DEPARTMENT OF PARKS.

December 31, 1901.

Hon. Robert A. Van Wyck, Mayor: Sir—I have the honor to transmit herewith a report of the finances and operations of the Department of Parks, boroughs of Manhattan and Richmond, The City of New York, for the year 1901.

The pressure of business in closing up my official term makes it impossible for me to make a resume from the reports of the officials of the Department. I beg leave, therefore, to submit them as received. Yours respectfully,

GEORGE C. CLAUSEN,

Commissioner of Parks, Boroughs of Manhattan and Richmond.

OFFICE OF CHIEF ENGINEER, BOROUGH OF MANHATTAN AND RICHMOND.

Hon. George C. Clausen, Commissioner of Parks, Boroughs of Manhattan and Richmond.

Dear Sir: I have the honor to transmit below a report showing the work done on construction during the year 1901; also, a statement as to what works were prosecuted to completion.

Central Park. New Asphalt Gutters, West Drive—As recommended in my last annual report the work of laying asphalt gutters, for surface drainage, adjacent to drives, in place of the existing rubble and cobble gutters, which, in addition to their

being very unsightly, offered an uneven surface for the flow of water, was continued. The drive so improved was the West Drive, between Seventy-first and Eighty-sixth Streets. This improvement added at least six feet to the general width of driveway, owing to the fact that the grade of new gutters was raised and this permitted of the reshaping of quarters of roadway. In connection with this work new cross walks were laid and the walks adjacent to gutters were relaid to proper grade with asphalt. The adjoining lawns and borders were reshaped and resodded and the general appearance of the drive was improved. It is to be desired that further appropriations will be authorized to continue this work during 1902.

The cost of the work was \$6,054.71, and the amount of work done as follows: 231.34 cubic yards concrete furnished and laid; 15,478.91 square feet of rock asphalt mastic in gutters laid; 954.22 square feet of rock asphalt mastic in walks laid; 10.24 cubic yards bituminous binder furnished and laid; 128.39 square yards asphalt cross-walks paved.

Repaving With Asphalt the Walks in the Vicinity of McGown's Pass Tavern—The entire surface of the walk system, in the above described locality, having become badly worn and disintegrated, a contract was executed for the repaving of the same. The amount of work done follows: 13,886.85 square feet of rock asphalt mastic wearing surface laid; 20.21 cubic yards concrete as foundation laid.

The cost was \$2,126.05.

Repairs to Other Walks in Central Park—General maintenance repairs to Asphalt Walks, upon which guarantee had expired, were made in various places in Central Park, viz.: At Terrace Bridge, near boathouse, McGown's Pass Tavern tool-house; at Central Park entrance, One Hundred and Tenth Street, Eighth Avenue; at Fifty-ninth Street Plaza Entrance, near the Managerie buildings, the Mall, Webster Statue, Woman's Cottage, near Seventy-fifth Street, Men's Cottage, near Eightieth Street, near Ninety-sixth Street and Eighth Avenue, at Seventy-seventh Street and Fifth Avenue and at road leading from Transverse Road to Arsenal.

The amount of work done in the various classes follows: 5,066.99 square feet of rock asphalt mastic wearing surface laid; 26.23 cubic yards concrete foundation laid; 156.20 linear feet of four-inch bluestone curb furnished and set; 8.10 linear feet 2½ inch edging set.

The total cost of these repairs was \$1,184.18.

New York Public Library—Removal of Old Reservoir and Building Foundations, etc.—This work under contract has progressed during the year and its early completion is predicted. The work done during the year is as follows: 1,200 cubic yards old Reservoir removed; 20,500 cubic yards earth excavation for walls, cellars, etc.; 28,390 cubic feet concrete laid in foundations; 133,220 cubic feet rubble masonry walls built; 6,140 cubic feet masonry laid; 1,425 cubic yards back filling in place.

Contract No. 2, for the Construction of Fortieth Street Vault, etc.—Work on this contract, executed in March, was begun in April. It being a lump sum contract, detailed measurements of various items of work were not made. It is, however, estimated that about \$15,000 worth of work or about 40 per cent. of the whole contract has been completed.

Contract No. 3, for the Complete Erection of Library Building—This contract, amounting to \$2,865,706, was executed during August. But little work, other than at a preparatory nature, and the building of frame offices for the architects has been done. A start has, however, been made in the building of brick walls, etc., in the northeastern corner of the building proper.

Viaduct Over Ninety-sixth Street, Riverside Drive—For many years the necessity of carrying Riverside Drive over Ninety-sixth Street was felt, Ninety-sixth Street being a trucking thoroughfare and in great demand. Owing to the fact that the public docks are at the foot of the street, some scheme had to be devised to relieve the congested traffic at its junction with Riverside Drive. During the latter part of 1900 work on the construction of a Viaduct was actually begun; and it will be practically completed at the close of this year. In connection therewith public comfort stations, toolhouses and park entrances will be constructed and erected, leaving nothing to be done but the shaping, sodding and planting of the park lawns and slopes and the laying out of new park walk systems. Upon the completion of this work the beauties of Riverside Drive will be greatly enhanced and public safety assured.

It might be more of passing interest to mention the amount of work done on this construction during the year.

Summary of Work Done on Viaduct Over West Ninety-sixth Street for Year 1901—1,861 cubic yards foundation excavation; 20,000 cubic yards borrowed fill in place; 900 cubic yards foundation concrete laid; 906 cubic yards east retaining wall first-class rubble masonry laid; 1,694 cubic yards anchor walls above foundation, &c., built; 160 cubic feet pedestal pier caps set; 8,650 cubic feet granite sidewalk pedestals erected; 710 cubic feet granite pedestals, pier cap and bases set; 18 square granite balusters set; 27 round granite balusters set; 325 cubic feet granite steps and cheeks set; 200 linear feet granite anchor wall coping set; 200 linear feet blue-stone tail wall coping set; 992 cubic feet granite east retaining wall coping set; 842,900 pounds iron and steel in place; 927 square yards asphalt over buckle plates in place; 3,100 square yards gravel surface Telford Park roadway constructed; 300 square yards asphalt sidewalk Ninety-sixth Street under drive laid; 183 linear feet granite curbing on Ninety-sixth Street under drive set; 1,200 linear feet new curbing on driveway set; 6 new catch basins complete with connections with sewer; 4 catch basins removed and rebuilt with connections; 371 linear feet 12-inch vitrified drain pipe laid; 426 linear feet gas pipe railing set in place; 125 cubic yards foundation excavation; 317 cubic yards foundation walls rubble and concrete built; 266 cubic yards foundation excavation; 364 cubic yards foundation walls rubble and concrete built; 1-2 of the pavilions complete with steps, &c.; 6,700 cubic yards borrowed park filling in place; 521 cubic yards foundation excavation for walls; 275 cubic yards foundation concrete in place; 901 cubic yards walls on Ninety-sixth Street below coping built; 1,358 cubic feet granite coping and cap stones set; 176 cubic yards wall work below coping along railroad built; 127 linear feet granite coping for wall along railroad set; 653 linear feet steps and cheeks set; 350 square yards asphalt walks on Ninety-sixth Street laid; 200 square yards asphalt walks in park laid; 250 linear feet curb reset along Ninety-sixth Street; 1 tool house complete, &c.; 7-10 of the public comfort house complete, &c.; 262 linear feet of 2½-inch blue-stone edging, straight and curved, furnished and set.

The cost of the Viaduct when completed will be approximately \$206,000.

In connection with the work "Constructing Ninety-sixth Street Viaduct" it was found necessary to build a new city sewer on the Easterly side of Riverside Drive between Ninety-fifth and Ninety-seventh Streets to take the place of the then existing one, which was located directly under the Easterly retaining wall.

Although the work on the sewer proper was practically completed during last year, and so reported on in my last annual report, the work of laying drain pipe through the walls for house connections with sewer was not done until this year.

It required the laying of 570 feet of six inch pipe to complete this work. The cost of sewer and house connections was \$5,184.

RIVERSIDE PARK.

