I.-(a). Preparation of the Design of a Street System, Maps Showing Changes of Adopted Street Systems, etc.

The Board of Estimate and Apportionment, on May 29, 1903, approved a tentative plan of the street system, east of the Bronx River, which amended previously filed plans and laid out streets over such areas which had not been taken up.

Calculations, maps and plans showing dimensions of blocks and grades of streets and avenues were progressed on those sections which are not interfered with by the proposed railroads through the borough.

The fixture sheets, which show the relation between the new street system and existing street lines and property lines by dimensions and co-ordinates, were progressed.

Computations were also made for all the changes or establishing of new street lines, grades, etc., which had been before the Local Boards, and for which maps were forwarded to the Board of Estimate and Apportionment for adoption and filing.

Studies for the street system easterly of Fort Schuyler road and the Eastern boulevard, called the Throggs Neck District, were completed and the map forwarded to the Board of Estimate and Apportionment.

Studies and maps are in progress rearranging the street system showing the lines of the New York, Westchester and Boston Railway from the Bronx River to the northern boundary of the city; also for the Clasons Point Section.

BOARD OF ESTIMATE AND APPORTIONMENT.

(FINANCIAL AND FRANCHISE MATTERS.)

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, HELD IN ROOM 16, CITY HALL, FRIDAY, FEBRUARY 14, 1908.

The Board met in pursuance of an adjournment.

Present—George B. McClellan, Mayor; Herman A. Metz, Comptroller; Patrick F. McGowan, President of the Board of Aldermen; John F. Ahearn, President of the Borough of Manhattan; Bird S. Coler, President of the Borough of Brooklyn; Louis F. Haffen, President of the Borough of The Bronx; Joseph Bermel, President of the Borough of Queens; George Cromwell, President of the Borough of Richmond.

The Mayor, Hon. George B. McClellan, presided.

After disposing of the Public Improvements Calendar the following Financial and Franchise matters were considered:

FRANCHISE MATTERS.

RAPID TRANSIT RAILWAYS.

Modification of Lexington Avenue Route; Modification of Gerard Avenue Route; Canal Street Route.

Consideration of the communication, dated February 5, 1908, from the Public Service Commission for the First District, transmitting resolutions adopted by that body modifying the routes and general plans of the proposed rapid transit railways along Lexington avenue, Gerard avenue and other streets in the Boroughs of Manhattan and The Bronx, and transmitting resolutions adopting route and general plan for a proposed rapid transit railway under and along Canal street, in the Borough of Manhattan.

This communication was presented to the Board at its meeting of February 7, 1908, and by resolution adopted on that date, this day was fixed for consideration.

The following appeared in opposition:

Rev. Dr. W. R. Huntington, rector of Grace Church, and J. F. Kernochan, who opposed the construction of a subway under Grace Church.

Reno R. Billington, representing Citizens' East Side Association, who suggested the construction of a subway under First or Second avenue instead of under Lexington avenue.

The following appeared in favor:

Commissioner John E. Eustis, of Public Service Commission for the First District. Thomas Curtis and John P. Holland, representing the Central Federated Union. James L. Wells, representing North Side Board of Trade.

A communication was received from the Fifty-seventh Street Association requesting construction of a station on the Lexington Avenue Route at Fifty-seventh street.

The Comptroller moved that further consideration be postponed until February 28, and pending further consideration, the matter be referred to a Select Committee consisting of the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan and The Bronx.

Which motion was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following matters not on the calendar for this day were considered by unanimous consent:

NEW YORK CITY INTERBOROUGH RAILWAY COMPANY AND UNION RAILWAY COMPANY OF NEW YORK CITY.

In the matter of the applications of the New York City Interborough Railway Company and the Union Railway Company of New York City for certain extensions to their lines in the Borough of The Bronx, upon which a report was presented to the Board from the Bureau of Franchises, at the meeting of February 1, 1907, and which was referred to the Select Committee.

The Comptroller, as Chairman of the Select Committee, presented the following:

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
February 14, 1908.

Hon. GEORGE B. McCLELLAN, Mayor and Chairman, Board of Estimate and Apportionment:

SIR—At the meeting of the Board of Estimate and Apportionment, held February 1, 1907, the matter of the applications of the Union Railroad Company of New York City, the Southern Boulevard Railroad Company for extensions, and the New York City Interborough Railway Company for alterations and extensions, with a report of the Bureau of Franchises, was referred to a Select Committee consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of The Bronx.

These applications, besides certain lines in the Borough of The Bronx, include a line across the University Heights Bridge.

Upon recommendation of your Committee, the Board, at meeting of June 21, 1907 (see minutes of the Board of Estimate and Apportionment, page 2021), adopted a resolution granting certain modifications and alterations in the route of the New York City Interborough Railway Company, as granted by ordinance adopted by the Board of Aldermen March 16, 1903, and approved by the Mayor March 31, 1903.

