BOARD OF ESTIMATE AND APPORTIONMENT.

EXTRACT FROM

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, MARCH 5, 1909.

R. H. Macy & Co.

The Secretary presented the following:

To the Board of Estimate and Apportionment of The City of New York:

The petition of Isidor Straus and Nathan Straus, composing the firm of R. H. Macy & Co., respectfully shows:

First—That on or about the 29th day of May, 1906, your petitioners filed with your Honorable Board an application for a permit to construct, maintain and operate two single track railroad spurs for the purpose of transferring express cars from their premises—

(a) On the north side of Thirty-fourth street, between Broadway and Seventh avenue, to the surface railroad tracks on Thirty-fourth street, in front of said premises, in the Borough of Manhattan.

(b) On the east side of Webster avenue, south of MacLean avenue, to the surface railroad tracks in front of said premises, in the Borough of The Bronx.

Second—That application was granted by your Board at a meeting held on the 6th day of July, 1906, and was, on the 13th day of July, approved by the Hon. P. F. McGowan, Acting Mayor.

Third—That under and pursuant to said permit, your petitioners were required to deposit the sum of $2,500, either in moneys or securities, to insure the performance of the terms and conditions of said permit, and on the 11th day of August, 1906, your petitioners duly deposited Corporate Stock of The City of New York, principal due November 1, 1936, for that purpose.

Fourth—That thereafter your petitioners undertook to construct the necessary structure for the purpose of said spur tracks at considerable expense.

The spur track authorized on Thirty-fourth street, though constructed, was never used, for the reasons hereinafter stated. The spur track constructed at Webster avenue was used from the 22d day of November, 1906, to the 14th day of March, 1908.

Fifth—After the construction of said tracks had been completed and before they could be operated for the purpose of transmission of express cars from the building at Thirty-fourth street to the distributing station at Webster avenue, Edwin F. Hatfield and others brought an action against your petitioners, and The City of New York, and the President of the Borough of Manhattan, and the Commissioners of Water Supply, to restrain the maintenance and operation by R. H. Macy & Co. of cars over said tracks.

Sixth—That on the application for a preliminary injunction an order was entered denying the same, but such order was reversed by the Appellate Division of the First Department and the injunction was directed to be issued, and was, in fact, issued, restraining the construction of said spur track and the maintenance thereof on the ground that the permit granted by your Honorable Board was invalid.

On appeal to the Court of Appeals, the latter Court, on the 1st day of October, 1907, decided that the Board of Estimate and Apportionment had no power to grant to the petitioners the permit heretofore referred to.

Seventh—That thereafter, pursuant to said injunction, these petitioners at great expense caused the structure, both under the surface and on the street surface, to be removed. The removal of the spur track on Thirty-fourth street was begun on or about the 15th day of June, 1908, and was completed on the 3d day of July, 1908. The removal of the Webster avenue spur was begun on the 8th day of September, 1908, and was completed on the 12th day of September, 1908.

Eighth—Pursuant to the terms of the permit granted by your Honorable Board, your petitioners paid, in addition to the deposit heretofore referred to, the following sums for the privilege of the maintenance of said track:

On September 10, 1906	$327 50
On September 10, 1906	30 00
On December 18, 1906	1,070 00
On December 18, 1906	100 00
On February 15, 1907, for extension of time for the construction	25 00
On October 30, 1907, for the privilege of maintenance	100 00

In addition thereto your petitioners paid, on May 18, for inspection for the Department of Water Works, $148, and on the same day, for the inspection for the Department of Highways, $176, and on June 29 they paid for similar services for the

inspection for the Department of Water Works, $32, and on July 6, for inspection of Highways, $20.

Ninth—Your petitioners stated that their application for the permit to maintain and operate said spurs was made in good faith and that the permit granted was, as they believed, a proper and legal exercise of the powers conferred upon this Board.

Tenth—That by the decision of the Court of Appeals it appears that the permit could not be granted by this Board, and as the purposes for which the same was applied for and granted, to wit, the speedy transportation of goods from the Thirty-fourth street building to the distributing station on Webster avenue, has never been put into operation, your petitioners respectfully pray that such sums as they deposited with the City and such other sums as were paid by them under and pursuant to the provisions of said permit, as hereinbefore recited, should be refunded to them.

