Minutes of Meeting of the Municipal Civil Service Commission of New York, Held at the Offices of the Commission, No. 299 Broadway, on Tuesday, February 1, 1910, at 10 o'clock a. m.

Present—President John C. McGuire and Commissioners Richard Welling and Alexander Keogh.

The President, Mr. John C. McGuire, presided.

On the recommendation of the Committee on Transfers, the following transfers were approved:

James F. Lynch, from the competitive position of Clerk, at a salary of \$3,000 per annum, in the Department of Street Cleaning, Borough of Manhattan, to the exempt position of Deputy Commissioner, at a salary of \$5,000 per annum (Rule XIV, paragraph 3).

Michael Kennedy, from the position of Assistant Foreman to that of Laborer in the Department of Water Supply, Gas and Electricity.

Henry Duffy, from Assistant Foreman to Laborer in the Department of Water Supply, Gas and Electricity.

On the recommendation of the Committee on Transfers, the following transfer was disapproved:

Edward Drennan, from the position of Foreman in the office of the President of the Borough of Brooklyn, to that of Foreman in the office of the President of the Borough of Queens, there being a preferred list for the latter position.

On the recommendation of Commissioner Keogh, the Committee on Appeals, the appeal of James H. McDonald, for a rerating of his report in the examination for Inspector of Supplies and Repairs was denied.

On motion, it was

Resolved, That the Secretary communicate with the heads of the various Bureaus in the office of the Commission and request suggestions as to any changes or modifications in the regulations that may seem necessary or desirable.

Commissioner Keogh was appointed a Committee of One to recommend such changes or modifications in the Rules as he might think necessary.

On motion, it was

Resolved, That the eligible list of Morgue Keeper, resulting from the examination held on December 28, 1909, be and the same hereby is established as of January 18, 1910, the date on which the rating of the papers was completed.

On the recommendation of the Chief Examiner, the following orders were issued:

- That direct information to candidates or persons not in the employ of the Commission, other than regular official notices, should in no case be given from the Computing Office except by order of the Commission or of a Commissioner.
- That visitors or callers should not be admitted to the rooms assigned to the Examiners, all such visitors or callers to be received in Room 1109 only.

A report was presented from the Labor Clerk, dated January 31, 1910, stating that on January 24 he had received a notice from the President of the Borough of Queens of the suspension of several hundred Laborers, among whom were some veteran volunteer firemen, and requesting instructions as to whether in preparing the preferred list the veteran volunteer firemen should be given preference. After consideration of the matter, the Secretary was directed to state that the Commission was of the opinion that the Civil Service Law contemplated giving no preference for appointment to veteran volunteer firemen.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in Charge of Promotions, dated January 28, 1910, relative to the request of the Clerk of the Court of Special Sessions, First Division, that Mr. Arnold J. Wisch, who had been appointed a Court Stenographer on September 24, 1908, at a salary of \$1,500 per annum, be granted a promotion examination "to qualify him to receive a salary in the grade up to \$2,400." The report stated that Mr. Wisch would not be eligible for a promotion examination until September 24, 1911. The request was denied for lack of power.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in Charge of Promotions, dated January 31, 1910, relative to the case of Miss Anna Albert, of No. 333 Wyona street, Brooklyn, a candidate in the examination for promotion to Third Grade Stenographer and Typewriter, Law Department, held on January 25, 1910. The report stated that Miss Albert had signed her name to the letter, which was one of the subjects of the examination, and that she had been informed on the day of the examination that on that account her papers would not be rated, but that on January 28, 1910, the President of the Commission had instructed the Examiner in charge of the examination papers to erase Miss Albert's name from the paper in question in order that the Examiners would have no knowledge of her identity, which instruction had been carried out. The action of the President was approved.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in Charge of Promotions, dated January 31, 1910, relative to a communication from Jacob Salzman, a candidate for promotion to Third Grade Clerk in the Bureau of Buildings, Borough of Brooklyn, who had been disqualified from taking the second part of the examination, owing to the fact that he had placed his examination number on his papers. The matter was laid over.

