MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 1498.

City of New York, Office of the Mayor, }
April 1, 1907. }

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, with my disapproval a resolution adopted by your Honorable Board on March 19, 1907, entitled:

"Resolution permitting M. Brodtkin to erect an ornamental post and lamp at the northwest corner of Second avenue and Forty-eighth street, Borough of Manhattan."

This resolution should provide that before the proposed post and lamp can be erected, its design should receive the approval of the Municipal Art Commission. There should also be a clause forbidding its use for advertising purposes.

Respectfully,

GEO. B. McCLELLAN, Mayor.

The Committee on Streets, Highways and Sewers, to whom was referred, on January 22, 1907 (Minutes, page 125), the annexed resolution in favor of permitting M. Brodtkin to erect an ornamental lamp at the northwest corner of Second avenue and Forty-eighth street, Borough of Manhattan, respectfully

REPORTS:

That, having examined the subject, they recommend that the said resolution be adopted.

Resolved, That permission be and the same is hereby given to M. Brodtkin to place and keep an ornamental post, surmounted by a lamp, on the sidewalk near the curb in front of his premises on the northwest corner of Forty-eighth street and Second avenue, in the Borough of Manhattan, provided the dimensions of the said post shall not exceed eighteen inches diameter at the base, the work to be done and illuminant supplied at his own expense, under the direction of the President of the Borough of Manhattan, such permission to continue only during the pleasure of The Board of Aldermen.

JOHN HANN, FRANK L. DOWLING, LEWIS M. POTTER, ROBERT F. DOWNING, CORNELIUS D. NOONAN, Committee on Streets, Highways and Sewers.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

No. 1694.

City of New York—Office of the Mayor, }
April 1, 1907. }

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, with my disapproval, a resolution adopted by your Honorable Board on March 19, 1907, entitled:

"Resolution permitting Charles E. Miller to erect awning or marquee of iron and glass in front of Lincoln Square Theatre, Borough of Manhattan."

Section 612 of the Charter provides that "Subject to the general rules and regulations established by the (Park) board, each commissioner shall have power to authorize and regulate the projections on and determine the line or curb and the surface construction of all streets and avenues lying within any park, square or public place in his jurisdiction, or within a distance of three hundred and fifty feet from the outer boundaries thereof."

Inasmuch as this proposed structure is to be erected within three hundred and fifty feet of the line of an existing park, it is clearly within the jurisdiction of the Park Commissioner for the Boroughs of Manhattan and Richmond.

Furthermore, section 50 of the Charter specifically prohibits the passage of a special resolution of this character.

Respectfully,

GEO. B. McCLELLAN, Mayor.

The Committee on Streets, Highways and Sewers, to which was referred, on March 12, 1907 (Minutes, page 666), the annexed resolution in favor of permitting Charles E. Miller to erect an awning, respectfully

REPORTS:

That, having examined the subject, they recommend that the said resolution be adopted.

Resolved, That permission be and the same is hereby given to Charles E. Miller to erect, place and keep an awning or marquee of iron and glass over the sidewalk in front of the Lincoln Square Theatre, situated on the westerly side of Lincoln square, between Sixty-fifth and Sixty-sixth streets, in the Borough of Manhattan, provided, however, that said awning or marquee shall be erected so as to conform in all respects with the provisions relating to awnings as contained in the Code of Ordinances approved November 8, 1906, the work to be done at his own expense, under the direction of the President of the Borough, such permission to continue only during the pleasure of the Board of Aldermen.

ROBERT F. DOWNING, MAX S. GRIFENHAGEN, HARRY L. LEVERETT, THOS. D. DINWOODIE, FRANK L. DOWLING, Committee on Streets, Highways and Sewers.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

Which was referred to the Committee on Salaries and Offices.

The President laid before the Board the following communication from the Department of Water Supply, Gas and Electricity:

No. 1798.

Department of Water Supply, Gas and Electricity—Commissioner's Office,
Nos. 13 to 21 Park Row,
City of New York, March 28, 1907.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—Certain appropriations made to this department for this year by the Board of Estimate and Apportionment are insufficient in amount for the purposes intended. These appropriations were made specifically for salaries and wages of men employed on the work of maintaining and repairing the water system of the Boroughs of Manhattan and The Bronx.

The appropriation for Maintenance Croton Water System, Salaries and Wages, is \$245,000. The payroll of March 1, 1907, shows an expenditure for the year of \$273,432.05, which is \$28,432.05 in excess of the appropriation. The men paid from this appropriation are engaged, under the direction of the Assistant Engineers and the Foremen, in caring for the whole Croton water system from Brewster to Central Park, and I do not see how it is possible to reduce the payroll without impairing the efficiency of the service.

The appropriation for Bronx River Works, Maintenance and Repairs, Salaries and Wages, would be deficient on the same calculation to an amount of \$3,080.95. The men paid from that appropriation are employed similarly to those aforementioned, in caring for and maintaining the Bronx river system.

The appropriation for Repairing and Removal of Pipes, Stopcocks, etc., Salaries and Wages, similarly calculated, shows an apparent deficiency for the year of \$44,842.23. The men paid from this appropriation are employed in caring for and repairing the distribution system throughout the entire area of the Boroughs of Manhattan and The Bronx. Two years ago your Board recommended the adoption of a resolution by the Board of Estimate and Apportionment authorizing the issue of Revenue Bonds to permit this department to maintain emergency forces in addition to the regular force. Men were appointed for this purpose and the different companies formed and have since been maintained, but to continue it this year a further amount, as above stated, will be required. The great advantage to the City in having these emergency forces is shown by the promptness with which breaks in the large mains have been repaired ever since these new companies were formed.

I therefore recommend that your Honorable Board, in pursuance of the provisions of subdivision 8, section 188, of the Greater New York Charter, request the Board of Estimate and Apportionment to authorize the Comptroller to issue Revenue Bonds in an amount sufficient to maintain the present force, as indicated.

The table below shows the amounts asked for in the departmental estimate, the amounts allowed by the Board of Estimate and Apportionment, the payroll of March 1, 1907, continued to the end of the year, and the amounts required in addition to the appropriations:

| Appropriation. | Amounts Asked For. | Allowed in Budget. | Present Payroll. | Deficiency. |
|---|--------------------|--------------------|------------------|-------------|
| Maintenance, Croton Water System, Salaries and Wages..... | \$289,519 50 | \$245,000 00 | \$273,432 05 | \$28,432 05 |
| Bronx River Works, Maintenance and Repairs, Salaries and Wages..... | 29,187 50 | 25,000 00 | 28,080 95 | 3,080 95 |
| Repairing and Renewal of Pipes, etc., Salaries and Wages..... | 385,792 50 | 280,000 00 | 324,842 23 | 44,842 23 |

Very respectfully,

JOHN H. O'BRIEN, Commissioner.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Police Department:

No. 1799.

Police Department of The City of New York,
No. 300 Mulberry Street,
April 1, 1907.

To the Honorable Board of Aldermen:

Gentlemen—During the months of January and February, 1907, it was necessary to order coal for the purposes of the Police Department for use in station houses, amounting to \$739.51, and on steamboat "Patrol," amounting to \$497.55, making a total of \$1,237.06. Contracts for furnishing the Police Department with coal were awarded January 23, 1907, but were not executed and did not become valid contracts until about the middle of February, and the coal mentioned above was absolutely necessary to be used until such contracts could be completed. I respectfully ask that the purchase of such coal in the open market and without public letting be authorized in order that the Comptroller may be enabled to pay bills in amount not exceeding \$1,237.06.

Very respectfully,

THEO. A. BINGHAM, Police Commissioner.

Which was referred to the Committee on Public Letting.

Which was made a Special Order for 2.30 o'clock p. m.

Subsequently Alderman Davies called up the report and resolution and moved its adoption.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Reports of Committee on Salaries and Offices—

No. 1348.

