DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET,
NEW YORK, October 28, 1885.

Hon. WM. R. GRACE, Mayor, and Chairman Board of Estimate and Apportionment:

SIR—Under the provisions of section 5, chapter 174, Laws of 1885, provision is to be made by the Board of Estimate and Apportionment for any deficiency in the "Fund for Local Improvements" required to pay for the expense of local improvements under contract, and of such as it may, in the discretion of the Board be necessary or desirable to undertake in the ensuing year. For the information of the Board in the consideration of this matter I transmit the following statements:

First—List of existing contracts for local improvements, and estimated cost of amounts due, or to become due, in the completion of the same.

Second—List of improvements directed to be made by ordinance of the Common Council, including pavements, regulating, grading, curbing and flagging streets and sidewalks, and fencing vacant lots.

Third—List of sewers which are necessary to be built for local drainage and for the protection of the public health.

Very respectfully,

ROLLIN M. SQUIRE, Commissioner of Public Works.

The Comptroller presented the following Departmental Estimates for the year 1886:

ESTIMATES OF THE DEPARTMENTS, BOARD OF EDUCATION, JUDICIARY, AND OFFICERS OF THE CITY OF NEW YORK, INCLUDING VARIOUS CHARITABLE INSTITUTIONS, FOR THE YEAR 1886.

At a meeting of the Board of Estimate and Apportionment, created by chapter 335 of the Laws of 1873, held August 7, 1885, the following preamble and resolutions were adopted, to wit:

Whereas, Section 189 of the New York City Consolidation Act of 1882 provides as follows: "The Mayor, Comptroller, President of the Board of Aldermen, and the President of the Department of Taxes and Assessments shall constitute the Board of Estimate and Apportionment."

"The said Board shall, annually, between the first day of August and the first day of November, meet, and, by the affirmative vote of all the members, make a provisional estimate of the amounts required to pay the expenses of conducting the public business of the City and County of New York, and each department and branch thereof, and of the Board of Education for the then next ensuing financial year."

"For the purpose of making said provisional estimate, the heads of departments and the Board of Education shall, at least thirty days before the said provisional estimate is required to be made as herein provided, send to the Board of Estimate and Apportionment an estimate, in writing, herein called a Departmental Estimate, of the amount of expenditure, specifying, in detail, the objects thereof, required in their respective departments, including a statement of each of the salaries of their officers, clerks, employees and subordinates."

"The same statement as to salaries and expenditure shall be made by all other officers, persons and boards having power to fix or authorize them."

"A duplicate of these Departmental Estimates and statements shall be made at the same time to the Board of Aldermen."

Resolved, That the Comptroller request the heads of all the Departments, and the officers of the City and County of New York, to send their Departmental Estimates for the year 1886, in conformity to the foregoing provisions of law, to the Board of Estimate and Apportionment, on or before September 30, 1885.

Resolved, That the officers of all institutions which may be entitled by law to allowances of money from the City and County of New York, be also requested by the Comptroller to send their estimates for the year 1886 to this Board, on or before September 30, 1885.

A copy of the foregoing preamble and resolutions was accordingly sent by the Comptroller, with a circular letter, to each of the heads of the City Departments and the Board of Education, to the Judiciary and other officers of the City and County of New York, and to the officers of the institutions which are entitled by law to allowances of money from the City Treasury, requesting them, respectively, to prepare and send as required by law their Departmental Estimates for the year 1886, on or before September 30, 1885, as follows, to wit:

To the Heads of Departments and the Board of Education:

In accordance with the foregoing resolution I hereby respectfully request you to send to the Board of Estimate and Apportionment, as soon as it can be prepared, and, certainly before the 30th day of September, 1885, estimates, in writing, of the amounts required to pay the expenses of conducting the public business in your Department, in and for the fiscal year 1886, specifying the purposes and objects of each expenditure, including a statement of the amount of each of the salaries of all officers, clerks, employees and subordinates; and stating, also, the names of the several persons to be paid such salaries, respectively, in accordance with the above-cited provisions of law. Full explanations of proposed expenditures should accompany the estimates, and also the reasons especially for any increase or decrease in the amounts, and for such as may require unusual appropriations.

You are particularly requested also to furnish a separate comparative statement in tabular form, showing in one column the amounts of all appropriations made to your Department for the year 1885 for different objects and purposes, with additions and deductions therefrom for transfers which may have been made from one appropriation to another; and showing in another column the amounts of appropriations asked for in your Departmental Estimate for the year 1886.

You are also requested to state the amount which may probably remain unexpended of any appropriations for 1885 at the end of the year.

Your co-operation with the Board of Estimate and Apportionment is earnestly desired in their efforts to reduce our taxes as low as possible, by the exercise of economy in conducting the public business of the city, by scrutinizing carefully every proposed expenditure and excluding from your estimates every item of expense not absolutely necessary for efficiency in the management of your Department, and which is not required to promote and secure the public welfare.

Respectfully,
Comptroller.

To the Judiciary and the Officers of the City and County of New York:

In accordance with the foregoing resolution I hereby respectfully request you to prepare and send to the Board of Estimate and Apportionment as soon as it can be prepared, and, certainly before the 30th of September, 1885, estimates in writing of the amounts required to pay the expenses of conducting the public business in your office in and for the fiscal year 1886, specifying the purposes

and objects of the expenditure, including a statement of the amount of each of the salaries of all officers, clerks, employees and subordinates; and stating also the names of the several persons to be paid such salaries respectively, in accordance with the above-cited provisions of law. Full explanations of proposed expenditures should accompany your estimates, and the reasons be given for any increase or decrease in the amount.

Your co-operation with the Board of Estimate and Apportionment is earnestly desired to secure economy in managing the public business of the city by scrutinizing carefully every proposed expenditure, and by excluding from your estimates every item of expense not absolutely essential for efficient service in the conduct of your office, and for promoting and securing the public welfare.

Respectfully,
Comptroller.

To the Officers of Institutions entitled by law to allowances of money from the City and County of New York:

In accordance with the foregoing resolution I hereby respectfully request you to prepare and send to the Board of Estimate and Apportionment as soon as possible, and certainly before the 30th day of September, 1885, estimates in writing of the amounts required to be appropriated for your institution for the year 1886, as provided by law.

Specific reference should be made in your estimate to the law which entitles you to the appropriation for which application is made.

Respectfully,
Comptroller.

The Departmental Estimates for the year 1886 are as follows:

THE LEGISLATIVE DEPARTMENT.

OFFICE OF THE CLERK OF THE COMMON COUNCIL,
No. 8 CITY HALL,
NEW YORK, September 11, 1885.

Hon. EDWARD V. LOEW, Comptroller:

DEAR SIR—In reply to your circular letter of the 25th ultimo, requesting me to prepare and transmit to the Board of Estimate and Apportionment, on or before the 30th instant, estimates, in writing, of the amounts required to pay the expenses of conducting the public business in my office, in and for the fiscal year of 1886, together with certain other information, I have the honor to state that the salaries fixed by law are as follows:

The President of the Board of Aldermen \$3,000 00
Twenty-four members of the Board, other than the President, each, per annum, at \$2,000 48,000 00

(Sec. 52, chap. 410, Laws of 1882; chap. 74, Laws of 1884.)

Section 79 of chapter 410 of the Laws of 1882 limits the aggregate amount of salaries to be paid to the Clerks and other officers of the Board of Aldermen, including the salary of the Clerk, to the sum of \$25,000; and, as all the work formerly performed by the Clerks of the Board of Assistant Aldermen, and the Clerk of the Board of Supervisors, for which separate appropriations were made in former years, amounting to more than \$25,000 per annum, is now performed by the Clerks of the Board of Aldermen, the full amount would not be excessive, if fair salaries were paid for the efficient performance of the duties required; it is intended, however, should the amount be appropriated to expend \$5,000 in the year 1886 towards duplicating the manuscript records of the city from the year 1652 to the year 1830, inclusive. 25,000 00

City Contingencies 3,000 00
Contingencies—Clerk of the Common Council 250 00

Several of the volumes of the manuscript records of the Common Council require to be rebound; many of the printed volumes of the proceedings of the Common Council since 1830, and other books in the City Library, including city directories for several years past, also need rebinding, in order to continue in uniform style the series of that work now in the City Library, extending back to 1792—an appropriation for this purpose is required of 500 00

To enable the City of New York to participate in the National Celebration of the Completion of Bartholdi's Statue of Liberty 5,000 00

Total \$84,750 00

The necessity for duplicating the manuscript records of the City Government has long been apparent to all who are cognizant of their value. But one copy of these records is, or ever has been, in existence, and these books are so old and have been so much used, that some of them are absolutely falling to pieces. These records contain the only authentic history of our city government, and embrace subjects of the most vital interest to the corporation, including the title to, and disposition made of its real estate and other corporate property. If once destroyed, or rendered illegible by constant use, these invaluable records could not be replaced, hence ordinary prudence requires that while there is yet an opportunity a new copy should be made. An appropriation of \$25,000, as asked for, will enable the Clerk of the Common Council, in addition to the regular clerks in his office, to provide new record books and employ three clerks in copying these records during the ensuing year. It would probably require an equal amount for the next five years in succession to complete the work. These records are contained in sixty quarto and fifteen folio volumes, with indexes.

It is not possible, in advance of the organization of the Board of Aldermen for 1886, "to specify the names of the several persons to be paid such salaries, respectively," as the members of the Board of Aldermen are elected annually, take office at noon on the first Monday in January each year, and then appoint the Clerks of the Board and other officers and fix their compensations.

THE FINANCE DEPARTMENT.

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE,
October 19, 1885.

To the Board of Estimate and Apportionment.

As provided by section 189 of the New York City Consolidation Act of 1882, I submit herewith the Departmental Estimate of the Finance Department of the amount of expenditures required by said Department in and for the year 1886, specifying in detail their objects and purposes, and the amount of the salaries of all officers, clerks, employees and subordinates employed in the service of said Department, and including the compensation of temporary clerks annually employed in the Bureau for the Collection of Taxes during a portion of the year.

Statements are also presented with the Departmental Estimate of all the stocks and bonds of the City and County of New York and of the territory annexed from Westchester County, which become due in the year 1886, and are payable from taxation and from "The Sinking Fund for the Redemption of the City Debt," as provided by law; and also of the interest on all outstanding bonds and stocks of the City and County of New York and of the annexed territory, due and payable from taxation in the year 1886, as specified in the accompanying Schedules, A, B, C, D, E, F, G, H and I.

Statements are also presented with the Departmental Estimate of the amount of rents payable in 1886 on leases to the city of premises for the use of departments and public offices, civil and police courts, armories and drill-rooms, together with estimates of miscellaneous expenses payable in 1886 on account of judgments against the corporation, city real estate, wages of armorers, janitors and engineers for armories, etc., as provided by law.

Communications from the Comptroller of the State are also submitted, transmitting statements of the aggregate equalized valuation of real and personal estate in the City and County of New York, as fixed by the State Board of Equalization of Assessments, including the amount of taxation for schools, general purposes and canals, and also of the amount for compensation and expenses of the Shore Inspector, to be raised by tax in the City of New York in 1886.

Respectfully submitted,
EDWARD V. LOEW, Comptroller.

STATE OF NEW YORK—COMPTROLLER'S OFFICE, ALBANY, October 10, 1885.

To County Clerk, New York County:

SIR—In addition to the State tax of two and ninety-six one-hundredth mills, directed to be levied as per circular from this office, dated this day, amounting to \$4,183,708.46, the Board of Supervisors of the County of New York is hereby required to raise the sum of \$15,897.69, for the compensation and expenses of the Shore Inspector, as follows:

For salary from October 1, 1885, to September 30, 1886, per chapter 604, Laws of 1875.....	\$1,509 06
For expenses from June 6, 1885, to September 30, 1886, per section 6, chapter 414, Laws of 1885.....	14,388 63
	\$15,897 69

Respectfully yours,
ALFRED C. CHAPIN, Comptroller.

THE LAW DEPARTMENT.

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION,
NEW YORK, October 10, 1885.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—In accordance with law and with the request of the Comptroller, transmitted me under date of August 25, 1885, I herewith forward the estimate of the Law Department for the year 1886. From the comparative statement in tabular form annexed hereto, it will be seen that I have endeavored, so far as is practicable consistently with an efficient conduct of the business of this Department, to reduce the budget as low as possible. I ask for \$3,450 less than the original appropriations for the year 1885 for this Department, and \$9,150 less than the total of such appropriations as modified by subsequent transfers. I also present herewith, as requested, a list of the names, official position and salaries of all officers, clerks, employees and subordinates in the Department.

The character of the work conducted by the Law Department is such that it is almost impossible to determine in advance what balance will remain unexpended at the end of the current fiscal year. Probably very little will be so left, the appropriation for this Department not being in excess of its requirements, but I am unable at present to report upon that subject. If desired I will, later in the year and before action is taken by the Board upon the Final Estimate (or at any other time), furnish the best information in my power.

The items of the Departmental Estimate are as follows:

For Department proper—	
Contingent Counsel Fees.....	\$15,000 00
General Contingencies.....	16,000 00
Salary—Counsel to the Corporation.....	12,000 00
Salaries of Assistants, Clerks and other salaried employees.....	80,000 00
Procuring and Presenting Evidence as to Frauds committed prior to 1872.....	6,000 00
Procuring and Presenting Evidence as to Value of Lands taken for New Parks under chapter 522 of 1884.....	5,000 00
For Bureau of Corporation Attorney—	
Salary of Corporation Attorney.....	4,000 00
Salaries of Clerks, Messengers and Janitor.....	7,148 00
Salaries of three Process Servers.....	4,500 00
Contingencies—Corporation Attorney's Office.....	100 00
For Bureau of Public Administrator—	
Salary of Public Administrator.....	4,000 00
Salaries of Clerks and Assistants.....	3,100 00
Contingencies—Public Administrator.....	1,000 00
For Bureau of Arrears of Personal Tax—	
Salary of the Attorney.....	4,000 00
Salary of the Clerk.....	1,500 00
Prosecuting delinquents, and for service of process, postage, etc.....	550 00
For Street Openings—	
To defray the expenses of proceedings in street openings.....	5,000 00
	\$168,898 00

In explanation of the various items of proposed expenditure, I beg leave to state as follows:

First—I have asked for a very marked increase in the appropriation for salaries. This is done because my experience with the business of the Department has fully satisfied me that an increase of the permanent force will greatly increase its efficiency and will alone enable it, besides attending to the current business, to systematically and thoroughly cope with the arrears of work which have for years encumbered its registers. In this connection I would refer to the report of Mr. Horace E. Deming, made to the Mayor last May, upon the organization of the Department. It very clearly and forcibly points out the necessity of a reorganization and reinforcement of the permanent force. I feel the less hesitancy in asking for an increase of appropriation for this particular item of expenditure as, by economizing in other items, I shall, as will be seen from this estimate, be able to more than make up the sum required.

I ask for an appropriation of \$6,000 for presenting evidence relating to frauds prior to 1872. In presenting the Departmental Estimate for 1885, I used the following language: "It is to be hoped that the necessity for this specific appropriation must soon cease, but from a careful examination of which I have made into the pending actions of the class known as 'Ring' litigations, I am satisfied that they cannot be disposed of without such an appropriation, for the coming year at least."

"In the various unfinished actions of this kind the City is represented by eminent counsel, and the evidence which it is necessary to procure and present is of an expensive character. The deposit, progress through the Clearing House, and final payment of innumerable warrants and checks is an important element of proof, and my own personal experience as Assistant in the Department has satisfied me that it cannot be procured without the expenditure of considerable money."

"I believe that a determined effort would terminate all outstanding litigation of this character in the course of the next one or two years, but without a specific appropriation to meet the expenses of the trial of those cases, which will have to be disposed of in court, I fear they must still continue on the unfinished docket. The expense of the trial of these actions cannot, in my opinion, be borne by the present appropriation for contingencies, in view of the many calls upon that fund, without crippling the Department in its ability to handle the ordinary current litigation."

Since that time considerable headway has been made in disposing of the old cases, and I think the close of the current year will see a material reduction of their number. Some, however, will still remain which must be tried, and for that reason the appropriation cannot, in my opinion, be entirely dispensed with for the year 1886.

With regard to the appropriation relative to presenting evidence in regard to the new parks, I respectfully refer to my communication accompanying the Departmental Estimates for 1885, which will be found in the CITY RECORD of October 15, 1884. I therein set forth at great length the necessity for this appropriation and asked for \$20,000. That sum was included in the Provisional Estimate for 1885. Subsequently, necessity arising for a special appropriation for counsel to assist in framing legislation, \$5,000 of this \$20,000 was withdrawn from the purpose to which it was originally devoted. The \$5,000 which I now ask will merely restore the appropriation to its original amount.

The appropriation of \$550 for expenses of serving process, etc., made to the Bureau of Arrears of Personal Taxes, probably needs no explanation. It takes the place of two separate appropriations of the year before, and is \$200 less than their aggregate. Without this fund papers could not be served nor claims prosecuted.

