BROADWAY-LEXINGTON AVENUE RAPID TRANSIT ROUTE—DISPOSITION OF EXCAVATED MATERIAL—COMMUNICATION TO COMMISSIONER OF DOCKS AS TO USE OF PIERS

On motion, duly seconded, the Secretary was directed to transmit the following form of communication to Calvin Tomkins, Commissioner of Docks of New York City:

April, 1910

HON. CALVIN TOMKINS, Commissioner of Docks, Pier “A,” New York City.

DEAR SIR:—In connection with the plans for the proposed new subways the question of the disposal of excavated material becomes one of great importance. For this reason I am directed by the Commission to bring to your attention the suggestions of the Engineering Department of the Commission relative to the location of docks convenient to the construction work and to suggest that, if consistent with the plans of your Department, endeavor be made to keep open piers as indicated. The division of territory and general location of docks as indicated by the engineers are as follows:

Territory	River and Number of Docks
South of Canal Street	One or two docks on East or North River
Between Canal and 14th Streets	One dock on East River
14th-42d Streets	One on East River
42d-68th Streets	One on East River
68th-94th Streets	One on East River
94th-116th Streets	One on East River
Above 116th Street	One on Harlem or East River
North of Harlem River in Bronx, between 154th Street on Jerome Avenue branch and St. Mary's Street on Southern Boulevard branch	{ One dock on north shore of Harlem River and One on East River

Enclosed is a sketch of the Broadway-Lexington Avenue route, with the territorial sections mentioned above marked off in pencil.

It would be a great favor to the Commission if you could shortly indicate the location of any docks within these territorial limits that could be assigned to contractors for their use in disposing of excavated material, in order that in the invitation to bidders which will shortly be advertised such docks might be mentioned and thus be made an important element in the amount of the bids offered for construction work.

Very truly yours,

Secretary.

Commissioner Maltbie, in voting for the above resolution, said that his vote should not be taken as expressing entire approval.

Commissioner Bassett, in voting against the above resolution, submitted the following memorandum:

The Rapid Transit Act requires the Public Service Commission to set a date for a public hearing upon the proposed terms and conditions of any contract for subways before finally fixing such terms and conditions, and inasmuch as I do not assent to the proposed terms and conditions in some important particulars I desire to state my objections in writing.

The form of contract proposed may be simply described as follows: The city proposes to allow a contractor to build a subway system for the city. The contractor, however, is to use his own money to construct and equip it and not the city. Although the contractor pays for it the city will own it from the very beginning. Of course the contractor will not present the city with a subway system without some recompense, and this recompense is to be the privilege of operating the subway for a term of years. Bids are to be asked not on cost to construct but on the term of the operating contract, and presumably the bidder offering the shortest term will, if other features of the bid are acceptable and the shortest term not too long, receive the privilege to construct, equip and operate the subway system.

The cost of the system to him and the prospects of earning are therefore all important. If the city hopes to get bidders the plan proposed must be attractive.

The form of contract proposed will require the contractor to build the Broadway-Lexington, Broadway-Lafayette and Canal Street trunk lines, and also two long branches in The Bronx, one leading to Pelham Bay and the other to a point near the Westchester County line, and in Brooklyn to build two suburban branches of the Fourth Avenue Subway, one to Fort Hamilton and the other to Coney Island. These branches will increase the cost of construction a great many millions of dollars.

The trunk line portions of the subway system, carrying, as they will, a fairly short haul traffic, will be the earning part of the system. They must not only earn enough to pay operating expenses and interest on themselves, but must earn enough more to make good the losses that will accrue from the operation of the four suburban branches. If this system is to be operated as contemplated at a flat rate fare of five cents, then the long distance riders will be carried at a loss, which loss must be made up at least for many years by the short distance riders. Bion J. Arnold, an expert engineer in rapid transit operation, reported to the Commission about a year and a half ago that riders on the Interborough subway who travel more than five and one-half miles were carried at a loss, which loss was made up by the short riders.

