PROCEEDINGS OF THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

AT A MEETING OF THE BOARD HELD IN NO. 320 BROADWAY, ON THURSDAY, THE 18TH OF OCTOBER, 1906,

There were present—Alexander E. Orr, President, presiding; John H. Starin, Vice-President; Patrick F. McGowan, Acting Mayor, representing the Mayor; Comptroller Herman A. Metz and Commissioners Woodbury Langdon, Charles Stewart Smith and Lewis Cass Ledyard.

George L. Rives of counsel, George S. Rice, Chief Engineer, and Alfred Craven, Deputy Chief Engineer, also were present.

Commissioner Jesup sent word asking to be excused on account of illness.

A public hearing was given on the proposition to construct an elevated loop between the Manhattan ends of the Williamsburg and Brooklyn bridges by way of widened Delancey street, the Bowery and Park row.

James McKeen, representing the Brooklyn Subway Loop Committee; Fred W. Hinrichs, representing the Citizens' Union; Albert Firmin, President, Brooklyn Twenty-eighth Ward Board of Trade; Alvin R. Johnson, representing the Prospect Heights Citizens' Association of Brooklyn; C. M. Sheehan, Secretary, Brooklyn Twenty-eighth Ward Board of Trade; Lawrence J. Brown, representing the Central Labor Union of Brooklyn; Benno Loewy, representing the property owners on North William street; Chase Mellen, representing the Delancey Street-Bowery Property Owners' Association; Hon. Homer Folks, representing the Metropolitan Parks Association; Hon. John E. Eustis, representing the Bronx Civic League; Frederick B. De Berard, representing the Merchants' Association; Lawrence Veiller, representing the City Club, spoke in opposition to the proposed elevated loop.

The following persons also appeared in opposition, but were not heard owing to lack of time: Ex-Senator Marshall, representing the Central Brooklyn Transit League; Thomas D. Dinean, attorney for property owners on the Bowery; Lawrence McGuire, A. E. Bamberger, B. J. McCann and Henry M. Tinker, a delegation of property owners on Delancey street; Gregory Weinstein, as a resident of Brooklyn and representing East Side property owners; Dr. Paul Kaplan, representing East Side physicians; James H. Hamilton, representing the University Settlement; Miss Lillian D. Wald, representing the Nurses' Settlement; Miss Elizabeth S. Williams, representing the College Settlement; Assemblyman Abraham Harawitz, representing East Side dwellers; Albert E. Davis, representing the Bronx Civic League, and Henry C. Wright, representing the City Club.

Calvin Tomkins, chairman of the City Plan Committee of the Municipal Art Society, filed a printed statement in opposition to the proposed elevated loop.

J. Edward Swanson, J. Homer Hildreth, Frank Bailey, Luke D. Stapleton, Mr. Wm. I. Nichols, Rev. Dr. Newell Dwight Hillis, St. Clair McKelway, Thomas P. Peters, ex-Senator Brush and Edward M. Grout spoke in favor of the proposed loop.

The Minutes of the meeting of October 11 were read and it was moved that they be approved.

Ayes—The President, Vice-President, Acting Mayor, Comptroller and Commissioners Langdon, Smith and Ledyard.

Nays—None.

Carried.

The Board then went into executive session.

The Vice-President addressed the Board, saying that the question for the relief of the congestion at the Brooklyn Bridge had been before the Rapid Transit Board for many years and it had caused him a great deal of anxiety; that he had devoted a great deal of study to the matter and had come to the conclusion that there was no use of attempting to solve the problem by temporary means or by piecemeal; that it was very

questionable whether the proposed elevated loop would be of any considerable value as a solution and there was no doubt in his mind that the system of subway loops would be a complete solution. He thereupon moved the following resolution, which was seconded by Commissioner Smith:

Whereas, It will probably take at least one and one-half years to conclude the preliminary legal steps looking toward the construction of the proposed elevated loop, the value of which, even as a temporary expedient, is open to some question;

Whereas, There is no dispute whatever as to the fact that the proposed system of subways to connect the boroughs, the construction of which can be begun almost at once, will be a complete and lasting solution of the problem;

Resolved, That this Board proceed at once, without further consideration of the proposed elevated loop, to complete a form of contract and plans and specifications and advertise for bidders for the construction, equipment and operation, jointly or separately, of the system of subway and bridge loops described by the Chief Engineer in his report dated the 13th of September, 1906.

Ayes—The Vice-President and Commissioners Langdon and Smith.

Nays—The President, Acting Mayor, Comptroller and Commissioner Ledyard.

Lost.

The following resolution was moved:

BROOKLYN BRIDGE AND FULTON STREET CONNECTION (BOROUGH OF BROOKLYN).

Whereas, The Board of Rapid Transit Railroad Commissioners for The City of New York has determined that a rapid transit railway or railways for the conveyance and transportation of persons and property in addition to those already existing, authorized or proposed are necessary for the interest of the public and of The City of New York, and should be established therein as hereinafter provided; and

Whereas, This Board has duly made the inquest and investigation necessary or proper in the premises, and all such inquests and investigations as are necessary or proper for such determination;

Now, therefore, this Board, by the concurrent votes of at least six members does hereby adopt the following route or routes for an additional rapid transit railway or railways in The City of New York, and does hereby determine and establish the said additional route or routes thereof, as follows, and does hereby adopt a general plan of construction of the said railway or railways, the route or routes of which are herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to the manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

Route.

A route lying wholly within the Borough of Brooklyn, the centre line of which shall begin at a suitable point near the southwesterly corner of Washington street and Nassau street within the storage yard of the Brooklyn Bridge at which a connection can conveniently be made with the railroad tracks leading from the said yard to and across the said bridge; running thence southerly through the said bridge storage yard parallel with Washington street or nearly so and descending from the level of the said bridge tracks to a point in the northerly side of Tillary street westerly from and near its intersection with the westerly side of Washington street; thence passing under and across Tillary street to a point at or near the intersection of the southerly side of Tillary street with the westerly side of Washington street; thence running southerly under private property to Washington street and under Washington street to a point or points in Fulton street southerly and easterly from its intersection with Myrtle avenue at which a suitable connection or suitable connections can be made either with the subway now under construction which passes through Joralemon street and Fulton street, or else with a subway to be hereafter constructed pursuant to the route and general plans adopted by this Board on May 25, 1905, which provide for a rapid transit railway running through Willoughby street, Fulton street and other streets in the Borough of Brooklyn.

Plan of Construction.

The general plan of construction hereby adopted is as follows:

For the whole of the route above described there shall be two tracks.

The above-mentioned tracks shall be substantially parallel with each other and on substantially the same level except that near the intersection of Washington street with Willoughby street and Fulton street the tracks shall be at such levels and on such alignments as to permit of proper connections with the other subways above mentioned; and except also that wherever else required by special necessities of surface or subsurface structures or other special or local necessities, or for the purpose of avoiding grade crossings, any one or more of the tracks may be elevated above or depressed below the other track or tracks so far as may be necessary.

The tracks shall be placed in tunnels or subways, except that from the point of junction with the Bridge railroad tracks to the point where the said tracks pass into and under Washington street, the tracks hereby authorized to be laid shall be upon a descending grade passing through and under the Bridge storage yards, partly through an open cut below the said storage yard and partly upon a viaduct or elevated structure.

The tracks shall be placed in general under the central part of the longitudinal streets forming a portion of the route above described so far as may be practicable and convenient; but wherever required by special or local necessities or for curves, the tracks or any one or more of them may be diverted as far as necessary to one side or the other of such streets or any of them, and any part of the said streets may be occupied so far as the purposes of this general plan require.

Wherever necessary for the proper support of the surface of a street the roof of the tunnels shall be of iron or steel, with brick or concrete arches, supported, when necessary, by iron or steel or masonry columns and resting upon masonry walls; or the roof shall be a masonry structure, or the whole of the lining may be of metal.

The roof of the tunnels when under a street shall be as near the surface as street conditions and grades will conveniently permit.

The tunnels shall in no case be less than thirteen feet in height in the clear.

There shall be a width in the tunnels not exceeding fifteen feet for each track in addition to the thickness of the supporting walls, except that at stations, switches, turnouts, curves and crossovers the width may be increased.

The tracks shall be of standard gauge; that is to say, of the width of four feet and eight and a half inches between the rails.

