PROPOSED COMMISSION RESOLUTION CONCERNING USE OF VIDEOCONFERENCING TO CONDUCT COMMISSION MEETINGS

IN THE MATTER OF a resolution to authorize the use of videoconferencing to conduct City Planning Commission meetings, as authorized by and in conformance with amendments to the New York State Open Meetings Law, Part WW of Chapter 56 of the Laws of 2022.

Proposed Resolution:

RESOLVED, by the City Planning Commission, that the use of videoconferencing to conduct Commission meetings is hereby authorized in conformance with the requirements of the New York State Open Meetings Law, including the following:

1. For all Commission meetings, a minimum of seven Commissioners, sufficient to constitute a quorum of the Commission, shall be present in a physical location or locations where the public can attend in person; and
2. If a quorum of Commissioners is physically present at a Commission meeting where the public can attend in person, a Commissioner may attend and participate in a Commission meeting by videoconference from any location and without providing access to members of the public to such location if such Commissioner is unable to attend the meeting in person due to extraordinary circumstances, which include but are not limited to, disability, illness, caregiving responsibilities, or any other significant or unexpected event which precludes the Commissioner's physical attendance at the meeting; and
3. Members of the public may view Commission meetings by video and may attend and, where public comment is authorized, participate in Commission meetings in person, by videoconference, or by any other remote means established by the Commission; and
4. The procedures for remote participation and attendance by the Commission and members of the public shall be posted on the Commission's website;

RESOLVED, that this Resolution shall take effect on June 9, 2022.

“Compete To Win” More Contracts!

Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- *Win More Contracts, at nyc.gov/competetowin*

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City's PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed, at https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS Accelerator Prequalification and PASSPort, including background materials, user guides and video tutorials, please visit https://www1.nyc.gov/site/mocs/systems/about-go-to-passport.page.

RESILIENCY PROGRAM JOB ORDER CONTRACT, GENERAL, BROOKLYN - Renewal - PIN#82620B8272KXLR001 - AMT:

\$1,000,000.00 - TO: Biltwel General Contracting Corp, 31 Mary Pitkin Path, Shoreham, NY 11786.

The work under this contract, is for General Construction Work under a series of small to medium size construction projects at the following Bureau of Wastewater Treatment (BWT) facilities: Bowery Bay WWTP, Owls Head WWTP, Red Hook WWTP, 37th Avenue PS, and Sapphire Street PS. In addition to large capital construction projects, BEDC has an ongoing need to accomplish smaller, straightforward construction projects at its facilities. Without Job Order Contracts, for each such project, BEDC must prepare complete contract documents and execute

the required steps through the competitive bid process. Procuring the construction through this traditional design-bid-build process takes considerable time. Many of the projects are essential to maintain the operation of BWT facilities. The work will incorporate adaptation strategies aimed at making the sites more resilient in extreme weather conditions. As part of its commitment to planning for climate change and the impacts of extreme weather, DEP established its Wastewater Resiliency Program (the Program) targeted at hardening Wastewater Treatment Plants (WWTP), selected Pumping Stations (PS) and other facilities across the City. Construction of the projects will utilize Job Order Contract contractors.

NOTICE IS HEREBY GIVEN that a Contract Public Hearing will be held on Wednesday, June 8, 2022, at 10:00 A.M. The Public Hearing will be held via Conference Call. Call-in #: 1-917-410-4077, ACCESS CODE: 610 622 184 #.

IN THE MATTER OF a proposed Purchase Order/Contract between the New York City Department of Information Technology and Mola Group Corporation located at 450 Park Avenue, 3rd Floor, New York, NY 10016, for a MWBE 7-858-0094A - NYC3 Azure IAM and MFA Engineer - SP2. The maximum amount of this Purchase Order/Contract will be \$456,750.00. The term will be two years from 04/18/2022 through 04/16/2024. PIN #: 20220201340, E-PIN #: 85822W0073001.

The Vendor has been selected by M/WBE Noncompetitive Small Purchase Method, pursuant to Section 3-08 (c)(1)(iv) of the Procurement Policy Board Rules. Pursuant to Section 2-11(c)(3) of the Procurement Policy Board Rules, if DoITT does not receive, by June 1,

2022, from any individual a written request to speak at this hearing, then DoITT need not conduct this hearing. Written notice should be sent to Mark Polyak, via email to mpolyak@doitt.nyc.gov.

Pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, CEQR Rules of Procedure of 1991 and the regulations of Article 8 of the State Environmental Conservation Law, State Environmental Quality Review Act (SEQRA) as found in 6 NYCRR Part 617, a Draft Environmental Impact Statement (DEIS) has been prepared for the action described below. The proposal involves an action by the New York City Planning Commission and Council of the City of New York that is subject to review under Section 200 of the City Charter and the CEQR process. Copies of the DEIS are available for public inspection at the office of the undersigned as well as via the Innovative Urban Village project page on ZAP: <https://zap.planning.nyc.gov/projects/2019K0038>. To view the Innovative Urban Village DEIS and Appendix, navigate to the project page in ZAP and select Public Documents, then "DEIS 20DCP057K". The proposal involves actions by the City Planning Commission (CPC) and the New York City Council pursuant to Uniform Land Use Review Procedure (ULURP). A public hearing on the DEIS will be held at a later date to be announced, in conjunction with the CPC's citywide public hearing pursuant to ULURP. Advance notice will be given of the time and place of the hearing. Written comments on the DEIS are requested and would be received and considered by the Lead Agency until the 10th calendar day following the close of the public hearing.