No appropriation is asked for special counsel to assist in framing legislation. This is not because the necessity has ceased, but because I expect hereafter to handle that branch of the business with the regular staff of the office. The practice of legislating with regard to the affairs of this city under acts entitled simply as acts to amend the Consolidation Act, has greatly increased the labor necessary in keeping track of pending legislation. No explanation as to other items seems to be required—they sufficiently explain themselves.

I send herewith the estimates of the Bureau officers, which are included in the above Departmental Estimate.

Very respectfully yours, etc.,

E. HENRY LACOMBE, Counsel to the Corporation.

DEPARTMENT OF PUBLIC WORKS.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET,
NEW YORK, October 21, 1885.

Hon. WILLIAM R. GRACE, Mayor, and Chairman Board of Estimate and Apportionment:

SIR—In compliance with section 189 of the New York City Consolidation Act of 1882, and with the circular letter of the Comptroller, issued in pursuance of the resolution adopted by your Board August 7, 1885, I have the honor to present herewith my estimate of the amounts required to conduct the public business, under the charge of this Department, for the year 1886. The Final Estimate of the amounts appropriated to the Department for 1885 embraces forty-one separate appropriations, aggregating \$2,553,450. This Departmental Estimate embraces thirty-six separate appropriations, aggregating \$4,498,006. In its preparation I have carefully studied the varied and important public interests involved, and have rigidly followed my conception of the duty of the Commissioner of Public Works in the matter, viz., to call for no less and no more than his knowledge and experience, together with the information derived from bureau reports and estimates, teach him to be necessary for the effective and economical discharge of every duty imposed on the Department.

I desire to call attention to a change in the distribution and arrangement of the salary accounts, which I consider to be conducive to efficiency as well as to simplification of the subject. The change is in including in the general salary appropriation ("Salaries—Department of Public Works") the salaries of several of the permanent officers and clerks which have heretofore been charged to other special accounts. By placing these in one general appropriation there can be no error or dispute as to the proper distribution and application of the pay and services of each individual.

AQUEDUCT—REPAIRS, MAINTENANCE AND STRENGTHENING.

Final Estimate for 1885.....	\$250,000 00
Including for salaries.....	23,000 00

Departmental Estimate for 1886.....	\$250,000 00
Including for salaries.....	25,060 00

This appropriation is for the care, repairs and protection of all the existing structures and property used in collecting, conveying to the city and delivering into the distributing pipes, the water supply obtained from the Croton watershed, including storage reservoirs, lakes, dams, forty miles of aqueduct, bridges, culverts, gate-houses; the distributing reservoirs in the city, and the high-service pumping works.

Until the New Aqueduct, with its accessories, is finished, the safety of the entire water supply, except about 10,000,000 gallons per day, received from the Bronx river, depends upon the care and protection of these works. No argument is needed to show the necessity of adequate means to insure the city against the probability of interruption of the supply through a break in the Aqueduct, or the failure of any of the accessories to perform their respective functions. As stated in previous reports and estimates of the Department, the Aqueduct is under the strain of carrying and delivering fifty per cent. more water than its designers and constructors intended. This places it in constant peril, and develops fissures and leaks, which, if not promptly detected and repaired, would speedily grow into large breaks, endangering the entire structure and its supports. Such fissures have appeared where it was thought the Aqueduct could withstand any strain to which it might be subjected, showing that no portion of the structure is safe from breakage. With the continuous growth of the city in population, industries and commerce, creating new demands on the water supply, the city can less and less afford the risk of even a short interruption or diminution of the water supply. If the Commissioner of Public Works should fail to make a sufficient estimate for this all important work, the responsibility for such risk would fall on him.

The salaries to be charged to the appropriation are:

1 Resident Engineer.....	\$3,000 00
1 Assistant Engineer.....	2,000 00
1 Leveler.....	1,200 00
1 Rodman.....	900 00
2 Inspectors, at \$3.50 per day.....	2,240 00
1 Keeper.....	1,400 00
1 Keeper.....	1,200 00
6 Keepers, \$870 each per annum.....	5,220 00
1 Engineman.....	1,500 00
2 Enginemen, \$1,200 each per annum.....	2,400 00
4 Enginemen, \$1,000 each per annum.....	4,000 00
Total.....	\$25,060 00

BRONX RIVER WORKS—MAINTENANCE AND REPAIRS.

Final Estimate for 1885.....	\$12,000 00
Including for salaries.....	2,000 00

Departmental Estimate for 1886.....	\$21,640 00
Including for salaries.....	3,650 00

The Departmental Estimate for 1885 for this appropriation was \$17,500, including \$2,400 for salaries. The increase above asked for is needed, because the entire works connected with the Bronx river supply, excepting the receiving reservoir, which is in course of construction, are now under the care of the Department, whereas, for a portion of this year, the Rye Ponds reservoir and a large part of the conduit line were still in the hands of the contractors. The amount estimated is needed for the proper care of the works.

The salaries to be paid from the appropriation are:

1 Assistant Engineer, \$2,500 per year, half time.....	\$1,250 00
2 Keepers, \$1,200 each per annum.....	2,400 00

Total.....\$3,650 00

BOULEVARD, ROADS AND AVENUES, MAINTENANCE OF.

Final Estimate for 1885.....	\$77,000 00
Including for salaries.....	2,000 00

Departmental Estimate for 1886.....	\$97,000 00
-------------------------------------	-------------

Year after year the Department has been compelled, in its reports and estimates, to repeat the complaint that the macadam roadways were rapidly wearing away for want of sufficient appropriation for their care and repair. From my own observation, and from the many complaints received from property-owners and residents along the roadways, I am convinced that more money for labor and material is needed to place and keep the roads in fair condition. Though originally intended for suburban drives, they are now used as much for heavy business traffic as most of the stone-block pavements north of Fourteenth street. This heavy traffic cuts up the surface rapidly, and unless it is frequently renewed, the superstructure is soon destroyed. The property fronting on these roads has been heavily assessed for their construction, and the owners have just cause of complaint when the City neglects to make proper provision for their preservation. The most frequent is that the roads are not sufficiently sprinkled in dry weather to prevent annoyance and injury from dust. I am satisfied that the entire appropriation for this year could have been expended for sprinkling alone, in the endeavor to keep down the dust at all times, and to satisfy all the complaints. It is not assumed, however, that the City should do that; but more sprinkling is certainly needed for the comfort and health of the people who travel over and live along the roadways. Among the roadways which require complete renewal of the superstructure of broken stone, chips and gravel, are: Seventy-second street, between First and Third avenues, and between Ninth avenue and the Boulevard; and the Boulevard, from Seventy-ninth street to Eighty-sixth street. Stone crosswalks

should be laid at several street intersections where there is much pedestrian travel. In the care of the Boulevard, roads and avenues are included about fifteen miles of sidewalks and 2,890 shade trees, and the cleaning of 472 sewer-basins. Of the 3,670 shade trees originally planted, and for which assessments have been levied, 780 are dead, and should be replaced before the others grow larger.

CONTINGENCIES—DEPARTMENT OF PUBLIC WORKS.

Final Estimate for 1885.....	\$4,000 00
Departmental Estimate for 1886.....	15,000 00

In the last Departmental Estimate, my predecessor asked for the same amount—\$15,000—and gave as his reasons therefor that the traveling expenses theretofore incurred by officers and employees of the Department on account of any particular work for which an appropriation was made, were charged to and paid from that appropriation, but that the Comptroller had taken the view that such traveling expenses must be charged to "Contingencies." I believe that the present Comptroller holds the same view, but as the Final Estimate for 1885 allowed only \$4,000, the old method of paying traveling expenses had to be continued. In any event, I do not consider that the sum of \$4,000 is sufficient to provide for contingent and unforeseen expenditures for a department having charge of so many important works, in which emergencies may arise calling for a much larger expenditure, and which cannot well be provided for in any other manner. The strict accountability prescribed by law and ordinance for expenditures from this account, precludes the possibility that any portion of the money appropriated will be expended except for actual necessities, and I trust that the Board will allow the full amount of my estimate.

FLAGGING SIDEWALKS AND FENCING VACANT LOTS IN FRONT OF CITY PROPERTY.

Final Estimate for 1885.....	\$1,200 00
Departmental Estimate for 1886.....	1,500 00

The above amount will be needed to keep in order the sidewalks and fences in front of City property in charge of this Department.

FREE FLOATING BATHS.

Final Estimate for 1885.....	\$49,123 00
Including for salaries.....	21,873 00

Departmental Estimate for 1886.....	\$45,600 00
Including for salaries.....	21,055 00

The items included in the above appropriation are for the ordinary repairs and maintenance of the eleven public baths now in use, for storage, for towage to and from their several stations, for dockage of baths for which locations free of charge cannot be furnished by the Dock Department, and for special repairs required on the tanks, and for the salaries of the employees in charge of the baths.

The salaries to be provided for from the appropriation are as follows:

1 Superintendent, \$2,400 per year, part time.....	\$500 00
2 Assistant Superintendents, \$3 per day, 138 days.....	828 00
22 Keepers, \$2.50 per day, 138 days.....	7,590 00
11 Watchmen, \$2.50 per day, 138 days.....	3,795 00
4 Watchmen, \$2.50 per day, 227 days.....	2,270 00
22 Female Attendants, \$2 per day, 138 days.....	6,072 00

Total.....	\$21,055 00

LAYING WATER PIPES.

Final Estimate for 1885.....	\$200,000 00
Including for salaries.....	14,000 00

Departmental Estimate for 1886.....	\$250,000 00
Including for salaries.....	15,613 00

Section 356 of the New York City Consolidation Act provides that, when authorized by the Common Council, the above sum of \$250,000 may be expended each year in laying water-pipes, placing hydrants, etc., to extend and improve the distribution of water in the city. This limit of expenditure was established by chapter 381 of the Laws of 1879, and there has not been one year since then in which the public demands for the extension and improvement of the water service, and the authorization of the Common Council for the same, have not exceeded the amount of \$250,000. Yet in the final estimates for the years 1884 and 1885, the appropriation was reduced to \$200,000, and the consequence is a large accumulation of unsatisfied demands and of unexecuted resolutions of the Common Council for additional water-pipes. Many complaints are received from citizens that they are suffering inconvenience and pecuniary damage through the failure to extend the water service into new streets, as ordered by the Common Council, and most of the complainants, being ignorant of the circumstances, lay all the blame on this Department, where it manifestly does not belong. The majority of these complaints are from owners of vacant lots, who desire to build, but are debarred therefrom until they can obtain water in their respective streets. It appears to me a mistaken policy of economy to retard the growth of the city in new buildings by curtailing this appropriation, and I urgently recommend that the full amount of \$250,000 be appropriated.

The following salaries are to be paid from the appropriation:

1 Resident Engineer.....	\$3,000 00
1 Rodman.....	1,200 00
2 Inspectors on making pipes, \$5 per day.....	3,120 00
6 Inspectors on laying pipes, \$3.50 per day.....	6,468 00
1 Superintendent of Pipe Yard, \$5 per day.....	1,825 00

Total.....	\$15,613 00

LAMPS AND GAS AND ELECTRIC LIGHTING.

Final Estimate for 1885.....	\$723,000 00
Including for salaries.....	6,300 00

Departmental Estimate for 1886.....	\$724,200 00
Including for salaries.....	5,400 00

The estimate for this appropriation is calculated from the present contract prices for lighting and maintaining the public gas-lamps and electric-lights, and for naphtha-lamps in the upper portion of the Twenty-fourth Ward, where there are no gas-mains.

The estimate provides for 23,470 gas-lamps, which will be in use on the 1st of January, 1886, and for 925 additional gas-lamps to be erected and lighted during the year; for 50 naphtha-lamps and 20 additional naphtha-lamps to be erected during the year, and for 708 electric-lights now in use; also for furnishing gas for public buildings and offices, estimated at \$38,150, and for photometrical examinations of gas; for new lamp-posts, lamp-irons, globes, street-signs, and other supplies, and for pay-roll of lighters of public markets, estimated at \$21,173.

No provision is made in the above estimate for additional electric-lights, but I append to this document a statement showing the several streets or parts of streets in public places, in which the extension of the electric-lights is requested by resolutions of the Common Council, with the estimated number of lights required and the additional cost over that of gas-lamps which would be replaced by such lights. If your Board shall take the view that the electric-lights should be extended to any or all of these streets, it will be necessary to add to the above estimate the additional cost over gas-lights in accordance with that statement. Many urgent demands have been made upon me to have electric-lights placed in One Hundred and Twenty-fifth street, from the East river to the North river; in Third avenue, from One Hundred and Sixth to One Hundred and Thirtieth street; and in Third avenue, from Harlem Bridge to One Hundred and Seventieth street. According to the statement referred to, the additional cost of placing these electric-lights will be \$22,025.50. I am satisfied that this demand is well justified, and would ask that the necessary addition be made to the above estimate in accordance with it.

The salaries to be provided for from the appropriation are as follows:

4 Inspectors, \$3 per day.....	\$3,696 00
--------------------------------	------------

PUBLIC BUILDINGS—CONSTRUCTION AND REPAIRS.

Final Estimate for 1885.....	\$50,000 00
Departmental Estimate for 1886.....	75,000 00

In addition to the ordinary care and repair of the public buildings under the charge of the Department, some of which are so dilapidated that they require constant attention to keep them in tenable condition, several special items have to be provided for in this appropriation. Provision is made in the estimate for removing to more convenient and suitable quarters the offices now occupied by this Department, which are not fire-proof and which do not afford sufficient accommodation for the transaction of the business of the Department. Another special item provided for in the estimate is for a new elevator in the County Court-house, the present one being too cumbersome and requiring a larger expenditure of steam than is necessary to perform the service required.

PUBLIC DRINKING-HYDRANTS.

Final Estimate for 1885.....	\$6,000 00
------------------------------	------------

Departmental Estimate for 1886.....	\$7,092 00
Including for salaries.....	1,092 00

There are now 360 drinking-hydrants in use; they are all liable to frequent derangements from freezing in cold weather, from carelessness by the people who use them, and from accidents by wagons running against them. The average cost of repair for each hydrant per year is \$12.50, making a total of \$4,500. The allowance of \$1,500 will provide for eight new hydrants. More than that number of resolutions of the Common Council for the erection of new hydrants are at this time on file and unexecuted for want of funds. In the Final Estimate for this year nothing was allowed for the services of an inspector. I earnestly request that \$1,092 be set apart for compensation for an experienced plumber as inspector, that I may not be compelled to certify to vouchers for work on the bare representations made in the plumbers' bills.

REMOVING OBSTRUCTIONS IN STREETS AND AVENUES.

Final Estimate for 1885.....	\$10,000 00
Including for salaries.....	3,116 00

Departmental Estimate for 1886.....	\$20,000 00
Including for salaries.....	5,196 00

The Department is charged with the duty of keeping over 400 miles of streets and sidewalks clear of obstructions. There is no ambiguity in the law which imposes this duty, but there are several obstacles to its effective performance. The appropriations for a number of years past have been utterly inadequate. Certain classes of obstructions have been in existence under certain authority and by toleration for so long a time that their owners have come to look upon interference with them as an invasion of proprietary rights. The police force takes no notice of thousands of violations of the laws and ordinances regarding obstructions, and the prompt detection or prevention of these violations can be effected through no other agency, because a constant patrol of the streets is necessary to effect it. Though the law as to the duty of this Department in the matter seems perfectly clear, other branches of the City Government seem to have exercised conflicting authority on the subject.

In view of recent decisions of the Courts, denying the power of any branch of the City Government to grant permission for placing obstructions within the lines of public streets, the Department will hereafter proceed energetically in all cases coming to its notice by complaint or otherwise. Within the past year there has been an immense increase of complaints from the Department of Street Cleaning and the Health Department as to two classes of obstructions: first, those which are easily movable—such as vehicles, light stands, merchandise, packing boxes, barrels, etc.; and, second, refuse material thrown into the streets by parties seeking to avoid the expense of getting rid of it in a legitimate way. Of the latter class the Department removed last year 2,828 cart-loads.

The entire time of the Bureau Clerk and one of the three inspectors which the appropriation now allows the Department to employ, is occupied in receiving and examining applications, and issuing permits for placing building material on streets, for cutting down shade trees, and for other legitimate purposes, and in making out notices requiring removal of obstructions, and for repairs of defective sidewalks and vault-covers. This leaves but two inspectors to examine and report upon complaints, serve notices, see that the notices are obeyed, make seizures where necessary, and perform other out-door work in connection with the subject.

With the appropriation of \$20,000 herein requested, the Department will be enabled to attend with greater promptitude and efficiency to complaints, and to the prevention or punishment of offenses against the laws and ordinances governing the subject.

