LAW DEPARTMENT, OFFICE OF THE COUNSEL TO THE CORPORATION,  
NEW YORK, August 23, 1895.

Isaac H. Terrell

vs.

William L. Strong, Mayor, James C. Duane and others, Aqueduct Commissioners, etc.

Hon. JAMES C. DUANE, President.

SIR—In the suit entitled as above a temporary injunction was granted restraining the City authorities from making a contract with John B. McDonald, or with any one else, for the building and construction of Jerome Park Reservoir, and an order was also granted requiring the defendants to show cause why the injunction should not be continued during the pendency of the action.

The motion to continue the injunction was argued before Mr. Justice O'Brien, who has decided against the plaintiff.

An order denying the motion to continue the injunction and vacating the temporary injunction has been entered, so that the suit no longer interferes with any action which the Aqueduct Commissioners may desire to take in regard to the letting of the contract for the building of the reservoir.

Very respectfully,

WM. L. TURNER, Acting Counsel to the Corporation.

—together with the following opinion:

SUPREME COURT.

Isaac H. Terrell

against

William L. Strong, Mayor, etc., and others, Aqueduct Commissioners.

O'Brien, J.:

Plaintiff, as a taxpayer, brings this action to obtain a judgment preventing waste and injury to the City funds.

It appears that the Aqueduct Commissioners advertised for sealed bids or proposals for the construction and building of a reservoir at Jerome Park. That among a number of other bids received were those from John O'Brien for \$5,297,370, and John B. McDonald for \$5,472,080. That O'Brien's bid is \$174,710 less than McDonald's, and was the lowest bid made for the work. The estimate of the Chief Engineer was \$5,882,690.

It is alleged that the Commissioners not only arbitrarily and wrongfully refused to award the contract to O'Brien but wrongfully awarded it to McDonald, and that their action was influenced by unlawful means and against the interests of the City. That such award was fraudulently made for the benefit of a favored bidder. That the giving of \$174,710 more than they could procure the work to be done for is a waste of public funds.

If these charges were sustained, then undoubtedly the Court would enjoin the making of the contract with McDonald. I have looked in vain for any evidence to sustain the charges that the Commissioners acted "fraudulently" or were influenced by "unlawful means," nor do I think that plaintiff seriously contends that there are any facts upon which such conclusions can be supported.

Without spending time on these, we find that the greatest stress is laid upon the claim of favoritism for McDonald, and prejudice against O'Brien. Apart from the fact that the contract was awarded him, there is no evidence of partiality or favoritism towards McDonald.

The charge of prejudice which it is said one of the Commissioners had against O'Brien, is supported by the latter's statement that third persons told him that one of the Commissioners had expressed a prejudice. These persons deny that they made such statements to O'Brien, and we have the affidavit of the Commissioner accused, which asserts that he never made such statements and never entertained such prejudice. It is to be noted that such Commissioner did not vote to award the contract to McDonald, and did not succeed in getting his associates to vote with him in the favor of the contractor whom he regarded as the best. Even if he entertained such prejudice it is quite evident that this Commissioner had no such controlling influence over his associates as to prevent their asserting their individual wills and judgments.

These men, for character and ability, have been selected to conduct a great public work, and it would be a serious reflection on the independence and competency of the entire Commission and justly subject them to removal, if it could be shown that they permitted themselves to be improperly swayed and controlled by one of their number. That they were not so influenced is clearly apparent from the fact already stated, that the Commissioner whom it is suggested had such influence, stood alone on the final vote, making the award to McDonald.

The absence of the Mayor and the failure to properly notify him of the meeting at which the award was made, is claimed to be fatal to the award.

The by-laws of the Aqueduct Commission provide that the regular meetings shall take place on Wednesdays, and that no other notice of the meeting shall be required.

It appears, moreover, that the Mayor, from the beginning of the year, did not attend any of the meetings of the Commission, nor was his presence necessary for the transaction of business, for, at common law and by the Revised Statutes (2 R. S., 555, sec. 27, as amended by Laws 1874, ch. 321), the rule is the same as is provided by section 46 of the Consolidation Act, "that a majority of the members of a board \* \* \* shall constitute a quorum to fully perform and discharge any act or duty \* \* \* with the same legal effect as if every member of any such board had been present."

Here a notice of the meeting was sent to the Mayor's office during his absence from the city.

As shown, even if no notice was sent at all, this would not invalidate the action taken by the other Commissioners at a meeting regularly held and at which a quorum was present.

This brings us to the real and only serious question, based on the contention that the award as made is a waste of public funds.

At first blush it would seem as though the Court should require some satisfactory explanation before it would sanction a transaction in which \$175,000 of public funds were seemingly unnecessarily expended for a public work.

The extent to which the court can go in interfering with these Commissioners must depend upon the statutes creating them, construed in the light of controlling decisions.

By chapter 490, Laws 1883, section 28, it is provided that after the bids or proposals shall have been opened the Commissioners "may select the bid or proposal, the acceptance of which will, in their judgment, best secure the efficient performance of the work or they may reject any or all such bids."

And section 30 reads: "No contract shall take effect until the Commissioners or a majority of them shall certify thereon in writing that its acceptance will, in their judgment, best secure the public interest and efficient performance of the work therein mentioned."

Here the statute does not require the Commissioners to award the contract to the lowest bidder, and those who voted in awarding the contract swear that the acceptance of McDonald's bid will, in their judgment, "best secure the public interest and efficient performance of the work."

This Aqueduct Act has been construed in at least two cases in this court. In the case of Jacob Ebling against the Aqueduct Commissioners where, singularly enough, the plaintiff there sought on much the same grounds as are here present to prevent the award of a contract to O'Brien & Clark on the ground that their bid was not the lowest and that they were favored contractors, Mr. Justice Barrett, in denying the motion for a preliminary injunction, among other things, said:

"The law permits the Commissioners to reject all the bids which may be presented to them. It also permits them to accept whatever bid they think will produce the greatest efficiency in the performance of the work. That is the legislative policy upon which this particular public work is being constructed."

"We have no power, sitting as a Court of Equity, to limit the range of selection on the part of these Commissioners."

"The difficulty here, as I said before, is that the Legislature has given a wide discretion to these Commissioners. The usual policy of the law has been abandoned, namely, that the work should be given to the lowest bidder. If the Commissioners think that the giving of the work to one who is not the lowest bidder will insure efficiency, they have the power to give it to him."

And in speaking of what should appear to justify the Court's interference, he continues: "That the work was given to one who is not the lowest bidder fraudulently or upon some corrupt understanding."