A report was presented from Mr. James A. Rafferty, Examiner, dated January 10, 1910, in relation to the case of John Nicholas Cullen, of Blue Point, L. I., who had been appointed as a Temporary Clerk in the Board of Elections and in the Department of Taxes and Assessments from the eligible list of Junior Clerk. The report stated that Mr. Cullen had given the date of birth in his application as April 9, 1887; but in the declaration sheet furnished at the time of his appointment as April 9, 1888; that, upon request, the candidate had produced a baptismal certificate of St. Cecilia's Church, Brooklyn, which gave his name as Nicholas John Cullen and the date of birth as April 9, 1887, but that the date showed clearly that it had been changed; that on December 24, 1909, a communication was addressed to the pastor of the church

asking whether Cullen had been born on April 9, 1888, to which an affirmative answer had been received. After consideration of the matter, it appearing that Cullen had failed to answer a communication addressed to him on January 21, 1910, requesting him to explain the discrepancy in the dates given, the Secretary was directed to place his name upon the blacklist.

Reports were presented from Mr. James A. Rafferty, Examiner, dated January 26 and 27, 1910, recommending that the following named applicants for the position of Fireman be marked qualified on the eligible list:

Gustave E. Follmer, No. 734 Jefferson avenue, Brooklyn.

William H. Jarvis, No. 147 Court street, Brooklyn.

The recommendation was adopted.

A communication was presented from the Secretary of the Borough of Manhattan, dated January 28, 1910, citing a number of employees of that Department whose titles had been changed and whose salaries had been reduced to take effect January 1, 1910, "in order to comply with the Budget." The Secretary was directed to state that before the Commission could recognize the changes in designation and reduction of salary, it would be necessary to secure the consent of the persons affected.

A communication was presented from Mr. E. W. Bemis, Deputy Commissioner of the Department of Water Supply, Gas and Electricity, dated January 28, 1910, with further reference to his request for authority to continue the services of Miss Elizabeth Rinn, Temporary Clerk, until April 30, 1910, transmitting a copy of a communication from Deputy Commissioner William C. Cozier, explaining the nature of the work upon which Miss Rinn had been engaged and stating that the same was nearing completion. After consideration of the matter, the request was granted.

A communication was presented from Mr. E. W. Bemis, Deputy Commissioner of the Department of Water Supply, Gas and Electricity, dated January 22, 1910, stating that John Carroll, who had been formerly employed in the Department, Borough of Manhattan, as an Inspector of Meters and Water Consumption and who had been removed on January 15, 1909, for absence without leave, had been reassigned to duty. The Secretary was directed to note the reassignment on the records of the office.

On motion, it was

Resolved, That Dr. W. H. Wright, of No. 72 Third street, Long Island City, be and he hereby is excepted from examination, in accordance with the provisions of paragraph 6 of Rule XII, to serve as Veterinarian in the office of the President of the Borough of Queens from time to time during the year 1910; provided, however, that his total compensation shall not exceed \$100.

A letter was presented from the Comptroller, dated January 24, 1910, requesting approval of the emergency appointment of Miss Reba L. Prall, of No. 203 Hewes street, Brooklyn, as Stenographer and Typewriter in his Department, at a salary of \$15 a week, for a period of fifteen days, taking effect January 25. The request was granted in accordance with paragraph 4 of Rule XII.

The Commission then considered a letter addressed to his Honor the Mayor under date of January 31, 1910, by Mr. Francis V. S. Oliver, Jr., Chief of the Bureau of Licenses (and subsequently referred to the Commission for consideration), in which it was requested that the position of Chief of the Bureau of Licenses be placed in the exempt class. On motion, the Secretary was directed to advertise a public hearing on the proposed amendment of the classification.