The Committee on Salaries and Offices, to which was referred, on December 11, 1906 (Minutes, page 1579), the annexed resolution in relation to the salary of the position of Private Secretary to the Commissioner of the Department of Correction, respectfully

REPORTS:

The Committee has held this resolution for several months, and has heard Commissioner Cogey in support of it on two occasions. The incumbent has been well recommended to the Committee, which has hesitated, however, about increasing his salary from \$1,500 to \$2,500 shortly after his appointment. The argument that this Department should not be discriminated against in respect to the salary of the Private Secretary to the Commissioner has finally prevailed, and the Committee recommends the adoption of the accompanying resolution, which fixes the salary at the average of salaries of similar positions.

Whereas, The Board of Estimate and Apportionment, at a meeting held December 7, 1906, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen that the salary of the position of Private Secretary to the Commissioner of the Department of Correction be fixed at the rate of twenty-five hundred dollars (\$2,500) per annum, for one (1) incumbent."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the position of Private Secretary to the Commissioner of the Department of Correction at the rate of twenty-five hundred dollars (\$2,500) per annum for one (1) incumbent.

JAMES COWDEN MEYERS, FRANK D. STURGES, MICHAEL J. CARTER, JOHN J. CALLAHAN, JOHN J. CRONIN, CHARLES KUNTZE, Committee on Salaries and Offices.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Meyers moved the adoption of this report.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bartscherer, Brown, Carter, Clifford, Collins, Cronin, Davies, Diemer, Dinwoodie, Dotzler, Doull, Farrell, Grifenhagen, Gunther, Hann, Harnischfeger, Hatton, Herold, Higgins, Keely, Kenneally, Krulish, Kuck, Kuntze, Lawlor, Leverett, Markert, Moffitt, Monahan, Morris, Noonan, Peters, Potter, Redmond, Rendt, Rowcroft, Schloss, Sturges, Sullivan, Torpey, President Bermel, by Lawrence Gresser, Commissioner of Public Works; President Haffen and the Vice-Chairman—43.

The accompanying resolution fixes the salary of Automobile Engineman at the rate which is accustomed to be approved by the Committee as the prevailing rate of wages for the position; the Committee, therefore, recommends the adoption of the resolution.

"Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the position of Automobile Engineman under the jurisdiction of the President of the Borough of Richmond, with salary at the rate of twelve hundred dollars (\$1,200) per annum for one (1) incumbent."

The Committee on Salaries and Offices, to which was referred on March 26, 1907 (Minutes, page 782), the annexed resolution in relation to the salaries of the positions of Male Attendant in public baths and public comfort stations, respectfully

REPORTS:

Alderman Leverett appeared before the Committee and made an eloquent appeal in behalf of the Male Attendants in the public baths and comfort stations. The Committee also heard the committee of the Attendants. Although impressed by the reasonableness of the application for an increase in compensation, the Committee explained to Alderman Leverett and the representatives of the Attendants that it was contrary to the policy of the Board of Aldermen to recommend salary increases to the Board of Estimate and Apportionment, which, under the law, is charged with the initial jurisdiction over such resolutions. The Committee has repeatedly in the past stated the reasons for this position, one of which, and the important one, is the fact that if the Board of Aldermen adopted such resolutions every one of the City's fifty thousand employees who knew an Alderman would ask for the introduction of a resolution in his behalf. The Committee stated at the hearing that it would recommend that the resolution be placed on file, and it now makes that recommendation to the Board of Aldermen.

Resolved, That it is recommended to his Honor the Mayor and the members of the Board of Estimate and Apportionment that the salaries of the positions of Male Attendant in the public baths and public comfort stations of The City of New York be raised from two dollars and fifty cents (\$2.50) to three dollars per day.

JAMES COWDEN MEYERS, JOHN J. CRONIN, FRANK D. STURGES, CHARLES KUNTZE, MICHAEL J. CARTER, Committee on Salaries and Offices. Which report was accepted.

The Committee on Salaries and Offices, to which was referred on March 19, 1907 (Minutes, page 684), the annexed resolution in relation to the salary of the Commissioner of Docks, respectfully

REPORTS:

The Board of Estimate and Apportionment has adopted a resolution fixing the salary of the Commissioner of Docks and Ferries at \$7,500, the same salary as paid to the other heads of the City Departments. The present salary is \$6,000. The Committee sees no reason why the head of this important self-sustaining department should be discriminated against, and regards the charter provision as due to oversight. The Committee calls attention to the fact that under the provisions of section 56 of the Charter the change of salary cannot become effective during the present Commissioner's tenure of office. The Committee recommends the adoption of the accompanying resolution.

Whereas, The Board of Estimate and Apportionment, at a meeting held March 15, 1907, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen that the salary of the position of Commissioner of Docks be fixed at the rate of seven thousand five hundred dollars (\$7,500) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the position of Commissioner of Docks at the rate of seven thousand five hundred dollars (\$7,500) per annum.

The Committee on Salaries and Offices, to which was referred, on March 26, 1907 (Minutes, page 734), the annexed resolution in relation to the establishment of certain grades of positions in the Municipal Courts of the City, respectfully

REPORTS:

Justices Seaman and Worcester appeared before the Committee in behalf of the accompanying resolution. They demonstrated that the Attendants and Interpreters worked more months in the year and longer hours than the incumbents of similar positions in the other courts and yet received considerably smaller salaries. The present salary of an Interpreter is \$1,200, proposed to be increased to \$1,500, and the present salary of Attendant is \$1,000, proposed to be increased to \$1,200. The Committee feels that the increased salaries are justified by reason of the increased cost of living and recommends the adoption of the resolution.

Whereas, The Board of Estimate and Apportionment, at a meeting held March 22, 1907, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the following grades of positions in the Municipal Courts of The City of New York, in addition to those already existing therein, to take effect April 1, 1907:

| | Incumbents. | Per Annum. |
|-----------------------|-------------|------------|
| Court Attendant | 79 | \$1,200 00 |
| Interpreter | 22 | 1,500 00 |

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salaries of the above positions as set forth therein, to take effect April 1, 1907.

JAMES COWDEN MEYERS, FRANK D. STURGES, MICHAEL J. CARTER, JOHN J. CALLAHAN, JOHN J. CRONIN, CHARLES KUNTZE, Committee on Salaries and Offices.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Meyers moved the adoption of this report.

The Committee on Salaries and Offices, to which was referred, on March 26, 1907 (Minutes, page 735), the annexed resolution in favor of fixing salaries of positions, Court of Special Sessions, Second Division, respectfully

REPORTS:

Mr. O'Gorman, the Deputy Clerk of the Court of Special Sessions, Second Division, appeared before the Committee and explained the accompanying resolution, which provides for an increase of the salary of the Chief Court Attendant from \$1,500 to \$1,800, and provides a new place of Clerk at \$1,200 per annum. It was explained that the Court Attendant had received his present salary for five years, and not only has charge of the other Court Attendants, but is used as a clerk in the office of the court. The new Clerk is required because of the increased work of the office, due to the decision that informations are now required in all cases before the court. The Committee recommends the adoption of the resolution.

Whereas, The Board of Estimate and Apportionment, at a meeting held March 22, 1907, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the following position in the Court of Special Sessions, Second Division, to take effect April 1, 1907:

—and the establishment of the grade of position of Court Attendant in said Court, in addition to those already existing therein, with salary at the rate of \$1,800 per annum, for one incumbent, to take effect April 1, 1907.

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salaries of the above positions as set forth therein, to take effect April 1, 1907. JAMES COWDEN MEYERS, FRANK D. No. 1761.

