## BOROUGH OF THE BRONX.

### MINUTES OF THE LOCAL BOARD OF CHESTER, TWENTY-FIFTH DISTRICT.

Pursuant to call by President Haffen the members of the Local Board of Chester, Twenty-fifth District, met at the office of the President of the Borough of The Bronx, in the Municipal Building, One Hundred and Seventy-seventh street and Third avenue, on Thursday, March 22, 1906, at 4 p. m.

Present—Alderman Mulligan, Alderman Dinwoodie and the President of the Borough of The Bronx.

The minutes of the meeting of March 1, 1906, were corrected so far as they related to Petition No. 53, acquiring title to Rosewood (Elizabeth) street, from Bronx river to White Plains road, wherein it was stated that Mr. J. Haas had appeared in opposition to the improvement.

This was an error, as Mr. Haas had appeared only to request that the matter be laid over until this meeting.

#### Correction on No. 70.

For Regulating and Grading, etc., New White Plains Road, from Old White Plains Road to Old White Plains Road North of Bronx and Pelham Parkway.

The words "opposition by Astor estate" were corrected so as to read "a representative of the Astor estate appeared in favor of this improvement."

No. 72. Regulating and grading Bronx Park East, from Bronxdale avenue to Bronx and Pelham parkway.

The sentence "opposed by the Astor estate" is hereby corrected so as to read "a representative of the Astor estate appeared in favor of this improvement."

On motion, the minutes were then adopted as corrected.

## BOARD OF ESTIMATE AND APPORTIONMENT.

## EXTRACT FROM

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, APRIL 20, 1906.

The Secretary presented the following:

CITY OF NEW YORK—OFFICE OF THE MAYOR,  
April 3, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

SIR—The Mayor has this day approved the resolution adopted by the Board of Estimate and Apportionment on March 30, 1906, fixing a date for a public hearing on the application of the Manhattan Refrigerating Company, and has designated the New York "Sun" and the New York "Times" as the daily newspapers in which notice of such hearing shall be published.

The resolution, duly approved, is herewith returned.

Respectfully,

FRANK M. O'BRIEN, Secretary.

Which was ordered printed in the minutes and filed.

## Manhattan Refrigerating Company.

The public hearing on the application of the Manhattan Refrigerating Company for a franchise to construct, maintain and operate pipes and all necessary appurtenances for the purpose of supplying refrigeration to consumers along the lines of its mains under and along certain streets in the Borough of Manhattan, as advertised for this day, was opened.

The Secretary presented a communication from Mr. Thomas A. Adams, President of the Company, protesting against the terms and conditions as proposed by the Bureau of Franchises.

Mr. Thomas A. Adams also appeared in person and entered his protest.

A representative of Downing Brothers appeared in favor of the proposed grant and in support of the position of Mr. Adams.

No one else desiring to be heard, the Chair declared the hearing closed.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,  
BUREAU OF FRANCHISES, No. 280 BROADWAY,

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The Manhattan Refrigerating Company, under date of March 2, 1906, by its President, Mr. Thomas A. Adams, petitions the Board of Estimate and Apportionment for the right of a franchise to lay a conduit not more than twelve inches in diameter, for the purpose of carrying refrigerating pipes, "extending from the intersection of Fourteenth street and Tenth avenue to Hudson street; thence southerly along Hudson street to Gansevoort street, and thence westerly along Gansevoort street to West street, the said pipe to be laid under the surface of the streets and branches in the intersecting streets west of Hudson street."

A map accompanies the petition on which is shown in red the streets in which rights are applied for, and which is entitled "Map to accompany the petition of the Manhattan Refrigerating Company to the Board of Estimate and Apportionment, dated March 2, 1906, for laying conduits along designated streets and avenues in the Borough of Manhattan, City of New York," signed by T. A. Adams, President; Van R. H. Greene, Engineer.

The petition was presented to the Board of Estimate and Apportionment on March 2, 1906, and referred to the Bureau of Franchises for report and consultation with the President of the Borough of Manhattan.

The circumstances which necessitated the presentation of the petition are as follows:

Under date of January 2, 1906, the Atlantic Hotel Supply Company made application to the Board of Estimate and Apportionment for the right to lay a pipe in Fourteenth street, from a point 43 feet west of Ninth avenue to No. 676 Hudson street, for the purpose of connecting its premises at the latter address with the pipes of the Manhattan Refrigerating Company in West Fourteenth street. The application is printed in full in the minutes of the said Board of February 16, 1906, and in the CITY RECORD of February 20, 1906.

In connection with this application an examination was made of the rights of the Manhattan Refrigerating Company to lay pipes in West Fourteenth street, which examination disclosed the following:

On April 1, 1890, the Board of Aldermen passed a resolution, which was approved by the Mayor on April 8, 1890, as follows:

"Resolved, That permission be and the same is hereby given to the Greenwich Refrigerating Company to lay two pipes, not more than six inches in diameter each, beneath the surface of the following streets, viz.: West street and Tenth avenue, from Horatio street to Fourteenth street; Fourteenth street, from Tenth avenue to the North river; Thirteenth avenue, from Horatio street to Fourteenth street; Horatio street, from Thirteenth avenue to West street; Gansevoort street, from West street to Thirteenth avenue, and Bloomfield street and the streets or parts of streets immediately adjoining the new market, located in the Ninth Ward of The City of New York, bounded by Tenth avenue and West street, Thirteenth avenue and by Gansevoort and Bloomfield streets, and the streets and passages intersecting said market, for the purpose of conducting salt water for refrigerating purposes, providing the said company shall stipulate with the Commissioner of Public Works to save the City harmless from any loss or damage to any sewer, gas or water pipe, or from any other cause that may arise from the exercise of the privilege hereby given during the progress or subsequent to the completion of the work of laying such pipes, the work to be done at the expense of the said Company, under the direction and to the satisfaction of the Commissioner of Public Works."

