DEPARTMENT OF PARKS.

REPORT FOR THE QUARTER ENDING DECEMBER 31, 1907.

Department of Parks, Manhattan and Richmond,
 The Arsenal, Central Park.
 January 30, 1908.

Hon. GEORGE B. McCLELLAN, Mayor:

Sir—In accordance with the provisions of the Charter, I beg to submit herewith quarterly report of the operations and finances of the Department of Parks, Boroughs of Manhattan and Richmond, for the three months ending December 31, 1907.

Respectfully,

HENRY SMITH, Commissioner.

DEPARTMENT OF PARKS.

BOROUGH OF MANHATTAN AND RICHMOND.

Report for the Quarter Ending December 31, 1907.

Work under the contract for furnishing, delivering and laying water mains and appurtenances in Central Park, between Fifty-ninth and Seventy-second streets, begun during the previous quarter, was completed in December. It consisted of the laying of 4, 6, 8 and 10-inch cast-iron pipe, 2½-inch galvanized wrought-iron pipe, the setting of stop-cocks, mud hydrants, street washers, appurtenances, etc., the furnishing of mud and the laying of sod.

The contract for similar work in Central Park, north of Ninety-seventh street, was let, and the work begun during the quarter.

The semi-circular entrance to Central Park, at Sixty-sixth street, was reconstructed. This improvement included the regrading of the plaza, the laying of asphalt block pavement, the setting of bluestone curb, the building of new basins, the relaying of sidewalk pavement, and the adjustment of the bridge road.

Agricultural tile drainage, to relieve the wet condition of the lawn, was installed in Central Park, at Seventy-second street and Fifth avenue, Seventy-first street and Eighth avenue, between Fifth and Sixth avenues; in Central Park, near Fifty-ninth street, and between the West drive and Eighth avenue, opposite Ninety-third street.

The work of constructing St. Nicholas Park, north of One Hundred and Thirty-fifth street, between St. Nicholas avenue and St. Nicholas terrace, progressed during the quarter. The improvement of the section south of One Hundred and Thirty-fifth street was also well advanced.

The construction and development of Colonial Park, One Hundred and Forty-fifth to One Hundred and Fifty-fifth street, Bradhurst and Edgecombe avenues, was continued.

The work of improving the small triangular plot bounded by One Hundred and Thirty-eighth street, Hamilton place and Broadway, was begun and continued until the work had to be suspended on account of unfavorable weather conditions.

New pipe rail fences inclosing the tree plots on Cathedral parkway were erected and new tree guards provided.

The work in connection with paving with sheet asphalt upon a concrete foundation, the carriageway, for furnishing and setting where required, new curbstones, and re-setting elsewhere the existing curbstones, and for alterations to the drainage, in Fifth avenue, between Fifty-ninth and Sixtieth streets, and between Ninetieth street and the Plaza at One Hundred and Tenth street, was begun during the latter part of the quarter.

The paving and repaving with rock asphalt mastic where directed, the walks of Central and other parks in the Borough of Manhattan, was begun during the quarter. The wearing surface of many of the walks in the City parks had become worn and dangerous to traffic.

The necessary repairs were made to roadway pavements of avenues, streets and public places under the jurisdiction of this Department.

The preparation of surveys, working drawings, estimates of cost, specifications, contract plans, etc., was given the necessary attention by the Engineering corps; also the tabulation of bids, inspection of materials and work, cement testing, etc.

The Department forces have used every effort by means of rollers and surfacing material, to restore the drives to good condition, with the least possible inconvenience to the public.

The trees and shrubs in the parks received careful attention, new plants being set out where necessary to replace those that have died, and the work of cleaning and weeding done to produce the best results in the spring.

The report of the last quarter of the year covers largely routine work, as it is more or less restricted during this period on account of weather conditions.

The Finance Committee presented vouchers for the expenditure of six hundred dollars (\$600), received from the office of the Comptroller on February 11, 1909 (Series No. 1, 1909, check No. 7086), pursuant to the resolution of the Board of Aldermen, adopted October 8, 1907, and approved by the Mayor, October 14, 1907. The same were approved and the Secretary was directed to forward them to the Comptroller.

On motion, it was

Resolved, That the Secretary be and is hereby directed to make requisition No. 2, 1909, upon the Comptroller for the sum of six hundred dollars (\$600), charged to account of Administration, Brooklyn, Contingencies, 1909, No. 433, for the purpose of defraying any minor or incidental expenses contingent to the Department of Health, pursuant to the resolution adopted by the Board of Aldermen, October 8, 1907, and approved by the Mayor October 14, 1907.

