POLICE DEPARTMENT.

REPORT FOR THE QUARTER ENDING SEPTEMBER 30, 1907.

New York, October 3, 1907.

His Honor the Mayor, City Hall, New York City:

Sir—As required by section 1544 of the Greater New York Charter, I have the honor to submit the following report for the quarter ending September 30, 1907:

On September 30, the total Force was 9,392. In addition there were on probation, 2 Surgeons, 37 Patrolmen and 4 Doormen. The effective Force on September 30, was 8,400; absent without leave, 259; sick, 184; suspended, 8; absent without leave, 1 Sergeant; detailed, 540.

During the last quarter the losses in the several ranks were as follows: Retired—Surgeon, 1; Captains, 2; Lieutenants, 12; Sergeants, 3; Patrolmen, 32; Doormen, 3, making a total in all ranks of 53. Died—Inspector, 1; Surgeon, 1; Lieutenants, 4; Sergeants, 1; Patrolmen, 15; Doormen, 2, making a total in all ranks of 24.

During the quarter 21 Patrolmen were dismissed and 12 Patrolmen resigned. There was a widespread strike of meat wagon drivers during the month of August. The efforts of the Police resulted in extremely little violence.

The strike of the telegraph employees which began during the quarter has also, so far, been successfully handled with almost entire absence of disorder.

The Fourth of July passed without undue troubles. In this connection, attention is called to the fact that the sale of explosives was not permitted by the Fire Department to begin until the 25th of June. In spite of all efforts to the contrary, however, there was a good deal of noise from explosives before the Fourth of July. It is suggested that the sale of explosives should not be permitted until after the first day of July. This leaves quite sufficient time for the sale of "trouble" for the citizens of New York, and would, to a certain extent, limit the nuisance which the firecracker dealers and the small boys between them give the rest of the City. There were 1,238 arrests of all kinds on the Fourth, which is about double the record of previous years. Over 500 revolvers were confiscated on this day.

The estimates of the Police Department for 1908 were forwarded on July 15, in a carefully itemized budget.

On July 31, after trial, it was found necessary to dismiss a man from the Police Force for cowardice; the first time, I am informed, that such a necessity has arisen for nearly thirty years.

It was found possible, at last, to divide the old Nineteenth Precinct into two. This precinct was formerly bounded by Fourteenth street and Forty-second street, by Seventh avenue on the west, and by Fourth and Park avenues on the east. This district has required special police attention for years. It has been divided along Twenty-seventh street, the lower half being called the Nineteenth Precinct, and the upper half being designated as the Twenty-third Precinct. The station house of the new Nineteenth Precinct is at No. 120 West Twentieth street. The new arrangement will greatly facilitate the work of the Department in that section of the City.

A new plan in police work went into effect by the establishment of a night court by the City Magistrates on August 1. This court should be effective in

the prompt arraignment and settlement of a certain class of cases and also in the breaking up of professional bondsmen.

On the 1st of September the new law went into effect, permitting the destruction of weapons taken in criminal cases instead of their sale at auction. Over four thousand weapons have been destroyed under the personal direction of the Police Commissioner.

The question of the use of dogs in police work, both for trailing and for patrol, has been under consideration and study. It is hoped before long to arrive at definite conclusions one way or the other.

The Primary elections took place September 24. Special care was taken by the Police Commissioner to insure the rights of citizens and the suppression of violence.

A blackmail murder occurred during the quarter in the Armenian colony. This Department was active but greatly hampered in obtaining arrests by the fear of the Armenians themselves. The difficulty of obtaining information was aggravated by the lack in the Detective Bureau of men who could speak the language. These facts emphasize what I have represented to your Honor before, namely: That the work of the Detective Bureau cannot be what it should be until it is organized on business principles. The Police Commissioner must have a civilian branch composed of experts of all nationalities who are not known to the foreign criminal population as members of the regular Force are.

There was a good deal of excitement during the quarter from a so-called crime wave. This excitement was mostly due to exaggerations by the yellow journals. There was, it is true, a good deal of crime, particularly assaults on women and children, and it was found very difficult to catch the criminals, but investigation has shown that the actual number of cases reported did not really exceed the average of past years. This phase of crime has, however, received particular attention and the Department hopes to be in position next year to reduce it considerably.

The details of Policemen to various summer resorts were made as usual, but the normal distribution of the men is again in force. The police work at Coney Island during the past summer was particularly good, and in consequence the Captain of that precinct has been promoted to replace Inspector Nally who died August 19, 1907.

A year and a half ago careful calculations showed that the Police Force should be increased by 2,000 men. This number was asked for in the Budget for 1907, and an increase of six hundred and seven (607) men was granted who are now on the Force. In the Budget for 1908 I have asked for the balance of fourteen hundred (1400) more Patrolmen to be added to the Force.