Adjacent tracks shall be connected by necessary and suitable switches and connections, and an additional track for siding accommodations may be constructed not to exceed in length one-quarter of a mile for each mile of roadway.

The tracks, wherever constructed below the surface, may at any point of the route be placed in the same tunnel; or there may be separate tunnels for one or more tracks, as shall be most convenient.

If any station is built on the route herein described, such station and the necessary station approaches shall, in general, be at the intersections of streets and shall be built under or, if the position of the tracks so require, over the streets and immediately adjoining private abutting property, or through private property to be acquired for the purpose, or both under or over streets and through private property as aforesaid. The streets under which stations or station approaches shall be built may include cross streets, but no part of any cross street shall be used for a station approach at a distance greater than seventy-five feet from the exterior line or side of the longitudinal street of the route.

Wherever along any part of the routes above described it shall be necessary for the proper maintenance or accommodation of pipes, wires, sewers or other subsurface structures, the removal, construction or reconstruction of which shall be rendered necessary by the construction of the railway, the width of any tunnel or subway may be enlarged on either or both sides by an additional width on each side of the route, not to exceed fifteen feet on either side, provided always that the limits hereinbefore provided as to the longitudinal streets of the route shall be observed. All or any pipes,

wires, sewers or other subsurface structures may be placed in suitable galleries to be constructed within the additional widths hereinbefore permitted. At each cross street where accommodation for pipes, wires, sewers and other subsurface structures shall be those provided within the tunnels or subways, such tunnels or subways, in order to provide convenient access to the same, may have, within the limit of the sides or exterior lines of such cross streets or such lines produced, an additional width on each side of the routes not to exceed fifteen feet.

Pipes, wires, sewers, street railway tracks, poles for electric wires and other surface and subsurface structures at any part of the said routes shall be removed or disturbed only when necessary for the construction and operation of the railway above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. All pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration, or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunnelling or open excavation.

Mode of Operation.

The general mode of operation of the route or routes above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors shall be capable of moving trains at a speed of not less than forty miles per hour for long distances, exclusive of stops.

Definitions.

The word "street," wherever used herein, shall include an avenue or public place.

The words "Rapid Transit Act," wherever used herein, shall be taken and held to mean chapter 4 of the Laws of 1891 entitled "An Act to provide for rapid transit railroads in cities of over one million inhabitants," as amended by chapter 752 of the Laws of 1894 and other acts of the Legislature.

Maps and Drawings.

It is further

Resolved, That the map and profile entitled "Board of Rapid Transit Railroad Commissioners of The City of New York—Routes and General Plan, Brooklyn No. 5, sheet No. 1" be and it is hereby adopted as showing the foregoing route and general plan, for convenience merely, and that said map and profile is not to be deemed a part of the description of the route or a part of the general plan, for any purpose whatever.

Ayes—The President, Vice-President, Acting Mayor, Comptroller and Commissioners Langdon, Smith and Ledyard.

Nays—None.

At this point Acting Mayor McGowan withdrew from the meeting.

Requisition No. 36, Contract No. 2, for regular work, was presented as follows, with report of the Chief Engineer:

NEW YORK, October 18, 1906.

Mr. BION L. BURROWS, Secretary, Rapid Transit Board:

DEAR SIR—I transmit herewith Contractor's Requisition No. 36, for regular work done under Contract No. 2 during the month of September, 1906, amounting to \$19,993.02. Also Contractor's Requisition No. 12 for extra work (four tracks and connections) done on Section No. 3 of the same contract during the said month of September, amounting to \$46,178.35.

In this connection, I beg leave to call your attention to the fact that no deduction has been made from the amount due under these requisitions on account of the failure of the Rapid Transit Subway Construction Company to complete its work under Contract No. 2 within the specified time. The matter of enforcing the penalty for such failure to finish the work within the time agreed upon is now before the Board, awaiting its action and decision.

Yours very truly,

(Signed) GEORGE S. RICE, Chief Engineer.

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,
OFFICE OF THE PRESIDENT, No. 23 NASSAU STREET,
NEW YORK, October 10, 1906.

Requisition No. 36—For work done and materials furnished under contract dated July 21, 1902, Principal Contract No. 2, for the construction and operation of the Rapid Transit Railroad of The City of New York, to 30th day of September, 1906, as follows:

Total to date, relative to the contract value of the whole work.....	\$1,553,622 93
Less previous requisitions.....	1,533,629 91
Balance due, relative to the contract value of the whole work	\$19,993 02

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,
(Signed) By AUGUST BELMONT, President.

Certificate No. 36—I hereby certify that the work done and materials furnished under contract dated July 21, 1902, Principal Contract No. 2, for the construction and operation of the Rapid Transit Railroad of The City of New York, for which Requisition No. 36 of date October 10, 1906, is made by Rapid Transit Subway Construction Company, the contractor, has been done and furnished in accordance with the terms of the contract to the value of nineteen thousand nine hundred and ninety-three dollars and two cents (\$19,993.02); that such value has been ascertained relatively to the contract value of the whole work, and that no certificate has previously been made for such work and materials.

(Signed) GEORGE S. RICE,

Chief Engineer of the Board of Rapid Transit Railroad Commissioners.

No action was taken on this resolution pending the decision of the Board as to the expiration of the time limit for the completion of this contract, and Mr. Rives reported that Mr. Beekman, of counsel for the New York Tunnel Company, one of the sub-contractors on this work, would soon submit a brief explaining the delay on that part of the work.

Requisition No. 12, extra work, Four-Track Section No. 3, was presented as follows:

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,
OFFICE OF THE PRESIDENT, No. 23 NASSAU STREET,
NEW YORK, October 10, 1906.

Requisition No. 12, Four-Track Section No. 3—For work done and materials furnished under contract dated July 21, 1902, Principal Contract No. 2, for the construction and operation of the Rapid Transit Railroad of The City of New York, to 30th day of September, 1906, as follows:

Total to date, relative to the contract value of the whole work.....	\$401,278 35
Less previous requisitions.....	355,100 00
Balance due, relative to the contract value of the whole work	\$46,178 35

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,
(Signed) By AUGUST BELMONT, President.

Certificate No. 12, Four-Track Section No. 3—I hereby certify that the work done and materials furnished under contract dated July 21, 1902, Principal Contract No. 2, for the construction and operation of the Rapid Transit Railroad of The City of New York, for which Requisition No. 12, Four-Track Section No. 3, of date October 10, 1906, is made by Rapid Transit Subway Construction Company, the contractor, has been done and furnished in accordance with the terms of the contract to the value of forty-six thousand one hundred and seventy-eight dollars and thirty-five cents

(\$46,178.35); that such value has been ascertained relatively to the contract value of the whole work, and that no certificate has previously been made for such work and materials.

(Signed) GEORGE S. RICE,

Chief Engineer of the Board of Rapid Transit Railroad Commissioners.

The following resolution was moved:

Whereas, Rapid Transit Subway Construction Company, the contractor, has made requisition on this Board, dated October 10, 1906, and numbered Requisition No. 12, Four-track Section No. 3, Extra Work, for extra work done and materials furnished under contracts dated July 21, 1902, and June 9, 1905, for the construction and operation of the Brooklyn-Manhattan Rapid Transit Railroad, additional work in four-tracking in Fulton street, Flatbush avenue, etc., in the Borough of Brooklyn, to the 30th day of September, 1906, amounting to the sum of forty-six thousand one hundred and seventy-eight dollars and thirty-five cents (\$46,178.35); and

Whereas, George S. Rice, Chief Engineer, has certified that such extra work done and materials furnished has been done and furnished in accordance with the terms of the said contracts; that such value has been ascertained relatively to the contract value of the whole work and that no certificate has previously been made for such work and materials;

Resolved, That this Board hereby approves the said requisition and directs that a voucher be drawn in due form on the Comptroller for the said amount.

Ayes—The President, Vice President, Comptroller and Commissioners Langdon, Smith and Ledyard.

Nays—None.
Carried.

At this point the Comptroller withdrew from the meeting.

Correspondence was presented between the Chief Engineer and the President of the Borough of the Bronx concerning the necessity to move subway stairways at One Hundred and Forty-ninth street and Third avenue in that Borough, growing out of the widening of the street at that point, the President of The Bronx claiming that the contractor should bear the expense. Opinion of counsel on this matter was presented as follows, and it was understood that the Secretary would address a communication to the President of the Borough of The Bronx on the subject:

No. 32 NASSAU STREET,
NEW YORK, October 18, 1906.