Your Committee would further report that this leaves the question of the proposed or requested extensions still in the hands of the Committee.

A number of property owners have requested that the route across University Heights Bridge be granted, and in order not to delay this line, which we consider an important extension, we recommend that the Board of Estimate and Apportionment direct the Chief Engineer to prepare and submit a report to the Board which may be referred to your Committee, upon the terms, conditions, etc., for a franchise for crossing the University Heights Bridge.

Respectfully,

H. A. METZ,

Comptroller;

P. F. McGOWAN,

President, Board of Aldermen;

LOUIS F. HAFEN,

President, Borough of The Bronx.

Which was referred to the Chief Engineer.

QUEENS LIGHTING COMPANY.

In the matter of the application of the Queens Lighting Company to construct, maintain and operate pipes, mains and necessary conductors for the transmission of gas to public and private consumers, in a certain portion of the Borough of Queens, upon which a report was submitted by the Chief Engineer at the meeting of July 8,

1907, proposing terms and conditions to govern the grant, and upon which, at the meeting of December 6, 1907, the Comptroller presented a report recommending the franchise be sold at public auction.

The Mayor presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
December 18, 1907.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

SIR—In accordance with your verbal instructions to advise you as to the experience which The City of New York has had in selling franchises at public auction to the highest bidder, as was suggested by the Comptroller in his communication of December 4, 1907, to the Board of Estimate and Apportionment concerning the proposed franchise of the Queens Lighting Company, I beg to submit the following:

A law enacted in 1853 provided that all ferries, docks, and piers should be leased, and that all leases and sales of public properties and franchises should be at public auction to the highest bidder. These sales were usually little more than formalities, as there was seldom any competitive bidding. On October 8, 1904, the lease of the Bay Ridge Ferry franchise was sold at public auction to Alrick H. Man, who bid 21.1 per cent. of the annual gross receipts, this being the highest of several bids. Mr. Man failed to sign the agreement as provided in the terms of sale, and more than three years later the franchise was sold to the New York and South Brooklyn Ferry and Steam Transportation Company for 5 per cent. of the gross receipts. Since the adoption of the Greater New York Charter the Commissioner of Docks and the Commissioners of the Sinking Fund have been authorized to lease such franchises by private agreement, if in their judgment the interests of the City will not best be promoted by selling at public auction, and since that time ferry franchises have been disposed of in this way. In 1886 the Legislature provided that street surface railway franchises should be sold at public auction to the highest bidder, this law continuing in force until 1897. Under the provisions of this act the franchise for the Twenty-eighth and Twenty-ninth Streets Railroad Company, in the Borough of Manhattan, was sold in 1887, the company bidding 29.2 per cent. of the gross receipts per annum, in addition to 3 per cent. for the first five years and 5 per cent. thereafter, but the Commissioners of the Sinking Fund in 1896, when the road was ready to begin operation, reduced these payments to .005 per cent., in addition to the 3 per cent. and 5 per cent. of the gross receipts. The North and East River Railroad Company in 1887 bid 35 per cent. of the gross receipts in addition to the 3 per cent. and 5 per cent. required by law, but the Commissioners of the Sinking Fund reduced this amount to .004 per cent. The People's Traction Company in 1895 bid 6,975 1-16 per cent. of the gross receipts for a franchise, and it was resold a year later for 97 per cent. in addition to 3 per cent. during the first five years, and 95 per cent. in addition to the 5 per cent. required by law thereafter. No road was ever built or payments made. The Third Avenue Railroad Company in 1896 bid 38½ per cent., in addition to the payments required by law, but this sale was declared void by the courts.

With this experience in the sale of franchises at public auction there is little inducement for the City to return to this policy. If the City were to advertise the terms and conditions, as suggested by the Comptroller, for ten days in four daily newspapers, the cost of such advertising is estimated to be about \$22,500. If a successful bidder were obliged to pay for this advertising, he certainly would deduct it from any cash payment to be made to the City, and if none of the bidders entered into a contract to take the franchise, as is more than likely to be the case, the City would be obliged to pay the bill, the only gainers by the operation being the newspapers.

The Comptroller in his communication to the Board and the resolution which he submits for adoption, says that the initial payment of \$1,000, which is required by the form of agreement already approved and once granted to the company, is entirely inadequate. The suggestion of this amount was prompted by the consideration that the applicant was a new company, without any plant, mains or other property, and that a large investment would be required before the company would be in a position to do any business. Had a company with a plant already established been the applicant, the initial payment proposed would have been substantially greater. The franchise as drawn contains provisions safeguarding the City's interests which have not heretofore appeared in any gas franchise, and which would be a most valuable precedent for The City of New York. There are other companies which now claim the right, although not an exclusive right, to enter this territory, and it is not improbable that they would be glad to make a much larger payment and even forfeit the franchise, trusting that they might be permitted to operate under the rights they now claim, if by so doing the existing companies could prevent the establishment of the precedent which would be created by the granting of the franchise now before the Board. If the Board should decide to increase the amount of the initial payment, which appears to be the only change suggested in the report of the Comptroller, this could readily be done, but the terms and conditions as modified would have to be reprinted and readvertised. The expense of this advertising, which was paid by the applicant company, was \$2,424. There is some doubt in my mind as to whether the company could be justly required to pay another similar sum for readvertising. If the City were compelled to pay this amount it would take a very substantial part of any increase in the initial payment.

