SURROGATE'S OFFICE,  
NEW YORK COUNTY COURT-HOUSE,  
NEW YORK, December 4, 1878. }

To the Honorable the Board of Aldermen :

GENTLEMEN—The rooms assigned to the Surrogate have become entirely inadequate to the proper administration of the constantly increasing business of that office, particularly as to the record room, which is now full to overflowing, greatly obstructing the business of the office and the facility for examining the records, and the court-room, which is quite too small, without adequate ventilation and seriously detrimental to health.

It is believed that your Honorable Body will readily appreciate the propriety of assigning to this most important Department ample, convenient, and healthful rooms for the right administration of the office.

The deep interest which the public has in such administration, and the great inconvenience of the present quarters, impels me to ask for the assignment of the new wing to the court-house, when it shall be completed, to this Department.

I have the honor to be, most respectfully,

DELANO C. CALVIN, Surrogate.

Every city railroad passenger car propelled or drawn on the surface of any street, avenue, or public place in the City of New York, in which the posts of any elevated railway are erected, shall be provided with gates at each side of the front and rear platforms of every such car, similar to the gates on the platforms of the cars used on the elevated railways; such gates shall be kept securely closed and fastened when the cars are in motion, and shall be opened by the conductors or drivers only to permit ingress to or egress from such cars, and no passenger shall be permitted to enter or depart from any such car while it is in motion.

SANITARY BUREAU, NEW YORK, December 3, 1878.

To W. DE F. DAY, M. D., Sanitary Superintendent:

SIR—I have the honor to submit the following report on the sale of sour hams in Washington Market:

In accordance with your instructions I have visited several dealers, wholesale and retail, and have gleaned the following statements, which I believe to be facts.

In the large packing houses where hogs are cut up and cured, the hams and shoulders are at first packed in brine, and after a sufficient exposure to its action, are removed to the smoking-rooms, where the curing is completed. Many circumstances conspire to render the process of curing a somewhat uncertain one. If the meat be not thoroughly cooled before packing; if a small portion be left exposed, or through careless packing emerges from the brine, or if the meat be left too long before it is put into the brine, certain small portions of it will become partially decomposed. Even if the packing is well done, certain pieces of meat, either from their greater size, or greater firmness and closeness of fibre, may not have been thoroughly subjected in every part to the action of the brine when removed for smoking. For similar reasons the smoking of certain hams or shoulders may be imperfectly accomplished, or, on the other hand, too thoroughly done when the batch is removed from the smoking-room. Owing to these various contingencies, several of which may be combined in a single instance, and very likely owing to other causes, as yet imperfectly understood, the hams and shoulders have to be sorted for the market after the curing is completed. All sour hams, i. e., all that are tainted in the slightest degree, together with those that are smoked so much or so little as to injure their color, are put aside as unfit to sustain the reputation of the house, and are sold in the lump, at almost any price that can be got for them, to certain persons who deal entirely in this kind of meat.

Most, if not all, of the retail dealers in sour hams have their stands on the northerly side of Washington Market, on Vesey street. There are four or five of them altogether, and by selling hams at 8 cents, and shoulders at 5 cents per pound, when dealers inside the market charge 12 and 10 cents, respectively, they attract considerable trade.

The lowness of their prices is alone sufficient to prove that the average quality of their meat is bad, for it needs no argument to show that, when hogs cost four cents a pound, and the cheapest wholesale price for shoulders at the packing house is four and three-quarters, no one can afford to sell uniformly good meat at retail for five cents. And still their meat is probably not all bad. They buy a large number of rejected hams and shoulders at an almost nominal price, and among these may be some that are only partially tainted. The portion immediately around the bone may not have been thoroughly acted on by the brine, and may be "sour," while the outside is still good, so that if the centre of the slice be cut out, the remainder will be eatable. Such a job lot of hams may also include some in which the only fault is over-smoking, and there are many persons to whom such ham is more palatable than that which is cured to suit the average taste. On the other hand these dealers must dispose of many hams and shoulders, that are quite advanced in decomposition.