The Committee on Salaries and Offices, to whom was referred on March 26, 1907 (Minutes, page 743), the annexed resolution in favor of fixing salaries of certain positions in the Queens Borough Library, respectfully

REPORTS:

Mr. George Rawlins, one of the trustees of the Queens Borough Library, appeared before the Committee, and subsequently, at the request of the Committee, submitted a letter in which he explained that the library has fourteen branches and one traveling library. That the Librarian has served as such since 1896, and the Assistant Librarian, since 1902. Their present salaries are \$1,500 and \$900, respectively. The Committee believes that the proposed salaries of \$2,000 and \$1,200 are not too large, in view of the responsibility of the positions, the amount of work required and the qualifications of the incumbents. The Board of Estimate and Apportionment has made an error in establishing the grade of Junior Assistant Librarian, at \$750. The trustees of the library asked for increases for both the Librarians in charge and the Junior Assistants, but the Board of Estimate and Apportionment made no provision for the former. The present salary of Junior Assistant is \$540, and the maximum salary of Librarian in charge is \$720. It would be manifestly improper to give a Junior Assistant a larger salary than is paid to the Librarians in charge, their superiors. The Committee therefore recommends the adoption of the following substitute resolution:

Resolved, That the Board of Aldermen hereby concurs in so much of said resolution as refers to the Librarian and Assistant Librarian, and fixes the salaries of

the said positions as set forth in the resolution, to take effect April 1, 1907; and further

Resolved, That a copy of this report be transmitted to the Board of Estimate and Apportionment.

Whereas, The Board of Estimate and Apportionment at a meeting held March 22, 1907, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen, the establishment of the following grades of positions in the office of the Queens Borough Library, in addition to those already existing therein, to take effect April 1, 1907:

| | Incumbents. | Per Annum. |
|----------------------------------|-------------|------------|
| Librarian | 1 | \$2,000 00 |
| Assistant Librarian | 1 | 1,200 00 |
| Junior Assistant Librarian | 10 | 750 00 |

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salaries of the above positions as set forth therein, to take effect April 1, 1907.

REPORTS:

Sheriff Harvey appeared before the Committee and explained that the Warden of the Queens County Jail has served for four years at the salary of \$1,000. Application was made to increase his salary to \$1,800, and the Board of Estimate and Apportionment allowed \$1,200. The Committee recommends the adoption of the accompanying resolution:

The Committee on Salaries and Offices, to whom was referred on March 26, 1907 (Minutes, page 745), the annexed resolution in favor of establishing various positions in the office of the Commissioner of Records, New York County, respectfully

REPORTS:

The accompanying resolution provides a force of employees for the new office of Commissioner of Records, New York County, created by act of the Legislature of 1906. The Commissioner was appointed many months ago, and has been receiving his salary as fixed by the Legislature, but has been unable to render service, caused by the failure of the municipal authorities to give him an office and staff. The necessary appropriation was made in the Budget for 1907. The Commissioner asked for the fixing of salaries at the same rates as those paid in the similar office in Kings County, but the Board of Estimate and Apportionment, in view of the fact that the Kings County office had been long established, felt that the New York office should begin at lower grades, and adopted a resolution accordingly. The Commissioner wrote your Committee as follows: "Whatever appointment I make must be made under the rules of the State Civil Service Commission. Those rules provide that laborers shall be appointed at a compensation of 'seven hundred and twenty dollars per annum,' as I stated in my request for authorization to appoint, and I am informed by the Secretary of the State Civil Service Commission that the appointment of laborers at \$2.50 per day will be in violation of those rules." The Committee, therefore, does not advise the Board of Aldermen to concur in so much of the resolution as applies to laborers. The Committee also feels that as the staff is still to be organized, the salaries should not take effect April 1, 1907. The Committee, therefore, recommends the adoption of the following substitute resolution:

Resolved, That the Board of Aldermen concurs in so much of the resolution in relation to the office of the Commissioner of Records, New York County, received from the Board of Estimate and Apportionment, as is hereby given:

| | Incumbents. | Per Annum. |
|-----------------------------------|-------------|------------|
| Superintendent | 1 | \$2,400 00 |
| Assistant Superintendent | 1 | 2,100 00 |

| Bookbinder | 1 | 1,200 00 |
| Bookbinder | 2 | 1,100 00 |
| Messenger | 1 | 750 00 |

—and be it further

Resolved, That a copy of this report be forwarded to the Board of Estimate and Apportionment.

Whereas, The Board of Estimate and Apportionment at a meeting held March 22, 1907, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the following positions in the office of the Commissioner of Records, New York County, to take effect April 1, 1907:

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salaries of the above positions as set forth therein, to take effect April 1, 1907.

No. 1658.

The Committee on Salaries and Offices, to which was referred, on March 5, 1907 (Minutes, page —), the annexed petition from Stable Clerks in the Borough of The Bronx for increased wages, respectfully

REPORTS:

Alderman O'Neill appeared before the Committee in behalf of the accompanying resolution. The Committee explained to him the rule regarding such resolutions, and for the reasons stated in its report upon Alderman Leverett's resolution respecting Bath Attendants, recommends that this resolution be placed on file.

Department of Street Cleaning,
New York City, February 25, 1907.

Hon. LOUIS F. HAFFEN, President of the Borough of The Bronx:

Sir—I desire to bring under your notice the small salary received by the Stable Clerks in this Department. We are on duty ten (10) hours each day, and seven days a week. Our salary is \$900 per year. We keep all the accounts of the stable and take charge in the absence of the Foreman or his Assistant. We are the worst paid men in the Department when our duties are taken into account.

Other ranks in this Department have been granted a raise of salary—and they are worth it—but the argument that goes to raise their pay applies with double force in our case. Trusting you will use your best influence on our behalf with the Board of Estimate and Apportionment, and also the Board of Aldermen before final action is taken on the question of salaries. We should be worth at least \$300 a year more.

Your efforts on our behalf will be gratefully remembered, especially by those living in The Bronx.

Yours,

PAT'K MCSORLEY,

JAMES COWDEN MEYERS, JOHN J. CRONIN, FRANK D. STURGES, CHARLES KUNTZE, MICHAEL J. CARTER, Committee on Salaries and Offices.

Report of Committee on Public Letting—

No. 1692—(S. O. No. 164).

The Committee on Public Letting, to which was referred, on March 12, 1907 (Minutes, page 665), the annexed resolution authorizing the Commissioner of Parks for the Boroughs of Manhattan and Richmond to contract for horseshoeing without public letting, respectfully

REPORTS:

That at a hearing on the above matter, Colonel Smith, the Assistant Secretary of the Department of Parks, appeared before the Committee and gave as the reason for the Commissioner making this request that to contract for the shoeing of horses by public letting was impracticable.

It would cost the City more and would result in anything but satisfactory service. This resolution is the same as one adopted by the Board of Aldermen June 19, 1906.

It is not alone on the grounds of economy that the Commissioner wishes authority to make this contract without public letting, but more to continue the conditions which now prevail and have proven so satisfactory. The horses of the Department are shod under the present contract at night, at the Department's stables, thus obviating the necessity of taking horses or men from employment during working hours.

It is necessary, especially during the winter time, when the horses have to work on the ice, that the Commissioner be in a position to order immediately such particular kind of shoeing as the horses might require. In view of these facts your Committee recommends the adoption of said resolution.

Resolved, That, pursuant to the provisions of section 419 of the Charter, the Commissioner of Parks for the Boroughs of Manhattan and Richmond be and he hereby is authorized to arrange or contract, without public letting, for the shoeing of the horses used on the parks in said boroughs during the year 1907, at an expense not exceeding the sum of five thousand dollars (\$5,000), payable from the appropriation available for that purpose.

A. L. KLINE, F. J. O'NEILL, WILLIAM CLIFFORD, JACOB BARTSCHERER, MAX S. LEVINE, JOSEPH SCHLOSS, Committee on Public Letting.

Which was made a Special Order for the next meeting at 2 o'clock p. m.

Report of Committee on Streets, Highways and Sewers—
No. 1785.

The Committee on Streets, Highways and Sewers, to which was referred, on March 26, 1907 (Minutes, page 780), the annexed resolution in favor of permitting the erection of a marquee at No. 180 Broadway, Borough of Manhattan, respectfully

REPORTS:

That, having examined the subject, they recommend that the said resolution be adopted.

Resolved, That permission be and it is hereby given to the owner of the premises No. 180 Broadway, in the Borough of Manhattan, to erect a small marquee in front of such premises, according to the plan hereto attached, and complying in all respects with the provisions of the ordinances governing the erection of such marquees, the work to be done under the direction and supervision of the President of the Borough of Manhattan, such permission to continue only during the pleasure of the Board of Aldermen.