If I correctly understand the status of this matter, the resolution granting the franchise has been reconsidered, but the action taken on October 4 last, has not been vacated, and the agreement can be returned to the Mayor for approval, or it can be modified by increasing the amount of the initial payment and readvertised.

I beg to submit herewith a report prepared at my request by the Engineer in charge of the Division of Franchises, which covers in greater detail the points which I have already brought to your attention.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
December 18, 1907.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—In response to your verbal request to prepare a statement of the City's experience in selling franchises at public auction and an answer to the report and proposed resolutions presented by the Comptroller on December 6, 1907, relative to the application of the Queens Lighting Company for a franchise to lay mains and conductors and to supply gas to consumers in the easterly portion of the Borough of Queens, which matter had previously been referred to him at the meeting of October 11, I would submit the following:

This application was made to the Board on December 7, 1906, and referred to the Bureau of Franchises for investigation and report. Subsequently, the petition was amended on June 7, 1907. Investigation was made, and a report and proposed form of contract—which latter had been accepted by the company—was presented at the meeting of July 8, which day had previously been designated as the date of the preliminary public hearing required by law. At the close of the hearing, the Board adopted resolutions fixing the terms and conditions of the grant as the result of the inquiry, referring the proposed form of contract to the Corporation Counsel for approval, and fixing September 20 as the date for a final public hearing. The form of contract was subsequently approved by the Corporation Counsel and duly advertised prior to the date of hearing.

At the close of the final hearing, the matter was referred to the Comptroller, who reported favorably on the grant at the meeting of October 4, 1907, and resolutions granting the petition and authorizing the Mayor to execute the necessary contract for the grant were thereupon adopted.

At the meeting of October 11, upon motion of the Comptroller, it was agreed to reconsider the vote by which the resolution had previously been adopted. The matter was then referred to the Comptroller, without any action being taken to vacate the action taken on October 4. The Comptroller has now reported adversely upon the grant to the Queens Lighting Company. In this report the Comptroller calls attention to the population of the district covered by the proposed grant, which he states is about 80,000, and says that in no section of the greater city has there been more extended land operations than in this, nearly all the farms having been cut up into city lots, anticipating the coming of home builders; that when the several transit schemes have been developed, it is likely to have a very largely increased population, and before the end of the first term of twenty-five years. He estimates

the population at the end of fifty years, the termination of the renewal term, at not unlikely to reach a half million of people.

The initial payment proposed is \$1,000, and this the Comptroller states "seems a ridiculously small sum for a franchise covering territory within the corporate bounds of The City of New York of twenty square miles," and again he says:

"Should this franchise be granted by the City to these applicants on the present basis, they would at once have a very valuable franchise right as a practical gratuity."—and concludes as follows:

"It seems to me that no franchise of this sort should be granted to a body of men or to a corporation except it be on the basis of a cash payment to the City at the outset fairly representing the market value of the franchise privilege granted. In a locality like the one in question, where there is no company as yet operating a plant, a fair value of such a franchise might be obtained by submitting the right to sale at public action."

The preamble of the resolutions submitted by the Comptroller recites the inadequacy of the initial payment proposed, to wit: \$1,000, and that a franchise in this territory would, from the outset, become a very valuable asset to this or any other company receiving it. The resolution following makes it the opinion of the Board that a substantial sum representing the value of the privilege at the time of the award should be obtained, and, in order to determine such amount, that the franchise should be disposed of at auction to the highest bidder, after advertising for ten days consecutively in not less than four daily papers.

In answer to the above I beg to submit the following:

If the initial payment proposed is inadequate, it can be made adequate by action of the Board. Without in any manner wishing to depreciate the value of the franchises in The City of New York, I believe that this sum is not out of proportion to the sums previously fixed by the Board under the present law. In proposing such sums to the Board, I have attempted to make them consistent one with another, and also with the terms of the grant under discussion, which vary in each case, and such sums as have been recommended have been so fixed with the idea that they shall not be an undue burden upon the applicant company. Under the law creating the Public Service Commission, it is provided that a gas company may capitalize any franchise in an amount equal to that paid to the State, or any political subdivision thereof, as a consideration for the grant of such franchise. In this particular case, as pointed out by the Comptroller, it will be several years before any return will be realized upon the initial investment, and I saw no good reason for the additional capitalization on account of an initial payment upon which no interest would be earned other than that proposed.

