June 23, 1886, a resolution was introduced in the Board of Aldermen, to pave Kingsbridge road, from One Hundred and Fifty-fifth to One Hundred and Ninetieth street, with Macadam pavement, according to specifications to be established by the Commissioner of Public Works.

On July 14, 1886, a substitute for this resolution was introduced in the Board of Aldermen, providing that the road be paved with macadamized pavement, with crosswalks at intersecting streets. This last resolution was passed July 21, and approved by the Mayor July 27, 1886.

The form of contract and specifications for the work were then prepared so as to have the work advertised and let; but in the meantime the Department came to the conclusion that the pavement should include Telford foundation, and that such foundation could not be included in the contract unless provided for in the resolution of the Common Council. The work was, therefore, withdrawn from advertisement.

On April 12, 1887, a new resolution was introduced in the Board of Aldermen, providing for a Macadam pavement with Telford foundation, and crosswalks at intersecting streets, which resolution was adopted by the Board April 19, 1887, but was vetoed by the Mayor May 3, 1887, for the reason given in a report of the Commissioner of Public Works to the Mayor that there should be added to the resolution the following provision: "Except that the gutter be paved four feet wide with trap-block pavement, and that the space included between the line of the gutter, nearest the centre of the road and the crosswalks of the intersecting streets, be also paved with trap-block pavement."

On May 10, 1887, a petition signed by Robert B. Saul, Joseph Maloney and H. B. Perkins was introduced in the Board of Aldermen and referred to the Committee on Street Pavements, that a space 30 feet wide through the centre of the roadway be macadamized and the space on each side of such roadway be prepared for use as a country road or drive.

On May 24, 1887, a petition was received in the Board of Aldermen, with over 60 signatures, asking that the roadway be macadamized from curb to curb, with the exception of four feet of gutter on each side, to be paved with trap-block, as recommended by the Department.

On May 31, 1887, a resolution in accordance with this last petition and the recommendation of the Department, viz.: Providing for Macadam pavement, with Telford foundation, except gutters, to be paved with trap-block, was passed by the Board of Aldermen.

At a meeting held June 15, 1887, the Board of Aldermen recalled this resolution from the Mayor, and at the same meeting it was returned by the Mayor with a message, in which he stated:

"In this connection I beg leave to state that, in accordance with the request of the advocates and the opponents of the resolution, I gave them a hearing, which resulted in an agreement on their part favoring a roadway 40 feet wide, to be made of Telford foundation, with Macadam finish, and a gutter of four feet on each side, making a total width for the street of 48 feet between the curbs, and that the remainder of the street should be added to the sidewalks for the purpose of planting trees. It seems to me desirable that the wishes of the property-owners should be consulted in this matter, and I, therefore, recommend the adoption of a resolution in accordance therewith."

At the meeting of June 21, 1887, the Committee on Street Pavements, to whom the matter had been recommended, reported that they believed the proposed improvement to be necessary; that the Board of Aldermen had already twice passed a resolution and ordinance providing for the work; that a difference of opinion among the property-owners interested had led to this unusual proceeding; that, as appeared from the message of the Mayor, these differences appeared to have been reconciled, and that, in accordance with the understanding between the property-owners, a new resolution and ordinance had been prepared by the Committee and was therewith submitted, as follows:

"Resolved, That the roadway of Kingsbridge road, from One Hundred and Fifty-fifth to One Hundred and Ninetieth street, be established at the width of 48 feet, and that the said roadway be paved with Macadam pavement, with Telford foundation, except that the gutters be paved four feet wide with trap-block pavement, and that the space included between the line of the gutter, nearest the centre of the road, and the crosswalks at the intersecting streets, be also paved with trap-block pavement, the curb-stones and receiving-basins now set in said road to be removed and reset in such manner as to conform to this ordinance; also that crosswalks be laid on both sides thereof across the intersecting streets, where not already laid."

This resolution was made General Order 318, and was called up at the meeting of the Board held June 28, 1887, and recommitted to the Committee on Street Pavements, where it still remains.

The President then put the question whether the Board would agree with the motion of Alderman Quinn to discharge the Committee.

Which was decided in the affirmative.

Alderman Quinn then moved that the whole matter be laid over.

The President put the question whether the Board would agree with said motion.