ALEXANDER E. ORR, Esq., President, Rapid Transit Commission, No. 320 Broadway:

DEAR SIR—We have examined the letter addressed to you by the President of the Borough of The Bronx, dated October 9. In this letter Mr. Haffen incloses a copy of an opinion rendered by the Corporation Counsel, under date of October 8, 1906, in reference to the change of stairways at the Manhattan Elevated Railway and the Rapid Transit Subway, necessitated by the widening of Third avenue, at the east side thereof, and One Hundred and Forty-ninth street. The Corporation Counsel in the letter referred to expresses the opinion that:

"All of the franchises granted to the railway company for the use of the streets of the City are subject to the control of the streets by the City authorities for the benefit and use of the people, and when, as in the case in question, the proper City authorities have widened or changed the lines of the street, all of the corporations enjoying franchises for the operation of street railways thereon must, upon the demand of the City and at their own expense, relocate their roads, stations and stairways to conform with the new lines."

Without considering how far this is a correct statement of the law as applicable to the elevated railway on Third avenue, it seems to us that it has no application to the rapid transit railway built and owned by the City itself. The contract of February 21, 1900, between The City of New York and John B. McDonald, under which the latter undertook to construct, maintain and operate the rapid transit railway, provided that the road, with its stairways and approaches to stations, should be constructed according to the plans prepared or to be prepared by the Engineers of the Rapid Transit Board. The station and the stairway at One Hundred and Forty-ninth street and Third avenue were so constructed. After the construction was entirely complete, the widening of the street referred to by the Borough President was authorized.

The contract between the City and McDonald contained the following provision:

"No correction or change in this contract shall be made, except by written instrument duly authorized by the Board and consented to by the contractor and its sureties upon the bonds given hereunder and then in force."

It seems to us, therefore, that if the station entrances are to be changed, it will be necessary to come to an agreement with the contractor and his sureties, which will doubtless involve the payment by the City of the cost of making the change proposed.

The Rapid Transit Board, however, has no concern with the matter, at least in its present stage. What the Borough President is asking is that the company operating the Rapid Transit Railway shall make certain changes in the leased structure at its own expense. This the company declines to do, and the difference between them is one which, if not amicably adjusted, can only be settled by the courts.

We do not see that any action by the Board or by you is required.

Very truly yours,

(Signed) G. L. RIVES,
BOARDMAN, PLATT & SOLEY.

Report of the Chief Engineer, with sheets 1604-I and 1604-J, being statements giving interest to be paid by the Interborough Rapid Transit Company to the City for rental for part of the Rapid Transit Railway operated to September 30, 1906, under Contracts Nos. 1 and 2, was presented as follows and ordered forwarded to the Department of Finance:

NEW YORK, October 18, 1906.

Mr. BION L. BURROWS, Secretary, Rapid Transit Board:

DEAR SIR—Referring to the rental payable by the Interborough Rapid Transit Company referred to in copy of communication of the Comptroller, transmitted with yours of October 5, I hand you herewith sheets 1604-I and 1604-J, being statements giving the interest to be paid by the Interborough Rapid Transit Company to the City for part of Rapid Transit Railway operated up to and including September 30, 1906, on Contracts Nos. 1 and 2.

It should be noted that these figures are subject to change, as they are based on tentative figures which may be revised when final adjustments are made, and hence the acceptance of these statements by the City and contractor should be understood not to commit either party to the figures provisionally used in ascertaining the rental due up to and including September 30, 1906.

Very truly yours,
(Signed) GEORGE S. RICE, Chief Engineer.

Communications of the Long Island Railroad Company for franchises were received as follows and referred to the Committee on Plans and Contracts:

To the Honorable Board of Rapid Transit Railroad Commissioners for The City of New York:

I, The Long Island Railroad Company, a domestic railroad corporation owning and actually operating a trunk line railroad, partly within The City of New York, with termini within the said City, and engaged in interstate commerce in connection with other trunk line railroads, and operated and used as a part of an interstate trunk line, hereby makes application to the Board of Rapid Transit Railroad Commissioners for The City of New York, pursuant to chapter 4 of the Laws of 1891 and the various acts amendatory thereof and supplemental thereto, that your Honorable Board grant a right and franchise and fix and determine the route or routes by which the said applicant corporation may more directly connect points upon its railroads, and may establish, construct, extend and connect its lines within said City; and authorize the said corporation to construct and operate the same over and across certain streets, avenues, parkways, highways and other public places in the said City, as shown on the map and profile submitted herewith and made a part hereof, together with all necessary sidings, platforms, stations, facilities and other appurtenances, and to transport over the same passengers or freight, or both, and to run over the same either passenger trains or freight trains, or mixed trains; and that your Honorable Board shall fix and determine the locations and plans of construction of the railroad upon such route or routes,

the times within which they shall be respectively constructed, the compensation to be made therefor to the said City by the applicant corporation, and such other terms, conditions and requirements as to your Board may appear just and proper. The said route or routes which your Board is hereby requested to fix and determine, and the more direct connection of points upon the railroads of the applicant corporation, are shown on the map and profile submitted to your Honorable Board with this application and made a part hereof.

2. The said routes, extensions, connection and other facilities of the applicant corporation are all in the Borough of Queens, and as proposed will connect a point on the main line of the railroad of the applicant corporation with the railroad of its Montauk Division and also with the railroad of the New York and Rockaway Beach Railway Company, a domestic railroad corporation, whose railroad is wholly within the limits of The City of New York, and is leased to and operated by the applicant corporation, and will permit the railroad of the said New York and Rockaway Beach Railway Company to connect with the railroad of the main line of the applicant corporation, and by means of this connection will also promote its connection with the railway of the Pennsylvania, New York and Long Island Railroad Company, now being constructed in the Boroughs of Queens and Manhattan. They will also promote and make convenient the use by the said New York and Rockaway Beach Railway Company on proper terms of the terminal yards of the said Pennsylvania, New York and Long Island Railroad Company, to be constructed in Queens Borough. Such connections and uses would very materially promote the convenience of the traveling public. The said connection is proposed to be a two track standard gauge railroad, located upon its own right of way except where crossing by bridge or viaduct Whitepot road, Metropolitan avenue, Trotting Course lane, Walling street and Walnut street, of which streets Walling street and Walnut street are not now open, and it is proposed that the applicant corporation shall have the right in its discretion to add in the future to this connection on the same route, two additional tracks. The applicant is the owner of the fee of the streets at the points where they will be crossed by the railroad, subject only to such rights and easements as may exist to use the same for street purposes.

3. The applicant corporation further shows that, in the event of the granting of this application by your Honorable Board, it will make application at once for such additional consents as may be required by law for such construction and operation, and that within thirty days after obtaining such consents it will begin the construction of such extensions, connection and other facilities and will carry on the same with all possible diligence; that it is ready and willing to make reasonable and proper compensation to The City of New York for the right, franchise and privilege of constructing and operating the said extensions, connection and other facilities wherever the same are to be constructed and operated over or across any public street or place.

4. The applicant corporation shows that the convenience and safety of the traveling public will be greatly served by the granting of this application.

5. The said existing railroads and rights of way are owned in perpetuity; and if the connections and facilities which this applicant desires be authorized, it is necessary that they shall, as an incident or appurtenance of existing railroads held and to be operated in perpetuity, be granted in perpetuity. But this applicant corporation is willing that the compensation to be paid The City of New York for the privileges now asked shall be subject to readjustment at intervals of twenty-five years.

This applicant therefore prays that this application may be granted and a certificate issued therefor accordingly.

New York, October 18, 1906.

(Signed) THE LONG ISLAND RAILROAD COMPANY,
By RALPH PETERS, President.

Attest:
(Signed) FRANK E. HAFF, Secretary.