Repaving Walks with Asphalt, Seventy-second to Seventy-ninth Street—The asphalt wearing surface of the walks in Riverside Park between Seventy-second and Seventy-ninth Streets, which was laid many years ago, was found to be in a badly disintegrated condition, full of holes and dangerous to travel. A small construction balance was made available; and that section of park was put in perfect condition. The cost was \$5,073.88 and the work done: 33,813 square feet of rock asphalt mastic wearing surface laid; 18 cubic yards concrete in foundations.

Ninety-sixth to One Hundred and Twentieth Street—Considerable damage was

done to the walks in this section by washouts, through heavy storms, &c., and extensive repairs were necessary. A contract was entered into and the walks were placed in generally good repair at a cost of \$2,334.81. The amount of work done follows: 7,083 square feet of rock asphalt mastic surface laid; 48½ cubic yards concrete in foundations.

CATHEDRAL PARKWAY.

Repairs to Roadway, Curb, &c.—In the original construction of Cathedral Parkway, between Seventh Avenue and Riverside Drive, it was found necessary to build some of the roadway and set a great deal of the heavy curb upon what is known as green fill; this was owing to the fact that One Hundred and Tenth Street was widened. As a natural consequence, depressions of a considerable depth were found in the pavement of roadway, and the curb went down in some places to a depth of four inches. After the filling had finally reached its proper settlement and in order to remedy these defects and place the parkway in proper repair a contract was executed to repave certain portions of roadway, reset curb, pave with asphalt Eighth Avenue Crossing Circle, lay new bridge stone and bicycle strips, &c. The cost of these repairs amounted to \$11,503.26, and the work done as follows: 4784.41 linear feet of curb reset; 266.87 linear feet new eight-inch curb furnished and set; 2880.95 square yards of granite block pavement relaid; 754.52 square yards of asphalt roadway laid; 1151.02 square feet of bridge stone relaid; 1329.52 square feet of new bridge stone furnished and laid.

EAST RIVER PARK EXTENSION.

Completion of Sea Wall—A contract for the completion of the sea wall along the easterly front of this park was executed during the late spring and work on same begun during the latter part of May. This work is still in progress of construction but its early completion is assured. Upon the acceptance of the same it is the intention to construct an esplanade along the entire wall line, thereby affording to the public a promenade and water view and adding to the general attractiveness of the park. The executed contract amounts to \$32,925 and the work done to date follows: 300 cubic yards of earth excavation for esplanade; 10 cubic yards of rock excavation for esplanade; 900 cubic yards of filling in place; 690 cubic yards of excavation of all kinds for wall; 1,250 cubic yards of wall masonry built; 110 cubic yards of concrete laid; 340 linear feet of granite coping furnished and set, and the general construction of coffer dam for remainder of walls.

MULBERRY BEND PARK.

Repairs to Pavements, Curb, etc.—The cement walk pavement of this park had become broken and settled badly; in places depressions to the depth of one foot were found. The curb and edging had gone out of line and grade, the lawns had settled; and other defects were presented. In order to place the park in proper repair a contract was entered into to remove the existing house connections, to cap the water mains, to repair the pavements, to reset curbs and edgings, to repair, reset and repaint pipe fence railings and to restore lawns, etc. The cost of this work was \$10,091.22 and the work done as follows: 351.25 linear feet curb reset; 2,813.19 linear feet edging reset; 31,836.97 square feet cement walk laid; 98.84 cubic yards mould furnished and deposited; 14,819.66 square feet sod furnished and laid; 41 taps removed from water mains and plugged; 3,182 linear feet fence taken down, reset, etc.; 4 drinking hydrants repaired and reset, and new brick vault basins built for them.

THOMAS JEFFERSON PARK.

Regulating and Grading, Contract No. 1—Chapter 746, Laws of 1894, lays out as a public park all the lands between One Hundred and Eleventh Street, First Avenue, One Hundred and Fourteenth Street and the bulkhead line of the East River. Upon the completion of the work of removal and demolition of buildings a contract for the regulating and grading of this park was executed during 1900 and the work was completed during 1901. The work embraced in this contract was the excavation and removal of brick masonry, rubbish, walls, stone, earth, &c., to a general depth of from four to five feet, and the refilling of the entire area with clean, wholesome earth filling. This method of construction was accepted as the best, in so far as it provided a wholesome underfill for plantings, and when complete settlement of materials had taken place the curbs, walks, lawns, &c., of permanent park layout would remain in place. The existing house connections from Croton mains were capped and street pavements restored. An enclosing fence was erected around entire park.

The total cost of the work embraced in this contract was \$33,055.89 and the work done this year follows: 22,111 cubic yards of excavation; 27,668 cubic yards of filling in place; 2,677 linear feet of board fence erected.

Contract No. 2. Regulating and Grading—Upon the removal of the gas house offices, properties, etc., at One Hundred and Eleventh Street and First Avenue, it was found necessary, owing to certain litigation pending relatives to rights, etc., of company at the time Contract No. 1, for regulating and grading, etc., was considered, to enter into a second contract for regulating, grading, etc., this part of the park in the manner described in Contract No. 1.

This work was completed at a cost of \$3,631.30 and the work done follows: 6,122 cubic yards of excavation of all kinds; 5,284 cubic yards of filling in place.

Contract No. 3. Laying Flag Stones, Setting Curb, &c.—At the time Contract No. 1 was executed the Department had not been advised of the legal closing of One Hundred and Twelfth and One Hundred and Thirteenth Streets. They have since been closed and are part and parcel of the Park. A contract was entered into to remove the existing flagging, curbs, etc., and regulate and grade with wholesome earth filling the then existing streets.

The work is now in progress and will be completed shortly, the estimated cost of same is \$4,500 and the work done as follows: 1,800 square feet of old flagging taken up and relaid; 17,700 square feet of new flagging laid; 2,500 cubic yards earth filling in place; 100 linear feet new 5-inch curb set; 1,300 linear feet old curb reset; 1 new receiving basin built.

WEST EIGHTY-SIXTH STREET.

Asphalting Roadway, Setting Curb, etc.—A contract for paving with asphalt the roadway of West Eighty-sixth Street between Central Park West and Amsterdam Avenue was executed; and the work was prosecuted to completion at a cost of \$19,778.04. The money was made available after repeated efforts; and the balance on hand will be sufficient to pave Eighty-sixth Street from Amsterdam Avenue to Riverside Drive, a contract for which has been awarded. The work done follows: 3,301 linear feet of six inch bluestone curb set; 7,319 square yards of granite block pavement taken up and relaid; 7,324 square yards of asphalt roadway pavement with bituminous binder laid.

STUYVESANT SQUARE.

Serious defects in the drainage of this park were remedied, as they were the cause of general complaint. An order was issued to do the work and the entire drainage is now in good repair. The work done follows, the cost of which was about \$500; 3 walk basins built complete; 100 linear feet of six-inch new drain pipe furnished and laid; 250 linear feet of old drain pipe, which was found filled solid with silt taken up, cleaned and relaid; 170 square feet of asphalt walk pavement restored, and the sodding of trenches.

RIVERSIDE DRIVE.

Resurfacing Roadway Between Seventy-second and One Hundred and Twenty-ninth Streets—Riverside Drive from Seventy-second to One Hundred and Twenty-ninth Street, not having been resurfaced in years, (owing to the lack of funds to properly repair the same), having become considerably worn; and offering at its best but a rough and uneven surface for travel, was resurfaced this year under contracts for furnishing, delivering, &c., shale and trap rock screenings. The shale was spread to various depths, varying from 2 to 5½ inches, over the entire surface of drive and property road and then thoroughly rolled. Trap rock screenings to the depth of about one inch was then rolled in to bond with the under strata of shale and the roadway to-day offers a smooth surface. In this way this greatest of pleasure drives was much improved, the cost of the materials, shale and screenings is \$34,146.90. As the labor of spreading, &c., rolling, sprinkling was furnished by the Park force I am not in position to state in figures the outlay for same. The work done: 12,513.31 cubic yards of shale spread and rolled; 2,897.33 cubic yards of screenings spread and rolled.