Regarding the recital that such a franchise as is proposed in this particular case is a valuable asset from the outset, to the persons or corporation receiving the same, I would call your attention to the fact that in the report previously presented from this Division upon this application, four gas companies are mentioned as claiming franchises in this territory, franchises in two instances claimed to be without limit, and in the other two for a period of fifty years, but in no case is any provision made for payments to the City. If the present right has so much greater value than is proposed, why not have these companies commenced operations? Again, the Board may, if the company fails to live up to its contract, annul the same and then, or at any prior time, grant a new franchise to any other company. I am of the opinion, therefore, that in the proposed form of contract, the rights of the City have been protected from exploitation by any grantee.

Finally, the Comptroller proposes a sale at public auction after extensive advertisement. Let us see, therefore, how the City has fared when by law it was compelled to sell such rights in that way.

By the provisions of chapter 272 of the Laws of 1853, section 7, all ferries, docks, piers and slips were to be leased, and all leases and sales of public property and franchises other than grants of land under water were to be made at public auction to the highest bidder.

FERRIES.

In the subsequent amendments to the Charter of The City of New York down to the enactment of the revised Greater New York Charter in 1901, all sales of ferry franchises were at public auction. Pursuant to the existing law, on October 8, 1894, the lease of the Bay Ridge Ferry franchise was sold at public auction to Alrick H. Man at 21.1 per cent. of the annual gross receipts. At the time of the sale there were several bidders for this franchise. Mr. Man failed to sign the agreement for the operation of the ferry, as provided in the terms of sale, and on December 21, 1897, the franchise was again sold to the New York and South Brooklyn Ferry and Steam Transportation Company for 5 per cent. of the gross receipts. It will thus be seen that competition at a public sale in this instance availed the City nothing. Such sales between 1895 and 1901 had, in fact, been mere formalities, so that in the revised Charter an alternative plan was provided as follows:

"Whenever it may be determined by the unanimous vote of the Commissioners of the Sinking Fund, upon the recommendation of the Commissioner of Docks, that the interests of the City will not be best promoted by leasing the franchise of a ferry in the manner hereinbefore directed (public auction), it shall be lawful for said Commissioner of Docks and said Commissioners of the Sinking Fund, by resolutions adopted by said unanimous votes, to lease such franchises by private agreement for terms not exceeding twenty-five years, and under such conditions as in their judgment will best protect and further the interests of the City and the traveling public."

Since the above law has been in effect, all such franchises so far as I can recall have been let by private agreement.

STREET SURFACE RAILROADS.

Between 1860 and 1875, such grants were made by the Legislature of the State. From 1875 the consent of the local authorities has been required. Chapter 252 of the Laws of 1884 was the first law enacted referring specifically to the incorporation and grants of street surface railroads, and as amended it subsequently became Article 4 of the Railroad Law, enacted in 1890.

In 1886, by the provisions of chapter 65 and chapter 642 of the Laws of that year, it was provided that franchises for street surface railroads should be sold at public auction to the highest bidder, and this law remained in effect until the enactment of the Greater New York Charter, in 1897, when section 93 of the Railroad Law, providing for the sale at public auction, was declared to be not effective in The City of New York. During this time, while sales at public auction were required to be made by law, a number of ludicrous situations arose, which I will recite more particularly.

Twenty-eighth and Twenty-ninth Street Railroad Company.

Resolutions, Board of Aldermen, November 30, 1886; sold May 11, 1887. Accepted by company June 28, 1887, bid 29.2 per cent. per annum in addition to 3 per cent. required first five years and 5 per cent. thereafter. Application to Sinking Fund Commissioners granted September 29, 1896, authorizing reduction to one-half of 1 per cent. in addition to the 3 per cent. and 5 per cent. of the gross receipts, as required by law; started operation October 12, 1896; no payments made until after that date.

North and East River Railroad Company.

Resolution Board of Aldermen December 30, 1886. Sold May 31, 1887, bid 35 per cent. in addition to the 3 per cent. and 5 per cent. required by law. Application to the Sinking Fund Commissioners granted June 12, 1895, authorizing reduction to one-eighth of 1 per cent. in addition to the 3 per cent. and 5 per cent. of the gross receipts as required by law. Payment of \$6,000 made as compromise for percentages due from June 12, 1887, to June 12, 1895. Started operation.

People's Traction Company.

Resolution Board of Aldermen July 2, 1895, sold October 9, 1895. Bid 6,975 1-16 per cent.; resold November 27, 1896, bid 97 per cent. in addition to 3 per cent. required by law the first five years and 95 per cent. in addition to the 5 per cent. required thereafter. No road ever built, no payments ever made.

Third Avenue Railroad Company (Kingsbridge Road and Extensions).