Your petitioners pray this Honorable Board for a favorable consideration of this application.

Dated January 7, 1909.

R. H. MACY & CO., Petitioners.
By EDMOND E. WISE, Attorney, No. 19 William Street.

REPORT No. F-152.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 1, 1909.

Hon. GEORGE B. MCCLELLAN, *Mayor, Chairman of the Board of Estimate and Apportionment:*

SIR—Under date of January 7, 1909, Messrs. R. H. Macy & Co. petitioned the Board of Estimate and Apportionment for a refund of the moneys and security deposit paid the City in accordance with the resolution of the Board adopted on July 6, 1906, granting permission to the said company to construct and operate two single track railroad spurs on the north side of Thirty-fourth street, between Broadway and Seventh avenue, in the Borough of Manhattan, and on the easterly side of Webster avenue, south of McLean avenue, in the Borough of The Bronx. This petition was presented to the Board at the meeting of January 8, 1909, and referred to the Chief Engineer for investigation and report.

From the report of the Division of Franchises, herewith attached, it appears that the track on West Thirty-fourth street, although constructed, has never been used, certain property owners having secured an injunction restraining the company from such use, and the Court of Appeals having decided on October 1, 1907, that the permit granted by the Board of Estimate was invalid, upholding the decision of the Appellate Division. The track on West Thirty-fourth street was removed on July 3, 1908, and the Webster avenue track, which was used for some time, was removed on September 12, 1908, and the Presidents of the Boroughs of Manhattan and The Bronx and the Deputy Commissioner of Water Supply have stated that the work of removal has been done in a satisfactory manner and the sidewalks and pavements have been replaced.

In view of the above circumstances, I would recommend that the consent granted by the Board on July 6, 1906, be revoked, and that the Comptroller be authorized to return the security fund deposit of $2,500, and also the entire amount paid by the company as compensation for the track in West Thirty-fourth street, amounting to $1,397.50, this track never having been used. Previous to the refund of these moneys, I would recommend that the company execute and file with the Board of Estimate and Apportionment an instrument releasing The City of New York from all claims and surrendering any right it may have under the consent granted by the Board.

Resolutions to this effect are herewith transmitted.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
March 1, 1909.

MR. NELSON P. LEWIS, *Chief Engineer:*

SIR—By resolution adopted by the Board of Estimate and Apportionment July 6, 1906, approved by the Acting Mayor July 13, 1906, the firm of R. H. Macy & Co. was granted permission to construct, maintain and operate two single track railroad spurs for the purpose of transferring express cars from their premises:

(a) On the north side of Thirty-fourth street, between Broadway and Seventh avenue, to the surface railroad tracks on Thirty-fourth street, in front of said premises, in the Borough of Manhattan.

(b) On the east side of Webster avenue, south of McLean avenue, to the surface railroad tracks in front of said premises, in the Borough of The Bronx,

—subject to certain terms and conditions. The resolution further provided that the grantee should commence the construction of said spur tracks and complete same within six months from the date of the approval of the consent by the Mayor, or January 13, 1907. This it was unable to do in the case of the track on West Thirty-fourth street, between Broadway and Seventh avenue, Borough of Manhattan, as certain abutting property owners protested against the construction of said spur track and secured a temporary injunction, which was later dissolved. The Board then, by resolution adopted January 18, 1907, and approved by the Mayor January 22, 1907, granted the company an extension of time up to and including April 13, 1907, in which to complete the construction of said track. The order dissolving the injunction was subsequently reversed by the Appellate Division of the First Department, and an injunction was directed to be issued, and was issued, restraining the construction of said spur track, and the maintenance thereof, on the ground that the permit granted by the Board was invalid. This decision was upheld by the Court of Appeals on October 1, 1907, in the proceeding entitled "Hatfield vs. Straus."

The grantee deposited with the Comptroller Corporate Stock to the amount of twenty-five hundred dollars ($2,500) as security for the faithful performance of the terms and conditions of the consent, as required by the provisions thereof. It has also made payments as follows:

For the Spur Track in Thirty-fourth Street.

September 10, 1906, $327.50, being amount due from approval of consent to October 31, 1906.