This and other cases that might be cited show that a Court of Equity has no right to interfere with and control the exercise of the discretionary power vested in a public body, such as the Aqueduct Commission. Undoubtedly it will interfere when necessary to prevent fraud, injustice or the violation of a trust, and whenever it is shown that those in whom the discretion is vested are prepared illegally or corruptly to trample upon rights or sacrifice interests entrusted to their care, then the Courts will interfere to prevent the consummation of a fraud.

The law presumes honesty rather than fraud and it will not, in the absence of proof, conclude that a discretion vested in a public body is being fraudulently exercised. Here we have charges of illegality and fraud, but these are mere conclusions unsupported by a single fact other than the one that there is a lower bidder than the one to whom the contract is to be awarded. If this were enough, then the law, which expressly permits the Commissioners to select any bidder, whether the lowest or not, would be nullified.

I have been referred to many cases by plaintiff's counsel, amongst them Winkler vs. Summers, 22 Abb. N. C., 84, affirmed in 51 Hun, 636. That arose under the charter of Buffalo. It gave the Common Council power to purchase lands for school and other purposes. The Common Council, after examining various preferred sites, selected one which the owner offered to sell for \$11,000, and at which sum the Council directed the Comptroller to purchase.

Upon an application for an injunction to restrain the sale, it was shown that the property was not worth more than \$8,000, and that no effort to obtain the property at its real value was made. Injunctive relief was therein awarded, on the ground that it involved "an appropriation of a large sum of money belonging to the public, for which no equivalent was to be received by the city."

The distinction between that case and the one at bar is apparent. Here the bid of McDonald is less than the Engineer's estimate, and whether his or O'Brien's bid be selected, it can hardly be claimed at this time that the city will not receive an equivalent.

It is impossible now to determine whether the Engineer of the Commission or the contractors are right in their estimates, and this is made clear when we recall that the bids made by the various contractors for this work vary from a little over five millions to over thirteen millions of dollars.

The Legislature left the determination of the persons who should do the work and the price they should receive to the judgment and discretion of the Commissioners, and it has never been held, even though they erred or were mistaken, that a court could substitute its own for the judgment and discretion of the Commissioners. I have attempted already to point out what are the limitations to the general rule that a court of equity has no right to interfere with and control the exercise of discretionary power vested in a public body. But I might well have rested my conclusion upon Judge Bartlett's reasoning in the case cited and the well-considered case in the General Term, Second Department, recently decided, of Adamson vs. The Nassau E. R. R. Co.

There the Common Council of Brooklyn awarded a franchise for a street railway to the defendant though they had a higher offer from another company of many thousand dollars for the same franchise.

In reversing the injunction order, the Court, among other things, said:

"It would be a very narrow view of the powers and duties of municipal officers that would confine their exercise to the aggrandizement of the local treasury. Financial considerations are not alone to control in granting permission to prosecute the various enterprises conducted by individuals and private corporations within the municipality."

And, in speaking of the statutes which gave a right of action in favor of taxpayers, reference is made to the case of Tolcot vs. City of Buffalo, 125 N. Y., 286, wherein it was said:

"The terms 'waste' and 'injury,' used in this statute, comprehend only illegal, wrongful or dishonest official acts, and were not intended to subject the official action of boards, officers or municipal bodies acting within the limits of their jurisdiction and discretion, but which some taxpayer might conceive to be unwise, improvident, or based on errors of judgment, to the supervision of the judicial tribunals."

"It is believed that no action was ever maintained under that statute, with the sanction of this court, without some proof or allegation that the official act or proceeding complained of was without power, or was tainted by corruption or fraud."

I deem it unnecessary to quote further from that case, or to multiply authorities, as it seems reasonably free from doubt, upon the facts here appearing, that the court would not be justified in interfering with the Commissioners.

Motion for an injunction is accordingly denied.

On motion of Commissioner Cannon, the same were ordered spread on the minutes and filed.

On motion of the Commissioner of Public Works, the following resolution was adopted:

Resolved, That the contract for building the Jerome Park Reservoir, near Kingsbridge, in the Twenty-fourth Ward of the City of New York, heretofore awarded to John B. McDonald, be executed and delivered by the proper officers.

The Commissioners then adjourned.

EDWARD L. ALLEN, Secretary.

BOARD OF ESTIMATE AND APPORTIONMENT.

BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, MAYOR'S OFFICE,  
CITY HALL, WEDNESDAY, September 4, 1895, 11 o'clock A. M.

The Board met in pursuance of the following call:

OFFICE OF THE MAYORALTY, EXECUTIVE DEPARTMENT, CITY HALL, NEW YORK, September 3, 1895.

In pursuance of the authority contained in the 18th section of the New York City Consolidation Act of 1882, and chapter 106 of the Laws of 1893, a meeting is hereby called of the Mayor, Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments and Counsel to the Corporation, constituting a Board of Estimate and Apportionment, to be held at the office of the Mayor, on Wednesday, September 4, 1895, at 11 o'clock A. M., for the purpose of considering such business as may be presented.

W. L. STRONG, Mayor.

INDORSED:

Admission of a copy of the within as served upon us this 3d day of September, 1895.  
W. L. STRONG, Mayor; ASHBEL P. FITCH, Comptroller; JOHN JEROLAMAN, President of the Board of Aldermen; E. P. BARKER, President of the Department of Taxes and Assessments; FRANCIS M. SCOTT, Counsel to the Corporation.

Present—William L. Strong, the Mayor; Ashbel P. Fitch, the Comptroller; John Jeroloman, the President of the Board of Aldermen; Edward P. Barker, the President of the Department of Taxes and Assessments; Francis M. Scott, the Counsel to the Corporation.

On motion, the reading of the minutes of the meeting held August 30, 1895, was dispensed with.

The Comptroller presented the following:

CITY OF NEW YORK—FINANCE DEPARTMENT, COMPTROLLER'S OFFICE, August 21, 1895.

Hon. ASHBEL P. FITCH, Comptroller:

SIR—The Commissioner of Street Improvements, Twenty-third and Twenty-fourth Wards, in communication of July 29, 1895, to the Board of Estimate and Apportionment, states that, in accordance with chapter 112 of the Laws of 1895, relative to the repaving of roads, streets and avenues in the Twenty-third and Twenty-fourth Wards, he has determined to repave with asphalt Willis avenue, from One Hundred and Thirty-fourth street to Third avenue, at an estimated total cost of \$84,712.50, viz.:

22,575 square yards of asphalt pavement, at \$3.50.....	\$79,012 50
4,600 lineal feet of new curb, at 50 cents.....	2,300 00
	\$81,312 50
Engineering, inspection, etc.....	2,500 00
	\$83,812 50

There is an error, in addition, in the Commissioner's estimate, amounting to \$900.

He requests an appropriation as soon as possible, so that he may be able to proceed with this work.