The Applicant, Innovative Urban Living, LLC, is seeking discretionary approvals from the CPC to facilitate the proposed large-scale development of a site located on Brooklyn Block 4430, Lot 1; and Block 4434, Lots 1 and 10 in the East New York neighborhood of Brooklyn, Community District 5 (the Development Site). These approvals include a zoning map amendment that would apply to the entire Project Area, which in addition to the Development Site includes de minimis portions of the north side of Block 4434, Lot 60 and Block 4431, Lots 70 and 100, and extends to the centerlines of Flatlands Avenue, Louisiana Avenue and Pennsylvania Avenue. Additional approvals include zoning text amendments to establish the Project Area as a Mandatory Inclusionary Housing (MIH) area and to expand the boundary of the Transit Zone to include the Rezoning Area, a large-scale general development special permit, and a special permit for a public parking garage (the Proposed Actions). A portion of the site is currently occupied by the 92,784-gross-square-foot (gsf) Christian Cultural Center (CCC) facility, which would remain on the site as part of the project.

The Proposed Actions would facilitate the development of a mixed-use, purpose-built development on the site of the CCC, which would be comprised of income-based affordable housing; a Performing Arts Center (PAC); a grocery store; local retail; new publicly accessible open space; and a variety of community facilities targeted to the civic, economic, educational, and cultural needs of the East New York neighborhood (the Proposed Project). Overall, the Proposed Project would include a total approximate 2,200,538-gsf development to be constructed in phases over a planned 10-year period, with ten buildings ranging from two to 15 stories. The proposed building program for the

site would include approximately 1,645,820 gsf of residential space accommodating approximately 2,050 residential units; approximately 100,904 gsf of community facility space, including general community facility space to include a day care (approximately 12,320 gsf), other community facility uses such as a senior center or medical clinic (approximately 9,900 gsf), and the existing CCC facility (78,684 gsf); approximately 110,570 gsf of commercial space that includes a grocery store (approximately 14,300 gsf) and local retail space (approximately 65,670 gsf), a trade school (approximately 14,100 gsf) to be located in one wing of the existing CCC building (thereby reclassifying approximately 14,100 gsf of existing community facility space to commercial space) and a PAC (approximately 16,500 gsf); and approximately 343,244 gsf of parking, including 145,684 gsf of below grade parking and a 197,560-gsf public parking garage that would accommodate accessory parking for the retail and community facility uses.

The Applicant intends to develop a total of approximately 2,050 income-based residential units, including approximately 200 units of affordable senior or supportive housing and up to 100 residential units offering affordable home ownership opportunities, including affordable condominiums and approximately 30 maisonettes under affordable homeownership that would be within four of the residential buildings. The Proposed Project would also include approximately 84,950 square feet (sf) of publicly accessible passive open space, approximately 36,000 sf of private passive open space, and approximately 29,400 sf of private active open space.

The Development Site is currently improved with the one-story (with mezzanine), 92,784-gsf CCC—a large, non-denominational house of worship constructed in 1997. Situated on the western portion of the Development Site and surrounded by a surface parking lot containing approximately 385 striped accessory parking spaces, the CCC has a footprint of approximately 56,050 sf and is set back approximately 90 feet, 6 inches from Louisiana Avenue at its closest point and 129 feet from Flatlands Avenue. It is accessed via a curb cut along Flatlands Avenue immediately opposite of Alabama Avenue and via two existing curbs cuts along Louisiana Avenue. The eastern portion of the Development Site is unimproved land, serving as a location for overflow parking during church services and other events at the CCC and otherwise not used.

In order to accomplish the Proposed Project, the Applicant is requesting the following zoning actions:

1. A zoning map amendment to change the existing R5 district within the Project Area to an R7-2 district with a C2-4 commercial overlay. The existing R5 zoning does not allow for commercial uses, limiting possibilities for local retail and economic opportunity for small business owners. The C2-4 commercial overlay would address this need by allowing for a range of commercial uses at the Development Site, including a grocery store and local retail to serve residents of the Proposed Development and the surrounding neighborhoods. In addition, the R5 zoning does not allow for sufficient density to create the integrated residential, local retail, and community facility development at the proposed affordable income levels envisioned for the Development Site. The rezoning from an R5 district to an R7-2 district would allow for an increase in the development potential in the Development Site from 1.25 FAR for residential to 4.6 FAR in an MIH district, and from 2.0 for community facility use to 6.5 FAR. The Proposed Development contemplates an FAR of 4.29 including the parking garage, and floor area allowed by the R7-2 zoning aligns with the Proposed Development in a manner appropriate to the area.