Resolution Board of Aldermen August 17, 1896. Sold November 14, 1896, bid 38½ per cent. in addition to the 3 per cent. and 5 per cent. required by law. Sale was declared void by the Court of Appeals June 8, 1897, and thereafter law was changed.

It will thus be seen that in these cases the very object of the law was defeated, and bids were made for the payment of excessive percentages of gross receipts. The

successful bidder never fulfilled his obligations to the City, and either a compromise was made which bore no relation to the original bid or else the matter was dropped.

The City's experience, therefore, with the sale of franchise rights at public auction has not in more recent years been what would be termed successful. There is no statute providing for the sale of any rights at public auction at the present time other than ferries, and I do not see that to change the policy in this particular instance would be of any particular gain, in view of the four other companies which claim rights but have never exercised them in this territory.

Should, however, the Board feel that the only manner in which to determine the value of this franchise is by a public auction, it would seem necessary that the terms and conditions which have heretofore been approved, including the initial payment of \$1,000, be advertised as the minimum terms and conditions of the grant, and that bidders should be confined to sums in excess of \$1,000, as provided for the initial payment. Should any other company than the Queens Lighting Company obtain the franchise, it should be made a provision of the terms and conditions of sale that such company should pay to the Queens Lighting Company sums heretofore paid by said company for the advertising provided by the present law, and which in this case amount to a total sum of \$2,424. It might also be fair to include a certain sum for counsel fees and incidental expenses, as this matter has been before the Board and has taken up the time of the company's counsel for almost a year. It must be remembered, however, that the terms and conditions proposed were made up upon the basis of a new company entering the field, a company which had no plant, but which would have to erect a plant in this territory. Should, however, the application have been from an existing gas company, with a plant sufficient, with perhaps a little enlargement or simply an extension of its pipes, to supply this territory, the terms and conditions would have been singularly different, as illustrated by the report upon the New York and Richmond Gas Company.

In regard to the advertising as proposed by the Comptroller for ten consecutive days in four daily newspapers, presuming that the whole form of contract would have to be advertised, being a part of the terms of sale, the cost I estimate to be upward of \$22,500, and if this is added to what would have to be paid by the successful bidder to the Queens Lighting Company, the proposition becomes an absurdity. I would, therefore, recommend that as the only objection, as set forth by the Comptroller, to the terms and conditions of the grant, or to the Queens Lighting Company as the applicant, is that the initial payment is inadequate, the Board fix a sum which in its opinion shall be adequate, and if it changes the sum, the contract must be placed upon the minutes for thirty days, readvised, and a final public hearing held, before action can be taken by the Board. Whether or not the applicant company can, under the law, be made to pay for this additional advertising, which will cost not less than \$2,000, in addition to the sums already paid, or whether the City will be obliged to pay for the same, would have to be determined by the Corporation Counsel. If the Board is satisfied, however, that the terms and conditions proposed are adequate and just, no further action is necessary by the Board, as it is distinctly understood from a parliamentary standpoint that a vote to reconsider a resolution does not involve its repeal, but leaves it open for consideration and such disposal as the body may prefer. It would therefore only be necessary to return the certified copy of the resolution of October 4 to the Mayor for his approval.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

Which was ordered printed in the minutes and referred to the Comptroller.

The following FINANCIAL MATTERS not upon the calendar for this day were considered by unanimous consent:

The Comptroller presented the following resolution of the Board of Aldermen requesting the issue of \$12,500 Special Revenue Bonds to defray the cost of covering Seabury Creek, south of Westchester avenue to a point 75 feet north of the Bear Swamp road, and for the construction of box drains, etc., together with report thereon, recommending that the cost of this improvement be assessed upon the property benefited thereby; said resolution of the Board of Aldermen having been referred to the Comptroller on November 1, 1907; communication from the President, Borough of The Bronx (to whom the Comptroller's report was referred on December 6, 1907), urging favorable action upon the resolution of the Board of Aldermen; together with report of the Select Committee, consisting of the Comptroller, the President, Borough of The Bronx and the Chief Engineer of the Board of Estimate and Apportionment, to which this matter was referred on January 10, 1908, recommending the issue of \$12,500 Special Revenue Bonds as requested by the Board of Aldermen.

Resolved, That in pursuance of subdivision 8 of section 188 of the amended Greater New York Charter the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to an amount not to exceed twelve thousand five hundred dollars (\$12,500), the proceeds whereof to be applied to the covering of Seabury Creek, from south of Westchester avenue to a point 75 feet north of the Bear Swamp road, and for the construction of box drains, etc.

Adopted by the Board of Aldermen October 1, 1907, three-fourths of all the members voting in favor thereof.

Received from his Honor the Mayor October 15, 1907, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

P. J. SCULLY, Clerk.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
November 22, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Aldermen by resolution adopted October 1, 1907, received from his Honor, the Mayor, October 15, 1907, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

"Resolved, That, in pursuance of subdivision 8 of section 188 of the amended Greater New York Charter, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to an amount not to exceed twelve thousand five hundred dollars (\$12,500), the proceeds whereof to be applied to the covering of Seabury Creek, from south of Westchester avenue to a point 75 feet north of the Bear Swamp road, and for the construction of box drains, etc."