ROBERT F. DOWNING, JOHN HANN, FRANK L. DOWLING, HARRY L. LEVERETT, THOS. D. DINWOODIE, CORNELIUS D. NOONAN, Committee on Streets, Highways and Sewers.

Which was recommended to the Committee on Streets, Highways and Sewers.

SPECIAL ORDERS.

Alderman Dowling called up Special Order No. 151, being a report and resolution, as follows:

No. 1632.

The Committee on Finance, to whom was referred, on February 26, 1907 (Minutes, page 559), the annexed resolution, in favor of an issue of Special Revenue Bonds, \$7,000, for repairing, redecorating and refurnishing the Governor's rooms in the City Hall, respectfully

REPORTS:

This additional appropriation is required by reason of decisions of the Municipal Art Commission, and is requested by President Ahearn and recommended by the Comptroller's Engineer as being necessary to complete the work already in progress. The cost of the pending improvements and betterments to the City Hall is \$45,000, and your Committee believes it echoes the desire of all of the people when it expresses the hope that with this appropriation our City Hall will require no further tinkering for a long time to come. This work is to be done through public letting.

Your Committee therefore reports favorably upon same.

Resolved, That, pursuant to subdivision 8 of section 188 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment is hereby requested to authorize the Comptroller to issue Special Revenue Bonds in an amount not to exceed seven thousand dollars (\$7,000), the proceeds whereof to be used for the purpose of repairing, redecorating and refurnishing the three (3) Governor's rooms in the City Hall, Borough of Manhattan.

JOHN R. DAVIES, JOHN DIEMER, JAMES W. REDMOND, A. L. KLINE, B. W. B. BROWN, THOS. J. MULLIGAN, Committee on Finance.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bartscherer, Brown, Callahan, Carter, Clifford, Collins, Cronin, Davies, Diemer, Dotzler, Doull, Dowling, Downing, Doyle, Ellery, Farrell, Freeman, Fried, Grifenhagen, Gunther, Haggerty, C. Hahn, J. J. Hahn, Hann, Harnischfeger, Hatton, Herold, Higgins, Keely, Kenneally, Krulish, Kuck, Kuntze, Lawlor, Leverett, Levine, Markert, Meyers, Moffitt, Monahan, Morris, Mulligan, Murphy, Noonan, O'Neill, Potter, Redmond, Rendt, Schloss, Smith, Stapleton, Sturges, Sullivan, Wafer, Wentz, President Bermel, by Lawrence Gresser, Commissioner of Public Works; President Haffen, President Ahearn, the Vice-Chairman and the President—60.

Alderman Diemer called up Special Order No. 141, being a report and resolution, as follows:

No. 1573.

The Committee on Finance, to whom was referred, on February 19, 1907 (Minutes, page 420), the annexed resolution, in favor of authorizing issue of \$3,900 Special Revenue Bonds for increase in wages of Stokers employed under the President of the Borough of Brooklyn, respectfully

REPORTS:

The Borough President and delegates from the Stokers' Union appeared before your Committee and stated that the prevailing wages for Stokers in all of the City departments and in all of the Borough departments, except those of the President of Brooklyn, was \$3 per day, while they received but \$2.50. There are 24 Stokers involved, and your Committee feel that under the circumstances this request is reasonable, and therefore recommend the adoption of the resolution providing for a sum sufficient to pay them at \$3 per day.

Whereas, The twenty-four Stokers employed in the office of the Borough President of Brooklyn are and have been for the past eight years receiving compensation at the rate only of \$900 per year, while in the Borough of Manhattan the same class of employees are being paid at the rate of \$3 per day, and the cost of living has been gradually increased with time; therefore be it

Resolved, with a view to an equalization of compensation, That the Board of Estimate and Apportionment be and is hereby requested, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of thirty-nine hundred dollars (\$3,900), the proceeds whereof shall be applied to the benefit of the office of the President of the Borough of Brooklyn, to meet the requirements of the increase of compensation of these twenty-four Stokers, for the ten months of 1907, beginning March 1.

JOHN R. DAVIES, JOSEPH FALK, JOHN DIEMER, B. W. B. BROWN, THOS. J. MULLIGAN, JAMES W. REDMOND, Committee on Finance.

Alderman Diemer moved to amend this resolution by substituting therein the sum of \$6,012 for the sum of \$3,900.

Which amendment was adopted.

The President put the question whether the Board would agree to accept said report and adopt said resolution, as amended.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bartscherer, Brown, Callahan, Carter, Clifford, Collins, Cronin, Davies, Diemer, Dotzler, Doull, Dowling, Downing, Doyle, Ellery, Farrell, Freeman, Fried, Grifenhagen, Gunther, Haggerty, C. Hahn, J. J. Alderman Redmond called up Special Order No. 162, being a report and resolution, as follows:

No. 1575.

The Committee on Finance, to whom was referred on February 19, 1907 (Minutes, page 421), the annexed resolution in favor of an issue of Special Revenue Bonds (\$316,350) for the use of the Fire Department, respectfully

REPORTS:

Commissioner Lantry appeared before your Committee and stated that owing to the great deficits in his budget allowance his department was actually crippled and must have relief. He submitted a statement of his departmental finances, which has been published, and the Chief of the Bureau of Investigations of the Comptroller's office has carefully investigated the conditions and has submitted the annexed report.

The budget should have properly provided for this department, but it did not do so, and your Committee feels that it should be loath to recede from its expressed position that the budget should provide for regular departmental expenses, but it feels that this department must be adequately provided for or the City is liable to suffer greatly, and on that account is constrained to now make provision for the department by recommending the adoption of the annexed substitute resolution.

(SUBSTITUTE.)

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of two hundred and ninety-eight thousand five hundred and fifty-six dollars and forty-eight cents (\$298,556.48), the proceeds whereof to be applied by the Fire Commissioner to the replenishment of the budget appropriation for 1907, as follows, i. e.:

(ORIGINAL.)

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, as amended, and for the purpose of meeting the estimated deficiencies in the appropriations made to various bureaus and branches of the Fire Department for salaries for the year 1907, including the amount necessary to meet the expense of advancements in pay and grade of members of the uniformed force by operation of law; also to provide means for necessary increases in the clerical and mechanical forces of the department, and to pay the salaries of additional officers and members of the uniformed force for said year, in connection with the proposed further extension of the paid system of fire protection into that part of the Borough of Richmond not already covered thereby, and into Flushing, Jamaica, College Point and Whitestone, Borough of Queens, as set forth in the communication of the Commissioner of said Department dated February 13, 1907, and the detailed statement accompanying same, the Board of Aldermen hereby requests the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to an amount not exceeding in the aggregate three hundred and sixteen thousand three hundred and fifty dollars (\$316,350).

JOHN R. DAVIES, JAMES W. REDMOND, JOHN DIEMER, THOS. J. MULLIGAN, B. W. B. BROWN, J. E. BUNTING, A. L. KLINE, Committee on Finance.

The President put the question whether the Board would agree to accept said report and adopt said substitute resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bartscherer, Brown, Callahan, Carter, Clifford, Collins, Cronin, Davies, Diemer, Dotzler, Doull, Dowling, Downing, Doyle, Ellery, Farrell, Freeman, Fried, Grifenhagen, Gunther, Haggerty, C. Alderman Wentz called up Special Order No. 155, being a report and resolution, as follows:

No. 1464.

The Committee on Public Letting, to which was referred on January 23, 1907 (Minutes, page 85), the annexed communication from the Department of Health, requesting authority to purchase an automobile without public letting, respectfully

REPORTS:

That, at a hearing on the above matter, Dr. Billings, the Chief in charge of the Division of Communicable Diseases, appeared before the Committee and stated that the proposed automobile was to be assigned to his use in order that he could perform his official duties in a more expeditious and satisfactory manner than at present. It is his duty to examine persons suspected of having communicable diseases, especially those suffering from tuberculosis. He has a clinic in each of the separate boroughs, and it is very desirable that he should be able to go from one clinic to another in the quickest possible time. In view of the statement of the doctor, your Committee believes it necessary, and therefore recommend that the annexed resolution be adopted:

Resolved, That, in pursuance to the provisions of section 419 of the Greater New York Charter, the Commissioner of Health be and he is hereby authorized to purchase without public letting an automobile at a cost not to exceed the sum of three thousand dollars (\$3,000).