It is not easy for an unskilled person to detect a sour ham, although dealers say that there is no difficulty in it. There is to me no marked difference in color, either of the outside, or of the cut surface, and I am informed that a freshly cut surface quickly loses any suspicious odor on exposure to the air. The dealers, however, are provided with "triers," a sort of stiletto, which they thrust into the meat along the bone, and then under the nose of their customer. They also have the audacity to keep gas lights burning, when business is brisk, in which the fat adhering to the trier can be fried for the purpose of showing that their wares are merchantable.

I have been unable, being a non-expert, to actually detect any bad meat at these stands, but I have asked some of the very energetic young men, who are always on the eager look out for buyers, how they could afford to sell their meat so cheap. One said that he had always done so, year in and year out, and could always be found in that identical spot, while another explained that he had a large consignment of poultry coming in on Monday, and he wanted to clear out his stock of hams and shoulders. "Otherwise," he added with a genial smile, "you couldn't buy them for less than ten and twelve cents."

In conclusion, I would state that the trade in rejected hams and shoulders appears to be a recognized one that has been carried on for years; that the principal mart for them is on the Vesey street side of Washington Market, and that while customers may sometimes get hold of good meat there at a remarkably low price, there are probably more who wish, when their meat is cooked that they had gone to some other dealer.

With regard to certain alleged sharp practices of these men, such as the use of false weights and balances, frequent change of salesmen so as to bewilder the cheated customers who come back for redress, etc., I have nothing say, as I did not consider such matters as coming within the province of the Board of Health.

Respectfully submitted,

ROGER S. TRACY, M. D., Sanitary Inspector.

## JURORS.

## NOTICE IN RELATION TO JURORS FOR STATE COURTS

OFFICE OF THE COMMISSIONER OF JURORS,  
NEW COUNTY COURT-HOUSE,  
NEW YORK, June 1, 1877.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 9 to 4 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only) under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines, received from those who, for business or other reasons, are unable to serve at the time selected, pay the expenses of this office, and if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt.

Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement, and every case will be fully prosecuted.

## DEPARTMENT OF DOCKS.

DEPARTMENT OF DOCKS,  
NOS. 117 AND 119 DUANE STREET,  
NEW YORK, December 3, 1878.

JAMES M. OAKLEY & CO., AUCTIONEERS,  
will sell at Public Sale, at the Exchange Sales-room, No. 111 Broadway, on

MONDAY, DECEMBER 16, 1878.

at 12 o'clock M., the right to collect and retain all wharfage which may accrue for the use and occupation by vessels of more than five tons burthen, of the

BULKHEAD AND WATER FRONT AT THE FOOT OF HOUSTON STREET, EAST RIVER,

for the term of fifteen years and six months, from 1st November, 1878.

The terms and conditions under which the lease of the premises will be sold are as follows:

The purchaser shall erect at his own cost a substantial bulkhead at the foot of Houston street, on a line with the easterly line of Tompkins street, extended, and shall fill in the space behind the same to the present bulkhead at Houston street, with solid filling.

He shall also construct on or before 1st January, 1880, at his own expense, at the new bulkhead, a substantial pier on piles, 250 feet long, and forty feet wide, and shall have the right to collect and retain all wharfage which may accrue for the use and occupation thereof during the term of 15 years and six months.

The work of building said bulkhead and pier, and the filling in will be required to be done under the supervision of the Engineer-in-Chief of this Department, and in accordance with plans to be first submitted to, and approved of by that officer. This lease is to be subject to rights already granted by the city for a ferry.

The said pier is to be kept in proper repair, in all its parts, by the lessee, at his own cost, for the term of his occupancy, and at the end of the term, or sooner termination of the lease, shall revert to and become the property of the City free from all claims for cost, repairs, or damage of any kind whatsoever.