Which was decided in the affirmative.

Whereas, Proof has been presented to the Board of Aldermen that obstructions have been placed across certain wharves, piers and bulkheads in this city, owned by the Corporation of the City of New York, by means of which the public has been and is excluded from free access to the Hudson river; and

Whereas, Such obstructions to the free use of such wharves and piers are illegal; and

Whereas, The late Counsel to the Corporation has expressed his opinion to the Dock Department concerning the rights of the public, in which he says: "Many of these persons, although the wharves are, by the terms of their grants, subject to the public use, and their rights are confined to the mere collection of wharfage, have for many years been in the habit of claiming and leasing the right to the exclusive possession of the piers or bulkheads, without shed privileges or any other foundation for their right to do so. Others of them who have shed privileges and the advantages accruing therefrom, granted indefinitely at the will and pleasure of your Board, have come to regard them as their absolute right, and openly claim that they should be regarded as such and that the favorable action of your Department in permitting their continuance is a matter of course. And in cases where damages are being assessed for such wharfage rights, taken by your Department in constructing the new water-front, they actually ask to be compensated for their property by the City as though they had a fee simple right to the enjoyment of the benefits accruing from the shed privilege"; be it therefore

Resolved, That the Attorney-General of the State of New York be informed of these obstructions and that he be requested to take immediate action concerning the same for the purpose of abating them, and for securing to the public free access to said wharves, piers and bulkheads.

The Vice-President put the question whether the Board would agree with said preamble and resolution.

Which was decided in the negative, on a division called by Alderman Van Rensselaer, as follows:

Affirmative—Vice-President Divver, Aldermen Dowling, Farrell, Fitzgerald, Flynn, Holland, Mooney, Quinn, and Walker—9.

Negative—Aldermen Conkling, Long, Joseph Murray, Tait, and Van Rensselaer—5.

On motion of Alderman Quinn, the above vote was reconsidered and the paper laid over.

GENTLEMEN—I beg to acknowledge the receipt of the resolution adopted on the 18th instant: "Resolved, That the Counsel to the Corporation be and he is hereby requested to report to this Board if the construction of a third or centre track, and the storage thereon of long lines of railroad cars, which obstructs the view, and otherwise interferes with the residents on both side of the Third avenue, is in accordance with the grants given to the elevated railroad companies, by the State Legislature, or if such track and storage of cars is not an unwarranted use of the public highway, and a usurpation of the rights of abutting-owners and residents, by the said elevated railroad companies."

The Rapid Transit Act (Laws of 1875, chapter 606) provided that the Commissioners appointed in pursuance of that act should have exclusive power to locate the route of the proposed railroads, also that they should decide upon the plans for construction of said railroads, with necessary supports, turn-outs, sidings, buildings, etc., in the locations determined by them.

Section 36 provides, "Whenever the route or routes determined upon by said Commissioners coincide with the route or routes covered by the charter of an existing corporation formed for the purpose provided for by this act, provided that said corporation has not forfeited its charter or failed to comply with the provisions thereof, requiring the construction of a road or roads within the time prescribed by its charter, such corporation shall have the like power to construct and operate such railway or railways, upon fulfillment of the requirements and conditions imposed by said Commissioners as a corporation specially formed under this act; and the said Commissioners may fix and determine the route or routes by which any elevated steam railway or railways now in actual operation may connect with other steam railways or the depots thereof, or with steam ferries, upon fulfillment by such elevated steam railway company, so far as it relates to such connection, of such of the requirements and conditions, imposed by said Commissioners under section four of this act, etc."

The Commissioners duly appointed under this act to provide for "rapid transit" in New York City on September 2, 1875, in consideration of certain resolutions passed by the New York Elevated Railroad Company, containing: "Fourth—That in the construction of that section or portion of the railway over and along so much of such route of connections as extends from the Battery to the intersection of William street and Chatham street on the east side of the city, the structure shall be of and for a double track; and from the intersection of William and Chatham streets, through Chatham street, the Bowery and Third avenue to East One Hundred and Twenty-ninth street, the structure shall be for three tracks," and in consideration of certain resolutions passed by the Gilbert Elevated Railroad Company, containing: "Fourth—That, in the construction of the railway of this company, the structure shall be an elevated double track iron railway, to be constructed in all substantial respects in accordance with plans and specifications to be made and agreed to by the president of this company and the said Board of Commissioners, with the privilege, however, to this company to have, and with a provision hereafter having, three tracks of railways, along and upon the portions of the route upon which this company may hereafter, from time to time, think it desirable to construct a third track," fixed the routes of the elevated railroads in New York City substantially as they are actually occupied at present.