A. L. KLINE, JACOB BARTSCHERER, WILLIAM CLIFFORD, MAX S. LEVINE, DAVID S. RENDT, JOSEPH SCHLOSS, Committee on Public Letting.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bartscherer, Brown, Callahan, Carter, Clifford, Collins, Cronin, Davies, Diemer, Dinwoodie, Dotzler, Doull, Dowling, Downing, Doyle, Ellery, Farrell, Freeman, Fried, Grifenhagen, Gunther, Haggerty, C. Excused—Alderman Peters—1.

Alderman Sturges called up Special Order No. 161, being a report and ordinances, as follows:

Nos. 1470, 1473 and 1474.

The Committee on Laws and Legislation, to which was referred on January 22, 1907 (Minutes, pages 94, 96 and 97), the annexed communication and ordinances in relation to the sale of theatre tickets, respectfully

REPORTS:

In view of the importance of the subject, a public hearing was held at which were present many of the sidewalk ticket speculators, with their counsel, Mr. David M. Newberger, theatrical officers and managers, with Judge Andrew J. Dittenhoefer, counsel for the Theatrical Managers' Association of New York City, controlling thirty-eight places of amusement; Senator Thomas L. Donnelly, representing the theatre ticket agencies; and the Secretary of the American District Telegraph Company, on behalf of that company; who were heard at length on the different phases of the question.

The Committee was also addressed by Aldermen Brown, Doull, Grifenhagen, Sullivan and Dowling.

Your Committee has received from the Bureau of Licenses a statement showing that in the Boroughs of Manhattan and The Bronx there are 124 licensed ticket speculators and 10 in the Borough of Brooklyn, and also has received from the Police Department a list of licensed theatres and other places of amusement in this city, showing that there are 77 of the former and 66 of the latter.

Your Committee has given the matter very careful consideration and has reached the following conclusions:

First—That the primary objects to be attained are the promotion of the comfort and welfare of the public, and the preservation of order, and that for such purposes individual interests must yield, even at loss and inconvenience to such interests.

Second—That as to sidewalk ticket speculators, their disregard of existing ordinances and laws, their open and flagrant abuse of their privileges, their "outrageous" methods in the conduct of their business together with the indifferent enforcement of the law, have given rise to a condition fittingly described in the recent annual message of his Honor the Mayor as "an intolerable nuisance," which demands radical action.

Third—That no practical suggestions have been made on behalf of such speculators which in the light of experience justifies the belief that such traffic can be

effectively regulated and the evils complained of permanently terminated. In the opinion of your Committee the adoption of more stringent restrictions would afford merely temporary relief, and would certainly lead to more strenuous efforts on the part of the speculators in disposing of their wares, to the increased discomfort and harassment of the public.

Fourth—That with reference to the theatre ticket agencies, which are conducted at stands in hotels and elsewhere, such agencies are to a certain extent a convenience to many theatregoers, but on the whole are a detriment to the general public. The public has at least some right upon applying at the box office, and tendering the box office price, if unexceptionable in person, to obtain accommodations, and should not, as frequently happens on the opening sale of tickets, be confronted with the statement that the desirable seats have been disposed of or the house sold. This situation requires the applicant to have recourse to an agency, and, as a last resort, to the sidewalk speculators, subjecting him to serious inconvenience and the payment of an increased and often exorbitant price for his ticket, or obliging him to entirely forego his entertainment. The admitted practice of allowing the agencies to return unsold tickets until within a few minutes of the opening of the play, demonstrates that the aim of the manager is to dispose of his house through certain established centres, rather than to accommodate the public at large. Under present conditions the public must be satisfied with what remains after the agencies have supplied their own customers or go without.

Fifth—That the Theatrical Association, at the hearing, expressed its desire and readiness to co-operate in the adoption of measures looking to the discontinuance of the sale of tickets except at the box office, and declared that if sidewalk speculators should cease, the theatres under its control would terminate their arrangements with the agencies, and your Committee accepts such declaration as having been made in good faith and with all sincerity, believing that such action would be appreciated and welcomed by the public.

Sixth—Your Committee recognizes that a large number of places of amusement are not controlled by the association in question, and feels that, in all fairness, the association should not be subjected to any disadvantage arising from the unwillingness of those operating theatres outside of the association, to join in the proposed action. That to meet this situation, it is the opinion of your Committee that some measure should be adopted, so far as it may be within the power of this Board, applicable to all places of amusement alike, as all "belong to the general class of cases contemplated by the statute as needing more or less of governmental supervision and regulation."

Your Committee therefore recommends the adoption of the following substitute ordinance affecting sidewalk speculators, and also of the following ordinance relative to the licensing of places of amusement, and further recommends that the communications referred to under introductory numbers 1470 and 1474, having been disposed of by this report, be placed on file.

No. 1410.

The Committee on Public Letting, to which was referred on December 21, 1906 (Minutes, page 1833), the annexed resolution permitting the Commissioner of Water Supply, Gas and Electricity to contract for repaving over water trenches in various streets in the Borough of Brooklyn, respectfully

REPORTS:

That the object of this resolution is to remedy conditions as they exist in a number of streets in Brooklyn, where pavement has been removed for the laying of water mains and the same has not been replaced, because not provided for in contract. The streets are in an unsafe condition for pedestrian and vehicular traffic, and, as the City would be responsible if any accident should occur, the repaving of these streets ought to begin immediately. The Committee therefore recommends the adoption of said resolution.

Resolved, That, pursuant to the power conferred on it by the provisions of section 419 of the Greater New York Charter, the Board of Aldermen, deeming such course to be in the public interest, hereby authorizes and empowers the Commissioner of the Department of Water Supply, Gas and Electricity to repave with asphalt, on a concrete foundation, over the water trenches on the various streets in the Borough of Brooklyn, and purchase in the open market, instead of by contract at public letting, all labor and material necessary for the proper performance of such work, at an expense not to exceed the sum of three thousand dollars (\$3,000).

No. 1801.

By the Vice-Chairman—
Whereas, The designation of our streets and avenues by the medium of so-called "street signs" is decidedly unsatisfactory, although in the recent past spasmodic efforts have been made to improve on the prevailing system; and

Whereas, Our street signs are not only inadequate in the number thereof, but conspicuously so in the matter of discernment from any reasonable distance; and

Whereas, The public is entitled to the best and most effective method that can be employed in the matter of these street signs, whatever the cost thereof may be; therefore

Resolved, That a Special Committee, consisting of the several Borough Presidents, be and it is hereby appointed to consider this matter and to report fully to this Board with such recommendations as may be deemed wise and appropriate.

Resolved, That in the consideration of the subject, the following be duly taken into view:

That legible signs be placed at all intersecting points.

That these signs be discernable from a reasonable distance both day and night.

That passengers in street cars and in other vehicles, as well as pedestrians, be enabled to distinguish their whereabouts readily.

That wherever streets have been laid out, signs be placed thereon, whether the neighborhood be improved or not.

That the signs vary in character and in cost, conformably with the respective localities where they are placed.

That lamp-posts, electric light poles, special posts, corner buildings, etc., be employed for the purpose set forth.

Resolved, That the Municipal Art Commission, civic associations and citizens generally, be and they are hereby requested to aid in the purpose indicated by submitting to the Special Committee such views and suggestions as may be deemed advisable.

Resolved, That the Special Committee avoid delay in this matter, reporting fully to this Board at the earliest opportunity possible.