On March 18, 1898, the Greenwich Refrigerating Company transferred its rights in the foregoing permit to the Manhattan Refrigerating Company. This latter Company has not at any time received any authority to lay pipes in the public streets other than that quoted in the foregoing resolution. It will be noticed that this resolution does not enumerate West Fourteenth street between Ninth and Tenth avenues as a street in which the company is permitted to lay pipes, neither is West Fourteenth street immediately adjoining the new market.

It appeared therefore that the Manhattan Refrigerating Company had no authority to lay pipes in that portion of West Fourteenth street and on February 5, 1906, these facts were presented to the Corporation Counsel for an opinion as to whether the Manhattan Refrigerating Company did have rights in West Fourteenth street. In reply thereto, under date of February 9, 1906, the Corporation Counsel held:

"I am of the opinion that the Manhattan Refrigerating Company had no right to lay pipes in this part of West Fourteenth street, and that to grant the application to the petitioner would be an extension of the franchise of the Manhattan Refrigerating Company."

Accordingly, on February 16, 1906, a resolution was adopted by the Board of Estimate and Apportionment instructing the Secretary to notify the Manhattan Refrigerating Company to show cause on or before March 2, 1906, under what authority it had laid pipes in the streets other than those included in the permit granted by the Board of Aldermen on April 1, 1890, and whether such pipes so laid should not be immediately removed.

The reply to this notice by the company is contained in a communication dated February 28, 1906, from T. A. Adams to the Board of Estimate and Apportionment, in which he states that his company had construed the permit to cover the market district in the vicinity of the new market, and that it had obtained permission from the Department of Highways for its pipes in Fourteenth street; that it had expended considerable amount of money in laying the pipes, and had in all respects complied with the terms of the resolution of April 1, 1890. In regard to the attitude of his company he stated:

"It submits therefore that the company should not be required to remove its present lines, but it will agree that it will make no further extensions, and will accept the construction of the franchise (meaning the resolution of April 1, 1890) now proposed by your Honorable Board, and will execute any agreement required that it will not extend the pipes under the present resolution without obtaining further permit, authority or franchise from your Board."

And further, that his company will make an application to the Board of Estimate and Apportionment to include the streets in which pipes have been laid without authority.

Accordingly, the petition before referred to was presented to the Board of Estimate and Apportionment on March 2, 1906.

Upon request, the company has furnished a map of the streets in which it has refrigerating pipes. This map shows that pipes in streets other than those mentioned in the resolution of April 1, 1890, and in West Fourteenth street, between Ninth and Tenth avenues, are as follows:

Horatio street, between West and Washington streets; Washington street, between Horatio and West Fourteenth streets, and Gansevoort street, between Washington and Greenwich streets.

This Bureau took the same stand with regard to the pipes in these streets as it took in reference to the pipes in Fourteenth street, and the company was informed that the same were unlawfully in the City's streets.

Accordingly Mr. Adams requested that the petition of March 2, 1906, be construed as an application for pipes in those streets where the same had already been laid, though without authority.

To avoid any misunderstanding in the future, a technical description of the routes in the terms and conditions proposed and attached hereto describes all streets within the area bounded by West Fourteenth, Hudson, Gansevoort, Washington, Horatio, West streets and Tenth avenue.

A representative of this Bureau was informed by an employee of the Department of Highways that in April, 1901, a permit was issued for the pipe in Washington street, from Horatio to West Fourteenth street, but that permits were not issued for the company's pipes in Fourteenth, Horatio or Gansevoort streets.

The Manhattan Refrigerating Company was incorporated pursuant to the provisions of the Business Corporations Law, and filed its certificate of incorporation in the office of the Clerk of the County of New York on March 22, 1894. The business of the company as set forth in the said certificate is to construct, maintain, use and operate warehouses, and the storage of goods, wares and merchandise therein, and the preservation of the same by refrigeration and cold storage, and the production and supplying to others of artificial cold, and the owning, using and operation of machinery for said purposes. The certificate states that the duration of the company is to be forty-nine years, and the capital stock is to be \$30,000, all of which is to be common stock. This amount has been increased to \$200,000, all of which has been issued.

The plant of the Manhattan Refrigerating Company is situated at the northeast corner of West and Horatio streets. Immediately adjacent thereto there is being constructed a cold storage warehouse, which has already been leased to the Manhattan Refrigerating Company, which will supply refrigeration to its sub-lessees.

The method of operation will be in the main a continuation of that followed by the company in the past, and will consist of the method proposed to be instituted by the Seaboard Refrigeration Company—the ammonia process, i. e., cooled ammonia is forced through the pipes at a high pressure and expanded at the cold storage box. Several of the customers of the Manhattan Refrigerating Company have stated to an employee of this Bureau that there are many advantages in this system over that of refrigeration by means of ice. The advantages enumerated were economy of space, cost of supervision required by the individual consumer, ability to secure any temperature between 25 degrees and 45 degrees, and finally the advantage of quality, the dryer air furnished under this system being more suitable for many of the purposes for which refrigeration is necessary than the moist air secured in the ice box.