December 19, 1906, $1,070, being amount due from November 1, 1906, to November 1, 1907.

For Webster Avenue Track.

September 10, 1906, $30, being amount due from approval of consent to October 31, 1906.

December 19, 1906, $100, being amount due from November 1, 1906, to November 1, 1907.

October 30, 1907, $100, being amount due from November 1, 1907, to November 1, 1908.

The company also paid, on February 15, 1907, twenty-five dollars ($25) for investigation and printing necessary in granting the application for the extension of time.

Under date of January 7, 1909, the company, through its attorney, petitioned the Board for a refund of the aforesaid moneys and security deposit, and also of the sums paid for inspection to the Borough Presidents and the Department of Water Supply, Gas and Electricity.

This petition was presented to the Board at its meeting of January 8, 1909, and was referred to the Chief Engineer.

The petition recites that the two spur tracks were to be used for the speedy transportation of goods from the Thirty-fourth street building to the distributing station on Webster avenue. The track on Thirty-fourth street, although constructed, has never been in operation, and, the petition recites, was removed July 3, 1908. It also states that the track on Webster avenue was removed September 12, 1908, the Webster avenue track having been in use by the petitioner for some time.

The Deputy Commissioner of the Department of Water Supply, Gas and Electricity, in communications dated January 19, 1909, and February 18, 1909, states that the tracks and all appurtenances on Webster avenue have been removed.

The Acting President of the Borough of The Bronx, in a communication dated February 19, 1909, transmits certificate, signed by two Assistant Engineers, and approved by the Chief Engineer of the Borough, stating the track in Webster avenue has been removed, new sidewalk has been laid, the curb put in satisfactory condition and the macadam pavement satisfactorily restored.

The President of the Borough of Manhattan, through his Secretary, in a communication dated January 18, 1909, states the track in Thirty-fourth street has been removed and the pavement satisfactorily restored, and transmits copy of communication from the Chief Engineer of the Bureau of Highways to this effect.

Under the circumstances, I would recommend that the consent be revoked, and the Comptroller be authorized and requested to return the security fund of twenty-five hundred dollars ($2,500), deposited as aforesaid, and also the entire amount paid as compensation for the track in Thirty-fourth street, to wit: One thousand three hundred and ninety-seven dollars and fifty cents ($1,397.50).

Previous to the return of the moneys herein mentioned, and the security fund, the petitioner should be required to execute an instrument in writing, releasing The City of New York from any and all claims held, or alleged to be held, against the City under the terms and conditions of said consent, and surrendering and waiving any right in the streets of the City under and by virtue of said consent, and file such instrument with the Board of Estimate and Apportionment.

A resolution to this effect is transmitted herewith.

Respectfully,
HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, By resolution adopted by the Board of Estimate and Apportionment July 6, 1906, approved by the Acting Mayor July 13, 1906, the consent of the Corporation of The City of New York was granted to the firm of R. H. Macy & Company, to construct, maintain and use two spur surface railroad tracks, located as follows:

First—A spur track, to be operated by the underground electric system, from the northerly surface railroad track in West Thirty-fourth street, between Broadway and Seventh avenue, Borough of Manhattan, to their store on the northerly side of West Thirty-fourth street.

Second—A spur track, to be operated by the overhead electric system, from the easterly surface railroad track in Webster avenue, between Two Hundred and Thirty-sixth street and McLean avenue, in the Borough of The Bronx, to their building on the easterly side of Webster avenue, north of the northerly line of Two Hundred and Thirty-sixth street; and

Whereas, The period allowed for the construction of said railroad spur track in West Thirty-fourth street expired on January 13, 1907; and

Whereas, The construction of said railroad spur track was delayed by a temporary injunction, which was subsequently dissolved; and

Whereas, This Board did, by resolution adopted January 18, 1907, and approved by the Mayor January 22, 1907, grant the firm of R. H. Macy & Company an extension of time up to and including April 13, 1907, in which to complete the construction of said spur track; and

