King for Construction of Station Finish for a Part of the Broadway-Fourth Avenue Rapid Transit Railroad, Routes Nos. 4 and 36, 49th Street and 57th Street Stations, Borough of Manhattan, and Issue of Corporate Stock Therefor (Cal. No. 2).

The Secretary presented the following:

State of New York, Public Service Commission for the First District, 49 Lafayette Street, New York.

To the Board of Estimate and Apportionment of The City of New York:

The Public Service Commission for the First District herewith transmits to you for your consent, as required by law, a proposed contract between The City of New York, acting by this Commission, and A. W. King, for the construction of Station Finish for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Routes Nos. 4 and 36, 49th Street and 57th Street Stations.

The Public Service Commission for the First District requests your Honorable Board to consent to said contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of executing said contract, to wit, the sum of one hundred and fifty-three thousand two hundred and sixty-two dollars and twenty-five cents (\$153,262.25), and also to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund of said City may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said contract, to wit, the sum of one hundred fifty-three thousand two hundred and sixty-two dollars and twenty-five cents (\$153,262.25).

This requisition is a subrequisition on account of and not in addition to the requisition made by this Commission upon your Honorable Board for sixty million dollars (\$60,000,000), and the subsequent requisitions made upon your Honorable Board for the purpose of carrying out the contract dated March 19, 1913, known as Contract No. 4, between The City of New York, acting by this Commission, and the New York Municipal Railway Corporation for additional rapid transit railroads.

In witness whereof, the Public Service Commission for the First District has caused its official seal to be hereto affixed, and these presents to be signed by its Acting Secretary this 15th day of August, 1918.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by A. McKINNEY, Acting Secretary.

(Seal.)

(Copy of contract referred to herein is on file.)

August 31, 1918.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—On August 15, 1918, the Public Service Commission for the First District accepted, subject to the consent of the Board of Estimate and Apportionment, the bid of A. W. King, for the construction of station finish for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Routes Nos. 4 and 36, 49th Street and 57th Street Stations in the Borough of Manhattan.

The estimated cost of the contract is \$153,262.25, for which an appropriation of like amount is requested.

The work contemplated under this contract is the construction of the station finish at 49th and 57th streets and Seventh avenue.

Under Contract No. 4, between The City of New York and the New York Municipal Railway Corporation, chapter 111, article IX, the City is to build the railroad structure, which includes the stations, it therefore becomes necessary for the completion of this work that this contract be let.

The following bids were received:

A. W. King \$153,262 25
Seventh Avenue Construction Co. 158,396 15

Being advised that the work to be performed is necessary, and that under the present market conditions, the price bid by A. W. King is reasonable, I recommend the adoption of the attached resolution approving the request. Respectfully,

LOUIS H. HAHLO, Deputy and Acting Comptroller.

On motion, Rule 19 was waived in this matter and the following resolution was offered:

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended; the provisions of section 45 of the Greater New York Charter, and the requisition of the Public Service Commission for the First District, duly made by said Commission on August 15, 1918, the Board of Estimate and Apportionment does hereby consent to the contract proposed to be entered into between The City of New York, acting by said Commission, and A. W. King, for the construction of station finish for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Routes Nos. 4 and 36, 49th street and 57th street stations, Borough of Manhattan, at an estimated cost of one hundred and fifty-three thousand two hundred and sixty-two dollars and twenty-five cents (\$153,262.25); and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be

one hundred and fifty-three thousand two hundred and sixty-two dollars and twenty-five cents (\$153,262.25); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding one hundred and fifty-three thousand two hundred and sixty-two dollars and twenty-five cents (\$153,262.25), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe; the proceeds to the amount of the par value thereof to be applied to the purposes of the contract with A. W. King as set forth in this resolution and more particularly described in the requisition of the Public Service Commission to this Board dated August 15, 1918; said issue of corporate stock to be charged as a sub-requisition against the general appropriation of sixty millions dollars (\$60,000,000) made by the Board on March 18, 1913, and the supplemental general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under rapid transit Contract No. 4.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, and the Acting Presidents of the Boroughs of Queens and Richmond—16.