The salaries to be provided in the appropriation are—

4 Inspectors, \$3 per day each.....	\$3,696 00
1 Inspector, \$2.50 per day.....	770 00
1 Watchman at Corporation Yard, \$2 per day, including Sundays.....	730 00

Total.....	\$5,196 00

REPAIRING AND RENEWAL OF PIPES, STOP-COCKS, ETC.

Final Estimate for 1885.....	\$145,000 00
Including for salaries.....	43,500 00

Departmental Estimate for 1886.....	\$275,000 00
Including for salaries.....	71,900 00

This appropriation is intended to embrace everything required for the maintenance of the system for distributing water throughout the city, which now consists of 572½ miles of water-pipes, with 7,497 fire-hydrants, and 6,036 stop-cocks; also the measures already put in operation, and those hereafter to be applied to control the consumption of water and to detect and prevent waste.

In his Departmental Estimate for 1885, my predecessor asked for an appropriation of \$300,000 for these purposes, including \$73,473 for salaries, but the Final Estimate allowed only \$175,000, of which \$43,000 was set apart for salaries. This enormous reduction seriously crippled the Department in the discharge of its most important duties and responsibilities. My remarks in this document in reference to the paramount necessity of keeping the Aqueduct and its accessories in such condition as to prevent loss of water and interruption of the supply through leaks or breaks, apply with equal force to the distributing system. From year to year it has been urged in the Departmental Estimates that the water-pipes contiguous to the water-front, which have been in the soil from twenty to forty years, are so worn with corrosion that large breaks are liable to occur at any moment, by which many millions of gallons of water would be lost before repairs could be made. In such emergency large sections of the city would for the time be without water, entailing incalculable danger to life and property. Some provision was made in the appropriation for 1884 for replacing these worn-out pipes, but, with the amount allowed, the work could only be fairly begun, and could not be continued this year because no means were appropriated. I cannot too forcibly impress on your Board the necessity of replacing as rapidly as possible the defective pipes and stop-cocks along and near the water-front. The Chief Engineer of the Croton Aqueduct reports that leaks are not only feared or suspected, but are known to exist now, and that at least \$55,000 is needed next year to replace pipes and fixtures in South, West, Washington, Morris, Rector, Carlisle, Anthony, Cedar, Liberty, Cortlandt, Dey, Front, Water, Moore, Broad, Wall, Pine, Depuyster, Fletcher and John streets, and in Coenties and Old Slips.

A further special allowance required in the appropriation, in addition to the ordinary work of maintenance and repairs, is for brick buildings in the Pipe Yard in place of the old wooden sheds. This is necessary for the care and protection of the large amount of materials, tools and implements always stored there; the expense is estimated at \$15,000.

The above estimate also allows \$14,000 for putting in repair 2,000 of the Navarro water-meters, forced on the City by judgments of the Courts, and to place them on buildings where owners are not required by law to pay for meters.

As to the measures to control the use of water and suppress waste, the fact must be continually borne in mind that for at least five years longer we can get no addition to the present water supply, and must reduce the consumption per capita in order to distribute water in sufficient quantity to every building in the city. The present per capita consumption is about 80 gallons per day. The annual increase in population is estimated at 50,000. It is therefore necessary to reduce the per capita consumption to 76½ gallons in the next year, 73¾ gallons in the second year, 71½ gallons in the third year, 69 gallons in the fourth year and 66½ gallons in the fifth year. The experience of other cities demonstrates that with proper methods and appliances for suppressing waste, this reduction of consumption can be easily accomplished. In the city of Providence, which has larger manufactures, in proportion to its population, than any other city in the United States, the consumption is 32 gallons per capita, with much greater pressure in the mains than we have in this city. This result has been brought about by the use of water-meters in nearly every building. Other cities have attained similar results by the use of meters and other appliances for measuring the flow and consumption of water. A few years ago the consumption of water in this city was upwards of 100 gallons per capita, and it is entirely due to the measures thus far put in operation for suppressing waste, that the rate of consumption has been reduced to the present standard. But the further needed reduction cannot be accomplished without additional powers and means.

First—It is necessary to extend as rapidly as possible the application of water-meters to buildings used in whole or in part for business purposes. On January 1, 1885, there were 11,625 meters in use, and 1,400 additional ones have since been placed. This rate of increase will be maintained until all business places are metered. It is calculated that on the 1st of January, 1886, there will be 16,500 meters in use, and that 2,000 more will be placed during the year 1886. It is evident that the force employed in the supervision of the system, including the examination of houses to ascertain whether they are subject to the use of meters, the service of notices, the placing of the instruments, the reading of indices, the rendering of bills and the keeping of accounts, must be increased in the proportion that the system is extended.

Second—The house inspections to detect and remedy leaks and fixtures, and willful waste of water, must be carried on more extensively. The method by which these inspections are now pursued accomplishes a double object. The inspectors are required to report not only leaks and waste, but also the dimensions of each building examined; the number of water-closets, baths, extra families, kind of business carried on, and all other circumstances which regulate the charges for water on each house. From these reports the entries in the water-rent books are revised. At

this time the examinations and reports cover one ward complete, and portions of several other wards. The aggregate increase of water-rents reported and charged in the one ward completed is about \$11,000, and, at the same ratio, the inspections, when completed throughout the city, will result in an increase of \$250,000 to \$300,000 in the revenue from the water service. No further comment is needed to show the necessity and utility of such inspections.

Third—Further measures must be devised to detect and stop waste of water in houses used exclusively as dwellings. Some years ago it was assumed that waste of water was principally confined to business establishments, but as the necessity for economy in the use of water increased from year to year with the growth of the city, further inquiries into the causes and methods of waste were made, and the fact was established beyond doubt that the consumption of water in dwellings is from 30 to 50 per cent. greater than is necessary for all purposes of life, health and comfort. In the next paragraph I shall present a description of the proposed methods to control the use of water in dwellings, with an estimate of the amount required to carry them into effect.

From the foregoing it will be seen that my estimate for salaries of Inspectors and other employees engaged in the maintenance of the distributing system, and in the various measures for detecting and stopping waste of water, cannot be curtailed without injury to the water service, loss of pressure in the water-mains, and consequent discomfort and distress to consumers.

The salaries to be provided for are as follows:

2 Clerks, \$1,500 each per year.....	\$3,000 00
4 Clerks, \$1,200 each per year.....	4,800 00
2 Clerks, \$1,000 each per year.....	2,000 00
1 General Inspector of Waste.....	1,800 00
1 General Inspector of Meters.....	1,800 00
24 Inspectors, \$3.50 per day each.....	26,880 00
30 Inspectors, \$3 per day each.....	27,000 00
4 Measurers, \$3 per day each.....	3,696 00
1 Measurer, \$3 per day.....	924 00
Total.....	\$71,900 00

SPECIAL APPLIANCES TO SUPPRESS WASTE OF WATER.

Departmental Estimate for 1886.....	\$100,000 00
-------------------------------------	--------------

For several years past the Department has, in its quarterly and annual reports and in the Departmental Estimates, urged the necessity of appropriating additional means to control the consumption and suppress waste of water, to enable it to maintain fair distribution of the supply to all buildings in the city. I beg to impress upon your Board and upon the public the fact that there is no relief from the present inadequate condition of the water supply until the completion of the New Aqueduct, unless the additional means to check waste are granted. The intervening years before the adequate supply can be obtained will be marked by increasing stringency. The population of the city grows steadily, and there is no margin in excess of the consumption to meet the demands. A water famine is plainly indicated before relief can come, unless the citizens, whose interests are vitally at stake, take some action to enforce proper measures for their own protection. Again and again the warning has been given, and in my quarterly report, ending March 31, 1885, I fully reviewed the situation, giving facts and statistics, the truth of which could be ascertained by any citizen who chose to investigate the matter for himself. In view of the ability accredited to professional and business men, and of the direct bearing upon their personal interests, it is surprising that they seem so little to have considered water from the standpoint of its value as a staple article. They seem to lose sight of the fact that the water supplied to our cities is an expensive necessity, and by no means a free element. Its positive money value per cubic foot is equal in most cities to that of illuminating gas. Taking the cost of the present Croton water-works at the moderate sum of \$30,000,000, and adding thereto \$30,000,000 for cost of house plumbing, the interest on the investment at five per cent. equals \$3,000,000 per annum, or more than \$8,000 per day. Now, when one-third to one-half of the water supply is wasted into the sewers without performing any duty, it means throwing away from \$2,666 to \$4,000 per day. Consider the storm of indignation that would be raised were the populace found invading the city treasury and throwing into the harbor daily several thousand dollars in greenbacks or specie, and this going on thoughtlessly and wantonly for years. Fully that amount of cost in water is actually being emptied into the New York harbor daily. Water weighs sixty-two and one-half pounds per cubic foot. To collect, store and transport such ponderable substance forty miles through masonry conduits and hundreds of miles through city pipes into a hundred thousand buildings, costs money. The country storage which insures a daily flow into the city of one hundred million gallons, costs per day in interest money \$165, and the transportation through forty miles of aqueduct costs the city daily \$2,470. The interest on city delivery and storage costs \$3,520 per day. This city is consuming per capita eighty-one and one-half gallons per head at this time, when any consideration of good sense, prudence and economy should curtail the amount to within the ratio fixed by all authorities on this subject, viz.: thirty to forty gallons per head, that being an ample and generous allowance. In numbers of cities here and abroad the control of the water privilege has resulted in less ratio even than the above, which proves to be abundant for all legitimate purposes. The excess of forty to fifty gallons per head which is now emptied into the sewers, should unquestionably be utilized, and, when properly husbanded, would afford immediate relief to the city, obviate the necessity of expensive private pumping machinery, and prove ample to tide over the years intervening before the New Aqueduct is finished. Checking waste is of paramount importance, not only for the purpose of making the present supply suffice until the new works are completed, but the necessity reaches much further. The 350,000,000 gallons per day which the Croton watershed will ultimately supply through the new and the old aqueducts, will, if the waste is checked and the supply properly controlled, suffice until the population has increased to 7,000,000 people. If checking the waste is neglected until the fresh and lavish supply pours into the city, the increased pressure, and the habits of reckless use, will exhaust the supply before the population reaches 2,500,000. The sole protection of the city for its present and future needs is in regulating the legitimate use, and preventing abuse of the water privilege. There are many appliances for accomplishing the object, which would save the cost of adoption within a few years by increased water revenues to the city. The cry of "job" that has been raised at every honest effort on the part of officials to advocate what is clearly for the people's own interest, is both unreasoning and mischievous in its consequences. If the citizens, whose health, comfort and property are at stake, would stop to consider the matter, they would realize that it rests with themselves to investigate and decide as to the best methods to adopt. They have the power to protect themselves thoroughly from "jobbery," and all that is asked by the Department having jurisdiction over the water supply is to be enabled to fulfill the obligations that rest upon it in accordance with the opinions of the best engineering experts, and as sound judgment manifestly dictates for the future benefit of this city. The present precarious condition of the supply is illustrated by the fact that in consequence of the extremely dry weather which has prevailed since last spring, and the consequent drainage of the storage reservoirs, lakes and city reservoirs, the Chief Engineer of the Croton Aqueduct advised several days ago that all the drinking-fountains be closed, and that a special and urgent appeal be made to the public to practice the utmost economy in the use of water. But for the recent rains, I would have been compelled to act on this advice, and proclaim to the public the danger of the situation.

The additional and only effective measure to check waste is some appliance by which the Department can, at all times, promptly and conveniently ascertain and control the consumption of water in every building. At least one such appliance has been thoroughly tested, some thousands of it being in actual use, and proving efficient and satisfactory in every respect. It consists of a stop-cock placed on the service-pipe in front of the building, in the sidewalk or the areaway, to which a pressure gauge can be applied at any time by an Inspector. This pressure gauge accurately measures the water passing through the pipe into the building, and gives the altitude at which it is running in the building. If it shows waste through reckless or lavish use, or through leaks, the water can instantly be shut off and the proper remedy enforced. The advantage and economy of this easy and ready method of shutting off the water and enforcing compliance with the regulations respecting the use of water is manifest. Under the present arrangements, the supply to any building cannot be shut off and restored without excavating the street to the depth of the service-pipe, and the expense of such excavation and the restoration of the pavement ranges from \$5 to \$25 in each case.

It is scarcely necessary for me to suggest that all cities, like our own, dependent upon a more or less timbered watershed for their water supply, have, in addition to the general waste practiced by their inhabitants, the certainty of the supply being lessened by the denuding of the forests contiguous to or upon the watersheds—a result which is conspicuously illustrated by the clearing of woodlands throughout Europe.

REPAIRS AND RENEWALS OF PAVEMENTS AND REGRADING.

Final Estimate for 1885.....	\$200,000 00
Including for salaries.....	7,500 00
Departmental Estimate for 1886.....	\$300,000 00
Including for salaries.....	15,000 00

At the beginning of this year there were 294 miles of streets paved with stone blocks, and 38 miles of streets paved with cobble stone. As a sanitary and precautionary measure, to lessen the danger of a threatened epidemic, the greater portion of this year's appropriation for pavement repairs has been, and will be, expended in the tenement-house districts in the lower parts of the city. The special precautions against epidemic will have to be continued next year, and at the same time it will be necessary to pay proper attention to repairs in other sections of the city and to make

up for work which has been specially diverted to the tenement-house districts for sanitary reasons. Next to the cobble pavement, which, with the most assiduous attention, and repeated repairs during one season, cannot be kept in proper condition for traffic and for surface drainage, the small trap and granite-block pavements, which were laid prior to the adoption of improved specifications in 1876, are very inferior and troublesome, being easily displaced and deranged by the pressure of heavy traffic. There are many entire blocks of such pavement on important thoroughfares, which are in such bad condition that nothing short of relaying and regrading from curb to curb will produce satisfactory results. At least 226,000 square yards of such relaying should be done next year, including thirty-nine blocks on Third avenue, and forty-one blocks on Second avenue, and the remainder on various streets, from Eighteenth street to Sixty-first street. The expense of the relaying and regrading, including necessary material for the road-bed, is estimated at fifty cents per square yard, or an aggregate of \$113,000 for 226,000 square yards. The remainder of the appropriation herein called for is fully needed for general repairs throughout the city and for the special sanitary work already mentioned. The advantages of firm, smooth and clean pavements are so obvious that the amount of this estimate should be granted without hesitation, not only for the ensuing year, but for succeeding years, until the streets are in such condition that they can be easily and effectively cleaned, and that surface water will readily flow into the gutters and sewer-basins. With the system organized this year of supervising and controlling the work done in the streets by gas, steam, telegraph, and railroad companies, and other corporations or individuals, and with adequate appropriation for repairs, a long stride toward the attainment of this most desirable object will be made next year. To that end it will also be necessary to set apart the sum above stated for salaries of inspectors, that there may be no relaxation of vigilance in supervising the work of private corporations and individuals.

The salaries to be provided for are—

1 General Inspector.....	\$1,500 00
12 Inspectors, \$3 per day each.....	11,088 00
2 Inspectors, \$2.50 per day each.....	1,540 00
Total.....	\$14,128 00

REPAVING STREETS AND AVENUES.

Final Estimate for 1885.....	\$350,000 00
Including for salaries.....	8,000 00

Departmental Estimate for 1886.....	\$500,000 00
Including for salaries.....	14,790 00

As stated in the preceding paragraph, there were at the beginning of this year thirty-eight miles of cobble pavement in the city, which no amount of attention and repairs can keep in proper condition. Fully one-third of the complaints of defective pavements which are received from the Health Department, the Police force, and from citizens, relate to cobble pavements. In its best condition it presents a rough surface, obstructing surface drainage, and permitting the percolation of filthy water into the soil; the gutter-stones are in many places sunken and broken, causing lodgment of water and filth.

At least an equal extent of streets are paved with inferior small stone blocks, little better than the cobble. The protection of the public health, the interests of commerce, the convenience of the public, and hence economy, alike demand that the full amount of \$500,000, as limited by law, be appropriated and expended each year for repavements until all the cobble pavements and inferior block pavements are removed. The work of street cleaning will be lessened and rendered more effective as this work progresses, local transportation will be cheaper and safer, and the health and comfort of the people will be promoted.

The Water Purveyor has transmitted to me a list of forty-nine streets below Fourteenth street and sixteen above Fourteenth street which are paved with cobble, and for the repavement of which requests and petitions from property-owners and others are on file. The cost of repaving these streets is estimated at \$550,000. I therefore urgently request that the full amount of my estimate be appropriated.

As to the estimate for salaries, it is as low as it possibly can be made to insure proper supervision and inspection of the work. Experience has shown that the constant presence of an inspector is required on each pavement job to prevent contractors from violating the specifications by furnishing inferior work and materials. The low prices for the work, which increased competition has brought about, furnish a great incentive to violate the contract and specifications. It would, therefore, be the reverse of economy to curtail the appropriation for salaries, so that some of the work would have to be carried on without the presence of an inspector.