Whereas, Said resolution granting said consent fixed the compensation for the privilege of maintaining the track in West Thirty-fourth street at one thousand and seventy dollars ($1,070) per annum during the first five years, and also fixed the compensation for the privilege of maintaining the track in Webster avenue at one hundred dollars ($100) per annum during the first five years, and also provided that the grantee should deposit a security fund of two thousand five hundred dollars ($2,500) with the Comptroller for the faithful performance of the terms and conditions of the consent; and

Whereas, The said R. H. Macy & Company did deposit a security fund of two thousand five hundred dollars ($2,500) with the Comptroller of The City of New York, as provided in said consent, and did lay down the spur tracks in compliance with the terms and conditions of said consent, and has paid the annual compensation for the track in Thirty-fourth street up to November 1, 1907, and for the track in Webster avenue up to November 1, 1908; and

Whereas, The said firm of R. H. Macy & Company did, at the meeting of January 8, 1909, present a petition, stating certain abutting property owners had objected to the construction of the track in West Thirty-fourth street, and the Court of Appeals had affirmed the decision of the Appellate Division, First Department, in issuing a permanent injunction against the operation of such track, in the case of Hatfield vs. Straus, and said firm therefore requested that the security fund and payments made under and by virtue of said consent be refunded to said company; and

Whereas, The Presidents of the Boroughs of Manhattan and The Bronx and the Deputy Commissioner of the Department of Water Supply, Gas and Electricity have certified to this Board that the both spur tracks have been removed to their satisfaction, and that the streets have been satisfactorily restored; now, therefore, be it

Resolved, That the aforesaid consent be and the same is hereby rescinded; and be it further

Resolved, That the Comptroller of The City of New York be, and he is hereby authorized and requested to refund the security fund of two thousand five hundred dollars ($2,500) deposited in his office by the said R. H. Macy & Company for the faithful performance of the terms and conditions of the consent, and also the sum of one thousand three hundred and ninety-seven dollars and fifty cents ($1,397.50), payment made as compensation for the track in West Thirty-fourth street, Borough of Manhattan; and be it further

Resolved, That this resolution shall not become effective unless and until the said R. H. Macy & Company shall execute an instrument in writing releasing The City of New York from any and all claims of any kind, character or description whatsoever, held or claimed to be held under the terms and conditions of the aforesaid consent, and agreeing to quitclaim, waive and surrender any and all rights and privileges in and upon West Thirty-fourth street, Borough of Manhattan, and Webster avenue, Borough of The Bronx, held or alleged to be held under and by virtue of said consent, in the manner prescribed by, and to the satisfaction of the Board of Estimate and Apportionment of The City of New York, and file the same in said office.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and Queens, and the Acting President of the Borough of Richmond—15.

Amendment of Section 242 of the Charter.

At the meeting of January 22, 1909, a communication was received from the Chief Engineer, transmitting report from the Division of Franchises, recommending that the Corporation Counsel be requested to introduce a bill in the Legislature at its present session, having for its purpose the amendment of section 242 of the Charter so as to empower this Board to grant revocable permits for the laying of spur tracks in the streets of the City, and the matter was referred to the Corporation Counsel and the Chief Engineer.

The Secretary presented the following:

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, February 26, 1909.

To the Board of Estimate and Apportionment:

GENTLEMEN—I have received the following communication dated January 22, 1909, signed by Joseph Haag, Secretary:

"At the meeting of the Board of Estimate and Apportionment held this day, the Chief Engineer presented a report from the Engineer in charge of the Division of Franchises, together with a proposed resolution, recommending that the Corporation

Counsel be requested to secure the introduction of a proposed bill amending section 242 of the Greater New York Charter, so as to empower the Board of Estimate and Apportionment to grant revocable permits for the laying of spur tracks in the streets of the Boroughs, and the matter was referred to the Chief Engineer and the Corporation Counsel.

"For your information, I inclose herewith copy of the report herein referred to."

As stated in the report of the Engineer in Charge of the Division of Franchises, copy of which was sent me with the above communication, this Department, at the request of your Board, introduced a bill at the last session of the Legislature entitled "An Act to amend section two hundred and forty-two of the Greater New York charter, with respect to the powers of the board of estimate and apportionment." Although every effort was made the time was too brief to insure passage of such a bill.

It is now proposed to have such bill introduced anew in the same form, except that the Division of Franchises suggests the insertion of the words "owner or lessee of real property and to any."

