

INTRODUCTION:

Local Law 3 of 2022 was implemented January 10, 2022. This legislation requires the Department of Social Services (DSS) to produce a detailed report on supportive housing data contained in the Coordinated Assessment and Placement System (CAPS) for the preceding fiscal year and to post the report on the department's website as well as submit to the Council Speaker. The report is due not later than September 1, 2022, and annually thereafter.

The report includes the following data from CAPS about applicants for supportive housing, and their related activity, during the CFY 2022 (July 1, 2021 – June 30, 2022):

Section 1. Supportive Housing Eligible

Section 2. Referred for Supportive Housing Interview

Section 3. Not Referred for Supportive Housing Interview

Section 4. Clients Interviewed

Section 5. Referred No Interview

Section 6. Accepted to Supportive Housing

Section 7A. Not Accepted for Supportive Housing (Rejected)

Section 7B. Not Accepted for Supportive Housing (Rejected) - Detail

Section 8. Referred Awaiting Placement

This report includes data from CAPS for CFY 2022 and as required by LL3 each group is further delineated with disaggregated data by age, gender, ethnicity, language, household type, eligibility, homeless duration, and current placement. Where client counts are under 6 (six), numbers have been redacted per City Charter Section 15 to protect privacy.

This report includes if the household was referred to a housing provider, with the required additional disaggregated data pertaining to referral agency; if the client was interviewed or not; type of supportive housing referred/interviewed; reasons for no interview; average interviews attended; details on reasons for rejection; and counts of clients referred but awaiting placement. The pull of data from CAPS was conducted on July 1, 2022.

At the top of each section of this report, there is a description of the universe (how each group is defined) before the disaggregated data is presented. Also, footnotes are provided as needed for each subsection to provide the method of defining the data presented.

In Section 7B. Not Accepted for Supported Housing (Rejected) – Detail, the reasons for rejection have been redacted to protect client privacy using the following criteria: client name, program name, program address, and identifying behavior. Where complete duplicate entries are listed, these are exactly as entered by housing providers into CAPS and not errors.

Note: This is the first report submission for LL 3 and as such, it contains select placeholders for data points not captured in CAPS in CFY '22 as allowed in LL3. Future iterations of this report will include the required data points once they are developed.

BACKGROUND:

The Coordinated Assessment and Placement System (CAPS) was developed to meet HUD requirements and more importantly, to streamline and improve the assessment, prioritization, housing referral and placement process for homeless and at-risk households within the NYC CoC geographic region. CAPS assesses homeless or at-risk individuals and families for potential housing options, provides detailed instructions on how to apply for the housing options (including supportive housing categories), assists in prioritizing referrals (based on vulnerability and length of time homeless), identifies vacancies for the household and places according to verified information on eligibility, client preference and available vacancies. As NYC continues to develop CAPS to achieve the objectives of streamlining the referral and placement process, consider the following information:

- CAPS was launched in October 2020 and has approximately 27K units of supportive housing being tracked. There is an estimated 35K supportive housing units in operation in NYC and there is a continuous effort to add more units to CAPS.
- Currently, there is no mandate or operational support for all referrals to be made through CAPS. Therefore, many supportive housing providers conduct intake of eligible individuals and families through direct referrals that are not captured in CAPS.
- There are three Referral Entities using CAPS to make referrals. These are NYC ACS, NYC HRA HASA and NYC HRA OSAHS. Housing providers can also make internal referrals for their units in specific cases.
- Beginning July 1, 2022, Center for Urban Community Services (CUCS) began a phased approach to utilize CAPS to make referrals to New York State Office of Mental Health (SOMH) contracted supportive housing. In the CFY 2023 CUCS referral activity will be included in the report.
- NYC HRA Office of Affordable and Supportive Housing (OSAHS) is the primary referral entity for households in the DHS shelter system or engaged with street outreach teams.
- NYC Administration for Children's Services (ACS) is the primary referral entity for NY/NY III Population I eligible clients.
- NYC HRA HIV/AIDS Services Administration (HASA) is the primary referral entity for NY/NY III Population H eligible clients, and NYC 15/15 HASA Addendum projects.

PROVIDER	0
STATE OFFICE OF MENTAL HEALTH	3981
Total	8533

[5] Clients may have more than one referring agency.

[6] Referral agency inferred from eligibility.

J. Reason the Referring Agency did Not Make a Referral

Reason for No Referral	Total
Data not in CAPS	4372
Total	4372

Background: HRA has not operationalized making client-level designations for why referrals are not made in CAPS. Here are some key reasons why clients may not have received referrals in CAPS. Beginning July 1, 2022 CUCS will be making referrals for mental health eligibilities using CAPS.

- **71%** of clients without referrals came from sources other than DHS or HASA. These include systems which did not have a designated referral entity in CAPS in CFY 2022.
- About **68%** of all clients awaiting placement are not in shelter on any given day.
- **50%** of clients without referrals were approved for mental-health only categories (SMI, NY/NY I & II, and/or ESSHI MH-AD exclusively), which did not have a CAPS referral entity in CFY 2022.
- **43%** of clients with no referrals were approved within the last 4 months. Many referral entities prioritize referrals for older applications first.
- **25%** of clients without referrals are approved for Level II only or Level II + 24 Hour supervision. These clients require licensed programs, which did not have a referral entity in CAPS in CFY 2022.
- Client eligibility inconsistent with housing stock. For some supportive housing programs/populations, there is a mismatch between eligible clients and available vacancies.