As this avenue will become very important when the new bridge is built, I think the projected repavement judicious, and the grades are sufficiently easy to make the construction with asphalt advisable.

The cost, as estimated, per yard, is as near as can be fixed in advance, but it will depend, of course, on the price which may be bid on public letting, and the amount for engineering and inspection is reasonable.

Respectfully,

EUG. E. MCLEAN, Engineer.

And offered the following:

Resolved, That, pursuant to the provisions of chapter 112 of the Laws of 1895, the Board of Estimate and Apportionment hereby approves of the issue of bonds in the name of the Mayor, Aldermen and Commonalty of the City of New York, to be known as "Consolidated Stock of the City of New York," as provided by section 132 of the New York City Consolidation Act of 1882, to an amount not exceeding eighty-five thousand dollars (\$85,000); and the Comptroller is hereby authorized and directed to issue the same, for such period as he may determine, but not less than ten nor more than thirty years, bearing interest at a rate not exceeding three and one-half per cent. per annum; the proceeds of which bonds shall be applied to the payment of the expenses to be incurred by the Commissioner of Street Improvements, Twenty-third and Twenty-fourth Wards, in repaving with asphalt Willis avenue, from One Hundred and Thirty-fourth street to Third avenue, as specified in his communication to this Board, dated July 29, 1895; and

Resolved, That the Commissioners of the Sinking Fund be requested to exempt the said stock from taxation by the City and County of New York, pursuant to an ordinance of the Common

Council, approved by the Mayor October 2, 1880, and the provisions of section 137 of the New York City Consolidation Act of 1882.

Which were adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Department of Taxes and Assessments, and Counsel to the Corporation—4.

The Comptroller presented the following:

CITY OF NEW YORK—FINANCE DEPARTMENT, COMPTROLLER'S OFFICE, August 6, 1895.  
Hon. ASHBEL P. FITCH, Comptroller:

SIR—The Department of Public Parks in communication of July 27, 1895, incloses a resolution adopted by the Board July 19, 1895, as follows:

Resolved, That the Board of Estimate and Apportionment be requested to authorize an appropriation of sixty-five thousand seven hundred dollars for the purpose of macadamizing roads in Pelham Bay Park, under authority of chapter 609 of the Laws of 1895.

The following list is given of the roads proposed to be improved, with approximate length, character of proposed pavement and estimate of cost. The work to be prosecuted in the order stated in the list, the first three named being the most needed. The width to be paved is estimated at sixteen feet:

	PAVEMENT.	LENGTH.	COST.
1. Eastern Boulevard, from Westchester road to Pelham Bridge.....	Macadam.....	4,200 feet.	\$8,250 00
2. Pelham Bridge road, from bridge to northerly park line.....	Telford.....	9,400 "	25,050 00
3. City Island road.....	Telford.....	7,750 "	20,700 00
4. Eastern Boulevard, from south line of park to Westchester road.....	Telford.....	2,700 "	7,200 00
5. From Baychester Station to Eastern Boulevard.....	Telford.....	1,750 "	4,500 00
About five miles.....		25,800 feet.	\$65,700 00

The above estimate is made on prices heretofore paid for similar work, viz., \$1.10 per square yard for Macadam and \$1.50 per square yard for Telford. The work, however, will be let to the lowest bidder.

I inclose herewith a diagram showing the roads to be paved numbered as in the list.

Respectfully, EUG. E. MCLEAN, Engineer.

And offered the following:

Resolved, That, pursuant to chapter 417 of the Laws of 1892, as amended by chapter 609 of the Laws of 1895, the Comptroller be and is hereby authorized and directed to issue bonds in the name of the Mayor, Aldermen and Commonalty of the City of New York, to be known as Consolidated Stock of the City of New York, as provided by section 132 of the New York City Consolidation Act of 1882, to an amount not exceeding sixty-five thousand seven hundred dollars (\$65,700), redeemable within such period as the Comptroller may determine, but in not less than ten nor more than twenty years, from the date of issue, bearing interest at a rate not exceeding three per cent. per annum; the proceeds of which bonds shall be applied to the work of macadamizing roads in Pelham Bay Park, as specified in a resolution of the Board of Parks, adopted June 19, 1895; and

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS, COMMISSIONER'S OFFICE, August 6, 1895. To the Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of the Board of Parks held June 19, 1895, the following resolution was adopted:

Resolved, That the plan submitted by the Landscape Architect for the improvement of Mulberry Bend Park, be and the same hereby is approved and ordered forwarded to the Board of Estimate and Apportionment for the approval of that Board, and with the request that an issue of bonds be authorized to the amount of one hundred thousand dollars to provide funds for the said improvement, under chapter 69 of the Laws of 1895.

The plan referred to in the foregoing resolution, and the accompanying report thereon by the Landscape Architect, together with the estimate of the Engineer of Construction, is herewith transmitted.

Yours, respectfully, CHARLES DE F. BURNS, Secretary, D. P. P.

DEPARTMENT OF PUBLIC PARKS, OFFICE OF DESIGN, NEW YORK, June 12, 1895. C. DE F. BURNS, Esq., Secretary, D. P. P.:

SIR—In response to yours of May 29, I present herewith a study for laying-out Mulberry Bend Park.

Two entrance gates are proposed to be made opening from Baxter street, two gates opening from Mulberry street, one gate opening from Bayard street, one gate opening from Park street, and one angular entrance gate at the corner of the park reservation facing Worth street.

Lines of walk of a minimum width of eighteen feet are proposed to be laid out from each of these gates so that moderately direct crosswalks may be secured that will, I think, fairly meet the public needs in this regard.

A circuit walk is also provided which, with its concourses marked A, B, C, D, will be an agreeable feature in the design to visitors who use this park.

The plan also shows that a large greensward will thus be left open in the southerly section of the park and a smaller greensward in the northerly portion.

The borders of these greenswards will be furnished with shade trees, elms, lindens, etc., and seclusion will be secured by planting along the outer boundaries masses of strong growing shrubs of such kinds as will thrive in populous districts.

As water-closet accommodation will be needed it is proposed that this requirement shall be provided for by a structure located near the northerly boundary, the upper portion of which marked P, S, is proposed to be taken advantage of to secure a pleasant shelter and outlook over the whole length of the park.

Suitable locations for flower beds are indicated on the plan.

Respectfully, CALVERT VAUX, Landscape Architect, D. P. P.

DEPARTMENT OF PUBLIC PARKS—OFFICE OF ENGINEER OF CONSTRUCTION, NEW YORK, July 30, 1895.

