Whereas, the name of such street on account of the past history of the Bowery perpetuates its past unenviable reputation, which should no longer apply; and

No. 308.

President of the Borough of The Bronx—Request for Authority to Purchase Asphalt Sand, Without Public Letting.

City of New York, President of the Borough of The Bronx, Third Avenue and 177th Street, March 14, 1916.

The Honorable Board of Aldermen, City Hall, Borough of Manhattan, New York City, New York:

Gentlemen—Request is hereby respectfully made, in accordance with the provisions of section 419 of the Greater New York Charter, for authority to purchase asphalt sand in the open market, without public letting, to an amount not to exceed five thousand (5,000) cubic yards, for use at the asphalt plant, Borough of The Bronx.

The reasons for this request are as follows:

The grading of the sand required for use in the preparation of material for asphalt pavement is such that there are but few points of production from which a suitable sand can be obtained, and therefore the number of bidders on advertised contracts is limited.

A public letting for asphalt sand was held, but all bids were rejected as the prices submitted were deemed excessive.

In view of the fact that the active season for repairs to asphalt pavements is at hand, I would urge that prompt consideration be given this request.

Very truly yours, DOUGLAS MATHEWSON, President of the Borough of The Bronx.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from the Police Commissioner:

No. 309.

Police Commissioner—Request for Special Revenue Bonds, \$13,312, to Enable the Department to Place the Steamer "Patrol" in Commission on April 1, 1916.

City of New York, Police Department, Office of the Commissioner, March 17, 1916.

The Honorable Board of Aldermen, City of New York:

Gentlemen—It is respectfully requested that special revenue bonds in the sum of \$13,312 be authorized to enable the Department to place the steamer "Patrol" in commission on the first day of April, 1916, the funds requested to be applied as follows:

Salaries—	
Chief Engineer, at \$1,680, for 9 months.....	\$1,260 00
Assistant Engineer, at \$1,680, for 9 months.....	1,260 00
Fireman, 4 at \$960, for 9 months.....	2,880 00
Oiler, 2 at \$960, for 9 months.....	1,440 00
Deckhand, 3 at \$816, for 9 months.....	1,836 00
Fuel, 800 tons of Smokeless Bituminous Coal at \$3.15.....	\$8,676 00
Supplies—	
100 gallons Lard Oil, at 80 cents.....	\$80 00
300 lbs. Albany Grease, at 12 cents.....	36 00
Rope.....	200 00
Waste.....	100 00
Miscellaneous Supplies.....	100 00
Paints and Repair Material.....	516 00
Repairs, general, including repairs to boilers.....	400 00
	1,200 00
	\$13,312 00

No provision for these expenditures was made in our appropriations for 1916, as it was the intention to replace the Steamer "Patrol" with a gasoline or oil-driven boat. I find that because of the conditions existing in the ship-building trade it will take several months to get a boat constructed. During this time the Steamer "Patrol" should be kept in commission. Respectfully, A. WOODS, Police Commissioner.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 310.

A true copy of resolution adopted by the Board of Estimate and Apportionment March 17, 1916.

JOSEPH HAAG, Secretary.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, February 4th, 1916.

To the Board of Estimate and Apportionment:

Gentlemen—On October 25, 1915, the Commissioner of Bridges requested an issue of corporate stock to the amount of \$144,000 for the purpose of reconstructing the present wood block pavement on the roadway of the Queensboro Bridge.

On October 25, 1915, this request was referred to the Bureau of Contract Supervision, which reports thereon as follows:

"Acting upon the request has been delayed pending a determination of the question of track removal.

"The contemplated work consists of relaying a wood block pavement upon a specially constructed foundation, the removal of the present street railway tracks from the bridge roadway and the transfer of that service of the tracks on the outer brackets of the structure.

"The present wood block pavement extends from Second avenue, Manhattan, to Crescent street, Queens. From the Manhattan anchor pier to Ely avenue in Queens, the pavement rests upon a concrete foundation of varying thickness, which in turn, is supported by buckle plates riveted to the floor beams and stringers. This section has presented the greatest difficulty in the matter of proper repair, practically all of the expenditures for upkeep having been confined to this portion. A report of the Engineer in charge of this bridge contained the following:

"The Department's experience in maintaining bridge pavements under modern metropolitan roadway traffic indicates that the main defects and causes of failure

lay in the bridge floors and not in the pavement itself. On the main spans and on the steel supported sections of the Queensboro Bridge the under floor is strong enough to carry any reasonable loads, but it is elastic in spots. The concrete in the buckles and over the fillets is distorted more than that over the rigid confined edges of the plates. It is crushed and ground under repeated wheel passages and the mortar component leaches with the rain through the drain holes in the bottom of each buckle. The pavement over the buckle then sinks while that over the floor beams and stringers remains in place until the blocks are splintered and go to pieces under traffic or are "blown up" by rain and frost.

"In order to overcome these conditions, the Bridge Department has experimented with different types of foundations and pavement during the past two years. As a result of this investigation, the proposed work will embrace the corrective features of stiffening the buckle plates to prevent distortion under heavy loads; the insertion of expansion dams at frequent intervals, and the installation of new 1½-inch pipe drains through the concrete at the center of each buckle plate to prevent any lodgment of water between the blocks and foundation.

"Since the proposed repaving requires the reconstruction of the floor system, the existing tracks between the trusses must be removed during such operation. In order to obviate the expense of relaying new rails, it is proposed to transfer the street railway service now operating over these tracks to the tracks supported on the outer brackets of the bridge over which two other companies now operate. The Bridge Department states that the greatest density of travel so far reached on the Queensboro Bridge is 140 cars per hour in one direction over two tracks. At the peak of the rush hour on the Brooklyn Bridge, 360 cars per hour per single track were operated in one direction. Further, the operation of the Second avenue elevated trains over the Queensboro Bridge, the newly constructed elevated lines to Queens, and the proposed tunnel connection between Manhattan and Queens will all tend to relieve any future possibility of surface car congestion. In addition to these facts, the rapidly increasing amount of vehicular traffic on the bridge demands as wide a roadway as can be provided.

"The contemplated work will involve the repaving of approximately 33,000 square yards of roadway with the incidental work, as outlined above. The Bridge Department proposes to do the work by departmental labor. The estimated cost is \$144,000."

We recommend the adoption of the attached resolution approving an issue of corporate stock to the amount of \$144,000 for the purpose of the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; FRANK L. DOWLING, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; President, Borough of The Bronx; Corporate Stock Budget Committee.

Board of Estimate and Apportionment—Resolution to Fix the Compensation of Certain Janitors in the Department of Education.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, March 20, 1916.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment March 17, 1916, fixing the compensation of Janitors of various public schools, under the jurisdiction of the Department of Education, as set forth in said resolution.