Supportive Housing Eligibilities & Vacancies, Select Eligibility

	Eligibility Contract & Population (Clients Not Referred) [1]	CAPS Vacancies [2]

Medical Needs Beyond the Scope of the Facility	n/a [3]
Treatment and/or Medication Needs beyond the Scope of the Facility	n/a [3]
Support for Personal Care Needs beyond the Scope of the Facility	n/a [3]
Program does not Provide Level of Service Needed	After clinical review, applicant appears to need more support and supervision than {redacted program name} can provide. Applicant is not currently compliant with recommended treatment and experiencing psychiatric symptoms, is currently abusing substances and needs ADL support including cooking. Applicant can be considered for an {redacted program name} SR-SRO if interested.
Program does not Provide Level of Service Needed	After clinical review, applicant is not accepted at this time as applicant appears to need more support and supervision than {redacted program name} can provide. Per the applicant and referral, applicant needs hands on support with ADLs including washing and managing hair. And per foster mother in referral, applicant requires constant supervision.
Program does not Provide Level of Service Needed	After clinical review, applicant is not accepted to {redacted program name} at this time as the referral states that applicants "erratic behaviors have caused him to require a higher level of care" than his current level of housing in a rapid rehousing apartment program can provide and that he "has put himself and others at physical risk". The erratic behavior includes "two high level incidents" that involved touching and following others without their consent and led to physical altercations, legal involvement, and hospitalization. Applicant can be considered for {redacted program name} CR-SRO that can provide the support and services that is recommended for the applicant throughout the referral if interested.

<p>Program does not Provide Level of Service Needed</p>	<p>After clinical review, clinical team determined that applicant is not accepted into the program at this time. The referral indicates an extensive history of difficulty transitioning from a structured environment into the community, including several failed attempts at community residences and has a history of treatment noncompliance and substance use leading to engagement in risky behaviors such as fire setting, property destruction and threatening behavior. The clinical team will reconsider after 3-6 months in a TLR setting with continued medication and treatment compliance along with no substance use and no incidents of property destruction, fire setting, or threatening behavior. Provided dispo to Kristen via email.</p>
<p>Program does not Provide Level of Service Needed</p>	<p>After clinical review, clinical team determined that applicant is not accepted into the program at this time. <p>Program does not Provide Level of Service Needed</p>	<p>After clinical review, it was determined that applicant is not accepted into the program due to the referral indicating an extensive history of medication noncompliance leading to significant violence towards others in the community and subsequent hospitalizations and incarcerations. Left voicemail for Kristin to call back for dispo.</p>
<p>Program does not Provide Level of Service Needed</p>	<p>After review, applicant can be reconsidered after 3-6 months at a TLR as referral recommends TLR housing, applicant has no history of living independently and expressed concern during the interview about living independently, and applicant has an extensive history of violence in the community and while admitted to a inpatient hospitalization.</p>

Program does not Provide Level of Service Needed	An assisted living arrangement would benefit {redacted client name} as he would need services this program would lack in providing for him.
Program does not Provide Level of Service Needed	Applicant appears to need more support and supervision than {redacted program name} can provide. Can be considered for other {redacted program name} housing.
Program does not Provide Level of Service Needed	Applicant appears to need more support and supervision than {redacted program name} can provide. Can be considered for other {redacted program name} housing.
Program does not Provide Level of Service Needed	Applicant appears to need more support and supervision than {redacted program name} can provide. Can be considered for other {redacted program name} housing.
Program does not Provide Level of Service Needed	housing program. He would benefit from a site that can provide medication monitoring and support with scheduling/attending appointments.
Program does not Provide Level of Service Needed	Applicant can be considered for other {redacted program name} housing with licensed intensive supports if interested.
Program does not Provide Level of Service Needed	Applicant can be considered for other {redacted program name} housing with licensed intensive supports if interested.
Program does not Provide Level of Service Needed	applicant do not meet the criteria of single adult with documented substance use d/o past or present.
Program does not Provide Level of Service Needed	Applicant does not identify with her mental health, severe symptoms remains untreated, history of aggression against staff and peers that often results in EDP intervention.
Program does not Provide Level of Service Needed	Applicant has an extensive history of non compliance with medication which has caused him to become violent. Applicants mental health professional advised he be placed in a facility that can provide medication management which we do not provide. Mental health provider also recommends a program that can monitor applicants behavior, as we are an independent living facility, applicant would benefit from a program with onsite mental health services. Applicant requires a higher level of care.
Program does not Provide Level of Service Needed	applicant indicated she requires really quiet neighbors and stated she will be not able to handle any noise or disturbance. This can't be always assured considering apt # 2C internal and external building acoustics and potential neighbors, tenants who already live there.
Program does not Provide Level of Service Needed	Applicant is a former {redacted program name} client who displayed aggression and threats of violence towards peers. needs more support and supervision.
Program does not Provide Level of Service Needed	Applicant is not accepted at this time due to chronic history of violence, behavioral issues, and noncompliance that have led to a history of leaving supportive housing in the past.
Program does not Provide Level of Service Needed	applicant is not interested in interventions and never lived independently. He would benefit from a more structured setting so that his skills and abilities can be assessed.
Program does not Provide Level of Service Needed	Applicant is rejected due to long history of self-reported violence against others when applicant is not taking his medication. Applicant requires a higher level of care as medications are not dispensed on site. We recommend applicant to the {redacted program name} for care.