Whether the four suburban branches would ever earn enough at a five-cent fare to carry themselves without the help of the profitable short distance traffic of the trunk lines is doubtful. Increase of traffic on the branches means more loss instead of more profit if each long distance passenger is carried at a loss.

The present addition of these four suburban branches renders the proposition much less attractive to bidders than it would be if they were left off.

The assessment provisions of the Rapid Transit Act provide a method of building suburban branches that is fair to all suburban districts and attractive to the operator of a subway system. These provisions make it possible for the city to assess in whole or part the cost of a rapid transit line on the property benefited. It is attractive to the operator because he does not have to pay the cost out of his own pocket and when a suburban branch is handed over to him by the city for limited term operation he is

partly or wholly relieved from earning interest and sinking fund on that branch. The assessment method is fair to all suburban localities alike because those outlying localities that need transit the most will be the most willing to be assessed, and the benefits of the low fare and of the city's trunk subways will be conferred on the deserving localities rather than upon those localities that have sufficient influence to obtain free extensions.

The assessment plan affords a method of projecting the radius of the five-cent fare further than otherwise.

There are districts other than those penetrated by the four suburban branches above referred to that are equally populous and some of them are nearer to the center of the city.

The proposed form of contract should not compel the contractor to build the two suburban branches in The Bronx and the two suburban branches in South Brooklyn, but in lieu thereof the contractor should be compelled to operate without additional fare such branches as the city may build. The city can then employ the assessment plan to any extent that it wishes. It is my opinion that in the proportion that localities are distant from the center of the city and are sparsely built up the assessment plan should be applied.

The city confers a special privilege on an outlying district if it donates the benefit of its short haul trunk line traffic upon that district under compulsion of an operating contract quite as much as if it uses its own money to build the outlying subway. The proposed form of contract donates the entire benefit of the short haul traffic of this system to two special suburban localities, South Brooklyn and The Bronx. Not only are other localities equally deserving left to be built by the assessment plan, but after they are once built by the assessment plan there is no sufficient provision that the operator of the system will allow their passengers to travel through the trunk lines at a single fare. There is an attempt made in the form of contract to provide that the contractor shall operate future proper branches or connections. This is the provision:

Article CXXX. The Contractor further agrees (which agreement is one of the principal moving considerations to the City in making this contract) to equip and operate or to provide rolling stock and operate the same through any railroad or railroads constructed by or on behalf of the City which, in the opinion of the Commission, are proper extensions of the Railroad. Provided, however, that if the Contractor's share (provided for in Paragraph 10 of Article LXXXIV) from the Railroad including the extension shall by reason of the operation of such extension or extensions be reduced to less than six (6) per centum the City shall make up such deficiency to the Contractor.

As I have shown above, suburban subways are operated at a loss, which loss needs to be made good by the short distance riders. There will be no short distance traffic to help out the new branches. It has all been donated to the four favored branches referred to. On the one hand this attempted provision drives away bidders. On the other it attempts to obligate the city to make good to the contractor any deficit on the new branch lines. Under existing law the city has no power to make good a deficit incurred by an operating company, and it is doubtful whether the city will desire or the Legislature will pass an amendment to accomplish this.

To conclude, it is my opinion that the proposed form of contract is not as attractive to bidders as it should and could be made with entire safety to the city's interest, and that it is not fair to the various suburban districts that will look to these trunk lines to reach the center of the city. For these reasons I vote against putting it out as the Commission's proposed form of contract.

The form of notice referred to in the above resolution was as follows:

Notice is hereby given that a public hearing upon the proposed terms and conditions of the contract for the construction, equipment, maintenance and operation of a proposed Rapid Transit Railroad hereinafter described, will be held at the rooms of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, New York City, on the 9th day of May, 1910, at 2:30 o'clock in the afternoon.

