TENEMENT HOUSE DEPARTMENT.

REPORT FOR THE QUARTER ENDING DECEMBER 31, 1907.

Tenement House Department,
No. 44 East Twenty-third Street,
New York, February 19, 1908.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—I have the honor to submit the following brief summary statement of the work of the Tenement House Department for the fourth quarter of 1907, the period from October 1 to December 31, 1907, inclusive.

During the quarter violations were filed, dismissed and cancelled as follows:

Pending December 31, 1907	38,198	6,118	17,483	1,974	476	64,249

Comparison with the preceding quarter shows a large increase in the number of violations filed, amounting to nearly five thousand, or over one-third the total filed for the third quarter. The number of cases disposed of was also greater, but not in the same proportion, so that an increase in volume of outstanding violations is to be noted.

The nature of the violations issued was about the same as for the preceding quarter. All classes showed an increase, except those including the cutting of windows in interior rooms and the removal of school sinks. Decrease in the latter class is due to the fact that practically all existing school sinks have already had orders issued against them.

A special increase is seen in the class covering protection from fire, which is also the largest single class of violations issued.

Following is a summary of the orders issued for the fourth quarter of 1907:
Nature of Orders, October 1 to December 31, 1907, Inclusive.

Total orders	30,146	10,588	16,687	408	133	57,962	100.00

The work accomplished during the quarter, as shown by a tabulation of dismissed violations, is as follows, the actual number of fixtures or parts of the structure being enumerated in each case. A large increase is shown in nearly all classes of items over the preceding quarter. The greatest is that referring to cutting of windows in dark interior rooms, 1,942 of these being cut in the third quarter and 4,600 in the fourth quarter, or nearly two and a half times as many.

During the quarter 7,833 citizens' complaints were received, a decrease of 2,455, or nearly one-fourth, from the preceding quarter.

Of these, 6,002 were for Manhattan, 328 for The Bronx, 1,395 for Brooklyn, 77 for Queens and 31 for Richmond.

The nature of the complaints was as follows, counting each matter complained of as a separate item. Items to be classified under the general head of lack of cleanliness make up the largest proportion for any single item, amounting to nearly 27 per cent. of all matters of complaint for the fourth quarter. This is a smaller proportion than for the third quarter, however, which showed 33 per cent. of the

items complained of to be in this class. On the other hand, the fourth quarter shows an especial increase in complaints, as to night lighting of halls and danger from fire.

Plans for the alteration of tenements were filed during the quarter, as shown in the following table:

This shows a decrease of 165 buildings and \$302,268, estimated cost from the preceding quarter; and 200 buildings less than for the corresponding quarter of last year, together with a decrease of \$214,610 in estimated cost.

It may be of interest to note the estimated differences in cost of alterations per building for the fourth quarters of 1906 and 1907 respectively. These are as follows:

	Fourth Quarter.	
	1906.	1907.
Manhattan	\$1,207 00	\$1,134 00
The Bronx.....	600 00	450 00
Brooklyn	348 00	361 00
Queens	362 00	373 00
Richmond	271 00	*5,281 00

* This unusually large estimated cost per building is due to the filing of plans for one building where alterations were so extensive as to be estimated at \$50,000.

Plans for new buildings were filed between October 1 and December 31, 1907, and in force the latter date, as follows:

Number of Plans Filed for New Tenement Houses with Number of Buildings, Number of Apartments and Estimated Cost, Between October 1 and December 31, 1907, Inclusive.

New York City.....	204	100.00	450	100.00	3,752	100.00	\$7,602,900 00	100.00

It will be seen that the number of buildings provided for is only 450, a decrease of 156 from the preceding quarter, which in turn was less than half the number provided for in the second quarter. Comparative figures are as follows:

	Buildings.	Apartments.	Estimated Cost.
First quarter	1,215	11,784	\$21,180,700 00
Second quarter	1,330	14,706	28,007,650 00
Third quarter	606	6,318	14,675,600 00
Fourth quarter	450	3,752	7,602,900 00
Year 1907	3,601	36,560	\$71,466,850 00

For the year 1906 the number of buildings planned for was 5,140 with 59,718 apartments at a total estimated cost of \$112,137,350.

The estimated average cost per building for the fourth quarters of 1906 and 1907, respectively, is as follows:

	Fourth Quarter 1906.	Fourth Quarter 1907.
Manhattan	\$102,904 00	\$107,826 00
The Bronx	27,022 00	23,506 00

Queens	7,290 00	6,531 00
Richmond	2,500 00	10,400 00

Following are detailed statistics of new building work for the quarter:

APPROVED PAPERS.

FOR THE WEEK ENDING MARCH 7, 1908.

No. 97.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof shall be applied to meet the expenses in moving and sorting various records in the office of the Register of Kings County, in the Hall of Records in the Borough of Brooklyn.

Adopted by the Board of Aldermen, February 18, 1908.

Received from his Honor the Mayor, March 3, 1908, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 98.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof shall be applied to meet the expenses in moving and sorting various records in the office of the County Clerk of Kings County, in the Hall of Records in the Borough of Brooklyn.

Adopted by the Board of Aldermen, February 18, 1908.

Received from his Honor the Mayor, March 3, 1908, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 99.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of one thousand and ninety-eight dollars (\$1,098), the proceeds whereof to be applied to the payment of the salary of one Laborer for the Field Hospital, National Guard, New York, for the year 1908, as authorized in section 139 of the Military Code of the State of New York.

Adopted by the Board of Aldermen, February 18, 1908.

Received from his Honor the Mayor, March 3, 1908, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 100.

Resolved, That it is recommended to the Commissioner of Water Supply, Gas and Electricity that two lamp-posts be erected, street lamps placed thereon and lighted, in front of the Grace Reformed Church, Fifty-fourth street and Seventh avenue, in The City of New York, Borough of Manhattan.

Adopted by the Board of Aldermen, February 18, 1908.

Received from his Honor the Mayor, March 3, 1908, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 109.

Charles W. Kruger was appointed a member of the Fire Department on July 3, 1872, and during his thirty-six years of continual service, served in every branch of the uniformed force, including the position of Chief of Department. When a Foreman he was awarded the Stevens Medal for having the best disciplined company in the Department. Detailed from this city as the expert to direct the fire fighters at the great Baltimore conflagration, it was his masterful handling of men and apparatus which prevented the destruction of the entire city. Time and again the public press has chronicled his unostentatious heroism, cool bravery and fearlessness in the performance of his duty. Although a strict disciplinarian, he was gentle and considerate to his subordinates, and much beloved by them. The whole course of his official life furnishes one of the most splendid examples of those noble characters who are undaunted when confronted by peril.

In recognition of his heroic deeds and faithfulness to duty which resulted in his death, the Board of Aldermen of The City of New York, in meeting assembled, spreads this record upon its minutes and deeply deploring the untimely though heroic death of Charles W. Kruger, Deputy Chief of the Fire Department, whereby our City lost one of its best citizens and a most faithful and devoted servant.

Resolved, That the Board of Aldermen hereby expresses the heartfelt sympathy of the people of this city to the bereaved family of the late Charles W. Kruger for their irreparable loss, and be it further

Resolved, That a copy of these minutes, suitably engrossed and attested by his Honor the Mayor, the President of the Board of Aldermen, and the City Clerk, be forwarded to the family of the deceased.

Adopted by the Board of Aldermen, February 25, 1908.
Approved by the Mayor, March 3, 1908.

No. 110.

Whereas, It has come to the attention of the Board of Aldermen that a committee of our citizens, composed of Bishop Potter, Andrew Carnegie, Isidor Straus, Henry W. Taft, Cornelius N. Bliss, General Thomas L. James, Hugh Bonner, Egerton L. Winthrop, Jr., the Rev. Dr. Henry A. Brann, George W. Babb and Hamilton W. Mabie, has been organized for the purpose of collecting a large sum of money, part of which is to be used to erect in one of our parks a monument to Deputy Chief Charles W. Kruger and other members of the Fire Department who have lost their lives in the performance of their duty, and the balance to be turned into the Pension Fund of the Fire Department so that the widows and children of the heroes may be assured of an income sufficiently adequate to provide for their comfort and education; therefore be it

Resolved, That the Board of Aldermen does hereby most heartily commend the members of the Committee of the Kruger and Firemen's Memorial Fund for their public spirited action, and does most earnestly indorse their project, which has for its noble purpose the fitting recognition in lasting form of the brave and fearless men, members of one of our most devoted departments, who have sacrificed themselves in their efforts to protect the lives and property of the citizens of New York, and who have never flinched in the face of any danger into which duty called them; and be it further

Resolved, That the Board of Aldermen does hereby urge all good citizens to give their support to this most worthy cause and contribute to it whatever sums their means will allow. We feel confident that the civic pride of our fellow men, together with that perhaps finer sentiment which prompts us to glorify the man who dies an heroic death, will be incentive enough to assure the success of the undertaking.

Adopted by the Board of Aldermen, February 25, 1908.
Approved by the Mayor, March 3, 1908.

No. 111.

Whereas, the recent disastrous fires in The City of New York have demonstrated a heroism on the part of our fire fighters which should command more than passing notice; and

Whereas, The serious loss of life which our Fire Department has suffered is most appalling, and displays unmistakably the quality and zeal of the men enlisted in this branch of the City's service; therefore

Resolved, That the Board of Aldermen, recognizing the spirit in which the people of our municipality regard the acts of bravery on the part of the rank and file of what has been too idly termed "the finest Fire Department of the world," herewith begins the establishment of a "Roll of Honor" upon its records, beginning with an official note of the following lamentable deaths:

Thomas F. Phillips, Fireman, No. 183 Spring street.
George A. O'Connor, Fireman, No. 72 Charlton street.
Killed in the performance of duty, January 10, 1908.
Thomas P. Eglinton, Fireman, No. 380 Eighteenth street, Brooklyn.

John J. McConnell, Fireman, No. 313 East Forty-third street.

Killed in the performance of duty, February 4, 1908.

Adopted by the Board of Aldermen, February 25, 1908.

Approved by the Mayor, March 3, 1908.

BROOKLYN DISCIPLINARY TRAINING SCHOOL FOR BOYS.

REPORT FOR THE YEAR ENDING DECEMBER 31, 1907.

Office of the Board of Managers,
Nos. 4 and 5 Court Square,
Borough of Brooklyn, City of New York.

To the Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—The Board of Management of the Brooklyn Disciplinary Training School for Boys, respectfully presents herewith the report of the Superintendent, and also the report of the President of the Board, for the year ending October 31, 1907, and we respectfully submit the same as our report for that period.

During the year just closed we have cared for 519 boys, classified as follows:

A—Number from 7 to 12 years of age, 208.
B—Number from 12 to 15 years of age, 266.
C—Number from 15 to 16 years of age, 45.

During this period we received from the Children's Court, committed for crimes other than a felony, 242, and have discharged to their parents, guardians and to employment 228, and there remain in the institution at this date 291.

It is gratifying to say that after careful investigation of monthly reports from those discharged, less than 3 per cent. were returned to other institutions by courts; about 85 are employed and self-supporting; 90 are going to school and found satisfactory in conduct to their parents and teachers; 5 per cent. are reported unsatisfactory, and a large number of the others not accounted for have either left the State or removed from addresses recorded on our books.

When it is considered that only those over school age are qualified to receive a certificate from the Board of Health, and that the average age of the boys in the school does not exceed 13 years, it will be at once admitted that the services rendered to the municipality and the people by this institution, will compare favorably with the most favored institutions under City or State control, for the discipline, education and final reformation of children of this class, assigned by the courts.

It can be briefly stated as an extract from the detailed financial report of the Superintendent of expenditures for the fiscal year ending October 31, 1907, hereafter submitted, that the total expenditure is \$49,701.31 for an average of 304.9 boys, and the rate per capita will be found \$163.22; and when the increased cost of supplies is considered over that of previous years, it will be admitted that the support of the City's wards at the Brooklyn Disciplinary Training School, which is a City institution, supported by City funds, the employees of which are assigned from the classified lists of the Civil Service Commission, thus removing from the jurisdiction of the Board of Management the responsibility of qualifying them with the necessary educational test, or the regulating of their compensation for such service, is lower than that of any other institution of a similar character. Numerous Grand Juries monthly visit this institution, and their reports to the Court will be found on record in the District Attorney's office of Kings County, a few of which are herewith submitted, with reports from a number of the boys discharged.

For evil associations we substitute rewards for good conduct instead of prison cells; we have secular and religious instructions, trade schools and an ample pro rata of recreative hours during the day. That these methods are successful in accomplishing intended results, there is ample testimony to show, and it might be mentioned that out of the large number of boys released during the past year from this institution we have received only a single complaint from an employer, and less than 3 per cent. of the entire number of boys discharged have been assigned to other institutions by the courts.

In conclusion, I respectfully present the list of officers and members of the institution, and the Superintendent's statement of the finances for the year 1907.

Respectfully submitted,
MORRIS ADLER,
President.

REPORT OF THE SUPERINTENDENT TO THE BOARD OF MANAGERS
OF THE BROOKLYN DISCIPLINARY TRAINING SCHOOL FOR
BOYS, EIGHTEENTH AVENUE, BETWEEN FIFTY-SIXTH AND FIFTY-EIGHTH STREETS.

Gentlemen—I herewith submit my report as Superintendent for the year ending October 31, 1907.

The past year has been one of steady progress in all branches of the work of the institution. The result accomplished has won for the administration abundant congratulations from all those interested in the good work performed in the reformation of those assigned by the courts for education and discipline to your care.

It may be worth stating that during the past year we cared for 519 boys, a number more than 28 in excess of that cared for during any one year of the institution, now entering on its twelfth year of usefulness.

I respectfully submit herewith a detailed statement of the expenditures for the year 1907, and I am gratified to say that the amount per capita, viz., \$163.22, shows a creditable reduction over all previous years. I take the liberty of submitting the following table for comparison:

For Consideration and Comparison of the Progress During the Period Stated.