Public Service Commission for the First District—Approval of Proposed Contract with Terry & Tench Company, Inc., for Construction of a Temporary Inspection Shed on Section No. 2, Route No. 16 (Jerome Avenue Line), of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, Borough of The Bronx, and Issue of Corporate Stock Therefor (Cal. No. 3).

The Secretary presented the following:

State of New York, Public Service Commission for the First District, 49 Lafayette Street, New York.

To the Board of Estimate and Apportionment of The City of New York:

The Public Service Commission for the First District herewith transmits to you for your consent as required by law a proposed contract between The City of New York, acting by this Commission, and Terry & Tench Co., Inc., for the construction of a temporary inspection shed in the Jerome Avenue Park Reservoir, the proposal amounting to seventeen thousand five hundred dollars (\$17,500).

The Public Service Commission for the First District requests your Honorable Board to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of the City of executing said proposed contract, to wit, the sum of twenty thousand dollars (\$20,000), and also to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund of said City may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of twenty thousand dollars (\$20,000). In order to cover the contingencies and extra work which, as the experience of the Engineers of the Commission indicate, are bound to occur on work of this character, the amount hereby requisitioned is slightly in excess of the bid price of seventeen thousand five hundred dollars (\$17,500).

The Public Service Commission for the First District does hereby, pursuant to section 45 of the Greater New York Charter, make requisition for the authorization of corporate stock for the full amount sufficient to pay the entire estimated expense to the City of executing said proposed contract, to wit, the sum of twenty thousand dollars (\$20,000), such requisition to be charged against the appropriations made by your Honorable Board for the purpose of carrying out Contract No. 3, being the contract dated March 19, 1913, between The City of New York, acting by this Commission, and Interborough Rapid Transit Company, for additional rapid transit railroads.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by A. McKINNEY, Acting Secretary.

(Copy of contract referred to herein is on file.)

August 31, 1918.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—On August 8, 1918, the Public Service Commission for the First District accepted, subject to the consent of the Board of Estimate and Apportionment, the bid of Terry & Tench Co., Inc., for the construction of a temporary inspection shed in the vicinity of the Jerome Park Reservoir, on Section No. 2 of Route No. 16 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The estimated cost of the contract is \$17,500, for which an appropriation of \$20,000 is requested, to provide for contingencies and extra work.

Contract No. 3, between The City of New York and the Interborough Rapid Transit Company, under chapter 111, article VIII, provides for the construction by the City of necessary terminals, storage yards and shops. As the construction of the proposed storage yard in the vicinity of the Jerome Park Reservoir has been postponed on account of the war conditions, it is necessary to provide temporary facilities for the inspection and repair of cars.

Bids were asked for the construction of an inspection shed, with the understanding that bidders might submit an alternative plan, which would not materially differ from the requirements of that upon which bids were invited.

The contract provides that the contractor shall furnish all plant, tools, power, water, appliances, labor and material for the construction and completion of the temporary inspection shed, in accordance with the specifications annexed to and made a part of the agreement, and as indicated on the contract drawings, all to the satisfaction of the engineer.

The following bids were received:

	In Accordance with P. S. C. Plans.	In Accordance with Contractor's Alternative Plan.
Terry & Tench Co., Inc.		\$17,500 00
Rapid Construction Co.	\$21,714 00	
Seventh Avenue Construction Co.	22,250 00	
D. C. Serber	24,300 00	23,400 00
D. C. Serber		23,000 00
D. C. Serber		22,100 00
Powers, Kennedy Construction Co.	24,480 00	22,480 00
W. L. Goeltz		28,580 00
Underpinning and Foundation Co.	30,036 00	

The alternative plan of the Terry & Tench Co., Inc., is for the substitution of Oregon fir, which it has in stock, for merchantable long-leaf yellow pine or spruce, called for in the contract. The substitution of fir for spruce or pine is in no way a detriment.

Being advised that the work to be performed is necessary and that, under the present market conditions the price bid by Terry & Tench Co., Inc., is reasonable, I recommend the adoption of the attached resolution approving the request.