<p>Program does not Provide Level of Service Needed</p>	<p>Applicant is Rejected post interview with onsite psychiatrist at {redacted program name} on Monday January 31, 2022. Applicant has a history of violence, multiple assaults including hitting staff as well. Applicant reported he has a short tolerance which results in slapping people, "expressed he hits people when he is upset or doesn't get his way." As a result {redacted program name} feels this will not be a safe setting for him or the other residents in our facility. {redacted program name} also feels due to the severity of his mental illness he requires a level II facility where medication can be managed and there is a higher level of structure, for safety and for maintenance of his psychiatric and medical care.</p>
<p>Program does not Provide Level of Service Needed</p>	<p>Applicant lacks insight into mental health diagnosis and is not open to treatment although he reports displaying aggressive behavior when he is not taking his medication. Applicant would be best suited for a level II residence where he can receive closer support/supervision.</p>
<p>Program does not Provide Level of Service Needed</p>	<p>Applicant needs more support and supervision than {redacted program name} can provide.</p>
<p>Program does not Provide Level of Service Needed</p>	<p>Applicant needs more support and supervision than {redacted program name} can provide.</p>
<p>Program does not Provide Level of Service Needed</p>	<p>Applicant needs more support than {redacted program name} can provide. Can be considered to other {redacted program name} housing.</p>
<p>Program does not Provide Level of Service Needed</p>	<p>Applicant reported he had been hospitalized about nine months ago for a 'misconception' with his neighbor. His discussion was tangential and nonsensical; he needed to be redirected back to the other interview questions. He spoke about having had an incident in {redacted program name} where allegations were made against him, but he said they were nothing. He said he often helps people who are bullied. {redacted identifying behavior}. He said he doesn't participate in mental health treatment or take medications, and he uses marijuana. He continued to speak about how he had never cheated in his life. On {redacted identifying behavior} applicant was trying to hug his roommate's daughter and followed her around the unit. On that same day, the police were contacted due to applicant threatening to kill his landlord, along with other bizarre behaviors, such as standing on the stair rail causing a ruckus a</p>

Program does not Provide Level of Service Needed	Applicant reported he had been hospitalized about nine months ago for a 'misconception' with his neighbor. His discussion was tangential and nonsensical; he needed to be redirected back to the other interview questions. He spoke about having had an incident in {redacted program name} where allegations were made against him, but he said they were nothing. He said he often helps people who are bullied. {redacted identifying behavior}. He said he doesn't participate in mental health treatment or take medications, and he uses marijuana. He continued to speak about how he had never cheated in his life. On {redacted identifying behavior} applicant was trying to hug his roommate's daughter and followed her around the unit. On that same day, the police were contacted due to applicant threatening to kill his landlord, along with other bizarre behaviors, such as standing on the stair rail causing a ruckus a
Program does not Provide Level of Service Needed	Applicant reported needing medication management and dispensation as well as money management not provided by our program.
Program does not Provide Level of Service Needed	Applicant reports the the Bronx are his preferred borough. Applicant also needs medication management and a studio as indicated by his mental health professional and we do not have these services available.
Program does not Provide Level of Service Needed	Applicant showed low frustration tolerance as it related to understanding expectations of residents meeting w/ onsite personnel on the required schedule and this raised a concern around his ability to fully manage both his MH and child's since he informed he would not notify onsite personnel if there were behavioral changes and this poses a safety concern for staff and other residents .
Program does not Provide Level of Service Needed	Applicant stated during interview that he was not taking his medication as prescribed. Applicant will need a higher level of care.
Program does not Provide Level of Service Needed	Applicant was not able to answer many of the questions in the interview. Housing documents indicate level II is more appropriate and interviewer agrees with this assessment.
Program does not Provide Level of Service Needed	Applicant was not able to conduct interview; he presented as disorganized and confused and was not able to answer questions. He often paused and then stopped responding. When asked questions about self preservation applicant stated he does not what is going on. Client would benefit from support of a Community Residence.
Program does not Provide Level of Service Needed	Applicant was not forthcoming on mental health and substance use hx.
Program does not Provide Level of Service Needed	Applicant was not forthcoming with information regarding prior assault on staff, substance use or mental health.
Program does not Provide Level of Service Needed	Applicant would benefit from a higher level of care. Applicant had fair insight into mental illness but provided conflicting history of past and current suicide ideations. Applicant expressed conflict with shelter rules and regulations. These factors may be a risk to self and others in the building.
Program does not Provide Level of Service Needed	Applicant would benefit from a program with mental health services onsite as well as money and medication management not provided by our program.

