BOARD OF ESTIMATE AND APPORTIONMENT.

MINUTES OF THE MEETING OF THE BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, HELD IN ROOM 16, CITY HALL, FRIDAY, JUNE 23, 1905.

The Board met in pursuance of an adjournment.

Present—George B. McClellan, Mayor; Edward M. Grout, Comptroller; Timothy P. Sullivan, Acting President, Board of Aldermen; John F. Ahearn, President, Borough of Manhattan; Martin W. Littleton, President, Borough of Brooklyn; Louis F. Haffen, President, Borough of The Bronx; Joseph Cassidy, President, Borough of Queens; George Cromwell, President, Borough of Richmond.

Hon. George B. McClellan, Mayor, presided.

The Secretary presented the following:

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,
No. 320 BROADWAY, NEW YORK.

To the Board of Estimate and Apportionment of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York respectfully shows that on the 16th day of July, 1903, by the concurrent vote of six of its members, it adopted a certain addition to the routes and general plans of the rapid transit railway now in operation in the boroughs of Manhattan and The Bronx, such addition being known as the Fort Lee Ferry Extension.

The Board, on the 6th day of October, 1903, transmitted to the Board of Aldermen, as then constituted, a copy of the said routes and plans for their approval, but the said Board of Aldermen neither approved or disapproved the said routes or plans before the expiration of the term of office of its members.

On or about the 7th day of January, 1904, pursuant to a resolution of the Board, adopted on that day, the President and Secretary of this Board did sign and transmit to the Board of Aldermen, as at present constituted, a communication in reference to the same subject, a copy of which is hereto annexed. In the said communication and in the resolutions of July 16, 1903, annexed thereto the proposed addition is described and the reasons for the same are stated.

The Board of Aldermen, as at present constituted, neither approved nor disapproved the said routes and plans up to the time when chapter 631 of the Laws of 1905 took effect, to wit: The 27th day of May, 1905. By the terms of the said Act, which is entitled, "An Act to further amend chapter 4 of the Laws of 1891, entitled 'An Act to provide for rapid transit railways in cities of over one million inhabitants,'" it is provided that the Board of Estimate and Apportionment of The City of New York shall, with respect to that City, be the local authority in control of the streets, etc., which are within or belong to the said City, and the consent of the said Board of Estimate and Apportionment shall be the only consent of local authority required under the Rapid Transit Act.

The Board of Rapid Transit Railroad Commissioners for The City of New York therefore submit to your Honorable Body the routes and general plans for the proposed Fort Lee Ferry Extension, and ask your approval.

In witness whereof this Board caused its seal to be hereto affixed and these presents to be witnessed by its Vice-President and Secretary this 20th day of June, 1905.

Communication of the Board of Rapid Transit Railroad Commissioners for The City of New York, transmitting resolutions proposing modifications and additions to the routes and general plan, Fort Lee Ferry, January 7, 1904.

OFFICE OF THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS
FOR THE CITY OF NEW YORK,
No. 320 BROADWAY, NEW YORK CITY.

To the Honorable the Board of Aldermen of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York heretofore and on or about the 4th day of February, 1897, submitted to the Common Council of The City of New York as then constituted a report with respect to the proposed rapid transit railroad in the said City.

Since the said report was made the routes and general plan for the rapid transit railroad above mentioned have been duly approved by the municipal authorities of The City of New York and by the Appellate Division of the Supreme Court for the First Judicial Department, and on the 21st day of February, 1900, a contract for the construction and operation of said rapid transit railroad was duly made with John B. McDonald, contractor, by The City of New York, acting by the said Board. The said contractor is now engaged in the construction of the said railroad pursuant to the terms of said contract.

The said contractor desires, and the said Board having duly made the inquiries and investigation proper in the premises, approves an addition to the routes and general plan for the said railroad as heretofore adopted (such addition being known as the Fort Lee Ferry extension), and has determined and established the said addition by resolution adopted July 16, 1903, by the concurrent vote of six of its members, and for the purpose of said addition has duly entered into an agreement with the said contractor bearing date the 16th day of July, 1903. A copy of the said agreement containing the resolution of July 16, 1903, is hereto annexed.