I also transmit copy of report of the Committee on Salaries and Grades relative thereto. Respectfully,

JOSEPH HAAG, Secretary.

Whereas, By the opinion of the Corporation Counsel as of June 28 and July 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in the Department of Education was illegal unless such salary shall have been established under the provisions of section 56 of the Greater New York Charter; and

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 17, 1916.

JOSEPH HAAG, Secretary.

March 1, 1916.

To the Board of Estimate and Apportionment:

Gentlemen—On November 10, 1915, and February 7 and 23, 1916, the Board of Education requested establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of rates of compensation for the janitors of Public School Numbers 19 (Annex), 58, 66, Manhattan; 18 (addition), 28, 79, 100 115, Brooklyn; 99, Queens, and 20 (addition), Richmond. In connection therewith we report as follows:

For the following schools temporary rates are requested, being the regular rates less rent allowance:

	Regular Rate.	Rent Allowance.	Temporary Rate.
Public School 58, Manhattan.....	\$2,436 00	\$312 00	\$2,124 00
Public School 66, Manhattan.....	3,288 00	221 00	3,067 00
Public School 28, Brooklyn.....	2,700 00	221 00	2,479 00
Public School 79, Brooklyn.....	1,608 00	221 00	1,387 00
Public School 100, Brooklyn.....	1,728 00	221 00	1,507 00
Public School 115, Brooklyn.....	720 00	221 00	499 00

For the care of Public School 19 (Annex), Manhattan, located in Grace Chapel, it is proposed to increase the janitorial compensation from \$5 to \$10 per month on account of two additional rooms being used.

For the care of the new addition to Public Schools 18, Brooklyn, and 20, Richmond, temporary rates of \$75 and \$100 per month, respectively, are proposed, to compensate the janitors assigned to these buildings to prepare them for occupancy. For Public School 99, Queens, to which a cleaner has been assigned, a regular rate of \$720 per annum is proposed.

We recommend the adoption of the attached resolution granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller; FRANK L. DOWLING, Acting Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

The President laid before the Board the following communication from the Commissioner of Parks, Manhattan and Richmond:

No. 312.

Commissioner of Parks, Manhattan and Richmond—Request for Permission to Purchase Metal Storage Cabinets for American Museum of Natural History, Without Public Letting.

City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Municipal Building, 10th Floor, March 21st, 1916.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, New York City:

Sir—Request is hereby made, on behalf of the American Museum of Natural History, for exemption from public letting, under the provisions of Section 419 of the Greater New York Charter, of the purchase of metal storage cabinets at an estimate of cost of approximately \$15,000.

The Museum officials state to me that the reason for this request is that advantage may be taken of an offer of the Van Dorn Iron Works Company, which will be withdrawn on March 25th unless we close before that date. In event, however, of reasonable assurances that you will act favorably upon this request the time may be extended for a period sufficiently long to carry through the formalities incidental thereto. The offer of the Van Dorn Company is in total \$13,488 for a certain quantity of work, but they will perform additional quantity necessary and incidental thereto for the estimated difference in the amount at the same rate of cost, which will bring the total amount required up to \$15,000.

The Van Dorn Iron Works Company states in a communication to the American Museum of Natural History that in the advance purchases of steel used in this work they have covered the required amount and will thus be able to fill at the proposed price, but that if the matter is delayed they expect an additional increase in the contract prices of sheet metal and that before the end of April it will again be increased, which will make it practically impossible for them to permit their bid to stand.

It would appear to me that the request is made in good faith and that it is absolutely in the interests of economy that they be permitted to make this purchase under the exemption provided for this purpose.

In connection with this, your attention is called to the fact that under the provisions of the authorization scheduled as C.D.P. 3-E, American Museum of Natural History, Equipment, the Museum officials cannot go forward with any purchases against the authorization, be they through public letting, open market order or by exemption, except with the approval of specifications by the Board of Estimate and Apportionment.

This is provided for explicitly in the authorization. The city will thereby be safeguarded to the fullest extent. Respectfully yours,

CABOT WARD, Commissioner of Parks, Manhattan and Richmond.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from Hon. Edward Polak, Register, Borough of The Bronx, as Chairman of the Elected County Officials of the several counties embraced in The City of New York:

No. 313.

Communication from Edward Polak, as Chairman of the Elected County Officials of the City of New York, in Relation to Senate Bill No. 622 Providing for Referendum to the People of the City in 1917 in the Matter of Power to Fix Salaries of County Officials.

County Clerk's Office, County of New York, New County Court House, New York, March 20, 1916.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—There is now before the Legislature of the State of New York, a measure known as "Senate Bill No. 622," introduced by Senator Elon R. Brown, providing for a referendum to be voted upon at the general election in 1917, and transferring to the Board of Estimate and Apportionment of The City of New York the power to fix salaries, of County officials, other than judicial and elected ones, within the Counties embraced in the Greater City.

On March 8, the elected County officials of The City of New York, of which I am the Chairman, opposed the present form of the Bill at the hearing before the Joint Cities Committee, and suggested an alternative proposition, viz., that the Board of Aldermen of The City of New York, as successors to the various County Boards of Supervisors, should have equal power and concurrent jurisdiction with the Board of Estimate and Apportionment, to initiate, review, and fix salaries and establish positions of employees in the various Counties at the annual Budget hearings held in October of each year.

The County officials respectfully submitted, at that hearing, that experience had demonstrated the extreme danger of concentrating government in the hands of a few men, and removing the power from local representative groups. It was pointed out that there had been a gradual breaking down of the system of autonomous government since the power of the Board of Aldermen had been exercised by the Board of Estimate, and this latest attempt to control the government of the remaining County offices was the last link in such a chain of destruction of local autonomy in the Counties.

We call your attention to the fact that, at present, County officials, in the administration of their offices, stand between two disturbing and embarrassing extremes—interference on the part of the Board of Estimate in purely internal matters of office discipline, and mandatory regulation by the State Legislature. The present Bill, Senate No. 622, offers no relief, without the alternative proposition which we propose, in the shape of a resolution asking that concurrent powers be given to the Board of Aldermen.

The local boards of Aldermen are closer to the people, closer to the localities they represent, and will much better understand the local conditions governing the offices now administered by the present harrassed County officials.

Subsequent to the hearing before the Joint Committees, at Albany, a Subcommittee of the County officials held a conference with Senator Brown, and laid the alternative proposition before him giving the Aldermen concurrent power. He stated to them that if the Board of Aldermen of The City of New York desired such power they should make their sentiments known in the form of a Resolution to that effect, and if said resolution was adopted by the Board of Aldermen and forwarded to the Legislature serious consideration would be accorded the measure before the Senate Cities Committee.