RUTGERS PARK.

The rubble masonry wall supporting the granite coping and iron railing surrounding this park was what is known as a rough finished wall, the exterior face showing to the weather for a height of from six inches to two feet. This rough surface was exposed to view. A small construction balance was made available and the entire surface received a cement patent stone finish, trowelled and rubbed down. About 375 running feet of wall was treated in this manner.

EAST RIVER PARK.

General repairs were made to the cement walk pavement of Esplanade adjacent to Sea Wall, between Eighty-fourth and Eighty-sixth Streets. The work done was the relaying of 500 square feet of walk pavement of Portland cement mortar on concrete base.

HUDSON PARK.

Repaving Walks, Building Basins and Doing Other Work.

A contract was entered into to pave the existing gravel walks with asphalt on concrete base and rubble stone foundation, to build new drainage system, including regular brick walk basins with silt chambers, to set edging, to spread mould and to lay sod, &c. The contractor began operations in November, and only the work of building basins and laying drain pipe for the purpose of draining the low land and walks will be permitted at this season.

The work done to date is the building of ten walk basins and the laying of 135 feet of drain pipe. The estimated cost of work when completed is \$12,630.

In concluding my report I desire to state that contracts are now in force, and work on same is now being prosecuted as follows:

Viaduct, carrying Riverside Drive over Ninety-sixth Street.
New York Public Library, contract No. 1, removal of reservoir and building foundations.

New York Public Library, contract No. 2, constructing Fortieth Street vault.
New York Public Library, contract No. 3, building library proper.

Sea wall extension East River Park.
Hudson Park, improvement of, asphaltting walk, building drainage system, basins, &c.

Jefferson Park, regulating and grading.
Soldiers' and Sailors' Monument, construction of.
Soldiers' and Sailors' Monument, approaches.

Museum of Art, electric fixtures, &c., electric wiring, painting walls, &c.
Bids were received, and contracts awarded; but work not ordered on, owing to the lateness of the season on the following:

Widening Fifty-ninth Street, between Fifth and Eighth Avenues.
Paving with asphalt, setting curb, &c., West Eighty-sixth Street, from Amsterdam Avenue to Riverside Drive.

Preparing plots for tree planting in Riverside Drive, between Ninety-sixth Street and One Hundred and Twenty-fourth Street.

Improving park, Port Richmond, Staten Island.
Improving park at Stapleton, Staten Island.

Contract for rock excavation New York Public Library.

In addition to the general field and office work performed by the Engineering force in connection with the above described work, such as preparing the specifications, form of contracts, plans, details, general laying out of same, estimates for payments, &c., this bureau was engaged as follows:

SURVEYS AND PLANS.

For repairs to pavements, &c., Corlears Hook Park.
For restoration of Park Territory near One Hundred and Tenth Street, Lenox Avenue, destroyed in Construction of Rapid Transit Tunnel.

Of Ryan Park (for record).
Of Hooper Fountain (for record).

Of grounds around Casino, Central Park, for laying out new work and for determination of quantity of excavation in contract for improving said grounds.

Of One Hundred and Tenth Street, Fifth to Seventh Avenues (Cathedral Parkway Improvement).

Of Rutgers Park, for improving southerly end.

Of grounds west of Public Driveway, near One Hundred and Ninety-fifth Street for proposed sheds.

Of the northern end of Riverside Park for restoration of work destroyed in construction of Viaduct Extension of Riverside Drive.

Of grounds adjacent to bear pit, Central Park.
Of property road Riverside Drive, between Ninety-first and Ninety-second Streets.

Of proposed drive approaches to Ninety-sixth Street Viaduct.

Of proposed improvement of Riverside Drive, Bridle Path and Cycle Path between Ninety-seventh and One Hundred and Twentieth Streets.

Proposed improvement around the Menagerie.

For proposed alterations to entrance drive at Ninetieth Street and Eighth Avenue.

The following plans were prepared for submission to the Board of Estimate and Apportionment for funds:

For resurfacing Bridle Road and Cycle Path of Riverside Drive between Ninety-seventh and One Hundred and Twentieth Streets.

For repaving walks in Central Park.

For constructing roadway in Battery Park.

For new curb stones and repaving roadway of Central Park West from car-tracks to curb.

For repaving plaza One Hundred and Tenth Street and Fifth Avenue.

For paving the esplanade walk adjoining the sea wall in extension of East River Park.

For paving with asphalt and setting curb Seventy-second Street from Central Park West to Riverside Park.

The corps have also been employed on the tabulations of bids for all boroughs, measurement of trucks and scows delivering mould, shale, gravel, screenings, etc.; the testing of cements and other building materials and the inspection of asphalt pavements under guarantee, and general office work.

I remain respectfully, etc.,
EDWD. A. MILLER, Chief Engineer Department of Parks.

The report of Mr. Julius F. Munckwitz, Jr., as to the work done by the Architectural Bureau follows:

The Architectural Bureau has been engaged during the year in preparing plans and specifications for improving various structures, bridges, &c., and also superintending the work, as follows: A number of improvements have been made to buildings, inclosures, yards, etc., of the Zoological Department. Among these is a snake cage in the easterly end of the monkey house, new wrought iron fences around the yards at the deer house, an ornamental wrought iron inclosure for the rabbit warren, new roofs to the deer house and the cattle sheds, blue stone edging along walks adjoining the cattle yards and eagle cage and a new iron fence around yard of cassowary. All this work has materially improved the appearance of the different yards and buildings. All the above work was done by contract and the cost approximately \$3,668.

Many repairs and alterations to the Claremont Hotel in Riverside Park and the McGown's Pass Tavern in Central Park have been made, such as new steam-heating plants, painting, plumbing, decorating, roofing, etc.

Repairs were made to buildings and bridges as follows: Battery Park music stand, Men's Toilet in Union Square cottage, two bridges in Central Park, Lawn Tennis Cottage, Stationary Seats on Mall, Women's Cottage near Casino. This work was done by contract and cost about \$2,590. A new music stand was built at Abingdon Square at a cost of \$797.00. The old carriage shed used by the Police and standing near the Sheepfold was moved and a new one that cost \$680 was built on another site. The removal of the old house was made necessary by the improvements around the Sheepfold and the construction of a new entrance to the park at Sixty-sixth Street and Central Park West.

The work on two buildings and the pavilions in connection with the building of

the viaduct at Ninety-sixth Street and Riverside Drive has been inspected during its execution. A number of contracts for the completion of the Art Museum have been examined and the work inspected while under execution and payments examined.

New office partitions in Arsenal were put up at a cost of \$920.00. The vault in Arsenal in which the maps and drawings are kept had become so filled with different things that did not properly belong there that a thorough overhauling and classification of all drawings became necessary. New cases and cubes for the drawings and maps have been supplied and the indexing and cataloguing is now well advanced. When finished a complete record of all drawings will be available for reference.

The Soldiers' and Sailors' Memorial Arch, now being erected on Riverside Park and Eighty-ninth Street, is under the supervision of a commission created for that purpose, but the immediate responsibility for overseeing the work and auditing the accounts has been placed on this Department. The monument proper is nearly completed and about one-half of the esplanade is finished. A contract for \$59,400.00 for building the north and south approaches has been executed and the work will probably be begun next Spring.

The question of improving the sanitary conditions of the public toilets in the various parks has received considerable attention during the year, and I quote from my report on this matter. "The sanitary condition of many of the cottages and places which are used for toilets are exceedingly bad and ought not to be tolerated, nor is it right that the public should be permitted to use them. An examination of these places reveals the fact that repairs cannot remedy all the evils. Every park throughout the city should have a separate building or toilet for men and for women. I have included in my estimate the cost of putting up such additional structures in the parks to provide for this demand." In this report the necessity for rebuilding Bank Rock Bridge was also dwelt on and the whole matter was laid before the Board of Estimate and Apportionment with request that the necessary bonds be issued to carry out these improvements. This was done, and plans are being prepared to build these much-needed toilets. The location and estimated cost of the buildings, &c., is shown in the following detailed statement:

Central Park—	
Bank Rock Bridge, No. 10, located east of West Drive, near Seventy-seventh Street, over inlet of lake, to be rebuilt.....	\$ 5,000 00
Men's cottage No. 29, in Ramble, to be taken down and replaced with new one.....	4,000 00

BOROUGHES OF MANHATTAN AND RICHMOND.