The said resolution of July 16, 1903, and the addition to the routes and general plan therein mentioned are now submitted to your Honorable Board for approval if it shall see fit to approve the same.

This additional route is approved by this Board because in its opinion this connection between the Manhattan Street Station of the west side line of the Manhattan-Bronx Railroad, now being constructed by the City, and the entrance to the ferry operated by the New Jersey and Hudson River Ferry Company at the foot of West One Hundred and Thirtieth street will be of great convenience to the traveling public.

This Board has been informed that the Interborough Rapid Transit Company, to which has been assigned the lease for the operation of the Manhattan-Bronx Railroad, has made arrangements with the ferry company for the improvement of the ferry service.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be witnessed by its President and Secretary this 7th day of January, 1904.

A. E. ORR, President.

[SEAL OF THE BOARD]

BION L. BURROWS, Secretary.

Agreement of July 16, 1903.

Agreement made this 16th day of July, in the year nineteen hundred and three, between The City of New York (hereinafter called the City), acting by the Board of Rapid Transit Railroad Commissioners for The City of New York (hereinafter called the Board), party of the first part, and John B. McDonald, of The City of New York (hereinafter called the Contractor), and Interborough Rapid Transit Company, parties of the second part, witnesseth:

Whereas, Heretofore and on the 14th day of January, 1897, and the 4th day of February, 1897, the Board adopted certain routes and general plan for a rapid transit railroad in The City of New York, a portion of which extends under the Boulevard to a point at or near One Hundred and Twenty-fourth street and thence by viaduct along and over the Boulevard to a point at or near One Hundred and Thirty-fourth street, and thence further to the north on the westerly branch of the said rapid transit railroad; and

Whereas, Heretofore and on or about the 21st day of February, 1900, the City, acting by the Board, entered into a contract with the Contractor for the construction and operation of the said rapid transit railroad in The City of New York and otherwise, as therein mentioned, the said contract being hereinafter styled the Contract for Construction and Operation; and

Whereas, The Contractor has deposited with the Comptroller of the City certain security for the performance of the said contract for construction and operation on his part and has given certain bonds as further security for such performance and upon such bonds there are sureties as follows: Rapid Transit Subway Construction Company, the United States Fidelity and Guaranty Company, the City Trust Safe Deposit and Surety Company of Philadelphia, American Surety Company of New York, National Surety Company and Perry Belmont; and

Whereas, By written instrument bearing date the 10th day of July, 1902, the contractor, with the written consent of the Board, concurred in by six members thereof, duly assigned the right or obligation to maintain and operate the said rapid transit railroad for the term of years specified in the said contract and all rights included in the leasing provisions of the said contract, together with the obligation to provide equipment for the said railroad, unto Interborough Rapid Transit Company, which company also guaranteed the performance by the contractor of the provisions of his said contract not so assigned to it; and

Whereas, It is in said contract for construction and operation provided that the said Board of Rapid Transit Railroad Commissioners shall have the right to require additional work to be done or additional materials to be furnished or both, within the general purview of a rapid transit railroad as therein described, the reasonable value of which should be additionally paid to the contractor; and

Whereas, The contractor desires, and the Board approves, a modification of the routes and general plan for the rapid transit railroad referred to in the said contract for construction and operation as set forth in certain resolutions adopted by the Board on the 16th day of July, 1903, a copy of which is hereto annexed, in order to provide for an addition to the said routes and general plan, as in said resolutions and herein described,—

Now, therefore, in consideration of the premises, but subject to the consents hereinafter provided, it is agreed that the said contract for construction and operation and the routes and general plan therein contained be, and the same are hereby modified by adding to the said routes and general plan the words following, to wit:

"And also a branch or spur extending from the line of the route aforesaid on Broadway (formerly the Boulevard), at a point about one hundred (100) feet northerly from the north line of One Hundred and Twenty-fifth street, and thence extending northerly along and over Broadway (being in addition to the tracks hereinbefore originally provided along such portion of Broadway) to Manhattan street; thence westerly along and over Manhattan street and under the Manhattan viaduct and over and across the tracks of the New York Central and Hudson River Railroad, West One Hundred and Thirtieth street and the exterior or bulkhead street to the ferry-house at the foot of West One Hundred and Thirtieth street, together with proper connections by necessary and suitable switches, tracks and otherwise, with the rapid transit railroad originally described in said routes and general plan, at and north of One Hundred and Twenty-fifth street, and also including proper connections by stairways and otherwise with the said ferry-house.