The appointment of Patrick Loftus, of Cornwall-on-Hudson, N. Y., as a Mining Foreman in the Board of Water Supply was approved under the provisions of paragraph 7 of Rule XII.

A communication was presented from Edward J. McGoldrick, Esq., Assistant Corporation Counsel, Albany, N. Y., dated January 29, 1910, transmitting for consideration by the Commission, copies of Legislative bills Nos. 180, 199, 221 and 244. The Secretary was directed to reply to the communication and state that the Commission could see no objection to the proposed legislation.

A communication was presented from G. L. Sterling, Esq., Acting Corporation Counsel, dated January 31, 1910, in reply to a letter of May 7, 1909, from the Commission requesting an official opinion as to whether the resolution adopted on February 10, 1909, extending the period during which twenty-two former employees of the New York and Brooklyn Bridge might be reinstated in the City service, had been "legally adopted" in view of the question raised by the Civil Service Reform Association of New York and the State Civil Service Commission as to whether a public hearing should not have been had in accordance with Rule III, as the action of the Commission in the opinion of those bodies constituted an amendment to the Civil Service Rules. The communication stated:

"The letter states that it is the opinion of the Commission that the resolution above quoted was not an amendment within the meaning of the above quoted portion of Rule III, and therefore a public hearing was not necessary, the argument being that the rules were merely suspended in a particular case and that no general amendment was intended."

"I agree with the contention of the Municipal Commission that its action in relation to the reinstatement of the men mentioned in your letter was not by virtue of any amendment of any rule of the Municipal Civil Service Commission."

"In the Century Dictionary, one of the definitions of the verb 'amend' is 'to make a change or changes in the form of, as a bill or motion, or a constitution'; and one of the definitions of the word 'amendment' is 'in deliberative assemblies, an alteration proposed to be made in the draft of a bill, or in the terms of a motion under discussion.'"

"It has been held in the case of Falconer vs. Robinson, 46 Ala., 340, at page 348, that a law is 'amended' when it is in whole or in part permitted to remain and something is added to or taken from it, or it is in some way changed or altered to make it more complete or perfect or to fit it the better to accomplish the object or purpose for which it was made or some other object or purpose."

"It is very evident that where the form of the rule is untouched, no action that is taken under it can be said to amend it."

"I am, therefore, of the opinion that there was no necessity for your advertising a public hearing upon your proposed suspension of the rules under clause 4 of Rule III. of the Municipal Civil Service Rule quoted in your letter."

"In giving you this advice, however, I do not wish it to be considered as passing upon the power of the Municipal Commission to suspend the rule in regard to the reinstatement of men who have been more than a year outside of the City's service, as you have stated has been done."

The Secretary was directed to transmit a copy of the communication to the State Civil Service Commission and the Civil Service Reform Association for their information.

A letter was presented from Sergeant John T. Nilon, President of the Sergeants' Benevolent Association, dated January 28, 1910, stating that the next regular meeting of the Association would be held at Union Square Hall, Borough of Manhattan, at 4 p. m. on Wednesday, February 2, 1910, and that immediately following the transaction of routine business the Association would be glad to receive a representative from the Commission to discuss the methods of rating the examination for promotion to Lieutenant of Police. The Secretary was directed to reply to the letter and state that the Commission did not find it convenient to have a representative attend the meeting and to suggest that a committee call at the office of the Commission, where the records of the examination were on file, and where illustrations of the method of rating could be given.

On the recommendation of Commissioner Keogh, to whom the matter had been referred for consideration, the proof submitted by Leo Mahler, an applicant for Patrolman, as to the date of his birth, was accepted. The Secretary was authorized to permit the applicant to correct the date of birth given in his application in error.

The Commission then adjourned to meet Wednesday, February 2, 1910, at 10 o'clock a. m.

F. A. SPENCER, Secretary.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened April 13, 1910," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date, to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to

the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates, in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