Program does not Provide Level of Service Needed	At this time the client would benefit for a congregate setting where he would develop the skills he would need for more independent living in the community. Client still need more support than what is being offer at this level of housing.
Program does not Provide Level of Service Needed	At this time this level of housing is not suited for the client she will benefit for a more supportive setting.
Program does not Provide Level of Service Needed	At this time this level of housing is not what the client need he needs a setting where he will have more support that this program is capable of offering.
Program does not Provide Level of Service Needed	Based on candidates summary and interview, candidate would benefit from a higher level of services, possibly MICA services/ setting.
Program does not Provide Level of Service Needed	Because of {redacted client name}'s mobility issues, {redacted client name} will be better off in an elevator building.
Program does not Provide Level of Service Needed	can be considered for other {redacted program name} Housing
Program does not Provide Level of Service Needed	Candidate admittedly active substance use/ would benefit from more acute care setting/ possibly MICA
Program does not Provide Level of Service Needed	Candidate can benefit from a higher level of care with 24/hr mental and medical health providers on site.
Program does not Provide Level of Service Needed	Candidate denies mental health diagnosis, refusing mental health treatment and medication. Discrepancies on paperwork and reports from candidate.
Program does not Provide Level of Service Needed	Candidate expressed that she needs assistance with administering their medication. May benefit from an assisted living facility.
Program does not Provide Level of Service Needed	Candidate has an animal, which this residence does not permit
Program does not Provide Level of Service Needed	Candidate in need higher level of housing, medication monitoring onsite, w/ hx of non medication adherence. When not taking medication candidate is suicidal and violent. Monitoring not provided at facility
Program does not Provide Level of Service Needed	Candidate in need of higher level of care, onsite substance abuse and mental health tx.
Program does not Provide Level of Service Needed	Candidate in need of higher level of care, recent relapse less than 30 days. Resident would benefit from onsite mental health and substance abuse treatment.
Program does not Provide Level of Service Needed	Candidate in need of higher level of care. medication management onsite recommended.
Program does not Provide Level of Service Needed	Candidate in need of higher level of support, perhaps a level 2 placement where they can be more closely monitored. Recommendation suggest medication monitoring onsite.
Program does not Provide Level of Service Needed	Candidate in need of higher level support unable to live independently. Recommendation substance abuse tx- candidate denies alcohol diagnosis/issue.
Program does not Provide Level of Service Needed	Candidate in need of mental health tx and medication monitoring, candidate denies the need.

Program does not Provide Level of Service Needed	Candidate in need of ongoing psychiatric treatment. Candidate declines psychiatric treatment and does not acknowledge psychiatric diagnosis. Medication management needed.
Program does not Provide Level of Service Needed	Candidate in need of onsite medication management, not offered at facility. Recommendation out pt MHS- candidate not in treatment.
Program does not Provide Level of Service Needed	Candidate in need of substance abuse tx facility, and medication monitoring, not offered at facility.
Program does not Provide Level of Service Needed	Candidate in need of substance abuse tx housing and psychiatric treatment w/ onsite medication management.
Program does not Provide Level of Service Needed	Candidate needs a higher level of care. Level 2 housing was recommended.
Program does not Provide Level of Service Needed	Candidate needs higher level of care.
Program does not Provide Level of Service Needed	Candidate needs higher level substance abuse tx facility, medication monitoring hx of medication non compliance.
Program does not Provide Level of Service Needed	Candidate needs substance abuse tx housing and monitoring of medication as recommendation and hx of non-compliance with medication.
Program does not Provide Level of Service Needed	Candidate not forthcoming regarding history of and current substance use; could endanger current residents' sobriety
Program does not Provide Level of Service Needed	Candidate reports wanting her son to live with her, there is a no children policy at facility. Candidate in need of substance abuse tx onsite.
Program does not Provide Level of Service Needed	Candidate requires a higher level of care due to significant ambulatory and medical challenges
Program does not Provide Level of Service Needed	Candidate requires a higher lever care.
Program does not Provide Level of Service Needed	Candidate requires higher level of care.
Program does not Provide Level of Service Needed	Candidate requires higher level of care. She is diagnosed with schizophrenia but refuses the diagnosis and refuses any medication. Determination letter requires medication management, which this residence does not provide.
Program does not Provide Level of Service Needed	Candidates housing packet indicates she requires daily assistance with her ADL's, but she insisted she is independent and refused to accept assistance during her interviews.
Program does not Provide Level of Service Needed	Candidates requires a higher level of care--adult home setting.
Program does not Provide Level of Service Needed	client needs wheelchair accessible apartment
Program does not Provide Level of Service Needed	Client began masturbating and exposed himself during the interview. Interview was terminated early.

Program does not Provide Level of Service Needed	Client can be considered for other {redacted program name} housing if interested
Program does not Provide Level of Service Needed	Client can be reconsidered for a higher level of care after 3-6 of mental health treatment
Program does not Provide Level of Service Needed	Client can benefit from a Congregate Care level of housing with 24 hour staff supervision.
Program does not Provide Level of Service Needed	Client can benefit from a Congregate level of housing with 24 hour staff coverage.
Program does not Provide Level of Service Needed	Client could not understand simple questions.
Program does not Provide Level of Service Needed	Client criminal background check caused rejection.
Program does not Provide Level of Service Needed	Client did not complete interview and client needs services which provider does not provide.
Program does not Provide Level of Service Needed	Client has a dog and we are unable to house pets at this time.
Program does not Provide Level of Service Needed	Client is in need of a higher level of care
Program does not Provide Level of Service Needed	Client is not currently she a medical professional and client isn't taking any medication
Program does not Provide Level of Service Needed	Client is not eligible due to housing restrictions from sex offender status
Program does not Provide Level of Service Needed	Client is not eligible for this housing Not a legal citizen.
Program does not Provide Level of Service Needed	Client is not on medical regime and does not have a Psychiatrist. Client reported she was a Vet and had been in the army. According to Clients paperwork, Client was not in the army.
Program does not Provide Level of Service Needed	Client is unable to share a bathroom with others due to chronic medical condition.
Program does not Provide Level of Service Needed	Client kept appointment however was not able to keep focus and appeared preoccupied. Continued to repeat "I just need to get my life together"
Program does not Provide Level of Service Needed	Client may benefit from more supportive housing
Program does not Provide Level of Service Needed	Client need more supervised setting due to MH history with ADL & Medication management
Program does not Provide Level of Service Needed	Client needs a higher level of care
Program does not Provide Level of Service Needed	Client needs a higher level of care, as he reported he requires additional support.