"The general plan of construction of the route hereby added shall be by elevated structure of the same character and to be constructed in the same manner as is hereinbefore provided for the elevated portion of the rapid transit railroad over and along Broadway (the Boulevard) at One Hundred and Twenty-fifth street. There shall be at least two parallel tracks with the right of at any time to add a third track in the discretion of the Board of Rapid Transit Railroad Commissioners. The said connections, switches and tracks shall be so constructed as to make convenient the running of trains without change between the portions of the said rapid transit railroad over and along Broadway (the Boulevard), south of One Hundred and Twenty-fifth street and the part on Manhattan street hereby provided for. Stations and station approaches may be built at the intersection of Broadway and Manhattan street, and also at the terminus of the addition hereby adopted at the foot of West One Hundred and Thirtieth street

or elsewhere, upon the said addition, as the Board of Rapid Transit Railroad Commissioners may decide.

"In all other respects the provisions of the said general plan of construction adopted January 14 and February 4, 1897, shall be applicable to the portion of the route hereby added."

And it is hereby further agreed, that the said contract be and the same shall hereafter be deemed to be so modified as that the portion of the rapid transit railroad added by the modification aforesaid of the routes and general plan shall in all respects, except as herein otherwise expressly provided, be deemed to be part of the rapid transit railroad originally described in the said contract hereby modified; provided, however, that the frequency of train service upon the said portion of the rapid transit railroad so added by the said modification shall, from time to time, be determined by the Board; provided further, however, that the frequency of such service shall in no case be required to be greater than is in said contract provided for service upon the remainder of the said rapid transit railroad.

And it is hereby further agreed that the reasonable value of constructing that portion of the rapid transit railroad upon the said additional route and including all of the said connections, switches, tracks, stations and station approaches, and all appurtenances of such addition to the said rapid transit railroad shall be deemed a part of the cost of constructing said rapid transit railroad, and shall be ascertained and determined and paid to the contractor in the manner provided in the contract for the construction and operation of said rapid transit railroad in addition to the amounts in said contract originally agreed to be paid unto said contractor, and that such additional amounts so paid shall be included in the total cost of the construction of the said railroad in determining the amount of rental to be paid under said contract in like manner as if said additional route had been originally authorized therein;

Provided, however, and it is expressly agreed, that this agreement shall take effect if and when and only when the following consents shall have been duly had, to wit:

The consents as subjoined of Rapid Transit Subway Construction Company, the United States Fidelity and Guaranty Company, the City Trust, Safe Deposit and Surety Company of Philadelphia, American Surety Company of New York, National Surety Company, and Perry Belmont;

Provided further, however, and it is expressly agreed, that this agreement shall take effect if and when, and only when the following consents shall have been duly given to the said resolutions adopted by the Board on the 16th day of July, 1903, a copy of which is hereto annexed, providing for the said addition to said routes and general plan; the consent of the Board of Aldermen of The City of New York; the consent of the Mayor of The City of New York; and the consent of the owners of a majority in value of the property along such streets or such portions of streets as are included in the portion of the route added as aforesaid, or if such last-mentioned consent cannot be obtained, then in lieu thereof, the determination of three commissioners to be appointed by the Appellate Division of the Supreme Court duly confirmed by the said Appellate Division.

The plan hereto annexed, entitled "Board of Rapid Transit Railroad Commissioners for The City of New York; Routes and General Plan adopted by resolution July 16, 1903," is intended to illustrate and show in general the addition to and modification of the said original routes and general plan as hereby proposed.

In witness whereof this contract has been executed for The City of New York, by its Board of Rapid Transit Railroad Commissioners, under and by a resolution duly adopted by said Board, concurred in by more than six of its members, and the seal of the said Board has been hereto affixed and these presents signed by the President and Secretary of the said Board, and the said John B. McDonald has hereto set his hand and seal, and the said Interborough Rapid Transit Company has caused its corporate seal to be hereto affixed and attested by its secretary, and these presents to be signed by its President—all the day and year first above written.