The salaries to be provided for are—

1 Assistant Engineer.....	\$2,250 00
1 Rodman.....	1,200 00
2 Axemen, at \$2.50 per day.....	1,540 00
30 Inspectors, at \$3.50 per day, 100 days.....	9,800 00
Total.....	\$14,790 00

REPAVING FIFTH AVENUE, AS PROVIDED BY CHAPTER 371, LAWS OF 1885.

The act provides that the appropriation made for the repavement of Fifth avenue for this year, \$150,000, shall be applied to this work, and that the amount necessary in addition to that sum, as certified by the Commissioner of Public Works, shall be appropriated and included in the tax-levy for 1886. The proposals submitted to the Fifth Avenue Pavement Commission were tested on an estimate furnished by this Department of the quantities of work to be done, and on these quantities the aggregate amount of the proposal which has been accepted by the Commissioner, is \$429,559.50. I deem it prudent, however, to allow a small margin for a possible increase in some of the items of the work, and present the following estimate:

For contract work.....	\$435,000 00
For services of one Engineer, 500 days, at \$10 per day.....	5,000 00
For services of two Inspectors, 500 days, at \$3.50 per day each.....	3,500 00
For clerical services.....	500 00

Total.....	\$444,000 00
Less amount of present appropriation.....	150,000 00
	\$294,000 00

ROADS, STREETS AND AVENUES, UNPAVED, AND SPRINKLING.

Final Estimate for 1885.....	\$25,000 00
Departmental Estimate for 1886.....	30,000 00

There are about eight miles of country roads, including Kingsbridge road, Fort Washington Depot road, Inwood street, etc., and about forty-five miles of unpaved streets to be kept in condition for public travel from this appropriation, and the more frequented roads have to be sprinkled in dry weather. The contract for grading of Kingsbridge road, as widened and straightened, will be finished early next spring. In this work the old macadam roadway was either covered with earth filling, or removed in excavation. If it shall be held that on completion of the grading contract, the City should replace this roadway to the original width of thirty feet, it will be necessary to make an additional appropriation of \$30,000 for the purpose.

SALARIES—DEPARTMENT OF PUBLIC WORKS.

Final Estimate for 1885.....	\$85,000 00
Departmental Estimate for 1886.....	118,500 00

As I have already stated in this communication, I deem it conducive to the efficiency of the Department, and to the simplification of accounts, that the salaries of several officers and clerks, which have heretofore been charged to other appropriations, shall be included in this appropriation. Two of the transfers thus made are that of the Engineer in charge of Sewers, and his First Assistant Engineer, a portion of whose salaries (from one-half to one-third) have heretofore been charged to "Street Improvement Fund," and included in assessments for new sewers. Another transfer is that of the salary of the First Assistant Engineer in the Bureau of the Chief Engineer of the Croton Aqueduct, a portion of which has heretofore been charged to "Croton Water Fund." The other transfers are: one Clerk of Bureau, \$1,800, heretofore charged to "Croton Water Fund"; one Clerk of Bureau, \$1,500, heretofore charged to "Fund for Local Improvements"; one Clerk of Bureau, \$1,800, heretofore charged to "Boulevard, Roads, etc., Maintenance—Salaries"; one Clerk of Bureau, \$1,800, heretofore charged to "Lamps and Gas—Salaries"; one Clerk of Bureau, \$1,800, heretofore charged to "Supplies for and Cleaning Public Offices—Salaries." The portion of these salaries heretofore charged to "Street Improvement Fund" and "Croton Water Fund," has not been included in previous Departmental and Final Estimates. The present estimate for salaries is therefore increased to that extent. From careful study of the subject, I find that an increase and reorganization of the clerical force in the Bureau of the Water Register is necessary to carry out certain improvements which have been determined upon in keeping the water-rent accounts. The comparatively small increase in expenditure for salaries will result in larger revenue to the City, and enable the Department to place and keep the accounts in such

shape that they can be correctly balanced at any time, and that errors which have heretofore occurred will be avoided.

The salaries included in the appropriations are—

1 Commissioner	\$8,000 00
1 Deputy Commissioner	5,500 00
1 Chief Engineer	7,000 00
1 Chief Clerk	4,500 00
1 Water Register	4,000 00
1 Water Purveyor	2,750 00
5 Superintendents of Bureaux, \$2,750 each per year	13,750 00
1 Bookkeeper (General)	3,000 00
1 Corresponding Clerk	3,000 00
1 Contract Clerk	3,000 00
1 Assistant Contract Clerk	1,800 00
3 Clerks, \$2,000 each per year	6,000 00
1 Deputy Water Register	3,000 00
1 Cashier of Water Rents	2,000 00
1 Assistant Cashier of Water Rents	1,500 00
1 Bookkeeper of Water Rents	1,800 00
1 Assistant Bookkeeper of Water Rents	1,500 00
8 Clerks, \$1,200 each per year	9,600 00

SEWERS—REPAIRING AND CLEANING.

Final Estimate for 1885	\$119,000 00
Including for salaries	9,000 00
Departmental Estimate for 1886	\$250,000 00
Including for salaries	9,420 00

On the 30th of June, 1885, the sewerage system on Manhattan Island, under the care of this Department, included 409 miles of sewers, with 5,119 receiving-basins.

To form an approximate idea of the amount of labor, care and skill and expense required for the proper management and maintenance of this system, it is necessary to consider the circumstances under which it has grown up. For this purpose, the history of the system may be divided into four periods, as follows:

First—Prior to the year 1849. During this period the authority over the sewerage was divided between the Common Council, the City Inspector and the Street Department, and between the officials who preceded them in their several functions. About seventy-three miles of sewers, with 969 receiving-basins, were thus built in what may truly be called a haphazard manner, without the merest semblance of a general plan, or adaptation to the topography of the ground. Many miles of these sewers are sewers in name only. In numerous cases they were built without masonry bottoms and only served to convey the sewage from the immediate vicinity of the houses into the adjacent soil. The section of the city in which these sewers were built has undergone the most remarkable changes since that period. It then comprised the entire urban portion of the island, including nearly all the dwellings as well as the commercial and industrial establishments. Now it is the centre of the financial and commercial affairs of the continent, and is almost entirely covered by the modern palaces erected for the accommodation of the vast business concentrated in it. While it passed through its various phases of transformation some attempts were made from time to time, from sheer necessity, to provide greater drainage facilities for increased population and large buildings, but these changes or improvements were principally in the nature of temporary and local expedients. The original defects in the shape, sizes, grades and construction of these sewers are far from being entirely removed. The greatest improvement yet attempted will be effected by the construction of the collective sewers, and large sewer outlets along the water-front, which have been planned by this Department, and which will benefit the entire district; but the works of the Department of Docks, in extending the bulkheads and widening the marginal streets, is not yet sufficiently advanced to enable the Department to commence the construction of these sewers and outlets.

Second—The period from 1849 to 1865, when the power to authorize the building of sewers was vested in the Common Council, and the execution of the work was in the hands of the Croton Aqueduct Department. During these sixteen years, 132 miles of sewers and 1,871 receiving-basins were built. While there was much improvement in the form, size and method of construction of these sewers, the great want of a general topographical system still prevailed and led to numerous defects, which are as yet only partially remedied.

Third—From 1865 to 1870. In 1865, the Legislature passed the "Sewerage Act," giving the Croton Aqueduct Department exclusive control over the sewerage, and directing that the city be laid out in sewerage districts, and that maps and plans be prepared and filed from time to time, showing the direction and grades of the sewers to be built. This marks an epoch in the history of the sewerage system. It concentrated the authority and responsibility in relation to the entire subject, in one executive department which had under its control the professional skill and experience to deal with it in a scientific and practical manner. During the five years, sixty miles of sewers and 532 receiving-basins were built, and surveys and plans for additional sewerage were made. Some mistakes occurred, however, in miscalculating the ultimate service which the sewers would be required to perform in respect to the volume of sewage and drainage, and in the extensive use of earthenware pipe sewers instead of brick sewers. While the pipe sewers have the advantage of perfectly smooth interior, presenting no obstacles to the flow of sewage, they are too easily broken by settlement of soil, pressure of material filled over them, and accidents occurring in making excavations near the sewers. However, the remedy for these defects is easy in comparison to the work required to reconstruct the older sewers and render them serviceable.

Fourth—From 1870 to the present date. This is marked as a new period principally for the reason that in 1870 the control of the sewerage passed into the hands of the Department of Public Works, then created. For several years after that, earthenware pipe was used for the smaller sewers to a considerable extent, but for the past ten years pipes have only been used in a few cases, where there is no risk of breakage. Since 1870, the sewerage of the city has been extended and improved by the construction of 144 miles of sewers and 1,747 receiving-basins.

From the foregoing, it will be seen that the old sewers, built prior to 1865, present the greatest difficulties to be contended with in the maintenance of the sewerage system.

Until 1876, the Department was authorized by law to expend \$100,000 annually, raised by bonds, for the reconstruction of old sewers, but since that time the expenditure has been confined to the annual appropriations made in the tax levies for repairing and cleaning sewers. These appropriations have been so limited as to be barely sufficient for ordinary repairs and cleaning, leaving no provision for the gradual and permanent reconstruction and improvement of the old defective sewers. I doubt whether the people and authorities in any other city of the first-class would, for the sake of paltry and short-sighted economy, incur for so many years the dangers of epidemics which are engendered or promoted by such glaring defects in sewerage.

That New York has so far been comparatively free from such visitations is to be ascribed rather to its exceptional natural advantages of topography and surroundings than to any exercise of wisdom in dealing with the important subject of sewerage.

As the head of this Department, I deem it my duty to point out the dangers which will be invited by further neglect to make provision for the improvement of the sewerage, and I shall, as I do in this estimate, ask of your Board the means to carry out the improvement with reasonable dispatch. The estimate contemplates an expenditure of \$130,000 for special repairs and reconstruction of sewers and basins. A much larger amount than I have included in this estimate could at once be expended with signal advantage to the health and welfare of the city, inasmuch as in the old parts of the city there are a large number of sewers so broken and dilapidated that they require to be replaced by new constructions.

The remainder of the appropriation is for ordinary repairs and cleaning, and for replacing solid manhole covers with perforated covers, to improve the ventilation of the sewers. The cost of cleaning sewers and basins is enhanced by the diminution of the flow of Croton water to flush the sewers and carry off the deposits, and also by the practice, recently grown to an unusual extent, of sweeping street dirt into the basins.

The large increase in the number of new sewer connections with houses makes it necessary to employ two additional inspectors to supervise the work and see that the connections are properly made, and that no injury is done to the public sewers.

The salaries of the engineers, assistants, draughtsmen, clerks, inspectors, etc. are apportioned and charged to the several appropriations in accordance with the time and services rendered by each on the different works for which the appropriations are made.

The salaries to be paid from the appropriation for "Sewers—Repairing and Cleaning" are as follows:

1 Clerk	\$1,500 00
1 General Inspector	1,800 00
4 Inspectors Sewer Connections, \$4 per day	4,896 00
1 Inspector Sewer Repairs, \$4 per day	1,224 00
Total	\$9,420 00

SEWERAGE SYSTEM—SALARIES.

Final Estimate for 1885	\$15,000 00
Departmental Estimate for 1886	19,974 00

This appropriation is for the services of engineers, assistants, draughtsmen, etc., employed in making surveys, maps and plans for the future extension and improvement of the sewerage system. This work has to be done and continued in advance of the plans and preparation of contracts and specifications for the immediate construction of sewers. When a sewer is required in any particular street or part of a street in the upper of the city, to drain houses erected or about to be erected, it is necessary that the maps and plans for the entire sewerage district (of which the particular sewer may form only a very small part), showing the directions and grades of all the sewers, shall have been completed, or shall be made, before the construction of the sewer can be undertaken. In like manner, when a change or improvement is required in any sewer in the lower part of the city, where, as described in the preceding paragraph, the old sewers have been built without general plan or system, the work may effect miles of other sewers tending toward a common outlet, and extensive surveys and examinations have to be made to determine the effect, and to make the change in conformity with the general future improvement of the sewerage of the district. This is the work to be provided for and to be charged to the City at large, in contradistinction to the services applied to the surveys, plans, preparations of contracts, etc., for the immediate work of building any particular sewer.

The above estimate should be allowed in full, to enable the Department to keep pace with the needs of the city in the extension and improvement of the sewerage system.

The salaries chargeable to the appropriation are as follows:

1 Assistant Engineer, at \$2,250 per year, one-half time	\$1,125 00
1 Assistant Engineer, at \$2,000 per year, one-half time	1,000 00
1 Clerk, at \$1,500 per year, one-half time	750 00
2 Clerks, at \$1,500 per year each	3,000 00
1 Clerk	1,200 00
1 General Inspector, at \$1,800 per year, one-third time	600 00
1 Assistant Engineer and Chief Draughtsman, at \$2,250 per year, one-third time	750 00
2 Draughtsmen, at \$1,680, one-third time	1,120 00
5 Draughtsmen, at \$3.50 per day each, one-third time	1,785 00
2 Rodmen, at \$1,500 per year, one-half time	1,500 00
1 Rodman, at \$1,200 per year, one-third time	400 00
1 Rodman, at \$1,200 per year, one-half time	600 00
1 Leveler, at \$1,200 per year, one-half time	600 00
1 Rodman, at \$3.50 per day	1,070 00
1 Rodman, at \$3 per day, one-half time	462 00
1 Axeman, at \$3 per day	924 00
4 Axemen, at \$2.50 per day each, one-half time	1,540 00
1 Axeman, at \$2.50 per day	770 00
1 Messenger, at \$2.50 per day	770 00
Total	\$19,974 00

STREET IMPROVEMENTS—FOR SURVEYING, MONUMENTING AND NUMBERING STREETS.

Final Estimate for 1885	\$2,000 00
Departmental Estimate for 1886	3,000 00

It is very desirable that this appropriation be increased, as herein requested, to enable the Department to reset and replace a large number of monument stones, giving grades and street lines in the upper part of the city, which have been broken or displaced, and upon which the correctness of hundreds of surveys of private and public property depends, involving immense pecuniary interests. The constant changes going on in the sizes and styles of buildings in the older part of the city also require frequent revision of street numbers.

SUPPLIES FOR AND CLEANING PUBLIC OFFICES.

Final Estimate for 1885	\$155,400 00
Including for salaries	28,400 00
Departmental Estimate for 1886	\$152,800 00
Including for salaries	26,862 00

The items to be provided for in this appropriation are fuel, office furniture, and other office supplies for all the public buildings and offices under the care of this Department, compensation of persons employed in cleaning them, and salaries of janitors, steam engineers, watchmen, elevator attendants, etc. For a number of years past the appropriation has not been adequate to supply the demands made upon the Department and to keep the offices in decent condition. From year to year requisitions for supplies had to be laid over with the expectation of obtaining sufficient means to fill them in the succeeding year. One of the special items included in the estimate is for repairing and upholstering the furniture of the Governor's room in the City Hall, renovating the pictures and picture frames, and placing new lambrequins so as to be in harmony with the other improvements recently made there.

The salaries to be charged to the appropriation are as follows:

1 Clerk	\$1,200 00
1 Janitor	1,400 00
1 Janitor	1,300 00
8 Janitors, \$1,000 each per year	8,000 00
2 Enginemen, \$1,100 each per year	2,200 00
5 Enginemen, \$1,000 each per year	5,000 00
4 Watchmen, \$800 each per year	3,200 00
1 Keeper Corporation Yard, \$3 per day	924 00
1 Matron Court-house	600 00
1 Attendant Governor's Room	420 00
1 Messenger, \$2.50 per day	770 00
3 Elevator Attendants, \$2 per day each	1,848 00
Total	\$26,862 00

SURVEYS, MAPS, ETC., FOR BOARD OF STREET OPENINGS.

Final Estimate for 1885	\$15,000 00
Departmental Estimate for 1886	25,000 00

The Department is required by law to furnish to the Board of Street Openings and Improvement all surveys, maps, etc., required by that Board. Owing to want of funds to pay the awards and costs in the street opening proceedings, a number of necessary openings have been postponed for the past year, but I am informed that the Board of Street Openings and Improvement will apply to your Board for an appropriation for next year for that purpose, in consequence of which there will be an unusual number of proceedings for which maps, surveys, descriptions of lands, and assessment lists will have to be made up by this Department. The increase in the appropriation is therefore needed.

SUPPLYING WATER TO SHIPPING, ETC.—SALARIES.

Final Estimate for 1885	\$9,000 00
Departmental Estimate for 1886	9,700 00

This appropriation could not be reduced below the above estimate without interfering with the efficiency of the service, and incurring the risk of losing a portion of the revenue due the City from that source, as well as loss of water through waste along the water-front.

The following salaries are included in the estimate:

1 Superintendent, at \$2,400 per year, part time	\$1,900 00
1 Clerk	1,200 00
6 Inspectors, at \$3 per day each	5,544 00
1 Inspector of Meters at \$3.50 per day	1,120 00
Total	\$9,764 00

WATER SUPPLY FOR THE TWENTY-FOURTH WARD.