The company now has in the streets adjacent to the market pipes about 2,500 feet in length which have been lawfully laid, pursuant to the resolution of the Board of Aldermen of April 1, 1890, while in other streets it has laid pipes 2,800 feet in length, which pipes, as has been heretofore stated, are unlawfully in the City's streets. The company, in addition to the 2,800 feet of pipe, asks for a franchise for 4,500 feet, making a total of 7,300 feet. Of this distance it proposes to lay 382 feet at once to supply the Atlantic Hotel Supply Company and thus complete the purpose of the application of that company. Further pipes will be laid from time to time as customers demand the services of the Manhattan Refrigerating Company.

The company, on May 23, 1898, entered into an agreement with The City of New York, acting by the Comptroller, wherein and whereby the company was given permission to install two pipes in the new West Washington Market. In said agreement it was stipulated:

"This permit may at any time be revoked by the Comptroller, and the party of the second part shall thereupon discontinue the system and remove its pipes and apparatus in the said buildings within sixty days after the receipt of a notice from the Comptroller."

The company further agreed to pay to The City of New York 5 per cent. of its gross receipts derived from the standholders in said market.

On the same day, May 23, 1898, a bond in the penal sum of \$10,000 was executed by the company for the faithful performance of all the terms and conditions in the contract referred to. This contract and bond are on file in the office of the Chief Clerk of the Department of Finance, City of New York.

It will be noticed that the foregoing refers only to the stands within the market and consequently said agreements may remain in force unaffected by the present proposed franchise. It will also be noted that the permit to the company to install its pipes in the market may be revoked upon sixty days' notice, and in consequence no new agreement need be entered into by the company and the City with reference to rights within the market.

## CONDITIONS OF THE GRANT.

The majority of the conditions proposed to be inserted in the grants to the Seaboard Refrigeration Company and the Kings County Refrigerating Company are applicable to the present case, and no discussion of them need be made at the present time. I would suggest therefore that the following terms, which are identical with those mentioned in the Kings County Refrigerating Company's proposed contract, be inserted in the contract to be executed with the applicant company. They are:

Duration of contract not to exceed fifteen years, with provision for a renewal term of ten years at a revaluation.

If the entire conduit line is not built within five years after the signing of the contract, the company shall forfeit the right for all lines not then constructed.

The company shall keep in repair for one year all pavement which it has removed for construction or repair.

All work to be done under the supervision of the President of the Borough and the Commissioner of Water Supply, Gas and Electricity, and all expense incurred for inspection of the work of construction to be borne by the company.

The pipes to be tested after being laid to resist a pressure equal to three times that proposed to be used by the company.

A certificate of such test to be filed with the Board of Estimate and Apportionment.

The company should be required to extend its conduit line and furnish refrigeration to any applicant for service upon the route granted.

A map should be furnished by the company once each year showing the exact location of all conduit lines and manholes constructed, the same to be filed with the Board of Estimate and Apportionment.

The franchise and all conduit lines constructed to be used solely for the purpose of refrigeration and by the Manhattan Refrigerating Company only.

The company should keep accurate books of accounts and furnish an annual report to the Comptroller, giving the gross earnings during the year, the Comptroller to have access at all times to the books of the company and to examine its officers under oath.

A penalty of fifty dollars (\$50) daily for insufficient public service, said penalty to be for each default.

The applicant company will shortly have about 7,000 feet of pipe in the public streets in the proposed field of operation, while the Seaboard Refrigeration Company will have 13,000 feet and the Kings County Refrigerating Company, whose application for a similar privilege is now pending before the Board of Estimate and Apportionment.

ment, will have 3,900 feet. A deposit of \$5,000 was required from the Seaboard Refrigeration Company and \$3,000 from the Kings County Refrigerating Company.

In view of the crowded condition of the streets in Manhattan and the great value of the structures therein, I believe that a deposit either in cash or security, to secure the faithful performance of the terms and conditions of the contract in the sum of \$5,000 should be required.

The company has, in some instances in the past, made a subsurface connection with its main supply line, and has then run its feeder line on private property to other consumers in the same block with the first mentioned connection, thus avoiding expensive subsurface structures, and several openings of the pavement as well. Although Mr. Adams stated that there are several objectionable features attendant upon this method of construction and operation and that it probably would not be followed in the future, nevertheless, to secure full compensation to the City, I would suggest that a percentage of the gross receipts be required for all business done which may necessitate the laying of conduit as hereby authorized, regardless of whether the same is laid in part on private property.

The charges proposed to be made by the company for service are based in part upon the capacity of the cold storage box, and are to be as follows:

For refrigeration to be furnished to boxes of 1,500 cubic feet capacity and upwards, the rate will be based on the meltage of one ton of ice, at \$2.50 per ton, and for boxes of less capacity, \$3.50 per ton. This latter sum I consider excessive, and would recommend that a limit of \$3 be fixed.

As in the proposed terms of the tentative contract with the Kings County Refrigerating Company and the Seaboard Refrigeration Company, I would suggest that maximum rates be fixed by the terms of the contract for the service and material rendered, with power to the Board of Estimate and Apportionment to regulate the maximum and minimum rates, provided that such charges shall be reasonable and fair.

#### COMPENSATION.

The terms proposed to be inserted in the tentative contract with the Seaboard Refrigeration Company were \$5,000 in cash within thirty days after the signing of the contract, 4 per cent. of the gross receipts of the Company for the first five years, 5 per cent. for the next five years and 6 per cent. for the remaining five years. The proposed contract with the Kings County Refrigerating Company called for \$5,000 in cash, 5 per cent., 6 per cent. and 7 per cent. of the gross receipts for the first, second and third five-year periods, respectively.