Year.	Average Attendance.	Discharged.	Expenditures.	Per Capita.
1897.....	63.8	15	\$36,243 00	568.0
1898.....	116.9	15	43,520 00	372.0
1899.....	129.6	43	47,594 00	367.0
1900.....	157.7	14	46,033 00	291.0
1901.....	165.3	46	41,429 00	250.0
1902.....	205.0	100	44,650 33	217.0
1903.....	241.86	114	48,090 00	198.46
1904.....	275.27	96	52,873 95	192.04
1905.....	268.16	179	53,289 69	198.82
1906.....	263.9	214	49,276 97	186.68
1907.....	304.5	228	49,701 31	163.22

Many new equipments have been added to our shops, and other improvements made throughout the buildings, which might be classified under the head of extraordinary expenses, but not classified in the general results.

The curriculum of the trade shops, military discipline and school education has been carefully and successfully carried out during the year. The School Education has been reorganized to conform to that established in our public schools.

It will be noted with much satisfaction the great liberality in the number of discharged from the institution during the year, numbering 228; or 28 over that of 1906; and it can be stated with certainty that none were assigned to their parents, guardians or employment who were not fully qualified for the distinction of your clemency, after the careful investigation of your Committee on Discharge.

The training of the hand has been found good, but best when combined with the training of the mind. The good work of the shops has not been secured at the expense of the school room, and systematic instruction has been given daily, morning and afternoon, in the common English branches, as in the shops, where thoroughness is required.

Withal, the military discipline of the school is held up to a standard unexcelled in any institution in this State or City, and music holds the high position it had attained in my previous report.

In the health records of the school it will be found that we have had but one death, and at the present writing there is not a single boy in the hospital needing treatment.

I respectfully submit a detailed statement of expenditures for the year ending October 31, 1907, with this report, and it will be noted by your Finance Committee that substantial reduction has been made in the per capita cost for maintenance during the year just passed, when the increased cost of supplies is considered over that of 1906, and it can be stated that this was not accomplished at the expense of efficiency in any of the departments in the institution.

While the strictest economy existed in each department, the food supply was regulated only by the appetites of wards; each was supplied with three suits of clothing during the year; two changes of underwear and a sweater completed their requirement in raiment.

If a comparison of expenditures were made with more favored institutions in population and structural equipment, it would be found favorable to your administration.

I trust the foregoing brief summary will be found sufficiently convincing to prove that waste or extravagance does not exist in this institution in the expenditure of public money, a review of which is respectfully submitted in detail for the year 1907, as follows:

Total number cared for during the year, 519 boys.

I trust the foregoing will be accepted as my report for the year ending November 1, 1907.

Thanking you, gentlemen, for your continued confidence and support, without which my efforts could not have been successful.

Respectfully submitted,
JAMES P. FARRELL, Superintendent.

["Save the boy that makes the man, the Bulwark of the Nation."—Farrell.]

The following schedule of daily exercises, showing the physical and mental occupation of your wards will, I trust, be accepted by your Honorable Board as practicable and efficient in the direction of discipline, education, and moral, industrial and physical development.

Nothing could be more interesting or of greater educational value to your wards than the Sunday evening lectures which are illustrated by stereopticon views. By means of these views the boys are given a knowledge of the different countries of the world, their attention called to famous and interesting subjects of history by your Superintendent, who delivers the lectures, and explains the subject represented by each view. Prior to the lecture and illustrations the boys are exercised in singing the National songs, accompanied by the school brass band, whose efficient playing is a subject of great comment by all who have had the pleasure of hearing it, and of which the school may be justly proud.

Synopsis of Distribution to Schools, Shops, Etc.

The following synopsis of distribution to shops and industrial departments of the institution shows that all inmates are receiving much needed mental and manual training, and the high percentages shown in each of the monthly reports of the progress in

the various departments indicate success that deserves the high commendation expressed by members of the Grand Juries and others.

A daily record of each ward's progress is kept by the Instructor in each department, from which a monthly report is made of his standing in class, shops and drill and the average per cent. is credited.

All understand the importance and value of a good record, not alone in good conduct, but in each subdivision of employment; many look forward to the monthly report to discover how the record stands in some special branch in which they have not succeeded in previous reports. Understanding that everything comes to him who exercises effort in school, shop and drill, the boy attaining 75 per cent., qualified by age, which is usually placed at 14 years, finds little difficulty in obtaining a discharge to his parents or employment, if they are found competent to assume the responsibility after due investigation by your Committee on Discharge.

School Curriculum.

I take pleasure in presenting to your Honorable Board the following brief report of progress made in each of the educational departments during the year ending November 1, 1907, details of which have been presented at the regular monthly meetings of your Honorable Board.

Class schedule is composed of ten grades—four in the morning and four in afternoon, with an average attendance of thirty in each class; night classes of sixty-two boys. The day classes cover a period of five hours—two and one half-hours a. m. two and one half-hours p. m. session; the boys alternating class work with trades shops. All the ordinary branches of a common school education, as shown in the curriculum are taught here.

There has been a considerable increase in promotions during the year as compared with that of any previous year, the boys showing remarkable interest in their work and desire for advancement. A great deal of individual work has been done and the boy who was inclined to be dilatory in his class work was urged on by strenuous efforts to compete with those who successfully reached the top.

As a rule the boys are quite responsive to the interest manifested in them, and it is a very rare occasion in which any other measure than that of moral suasion has to be resorted to, to insure perfect discipline and good feeling in the class room.

The study of history and geography is very much facilitated by the stereopticon views given at the Sunday evening entertainments—the lines followed during the week on those subjects, and the current historical events are closely in touch with the views given.

In addition to the regular day classes a special class has been instituted for backward boys whose education had been seriously neglected previous to their entering the school and whose talents are not up to the ordinary standard. Those boys receive special coaching—two sessions each week—on those subjects in which they are most deficient. Particular attention has been given to original drawings and the improvement made in this branch is quite satisfactory. Marked progress has been made in the ordinary branches of education as shown by the result of examination by the Committee on Education held periodically during the year.

Study Hall Exercises—Two hours each night are devoted to the preparation of lessons for the day following. The studies for each day are written on the black-boards and careful supervision is brought to bear on the students to insure the best results. This exercise has borne good fruit, as, when the boys present themselves in class, they have a fair knowledge of the school work for that day.

The class exercises are begun and ended with the "Salute to the Flag."

CLASS EXERCISES.

Morning Session—Primary Grades—Periods of Recitation.

Class II.-A—Number in class, 28; 8 to 8.45, arithmetic and tables, memorizing; 8.45 to 9.15, reading, spelling, sentences; 9.15 to 9.45, writing, drawing, English; 9.45 to 10.30, nature study, hygiene, composition.

Class II.-B—Number in class, 27; 8 to 8.45, arithmetic and tables, memorizing; 8.45 to 9.15, reading, spelling, sentences; 9.15 to 9.45, writing, drawing, English; 9.45 to 10.30, nature study, hygiene, composition.

Class III.-A—Number in class, 30; 8 to 8.45, arithmetic, writing, history; 8.45 to 9.15, geography, spelling, reading; 9.15 to 9.45, drawing, English, memorizing; 9.45 to 10.30, nature study, hygiene, composition.

Class III.-B—Number in class, 26; 8 to 8.45, arithmetic, writing, history; 8.45 to 9.15, geography, spelling, reading; 9.15 to 9.45, drawing, English, hygiene; 9.45 to 10.30, nature study, composition, memorizing.

Afternoon Session—Grammar Grades.

Class IV.-A—Number in class, 30; 1 to 1.40, arithmetic, grammar, spelling; 1.40 to 2.30, history, geography, reading, hygiene; 2.30 to 3.15, drawing, writing, English, memorizing; 3.15 to 4, nature study, civics, composition.

Class IV.-B—Number in class, 28; 1 to 1.40, spelling, arithmetic, grammar; 1.40 to 2.30, reading, history, geography, memorizing; 2.30 to 3.15, civics, drawing, writing; 3.15 to 4, nature study, hygiene, composition.

Class V.-A—Number in class, 26; 1 to 1.40, arithmetic, grammar, spelling; 1.40 to 2.30, reading, history, geography; 2.30 to 3.15, drawing, hygiene, writing, civics; 3.15 to 4, composition, memorizing, nature study.

Class V.-B—Number in class, 20; 1 to 1.40, spelling, arithmetic, grammar; 1.40 to 2.30, history, geography, reading; 2.30 to 3.15, drawing, writing, hygiene, civics; 3.15 to 4, composition, memorizing, nature study.

Night Class—Grammar Grades.

Class VI.-A—Number in class, 30; 6 to 6.30, grammar, composition, arithmetic; 6.30 to 7, reading, writing, history; 7 to 7.30, spelling, geography, dictation; 7.30 to 8, nature study, civics, hygiene.

Class VI.-B—Number in class, 32; 6 to 6.30, grammar, composition, arithmetic; 6.30 to 7, reading, writing, history; 7 to 7.30, spelling, geography, dictation; 7.30 to 8, nature study, civics, hygiene.

Special Day Class.

Class Wednesday Afternoon—Number in class, 65; 1 to 1.45, reading, writing; 1.45 to 2.30, arithmetic, tables; 2.30 to 3.15, spelling, sentences; 3.15 to 4, memorizing, composition.

Class Saturday Morning—Number in class, 65; 1 to 1.45, reading, writing; 1.45 to 2.30, arithmetic, tables; 2.30 to 3.15, spelling, sentences; 3.15 to 4, memorizing, composition.

Study Hall Exercises—Night Session.

Hours of study, 6 p. m. to 8 p. m.; grades II.-A to V.-B; lessons from blackboard, selections preparatory to day class.

The subdivision of work daily is as follows:

Primary Class—Morning session, 2½ hours, 8 to 10.30.

Grammar Class—Afternoon session, 2½ hours, 1 to 3.30.

Manual Training Class—Morning session, 2½ hours; 8 to 10.30.

Industrial Class—Afternoon session, 3 hours, 1 to 4.

Military Drill and Calisthenics—Morning, 1 hour, 11 to 12.

Time allowed for meals, 1½ hours, 6.30—12—5.

Dress and recreation period, 2 hours.

In dormitory 9½ hours, 8.30 to 6.

Report of the Attending Physician.

During the year 1907 the following cases have been under treatment. The health of the inmates of the institution has been excellent, and a case of contagion is of rare occurrence. A late examination of the boys' eyes convinced the inspector that the much dreaded disease, trachoma, was unknown in the institution.

It is a rare exception to find more than one patient in our hospital and then only for a short time and none have been rejected out of a large number received for physical or mental defect. Our Physician is untiring in his attention, and the greatest credit is due to our house mother for the efficient care of her large family of boys.

MARK MANLEY, M. D.

Report on Dental Surgery.

During the year each new arrival had his mouth thoroughly examined before leaving the detention ward, and semi-annually thereafter, and every tooth that can be saved is filled.

It is evinced from the bad condition of their teeth, that their parents or guardians have not taught them the importance of cleaning and caring for their teeth as a necessary requisite to good health. A marked improvement was found at last examination over last year, and our young patients seem to have lost all fear of the Dentist, owing to the application of an anaesthetic which makes extraction practically painless.

The following is submitted as my report from this Department for the year 1907:

E. H. BERENDSOHN, D. D. S., Dentist Surgeon.

Dietary.

The following dietary has been carefully considered by the visiting members of your Honorable Board, the Health Department, and the members of the Grand Juries on their monthly visits to this Institution, all of whom have taken an earnest interest in the quality of the food which is the best the market produces, and the quantity distributed to each ward is regulated only by his appetite. Pies, cakes, fruits and candies are given weekly as a reward for good conduct and discipline in shops and drill. The healthy, robust bodies of the boys bear testimony to the abundance of nutritious food that they receive, which is as follows:

Sundays—Breakfast: Tea, corned beef hash, bread. Dinner: Roast pork, potatoes, vegetables, bread and pie (conduct deserving). Supper: Bread, butter, tea and cake (conduct deserving).

Mondays—Breakfast: Oatmeal, milk, coffee, bread. Dinner: Mutton stew, potatoes, vegetables, bread. Supper: Corn bread, molasses, tea.

Tuesdays—Breakfast: Bread, tea, rice, milk. Dinner: Bean soup, bread, potatoes. Supper: Stewed prunes, bread, milk.

Wednesdays—Breakfast: Bread, coffee, hominy. Dinner: Roast beef, potatoes, vegetables, bread. Supper: Stewed peaches, bread, milk.

Thursdays—Breakfast: Indian meal, milk, tea, bread. Dinner: Vegetable soup, bread, potatoes, bread pudding. Supper: Bread, butter, milk.

Fridays—Breakfast: Oatmeal, coffee, bread. Dinner: Codfish balls, bread, butter. Supper: Apple sauce, bread, tea.

Saturdays—Breakfast: Bread, coffee. Dinner: Pork, beans, bread. Supper: Tea, bread, bologna.

I respectfully suggest the following for consideration of your Committee on Buildings and Repairs:

The future of this institution is established, as a municipal responsibility. It should be placed in a condition to properly discharge its obligations to the community and the municipality alike, by improving its facilities as a reformatory school, and by harmonizing with what is accepted as modern requirements in structures and equipment, for the proper education and reformation of a number of boys not less than 600, at an expenditure not in excess of the cost of a single modern public school.

Education—Military.

A most commendable progress has been made in this special branch of education, and when it is remembered that we do not possess a gymnasium or an armory, and are dependent on open air exercises in our drill yard in all conditions of weather, it is especially noteworthy that under such conditions our troops have been awarded a percentage of 85 in the manual by actual test, and this was conceded by one of the highest military authorities in the metropolis.

It is a real pleasure to witness the Saturday afternoon full dress battalion drill of two hundred and fifty boys, fully equipped with guns and other necessary accoutrements, marching and countermarching to the martial music of our school band of forty-five instruments.