By Alderman Peters—
Whereas, There is now pending before the Legislature of this State a measure of vital importance to this City known as the Public Utilities Bill; and

Whereas, This measure has the support of the Governor of this State, and many civic organizations have gone on record as favoring its passage; and

Whereas, This legislation, in the opinion of its supporters, would tend to the relief of this City from the oppression of public service corporations; and

Whereas, This Board is of the opinion that the passage of this act would meet with the approbation of the majority of the citizens of this municipality, irrespective of partisan affiliations; therefore be it

Resolved, That this Board endorses said measure and respectfully urges its early enactment into law by the Legislature of this State; and be it further

Resolved, That a copy of these resolutions, properly authenticated, be forwarded to the Governor, the President of the Senate and the Speaker of the Assembly.

Whereas, The Assembly of the State of New York has passed a bill to provide for a judicial recount and canvass of the votes cast for the office of Mayor of The City of New York at the election held in November, 1905, which bill is now before the Senate; and

Whereas, Public opinion has so crystallized in favor of this proposition that the people of The City of New York demand that the much mooted question involved be settled once and for all; that the allegations charging that the will of the electorate of our municipality had been thwarted be determined, and that the cloud of scandal surrounding the election of the Chief Magistrate of the first city of the Western Hemisphere be dispelled; therefore

Resolved, That the Board of Aldermen of The City of New York, mindful alone of the aspersion which this much vexed question casts upon the fairness of elections as held in The City of New York, calls upon the State Senate for concurrence in the action of the Assembly on said bill; be it

Resolved, That a copy hereof, duly authenticated by the City Clerk, be forthwith transmitted to the State Senate.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless the City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

INVITATION TO CONTRACTORS.

LEXINGTON AVENUE ROUTE.

THE CITY OF NEW YORK (HEREIN after called The City), acting by its Board of Rapid Transit Railroad Commissioners (hereinafter called the Board), contemplates building a rapid transit railroad along the routes described below. By this advertisement The City invites

proposals to construct such railroad upon the routes and in accordance with the detailed plans and specifications adopted therefor. Such proposals may be submitted for any one or more of the eleven separate parts of which such railroad consists, as hereinafter stated.

The points within the City between which the said several parts of the said road are to run and the route or routes to be followed, are briefly as follows:

Section 5-O-3: This part of Section 5-O, as described in the routes and general plan, begins at Lexington avenue and One Hundred and Twenty-ninth street and runs southerly under Lexington avenue to a point about 50 feet north of One Hundred and Third street.

Section 5-O-2: Begins at the southerly end of Section 5-O-3, and runs southerly under Lexington avenue to a point about 50 feet north of Seventy-first street.

Section 5-O-1: Begins at the southerly end of Section 5-O-2, and runs southerly under Lexington avenue to a point between Forty-second and Forty-third streets, the southerly end of Section 5-O, as described in the routes and general plan.

Section 5-A: Begins at the southerly end of Section 5-O, as described in the routes and general plan, and runs thence under private property, Forty-second street and private property again to a point in Park avenue, between Thirty-eighth and Forty-first streets, at which a junction can conveniently be made with the existing subway.

Section 5-B: Begins at the northerly end of Section 5-O, above described, and runs thence northerly under the Harlem river to the Borough of The Bronx, where it continues under Third avenue and Morris avenue and then curves under private property to a point in One Hundred and Forty-ninth street, between Morris avenue and Cortlandt avenue, at which a junction can conveniently be made with the present subway.

Section 5-C-1: This part of Section 5-C, as described in the routes and general plan, begins at the northerly end of Section 5-O above described, and runs thence northerly under Lexington avenue and the Harlem river to the Borough of The Bronx, and then continues under Park avenue to One Hundred and Fifty-sixth street.

Section 5-C-2: This part of Section 5-C consists of a spur beginning at a point on the main line of the route of Section 5-C at Park avenue and One Hundred and Forty-ninth street and runs under private property, One Hundred and Fifty-third street, Exterior street and Sedgwick avenue to the intersection of Sedgwick avenue and One Hundred and Sixty-fourth street.

Section 5-C-3: This part of Section 5-C consists of a loop beginning in the Borough of The Bronx at a point in Park avenue between One Hundred and Fifty-first and One Hundred and Fifty-second streets, and runs thence northwesterly and westerly under private property and connects with the spur Section 5-C-2 above described near the point where the centre line of said spur would intersect One Hundred and Fifty-first street if produced.

Section 5-D-3: This part of Section 5-D, as described in the routes and general plan, begins at the southerly end of Section 5-O, above described, in Lexington avenue, between Forty-second and Forty-third streets, and runs thence southerly under Lexington avenue to a point about half way between Thirty-sixth and Thirty-seventh streets, at which point the tracks will diverge into two branches. One of these branches will curve southwesterly under private property to Thirty-sixth street, and then run westerly under Thirty-sixth street, curving southerly into Fifth avenue, and then under Fifth avenue to a point where it will be rejoined by the second branch diverging as above stated. The second branch will run from the said point of divergence southerly and westerly under Lexington avenue and Thirty-fifth street to Fifth avenue, where it will rejoin the branch first above described at a point between Thirty-fourth and Thirty-fifth streets. From the last mentioned point the route of this section will run southerly under Fifth avenue along Madison square and into Broadway; thence southerly under Broadway to a point about half way between Seventeenth and Eighteenth streets.

Section 5-D-2: Begins at the southerly end of Section 5-D-3 and runs southerly under Broadway (passing under Union square) to a point about 50 feet north of Reade street.

Section 5-D-1: Begins at the southerly end of Section 5-D-2, and runs thence southerly under Broadway, Vesey street, Church street, Trinity place and Greenwich street to a suitable terminus under Battery Park.

The general plan of construction calls for a railroad placed in subways or tunnels. The road is intended to be operated by electricity or some other power not requiring combustion within the tunnels, and the motors are intended to be capable of moving trains at a speed of not less than forty miles per hour for long distances, exclusive of stops.

For all of Sections 5-O-1, 5-O-2, 5-O-3 and 5-A there will be four tracks. For Section 5-B there will be two tracks. For Section 5-C-1 and Section 5-C-2, there will be two tracks. In the loop above described as Section 5-C-3, there will be one track. For Section 5-D-3 there will be four tracks as far south as the point between Thirty-sixth and Thirty-seventh streets, where the line diverges as above described; there will be two tracks from the point of divergence through Thirty-sixth street and Fifth avenue to the point where the lines reunite and two tracks from the point of divergence through Lexington avenue and Thirty-fifth street to the point in Fifth avenue where the lines reunite, and for the remainder of the distance southerly under Fifth avenue and Broadway there will be four tracks.

For Section 5-D-2 there will be four tracks. For Section 5-D-1 there will be four tracks to the Chambers street station. South of the Chambers street station southerly under Broadway, Vesey street, Trinity place and Greenwich street there will be two tracks. Additional tracks for terminal purposes are to be constructed under Battery place and Battery Park. Suitable stations, as shown on the plans, together with cross-overs, turnouts and sidings, as may be necessary, are to be provided.

The tracks are to be of standard gauge. The tunnels are to have a height of not less than 13 feet in the clear, and a maximum width of 15 feet for each track, except at stations, curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of streets as street conditions and grades will permit, but will be depressed whenever necessary to avoid grade crossings as well as where approaching the Harlem river. The roof and sides of the tunnels will be of iron or steel and masonry.

Entrances to stations will in general be placed within private property, rights in which will be acquired for the purpose.

Construction is to be generally carried on by means of tunnelling or excavation under cover, except as may be otherwise specially provided in the contract, or in places where the Board shall give express permission to construct by open excavation. In the City Hall Park, Battery Park or other places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction are to be replaced

by the contractor under the direction and to the satisfaction of said Department.

The Board has included in the detailed plans for construction, provisions for pipe galleries through and along the principal longitudinal streets of all portions of the route except Sections 5-A and 5-C-3. Bids for the construction of the railroad on any one or more of these sections must be accompanied by bids for the construction of the pipe galleries appurtenant to such section or sections; and if not so accompanied will not be considered by the Board. The Board reserves the right to accept a bid for the construction of any section of the railroad and at the same time to reject the accompanying bid for pipe galleries.