The applicant Company seeks privileges which it would seem are certainly as valuable as those proposed to be granted either to the Seaboard Refrigeration Company or the Kings County Refrigerating Company. Furthermore, the applicant Company has been engaged in the pipe line business for several years past. Its gross receipts from November 1, 1898, to October 31, 1905, from cold storage furnished consumers within New West Washington Market, pursuant to the agreement with the Comptroller before referred to, amounted to \$132,941.96. Besides this, the Company has, as stated, entered upon the pipe line business in certain streets in which it was not authorized to lay pipes. Its gross receipts from cold storage furnished consumers along such streets have been stated by the Company to be as follows:

1899 .....	\$1,823 92
1900 .....	2,534 69
1901 .....	4,269 65
1902 .....	5,793 61
1903 .....	8,465 83
1904 .....	10,303 57
1905 .....	12,145 85

Making a grand total for six years of..... \$45,337 12

—thus proving conclusively that the business of the Company in the district outside of the area authorized by the resolution of April 1, 1890, is well established and steadily increasing.

There appears to be no reason, therefore, why this Company should not be called upon to pay for these privileges, at least as much as will be paid for similar privileges by the other companies whose applications are before the Board, and it was my purpose at first to propose higher terms in view of the fact that the application covered streets in the Borough of Manhattan where traffic is greater and the value of land higher.

It was, however, pointed out to me by Mr. Adams that his company was in a way a pioneer in the business and had expended appreciable sums in experimental purposes which had not produced returns. Other companies now entering the business would naturally profit by the early experiences of this company, and in consequence the terms proposed for this company have been materially reduced from what otherwise would have been the case.

I would suggest, therefore, that the Company be required to pay as part compensation for the privileges proposed to be granted, the sum of \$5,000 within thirty days after the signing of the contract, 5 per cent. of the gross receipts of the Company for the first five years, 6 per cent. for the second five years and 7 per cent. for the remaining five years.

Furthermore, the Company should be required to pay for its past use and occupation of the streets in the City in which it has unlawfully laid pipes, the same sum as the City would have received had the same been duly and properly authorized. This would amount to the sum of \$2,270, this being 5 per cent. of the receipts from business along the route of the unauthorized conduit line as stated above.

In conclusion, the following would appear to be adequate compensation for the rights proposed:

1. \$2,270 in cash within thirty days after the signing of this contract, said sum to be in full satisfaction of the Company's past use and occupation of the City's streets in which the Company had no authority to lay pipes.
2. \$5,000 in cash within thirty days after the signing of the contract, said sum to be in part satisfaction of the future rights to be granted.
3. A percentage of the gross receipts of the business done outside of the market and Tenth avenue from the market to Fourteenth street, the minimum sums provided to be in addition to any and all payments or percentages now required to be paid to any of the City departments for present privileges.

During the first five years, 5 per cent. of the gross receipts, which shall not be less during any one year than \$700.

During the second five years, 6 per cent. of the gross receipts, which shall not be less, during any one year, than \$1,000.

During the remaining five years, 7 per cent. of the gross receipts, which shall not be less, during any one year, than \$1,300.

4. An annual payment of 25 cents per foot of conduit line laid.

5. An annual payment of \$2 for each manhole constructed.

The foregoing payments are to be in addition to any and all payments now or hereafter required by any department of The City of New York or by any ordinance of The City of New York, or by any statute of the State of New York.

On April 10, 1906, a conference was held at this office at which Mr. Adams and his attorney were present. A draft of the proposed contract was shown to Mr. Adams and the proposed terms discussed.

He stated that he believed the compensation proposed to be much greater than the company could afford to pay and more than the privileges sought were worth. He offered as a counter proposition on behalf of the company to pay \$500 for the past use and occupation, and 5 per cent. of the gross receipts derived from all business along the pipe lines outside of the New West Washington Market, and further 25 cents per foot and \$2 per manhole for all pipe hereafter laid.

Mr. Adams was informed that the foregoing proposition could not be considered, inasmuch as the compensation offered by him was, in the opinion of this Bureau, far from adequate.

Under date of April 12, 1906, Mr. Adams has addressed a communication to the Board of Estimate and Apportionment which reads in part as follows:

"The Manhattan Refrigerating Company begs to notify you that it cannot accept the terms proposed and will not execute such a contract. It considers that the terms proposed are unreasonable and entirely beyond the profits of any business which it would be enabled to do by use of such lines. If these are the only terms upon which a permit or franchise will be granted, the company desires to withdraw its application for the same."

From the investigations made by this Bureau, the terms proposed are not deemed in any manner excessive, and as two companies have already accepted practically the

same terms, I am of the opinion that the Board should not recede from the position taken in regard to other companies.

I attach a form of contract containing the proposed terms and conditions.

The Board has fixed April 20 for a public hearing, and notice of such hearing has been published in the CITY RECORD and in the New York "Sun" and "Times," newspapers designated by the Mayor, and after such hearing I would recommend that the Board modify the proposed contract if it sees fit, and that the contract be then sent to the Corporation Counsel for examination and for such suggestions as he may deem it advisable to make in order that the City's interests may be fully protected.