Program does not Provide Level of Service Needed	Client needs a higher level of care.

Program does not Provide Level of Service Needed	Client needs higher level of care such as mental health services that are on site.
Program does not Provide Level of Service Needed	Client needs higher level of care.
Program does not Provide Level of Service Needed	Client needs higher level of care.
Program does not Provide Level of Service Needed	Client needs higher level of care.
Program does not Provide Level of Service Needed	Client needs higher level of care. Client is not engaged in treatment and not interested in engaging.
Program does not Provide Level of Service Needed	client needs higher level of service.
Program does not Provide Level of Service Needed	Client needs medication management which provider does not provide
Program does not Provide Level of Service Needed	client needs medication management which provider doesn't provide
Program does not Provide Level of Service Needed	Client needs more staff support and supervision than {redacted program name} can provide.
Program does not Provide Level of Service Needed	Client needs more support and supervision than {redacted program name} can provide.
Program does not Provide Level of Service Needed	client needs supervision and reminders
Program does not Provide Level of Service Needed	Client not engaged in treatment and is not interested in treatment.
Program does not Provide Level of Service Needed	client not in need of services
Program does not Provide Level of Service Needed	Client not interested in SRO-Client admitted to several altercations in shelter

Program does not Provide Level of Service Needed	Client presented with a significant history of substance use which client reported can lead to delusions and hallucinations. There is a concern for tenant's safety in the apartment as well as the safety of other tenants in the building as tenant disclosed her hallucinations can cause her to act out on occasion. Team believes tenant would be better suited in a more supervised setting where her medications could be managed and a possible referral to an outpatient substance use program.
Program does not Provide Level of Service Needed	Client require higher level of care, program do not provide the care client needs (help with cooking meals, help with ensuing client is taking his medication etc.)
Program does not Provide Level of Service Needed	Client requires a higher level of care.
Program does not Provide Level of Service Needed	Client requires a higher level of service.
Program does not Provide Level of Service Needed	Client requires a unit with a wheelchair accessible bathroom.
Program does not Provide Level of Service Needed	Client requires additional services not provided at the program.
Program does not Provide Level of Service Needed	Client requires higher level of care
Program does not Provide Level of Service Needed	Client says he does not need services from a case manager. He does not need someone to look into what he is doing. He just needs housing. client is not engaged in mental health services and does not need services.
Program does not Provide Level of Service Needed	Client says he just needs get situated and does not work well with case workers. Client is not engaged in services and does not believe he needs services.
Program does not Provide Level of Service Needed	Client wants to be able to have his child in a one bedroom. we only offer single studios
Program does not Provide Level of Service Needed	Client was accepted to {redacted program name}, not {redacted program name}- closing out referral from this TAD.
Program does not Provide Level of Service Needed	Client was accepted to {redacted program name}, not {redacted program name} - closing out referral from this TAD.
Program does not Provide Level of Service Needed	Client was accepted to {redacted program name}, not {redacted program name} - closing out referral from this TAD.
Program does not Provide Level of Service Needed	Client was approved for level II housing.
Program does not Provide Level of Service Needed	Client was in need of a higher level of care.
Program does not Provide Level of Service Needed	Client was incoherent during interview. Interview could not be conducted.
Program does not Provide Level of Service Needed	Client was not a fit for program. Client was not in agreement to program policies and expectations.

Program does not Provide Level of Service Needed	Client was not accepted.
Program does not Provide Level of Service Needed	Client was not appropriate for this level of care. He needs mores supports like a CR.
Program does not Provide Level of Service Needed	Client was not approved to move into the unit by other sources.
Program does not Provide Level of Service Needed	Client was not forth coming on the interview regarding substance abuse issue and needs money management skills.
Program does not Provide Level of Service Needed	Client was not forthcoming with regards to her criminal history and history of suicidal ideations. Client was unable to give congruent reports of previous suicide attempts involving gun possession. Client unable to discuss and provide detailed information in which may be a risk to other tenants in the building.
Program does not Provide Level of Service Needed	Client was not forthcoming with regards to his criminal history. Client was unable to give congruent reports of his criminal history of domestic dispute, violence, and selling illegal substances. Client unable to discuss and provide detailed information in which may be a risk to other tenants in the building.
Program does not Provide Level of Service Needed	Client was not totally aware of his MH diagnosis. We believe that he would benefit from a setting with more supports. As evidenced byhis lack of knowledge of his providers, medications (name, frequency, and dosage), inability to keep track of his appts, and dependence on continuous case management, Community residence may not be the best fit at this time. He also lack insight about his MH triggers and couldn't remember his last hospitalization and what caused it. He also didn't know we were located in the Bronx which was a bit of a concern.
Program does not Provide Level of Service Needed	Client was unable to answer questions relating to living independently/self preservation.
Program does not Provide Level of Service Needed	Client was under the influence of crack. She was incoherent at times dozing off. Client reports completing {redacted program name} a month ago and remains actively using crack
Program does not Provide Level of Service Needed	Client will benefit from a higher level of care i.e. a congregate level of housing with 24 hour staff on site.
Program does not Provide Level of Service Needed	Client will benefit from a higher level of care to meet his needs effectively.
Program does not Provide Level of Service Needed	Client would benefit from a higher level of care
Program does not Provide Level of Service Needed	Client would benefit from a higher level of care
Program does not Provide Level of Service Needed	Client would benefit from a higher level of care. She also provided conflicting information about her mental health history.