Office of Landscape Gardener.

Hon. George C. Clausen, Commissioner of Parks, Boroughs of Manhattan and Richmond.

Sir—I herewith submit a report of work done under my immediate supervision during the year 1901 in the parks of the Boroughs of Manhattan and Richmond.

The work commenced during the previous year in Riverside Park was carried on and completed as far as One Hundred and Twenty-second Street. The new plantations laid out during the past summer extend from One Hundred and Eighth Street to Claremont Hotel, but there still remains some planting to be done around Grant's Tomb and on the steep slopes west of the westerly drive and north of One Hundred and Twenty-second Street. About sixteen thousand trees, shrubs and vines were received in the spring and fall, of which the greater part were used for planting. There are, however, a number of plants reserved for after planting, some of which are heeled in at the Nursery in Riverside Park just north of Ninety-sixth Street and the remainder planted out in the Nursery in Central Park near Eighth Avenue and Sixty-sixth Street. There are therefore on hand in the two nurseries mentioned sufficient trees and shrubs to complete the plantations in Riverside Park, or very nearly so.

The rough ground west of Grant's Tomb on the steep slopes partly covered with wood was graded and sodded. The wood which constitutes a very slight remnant of the primitive vegetation of Riverside Park was preserved as nearly as possible in a natural state.

South of Claremont Hotel the unsightly stables were removed and a small flower garden was laid out nearer the building. Over one acre of ground was laid out in sod on the site of the old stable and its approaches. The little garden became quite popular and forms a centre of interest in that part of the park.

The lawns above One Hundred and Eighth Street were renovated, cleaned and regraded to a large extent. The plantations in the whole of the park were cultivated and developed rapidly, so that a marvelous transformation is likely to take place within a few years, if the work is carried out on rational and economical lines. In many parts of the park the shrubberies are already effective from an ornamental point of view, and begin to furnish shade and shelter.

The routine work of watering, pruning, cultivating, cleaning, mowing and removal of grass and refuse was carried on as usual and on as economic lines as possible.

A new entrance without steps was made at One Hundred and Sixth Street, so that the park is now accessible to mothers with young children. Before this entrance was made there was no such entrance north of Ninety-sixth Street.

Considerable destruction took place during the summer months, owing to the neglect of the police authorities, so that it was no uncommon sight to see hundreds of persons picnicking in the young shrubberies and hanging clothes and baskets on the young trees, which were broken down in many instances and had to be replaced during the fall. The loss of newly-planted trees and shrubs from natural causes was considerable.

Some construction work was also carried on in various other parks. The small plot of ground at One Hundred and Fifty-fifth Street and Edgecombe Avenue was filled in, graded, sodded and fenced at small cost to the Department, as all the mould and filling was obtained free of charge. Considerable other undeveloped ground was also filled in with mould and loam obtained free of cost to the Department, viz.: The most southern part of High Bridge Park, as far as One Hundred and Fifty-eighth Street; Empire Park, the hollow and unhealthy ground in Manhattan Square north-west of the Museum (not yet completed), and the undeveloped ground south of the Conservatory.

This large tract of land was graded and laid out according to plans prepared in connection with the Conservatory. A considerable amount of mould was put in by contract at very low cost (eighty-nine cents per cubic yard), and the whole area manured, spaded and seeded, so that a very small outlay for asphalt will complete the improvements south of the Conservatory grounds. The approaches planned in connection with the Conservatory could not be carried out, as the appropriation was not passed on by the Municipal Assembly.

The work of resodding worn edges and borders of walks in the parks of Manhattan and Richmond was done by the contractor in a satisfactory manner, so that the parks were in an unusually good condition as early in the season as the first day of May.

Much of this work was subsequently destroyed because of the unjustifiable suspension of the park rules by the police authorities, so that not only were newly seeded lawns trampled down, but even the flower borders were trampled to pieces and persons were seen to lie down unmolested among the choicest flowers of the park. This inactivity on the part of the police also resulted in considerable destruction of shrubberies and the appearance of unsightly paths across the lawns in various parts of the park.

An attempt was made late in the fall to repair, as much as possible, such defects, and a large quantity of manure was carted to the weakest lawns, shrubberies and embankments.

Early in the season Mount Morris, Morningside Park, Madison Square and large tracts in Central Park were covered with manure and many bare embankments and other places were seeded with suitable varieties of grass seed.

In the Ramble, Central Park, the work of beautifying this natural garden was carried on on the lines laid down during the two preceding years. About 600 rhododendron maximus, of large size, were added to the collection of evergreens, all of which succeeded admirably and formed buds which will flower in the spring of 1902. The colonies of wild flowers, corydalis, ornithogalens and bulbs of various kinds were largely increased so that hardly any bare ground remains in the Ramble outside of the promontory, which was greatly abused by careless visitors. Hundreds of azalea mollis were also planted in the Ramble, and will, in a few years, make fine displays in early summer.

A number of evergreen trees were planted in various places in Central Park and succeeded tolerably well, although the hot spell in the summer was very hard on newly planted evergreens.

The usual routine work of pruning, removing dead wood, cleaning, destroying insects, curing diseases, watering and cultivating, as well as the care of floral display, was attended to as usual.

There were very beautiful floral displays in the parks during the early part of May and June. A number of narcissuses and daffodils were introduced in the fall of 1900, all of which flowered beautifully, forming one continuous mass of flowers on the east side along the drive from Eighty-sixth to One Hundred and Second street, and north of McGown's Pass Tavern to the bridge near the Harlem Meer, as well as throughout the Ramble and north of the South Drive near Fifty-ninth Street. The number of wild flowers and bulbs planted during the fall of the present year will undoubtedly make the park extremely beautiful during the months of May and June of 1902, as well as ever afterwards, as these plantations will be permanent with very moderate care.

A number of shrubberies have also been renovated in the Central and City parks and new shrubberies have been planted in connection with the new work at the Casino, the Sheepfold and south of the Conservatory.

Two-rail fences to protect borders of lawns, in all 4,000 linear feet, were put in in Central Park, and 1,500 linear feet of wire mesh fences were put in in various city parks, to protect statuary, floral displays and lawns in small parks. Two and three rail fences were also put in in Riverside Park to protect the public from stepping from the walks over steep embankments. Hancock Square was enclosed by a picket fence and wholly renovated. Empire Park at Sixty-third Street and Broadway was also fenced and renovated. Existing fences were cleaned and repainted throughout, as far as possible.

The Entomologist was steadily engaged throughout the year cleaning and spraying such trees as are generally subject to insect pests. The Parks were visited by unusual numbers of Tussock moths, which ravaged many trees, especially in the city parks and on the avenues not under the care of the Department of Parks. As the female of the Tussock moth is wingless and cannot fly it is clear that the pests were bred in the Borough, but the fact that many trees in the neighborhood of the parks are allowed to harbor insects explains why the parks cannot be kept wholly free from insects like this. Unusual care was taken during the present summer to destroy all cocoons of this moth as soon as they appeared on the trunks. Many extra workmen were put on this work late in the summer, and as the gardeners in pruning are doing their best to clean all infected trees, it is hoped that very few Tussock moths will be found in the parks during the summer of 1902.

The spring and summer display in formal flower beds was generally good. A large number of plants were stolen and carried away from the parks, to the great detriment of the flower beds. An endeavor was made to discourage this tendency by planting very strong and robust plants exclusively. No carpet bedding was therefore attempted as in previous years, but the displays consisted chiefly of Cannas, Geraniums, Begonias and similar flowering plants. These displays were very successful in Central Park, Manhattan Square and other protected parks and in the city parks where the flower beds were enclosed by wire mesh fences. In all 45,000 plants were raised and used for spring bedding and 205,000 plants were raised for summer display, of which number 125,000 were planted out and the remainder kept for stock. The over garden north of the Conservatory was planted with palms and other handsome foliage plants, as well as with the choicest of flowering plants, and was greatly admired as a promenade.