The necessity for these men has been elaborately represented to the Board of Estimate and the Board of Aldermen in reports and letters which are on file. The draft on the Force during the summer for the summer resorts, and the peculiar conditions of crime during the summer, made the necessity for an increase especially apparent, and it was deemed necessary to ask for an immediate increase of five hundred (500) Patrolmen. This application is still pending.

As it takes several months after the money has been appropriated before the men can be instructed and enrolled, I again earnestly urge not only the immediate authorization of five hundred (500) more men, but the further authorization of nine hundred (900) more in the Budget for 1908.

During the last quarter a particularly vicious attack was made on my First Deputy. His accusers were given every opportunity to make good their accusations and they failed utterly. As a result of this "mix-up" the First Deputy Commissioner at my instigation laid all the facts in his possession before the Grand Jury of Kings County. The result was that his accusers were indicted for perjury.

On July 24, Mr. Arthur Woods was appointed Fourth Deputy Police Commissioner and placed in charge of the Detective Bureau and Bureau of Repairs and Supplies. Previous to his appointment he had, at his own expense, studied the methods of the English and other foreign police forces.

The endeavor of the Department is to lay the foundation for a new Detective Bureau on broad foundations and to build up a Force which shall be truly effective and not be dependent upon a partnership with crime in order to produce results. The work of the Detective Bureau during the quarter has proved large in quantity and excellent in quality, and the effort of the Department in this direction simply needs the support of the citizens to become what the citizens desire it should be.

It is interesting and instructive to compare the work of the Detective Bureau of to-day with the work this Bureau accomplished in years gone by. Take, for instance, the years of 1890, 1891 and 1892, when former Superintendent Byrnes was at the head of this Bureau. The following table shows the number of arrests during these three years and the number of convictions:

Year.	Arrests.	Convictions.
1890	1,339	325
1891	1,392	368
1892	1,374	234

Compare these arrests and convictions with the third quarter of 1907, that is from July 1, to September 30. During these three months there were 2,559 arrests and 498 convictions. In other words, over a thousand more arrests were made during these three months than in the full year of either 1890, 1891 or 1892.

While the number of arrests alone is not a good standard by which to gauge the value of the work of this Bureau, the number and percentage of convictions is. A similar comparison of convictions is over 33 per cent. greater than in the twelve months of 1891, and over 100 per cent. greater than in the twelve months of 1892.*

The following table compares the third quarter of 1907 with the third quarter of 1905, when the Detective Bureau was in charge of Captain O'Brien, and the third quarter of 1906, when the Bureau was in charge of Former Inspector McLaughlin:

Third Quarter.	Arrests.	Convictions.
1905	1,049	148
1906	1,976	214
1907	2,559	498

As to the total number of years of sentences for the same quarters of 1905, 1906 and 1907, see the following table:

	Fines.
1905..... 344 years, 7 months, 26 days.....	\$38 00
1906..... 256 years, 11 months, 3 days.....	794 00
1907..... 554 years, 4 months, 25 days.....	1,222 00

*In 1890, 1891 and 1892, The City of New York covered the present Borough of Manhattan and the greater part of the present Borough of The Bronx.

A still further comparison of the amount of stolen property recovered during the third quarters of 1905, 1906 and 1907 follows:

	Value.
1905	\$66,223 93
1906	49,892 22
1907	75,024 86

Considerable other work has been accomplished in the Detective Bureau, which is of the utmost importance. For instance, there are nearly 15,000 rogues' gallery pictures. These pictures have been classified by the crimes that criminals are known to commit. Previous to the classification of these pictures a person looking for a dishonest negro servant would have to look at thousands of pictures before finding the one that he was searching for. Now, the negroes, both men and women, are in separate galleries. Pickpockets are in one gallery, burglars in another, etc., making it easier for complainants to find the persons they are after. Classifying these pictures was an immense task, for the numerous aliases of each criminal had to be card indexed also.

Since September 1 it has been possible to learn in a few minutes how many crimes and what kind of crimes the Detective Bureau has handled in a given time, along with the dispositions and the progress made on each particular complaint. A system has been instituted whereby every case assigned to a Detective is recorded. Until this system was instituted there was no way of telling whether a Detective was working on a case or whether it had simply been allowed to drop.

The Bureau also has made arrangements, with the courteous co-operation of the Board of Coroners, to have a finger print expert at the scene of crimes of violence promptly, so that he may search the body and surroundings for tell-tale finger marks before any one else has been on the scene.