Final Estimate for 1885.....	\$5,000 00
Departmental Estimate for 1886.....	\$15,000 00
Including for salaries.....	1,400 00

The appropriation for this year is utterly inadequate to extend the water service, as demanded by the property-owners and residents for their health, convenience and protection from fire. The above amount is therefore needed for 1886. No allowance was made in this year's appropriation for salary account, which was to pay for inspection of the work. Of all works carried on by the Department, none are more in need of close inspection than the laying of water-pipes to prevent defects which would result in loss of water and destruction of property. The Board is, therefore, requested to allow \$1,400 for inspector's services, at the rate of \$3.50 per day.

WELLS AND PUMPS—REPAIRING AND CLEANING.

Departmental Estimate for 1886.....	\$250 00
-------------------------------------	----------

A number of wells and pumps are still in use to supply water to citizens, especially in districts where the regular water supply is not yet introduced, under the obligation of the Department to supply pure water to all the inhabitants. The above amount will be necessary to keep these wells and pumps in proper condition.

BORING EXAMINATIONS FOR GRADING AND SEWER CONTRACTS.

Departmental Estimate for 1886.....	\$10,000 00
-------------------------------------	-------------

In his Departmental Estimate for the year 1884, my predecessor asked for this amount for the purpose of making examinations of the soil by boring, so as to ascertain, as nearly correct as possible, the quantities of earth excavation and rock excavation, for grading contracts and sewer contracts, but no appropriation was made in the Final Estimate. It is a matter of record, and has been a subject of official investigation, that for want of such examinations the preliminary estimates of the relative quantities of earth and rock excavation to be done under such contracts, have varied very greatly from the final outcome, and that in several cases of this kind, the final cost of the improvements was much greater than the sum at which it was awarded to the supposed lowest bidder, on calculations based on the preliminary estimates furnished by surveyors or engineers. I deem it of great importance that the Department be allowed the above amount to enable it to prevent a recurrence of similar cases in future.

FOR STREET SIGNS ON BUILDINGS AND PUBLIC LAMPS.

Departmental Estimate for 1886.....	\$20,000 00
-------------------------------------	-------------

This appropriation is necessary to carry out the following resolution of the Board of Aldermen, approved May 15, 1885:

Resolved, That the Commissioner of Public Works be and he is hereby authorized and directed to cause the name of every intersecting street, and every intersecting street and avenue, to be placed on the building, or, in localities where practicable, on the street-lamps at or near the northeast and southwest corners formed by such intersections, and of a size and style of letters that will be legible from the sidewalk in front of every such house, both day and night, in order to afford a much needed accommodation to our own citizens and strangers, and to facilitate them in finding any particular locality within our city limits.

Resolved, That it shall not be lawful for any person to hinder or interfere with the person or persons engaged in placing such designation of street and avenue, on every such house or street-lamp, or to remove or deface, or in any other manner interfere with such designation, when so affixed or placed, under a penalty of one hundred dollars for each and every offense.

GANSEVOORT MARKET BUILDINGS.

Departmental Estimate for 1886.....	\$468,000 00
-------------------------------------	--------------

Several years ago the property owned by the City, known as the Fort Gansevoort property, was set apart for use as a public market, and additional adjoining property was acquired for the same purpose. In connection with the improvement, Gansevoort street was widened and extended. A portion of the City's property was graded and paved to make it suitable for an open market stand for gardeners and farmers. The remaining portion, having an area of about 1,600 square feet, is intended to be occupied by the present tenants of West Washington Market. The removal of the business now carried on in West Washington Market will open to the general harbor commerce a considerable space of water-frontage which is very much needed for that purpose.

An expenditure of \$380,483 has so far been incurred in the acquisition of land and the improvement of the ground now occupied as a farmers' market. Of this amount, \$218,773 has been charged to the City, and \$161,680 has been assessed on adjacent property. Neither the City nor the private property so largely assessed will be much benefited by this expenditure, unless the ultimate design of the entire improvement is carried out. Of this design the proposed market buildings are the most important part. The above estimate of \$468,000 provides for ten buildings, each 52 by 186 feet, two stories high, and separated from each other by convenient carriageways, similar to the present arrangement of West Washington Market; the entire construction to furnish all necessary convenience for the business now transacted in Washington Market.

CLINTON MARKET—REBUILDING.

Departmental Estimate for 1886.....	\$150,000 00
-------------------------------------	--------------

Last year my predecessor asked for this appropriation in a supplementary estimate, dated October, 1884, and stated:

"The building is in such a condition that it is unsafe and incapable of being repaired. The work is strongly urged in a petition signed by nearly every stand-holder. The rebuilding of the entire market can be prosecuted simultaneously, without interference with business, and, under the circumstances, I deem it my duty to present this matter for your consideration."

There is nothing to add to this statement in support of the request for the appropriation at this time except that the necessity for a new building increases from year to year, and if provision for it is not made the market should be entirely closed and abolished, as it is not in a suitable condition for the transaction of the business required, and cannot be made so without complete reconstruction. The plot of land occupied by the market is triangular, with a total frontage of 635 feet, and an area of 22,000 square feet. This estimate provides for a building with exterior brick walls and iron columns on the interior, that part of the building fronting on West street to be two stories high, and the other portions to be one story high with skylights and ventilators on the roof.

NEW HALL OF RECORDS.

Departmental Estimate for 1886.....	\$250,000 00
-------------------------------------	--------------

Several Grand Juries have recently found presentments against the use of the present dilapidated and unsafe building in which are filed and kept the records of real estate and other property, amounting to many hundred millions of dollars in value. The above estimate provides for a new building of stone and iron, entirely fire-proof, in keeping with the architecture of the City Hall, the dimensions to be about 75 by 120 feet, three stories and basement, and to be so arranged as to form a wing of such a municipal building as may later be decided upon.

I append to this estimate a tabular statement showing the Final Estimate, including transfers, for the year 1885, amounting to \$2,577,165.19, and the Departmental Estimate for 1886, amounting to \$4,498,006. From this statement you will find that the Departmental Estimate is increased by the following new appropriations, not heretofore included in any previous estimate:

Repaving Fifth Avenue.....	\$294,000 00
Boring Examinations for Grading and Sewer Contracts.....	10,000 00
Street Signs on Buildings and Public Lamps.....	20,000 00
Special Appliances to Suppress Waste of Water.....	100,000 00
Gansevoort Market Buildings.....	468,000 00
Rebuilding Clinton Market.....	150,000 00
New Hall of Records.....	250,000 00

Total.....\$1,292,000 00

The other principal items of increase are:

Boulevard, Roads and Avenues—Maintenance.....	\$20,000 00
Contingencies—Department of Public Works.....	10,000 00
Free Floating Baths.....	10,600 00
Laying Water-pipes.....	50,000 00
Public Buildings—Construction and Repairs.....	25,000 00
Removing Obstructions in Streets and Avenues.....	10,000 00
Repairing and Renewal of Pipes, Stop-cocks, etc.....	100,000 00
Repairs and Renewal of Pavements and Regrading.....	100,000 00
Repaving Streets and Avenues.....	292,000 00
Surveys, Maps, etc., for Street Openings.....	10,000 00
Water Supply for Twenty-fourth Ward.....	10,000 00

Total.....\$637,600 00

Very respectfully,

ROLLIN M. SQUIRE, Commissioner of Public Works.

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS, }
No. 36 UNION SQUARE, October 1, 1885.

Hon. EDWARD V. LOEW, Comptroller :

SIR—In compliance with the requirements contained in your circular letter of August 25, I have the honor to transmit herewith comparative statement showing the appropriations made to this Department for the year 1885, with additions and deductions therefrom for transfers, and the amounts of appropriations asked for in the Departmental Estimate for the year 1886.

It is impracticable at this time to give information as to the amount that may remain unexpended of any appropriations for 1885, at the end of the year.

Respectfully,

CHARLES DE F. BURNS, Secretary.

Explanations and Reasons for Increase or Decrease in Estimates as compared with 1885.

SALARIES.

Secretary's Office—An additional clerk (\$1,200) needed on account of increased clerical work; one messenger, promoted to clerk, with increase of \$200 in salary; one messenger boy (\$300) required; increase of salary of Chief Clerk and Auditing Clerk.

Attorney and Counsel's Office—An additional law clerk (\$1,200) required on account of increased clerical work; increase in salaries of two experienced clerks from \$1,400 to \$1,500.

Sanitary Superintendent's Office—Increase in salary of one clerk from \$1,200 to \$1,320, on account of valuable services.

First Division—One orderly or messenger boy (\$300) necessary.

Second Division—Increase in salary of one inspector (\$60), on account of traveling expenses; increase in salary of one milk inspector, on account of his services as assistant chemist (\$240); increase in salary of two meat inspectors, on account of valuable services; decrease of \$900 by resignation of Professor Waller, Chemist, by reason of inadequate compensation.

Third Division—Decrease by transferring one inspector (\$1,200) to Sixth Division; increase in salary of one inspector of buildings to \$1,800, on account of valuable services.

Fourth Division—Increase in salary of one inspector, from \$1,200 to \$1,500, on account of long and faithful service; increase of salary of messenger in charge of vaccine virus from \$900 to \$1,000.

Fifth Division—Increase of \$7,508 in salaries of physicians, matrons, nurses, orderlies, etc., on account of the opening of a new hospital at foot of East Sixteenth street (the Willard Parker Hospital), and of increased accommodations for contagious diseases by removal of Riverside Hospital from Blackwell's Island to North Brother Island.

Sixth Division—Increase by transfer of one inspector from Third Division to Sixth Division (\$1,200); increase in salary of one inspector from \$1,560 to \$1,860, and of seven inspectors from \$1,260 to \$1,500, on account of valuable and expert service, increase in salary of one clerk from \$1,200 to \$1,320, and of one clerk from \$960 to \$1,200, on account of valuable and faithful service.

Seventh Division—Increase in salaries of two clerks from \$1,800 to \$2,000; of two clerks from \$1,300 to \$1,500; of two clerks from \$1,200 to \$1,500; one clerk from \$1,680 to \$1,800; one clerk from \$1,200 to \$1,320, all on account of long and faithful and expert service; one messenger boy (\$300) required.

Salaries of twenty additional sanitary inspectors, called "Sanitary Engineers," pursuant to chapter 508, Laws of 1885, at \$1,200 each, \$24,000, being an addition to estimate of salaries for 1885.

Contingent Expenses—Increase of \$3,100 in estimate for contingencies to provide for chemical analysis of food and drugs, for additional telephone accommodation in connection with contagious disease hospitals, for additional postal expenses on account of increased business, etc.

Disinfection—No change in estimate from 1885.

Law Expenses; Removing of Night-soil, Dead Animals and Offal; Night Medical Service; Fund for Payment of Sanitary Police—No change from 1885.

Hospital Fund—For Care and Maintenance of Buildings and Hospitals, as provided by section 550, N. Y. Consolidation Act of 1882—The amount estimated (\$10,000) for the care and maintenance of buildings and hospitals at North Brother Island is considered necessary for the year 1886.

Hospital Supplies and Transportation for Care of Contagious Diseases—Increase of \$3,900 necessary in this appropriation on account of necessary expenditures for food, gas, fuel, etc., by reason of additional hospital ("Willard Parker") at foot of East Sixteenth street.

Hospital Fund—For Completion of Hospital Buildings and Grounds at North Brother Island—It is deemed advisable to construct without delay the seven additional pavilions as originally designed for the hospital establishment at North Brother Island (\$23,500), and to furnish the same (\$3,000); to complete the sea-wall around the Island, already partially built (\$37,000); to provide an artesian well in order to insure a proper water supply to the hospitals (\$6,000); to complete the drains, roads and walks, and the filling and grading of the Island (\$6,000); also a dead and autopsy house (\$3,000); porch to administration building (\$1,000), and boathouse (\$500).

Fund for Rent of Rooms for use of Health Department—Additional rooms are needed for the use of this Department, to properly accommodate the public, to facilitate the work of the officers and employees, and to afford them reasonable air-space, and to preserve the valuable records and papers of the Department, especially the returns and registers of births, marriages and deaths, and the estimate is \$5,000 for annual rent, and \$1,500 for furniture and fixtures.

Respectfully submitted, by order of the Board,

ALEXANDER SHALER, President.

EMMONS CLARK, Secretary.

Chapter 555, passed June 13, 1885—The pay or compensation of the police surgeons shall be \$2,250 per annum, and of doormen shall be \$1,000 per annum, to take effect January 1, 1886.

Chapter 182, passed April 22, 1884—On and after January 1, 1885, the grade and the pay or compensation of the members of the police force shall be as follows:

All such members who are patrolmen January 1, 1885, who have served three years or upwards, shall be members of the first grade, at a salary of \$1,200 per annum; all who have served for less than three years, and more than one, shall be members of the second grade, at a salary of \$1,100 per annum; and all other members who are patrolmen shall be members of the third grade, at a salary of \$1,000 per annum; and all persons appointed patrolmen after the first day of January, 1885, shall become members of the third grade. Whenever any member of the third grade shall have done service therein for one year, he shall be advanced to the second grade; and whenever any member of the second grade shall have done service therein for one year, he shall be advanced to the first grade. Under this chapter 352 officers become members of the first grade, and the number of officers advanced from \$1,000 to \$1,100 per annum is 234.

If the Board of Estimate and Apportionment should allow money sufficient to appoint the one hundred extra patrolmen, or any extra patrolmen, thirty days' pay of the number allowed for each officer at \$1,000 per annum, should be added to the amount for provisional employment, and deducted from the salary or amount for the number allowed.

The estimate for salaries of the force is made as the force stands, ending September 15, and is subject to alteration between September 15 and December 31, 1885.

DEPARTMENT OF STREET CLEANING.

DEPARTMENT OF STREET CLEANING—CITY OF NEW YORK,
Nos. 31 AND 32 PARK ROW,
NEW YORK, October 3, 1885.

Hon. WILLIAM R. GRACE, Mayor, and Chairman of the Board of Estimate and Apportionment:

SIR—In compliance with section 189 of the New York City Consolidation Act of 1882, I respectfully submit the estimate set out hereafter of the amount required to conduct the public business under the charge of the Department of Street Cleaning for the year 1886, with the following introductory statement:

The Board of Estimate and Apportionment appropriated the sum of \$1,050,000 for the purposes of the Department of Street Cleaning for the year 1885. The existence of an epidemic of cholera in parts of Europe, and the possibility of its being communicated to Great Britain, and thence (or through other channels) transported to this country, filled the authorities of New York with serious apprehensions, and aroused them to the necessity of adopting extraordinary precautions against a visitation of that dreadful scourge and against its prevalence here, should it unfortunately be brought amongst us. To that end the Board of Estimate and Apportionment, having due regard to the grave responsibility resting upon them, and acting upon the concurrent views of the civic departments immediately charged with the sanitation of this city, did, among other preventive measures, allot an extra sum of \$150,000 for the purposes of the Department of Street Cleaning.

The wisdom of this course of action has been abundantly manifested in the practical, beneficial results effected. The cleanliness and healthfulness of New York during the summer just closed have been the subject of much favorable public criticism, not only locally but also in many parts of this country, and it has been remarked that while the death-rate of several large cities in Europe and America was enhanced, and epidemics of the most malignant type prevailed in some of them, the rate of mortality in New York was lowered, even in the face of an ever-increasing population. Likewise, the death-rate among infants, noticeably, has not been so high as in summers of the past, though the conditions of heat and moisture have been fully as favorable as they were in the worst of those seasons.

This highly satisfactory sanitary condition of the city has been publicly credited to the increased vigilance and activity of the Department of Street Cleaning, jointly with other co-operating city departments.

The following statistical figures illustrate the correctness of the foregoing statements as to the marked decrease in the rate of mortality:

Year.	Population.	Death-rate.
1879.....	1,097,563	25.82
1880.....	1,206,577	26.47
1881.....	1,242,533	31.08
1882.....	1,279,560	29.64
1883.....	1,317,691	25.81
1884.....	1,356,958	25.82
1885.....	1,500,000	24.50

There has been no abatement of the cholera in Europe, and the same good reasons advanced in support of taking extra precautionary measures for 1885, may be said to exist in equal force as to the year 1886. It is the opinion of our medical authorities, our most intelligent publicists and the press (representing public opinion), that we should not relax our efforts in 1886 to prevent the invasion of cholera.

ESTIMATE FOR SALARIES.