They have attracted visiting members of the judiciary and other public officials, from whom they have received many complimentary words of encouragement.

The results attained by these daily drills are manifested in the general bearing of the boys—an erect and manly presence that wins regard of those who have witnessed the accuracy of each movement in drill—as well as the consideration of a physical development to be acquired by exercise in company and battalion drill. There is nothing more attractive to a boy than soldiery—the carrying of arms, bayonet and setting-up exercises, and on these lines all departments of the institution are founded.

Educational—Scholastic.

This important department has received a large share of attention from your committee on education, and a number of new exercises have been introduced in the curriculum, that has contributed to the advancement of your wards, and no boys ever assigned to a school room needed mental instruction more than they, or responded to its influence with greater aptitude.

Weekly tests have been made by the lady principal in charge, and monthly reports of progress presented at each monthly meeting of your Honorable Board.

Two new sessions have been formed for dull and backward boys in the primary branches, and a special night class is again established for guards and captains of shops.

A ten-minute discourse is daily addressed to the boys at noon by your superintendent, and great interest is taken in the weekly entertainment in Chapel Hall, a portion of which is devoted to geography, history and manufacture, all of which are illustrated by stereopticon views, with descriptive lectures.

Our Class in Band Music.

Our class in band music the past year, has made great progress, being composed of forty-five members. It can be said that the character of the boys deserves the highest commendation, not alone for the progress they have made in a musical education, but a commendable rivalry which exists in each division (of which we have four), composed of drummers, buglers and a fife corps—all of whom are eligible for admission to a position in our brass band, among which are many aspirants for distinction in a musical field.

Two lessons are given daily (morning and afternoon) by a competent teacher, who has graduated in the institution, under the tuition of a professor, who visits the school and instructs them in sessions of two hours, three days in each week.

This instruction and the practice afforded by the daily drill and evening entertainments in Chapel Hall, Wednesdays and Saturdays, has developed our band into a most attractive and satisfactory condition.

Fire Drill.

Great progress has been made in this department by training during the past year, and the marked success attained is due to the enjoyment, encouragement and interest taken by a number of fire chiefs. The present Deputy Commissioner has visited our fire brigade during the past year.

We have had, I regret to say, more than one occasion for fire drill when it was necessary to test the efficiency of the boys with real fires of an incendiary origin, and it is most gratifying to say that these were not of long duration, for on each occasion their efforts succeeded, satisfactory discipline and order prevailed, all of which was governed under strict rules and regulations, which are printed and distributed among our employees and wards alike, and all are compelled to understand their post of duty, in strict conformity with the published rules.

Daily examinations of all appliances are made, and a weekly drill is practiced as a test of the intelligence of the entire family of the institution.

At a stroke on a fire gong, a call from a bugle, or a sound of a drum, they all assemble, disperse or descend from the interior of the buildings by the established exits, with precision and order, to a point of safety, by the fire escapes.

Wednesday of each week is recorded on the daily schedule for fire drill, which is under the direction and control of an efficient officer of the institution. Tests are made of mains and hose, and every precaution is taken to insure safety to the population, as well as the protection of public property assigned to our custody.

All are expected to understand the printed rules and regulations, and to respond with alacrity, and report to the officer in charge the location of a fire.

It may be interesting to quote from the lines of the State Charity Inspector's report, after a visit to the institution:

"Fire drill is well organized. It is practiced weekly." Inspector's test made without previous notice, passed a very favorable inspection.

The boys in the house dismissed and reported in the yard in fifty-five seconds from the time of the alarm. The hose wagon was brought out and connection made with the main pump, and a stream of water thrown over the picket fence in two minutes and forty-five seconds. The indoor fire squad unreeled hose and were ready to throw a stream of water in one minute and ten seconds.

Classification.

The moral training and discipline of the school have advanced under the guidance of your visiting committees and the earnest efforts of our staff officers.

Still there is no doubt that more satisfactory results could be attained, were it possible to establish a better classification of your wards. All that could be accomplished in this important direction has been carefully exercised considering the present inadequate structures, old and uninviting as they are, and never adapted to the purpose for which they are used.

It is at least compensating to know that every suggestion and order given by the Board of Health has been promptly complied with, when responsibility was chargeable to your Honorable Board.

The health records of the school can be classed among the best, and, as stated in previous reports, it can be said that only a single ward died in the institution during 1907, and it is of rare occurrence to find more than a single ward in our hospital at a time.

Admission to the school for inspection is permitted from 7 a. m. to 8 p. m., daily, to those interested in reformatory work. And it is gratifying to say that outside of structural defects, adverse criticism has not been made against your administration.

Census.

I take pleasure in calling your attention to the following census for the year ending October 31, 1907:

Population November 1, 1906.....	277
Received during the year ending October 31, 1907.....	242

Industrial.

Preliminary training of hand and eye is encouraged in each educational class and subdivision. Each session has its period of blackboard exercise, and here the first instructive step is made in freehand drawing. Genius is soon observed, and the boy is permitted to formulate any plan or design pleasing to himself on paper. Subjects are introduced in mechanical figures and drawings where accuracy is required.

Our pupils soon discover the importance of their efforts when advanced to the wood carving class, and here the hand is directed in the use of necessary tools to produce by scale the subject of his drawing. The interesting exhibits displayed in our Sloyd elementary school will be accepted as a preliminary training to the higher branches in any of our trade shops.

Carpenter Shop.

Our school of carpentry is the centre around which all other branches of trade assemble. The genius of the industrious has here ample opportunity to found a future in the world of trades, in which the demand for geniuses is larger than the supply.

The manual and arithmetical exercises are now conducted on the lines of the Sloyd system. In primary classes mathematical and off-hand drawing is a progressive branch, and here also will be found many creditable exhibits in wood carving, in which the boys have attained a degree of efficiency which won for them high commendations.

Carpentry and Woodturning.

Many artistic novelties in this art have been produced during the year; the advanced class has attained an efficiency in woodturning and general construction in advanced carpentry most creditable to their intelligence, application and industry. It can be stated with certainty that they are qualified to undertake the erection of frame structures from modern plans, a number of which they have executed and are on exhibition in this department. Late in the fall of the year the advance carpentry class organized to prepare plans for the establishing of a Brooklyn Disciplinary Training School for Boys on the segregate (cottage) plan. What was then suggested as educational practice in architectural plans and drawings, from which was to be constructed models of each building on mathematical scales, has developed to be real art in symmetrical proportions. Not alone is there adaptability for the purpose, as working models and general design, but the accuracy of the interior, which is built in quarter sections, to illustrate each room and hall, from cellar to attic, of each building, and all harmonizing with what is considered the essential requirements to accommodate forty boys on the accepted and improved principles of classification in so-called segregation in institutional life. Here will be found the executive administration building, there the large drill room and armory, the hospital and detention ward building, industrial and school building, the chapel hall building for religious service and entertainments, the conservatory, drill yard, recreation ground and gardens, all harmonizing in detail with what is considered best adapted to modern education and disciplining in future development of this institution.

Tailoring Department.

Every opportunity is afforded the pupils of this department to become efficient in the manufacture of clothing. The mechanical appliances are up to date in every particular, and the sewing machines, thirteen in number, are propelled by electric power; the boys are here instructed in the technical branches of the trade—arithmetical and measurement, pattern grading, busheling and repairing, and operating on power machines. Uniform and fatigue suits, composed of coats, trousers, vests, shirts, caps, underwear and other articles of raiment are here manufactured. The advance class manufacture uniforms, and the output is estimated at 500 dress uniform suits (military), 500 fatigue suits, 1,000 shirts, 500 caps and 500 sets of underwear. This output could be doubled had we increased floor space.

Aside from the great service rendered by the boys in this department, the furnishing of the entire raiment of the school, it is most gratifying to know that a term of six months' service in this branch of trade fits the pupil to fill a position as operator in any shop needing his service. We are informed of a number who have found employment in this branch of trade, and satisfactory reports are received from their employers for industry and intelligence. The output of our tailor shop furnishes us with our dress parade suits and fatigue suits for each ward for winter wear and two suits of summer wear, changed weekly. Each holds individual ownership to two suits of underwear, two dress shirts, two night shirts, stockings, sweaters, towels, etc., all of which are manufactured in the school, at a cost to the City less than in any other State or City institution, and all are clean and comfortably provided for in clothing.

Shoe Department.

The boys assigned to this department are employed during the morning and afternoon sessions. One-half the number of boys attend school in the morning and work in the shop in the afternoon; while the other half work in the shop in the morning and attend school in the afternoon, thus equalizing the work and relieving them of any monotony in the daily routine. They manufacture and repair all the shoes worn by the wards of the institution, and are thoroughly instructed in every branch of the trade. Many new appliances have been added to the excellent equipment of machinery, most of which is propelled by electric power. A substantial education in the trade is given in this department by a most competent instructor, who has the responsibility of furnishing the entire footwear of your wards, amounting in round figures to close on 1,000 pairs per annum, besides all the necessary repair.

The young Crispins of this department have distinguished themselves in military discipline, and are known as the officers of the guard. Don't try to pass their post if you are not in possession of the countersign, or your arrest will follow. After shop hours, morning and afternoon, they will be found on guard duty on the grounds or halls of the interior of the buildings. They are proud of being members of the guard, dignified in demeanor and looked up to by the rank and file of our little army of soldiers.

The Printing Shop.

The course followed in this department is conducted with a view to educational direction, reading and correcting compositions, spacing, distribution, making-up, lessons at the type case, stonework and instructions at the press. Many creditable examples of the progress made in this school are on exhibition, and this report will be accepted as a sample of the work produced by the boys of this department. To obtain a position in the printing shop it is necessary for the applicant to be qualified by an educational test and pass an examination satisfactory to the foreman printer in charge, and the rule, while necessary to the production of satisfactory work, has materially affected the education of the wards in this branch of trade. The average age of the boys in this department is thirteen years, and a boy of that age, fitted by education in class to win a position in the printing shop, rarely serves more than six months, when he is found qualified by discipline, education and good conduct to win a recommendation to the Committee on Discharge of your Honorable Board, if his parents or next of kin are found qualified to assume the responsibility, after due investigation. A few have found employment in printing establishments, but it can hardly be claimed that this was accomplished on account of their practical education in the trade.

Laundry.

Few changes are made in the boys assigned to this important department. The instructors seem to take a motherly interest in their welfare, and it is of very rare occurrence to have a ward arrested who works in the laundry. The occupation is clean and healthful, and each of the boys here employed is distinguished in drill and school class, and some of them are qualified by age and intelligence to be discharged to employment or their parents, if they are found to be able to assume the responsibility. Their service is valuable to the City, but this is never considered if opportunity presents itself in the interest of the boy. Every modern appliance that economizes labor is operated in this department. Mangles, extractors, wringers, ironing and washing machines are propelled by steam power.

The clothing and general house wash of the institution is completed, and is seldom less than 1,900 pieces per week. Employment is easily obtained for a boy who has served his term of a year in this department.

The Dormitories.

The capacity of the dormitories of which there are three, a large dormitory covering the entire top floor space of the main building, certified to accommodate 245 boys; one next in size on the second floor, fitted to accommodate 70 boys, and one for the younger children of 15 beds. The detention ward has 14 beds and the hospital 13, making in all 357 beds.

Toilets are ample on each floor, and are built with a view to privacy and modern sanitation. Your wards are compelled to make visits in company file night and morning, and at each assembly for inspection, of which there are three. Washing troughs are fitted to the walls in retired parts of each dormitory, and water, hot or cold, flows from many openings; individual towels and soap, of which there are ample to meet the demand of service three times each day, with baths from shower sprays on Saturday of each week in winter, and an entire change of underclothing weekly. In summer two baths are taken, Wednesdays and Saturdays, and each ward is furnished with a clean wash suit and necessary under dress. Each bed is equipped with a modern wire spring, on which rests a comfortable mattress, a woolen blanket, a cotton comforter and white quilt. Pillow slips and sheets are changed weekly, and night shirts are supplied to each ward, of which he has two. Each dormitory has the night service of a paid officer of the institution, and reports are made by him every fifteen minutes during the night. A record by electricity is kept on a dial clock, which is duly examined by the officer in charge.

Rising in the morning and going to bed at night have to be observed with the same military precision found at our daily exercises in drill. Each movement of dress and undress is made at the sound of a bugle, in conformity with strict military discipline.

House Painting and Decorating Class.

Here boys are taught to ply a paint brush in its application to house painting and the compounding and mixing of colors, to profit by the exercises taught in school class by the use of colored crayons. A simple suggestion is made by the teacher in class of a subject to incite rivalry among those who aspire to a place in the painting class, and this simple test on the blackboard displays a correctness of figure line and the harmonizing of colors, which win for the successful boy the place he so much desires. The proper care of a paint brush is first taught; the second test is in its use in priming work, wood-filling and rubbing down, prior to its application in first coat work. Mixing and compounding, finishing, varnishing and graining are mastered, and many neat designs are cut and filled in, stenciling.

Glazing is made a branch of study in this department, and the boys are experts at breaking windows, without any doubt. The rewards received from these efforts in painting, however, in this branch of education more than compensate us for any damage they perpetrate, which is seldom done with intention. Much of the order and cleanliness found in the interior of the institution is due to their ever willing efforts.

Electrical and Steam Engineering.

Wards over the age of fourteen are afforded an opportunity in this department to build a future in electrical and steam engineering. Only those who are able to pass a physical and educational test are eligible. They are usually drawn from our class in sloyd, where they have attained some knowledge of mechanical drawing and become proficient in the care and use of the machinery employed in woodturning, as well as practice of tools. They soon adapt themselves to the cleaning of the switchboard and the many intricacies of currents and wires.