The Board has also included in the detailed plans for construction, provisions for third tracks in Thirty-fifth and Thirty-sixth streets, and for two additional tracks under Greenwich street, Battery place and Battery Park south of Morris street, and additional station and terminal facilities in Battery Park. Such additional tracks and facilities are intended ultimately to form part of other railways heretofore duly authorized and approved. Bids for the construction of Sections 5-D-3 and 5-D-1 must be accompanied by separate bids for the construction of such additional tracks and station and terminal facilities; and if not so accompanied will not be considered by the Board.

If proposals satisfactory to the Board are received for the construction of one or more of the several parts of the road as above described, the Board may contract (subject to the approval of the Board of Estimate and Apportionment as provided by law) for those parts for which satisfactory proposals are received, reserving the right to make a separate contract or separate contracts thereafter for the remaining part or parts.

A fuller description of the said routes is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

The words "the railroad" wherever used hereafter in this invitation are to be construed to mean the part or parts included in any contract entered into in pursuance hereof.

Payments to the contractor for construction will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries and the additional tracks and terminal facilities above mentioned) is to be completed as soon as practicable, and within the periods mentioned in the form of contract.

Proposals may be submitted for construction alone; or, at the option of the bidder, for construction, equipment, maintenance and operation.

In case a satisfactory proposal is received from any person, firm or corporation to construct, equip, maintain and operate the railroad, the contract will provide for maintenance and operation for a term of twenty years, and for a renewal thereof for a further term of twenty years from the expiration of the original term, all as stated in the form of contract; the contractor to pay an annual rental for the use of the railroad which shall be ascertained as stated in the form of contract and which shall begin as soon as any portion of the railroad shall be declared by the Board to be ready for operation.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, APRIL 25, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals shall be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and acknowledged, and the affidavit sworn to, by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

Bidders shall specify separately in their proposals the amounts for which they will construct each separate part as described above; the amounts for which they will construct pipe galleries; and the amounts for which they will construct the additional tracks and station and terminal facilities above mentioned if they bid on Section 5-D-1 or 5-D-3. They may, however, make their bid for any one section of this proposed railroad conditional upon either the acceptance or rejection of their bid for any one or more of the other sections which they shall specify, or upon the acceptance or rejection of their bids for any other rapid transit railroad construction submitted by them at the same time. The price stated for the construction of each separate part shall include the furnishing of all materials and the performance of all labor requisite to the complete construction of such part, including all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

Bidders who submit proposals to construct and also equip, maintain and operate the railroad must specify in their proposals, in addition to the matters hereinbefore contained, the following:

(A) An estimate of the cost of the equipment of the railroad upon which the proposal is based. The word "equipment" includes motors, cars, machinery, power houses, all real estate upon which any such power houses shall stand, rails, ties, ballast, telephone and telegraph appliances,

and other real and personal property as specified in the form of contract. Such equipment is to remain the property of the contractor, but will be subject to a lien of the City to secure performance by the contractor of all the obligations of the contract, including the payment of rental under the lease during its entire term and during any extension thereof.

(B) The maximum fare (not to exceed 5 cents) which will be charged a single passenger for a continuous ride over the whole or any part of the railroad.

(C) What transportation facilities over railways connecting or to connect with the rapid transit railroad the contractor will assure to the City, specifying separately in Schedule "A," forming part of the proposal, the connecting lines over which a continuous trip shall be assured to passengers for a single fare not exceeding 5 cents without change of cars; in Schedule "B," forming part of the proposal, the connecting lines over which a continuous trip shall be assured to passengers for a single fare not exceeding 5 cents, but with or without change of cars at the option of the contractor, and in Schedule "C," forming part of the proposal, the connecting lines over which a continuous trip shall be assured to passengers with or without change of cars at the option of the contractor, for fares exceeding 5 cents per trip but within limitations to be specified.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will in the judgment of the Board best promote the public interest and award a contract or contracts accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law. If any part or parts of the road are not contracted for, the Board reserves the right to make a separate contract or separate contracts thereafter for the remaining part or parts.

The award of the contract or contracts (if awarded) will be made by the Board within fifteen days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract the contractor will be required to furnish security to the City as follows:

(1) By depositing in cash or approved securities for each part of the road for which the contract is made the following amounts, viz.:
 For Section 5-O-1..... \$125,000 00
 For Section 5-O-2..... 125,000 00
 For Section 5-O-3..... 125,000 00
 For Section 5-A..... 25,000 00
 For Section 5-B..... 150,000 00
 For Section 5-C-1..... 100,000 00
 For Section 5-C-2..... 50,000 00
 For Section 5-C-3..... 5,000 00
 For Section 5-D-1..... 150,000 00
 For Section 5-D-2..... 150,000 00
 For Section 5-D-3..... 150,000 00

If the contract covers two or more parts of the road, the deposit shall be the aggregate of the deposits required in respect of each of the several parts contracted for.

(2) By giving a bond in a penalty equal to the amount of the deposit as above required. At the option of the contractor, cash or approved securities may be deposited instead of giving a bond.

If securities are deposited for any purpose under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. Bonds must be in one of the forms annexed to the form of contract.

In addition, and as further security to the City, 10 per cent. of each amount certified from time to time to be due to the contractor will be retained until the railroad is completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond proposed to be given, and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder or bidders will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board shall give notice thereof to the defaulting bidder or bidders. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder or bidders shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder or bidders, and without abatement by reason of any increase of rental which such excess may produce to the City.

Every proposal must, when submitted, be enclosed in a sealed envelope indorsed "Proposal for Constructing Rapid Transit Railroad (Lexington Avenue Route) Sections—," and must be delivered to the Board or to its secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposals will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for an amount equal to ten per cent. of the deposit above required to be made upon the delivery of a contract for construction of the section or sections of the proposed Rapid Transit Railroad to which such proposal relates.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and make the deposit in cash or securities, and to execute and deliver the bond with sureties, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure, and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be inclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder or bidders will be returned when the contract is executed and its provisions as to security are complied with.

The general plan of construction calls for a railroad placed in subway or tunnels. The road is intended to be operated by electricity or some other power not requiring combustion within the tunnels, and the motors are intended to be capable of moving trains at a speed not less than forty miles per hour for long distances,

exclusive of stops. There will be four tracks from the terminal in Battery Park to about One Hundred and Fiftieth street. There will be two tracks in the Macomb's lane loop and two tracks from One Hundred and Fiftieth street and Eighth avenue northerly under the Harlem river and Jerome avenue.

There will be a single-track loop constituting a part of Section 4-D-2 which will begin under West Broadway at a point near Murray and Warren streets and then pass under private property, Greenwich street and Barclay street to a point near the northwest corner of West Broadway and Barclay street.

Suitable stations as shown on the detailed plans, together with crossovers, turnouts and sidings as may be necessary, are also to be provided.

The tracks are to be of standard gauge. The tunnels are to have a height of not less than 13 feet in the clear, and a maximum width of 15 feet for each track, except at stations, curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of streets as street conditions and grades will permit, but will be depressed whenever necessary to avoid grade crossings as well as where approaching the Harlem river. The roof and sides of the tunnels will be of iron or steel and masonry.

Entrances to stations will in general be placed within private property, rights in which will be acquired for the purpose.

Construction is to be generally carried on by means of tunnelling or excavation under cover, except as may be otherwise specially provided in the contract, or in places where the Board shall give express permission to construct by open excavation. In Battery Park, Washington square and Central Park, or other places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction are to be replaced by the contractor under the direction and to the satisfaction of said Department.

The Board has included in the detailed plans for construction, provisions for pipe galleries through and along the principal longitudinal streets except in those portions described above as Section 15-A and a part of Section 4-O-2.

Bids for the construction of the railroad on any one or more of these sections must be accompanied by bids for the construction of the pipe galleries appurtenant to such section or sections; and if not so accompanied will not be considered by the Board. The Board reserves the right to accept a bid for the construction of any section of the railroad and at the same time to reject the accompanying bid for pipe galleries.