The new vagrancy law passed last winter has in practice proved of very slight help to the Police Department. It requires that three things be proved against the suspect: first, that he was more than once convicted as a thief, pickpocket or burglar; secondly, that he has no visible means of support; and third, that he was loitering in a public place. These three points are very difficult to establish in court against a suspect, especially if the Magistrates require as evidence of the two previous convictions that some officer appear before them and swear that he was present at a previous conviction.

BOROUGH OF THE BRONX.

MINUTES OF THE LOCAL BOARD OF CHESTER, TWENTY-FIFTH DISTRICT.

Pursuant to call by President Haffen, the members of the Local Board of Chester, Twenty-fifth District, met in the office of the President of the Borough of The Bronx on Thursday, October 10, 1907, at 4 p. m.

Present—Alderman Dinwoodie, Alderman Mulligan and the President of the Borough of The Bronx.

Minutes of previous meeting adopted as printed.

Petitions Nos. 363 and 365.

In the matter of opening and extending Williamsbridge road from West Farms road to Silver street, and Silver street from West Farms road to Williamsbridge road.

The foregoing were referred back to the President of the Borough of The Bronx by the Board of Estimate and Apportionment at its meeting on September 27, 1907. See letter dated October 1, 1907, from Secretary Joseph Haag.

The matter of Silver street was taken up first by the Local Board at this meeting.

Mr. Charles F. Wille appeared and stated there were two reasons why opposition developed to the petition in favor. One was that the street was a residential one and that its present width was sufficient, as there was no business carried on along it, through its entire length, and that the owners thought it was wide enough for years to come. The principal reason property owners opposed the present proceeding was that they believed that if the street was widened at the width as laid out it would result in the destruction of a number of large trees, some of which were sixty years old, and to destroy them would be inexcusable. He believed that there was no need of putting owners to this expense at this time. Later on Mr. Wille stated that probably the owners would not oppose the opening if they were assured that the trees would not be disturbed.

Mr. Timothy Power also appeared in favor of having the resolution rescinded as adopted by Local Board.

Chief Engineer Briggs stated to the Board that this street was necessary for the construction of sewers.

Mr. H. Mapes appeared in opposition to the proposed proceedings for acquiring title to Silver street, as laid out on map, and stated that the street, if widened, would not be of much benefit to owners.

Laid over, and Chief Engineer directed to have survey made of this street, and report with entire facts as to present conditions on this street, and inform Board whether there would be any interference with trees if street is opened as laid out on map.

Williamsbridge Road, Acquiring Title, From West Farms Road to Silver Street.

Protest by Thos. C. Arnow, John Murphy, Michael J. Cooney and about fifty-five other property owners and residents on Williamsbridge road. Duplicate protest signed by John H. Nichols, Ed. E. Miller, Owen F. Dolen and eighteen other property owners and residents of Williamsbridge road. Also protest signed by Timothy Power, Louis Olsen, James J. Smith and thirteen others. (In re Silver street.)

The protests referred to above stated:

"The Williamsbridge road is one of the oldest roads in this section, and is about two and one-half miles long, and extends from West Farms road at Westchester Village to White Plains avenue at Williamsbridge. The part to be taken under this proceeding is in the Village of Westchester and is about one thousand feet in length, which is the business section of the road, improved with large and expensive buildings, while the remaining portion of the Williamsbridge road is vacant property. The widening of this valuable section would make the assessment within this proposed area very heavy and unjust, while if the entire road was opened the full length the expense of acquiring title to the business section of this road would then be levied upon the entire length, and not fall, as under this proceeding, upon this small section.

"If the Williamsbridge road is to be opened, let it be opened its full length to White Plains avenue."

The following gentlemen appeared in opposition to petition No. 363; Mr. Owen F. Dolen, Mr. Thos. Arnow, Wm. M. Fleischmann, Frank Reckert, H. C. Mapes.

Laid over until November 14, 1907, and Chief Engineer requested to furnish report and have street surveyed.

In the Matter of the Proposed Widening and Extension of Avenue C (Castle Hill Avenue).

The Secretary presented, for the consideration of the Commission, the application of Miss Josephine S. Pratt for the position of Laboratory Assistant, which was not filed before the closing date for the receipt of such applications owing to the delay of one of the Clerks in the office of the Commission in mailing an application blank to the candidate in compliance with her written request. In view of the facts in the case, the application was accepted as of the date upon which the candidate first applied for entrance to the examination.

John Lynch, of No. 39 Sumpter street, Brooklyn, then appeared before the Commission, in accordance with its direction, to show cause why his name should not be removed from the eligible list of Patrolman by reason of his having failed to explain why different dates of birth were given by him in his examination papers. The candidate submitted a certificate of baptism to the Commission, with the statement that he had written to Ireland for the same as soon as he was notified of the discrepancy in his papers, and that it had just been received. The explanation being satisfactory to the Commission, and it appearing that there was no intent to practice any deception or fraud, the certificate was accepted and the candidate was directed to correct the date of birth given in his papers where in error.