The batteries have many attractions for a boy, and while they are not permitted to exercise their inquisitorial minds or hands on the mechanisms of the motor when in motion, they can become instructed in the parts and purposes under the supervision of competent instructors. In pipefitting they are competent to make many repairs, and in cleaning they are of great service to the engineer. It is much to be regretted that lack of floor space does not admit of introducing the kindred branches of plumbing and iron working—two branches of trade that would give this class of boys a start in life as mechanics' apprentices, as well as the benefits to be derived by their services in repairs needed in this institution. Education in this department is well adapted to the class of boys committed to your charge.

Storeroom.

All assignments of supplies from the successful bidders on our annual schedule of supplies are here received, and it can be stated that it needs more than ordinary intelligence to successfully conduct this important branch of our business administration. Experience, good judgment, tact and integrity are four important factors. In the renewing and accepting of supplies, for some are found, for reasons not always easy to explain, disposed to make mistakes in quality and quantity in their delivery, each of the thousand and one things has to be scrutinized in weight and measurement, not alone in receiving, but in distributing to meet the daily demands of each department in the institution. Waste and extravagance have to be guarded against.

Certain order and cleanliness are imperative virtues in a well regulated and properly conducted storeroom, and this order and cleanliness exists. It is gratifying to say that a single complaint has never been made by anyone of the innumerable inspectors from the Finance Department whose duty it is to check each bill submitted to that efficient department of City government for payment, and in few instances have fractional inaccuracies been found in bills rendered. Here the wards can with certainty lay a foundation in a commercial education, in that which pays the highest reward for integrity, intelligence and business tact, aside from the opportunity of learning rudimentary lessons in bookkeeping, weights and measures, and a general store education in dry goods, hardware, groceries and innumerable other branches of trade.

Refectory.

During the past year the Department of Buildings and Offices has made many important changes in our dining hall and kitchen, which are located on the basement floor of the main building. The odor of cooking was more than once complained of by State and City Inspectors. A much improved condition now exists, the Department having placed a vent that reaches the dining hall and culinary department, ascending to and discharging on the roof of the building, and a free and healthy current of air circulates. The interior and exterior of the building are markedly improved and many needed repairs have been made by the Department.

Many changes have been made during the year in the discipline during meal time, and others are contemplated which cannot fail to improve your wards in table manners. They are apt and prompt in responding to new rules, and I feel the incoming new year will show a number of improvements in this department.

Recreation.

Health and development in growth largely depend on proper recreation periods, of which there are a little over three hours daily. "All work and no play makes Jack a dull boy," and sometimes a bad boy. Picture the condition that exists with our good boys, numbering close to three hundred at some seasons of the year, housed under the veranda of our old frame building, with two feet of frozen snow covering the only available space for recreation, in our extensive drill yard. Think of the long winter days and evenings, of the buoyancy of youth to be restrained, or vigor to be encouraged. Is the glow of health and physical development to be curtailed when mental improvement can only be attained by the health of body for strength of mind?

The youth of our time needs recreation to meet the battle of the future, more than ever existed in the past generations, and our duty of the present is to secure conditions that will to some degree meet the obligation due in helping those on whom the great future of our country will have to depend in other generations.

Armory.

We have one undeserving of the name. Four years ago there stood an old dilapidated frame barn in the northeast corner of what was then called the cabbage garden. A clever drawing and plan was made of William Shakespeare's house at Stratford-on-Avon in England by one of the advanced carpenter boys, and by general consent the old barn was turned over for practice to his class.

Patching and painting went on windows of an antique form; the plan found shape and proportion, conforming with the original structure of the past. Ceilings and floors were made from old lumber found around the grounds, and when complete it was captured by the first and second companies of our army, and is still held by them as shelter for their guns and other equipments. The army's title to its possession is disputed with vigor, and a counter claim is set up "that might is right," and to the victor belong the spoils.

An appeal is now made to the Committee on Building and Repairs of your Honorable Board to reimburse the rank and file by the building of an armory and gymnasium, thus affording a place of shelter and exercise during the many months of winter.

Seamstress' Workroom.

The first lesson on the sewing machine is here taught, of which there are five in daily operation. It is considered essential to instruct the junior class of operators in the use of the treadle in foot-power machines, for only those who exercise on lighter work would be later qualified for advancement to the tailoring department, where the machinery is propelled by electric power. The work in this department is alternated, morning and afternoon session, that each assignment of boys may have equal opportunity to learn cutting from graded patterns in sizes of shirts for day or night wear, underclothing, making and hemming of sheets, quilts, pillow covers, towels, table cloths and repairs. And all repairs are made here on wash goods of all description. The entire output from the laundry is here delivered for examination before assigning them to reserve closets or delivery to departments; and while we always had doubt if darning and patching was just the kind of work for a manly boy, we are assured by many lady visitors that their good work would put many of their sisters to shame, when compared with their sewing and darning, if tested with our boys' industry and skill. Friday and forenoon of Saturday are known as bundle days, from the fact that every ward in the school receives an entire change of raiment, and this includes all requirements in the dormitories and workrooms. This department contributes largely to the order and cleanliness found in all subdivisions of the institution.

Landscape and Other Gardening.

Hope was expressed in a previous report that a more liberal appropriation would be granted by the Board of Estimate and Apportionment for each year, to meet many contemplated improvements, among which was the building of a conservatory for the cultivation of flowers and plants by the boys of the advanced carpentry class, the plans and model of which can be seen in the school, and the expected funds are still in the treasury of the City. The class is composed of those discharged from the detention ward, and has made the first step in the direction of physical development and discipline. The junior class is composed of the latest assignment and receives two hours' instruction in the forenoon, while they receive school education in the afternoon. The second class is employed in the afternoon and attend the morning school session. From this department all branches of manual training are recruited. Grading, sodding, the care of lawns and flower beds are the services rendered in this department. Will the future bear better fruit? The small amount necessary should be found, as the attaining of this improvement would contribute largely to health and development of the boys interested in this attractive branch of education.

Religious Service.

In Chapel Hall religious service is held, twice in each subdivision, Hebrew, Roman Catholic and Protestant, weekly. Instruction in each subdivision is given by clergymen of these faiths. Services are held on Sundays, Tuesdays and Fridays of each week, for which the visiting clergyman receives a compensation of \$120 per annum, each being a Civil Service employee. Mondays, Thursdays and Saturdays of each week are days on which religious instruction is given under the direction of a monitor. Sunday evening is devoted to lectures on history, travel and mechanics, illustrated with views by the stereopticon, closing with reading and songs which inspire a spirit of patriotism, and this commendable spirit prevails among our little army of soldiers—for all are soldiers to no ordinary degree, for their knowledge of drill and calisthenics is rarely to be found in youths of their age.

Departments, How and Where Employed.

The new arrival is assigned to the Record Clerk, who collects the following information for statistical purposes, and which is carefully filed with the commitment, health certificate and other records of identity—number, name, residence, date of birth, place of birth, color, cause of commitment, date, committing Judge; boy's connections, mother's and father's name and how employed; religion, age, birthplace, nationality; brother's and sister's age, occupation and residence.

After these interrogatories the boy is introduced to your Superintendent and interviewed. Here we get the character and real condition. Confidence is soon established, all fear for the future is removed and the history of the past is truthfully told, with few exceptions. The lad is assured there will be no breach of confidence, and he is cautioned not to inform others of the cause of his commitment. He is impressed and encouraged that he is not a bad boy, and new hope is at once aroused in his sad heart that there are many privileges to be won and ultimate discharge to his home and parents, as a reward for good conduct; and it can be said with certainty that his struggle with himself during his term in the detention ward of eighteen days is marked carefully as the first step in the direction of character and discipline, and little difficulty is found in classifying him with those of his age, character and class education. His first impulse is to be a soldier in the ranks, to receive his new regimentals, gun and other equipments, which he understands is his individual property, and he is held responsible for their proper care, and his personal order and cleanliness at each inspection, of which there are four daily. Ten days' test in the awkward squad fits the recruit for a place in company file. An equal term on the farm or drill ground qualifies him for examination for school and shop. Positions in the latter are usually obtained by his personal application, which must meet the approval of the yard captain and consent of the instructor in charge of the trade shop he desires employment in. Once established the power of transfer cannot be granted except on the application of the instructor and audited by the Superintendent. No special task is im-

posed as to amount of production, but every effort must show accuracy in proportion to standing in class. Daily, weekly and monthly reports are made of each ward's standing in all departments of drill, shop and school, and due credit is given in percentage, and debits are deducted for any breach of discipline, after careful investigation of written charges made by any officer or ward, and punishment cannot be given in any degree except on written order of the Superintendent. But all officers have the power of arrest, and none the power of discharge.

It is gratifying for me to be able to say that our official staff gives first consideration to the boys assigned to their charge. They are faithful, thoughtful and inspire energy and efficiency in the boys assigned to their instruction.

EXTRACTS FROM REPORTS OF GRAND JURIES.

Extract from Report of Grand Jury for December, 1907.

The Grand Jury for December respectfully reports that on December 19 we visited the Brooklyn Disciplinary Training School for Boys. The Grand Jury desires to express its commendation of the very satisfactory results obtained in this institution by the Superintendent.

The prevention of crime is one of the greatest of social problems, and this training school is materially assisting the solution by converting boys on the road to crime into boys imbued with a desire to honestly labor and to become law-abiding citizens.

Grand juries have repeatedly, but to little avail, urged the necessity of better buildings and greater facilities for this most deserving institution, and this Grand Jury desires to place itself on record by asserting that the responsible officials who either neglect to provide or oppose appropriation for such necessary improvements are deliberately and wilfully opposing the making of honest men and good citizens, and thereby adding to and abetting future crimes.

Respectfully submitted,

WALTER DOUGLAS, Foreman.

Extract from Report of Grand Jury for November, 1907.

On November 27 the Grand Jury made a visit to the Brooklyn Disciplinary Training School for Boys, and were well pleased with what they saw there.

The Superintendent, Mr. James P. Farrell, escorted them through all the departments of the school and explained the system under which he conducts the institution.

The military drill by the boys was extremely interesting and could not be excelled by some of our State militia. It seems too bad that the buildings are in such poor condition, considering the good work being done there, and we would recommend that the Board of Estimate and Apportionment be a little more liberal with the school this year.

Respectfully submitted,

THEODORE BERGEN, Foreman.

Extract from Report of Grand Jury for February, 1907.

To the Honorable County Judge, Kings County:

Dear Sir—About the Brooklyn Disciplinary Training School for Boys on Eighteenth avenue and Fifty-seventh street, we are gratified to record our unqualified praise and commendation for the management of the Superintendent and the gentlemen composing the Board of Management.

There we found truly wonderful results in the training of boys to men, all of whom have broken the first step toward a commercial career.

The school is a model of cleanliness, order and system, and it would require but a casual visit to enlist the enthusiastic support of the majority of our citizens.

The expense per capita for maintaining the school shows economical and efficient management of its finances, and the results accomplished by the excellent system of training are literally absolutely incalculable.

We earnestly protest and condemn the efforts made to abolish this very important and worthy institution.

We also strongly recommend that the proper authorities provide a new and suitable building in place of the antique, inadequate and unsatisfactory one now in use, part of which was built 135 years ago.

Here again we note that former grand juries, months after months and years after years, gave similar recommendations, and we submit to the Honorable Court that when grand juries who endeavor to conscientiously perform the duties devolving upon them, devoting much of their time to investigating matters which come under their supervision, report and recommend, month after month, that certain improvements are so necessary to the welfare of this county, that some means should be provided to require the proper authorities to take cognizance of and act upon them, and to this end we respectfully solicit your valuable co-operation.

Respectfully submitted,

J. M. FISHER, Foreman.

Extract from Report of Grand Jury for April, 1907.

To the Honorable County Judge, Kings County:

Dear Sir—On April 11 the Grand Jury paid a visit to the Brooklyn Disciplinary Training School for Boys, and the remembrance of this visit must long remain with each of the visitors.

Probably but a small portion of the people of Brooklyn are aware that such an admirable correction institution exists in our City. The problem of meeting crime in its incipency and overcoming it without the harsh and drastic punishment which frequently only serves to harden the mind of the juvenile offender, seems to have been met and solved by the Superintendent, James P. Farrell, in a most satisfactory manner. Every punishment of a corporal nature has been abolished, and an appeal to the pride and better nature of each boy has wrought remarkable results. He has sought to find the better element inherent in the nature of these boys, and by encouraging this and by stimulating pride in superior performance of any of the duties, to smother and eliminate the bad for which they were committed.

This institution should be enlarged and encouraged. * * *

The Grand Jury recommend that provision be made by the Board of Estimate and Apportionment for a proper and suitable building, fireproof, of the latest sanitary excellence, and of size sufficient to accommodate the needs of the rapidly growing Borough.

The Grand Jury further recommend that the authorities of the Borough of Brooklyn, do immediately, with all red tape eliminated, provide for the repairing of the broken walls and ceilings of the present building, so that it may be at least decently habitable.

These latter recommendations are emergency cases only, and should be attended to without delay, even if it be necessary to suspend for awhile the increasing salaries until the necessary amount shall have become available.

THEO. J. MALLESON, Foreman.

The following are extracts from comments made after visits of inspection by public officials, managers of institutions, visiting grand juries, and reports from the State Board of Charities, etc.:

Comptroller Metz, before the Board of Estimate and Apportionment, said:

"There should be new buildings. I have been down there and the houses are in very bad condition. You could get better results with decent habitations. I believe I have heard the school very highly recommended; even the President of the Catholic Protective thinks very well of your institution."

The question of increase of appropriation was taken up in secret session the week following, and \$2,000 added to the appropriation of the previous years.

Extract from address by Rev. Wm. I. Nichols, of the Brooklyn Bureau of Charities, before the Monday Club of Brooklyn:

"I have been here a few times, but I have never seen it under such favorable conditions as I do to-day. I do not know of any other school in our community where the boys are better cared for and instructed under better conditions. I thought as I listened to that beautiful music that every one of those boys in the band have a trade with which he may earn his living some day when he leaves this institution."