The Applicant is seeking two zoning text amendments:

2. An amendment to Appendix F of the Zoning Resolution (ZR) (Inclusionary Housing Designated Areas and Mandatory Inclusionary Housing Areas) to establish the Project Area as an MIH area, Option 1.
3. An amendment to Appendix I of the ZR (Transit Zone) to expand the boundary of the existing Transit Zone that is currently mapped north of Flatlands Avenue to include the Project Area.

The Applicant is seeking two special permits:

4. A special permit pursuant to ZR 74-743(a)(2) to locate buildings within a large-scale general development without regard to yard, distance between buildings, and height and setback regulations to allow for the centralized community-centered core and street-oriented residential buildings envisioned by the Proposed Project.
5. A special permit pursuant to ZR 74-512 to permit a public parking garage with more than 150 spaces some of which would be located on the roof of the public parking garage during periods of peak parking demand for the church (Sundays and Tuesday evenings). This special permit would allow for a public parking garage that would be a sufficient size to serve the congregants of the CCC, visitors to the PAC and other community facility and commercial uses that are part of the Proposed Project and would consolidate the existing surface parking into an enclosed facility allowing for

the productive use of the Development Site for the Proposed Project.

The Applicant also intends to seek public funds and/or financing from various City and New York State agencies and/or programs related to affordable housing development. The discretionary CPC actions listed above, along with the discretionary public funds that may be sought by the Applicant, are collectively referred to as the Proposed Actions.

The Proposed Actions are being requested to allow the bulk, uses, and density required to meet the Applicant's goals for the Proposed Project. As detailed above, the Project Area is located within an area densely developed with affordable housing. To the east and south, the Spring Creek Towers/Starrett City and Vandalia Avenue housing complexes are made up of 10- to 20-story towers, while the Breukelen Houses to the northwest are three to seven stories in height. Across Flatlands Avenue and Louisiana Avenue are low-rise industrial and commercial businesses. The CCC is located in the northwest corner of the Development Site, however the site overall is underutilized, and is otherwise occupied by paved and unpaved parking. The Development Site's existing R5 zoning, with a maximum FAR of 1.25 and a height limit of 40 feet, typically produces three- and four-story attached houses and small apartment houses. However, demand for affordable housing in East New York continues to grow, and Brooklyn Community District 5 has identified needs for additional affordable housing and other amenities that cannot be met under the existing zoning. In addition, New York City's affordable housing plan, "Housing New York 2.0," aims to create and preserve 300,000 high-quality, affordable homes by 2026 to address the needs for affordable housing throughout the City.

The CEQR assessment examines the incremental differences between the RWCDs of the future without the Proposed Actions in place (the No-Action condition) and the future with the Proposed Actions in place and the associated operation of the Proposed Project (the With-Action condition). The Proposed Project was determined to be the RWCDs because development pursuant to the Proposed Actions would be restricted to the bulk and density associated with the general large scale development special permit and shown on the special permit drawings. For the purpose of the environmental analyses, the No-Action condition represents the future absent the Proposed Actions and serves as the baseline by which the Proposed Project (or With-Action condition) is compared to determine the potential for significant environmental impacts. The difference between the No-Action and With-Action conditions represents the increment to be analyzed in the CEQR process.

Under the baseline, or No-Action condition, it is assumed that the Development Site would remain in its existing condition, with only the existing CCC operational on the site. As relevant for each area of analysis, future growth in population and employment will be considered in the development of the No-Action condition of that study area. This will include both background growth and growth generated by known projects (developments that are under construction, planned, or proposed). Inclusion of known developments will be based on, but not limited to, consideration of whether the project requires discretionary approvals, the status of that approval process, and the project size. The With-Action condition within the Development Site reflects the Proposed Project. The With-Action condition would include approximately 2.18 million gsf of development (4.29 FAR). Assuming a conservative build-out of approximately ten years, the Proposed Project is expected to be complete and operational by 2031.

The DEIS assesses whether development resulting from the Proposed Actions could result in significant adverse environmental impacts. The DEIS identifies potential significant adverse impacts related to community facilities (indirect impacts on early childhood programs and libraries), open space (temporary, active), transportation, noise, and construction.

Community Facilities (Early Childhood Programs): The Proposed Actions would result in the incremental development of approximately 2,050 dwelling units to the Project Area, of which 1,338 units are intended to be affordable for non-senior households with incomes up to 80 percent of AMI, as compared to the No-Action condition. The Proposed Actions are anticipated to generate the need for approximately 238 childcare slots. Based on a detailed analysis, early childhood programs would be over capacity with a shortfall of 665 slots in the With-Action condition. The utilization rate would be 141.3 percent and the change in utilization rate would be 14.8 percent. Since the collective utilization rate for early childhood programs would be greater than 100 percent and would increase more than five percent from the No-Action condition, the Proposed Actions would result in a significant adverse impact on publicly funded childcare and Head Start Centers, and would therefore require consideration of mitigation.

