Approving the plan of the American Association for the Planting and Preservation of City Trees to beautify and improve various public schools throughout the City by planting trees around the same where proper and desirable, the work to be done under the direction of the Department of Parks, and urging upon the Board of Estimate and Apportionment that an appropriation for the purpose be granted, as such planting of trees will make the surroundings of the public schools more attractive, benefit the health and increase the comfort of the pupils and stimulate public sentiment in tree planting.

A resolution instructing the Board of Superintendents to nominate, during the year 1912, the full number of teachers for service in the elementary schools, for whom salaries are provided for that year in the tentative apportionment of the General School Fund adopted by the Board of Education, on the recommendation of the Committee on Finance, on April 10, 1912, or that may be provided in the final apportionment whenever adopted, was referred to the Committee on Finance.

The following reports and resolutions were also adopted:

To the Board of Education:

The Committee on Special Schools respectfully reports that it has had under consideration the following preamble and resolution submitted by the Board of Aldermen:

"Whereas, The young men of the community have greatly benefited by the work of the principal and teachers in Evening Recreation Centre 84, at Glenmore ave. and Watkins st., in the Borough of Brooklyn; and

"Whereas, The influence upon the young men who frequent the centre is largely undone by the closing of the recreation centre during the months of June, July, August and September; and

"Whereas, This cessation of the centre's activities throws the patrons of the centre into the streets and even other less desirable places; and

"Whereas, The social spirit of the centre has been elevated to a very high plane by the numerous social features that have evolved through the club work in the centre; be it

"Resolved, That we hereby petition the members of the Board of Education to open the club rooms of Evening Recreation Centre 84, Brooklyn, and assign a club teacher at least one evening a week during the months of June, July, August and September for the use of the clubs who hereunto subscribe their willingness to attend regularly during that period."

The departmental estimate of the Board of Education for 1912 asked for \$369,091.50 for vacation schools, playgrounds, evening recreation centres, baths, etc., including an item of \$1,690 for summer evening recreation centres, the intention being, if funds for the purpose were allowed, to open ten buildings for two nights a week during June, July and August. In making up the Budget for 1912, the Board of Estimate and Apportionment and the Board of Aldermen allowed \$250,000 for vacation schools, playgrounds, recreation centres and baths, thus making it impossible for the Board of Education to carry out its plans for the conduct of the activities mentioned.

In connection with the preamble and resolution quoted above special attention is called to the action of the Board of Aldermen on April 2, 1912, when a report of its Committee on Finance, rejecting a re-

quest from the Department of Education for an issue of \$25,000 special revenue bonds, for supplies for playgrounds and evening recreation centres, was accepted.

If additional funds are provided from any source, your Committee will be glad to do everything in its power to carry out the request of the Board of Aldermen.

The following resolution was offered for adoption:

Resolved, That a copy of the foregoing report be transmitted to the Board of Aldermen.

To the Board of Education:

The Committee on Elementary Schools respectfully reports that it has had under consideration the following preamble and resolutions adopted by the Board of Aldermen on March 19, 1912, which were referred to it by the Board of Education at the meeting held on March 27, 1912 (see Journal, pages 471-72):

"Whereas, There are many thousands of children now attending the public schools who are receiving part-time education; and

"Whereas, It is the primary duty of our City to secure equal educational opportunities for every child; therefore be it

"Resolved, That the Department of Education be, and it is hereby, requested to outline a plan that will provide a full time school seat for every school child; and be it further

"Resolved, That the Department of Education shall submit, without delay, to the Board of Aldermen and the Board of Estimate and Apportionment."

Your Committee would report that the Board of Education is in hearty sympathy with the idea in the minds of the Board of Aldermen, and would be highly gratified to bring about the elimination of part time from our public schools. To accomplish this desirable end many additional school buildings are necessary. It is the function of the Board of Aldermen in conjunction with the Board of Estimate and Apportionment to provide the necessary funds. The requirements of the Department of Education for the issue of corporate stock for the year beginning July 1, 1912, are set forth in reports which have been presented at this meeting by the Committee on Buildings and the Committee on Sites. This matter will be submitted in regular course to the Board of Estimate and Apportionment, and will then reach the Board of Aldermen. It is hoped that the Board of Aldermen will use its good offices to secure favorable action by the Board of Estimate and Apportionment, and will act as promptly as possible upon the recommendations which receive the approval of that Board.

That the utilization of the funds which it is hoped will be authorized will "provide a full time school seat for every school child," as requested of the Department of Education by the Board of Aldermen, cannot be confidently counted upon, but it will unquestionably do away with part time to a very considerable extent. The increase of our school population is so rapid that it is impossible to solve the part-time problem completely without the expenditure of enormous sums of money. The Board of Education is doing its best within reasonable bounds to meet the situation. It desires and hopes for the best co-operation of the Board of Estimate and Apportionment and the Board of Aldermen.

In this connection special attention is called to the fact that the erection of a large number of new schools imposes a vast amount of work upon the Bureau of School Buildings, which is greatly in need of additional assistance, and to the further fact that the Board of Aldermen at its meeting held on April 16, 1912, failed to approve a resolution adopted by the Board of Estimate and Apportionment providing for twenty-five additional architectural and mechanical draftsmen and other necessary employees in said Bureau, there being eleven affirmative and thirty-three negative votes upon the proposition.

The Board of Education cannot be held responsible for the failure to relieve part time if the additional assistance necessary to prepare plans, etc., for new school buildings is not promptly provided. In view of the foregoing facts, it is respectfully requested that the Board of Aldermen reconsider its action upon the resolution providing for additional draftsmen, et al.

Resolved, That the foregoing report be approved, and that a copy of the same be transmitted to the Board of Aldermen.

During the call of the calendar, Mr. Churchill moved that the membership of the Special Committee of Eight appointed to inquire into the methods of the Board of Examiners, etc., be increased to nine, and that Mr. Man be appointed a member of said Special Committee. Adopted.

The attention of the Chair was called to the fact that a quorum was not present, and the Board adjourned at 6.23 o'clock p. m.

(Action taken at this meeting in reference to Civil Service appointments, promotions, etc., has already been printed in the City Record.)

A. EMERSON PALMER, Secretary.

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

**TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.**

**THE BUILDINGS AND APPURTENANCES** thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a

certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