For furnishing and setting 6-inch bluestone edging along sides of walks within the park, and the pavement of all walks, including substructure.....	\$22,300 00
For drainage, drinking hydrants, etc.....	3,200 00
For planting, sodding and wire fences, etc.....	5,600 00
For iron railing and gates, foundation, coping, etc.....	19,300 00
For pavilion, shelter, etc. (as per Architect's estimate).....	20,000 00
Total.....	\$100,000 00

M. A. KELLOGG, Engineer of Construction.

CITY OF NEW YORK—FINANCE DEPARTMENT, COMPTROLLER'S OFFICE, August 22, 1895.

Hon. ASHBEL P. FITCH, Comptroller:

SIR—The Department of Public Parks in communication of August 5, 1895, to the Board of Estimate and Apportionment, transmits the following resolution adopted by the Board of Parks June 19, 1895:

"Resolved, That the plan submitted by the Landscape Architect for the improvement of "Mulberry Bend Park be and the same hereby is approved and ordered forwarded to the Board "of Estimate and Apportionment for the approval of that Board, and with the request that an "issue of bonds be authorized to the amount of one hundred thousand dollars (\$100,000), to "provide funds for the said improvement under chapter 69 of the Laws of 1895."

The plan and the accompanying report of the Landscape Architect, and the estimate of the Engineer of Construction, are also transmitted.

The report of the Landscape Architect taken in connection with the plan submitted gives a very clear idea of what the park will be when completed.

The estimate of the Engineer of Construction of the expense of the work is made up carefully from details of quantities, not given in the estimate, but which I have examined, and consider as nearly correct as can be decided in advance. The prices on which the estimate is founded are those paid heretofore for similar work.

The larger part of the work will be done by contract, awarded to lowest bidders, and the prices may, of course, be more or less than the estimate.

No plan is submitted of the building "located near the northern boundary," and the estimate is therefore not definite. It is supposed that it will cost about \$20,000.

I think the appropriation of \$100,000 asked for in the resolution may properly be made.

Respectfully, EUG. E. MCLEAN, Engineer.

And moved that the said plan be approved and offered the following:

Resolved, That the Commissioners of the Sinking Fund be and hereby are requested to exempt the said stock from taxation by the City and County of New York, pursuant to an ordinance of the Common Council approved by the Mayor October 2, 1880, and the provisions of section 137 of the New York City Consolidation Act of 1882.

SIR—I have to request a transfer of \$200 from the appropriation for the Department of Street Cleaning for 1894, account of "Administration," to the appropriation account of "Rents and Contingencies," for the reason that the amount appropriated for "Rents and Contingencies" is not sufficient to cover the business of last year.

Also, a transfer of \$812.37, account of "New Stock," to the account of "Rents and Contingencies," for the reason that the amount appropriated for "Rents and Contingencies" is not sufficient to cover the business of last year.

Respectfully,

GEO. E. WARING, JR., Commissioner of Street Cleaning.

Referred to the Comptroller.

The Comptroller moved that when this Board adjourns, it do adjourn to meet on Tuesday, September 10, 1895, at 11 o'clock A. M.  
Which was adopted.

The Mayor, from the special committee appointed at the meeting held August 1, 1895, to examine and report upon the method of final disposition of refuse material collected by the Street Cleaning Department, stated that said committee had given much consideration to the subject, and recommended for the consideration of the Board the following resolution:

Resolved, That the Commissioner of Street Cleaning be and he is hereby authorized and directed to prepare a form of advertisement and contract, inviting proposals for the receiving at the various dumps in this City, and finally disposing of all ashes, sweepings and other refuse material that may be collected and delivered at said dumps by the carts of this City and by private carts authorized to collect such material. Each proposal to be accompanied with a specification stating in full the manner of proposed final disposition of such material. All clean, fresh ashes may, under the inspection of this City, be deposited by the Contractor within the crib work at Riker's Island—sweepings, garbage and other refuse material to be disposed of in such manner only that will render it unobjectionable in any and every respect. Said advertisement and form of contract to be first approved by the Counsel to the Corporation, and after such approval said advertisement to be inserted in the CITY RECORD, and brief advertisement calling attention to the same be inserted in all official papers for thirty days, and when proposals are received and tabulated that they be submitted to the Board of Estimate and Apportionment for such action as may be determined.

Which was adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments, and Counsel to the Corporation—5.

The following communication was received:  
CITY OF NEW YORK—COMMISSIONER OF STREET IMPROVEMENTS, TWENTY-THIRD AND TWENTY-FOURTH WARDS, August 29, 1895. Hon. WILLIAM L. STRONG, Mayor:

DEAR SIR—The situation in parts of the territory recently added to the City and County of New York, particularly in Williamsbridge and vicinity, is becoming very serious. Drainage is in very bad shape, and scores of complaints are being made in consequence. The condition of the roads is also very bad. The Health Department has requested me to take action in the locality mentioned, but, as you are aware, I have no funds at my disposal for that purpose. I have asked repeatedly for funds, explaining the necessity therefor; but, so far, no provision has been made of any sort to enable me to do the work that is required in the section mentioned. The urgent necessity of an appropriation is my justification for again calling your attention to this matter.

Respectfully, LOUIS F. HAFFEN, Commissioner.

The Comptroller moved that said communication be referred to a Special Committee of two, one of which shall be the Corporation Counsel, for examination and report. The Mayor appointed the Counsel to the Corporation and the President of the Department of Taxes and Assessments as such Committee.

On motion, the Board adjourned.

E. P. BARKER, Secretary.

#### APPROVED PAPERS.

Approved Papers for the week ending September 14, 1895.

That the premises of the Country Club of Westchester County, situated on Eastchester Bay, in the late Town of Westchester, now New York City, be and the same are hereby excepted from the provisions of section 183 of article XIII. of chapter eight of the Revised Ordinances of 1880.

Sec. 2. All ordinances or parts of ordinances inconsistent or conflicting with the provisions of this ordinance are hereby repealed.

Sec. 3. This ordinance shall take effect immediately.

Adopted by the Board of Aldermen, September 3, 1895. Approved by the Mayor, September 6, 1895.

The Committee on Railroads, to whom was referred the applications heretofore presented to the Common Council of the City of New York by the Third Avenue Railroad Company and the Metropolitan Street Railway Company, respectively, for consent to the construction, maintenance and operation of branches or extensions of their existing railroads upon, through and along Kingsbridge road and various other streets and highways described in said applications, respectfully

#### REPORT:

That, pursuant to notices published according to law, hearings were had on said applications, at which all persons desirous of being heard were heard.

That your Committee is of the opinion that the construction and operation of such branches or extensions as proposed will furnish much-needed facilities for travel and will be of great value generally to the people of the city, by adding to the taxable value of the property along the route of said extensions or branches.