Approval by Corporation Counsel.

The foregoing contract is hereby approved as to form.

Dated New York, September 18, 1903.

G. L. RIVES, Corporation Counsel.

Copy Resolution of 16th July, 1903.

Whereas, This Board did, on the 14th day of January, 1897, and 4th day of February, 1897, adopt certain routes and general plan for a rapid transit railroad in The City of New York, a copy of which is hereto annexed, entitled "Copy Routes and General Plan;" and

Whereas, The said routes and general plan were afterward duly approved by the municipal authorities of The City of New York, and were duly consented to by Commissioners appointed by the Appellate Division of the Supreme Court, which consent was duly confirmed by the said Appellate Division in lieu of the consent of the owners of a majority in value of the property along said routes; and

Whereas, Thereafter, and on or about the 21st day of February, 1900, The City of New York did by this Board enter into a certain contract with John B. McDonald for the construction and operation of the said rapid transit railroad; and

Whereas, By written instrument bearing date the 10th day of July, 1902, the said John B. McDonald, with the written consent of this Board, concurred in by six members thereof, duly assigned the right or obligation to maintain and operate the said rapid transit railroad for the term of years specified in the said contract and all rights included in the leasing provisions of the said contract, together with the obligation to provide equipment for the said railroad, unto Interborough Rapid Transit Company, which company also guaranteed the performance by the said John B. McDonald, as such contractor, of the provisions of his said contract not so assigned to it; and

Whereas, It is the interest of The City of New York, and, in the opinion of the said John B. McDonald, it is likewise in his interest as such contractor, and he desires that said routes and general plan shall be changed in the respect herein-after mentioned, but without other change in the said routes and general plans; now, therefore, it is

Resolved, That, subject to the consents and approvals to be first obtained as in these resolutions hereinafter mentioned, the said routes and general plan heretofore adopted by this Board be and they hereby are modified by adding to the said routes the following, to wit:

"And also a branch or spur extending from the line of the route aforesaid on Broadway (formerly the Boulevard) at a point about one hundred (100) feet northerly from the north line of One Hundred and Twenty-fifth street; and thence extending northerly along and over Broadway (being in addition to the tracks hereinbefore originally provided along such portion of Broadway) to Manhattan street; thence westerly along and over Manhattan street and under the Manhattan viaduct and over and across the tracks of the New York Central and Hudson River Railroad, West One Hundred and Thirtieth street and the exterior or bulkhead street to the ferry-house at the foot of West One Hundred and Thirtieth street, together with proper connections by necessary and suitable switches, tracks and otherwise, with the rapid transit railroad originally described in said routes and general plan, at and north of One Hundred and Twenty-fifth street, and also including proper connections by stairways and otherwise with the said ferry-house.

"The general plan of construction of the portion of the route hereby added shall be by elevated structure of the same character and to be constructed in the same manner as is hereinbefore provided for the elevated portion of the rapid transit railroad over and along Broadway (the Boulevard) at One Hundred and Twenty-fifth street. There shall be at least two parallel tracks, with the right at any time to add a third track in the discretion of the Board of Rapid Transit Railroad Commissioners. The said connections, switches and tracks shall be so constructed as to make convenient the running of trains without change between the portions of the said rapid transit railroad over and along Broadway (the Boulevard) south of One Hundred and Twenty-fifth street and the part on Manhattan street hereby provided for. Stations and station approaches may be built at the intersection of Broadway and Manhattan street, and also at the terminus of the addition hereby adopted at the foot of West One Hundred and Thirtieth street or elsewhere upon the said addition as the Board of Rapid Transit Railroad Commissioners may decide."

In all other respects the provisions of the said general plan of construction adopted January 14 and February 4, 1897, shall be applicable to the portion of the route hereby added; and it is further

Resolved, That, Whereas this Board has duly made the inquiries and investigation necessary or proper in the premises, and has determined that the modification aforesaid of the said routes and general plan are necessary for the interests of the public and of The City of New York, and should be established as herein provided, this Board does hereby determine and establish the said routes and general plan as hereby modified, subject to the consents and approvals to be first obtained as hereinafter mentioned; and it is further

Resolved, That the said modifications of routes and general plan shall take effect only upon and after the following consents and approvals thereto shall be duly had, to wit:

1. The consent of the Board of Aldermen of The City of New York.
2. The consent of the Mayor of The City of New York.

3. The consent of the owners of a majority in value of the property along streets or such portions of streets as are included in the portion of the routes added as aforesaid; or, if such consents cannot be obtained, then, in lieu thereof, the determination of three Commissioners to be appointed by the Appellate Division of the Supreme Court, duly confirmed by the said Appellate Division.