I know of no objection to the insertion of the said words. If the said section be amended, as proposed, the result will be to increase the powers of the Board, and in particular permit the operation of spur tracks at grade for private purposes in the streets of the City. If directed by you, I will at once take steps to introduce a bill amending section 242 by adding thereto the following new matter:

"The board of estimate and apportionment shall have also (4) power to grant its consent to any owner or lessee of real property and to any individual, joint stock association or corporation engaged in any lawful business, to construct and use for its or their private use, any pipes, conduits and tunnels under, railroad tracks upon, and connecting bridges over any of the streets, avenues, highways, boulevards, concourses, driveways, bridges, tunnels, parks, parkways, waterways, docks, bulkheads, wharves, piers or public grounds or waters within or belonging to the city. Such consent shall continue only during the pleasure of the board of estimate and apportionment, and shall be revocable at any time, but no such consent shall be granted for a longer period than ten years, at the expiration of which period such consent shall cease and determine, unless upon a new application being made prior to such expiration, a further extension of such revocable consent shall have been made for a period of not exceeding ten years and upon such terms and conditions as the board of estimate and apportionment may then impose.

"The form of such consent shall be by resolution of the board of estimate and apportionment, and shall not be operative until the same be in writing approved by the mayor separately from and after action of the board of estimate and apportionment. Such consents may contain such terms and conditions as the board of estimate and apportionment may prescribe and shall provide for adequate compensation to be paid annually to the city during the continuance of the consent. Provided no revocable consent granted under subdivision four of this section shall authorize any individual, joint stock association or corporation to carry on a business of a public service character."

Respectfully yours,
F. K. PENDLETON, Corporation Counsel.

The following was offered:

Whereas, The Board of Estimate and Apportionment did, on April 10, 1908, forward to the Corporation Counsel a draft of a proposed bill to be introduced in the Legislature, and requested that the City's representative at Albany secure its passage; and

Whereas, The said bill was so introduced, but too late in the session to secure consideration; now, therefore, be it

Resolved, That the Corporation Counsel is requested to secure the reintroduction of the bill at the present session of the Legislature, and, before such reintroduction, to secure its amendment by the addition of the words "any owner or lessee of real property and to" before the words "any individual, joint stock association or corporation engaged in any lawful business," as outlined in the report presented to this Board by the Chief Engineer at the meeting of January 22, 1909.

Union Railway Company of New York City.

By resolutions adopted by this Board December 18, 1908, and approved by the Mayor December 21, 1908, the Union Railway Company of New York City was granted franchises to construct, maintain and operate two double track extensions to its existing street surface railway in the Borough of The Bronx, as follows:

(a) Beginning and connecting with the existing double track road of the company in Third avenue, at the intersection of said avenue with Pelham avenue, and running thence easterly upon and along said Pelham avenue to the Southern boulevard.

(b) From the existing tracks of the company at the intersection of Sedgwick avenue and Fordham road, Borough of The Bronx, upon and along Fordham road, Hampden place, and West One Hundred and Eighty-fourth street, to the approach to the University Heights Bridge, upon, along and over said University Heights Bridge and its approaches, to West Two Hundred and Seventh street, Borough of Manhattan, to Amsterdam (or Tenth) avenue, to Emerson street, to Broadway, there connecting with the existing railway.

The Secretary presented the following:

REPORT No. F-124.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 2, 1909.

Hon. GEORGE B. MCCLELLAN, *Mayor, Chairman of the Board of Estimate and Apportionment:*

SIR—The Receiver of the Union Railway Company has received permission from the Court to apply to The City of New York for the right to construct, maintain and operate certain extensions to its street surface railway, and the consent of such Court was granted upon the condition that before any grant should be executed by the Company it should be submitted to the Central Trust Company and the Bondholders Committee of the Third Avenue Railroad Company, the latter Company holding a controlling interest in the stock of the Union Railway Company.