That the proposed route of the petitioners is through and along the same streets and avenues, with but slight exceptions, the most notable of which is the application for the use of a portion of St. Nicholas avenue by the Metropolitan Street Railway Company.

That, upon careful investigation, we find that St. Nicholas avenue can be readily abandoned without injury to the petitioner, and thus the said avenue be free from the presence thereupon of street surface railways, it being adapted to driving, and the only practical method of reaching the proposed Speedway, upon which the City is about to spend millions of dollars.

That, while reporting in favor of granting the application of the Third Avenue Railroad Company, for reasons hereinafter assigned, we feel and recommend that the petition of the Metropolitan Street Railway Company should not be laid aside or the interests of that corporation be prejudiced because of the fact that the use of St. Nicholas avenue for railroad purposes is asked for. If, for sufficient cause, the Board of Aldermen believes the franchise should be given to the Metropolitan Street Railway Company—concurring with the Railroad Committee in its views as to St. Nicholas avenue—said company should not be denied because of the present desire to include St. Nicholas avenue in its proposed route.

That, at the public hearings on this application, the sentiment of the citizens who expressed themselves preponderated in favor of the Third Avenue Railroad Company. This fact, however, has not been of sufficient weight in itself to cause the Committee to report in favor of said company. The expression of those attending previous hearings on the applications before this Board for the same extensions, and which predominated in favor of the Metropolitan Street Railway Company, have been duly considered in connection herewith.

With due and proper regard for the expressed views of all who appeared before us, and with a sense of appreciation of the demands of the residents and property-owners of the territory through which the proposed road is to be operated, and of citizens from all parts of the city who have appeared before us, we feel that it would be for the greatest good to the largest number to grant the application of the Third Avenue Railroad Company. It does not seem just to the people of the city at large to consider the wishes of those only directly interested in the growth of the locality in and through which the new line of street surface railroad is to traverse. We consider that the existing line of the Third Avenue Railroad Company passing upon the east side of the city to One Hundred and Twenty-fifth street, and across One Hundred and Twenty-fifth street to the west side of the city, will enable a much larger number of people to obtain access to the territory along the line of such branches or extensions than would be enabled to obtain access thereto by means of any other line of railway operating principally upon the west side of the city.

About two-thirds of the population of this city are residents of the east side, and the most thickly-populated districts are located along the line of the Third Avenue Railroad Company. We believe that the greatest good is, therefore, accomplished by providing railroad facility for the largest number, and especially those who are compelled to be crowded into the densely populated tenement-house districts, to travel when time and opportunity permit, to that portion of our city where the open fields and invigorating air will promote the health and extend the life of the many thousands who are in need of such facility as is now offered to them. We also believe that by granting to the Third Avenue Railroad Company the privilege asked for that in the near future the congested east side will be largely relieved. That capital will be induced to provide residential accommodation in the newly traversed territory, and because of the line of railroad down the east side of the city many of those now located down-town will be tempted to follow the march of time and move northward to the newly-opened and growing territory.

That the existing line of the Third Avenue Railroad Company also connects with the line of the Union Railway Company of New York City, at One Hundred and Thirtieth street, thus enabling people from the northwesterly part of the city, including the entire annexed district, to obtain access to the territory along the line of such branches or extensions.

That the Third Avenue Railroad Company and the Metropolitan Street Railway Company have each made public offers to said Union Company to transfer passengers with one another and transport the same for a single fare in case their respective applications may be granted.

That the upper east end of Manhattan Island, known as Harlem, is to-day a great commercial centre, and is destined to become one of the most, if not the most, important shopping district in the city. The Third Avenue Railroad Company has contributed materially to the present importance of that locality; and, by giving to said company the franchise now asked for, the commercial growth of that territory is insured; while the reverse would be the fact if the application were denied.

That there is now being built corner One Hundred and Twenty-fifth street and Park avenue a large railroad station, occupying nearly four blocks of space, at which all trains going from or coming into the Grand Central Railroad Depot will stop. This, when completed, will become a great railroad centre, and hundreds of thousands of passengers will go to and from this point. The advantages afforded those who will make use of this station by the Third Avenue Railroad Company far exceeds those which can be offered by any other surface road. On this improvement the City is expending large sums of money, and is therefore directly interested.

That the contention, oft repeated, that the Metropolitan Street Railway Company would enable passengers to travel to the Battery on both the east and the west sides of the city is not in all respects true. The west side branch turns at Fifty-third street and reaches the Battery via Broadway. The east side line turns at Twenty-third street and also reaches the Battery via Broadway.

That along a goodly portion of the line of the Metropolitan Street Railway Company's route business is comparatively suspended early in the evening, and the travel at such points is consequently light, while travel at the east side of the city is almost as extensive, all along the line, long after nightfall as it is during the entire day.

That the large number who may desire to connect with the elevated railroads, east and west, in order to travel to and from business by the quickest means of transit, would be best accommodated by the Third Avenue Railroad Company.

That the great and extraordinary large number of people which utilize the Third Avenue Railroad at the present time on Sundays and holidays is a clear and unmistakable indication that from and to the east side of the city does the multitude travel when seeking opportunity for outings, etc.

That the Third Avenue Railroad Company has for many years been in occupation of a large portion of the territory to be affected by the granting of said application; and the facilities for transportation which it has thus afforded have contributed materially to build up that portion of the city.

That said company has heretofore presented, within the last three years, three other applications to this Board, which have been duly considered, requesting the granting of extensions and branches, and was the first to ask for the franchise now sought.

That it is the opinion of your Committee that the application of the Third Avenue Railroad Company should be granted for the reason, also, that at any sale which may take the proposition of gross receipts for joint business which the Third Avenue Railroad Company must needs pay under the provisions of existing law to the successful bidder, if other than itself, is such as would admit of opposition and competition from the Metropolitan Street Railway Company, or other companies, but that if the application of the Metropolitan Street Railway Company should be granted, the proportion of receipts for joint business which it would necessarily receive from the successful bidder, if other than itself, would be so excessive that no other company could afford to become a bidder at such sale, and the object of the statute under which this consent is to be sold, and which is to secure additional revenue to the City, would thereby be defeated.

That the percentages which the successful bidder is required by law to pay into the City Treasury would be greater in case the application of the Third Avenue Railroad Company were granted, than would be paid to the City in case that of the Metropolitan Street Railway Company were granted.

That when resolutions were previously passed by the Board of Aldermen granting the application of the Third Avenue Railroad Company, his Honor the Mayor, returned the resolutions without approval, to this Board, with the suggestion that provisions should be made by the Third Avenue Railroad Company in respect to its application, which would enable any bidder other than itself, to operate the two branches of the extension applied for as a continuous route.