In view of the above, and acting in behalf of the Association of elected County Officials, I am calling to the attention of your honorable body the resolution which will be offered by one of your members, upon which we ask favorable action, and ask to have same forwarded to Senator Elon R. Brown, and the members of the Senate Cities Committee.

In view of the fact that this Bill, Senate Bill No. 622, will in all probability be reported out of Committee this week, it becomes imperative that action by your honorable body be not deferred. Copies of this resolution have been forwarded to the majority and minority leaders of your honorable board. Representing the Association of Elected County Officials, I earnestly bespeak your careful and immediate consideration in the matter.

Respectfully yours,

EDWARD POLAK, Chairman.

In connection with the foregoing communication, Alderman Mullen offered the following preamble and two resolutions:

Whereas, The Constitution of the State of New York authorizes the New York Legislature to confer upon the Board of Aldermen of The City of New York, as the successors of the Boards of Supervisors of the Counties within the Greater City of New York, the power and authority to fix the salary and compensation of all County employees and subordinates in the five (5) Counties within the Greater City of New York, and

Whereas, The powers belonging to the Board of Aldermen, as above stated, have been exercised by the Board of Estimate and Apportionment of The City of New York, and

Whereas, There is now pending in the New York State Legislature a measure known as "Senate Bill No. 622," introduced by Senator Brown, providing for referendum to the People of The City of New York, and the Counties contained therein, on the question as to whether or not the salaries and compensation of County officers and subordinates, with the exception of judicial officers and elected officials, should be fixed by the Board of Estimate and Apportionment of The City of New York; now, therefore, be it

Resolved, That it is the sense of the Board of Aldermen of The City of New York that an alternative referendum should at the same time be submitted for an expression of opinion by the People of the five (5) Counties within the Greater City of New York, and providing that the Board of Aldermen of The City of New York, as the successors of the Boards of Supervisors of the five (5) Counties within the Greater City of New York, should have concurrent power with the Board of Estimate and Apportionment to fix salaries and compensation of County employees and subordinates with the exception of judicial officers and elected officials; and further be it

Resolved, That this resolution, or a copy thereof, be forwarded to Senator Elon R. Brown, at the New York State Senate, Albany, New York, and to each member of the Cities Committee in the Senate of the State of New York and the Assembly of the State of New York.

The President put the question whether the Board would agree to adopt said preamble and resolutions.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Bent, Burden, Browne, Cardani, Cassidy, Cole, Collins, Cox, Cunningham, Curley, Daly, Delaney, Diemer, Donnelly, Dunn, Drescher,

Eagan, Farley, Ferguson, Friedlander, Gaynor, Gilmore, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, McCann, McCourt, McGarry, McGillick, McKee, Martin, Molen, Moore, Mullen, O'Rourke, Palitz, Quinn, Robitzek, Ryan, Schmitz, Schweickert, Shields, Silberstein, Sullivan, Stapleton, Stevenson, Tolks, Walsh, Wendel, Williams, Wise; President Van Name; President Connolly, by James A. Alderman Silberstein moved:

Whereas, A resolution has just been passed requesting the State Legislature to empower the Board of Aldermen and the Board of Estimate and Apportionment to have concurrent jurisdiction as to County salaries, that the President appoint a Committee of five, to present the matter properly before the State Legislature, and such Committee is hereby authorized to attend at Albany and protect the interest of the Municipality.

Which was adopted, Alderman Curran voting in the negative.

Resolution Authorizing That Civil Services Employees Be Entitled to Petition Legislative Bodies, and Lay Their Grievances Before Them, the Same as Other Citizens.

By Alderman Curran—
Whereas, policemen, firemen and other employees are unable openly to petition the Legislature or Board of Aldermen without violating the law; and,
Whereas, such prohibition tends to promote secrecy, corruption and hypocrisy in organizations of employees to the detriment of the people, the heads of departments and the employees; and,
Whereas, the President of the United States by executive order on August 24, 1912, permitted federal employees to organize, discuss and petition Congress relative to legislation; therefore, be it

Resolved, That it is the sense of the Board of Aldermen that no citizen should be deprived of the right to appeal to the Legislature, or to any public officer, commission or other public body, for the redress of grievances, on account of employment in the civil service.

The President put the question whether the Board would agree with said resolution.

Which was decided in the affirmative by the following vote:

REPORTS:

That the Commissioner of Licenses requested that this matter be withdrawn, as sufficient funds are available for this purpose. It therefore recommends that the request be placed on file.

City of New York, Department of Licenses, 49 Lafayette Street, March 18, 1916.

To the Honorable Board of Aldermen, City Hall, Manhattan:

Gentlemen—Permission is respectfully asked to withdraw at this time the request made for special revenue bonds in the amount of \$2,250.

It has been found that the supplies required, by changing specifications, can be purchased for a much lower figure than originally estimated, and it is believed that adjustments may be made within existing appropriations to pay for the supplies.

Yours very truly,

GEORGE H. BELL, Commissioner.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, March 18, 1916.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:
No. 215—Department of Licenses—Request for Special Revenue Bonds, \$2,250, for Purchase of Metal Badges to Comply with Ordinance Relating to Peddlers.

Sir—On February 28, 1916, I addressed a communication to you to the effect that an examination of this request had been made and that a form of badge in substitution for the one proposed had been submitted to the Commissioner of Licenses.

On March 15, 1916, the Commissioner of Licenses stated that he had received bids on the new form of badge at the rate of \$25.50 per 1,000, or \$382.50 for the 15,000, the number it is estimated will be required.

At the suggestion of this Bureau, the Commissioner has agreed to charge this expenditure against his present budget appropriation, there being at this time sufficient funds available for this purpose.

He has informed me that he would communicate with the Finance Committee and withdraw his request for revenue bonds. Respectfully,

PETER J. MCGOWAN, Acting Director.

Report of the Committee on Finance in Favor of Adopting Resolution for Special Revenue Bonds, \$396, for the Purchase of Various Machines for Use of the Clerk of the Court of Special Sessions.

The Committee on Finance, to which was referred on March 14, 1916 (Minutes, page 691), the annexed request of the Chief Clerk of the Court of Special Sessions for special revenue bonds, \$396, for the purchase of various machines, respectfully

REPORTS:

That the permission asked for is necessary, as this matter was referred to the Bureau of Contract Supervision for investigation, and they report the need of these machines for expediting the work of the department. It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of three hundred and ninety-six dollars (\$396), the proceeds whereof to be used by Court of Special Sessions for the purpose of purchasing the following articles:

Two dictating machines, at \$76.50 each	\$153 00
Two transcribing machines, at \$67.50 each	135 00
Two shaving machines, at \$54 each	108 00

\$396 00

—all obligations contracted for hereunder to be incurred on or before December 31, 1916.