The fountains were generally replanted with water lilies and other aquatic plants. There is now no aquatic house where such plants can be raised, and such a house should be built in order to make the floral display of the city's fountains more and more attractive and interesting during the summer months.

A large quantity of herbaceous plants was raised in the nursery at Sixty-sixth Street and Central Park West, some of which were planted out in beds and borders in the fall. There are now on hand in the nursery 26,100 herbaceous plants, 40,000 pansies and daisies and 2,500 trees and shrubs.

There are also at the Conservatory, on hand for use next spring, 35,000 pansies and daisies and nearly 100,000 bedding plants of various kinds, including dormant bulbs and tubers.

Among new and important improvements in Central Park may be mentioned the new entrance at Sixty-sixth Street and Eighth Avenue. The unsightly sheds and the large dumping ground at this place were done away with and the improved ground was laid out in keeping with the rest of the park. Some minor work is still to be done in connection with this improvement.

The construction and completion of the Conservatory was almost wholly suspended for lack of funds. A retaining wall and flight of steps were constructed on the southeast corner of the Conservatory. An additional boiler was put in at the Conservatory, as it was found that the two boilers formerly used for heating the whole system were considerably strained in very cold weather. The heating system is now perfect and very economical.

The Conservatory was repainted where necessary and the buildings are now in a very satisfactory condition.

The exhibitions, or Flower Shows, in the Conservatory were very popular. The Chrysanthemum exhibit was finer and more complete than before and was visited by no less than 330,000 persons during the month of November. The total number of visitors to the Conservatory during the year exceeded 1,400,000 persons. As this institution paid for all running expenses as well as interest on the capital expended on its construction by producing all the bedding plants required for outdoor display in the Borough of Manhattan, it will be seen that the flower shows were furnished absolutely free of cost to the city. The establishment therefore deserves every encouragement, and additional facilities for growing a still more varied collection of flowers, including aquatic plants, should be furnished without too much delay. Such additions should, however, be made in conformity with the original plans.

The Casino in Central Park was thoroughly overhauled and renovated. The old building was insanitary and in many places dangerous to the public. It has now been made very nearly fireproof. There are new and handsome toilet rooms, a large dining hall, surrounded by an inclosed veranda, under which is placed the large new kitchen. New heating and lighting features were also put in, and the building is now modern and practical in its appointments.

A new approach to the Casino was also constructed under my supervision and the surrounding ground was generally renovated and planted with new shrubberies.

The work in the office of design consisted of furnishing the plans for Seward, Jefferson and the Staten Island parks, and numerous plans for minor parks, plantations and improvements, as well as working plans and specifications for such work as was carried out under my direct supervision.

Respectfully,
N. JOUSSON ROSE, Landscape Gardener.

Office of General Foreman.

Hon. George C. Clausen, Commissioner of Parks, Boroughs of Manhattan and Richmond.

Sir: I desire to submit herewith a brief account of the work performed under my supervision during the year 1901.

In the various parks the routine work incident to the seasons was attended to.

During the winter months special efforts were made to clean the walks of snow and ice as soon after storms as possible. In this work the record of previous years was fully lived up to and the necessities of the public were met.

The driveway of Riverside, except a portion immediately north and south of Ninety-sixth Street; the roadway of West Seventy-second Street and the drives of Central Park were repaired with shale and stone screenings, about 13,000 cubic yards of material being used on the work.

The bridge paths of Central Park and Riverside Park were cleaned, harrowed and kept in good condition.

In Central Park the cottages were kept open during the winter months from 8 A. M. to 5 P. M. and during the balance of the year from 6 A. M. until 10 P. M.

During the winter and early part of 1901 advantage was taken of the low water in the park lakes to clean the shores, thus adding greatly to the healthful conditions of the park during the spring and summer months.

The usual preparations were made for skating, such as erection of buildings, platforms, etc., but owing to the mild winter it was not possible to open the lakes for skating.

The road of the Harlem River Driveway was repaired with screenings and loam. During the year there were removed to the various dumps of the Department of Street Cleaning from the parks in the Borough of Manhattan 4,904 loads of refuse, etc.

During the first quarter of the year the average time of the working force was four days per week; full time was resumed in the spring and continued until about December 1.

The mechanical forces were engaged as follows: The carpenters in the repairs of the various cottages, buildings, bridges and other structures, rolling stock, etc. The skate buildings and platforms were put up by this force for skating last winter; were removed in the spring, and are now being erected for this season's use. This force also repaired and delivered settees as follows:

Central Park, 1,660 settees; City Park, 1,371 settees; Harlem River Driveway, 145 settees; Staten Island parks, 50 settees; total 3,176 settees.

The painters were engaged in painting on repairs made by carpenters as well as several cottages in Central Park and the various pieces of rolling stock, painting of settees, etc.; the masons were engaged in repairs of the walk basins, fountain basins, drainage, etc.; the steam engineers and machinists were engaged in the operation and repair of the steam heating plant at the Arsenal and the engine at the shops, as well as the various needs for repair of iron work throughout the department; the plumbers and other mechanics were engaged in the work incident to their trades at the various seasons of the year.

During the second quarter of 1901, the lawns were opened for children's picnic parties and for the playing of games.

Permits for children's picnic parties were issued as follows:

Central Park.	Number of Persons.
Ball Ground.....	32,965
East Green.....	22,168
Ramble	1,087
Peacock Lawn.....	2,394
Lawn N. of Art Museum.....	8,633
North Meadow.....	49,515
	120,262
Mount Morris.....	9,833
Battery Park.....	1,000
Jeannette Park.....	500
	131,945
During July and balance of summer.....	5,000
	136,945

During the year the following number of permits were issued for games:

Tennis, 1,050; croquet, 542; football, 316.

The following number of other permits were also issued:

Carting on roadways of Central Park, Riverside and parkways, 601; photographing and sketching, 1,174; picking dandelions, 75; storing of miniature yachts in house at Conservatory Lake, 267; examination of trees and shrubs, 4; examination of mycological specimens, 4; for passing over lawns for the study of birds and their habits, 4.

In connection with the tennis playing 192 courts were marked out and kept in proper condition for that game; the lawns used for croquet playing were also kept in condition. The large number of children making use of the lawns during the spring and summer greatly enhanced the work, which, however, received proper attention.

The concert season of 1901 commenced on June 3rd. The usual preparations were made for these concerts, such as calcium lights, arrangement of settees, furnishing ice water, etc.

Concerts were given as follows:—Monday evenings, Corlears Hook Park, thirteen concerts; Monday evenings, Washington Square, thirteen concerts; Tuesday evenings, Mount Morris Park; thirteen concerts; Tuesday evenings, Tompkins Square, fourteen concerts; Wednesday evenings, Abington Square, twelve concerts; Wednesday evenings, Mulberry Bend Park, fourteen concerts; Thursday evenings, Madison Square, twelve concerts; Thursday evenings, Hudson Park, twelve concerts; Thursday evenings, East River Park, fourteen concerts; Friday evenings, Battery Park, thirteen concerts; Saturday afternoons, Seward Park, thirteen concerts; Saturday afternoons, Central Park, thirty concerts; Sunday afternoons, Central Park, thirty concerts.

Respectfully,
P. W. ST. JOHN,
General Foreman.

REPORT OF ENTOMOLOGIST

For the Year Ending December 31, 1901.

HON. GEORGE C. CLAUSEN, President Department of Parks:

DEAR SIR—The following is a report of work done in the Entomological Department for the year 1901:

In the large parks of New York City there is a great variety of foliage, and therefore numerous species of parasitic insects and fungi find congenial habitat and the proper food for the perpetuation of their species.