4. The consent of the said John B. McDonald, contractor, and of his sureties, as follows: Rapid Transit Subway Construction Company, the United States Fidelity and Guaranty Company, the City Trust, Safe Deposit and Surety Company of Philadelphia, American Surety Company of New York, National Surety Company and Perry Belmont, and also of Interborough Rapid Transit Company. It is further

Resolved, That this Board hereby adopts the drawing now produced and entitled "Board of Rapid Transit Railroad Commissioners for The City of New York: Routes and General Plan adopted by Resolution July 16, 1903," as showing in general the additions to and modifications of the original routes and general plan hereby adopted. (Drawing annexed to original agreements.)

The following resolution was offered:

Resolved, That the communication be received, and in pursuance of law this Board hereby appoints Friday, the 30th day of June, at 10.30 o'clock in the forenoon, as the time, and Room No. 16, in the City Hall, in the Borough of Manhattan, as the place, when and where such plans and conclusions will be considered.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Richmond—12.
Present and not voting—Acting President of the Board of Aldermen—3.

New Hall of Records.

The President of the Borough of Manhattan stated that the opening of the bids had been advertised for June 22 by mistake, and on that date he had announced that the opening would be postponed until June 23, no protest being made.

The bids were then produced, and no bidder made any protest.

The Mayor announced that he found the box properly sealed.

The Board proceeded to the consideration of the bids or estimates for alterations in rooms on basement, first, second, third, fourth, fifth, fifth mezzanine, sixth, seventh, eighth and attic floors; also for extension to the electric lighting equipment, plumbing and heating, carpenter and cabinet work, hardware, metallic and other furniture, painting, electric lighting fixtures, marble and bronze work, plastering, fireproofing and other work for the completion of the Hall of Records Building, Centre, Reade and a new street in The City of New York, Borough of Manhattan.

The following bids were received:

Van Dorn Iron Works, Cleveland, Ohio.

John Peirce, No. 277 Broadway, New York City.

Richard E. Henningham, Nos. 4 and 5 Court square, Brooklyn, N. Y.

Remington & Sherman Company, No. 38 Park place, New York City.

The Comptroller moved that the bids be referred to the President of the Borough of Manhattan to tabulate and report upon at the next meeting of the Board.

Which motion was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The Secretary presented the following requisition from the Board of Rapid Transit Commissioners, requesting an appropriation of \$1,620,000 for the construction, at the public expense, of a certain road in the Borough of Brooklyn, lying in Fulton street and Flatbush avenue in said borough, so as to make the said road in said streets a four-track road, and also requesting the Board to consent to the proposed contract:

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,
No. 320 BROADWAY, NEW YORK.

To the Board of Estimate and Apportionment of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York hereby makes requisition on your Honorable Body, pursuant to section 37 of the Rapid Transit Act, for an issue of bonds of said City to the amount of one million six hundred and twenty thousand dollars (\$1,620,000), for the purpose of providing the necessary means for the construction, at the public expense, of a certain road in the Borough of Brooklyn, lying in Fulton street and Flatbush avenue, in said borough, so as to make the said road in said streets a four-track road, and to provide suitable tracks for connecting with other roads to be hereafter built, such construction to be undertaken by the Rapid Transit Subway Construction Company, pursuant to a proposed contract, dated June 9, 1905, a copy of which is hereto annexed. And the said Rapid Transit Board requests that your Honorable Body will consent to the said proposed contract and prescribe a limit to the amount of bonds available, which shall be sufficient to meet the requirements of such contract, in addition to all obligations heretofore incurred, and to be satisfied from such bonds.