Mitigation measures to address the identified significant adverse impact to publicly funded early childhood programs are being explored in consultation with the NYC DOE and will be refined between the DEIS and FEIS. Such measures may include, but are not limited to, the provision of suitable space on-site for an early childhood program, provision of a suitable location off-site and within a reasonable

distance, or funding or making program or physical improvements to support additional capacity. If it is deemed appropriate by the DOE, the Proposed Project could include space that could be used for early childhood programming within certain building groups. In this case, the Proposed Project has allocated 12,320-gsf for a childcare facility within the Project Area. Approximately 6,350 sf feet could be designated for publicly funded early childhood programming, which would fully mitigate the significant adverse impact if the designated spaces are tenanted by early childhood providers in consultation with DOE. If mitigation measures are not fully effective in addressing the significant adverse impact to early childhood programs, then the Proposed Actions would result in an unavoidable adverse impact to early childhood programs.

Community Facilities (Libraries): The Proposed Project could result in a significant adverse impact to public libraries. Based on the projected population change of 6.9 percent to the Spring Creek Library catchment area population. Per the guidance of the CEQR Technical Manual, a proposed project may result in a significant adverse impact to public libraries if the proposed project would increase a library catchment area population by 5 percent or more, compared to the conditions in the future without the Proposed Actions, and if this increase would be expected to impair the delivery of library services in the study area. Residents in the catchment area for the library also reside in the catchment areas for other nearby libraries and would be served by these libraries and would have access to the entire Brooklyn Public Library (BPL) and New York Public Library (NYPL) system through the interlibrary loan system and could have resources delivered to their nearest library branch. However, even if the Proposed Project would not affect the access to holdings, the Proposed Project could affect access to computer resources, programming space, and program staffing. This impact requires consideration of mitigation.

Mitigation measures to address the identified significant adverse impact to Libraries are under development in consultation with the BPL and will be refined between the DEIS and FEIS. The Applicant is proposing to provide project residents with computer labs that have free internet access within lounge spaces in each building within the Proposed Project. Furthermore, space within the PAC would be provided for use by BPL for programming and additional outdoor space within the Central Quad would be made available for BPL programming. The full range of mitigation measures ultimately implemented would rely upon input from BPL. If mitigation measures are not fully effective in addressing the significant adverse impact to libraries, then the Proposed Actions would result in an unavoidable adverse impact to Libraries.

Open Space: There would be a temporary indirect active open space impact during construction related to the phasing of the project as new demand for open space resources would materialize from residents prior to the completion of all of the planned on-site open spaces. Therefore, a discussion of mitigation is warranted. This temporary impact would be eliminated upon full build-out of the project when all proposed open spaces are constructed. Required mitigation measures to address the identified temporary indirect active open space impact are being explored with DCP and NYC Parks between DEIS and FEIS. If mitigation measures are not fully effective in addressing the temporary adverse impact to active open space, the Proposed Actions would result in an unavoidable temporary adverse impact to active open space.

Transportation (Traffic): Of the 13 intersections analyzed, the Proposed Project would result in significant adverse traffic impacts at nine intersections during the weekday AM peak hour, seven intersections during the weekday midday peak hour, nine intersections during the weekday PM peak hour, and seven intersections during the Saturday peak hour. A subset of seven intersections was analyzed during the Sunday peak hour and significant traffic impacts were identified at four of these intersections during this peak hour. The majority of the intersections analyzed would either not be significantly impacted or could be fully mitigated with readily implementable traffic improvement measures. Six of the 13 intersections would remain unmitigated during the weekday AM peak hour, two intersections during the weekday midday peak hour, five intersections during the weekday PM peak hour (three of the five intersections could be partially mitigated), and four intersections during the Saturday peak hour. During the Sunday peak hour, four of the seven intersections would remain unmitigated. Mitigation measures such as signal timing changes, parking regulation changes to gain a travel lane at key intersections, and lane restriping, are standard traffic capacity improvements that are typically implemented by NYC DOT.

Transportation (Subway): Subway station elements at the Rockaway Parkway L subway station were analyzed during the AM and PM commuter peak hours and significant impacts were identified at the Glenwood Avenue fare control area during the AM peak hour. There would be no significant impacts on subways during the PM peak hour. Measures to mitigate this impact could potentially include the installation of additional turnstiles. The practicability of implementing this measure, as well as measures to prevent prevalent fare evasion at this fare control area, will be evaluated in consultation with NYCT between the Draft EIS and Final EIS.