We have now working upon the vegetation of our parks nearly "two thousand" species of noxious insects, each species representing myriads in numbers.

New York City being a great importing center, new insects are being introduced in many imported products from other countries.

We are now suffering from many of the introduced species, the Elm Beetle, Leopard Moth and Scale insects being among those most destructive.

The Wood Leopard Moth, introduced here about twenty years ago, has spread to many towns and cities about New York, and is one of the most destructive insects we have to contend with.

The Elm Beetle has been very destructive to elms of all species, and the most persistent watchfulness is required to keep it in subjection.

The Tussock Moth, which increases so rapidly and is everywhere present, gives this department more work to keep them in subjection than any insect we have to contend with, for the trees must be cleaned of egg masses and cocoons during the winter and the foliage must be sprayed with insecticides during the summer to prevent their defoliating the shade and ornamental trees.

The Bag Worm also requires attention in the removal of the cases and spraying for their destruction during the summer.

The Maple Pulvinaria is always more or less abundant every year, and have to be sprayed with an emulsion prepared for their destruction.

All the White Pines in the parks are affected with Chermes, and have to be sprayed for their destruction and removal.

Scale Insects, that are so small and abundant, are among the worst enemies to our shade trees. They are so small as to readily escape notice, and so abundant that they often cover the entire tree and completely destroy it.

The Larvæ of Vanessa are very abundant often, on the poplars and willows, and where groups of these plants are placed they often defoliate the entire plantation unless destroyed.

Tent Caterpillars are very abundant over the entire park system, and at certain

times of the year a large force of men is required to keep them in subjection. Often as many as thirty nests may be found on one tree. In this work the gardeners have greatly assisted this department.

The Datanas are every year very abundant and destroy the foliage of the hickories and walnuts, and as many as fifteen pounds of caterpillars have been taken from a single tree.

Woodborers in great variety work in the duramen and cambium loser of many of our trees, and each year we are obliged to submit to losses from this source.

Hundreds of different species of leaf-eaters, as Leaf Skeletonizers, Leaf Rollers and Leaf Miners and other small insects that feed upon the porenchyma of the leaf, go to make up a formidable host to contend with, and which have to be treated with emulsions prepared for their destruction.

Plant Lice in myriads are present on a great variety of plants, and all have to be treated in order to keep them in subjection.

Fungi, one of the most destructive agents we have for breaking up and destroying plant structure, is everywhere abundant, and it is due to this parasite, rather than to insects, that many of the trees in our down-town parks look so shabby early in the season.

About three months of the year is given to spraying for fungi alone, and good results have been obtained and many valuable trees saved.

With the insects, during the winter all the cocoons and egg masses are removed and destroyed by burning, and in summer the trees are sprayed with London Purple, arsenate of lead, Paris green, kerosene and soap emulsions and other preparations as the cases require.

The only successful means of keeping the myriads of insects that infest our parks in check is to destroy them while they are in their first stages of growth. In this way we have been able to keep the parks in good condition, save where there is not sufficient help to handle them, or a protracted rain removes the poison from the trees, as was the case the past summer. A rain of nearly ten days gave the caterpillars an opportunity to continue feeding, and the increase was enormous in a short period.

With the trees properly cleaned in the winter, and the proper assistance being given at such seasons as they are very abundant, the trees, shrubs and plants of our parks can be kept in the best condition.

Following is the number of days worked in each park of the city during the past year, together with abstracts of work done:

NUMBER OF DAYS WORKED IN EACH PARK.

The work of removing cocoons, egg masses, webs, Scale insects, Sphides and spraying the trees for insect and fungus parasites in the Central Park. Number of days, 101.

The trees in Madison Square have been treated for the Tussock Moth, Wood Leopard Moth, Scale insects and plant lice, and also for parasitic fungi. Number of days, 39.

Union Square has been treated for the Tussock Moth and Scale insects and sprayed for the destruction of fungi. Number of days, 17.

City Hall Park has been given the usual care in the removal of cocoons and egg masses, spraying for leaf-eating insects and fungi. Number of days, 29.

Battery Park has been treated for Scale insects, the Tussock Moth, the Elm Borer and sprayed for leaf-eating insects and fungi. Number of days, 27.

Tompkins Square has been cleaned of cocoons and egg masses, and sprayed for leaf-eating insects and fungi. Number of days, 23.

Bryant Park has been cleaned of cocoons and egg masses and sprayed for leaf-eating insects and fungi. Number of days, 26.

Washington Square Park has been cleaned as were the others, and the trees sprayed with insecticides and fungicide. Number of days, 18.

Riverside Park has been given the same care as in other parks in the removal of cocoons and spraying for Scale insects, the Elm Beetle and the Tussock Moth and fungi. Number of days, 6.

Mount Morris Park has been given as much time as could be for the removal of cocoons and spraying for insects and fungi. Number of days, 5.

The trees on West End Avenue were cleaned of egg masses and cocoons. Number of days, 3.

Eighth Avenue and Eighty-sixth Street.—All the trees on the avenue and street were cleaned and treated for insects and fungi. Number of days, 2.

Stuyvesant Square was given the usual attention, and the trees cleaned of cocoons and egg masses. Number of days, 1.

All the small parks, squares and places have been given the usual care and attention, and two days were spent on Staten Island. Number of days, 6.

Respectfully submitted,

EDMUND B. SOUTHWICK, Entomologist D. P.

BOARD OF ARMORY COMMISSIONERS.

New York, January 7, 1902.

A meeting of the Armory Board was held this day at 1.30 o'clock P. M. in the office of the Mayor.

Present—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

The minutes of the meeting held December 18, 1901, were read and approved by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

Brigadier-General James McLeer offered the following:

Resolved, That the Mayor be made chairman and the President of the Department of Taxes and Assessments be made secretary of this Board.

Which was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

Communications were received from the Secretary of the Commissioners of the Sinking Fund, transmitting certified copies of resolutions of that Board, concurring in the payment to Horgan & Slattery of \$1,500 in full for professional services in relation to the proposed new Armory Building for the Second Naval Battalion on the site now abandoned on First Avenue, Forty-third and Forty-fourth Streets, Borough of Brooklyn; to pay \$631.41 to Horgan & Slattery on account for professional services on the First Battery Armory; and also concurring in the payment of reduced amount of \$85 in full for bill of Henry Mesa for surveying an armory site for the Second Naval Battalion on First Avenue, Forty-third and Forty-fourth Streets, Borough of Brooklyn, and transmitting the report of the Engineer of the Comptroller's Department in relation to the bill of Henry Mesa for surveying. Ordered filed.

A communication was received from ex-Commissioner Kearny, transmitting assignments of committees and requisitions of the various organizations of the National Guard for 1902, which were referred to the Secretary.

The President of the Department of Taxes and Assessments presented the bill of Harry S. Van Demark, stenographer, amounting to the sum of \$62.55, in the proceeding relative to acquiring title by The City of New York of certain lands on Lexington Avenue, between Twenty-fifth and Twenty-sixth Streets, in the Borough of Manhattan, as a site for the proposed armory building for the Sixty-ninth Regiment, N. G. N. Y. The Corporation Counsel certified to the necessity of the employment and expenditure, and also certified that the amount was correct.

The President of the Department of Taxes and Assessments offered the following:

Resolved, That the Armory Board does hereby approve the bill and expense, in the proceeding relative to acquiring the site for the proposed armory building for the Sixty-ninth Regiment, N. G. N. Y., amounting to the sum of sixty-two dollars and fifty-five cents (\$62.55), of Harry S. Van Demark, stenographer, and recommended that the same be paid, in accordance with the provisions of chapter 393 of the Laws of 1896, and chapter 212 of the Laws of 1898, and that the Commissioners of the Sinking Fund be respectfully requested to concur in and authorize the payment of the same.

Which was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

The bill of Henry Mesa, Surveyor, for surveying the site of the Second Naval Battalion, Fifty-first and Fifty-second Streets, First Avenue, in the Borough of Brooklyn, \$400, was presented.

On motion of the Mayor, it was referred to the Committee in relation to the Second Naval Battalion site.