Program does not Provide Level of Service Needed	Client would benefit from a nursing home or other 24 hr care facility; applicant is recommended to have money and medication management not provided by our facility. Applicant needs meals provided to him as well as needs someone to assist him with ADL.
Program does not Provide Level of Service Needed	Client would benefit from a residence that has access to an elevator. As client reported having a bad knee and breathing issues.
Program does not Provide Level of Service Needed	Client would benefit from higher level of care.
Program does not Provide Level of Service Needed	Client would benefit from housing setting with on site staff support.
Program does not Provide Level of Service Needed	Clt needs a higher level of care and more assistance than this program can provided. Clt was unable to successfully answer questions asked during interview. Clt does not know mental health diagnosis or what medications she is being prescribed. Clt unable to take medication on her own, husband administers meds to her. Clt cannot describe 3 signs of a fire or what she would do if a fire started in her apt.
Program does not Provide Level of Service Needed	Ct. lacked insight into the impact of his mental illness and behavior toward others; ct. minimized his history of violent behavior and its impact on his housing history/homelessness and reactions toward others; ct. reported contradictory information during the interview regarding his mental health history, legal history and substance use, which led us to the belief that he was withholding and not forthcoming
Program does not Provide Level of Service Needed	Ct. requires more onsite services, higher level of care per the psychiatrist notes.
Program does not Provide Level of Service Needed	Denied any mental health
Program does not Provide Level of Service Needed	Due to h/o violence, behavioral issues, & noncompliance that have led to applicant leaving supportive housing.
Program does not Provide Level of Service Needed	He needs high level of monitor as indicated in his application and interview session.
Program does not Provide Level of Service Needed	Housing application indicates a Level II recommendation.
Program does not Provide Level of Service Needed	Housing provider did not accept client as he was not appropriate for this level of care. He did not know who his MH provider was nor was he familiar with his SW. He wasn't aware with his medications dosages. He stated he didn't know if he had any Medical concerns. Client lacked insight about his triggers. We recommend a site which will provide more supports.
Program does not Provide Level of Service Needed	In Need higher level of care. Medication management recommended, not offered at facility.
Program does not Provide Level of Service Needed	In need of higher level of care. Recent suicide attempt. Refusing medication, in need of drug tx onsite. Little insight on mental health

Program does not Provide Level of Service Needed	In need of MICA services, recent drug relapse. Need higher level of care.
Program does not Provide Level of Service Needed	Interview observed evidence with the presence of hallucigen conversation of transmittal and receptive.
Program does not Provide Level of Service Needed	<p>{redacted client name}'s response to most questions was, 'I don't remember. He admitted to using cocaine a few days ago. He will also use alcohol and marijuana to relax and relieve his stress. He doesn't see a psychiatrist, nor does he take medications. He reports it isn't worth trying to make changes to his mental health or substance use at this time, nor would he acknowledge how housing case management services could benefit him. He admitted to being in multiple substance abuse treatment programs from 2004 to 2009. The client is often unaware of his symptoms and displays very little insight into their condition. He states having a porn addiction and use it as a coping mechanism. He often misses his medical appointments due to his belief that the government has implanted a chip into his damaged teeth; he is distrustful of medicine in general. As noted by the shelter Case Manager and Social Worker, "the patient has been inconsistent with treatment, and now we are attempting to engage him if</p>
Program does not Provide Level of Service Needed	<p>{redacted client name} has been declined because he wants to have his common-law wife/ex-girlfriend, the mother of one of his children, live with him. He believes he would be able to have her visit for one week, and he would stay with her, and then she would return and visit with him. A description of the size of the studio apartment and the lease agreement was explained to reinforce the unit is for one person. He is recommended for family housing as he was adamant about having his family live with him.</p>
Program does not Provide Level of Service Needed	Many inconsistencies, during the interview process. Provider feels that additional service provision may be in order for this client.
Program does not Provide Level of Service Needed	<p>{redacted client name} denies ever being psychiatrically hospitalized, participating in mental health treatment or prescribed psychotropic medications. It is noted as an adult he has has been hospitalized due to violence towards others,{redacted identifying information}. He reported he was hospitalized four weeks ago for a small seizure but documents note due to poor adherence to seizure medication he is seen in the ER frequently. Seizures exacerbated by his marijuana use; in past he fractures his facial bones during one episode. He denied any history of incarceration, but HRA notes he self-reported multiple arrests for {redacted identifying behavior}, most recent incarceration in {redacted identifying behavior}. He would benefit from a setting where he can receive medication supervision, education, and anger management to reduce/prevent ongoing unintentional and intentional harm to himself and others. He is also not appropriate for {redacted program name} housing based on HRA2010E housing approval indicating no SMI</p>