Copies of the drafts of the said contract may be obtained at the office of the Commission on and after Saturday, April 23, 1910, for one dollar each.

Such Rapid Transit Railroad, as contemplated by the draft of such contract, may briefly be described as follows:

A part beginning at a point under Battery Park, near the water-front, in the Borough of Manhattan, and extending thence under Greenwich Street, Church Street, Vesey Street, Broadway, private property, Irving Place and Lexington Avenue to the Harlem River; thence under the Harlem River and private property to One Hundred and Thirty-fifth Street and Park Avenue, in the Borough of The Bronx, where the line divides. The east side branch extending under Park Avenue and private property to One Hundred and Thirty-eighth Street; thence under One Hundred and Thirty-eighth Street, Southern Boulevard and Whitlock Avenue to a point in private property south of Westchester Avenue, where the line emerges and becomes an elevated railroad; thence continuing along Whitlock Avenue and Westchester Avenue to Pelham Bay Park. The west side branch, beginning at One Hundred and Thirty-fifth Street and Park Avenue, and extending thence under private property, Mott Avenue, Franz Sigel Park and private property to a point in private property near River Avenue and One Hundred and Fifty-seventh Street, where the line emerges and becomes an elevated railroad; thence continuing along River Avenue and Jerome Avenue to Woodlawn Road.

Another part in the Borough of Manhattan, commencing at a point under Canal Street, near Chrystie Street, and extending westerly under Canal Street to a point near West Street.

Another part in the Borough of Brooklyn, beginning in Fourth Avenue, near Forty-third Street, and extending thence under Fourth Avenue to Fort Hamilton; and another portion beginning at Fourth Avenue, near Fortieth Street, and extending thence under Fortieth Street, New Utrecht Avenue and Eighty-sixth Street to a point between Twenty-third and Twenty-fourth Avenues, where it emerges from the ground and becomes an elevated railroad; thence continuing over Eighty-sixth Street and Stillwell Avenue to Coney Island.

Another part in the Borough of Brooklyn beginning at the Brooklyn terminal of the Williamsburg Bridge and extending under the plaza of the Williamsburg Bridge, private property and Broadway to a point between Kossuth Place and Lafayette Avenue.

Another part in the Borough of Brooklyn, beginning under Fulton Street, near Ashland Place, and extending thence under Fulton Street, Lafayette Avenue and Kossuth Place to Bushwick Avenue.

Another part, beginning at a point near the intersection of Ashland Place and Fulton Street, in the Borough of Brooklyn, and extending thence under Ashland Place, crossing under other streets, to Fourth Avenue, and thence under Fourth Avenue to a point near Forty-third Street.

Another part in the Boroughs of Manhattan and Brooklyn, beginning at a point near the intersection of Fulton Street and Ashland Place, and extending thence under Fulton Street, Flatbush Avenue extension and over the Manhattan Bridge; thence under Canal Street, Howard Street and Centre Street, in Manhattan, to the Manhattan end of the Brooklyn Bridge, with a branch beginning at the Brooklyn end of the Williamsburg Bridge and extending thence over Williamsburg Bridge to the Borough of Manhattan; thence under Delancey Street and Centre Street to a connection with the branch last above described under Centre Street, near Howard Street.

#### TRI-BOROUGH RAPID TRANSIT RAILROAD—RESOLUTION DIRECTING HEARING ON FORM OF CONTRACTS FOR CONSTRUCTION BY SECTIONS

The Secretary presented a communication dated April 21, 1910, from the Counsel to the Commission, transmitting the following form of resolution, the adoption of which was thereupon moved and duly seconded:

**RESOLVED:** That before finally fixing the terms and conditions of the contracts for the construction by sections of a proposed Rapid Transit Railroad hereinafter described, a public hearing upon the proposed terms and conditions thereof shall be held on the 16th day of May, 1910, at the offices of the Commission at 2:30 o'clock in the afternoon, at which citizens shall be entitled to appear and be heard, and that the