Chief Clerk's Office, Court of Special Sessions of The City of New York. Cor. Franklin and Centre Streets, New York, March 13th, 1916.

Board of Aldermen, New York City:

Gentlemen—Application is hereby made for the issue of revenue bonds for the sum of \$396, for the purpose of the following articles:

Two dictating machines at \$76.50 each	\$153 00
Two transcribing machines at \$67.50 each	135 00
Two shaving machines at \$54 each	108 00

\$396 00

This is made necessary because of the provisions of the new Parole Law, chapter 579, Laws of 1915. Yours respectfully,

F. W. SMITH, Chief Clerk.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, March 18, 1916.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

No. 297—Court of Special Sessions, Request for Special Revenue Bonds, \$396, for the Purchase of Dictating, Transcribing and Shaving Machines.

Sir—An examination has been made into this request and I find that the purchase of these machines is necessary in order to provide for the dictation and transcription of the reports of the Probation Officers.

It is intended to discontinue the present method of having the Probation Officers write out their reports in long hand, and to have them, in future, dictate their findings in each case pending before the court which may have been assigned to them for investigation. The records of the machine will then be turned over to a Typewriting Copyist, Dictaphone Operator, who will transcribe them, making three copies, one for the office file, one to accompany the court papers, and one to be furnished to the Parole Commission, in case the person charged with crime is found guilty and sentenced to some institution. At present it is necessary for the Parole Commission to send an assistant to the court to copy the required data from the Probation Officer's reports.

The proposed method, in addition to saving considerable time now occupied on copying reports, will also allow more time to the Probation Officers for investigation.

It is necessary to have one set of machines in the Manhattan office and one in Brooklyn.

No provision was made in the 1916 Budget for the purchase of these machines, nor are funds available within the appropriations to the Court of Special Sessions for this purpose. Respectfully,

PETER J. MCGOWAN, Acting Director.

Which was laid over.

Every dealer in second-hand articles, upon being served with a written notice so to do by a member of the police department, shall report to the police commissioner, on blank forms to be furnished by the police department, a copy of the records required to be kept under section 42 of this article of all goods, articles or things,

or any part thereof, purchased, received or sold in the course of business of the second-hand dealer, during the days specified in such notice.

Sec. 44. Restrictions.

4. Not to be pawnbroker or junk dealer, not to use pawnbroker signs, etc. No dealer in second-hand articles, while licensed as such, shall be licensed as pawnbroker or junk dealer; nor shall any sign or other device or subterfuge be displayed, used or employed by any dealer in second-hand articles in or about the premises where such business is conducted, which in any wise resembles the emblem or sign commonly used by pawnbrokers, or which is intended to give the appearance that the business conducted on such premises is, or is connected with, the business of a pawnbroker and calculated to so mislead; nor shall there [by] be any sign displayed which is calculated to deceive.

Sec. 45. Lost or stolen property. [to be advertised] If any goods, articles or things whatsoever, shall be advertised in any newspaper printed in the City as having been lost or stolen, and if the same or any such answering to the description advertised, or any part thereof, shall be or come in the possession of any dealer in second-hand articles, such dealer, upon receiving written, printed or oral notice [thereof] so to do, shall give information thereof in writing to the police commissioner stating from whom the same was received. Report of the Committee on Rules in Favor of Filing Resolution Requesting the President of the Borough of Manhattan to Improve the Acoustic Conditions of the Aldermanic Chamber.

The Committee on Rules, to which was referred on January 25, 1916 (Minutes, page 203), the annexed resolution requesting the President of the Borough of Manhattan to improve the acoustic conditions of the Aldermanic Chamber, respectfully

REPORTS:

That this matter was referred to the President of the Borough of Manhattan, and after an extended investigation he submitted the annexed report, and in consideration of the facts contained therein, it, therefore, recommends that the accompanying resolution be placed on file.

Resolved, That the President of the Borough of Manhattan be and he is hereby requested and authorized to obtain immediately for use in the Aldermanic Chamber a sounding board or some suitable contrivance to improve the acoustic properties of said chamber.

FRANCIS P. KENNEY, JNO. J. O'ROURKE, SAMUEL J. BURDEN, JOHN F. MCCOURT, JAMES R. FERGUSON, HENRY H. CURRAN, Committee on Rules. Borough of Manhattan, Department of Public Works, Municipal Building, City of New York, March 1, 1916.

Honorable FRANK L. DOWLING, President, Board of Aldermen, City Hall, New York City.

Dear Sir—As requested, the writer has given some time and thought, and made some study of the acoustic properties of the Board of Aldermen Chamber in the City Hall, with the point in mind of determining whether improvements can be made at reasonable cost so as to make it possible for the members of the Board who occupy seats near the rear of the room better to hear the speakers who address the Chair from near the front of the Chamber.

Without making use of scientific measuring instruments, which for first cost and operation would be rather expensive, an absolute final determination is not possible, but careful personal observation upon the floor of the Chamber during three meetings of the Board has convinced the writer that very little improvement could be accomplished, at best, and such improvements as are possible would be of a relatively costly nature. Little echo was observable. The principal difficulty in hearing lay in the fact that there is usually a considerable amount of conversation in the rear of the room and on the part of the members of the Board who occupy the two or three rear rows of seats. When the room was normally quiet it was found possible to hear distinctly practically every speaker who used a proper tone of voice and spoke from practically any point in the Chamber. One member of the Board whose voice is not naturally strong or high pitched may experience some difficulty in making his colleagues understand all that he says, but if he speaks slowly and enunciates with care, even his voice will carry throughout the Aldermanic Chamber without great difficulty.

After the observations described above, it is the opinion of the writer that a reflecting or sounding board behind the Speaker's desk would not improve matters. On the other hand, it would be likely to introduce echoes, which would make conditions much worse than they are at present. One change, which, however, would introduce but a slight measure of benefit, would require the removal of all the wooden panels around the sides and rear of the room underneath the balcony and the substitution in their place of canvas or silk. This change would only serve to deaden to a slight extent the noise now occasionally produced in the rear of the room, and the expense involved is not recommended.

The measures taken by the presiding officer during several of the periods of observation while the writer was present in the Chamber showed that so long as the members give strict attention to the business of the Board there is little cause for complaint. Respectfully submitted, E. P. GOODRICH, Consulting Engineer.

Which report was accepted.