Commissioner.....	\$6,000 00
Deputy Commissioner.....	3,000 00

Superintendent Tugs and Scows.....	1,800 00
Superintendent of Stables.....	1,200 00
District Superintendent.....	1,500 00
Time Collector.....	1,200 00
2 District Inspectors.....	3,000 00
6 Assistant District Inspectors, at \$900 each.....	5,400 00
27 Precinct Foremen, at \$900 each.....	24,300 00

27 Assistant Precinct Foremen, at \$720 each	\$19,440 00
16 Dump Inspectors, at \$900 each	14,400 00
2 Captains of Tugs, at \$1,800 and \$1,440	3,240 00
2 Engineers of Tugs, at \$1,380 each	2,760 00
2 Pilots of Tugs, at \$1,080 each	2,160 00
4 Firemen of Tugs, at \$720 each	2,880 00
4 Deckhands of Tugs, at \$720 each	2,880 00
2 Stewards of Tugs, at \$720 each	1,440 00
	\$115,300 00

The increase in the salary account is due to raising the salaries of Secretary, \$300 per annum; Superintendent Tugs and Scows, \$300 per annum; Pay-roll Clerk, \$180 per annum; two Pilots on Tugs, \$180 per annum each; two Engineers on Tugs, \$300 per annum each. Also to the inclusion of salaries of additional foremen and assistant foremen for the supervision of the work south of Fourteenth street after the expiration of the present contracts on March 10, 1886.

WAGES OF LABORERS AND CARTMEN.

Laborers	\$275,000 00
Hired Carts	320,000 00
Department Cart Drivers	40,000 00
Machine and Water Cart Drivers	30,000 00
Stables, Hostlers, etc.	20,000 00
Dump Expenses, Watchmen, etc.	13,500 00
Captains of Scows	15,500 00
Mechanics	10,500 00
	\$724,500 00

Labor—The increment in the amount asked for laborers' wages is designed as a provision for the work south of Fourteenth street, now done by contract, to uphold the same standard of work performed this year or to improve it. The increase in the wages account is applied for, for the further reason that a steady increase of work may be calculated upon, during 1886, in the up-town districts, consequent upon an extended mileage of streets to be cleaned, in proportion as new streets are paved.

Hired Carts—The increase in the amount for hired carts is designed to provide for the work south of Fourteenth street, and for the increase of work north of Fourteenth street. The work north of Fourteenth street for 1885 has largely exceeded that of any former year, on account of being obliged to cart the material in the upper part of the city long distances in order to find proper places to dump, and also on account of the greater amount of ashes and garbage resulting from the much augmented population in the upper districts; and, further, to the newly-paved streets, as indicated herebefore.

Machine and Water Cart Drivers—The reasons advanced for the increase for laborers' wages and hired carts are equally applicable here; and further, an increased amount of sweeping is being done by machines this year over former years; and to keep up, or improve on, the present standard of work.

Stables, Hostlers, etc.—The increase of sweeping to be done will necessarily entail an increase in the number of horses required to accomplish the work.

Dump Expenses, etc.—The sum asked for is the same as last year.

Captains of Scows—The same as preceding.

Mechanics—The same as preceding.

REPAIRS AND SUPPLIES.

For Carts and Machines	\$9,000 00
For Harness	1,800 00
For Tugs	20,000 00
For Scows	10,500 00
For Dumps	10,000 00
For Feeding Horses	15,000 00
For Supplies for Shoeing Horses	1,000 00
	\$67,300 00

Carts and Machines—In order to keep up the present standard of work and to provide for all the Department work without outside help, we shall need a number of new machines and carts.

Harness—The stock is becoming much worn and will necessitate a greater outlay to keep it in good working order than was expended this year (1885); and the increase in the number of horses required to perform the work will call for continued repairs to the harness.

Tugs and Scows—The amount asked for "Repairs and Supplies to Tugs" and "Scows" is owing to the fact that on account of the great amount of work required of and done by the tugs and scows, they are fast wearing out, and will need new appliances and apparatus continually. The basis for this estimate for 1886 has been regulated on the scale of expenditure for the first six months of 1885.

Dumps—The increased amount asked for is designed to enable the Department to rebuild one or two existing dumps which have become dilapidated from use, and to build new dumps, three of which are required in the following localities: on the North river, above Forty-seventh street; on the East river, between Forty-sixth and One Hundred and Tenth streets; and for the annexed district.

Feeding and Shoeing Horses—The amount asked for is the same as last year.

FINAL DISPOSITION OTHER THAN BY DEPARTMENT PLANT.

For unloading scows	\$43,000 00
For hired scows	60,000 00
For extra towing	30,000 00
	\$133,000 00

Unloading Scows—The estimate is the same as last year.

Hired Scows—The increase in this item is caused by the decided increase in the amount of material to be removed from the upper portion of the city, which was formerly disposed of by filling in low ground, and if we build the additional dumps spoken of under the heading "Dumps," additional scows will be needed for them.

Extra Towing—The Department tugs have been worked up to their fullest capacity this year, so that all the increase of material to be disposed of must be provided for by having it towed by hired tugs. For the first six months of this year, the extra towing cost over \$18,000, and the natural increase justifies the belief that the sum asked for here will be needed.

NEW STOCK.

Horses	\$15,000 00
Harness	2,000 00
Carts and machines	10,000 00
	\$27,000 00

Horses—The reasons set forth under the heading "Carts and Machines" (Repairs and Supplies) are applicable here in support of the statement that to avoid hiring horses, an increase in the present stock of Department horses is absolutely necessary.

Harness—For the same reason that an increase of horses will be needed, the Department will require a proportionate increase in the number of sets of harness.

Carts and Machines—The amount asked for will be sufficient to provide carts and machines for the increased number of horses.

RENTS.

Stables	\$3,150 00
Office	2,500 00
	\$5,650 00

Rents—The reduction in the amount asked for rent is caused by the fact that the item of rent for Pier 12, East river, is omitted from this estimate, no rent being paid for the occupancy of the same this year.

REMOVING SNOW AND ICE.

Removing snow and ice	\$60,000 00
-----------------------	-------------

CLEANING STREETS BY CONTRACT FROM JANUARY 1 TO MARCH 10, INCLUSIVE.

First District	\$25,993 15
Second "	43,477 56
	\$69,470 71

The foregoing is the amount to be paid under the existing contracts, which continue in force until the 10th of March, 1886.

RECAPITULATION.

Salaries	\$115,300 00
Wages	724,500 00
Repairs and supplies	67,300 00
Final disposition	133,000 00
New stock	27,000 00
Rents, stables, office, etc.	5,650 00
Cleaning streets by contract	69,470 71
Removing snow and ice	60,000 00
	\$1,202,220 71

APPROPRIATIONS.

Regular Appropriation, 1885	\$1,050,000 00
Special Appropriation, 1885	150,000 00
	\$1,200,000 00

Asked for, 1886	\$1,202,220 71
-----------------	----------------

There has been no transfer from one appropriation to another during 1885, but a consent was given, under date of September 30, to a transfer of \$5,700 from the fund of \$150,000 appropriated to this Department for the purpose of extra street cleaning in the tenement-house districts, etc., to the fund for contingent counsel fees of the Law Department.

I beg to assure your Honorable Board that, with the amount of money asked for in the foregoing estimate for 1886, the present cleanly condition of the city will be fully maintained and every effort made to sustain the present high reputation of New York for healthfulness.

Yours respectfully,

J. S. COLEMAN, Commissioner.

FIRE DEPARTMENT.

HEADQUARTERS FIRE DEPARTMENT, CITY OF NEW YORK,
NOS. 155 AND 157 MERCER STREET,
NEW YORK, September 30, 1885.

Honorable Board of Estimate and Apportionment:

GENTLEMEN—In conformity with the requirements of section 289, New York City Consolidation Act of 1882, and the request of your Honorable Board of the 25th ultimo, I have the honor to forward herewith the Departmental Estimate for 1886, as determined upon by the Commissioners of this Department; a comparative statement of the appropriations made to this Department for the current year, including transfers, etc., and lists of names of the present incumbents of positions in the Department (except members of engine and hook and ladder companies), with title and salary in each case.

Very respectfully,

HENRY D. PURROY, President.

Comparative Statement—To Accompany Departmental Estimate of Fire Department for 1886.

Fire Department, City of New York—Departmental Estimate for 1886.
FOR SALARIES.

Headquarters Pay-roll—	
3 Commissioners, at \$5,000 each	\$15,000 00
Secretary	4,000 00
Assistant Secretary	2,000 00
Medical Officer	2,250 00
2 Vice-Medical Officers, at \$2,000 each	4,000 00
Bookkeeper	2,500 00
Clerk	1,800 00
Clerk	1,300 00
3 Clerks, at \$1,200 each	3,600 00
Clerk	1,100 00
Supply Clerk	1,500 00
Property Record Clerk	1,300 00
Type-writer	1,040 00
2 Night Watchmen, at \$912 each	1,824 00
Janitor and Helper	1,500 00
	\$44,714 00
Instructor Sappers and Miners	2,000 00

The amount asked for this pay-roll is \$139 more than was allowed for the current year, the difference being accounted for by reduction in salaries of the Assistant Secretary, a clerk, etc., amounting to \$901, and an increase of \$1,040, for an additional employee (type-writer), whose services are necessary.

Chief of Department and Assistants Pay-roll—

Chief of Department	\$5,000 00
Assistant Chief of Department	3,800 00
Second Assistant Chief of Department	3,300 00
12 Chiefs of Battalion, at \$2,500 each	30,000 00
	42,100 00

The increase on this pay-roll, in accordance with an act passed by the last Legislature (chapter 552, Laws of 1885), is \$300 for each of the three principal officers, \$900 in all.

Engine and Hook and Ladder Companies Pay-rolls—

75 Foremen, at \$1,800 each	\$135,000 00
91 Assistant Foremen, at \$1,500 each	136,500 00
129 Engineers of Steamer, at \$1,400 each	180,600 00
513 Firemen, First Grade, at \$1,200 each	615,600 00
93 Firemen, Second Grade, at \$1,100 each	102,300 00
62 Firemen, Third Grade, at \$1,000 each	62,000 00

Engine and Hook and Ladder Companies Pay-rolls—

90 Ununiformed Firemen on probation for thirty days each, at \$1,000 per annum each.....	\$7,397 10
4 Marine Engineers, at \$1,400 per annum each.....	5,600 00
4 Pilots, at \$1,200 per annum each.....	4,800 00
6 Stokers, at \$730 per annum each.....	4,380 00
	\$1,254,177 10

The increase over the present year's appropriation is accounted for as follows:

Additional officers and men required:

- 12 Engineers of Steamers, 1 for each of the 12 double engine companies.
- 12 Firemen, 1 for each of the 12 double engine companies.
- 6 Firemen, 2 for each of the 3 double hook and ladder companies.
- 10 Firemen for Hook and Ladder Company No. 16, soon to be organized.

Increase of pay by statute, chap. 552, Laws of 1885:

- Foremen, from \$1,400 and \$1,500 to \$1,800.
- Assistant Foremen, from \$1,300 to \$1,500.
- Engineers of Steamer, from \$1,200 and \$1,300 to \$1,400.
- Assistant Engineers of Steamer, from \$1,100 and \$1,250 to \$1,400.
- The grade of Assistant Engineer having been abolished by the law referred to.
- 90 Ununiformed Firemen on probation, to comply with the Civil Service laws and regulations.

Advancement of Firemen from Third Grade to Second Grade, and from Second Grade to First; chap. 234, Laws of 1884.

Bureau of Combustibles Pay-roll—

Inspector of Combustibles.....	\$2,500 00
Clerk.....	1,400 00
Clerk.....	1,000 00
Clerk.....	1,000 00
Oil Surveyor.....	1,200 00
Assistant Oil Surveyor.....	1,200 00
Assistant Oil Surveyor.....	1,200 00
3 Oil Collectors, at \$900 each.....	2,700 00
	12,200 00

The amount asked for this year (1885) was \$13,300, and the amount allowed was \$10,000, necessitating a reduction in salaries throughout. The Bureau is a very important one, transacting a large amount of business, and its employees are justly entitled to the salaries asked for. The increase is \$2,200 over the present year's appropriation.

Bureau of Fire Marshal Pay-roll—

Fire Marshal.....	\$2,500 00
Assistant Fire Marshal.....	1,500 00
Clerk.....	1,400 00
2 Clerks, at \$1,000 each.....	2,000 00
	7,400 00

Bureau Inspection of Buildings Pay-roll—

Superintendent of Buildings.....	\$4,000 00
Chief Clerk.....	800 00
Record Clerk.....	1,800 00
3 Clerks, at \$1,500 each.....	4,500 00
1 Clerk.....	1,350 00
5 Clerks, at \$1,200 each.....	6,000 00
4 Clerks, at \$1,000 each.....	4,000 00
2 Clerks, at \$900 each.....	1,800 00
2 Clerks, at \$800 each.....	1,600 00
3 Messengers, at \$900 each.....	2,700 00
1 Inspector.....	2,000 00
2 Inspectors, at \$1,300 each.....	2,600 00
37 Inspectors, at \$1,200 each.....	44,400 00
	77,550 00

The amount allowed for this Bureau for the present year is \$74,000, \$78,000 having been asked. The reduction thus made compelled the fixing of the salaries of the Inspectors at \$1,100, instead of \$1,200. It is believed that the latter rate will result in obtaining a better class of men for the purpose. The business of the Bureau is constantly increasing, and it is of the first importance that its administration be not hampered by want of funds.

Attorney to the Department.....

4,000 00

Telegraph Force Pay-roll—

Superintendent of Telegraph.....	\$3,000 00
Chief Operator.....	1,500 00
3 Operators, at \$1,380 each.....	4,140 00
5 Assistant Operators, at \$1,200 each.....	6,000 00
2 Inspectors Fire-alarm Boxes, at \$1,000 each.....	2,000 00
Clerk.....	925 00
Batteryman.....	1,200 00
Assistant Batteryman.....	800 00
Foreman of Linemen.....	1,000 00
2 Linemen, at \$800 each.....	1,600 00
	22,165 00

The increase required for this purpose is \$1,125 and is accounted for by the following changes:

An additional Assistant Operator.....	\$1,200 00
An additional Inspector Fire-alarm Boxes.....	1,000 00
	\$2,200 00
Reduction in salary of Clerk.....	\$275 00
1 Lineman less.....	800 00
	1,075 00
	\$1,125 00

The changes are necessary to the efficiency of the Fire-alarm Telegraph.

Repair Shops Pay-roll—

Superintendent of Repairs to Buildings.....	\$2,000 00
Foreman.....	1,500 00
Storekeeper.....	1,500 00
Clerk.....	1,400 00
Clerk.....	1,200 00
Messenger.....	800 00
Shop Engineer, at \$3 per day.....	925 00
14 Machinists, at \$3 per day.....	12,950 00
1 Machinist's Helper, at \$1.90 per day.....	580 00
1 Coppermith, at \$3 per day.....	925 00
2 Boiler-makers, at \$3 per day.....	1,850 00
6 Blacksmiths, at \$3 per day.....	5,550 00
6 Blacksmiths' Helpers, at \$1.90 per day.....	3,490 00
1 Wheelwright, at \$4 per day.....	1,240 00
1 Wheelwright, at \$3 per day.....	925 00
3 Wheelwrights, at \$2.75 per day.....	2,550 00
4 Painters, at \$3 per day.....	3,700 00
4 Painters, at \$2.50 per day.....	3,100 00
2 Harness-makers, at \$3 per day.....	1,850 00
2 Hose Repairers, at \$3 per day.....	1,850 00
2 Night Watchmen, at \$2.50 per day.....	1,825 00
2 Day Watchmen, at \$2.50 per day.....	1,825 00
2 Laborers, at \$1.90 per day.....	1,280 00
3 Drivers, at \$2.50 per day.....	2,335 00
1 Tinsmith, at \$2.75 per day.....	850 00
	58,000 00

The increase of \$3,000 over this year's appropriation asked for is rendered imperatively necessary by the increased amount of work required to be done.

Hospital Stables Pay-roll—

Foreman.....	\$1,200 00
5 Stablemen, at \$2 per day.....	3,650 00
	4,850 00

Total salaries.....\$1,529,156 10

For Apparatus, Supplies, etc.—

Apparatus and repairs.....	\$40,000 00
Buildings and repairs.....	25,000 00
Contingencies—Bureau Inspection of Buildings.....	5,000 00
Coal and wood.....	27,000 00
Gas.....	12,000 00
General supplies.....	21,000 00
Horses.....	20,000 00
Horse-feed and straw.....	33,000 00
Horseshoeing.....	12,000 00
Harness Shop supplies.....	5,000 00
Hose Shop supplies and new hose.....	30,000 00
Machine and Paint Shop supplies.....	20,000 00
Rents.....	5,000 00
Telegraph supplies and repairs.....	15,000 00
Repairs to fire steamers.....	5,000 00
	\$275,000 00

The same amount was asked for this year, and the reduction in amount allowed now necessitates larger expenditures for apparatus, hose, repairs, etc., during the coming year, which can no longer be deferred.