Transportation (Buses): The Proposed Project would result in a capacity shortfall for the B82 bus route during the AM peak hour (93 spaces in the westbound direction), B82 SBS bus route during the AM peak hour (two spaces in the westbound direction) and PM peak hour (56 spaces in the eastbound direction), and B83 bus route during the AM peak hour (107 spaces in the northbound direction, 12 spaces in the southbound direction) and PM peak hour (64 spaces in the northbound direction, 75 spaces in the southbound direction). Impacts to the B82 bus route could be mitigated with the addition of two standard buses in the westbound direction during the AM peak hour, and two standard buses in the eastbound direction during the PM peak hour. Impacts to the B83 bus route could be mitigated with the addition of three standard buses in the northbound direction and one standard bus in the southbound direction during the AM peak hour, and two standard buses in each direction during the PM peak hour. The general policy of NYCT is to provide additional bus service where demand warrants, taking into account financial and operational constraints.

Transportation (Pedestrians): Of the 36 pedestrian elements analyzed, the Proposed Project would result in significant adverse pedestrian impacts at one pedestrian element (one crosswalks) during the weekday AM and midday peak hours, two pedestrian elements (two crosswalks) during the weekday PM peak hour, four pedestrian elements (three crosswalks and one sidewalk) during the Saturday peak hour. A subset of 14 pedestrian elements along the Development Site frontages was analyzed for the Sunday peak hour. Twelve pedestrian elements (five crosswalks, three sidewalks, and four corners) would be impacted during this peak hour. Potential improvements that could mitigate the significant impacts were reviewed and it was determined that the pedestrian impacts could not be mitigated with typical improvement measures.

Noise: The Proposed Actions would result in the potential for significant adverse impacts to one existing residential building, located at 1180 Pennsylvania Avenue, due to the introduction of new stationary and mobile noise sources. With-Action sound levels would range from 59.4 to 67.7 dBA (Leq), an increase of up to 6.5 dBA from the No-Action condition. While the detailed noise analysis concluded that the Proposed Actions could result in noise levels exceeding noise impact criteria for greater than 5 dBA, primarily resulting from the proposed childcare facility playground at proposed Building 4, there would be significant adverse noise impacts at 1180 Pennsylvania Avenue due to the Proposed Actions. The introduction of a solid wall along the southern perimeter of the daycare playground facility would be expected to provide 5 dBA of noise reduction, thereby mitigating noise to an acceptable level and would result in a finding of no significant adverse noise impacts at this location.

Construction Noise: Since noise levels during construction would exceed the thresholds for exterior increases in noise, there would be potential for the project to result in significant adverse construction noise impacts at new buildings that would be introduced with the phased development and at existing residential buildings located immediately south of the Development Site. Interior noise levels would exceed the interior impact criterion for residential receptors during certain phases of construction. With the adherence to existing construction noise regulations and the implementation of a Construction Noise Mitigation Plan, as required by the New York City Noise Code, including an 8-foot construction noise barrier, construction noise would be reduced but would still exceed the thresholds for significant construction noise impact prior to mitigation. No feasible mitigation measures were identified to mitigate the potential construction noise impact. While additional mitigation measures will be explored in consultation with the lead agency between DEIS and FEIS, the Proposed Actions have the potential to result in a significant adverse construction noise impact that would remain unmitigated.

Construction Transportation: Seven intersections were analyzed for potential significant traffic impacts during the AM construction traffic peak hour and twelve intersections were analyzed during the PM construction traffic peak hour. Significant impacts were identified at two analysis intersections during the AM peak hour and at nine intersections during the PM peak hour. Where impacts during construction may occur, measures similar to the ones recommended in the operational traffic analysis could be implemented early to aid in alleviating congested traffic conditions. The two intersections that would be impacted during the AM peak hour could be fully mitigated with typical traffic improvement measures (i.e., signal timing modification and changing parking regulations to provide an additional travel lane). Significant impacts at the intersections of Pennsylvania Avenue with Flatlands Avenue, Stanley Avenue and Linden Boulevard, and Flatlands Avenue with Louisiana Avenue, East 108th Street, and Rockaway Parkway could not be fully mitigated during the PM peak hour. The PM construction peak hour findings are similar to operational With-Action conditions except for the intersections of Pennsylvania Avenue with Stanley Avenue, and the intersection of Flatlands Avenue and East 108th Street which could be mitigated under the operational With-Action conditions. While additional

mitigation measures will be explored in consultation with the lead agency between DEIS and FEIS, the Proposed Actions have the potential to result in unmitigated significant adverse construction transportation impacts.

The DEIS considers two alternatives - The No-Action Alternative and the No Unmitigated Significant Adverse Impacts Alternative. The No-Action Alternative examines future conditions in 2031 absent the Proposed Actions. In simplest terms, the No-Action Alternative is the No-Action condition identified, described, and assessed in the preceding chapters of the EIS. In the No-Action Alternative, the Development Site would remain in its existing condition, with only the existing CCC operational on the site (approximately 92,784-gross-square-foot (gsf) of community facility space and 385 striped accessory parking spaces). The No Unmitigated Significant Adverse Impacts Alternative examines a scenario in which the projected density increase and other components of the Proposed Actions are changed specifically to avoid the unmitigated significant adverse impacts associated with the Proposed Actions. The Proposed Actions would result in significant adverse impacts to community (early childhood programs and libraries), transportation (traffic, subway, and pedestrian), noise, open space (active, temporary), and construction (transportation and noise). Sensitivity analyses were conducted and it was determined that any new development on the site would be expected to result in unmitigated impacts. The project is projected to result in unmitigated traffic and noise impacts during construction. It was determined that any new construction on the Development Site would involve the use of construction equipment such as drill rigs and concrete mixer trucks and, as such, would be expected to result in unmitigated construction noise impacts. Therefore, to avoid these impacts, construction would need to be avoided, and the project and the applicant's intended benefits would not be realized.