That the Third Avenue Railroad Company has complied with this suggestion, by stipulating that it will deliver to the successful bidder at said sale, if other than itself, a conveyance granting for one dollar per annum, as rental, the right and privilege of using perpetually the tracks of the Third Avenue Railroad Company, upon One Hundred and Twenty-fifth street, and Manhattan street, between Eleventh avenue or Boulevard and St. Nicholas avenue, for the purpose of enabling cars of said bidder to be operated, and the right to operate such cars by any motive power which such successful bidder may be lawfully authorized to employ, and to make track connections which may be requisite and necessary to connect such extension with the tracks of the Third Avenue Railroad Company, at the junction of Manhattan street and Eleventh avenue or Boulevard, and at the junction of St. Nicholas avenue with One Hundred and Twenty-fifth street. That the Third Avenue Railroad Company have also offered as a condition by which it shall be bound, in case its application is granted and the sale of said franchise is made, that it will execute and deliver to the Comptroller of the City of New York, a bond in the penal sum of fifty thousand dollars, and of such form as the Corporation Counsel of the City of New York shall approve, whereby the Third Avenue Railroad Company shall be obligated to perform each and every of the provisions of its offers, agreements and stipulations above stated.

That the Third Avenue Railroad Company has also offered as part of its application and as a consideration by which it is to be bound, in case the same is granted, that it will bid upon the public sale of said franchise, and in addition to the three per cent. of its gross receipts required by statute to be paid the first five years after construction and operation of said extension, and in addition to the five per cent. in like manner required to be paid after the said five years, not less than two per cent. of its gross receipts per annum. That said Third Avenue Railroad Company has further stipulated as part of its application, in case it shall be the successful bidder at such sale and acquire the right to build said extension, to pay into the City Treasury the sum of \$250,000 in cash, or \$150,000 more than the Metropolitan Street Railway Company has offered in its agreement to pay into the City Treasury, viz.: the sum of \$100,000 in cash, under like conditions.

That, while your Committee believe that monetary offers of this character should have due consideration, yet they should not be regarded as of sufficient importance to outweigh those considerations which are due the traveling public, the needs of special locality, the general benefits to be derived, the necessities of the city, etc.

It also seems to your Committee that offers of this kind are not in touch with the spirit of the Railroad Act, and have a tendency to limit competition at the sale which takes place under direction of the Comptroller, preventing to a large extent free and open competition to all who might desire to bid for the franchise.

If, however, this monetary offer is to have the influence intended, it is quite obvious that the Third Avenue Railroad Company is entitled to first consideration.

Your Committee respectfully present for adoption the following preamble and resolution:

Whereas, The Third Avenue Railroad Company, a corporation duly organized and existing under and by virtue of the laws of the State of New York, for the purpose of providing street railroad facilities for compensation, in the City of New York, has heretofore made application, in writing, to the Common Council of the City of New York for consent to the construction, maintenance, use and operation of a street railway upon and through streets and avenues in said city, mentioned in said application presented the 2d day of July, 1895, which application is in words and figures as follows, to wit:

"To the Honorable the Common Council of the City of New York:

The petition of the Third Avenue Railroad Company respectfully shows:

That your petitioner is a corporation duly organized and incorporated under the laws of the State of New York and has constructed and now operates a line of railroad extending, among other streets, upon the Bowery, Third avenue, One Hundred and Twenty-fifth street, Manhattan street, and Tenth avenue, in the City of New York.

That your petitioner proposes to construct, maintain and operate a street surface railroad for public use in the City of New York, with double tracks, connecting with the tracks of said company already constructed, and as branches or extensions thereof, upon and along the surface of streets, avenues and highways in the City of New York, as follows:

From the junction of Kingsbridge road or Broadway and West One Hundred and Sixty-second street, connecting there by suitable curves, switches and appliances with this company's railroad upon Amsterdam avenue; running thence northerly and northeasterly through and along Kingsbridge road or Broadway to and across the proposed new bridge over the Ship Canal; thence northerly through and along Kingsbridge road to Broadway from the proposed new bridge over the Ship Canal to and across the bridge over Spuyten Duyvil creek at Broadway; thence northerly from the bridge over Spuyten Duyvil creek at Broadway; through and along Broadway to the city line.

Also from the junction of West One Hundred and Twenty-fifth street and St. Nicholas avenue, connecting there by suitable curves, switches and appliances with the company's railroad upon West One Hundred and Twenty-fifth street; running thence southerly on St. Nicholas avenue to a junction of said avenue with Manhattan avenue; thence southerly and over and along Manhattan avenue to West One Hundred and Sixteenth street, with all the necessary connections, switches, turn-outs and cross-overs, sidings, turn-tables and suitable stands for the convenient working of said road and for the accommodation of the company's cars which may run over the same.

Also from the junction of Kingsbridge road or Broadway and Riverdale avenue, running thence northwesterly and northerly, through, upon and along Riverdale avenue to the city line.

Also from the junction of Manhattan street and Eleventh avenue or Boulevard, connecting there by suitable curves, switches and appliances with this company's railroad upon Manhattan street, running thence northerly through, upon and along Eleventh avenue or Boulevard to the junction of Kingsbridge road or Broadway, at or near One Hundred and Sixty-ninth street, with all the necessary connections, switches, turn-outs, cross-overs, sidings, turn-tables and suitable stands for the convenient working of said road and for the accommodation of the company's cars which may run over the same.

That your petitioner now owns and is operating in the City of New York, as part of one system, fourteen miles of railroad or thereabouts.

That said proposed extensions and branches will be about eleven miles or thereabouts in length, and will become a part of said system and connected therewith.

That the construction of said railroad will greatly accommodate the public and promote the convenience thereof, and will afford additional and much-needed facilities for travel to the territory

through which said railroad will extend and will enable your petitioner to transport persons from all points on its system over this extension as a part of a continuous line to their destination for one fare.

That the railroad proposed to be constructed, extended and maintained and operated by your petitioner, as hereinbefore set forth, is intended to be operated by any motive power other than steam locomotive power, which now or hereafter may be lawfully used or employed on its route.

Your petitioner further shows that, pursuant to the laws of this State, it is necessary for it to obtain the consent of the Common Council of the City of New York to enable it to construct, maintain and operate the railroad aforesaid, and, accordingly, your petitioner now applies to your Honorable Body for such consent.