If proposals satisfactory to the Board are received for the construction of one or more of the several parts of the road as above described, the Board may contract (subject to the approval of the Board of Estimate and Apportionment as provided by law) for those parts for which satisfactory proposals are received, reserving the right to make a separate contract or separate contracts thereafter for the remaining part or parts.

A fuller description of the said routes is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

The words "the railroad" wherever used hereafter in this invitation are to be construed to mean the part or parts included in any contract entered into in pursuance hereof.

Payments to the contractor for construction will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries and the additional tracks and terminal facilities above mentioned) is to be completed as soon as practicable, and within the periods mentioned in the form of contract.

Proposals may be submitted for construction alone; or, at the option of the bidder, for construction, equipment, maintenance and operation. In case a satisfactory proposal is received from any person, firm or corporation to construct, equip, maintain and operate the railroad, the contract will provide for maintenance and operation for a term of twenty years, and for a renewal thereof for a further term of twenty years from the expiration of the original term, all as stated in the form of contract; the contractor to pay an annual rental for the use of the railroad which shall be ascertained as stated in the form of contract and which shall begin as soon as any portion of the railroad shall be declared by the Board to be ready for operation.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, APRIL 25, 1907.

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals shall be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and acknowledged, and the affidavit sworn to, by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

Bidders shall specify separately in their proposals the amounts for which they will construct each separate part as described above; and the amounts for which they will construct pipe gal-

leries. They may, however, make their bid for any one section of this proposed railroad conditional upon either the acceptance or rejection of their bid for any one or more of the other sections which they shall specify, or upon the acceptance or rejection of their bids for any other Rapid Transit Railroad construction submitted by them at the same time.

The price stated for the construction of each separate part shall include the furnishing of all materials and the performance of all labor requisite to the complete construction of such part, including all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

Bidders who submit proposals to construct and also to equip, maintain and operate the railroad, must specify in their proposals in addition to the matters hereinbefore contained, the following:

(A) An estimate of the cost of the equipment of the railroad upon which the proposal is based. The word "equipment" includes motors, cars, machinery, power houses, all real estate upon which any such power houses shall stand, rails, ties, ballast, telephone and telegraph appliances, and other real and personal property as specified in the form of contract. Such equipment is to remain the property of the contractor, but will be subject to a lien of the City to secure performance by the contractor of all the obligations of the contract, including the payment of rental under the lease during its entire term and during any extension thereof.

(B) The maximum fare (not to exceed five cents) which will be charged a single passenger for a continuous ride over the whole or any part of the railroad.

(C) What transportation facilities over railways connecting or to connect with the Rapid Transit Railroad the contractor will assure to the City, specifying separately in Schedule "A," forming part of the proposal the connecting lines over which a continuous trip shall be assured to passengers for a single fare not exceeding five cents without change of cars; in Schedule "B," forming part of the proposal the connecting lines over which a continuous trip shall be assured to passengers for a single fare not exceeding five cents, but with or without change of cars at the option of the contractor; and in Schedule "C," forming part of the proposal the connecting lines over which a continuous trip shall be assured to passengers with or without change of cars at the option of the contractor, for fares exceeding five cents per trip but within limitations to be specified.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will in the judgment of the Board best promote the public interest and award a contract or contracts accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law. If any part or parts of the road are not contracted for, the Board reserves the right to make a separate contract or separate contracts thereafter for the remaining part or parts.

The award of the contract or contracts (if awarded) will be made by the Board, within fifteen days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City as follows:

(1) By depositing in cash or approved securities for each part of the road for which the contract is made the following amounts, viz.:
 For Section 4-D-1..... \$25,000 00
 For Section 4-D-2..... 50,000 00
 For Section 4-C..... 100,000 00
 For Section 4-B..... 100,000 00
 For Section 4-O-1..... 60,000 00
 For Section 4-O-2..... 20,000 00
 For Section 4-O-3..... 20,000 00
 For Section 4-A..... 100,000 00
 For Section 4-AA-1..... 200,000 00
 For Section 4-AA-2..... 200,000 00
 For Section 15-A..... 60,000 00
 For Section 15-AA-1..... 100,000 00
 For Section 15-AB-1..... 100,000 00
 For Section 4-H-1..... 200,000 00
 For Section 4-H-2..... 175,000 00

If the contract covers two or more parts of the road, the deposit shall be the aggregate of the deposits required in respect of each of the several parts contracted for.

(2) By giving a bond in a penalty equal to the amount of the deposit as above required. At the option of the contractor, cash or approved securities may be deposited instead of giving a bond.

If securities are deposited for any purpose under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. Bonds must be in one of the forms annexed to the form of contract.

In addition, and as further security to the City, 10 per cent. of each amount certified from time to time to be due to the contractor will be retained until the railroad is completed.

Each bidder must state in his proposals the names and places of business of the proposed sureties on the bond proposed to be given, and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder or bidders will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board shall give notice thereof to the defaulting bidder or bidders. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder or bidders shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder or bidders, and without abatement by reason of any increase of rental which such excess may produce to the City.

Every proposal must, when submitted, be enclosed in a sealed envelope indorsed "Proposal for Constructing Rapid Transit Railroad (Seventh Avenue Route, etc.), Sections—," and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal

it will be deposited in a sealed box in which all proposals will be deposited. No proposals will be received or deposited unless accompanied by a certified check drawn upon a national or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for an amount equal to 10 per cent. of the deposit above required to be made upon the delivery of a contract for construction of the section or sections of the proposed rapid transit railroad to which such proposal relates.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and make the deposit in cash or securities, and to execute and deliver the bond with sureties, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure, and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be inclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder or bidders will be returned when the contract is executed and its provisions as to security are complied with.

INVITATION TO CONTRACTORS.

(CENTRE STREET, FROM PEARL TO CANAL.)

THE CITY OF NEW YORK (HEREIN-after called the City) acting by its Board of Rapid Transit Commissioners (hereinafter called the Board) contemplates building a certain Rapid Transit Railroad, known as Route No. 9, in Centre street (Manhattan) and other streets in the Boroughs of Manhattan and Brooklyn, including ultimately Delancey street, Grand street, Desbrosses street, Canal street and William street in Manhattan, and Fulton street, Lafayette avenue and Broadway in Brooklyn.

By this advertisement, the City invites proposals to construct that part of said Railroad which is situated in Centre street between Pearl street and Canal street, and in Walker street and Canal street between Centre street and Chrystie street, in accordance with the detailed plans and specifications adopted therefor.

The general plan of construction calls for a subsurface railroad. There will be four tracks in Centre street and two tracks in Walker street and Canal street, and provisions for spurs turning west into Canal street.

A station between Leonard and White streets will be constructed, and suitable cross-overs, turnouts and sidings are also to be provided, all as shown in the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but will be depressed whenever necessary to avoid grade crossings. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the stations are intended to be placed within private property, rights in which will be acquired for the purpose.

The manner of construction shall be, in Centre street, by excavation under cover, and in Walker street and Canal street also by excavation under cover unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries through Centre street from Pearl street to Canal street are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Board reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

The price stated for railroad construction is to include the furnishing of all materials and the performance of all labor requisite to the complete construction of that part of the proposed railroad which is to be built under this contract, including all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-one months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE

BOARD, No. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, APRIL 11, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and acknowledged, and the affidavit sworn to, by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in, in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of Department, chief of Bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder, or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will in the judgment of the Board best promote the public interest and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of three hundred thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, 10 per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder or bidders will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to the defaulting bidder or bidders. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder or bidders shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder or bidders.

Every proposal must, when submitted, be inclosed in a sealed envelope indorse "Proposal for Constructing Rapid Transit Railroad—(Centre street, from Pearl to Canal)" and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a national or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of twenty-five thousand dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and make the deposit in cash or securities, and to execute and deliver the bond with sureties, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be inclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder or bidders will

be returned when the contract is executed and its provisions as to security are complied with. **THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS FOR THE CITY OF NEW YORK.**

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to the City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