The recommendation of the Sanitary Superintendent to amend section 116 of the Sanitary Code, was received, and, on motion, it was

Resolved, That section 116 of the Sanitary Code be and the same is hereby amended so as to read as follows:

Section 116. It shall be the duty of every owner, lessee, contractor or other person having the management and control of any lot or parcel of land in the City of New York to keep and preserve the same at all times clean, unoffensive and free and clear of any water which may gather or collect thereon, and to provide and maintain around or in front of any lot which is sunk, excavated or below the grade of the sidewalk adjacent thereto, a proper fence to protect persons from falling therein.

No person shall throw or deposit in or upon any lot any garbage, refuse or other offensive material.

The General Medical Officer referred to bills relating to the regulation, restriction or prevention by law of experimentation on living animals, introduced in the Legislature, and, after discussion of the question, the following preambles and resolutions were adopted:

Whereas, Several bills have been introduced in the New York Legislature for the regulation, restriction or prevention by law of experimentation on living animals; and

Whereas, The enactment of any one of these bills into law would be most detrimental to the interests of the Department of Health and would seriously interfere with and curtail its activity and usefulness; and

Whereas, All of the advances in preventive medicine which have occurred during the last twenty years and the application of which have resulted in a decrease in the death rate in New York City of more than one-third have been directly based upon the results of experiments upon living animals; and

Whereas, This reduction in the death rate means to New York City alone an annual decrease of over thirty thousand deaths a year; therefore be it

Resolved, That the Board of Health records its most emphatic protest against any attempt to restrict or regulate by further legislation a matter which is of such vital importance to the health and lives of the people of the City of New York; and further be it

Resolved, That in the opinion of this Board there exists no good reason for the enactment of further legislation, as the alleged cruelties and atrocities to animals in such experimentation are not proven.

The Secretary was directed to forward copies of the foregoing preambles and resolutions to the Chairman of the Judiciary Committee of the Senate and Assembly, and to the Corporation Counsel, with the request that the Corporation Counsel will cause the passage of the bills referred to to be opposed by every means in his power.

"II"—Trial balances, September 30, 1908, of the Chamberlain's ledgers.

Attention is called to Table "U," being a schedule of unpaid registered interest checks per the records of the stock and bond division of the Finance Department, as of the close of business September 30, 1908. This includes not only the registered interest checks remaining in the care of the stock and bond division and awaiting delivery to the payees, but it also includes checks delivered to payees or their representatives, which, pending the return of same as vouchers when canceled by the bank, are regarded by the Finance Department as unpaid.

Upon examination, we find that this table totals \$875 more than the balance remaining to the credit of "Registered Interest Accounts" on the Chamberlain's books, whereas it should agree precisely with such balance of concurrent date.

Part of this discrepancy, namely, \$455, was accounted for in our report for the second quarter of 1908, dated December 23, 1908; the balance, \$420, is explained by the Chief Stock and Bond Clerk of the Finance Department, as due to the fact that check No. 430 for \$210, dated May 1, 1899, made payable to the National City Bank, City of New York, in favor of Lucy V. A. Hard, in payment of the semi-annual interest on \$6,000, of 7 per cent. Croton Water Main Stock, City of New York, and check No. 405, for \$210, dated November 1, 1899 (otherwise same as above), were also taken from the files of the Stock and Bond Division of the Comptroller's office, and after passing through the usual course of commercial paper, presumably on fraudulent endorsements, were paid by the National City Bank in due course and returned canceled in the Chamberlain's office, and there accounted for; they were then either lost or again abstracted, and therefore were not received or noted as paid checks in the Stock and Bond Division of the Finance Department. Hence it is that the Chamberlain's account of registered interest agrees with the bank balance, while the books of the Stock and Bond Division of the Finance Department show a difference as indicated.

In reconciling the Stock and Bond Clerk's account of registered interest checks with the Chamberlain's account, it was found that check No. 650, for \$175, dated November 1, 1899, was missing. This check was drawn on the National City Bank to John J. Pickering, Portsmouth, N. H., in payment of semi-annual interest on \$5,000 of 7 per cent. Croton Water Main Stock, City of New York. It is believed to have been fraudulently abstracted some time in July, 1908, but has never been presented for payment.

As stated in our report of December 23, 1908, the Comptroller has the matters above referred to under investigation and has taken action looking to the apprehension of the party or parties under suspicion. He has also taken steps looking to the recovery of the full amount (\$875), of which the City was defrauded, as related above.