"The boys here are taught not only to know things, reading, writing, arithmetic and these things, but to do things. I believe if the Board of Education of the City would only come out here they would at once conclude that this is a model school. I believe that one of the defects of the public school is that we try to educate the mind and not sufficiently educate the hand. We must educate both together."

"The boys of this institution are getting a rounded education. There is a place for study; there is a place for work; there is a place for play; so I cannot but speak in the way of encouragement to those who are carrying on the work of this institution, and also encouragement to the community."

At the presentation of a report of one of the grand juries, Judge Crane, of the Supreme Court, said:

"I have read your presentment regarding the Brooklyn Disciplinary Training School for Boys, and heartily endorse what you recommend. There are some persons who are persistently against those who violate the law for the first time, and want dire punishment inflicted upon them. We are not always careful that the young are reared properly, and are ourselves open to have charges laid at our door through neglect of this kind. There could be no greater crimes committed than the neglect of disciplinary schools. I trust that the public authorities will see that they are maintained."

Extract from address by Hon. Robert J. Wilkin, Justice of Children's Court, before the Brooklyn League:

"In relation to the management of the Brooklyn Disciplinary Training School for Boys, we have gone through the buildings and, as far as the management can make it, the institution is in perfect condition. I never went through a dormitory where the air was more sweet and clean, and in view of the dilapidated condition of the adjoining building the cleanliness speaks loudly for the management."

"It is clearly evident that the institution is doing something necessary and should be supported in a proper way. It remains for all of us to go to our Board of Estimate, and impress upon them the great necessity for such an institution as the Brooklyn Disciplinary Training School for Boys."

Extract from Address by the Hon. George W. Brush.

"Judge Wilkin is really the father of this institution and is the one who drew up the bill. He opened up the matter to me, and I very readily fell in with it, and took possession of the bill."

"Discipline is worth a great deal, as it is an important step towards success. If you are going to have success in this world you must have discipline and knowledge, and the object of this bill was to give you that discipline and knowledge; to take the boys out of the streets, where they were learning bad habits, and give them the education which they ought to have, to make them good and perhaps useful citizens, as a power in the land."

Extract from Address by Hon. James McKeen, President of the Brooklyn League.

"It causes me great pleasure on behalf of the Brooklyn League to say we have come here as members of the Brooklyn League to get inspiration, which was possibly needed to add to the extent of our power in aiding the development of this very important institution of our City. I wish to take this occasion to express the delight with which I viewed the military drill, which we had the pleasure of seeing this afternoon, and to congratulate the Superintendent upon that feature in this institution. Military drill is one of the best instrumentalities for usefulness in life."

Extract from "Brooklyn Eagle."

The following letter was sent to Borough President Coler by the Grand Jury: Hon. BIRD S. COLER:

Dear Sir—The December Kings County Grand Jury on Thursday last, the 19th inst., paid a visit to the various county institutions, and has submitted a report thereon to the County Court.

In that report attention is called to the meritorious work being done at the Brooklyn Disciplinary Training School for Boys, and to the pressing need by that institution of more liberal treatment in the matter of appropriations for its maintenance and enlargement.

It is by no means the first time a Grand Jury has made similar recommendations in regard to this school, but as little or nothing has resulted, as far as we can learn, we take the liberty of addressing you on this subject, in full confidence that you will do whatever lies in your power to further the best interests of the community at large and of this school in particular when you shall have satisfied yourself that it is deserving.

Not only as grand jurors, but as citizens, we are anxious to impress upon you the earnestness of our hope that you may find an opportunity to personally investigate the institution, for we feel sure that once you have done so you will be emphatic in upholding its claim for fair treatment at the hands of the proper authorities.

We realize the full force of the demand for economy in the administration of public affairs, and are in complete accord with it, but we believe that there are many other ways and means of exercising it, and that under application of it to the Brooklyn Disciplinary Training School for Boys would be a grave mistake.

HENRY A. SINCLAIR, Foreman.

Extract from "Standard Union."

"Comptroller Metz reviewed the cadets at the Brooklyn Disciplinary Training School for Boys, after which he said: 'The skill with which the boys went through their drill shows that they have been very well trained. A new school building should be erected for them here by the City. I will ask for an appropriation from the Board of Estimate and Apportionment. Those buildings are unsuited for the purpose to which they are put; and, in conclusion, I will state that it was a surprise and a revelation to witness the things that were being accomplished under such difficulties.'"

Extract from "Eagle" of an Address made Before the American Institute of Education. "Comptroller Metz described a visit he made to the Disciplinary Training School for Boys. He said: 'The conditions were better than that in the Brooklyn Truant Home. Fine work was done in the shops, and he was inclined now to vote for new buildings for the school, instead of having it abolished.'"

Extracts from Grand Jury Reports.

"On the afternoon of January 24 we visited the Brooklyn Disciplinary Training School for Boys, and made a thorough inspection of the grounds and buildings. We found the boys well clothed and contented. We are of the unanimous opinion that this institution is one of which The City of New York may well be proud. We found the highest state of discipline prevailing and the highest grade of efficiency reached possible with the expenditure of such limited appropriation allowed."

"Here also we found the buildings inadequate for the care of the inmates in case of fire. A fireproof building should be erected as soon as possible, as it is absolutely useless in its present condition."—James M. Doremus, Foreman.

"We most emphatically enter our protest against any movement to abolish this institution. We fully approve of the efficient management and the method employed in reforming juvenile offenders. We recommend to the Mayor and Board of Estimate that they provide suitable buildings for this institution. The present quarters are fully inadequate in every respect. The school should be given every facility for continuing and improving its already excellent work."—Charles C. Cotton, Foreman.

"Resolved, That we indorse the humanitarian work as conducted by the Brooklyn Disciplinary Training School. The general atmosphere of the place, the happiness and contentment as shown in the inmates, evidences the fact that it meets the situation of arresting and diverting from crime our depraved youth; and its manual and training so absorb the interest of boys committed thereto as to develop for them lives of usefulness and self-support."

"Resolved, That we firmly believe in the importance of an individual institution maintained upon the educational lines of the Brooklyn Disciplinary Training School for Boys, where the growth of evil might be checked and the latent quality of good stimulated and nurtured."

"We believe this to be worthy of the support of every good citizen, and that suitable modern buildings should be provided for expansion and instruction into additional useful occupations. In this way it is possible that the boys so committed may rise to useful citizenship and avoid the ignominy of a felon's cell."—Frederick Herg, Foreman.

"In our judgment the Disciplinary Training School for Boys is accomplishing an amount of good for the community at large, which can not be too highly commended. In this institution are gathered nearly three hundred boys under the age of sixteen, whose previous records would class them as incorrigible, but who are equipped, through a most admirable system, to lead useful and honorable lives, and the very small percentage of graduates who fail to benefit by the training attests the efficiency of the methods employed."—Samuel Rowland, Foreman.

"Our examination of the Brooklyn Disciplinary Training School for Boys has been quite exhaustive. We were extremely pleased with the work that is being done and the methods employed, and we can unqualifiedly indorse the praise given this institution by former grand juries."—Henry C. Johnston, Foreman.

"We freely confess that—to a man—we were amazed at the proficiency evinced by these youths and at the training accorded them at this school. Obedient, attentive, they learn with happy acquiescence and as great alacrity the duties prescribed for them. The results of their handiwork in carving, figure drawing, draughtsmanship, moulding, house joining, printing, tailoring, not to be mentioned the advance in music some fifty of their number, comprising their military band, made a deep impression upon all of us, recognizing, as we did, how the accomplishments they were so rapidly acquiring at this school were fitting them for entrance upon future lives of useful occupations."—W. Wallace Grant, Foreman.

"We cannot too cordially recommend what is being done and accomplished at this institution, and it deserves, and we hope will receive, ample appropriation to enable it to have every facility necessary for furthering the good work being done.

"The order and neatness displayed, as well as the marvelous results achieved with the means at their command, bespeak the efficiency of the management.

"We wish that every citizen of Kings County could visit the institution and realize for himself the good accomplished."—Frank H. Douglass, Foreman.

"The Disciplinary Training School for Boys is a model institution, so far as the aims and the actual good it has accomplished are concerned. The fact that not more than 5 per cent. of the graduates of the Disciplinary Training School have been returned or sent to other corrective institutions makes it the plain duty of officials and the citizens of this county to provide the funds necessary to erect suitable buildings for the accommodation of upward of 300 boys, and equip new shops with modern power machinery. Certainly it will not be long before the authorities must condemn the present structure as unsafe and order it vacated—unless, indeed, they are to waive their responsibilities and permit the City to maintain a vastly more dangerous establishment than they would any individual."—Wm. Thornton, Foreman.

"The school is a gem in the corrective institutions of the County, and as it provides for the younger element of our male population who need to be looked after in boyhood, it calls for the greatest interest and care of our officials.

"We urge upon the proper authorities the absolute necessity of providing funds for a new fireproof building.

"The present frame structure is very old, and should fire break out, in spite of all the careful protection now provided, loss of life might be great.

"The County is amply repaid, for it is better to keep one from being a criminal than to support and take care of him when it is too late for reformation."—Joseph S. Thayer, Foreman.

"This school we consider a model institution. We were shown through all parts of the buildings, and it cannot be too highly commended that the proper parties shall be invested with power to build suitable modern buildings, so that the good work may be extended, as we find the present buildings are very poorly adapted."—Granville W. Harman, Foreman.

"Our visit to the Disciplinary Training School was a great surprise to us. We did not know there was an institution of this character under the control of our City government. We heartily commend its efficient management and the magnificent work of saving the boys. We deplore the fact that more commodious buildings are not provided for this work.

"We do earnestly recommend to the Mayor and Board of Estimate that they provide necessary buildings and facilities. We cannot help these boys to useful lives and help them to become good citizens if we place them amongst the more mature and hardened criminals."—Charles D. Jerolaman, Foreman.

"We deprecate any effort to do away with the Brooklyn Disciplinary Training School for Boys. An hour spent by us in a visit to this institution was the most inspiring in our experience."—William J. Brown, Foreman.

"The Disciplinary Training School for Boys was visited, and we found the management and discipline of the school all that could be desired by the citizens at large, but we do consider that so worthy an institution should have a proper domicile as the existing buildings are old, dilapidated and totally unfit for the purpose. We earnestly ask that an appropriation be made at once for new buildings."—Albert J. Delatour, Foreman.

"The Brooklyn Disciplinary Training School for Boys we consider one of the most important of the county institutions, and one to which too much attention cannot be given. Here it is that bad boys who have never learned obedience are taught the manual of arms, instructed in printing, painting, tailoring, carpentering and other useful trades, besides being given a school education. This wholesome exercise and excellent discipline turns the current of their lives from possible vice and crime into channels of industry and thrift, and we believe that every facility be given this Department to further its work."—Robert S. Fletcher, Foreman.

"We are convinced that the work in the interests of the community at large is being conducted here with facilities entirely inadequate to the accommodation of the inmates. Steps should be taken to provide a building with proper equipments reclaiming juvenile offenders, without being hampered by the present limited accommodation."—Herbert K. Twitchell, Foreman.

In the Matter
of

The unsafe building east side Eighteenth
avenue, between Fifty-sixth and Fifty-
eighth streets.

To JAMES P. FARRELL, Superintendent:

You will please take notice that the building situated on the east side of Eighteenth avenue, Fifty-sixth to Fifty-eighth streets, being brick and frame structures and occupied as a Disciplinary Training School for Boys, is in an unsafe and dangerous condition in that the rear stoop of the brick building is worn out and decayed and that the frame building is very old, decayed in parts, settled, floors are weak, portions of which being able to sustain but fifteen pounds to square foot; also that portions of the building have been destroyed by fire and have not been repaired. This structure is entirely unfit for the purposes for which it is used.

You are therefore required to take down and remove the frame building and build a new stoop at the rear of the brick building.

You will also notice that unless you immediately certify to the Superintendent of Buildings your assent or refusal to the making safe of the same, I shall immediately cause to be commenced in the name of The City of New York an action as the law directs to have the aforesaid structure declared dangerous and unsafe, and to compel the removal or the repair of the same, and all costs and expenses incurred therein will become a lien on said building. No building or part of building is to be removed or demolished without a permit from this Department.

PETER J. COLLINS,
Superintendent of Buildings, Borough of Brooklyn.

XVII. One Special Feature or Matters.

It is undoubtedly true that much of the present difficulty in the matter of needed repairs being left unattended to is due to the failure of the Municipal Department, chargeable with the care of the building, to act with reasonable promptness.

The situation in this respect is unique. Here is a City institution renting its building from one Department of the Municipal Government (Sinking Fund Commissioners) and depending upon another for its ordinary repairs and improvements (Department of Public Buildings and Offices). The labyrinth of red tape in the form of requisitions, approvals, inspections and incidents, reports and correspondence takes up so much time that little in the end of lasting value is accomplished.

However, as at present organized, it can not satisfactorily accomplish the work set for it to do by the Legislature.

And again repeating the comments from the previous report. I am assured that "If the Municipality of the Greater City of New York seriously desires itself to undertake the education and training of its truants and juvenile offenders of the class, it were far better for both that it be done in a more creditable and comprehensive scale."

Steam boilers and heating plant reported out of order; grates burned out and general overhauling needed.

Building cannot be heated until repairs are made.

Respectfully submitted,

H. M. LECHTRECER, Inspector.

Resolution.

VIII. Repairs Needed and Condemned Building Should be Removed.

Repairs.

The need of repairs on the boilers was mentioned in last report. They have now been condemned by the authorities.

The electric light fixtures on the parade and playground have been for some time useless.

The main building needs painting and general overhauling.

The old frame building, now used for reception quarantine, infirmary, school rooms, carpenter shop, shoe shop, etc., is a fire hazard.

It is stated that it has been condemned by the authorities. It was not originally designed for the purpose for which it is now used, having been built more than one hundred years ago as a convent. A new building which will afford better facilities for school work and manual training, and a separate smaller building to be used as infirmary and reception quarantine are much needed.