On motion of the Mayor, the President of the Board of Aldermen was appointed on the various committees as a substitute for Commissioner Kearny, retired.

Several urgent requisitions for supplies of coal for armories were then considered, and after conference with Assistant Corporation Counsel Connolly, the following resolutions were offered by the Mayor:

Resolved, That the Chairman of this Board be authorized to promptly procure necessary supplies, not to exceed \$1,000 in amount.

Which was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

Resolved, That the chairman of this Board be requested to cause such repairs to armories as may be immediately necessary, not to exceed \$1,000 in amount, to be made.

Which was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

Resolved, That the chairman of this Board be requested to prepare and submit to the Board a plan for the ordinary conduct of the business of the Board.

Which was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

A motion to adjourn to Friday, January 10, 1902, at 1.30 o'clock P. M., was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

JAMES L. WELLS, Secretary.

BOARD OF ARMORY COMMISSIONERS.

New York, January 10, 1902.

A meeting of the Armory Board was held this day at two o'clock P. M. at the office of the Mayor.

Present—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

The minutes of the meeting held January 7th, 1902, were read and approved by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

The Mayor verbally reported that in accordance with the resolutions of the Board at its last meeting, giving him power to procure necessary supplies, to do such repairs to armories as may be immediately necessary, and to submit to the Board a plan for the ordinary conduct of its business, orders had been issued for 172 tons of coal for immediate use in the armories, that the few emergency repairs were being attended to, and that in regard to the ordinary conduct of the business of the Board, offered the following:

Resolved, That the President of the Department of Taxes and Assessments, the present Secretary, should direct the details of the work of the Board and report to the Board its further needs in the matter of employees.

Which was seconded by the President of the Board of Aldermen and adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

The Secretary presented a form of bid or proposal, and advertisement, for a supply of coal for the armories, which had been prepared on information received from the office of the Corporation Counsel.

The Mayor offered the following:

Resolved, That the Secretary be directed to advertise in the City Record, on forms approved by the Corporation Counsel, for two thousand seven hundred (2,700) tons of Anthracite Coal, to be delivered as directed prior to June 1, 1902, to the various armories of the National Guard New York in the boroughs of Manhattan, Brooklyn and Queens, in The City of New York, in accordance with the provisions of section 1,565 of the Greater New York charter.

Which was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

The Secretary reported that no provision was made for the inspection of the coal now being delivered under the emergency order which had been issued, and suggested that the same inspector who is being employed by the President of the Borough, to inspect the coal for other public buildings, and who has heretofore inspected the coal for armories, could do the work.

On motion of the Mayor, the President of the Department of Taxes and Assessments was requested to communicate with the President of the Borough, to ascertain if it was practical to have such inspector attend to the inspection of the coal for the armories, as well as for other public buildings, and that his salary be proportionately paid by each Department.

A motion to adjourn was adopted by the following vote: Ayes—The Mayor, the

President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

JAMES L. WELLS, Secretary.

DEPARTMENT OF STREET CLEANING.

DEPARTMENT OF STREET CLEANING, MAIN OFFICE, Nos. 13 to 21 PARK ROW, BOROUGH OF MANHATTAN, January 20, 1902.
 NOTICE TO CONTRACTORS.
 PROPOSALS FOR BIDS OR ESTIMATES FOR CONTRACT FOR FURNISHING FORAGE FOR THE USE OF THE DEPARTMENT OF STREET CLEANING IN THE BOROUGH OF BROOKLYN.

Sealed bids or estimates for the above-mentioned contract, indorsed with the title of the work, and with the name and address of the person making the same, and the date of presentation, will be received at the main office of the Department of Street Cleaning, at Nos. 13 to 21 Park Row, Borough of Manhattan, until 12 M. of

TUESDAY, THE 4TH DAY OF FEBRUARY, 1902,
 at which time and place said bids or estimates will be publicly opened by the head of the department for the following articles:

542,800 pounds hay, of the quality and standard known as prime hay.
 129,000 pounds No. 1 clean, long rye straw.
 943,400 pounds No. 1 white clipped oats, to be bright, sound, well cleaned and free from other grain, weighing not less than 40 pounds to the measured bushel.

31,000 pounds first quality flake bran.
 1,400 pounds first quality rock salt.
 10,000 pounds first quality oil meal.
 The amount of security required is three thousand dollars (\$3,000).

The contract is to be completed by May 31, 1902.
 Each bid or estimate shall contain the name and place of residence of the person making the same; the names of all persons interested with him therein, and if no person be so interested it shall distinctly state that fact; also that the bid or estimate is made without any connection with any other person making a bid or estimate for the

above-mentioned contract, and that it is in all respects fair and without collusion or fraud; that no member of the Board of Aldermen, head of a department, deputy thereof or clerk therein, chief of a bureau or other officer of the corporation is directly or indirectly interested therein, or in any of the work or supplies to which it relates, or in any portion of the profit thereof.

The bids or estimates shall be verified by the oath in writing of the party making the same that the several matters stated therein are in all respects true. Bidders must state in their bids or estimates the prices for which they will furnish the supplies, and these figures must be written out and must be given also in figures.

Each bid or estimate must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank form of bid mentioned below.

No bid or estimate shall be received or considered unless accompanied by a certified check or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quality and quantity of the supplies and the nature and extent of the work required, reference must be made to the specifications.

Bidders are requested to make their bids or estimates upon the blank prepared by the Commissioner, a copy of which, with the proper envelope in which to enclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, and showing the manner of the work, can be obtained upon application therefor at the office of the said Commissioner.

Dated New York, January 21, 1902.
JOHN MCG. WOODBURY,
Commissioner of Street Cleaning.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person

making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank form of bid mentioned below.

No bid or estimate will be received or considered unless accompanied by a certified check, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

N. B.—The prices must be written in the estimate and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items for which bids are herein called, or which contain bids for items for which bids are not herewith called for.

The Fire Commissioner reserves the right to reject all bids if he should deem it for the interest of the City so to do.

Blank forms of bid or estimate, and also the proper envelopes in which to inclose the same, together with the form of agreement, including specifications, approved as to form by the Corporation Counsel, and showing the manner of payment, can be obtained upon application therefor at the office of the Fire Department, Nos. 157 and 159 East Sixty-seventh street, in the Borough of Manhattan, New York City.

NOTICE TO PROPERTY-OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF THE BRONX: **TWENTY-FOURTH WARD, SECTION 11.**

THIRD AVENUE—Regulating, paving and laying crosswalks, from One Hundred and Seventy-seventh street (Tremont Avenue) to the north crosswalk of One Hundred and Eighty-ninth street. Area of assessment: Both sides of Third Avenue, from One Hundred and Seventy-seventh street (Tremont Avenue) and extending to a distance situated about 185 feet northerly of One Hundred and Eighty-ninth street; also, to the extent of one-half the blocks on the intersecting, intermediate and terminating streets and avenues, and Lot Nos. 37, 39, 50, 53 and 54 of Block No. 3055; also, Lot Nos. 3 to 5, both inclusive, of Block No. 3057—that the same was confirmed by the Board of Assessors on January 17, 1902, and entered on January 18, 1902, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter. Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien as provided by section 155 of the act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third Avenue, Borough of The Bronx, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before March 19, 1902, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE "Greater New York Charter," the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears, of the assessment for OPENING AND ACQUIRING TITLE to the following-named street in the BOROUGH OF THE BRONX:

TWENTY-THIRD WARD, SECTIONS 9 AND 10.