Respectfully, LOUIS H. HAHLO, Deputy and Acting Comptroller.

On motion, Rule 19 was waived in this matter, and the following resolution was offered:

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended; the provisions of section 45 of the Greater New York Charter, and the requisition of the Public Service Commission for the First District, duly made by said Commission on August 8, 1918, the Board of Estimate and Apportionment does hereby consent to the contract proposed to be entered into between The City of New York, acting by the Commission, and Terry & Tench Company, Inc., for the construction of a temporary inspection shed on Section No. 2 of Route No. 16 (Jerome Avenue Line), of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, at an estimated cost of twenty thousand dollars (\$20,000); and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty thousand dollars (\$20,000); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate

stock of The City of New York to an amount not exceeding twenty thousand dollars (\$20,000), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of the contract with Terry & Tench Company, Inc., as set forth in this resolution, and more particularly described in the requisition of the Public Service Commission to this Board dated August 8, 1918; said issue of corporate stock to be charged as a sub-authorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board on March 18, 1913, and the supplemental general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under rapid transit Contract No. 3.

Which was adopted by the following vote:

August 31, 1918.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—On August 9, 1918, the Public Service Commission for the First District accepted, subject to the consent of the Board of Estimate and Apportionment, the bid of Powers, Kennedy Contracting Corporation for the construction of a temporary trestle in the vicinity of the Jerome Park Reservoir on Section No. 2 of Route No. 16 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The estimated cost of the contract is \$19,490, for which an appropriation of \$22,500 is requested, to provide for contingencies and extra work.

Contract No. 3 between The City of New York and the Interborough Rapid Transit Company, under chapter 111, Article VIII, provides for the construction by the City of necessary terminals, storage yards and shops. The construction of the permanent steel structure connecting the present elevated railroad on Jerome avenue with the proposed storage yard in the vicinity of the Jerome Park Reservoir has been postponed due to war conditions. It is therefore necessary to provide a temporary trestle over which cars may be taken to the inspection pits for overhauling.

Bids were asked for the construction of this trestle, with the understanding that bidders might submit an alternative plan which would, in the opinion of the engineer, satisfy all requirements.

The following bids were received:

Powers, Kennedy Contracting Corp.	\$19,490 00
Rodgers & Haggerty, Inc.	23,000 00
D. C. Serber—	
Proposition No. 1.....	23,500 00
Proposition No. 2	22,800 00

The plan of Powers, Kennedy Contracting Corporation substitutes heavy timber stringers for some of the steel beams on account of the difficulty in securing steel. This is in keeping with an amended plan on file in the office of the Commission, and in every way fulfills the requirements for strength.

Being advised that the work to be performed is necessary and that under present market conditions the price bid by Powers, Kennedy Contracting Corporation is reasonable, I recommend the adoption of the attached resolution approving the request. Respectfully, LOUIS H. HAHLO, Deputy and Acting Comptroller.

On motion, Rule 19 was waived in this matter and the following resolution was offered:

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty-two thousand five hundred dollars (\$22,500); and be it further

Miscellaneous, New York City; President, Borough of Richmond—Transfer of Appropriation (Cal. No. 9).

The Secretary presented a communication, dated July 30, 1918, from the Acting President, Borough of Richmond, herein; and the following report of the Deputy and Acting Comptroller:

September 6, 1918.

Board of Estimate and Apportionment, The City of New York:

Gentlemen—Under date of July 30, 1918, the President of the Borough of Richmond requested the Board of Estimate and Apportionment to provide certain additional moneys, viz.:

For Code 774, Forage and Veterinary Supplies, an additional sum of....	\$10,797 05
For Code 800, Shoeing and Boarding Horses, including Veterinary Service, an additional sum of.....	664 00

Concerning this request I would advise as follows:

Code 774.