Respectfully submitted,

JOHN PERCIVAL MITCHELL.

E. V. GALLAGHER.

POLICE DEPARTMENT.

March 5, 1909.

The following proceedings were this day directed by the Police Commissioner:

Whereas, In an opinion of the Corporation Counsel, dated May 1, 1903, the Police Commissioner is advised that in making contract for telephones for the use of the Police Department of The City of New York he is not required to comply with section 419 of the Greater New York Charter, which requires the letting of contracts upon sealed bids at public letting, etc., viz.: "While the provisions of the section of the Consolidation Act corresponding to section 419 of the present Charter and of the section mentioned of the present Charter are very general in form, it has been held repeatedly by the courts that contracts need not be let at competitive bidding in cases where competition is impossible. The cases on this point are quite numerous, and among them may be mentioned the following: Harlem Gas Light Company against the Mayor, 33 N. Y., 309; Baird against the Mayor, 96 N. Y., 383; Gleason against Dalton, 28 App. Div., 592. The decisions cited and others hold, and under a great variety of circumstances, the principle which I have mentioned, that competitive bidding is not required, notwithstanding the broad language of the Charter, where competition is impossible. Coming to the exact subject of your communication, I have to say that this Department has held for many years that the renting of telephones is not governed by the provisions of the section which is now 419 of the Charter."

Ordered, That contract be entered into with the New York and New Jersey Telephone Company for telephone service in the Borough of Richmond, for the year 1909, in accordance with specifications named therein, for the sum and price of \$632, and that such contract be executed by the Police Commissioner on approval of sureties by the Comptroller, providing the Corporation Counsel approves the form of such contract.

COMMISSIONERS OF THE SINKING FUND.

PUBLIC NOTICE IS HEREBY GIVEN

that the Commissioners of the Sinking Fund, in accordance with the provisions of chapter 372 of the Laws of 1907, will hold a public hearing in Room 10, City Hall, Borough of Manhattan, at 11 o'clock a. m. on Tuesday, March 16, 1909, relative to a communication of the Commissioners of Docks, transmitting for the approval of the Commissioners of the Sinking Fund an amendment of the proposed plan of pier layout in South Brooklyn, between Twenty-eighth and Thirty-sixth streets.

There is but a single change to be considered, namely, the widening of the most northerly pier from 60 to 80 feet. The Dock Commissioner states that the width of 60 feet was sufficient under the old layout, which called for a pier about 380 feet shorter than is called for in the present plan. The present plan calls for a longer pier, which makes the change in width necessary.

The Chief Engineer of the Department of Finance, in his report to the Comptroller states that in his opinion the proposed amended plan may properly receive the approval of the Commissioners of the Sinking Fund.

GEO. H. McLELLAN, Chairman, Commissioners of the Sinking Fund.

Beginning at and connecting with the proposed tracks of the Company to be constructed upon a route for which a franchise was granted by a contract dated February 1, 1909, on Chestnut street at Murray lane; thence northerly in and upon Murray lane to Higgins lane; thence easterly in and upon Higgins lane to a point where North avenue if extended would intersect said Higgins lane; thence northerly through private property along the line of North avenue to Fourth street; thence westerly in and upon Fourth street to Eighth avenue; thence northerly in and upon Eighth avenue to Twenty-first street; thence easterly in and upon Twenty-first street to Eleventh avenue; thence northerly in and upon Eleventh avenue to a point about 300 feet north of the north side line of the Boulevard in the former Village of Whitestone, all in the Borough of Queens.

One of the following alternative routes may be used in the place of and upon the abandonment of the portion of the route above described between the intersection of Chestnut street and Murray lane and the intersection of Fourth street and Eighth avenue:

(1) Beginning at and connecting with the proposed tracks of the Company to be constructed upon the route for which a franchise was granted by a contract dated February 1, 1909, in Chestnut street at Van Riper avenue, so called; thence northerly in and upon Van Riper avenue to and across Bayville avenue; thence northerly through private property to Higgins lane at a point between the intersection of said Higgins lane with Seventh avenue; thence easterly in and upon Higgins lane from said point to Seventh avenue; thence northerly in and upon Seventh avenue to Fourth street; thence easterly in and upon Fourth street to Eighth avenue, and thence connecting with the route first herein described.