I would report; the old drain or waterway, known as Seabury Creek, beginning north of Bear Swamp road, near its junction with West Farms road, near the Village of Westchester, flows in a southerly direction, crossing under West Farms road, thence through the New York Protective lands, to a point about 1,000 feet south of West Farms road, where it crosses Protective avenue and is carried in a covered drain to a point near Railroad avenue, thence easterly through private property, back yards, under houses and barns partly in covered drains and in open waterway to a point near Westchester avenue, where it empties into a covered drain, which, in turn, eventually empties into Westchester Creek.

It is proposed with the money asked for, if provided, to cover this creek or waterway, and to construct sundry box drains and outlets to afford relief to householders in the vicinity of and contiguous to the said waterway.

The necessity, it is claimed, for this outlay proposed, arises from the fact that the Board of Health has served notice to householders along the line of the creek that all overflows to cesspools which have hitherto been allowed to empty into the said creek, or waterway, must be sealed up, and that such overflow from cesspools into the creek must cease.

I have had the neighborhood through which the creek flows examined, and it is reported, that it is low and therefore subject to flooding in time of wet weather. There are no sewers yet constructed in this vicinity. I have been informed by Mr. Charles H. Graham, Engineer in Charge of Sewers, Borough of The Bronx, that a resolution for sewers in all of the streets in the said neighborhood has been passed by the Local Board of Chester, and that the matter is now pending in the Board of Estimate and Apportionment, but it is likely though that it will be a long time before these sewers are built.

In view of the existing conditions, I am of the opinion that it would be an extreme hardship on these householders to compel them to close up the overflows referred to at this time, and that some relief should be afforded.

I would call your attention to the fact, that this is a local improvement which is not to the advantage of the City at large, but is rather for the benefit of the property owners adjacent to and in the vicinity of the stream to be covered and drains to be constructed in view of which, in my opinion, the drains should be constructed, pursuant to chapter 394 of the Greater New York Charter, and the cost of the improvement be assessed against the property benefited, rather than providing the money by the sale of Special Revenue Bonds.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. METZ, Comptroller.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
MUNICIPAL BUILDING, CROTONA PARK,
December 27, 1907.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

DEAR SIR—I beg to call the attention of the Board of Estimate and Apportionment to the circumstances upon which I contend that the Board of Estimate and Apportionment should approve a resolution of the Board of Aldermen adopted on November 1, 1907, requesting an issue of \$12,500 Special Revenue Bonds for the work of covering Seabury Creek from south of Westchester avenue to a point about 75 feet north of Bear Swamp road, and the construction of box drains, etc., notwithstanding the report of the Comptroller made to the Board of Estimate and Apportionment, and dated December 6, 1907, which was forwarded to me in a letter of Assistant Secretary William L. Lawrence of December 7, 1907. I ask the further consideration of the Board of Estimate and Apportionment to this action of the Board of Aldermen, the subject matter of which was submitted by me to the President of the Board of Aldermen for its consideration on August 13, 1907, a copy of which communication is hereto attached.

As I said in my letter to President McGowan, of the Board of Aldermen, the subject of the drainage condition existing in certain sections drained by Seabury Creek has received the consideration of the Department of Health, which issued certain orders tending to modify the conditions which are detrimental to the health of the community.

I beg to call attention to the difficulty of improving this drain as an assessable proceeding by reason of the fact that it will be impossible to carry out such a proceeding on account of the fact that the City has no title and there would be difficulty in securing the same.

The Chief Engineer of this Borough advises me under date of December 24, 1907, that the drain in its present condition is a menace to the public health of the locality through which it runs and under these circumstances it seems to me good judgment that the City should provide some special appropriation to cover the cost of improving the said creek, etc., particularly in view of the fact of the peculiar conditions which will prevent the accomplishment of this work within a reasonable time by assessment.

I therefore respectfully urge that favorable action be taken by the Board of Estimate and Apportionment by the approval of the resolution of the Board of Aldermen requesting an issue of \$12,500 Special Revenue Bonds for this work, which appears on the calendar of December 6, 1907, by No. 21, and which was referred to the President of the Borough of The Bronx.

Yours truly,

LOUIS F. HAFFEN,
President of the Borough of The Bronx.
NEW YORK, February 13, 1908.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At the meeting held on January 10, 1908, there was presented by the President of the Borough of The Bronx a request for the approval by the Board of Estimate and Apportionment of a resolution adopted by the Board of Aldermen on October 1, 1907, providing for an issue of Special Revenue Bonds to an amount not exceeding \$12,500, the proceeds of which were to be applied to the covering of Seabury Creek, between the south side of Westchester avenue and a point 75 feet north of Bear Swamp road, and for the construction of box drains, etc. This matter was referred to a committee consisting of the Comptroller, the President of the Borough of The Bronx and the Chief Engineer of the Board for consideration and report.