The budget for 1918 contained an appropriation of \$20,500 for Forage and Veterinary Supplies. Due to the increased prices of forage, this amount has proven insufficient, the deliveries under contracts for the first eight months of the year having practically exhausted the whole appropriation. The list given hereunder shows the prices on which the budget allowance was based, compared with the prices actually paid for the period from January 1 to August 31, 1918:

	Unit.	Prices Estimated for Budget.	Prices Actually Paid.
Oats	Cwt.	\$2 58	\$3 80 and \$3 83
Hay	Cwt.	1 55	2 40 and 2 45
Straw	Cwt.	1 25	1 60 and 1 65
Bran	Cwt.	2 25	2 85 and 2 90
Oil Meal	Cwt.	3 50	3 75 and 4 00

At the present time there is an unexpended balance in Code 774 of \$32.60, and at the prices now quoted (which are slightly lower than for the first eight months of the year) the forage needed for the balance of the year and to give a margin of safety of 15 days at the close of the year will, it is estimated, cost \$10,722.50. The amount of \$10,689.90 is therefore needed in addition to the balance remaining in the account. It is important that this amount be provided immediately, as the forage delivered under the contracts expiring August 31 is practically exhausted.

Code 800.

The amount of \$664 will be required to meet the needs of the Bureau of Street Cleaning. The total appropriated in the 1918 budget for Shoeing and Boarding Horses, including Veterinary Service, in the Department of the President of the Borough of Richmond, was \$3,800. Of this amount \$2,500 was allotted to the Bureau of Street Cleaning and \$386.50 additional has since been given to that Bureau, which is all that can be made available therefor from Code 800. Due principally to the fact that it has been necessary to pay at the rate of \$2.50 per month per horse for shoeing, whereas it was estimated at the time the 1918 budget was prepared that the cost would be but \$1.60 per horse per month, the expenses for shoeing and veterinary service for this Bureau will exceed the amount provided. If the present number of horses is continued for the balance of the year, the 1918 cost will be approximately:

Shoeing	\$2,110 50
Veterinary service	1,440 00
	\$3,550 50
Deduct amount so far made available, as above explained	2,886 50

Additional amount required

From an examination of the accounts of the President of the Borough of Richmond it is evident that the amount of money required cannot be obtained by transfer within the accounts of that department. It is therefore recommended that the required sum be transferred from Code 3052, "Miscellaneous, Repairs and Replacements to Sidewalks," and I submit herewith a resolution which, if adopted by your Board, will effect this transfer. Yours very truly,

LOUIS H. HAHLO, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves the transfer of funds appropriated for the year 1918, as follows:

FROM		
<i>Miscellaneous, New York City.</i>		
3052 Repairs and Replacements to Sidewalks		\$11,353 90
TO		
<i>President of the Borough of Richmond.</i>		
774 Supplies, Forage and Veterinary Supplies		\$10,689 90
800 Transportation, Shoeing and Boarding Horses, including Veterinary Service		664 00

Board of Estimate and Apportionment—Report on Investigation of Prevailing Rate of Wages for Skilled Labor (Cal. No. 10).

(On May 17, 1918 (Cal. No. 34), this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated May 14, 1918, from the Labor League, and various communications from labor unions in Greater New York, herein; and the following report of the Committee on Salaries and Grades:

August 8, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—On May 14, 1918, the Labor League of New York City requested the appointment "of a sub-committee from the Board of Estimate and Apportionment for the purpose of ascertaining officially the prevailing rates of wages and conditions of labor existing in private employment in positions similar to those of the union men employed direct by the City." (No. 34, Calendar of May 17, 1918.)

The Committee on Salaries and Grades reports as follows:

On May 24, 1918, the matter was referred by the Committee to the Secretary of the Board for investigation and report.

At a conference with the Secretary of the Board, Mr. Peter J. Brady, Secretary of the Labor League, agreed to present a complete list of occupations in the skilled trades in private employ in Greater New York, certified by an official of the Labor League, with rates paid as of June 1, 1918.

Mr. Brady at once transmitted to the Secretary a printed copy of wage scales setting forth the prevailing rates paid in private employ in 75 trades and specialized occupations of the Building Trades, nearly one-half of which are not in City employ. The wage rates were accompanied by printed copies of agreements with employers in four occupations for the payment of rates set forth. None of the wage scales was certified to.