New Houses for Engine and Hook and Ladder Companies—

For completion of quarters for Engine 39 and also Hook and Ladder 16, to be occupied as well by the Fire Alarm Telegraph, School of Instruction and Life Saving Corps, Bureau of Buildings and for other Department purposes, including furnishing of interior, heating, lighting, ventilating, etc.; and for quarters for Engine 54, West Forty-seventh street; Engine 55, Elm street, and Hook and Ladder 18, Attorney street..... 100,000 00

Engines 54 and 55 and Hook and Ladder 18 were included in the Departmental Estimate for the current year but, owing to the reduction made in the Final Estimate, could not be built. As stated in the estimate for this year, the present quarters of Engine 54 are inadequate and in a condition requiring rebuilding, and the houses now upon the sites at No. 173 Elm street and No. 84 Attorney street, intended respectively as locations for Engine 55 and Hook and Ladder 18 (new companies to be organized in very important sections of the city, and both urgently needed, as the statistics of fires for the past show), are both unsuited for the purpose and must be entirely rebuilt.

Total.....\$1,904,156 10

The foregoing estimate, amounting to one million nine hundred and four thousand one hundred and fifty-six dollars (\$1,904,156.10), is adopted as the sum of money which will be required for expenses necessary to the administration and conduct of the Fire Department of the City of New York for the year 1886.

THE DEPARTMENT OF DOCKS.

CITY OF NEW YORK—DEPARTMENT OF DOCKS,
NOS. 117 AND 119 DUANE STREET,
NEW YORK, September 18, 1885.

Hon. EDWARD V. LOEW, Comptroller, City of New York:

SIR—By direction of the Board governing this Department, I beg leave to transmit herewith the Departmental Estimate of the amount of moneys required for the uses and purposes of this Department for the year 1886, showing as fully in detail as it is possible to make it, the specific purposes for which the same is to be used, and to the particular work to which it is intended to be applied. As no appropriation has heretofore been made for the uses and purposes of this Department by the Board of Estimate and Apportionment, the comparative statement requested by you cannot be furnished.

In reference to the amount of moneys applicable to the uses of this Department remaining unexpended at the end of the present year, I have to state that there will not be any, as the necessary expenses of the Department, and for keeping in proper repair and condition the wharf property of the city and the construction of new work, will require for the balance of the year more than the amount of money now on hand to the credit of the Department.

It is proper to state that the estimate presented is only made approximately for many of the pieces of work which are embraced and stated therein, and that the estimated amount of the labor pay-rolls is made up and based upon the assumption that the Board will be enabled to proceed with the work of the permanent improvement of the water front, as well as the repairing and keeping in proper condition the wharf property belong to the city, which devolves upon it.

Very respectfully,

JOSEPH KOCH, President.

To the Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of the officers designated by chapter 3, section 66, New York City Consolidation Act, 1882, held this day, the annexed estimate for the conduct of the CITY RECORD Office for the year 1886 was adopted and ordered to be transmitted to the Board of Estimate and Apportionment.

The comparative statement called for is also inclosed.

W. R. GRACE, Mayor.
E. HENRY LACOMBE, Counsel to the Corporation.
ROLLIN M. SQUIRE, Commissioner of Public Works.

SEPTEMBER 17, 1885.

To the Hon. WM. R. GRACE, Mayor; E. HENRY LACOMBE, Counsel to the Corporation; R. M. SQUIRE, Commissioner of Public Works:

GENTLEMEN—Pursuant to the provisions of section 66, chapter 3, New York City Consolidation Act, 1882, I herewith transmit an estimate of the amount required for the conduct of the CITY RECORD Office for the year 1886:

Publication of the CITY RECORD, including the preparation and printing the Registry of Voters	\$54,200 00
CITY RECORD—Salaries and Contingencies—	
Supervisor	\$3,000 00
Assistant Supervisor	1,000 00
Bookkeeper	1,800 00
Clerk	1,200 00
Contingencies	200 00
Advertising	7,200 00
Printing, Stationery and Blank Books—	7,500 00

For all printing, stationery and blank books required by the Common Council and the Departments and Offices of the City Government, except printing the CITY RECORD, including the publishing of Calendars of Courts, under chapter 656, Laws of 1874.

\$213,400 00

Very respectfully,

THOS. COSTIGAN, Supervisor CITY RECORD.

CITY RECORD.

	APPROPRIATION, 1885.	APPROPRIATION ASKED FOR 1886.
Publication of the CITY RECORD	\$54,200 00	\$54,200 00
Salaries—		
Supervisor	3,000 00	3,000 00
Assistant Supervisor	1,000 00	1,000 00
Bookkeeper	1,800 00	1,800 00
Clerk	1,200 00	1,200 00
Contingencies	200 00	200 00
Advertising	7,500 00	7,500 00
Printing, Stationery and Blank Books, including the publishing of Calendars of Courts	144,500 00	144,500 00
	\$213,400 00	\$213,400 00

No transfers have been made during the current year; the various appropriations for 1885 will be very nearly, if not quite, sufficient for the purposes for which they were made.

THOS. COSTIGAN, Supervisor of the CITY RECORD.

MUNICIPAL SERVICE EXAMINING BOARDS.

CITY OF NEW YORK,
CIVIL SERVICE SUPERVISORY AND EXAMINING BOARD,
SECRETARY'S OFFICE, ROOM 11, CITY HALL,
NEW YORK, September 30, 1885.

Hon. W. R. GRACE, Chairman Board of Estimate and Apportionment:

SIR—In compliance with the request contained in the Comptroller's letter of August 25, 1885, I have the honor to submit herewith an estimate of the amounts required to pay the expense of conducting the public business in the City Civil Service Boards in and for the fiscal year 1886; a separate comparative statement, showing the amount of the appropriation made for the year 1885, and the amounts asked for 1886, and a statement of the amount which will probably remain unexpended of the appropriation for 1885 at the end of the year.

Estimated Amounts Required for 1886.

OFFICE SALARIES.

Chas. H. Woodman, Secretary and Executive Officer	\$4,500 00
Seligman Manheimer, Clerk	1,200 00
John McEntee, Janitor and Cleaner	600 00
Additional clerical aid	2,500 00
Six Examiners, paid by the session	\$8,800 00
Experts	4,000 00
Rent of offices No. 23 East Twentieth street, from November 1, 1885, to May 1, 1886, at \$2,500	1,250 00
Contingencies	2,000 00
Total	\$20,050 00

The appropriation for 1885 was a lump sum of \$25,000. That asked for the ensuing year is thus nearly \$5,000 less, the experience of the current year showing that so large an appropriation is not required.

Comparative Statement, 1885 and 1886.

	1885.	1886.
Appropriation (lump sum)	\$25,000 00	
Office Salaries		\$8,800 00
Examiners		4,000 00
Experts		4,000 00
Rent		1,250 00
Contingencies		2,000 00
		\$20,050 00

Of the appropriation of \$25,000 for 1885, there has been transferred to the appropriation for "Contingencies—Mayor's Office" the sum of \$500; and there is at present before the Board of Estimate and Apportionment a contemplated transfer of \$2,500 to the Commissioners of Accounts, making a total transfer of \$3,000. Deducting this amount from the balance at present unexpended, I estimate that there will be, at the close of the year 1885, an unexpended balance of \$7,000.

I have the honor to be,

Very respectfully yours,

CHAS. H. WOODMAN, Secretary and Executive Officer.

NEW ARMORY.

HEADQUARTERS TWENTY-SECOND REGIMENT,
FIRST BRIGADE, FIRST DIVISION,
NEW YORK, September 30, 1885.*To the Honorable the Board of Apportionment, City of New York:*

The undersigned respectfully petitions your Honorable Body to insert in the tax levy which you now have under consideration, the sum of three hundred thousand dollars (\$300,000), for the erection of an armory for the Twenty-second Regiment, N. G. S. N. Y., on the plot of land bounded by Sixty-seventh and Sixty-eighth streets, and the Boulevard and Ninth avenue, in the City of New York.

The said plot of land was purchased by the City of New York about a year ago, for the purposes of an armory for the Twenty-second Regiment, and the City is now paying interest at the rate of three per cent. per annum on the bonds issued to provide funds for such purchase, as well as a large rental for the armory occupied by the regiment in Fourteenth street.

It is respectfully submitted that it will be economy for the City to proceed with the erection of a building for the regiment as speedily as possible, and I desire to impress it upon the members of the Board that the welfare of the regiment, and to that extent the interest of the State service, imperatively demand that some favorable action should be taken without delay.

Very respectfully,

JOSIAH PORTER, Colonel Twenty-second Regiment,

N. G. S. N. Y.

SURROGATE'S COURT.

OFFICE OF THE SURROGATE—NEW YORK COUNTY COURT-HOUSE,
NEW YORK, October 23, 1885.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—Pursuant to section 4 of chapter 530 of the Laws of 1884, I submit herewith an estimate of the amount of expenditure required in this office and in the Surrogate's Court for the ensuing year. This estimate differs but slightly from that which was submitted and approved in 1884; the total proposed salary list for 1886 exceeding that of the current year by \$800.

I have asked for an increase of \$1,000 in the compensation of the Probate Clerk. The efficient discharge of the duties of that position calls for the exercise of a high order of ability; and I am confident that no person who is acquainted with the business of this office would regard \$3,000 as any more than a fair, just and reasonable salary for its Probate Clerk.

The Surrogate's Stenographer is constantly employed during the day-time, and fully half the evenings of the year until midnight he devotes to official service. I ask that his compensation be fixed at the moderate sum of \$1,400.

I have to some extent recast the list of clerkships, and now present it in such shape that, as I have already stated, the total expenditure of 1886, as I estimate it, will, in spite of the proposed increase of salaries, exceed that of last year by \$800 only, or by a little more than one per cent. of the entire estimate.

In accordance with chapter 57 of the Laws of 1883, I also make requisition for the appropriation by your Honorable Board of the sum of \$8,400 for salaries for the next year of the clerks provided for in said chapter. I also respectfully ask for an allowance for contingencies of \$1,000. These sums are the same as were last year appropriated for similar purposes.

Very respectfully yours,

DANIEL G. ROLLINS.

DISTRICT ATTORNEY'S OFFICE.

DISTRICT ATTORNEY'S OFFICE,
CITY AND COUNTY OF NEW YORK,
September 30, 1885.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—In conformity with the provisions of section 189 of the New York City Consolidation Act of 1882, I beg leave herewith to transmit the estimate of the amount required to conduct the business of this office for the year 1886. Under the provisions of an act of the Legislature, passed May 7, 1885, entitled "An act to amend chapter four hundred and ten of the laws of eighteen hundred and eighty-two, entitled 'An act to consolidate into one act and to declare the special and local laws affecting public interests in the City of New York,'" I have appointed an additional Assistant District Attorney, and ask your Honorable Board for an additional appropriation of \$7,500—the amount of annual salary fixed by law for said additional Assistant.

The increase of population and corresponding increase of crime in this city has recently become so marked as to render imperative the enlargement of the machinery for the proper administration of justice. I find that for the prompt and efficient administration of criminal justice in the City and County of New York the present court facilities are entirely inadequate, and that the establishment of a third part of the Court of General Sessions is an absolute necessity. In this view I am sustained by the judges on the criminal bench. My understanding is that after January 1, 1886, a third part of the General Sessions Court will be in active operation. In order to enable me to properly transact the increased business thereby created I have found it necessary to make provision for such assistance as I shall need for keeping three parts of our criminal court in session. I have asked for such increase in the amount of the appropriation for the year 1886 as will enable me to employ a librarian for the purpose of preserving the valuable library at present attached to this office and provide an additional messenger. I have made some additions to the salaries of a portion of my subordinates. These additions, in view of the increased labors that must be performed by each, I deem just and proper and necessary to the prompt and vigorous prosecution of criminals in this city and county.

I remain, with great respect,

Your obedient servant,

RANDOLPH B. MARTINE, District Attorney.

RANDOLPH B. MARTINE,

District Attorney, City and County of New York.

DISTRICT ATTORNEY'S OFFICE,
CITY AND COUNTY OF NEW YORK,
October 9, 1885.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—In submitting my estimate of the amount required to conduct the business of this office for the year 1886, I omitted, through inadvertence, to ask for one of my Deputy Assistants the same rate of compensation requested for his associates. I respectfully ask, therefore, for the salary of Mr. Bernard J. Douras, the sum of \$4,500. This will be an increase of \$1,000 on the Provisional Estimate forwarded to your Honorable Body on the 30th ult., making a total of \$93,060 for salaries, and a grand total of \$108,060.

I find that it devolves upon me also to ask your Honorable Board to make provision for the payment of the Stenographer to the Grand Jury, appointed pursuant to section 1 of chapter 348 of the Laws of 1885, and therefore request that to the appropriation for the District Attorney's Office for the year 1886 be added the following:

For payment of the stenographer to the Grand Jury for services in taking testimony and for copies of testimony taken before the Grand Jury the sum of \$2,500.

I remain, with great respect, your obedient servant,

RANDOLPH B. MARTINE, District Attorney.

COMMISSIONER OF JURORS.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—In compliance with your circular of the 25th ult., I forward herewith the estimate of expenses for this office for the year 1885, according to chapter 268, Laws of 1879, and chapter 426, Amended Laws of 1883, to wit:

Charles Reilly, Commissioner.....	\$5,000 00
James E. Conner, Deputy Commissioner.....	2,000 00
Daniel Dowling, Assistant Deputy Commissioner.....	1,600 00
Andrew Doyle, Canvasser.....	1,400 00
A. W. Moynihan, Enrollment Clerk.....	1,100 00
H. W. Bowen, Enrollment Clerk.....	1,000 00
Frederick O'Byrne, Register.....	1,000 00
W. J. Plunkett, Messenger.....	900 00
Stationery, printing, etc.....	2,000 00
	<hr/>
	\$16,000 00

In addition to making the foregoing statement, I wish to call to the attention of your Honorable Body the advisability of increasing the appropriation for the coming year.

I have found it necessary to take the requisite steps to re-examine some twenty thousand persons, whose names are enrolled in our books, for the purpose of supplying the courts with jurymen who are in all respects qualified to serve.

Furthermore, we have seventy thousand names on our books of persons claiming to be exempt from jury duty; them, also, I wish to have re-examined, for the purpose of determining whether their exemptions are valid under the latest laws governing exemptions.

The amount of labor involved in these undertakings is very great, and is much in excess of the labor our clerks have ever been called upon to perform before; for, ordinarily, they examine only about fifteen thousand persons annually.

In view of these facts, I trust that your Honorable Body will provide an appropriation large enough to permit of the employment of an extra clerk, and also to increase the salaries of several of the clerks on whom the burden of work falls especially heavy.

An appropriation of \$17,700 for the coming year, or \$1,700 more than that of last year, would be sufficient, and would be expended in the following manner:

Charles Reilly, Commissioner.....	\$5,000 00
James E. Conner, Deputy Commissioner.....	2,000 00
Daniel Dowling, Assistant Deputy Commissioner.....	1,600 00
Andrew Doyle, Canvasser.....	1,400 00
A. W. Moynihan, Enrollment Clerk.....	1,200 00
H. W. Power, Enrollment Clerk.....	1,200 00
Frederick O'Byrne, Register.....	1,200 00
W. J. Plunkett, Exempt Clerk.....	1,200 00
—, Messenger.....	900 00
Stationery, printing, etc.....	2,000 00
	<hr/>
	\$17,700 00

CHARLES REILLY, Commissioner of Jurors.

Hon. — LOEW, Comptroller New York:

DEAR SIR—Inclosed please find our estimate up to December 31, 1886.

We have included in this estimate an unpaid balance of \$88 from last year and the last quarter of this year, which is in accordance with a request made in a communication from you when our last bill was paid.

Yours truly,

J. C. CARSON.

NEW YORK ASYLUM FOR IDIOTS,
SYRACUSE, N. Y., September 26, 1885.

To the Board of Supervisors of the County of New York:

By the existing provisions of law, the Supervisors of any county from which State pupils are admitted into the New York Asylum for Idiots, are required to raise the sum of (\$30) thirty dollars a year for each pupil so admitted. See chapter 739 of the Laws of the State of New York for 1867.

As the Trustees of the Asylum have no disposition to charge the counties for clothing State pupils anything more than the actual cost of the clothing furnished, they have decided to reduce

the charge to twenty-two dollars each for male pupils, and sixteen dollars for females. They are enabled to do this only by purchasing the supplies at wholesale and by making a portion of the garments with the labor of the inmates.

The following pupils have been received into the Asylum from your county upon the proper legal certificates as required by the law relating to the admission of pupils:

NEW YORK, September 9, 1885.

Hon. EDWARD V. LOEW, Comptroller:

In pursuance of your request under date of August 26th last, requesting to send to the Board of Estimate and Apportionment estimates of the amount required to be appropriated for our institution for the year 1886,

I respectfully beg to state that the Board of Trustees, notwithstanding that an increase of inmates to the Asylum may take place, believe that the same amount as appropriated, viz.: sixty thousand dollars (\$60,000), will be sufficient for 1886, and respectfully ask you to appropriate that amount for the Hebrew Benevolent and Orphan Asylum Society of the City of New York.

Very respectfully yours, etc.,
MYER STERN, Secretary.