Respectfully submitted,

R. W. WALLACE, Inspector.

Extract from Report of Inspection of the State Board of Charities.

May 22, 1907.

"Buildings and heating plant out of repair, new buildings needed to allow for a larger dining room, a recreation room and adequate quarantine."—Robert W. Hill, Secretary.

V. Administration.

"Buildings and grounds were found clean. The buildings are in a poor condition of repair."

"The inmates with a few exceptions are in good physical condition."

VI. Plant.

"There are two buildings occupied—one of brick and one of frame; the latter is 135 years old."

"The following are among the matters needing attention."

"Floors and stairways much worn and need renewing."

"Walls and ceilings broken."

"Toilet in rear yard out of repair and in an unsanitary condition."

"Dining room too small."

"Two of the boilers of the heating plant out of repair and could not be used during the past year."

"Lack of indoor play room."

"No suitable provision for reception quarantine."

"Better fire protection in old frame building."—R. W. Wallace, Inspector."

Letters from Wards and Guardians.

The following communications are a few of a very large number received from wards and guardians. In presenting the same we eliminate the name and substitute the initials with the record number, feeling that the exposure of the proper names and addresses may be detrimental to some degree in the future record of the pupils referred to. It is sufficient to say that we have received reports from about 195 of the 228 boys discharged during the year 1907. Of this large number only ten complaints have been made of the conduct of the boys discharged and not more than 3 per cent. of those discharged have reached courts for assignment to other institutions; 85 are reported as self-supporting, and favorable reports are received of 90 attending the public schools, satisfactory in conduct to both parents and teachers. I trust that the few following reports will be found illustrative of the number quoted above:

Dear Sir—My son George is working every day and I have no trouble with him.
From his Mamma,
Mrs. McC., No. 840.

Dear Sir—I wish to report the conduct of my son Charles for the past month as being excellent, both at school and at home.
Yours truly,
G. W. C., No. 743.

Dear Sir—I now write these few lines letting you know that my son Joseph went to school every day for the last month and is improving rapidly. He studies as he ought to.
Respectfully yours,
PETER B., No. 1035.

Dear Sir—It affords me great pleasure to let you know that my son Sandow is behaving well. His month's report from the public school was A. B. A., and I think it is through your good training for which I am so much indebted. Seeing that this good report will be kept up, I remain,
Mrs. L. G., No. 1241.

My Dear Sir—I would like to let you know that my son Edward's behavior is excellent. He still holds his position in the "Eagle" office with a very good record.
Thanking you for your kindness, I remain,
Yours very truly,
S. T., No. 1037.

Dear Sir—My son Charles, discharged from your institution June 26 last, is a credit to this training school and will in all probability never forget the year he spent at the school.
I believe this fulfills my agreement to report him once a month for six months.
I am, yours truly,
C. P. B., No. 1030.

Dear Sir—You wish to be kept informed of Frank's conduct. He is as good as you would wish him. He goes to school every day and is well liked. I cannot say anything wrong of him for he does the best he can. He is a good example of your good training. Frank sends his best wishes to all the boys.
Respectfully yours,
Mrs. A. K., No. 1140.

Dear Sir—I take great pleasure in reporting about my son John. He is still at work and doing first rate. I think this is the last letter I have to write as I think this is the sixth month.
Kindly let me know and oblige. Hoping this will find you enjoying good health and with best wishes, I remain,
Respectfully,
GEORGE B., No. 1128.

Dear Sir—As per agreement in my application, I write to state that my son Charles, released from your institution on the 26th of June last, obtained his working papers in due time; is now in the employ of a ship chandlery establishment as clerk and has given entire satisfaction.

We also received a visit yesterday from Mr. T. who called by request of institution to ascertain what progress my boy was making.

Respectfully yours,
C. P. B., No. 1013.

Sirs—I beg to report on the good behavior of my son Henry and his regular attendance at school. I am pleased to say I have had no trouble with him in the last six months.

This makes the sixth report. I am, sirs,

Yours truly,
F. W. B., No. 1011.

Dear Sir—I received your school card and I go to school all day. When I come home from school I go to Hebrew school and I was not absent since I went to school. I am getting along very nicely at home. I wash myself three times a day and shine my shoes.

I thank you for learning me to be a good and honest boy.

Yours truly,
HARRY B., No. 1031.

Dear Sir—A week after my discharge from the institution I found employment in a wholesale dry goods firm and am getting along very nicely. Am getting four and a-half dollars a week.

I also entered Wood's Business School and I am getting the benefit of a good education in typewriting, stenography and bookkeeping.

I am very grateful to you for recommending my discharge. I am not only grateful to you now but in years that will pass by; I will still remember the chance you gave me to grow up to be a man, and it is the chance that I took advantage of.

Having no more to write you now I will close.

Respectfully,
L. G., No. 801.

Dear Sir—I write you a few lines to let you know how my boy is getting along. He is going to school and is doing very well. I will always be glad to let you know how he is getting along and am very thankful to you.

Respectfully yours,
MRS. R., 764.

Dear Sir—I write these few lines letting you know Herman is a very good boy and is working until school starts. He is making \$5 a week and gives mamma every cent of it. He is always in before 8 o'clock at night and is not a bad boy; he is very good.

Yours most respectfully,
MISS DELLA B., No. 1218.

MUNICIPAL CIVIL SERVICE COMMISSION.

Minutes of Meeting of the Municipal Civil Service Commission of The City of New York, Held at the Commission's Offices, No. 299 Broadway, on Thursday, February 13, 1908, at 10 a. m.

Present—Commissioners Arthur J. O'Keeffe and R. Ross Appleton.
Commissioner O'Keeffe presided.

A public hearing was had on the proposed amendment of the classification of positions in the competitive class, Part VI. (the Street Cleaning service), by including therein the following titles:

"Custodian of Yard (1 incumbent for each yard)."

"Section Station Keeper (1 incumbent for each section station)."

Mr. John J. O'Brien, Chief Clerk of the Department of Street Cleaning, representing the Commissioner, appeared before the Commission and stated that the application to place the positions in the competitive class had been made through misapprehension, and that it was the desire of the Commissioner to have the same included in the labor class. In view of such statement the hearing was dismissed.

The hearing on the proposed amendment of the classification of exempt positions, by including therein, under the heading "Department of Water Supply, Gas and Electricity," the position of "Supervising Electrical Engineer," was postponed until such time as the position might be created by the Board of Estimate and Apportionment and the Board of Aldermen, in accordance with section 56 of the Greater New York Charter.

After the Commission had gone into regular session the minutes of the meeting held February 5 were approved.

Rasmus Tonnessen, of No. 944 Fourth avenue, Brooklyn, Bridge Painter in the Department of Bridges, then appeared before the Commission, in accordance with its instructions, to explain why he had assumed the name of Robert Henderson when filing his application for appointment to that position in the City service. The candidate stated that Robert Henderson was a family name and that he had assumed the same for business purposes for the reason that it was simpler than his own; that he had had no intention of deceiving the Commission of perpetrating any fraud. The explanation being satisfactory to the Commission, and the previous report of the Labor Clerk in the matter having been shown that Tonnessen was the man who applied for the position of Bridge Painter and who passed the Civil Service examination for the same, the Secretary was directed to change the name on the records of the office from Robert Henderson to Rasmus Tonnessen, and to notify the Bridge Commissioner of such action.

On the recommendation of the Committee on Transfers, the following transfers were approved:

825. Alexander Johnson, from the position of Assistant Engineer (competitive class), at a salary of \$5,000 per annum, to that of Consulting Engineer (exempt class), at a salary of \$7,500 per annum, in the Department of Bridges.

827. George Reinheimer, from the position of Rodman, at a salary of \$960 per annum, in the Board of Water Supply, to that of Rodman, at a salary of \$1,200 per annum, in the Department of Water Supply, Gas and Electricity.

828. Patrick Jennings, from the position of Attendant to that of Messenger in the Department of Docks and Ferries.

The Labor Clerk presented the following report on transfers, reinstatements, etc., in the Labor Class:

A report was presented from the Chief Examiner recommending that the papers of William P. Riggs, third grade Examiner in the Department of Finance, be rated as for promotion to the fourth grade and that his name be placed on the eligible list in accordance with the percentage received. It appeared that the candidate had presented himself for examination on a notice calling for the sixth grade and that it had afterward developed that the said notice was a year old, having been sent to the candidate in connection with a promotion examination held the previous year; that he had explained the matter to the satisfaction of the President, to whom it had been referred by the Commission, and that he (the President) in turn had referred the case to the Chief Examiner for a recommendation. The recommendation of the Chief Examiner was adopted.

Reports were presented from the Chief Examiner, dated February 11, with reference to the cases of John E. Sheedy, Jr., John F. Shevlin and Charles J. Lazzaro, candidates in the recent examination for Patrolman, who were dismissed from the examination by him, and transmitting letters from the candidates describing the circumstances which led up to their dismissal. After consideration of the matter, it appearing from the reports of the Chief Examiner that the candidates had completed their examination papers before being disqualified by him for communicating, the Commission directed that their papers be rated.

A report was presented from the Chief Examiner, dated February 11, with reference to the cases of William D. Lander and Michael J. Cuzzo, candidates in the recent examination for Patrolman, who were dismissed from the examination by him for communicating, and submitting letters from the candidates with reference to their dismissal. It appearing from the report of the Chief Examiner that the candidates had been detected communicating early in the afternoon, and that their papers had been taken up at 3.10 and 2.30 p. m., respectively, the requests of the candidates that their papers be rated were denied.

A report was presented from the Chief Examiner, dated February 10, stating that the application of John T. Nolan, candidate for the position of Fireman (17295), had been rejected for the reason that he was under age when the application was filed. The action of the Chief Examiner was approved.

A communication was presented from the Chief Examiner, dated February 6, with reference to the letter of Hon. Bird S. Coler, President of the Borough of Brooklyn, dated January 24, and stating that President Coler was correct in supposing that the scope of the examinations for third and fourth grade Clerk, held in June, 1906, was the same; that the only difference was that the arithmetic questions set for the fourth grade were slightly more difficult than those set for the third. It appeared that the Borough President, in his communication, requested that the Clerks who had qualified for promotion to the third grade be certified as eligible for promotion to the fourth grade without further examination. After careful consideration of the matter the request was denied in view of the fact that if the examinations for the third grade (old) were construed by the Commission to have qualified the candidates for promotion to the fourth grade (old), or \$1,200 per annum, under the new grading they would be eligible for advancement to a salary of \$1,650 without further examination, and the Commission was of the opinion that the examination taken by them in June, 1906, was not broad enough in scope to have qualified them for such advancement.

A letter was presented from the Chief Examiner recommending the following subjects and weights for examinations ordered by the Commission:

Telephone Operator.	
Duties	7
Experience	3
Process Server.	
Duties	7
Experience	3
Searcher.	
Duties	6
Experience	3
Arithmetic	1
Law Clerk.	
Handwriting	1
Letter	2
Arithmetic	2
Duties	5
Inspector of Plumbing.	
Technical	5
Experience	2
Report	2
Mathematics	1
Inspector of Meters and Water Consumption.	
Inspector of Pipes and Castings.	
Inspector of Pipe Laying.	
Inspector of Hydrants, Stop-cocks and Shop Work.	
Inspector of Light and Power.	
Technical	5
Experience	2
Report	2
Mathematics	1

The recommendations were adopted.

A letter was presented from the Chief Examiner, dated February 7, stating that the application of Charles Tonskey, of Kingston, New York, for the position of Patrolman on Aqueduct, had been rejected for the reason that it was not made out in the applicant's handwriting. The action of the Chief Examiner was approved.

A communication was presented from the Labor Clerk, dated February 7, recommending, in view of the fact that a large number of examinations for positions in the labor class would be held during the month of March, and the stress of business during that month would be very great, that a re-examination of the candidates on the following eligible lists for positions in Part III. be ordered by the Commission, for the purpose of extending those lists for another year, in accordance with Rule XIX, clause 9:

Dock Builder.
Riveter.
Foreman Riveter.
Boilermaker.

It appeared from the report that there were thirty-three (33) names on the existing list of Dock Builder, and ninety-six (96) on the preferred list of employees suspended from the Dock Department; that there were forty-four (44) names on the list of Riveter, two (2) names on the list of Foreman Riveter, and thirty-one (31) names on the list of Boilermaker; that as none of the said lists had been very active, and as they would terminate on March 31, 1908, the holding of the re-examinations would save a great amount of time and expense. The recommendation was adopted.

The Secretary called the attention of the Commission to the fact that the compensation of Doctors Doyle, Miller and Parry, Veterinarians, who were excepted from examination on January 1, 1907, to be employed from time to time in the Police Department during that year, pursuant to the provisions of Rule XII., paragraph 6, had soon thereafter exceeded the limit of \$750, fixed by the rule, and that their vouchers from that time had been passed under certificate No. 3; and requesting instructions as to the matter of certifying the vouchers of said persons during the year 1908. The Secretary was directed to continue passing the said vouchers under certificate No. 3 until such time as an eligible list for the position of Veterinarian could be prepared; and, on motion, it was

Resolved, That the Secretary be and he hereby is directed to proceed with an open competitive examination for Veterinarian at an early date.

On motion, it was

Resolved, That the Secretary be and he hereby is directed to proceed with an open competitive examination for Court Attendant.

On motion, it was

Resolved, That the Secretary be and he hereby is directed to advertise a public hearing for Wednesday, February 19, 1908, at 10 o'clock a. m., on the matter of exempting the position of Interpreter in the City Magistrates' and the Municipal Courts.

A communication was presented from the Secretary of the State Civil Service Commission, dated February 7, stating that at a meeting of that Board, held on the 6th inst., the resolution of the Municipal Commission, striking from the exempt class the position of Executive Secretary in the Mayor's office, had been ordered continued on the calendar, and that the resolution, including the position of Pilot, Department of Water Supply, Gas and Electricity, in the non-competitive class, had been approved. The communication was ordered filed.