The words, "Rapid Transit Act," as used herein are intended to mean chapter 4 of the Laws of 1891 as amended, and particularly as amended by chapter 752 of the Laws of 1894, chapter 519 of the Laws of 1895 and chapter 562 of the Laws of 1904.

The Work Proposed.

On January 24, 1901, the Rapid Transit Board adopted routes and general plans for a rapid transit railway to extend from Park row, in the Borough of Manhattan, under Broadway and the East river to the Borough of Brooklyn, and under Joralemon street, Fulton street and Flatbush avenue to Atlantic avenue, in Brooklyn. The general plan of construction provided that for the whole of the said route there should be two tracks.

The said routes and general plans were thereafter approved by the Municipal Assembly and the Mayor of The City of New York, and were duly consented to by Commissioners appointed by the Appellate Divisions of the Supreme Court, both in the First and Second Departments, which consents were duly confirmed by the said Appellate Divisions, in lieu of the consent of the owners of a majority in value of the property along the said routes.

After such consents had been obtained, the Rapid Transit Board, for and on behalf of the City, duly entered into a contract as provided by the Rapid Transit Act, with Rapid Transit Subway Construction Company, for the construction of the said road upon the routes and in accordance with the plans and specifications adopted in reference thereto, and for the equipment, maintenance and operation of the said road. The said contract bears date July 21, 1902. By its terms the said Rapid Transit Subway Construction Company agrees to construct and equip the said road and to use, maintain and operate the same under a lease thereof from the City for the term of thirty-five years. The City agrees to pay for such construction the sum of two million dollars (\$2,000,000), which is in fact about twenty per cent. of the estimated cost of the work. The said lessee agrees to pay as rental an annual sum equal to the annual interest payable by the City upon all bonds which shall be issued by it to provide means for construction; together with one per cent. per annum upon the whole amount of such bonds, subject, however, to certain deductions during the first ten years of the lease in case the lessee's profits should be less than five per cent. on its own capital invested in the enterprise. The lessee has a right of renewal for twenty-five years at a rental to be agreed upon or fixed by arbitration, but not to be less than the average rental during the last ten years of the original lease.

The said railroad is now in process of construction, and a part thereof in the Borough of Manhattan, extending from Park row under Broadway to Wall street, is now in actual operation.

Since the said contract was made, the Rapid Transit Board has devoted much time to a consideration of the rapid transit problem in the Borough of Brooklyn, and

has recently adopted certain routes and general plans for new railroads, all of which routes and plans are now before your Honorable Body for consideration.

Among the most important lines thus contemplated are the following:

1. Routes embracing three tunnels under the East river, from the Borough of Manhattan and coming into Brooklyn under Cranberry street, Pineapple street and Montague street, respectively. These tunnels, or any one or more of them, are so planned that they can (if desired) be connected through Fulton street with the subway now in course of construction opposite the Borough Hall Park.

2. A route is planned to run under the new Flatbush avenue extension and over the Manhattan Bridge. This line can, if desired, be connected near the intersection of Fulton street and Flatbush avenue with the subway now in course of construction.

3. A route is planned to run easterly under Lafayette avenue, and to connect with other subways under Bedford avenue, Stuyvesant avenue, etc. A connection with such proposed line can be made, if desired, with the subway now in course of construction at the intersection of Lafayette and Flatbush avenues.

4. A route is planned to run southerly under Fourth avenue to Fort Hamilton. This line can, if desired, be connected at the intersection of Fourth and Flatbush avenues with the subway now in course of construction.

If it shall be determined hereafter to make any one or more of these connections, it will be necessary to construct (as a part of the subway now building) suitable switches and cross-over tracks, some of which must go at a different level from the main line of the subway, so as to avoid grade crossings. It will also be desirable in any case, and essential under certain conditions, to provide for four tracks in the subway now building between the connecting points above mentioned, viz.: Between the Borough Hall Park and Atlantic avenue. These tracks will, however, be relatively of little value so long as the said subway is only connected by two tracks with the Borough of Manhattan.

If the work of constructing all of these additional tracks should be postponed until after the said subway is completed, it would be an extremely difficult and expensive undertaking to put them in; for it would involve substantially the reconstruction of the whole road (including stations) from the Borough Hall Park to Atlantic avenue. If, however, the additional tracks are provided for at the present time, they can be constructed as a part of the original road, at the least possible cost and with the minimum of disturbance of the street.