(2) Beginning at and connecting with the proposed tracks of the Company to be constructed upon the route for which a franchise was granted by a contract dated February 1, 1909, in Chestnut street at a point near the intersection of Central avenue with Chestnut street; thence northerly through private property, and crossing Bayville avenue; thence, with upon private property, to Higgins lane, at a point between the intersection of said Higgins lane with Seventh avenue; thence in and upon Higgins lane to Seventh avenue; thence northerly in and upon Seventh avenue to Fourth street; thence easterly in and upon Fourth street to Eighth avenue, and thence connecting with the route first herein described.

One of the following alternative routes may be used in the place of and upon the abandonment of the portion of the route above described between the intersection of Chestnut street and Murray lane and the intersection of Fourth street and Eighth avenue:

(1) Beginning at and connecting with the proposed tracks of the Company to be constructed upon the route for which a franchise was granted by a contract dated February 1, 1909, in Chestnut street at Van Riper avenue, so called; thence northerly in and upon Van Riper avenue to and across Bayville avenue; thence northerly through private property to Higgins lane at a point between the intersection of said Higgins lane with Seventh avenue; thence easterly in and upon Higgins lane from said point to Seventh avenue; thence northerly in and upon Seventh avenue to Fourth street; thence easterly in and upon Fourth street to Eighth avenue, and thence connecting with the route first herein described.

(2) Beginning at and connecting with the proposed tracks of the Company to be constructed upon the route for which a franchise was granted by a contract dated February 1, 1909, in Chestnut street at a point near the intersection of Central avenue with Chestnut street; thence northerly through private property, and crossing Bayville avenue; thence, with upon private property, to Higgins lane, at a point between the intersection of said Higgins lane with Seventh avenue; thence in and upon Higgins lane to Seventh avenue; thence northerly in and upon Seventh avenue to Fourth street; thence easterly in and upon Fourth street to Eighth avenue, and thence connecting with the route first herein described.

(3) Beginning at and connecting with the proposed tracks of the Company to be constructed upon the route for which a franchise was granted by a contract dated February 1, 1909, in Chestnut street at a point near the intersection of Central avenue with Chestnut street; thence northerly through private property, and crossing Bayville avenue; thence, with upon private property, to Higgins lane, at a point between the intersection of said Higgins lane with Seventh avenue; thence in and upon Higgins lane to Seventh avenue; thence northerly in and upon Seventh avenue to Fourth street; thence easterly in and upon Fourth street to Eighth avenue, and thence connecting with the route first herein described.

Section 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—It is agreed that the Company before commencing construction on any portion of the route herein described from between Chestnut street and the intersection of Fourth street with Eighth avenue, shall notify the Board in writing which one of the three routes herein described between Chestnut street and the intersection of Fourth street with Eighth avenue the Company selects and adopts as the route upon which it shall construct the railway. Upon such notification by the Company to the Board all of the rights and privileges hereby granted upon the route not so selected and designated shall be considered null and void and of no effect, and the Company shall be deemed thereupon to have waived all rights or franchises which are hereby granted upon the routes not so selected and designated by the Company. The Company further agrees that it shall select and designate its route as herein provided not later than six months from the date upon which this contract is signed by the Mayor.

Second—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within six (6) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Third—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor until February 1, 1934, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one year

before the expiration of the original term of this contract, the right and privilege to construct, maintain and operate said railway shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor until February 1, 1934, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

Section 3. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to

construct, maintain and operate a double-track street surface railway, with the necessary wires and equipment, for the purpose of conveying persons and property in the Borough of Queens, in The City of New York, upon the following route, to wit:

Beginning at and connecting with the proposed tracks of the Company to be constructed upon a route for which a franchise was granted by a contract dated February 1, 1909, on Chestnut street at Murray lane; thence northerly in and upon Murray lane to Higgins lane; thence easterly in and upon Higgins lane to a point where North avenue if extended would intersect said Higgins lane; thence northerly through private property along the line of North avenue to Fourth street; thence westerly in and upon Fourth street to Eighth avenue; thence northerly in and upon Eighth avenue to Twenty-first street; thence easterly in and upon Twenty-first street to Eleventh avenue; thence northerly in and upon Eleventh avenue to a point about 300 feet north of the north side line of the Boulevard in the former Village of Whitestone, all in the Borough of Queens.

One of the following alternative routes may be used in the place of and upon the abandonment of the portion of the route above described between the intersection of Chestnut street and Murray lane and the intersection of Fourth street and Eighth avenue:

(1) Beginning at and connecting with the proposed tracks of the Company to be constructed upon the route for which a franchise was granted by a contract dated February 1, 1909, in Chestnut street at Van Riper avenue, so called; thence northerly in and upon Van Riper avenue to and across Bayville avenue; thence northerly through private property to Higgins lane at a point between the intersection of said Higgins lane with Seventh avenue; thence easterly in and upon Higgins lane from said point to Seventh avenue; thence northerly in and upon Seventh avenue to Fourth street; thence easterly in and upon Fourth street to Eighth avenue, and thence connecting with the route first herein described.

