

# Bike Share Usage Data Report

Q4 2016

## Bike Share Usage Data

---

Local Law 099 of 2015 requires the NYC Department of Transportation (NYCDOT) to compile and report on bike share usage data quarterly, beginning January 1, 2016.

This document contains the number of Citi Bike trips in New York City, disaggregated by month, quarter, and year; and further disaggregated by council district and community district for the reporting period of October 1, 2016 to December 31, 2016. During this period there were 3,582,408 Citi Bike trips in New York City.

The information in this report was taken from the Citi Bike program database. Please note, due to a minor data discrepancy a larger number of trips than usual are not associated with a particular station. DOT and Motivate are working to resolve this discrepancy. This report includes only trips taken by customers from publicly available stations that are longer than 60 seconds in duration. Disaggregation by time period is based on the start time of each trip.

For more information on bike share in New York City or to access Citi Bike usage data, such as detailed trip histories, visit <http://www.nyc.gov/html/dot/html/bicyclists/bikestats.shtml> under "Bike Share Trip Histories."