Secretary be and he hereby is directed to cause a notice thereof to be published in the City Record on April 22, 1910, and daily thereafter in such City Record up to and including the date of such hearing, and on Monday, May 2d, Wednesday, May 4th, Monday, May 9th, and Wednesday, May 11th, in the New York World, the New York Evening Globe, the Brooklyn Standard Union and the Brooklyn Citizen, daily newspapers published in the City of New York, and that such notice shall state that copies of such draft contract may be obtained on and after Saturday, April 30, 1910, at the offices of the Commission on payment of the fee of one dollar for each copy.

Such Rapid Transit Railroad may briefly be described as follows:

A part beginning at a point under Battery Park, near the water-front, in the Borough of Manhattan, and extending thence under Greenwich Street, Church Street, Vesey Street, Broadway, private property, Irving Place and Lexington Avenue to the Harlem River; thence under the Harlem River and private property to One Hundred and Thirty-fifth Street and Park Avenue, in the Borough of The Bronx, where the line divides. The east side branch extending under Park Avenue and private property to One Hundred and Thirty-eighth Street; thence under One Hundred and Thirty-eighth Street, Southern Boulevard and Whitlock Avenue to a point in private property south of Westchester Avenue, where the line emerges and becomes an elevated railroad; thence continuing along Whitlock Avenue and Westchester Avenue to Pelham Bay Park. The west side branch beginning at One Hundred and Thirty-fifth Street and Park Avenue and extending thence under private property, Mott Avenue, Franz Sigel Park and private property to a point in private property near River Avenue and One Hundred and Fifty-seventh Street, where the line emerges and becomes an elevated railroad; thence continuing along River Avenue and Jerome Avenue to Woodlawn Road.

Another part in the Borough of Brooklyn, beginning under Fulton Street, near Ashland Place, and extending thence under Fulton Street, Lafayette Avenue and Kossuth Place to Bushwick Avenue.

Ayes—Commissioners McCarroll, Maltbie, Eustis.

Nays—Commissioner Bassett.

Carried.

Commissioner Maltbie, in voting for the above resolution, said that his vote should not be taken as expressing entire approval.

Commissioner Bassett, in voting against the above resolution, submitted the following memorandum:

This proposed form of contract is for the building with city money the Broadway-Lexington, Broadway-Lafayette and Canal Street trunk lines, and also the two suburban branches in The Bronx and the two suburban branches in South Brooklyn. Sections averaging about \$3,000,000.00 each will be put up for bidders, and presumably there will be a considerable number of successful bidders as each section will be bid upon separately.

In my opinion the two branches in The Bronx and the two branches in South Brooklyn should not, at least at this time, be put up for bids to be built with city money. The amount of money that now seems available for these purposes is not sufficient to build all of these lines, and it seems to me that the suburban branches should be taken out of this bidding on that account if for no other. If it is still insisted that these branches be built with city money, it can be done at a later time because the trunk subway sections being more difficult will take a longer time to complete.

In addition to the foregoing reasons it seems to me that we should not ask for bids to build these four suburban branches with city money until the preliminaries provided in the Rapid Transit Act for construction in whole or part by assessment have been complied with. If bids are received now on these outlying sections it appears to me that they will all need to be held over a long while, or else thrown out. Because if these branches are built on the assessment plan there must be a joint hearing, as provided by law, before the Board of Estimate and Public Service Commission, the probable cost must be computed, the assessment laid and the bonds sold before the construction contracts can be let.

Accordingly it would appear that whether the city is to build these branches with its own money or is to have them built on the assessment plan, there is no need of letting these contracts now.