To the Honorable Board of Rapid Transit Railroad Commissioners for The City of New York:

1. The Long Island Railroad Company, a domestic railroad corporation owning and actually operating a trunk line railroad partly within The City of New York, with termini within the said City, and engaged in interstate commerce in connection with other trunk line railroads and operated and used as a part of an interstate trunk line, hereby makes application to the Board of Rapid Transit Railroad Commissioners for The City of New York, pursuant to chapter 4 of the Laws of 1891 and the various acts amendatory thereof and supplemental thereto, that your Honorable Board grant a right and franchise and fix and determine the route or routes by which the said applicant corporation may more directly connect points upon its railroads and may establish, construct, extend and connect its lines within said City; and authorize the said corporation to construct and operate the same over and across certain lands, waters, streets, avenues, parkways, highways and other public places in the said City as shown on the map and profile submitted herewith and made a part hereof, with all necessary sidings, platforms, stations, facilities and other appurtenances, and to transport over the same passengers or freight, or both, and to run over the same either passenger trains or freight trains, or mixed trains; and that your Honorable Board shall fix and determine the locations and plans of construction of the railroad upon such route or routes, the times within which they shall be respectively constructed, the compensation to be made therefor to the said City by the applicant corporation, and such other terms, conditions and requirements as to your Board may appear just and proper. The said route or routes which your Board is hereby requested to fix and determine and the more direct connection of points upon the railroads of the applicant corporation are shown on the map and profile submitted to your Honorable Board with this application and made a part hereof.

2. The said routes, extensions, connection and other facilities of the applicant corporation as proposed are all within the Borough of Queens, and they will enable the applicant corporation to connect a point on the Montauk Division of its railroad with the freight house and yards of the North Shore Division of its railroad now situated on the East river between Third and Fifth streets. The said connection is proposed to be a two-track standard gauge railroad located upon the right of way of the applicant corporation, except where it crosses by bridge or viaduct over Meadow street, Crane street, Hunters Point avenue, Fourth street, Third street, Borden avenue, as now laid out or proposed, and Dutch Kill Creek.

3. The applicant corporation further shows that, in the event of the granting of this application by your Honorable Board, it will make application at once for such additional consents as may be required by law for such construction and operation, and that within thirty days after obtaining such consents it will begin the construction of such extensions, connection and other facilities, and will carry on the same with all possible diligence; that it is ready and willing to make reasonable and proper compensation to The City of New York for the right, franchise and privilege of constructing and operating the said extensions, connection and other facilities wherever the same are to be constructed and operated over or across any public street or place.

4. The applicant corporation further shows that the convenience and safety of the traveling public and shippers will be greatly served by the granting of this application.

5. The applicant corporation has planned to construct a freight yard and other facilities in the Borough of Queens adjacent to its existing railroad, as indicated on the said map and profile north of Hunters Point avenue and Meadow street. To carry out this purpose it has made application to the Board of Estimate and Apportionment that that Board change and amend the map of The City of New York, and close the streets within the limit of the proposed yard, and if that application is granted it will make application to the Commissioners of the Sinking Fund that they sell and convey or release, for a reasonable price and consideration, the right, title and interest of the City therein to the applicant corporation, which is the owner, or is about to become the owner of all the property fronting upon the said streets, and of all the right, title and interest in the said streets not vested in the City, subject to such provisions, if any, for crossing the said yard by viaducts as to the Board of Estimate and Apportionment shall seem proper. The construction of the connection for which application is now made will greatly facilitate the operation and use of this freight yard.

6. The said existing railroads and rights of way are owned in perpetuity; and if the connections and facilities which this applicant desires be authorized, it is necessary that they shall, as an incident or appurtenance of existing railroads held and to be operated in perpetuity, be granted in perpetuity. But this applicant corporation

is willing that the compensation to be paid The City of New York for the privileges now asked shall be subject to readjustment at intervals of twenty-five years. This applicant therefore prays that this application may be granted and a certificate issued therefor accordingly.

(Signed) THE LONG ISLAND RAILROAD COMPANY,
By RALPH PETERS, President.

Report of the Comptroller was presented as follows and referred to the Chief Engineer and Counsel for report and the preparation of resolutions covering the proposed change of route:

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
October 17, 1906.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Commissioners, No. 320 Broadway, New York City:

DEAR SIR—In communication addressed to me, under date of October 10, 1906, Messrs. Piel Brothers request that the route of the proposed subway through the Twenty-sixth Ward, Brooklyn (known as Route No. 12), be so amended as to run the connecting spur through Sheffield avenue, north from Pitkin, rather than through Georgia avenue, as adopted. They state that their interests on Georgia avenue are such that the proposed route would revolutionize their business and cause them not only great inconvenience, but would put them to a very large cost in altering their plant.

Messrs. Piel Brothers also state that if the change of route is effected, as requested, that they will not only give their consent to over 50 per cent. of the property affected along Sheffield avenue, but will also use their best endeavors to secure consent from the other property owners.

I have had the matter examined, and the Chief Engineer of the Department of Finance reports that Messrs. Piel Brothers have constructed a tunnel (8 feet by 8 feet, exterior dimensions) under and across the roadway of Georgia avenue. The roof of the tunnel is about 4 feet below the surface of the street, and the exterior bottom about 12 feet below the street surface. (For fuller details see accompanying sketch.) This tunnel is used to hold pipes and a cooling apparatus which convey beer from the brewery across the street to their bottling department. It is correctly stated by Messrs. Piel Brothers that the removal of this tunnel would necessitate the alteration of their entire bottling department and make useless the present layout.

From an examination of the two avenues, it is found that Georgia avenue is 60 feet wide and has trolley car tracks on it from Atlantic avenue to Jamaica avenue. Sheffield avenue is 50 feet wide, and has no surface car tracks upon it.

I would suggest that the matter be referred to the Chief Engineer of the Board to report if there are any engineering features which would not permit of the change, and that the Counsel of the Board be requested to advise if there are any legal objections to the proposed amended route.

If there are no legal or physical objections, I recommend that the Board favorably consider the request of Messrs. Piel Brothers and amend Route No. 12, in the Borough of Brooklyn, so as to run the connecting spur through Sheffield avenue, rather than through Georgia avenue, as now adopted.

Yours very truly,
(Signed) H. A. METZ, Comptroller.

Communications and petitions of the Washington Heights Taxpayers' Association, objecting to the ventilating apparatus and houses on Broadway, between One Hundred and Thirty-eighth and One Hundred and Forty-third streets, were presented and referred to the Chief Engineer for report.

The following resolution was moved:

Resolved, That this Board hereby accepts the following resignations and makes the following dismissals on the staff of the Chief Engineer:

<i>Dismissals.</i>	
Patrick F. Burns, Inspector of Masonry; cause, lack of work.....	Oct. 15, 1906.
Thomas B. McGuire, Inspector of Masonry; cause, lack of work.....	Oct. 22, 1906.
Michael Reilly, Inspector of Masonry; cause, lack of work.....	Oct. 22, 1906.
Thomas Curry, Inspector of Masonry; cause, lack of work.....	Oct. 25, 1906.

The Chief Engineer reported the death on October 14, 1906, of Clarence B. Riggs, Inspector of Masonry.

Ayes—The President, Vice-President and Commissioners Langdon, Smith and Ledyard.
Nays—None.
Carried.

The Secretary reported that the President had executed reassignment of bond of E. P. Roberts, sub-contractor, for \$10,000, as already authorized by the Board.

Communication of the Brooklyn Transit Reform League as to the possibility of running subway cars across the Brooklyn Bridge, as suggested by the Chief Engineer in his report at the previous meeting, was presented, with report of the Chief Engineer, as follows, in reply, a copy of which was ordered forwarded to the League:

NEW YORK, October 18, 1906.

Hon. A. E. ORR, President, Rapid Transit Board:

DEAR SIR—A copy of letter from the Secretary of the Brooklyn Transit Reform League, addressed to you under date of October 15, in regard to the comparative weights of the New York subway cars to the cars which at present run across the Brooklyn Bridge, has been submitted to me.

In connection with this matter, I beg leave to give you the following information:

The Brooklyn Rapid Transit trains which now run across the bridge are made up of three motor cars and two trailers. The length over all of the motor cars is 49.19 feet, and of the trailers 46.66 feet. The dead weight of one motor car is 73,230 pounds; the weight of passengers, taken at 150 persons to a car at an average of 150 pounds each, amounts to 22,500 pounds, making the total weight of one loaded motor car 95,730 pounds. The dead weight of a trailer car is 39,800 pounds; the weight of the passengers, based upon the same figures as those of the motor car of 22,500 pounds, makes the total weight of a loaded trailer car 62,300 pounds. The total weight of one five-car train (3 motor cars and 2 trailers) is therefore 411,790 pounds. The total length of the train is 241 feet, making the load per linear foot 1,710 pounds.