Copies of the DEIS may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 120 Broadway, 31st Floor, New York, NY 10271, Stephanie Shelloe, Director (212) 720-3328, and on the Innovative Urban Village project page on ZAP: <https://zap.planning.nyc.gov/projects/2019K0038>.

Authority: Pilot Program Administrative Code §27-2093.1, §28-505.3

Before the Department of Buildings can issue a permit for the alteration or demolition of a multiple dwelling on the Certification of No Harassment Pilot Program building list, the owner must obtain a "Certification of No Harassment" from the Department of Housing Preservation and Development ("HPD") stating that there has not been harassment of the building's lawful occupants during a specified time period. Harassment is conduct by an owner that is intended to cause, or does cause, residents to leave or otherwise surrender any of their legal occupancy rights. It can include, but is not limited to, failure to provide essential services (such as heat, water, gas, or electricity), illegally locking out building residents, starting frivolous lawsuits, and using threats or physical force.

The owner of the building identified above has applied for a Certification of No Harassment. If you have any comments or evidence of harassment at this building, please notify HPD, at **CONH Unit, 100 Gold Street, 6th Floor, New York, NY 10038**, by letter postmarked not later than 45 days from the date of this notice or by an in-person statement made within the same period. To schedule an appointment for an in-person statement, please call **(212) 863-5277** or **(212) 863-8211**.

For the decision on the Certification of No Harassment Final Determination please visit our website, at www.hpd.nyc.gov, or call (212) 863-8266.

Antes de que el Departamento de Edificios pueda conceder un permiso para la alteración o demolición de una vivienda múltiple de ocupación de cuartos individuales, el propietario debe obtener una "Certificación de No Acoso" del Departamento de Preservación y Desarrollo de la Vivienda ("HPD") que indique que tiene no haber sido hostigado a los ocupantes legales del edificio durante un periodo de tiempo especificado. El acoso es una conducta por parte de un dueño de edificio que pretende causar, o causa, que los residentes se vayan o renuncien a cualquiera de sus derechos legales de ocupación. Puede incluir, entre otros, no proporcionar servicios esenciales (como calefacción, agua, gas o electricidad), bloquear ilegalmente a los residentes del edificio, iniciar demandas frívolas y utilizar amenazas o fuerza física.

El dueño del edificio identificado anteriormente ha solicitado una Certificación de No Acoso. Si tiene algún comentario o evidencia de acoso en este edificio, notifique a HPD al **CONH Unit, 100 Gold Street, 6th Floor, New York, NY 10038** por carta con matasellos no mas tarde que **45 días** después de la fecha de este aviso o por una declaración en persona realizada dentro del mismo periodo. Antes de que el Departamento de Edificios pueda conceder un permiso para la alteración o demolición de una vivienda múltiple de ocupación de cuartos individuales, el propietario debe obtener una "Certificación de No Acoso" del Departamento de Preservación y Desarrollo de la Vivienda ("HPD") que indique que tiene no haber sido hostigado a los ocupantes legales del edificio durante un periodo de tiempo especificado. El acoso es una conducta por parte de un dueño de edificio que pretende causar, o causa, que los residentes se vayan o renuncien a cualquiera de sus derechos legales de ocupación. Puede incluir, entre otros, no proporcionar servicios esenciales (como calefacción, agua, gas o electricidad), bloquear ilegalmente a los residentes del edificio, iniciar demandas frívolas y utilizar amenazas o fuerza física.

El dueño del edificio identificado anteriormente ha solicitado una Certificación de No Acoso. Si tiene algún comentario o evidencia de acoso en este edificio, notifique a HPD al **CONH Unit, 100 Gold Street, 6th Floor, New York, NY 10038** por carta con matasellos no mas tarde que **30 días** después de la fecha de este aviso o por una declaración en persona realizada dentro del mismo periodo. Para hacer una cita para una declaración en persona, llame al **(212) 863-5277 o (212) 863-8211**.

Para conocer la decisión final sobre la Certificación de No Acoso, visite nuestra pagina web en www.hpd.nyc.gov o llame al **(212) 863-8266**.

MANAGEMENT AND BUDGET

■ NOTICE

**THE CITY OF NEW YORK -
OFFICE OF MANAGEMENT AND BUDGET**

**COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM
(CD / CDBG)**

NOTICE OF INTENT TO REQUEST RELEASE OF FUNDS

TO ALL INTERESTED AGENCIES, COMMUNITY BOARDS, GROUPS AND PERSONS:

This document constitutes the Notice of Intent to Request Release of Funds for the programs identified below, which are proposed to receive federal funding that was or will be received between Calendar Years 2021 and 2024 (Community Development Years 47-50).