On May 28, 1918, the Secretary of the Board wrote Mr. Brady for a specific statement of prevailing rates in the skilled trades in Greater New York, to be certified by the Secretary or President of the Labor League.

The Secretary of the Labor League replied that the proper business officer of the Unions in Greater New York has been requested to forward to every head of department where union members were employed, to the Secretary of the Board, and to every member of the Board of Estimate and Apportionment, a copy of the wage scale and working conditions contract in each trade.

The result was that a large number of wage circulars and petitions for increase in rates poured in to the Secretary of the Board and other City officials mentioned above, the applicants evidently having been encouraged by the general invitation extended by the Secretary of the Labor League.

Included in the requests for increases sent in were the following in City employ: Blacksmith, Boilermaker, Bridgeman and Riveter, Bookbinder, Baker, Compositor, Elevator Constructor, Flagger, Housesmith, Machinist, Marble Setter, Painter and Specialties, Pressman, Press Feeder, Plasterer, Pattern Maker, Rigger, Ship Carpenter, Ship Caulker, Stone Mason, Stationary Engineer, Steam Roller Engineer, Upholsterer, Varnisher, Wheelwright, Asphalt Worker, Blacksmith's Helper, Elevator Constructor's Helper, Fireman, Oiler.

Following is a complete list of per diem men in the skilled trades in City employ with rates paid as of August 1, 1918, rates claimed as prevailing, and rates recommended to be paid:

*Mostly employed at per annum rates.

In the above tabulation no claim has been made for increases in rates in a number of the trades, and the rates now paid are enumerated, no change being recommended.

Investigation, however, shows that there have been increases in rates paid certain wage-earners, although no requests for increases in their wages have been presented.

For the information of this Board the following table is presented, showing the rates now paid by the City and the rates that appear to prevail in the trades referred to:

Trade.	Rate Now Paid By City.	Prevailing Rate.
Brass Finisher	\$4 00	\$4 50
Cable Splicer	4 80	6 00
Carriage Trimmer	4 50	5 00

While no formal request has been made to heads of departments by the above trades, it is quite probable that demands for increases will be made in the near future.

Investigation of requests presented by various trades to heads of Departments and to the Secretary of the Board showed rates paid in private employ as follows:

Machinists—Over 75 per cent. of the machinists skilled in all branches of the trade and recognized as first class are now receiving \$6 per diem. The rates for machinists who are specialists and not all around mechanics vary from 72½, 73 and 75 cents per hour or \$5.80, \$5.84 and \$6 per diem. There are many machinists who are paid a rate higher than \$6 per diem. The machinists employed by the City had to pass a civil Service examination in all branches of the trade, and a large majority of machinists of their class employed by private firms are paid the \$6 rate.

Painters—The prevailing rate for painters has been increased from \$5 to \$5.50 per diem. The increase is in accordance with agreement entered into between the Building Trades Employers Association, the General Contractors Association, the Association of Master Painters and the Brotherhood of Painters, Decorators and Paper Hangers and other associations representing employers and labor unions. Over 80 per cent. of the skilled and first class painters are now paid the \$5.50 rate. Painters, who receive a less rate, are, as a rule, handy men who are employed on rough work or on jobs where not much knowledge of painting or mixing paint is required. Nevertheless a large number of second and third class painters are receiving the \$5.50 rate. The painters employed by the City are skilled at their trade and had to pass a civil Service examination and qualify for all branches of the trade.

Varnishers—Prevailing rate is \$5.50 per diem and they are included in the painters group.

Stripers—Prevailing rate is \$5.50 per diem and they are included in the painters group.

Letterers—Prevailing rate is \$5.50 per diem and they are included in the painters group.

Grainers—Prevailing rate is \$5.50 per diem and they are included in the painters group.

Plasterers—The prevailing rate for plasterers is \$6 per diem. This rate is paid by firms and individuals employing a very large majority of plasterers. In fact there are very few plasterers receiving less than \$6 per diem.