The length and the weight of the New York subway cars are as follows:

The motor car is 51 feet 4 inches long; the dead weight is 77,500 pounds, and the weight of the passengers, based upon the same figures as given for a motor car of the Brooklyn Rapid Transit, increasing the number of passengers in proportion to the increased length over the Brooklyn Rapid Transit car, would be 156 passengers, amounting to 23,400 pounds, and making the total weight of a motor car 100,900 pounds. The length of the trailer car is 51 feet 4 inches, the dead weight is 51,000 pounds, the weight of the passengers 23,400 pounds, making the total weight of the trailer car 74,400 pounds. The five-car train (3 motors and 2 trailers) would therefore amount to 451,500 pounds, and the total length of the train would be 256.66 feet, making the weight per linear foot 1,760 pounds.

The difference in the weight per linear foot between the Brooklyn Rapid Transit cars and the New York subway cars is only three per cent. increase, which increase hardly need be considered.

I am reliably informed that some motor cars of the Brooklyn Rapid Transit Company have a dead weight of 84,000 pounds, which would materially increase the weight of their trains; that is, the total weight, with 22,500 pounds of the passengers added, would amount to 106,500 pounds.

Very truly yours,
(Signed) GEORGE S. RICE, Chief Engineer.

Miscellaneous communications were presented and referred to the respective committees.

The Board then adjourned.

BION L. BURROWS, Secretary.

DEPARTMENT OF DOCKS AND FERRIES.

New York, August 24, 1906.

The following communications were received, action being taken thereon as noted, to wit:

From the Comptroller (68980)—Transmitting copy of opinion of the Corporation Counsel in which it is stated that in the matter of the excess over five per cent. of the original estimate on the contract of the Morris & Cummings Dredging Company, for dredging about 2,100,000 cubic yards on the North river, Borough of Manhattan, in view of the fact that the contract provides for a specified depth the cost of the contract may be increased more than five per cent. over the original estimate. Filed.

From the Municipal Civil Service Commission—

1 (68995). Submitting list of persons eligible for appointment to the position of Topographical Draughtsman. Elias Cahn and Arthur Avery appointed, with compensation at the rate of \$1,200 per annum, to take effect September 1, 1906.

2 (69088). Approving the reassignment of Thomas F. Rice, Dock Laborer, to duty. Rice ordered reassigned to work.

3 (69089). Approving the reassignment of John J. Fitzpatrick, Dock Laborer, to duty. Fitzpatrick ordered reassigned to work.

4 (69107). Stating, in response to Department's request, that the name of Albert N. Ricker cannot be restored to the preferred eligible list of Blacksmith's Helper until Ricker himself makes formal application for such restoration. Filed.

From the Department of Taxes and Assessments (68924)—Stating, in response to inquiry from this Department, under date of July 31, 1906, that the assessed valuation of the property in the vicinity of Thirty-eighth and Thirty-ninth streets, Second avenue and the pierhead line, in the Borough of Brooklyn, is \$63,000, the land being valued at \$56,000. Filed.

From the President of the Borough of Manhattan, Bureau of Public Buildings and Offices (69108)—Asking that berths be assigned for the four free floating baths which are still unplaced. Advised that under the regulations of the Department of Health there is no further room for baths south of Twenty-seventh street, North river, and south of Sixty-fourth street, East river, and that owing to the lateness of the season the Department cannot see how anything further can be done in the matter.

From the President of the Borough of Brooklyn (69094)—Requesting consent to the transfer to his office of Mrs. Margaret L. Maloney, Attendant. Consent granted.

From the Superintendent of Buildings for the Borough of Brooklyn (68942)—Requesting map showing area of property in the Borough of Brooklyn which properly comes under the jurisdiction of this Department. Advised that a map would be inadequate to show jurisdiction, but that the Department claims jurisdiction over the area of land abutting the water front as well as on piers and bulkheads, and that if at any time specific information is desired the Department will be glad to furnish it.

From the Department of Bridges (68939)—Requesting removal of canal boat sunk at the northerly side of Pier (old) 58, East river. Notified that Burns Brothers own the boat, and as the wreck lies in front of Bridge Department property, said Department should notify the owners to remove same.

From the Board of Water Supply (69064)—Requesting permission to use additional space north and south of the area granted July 9, 1906, and of the narrow ungraded strip between it and the railroad in the vicinity of Seventy-ninth street, North river. Permit granted, to continue during the pleasure of the Commissioner.

From the Department of Street Cleaning (69111)—Requesting permission to extend its dump at the foot of Canal street, North river, 130 feet westward. Permit granted.

From William H. Payne & Son (69104)—Requesting permission to make repairs to the bulkhead at One Hundred and Twenty-ninth street, Harlem river. Permit granted, the work to be done under the supervision of the Engineer-in-Chief and to be kept within existing lines.

From Samuel Hines (69128)—Requesting permission to occupy a plot of ground at Broad Channel, Jamaica Bay, Borough of Queens. Privilege granted to occupy Lot No. 6, Block 3, an area of about 1,375 square feet, compensation to be at the rate of \$15 per annum, payable in advance to the Cashier, privilege to continue during the pleasure of the Commissioner and to expire by limitation of time on April 30, 1907.

From the Compania Trasatlantica (68990)—Asking that in view of the non-completion of the half bulkhead easterly of Pier 8, East river, a deduction be allowed from the rental charged under the lease to the company of the said pier and bulkhead. Notified that pending the completion of the half bulkhead, the company's occupation of Pier 8 will be under permit at a rental of \$28,000 per annum—a deduction of \$2,000 from the full rental called for in the lease being made.

From A. Ottmann (69099)—Requesting permission to occupy space at Broad Channel Station, Jamaica Bay, Borough of Queens. Privilege granted to occupy Lot No. 8, Block 21, an area of 2,800 square feet, beginning September 1, 1906, and continuing during the pleasure of the Commissioner until April 30, 1907, compensation to be at the rate of \$35 per annum, payable in advance to the Cashier of this Department.

From Thomas C. Dunham (69024)—Requesting an extension of time within which to complete the delivery of materials called for under Class VI. of Contract No. 967. Extension granted to and including July 24, 1906.

From the United Brotherhood and Amalgamated Society of Carpenters and Joiners of America (69085)—Advising that since July 1, 1906, the wages of Carpenters in the Borough of Manhattan have been increased to four dollars and eighty cents per day of eight hours. Filed.

From Walker & Morris (69095)—Acknowledging receipt of Department's communication of August 21, 1906, in relation to the impossibility of making a partial payment pending execution of contract for plans and specifications for the Manhattan terminal of the Thirty-ninth Street (Brooklyn) Ferry. Filed.

From Etzel & Son (68623)—Calling attention to repairs required to Pier 61, East river. Filed.

From the Central Federated Union (69114)—Asking that only union men be employed in the construction of the new ferryboats for the Thirty-ninth Street (Brooklyn) Ferry. Filed.

From the Thomas Crimmins Contracting Company (68947)—Protesting against the removal of a portion of the fence at the foot of Seventy-seventh street, East river, on the grounds that the teams going to the area under the jurisdiction of this Department might damage some of the work which they have performed for the President of the Borough of Manhattan. Manhattan Borough President requested to issue instructions for the removal of the fence.

From the Panama Railroad Company (68992)—Requesting dredging in the half slip adjoining the southerly side of Pier 67, North river. Engineer-in-Chief directed to order dredging under Contract No. 880.

From the Southern Pacific Company (68989)—Requesting dredging in the half slips northerly of Piers 25 and 34, North river. Notified that the lessee must do the dredging at Pier 25. Engineer-in-Chief directed to order dredging in the half slip adjoining Pier 34, North river.