When approved by the Corporation Counsel the contract should be returned to the Board, and if it is then the intention of the Board to grant the franchise, and the company is willing to accept the terms and conditions as fixed by the Board, a resolution should be adopted approving of the proposed terms and conditions and ordering the same to be entered in full in the minutes and to be advertised for twenty days in the CITY RECORD and twice in two daily newspapers and a date set for a public hearing.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

#### MANHATTAN REFRIGERATING COMPANY.

##### PROPOSED FORM OF CONTRACT.

This contract made this day of , 190 , by and between The City of New York, party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City, and the Manhattan Refrigerating Company, a domestic corporation of the State of New York, hereinafter called the company, party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City of New York hereby grants to the company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to construct, maintain and operate a conduit, not more than twelve inches in diameter, with the necessary branches and connections therefrom, leading directly into private property, for the sole purpose of supplying refrigeration to consumers, said conduit and branches to be laid beneath the surface of each of the following-named streets, avenues and highways, between the points described as follows, all situate in the Borough of Manhattan, City of New York, to wit:

In, under and along Washington street, from Horatio to Fourteenth street; in, under and along Ninth avenue, from Gansevoort street to Fourteenth street; in, under and along Hudson street, from Gansevoort street to Fourteenth street; in, under and along Fourteenth street, from Hudson street to Tenth avenue; in, under and along West Thirteenth street, from Hudson street to Tenth avenue; in, under and along Little West Twelfth street, from Gansevoort street to Tenth avenue; in, under and along Gansevoort street, from Hudson street to West street; in, under and along Horatio street, from Washington street to West street; said routes being shown on a map, entitled "Map to accompany the petition of the Manhattan Refrigerating Company to the Board of Estimate and Apportionment, dated March 2, 1906, for laying conduits along designated streets and avenues in the Borough of Manhattan, City of New York," signed by T. A. Adams, President, and by Van R. H. Greene, Engineer, copy of which is annexed hereto and made a part of this grant.

Sec. 2. The grant of this privilege is subject to the following conditions:

First—The said right to lay one conduit line in each of the streets, avenues or highways, and between the limits as hereinbefore described, and the privilege to maintain and operate the same shall be held and enjoyed by the said company, its lessee or successors, for a term of fifteen years from the date of the signing of this contract, with the privilege of renewal of said grant for a further period of ten years upon a fair revaluation of said right and privilege.

If the company shall determine to exercise its privilege of renewal it shall make application to the Board of Estimate and Apportionment of The City of New York, or any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the company and the Board of Estimate and Apportionment, or such other authority in its place. If the company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding ten years shall be reasonable, and either the City (by the Board or such other authority in its place) or the company shall be bound upon request of the other to enter into a written agreement with the other, fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment, or its successors in authority; one disinterested freeholder shall be chosen by the company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the contract, and their report shall be filed with the Board of Estimate and Apportionment or its successors in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of this original grant. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant, then the company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the company, each paying one-half thereof.

Second—Upon the termination of this contract, or if the same is renewed, then at the termination of the said renewal term or upon the termination of the rights hereby granted, or for any other cause, all conduit lines and appurtenances thereto, constructed pursuant to this contract, shall be and become the property of The City of New York, without compensation therefor, and the same may be used by the City for any purpose whatsoever. If, however, at the termination of this grant, as above, the City, by the Board of Estimate and Apportionment, or its successors in authority, shall so order by resolution, the said Company shall remove, at its own expense, said conduit line and all appurtenances thereto, and shall restore the streets and pavements to their original condition.

Third—The company, its successors or assigns, shall pay for this privilege to The City of New York the following sums of money, to wit:

1. Two thousand two hundred and seventy dollars in cash within thirty days after the signing of this contract, said sum to be in full satisfaction of the company's past use and occupation of the City's streets by conduits which were laid without authority.

2. Five thousand dollars (\$5,000) within thirty days after the signing of the contract, said sum to be in part satisfaction of the future rights to be granted.

3. During the first five years of this contract an annual sum, which shall be in no case less than seven hundred dollars (\$700), and which shall be equal to 5 per cent. of the gross receipts of the company, if such percentage shall exceed the sum of seven hundred dollars (\$700).

During the second five years of this contract an annual sum, which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to 6 per cent. of the gross receipts of the company, if such percentage shall exceed the sum of one thousand dollars (\$1,000).

During the third and remaining five years of this contract an annual sum, which shall in no case be less than thirteen hundred dollars (\$1,300), and which shall be

equal to 7 per cent. of the gross receipts of the company, if such percentage shall exceed the sum of thirteen hundred dollars (\$1,300).

These percentages shall be calculated on all receipts from business done which may require the laying of conduits hereby authorized, without regard as to whether the same are laid in part on private property.

4. An annual payment of twenty-five (25) cents for each linear foot of conduit line, and two dollars (\$2) for each manhole constructed within the limits of any street, avenue or highway.

The sums due shall be calculated from the date when the permit is obtained to open the streets for any section of the work.

All sums herein provided shall be paid into the treasury of The City of New York on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Any and all payments made by the terms of this franchise to The City of New York by the company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other company, providing for payments for refrigerating rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by said statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgagee or mere lienor, but shall apply to any purchaser upon foreclosure, or under or by virtue of any provision of a mortgage or lien.

Fifth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to, or vest in any other person or corporation whatsoever, either by the act of the Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Sixth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways on the route heretofore described.

Seventh—If, upon any of the routes hereinbefore described or upon any portion thereof, there shall not be constructed and in actual operation on May 1, 1911, a conduit line as herein provided, the said route or portion thereof shall be conclusively taken to have been abandoned by the Company, and so much of the rights hereby granted as pertain to such routes or parts of route not then constructed from and after May 1, 1911, shall be thereupon forthwith and immediately forfeited, without judicial or other proceedings.

