AQUEDUCT COMMISSION.

Minutes of Stated Meeting of the Aqueduct Commissioners, held at their office, No. 209 Stewart Building, on Wednesday, May 26, 1886, at 3 o'clock P. M.

Present—Commissioners Spencer, Dowd, Baldwin, Barnes, Ridgeway and Fish.

Also, Chief Engineer Church, and Chief Engineer Birdsall and Consulting Engineer Adams of the Department of Public Works.

The minutes of the stated meeting of May 19, were read and approved.

The Committee of Finance and Audit reported their examinations and audit of bills included in Vouchers Nos. 1734 to 1745.

On motion of Commissioner Dowd, said vouchers were approved by the Commissioners, and ordered certified to the Comptroller for payment.

The Committee on Construction made report, dated May 24, with recommendations, as follows: 1st. Upon a proposal of Heman Clark, contractor, to sink an incline shaft on Section B of the New Aqueduct, for use in lowering building materials for the aqueduct.

The Committee recommended that authority be given to sink and use said incline shaft on the dumping-grounds belonging to the City at or near Station 1267, on Section B, on condition that the whole of the work, including the refilling of said shaft in a satisfactory manner, be done by the contractor at his own expense, and without cost to the City, and that an agreement be made with him to that effect.

These recommendations were approved, and the making of such an agreement authorized by the unanimous vote of the Commissioners.

2d. Upon a request from the Division Engineer of Division No. 2 for authority to employ an able-bodied laborer for rough work upon his division, which request had the approval of the Chief Engineer and the Committee, the compensation of such laborer not to exceed \$2 per day.

The Committee recommended that the Chief Engineer be authorized to employ said laborer and to report the appointment to the Commissioners for approval, and it was so ordered.

3d. Upon a request of the Chief Engineer for authority to build a small auxiliary office for the use of the Engineers at the Pocantico cut and blow-off, to replace one lately destroyed by fire at that place, and to cost not over \$250.

This request was approved by the Committee and the required authority was given to the Chief Engineer by the Commissioners, and the sum of \$250 appropriated for that purpose.

4th. Upon a request of Smith & Brown, contractors upon Section 1 of the New Aqueduct, that an inspector be sent to Maine to inspect stone for the new gate-house at Croton Dam, the Committee recommended the adoption of the following resolution:

Resolved, That the aforesaid request be granted, upon condition that all the expenses of such inspector be borne by said contractors, the same to be accounted to this Commission by said inspector, and to be deducted from the monthly estimates of the work done by said contractors; such inspection, however, not to be conclusive, or to preclude a subsequent and final inspection of the stone before it is laid upon the work; and upon such terms the Chief Engineer shall send an inspector from the Engineer Corps.

On motion of Commissioner Barnes, the resolution was adopted unanimously.

The Comptroller, under date May 22, gave notice of the issue of a warrant for a voucher not certified by the Aqueduct Commissioners, and appertaining to the work of the Commissioners of Appraisal for New York County, amounting to \$200; which notice was ordered placed upon file, and entered upon the books of this Commission.

Notices, dated May 21, 1886, were received from Heman Clark, and O'Brien & Clark, that they should hold the Aqueduct Commissioners responsible for the delay in payment of the monthly estimates for work done in April last; and also a similar notice, dated May 22, from Brown, Howard & Co.; all of which were ordered placed upon file.

Mr. Joseph P. Disbrow gave notice, dated May 26, 1886, of his revocation of any license heretofore given by him for the occupation by the Commissioners of Parcel No. 72, of his lands, and demanding that said premises be vacated immediately. This matter being now in litigation, the above notice was referred to the Counsel to the Corporation.

A communication was received from Mr. William Russell, concerning certain bills of his, of which payment has been withheld, and was referred to the Committee of Finance and Audit for consideration.

Commissioner Dowd offered, and Commissioner Barnes seconded, the following resolution, and it was adopted unanimously, viz.:

Whereas, There have been some unfavorable public criticisms and statements made with regard to cements now being used in constructing the New Aqueduct; therefore be it

Resolved, That the Chief Engineer is hereby directed to report to this Board all of the brands of cement offered and examined for use upon the work, which of the same have been accepted, and which rejected, and the reasons therefor, and especially whether any cement so rejected at any time has subsequently been accepted and used, and the reasons therefor.

Commissioner Barnes offered, and Commissioner Baldwin seconded, the following resolution, which was also unanimously adopted, viz.:

Resolved, That the President is hereby requested to report to the Aqueduct Commissioners at an early day, a review of the work of the Commission to the first day of June, 1886, that shall include the plans and work of construction to that date, and the progress therein, and the plans and projects relating to said aqueduct and the dams and reservoirs now under consideration before the Commission that have not been adopted and approved; and the Secretary and the Chief Engineer are hereby directed to report to the President such information as he shall require for the said review, from their respective offices.

Commissioner Ridgeway then offered this resolution, which was also seconded and unanimously adopted, viz.:

Resolved, That the Secretary be instructed to furnish each of the Commissioners with an abstract of the cost and amount of work done, from its beginning up to the present time, the number of persons now employed under direction of the Commission, the capacity in which each is serving, and the respective salaries paid therefor.

Commissioner Fish offered the following resolution, which was seconded, and unanimously adopted, viz.:

Resolved, That the Secretary be instructed to report to the Aqueduct Commissioners within ten days,

First. The names of all employees who, while disabled from sickness or other cause, or while absent from duty, have drawn salaries.

Second. The time for which such salaries were paid to each of such employees during such disability or absence.

Third. The amount of salaries paid to each of such employees.

The Commissioners then adjourned.

That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

No estimate will be considered unless accompanied by either a certified check upon one of the national banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall neglect or refuse, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

Blank forms of bid or estimate, the proper envelopes in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at the office of the Water Purveyor, Room 1, No. 31 Chambers street.