Program does not Provide Level of Service Needed	{redacted client name} was interviewed on 4/7/22. {redacted client name} was internally pre-occupied, he looked around the room, not making eye contact with interviewers. He laughed inappropriately throughout, and provided none related answers to questions. He reported he took medication named, Pantagee, and he doesn't overdose on alcohol and substance usage. According to documents he has been in the shelter system since 2009 and has been at {redacted program name} since 2018 and is adherent with rules and has had no issues while there. He keeps all appointments with Case Manager and on-site psychiatrist. During psychiatrist visit on {redacted identifying behavior} he was irritable and had paranoid thoughts, and believes he is a doctor. Multiple hospitalization during his thirties. He declines medicine but remains in behavioral control in shelter. He uses alcohol in context of social setting never to point of intoxication. {redacted client name} wasn't able to provide logical, clear answers and appears to be actively symptomatic. He isn't appropriate fo
Program does not Provide Level of Service Needed	{redacted client name} was deceptive in his responses regarding psychiatric hospitalizations and substance use. Tenant had over 30 hospitalizations since 2019 but reported none. Tenant did not report all of the drugs he used as per psychiatric evaluation. Tenant was not accepted. Please note that the tenant was interviewed at 10:00AM.
Program does not Provide Level of Service Needed	{redacted client name} was interviewed and afterward visited another resident in the building. The Security Officers called the cops because {redacted client name} was seen on camera removing his clothes and trying to enter several units.
Program does not Provide Level of Service Needed	{redacted client name} was concerned about moving to Harlem. Her family and support services are all in Brooklyn
Program does not Provide Level of Service Needed	{redacted client name} requires a higher level of housing.

Program does not Provide Level of Service Needed	Program feels this client is not ready for independent living based on interview.
Program does not Provide Level of Service Needed	PsychoSocial recommends onsite psychiatric support and psycho social clubs for candidate.

Program does not Provide Level of Service Needed	recommend higher level of care
Program does not Provide Level of Service Needed	recommend higher level of care
Program does not Provide Level of Service Needed	recommend higher level of care
Program does not Provide Level of Service Needed	Recommended medication management and substances abuse tx, candidate denies the need for tx & refusing. Candidate in need of medication monitoring not offered at facility.
Program does not Provide Level of Service Needed	Rejected - candidate in need of higher level of support, as determination letter indicates he is required for medication management which residence does not offer & candidate disclosed active substance use (crack cocaine and K2) that would endanger the sobriety of current residents
Program does not Provide Level of Service Needed	Rejected - candidate requires medication management per determination letter. Residence does not offer onsite medication management.
Program does not Provide Level of Service Needed	Rejected - candidate requires medication management per determination letter. Residence does not offer onsite medication management.
Program does not Provide Level of Service Needed	Rejected - candidate requires medication management per determination letter. Residence does not offer onsite medication management.
Program does not Provide Level of Service Needed	Rejected - candidate requires medication management, which this residence does not provide. Additionally, candidate denied any psychiatric challenges or need for medication despite documented schizophrenia diagnosis.
Program does not Provide Level of Service Needed	Rejected - candidate requires medication management, which this residence does not provide. Additionally, candidate is actively using illegal substances, which may endanger sobriety of other residents. He expressed he would be unhappy sharing communal spaces, has rage issues, and would be unwilling to go to anger management. He was also not forthcoming about his history of assaults.
Program does not Provide Level of Service Needed	Rejected - determination letter indicates medication management is required, which this residence does not provide. Candidate's paperwork lists current medications: {redacted identifying behavior} Per interviewer: ""Interviewee was asked if he took medication of any kind in which he replied "none". Interviewer reiterated the question in which {redacted client name} reported that the staff members where he was residing administer his medication in the morning and evening hours of the day. Interviewer inquired if he was able to manage his medication on his own. {redacted client name} kindly stated "No, they give it to me because I cannot remember". ""
Program does not Provide Level of Service Needed	Rejected due to various medical/ and mobility challenges/ candidate would benefit from higher level of 24 hr care, possibly assisted living/ nursing home.
Program does not Provide Level of Service Needed	Rejected- Applicant has a history of psychiatric hospitalizations following periods of disengagement from treatment and non-adherence to medications. She would benefit from a setting that can provide more support.

Program does not Provide Level of Service Needed	Rejected. Candidate needs a higher level of care. He was unable to answer questions on his own.
Program does not Provide Level of Service Needed	Rejected. He needs a higher level of care (medication management, meals provided, etc. and we do not offer these services) His preferred borough is Manhattan. Would benefit from onsite psychiatric services. Poor historian and not forthcoming with information.
Program does not Provide Level of Service Needed	Rejected. Needs a higher level of care. He wasn't forthcoming with information and denied history of substance abuse and mental illness.
Program does not Provide Level of Service Needed	Rejected. Needs a higher level of care. He would benefit from a program that has mental health services on site.
Program does not Provide Level of Service Needed	Rejected. Needs mental health services onsite. He also needs medication management. We do not offer such services.
Program does not Provide Level of Service Needed	Rejected. Needs mental health services onsite. He also needs medication management. We do not offer such services.
Program does not Provide Level of Service Needed	Rejected. No insight into mental health and very little period of sobriety. History of paranoia. No psychosocial. Would benefit from higher level of care
Program does not Provide Level of Service Needed	Rejected. Not forthcoming about substance use. Has little insight on mental health. Brooklyn not his preferred location. Please note, the interview time on manifest is 2 PM.
Program does not Provide Level of Service Needed	Rejected. Not forthcoming with information. Needs higher level of care and onsite mental health services. Current mental health not stable. Also, does not like shared spaces and guest policy.
Program does not Provide Level of Service Needed	Rejected. Would benefit from a higher level of care and onsite mental and medical services.
Program does not Provide Level of Service Needed	Rejected. Would benefit from a program for seniors who needs onsite medical care and support of ADL's.
Program does not Provide Level of Service Needed	Rejected. Prefers the Bronx.
Program does not Provide Level of Service Needed	Rejected. We do not currently have any eligible available units and because of his criminal history this is not an appropriate placement. We are in close proximity to a school.
Program does not Provide Level of Service Needed	Rejected: Applicant is not accepted at this time as applicant and referral report an extensive history of violence towards others in the community due to symptoms of Schizophrenia but applicant is noncompliant with any psychiatric treatment or medication.
Program does not Provide Level of Service Needed	REJECTED: Candidate in need of onsite medication management, not offered at facility. Candidate did not like unit size and estimated rent pay amount.
Program does not Provide Level of Service Needed	Rejected: {redacted program name} has a small community of active substance users as well as the surrounding neighborhoods. {redacted client name} severely minimized and denied his substance use placing him at risk of repeated relapses which prevents support staff from providing effective services. It would be at great risk to accept him at this time.
Program does not Provide Level of Service Needed	Requires a higher level of care