From the New York Central and Hudson River Railroad Company (69051)—Accepting conditions outlined by the Department under date of July 19, 1906, for a lease of Pier 3, with the adjoining half bulkheads, at Wallabout Basin, Borough of Brooklyn. Commissioners of the Sinking Fund requested to approve a lease of Pier 3, with the adjoining half bulkheads, to the New York Central and Hudson River Railroad Company, the lease of the pier with the half bulkhead northerly thereof to be for a term of ten years from October 1, 1906, at a rental of \$15,000 per

annum. The half bulkhead southerly of the pier is now held under a lease which runs to November 1, 1908, and the lease of that half bulkhead to the New York Central and Hudson River Railroad Company will therefore begin November 1, 1908, rental therefor to be \$750 per annum for a period coterminous with the proposed lease of the pier and half bulkhead northerly; that is, to October 1, 1916. The lease is to provide for one renewal term of ten years at an advance in the rental of 10 per cent., and the lessee is to have the privilege of constructing in front of the half bulkheads embraced within the lease platforms similar to those now located in front of the half bulkheads adjoining Pier No. 2 at Wallabout Basin. The lease will contain the usual conditions embodied in leases now in use in this Department.

The lessee is also to have the privilege of erecting upon the pier and upon the area of land in rear of the bulkhead extending for a distance of fifty feet inshore of the bulkhead line, sheds, plans for which, as well as for the bulkhead platforms, shall first be submitted to and approved by the Engineer-in-Chief of this Department, and such sheds shall revert to and become the property of The City of New York free from all encumbrances of any kind whatsoever upon the expiration or sooner termination of the lease of the pier and bulkheads.

From the Union Ferry Company of New York and Brooklyn (69034)—Transmitting check for \$4,197.23 in payment of one-quarter's rent from May 1 to August 1, 1906, on the basis of two per cent. of the gross receipts for that period, with the statement that the payment is made and is to be accepted upon the condition that the company does not thereby become obligated to continue such payments, nor the City to receive the same indefinitely or beyond the present occasion. Receipt given for check with the understanding that the payment of the amount by the company and the receipt of same by the City shall not be construed in either case as a waiver of the rights of either party.

From the Engineer-in-Chief—

1 (69131). Submitting plans, specifications and form of contract for building foundations for the columns of the bulkhead sheds in rear of the bulkhead wall between about the southerly line of West Nineteenth street and the northerly line of West Twenty-second street, North river, and the shed column foundations on Pier 62, North river, and for preparing for and laying a concrete pavement over the above described bulkhead shed area and the deck of Pier 62, North river. Ordered printed and advertised as Contract No. 1028.

2 (69130)—Recommending the issuance of an order for repairs, as required, to pier foot of Twenty-fourth street, East river, at a cost not to exceed \$1,000 in the aggregate. Order issued to Engineer-in-Chief to make repairs as recommended.

3 (B. O. 3633). Returning order to repair bulkhead foot of Corlears street, East river, John Monks & Son having done the work. Filed.

4 (B. O. 4385). Returning order to supervise erection of boathouse and float at the foot of One Hundred and Twenty-first street, Harlem river, by E. Monahan & Co., the permittees having maintained the boathouse and float at the premises for some years past, and no further structures are proposed to be erected thereat. Filed.

From the Superintendent of Ferries (69105)—Recommending that Thomas H. Kennedy, Deckhand, be promoted to the position of Deckhand (Mate), with compensation at the rate of \$75 per month. Kennedy fixed at \$75 per month, to take effect September 1, 1906.

The Department of Street Cleaning was requested to consent to the transfer of Matthew Moore from the position of Sweeper in that Department to the position of Laborer in this Department.

The Municipal Civil Service Commission was requested to authorize the reassignment of Moses Gardner, Dock Laborer, to duty, absent on account of illness since May 25, 1906.

The compensation of Bernard Skivington, Dock Laborer, was fixed at the rate of 31¼ cents per hour, while employed, to take effect September 1, 1906.

Sealed bids or estimates were received and opened for removing old piers and ferry structures between Whitehall and Broad streets, East river, Borough of Manhattan, and for building new ferry structures for the new Thirty-ninth Street Ferry terminal and for dredging thereat, under Contract No. 1019, as follows:

From the United States Volunteer Life Saving Corps (69113)—Requesting permission to maintain life saving station at the foot of South Tenth street, Brooklyn. Notified that the bulkhead is private property, and that the consent of the owners must first be obtained.

From the New York Central and Hudson River Railroad Company (66872)—Suggesting, in connection with the claim of this Department against the company for \$248.40, for loss of 27 piles due to being struck by the tug "C. M. Depew," that the Department permit this claim to be offset by the company's claims against the Department for damages occasioned to its barge "Arthur" and tug "C. M. Depew." Notified that the company's claims should be filed with the Comptroller, and that unless the Department's claim is paid it will be submitted to the Corporation Counsel for collection.

From the Carroll Box and Lumber Company (69140)—Stating that as they are now in possession of the bulkhead between Eighteenth and Nineteenth streets, East river, they desire to surrender permit for the northerly half of the pier foot of Twentieth street, East river, on September 1, 1906. Permit revoked, to take effect September 1, 1906.

From Kelly & Kelley (69136)—Stating, in response to communications from this Department, that they will make every endeavor to proceed with the work of building storehouse, etc., near the foot of West Fifty-seventh street, North river, under Contract No. 987, in as expeditious a manner as possible. Filed.

From the Superintendent of Ferries (69182)—Reporting that the work of furnishing electrical generating sets under Contract No. 1011, was commenced on August 21, 1906, by the B. F. Sturtevant Company, contractor. Comptroller notified.

From the Engineer-in-Chief—

1 (69179). Reporting that the work of furnishing and delivering about 10,000 barrels of Portland cement was completed on August 27, 1906, by John P. Kane Company, contractors, under Contract No. 973. Comptroller notified.

2 (69183). Reporting that on August 17 Tugboat No. 9, having in tow car float No. 17, belonging to the New York Central and Hudson River Railroad Company, collided with the fender system along the northerly side of Pier "A," North river, breaking one oak pile, and recommending that the company be notified of the damage in order that an opportunity may be given them to make a survey of same. Letter sent to railroad company as recommended, with the request that they advise the Department whether they desire the Department to make the repairs at the company's cost and expense, or whether they desire to make the repairs themselves.

3 (B. O. 619). Returning order to prepare plans for either a graving dock or floating drydock, nothing having been done in the matter. Filed.

4 (B. O. 1121). Returning order for the preparation of plans, specifications and form of contract for the construction of a pier at the foot of East One Hundred and Seventy-seventh street, Harlem river, Bronx Borough, the matter having been taken up with the Bronx Borough authorities. Filed.

5 (B. O. 1822). Returning order for the preparation of plans, specifications and form of contract for extending the Battery Landing, the contemplated work having been abandoned, and a boat landing at the Battery at another location having been constructed. Filed.

6 (B. O. 3139). Returning order for the preparation of new plan layout for property at Clason's Point, Long Island Sound, Borough of The Bronx, the matter having been evidently abandoned. Filed.

The Engineer-in-Chief reported the following work superintended under Bureau orders:

No. 4316. Placing of house at the foot of One Hundredth street, Harlem river, by the United States Volunteer Life Saving Corps.

No. 4514. Opening of sewer trench at the foot of One Hundredth street, Harlem river, for the purpose of laying sewer pipe thereat, by Arthur E. McGinness.

No. 1867. Construction of crib and close pile bulkhead near Van Name street, Mariner's Harbor, Borough of Richmond, by New Jersey Dock and Bridge Building Company.

The following Department order was issued:

No.	Issued To and For.	Price.
23033.	C. J. O'Brien, printing annual report.....	\$825 00

J. W. SAVAGE, Secretary.

New York, August 31, 1906.

The following communications were received, action being taken thereon as noted, to wit:

From the Department of Correction (68903, 69147)—Requesting permission to make landings and to maintain a small house for keeping prisoners awaiting arrival of boat on Department property in the Borough of Brooklyn, and mentioning the North Second street pier as being the most desirable. Request denied, the recreation pier not being deemed a proper place to make landings with prisoners.

From Otto Miller & Philip Kunzinger (69186)—Requesting permission to occupy plot of ground at Broad Channel, Jamaica Bay, Borough of Queens. Privilege granted to begin May 1, 1906, to continue during the pleasure of the Commissioner until April 30, 1907, compensation to be at the rate of \$30 per annum, payable in advance to the Cashier, for the occupation of Lot No. 29, Block No. 2, an area of 2,600 square feet.