A communication was presented from the Secretary of the State Civil Service Commission, dated February 11, returning the resolution of the Municipal Commission, reclassifying the employees holding legal positions in the Law Department, with certificate of approval of the State Commission attached. The communication was ordered filed.

The Secretary called the attention of the Commission to an amended record submitted by the Fire Department in the case of John A. Harney, candidate in the recent examination for promotion to Assistant Foreman. It appeared from the amended record that Mr. Harney was entitled to a "class B" award for bravery, October 17, 1904, instead of the "class D" award which was shown on the old record; that the substitution would make a difference of two per cent. in his rating on record, and one per cent. in his general average rating. The amended record was approved.

A communication was presented from the Police Commissioner, dated February 3, stating that, on receipt of a certified copy of judgment of the Appellate Division, Supreme Court, First Judicial Department, dated January 17, 1908, and an opinion of the Corporation Counsel, dated January 27, 1908, Peter Clancy, who was dismissed from Patrolman in the Police Force of The City of New York on the 28th day of February, 1907, had been reinstated in that position. The papers were ordered filed.

A communication was presented from the Board of Water Supply, dated February 6, stating that in the organization of the Police Force for service on the aqueduct the

assistance of a competent Chief and Deputy Chief would be necessary; that the qualifications for those positions would include expert knowledge and a high degree of administrative ability, and requesting that the positions be exempted from examination. The Secretary was directed to advertise a public hearing on the matter for Wednesday, February 19, at 10 o'clock a. m.

A letter was presented from the President of the Borough of Brooklyn, dated February 3, stating that the salary of Mr. Thomas F. Kirwin, Clerk in the Bureau of Highways, had been fixed at the rate of \$2,100 per annum, to date from February 1, 1908, and certifying that there were less than three Clerks employed in the Bureau of Highways in the next lower grade eligible and willing to compete for such promotion, owing to the fact that Mr. Henry C. Clark, Clerk, third grade, had filed a formal communication waiving his right to compete for promotion to the fourth grade. The increase in salary was approved.

On motion, it was

Resolved, That the Secretary be and he hereby is directed to summon William C. Miller, D. V. S., of No. 465 West Forty-seventh street, New York City, for a non-competitive examination to qualify him for provisional appointment as Veterinarian in the Department of Health, pending the preparation of an eligible list for that position, pursuant to the provisions of Rule XII., paragraph 3.

A communication was presented from the Secretary of the Board of Education, dated January 20, requesting that the promotion of Michael Rosmarin, Stenographer and Typewriter in the Bureau of Lectures of that Department, to the third grade be permitted to take effect from the date of his examination. The request was denied, and the Secretary was directed to communicate with the Board of Education and state that the promotion could not be recognized by the Commission prior to the date of the certification of the eligible list from which it had been made.

A letter was presented from the Secretary of the Board of Education, dated February 4, transmitting a certified copy of a resolution adopted by that Board at a meeting held on the 3d inst., requesting the Civil Service Commission to approve the emergency appointment of Miss Louisa A. Kroencke as Stenographer and Typewriter. The Secretary was directed to communicate with the Department and state that before the Commission could approve the appointment it would be necessary for it to explain the nature of the emergency.

A communication was presented from the Commissioner of Street Cleaning, dated February 6, in reply to the letter of the Commission asking for a report on the protest of the Secretary of the Central Federated Union, that helpers to harnessmakers on horse goods who had not passed a Civil Service examination were employed in the Department of Street Cleaning. The letter stated that there were no regularly appointed harnessmakers' helpers in that Department; that at times, when the work was heavy mechanics' helpers, who were familiar with that class of work, were sent to assist the harnessmakers in the emergency. The communication was ordered filed.

A communication was presented from the Clerk of the Court of Special Sessions, First Division, dated February 7, requesting by direction of the Justices, that a non-competitive examination be held to qualify Mr. Hugh S. Doyle, Clerk, for promotion from second to third grade, a vacancy in the latter position being expected in the near future. The request was denied, and the Secretary was directed to communicate with the Clerk of the Court and state that it would be necessary for the candidate to qualify in the regular annual promotion examination.

A communication was presented from the Commissioner of Health, dated February 4, with reference to the letter from the Secretary of the Health Department under date of January 30, 1908, notifying the Commission that, pursuant to a resolution of the Board of Health, the following named persons employed in that Department had been transferred from the place and Borough to the place and Borough set opposite their names, to take effect on the dates specified:

It appeared from the letter of the Commissioner that the transfers had been made at the request of the Bureau of Municipal Research in order that all salaries might be charged to the fund or appropriation made for the carrying on of the office or the positions in which said persons were employed. The papers were ordered filed.

The following reports of Departmental Examining Boards for positions in the non-competitive class were approved on the recommendation of the Chief Examiner:

Department of Public Charities, February 10.

Department of Correction, February 10, 11.

On motion, it was

Resolved, That the following appointments in the Board of Water Supply be and they hereby are approved under the provisions of Rule XII., paragraph 7:

John A. Canning, Gage Keeper, \$5 per month, Centre Moriches, Long Island.

Randolph Vredenburg, Janitor, \$40 per month, Peekskill, New York.

On motion, it was

Resolved, That Dr. Richard J. Egan, of No. 106 East One Hundred and Seventeenth street be and he hereby is excepted from examination, pursuant to the provisions of Rule XII., paragraph 6, to be employed for a temporary period in the Department of Parks, Boroughs of Manhattan and Richmond, in connection with the Central Park Ambulance Service; provided, however, that his total compensation shall not exceed \$750.

On motion, it was

Resolved, That Mr. Warren O. Hagen, of No. 99 Livingston street, Brooklyn, be and he hereby is excepted from examination, pursuant to the provisions of Rule XII., paragraph 6, to be employed during the current year as a School Farm Attendant at the Children's School Farm, DeWitt Clinton Park (Department of Parks, Boroughs of Manhattan and Richmond); provided, however, that his total compensation shall not exceed \$750.

A communication was presented from the Commissioner of Public Charities, dated February 7, requesting authority to employ the American Locomotive Automobile Company, No. 1886 Broadway, New York City, to furnish a chauffeur for a temporary period at a compensation of \$5 a day. The request was granted, and the Secretary was directed to attach certificate No. 3 to the vouchers for such services, when presented.

On motion, it was

Resolved, That Messrs. S. James Trapani, Albert E. Conti and Bernard Rothberg be and they hereby are excepted from examination, pursuant to the provisions of Rule XII., paragraph 6, to be employed by the Board of Coroners, Borough of Brooklyn, from time to time during the current year as Interpreters; provided, however, that their total compensation shall not exceed the sum of \$750 each.

On motion, it was

Resolved, That Mr. H. S. Morrison be and he hereby is excepted from examination, pursuant to the provisions of Rule XII., paragraph 6, to be employed to render expert stenographic services from time to time in the Board of Estimate and Apportionment; provided, however, that his total compensation shall not exceed the sum of \$750.

On motion, it was

Resolved, That Mr. Frank B. Sheridan be and he hereby is excepted from examination, pursuant to the provisions of Rule XII., paragraph 6, to be employed by the Department of Taxes and Assessments during the current year to furnish transcripts of all real estate conveyances and auction sales in the Boroughs of Manhattan and The Bronx; provided, however, that his total compensation shall not exceed the sum of \$750.

The following emergency appointments were approved under the provisions of Rule XII., paragraph 4:

Paul M. McCabe, Topographical Draughtsman, Office of Borough President, The Bronx.

R. Feuerlicht, typewriting, Office of Commissioners of Accounts.

Suzanne Heber, typewriting, Office of Commissioners of Accounts.

Emily Wilson, stenographic services, Board of Coroners, Manhattan.

P. W. Von Preif, typewriting, the College of The City of New York.

Process Server (Postmaster, Boston, Massachusetts), Bureau of Buildings, Brooklyn.

A communication was presented from the President of the Borough of Brooklyn, dated February 8, stating that the absence of the name of Peter McGoe, Attendant in the Bureau of Public Buildings and Offices, from the payroll of his Department was due to the fact that he had been suspended for a period of thirty-nine (39) days without pay, to date from December 20, 1907. The communication was ordered filed.

The Secretary presented, with a request for instructions, vouchers from the Mayor's office for compensation of persons not regularly employed by The City of New York, for special services rendered to the City during the periods indicated:

June 11, 1907, to January 20, 1908, H. deB. Parsons, member of the Commission on Street Cleaning and Waste Disposal, \$4,352.99.

June 11, 1907, to January 20, 1908, Rudolph Hering, member of the Commission on Street Cleaning and Waste Disposal, \$2,968.13.

June 11, 1907, to January 20, 1908, Samuel Whinery, member of the Commission on Street Cleaning and Waste Disposal, \$2,678.88.

The vouchers were approved, and the Secretary was directed to attach certificate No. 3.

A letter was presented from the Commissioner of Correction, dated February 11, stating that it would be impossible for him to spare all the Orderlies, Nurses, etc., who were candidates for promotion to Matron, on the day of the examination, and requesting that a second day be set for the examination in order that the candidates might be examined in two relays. The request was granted.

The request of the President of the Borough of The Bronx, under date of February 10, for authority to extend the provisional appointments of Messrs. William Crafts, H. E. Murgatroyd and James J. Maloney, Jr., until the promulgation of the new eligible list for Topographical Draughtsman (\$1,350), was denied in view of the existence of a preferred list for that position.

A letter was presented from Hon. Frederic DeWitt Wells, Justice of the Municipal Court of The City of New York, Borough of Manhattan, dated February 13, requesting that, in the event of the exemption of the additional Assistant Clerks in that Court, the Commission so frame its resolution as to make their appointments effective from January 1, 1908. The Secretary was directed to communicate with Justice Wells and inform him that, in view of certain court decisions, in the event of the additional Assistant Clerks in the Municipal Court being exempted from examination with the approval of the State Board, their appointment from January 1, 1908, would be recognized by the Commission.

The request of Andrew F. McNamara, of No. 21 Berkeley place, Brooklyn, that his name be transferred from the eligible list for promotion to third grade Clerk in the Tenement House Department to that for the Bureau of Buildings, Brooklyn, was denied.

The following requests for restoration to the eligible lists indicated were granted: Randall V. O'Grady, No. 883 Trinity avenue, Senior Clerk (old). Stated in affidavit that he was serving in the Philippines when certified to the Tenement House Department in October, 1907.

Florence J. Sullivan, No. 146 West Seventy-eighth street, Inspector of Sewer Construction, for appointment in Brooklyn and Richmond. Stated that when he declined appointment in those Boroughs on October 21, 1907, he anticipated locating elsewhere.

Robert C. Nolan, 1015 East One Hundred and Seventy-seventh street, Temporary Clerk (preferred). Stated that when he was certified to the Board of Elections in December, 1907, he was employed in the Board of Assessors, and did not think it necessary to reply to notice from the former department.

James W. Laird, No. 45 New York avenue, Brooklyn, Topographical Draughtsman for all Boroughs but Richmond. Declined appointment in the office of the President of the Borough of Richmond on February 4, 1908, on the score of "location."

Isaac Lazarus, No. 20 West Sixty-fifth street, Watchman (preferred), for appointment at \$600. Declined 25 cents per hour in the Dock Department on August 9, 1907.

The request of John J. Nolan, Locust avenue, Jamaica, South, Long Island, that his name be restored to the eligible list of Janitor (Steam Heating), was denied for laches.

The request of Charles F. Kelly, No. 110 East Ninety-sixth street, that his name be restored to the preferred list of Inspector of Regulating, Grading and Paving, was denied, that list having expired by limitation on December 12, 1907.

The request of George Heemsath, No. 2351 First avenue, that his name be restored to the eligible list of Fireman was considered. The Secretary was directed to communicate with the candidate and inform him that such request could only be granted in the event of the Fire Commissioner signifying his willingness to reappoint him.

The request of Charles C. Knodel, No. 471 Fifth street, Brooklyn, that his name be placed on the preferred list of Stenographer and Typewriter for reappointment within The City of New York, was granted in view of the fact that the candidate was originally appointed in the Board of Water Supply for assignment outside the City from the general eligible list of Stenographer and Typewriter.

A letter was presented from Messrs. Potter and Miner, Attorneys and Counselors at Law, No. 25 Broad street, with reference to the standing of Mrs. Leah W. Mehrer, of No. 2490 Seventh avenue, upon the preferred list of Attendant. The Secretary stated that he had replied to a previous communication from the attorneys, giving them full information in the matter. The communication was ordered filed.

The Commission then adjourned to meet Wednesday, February 19, 1908, at 10 o'clock in the forenoon.

F. A. SPENCER, Secretary.

BOARD OF EXAMINERS.

February 4, 1908.

Present—Messrs. Warren A. Conover, Lewis Harding, Charles G. Smith, Edward F. Croker, Henry R. Marshall and George A. Just, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Appeal 4 of 1908 (laid over at last meeting).

Appearances—Messrs. Luce, Kolby and Tracy.

On motion, approved.

Appeal 5 of 1908, Alteration 117 of 1908, premises No. 133 West Fourteenth street, Manhattan, Charles S. Clark, appellant.

Walls are of unlawful thickness.

The walls of present building are in first-class condition, built of good hard brick, laid up in cement mortar.

That the law be so modified as to allow the alteration of said building without increasing the thickness of the party walls.

That the said building will not be increased in height. That the floor load will only be increased about fifteen pounds per superficial foot. That the floor timber is strong enough to carry the load.

The building to be occupied as stores on the basement and first stories. The upper floors occupied as offices.

Appearances—Mr. C. S. Clark.

On motion, approved on condition that the appellant place in each story, above the cellar, a line of columns and girders, subject to the approval of the Bureau of Buildings.

The question of coal pocket construction was made a special order of business for this date (minutes of January 22nd, ult.).