Program does not Provide Level of Service Needed	Requires higher level of care
Program does not Provide Level of Service Needed	{redacted client name} needs a higher level of support.
Program does not Provide Level of Service Needed	tenant needed a higher level of services
Program does not Provide Level of Service Needed	tenant needs more support
Program does not Provide Level of Service Needed	Tenant was not ready for this level of housing
Program does not Provide Level of Service Needed	Tenant was not ready for this level of housing
Program does not Provide Level of Service Needed	The applicant is rejected at this time. The applicant has a hx of aggression when he is using substances, is actively using, and is not connected with substance use/mental health treatment.
Program does not Provide Level of Service Needed	The applicant needs more support than can be provided in this setting. Applicant reported frequent hospitalizations for both medical and psych. He would likely benefit from a setting that can provide medication management and appointment reminders.
Program does not Provide Level of Service Needed	The applicant requires services not provided at this level of housing. The client was extremely agitated, paranoid and delusional during the interview.
Program does not Provide Level of Service Needed	The applicant was approved for {redacted program name}.
Program does not Provide Level of Service Needed	The applicant was not forthcoming on hx of suicidal ideations/attempts, hx of substance use, and hospitalizations.
Program does not Provide Level of Service Needed	The applicant was not forthcoming on mental health and substance use hx.
Program does not Provide Level of Service Needed	The client does not have the independent living skills for this level of housing. He will require intensive service.
Program does not Provide Level of Service Needed	The client is in need of a higher level of care, the client presents as a danger to self and others.
Program does not Provide Level of Service Needed	The client is too dependant for Single Room Occupancy independent living
Program does not Provide Level of Service Needed	The client is wheelchair bound. We do not have any accommodating units available.
Program does not Provide Level of Service Needed	The client requires an ADA unit that is not currently available at the SRO.
Program does not Provide Level of Service Needed	The client requires intensive services not provided at this level of housing.

Program does not Provide Level of Service Needed	The client self-disclosed that he is still actively abusing alcohol and cannabis in conjunction with his psychotropic medication regimen. He also self-reported that he does adhere to his psychotropic regimen as prescribed.
Program does not Provide Level of Service Needed	The client thought process was disorganized and extremely difficult to follow. The client requires assistance with ADLs; therefore, the client requires intensive service.
Program does not Provide Level of Service Needed	The program cannot provide the level of service to meet applicants' needs.
Program does not Provide Level of Service Needed	The program's psychiatrist determined that the program does not meet the applicant's needs.
Program does not Provide Level of Service Needed	The psychiatric assessment notes {redacted client name} has negative thoughts; he has periods of hypomanic mood swings where he will engage in risky behaviors such as provoking gang members to attack him, and use excuses to hurt others. He reports he has two personalities, one regular and one very violent, and will kill you. He self-reported being hospitalized in {program name redacted} for violence but continued to minimize it by saying he was just angry and only had a verbal fight. During the interview he admitted to having an argument about two weeks ago due to a shelter peer "being disrespectful by cursing at me for no reason". He responded by cursing back but said no physical fight came from the interaction, and that his last physical fight was five years ago. PSYCKES notes ER visits on {redacted identifying behavior} for lacerations, and {redacted identifying behavior} for a fractured nose. An incident on {redacted identifying behavior} notes he assaulted a staff member at {redacted program name}. He denied any significant arrests and said he has never been inca
Program does not Provide Level of Service Needed	this client is listed as a level 3 sex offender, harming a minor. his prior actions prohibit his acceptance into this program
Program does not Provide Level of Service Needed	This client is too dependant. He needs much more services than we can provide
Program does not Provide Level of Service Needed	This tenant has frequent grand mal seizures and would be better served in a program where she would have a roomnate and medical personal on staff who could quickly assist when needed. This program is not equiped to provide this level of support.
Program does not Provide Level of Service Needed	Throughout the interview, {redacted identifying behavior} and denied all psychotic symptoms, hospitalizations, substance use, suicidal ideation, and incarcerations. Psychiatric assessment dated 04/2021 notes {redacted identifying behavior}. {redacted identifying behavior}. He reports that he doesn't need medications; and currently doesn't take them, long-acting antipsychotics have been recommended. {redacted identifying behavior}. He was in housing with {redacted program name} and reported he tried it out for two months in one 24-hour site and four months in another 24-hour site but believed it wasn't a good fit and left. Psychiatric assessment notes he was discharged due to poor impulse and behavior control and substance us