Your petitioner further states and stipulates as a part of this petition, inasmuch as the portion of the route hereinbefore described which lies north of One Hundred and Twenty-fifth street and Manhattan street is separated from the portion of said route which lies south of said streets by those portions of One Hundred and Twenty-fifth street and Manhattan street which lie between Eleventh avenue, or the Boulevard, and St. Nicholas avenue, upon which your petitioner already owns and operates a street surface railroad, that, in case this petition is granted and a sale is made of the franchises therein described, the petitioner will deliver to the successful bidder at said sale a conveyance granting, for one dollar per annum as rental, the right and privilege of using perpetually the tracks of the Third Avenue Railroad Company upon One Hundred and Twenty-fifth street and Manhattan street, between Eleventh avenue, or Boulevard, and St. Nicholas avenue, for the purpose of operating its cars, and the right to operate such tracks by any motive power which said successful bidder may lawfully be authorized to employ, and to make all track connections which may be requisite and necessary to connect said extension with the tracks of the Third Avenue Railroad Company at the junction of Manhattan street and Eleventh avenue, or Boulevard, and at the junction of St. Nicholas avenue with One Hundred and Twenty-fifth street.

And your petitioner further stipulates and agrees as a part of this petition and as a condition by which it shall be bound in case this petition is granted and the sale of said franchises is accordingly made, that it will execute and deliver to the Comptroller of the City of New York a bond in the penal sum of fifty thousand dollars, and of such form as the Corporation Counsel of the City of New York shall approve, whereby your petitioner shall be obligated to fully perform each and every of the provisions of each and every of its foregoing and following offers, agreements and stipulations.

And your petitioner further stipulates and agrees as a part of this petition and as a condition by which it shall be bound in case the same is granted, that it will bid upon the public sale of said franchises, and in addition to the three per cent. of its gross receipts required by statute to be annually paid for the first five years after the construction and operation of said extension, and in addition to the five per cent. in like manner required to be paid after said five years, not less than two per cent. of its gross receipts per annum.

And your petitioner further stipulates, in case it shall be the successful bidder at said sale and acquire the right to build said extension, to pay into the City Treasury the sum of two hundred and fifty thousand dollars in cash.

Wherefore your petitioner prays and makes application to the Common Council of the City of New York for its consent and permission to be granted to your petitioner, its successors, successor, lessees and assigns, to construct, maintain and operate a street surface railroad for public use through, upon and along the avenues, streets and highways above set forth and described, together with all necessary connections, switches, sidings, turn-outs, turn-tables, cross-overs and suitable stands for the convenient working of said railroad and for the accommodation of the company's cars which may be run over said railroad by your petitioner, its successors, lessees or assigns.

Dated NEW YORK, July 1, 1895.

#### THE THIRD AVENUE RAILROAD COMPANY,

By ALBERT J. ELIAS, President.

[SEAL.]

"From the junction of Kingsbridge road, or Broadway, and West One Hundred and Sixty-second street, connecting there by suitable curves, switches and appliances with this company's railroad upon Amsterdam avenue; running thence northerly and northeasterly through and along Kingsbridge road, or Broadway, to and across the proposed new bridge over the Ship Canal; thence northerly through and along Kingsbridge road, or Broadway, from a proposed new bridge over the Ship Canal to and across the bridge over Spuyten Duyvil creek, at Broadway; thence northerly from the bridge over Spuyten Duyvil creek, at Broadway, through and along Broadway to the city line.

"Also from the junction of Manhattan street and Eleventh avenue, or Boulevard, connecting there by suitable curves, switches and appliances with this company's railroad upon Manhattan street; running thence northerly through, upon and along Eleventh avenue, or Boulevard, to the junction of Kingsbridge road, or Broadway, at or near One Hundred and Sixty-ninth street, with all the necessary connections, switches, turn-outs, cross-overs, sidings, turn-tables and suitable stands for the convenient working of said road, and for the accommodation of the company's cars which may run over the same," as stated in its statement filed and made part hereof. Such consent to be subject to modification by the local authorities; and be it further

Resolved, That the conditions upon which, and not otherwise, the consent is hereby given shall be and are as follows, to wit:

First—That the right, privilege and franchise of using the said streets and avenues to construct, maintain, use and operate a street surface railroad upon the said streets as branches or extensions of the road of the applicant, shall be sold at public auction to the bidder, which shall be a duly incorporated railroad corporation of this State, organized to construct, maintain and operate a street railroad in the city, for which such consent may be given, and which will agree to give the largest percentage per annum of the gross receipts of such branches or extensions, as defined by section 93 of the "Railroad Law," with adequate security by a bond or undertaking in writing and under seal, in such form and amount and with such conditions and sureties as shall be required and approved by the Comptroller of said city for the fulfillment of said agreement, and for the commencement and completion of such road according to the plan or plans and on the route fixed for its construction within the time designated and prescribed therefor by law applicable thereto.

Second—That the bidder to which the said sale shall be made shall construct and put in operation a street railroad upon said branches or extensions, with all the necessary equipments and fixtures, the motive power to be used thereon to be horse or cable power, or any other power other than steam locomotive power, which other power may be consented to by the State Board of Railroad Commissioners, but no overhead trolley shall be used south of One Hundred and Sixty-second street, nor north of One Hundred and Sixty-second street for a longer period than ten years after it shall have been first employed. The material to be of the best possible character, and the plans of street construction, turn-tables and turn-outs to be subject to the approval of the Commissioner of Public Works of said city.

Third—That the cars shall be run upon said branches or extensions at least as frequently as required by the ordinances of the City of New York, and if the right to construct or operate such branches or extensions shall be purchased at said sale by the company applying for this consent, the same shall be operated as a part of a continuous line of the applicant, so as to enable any passenger, by transfer, tickets or otherwise, to obtain the benefit of a continuous ride for one fare to or from any point on said branches or extensions, and any point on the lines of railroad of the company applying for this consent, whether the same be owned or leased by said company. And if the right to construct said branches or extensions shall be purchased at said sale by any corporation other than the applicant for this consent, the said purchaser shall deliver and receive passengers at the point of junction with the road of the applicant upon a division of earnings from such joint business, in the proportion that the length of the extensions or branches sold shall bear to the entire length of the road of the company applying for this consent, whether owned or leased, together with the mileage of such branch or extension. And if the right to construct or operate such branches or extensions shall be purchased by the company applying for this consent, the percentage to be paid upon the gross receipts on behalf of said branches or extensions shall be calculated on such portion of the gross receipts of the applicants as shall bear the same proportion

to the whole amount thereof as the length of such extensions or branches shall be to the entire length of its road, owned or leased.

Fourth—That no passenger shall be charged more than five cents for a continuous ride, from or to the above branch or extension, under the condition as to connections hereinbefore provided.

Fifth—That the company receiving the franchise and operating said railroad shall at all times keep the street between its tracks, and two feet beyond the rail at each side, clean and free and clear from dirt and snow, the said dirt and snow to be removed by said railroad company within such period of time as may be required by the Commissioner of Street Cleaning, and if not so removed and carried to the dumps, the same may be taken away by the Commissioner of Street Cleaning, the expense involved to be charged to the railroad company, and collected by the Comptroller in the manner by which moneys due the City are collected under the law.