From Mrs. I. Jacobson (69129)—Requesting permission to occupy a plot of ground at Broad Channel, Jamaica Bay, Borough of Queens. Privilege granted to occupy Lot No. 6, Block 18, an area of 2,750 square feet, to continue during the pleasure of the Commissioner until April 30, 1907, compensation to be at the rate of \$35 per annum, payable in advance to the Cashier.

From the Merritt & Chapman Derrick and Wrecking Company (68879)—Protesting against unfair discrimination in wharfage rates and requesting that its fleet be put on the same basis of wharfage as charged to others, viz., \$1 per day. By direction of the Commissioner (69189), it was ordered that, beginning October 1, 1906, the rates of wharfage for all lighters and barges engaged in lightering freight in New York harbor be fixed as follows:

Lighters and barges, 50 tons and less, regular lighterage rates of one cent per ton.

Lighters and barges, over 50 tons and not over 100 tons, 50 cents.

Lighters and barges, over 100 tons and not over 200 tons, \$1.

Lighters and barges, over 200 tons burden, to pay 25 cents additional for every 100 tons or fraction thereof over 200 tons.

The rate for unregistered lighters and barges is fixed at \$2, or as may be directed hereafter in individual cases.

The above rates will also apply to boats engaged in delivering coal in the harbor that do not go through the canals or navigate the rivers of the State of New York. The minimum rate for such boats to be 50 cents each.

All actions heretofore taken fixing rates of wharfage inconsistent with the above rates are rescinded and annulled.

From the Engineer-in-Chief—

1 (69175). Recommending the issuance of an order for the making and installation of wire gates on the ferry bridges of the Staten Island ferry, at both the Whitehall and St. George terminals, by the force of the Department by day's labor. Order issued to Engineer-in-Chief to make the gates and place same in accordance with his recommendation.

2 (69185). Reporting that the work of building three pile drivers was completed on August 17, 1906, by J. Edward Ogden Company, under Class I. of Contract No. 907. Comptroller notified.

3 (69188). Submitting maps showing area which the Department proposes to pave along the marginal street of the Chelsea section, North river, in the near future, and showing also the location of the proposed sewers which are mandatory, and the location of street car tracks and recommending that the companies interested be directed to take the necessary steps at once to install their electrical conduits, steam heating pipes, etc., from the nearest mains to points opposite the entrance to each pier. Department of Water Supply, Gas and Electricity, Consolidated Telegraph and Electrical Subway Company, Empire City Subway Company, and the New York Steam Company furnished with copies of map and requested to make arrangements as recommended by Engineer-in-Chief.

From the Superintendent of Ferries (69116)—Submitting communication from H. F. Denyse, Pilot of the ferryboat "Queens," relative to striking the rack at Whitehall street, Manhattan, on August 21, 1906, damaging the guard. Denyse was directed to appear before the Commissioner, and after a hearing, was reprimanded and ordered back to work.

The Commissioners of the Sinking Fund were requested to adopt a resolution directing that title to the following property be vested in The City of New York on November 1, 1906:

"All the lands, lands filled in, terms, easements, emoluments and privileges of and to said lands and lands filled in, with the buildings and structures thereon, in the block bounded by the northerly side of West Twenty-second street, and the southerly side of West Twenty-third street, the westerly side of Eleventh avenue and the easterly side of Thirteenth avenue, Borough of Manhattan."

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for the use of the Board of Education, said buildings being situated in the

Borough of Manhattan

and erected upon property bounded and described as follows:

Beginning at a point on the easterly side of Hudson street distant 71 feet northerly from the northerly line of Grove street, and running thence easterly along the northerly line of the site of Public School 3 one hundred and nine (109) feet to an angle in said line; thence northeasterly and still along the northerly line of the site of Public School 3 sixty-six (66) feet three (3) inches to the westerly line of Bedford street; thence northerly along the westerly line of Bedford street 51 feet 6 inches; thence southerly along the northerly line of the premises No. 105 Bedford street 62 feet 7 inches; thence westerly along the northerly line of the premises No. 492 Hudson street 87 feet 10 inches to the easterly line of Hudson street; thence southerly along the easterly line of Hudson street 43 feet to the northerly line of the site of Public School 3, the point or place of beginning, be the said several dimensions more or less.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

MONDAY, DECEMBER 3, 1906

at 11 a. m., on the premises, and will be sold for the highest marketable price on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

NOTICE TO PROPERTY OWNERS.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court and the entering in the Bureau for the Collection of Assessments and Arrears of Assessment for opening and acquiring title to the following named street, in the Borough of Brooklyn:

FIRST, THIRD, FOURTH, NINTH, ELEVENTH AND TWENTIETH WARDS, SECTIONS 1, 4 AND 7.

LIVINGSTON STREET—OPENING, from 50 feet to 80 feet, between Court street and Flatbush avenue. Confirmed May 12, 1906; entered October 20, 1906. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the easterly side of Clinton street where the same is intersected by the centre line of the block between Schermerhorn street and State street; running thence northerly and along the easterly side of Clinton street to the southerly side of Pierrepont street; running thence easterly along the southerly side of Pierrepont street to the westerly side of Fulton street; running thence southerly and along the westerly side of Fulton street to its intersection with the westerly side of Court street; running thence southeasterly to the intersection of the southerly side of Myrtle avenue with the easterly side of Fulton street; running thence easterly along the southerly side of Myrtle avenue 100 feet; running thence southerly and parallel with Fulton street and distant 100 feet easterly therefrom to the easterly side of Adams street; running thence southeasterly and parallel with Fulton street and distant 100 feet northeasterly therefrom to the intersection of Pearl street and Willoughby street; running thence easterly and along the southerly side of Willoughby street to the westerly side of Raymond street; running thence southerly and along the westerly side of Raymond street to the southerly side of DeKalb avenue; running thence easterly and along the southerly side of DeKalb avenue to the westerly side of Washington avenue; running thence southerly and along the westerly side of Washington avenue to its intersection with the northerly side of Butler street, or Sterling place; running thence westerly and along the northerly side of Butler street, or Sterling place, to its intersection with the easterly side of Fifth avenue; running thence northeasterly along the easterly side of Fifth avenue to the northeasterly side of Dean street; running thence northeasterly and along the northeasterly side of Dean street to the easterly side of Third avenue; running thence northeasterly and along the easterly side of Third avenue to a point distant 100 feet northerly of the northerly line of State street; running thence westerly and along the centre line of the blocks between State street and Schermerhorn street to the point or place of beginning.

The above-entitled assessment was entered on the day herebefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any assessment shall remain unpaid for a period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessments became liens, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. until 12 m., and all payments made thereon on or before December 19, 1906, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

CONDITIONS OF SALE.

As provided for by the Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for stock shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money or by a certified check drawn to the order of said Comptroller upon a solvent banking corporation, two per cent. of the par value of the stock bid for in said proposal.

No proposal will be received or considered which is not accompanied by such deposit.

All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.

4. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award, to him or them, to pay to the City Chamberlain the amount of the Stock awarded to him or them at its or their par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.

5. Upon the payment into the City Treasury by the persons whose bids are accepted of the amounts due for the Stock awarded to them respectively, certificates thereof shall be issued to them in such denominations provided for by the Charter as they may desire.

6. It is required by the Charter of The City that "every bidder may be required to accept a portion of the whole amount of Bonds or Stock bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected, provided, however, that any bidder offering to purchase all or any part of the Bonds offered for sale at a price at par or higher may also offer to purchase all or none of said Bonds at a different price, and if the Comptroller deems it to be in the interests of the City so to do, he may award the Bonds to the bidder offering the highest price for all or none of said Bonds; provided, however, that if the Comptroller deems it to be in the interests of the City so to do, he may reject all bids." Under this provision the condition that the bidder will accept only the whole amount of Stock bid for by him, and not any part thereof, cannot be inserted in any bids, except those for "all or none" offered by bidders who have also bid for "all or any part" of the Stock offered for sale.