NEW YORK INSTITUTION FOR THE BLIND.

NEW YORK INSTITUTION FOR THE BLIND,
NEW YORK, September 14, 1885.

Hon. EDWARD V. LOEW, Comptroller:

DEAR SIR—In reply to your letter of inquiry I would state the number of pupils in the New York Institution for the Blind from the County of New York in the year ending September 30, 1886, pursuant to chapter 166, section III., Laws of 1870, is estimated to be 175. Estimated appropriation required, at fifty dollars (\$50), is eight thousand seven hundred and fifty dollars (\$8,750).

Very respectfully, your obedient servant,
WM. B. WAIT, Superintendent.

NEW YORK CATHOLIC PROTECTOR.

ESTIMATE FOR 1886.

THE NEW YORK CATHOLIC PROTECTOR,
OFFICE, No. 415 BROOME STREET,
NEW YORK, September 8, 1885.

Hon. EDWARD V. LOEW, Comptroller of the City and County of New York:

SIR—In compliance with the requirements contained in the resolutions embraced in your communication under date of August 26, duly received, the Managers of the New York Catholic Protector hereby respectfully submit the following statement and requisition:

By sec. 1, chap. 428 of the Laws of 1867, the sum of one hundred and ten dollars (\$110) per capita on the average number of persons annually maintained in said institution was authorized and directed to be raised in the same manner and applied in the same way as is required by sec. 1, chap. 647 of the Laws of 1866.

Considering the provisions of said acts, and the number of children now in the institution, there will be required for the year 1886 two hundred and forty-two thousand dollars (\$242,000).

This requisition is based on an estimate of two thousand two hundred (2,200) children as the average number to be maintained during the year 1886.

The managers beg leave to assure you that they have carefully considered their estimate for 1886, and that any reduction of the sum therein asked for will be attended with serious inconvenience to the institution, and render impossible the reception of all the children committed to its care by the magistrates of this city. The recent passage by the Legislature of laws relating to the commitment of children and the present dullness of business has caused a marked increase in the number of admission through commitment by magistrates to this institution, and no prospect appears that this increase will not go on during the coming year.

The following is a statement of the salaries, etc.:

At the office of the Protector, No. 415 Broome street—

	Per annum.
Actuary.....	\$2,500 00
Accountant.....	1,200 00
Superintendent House of Reception.....	1,350 00
Clerk.....	850 00
Visitor.....	850 00

At the institution, Westchester—

Two Chaplains, \$600 each.....	1,200 00
Physician.....	1,200 00
For cooks, dairymen, milkmen, tailors, bakers, butchers, gasmen, watchmen, engineers, firemen and other employees.....	23,436 34

There are engaged in the Male Department fifty (50) Brothers of the Christian Schools, who receive one hundred and fifty dollars (\$150) each per annum, and their board.

In the Female Department, and the Junior Male Department, there are engaged thirty-six (36) Sisters of Charity, who receive one hundred dollars per annum each, and their board.

Yours very respectfully,

From the Board of Managers of the N. Y. C. Protector,
JAMES R. FLOYD, Vice-President.

NEW YORK INFANT ASYLUM.

NEW YORK, August 28, 1885.

To the Honorable Board of Estimate and Apportionment, New York City:

GENTLEMEN—You will please find below an estimate of amount required for the New York Infant Asylum for the year 1886:

For the maintenance of children—325 children, at 38 cents per day, \$123.50; for year.....	\$45,077 50
Obstetrical cases—21 obstetrical cases, at \$25 each, per month, \$525; for year.....	6,300 00
For the maintenance of women—112 women, each per month, \$18; gross per month, \$2,016; for year.....	24,192 00
	<u>\$75,569 50</u>

In pursuance of section 22, chapter 106 of the Laws of 1865, as amended by chapter 90 of the Laws of 1877, section 1:

Children.....	\$45,077 50
Obstetrical.....	6,300 00
Women.....	24,192 00
	<hr/>
	\$75,569 50

In presenting the foregoing estimate, I have made it out upon a very economical and careful basis. The women and children are increasing in numbers monthly. I ask no more than what I believe the Asylum will absolutely need, and hope your Honorable Board will set aside the amount called for in the estimate.

Very truly yours,
L. M. BATES, Treasurer New York Infant Asylum.

NEW YORK INFIRMARY FOR WOMEN AND CHILDREN.

NEW YORK, 9th month, 15, 1885.

Hon. EDWARD V. LOEW, Comptroller:

ESTEEMED FRIEND—In reply to thine, 26th ulto., the New York Infirmary for Women and Children respectfully asks for an appropriation of forty-five hundred dollars (\$4,500) for the maintenance of women and obstetrical cases for the next year ensuing, in accordance with sec. 1, chap. 101, Laws of 1877, passed April 6, 1877.

Respectfully,
JOHN T. WILLETS, Treasurer.

The number of dependent children, for whose support the City pays at the rate of \$150 per annum for each child (Laws of 1872, chapter 835), will not be less than 170, amounting to \$25,500.

In addition to the number of children treated in the Hospital, probably 8,000 patients will receive professional treatment and, in most instances, surgical apparatus in the out-door department of the Hospital—all this apparatus being kept in repair during the time of treatment, which, in many cases, continues for years.

For the support of this department we rely chiefly on the contributions of the benevolent. As may be seen by the above figures there will be a balance of \$18,833 to be collected.

JAMES KNIGHT, M. D., Surgeon-in-Chief to the Hospital.

NEW YORK, September 11, 1885.

NEW YORK STATE LUNATIC ASYLUM.

TREASURER'S OFFICE,

HEALTH DEPARTMENT.

HEALTH DEPARTMENT OF THE CITY OF NEW YORK,
No. 301 MOTT STREET,
NEW YORK, October 27, 1885.

A MEETING OF THE BOARD OF HEALTH of the Health Department of the City of New York, held at its office on the 27th day of October, 1885, the following resolution was adopted:

Resolved, That section 206 of the Sanitary Code be and is hereby amended to read as follows:
Section 206. That no privy-vault, or cesspool, shall be allowed within thirty feet of any tenement or lodging-house, hotel or manufactory in the City of New York, of a greater depth than three feet; nor unless it be connected at the upper end with the Croton water and at the lower end with the street sewer, and provided with an outlet at the lowest point and on the bottom, so as to admit of the complete discharge of the contents whenever the outlet is opened and the vault or sink is flushed with water. The outlet shall be kept closed, except during the process of flushing, with a tight-fitting plug, so as to effectually prevent the escape of gases and offensive odors; and sufficient water shall at all times be kept in the vaults or sink to prevent solid matter adhering to the bottom. The sides and bottom of every privy-vault, cesspool, or school-sink in the City of New York must be impermeable and secured against any saturation of the walls or the ground about the same.

Secretary.

FIRE DEPARTMENT.

HEADQUARTERS
FIRE DEPARTMENT, CITY OF NEW YORK,
155 AND 157 MERCER STREET,
NEW YORK, November 7, 1885.

TO CONTRACTORS.

SEALED PROPOSALS FOR FURNISHING THE materials and labor, and doing the work required for constructing the steam-heating and power in the building on north side of Sixty-seventh street, commencing 170 feet west of Third avenue, for Engine Company No. 29, Hook and Ladder Company No. 16, etc., for this Department, will be received by the Board of Commissioners at the head of the Fire Department, at the office of said Department, Nos. 155 and 157 Mercer street, in the City of New York, until 11 o'clock A. M., Friday, November 20, 1885, at which time and place they will be publicly opened by the head of said Department and read.

Each bidder must submit two separate proposals, as follows:
1st. For furnishing and constructing the steam-heating apparatus complete, with steam and exhaust connections to dynamo engine and elevator pump, etc.
2d. For furnishing and setting the boilers, fixtures and flue connections only, required for steam-heating apparatus and power.
No estimate will be received or considered after the hour named.

For information as to the amount and kind of work to be done, bidders are referred to the specifications which form part of these proposals.
The work is to be completed and delivered in the time specified in the contracts.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired, are fixed and liquidated at the amount specified in each contract.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making estimates for the work shall present the same in sealed envelopes, to said Board, at said office, on or before the day and hour above named, which envelopes shall be indorsed with the name or names of the person or persons presenting the same, the date of presentation, and a statement of the work to which they relate.

The Fire Department reserves the right to decline any and all bids or estimates if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of two thousand five hundred (\$2,500) dollars for the steam heating, etc., complete, and one thousand five hundred (\$1,500) dollars for the boilers, etc., only; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the National Banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of one hundred and twenty-five (125) dollars for the steam-heating, etc., complete, and eighty (80) dollars for the boilers, etc., only. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Bidders will write out the amount of their estimates, in addition to inserting the same in figures.

The forms of the agreements, with specifications and drawings, showing the manner of payment for the work, may be seen and forms of proposals may be obtained at the office of the Department.

NOTE.—The above quantities of timber are exclusive of extra lengths required for scarfs, laps, etc., and of waste.

3. Piles, White Pine, Yellow Pine, Cypress or Spruce 10 | |

(It is expected that these piles will have to be from about 55 feet to about 65 feet long, to meet the requirements of the specifications for driving.)

4. White or Yellow Pine Mooring Pile, about 55 feet long 1 | |

5. White Oak Fender Piles, about 55 feet long 18 | |

6. Half-round Oak Fenders, about 14 feet long 34 | |

7. 7/8" x 32", 7/8" x 30", 7/8" x 28", 7/8" x 24", 7/8" x 22", 7/8" x 16", 3/4" x 18", 3/4" x 16", 3/4" x 14", 3/4" x 12", 3/4" x 10", 3/4" x 9" square wrought-iron Dock Spikes, about 7,561 pounds. | |

8. 1 1/2" and 1" wrought-iron Screw Bolts, about 263 | |

9. Cast-iron Washers for 1 1/2" and 1" Screw Bolts, about 238 | |

10. Labor of relaying pavement for about 67 square yards.
11. Materials and labor for painting and oiling, or tarring.
12. Labor of removing portions of the existing pier, according to the terms of the specifications.
13. Labor of framing and carpentry, including all moving of timber, jointing, planing, bolting, spiking, etc., as set forth in the specifications.

Estimates may be made for either or both of the above two classes.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as is possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination, of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work contracted for to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor, in either or both classes, to be specified by the lowest bidder, shall be due or payable for the entire work.

The bidder to whom an award is made shall give security for the faithful performance of his contract, in the manner prescribed and required by ordinance, in the sum of One Thousand Dollars for Class 1, and in the sum of Seven Hundred and Fifty Dollars for Class 2, and in case the contract for both of the above-named classes be awarded to him, in the sum of Seventeen Hundred and Fifty Dollars.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work is to be fully completed on or before the thirty-first day of December, 1885; and the damages to be paid by the contractor for each day that the contract, or any part thereof, may be unfulfilled after the time or times fixed for the fulfillment thereof has expired, are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

All the old material taken from the said structures to be removed under the contract, will be relinquished to the contractor, and bidders must estimate the value on such material when considering the price for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done, in either or both of the above two classes, respectively, in conformity with the approved form of agreement and the specifications therein set forth, by which prices the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing each of the two classes of this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it is accepted and executed.

Bidders are required to state, in their estimates, their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state that fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done in each class, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the National banks of the City of New York, drawn to the order of the Comptroller or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him by the Comptroller.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if deemed for the interest of the Corporation of the City of New York.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

JURORS.

NOTICE
IN RELATION TO JURORS FOR STATE
COURTS.

OFFICE OF THE COMMISSIONER OF JURORS,
ROOM 127, STEWART BUILDING,
CHAMBERS STREET AND BROADWAY,
NEW YORK, June 1, 1885.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 10 to 3 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only) under severe penalties. If exempt, the party must bring proof of exemption, if liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt. Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement, and every case will be fully prosecuted.

will be received at the office of the Department of Public Charities and Correction, in the City of New York, until 9.30 o'clock A. M. of Friday, November 20, 1885. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Groceries and Leather," with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION reserves the right to reject all bids or estimates if deemed to be for the public interest, as provided in SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the estimated amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate

for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National Banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him, or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same, respectively, at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the prices for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, issued on the completion of the contract, or from time to time, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

TO CONTRACTORS.

PROPOSALS FOR ALTERATIONS, ADDI-
TIONS AND REPAIRS TO CARPEN-
TER AND JOINER WORK OF STEAM-
BOAT "MINNAHANONCK."

THE SPECIFICATIONS AND PLANS FOR which are at this office will be received at No. 66 Third Avenue, the Central office of the Department of Public Charities and Correction, in the City of New York, until 9.30 o'clock A. M. of Friday, November 13, 1885. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for ALTERATIONS, ADDITIONS AND REPAIRS TO CARPENTER AND JOINER WORK OF STEAMBOAT 'MINNAHANONCK,'" for which there is one separate set of specifications and the work for which is to be let in one contract, and with his or their name or names and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION reserves the right to reject all bids or estimates if deemed to be for the public interest, as provided in SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

The person or persons to whom a contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of TWO THOUSAND (\$2,000) DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties

for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National Banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the BOND required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the lowest formal estimate be accepted by the Board of Public Charities and Correction, due notice of the fact will be given forthwith upon the receipt of the Comptroller's approval of the sureties, presented by the bidder as consenting to be bound for the faithful execution of this contract, if awarded. Thereupon, if the Board shall not deem it for the best interests to reject all the proposals, the contract for this aforesaid work and materials shall be awarded to this lowest bidder, who shall execute the contract and bond of even date therewith in due form, to the satisfaction of said Board, within five days after the award aforesaid. If the party or parties to whom said contract is awarded neglect or refuse to execute the same as aforesaid, and the BOND accompanying the same, the said contract shall be regarded as having been abandoned, the party or parties notified as in default to the Corporation of the City of New York, and the work and materials will be re-advertised as provided in section 64, chapter 410, Laws of 1882.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contracts, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Commissioners of Public Charities and Correction, AND ARE PARTICULARLY CAUTIONED TO EXAMINE WITH CARE THE PROVISIONS OF ARTICLE 5 OF THE PRINTED CONTRACT FORM.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

Dated New York, October 29, 1885.

NEW YORK SECTION.

NOTICE OF APPLICATION FOR CONFIRMATION OF THE REPORT OF COMMISSIONERS OF APPRAISAL, NEW YORK SECTION, DATED OCTOBER 28, 1885, AS TO PARCELS SIXTY-NINE (69) AND SEVENTY (70).

PUBLIC NOTICE IS HEREBY GIVEN THAT IT is my intention to make application before the Honorable Jackson O. Dykman, at a Special Term of the Supreme Court of the City of New York, to be held in the Second Judicial District, at the Court-house, in White Plains, Westchester County, on the 5th day of December, 1885, at 12 o'clock noon of that day, or as soon thereafter as counsel can be heard, to confirm the report as to Parcels 69 and 70 of the Commissioners of Appraisal appointed in the above matter, pursuant to the provisions of chapter 490 of the Laws of 1883, which said report was filed in the office of the Clerk of the County of Westchester, on the 5th day of November, 1885, and a copy of which was filed in the office of the Clerk of the County of New York on the same day.

Dated New York, November 6, 1885.

E. HENRY LACOMBE,
Counsel to the Corporation,
2 Tryon Row, N. Y. City.

NOTICE OF APPLICATION FOR APPRAISAL.

PUBLIC NOTICE IS HEREBY GIVEN, THAT IT is the intention of the Counsel to the Corporation of the City of New York to make application to the Supreme Court for the appointment of Commissioners of Appraisal, under chapter 490 of the Laws of 1883.

Such application will be made at a Special Term of said Court, to be held in the Second Judicial District, at the Court-house in White Plains, Westchester County, on the 21st day of November, 1885, at 12 o'clock noon.

The object of such application is to obtain an order of court appointing three disinterested and competent freeholders, one of whom shall reside in the County of New York, and the other two of whom shall reside in the county in which the real estate hereinafter described is situated, as commissioners of appraisal to ascertain and appraise the compensation to be made to the owners and all persons interested in the real estate hereinafter described, as proposed to be taken or affected for the purposes indicated in chapter 490 of the Laws of 1883.

The real estate sought to be taken or affected as aforesaid, is located in the County of New York, south of Harlem river, and is laid out and indicated on two similar or duplicate maps filed, one in the Register's office in the City and County of New York, on the 28th day of August, 1885, the other in the Register's office in the village of White Plains and County of Westchester, on the same day, and each bearing the following certificate:

We, the Commissioners, appointed to carry out the provisions of chapter 490 of the Laws of 1883, do hereby certify that this is one of six similar maps prepared in accordance with the requirements of section 4 of said act, and do further certify that the same has been adopted by us in the manner prescribed in such section, this 17th day of June, 1885.

W. R. GRACE, Mayor.
EDWARD V. LOEW, Comptroller,
ROLLIN M. SQUIRE,
Commissioner of Public Works,
WM. DOWD,
C. M. BALDWIN.
