The easterly line of the marginal street cuts the easterly side of the building at a point about 25 feet northerly from the southerly side of the building, and cuts the northerly side of the building at a point about 15.1 feet easterly from the westerly side of the building. The portion of the building to be sold and removed lies to the west of the easterly line of the marginal street.

Arrangements must be made by the buyer to insure the remaining inshore part of the building at the cut-off being left in a safe and secure condition, in that the walls, floors and roof must be properly supported and maintained at their present level in such shape that the side walls, etc., may be replaced, all to the satisfaction of the Engineer-in-Chief.

The cutting off of this building along the line of the marginal street, as shown on accompanying map, must be taken into account by the buyer in making his bid, it being distinctly understood that the only part of the building to be removed under the terms of this sale is that part lying westerly of the easterly line of the marginal street.

Lot No. 3. Part of a one-story frame building with one brick side wall, said building being in the interior of the block between West Fifteenth and West Sixteenth streets, and whose westerly side is parallel to and about 225 feet westerly from the westerly side of Tenth avenue and whose southerly side is parallel to and about 27 feet northerly from the northerly side of West Fifteenth street. The easterly line of the marginal street cuts the southerly side of the building at a point 32.9 feet easterly from the westerly side of the building, and cuts the northerly side of the building at a point 0.4 feet easterly from the westerly side of the building. The building is essentially a frame structure except for the southerly wall, which is of brick. The portion of the building to be sold and removed is that lying to the west of the easterly line of the marginal street.

Arrangements must be made by the buyer to insure the remaining inshore part of the building at the cut-off being left in a safe and secure condition, in that the walls, floors and roof must be properly supported, and maintained at their present level in such shape that the side walls, etc., may be replaced, all to the satisfaction of the Engineer-in-Chief.

The cutting off of this building along the line of the marginal street, as shown on accompanying map, must be taken into account by the buyer in making his bid, it being distinctly understood that the only part of the building to be removed under the terms of this sale is that part lying westerly of the easterly line of the marginal street.

TERMS AND CONDITIONS OF SALE.

The sale will commence at 10.30 o'clock A. M. Each of the above lots will be sold separately and for a sum in gross.

The purchaser of the property will immediately take the necessary steps to protect his property, so that no claim or demand may hereafter be made that any of the items have been removed from the premises by others after he has purchased them.

The estimated dimensions given for the several lots are believed to be correct; but the Commissioner will not make any allowance from the purchase money for variations in any lot, and bidders must judge for themselves as to the correctness of the estimate when making their bids.

The purchase money must be paid in funds current, to Peter F. Meyer, Auctioneer, at the time and place of sale.

All the materials of every class and description composing the buildings and their foundations with the hereinbefore described area are to be torn down to the level of the existing curb, and entirely removed from the premises.

The removal of said materials composing the buildings and their foundations must be begun by the purchaser within three days from the date of the receipt of a notification from the Engineer-in-Chief to begin work, and all the material of every class and description composing the buildings and their foundations is to be torn down to the level of the existing curb and entirely removed from the premises within ten days after the receipt of the said notice to begin work. If the purchaser fails to commence the said removal as specified, and to diligently prosecute the same with a sufficient force, and to complete the same within the time specified, the money paid on the day of sale will be forfeited, and all claim of ownership in said materials is waived by the purchaser.

Then the Commissioner of Docks may, at his option, complete the said removal and charge the expense of the same to the said purchaser, who shall sign the present terms of sale and agree to be bound thereby.

The work of removing the materials composing the various buildings herein enumerated shall be carried on in such manner and at such times as may be directed by the Engineer-in-Chief of the Department of Docks and Ferries. The work of removal may be suspended and shall not be resumed until written notice is given by said Engineer-in-Chief so to do. The time elapsed during such suspension shall not be counted against the purchaser, but a like number of days will be given him which may have elapsed during such suspension.

All machinery and other personal property is to be removed from the buildings on or before May 9, 1905, and in case of failure so to do, such machinery and personal property will be removed by this Department and stored at the expense and risk of the owner. No machinery or personal property of any description contained in said buildings will be sold.

And for the further securing of the removal of the said materials, etc., hereinbefore mentioned, the purchaser will be required at the time of sale and the award of said property to him, to execute a bond in such form and with such sureties as may be approved by the Commissioner of Docks of the City of New York, and in a penalty of One Thousand Dollars (\$1,000), that he will in all things carry out the terms of sale and comply with the conditions thereof, and remove all of said property within the time required by the said terms of sale.

The form of bond to be executed by the purchaser may be seen at the office of the said Department at Pier "A," Battery place, New York. Dated THE CITY OF NEW YORK, April 25, 1905.

MAURICE FEATHERSON,
Commissioner of Docks.

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," NORTH RIVER, NEW YORK, March 31, 1904.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