7. The proposals, together with the security deposits, should be enclosed in a sealed envelope, indorsed "Proposals for Bonds of The City of New York," and said envelope inclosed in another sealed envelope addressed to the Comptroller of The City of New York.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for the use of the Board of Education, said buildings being situated in the

Borough of Manhattan

and erected upon property bounded and described as follows:

Beginning at a point formed by the intersection of the easterly line of Greenwich avenue with the southerly line of the lands of Public School 41, which point is distant 193 feet 5 inches northerly from the northerly line of West Tenth street, and running thence easterly along the southerly line of the said lands of Public School 41 sixty (60) feet to the westerly line of the lands of said school; thence southerly along the westerly line of the lands of said school 25 feet; thence easterly and again along the southerly line of the lands of said school 94 feet 8 inches; thence southerly along the easterly line of the premises No. 32 Greenwich avenue 31 feet; thence westerly along the southerly line of the lands of said premises No. 32 Greenwich avenue 173 feet to the easterly line of Greenwich avenue; thence northerly along the easterly line of Greenwich avenue 50 feet to the southerly line of the lands of Public School 41, the point or place of beginning.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance.

The sale will take place on

THURSDAY, NOVEMBER 15, 1906

at 11 a. m., on the premises, and will be sold for the highest marketable price on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, floorings, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent and agreement to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for the Board of Education, said buildings being situated in the

Borough of Brooklyn

and erected upon property bounded and described as follows:

Beginning at a point formed by the intersection of the westerly line of Oakland street with the northerly line of Norman avenue, and running thence westerly along the northerly line of Norman avenue 25 feet to the easterly line of the lands of Public School 34; thence northerly along the easterly line of the lands of Public School 34 ninety-five (95) feet; thence easterly and parallel with Norman avenue 25 feet to the westerly line of Oakland street; thence southerly along the westerly line of Oakland street 95 feet to the northerly line of Norman avenue, the point or place of beginning.

Also—Beginning at a point formed by the intersection of the easterly line of Eckford street with the northerly line of Norman avenue, and running thence easterly along the northerly line of Norman avenue 25 feet to the westerly line of the lands of Public School 34; thence northerly along the westerly line of the lands of Public School 34 ninety-five (95) feet; thence westerly and parallel with Norman avenue 25 feet to the easterly line of Eckford street; thence southerly along the easterly line of Eckford street 95 feet to the northerly line of Norman avenue, the point or place of beginning.

By direction of the Comptroller the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

TUESDAY, NOVEMBER 13, 1906

at 11 a. m., on the premises, and will be sold for the highest marketable price on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, floorings, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for park purposes, said buildings being situated in the

Borough of Manhattan

and erected upon property within the lines of the block bounded by the westerly side of Ninth avenue, the northerly side of West Twenty-seventh street, the easterly side of Tenth avenue and the southerly side of West Twenty-eighth street, in the Borough of Manhattan, City of New York, with the exception of Public School No. 33, situated on West Twenty-eighth street.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

FRIDAY, NOVEMBER 9, 1906

at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction.

It is to be strictly understood that the purchasers at the sale, after complying with all the terms and conditions hereinafter mentioned, shall erect without cost to The City of New York a tight board fence six feet high, in accordance with the rules and regulations of the municipal departments. The buildings will be sold upon the following

TERMS AND CONDITIONS.

The purchaser must erect without cost to The City of New York a tight board fence six feet high in front of the property.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls, shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil-piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of EAST ONE HUNDRED AND SIXTY-SIXTH STREET (although not yet named by proper authority), from Walton avenue to Morris avenue, in the Twenty-third Ward, Borough of The Bronx, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 19th day of November, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 22d day of November, 1906, at 3 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 21st day of November, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the middle line of the block between Teller avenue and Clay avenue with a line parallel to and 100 feet southerly from the southerly line of East One Hundred and Sixty-sixth street; running thence westerly along said parallel line to its intersection with the middle line of the block between Morris avenue and College avenue; thence southerly along said middle line of the block to its intersection with a line parallel to and 100 feet southerly from the southerly line of East One Hundred and Sixty-sixth street; thence westerly along said parallel line to its intersection with the middle line of the block between Gerard avenue and Walton avenue; thence northerly along said middle line of the block to its intersection with a line parallel to and 100 feet northerly from the northerly line of McClellan street; thence easterly along said parallel line to its intersection with the middle line of the block between Morris avenue and College avenue; thence

southerly along said middle line of the block to its intersection with a line parallel to and 100 feet northerly from the northerly line of East One Hundred and Sixty-sixth street; thence easterly along said parallel line to its intersection with the middle line of the block between Teller avenue and Clay avenue; thence southerly along said middle line of the block to the point or place of beginning, as such area is shown upon the final maps and profiles of the Twenty-third and Twenty-fourth Wards, in The City of New York, excepting from said area all streets, avenues and roads, or portions thereof, heretofore legally opened as such area is shown on our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 1st day of January, 1907, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, October 25, 1906.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of FOX STREET (although not yet named by proper authority), from Longwood avenue to Intervale avenue, in the Twenty-third Ward, Borough of The Bronx, City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 19th day of November, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 22d day of November, 1906, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 21st day of November, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at the point of intersection of the middle line of the blocks between Leggett avenue and East One Hundred and Fifty-sixth street with a line parallel to and distant one hundred feet westerly from the westerly line of Fox street; running thence northerly along said parallel line to its intersection with a line parallel to and distant one hundred feet southerly from the southerly line of Longwood avenue; thence westerly along said last-mentioned parallel line to its intersection with the easterly line of Beck street; thence northerly along said line of Beck street to its intersection with a line parallel to and distant one hundred feet northerly from the northerly line of Intervale avenue; thence easterly along said parallel line to its intersection with a line parallel to and distant one hundred feet westerly from the westerly line of Fox street; thence northerly along said last-mentioned parallel line to its intersection with the prolongation of a line parallel to and distant one hundred feet southerly from the southerly line of that portion of Barretto street lying east of Fox street; thence easterly along said prolongation and parallel line to its intersection with a line parallel to and distant one hundred feet easterly from the easterly line of Fox street; thence southerly along said last-mentioned parallel line to its intersection with a line parallel to and distant one hundred feet northerly from the northerly line of Intervale avenue; thence easterly along said last-mentioned parallel line to its intersection with the westerly line of the Southern Boulevard; thence southerly along the westerly line of the Southern Boulevard to its intersection with a line parallel to and distant one hundred feet southerly from the southerly line of Longwood avenue; thence westerly along said parallel line to its intersection with a line parallel to and distant one hundred feet easterly from the easterly line of Fox street; thence southerly along said last-mentioned parallel line to its intersection with the middle line of the blocks between Leggett avenue and East One Hundred and Fifty-sixth street; thence westerly along said middle line to the point or place of beginning, as such area is shown upon the final maps and profiles of the Twenty-third and Twenty-fourth Wards of The City of New York, excepting from said area all streets, avenues and roads, or portions thereof, heretofore legally opened as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 1st day of January, 1907, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening MARTENSE STREET, between New York avenue and Flatbush avenue, in the Twenty-ninth Ward, in the Borough of Brooklyn, of The City of New York, as the same has been heretofore laid out.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our amended and supplemental estimate and assessment, and

that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objection thereto, do present their said objections in writing, duly verified, to us at our office in the office of the Law Department, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 5th day of November, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 7th day of November, 1906, at 4 o'clock p. m.

Second—That the abstract of our said amended and supplemental estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings of the Law Department of The City of New York, in the Borough of Brooklyn, No. 166 Montague street, in the Borough of Brooklyn in the City of New York, there to remain until the 16th day of November, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situated, lying and being in the Borough of Brooklyn in The City of New York, which, taken together, are bounded and described as follows, viz.:

Commencing at a point where the easterly side of Flatbush avenue is intersected by the centre line of the block between Linden and Martense avenues as said avenues are laid down on the Commissioners' Map of The City of New York; running thence easterly along the centre line of the block between Linden and Martense avenues to the westerly side of New York avenue; running thence southerly along the westerly side of New York avenue to a point where said westerly side of New York avenue is intersected by the centre line of the block between Martense and Church avenues as laid down on said map of The City of New York; running thence westerly along the centre line of the block between Martense and Church avenues to the easterly side of Flatbush avenue, and thence northerly along the easterly side of Flatbush avenue to the point or place of beginning.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn in The City of New York, on the 3d day of December, 1906, at the opening of the Court on that day.

Dated Borough of Brooklyn, The City of New York, October 16, 1906.

MARTIN E. HALPIN,
Chairman;
DOMINIC B. GRIFFIN,
DANIEL G. CAMPION,
Commissioners.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the receipt or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks or The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