EAST ONE HUNDRED AND FIFTY-EIGHTH STREET—Opening, from Third Avenue to Brook Avenue. Confirmed December 27, 1901; entered January 10, 1902. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which taken together are bounded and described as follows, viz.: Beginning at the point of intersection of a line drawn parallel to and distant one hundred feet southerly from the southerly line of East One Hundred and Fifty-eighth street with the northwesterly line of Westchester Avenue; running thence westerly along said parallel line to its intersection with the middle line of the block between St. Ann's Avenue and Eagle Avenue; thence southerly along said middle line to its intersection with the easterly prolongation of the northerly line of that portion of East One Hundred and Seventy-fifth street lying between German place and St. Ann's Avenue; thence westerly along said prolongation and northerly line of East One Hundred and Seventy-fifth street to its intersection with the easterly line of German place; thence westerly to the point of intersection of the westerly line of Brook Avenue with the middle line of the blocks between East One Hundred and Fifty-sixth street and East One Hundred and Fifty-seventh street; thence westerly along said middle line to its intersection with the middle line of the blocks between Melrose Avenue and Elton Avenue; thence northerly along said middle line to its intersection with a line drawn parallel to and distant 100 feet northerly from the southerly

line of East One Hundred and Fifty-eighth street; thence westerly along said parallel line to its intersection with the easterly line of Park avenue; thence northeasterly along said line of Park avenue to its intersection with a line drawn parallel to and distant 100 feet northerly from the northerly line of East One Hundred and Fifty-eighth street; thence easterly along said parallel line to its intersection with the middle line of the blocks between Melrose avenue and Elton avenue; thence northerly along said middle line of its intersection with a line drawn parallel to and distant 100 feet northerly from the northerly line of that portion of East One Hundred and Fifty-ninth street lying west of Third avenue; thence easterly along said parallel line and its easterly prolongation to its intersection with the middle line of the blocks between St Ann's avenue and Eagle avenue; thence northerly along said middle line to its intersection with the westerly prolongation of a line drawn parallel to and distant 100 feet northerly from the northerly line of that portion of East One Hundred and Fifty-eighth street lying east of Eagle avenue; thence easterly along said parallel line to its intersection with the northerly line of Westchester avenue; thence northerly along said line to the point or place of beginning.

The above-entitled assessment was entered on the date hereinabove given in the Record of Titles of Assessments, kept in the "Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents." Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the "Greater New York Charter."

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien as provided by section one hundred and fifty-nine of this act."

Section 150 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, at Crotona Park Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before March 11, 1902, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

DEPARTMENT OF PUBLIC CHARITIES.

DEPARTMENT OF PUBLIC CHARITIES, FOOT OF EAST TWENTY-SIXTH STREET, NEW YORK, JANUARY 15, 1902.

TO CONTRACTORS.

PROPOSALS FOR BIDS OR ESTIMATES.

Boroughs of Manhattan and The Bronx.
SEALED BIDS OR ESTIMATES WILL BE received by the Department of Public Charities, at the above office, until 12 o'clock noon, on

MONDAY, JANUARY 27, 1902,
FOR FURNISHING AND DELIVERING SURGICAL SUPPLIES, ETC.

If the bid or estimate amount to \$1,000 or more, the amount of security required will be fifty per cent. (50%) of the amount of the bid.

This contract is to be performed and the supplies furnished and delivered within the year 1902, and as required by the Commissioner, and as provided in the contract.

All bids must be based upon the description furnished or samples exhibited by this Department and not as samples furnished by the bidder.

The articles, supplies, goods, wares and merchandise are to be delivered, free of expense, in such quantities and at such times as may be required.

Bidders must state the price of each article per pound, dozen, gallon, yard, etc., by which the bids will be tested. The extensions must be made and footed up, as the bids will be read from the total footings and awards made to the lowest bidder. In classes every item must be bid on, and award will be made to the lowest bidder for each class, unless otherwise specified.

The person or persons making an estimate shall furnish the same in a sealed envelope, indorsed with the title given above of the work for which the estimate is made, with his or their name or names and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the estimates received will be publicly opened by the head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as a surety, and shall contain the matters set forth in the blank form of bid mentioned below.

No estimate will be received or considered unless accompanied by a certified check, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies or the nature and extent of the work required or of the materials to be furnished, bidders are referred to the printed specifications.

The Board reserves the right to reject all bids if it deems it for the interest of the City so to do. Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Commissioners, a copy of which and also the proper envelope in which to inclose the same, together with the form of agreement,

including specifications, in the form approved by the Corporation Counsel, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department of Public Charities.

HOMER FOLKS, Commissioner,

DEPARTMENT OF PUBLIC CHARITIES, BOROUGH OF MANHATTAN AND THE BRONX, FOOT OF EAST TWENTY-SIXTH STREET, NEW YORK, JANUARY 15, 1902.

AUCTION SALE.

THE UNDERSIGNED WILL SELL AT Public Auction, at office, foot of East Twenty-sixth street, on

SATURDAY, FEBRUARY 1, 1902,

at 11 A. M., the following, viz:

Bones (estimated), 100,000 pounds. Bottles (estimated), 5,000.

To be collected and removed from Blackwell's Island and Bellevue Hospital three times a week.

Grease (estimated), 15,000 pounds. To be collected monthly from Blackwell's Island.

Iron-bound barrels (estimated), 300; Kerosene barrels (estimated), 100.

Old Iron (estimated), 150,000 pounds. To be collected twice a year at Pier on Metropolitan Hospital grounds, east side, near north end of Blackwell's Island, in a lighter to be provided by the buyer upon being notified.

Raw fat (estimated), 14,000 pounds. To be collected and removed from Bellevue Hospital three times a week.

Rags (estimated) 30,000 pounds.

All the above, except as otherwise mentioned, to be received by the purchaser monthly at the pier foot of East Twenty-sixth street, and removed upon being notified that same are ready for delivery.

Quantities marked "estimated" are for the accumulation of year 1902, and contracts based on such quantities are for such period of time.

All quantities to be more or less and estimated only.

All quantities to be "as are."

Assignments of contracts will not be recognized unless approved by the Commissioner.

Each successful bidder will be required to pay twenty-five per cent. of the estimated amount of his purchase to me at the time and place of sale, and the balance to the General Storekeeper, at Blackwell's Island, in cash or a certified check on a New York City bank, upon delivery of the goods.

The Commissioners reserve the right to order resale of any goods that shall NOT have been removed by the purchaser within TEN days after he shall have been notified that they are ready, and in case of such resale to forfeit to the use of the Department of Public Charities the TWENTY-FIVE PER CENT. paid in at the time and place of sale. Goods can be examined at Blackwell's Island by intending bidders on any week-day before the day of sale.

HOMER FOLKS,

SUPREME COURT.

FIRST DEPARTMENT.

In the matter of the application of The Mayor, Aldermen and Commonalty of the City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments, required for the purpose of opening EAST ONE HUNDRED AND SIXTY-EIGHTH STREET (formerly Charles place) (although not yet named by proper authority) from River avenue to the Concourse, in the Twenty-third Ward of The City of New York. In re petition of James A. Deering and J. Romaine Brown relative to damage caused by the closing and discontinuance of GERARD AVENUE, between East One Hundred and Sixty-eighth street and East One Hundred and Sixty-ninth street.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 3d day of February, 1902, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 5th day of February, 1902, at 3:30 o'clock P. M.

Second—That the abstract of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said city, there to remain until the 13th day of February, 1902.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz: Beginning at a point of intersection of the northerly line of East One Hundred and Sixty-seventh street with a line drawn parallel to and distant 100 feet easterly from the easterly line of Gerard avenue; running thence westerly along said line of East One Hundred and Sixty-seventh street to its intersection with a line drawn parallel to and distant 100 feet easterly from the easterly line of Jerome avenue; thence northeasterly along said parallel line of Jerome avenue to its intersection with the southerly line of East One Hundred and Sixty-ninth street; thence easterly along said line of East One Hundred and Sixty-ninth street to its intersection with a line drawn parallel to and distant 100 feet easterly from the easterly line of Gerard avenue; thence southerly along said parallel line to the point or place of beginning, excepting from said area all streets, avenues and roads, or portions thereof, heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That our report herein will be presented to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court-house in the Borough of Manhattan, in The City of New York, on the 18th day of March, 1902, at the opening of the Court on that day, and that then and there, or as soon thereafter as counsel can be heard thereon, a motion will be made that the said report be confirmed.

Dated Borough of Manhattan, New York, November 18, 1902.