(2) Beginning at and connecting with the proposed tracks of the Company to be constructed upon the route for which a franchise was granted by a contract dated February 1, 1909, in Chestnut street at a point near the intersection of Central avenue with Chestnut street; thence northerly through private property, and crossing Bayville avenue; thence, with upon private property, to Higgins lane, at a point between the intersection of said Higgins lane with Seventh avenue; thence in and upon Higgins lane to Seventh avenue; thence northerly in and upon Seventh avenue to Fourth street; thence easterly in and upon Fourth street to Eighth avenue, and thence connecting with the route first herein described.

(3) Beginning at and connecting with the proposed tracks of the Company to be constructed upon the route for which a franchise was granted by a contract dated February 1, 1909, in Chestnut street at a point near the intersection of Central avenue with Chestnut street; thence northerly through private property, and crossing Bayville avenue; thence, with upon private property, to Higgins lane, at a point between the intersection of said Higgins lane with Seventh avenue; thence in and upon Higgins lane to Seventh avenue; thence northerly in and upon Seventh avenue to Fourth street; thence easterly in and upon Fourth street to Eighth avenue, and thence connecting with the route first herein described.

Section 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—It is agreed that the Company before commencing construction on any portion of the route herein described from between Chestnut street and the intersection of Fourth street with

before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate at such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the valuation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make out to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Fourth—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of five thousand dollars (\$5,000) in cash within four (4) months after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum, which shall in no case be less than one thousand five hundred and seventy-five dollars (\$1,575), and which shall be equal to three (3) per cent. of the gross annual receipts of such percentage shall exceed the sum of one thousand five hundred and seventy-five dollars (\$1,575).

During the second term of five (5) years an annual sum, which shall in no case be less than two thousand six hundred and fifty dollars (\$2,650), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of two thousand six hundred and fifty dollars (\$2,650).

During the third term of five (5) years an annual sum, which shall in no case be less than two thousand nine hundred dollars (\$2,900), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of two thousand nine hundred dollars (\$2,900).

During the fourth term of five (5) years an annual sum, which shall in no case be less than three thousand eight hundred and fifty dollars (\$3,850), and which shall be equal to six (6) per cent. of its gross annual receipts, if such percentage shall exceed the sum of three thousand eight hundred and fifty dollars (\$3,850).

During the remaining term of five (5) years an annual sum, which shall in no case be less than four thousand two hundred dollars (\$4,200), and which shall be equal to six (6) per cent. of its gross annual receipts, if such percentage shall exceed the sum of four thousand two hundred dollars (\$4,200).

The gross annual receipts mentioned above shall be that portion of the gross earnings of the Company from all sources within the limits of the City as shall bear the same proportion to such gross earnings as the length of the extension hereby granted shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law as amended.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fifth—The annual charges or payments shall continue throughout the whole term of this contract, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payments for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignor or lessor that the same is subject to all the conditions of this contract; and that the assignor or lessor assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignor or lessor to the contrary notwithstanding, and that the said assignor or lessor waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege, upon the same or other terms and conditions, over the same streets and avenues heretofore described.

The use of said railway which shall be constructed by the Company under this contract, including the tracks, wires and other equipment, or

any structure in public streets and avenues owned by the Company and used in connection therewith, shall be permitted by the Company to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets and avenues exclusively for street railway purposes, for a distance not exceeding two thousand (2,000) feet, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railway and structures, and of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract in connection with the maintenance or the operation of the said railway as used. Provided, however, that if in the opinion of the Company the legal rate of interest of the cost of such railway shall be an insufficient sum to pay for the use of such tracks, it may appeal to the Board, and the Board may fix a percentage of the cost to be paid to the Company at a sum in excess of the legal rate of interest, if in its opinion such action is justified.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company pursuant to this contract.

Seventh—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, and signed by the Mayor, and the said consent shall not render unnecessary any subsequent consent or assent.