Very truly yours,

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, March 7, 1916.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:

Sir—In reference to your communication of February 25, 1916, requesting the Bureau of Standards to investigate and report upon the request of the Sheriff of Bronx County for special revenue bonds in the sum of \$8,271, for the payment of the services of additional employees and equipment made necessary by the construction of the new jail and Sheriff's offices in The Bronx, the Bureau of Standards reports thereon as follows:

On or about April 1, 1916, it is expected that the new County Jail of Bronx County, situated in the Bergen Building at 177th Street and Arthur Avenue, will be ready for occupancy. It appears that this jail will be inadequate, according to the present census, to house even criminal prisoners. For that reason, it is proposed to operate the two jails, the old one now situated in the County Court House at 161st Street and 3d Avenue, as well as the new. At the present time all the prisoners in that county are kept in the old jail by means of overcrowding and in total disregard of the provisions of the Prison Law, which provides that separate segregation shall be made for male and female and civil and criminal prisoners. The State Prison Commission has urged the advisability of establishing a separate House of Detention, and has also been insistent that only one prisoner shall be kept in a cell. The force requested by the Sheriff to operate the two jails is reasonable, but inasmuch as the \$7,140 represents the year's allowance, this amount may be reduced to \$5,355, apportioned as follows:

Five Keepers, at \$840 (9 months).....	\$3,150 00
One Head Keeper, at \$1,200 (9 months).....	900 00
Two Matrons, at \$660 (9 months).....	990 00
One Cook, at \$420 (9 months).....	315 00

Total..... \$5,355 00

The Bureau of Contract Supervision, to which the matters other than personal service were referred, reports thereon as follows:

"The equipment for the chapel may be purchased for the following amounts:

Organ	\$100 00
Cabinet altar	200 00
One hundred feet of benches.....	250 00

\$550 00

"In the new office steel cabinets should be provided for the Sheriff's records and forms. Upright units of a capacity equal to that requested may be purchased for \$122.

"The floors for which covering is requested are concrete. The amount of \$200 requested for this purpose is reasonable.

"The practice of providing a steel locker for each of 40,000 odd employees of the City would cost about \$320,000. It has not been the custom to provide lockers in the Municipal Building except in rooms to which the public are admitted.

"The amount of \$50 requested for moving equipment and resetting partitions is reasonable.

"In view of the above facts, \$942 would seem to be sufficient for the purpose of the request."

In full, therefore, necessity exists for revenue bonds in the following amounts:

Personal Service (9 months).....	\$5,355 00
Other than Personal Service.....	942 00

\$6,297 00

Respectfully,

GEORGE L. TIRRELL, Director.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Alderman Bassett, Bent, Burden, Carroll, Cassidy, Collins, Colne, Cox, Crane, Curley, Curran, Diemer, Donnelly, Dostal, Dunn, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Goetz, Gutman, Haubert, Heyman, Hilke-meier, Hogan, Kenneally, Kenney, McCann, McGarry, McGillick, McKee, Martin, Molen, Mullen, O'Rourke, Palitz, Post, Quinn, Robitzek, Schmitz, Schweickert, Shields, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Walsh, Wendel, Williams, Wirth, Wise; President Van Name; President Connolly, by James A. Report of the Committee on Finance of Board of Aldermen in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, \$23,025, for Alterations, Etc., to the First, Second and Third Floors of the Hall of Records Building.

The Committee on Finance, to which was referred on February 8, 1916 (Minutes, page 377), the annexed request of the President of the Borough of Manhattan for special revenue bonds, \$44,175, for alterations, etc., to the 1st, 2d and 3d floors of the Hall of Records Building, respectfully

REPORTS:

That this matter was referred to the Bureau of Contract Supervision for investigation and they reported that the amount required to do the work to be \$23,025. This amount is agreeable to the President of the Borough of Manhattan, and it therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twenty-three thousand and twenty-five dollars (\$23,025), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of alterations, etc., to the 1st, 2d and 3d floors of the Hall of Records Building. All obligations hereunder to be incurred on or before December 31, 1916.

FRANCIS P. KENNEY, WM. P. KENNEALLY, HENRY H. CURRAN, ROBERT L. MORAN, SAMUEL J. BURDEN, MICHAEL STAPLETON, JOHN DIEMER, CHARLES P. COLE, CHARLES DELANEY, FRANCIS P. BENT, Committee on Finance.

March 13, 1916.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, New York City:

My Dear President Dowling—Under date of February 2, 1916, a request was made for an issue of Special Revenue Bonds in the amount of \$44,175, to provide for the expense of making alterations to the first, second and third floors of the Hall of Records Building, and installing new furniture and equipment for the Register of New York County.

Tentative plans and specifications were submitted covering the same. Since that time the Bureau of Contract Supervision have had a number of conferences with the Register looking toward the modification of the request for furniture and equipment, and the request is, therefore, now modified to the amount of \$23,025, as follows:

(a)—Alterations, including removal of old partitions, counters, etc., and painting	\$2,900 00
(b)—Alteration to the electrical system	550 00
(c)—New steel furniture	8,250 00
(d)—Remodeling and moving old steel furniture	7,000 00
(e)—New wood furniture	1,225 00
(f)—New floor covering	3,100 00

\$23,025 00

Very sincerely, MARCUS M. MARKS, President, Borough of Manhattan.

March 9, 1916.

Mr. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:
No. 190—\$44,175 for Alterations, etc., to the 1st, 2d and 3d Floors of the Hall of Records Building.

Sir—Pursuant to your request of February, 1916, investigation has been made as to the need for the authorization of special revenue bonds noted above.

The following is a comparison, by items, of the amounts requested by the Borough President and the amounts actually necessary in order to meet the needs of the Register:

	Requested.	Required.
Alterations, including removal of old partitions, counters, etc., and painting	\$2,900 00	\$2,900 00
Alterations to the electrical system	550 00	550 00
New steel furniture	17,400 00	8,250 00
Remodeling and removing old steel furniture	19,000 00	7,000 00
New wooden furniture	1,225 00	1,225 00
New floor coverings	3,100 00	3,100 00
	\$44,175 00	\$23,025 00

The decrease in the amounts for new steel furniture and for remodeling and moving old steel furniture is due to the elimination, from the request, of doors for all of the cases, and, to the substitution of new cases of modern construction for proposed cases rather than duplicating the old cases at present in the building. The Register had requested the Borough President to have all the old cases equipped with doors as well as to provide them on the new cases. The doors were supposed to protect the records from dust and dirt and the possibility of anyone tampering with them. This advantage would be almost entirely offset by the necessity of keeping the cases open all day so that the public may have access to the records.

The only object to be attained by purchasing new cases of the same design as the old ones is uniform appearance. This may be accomplished by grouping the new ones in rooms by themselves.

When these facts were brought to the attention of the Register he agreed to the reduction.

The item of \$1,225 for new wood furniture is to provide better desk accommodations for the employees of the office and low tables and chairs in place of the present standing desks for the use of the public in examining records.