At the meeting of the Board of Estimate and Apportionment, held on December 18 last, proposed forms of contract were agreed upon granting permission to the Union Railway Company to build extensions on Pelham avenue and across the University Heights Bridge. About this time counsel for the Bondholders' Committee took exception to the compensation clause in each of these contracts on the ground that the compensation might be considered as being in addition to that imposed by chapter 340 of the Laws of 1892 and the Charter of the Union Railway Company. The contract for the Pelham Avenue Extension has been signed, but that for the University Heights Bridge has not yet been executed. The Company has submitted a proposed form of supplementary agreement to be authorized by the Board and executed by the Company and the Mayor, in which it is made clear that the provisions of the contract do not require the payment by the Company of a percentage of gross receipts under the stipulations of chapter 340 of the Laws of 1892 for the extensions, in addition to that reserved by the terms of the contract. The proposed agreement appears to be in satisfactory form, and I would recommend its adoption by the Board in accordance with the attached resolution.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
March 1, 1909.

Mr. NELSON P. LEWIS, *Chief Engineer:*

SIR—Mr. F. W. Whitridge, as Receiver of the Union Railway Company of New York City, received permission from the Court to apply to The City of New York for the right to construct, maintain and operate certain extensions to its street surface railway, and the consent of such Court was granted upon the condition that before any grant should be executed by the company it should be submitted to the Central Trust Company and the Bondholders' Committee of the Third Avenue Railroad Company, which latter company owns a controlling interest in the stock of the Union Railway Company.

As you will remember, proposed forms of contract were drawn up and agreed upon and passed by the Board at the meeting of December 18 granting the Union Railway Company the right to construct two extensions, the first on Pelham avenue, and the second crossing the University Heights Bridge. About this time, Mr. John M. Bowers, as counsel for the Bondholders' Committee, called at this office and took exception to the wording of the compensation clause contained in each of the contracts, in that he claimed, unless a clause was inserted to the contrary, this compensation might be in addition to that which was imposed by chapter 340 of the Laws of 1892 and the charter of the Union Railway Company. I assured Mr. Bowers that it was not the intention of this office to impose any double compensation, or anything more than was clearly and explicitly stated in the grant, but that, if he deemed it necessary that a supplemental paper should be executed to clearly show the intent and meaning of the contract, which had been duly advertised and authorized, I would be glad to cooperate with him.

The contract for the Pelham avenue extension has been signed; that for the University Heights Bridge has not as yet been executed.

The company has submitted a proposed form of supplementary agreement, to be authorized by the Board and executed by the company and the Mayor, in which it is recited that the provisions of the contract do not and shall not require the payment by the company of a percentage of gross receipts under the provisions of chapter 340 of the Laws of 1892 for the extensions, in addition to that reserved by the terms of the contract. I have carefully examined the agreement, and it seems to cover the point raised by Mr. Bowers, and, so far as this office is concerned, is perfectly acceptable. I would therefore recommend its adoption by the Board, and a resolution authorizing the Mayor to execute the same.

Respectfully,
HARRY P. NICHOLS, Engineer in Charge.

Proposed Resolution.

Whereas, This Board did, on December 18, 1908, adopt resolutions granting franchises to the Union Railway Company of New York City, to construct, maintain and operate two double track extensions to its existing street surface railway, as follows:

First—From the intersection of the existing tracks at Sedgwick avenue and Fordham road, Borough of The Bronx, upon and along Fordham road, Hampden place, West One Hundred and Eighty-fourth street and the University Heights Bridge, to the Borough of Manhattan, to West Two Hundred and Seventh street, to Amsterdam (or Tenth) avenue, to Emerson street, and connecting with the existing tracks on Broadway;

Second—Beginning at and connecting with the existing double track road of the Company in Third avenue, at the intersection of said avenue with Pelham avenue, and running thence easterly in, upon and along said Pelham avenue to the Southern boulevard, Borough of The Bronx,

—which resolutions were approved by the Mayor, December 21, 1908; and

Whereas, Said resolutions provided that, before such grants should become effective, the Company and the City should execute contracts as set forth in said resolutions; and

Whereas, Section 2, third, of both contracts provides for the payment by the Company to the City of certain compensation for such grants; and

Whereas, Chapter 340 of the Laws of 1892 obligates the Union Railway Company to pay to The City of New York certain percentages of gross receipts from passengers; and

Whereas, It was not the intention of this Board to require the payment of any additional sums as compensation for such grants except such sums as specifically set forth in said contracts; now therefore be it

Resolved, That the Mayor of The City of New York be and he is hereby authorized to execute and deliver an agreement in the name and on behalf of the City, as follows, to wit:

This agreement made this day of , 1909, between The City of New York, party of the first part, by the Mayor of said City, acting for and in the name of the said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City, and the Union Railway Company of New York City, party of the second part.