I deprecate asking for bids for construction only until the success or failure of the plan for construction, equipment and operation has been ascertained. My reason for this is that if a contractor or contractors bid in earnest for construction, equipment and operation they will look to much the same body of men for subcontractors as the bidders for city construction with city money will be. If the two sorts of bids are received before the outcome of the letting for construction, equipment and operation is known there will be a tendency for the bidders for construction by the city not to put in as low bids as they would if the letting for construction, equipment and operation was not pending. In other words, I think bids most favorable to the city will be received if the highest degree of simplicity and concentration can be obtained upon each of the two forms.

The form of notice referred to in the above resolution was as follows:

Notice is hereby given that a public hearing upon the proposed terms and conditions of the contracts for the construction of a Rapid Transit Railroad hereinafter described shall be held at the rooms of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, New York City, on the 16th day of May, 1910, at 2.30 o'clock in the afternoon.

April , 1910

Board of Estimate and Apportionment, City Hall, New York City.

GENTLEMEN:—On July 21, 1909, your Honorable Board appropriated the sum of \$550,000.00 to meet the expense of making contemplated changes in the Chambers Street station of the Brooklyn Loop Lines, and \$325,000.00 for strengthening the roof of the subway on land owned, or to be acquired, by the city so that large modern buildings could be erected thereon. The total extra appropriation was \$875,000.00. Part of the said amount of \$550,000.00 was needed on account of certain changes in lowering the station as originally planned, substituting mezzanine floors for the underpassageways and the construction of the so-called Duane Street off-line sewer. The balance of the said \$550,000.00 was needed for the contemplated enlargement of said station from a four-track to a six-track station. It was also stated to your Board in

our application of February 15, 1909, that for the purpose of enlarging the station to a six-track station it would be necessary to acquire additional real estate, estimated at \$1,000,000.00.

The contractor in charge has performed part of the work for which the extra sum of \$550,000.00 was appropriated. The Duane Street off-line sewer has been practically completed. The general work of constructing the Chambers Street station, however, was stopped at the request of Mayor McClellan, made under date of May 12, 1908, pending the insertion of the foundations for the Municipal Building. A further part of the appropriation of \$550,000.00 will be needed for the lowering of the station, including the construction of mezzanine floors, etc.

Further studies of the situation and of the questions involved in the enlargement of this station, coupled with the investigation of the amount of additional real estate to be taken and the cost of underpinning buildings, have convinced the Commission that it is possible and advisable to postpone the enlargement from a four-track to a six-track station. The foundations of the Municipal Building are being placed so that at some future time if it becomes desirable the station can be so enlarged, but for the present it is deemed best not to purchase or acquire the additional real estate needed if the station is enlarged, and which might cost on condemnation as much as \$1,500,000.00. It is probable that a small amount of additional land will still need to be taken, but it will be insignificant as compared with the very large amount of land covered with buildings that would need to be taken if the larger project were carried through. This action will also make it possible to save for the present at least a portion of the extra appropriation of \$875,000.00.

The Commission desires to apprise you of this situation, inasmuch as it indicates a substantial modification of plans heretofore submitted to and approved by your Board. So soon as the amount of the unused balance of the \$875,000.00 appropriation is definitely known the Commission will communicate with your Board in order that you may then take whatever action seems proper as to such appropriation.

Yours very truly,

Chairman.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

The walls shall be made permanently self-supporting, beam-holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the parts of machinery included therein, or to reject any and all bids; and it is further

Being the one-story building and all its appurtenances situated on the southeast corner of Atlantic and New York avenues, particulars of which may be obtained at the office of the Collector of City Revenue, Department of Finance, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held March 16, 1910, the sale by sealed bids of the above described building and appurtenances thereto will be held by direction of the Comptroller on

**THURSDAY, MAY 26, 1910,**

at 11 a. m., in lots and parcels and in manner and form as follows:

Parcel No. 1. One-story corrugated iron building and appurtenances thereto on the southeast corner of Atlantic and New York avenues.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 26th day of May, 1910, and then publicly opened for the sale for removal of the above described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

## TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

Failure to remove said appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such appurtenance; or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

The walls shall be made permanently self-supporting, beam-holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