All dredging necessary to be done to provide a proper depth of water adjacent to said pier, shall be done by the lessee, at his own cost.

The upset price as the annual rent of the above-named bulkhead and pier, to be hereafter built, is fixed as follows:

For the first term of five years, \$2,000.

For the second term of five years, \$2,250.

For the third term of five years and six months, \$2,500.

The rent to be paid quarterly in advance, in compliance with a stipulation therefor in the form of lease adopted by this Department.

The purchaser of said lease shall have the privilege of erecting at his own cost and expense, in front of the bulkhead on the easterly side of Tompkins street, about 130 feet southerly from the south line of Houston street, extended, a pier upon piles, 225 feet in length, having a width at the bulkhead of about 45 feet, and at the outer end of about 25 feet; provided he shall first obtain and file with the Department the consent, in writing, of the owners of said bulkhead to the erection of said pier.

The pier to be built in accordance with plans, to be first submitted to and approved of by the Engineer-in-Chief of this Department, and the work to be done under the supervision of that officer. And if the said pier shall be built, then the purchaser of this privilege shall pay to the Department of Docks, as rent for the land under water, claimed to be owned by the city, and covered by the pier last mentioned, the sum of \$300 per annum quarterly in advance.

Said rent of \$300 shall be paid to the Department, until the Court of last resort shall determine that the land under water covered by the pier is not the property of the city.

And that in case the final decision shall be to the effect, that the title to said land under water, covered by the pier, is vested in the City of New York, then the rental shall continue to be paid by said lessee, and the pier, aforesaid shall, at the end of the term, or sooner termination of the lease, revert to and become the property of the city, free of all claims for cost, damage, or otherwise.

Also, a lease for the term of ten years and six months, from 1st November, 1878, of so much of the

LAND UNDER WATER, LYING ON THE EASTERLY SIDE AND OUTER END OF PIER 36, EAST RIVER,

as will be sufficient to allow said pier to be widened forty-five feet on its easterly side, and to be extended about fifty-three feet at its outer end, after being so widened.

The purchaser of said lease of land under water, shall have the privilege to widen and extend Pier 36, East river, to the limits herein set forth, provided he shall first obtain and file with the Department the consent, in writing, of the owners of said Pier 36, East river, and of the bulkhead adjoining the pier on its easterly side to the said widening and extension be made.

The upset price as the annual rent for the use and occupation of said land under water, is fixed at \$700 per annum, to be paid quarterly in advance, in compliance with a stipulation therefor, in the form of lease adopted by this Department.

The work of said widening and extension to be performed under the direction of the Engineer-in-Chief of this Department, and in accordance with plans, to be first submitted to and approved of by that officer.

Each purchaser of a lease will be required at the time of the sale, and in addition to the auctioneer's fees, to pay to the Department of Docks twenty-five per cent. of the amount of annual rent bid, as security for the execution of the lease, and which twenty-five per cent. will be applied to the payment of the rent first accruing under the lease when executed, or forfeited, if the purchaser neglects or refuses to execute the lease and bond within five days after being duly notified that the lease is prepared and ready for signature. The Commissioners reserve the right to resell the leases bid off by those failing to comply with these terms; the party so failing to be liable for any deficiency which may result from such resale.

Two sureties, each a freeholder and householder in the City of New York, and to be approved by the Commissioners of Docks, will be required, under each lease, to enter into a bond jointly with the lessee, in the sum of an amount double the annual rent, for the faithful performance of all the covenants of the lease; and each purchaser will be required to submit, at the time of the sale, the names and address of his proposed sureties.

Each purchaser will be required to agree that he will, upon being notified so to do, execute a lease prepared upon the printed form adopted by the Department, which can be seen upon application to the Secretary, at the office, 119 Duane street.

No person will be received as lessee or surety who is delinquent on any former lease from the Corporation; and no bid will be accepted from any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter as surety or otherwise upon any obligation to the Corporation.