A report was presented from Mr. Rafferty, Examiner, dated September 21, submitting the application of August Dahle, candidate for Fireman, properly filled out in his own handwriting; also his affidavit setting forth the facts as to the handwriting in the original application filed by him, in accordance with the directions of the Commission. AT THE REQUEST OF THE PRESIDENT of the Borough of The Bronx, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction all the buildings, parts of buildings, etc., now standing upon property owned by The City of New York, acquired for a bridge approach, located in the

Borough of The Bronx.

(1) Being the buildings in what is known as Parcel A of the easterly approach to the City Island Bridge, in the Twenty-fourth Ward.

(2) Being the buildings lying within the lines of Main street, City Island, and the approach of the City Island Bridge to Long Island Sound.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held October 9, 1907, the sale of the above-described buildings and appurtenances thereto will be held by the direction of the Comptroller on

MONDAY, NOVEMBER 4, 1907,

at 1 p. m., on the premises.

For further particulars regarding the description of the above-described properties see maps on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The sales of the above buildings will be held on the following

TERMS AND CONDITIONS.

It being understood that the purchasers at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for each and every day the removal of the buildings, etc., remains incomplete after the expiration of sixty days from the day of sale. A copy of the contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale and contract. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security deposited. This security must be deposited within forty-eight hours after the sale, and may at any time after the expiration of the contract period be applied by the City to the cost of completing any work required under the contract, but unfinished at the expiration of the contract period.

All the buildings, structures and parts thereof, their fixtures and foundations, of every class and description, within the described area, are to be torn down to the existing curb level, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls, shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studs, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

The purchaser at the sale shall also shut off and cap all water pipes at the main pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings or appurtenances, or any portion thereof, within sixty days from the day of sale, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will without notice to the purchaser, cause the same to be removed, and the costs and expenses thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they, or any of them, be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids.

BOARD OF ESTIMATE AND APPORTIONMENT.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held April 12, 1907, the following petition was received:

No. 15 Gramercy Park, }

New York, April 2, 1907. }

The Honorable Board of Estimate and Apportionment of The City of New York:

Gentlemen—On the 9th day of November, 1906, your Honorable Board adopted a resolution consenting to an extension of the time, up to and including May 1, 1907, for this company to comply with the provisions of section 2, articles 3 and 22, of the franchise granted by your Board to this company, to install a system of refrigerating pipes at Coney Island, which articles, respectively, provide for the payment of \$5,000 on account of the purchase price of said franchise, and a deposit of \$5,000 as security for the performance of the contract. A further extension of time within which to comply with the requirements referred to has become necessary owing to the well known fact that during the past ten months the conditions in the money market have been such that it has been practically impossible for any industrial enterprise to secure capital, however promising its prospects might be. We have worked in perfect good faith in the matter, but as the time has now gone by in which the necessary preparations could be made for the coming summer season, we would respectfully petition that your

Honorable Board may grant our company a further extension of time until May 1, 1908, as we have devoted considerable time and money to the furtherance of our plans thus far.

In this connection we may state that our efforts to secure capital have been somewhat embarrassed by the fact that capitalists whom we have hoped to enlist in this enterprise have naturally made inquiries as to the working and prospects of similar pipe lines in this neighborhood, and their investigations lead them to the belief that the matter of refrigeration by means of pipe lines is so comparatively new that they do not feel justified in putting capital into it, in view, also, of the shortness of the Coney Island season, unless it is possible to secure some modifications in the terms of our franchise.

It is true that it is a new industry, and that the last ten years have cost the few lines in the United States so much in experiment that even the most fortunate has hardly more than thoroughly established itself up to the present time. We believe, however, that the pipe line has come to stay, that the experimental period of its existence is practically over, that it can now be made a public benefit, and if your Honorable Board will grant us such extension of time, and such modification of terms as may seem, under the circumstances, just and reasonable, there will be no relaxation of our efforts to make good our part of the contract and have the pipe line in proper working order for the season of 1908.

Very respectfully,
SEABOARD REFRIGERATION COMPANY,

By **CHARLES E. BOOTH,** President.

—and at a meeting held September 20, 1907, the following resolutions were adopted:

Whereas, The foregoing petition from the Seaboard Refrigeration Company, dated April 2, 1907, was presented to the Board of Estimate and Apportionment at a meeting held April 12, 1907.

Resolved, That in pursuance of law, this Board sets Friday, the 1st day of November, 1907, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the City Record, immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