Mr. Smith, as the Committee of One, reported verbally and also presented type-written memoranda of correspondence relative to concrete coal pockets in various localities; whereupon Chief Croker moved the following resolution:

Resolved, That hereafter it shall be the policy of this Board not to approve the construction of non-fireproof coal pockets or grain elevators.

Mr. Marshall moved that this resolution be laid on the table pending further investigation; and further, that the Clerk be instructed to write to all owners of concrete coal pockets, as listed in the correspondence presented by Mr. Smith, asking whether or not the workings of such coal pockets are satisfactory; which was carried.

Letter from the Superintendent of Buildings, Borough of Brooklyn, dated February 1st, inst., read and ordered on file.

Letter from the Assistant Secretary of the Board of Estimate and Apportionment, dated the 27th ult., read and ordered on file.

Adjourned.

EDWARD V. BARTON, Clerk.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTION 11.

EAST ONE HUNDRED AND SEVENTY-THIRD STREET—SEWER AND APPURTENANCES, between Southern boulevard and Hoe avenue, and HOE AVENUE—SEWER, between East One Hundred and Seventy-third and One Hundred and Seventy-second streets. Area of assessment: Both sides of Hoe avenue, from One Hundred and Seventy-second to One Hundred and Seventy-fourth street; both sides of Bryant avenue, between One Hundred and Seventy-second and One Hundred and Seventy-fourth streets; both sides of One Hundred and Seventy-third street, from the Southern boulevard to Longfellow avenue.

TWENTY-FOURTH WARD, SECTIONS 11 AND 12.

MORRIS AVENUE—REGULATING, GRADING, CURBING, FLAGGING, LAYING CROSSWALKS, BUILDING APPROACHES AND PLACING FENCES, from St. James Park to Jerome avenue, at Parkview terrace. Area of assessment: Both sides of Morris avenue, from St. James Park to Jerome avenue, at Parkview terrace, and to the extent of half the block at the intersecting streets and avenues.

—that the same were confirmed by the Board of Revision of Assessments on March 5, 1908, and entered March 5, 1908, in the Record of Titles of Assessments kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of the Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assess-

ments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act.

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon or before May 4, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to lay out and fix grades for Heberton avenue, between Ann street and Richmond terrace, in the Third Ward, Borough of Richmond, and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on March 13, 1908, at 10.30 o'clock a. m., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on February 14, 1908, notice of the adoption of which is hereby given, viz:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out and fixing grades for Heberton avenue, between Ann street and Richmond terrace, in the Third Ward, in the Borough of Richmond, City of New York, more particularly described as follows:

LINES.

A. The northwesterly line of the street is to begin at the intersection of the northeasterly line of Ann street with the northwesterly line of Heberton avenue, as the said streets are now in use.

1. Thence northeastwardly along the line of Heberton avenue, as now in use, a distance of 195.71 feet, forming an angle with Ann street in the northerly quadrant of the intersection of 89 degrees 59 minutes 58 seconds.

2. Thence northeastwardly, curving to the right on the arc of a circle of 198.19 feet radius, tangent to the preceding course, 130.10 feet.

3. Thence eastwardly and tangent to the preceding course 136.77 feet to the line of Richmond terrace.

B. The southeasterly line of the street is to be 65 feet southeasterly from and parallel with the above-described northwesterly line.

GRADES.

1. The grade of the northwesterly curb line on the northwesterly curb line of Ann street is to be 21.6 feet.

2. The grade of the southeasterly curb line at the northwesterly curb line of Ann street is to be 21.2 feet.

3. The street grade at the intersection of the centre line with the radial line passing through the southerly points of curvature described in the alignment is to be 19.3 feet.

4. The grade of the northerly curb line at its intersection with the westerly curb line of Richmond terrace is to be 9 feet.

5. The grade of the southerly curb line at its intersection with the westerly curb line of Richmond terrace is to be 8.65 feet.

The above elevations refer to Richmond high-water datum.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 13th day of March, 1908, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to the 13th day of March, 1908.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment held on February 14, 1908, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of West One Hundred and Eighty-fourth street, from Broadway to unnamed street (Overlook terrace), and opening and extending said unnamed street (Overlook terrace), from West One Hundred and Eighty-fourth street to Fort Washington avenue, in the Borough of Manhattan, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the line bisecting the angle formed by the prolongations of the centre lines of Bennett avenue and the unnamed street meeting West One Hundred and Eighty-first street westerly therefrom distant 100 feet southerly from the southerly line of West One Hundred and Eighty-fourth street, the said distance being measured at right angles to the line of West One Hundred and Eighty-fourth street, and running thence westwardly in a course parallel with West One Hundred and Eighty-fourth

street to the intersection with the prolongation of a line distant 100 feet westerly from and parallel with the westerly line of Overlook terrace, the said distance being measured at right angles to the line of Overlook terrace; thence northwardly along a line always distant 100 feet westerly from and parallel with the westerly line of Overlook terrace as laid out north of West One Hundred and Eighty-fourth street to the intersection with a line distant 450 feet southerly from and parallel with the southerly line of Overlook terrace as laid out east of and adjacent to Fort Washington avenue, the said distance being measured at right angles to the line of Overlook terrace; thence westwardly and parallel with the said line of Overlook terrace as laid out east of Fort Washington avenue to the intersection with a line always distant 100 feet westerly from and parallel with the westerly line of Fort Washington avenue, the said distance being measured at right angles to the line of Overlook terrace; thence northwardly along the said line parallel with Fort Washington avenue to the intersection with a line distant 750 feet northerly from the northerly line of Overlook terrace as laid out immediately east of Fort Washington avenue, the said distance being measured at right angles to the line of Overlook terrace; thence eastwardly along the said line parallel with Overlook terrace to the intersection with the prolongation of a line distant 100 feet easterly from and parallel with Overlook terrace as laid out southerly from the angle point east of Fort Washington avenue, the said distance being measured at right angles to the line of Overlook terrace; thence southwardly along a line always distant 100 feet easterly from and parallel with the easterly line of Overlook terrace as laid out south of the angle point east of Fort Washington avenue, and along the prolongation of the said course to the intersection with a line bisecting the angle formed by the prolongations of the centre lines of Overlook terrace and Bennett avenue as laid out immediately northerly from West One Hundred and Eighty-fourth street; thence southwardly along the said bisecting line to the intersection with a line midway between West One Hundred and Eighty-fourth street and the first street northerly therefrom as laid out between Broadway and Overlook terrace; thence eastwardly along the said line midway between West One Hundred and Eighty-fourth street and the first street northerly therefrom to the centre line of Broadway; thence southwardly along the centre line of Broadway to the intersection with the prolongation of a line midway between West One Hundred and Eighty-fourth street and West One Hundred and Eighty-fifth street as laid out between Wadsworth avenue and Broadway; thence eastwardly along the said line midway between West One Hundred and Eighty-fourth street and West One Hundred and Eighty-fifth street and the prolongation thereof to the intersection with a line distant 100 feet easterly from and parallel with the easterly line of Broadway, the said distance being measured at right angles to the line of Broadway; thence southwardly along the said line parallel with Broadway to the intersection with a line midway between West One Hundred and Eighty-third street and West One Hundred and Eighty-fourth street; thence westwardly along the said line midway between West One Hundred and Eighty-third street and West One Hundred and Eighty-fourth street, and the prolongation thereof, to the intersection with the centre line of Broadway; thence southwardly along the centre line of Broadway to the intersection with a line parallel with West One Hundred and Eighty-fourth street as laid out between Broadway and Overlook terrace, and passing through a point on the westerly line of Bennett avenue distant 330 feet southerly from the intersection of the westerly line of West One Hundred and Eighty-fourth street; thence westwardly along the said line parallel with West One Hundred and Eighty-fourth street to the intersection with the herebefore-described line bisecting the angle formed by the prolongations of the centre lines of Bennett avenue and the unnamed street meeting West One Hundred and Eighty-first street westerly therefrom; thence northwardly along the said bisecting line to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 13th day of March, 1908, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the City Record for ten days prior to the 13th day of March, 1908.

In the matter of acquiring title by The City of New York to certain lands and premises situated on the WESTERLY SIDE OF AVENUE A, or Sutton place, and the NORTHERLY SIDE OF FIFTY-NINTH STREET and the SOUTHERLY SIDE OF SIXTIETH STREET, between Avenue A, or Sutton place, and First avenue, in the Borough of Manhattan, in the City of New York, duly selected with other property as a site for the Blackwells Island Bridge.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Appraisal in the above-entitled proceeding, do hereby give notice to the owner or owners, lessee or lessees, parties or persons respectively entitled to or interested in the lands, tenements, hereditaments and premises, title to which is sought to be acquired in this proceeding, and to all others whom it may concern, to wit:

First—That we have completed our estimate of the loss and damage to the respective owners, lessees, parties or persons respectively entitled to or interested in the lands and premises affected by this proceeding, or having any interest therein, and have filed a true report or transcript of such estimate in the office of the Board of Estimate and Apportionment of The City of New York, Room 1406, No. 277 Broadway, in the Borough of Manhattan, City of New York, for the inspection of whomsoever it may concern.

Second—That all parties or persons whose rights may be affected by the said estimate, or who may object to the same, or any part thereof, may, within ten days after the first publication of this notice, Thursday, March 5, 1908, file their objections, in writing, with us, at our office, Room 401, No. 258 Broadway, in the Borough of Manhattan, in the City of New York; and we, the said Commissioners, will hear parties so objecting, at our said office, on the 18th day of March, 1908, at 3.30 o'clock in the afternoon of that day, and upon such subsequent days as may be found necessary.

Dated New York, March 4, 1908.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of GLEBE AVENUE, from Westchester avenue to Overing avenue; LYON AVENUE, from Zerega avenue to Castle Hill avenue; FRISBY AVENUE, from Zerega avenue to West Farms road; TRATMAN AVENUE, from Zerega avenue to Benson avenue, all of which are in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN THAT BY orders of the Supreme Court, bearing date the 29th day of October, 1907, and the 5th day of February, 1908, and duly entered in the office of the Clerk of the County of New York at his office, in the Borough of Manhattan, in the City of New York, on the 16th day of December, 1907, and the 6th day of February, 1908, a copy of the order bearing date the 29th day of October, 1907, was duly filed in the office of the Register of the County of New York, we, Robert H. Bergman, Timothy F. Driscoll and George Burchell, were appointed Commissioners of Estimate, for the purpose of making a just and equitable estimate and assessment of the loss and damage to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening and extending the above-mentioned streets or avenues, the same being particularly set forth and described in the petition of

The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and the said Robert H. Bergman was appointed Commissioner of Assessment for the purpose of making a just and equitable estimate and assessment of the value of the benefit and advantage of the said streets or avenues so to be opened and extended to the respective owners, lessees, parties and persons respectively entitled to or interested in the respective lands, tenements, hereditaments and premises situated within the area of assessment adopted by the Board of Estimate and Apportionment and not required for the purpose of opening and extending the same but benefited thereby, the said area of assessment being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4, of the Greater New York Charter as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening and extending the said streets or avenues and affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate, at our office, ninth floor, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, with such affidavit or other proof as the owners or claimants may desire, within ten days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 16th day of March, 1908, at 11 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of CHURCH AVENUE, from Flatbush avenue to East Eleventh street, in the Twenty-ninth Ward, Borough of Brooklyn, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, No. 166 Montague street, in the Borough of Brooklyn, in the City of New York, on or before the 18th day of March, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 19th day of March, 1908, at 2.30 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 28th day of March, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the westerly side of Flatbush avenue where the same is intersected by a line drawn parallel with Church avenue and distant two hundred feet northerly of the northerly side of Church avenue; running thence westerly and parallel with Church avenue to the easterly side of East Eleventh street or Stratford road; running thence southerly and along the easterly side of East Eleventh street or Stratford road to where a line drawn parallel with the southerly side of Church avenue and distant two hundred feet southerly therefrom would intersect the easterly side of said Stratford road; running thence easterly and parallel with Church avenue to the westerly side of Flatbush avenue; running thence northerly along the westerly side of Flatbush avenue to the point or place of beginning.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 12th day of May, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 9th day of March, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 10th day of March, 1908, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 17th day of March, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the westerly line of Gravesend avenue and southerly line of Eighteenth avenue, and running thence southerly along said westerly line of Gravesend avenue to its intersection with the northerly line of Avenue I; thence westerly along said northerly line of Avenue I to its intersection with the easterly line of West street, and thence northerly along said easterly line of West street to its intersection with the northerly line of Forty-eighth street; thence northwesterly along said prolongation and northerly line of Forty-eighth street to its intersection with the southerly side of Nineteenth avenue; thence northerly to a point formed by the intersection of the northerly line of Nineteenth avenue with the centre line of the blocks between Forty-seventh and Forty-eighth streets; thence northerly along said centre line to its intersection with the southerly line of Eighteenth avenue; thence north-easterly and easterly along said southerly line of Eighteenth avenue to the point or place of beginning, as such area is shown on the benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 20th day of April, 1908, at the opening of the Court on that day.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 20th day of April, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Brooklyn, February 18, 1908.

SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of FIFTIETH STREET, from the old City line to New Utrecht avenue, in the Thirtieth Ward, Borough of Brooklyn, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 9th day of March, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 10th day of March, 1908, at 11 o'clock a. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates and proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 17th day of March, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the westerly line of New Utrecht avenue and a line drawn parallel to and distant one hundred (100) feet southerly from the southerly line of Fiftieth street, and running thence northwesterly along said parallel line to its intersection with the old City line; thence northeasterly along said old City line to its intersection with a line drawn parallel to and distant one hundred (100) feet northerly from the northerly line of Fiftieth street; thence southeasterly along said last mentioned parallel line to its intersection with the westerly line of New Utrecht avenue; thence southerly along said last mentioned line to the point or place of beginning, as such area is shown upon our benefit maps, deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 20th day of April, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