Your committee has examined the situation and finds that there is an old waterway known as Seabury Creek, beginning north of Bear Swamp road, near the Village of Westchester, and running southerly through the lands of the New York Catholic Protective to a point about 1,000 feet south of West Farms road; thence through a covered drain to a point near Railroad avenue, and then easterly through private property under outbuildings, partly covered and partly open, to another covered drain beginning near Westchester avenue and emptying into Westchester Creek. A number of houses along the line of this creek have cesspools which overflow into this open stream, and these property owners have been notified by the Board of Health that all such overflows must be sealed up. If this were done the condition would be intolerable, and the only remedy seems to be to convert this open stream into a temporary sewer by covering it. This is the work which is contemplated by the Borough President and for which the issue of Special Revenue Bonds was authorized by the Board of Aldermen. It will be some time before sewers can be provided for this territory, and in the meantime the only feasible treatment which suggests itself is that which has been proposed by the President of the Borough, and your committee would recommend favorable action upon the resolution of the Board of Aldermen providing for an issue of Special Revenue Bonds in an amount not to exceed \$12,500.

Respectfully,

H. A. METZ,
Comptroller;
LOUIS F. HAFFEN,
President of the Borough of The Bronx;
NELSON P. LEWIS,
Chief Engineer of the Board of Estimate and Apportionment.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
February 10, 1908.

Hon. H. A. METZ, Comptroller:

SIR—The Board of Estimate and Apportionment, at a meeting held January 31, 1908, adopted a resolution authorizing the acquisition of certain property in the Borough of Manhattan, for the sum of \$43,600, of which amount \$42,850 was to be paid for by the Department of Bridges, as a larger part of the property is included within the area as laid out for the Manhattan approach to the Manhattan Bridge. A small triangular portion fronting on East Broadway is to be taken for the use of the marginal street adjoining the bridge.

The resolution adopted by the Board authorized the Comptroller to acquire the property for the Bridge Department at \$42,850, but did not authorize the acquisition of the small portion to be taken for the street for \$750, although the resolution called for the issue of Corporate Stock to pay for the part taken for the street.

I therefore respectfully recommend that the Board of Estimate and Apportionment amend their resolution adopted January 31, 1908, so that when amended the clause authorizing the Comptroller to enter into contracts for the acquisition of the street portion shall be included therein.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

All that triangular piece or parcel of land lying within the new street as laid out adjoining the Manhattan approach, bounded and described as follows:

Beginning at a point on the southerly side of East Broadway distant 155.72 feet easterly from the corner formed by the intersection of the southerly side of East Broadway with the easterly side of Market street, which point is the easterly property line required for the Manhattan approach to the Manhattan Bridge; running thence southeasterly along said easterly property line 19.27 feet; running thence northerly 18.45 feet to the southerly side of East Broadway; running thence westerly along the southerly side of East Broadway 5.57 feet to the point or place of beginning, together with all the right, title and interest of the owners of said premises of, in and to the streets in front thereof to the centre thereof, said premises being known as a portion of No. 85 East Broadway,

Respectfully,

H. A. METZ, Comptroller.

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
No. 300 MULBERRY STREET,
January 16, 1908.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—The following proceedings were this day directed by me:

Whereas, The Comptroller was authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding \$750,000 to provide means for a building for new headquarters for the use of the Police Department, to be erected on the site of Centre Market, Grand and Centre streets, Borough of Manhattan, in pursuance of resolution of the Board of Estimate and Apportionment, adopted November 20, 1903, and concurred in by the Board of Aldermen, February 23, 1904; and

Whereas, The said amount of \$750,000 is insufficient for the erection of said building and equipping the same.

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested, by and with the concurrence of the Board of Aldermen, to authorize the issue of Corporate Stock to an amount not exceeding \$20,000 to provide means for furnishing lighting and electric fixtures for the said building.

Respectfully,

THEO. A. BINGHAM, Police Commissioner.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
February 7, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. Theo. A. Bingham, Police Commissioner, in communication under date of January 16, 1908, requests the Board of Estimate and Apportionment to authorize the issue of Corporate Stock to an amount not exceeding \$20,000 to provide means for furnishing lighting and electric fixtures for the new headquarters of the Police Department, Grand and Centre streets, Borough of Manhattan.

I would report that the account for the construction of the New Headquarters Building, is as follows:

Money Available.	
Taken from appropriation of 1903.....	\$5,000 00
Building appropriation, 1903.....	\$750,000 00

Architects' fees on same.....	1,017 50

\$791,551 20

Showing at present a slight deficit which will be made up by premiums on the yet unsold bonds.