The other items are in accordance with the resolution of the Board of Estimate and Apportionment directing the preparation of plans for the work, and the estimates of cost are reasonable.

It is suggested that the committee confer with the Borough President so as to give him an opportunity of revising his request.

Very truly yours, PETER J. MCGOWAN, Acting Director.
Re No. 190—\$44,175 for Alterations to the 1st, 2d and 3d Floors of the Hall of Records, New York County, and Installing New Furniture for the Register.
City of New York, Board of Estimate and Apportionment, Municipal Building.

Mr. FRANCIS P. KENNEY, Chairman of Committee on Finance, Board of Aldermen:
Sir—The following is the result of an investigation, made in accordance with your communication of February, 1916, of the application for special revenue bonds of the President for Borough of Manhattan as stated above.

On April 16, 1915, the Board of Estimate and Apportionment directed the President of the Borough of Manhattan to prepare plans, specifications, estimates of cost and form of contracts for alterations and modifications on the first, second and third floors of the Hall of Records, New York County, in accordance with tentative plans prepared by the Register, dated March 30, 1914, and modified on April 12, 1915.

Part of the work called for in the plans referred to above was moving and erecting on different floors the present steel filing cases used by the Register and the purchase of new cases of a similar type.

Since making his first request the Register has asked that all of his existing filing cases and the new ones to be purchased be equipped with doors. This would practically double the cost of the cases. In so far as I have been able to determine none of the other Register's offices in the Greater City have cases of the type in question with doors.

In view of these facts I would suggest that action on this matter be deferred for another week to allow of a more thorough investigation of the matter.

Yours very truly, PETER J. MCGOWAN, Acting Director.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

The Committee on Public Letting to which was referred on March 1st, 1916 (Minutes, page 546), the annexed request of the President of the Borough of Queens for authority to purchase coal, without public letting, to the extent of \$11,500, respectfully

REPORTS:

That having examined the subject, it believes the proposed permission to be advisable on account of the present condition of the coal market. It recommends that for the purpose of purchasing coal in open market \$3,000 be allowed for the use of public buildings and \$2,500 be allowed for use of the Bureau of Street Cleaning and Sewers, and that, if the present state of the market continues, the President of Queens may make a new application for the remainder. It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Queens be and he is hereby authorized and empowered to purchase coal in the open market, without public letting, for use of various bureaus under his jurisdiction to the extent of five thousand five hundred dollars (\$5,500), divided as follows:

Bureau of Public Buildings and Offices	\$3,000 00
Bureau of Sewers	1,500 00
Bureau of Street Cleaning	1,000 00

\$5,500 00

JOHN McCANN, JOHN F. McCOURT, WM. P. MCGARRY, PATRICK H. SULLIVAN, PETER SCHWEICKERT, EDWARD W. COX, ALEXANDER S. DRESCHER, JAMES J. BROWNE, Committee on Public Letting.

The City of New York, Office of the President of the Borough of Queens, Long Island City, February 23, 1916.

To the Honorable the Board of Aldermen, The City of New York:

Dear Sirs—The Budget appropriations for 1916 for this department contemplate the purchase of several hundred tons of coal for use in the public buildings, and also about four hundred tons of coal for use in the crematories and disposal plants in the borough.

In accordance with the usual procedure, specifications were drawn and approved by the Bureau of Standards of the Board of Estimate and Apportionment and advertisements inserted calling for bids and specifying delivery at different points in the borough.

Bids were opened on February 16, 1916, at which time the fact was disclosed that the prices for delivery for about 220 tons was \$8.16 per ton from the lowest bidder and that other prices for delivery at different points were as low as \$6.48 and up to \$6.83 per ton.

In my judgment, the prices are excessive and more than the City is now paying for delivery for small quantities for the same quality of coal, and I do not feel justified, therefore, in awarding a contract at these prices.

In explanation of the high bids, I was informed that it is expected that the price of coal will rise some time or another during the coming year, but at the present time the price is not as high as the price submitted by the lowest bidder.

In the case of the bids received for coal for the crematories and disposal plants, the bids received show an advance of about \$1.00 a ton over the price paid last year, for which I can see no justification at this time for the reason that the prices submitted are in excess of the market price at this time, and the reason given for this excessive charge is the same as in the case of the coal for the public buildings.

In view of these facts, I request your approval, in accordance with the provisions of section 419 of the Charter, of a resolution authorizing me to purchase coal on open market order for the use of the public buildings to the extent of \$6,000, and for the Bureau of Street Cleaning and Sewers, \$5,500. Very truly yours,

MAURICE E. CONNOLLY, President of the Borough of Queens.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Bent, Burden, Carroll, Cardani, Cassidy, Collins, Colne, Cox, Crane, Curley, Curran, Diemer, Donnelly, Dostal, Dunn, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Goetz, Gutman, Haubert, Heyman, Hilke-meier, Hogan, Kenneally, Kenney, McCann, McGarry, McGillick, McKee, Martin, Molen, Mullen, O'Rourke, Palitz, Post, Quinn, Robitzek, Schmitz, Schweickert, Shields, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Walsh, Wendel, Williams, Wirth, Wise—57.

Report of the Committee on Public Letting of Board of Aldermen in Favor of Adopting Resolution to Authorize the Trustees of the College of The City of New York to Purchase Coal Without Public Letting.

The Committee on Public Letting to which was referred on March 1, 1916 (Minutes, page 547), the annexed request of the Trustees of the College of The City of New York for authority to purchase 1,000 tons of coal, respectfully

REPORTS:

That having examined the subject, it believes that on account of the present unsettled condition of the coal market, the proposed permission is necessary. It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, owing to the unsettled condition of the coal industry and the uncertainty, in consequence thereof, of obtaining at public bidding reasonable prices for furnishing and delivering coal, the Board of Trustees of the College of The City of New York be and they hereby are authorized and empowered, pursuant to section 419 of the City Charter, to purchase in the open market, without public bidding, approximately 1,000 tons of such kinds and sizes of coal as may be required for the College buildings.

JOHN McCANN, JOHN F. McCOURT, WM. P. MCGARRY, PATRICK H. SULLIVAN, PETER SCHWEICKERT, EDWARD W. COX, ALEXANDER S. DRESCHER, JAMES J. BROWNE, Committee on Public Letting.

The College of The City of New York, Office of the Curator, St. Nicholas Terrace and 139th Street, February 26th, 1916.

Hon. FRANK DOWLING, President, Board of Aldermen, City of New York:

Dear Mr. President—Will you do me the favor of presenting the enclosed resolution to the Board for its consideration. I understand that several City Departments have been granted permission to purchase coal in the open market owing to the difficulty of obtaining reasonable bids at public bidding on account of the unsettled condition of the coal situation. The College will be in the market for the purchase of coal shortly, and we would like to be empowered to purchase in the open market in the event that quotations at public bidding are excessive.