Eighth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Ninth—The Company shall commence construction of the railway herein authorized within six (6) months from the date upon which the consent of the property owners is obtained, or from the date upon which the decision of the Appellate Division of the Supreme Court that such railway might be constructed is rendered in favor of such consent, and shall complete the construction and place the same in full operation within eighteen (18) months from the date of obtaining such consent or such decision, otherwise such right shall cease and terminate, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be refunded to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each, and provided further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company; and provided, further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other operation of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Tenth—Said railway shall be constructed and operated in the least approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway apparatus, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time the rights hereby granted shall cease and terminate.

Eleventh—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structure in the streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Twelfth—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Queens, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Provided, however, that the Board, at any time after the first ten (10) years of this contract, upon giving to the Company one year's notice, may require the Company to operate its railway upon the whole or upon any portion of its route by underground electric power substantially similar to the system now in use on the street surface railways in the Borough of Manhattan, or by any

other practical motive power then in use which does not require the use of poles and overhead wires in the streets and avenues, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets and avenues of the City.

Thirteenth—Upon six (6) months' notice by the Board to the Company all wires for the transmission of power, except trolley wires, for the operation of the railway, upon all or any portion of the route hereby authorized, shall be placed in conduits beneath or alongside of the railway. The Company shall provide in such conduits two (2) ducts not less than three (3) inches in diameter for the exclusive use of the City. Such ducts shall be used only by the Company for the operation of its railway, and by the City as above.

Fourteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on said railway, or a line or branch operated in connection therewith, to any point thereof, or of any connecting line or branch thereof, within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fifteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars, cars for the transportation of express matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

The rate for the carrying of such property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, and may be fixed by the Board after notice to the Company and a hearing had thereon, and when so fixed such rate shall be binding upon the Company, its successors or assigns, and no greater sum shall be charged for such service than provided for by it.

Sixteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Seventeenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Eighteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Nineteenth—Cars on the said railway shall run at intervals of not more than thirty minutes, both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board. Provided, however, that the Company, during the first five years of this contract, shall not be required to operate its cars between the hours of 1 o'clock a. m. and 5 o'clock a. m., each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Twentieth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall cause to be watered at least three times every twenty-four hours when the temperature is above 35 degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed sixty (60) feet between curb lines, in which case the Company shall cause to be watered only forty (40) feet in width of such roadway, and the Company shall provide for such purpose at least one look care the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Twenty-first—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks, for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-second—As long as the said railway, or any portion thereof, remains in any street or avenue, the Company shall save and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-third—Any alteration in the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-fourth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized, be changed at any time after the railway has been constructed, and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grade and lines, and during the construction of any public improvement upon said street the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-fifth—Should, in the opinion of the President of the Borough of Queens, the present roadway of any of the said streets and avenues be of insufficient width to accommodate both railway and other vehicular traffic, the Company shall widen such roadway under the direction of the President of the Borough of Queens to a width sufficient to accommodate such traffic, provided that no roadway shall be widened beyond the total width of the street or avenue.

Twenty-sixth—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, prevent or move the tracks and appurtenances in the manner as directed by the City officials having jurisdiction over such public work.

Twenty-seventh—If at any time before or during construction of the railway the Board

should deem any of the streets and avenues in which said railway is to be constructed of insufficient width to accommodate both railway and other vehicular traffic, the Company shall either construct and operate its railway upon a private right of way outside of the lines of such streets, or avenues, or shall purchase and cede to the City a strip of land adjacent thereto, for the purpose of widening the same to a width sufficient for the use of a street surface railway and for the accommodation of other vehicular traffic. If such street or avenue is so widened the Company shall grade the roadway thereon as directed by the City official having jurisdiction over the construction of streets and avenues.

Twenty-eighth—Where the bridges, viaducts or culverts encountered in the route are of insufficient width to carry the roadway as the same may be widened as herein provided, or of insufficient strength to bear the additional load of a street surface railway, the Company shall either carry its tracks upon new structures independent of the existing ones, so as not to interfere with the present and future use by the City of such bridges, viaducts or culverts, or shall, without cost to the City, construct new bridges, viaducts or culverts sufficiently wide to carry the roadway as the same may be widened, as herein provided.

Provided, however, that the Company shall not be required to pay the portion of the cost of strengthening or rebuilding of the existing bridge across the tracks of the Long Island Railroad at Eighth avenue, which the Long Island Railroad Company shall be required to pay, pursuant to law.

Twenty-ninth—The Company hereby agrees that if the City is or shall become entitled to acquire, and shall at any time during the term of this contract acquire, or otherwise come into possession of any of the property on which this Company shall construct railway tracks, on the route herein described, no compensation shall be awarded for the right to have railway tracks thereon.

Thirtieth—The Company shall submit to the Board a report, not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