Whereas, The Board of Estimate and Apportionment of The City of New York had by two certain resolutions adopted by the Board of Estimate and Apportionment December 18, 1908, and approved by the Mayor December 21, 1908, authorized the construction, maintenance and operation of two extensions or branches of the road of the Union Railway Company of New York City, the first upon and along Pelham avenue from Third avenue to Southern boulevard, in the Borough of The Bronx, for a length of twenty-nine hundred (2,900) feet, and the second from the extension of Sedgwick avenue and Fordham road along West One Hundred and Eighty-fourth street, University Heights Bridge, Two Hundred and Seventh street and Emerson street for a length of four thousand six hundred and fifty feet, and approved forms of contract for execution by the parties for such rights or franchises; and

Whereas, The Union Railway Company is obligated to pay to The City of New York percentages on gross receipts from passengers at varying rates under the provisions of chapter 340 of the Laws of 1892, received on lines, constructed and operated prior to December 22, 1908, and proposes to accept the contracts authorized by said resolutions adopted by the Board of Estimate and Apportionment on December 18, 1908, and approved by the Mayor December 21, 1908, provided the obligation to pay percentages proposed by said act, chapter 340 of the Laws of 1892, is not and shall not be claimed by the City as applicable thereto.

Now, in consideration of one dollar to each party paid by the other and of the covenants contained in said contracts, it is agreed:

That the resolutions and contracts requiring the payment of annual charges by the Union Railway Company, its successors and assigns, to The City of New York, for the right or franchise granted by each of said resolutions and the contracts executed in pursuance thereof do not and shall not require, nor shall The City of New York demand or require the payment by the said Company, its successors or assigns of a percentage of gross receipts under the provisions of chapter 340 of Laws of 1892 on the gross receipts earned on each of such extensions.

This instrument is undertaken and executed by the parties hereto solely for the purpose of making clear their mutual understanding as to the terms and conditions regarding payment of the annual charges contained in the aforesaid contracts authorized by said resolutions adopted by the Board of Estimate and Apportionment on December 18, 1908, and approved by the Mayor December 21, 1908, and is not intended to modify or change said contracts in any particular.

Consideration of the matter was postponed for two weeks.

SIR—The Coney Island and Brooklyn Railroad Company by a petition verified March 2, 1909, applies to the Board for the right to operate a street surface railway over the Manhattan Bridge and its approaches, connection to be made upon the Brooklyn end with a line for which it has simultaneously applied for in the Flatbush avenue extension.

‡ The technical definition of adulteration is found in section 53 of the Sanitary Code, the chief items being "containing less than 12 per centum of milk solids" and "containing less than 3 per centum of fats." In enforcement a distinction is made between samples whose milk solids are found between 12 per cent. and 11.4 per cent. The former are made occasions for warning only, the latter for prosecution. § See Table 11.

COMMISSIONERS OF THE SINKING FUND.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, in accordance with the provisions of chapter 372 of the Laws of 1907, will hold a public hearing in Room 16, City Hall, Borough of Manhattan, at 11 o'clock a. m. on Tuesday, March 16, 1909, relative to a communication of the Commissioner of Docks, transmitting for the approval of the Commissioners of the Sinking Fund an amendment of the proposed plan of pier layout in South Brooklyn, between Twenty-eighth and Thirty-sixth streets.

There is but a single change to be considered, namely, the widening of the most northerly pier from 60 to 80 feet. The Dock Commissioner states that the width of 60 feet was sufficient under the old layout, which called for a pier about 380 feet shorter than is called for in the present plan. The present plan calls for a longer pier, which makes the change in width necessary.

The Chief Engineer of the Department of Finance, in his report to the Comptroller states that in his opinion the proposed amended plan may properly receive the approval of the Commissioners of the Sinking Fund.

GEO. B. McCLELLAN, Chairman, Commissioners of the Sinking Fund.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