On or about May 25, 2022, the City of New York will submit a request, to the U.S. Department of Housing and Urban Development (HUD) for the release of Community Development Block Grant funds under Title 1 of the Housing and Community Development Act of 1974, as amended (42 U.S.C. 5301 et seq.) to undertake the projects described below. This notice is not related to the CDBG-Disaster Recovery Program.

The activities proposed are categorically excluded under HUD regulations at 24 CFR Part 58 from National Environmental Policy Act requirements. The programs do not involve new construction or the expansion of a building's footprint.

Because sites to be funded under the following five programs are identified throughout the program year, these environmental reviews are prepared on a tiered or programmatic basis. As sites are identified for CD funding, specific reviews will be conducted.

1. Alternative Enforcement Program (AEP)

AEP is an enforcement mechanism intended to alleviate the serious physical deterioration of the City's most distressed multiple dwellings. The program forces owners to make effective repairs or have the NYC Department of Housing Preservation and Development (HPD) do so in a more comprehensive fashion so that emergency conditions are alleviated and underlying physical conditions are addressed. HPD will notify owners that, based upon criteria in the law, their multiple dwellings have been chosen for participation in AEP. Owner will have four months to repair the violations, pay all outstanding emergency repair charges and liens, submit current and valid property registration statements, and request re-inspection. If an owner fails to meet all of the requirements for discharge within four months, HPD will issue an Order to Correct identifying the building systems that need to be replaced. Should an owner fail to comply with the order, HPD will perform the work. Proposed CD 47-50 funding: \$41,213,000.

2. Senior Center Improvements

The Department for the Aging will use CD funds for the renovation of and rectification of code violations in senior centers. Activities may include plumbing upgrades; installation of lighting and emergency lighting systems, security systems, air conditioning/heating/ventilation systems, kitchen fire extinguishing systems, hot water heaters, fire doors, and ramps; window upgrade/replacement; ceiling and roof rehabilitation; kitchen upgrade; bathroom renovation; re-wiring; floor replacement; handicapped access; and security and elevator improvements. Proposed CD 47-50 funding: \$7,738,000.

3. Landmarks Historic Preservation Grant Program

The Landmarks Preservation Commission provides façade improvement grants to homeowners and nonprofits that own properties that are designated landmarks, located within designated historic districts, or listed in or are eligible to be listed in the National Register of Historic Places. Additionally, sites may receive grants for interior improvements provided the building has a designated interior. Proposed CD 47-50 funding: \$456,000.

4. Maintenance, Operation, and Rehabilitation of Tax-Foreclosed Housing

This program uses CD funds to pay for the following activities in City-Owned, tax-foreclosed housing: fuel and utilities; janitorial services; maintenance, repair, and rehabilitation efforts including responding to emergency complaints and sealing vacant properties; performing field inspections and holding technical interviews with potential contractors; inspecting, monitoring, and surveying projects; and procuring, monitoring, and issuing payment to contractors. CD funds also provide training and technical assistance to tenants and Tenant Associations of City-Owned buildings in the process of becoming independent housing cooperatives. Proposed CD 47-50 funding: \$77,523,000.

5. Project Open House

The Mayor's Office for People with Disabilities uses CD funds to remove architectural barriers from the homes of low- and moderate-income City residents who have mobility impairments. Work may include grab bar installations; main entry components (ramp, chair lift, and door); and kitchen and bathroom modifications. Proposed CD 47-50 funding: \$793,000.

Sites under the following two programs are known; reviews have been completed where noted in the environmental review.

1. City Educational Facilities: Health & Safety Improvements

The Department of Education (DOE) uses CD funds to prevent or remove code violations in New York City schools. The activities may include the installation, repair, or replacement of emergency lighting; elevator guards; doors and hardware; panic hardware; fire alarm, suppression, and extinguishing systems; radiator shields; potable water systems; sewage systems; kitchen ventilation/exhaust systems; heating/cooling/refrigeration systems; flame-proof curtains; building and sidewalk elevators; bleachers; retaining walls; interior masonry; damaged flooring and ceilings; electrical fixtures; mandated signage; and lead testing and remediation. To avoid archaeological concerns, playground resurfacing may be performed provided there is no increase in the playground area and no excavation is proposed. Proposed CD 47-50 funding: \$27,632,000.

2. GreenThumb Gardens

GreenThumb assists neighborhood groups in the creation, maintenance, and enhancement of gardens aimed, at increasing civic participation and neighborhood revitalization through collective stewardship. GreenThumb provides materials, education, programming, and technical support and manages community garden license agreements and registrations. The program also organizes three

large events and hosts hundreds of workshops per year. Gardens are managed by local volunteers. CD funds support community gardens in low- and moderate-income census tracts; City tax levy funds are used for gardens in non-CD-eligible neighborhoods. Proposed CD 47-50 funding: \$5,114,000.