Eighth—All construction which shall be made under this grant shall be done in a manner solely upon the terms and conditions hereafter to be imposed by the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity, or their respective successors in authority. The said Company shall submit a working plan of construction to the said President and to the said Commissioner, which shall include and show in detail the method of construction of said pipe line, connections, manholes and other appurtenances, and the mode of protection of all subsurface construction under the streets, avenues and highways described in the route.

Ninth—The said Company shall bear the expense of keeping in repair for one year after it has been replaced all pavement which may at any time be removed by said Company, either for the purpose of construction or for the repairing of the pipe line and its appurtenances.

Tenth—The said Company shall bear the expense of inspection, which may be required by the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity, of all the work of construction required, or removal of the said pipe line, which shall be done under this grant.

Eleventh—The Company shall cause a test to be made of the pipes laid under this grant before said pipes shall be used for the conveyance of gas or fluid under pressure for refrigerating purposes. The pipes so tested shall be submitted to a pressure of 450 pounds per square inch, and such test shall be made under the supervision of the Commissioner of Water Supply, Gas and Electricity. A certificate showing that such a test has been made without injury to the pipes shall be executed by an officer of the Company, indorsed by the Commissioner of Water Supply, Gas and Electricity and filed with the Board of Estimate and Apportionment.

Twelfth—The Company, its successors or assigns, shall not charge consumers having boxes of 1,500 cubic feet capacity and upwards more than \$2.50 per ton for the refrigeration equivalent of that produced by the meltage of one ton of ice, and shall not charge consumers having boxes of less capacity more than \$3 for the same amount of refrigeration.

During the term of this contract the Board of Estimate and Apportionment, or its successor in authority, shall have absolute power to regulate the maximum and minimum rates, provided that such rates shall be reasonable and fair.

All refrigerant which may be required by The City of New York for its own use at any point along the route herein described, shall be furnished by the Company without cost to the City.

The Company, upon the application for refrigeration of any person or corporation located along the routes herein authorized, shall extend its conduit to such premises and furnish to said applicant refrigerant at the prices which are herein prescribed, or at which such prices may be hereafter fixed; otherwise this contract shall cease and determine at the option of the Board of Estimate and Apportionment.

Thirteenth—A correct map shall be furnished to the Board of Estimate and Apportionment by the Company, showing the exact location of all the conduit lines and manholes laid with reference to the curb lines of the streets and the street surface, and the same shall be furnished on the first day of November of each year until all pipe lines which are authorized by this grant are constructed, or until the right hereby authorized to construct pipe lines along the routes described have ceased by limitation, as herein provided.

Fourteenth—The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Fifteenth—The Company shall assume all liability by reason of the construction, maintenance and operation of the conduit line, and the City shall assume no liability whatsoever to either persons or property by reason of its construction, maintenance and operation.

As a condition of this grant the Company, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the Company, its successor or assigns.

Sixteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited or avoided by The City of New York by a suit brought by the Corporation Counsel, on notice of ten days to the said Company.

Seventeenth—The conduit line hereby authorized shall be used only by the Manhattan Refrigerating Company, and for no other purpose than for supplying refrigeration by the ammonia process, or such other process as may be consented to by the Board of Estimate and Apportionment.

Eighteenth—The Company shall at all times keep accurate books of accounts of the gross earnings from the privileges granted under this contract. The Company shall,

on or before November 1 in each year, make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain the number of feet of conduit laid and the number of manholes constructed during the year, and also a statement of the gross receipts from all business of furnishing refrigerant to consumers along the route hereby authorized, together with such other information and in such detail as the Comptroller may require.

The Comptroller shall have access to all the books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Nineteenth—The Company shall comply with the existing provisions of Article V. of chapter 566 of the Laws of 1890, and future amendments thereto, except in so far as the same are inconsistent with the provisions of this contract, and provided that all powers of the Company shall be limited by the provisions of this contract.

Twentieth—If the said Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed or fails to maintain its structures in good condition throughout the full term of its occupancy of such streets, the Board of Estimate and Apportionment of The City of New York may give written notice to the said Company specifying any default on the part of said Company and requiring said Company to remedy the same within a reasonable time, and upon the failure of the Company to remedy the said default within a reasonable time, said Company shall, for each day thereafter during which the default or defect remains, pay to The City of New York a sum of \$50, as fixed or liquidated damages, or the said City, in case such structures, which may affect the surface of the streets, shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the said Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund hereinbefore provided.

Twenty-first—This grant is upon the express condition that the Company, within thirty days after the execution of this contract and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of five thousand dollars (\$5,000), either in money or in securities, to be approved by him, which fund shall be security for the performance by the Company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the privilege and the penalties herein provided, and in case of default in the performance by said Company of such terms and conditions, The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges, shall collect the same, with interest, from said fund after ten days' notice in writing to the said Company. In case of any drafts so made upon this security fund, the said Company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of five thousand dollars (\$5,000), and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Twenty-second—The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.

[SEAL.] THE CITY OF NEW YORK,

CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE  
received by the Commissioner of Docks at  
Pier "A," foot of Battery place, in the City of  
New York, until 12 o'clock noon on

MONDAY, APRIL 30, 1906.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT OR TO BE BUILT ON THE MAIDEN LANE SECTION AND ON PART OF THE FULTON SECTION, ON THE EAST RIVER, BOROUGH OF MANHATTAN.

## TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from a line at right angles to the bulkhead wall and distant about 57 feet easterly from the east side of Pier, new 13, East river, easterly a distance of about 575 feet to the line of earth filling distant about 82 feet easterly from the east side of Pier, new 15, East river, and also extending from the rear of the bulkhead wall, when it is completed, inshore a distance of from about 35 feet to 55 feet to the old crib bulkhead running along the southerly side of South street. The exact limits of the basin to be filled under this agreement may be seen on a map at Pier "A," together with the soundings and other data used, said map being a part of this agreement.

The filling shall be brought to a grade level with the top of the coping of the bulkhead wall and shall extend inshore on a regular grade to the level of the street adjacent.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to about 14,000 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the void space behind the bulkhead wall, built or to be built at the Maiden Lane section, on the East river, Borough of Manhattan.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 30 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling shall be started at the bank and carried outshore toward the bulkhead wall or close row of piles.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun. The Department reserves the right of ordering the Contractor to deposit not less than 100 cubic yards per day, as directed by the Engineer, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within 140 calendar days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

J. A. BENSEL,  
Commissioner of Docks.

## FILLING-IN PRIVILEGE.

DEPARTMENT OF DOCKS AND FERRIES, FOOT OF BATTERY PLACE, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

MONDAY, APRIL 30, 1906.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT OR TO BE BUILT ON THE WESTERLY PART OF THE OLD SLIP SECTION ON THE EAST RIVER, BOROUGH OF MANHATTAN.

## TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from about the easterly side of Pier, new 7, East river, easterly a distance of about 554 feet to the westerly side of Pier, new 10, East river, and extending from the rear of the bulkhead wall, when it is completed, inshore a distance of from about 28 feet to 55 feet to the old crib bulkhead running along the southerly side of South street.

The exact limits of the basin to be filled under this agreement may be seen on a map at Pier "A," together with the soundings and other data used, the said map being a part of this agreement.

The filling will be brought to a grade level with the top of the coping of the bulkhead wall and will extend inshore on a regular grade to the level of the street adjacent.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to about 17,000 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the void space behind the bulkhead wall, built or to be built on the westerly part of the old slip section, as described above, and as appears in detail on the map at Pier "A," and which becomes a part of the contract or agreement.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 30 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling shall be started at the bank and carried outshore toward the bulkhead wall or close row of piles.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun. The Department reserves the right of ordering the Contractor to deposit not less than 100 cubic yards per day, as directed by the Engineer, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within one hundred and seventy calendar days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the

amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

SALE OF GREASE, BARRELS, BONES, RAGS, METAL AND MISCELLANEOUS ARTICLES.

**THE UNDERSIGNED WILL SELL AT** public auction to the highest bidder, on the grounds of the Kings County Hospital, Clarkson street, Brooklyn, N. Y., on

WEDNESDAY, APRIL 25, 1906,

at 11 a. m.:

About 120,000 pounds bones.  
About 20,000 pounds grease.  
About 20,000 pounds rags.  
About 2,000 pounds iron.  
About 200 pounds lead.  
About 200 pounds brass.  
About 1,000 pounds tea lead.  
About 100 pounds copper.  
25 oil barrels.  
10 vinegar barrels.  
25 turpentine barrels.  
10 pork barrels.  
10 miscellaneous barrels.  
Ashes (hard coal), per cubic yard.  
2 steam boilers, in good condition, at Kings County Hospital, each.  
1 hot water generator, at Cumberland Street Hospital.

Bids on metals, bones and fat must be per pound—on barrels per piece.

All quantities to be "more or less." All qualities to be "as are."

All aforesaid articles must be received by the purchaser at the aforesaid hospitals, and removed therefrom immediately upon being notified that same are ready for delivery, except in the case of bones and grease, which must be removed every other day by the purchaser without previous notice.

Each successful bidder will be required to pay 25 per cent. of the estimated amount of his purchase. Such amount shall be fixed by the Commissioner, and said purchasers shall pay said sum to him on the day of the sale, and shall pay the balance in cash or certified check on a New York City bank to the General Medical Superintendent upon delivery of the goods.

The Commissioner reserves the right to reject any or all bids, also the right to order a resale of any articles that shall not have been removed by the purchaser within ten days after a written notice has been mailed to him to do so. This, however, does not apply to the bones and grease, which, if not removed every other day, the Commissioner reserves the right to sell without notice.

In all cases of resale, the purchaser is to forfeit to the use of The City of New York the 25 per cent. paid at the time of sale.

Iron-bound barrels (estimated), 300.

Kerosene barrels (estimated), 100.

Pork barrels (estimated), 100.

Packing cases, 200.

Bids will be received by the single pound, barrel or article, and awards will be made to the highest bidder per pound, barrel or article.

All the above, except as otherwise mentioned, to be received by the purchaser at the pier foot of East Twenty-sixth street, and removed upon being notified that the same are ready for delivery.

Quantities marked "estimated" are for the accumulation of year 1906, and contracts based on such quantities are for such period of time. All quantities to be more or less and estimated only.

All quantities to be "as are."

ASSIGNMENTS OF CONTRACTS WILL NOT BE RECOGNIZED UNLESS APPROVED BY THE COMMISSIONER.

Each successful bidder will be required to pay Twenty-five Per Cent. of the estimated amount of his purchase to me at the time and place of sale, and the balance to the General Storekeeper, at Blackwell's Island, in cash or a certified check on a New York City bank, upon delivery of the goods.

The Commissioner reserves the right to order resale of any goods that shall NOT have been removed by the purchaser within TEN days after he shall have been notified that they are ready, and in case of such resale to forfeit to the use of the Department of Public Charities the TWENTY-FIVE PER CENT. paid in at the time and place of sale. Goods can be examined at Blackwell's Island by intending bidders on any week day before the day of sale.