Yours very truly,

R. O. DAVIS, Curator.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Report of the Committee on Public Letting of Board of Aldermen in Favor of Adopting Resolution to Authorize the Commissioner of Docks to Purchase and Install "Blowers" on Various Ferryboats and in the Power Plant at St. George Terminal.

The Committee on Public Letting, to which was referred on March 1, 1916 (Minutes, page 550), the annexed request of the Department of Docks and Ferries for permission to purchase and install blowers on various ferryboats and in the power plant at St. George Terminal, respectfully

REPORTS:

That having examined the subject, it believes that owing to these articles being patented no advantage can be had by advertising for bids. It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Docks be and he is hereby authorized and empowered to purchase in the open market, without public letting, blowers for installation on various municipally owned ferryboats and in the power plant at the St. George Terminal to the extent of ten thousand five hundred and fifty dollars (\$10,550), as follows:

For the ferryboat "Richmond" (already installed)	\$2,000 00
For the ferryboats "Queens" and "Richmond," \$1,650 each	3,300 00
For the ferryboats "Bay Ridge," "Gowanus" and "Nassau," \$1,200 each ..	3,600 00
For the ferryboat "Mayor Gaynor"	1,350 00
For the power plant at the St. George Terminal	300 00

\$10,550 00

JOHN McCANN, JOHN F. McCOURT, WM. P. MCGARRY, PATRICK H. SULLIVAN, PETER SCHWEICKERT, EDWARD W. COX, ALEXANDER S. DRESCHER, JAMES J. BROWNE, Committee on Public Letting.

The City of New York, Department of Docks and Ferries, Office of the Commissioner, Pier A, North River, February 29, 1916.

Hon. FRANK L. DOWLING, President, Board of Aldermen:

Dear Sir—In connection with the voting of the budget for this Department for the year 1916, reduced appropriations were made for fuel supply with a view to using a cheaper grade of coal than heretofore. The use of this cheaper grade of coal necessitates the installation of blowers on the various ferryboats and in the power plant at the St. George Terminal.

One blower system has been installed on the ferryboat "Richmond" by the Parson Manufacturing Company, and this system has been in successful operation for some time past. On the ferryboats "Bronx" and "Brooklyn" another blower system, purchased from the Coppus Engineering and Equipment Company, has been installed, and this system on these two boats has operated successfully. The installation on

the ferryboat "Bronx" was effected last year, and on the ferryboat "Brooklyn," this year, and both have been paid for.

The Parson Manufacturing Company offers to sell its equipment now on the ferryboat "Richmond" for the sum of \$2,000, and the purchase at this price is considered desirable. I request authority for the purchase of the blower equipment on the ferryboat "Richmond" from the Parson Manufacturing Company at \$2,000.

Authority is also hereby requested to purchase without public letting the necessary equipment for the installation of Coppel Blowers, as follows:

For the ferryboats "Queens" and "Manhattan," \$1,650 each.....	\$3,300 00
For the ferryboats "Bay Ridge," "Gowanus," and "Nassau," \$1,200 each..	3,600 00
For the ferryboat "Mayor Gaynor".....	1,350 00
For the power plant at the St. George Terminal.....	300 00
	\$8,550 00

In view of the fact that all blower apparatus is covered by patents, it is impossible to draw specifications which would secure fair competition and at the same time be certain to secure apparatus which would be sufficient beyond doubt in operation. Both the Parson and Coppel Blowers have been tried out for a considerable time and both are satisfactory. The Parson Blower, however, is heavier and of a more elaborate type of installation, and it is not deemed desirable to place it on any additional boats. It is, however, entirely satisfactory in operation, and it is felt it would be poor policy to remove the blower from the ferryboat "Richmond" for the purpose of substituting the Coppel Blower.

The price of \$2,000 represents not only the cost of the apparatus, but also the cost of installation thereof, which is paid for by the Company. Respectfully,
R. A. C. SMITH, Commissioner of Docks.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

The Committee on General Welfare, to which was referred on February 23, 1916 (Minutes, page 502), the annexed resolution to grant permission to the Church of St. Bernard to construct and maintain a vault without fee, respectfully

Report of the Committee on Buildings of Board of Aldermen in Favor of Adopting an Ordinance to Amend Article 16 of Chapter 23 of the Code of Ordinances, Relating to Signs and Showbills.

The Committee on Buildings, to which was referred on January 18, 1916 (Minutes, page 126), the annexed ordinance to amend article 16 of chapter 23 of the Code of Ordinances, relating to signs and show bills, respectfully

REPORTS:

That the proposed amendments to this ordinance are designed to include signs illuminated by "gas" with those illuminated by "electricity" and meets with the approval of the Fire Commissioner. On a suggestion of the Commissioner of Water Supply, Gas and Electricity, the ordinance is further amended by adding after the word "jurisdiction" in subdivision 2 of section 215 the following words: [..]; *except that in the case of a sign illuminated by gas the certification of the superintendent of buildings only shall be required.*

It, therefore, recommends that the said ordinance, as so further amended be adopted.

AN ORDINANCE to amend article 16 of chapter 23 of the Code of Ordinances, relating to signs and show bills.

Be It Ordained, by the Board of Aldermen of The City of New York, as follows:

In the case of [a] an illuminated sign [illuminated by electricity], a certificate must also be procured from the department of water supply, gas and electricity, certifying that the piping or the electric wiring and electric appliances of the proposed signs are in conformity with the rules and regulations of that department.

Section 2. Section 215 of article 16 of chapter 23 of the Code of Ordinances of The City of New York is hereby amended to read as follows:

§ 215. [Electric] *illuminated signs*. 1. Application of preceding sections. Except as hereinafter specifically prescribed, all provisions of §§ 211 to 214, inclusive, of this article, shall apply to the continuance, construction, alteration, reconstruction and maintenance of [electric] *illuminated signs*, as hereinafter defined.

2. Issue of permits. All permits for [electric] *illuminated signs* shall be issued by the city clerk, upon applications therefor approved by the commissioner of water supply, gas and electricity and the superintendent of buildings having jurisdiction. *A permit or renewal thereof issued hereunder, upon the expiration thereof or within 30 days thereafter, may be renewed for a further period of one year; and, upon the payment by the applicant of the fee therefor and the surrender of the old permit, accompanied by satisfactory proof in the form of an affidavit that the illuminated sign is the same as when originally licensed and that the wiring or piping of the sign is in good condition, the city clerk may issue the permit.*

3. Definition. Any *illuminated* letter, word, model, sign, device or representation, used in the nature of an advertisement, announcement or direction [illuminated by electricity], erected on any building and extending beyond the building line, shall be deemed to be an [electric] *illuminated sign*. *No illuminated sign shall be illuminated other than by gas or electricity.*

4. Fee for permit. The applicant for a permit to construct or maintain an [electric] *illuminated sign* shall pay to the city clerk an annual fee of 10 cents for each square foot of sign space or part of square foot of such sign space displayed on such [electric] sign, to be computed and collected by the city clerk. The square feet of sign space on one side of an [electric] *illuminated sign*, however, shall be deemed to be the entire number of square feet of sign space, for the purpose of computing the license fee herein referred to and required to be paid.