Under these agreements the elevated railroad companies claim to have the right to their third tracks, both those which have been built as well as those which are now in process of construction. But whatever authority to construct a third track may be supposed to have been conferred by those agreements, such right was apparently entirely taken away by the specific conditions which, under section 36 of the act, were rightfully imposed upon them by the same Commissioners on October 4, 1885.

Section 4 of those conditions provides for the construction of two tracks, only, in any street, while section 6 specifically provides, "There shall not be more than two rows of columns or more than two tracks in any one street or avenue or public place, except as hereinafter authorized." This latter clause refers to section 52, "Authority is given for construction of such sup orts, turn-outs, switchings, sidings, connections, landing-places, stations, buildings, platforms, stairways, elevators, telegraph and signal devices, and such other requisite appliances upon the route or routes, and in the locations determined by the Commissioners, as shall be proper for the purpose of rapid transit railways, and shall be necessary to meet the requirements of the traveling public."

A condition, in all substantial respects similar to this, has been severely criticised by the Judges of the Court of Appeals in the Cable Railway case (104 N. Y., 1), on the ground that the Commissioners had no right to give a general power of location, along the routes fixed by them, but that they themselves should have determined the exact location for every turn-out, switch, siding, etc. Yet even under the power given the companies by the Commissioners, nowhere were they authorized to construct a third track, but there is a distinct provision that there shall be only two tracks. These remarks apply with even more force to the Manhattan Company, the lessee of the two original roads, as the conditions referred to were embodied in its Articles of Association. A switch or siding, as that term is used in engineering, and among those engaged in the construction of railroads, is defined as a short side track, which may be occupied by a car or a train of cars while another train is passing upon the main track; and I am of the opinion that such short side tracks only were authorized by subdivision 52 of article VII. of the Articles of Association of the Manhattan Railway Company.

It necessarily follows that the third tracks have been constructed without authority, and that they form unlawful obstruction in the streets wherever they have been erected.

I have, therefore, the honor to advise you that the third or centre track along Third avenue, concerning which the resolution particularly inquires, has been constructed without authority. It is beyond the rights conferred by the charter of the New York Elevated Railroad Company, and beyond the rights and privileges given to its lessee, the Manhattan Railway Company; and it forms an unlawful obstruction in the street wherever it has been erected.

I am, gentlemen, yours, very respectfully,

MORGAN J. O'BRIEN, Counsel to the Corporation.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Flour," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department, and read.

The contractor shall furnish a certificate of inspection by the Flour Inspectors of the New York Produce Exchange, also an award from the Committee on Flour of the Exchange, that the flour offered is equal to the standards of the Department, and a certificate signed by the standards of each delivery of flour, the expense of such inspection and award to be borne by the contractor, also certificate of weight and tare to be furnished with each delivery.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.
 Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become and remain sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any

difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the contractor or persons to whom the contract may be awarded at any subsequent letting. The amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and that he consents to the award of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he is offered to execute the same as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York. If the contract shall be returned to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, for money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be enclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-book, and no estimate can be deposited in said book until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the person making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.
 Delivery will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine. Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

JURORS.

NOTICE.

IN RELATION TO JURORS FOR STATE COURTS.

OFFICE OF THE COMMISSIONER OF JURORS,
ROOM 127, STEWART BUILDING,
CHAMBERS STREET AND BROADWAY,
NEW YORK, June 1, 1887.

APPLICATIONS FOR EXEMPTIONS will be heard here, from 9 to 4 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have been exempted as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered in person, if possible, at this office, under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must also answer in person, giving full and correct name, residence, etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No more excuse will be allowed or interference permitted. The fines if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable jurors, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt.

Every man must attend to his own notice. It is misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold or make any false statement, and every case will be fully prosecuted.

CHARLES REILLY,
Commissioner of Jurors.