### BOARD OF CITY RECORD.

MAYOR'S OFFICE, CITY HALL, NEW YORK, September 4, 1895.

The Hons. William L. Strong, Mayor; Francis M. Scott, Counsel to the Corporation, and William Brookfield, Commissioner of Public Works, the officers designated by section 66 of the New York City Consolidation Act, met this day.

The minutes of the meeting of July 31 were read and approved.

The following was submitted for the action of the Board:

September 3, 1895. *The Honorable WILLIAM L. STRONG, Mayor, Chairman of the Board of City Record:* SIR—

In reference to the Departmental Estimate for the Board of City Record for 1896, I submit the following provisional statement:

The appropriations for this Bureau for the current year were:

Printing, Stationery and Blank Books and Arrears.....	\$200,000 00
Publication of the CITY RECORD.....	72,000 00
City Record—Salaries and Contingencies.....	9,200 00

The third item has been increased to \$10,050 by the transfer to it of \$850 by the Board of Estimate and Apportionment from the account for "Printing, Stationery and Blank Books."

It will be observed that the first item—"Printing, Stationery and Blank Books"—called for more than two-thirds of the aggregate appropriation for the entire department.

I sent out, nearly four weeks ago, a request to all of the departments in the city for the immediate submission of their annual requisitions for Printing, Stationery and Blank Book supplies. I have received responses from only a little more than one-half of these departments, and some of them have notified me that they cannot possibly make returns within several weeks to come. Judging from those that have been received, I infer that the appropriation for "Printing, Stationery and Blank Books and Arrears" this year need not exceed that for 1895, though to this account I found chargeable, on my appointment to office, bills in arrears, some of them running back to 1890, 1891 and 1892, aggregating over \$73,000. More than \$27,000 of these arrearages have been met, but other bills are in course of examination, and will no doubt have to be met from the appropriation of next year. These arrearages, according to the statement compiled by the Deputy Supervisor and Accountant of the CITY RECORD, aggregate more than \$46,000. I hope, however, to be able to meet them if the same amount for "Printing, Stationery and Blank Books and Arrears" is set aside for this department this year as was apportioned in 1895, viz.: \$200,000. The appropriation for "Publication of the CITY RECORD," for which \$72,000 was allowed last year, I think can safely be reduced by \$5,000 this year. The appropriation for the "City Record—Salaries and Contingencies," for which \$10,050 was given, can be reduced to \$10,000 this year.

The provisional estimate which I now submit, subject to such corrections as may be required after the departments have sent in their annual requisitions for "Printing, Stationery and Blank Books," is, therefore, as follows:

Printing, Stationery and Blank Books and Arrears.....	\$200,000 00
Publication of the CITY RECORD.....	67,000 00
City Record—Salaries and Contingencies.....	10,000 00

Respectfully yours, JOHN A. SLEICHER, Supervisor.

No estimate will be received or considered after the hour mentioned.

The form of the agreement, with specifications, showing the manner of payment for the articles, may be seen, and forms of proposals may be obtained at the office of the Department.

Proposals must include all the items, specifying the price per cwt. of Hay, Straw, Oats, Oil Meal, Rock Salt, Coarse Salt and Bran.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the above shall present the same in a sealed envelope to said Commissioner of Street Cleaning at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The Commissioner of Street Cleaning reserves the right to decline any and all bids or estimates, if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of fifteen thousand (\$15,000) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of

the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of seven hundred and fifty (\$750) dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

GEORGE E. WARING, JR., Commissioner of Street Cleaning.

Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done, in each class, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTERESTS OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the material, can be obtained upon application therefor at the office of the Department.

The amount of security required is THREE THOUSAND DOLLARS.

No. 5. ABOVE MENTIONED.

Bidders will state a price or sum for completing the entire work specified to be done.

The entire work is to be completed within SIXTY DAYS after notice to commence work has been given, and the penalty for non-completion within the specified time will be TWENTY DOLLARS per day.

The amount of security required is ONE THOUSAND DOLLARS.

The estimates received will be publicly opened by the head of the said Department at the place and hour last above mentioned and read.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for his faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within ten days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

N. B.—The prices must be written in the estimate and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items for which bids are herein called, or which contain bids for items for which bids are not herewith called for. Permission will not be given for the withdrawal of any bid or estimate. No bid will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The Department of Public Parks reserves the right to reject any or all the bids received in response to this advertisement if it should deem it for the interests of the City so to do, and to readvertise until satisfactory bids or proposals shall be received. But the contract when awarded, in each case, will be awarded to the lowest bidder.

Blank forms for proposals and forms of contract which the successful bidders will be required to execute, can be had at the office of the Department, Arsenal, Sixty-fourth street and Fifth avenue, Central Park.

### Office of Attorney for Collection of Arrears of Personal Taxes.

Report of the Bureau of Attorney for the Collection of Arrears of Personal Taxes, for the Quarter ending June 30, 1895, Pursuant to Section 216, Laws of 1882.

There have been begun since the 1st day of April, 1895, 481 special proceedings and 19 actions for the purpose of enforcing the payment of personal taxes in arrears.

Of this number 209 cases have been dismissed, 44 have terminated in an order of commitment and are still unpaid; in 28 cases claims have been filed, 54 are still pending; 5 delinquents have been examined and found insolvent; in one case the tax has been remitted, 140 have paid. There have been brought 19 actions, of which 2 have paid, 2 are in judgment, 1 discontinued and the balance are still pending.

During this quarter this Bureau has collected the sum of \$41,732.87 for taxes and interest, and this amount, in addition to the sum of \$32,723.71 taxes and interest collected for the first quarter of the present year, makes a total collection of the sum of \$74,456.58 for taxes and interest, and in addition thereto costs have been collected and paid to the City Chamberlain in the sum of \$1,036.19, and in addition thereto interest on bank deposits in the sum of \$48.04, making a total aggregate collection for the first six months of the present year the sum of \$75,540.81.

In severing my official connection with you I desire to state that my aim has been to make this Bureau efficient and self-sustaining, and I leave the results, as set forth in my various reports, to speak for me.

From the records in the Finance Department it appears that this Bureau collected \$172,508.90 between May 2, 1882, and December 31, 1889, and during my administration, from January 1, 1890, and ending with this date, the amount collected is \$464,711.31.

Wishing your administration in this Bureau even better success than I have had, I remain, Very respectfully yours,

JOHN G. H. MEYERS, Attorney for the Collection of Arrears of Personal Taxes.