5. Consent of owner of adjoining residence. No permit shall be issued for the erection of an [electric] *illuminated sign* on a building which adjoins another occupied exclusively as a private residence, until the applicant for the permit shall have filed the written consent of the owner of such residence to the erection of the proposed sign.

6. Restrictions. a. No [electric] *illuminated sign* shall extend more than 8 feet from the building line, nor shall any such sign be less than 10 feet in the clear above the level of the sidewalk beneath the same.

b. All [electric] *illuminated signs* shall be constructed entirely of metal or other incombustible material, except the insulation thereof *if such sign is to be illuminated by electricity*, including the uprights, supports and braces for the same, and shall be properly and firmly attached to the building, and shall be so constructed as not to be or become dangerous.

c. *If such sign is to be illuminated by gas, the gas burners for same shall be located entirely inside of the sign and so arranged and protected as to prevent the flame from being extinguished by the wind. A shut-off valve shall be placed on the gas piping extending from the building to the sign, and so arranged as to permit of the shutting off of the gas to the sign from the outside of the building, in case of necessity. Such signs as to construction, arrangement and location shall be subject to the approval of, and to rules and regulations adopted by the Fire Commissioner.*

WM. P. KENNEALLY, JAMES J. MOLEN, AUGUST FERRAND, WM. P. MCGARRY, FRANK J. SCHMITZ, JOHN MCKEE, PETER SCHWEICKERT, S. CLINTON CRANE, Committee on Buildings.

The City of New York, Department of Water Supply, Gas and Electricity, Office of the Commissioner, Municipal Building, New York City, February 7, 1916.
Hon. WM. P. KENNEALLY, Chairman, Committee on Buildings, Board of Aldermen, City Hall, New York City:

Sir—The department respectfully refers to the proposed amendment of article 16 of chapter 23 of the Code of Ordinances relating to signs and show-bills, which was introduced at the January 18 meeting of the Board of Aldermen.

It is noted that under the proposed revision of subdivision 3 of section 211 this department will, in addition to its present duty of certifying that the wiring and appliances of *electric signs* are in conformity with its rules and regulations as at present, be charged also with the duty of certifying that "the (gas) piping" of gas

signs is "in conformity with its rules and regulations." Whether this particular portion of the revised ordinance was inserted inadvertently and without regard for the fact that this department now exercises no jurisdiction over, and consequently has no rules and regulations in relation to gas piping, or whether it was actually the intention to impose this duty upon this department rather than upon the Bureau of Buildings, is not clear. The department believes, however, that it is not wise to place upon it this particular duty for the reason that all matters relating to gas piping are now and have heretofore been under the supervision of the Bureau of Buildings, and it is believed that they should continue to receive attention therein where extended experience and special organization for such work will undoubtedly result in more efficient control thereof.

WILLIAM WILLIAMS, Commissioner.

Respectfully,
On motion of Alderman Kenneally this matter was recommended to the Committee on Buildings.

No. 49 (Int. No. 291).

Keyes, Esq., Secretary of the Civil Service Reform Association, appeared in opposition. There were no other appearances, and the chair declared the hearing closed.

A public hearing was had on the proposed amendment of the classification of positions in the Exempt Class for the Police Department by changing the line "Assistant Property Clerk" to read "Two Assistant Property Clerks," and by including therein the title "Confidential Investigator." Guy H. Scull, Fifth Deputy Commissioner of the Police Department, appeared in favor of the proposed amendment. George T. Keyes, Secretary of the Civil Service Reform Association, appeared in opposition. There were no other appearances, and the Chair declared the hearing closed.

The Commission then went into regular session, and the minutes of the meetings held December 16 and 22 were approved.

In the matter of the request of the Commissioner of the Department of Public Charities for the inclusion of the position of Laboratory Assistant at \$720 per annum, with maintenance, in the Non-Competitive Class for his department, the Secretary was instructed to direct the attention of the Commissioner to the existing eligible lists of Laboratory Assistant (chemical, research, vaccine and diagnosis) and to state that it would be necessary to offer appointment to the persons whose names appeared thereon before the Commission would take any action on his request, also to certify said lists through the regular channel; and it was ordered that in future examinations for the position the examinations be ordered when students are about completing their courses, and that the advertisements be sent to medical schools.

On motion, the request of the Police Commissioner for the inclusion of the position of Confidential Investigator in the Exempt Class for his department was denied, and it was

Resolved, That the classification of positions in the exempt class, under the heading "Police Department" be and the same hereby is amended by changing the line "Assistant Property Clerk" to read "Two Assistant Property Clerks."

John T. Fetherston, Commissioner of Street Cleaning, appeared in connection with his request for authority to employ Clarence G. Galston as Patent Attorney under the provisions of clause 6 of Rule XII. On motion, it was

I., be and he hereby is excepted from examination to be employed as Attorney in the Department of Street Cleaning in matters relating to patents, from time to time for a period of one year; provided, however, that his total compensation shall not exceed \$250.

The Commission then took up the matter (considered at a previous meeting) of the proposed amendment of the Municipal Civil Service Classification by striking from the Exempt Class, under the heading "Tenement House Department," the line "Three Chief Inspectors."

On motion, it was
Resolved, That the Municipal Civil Service Classification be and the same hereby is amended by striking from the Exempt Class, under the heading "Tenement House Department," the following: "Three Chief Inspectors."

The following resolutions were adopted after a hearing of each of the candidates named therein:

John K. Fuchs, of 111 George Street, Evergreen, L. I., a candidate for the position of Patrolman, appeared, as directed. The Secretary was instructed to arrange an examination of the candidate by the Commission's physicians.

The action of the Secretary in summoning Jacob Lovitch, an Extra Driver in the Department of Street Cleaning, was approved. In this connection the Commission considered a report of the Record Clerk to the effect that while the signatures appear-

ing on the candidate's papers had been written by the same person, the Finger Print Clerk had reported that the finger prints on the declaration sheet were not the same as those appearing on the application. Mr. Lovitch appeared, as directed, and stated that the finger prints on the declaration sheet were not his, as he had not been required to give his finger prints at the time of appointment. NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not exceed or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid or estimate must be verified by the cash, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