FOR FURNISHING THE METAL WORK FOR THE ANCHORAGES AND CONSTRUCTING THE TOWERS, CABLES, SUSPENDERS AND SUSPENDED SUPERSTRUCTURE OF THE MANHATTAN BRIDGE, OVER THE EAST RIVER, BETWEEN THE BOROUGHS OF MANHATTAN AND BROOKLYN.

The contractor will be required to begin work within ten (10) days after receipt of instructions from the Commissioner of Bridges to begin, and shall complete the entire work to the satisfaction of the Commissioner and the Engineer, and in accordance with the plans and specifications, as follows:

(1) Delivery at the bridge site of the metal work for the anchorages shall begin in the order in which the Engineer shall designate and shall be completed within six (6) months of the date of the execution of this contract.

(2) The construction of the towers shall begin as promptly as possible and the entire work under this contract shall be completed within three and one-half (3½) years from the date of the execution of this contract.

The amount of security to guarantee the faithful performance of the work under this contract will be One Million Five Hundred Thousand Dollars (\$1,500,000).

No bid will be received or considered which is not accompanied by either a certified check upon a State or National Bank of The City of New York, or money to the amount of 5 per cent. of the amount of the bond required for the faithful performance of the contract.

Said check or money must not be included in the envelope containing the bid, but must be handed to the official of the Department who receives the bid, for examination and approval before receiving bid. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the owners within three days after the contract is awarded.

The right is reserved by the Commissioner to reject all bids should he deem it to the interest of the City so to do.

Blank forms, plans and specifications may be obtained at the office of the Department of Bridges.

Dated April 9, 1906.

J. W. STEVENSON,  
Commissioner of Bridges.

WATTS STREET (EXTENSION)—PAVING AND CURBING, from Sullivan street to West Broadway. Area of assessment: Both sides of Watts street and Broome street, from Sullivan street to West Broadway, and to the extent of half the block at the intersecting and terminating streets.

—that the same was confirmed by the Board of Assessors on April 17, 1906, and entered on April 17, 1906, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides . . . "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room No. 85, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before June 16, 1906, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date

when above assessment became a lien to the date of payment.

**PUBLIC NOTICE IS HEREBY GIVEN** that at a meeting of the Board of Estimate and Apportionment, held March 30, 1906, the following petition was received:

To the Honorable, the Board of Estimate and Apportionment:

The petition of the Williams Terminal Railway Company respectfully shows:

1. That your petitioner is a street surface railway corporation organized and existing under the laws of the State of New York, having filed its certificate of incorporation in the office of the Secretary of State of New York on the 29th day of July, 1905, for the purpose of constructing, maintaining and operating a street surface railway in the Borough of Brooklyn, City of New York.

2. That your petitioner desires to obtain from the Board of Estimate and Apportionment of The City of New York its consent to and a grant of the right, privileges and franchise to use a portion of Bowne street, in the Borough of Brooklyn, City of New York, for street railway purposes, and for the construction, maintenance and operation of a single track street surface railway upon and along the surface of said Bowne street, a description of such proposed railway being as follows: Beginning at a point southeast of Inlay street, where it will connect with the track of the New York Dock Company and running southeasterly along Bowne street to and into the property of J. H. Williams & Co., on the easterly side of Richards street, the entire length of said road not to exceed nine hundred feet, together with the necessary connections, switches, sidings, turn-outs, turn-tables, cross-overs and suitable stands necessary for the accommodation and operation of the said railroad by the overhead system of electricity, or other power lawfully employed by connecting railroads, all in the Borough of Brooklyn, City and State of New York.

3. Your petitioner further shows that there is no adequate means of transportation provided between the termini of the proposed railroad, and your petitioner believes there is a public demand for the construction and operation of this proposed railroad, and that such construction and operation will be a public convenience and benefit, the said railroad to be used for freight only.

Wherefore, your petitioner prays that the notice of the time and place when and where this application will be first considered be given, pursuant to provisions of section 92 of the Railroad Law, and all other laws applicable thereto, and that consent or grant be given in the form of an ordinance subject to the laws and ordinances applicable thereto, and upon terms and conditions to be fixed in accordance with the provisions of the Greater New York Charter.

**THE WILLIAMS TERMINAL RAILWAY COMPANY.**

By JAMES H. WILLIAMS,

Vice-President.  
Dated City of New York, Borough of Brooklyn, February 23, 1906.

State of New York, County of Kings, ss.:  
James H. Williams, being duly sworn, deposes and says that he is the vice-president of the Williams Terminal Railway Company, the petitioner named in the foregoing petition; that he has read the foregoing petition and knows the contents thereof; that the same is true of his own knowledge, except as to the matters therein

stated to be alleged on information and belief, and as to those matters he believes it to be true.

JAMES H. WILLIAMS.

Sworn to before me this 23d day of February, 1906.

A. Y. BRITTON, Notary Public, Westchester County.

Certificate filed in Kings County.

And the following resolutions were thereupon adopted:

Whereas, The foregoing petition from the Williams Terminal Railway Company, dated February 23, 1906, was presented to the Board of Estimate and Apportionment at a meeting held March 30, 1906.

Resolved, That, in pursuance of law, this Board sets Friday, the 27th day of April, 1906, at 10.30 o'clock in the forenoon and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least fourteen (14) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the City Record immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

JOSEPH HAAG,

Secretary.

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

#### NOTICE TO CONTRACTORS.

#### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