Carpenters—The Carpenters employed in the office of the President of the Borough of Manhattan, are paid the prevailing rate of \$5.50 per diem. Carpenters employed in the office of the President of the Borough of The Bronx, are paid \$5 or 50 cents less per diem. The prevailing rate for Carpenters is now \$5.50 per diem throughout Greater New York. The \$5 rate until recently was effective in all boroughs, except Manhattan, where the \$5.50 rate has prevailed.

Compositors—The rate for Compositors has been increased from \$28 to \$30 and is the prevailing rate in the printing trade.

Pressmen—Pressmen are now receiving \$31 instead of \$29 per week. The higher rate prevails in the printing trade, and was fixed by agreement between employers and labor unions representing the trade.

Ship Carpenters—The United States Shipping Commission and Arbitration Board fixed the rate for ship carpenters employed on government contracts at 70 cents per hour, \$5.60 per diem for 8 hours a day's work. This rate now prevails throughout the trade and over 90 per cent. of ship carpenters are now receiving \$5.60 per diem.

Ship Caulkers—Prevailing rates the same as ship carpenters, \$5.60 per diem.

Elevator Constructors—Elevator Constructors are now receiving \$5.96 per diem. This rate prevails and is paid by all the elevator companies. The workmen employed by the City are repairers, but repairers receive the same rate paid to members of the trade who construct elevators. The City men are skilled in all branches of the trade.

Elevator Constructor's Helpers—The prevailing rate for Elevator Constructor's Helpers is now \$3.98 per diem and is the rate paid by elevator companies.

Firemen—Firemen employed by the City are now paid \$3.50 per diem. Firemen employed by private individuals and firms are paid \$26 and \$27 per week for six days. The members of the General Contractors' Association are paying \$27 per week and the work is not continuous. The Firemen's Local Union request that Firemen employed by City be paid \$26 for 6 days work a week. It is recommended that \$4 per diem or \$28 a week for seven days' work be allowed for Firemen.

Oilers—The rate in private employ for Oilers is the same as that for Firemen. The request is that the oilers be paid at the same rate, \$26 per week. The \$4 per diem rate is recommended for Oilers.

Pattern Makers—The rate for Pattern Makers has been increased to 85 cents per hour or \$6.80 per diem for 8 hours, a day's work. The City is now paying \$5 per diem. The \$6.80 rate is paid to Pattern Makers who are the highest skilled in their trade and whose employment is generally on temporary work. The Pattern Makers employed by the City are first class workmen and are regularly employed. The prevailing rate for Pattern Makers of the same class and who are regularly employed is \$6 per diem, although many Pattern Makers are steadily employed at a higher rate. It is also a fact that there are members at the trade who receive less than \$6 per diem. The City men would seem to be entitled to \$6 per diem.

Blacksmiths—The City rate for Blacksmiths is \$5 per day. The request is for \$6.50 per day. There are several branches of this trade and the wages run from \$4.50, \$5, \$5.50, \$6 and \$6.50 per diem. The prevailing rate for Blacksmiths employed in the same kind of work as those employed by City is \$5.50 per diem. The higher rates are paid to Blacksmiths employed on building operations. The City work is chiefly of a repair character.

Blacksmith's Helpers—The prevailing rate is now \$4 per diem, an increase from the \$3.50 rate paid by City. The request is for \$4.50 per diem. The latter rate is only paid to those who are helpers to the highest paid Blacksmiths on building construction work.

Stationary Engineers—The City is now paying \$5 per day for Stationary Engineers. The prevailing rate for men of this trade in private employ is the \$5 rate. The Stationary Engineers who are receiving a higher rate in private employ are Compressor and Hoisting Engineers. The City rate for Pile Driving and Steam Roller Engineers is \$6 per diem.

Bakers—The City employs Bakers at rates as follows: Foreman Baker, \$1,380, without maintenance; Head Baker, \$1,260, without maintenance; 1 Baker, \$1,200, without maintenance; 6 Bakers, \$1,140, without maintenance; 2 Bakers, \$1,080 without maintenance.