Environmental Review Records (ERR) that document the environmental determinations for each project are on file, at the NYC Mayor's Office of Management and Budget, 255 Greenwich Street, 8th Floor, New York, NY 10007. The ERRs are available, to the public for review either electronically or may be examined or copied in person weekdays 10:00 A.M. to 6:00 P.M. If you wish to view the ERRs, please contact Julie Freeman, Director of Community Development, New York City Office of Management and Budget, at freemanj@omb.nyc.gov or (212) 788-6130.

PUBLIC COMMENTS

Any individual, group, or agency may submit written comments on the ERRs, to the New York City Office of Management and Budget, Community Development Unit, 255 Greenwich Street, 8th Floor, New York, NY 10007 or via email, at CDBGComments@omb.nyc.gov. All comments received by May 24, 2022 will be considered by the City of New York prior to authorizing the submission of a request for release of funds.

ENVIRONMENTAL CERTIFICATION

The City of New York certifies to HUD that Julie Freeman, in her official capacity as a Certifying Officer for the CD Program, consents to accept the jurisdiction of the Federal Courts if an action is brought to enforce responsibilities in relation, to the environmental review process and that these responsibilities have been satisfied. HUD's approval of the certification satisfies its responsibilities under NEPA and related laws and authorities and allows the City of New York to use CD program funds.

OBJECTIONS TO RELEASE OF FUNDS

HUD will accept objections to its release of funds and the City of New York's certification for a period of fifteen days following the anticipated submission date or its actual receipt of the request (whichever is later) only if they are on one of the following bases: a) the certification was not executed by the Certifying Officer of the City of New York; b) the City of New York has omitted a step or failed to make a decision or finding required by HUD regulations, at 24 CFR Part 58; c) the City of New York or other participants in the development process have committed funds, incurred costs, or undertaken activities not authorized by 24 CFR Part 58 before approval of a release of funds by HUD, or d) another Federal agency acting, pursuant to 40 CFR Part 1504 has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality. Objections must be prepared and submitted in accordance with the required procedures (24 CFR § 58.76), and shall be addressed to HUD, Office of Community Planning and Development, at the following email address: CPD_COVID-19OEE-NY@hud.gov. Objections, to the release of funds on bases other than those stated above will not be considered by HUD. Potential objectors should contact HUD to verify the actual last day of the objection period.

Statement of Basis and Purpose of the Proposed Rule

In November 2018, New York City voters approved a ballot initiative proposed by the 2018 Charter Revision Commission that established the New York City Civic Engagement Commission. The proposal was codified as Chapter 76 of the New York City Charter. Chapter 76 directs the Civic Engagement Commission to implement the citywide participatory budgeting (“PB”) program established under section 225-a of the Charter.

The goal of the program is to promote the participation of residents in identifying and expressing preferences among recommendations for local projects to be considered for inclusion in the executive budget. Section 3202(a)(1)(e) provides that any New York City resident at least 16 years of age may participate in the citywide PB program and authorizes the commission to establish by rule a minimum age requirement lower than 16 years of age.

The proposed rule would set the minimum age for the citywide PB program at 11 years of age. Allowing New Yorkers ages 11 and up to participate in the citywide PB program is in line with the eligibility requirements for the City Council’s participatory budgeting program and the PB program that the Department of Education operates in middle schools throughout the city.

Section 3202(a)(1)(e) of the Charter also authorizes the Commission to impose restrictions for the protection of minors who participate in the citywide PB program. The proposed rule would require that children between the ages of 13 and 17 obtain parental or guardian consent before registering an account on the Commission’s digital platform that enables city residents to submit and vote for participatory budgeting proposals, currently hosted at <https://www.participate.nyc.gov/>. Children under the age of 13 are prohibited from registering an account. Nevertheless, children who are unable to register an account will be able to use other methods to participate in the citywide PB program, including through paper ballots.

Section 1. Title 73 of the Rules of the City of New York is amended by adding a new chapter 2 to read as follows:

2-01 Definitions.

“Citywide participatory budgeting program.” The term “citywide participatory budgeting program” means the program established pursuant to section 225-a of the charter of the City of New York and implemented pursuant to paragraph 1 of subdivision a of section 3202 of such charter.

“Commission.” The term “commission” means the New York City civic engagement commission or the chair acting on behalf of the commission.

“Digital platform.” The term “digital platform” means an online platform used by the commission to enable city residents to submit, comment on and vote for participatory budgeting proposals.

2-02 Minimum age requirement. A resident of New York City at least 11 years of age is eligible for participation in the citywide participatory budgeting program.

2-03 Restrictions for the protection of children.

a. Children under the age of 13 may not register an account on the digital platform.

b. Children ages 13 through 17 may not register an account on the digital platform unless they receive parental or guardian consent to register such account. This subdivision does not apply to a child who is a legally emancipated adult.
