PUBLIC NOTICE IS HEREBY GIVEN PURSUANT to law that at a meeting of the Board of Estimate and Apportionment, held February 5, 1915, the following petition was received:

To the Honorable,  
The Board of Estimate and Apportionment of the City of New York.

The petition of the United Electric Service Company respectfully shows:

First: That by a contract between The City of New York and your petitioner dated December 16, 1909, as amended October 29, 1912, The City of New York granted to your petitioner the right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits under the streets and avenues in the Borough of Manhattan and that portion of the Borough of The Bronx lying west of the Bronx River, for the purpose of maintaining and operating an electrical signaling system for the calling of messengers, an electrical burglar alarm system and a fire alarm system, and for no other purpose whatsoever.

Second: That pursuant to the provisions of the said contract, as so amended, the Company has been obliged and required to pay the City the sum of five thousand dollars (\$5,000) within thirty (30) days from the date of the signing of the original contract, and an annual sum which was to be not less than twelve hundred dollars (\$1,200) and which should be equal to two per cent. of its gross receipts if such percentage should exceed the sum of twelve hundred dollars (\$1,200).

Third: That from and after the expiration of five years from the date of the signing of such contract; that is, from and after December 16, 1914, the Company is and will be obligated, should it continue in business, to pay to the City an annual sum of not less than twenty-five hundred dollars (\$2,500), and which shall be equal to three per cent. of its gross receipts if such percentage shall exceed the sum of twenty-five hundred dollars (\$2,500).

Fourth: That your petitioner has complied with the terms of its contract with the City and has paid the minimum annual sums therein required, but such minimum annual sums have greatly exceeded the percentages with which they were to correspond and have actually amounted to approximately four per cent. of the gross receipts of the Company, that the earnings of the said Company during the period it has been operating under its contract with the City have not approximated those contemplated when the said contract was entered into, due to the depressed business conditions existing for upwards of five years past, and that the

prospect of a return to active business conditions, which will justify your petitioner in continuing burdened by the requirements of the said contract, does not seem to be immediate.

Now, therefore, your petitioner respectfully asks that the said contract, as amended, be so modified that it be relieved of the burdens now imposed upon it in the manner and to the extent that your Board may deem just and proper, so that the payments required under the said contract will more nearly and equitably correspond with the return which the Company obtains by conducting the business in which it is engaged.

PUBLIC NOTICE IS HEREBY GIVEN PURSUANT to law that at a meeting of the Board of Estimate and Apportionment, held January 29, 1915, the following petition was received:

Your petitioner, Degnon Terminal Railroad Corporation respectfully presents as follows:—  
FIRST:—It is a railroad corporation duly organized and existing under the laws of the State of New York for the purpose of operating a railroad for the transportation of freight only between Pearson Street and School Street in the Borough of Queens, in the City of New

York, with lateral switches or sidings running into adjacent blocks. The entire line of your petitioner is on private property except that at certain places it goes across public streets.

Your petitioner has heretofore duly obtained a certificate of public necessity and convenience as required by law and has heretofore obtained a franchise from the City of New York to cross the streets lying on its route under a certain contract dated June 12th, 1914, and has thereafter duly obtained the approval of the Public Service Commission for the First District of the said franchise and permission to operate its railroad, and also a determination that the said streets should be crossed at grade, all as provided by law.

SECOND:—The railroad of your said petitioner is laid out to serve a territory which at the present time is undeveloped and unoccupied with the exception of one small building, and with the exception of two blocks which are occupied by the Loose-Wiles Biscuit Company. The said Loose-Wiles Biscuit Company is the only occupant of the territory served by your petitioner, which requires regular freight service of your petitioner. Two other buildings are in course of erection, one immediately adjacent to the Loose-Wiles Biscuit building and the other a building near the Western terminus of your petitioner.

In the said contract or franchise from the City of New York to your petitioner dated the 12th day of June, 1914 there is contained the following provision:—

"Fourteenth—During the period prior to January 1, 1916, cars may be operated upon said tracks by steam locomotives which shall be housed or boxed so as to conform with the type commonly known as the 'dummy engine'. On or before January 1, 1916, the Company shall discontinue the use of said 'dummy steam locomotives and operate said tracks by electric power or any other motive power which may be approved by the Board and consented to by the abutting property owners in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York. It is understood, however, that no overhead wires except trolley wires shall be permitted for the operation of said tracks by the electric power."

At the time this franchise was accepted with this provision it was expected that the development of this tract would be so rapid as would justify and require the introduction of electric motive power by the year 1916, but due to the European War and general financial depression the development of this section has been greatly retarded and there will be no need or demand for the introduction of electric motive power within several years, nor will the traffic conditions justify the installation of such power. The operation of the railroad for the next several years will in no wise pay expenses; the estimated returns being insufficient even to pay the franchise charges of the City of New York, irrespective of any fixed charges for right of way or capital invested. The installation of electric equipment including trolley wires and feed wires across the streets covered by the route of your petitioner would, in the opinion of your petitioner, constitute a considerable encumbrance to the building operations now in course of progress and the further building operations that will be necessary before there will be any considerable volume of traffic to be served by your petitioner.

It is necessary for your petitioner now to make its plans for its motive power for the next three years.

Your petitioner therefore requests that an extension of time be given to your petitioner for the operation of said tracks by steam locomotives as provided in the said paragraph "Fourteenth" of its said franchise from the City of New York, to the first day of January, 1918.

Your petitioner presents herewith the consents of all the property owners abutting on the lines of your petitioner now operated or that will in any event be operated prior to January 1st, 1918 joining in the request of your petitioner for this extension of time.

And your petitioner will ever pray.

Dated, New York, January 26th, 1915.

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in

the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All turnings, plaster, chimneys, protecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-ends, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.