The prevailing rates for Bakers and which are now paid to over 75 per cent. of the Bakers are as follows:

Foremen, \$35 per week; Bench Workmen, \$6.50 per day, broken time; Oven Men, \$7.50 per day, broken time; Oven Men, \$27 per week, regular work.

The prevailing rate for journeymen Bakers is \$27 per week. This rate is paid throughout the Greater City and is the result of agreement between the boss bakers and the Baker's local union. At a per diem rate it amounts to \$4.50 for 6 days a week, 8 hours a day.

Inasmuch as the Bakers employed by the City are on an annual salary basis, the following per annum rates are recommended for 1919 to meet the prevailing rates: Foreman Baker, \$1,800, without maintenance; Head Baker, \$1,440, without maintenance; Bakers, \$1,380, without maintenance.

The Foreman Baker has charge of the Blackwell's Island Bakery but he also is supervisor over all the bakeries and bread making under the jurisdiction of the Department of Public Charities. Besides 10 paid employees, the Foreman Bakers supervise the work of 40 inmates employed as Laborers at the bakery. The Bakers employed at Blackwell's Island are Oven men, the highest type of Bakers and investigation shows that they are entitled to the prevailing rate of \$27 a week in so far as it can be paid on an annual salary basis.

The Head Baker at \$1,260 is employed at Kings County Hospital, where 2 Bakers are under him.

Bookbinder—Bookbinders' Local Union 1-3 has requested an increase in rate for Bookbinders, to be effective in the Budget for 1919. Employees in this craft are paid on a per annum basis. In private employ the rates prevailing for extra forwarders and coverers and extra finishers, the two branches of the trade combined in the services of those in City employ, are \$28 and \$32 a week. A fair per annum equivalent of the weekly rates would be \$1,500 per annum, which the Bookbinders request, an increase from \$1,260 per annum. The rate of \$1,500 per annum for Bookbinders is therefore recommended for 1919.

Letterers and Sign Painters in a communication request a \$6 rate. Previous to January 1, 1917, Painters received \$4 per diem, and Decorators, Letterers and other specialists \$4.50. In securing the present rate of \$5 per diem the Painters' Union insisted that all distinctions be eliminated. In recommending a uniform rate of \$5.50 all specialists in painting are therefore now included.

This Board has during the past 20 months approved increases in wages for the large majority of members of the organized trades in City employ. It is desirable to proceed with the business of the Board in an orderly manner. Requests for this purpose regularly presented through heads of departments will receive due consideration by this Board.

The Committee recommends the adoption of the attached resolution.
ALFRED E. SMITH, President, Board of Aldermen; M. F. LOUGHMAN, Acting President, Borough of Manhattan; EDWARD RIEGELMANN, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Each bid must be accompanied by a certified check on a solvent banking corporation in The City of New York, payable to the order of the Comptroller of The City of New York for five (5) per centum of the amount for which the work bid for is proposed in any one year to be performed.

The check must not be enclosed in the envelope containing the bid, but must be delivered separately in another sealed envelope.

The amount of security required for the faithful performance of the contract is Two Hundred Thousand Dollars (\$200,000).

In addition, a special deposit of Fifty Thousand Dollars (\$50,000) in cash or in corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value, shall be deposited with the Comptroller of The City of New York before the signing and delivery of the contract. This amount, or the unencumbered and unexpended portion thereof, will be returned to the Contractor in installments as set forth in the contract.

Each bidder shall furnish with his bid a statement showing a complete description of the methods to be used by him in performing the work required to be done under this contract, with specifications setting forth such methods in detail, and containing a reference to any patent or patent rights, or patented articles intended to be used by him. In the comparison to ascertain the lowest bid the following method will be used. Multiply the price or sum bid per cartload for ashes and street sweepings by the total number of standard cartloads as shown in the table for 1917 in the "Information for Bidders" (1,059,235); multiply the price or sum bid per cartload for rubbish by the total number of standard cartloads as shown in the said table (180,572); and add these two results.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, or purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant, free for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as early together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises without the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days

from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon come vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The right is reserved in each case to reject all bids if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids in addition to inserting the same in figures.

Bidders are requested to make their bids upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done or the supplies are to be furnished.