I consider that \$20,000 is not too much to expend on gas and electric fixtures in this building, including architects' fees on same.

The work being necessary, I think, the Board of Estimate and Apportionment, may properly authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue additional Corporate Stock to the amount of \$20,000 to provide additional funds for the new headquarters of the Police Department, Centre Market, Grand and Centre streets, in the Borough of Manhattan.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. METZ, Comptroller.

A true copy of report and resolutions adopted by the Board of Education on December 11, 1907.

FRED H. JOHNSON,
Assistant Secretary, Board of Education.

To the Board of Education:

The Committee on Buildings respectfully submits for adoption the following preambles and resolutions:

Whereas, A communication, dated January 24, 1908, has been received from the Comptroller, enclosing for consideration, a copy of a report from the Chief Engineer of the Department of Finance relative to the awards of contracts for pianos made by the Board of Education on December 11, 1907 (see Journal, pages 2415 to 2417); and

Whereas, The said Chief Engineer reports that the awards made by the Board of Education agree very closely with the estimated values fixed by the piano expert employed by the Department of Finance, except the award to Ernest Gabler & Brother, of one upright piano at \$245, which price said expert regards as excessive; and

Whereas, Said expert recommends that, instead of the piano mentioned, an instrument made by H. & S. G. Lindeman or Lawson & Co., be substituted at their bid price, \$240; and

Whereas, In view of the report of the Chief Engineer of the Department of Finance, it is deemed advisable to rescind the award of the contract for one piano to Ernest Gabler & Brother, and to include an additional instrument in the award made to H. & S. G. Lindeman; therefore be it

Resolved, That so much of the report and resolutions adopted by the Board of Education on December 11, 1907, as related to awarding a contract to Ernest Gabler & Brother, for one piano of Item 1, at \$245, be, and the same is hereby rescinded; and be it further

Resolved, That the said above-mentioned report and resolutions be, and they are hereby, amended by striking out all of the eighth line from the top of page 2416 of the Journal for 1907, and inserting in lieu thereof the following:

"One piano of Item 1, H. & S. G. Lindeman..... \$240 00"
—and by striking out the amount "\$4,745" in the tenth line from the top of page 2416 and substituting the amount "\$4,740."

Pease Piano Company.....	9 at 250 00	30 at 400 00

The Board of Education on December 11, 1907, made the following awards, subject to the approval of the Board of Estimate and Apportionment, as provided in section 419 of the Charter, as follows:

	Item No. 1.	Item No. 2.	Item No. 3.
Ludwig & Co.....	2 at \$450 00
George Steck & Co.....	1 at \$265 00	4 at 450 00
The Francis Bacon Piano Company.....	2 at 240 00
H. & G. S. Lindemann.....	1 at 240 00	3 at 400 00

Otto Wissner	1 at 475 00
Pease Piano Company.....	1 at 250 00	3 at 400 00

The Committee states in connection with these awards, that it "has gone over very carefully with a desire to secure instruments that will be best adapted for the purpose intended, and has selected the firms hereinafter mentioned, to whom it is recommended that awards as hereinafter set forth be made." I would report: on December 26, 1907, you addressed a communication to a piano expert to "make a personal examination of the pianos that are to be furnished by the respective firms as awarded by the Board of Education, and submit a report to this Department of what you consider is a fair value for the respective classes of pianos which are to be furnished by the respective firms."

I attach a statement showing the amount bid by the respective firms, the number of pianos awarded to each firm, and the value of each as estimated by your piano expert.

From an examination of said statement, it appears that the awards as made by the Board of Education agree very closely to the estimated value of the piano expert, except the award of one upright piano at \$245 to Ernest Gabler & Bro.; the estimate of the expert for this piano is only \$175.

In view of this great difference, \$70, I suggest that the award made to Ernest Gabler & Bro. for one upright piano be given either to H. & G. S. Lindemann or Lawson & Co., at \$240, their bid price.

In all other cases the difference between the award price and the estimated value of the expert does not in my opinion justify the recommendation for a change in the awards as made by the Board of Education.

I suggest that a copy of this report be forwarded to the Board of Education before being submitted to the Board of Estimate and Apportionment for consideration.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

In view of the resolution adopted by the Board of Education on February 3, 1908, relative to amending the report and resolution adopted on December 11, 1907, in regard to the award of contracts for pianos, I think the Board of Estimate and Apportionment may properly approve the award as modified.

Chemist	\$2,500 00
Laborer	1,200 00

The reason for making this request is that there is now attached to the office of the Commissioners of Accounts, a chemical and a physical laboratory, which it is desired shall be transferred to the Finance Department, together with the employees who have been connected therewith for several years, and who thoroughly understand the working of the apparatus.

There being no positions of the titles named in the Finance Department, it becomes necessary to create them before such transfer can become effective.

Respectfully yours,
H. A. METZ, Comptroller.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