Consents to Proposed Work.

The Rapid Transit Board did not wait for the final adoption of the new Brooklyn routes before dealing with the important subject now under consideration. Whatever else may be done, it seems to be perfectly certain that subways will sooner or later be built under Fulton street, Flatbush avenue extension, Lafayette avenue and Fourth avenue; and that any one or more of these may very advantageously connect with the subway now building. Resolutions were accordingly adopted on April 13, 1905, amending the said routes and general plans of January 24, 1901, by providing for the additional tracks, switches, crossovers and connections mentioned above. A copy of the said resolutions is submitted herewith.

These modifications necessarily required the consent of the municipal authorities and the property owners, or the Supreme Court.

The consent of the Board of Aldermen (pursuant to the statute as then existing) was given on May 2, 1905, and the consent of the Mayor on May 9, 1905.

Efforts are now making to obtain the consent of the abutting property owners, and it is hoped that in a short time consents will be obtained from the owners of one-half in value of the property bounded on those portions of Fulton street and Flatbush avenue along which the additional tracks are to be laid.

Contract for Performance of the Work.

The work now proposed is extra work under the contract of July 21, 1902, and as such is provided for in that instrument.

Physically, it would be entirely out of the question to advertise for bids for the proposed work and let it to another contractor—even if that course were legally permissible.

The said contract of July 21, 1902, expressly provides that the Rapid Transit Board shall have the right, for any part of the railroad, to require additional work to be done and additional materials furnished. If such additional work or materials shall be required, then the reasonable value thereof shall be paid to the contractor. The amount of such additional payments is to be determined in the first instance by the Chief Engineer of the Rapid Transit Board, subject to an appeal by either the contractor or the City to a board of arbitration. The composition and mode of procedure of such board of arbitration are fully provided for in the said contract. All payments made for additional work under the contract are to be included in the cost of construction, and the rent payable is (as above stated) a percentage upon such cost. In order to secure punctual payment of the rent a continuing bond for one million dollars has been given by the contractor, and in addition the City has a first lien on all the equipment, including rolling stock, power houses, machinery, etc.

Under the said contract whatever money is paid for construction by the City is in effect a mere loan of credit. It is highly profitable to the City, which borrows money at one rate and practically lends it on undoubted security at a higher rate.

Nevertheless the Rapid Transit Board considered that in the present case the contractor should itself bear a part of the extra cost and thus enable the City to use its borrowing capacity for other purposes.

After prolonged negotiation it was finally agreed between the Rapid Transit Board and the contractor that the City should advance the whole cost of building the switches, cross-overs and connections for the four proposed new lines above mentioned; but that the City should advance only one-half of the cost of the rest of the proposed new work, namely, the four-tracking from Borough Hall Park to Atlantic avenue.

The reason for treating differently these different parts of the work is based upon the fact that the four tracks will be available to the lessee as soon as the road is finished, and will be of some value even if the proposed extensions are never built; whereas the connections with proposed new railroads will never be available unless and until such new lines are built.

The contract dated June 9, 1905, a copy of which is sent herewith, has accordingly been drawn to carry out this understanding and has been executed by the contractor and consented to by its sureties. It has been approved as to form by the Corporation Counsel, and has been executed by the officers of the Rapid Transit Board, but has not been delivered pending the action of your Honorable Body upon this application.

Under the terms of the said contract the amounts of the additional payments to the contractor are to be determined in the manner provided for in the said contract of July 21, 1902, that is to say, by the Chief Engineer of the Rapid Transit Board, subject to an appeal to arbitrators. A detailed estimate by the Chief Engineer, showing the amounts which will probably be required to be paid under the said contract, is sent herewith.

As the entire work of construction of the railroad in Fulton street and Flatbush avenue is necessarily suspended while awaiting the decision of your Honorable Body it is respectfully suggested that early action should be taken.

In witness whereof the Board of Rapid Transit Railroad Commissioners has caused its seal to be hereto affixed and these presents to be witnessed by its Vice-President and Secretary this 22d day of June, 1905.

JNO. H. STARIN, Vice-President.

Agreement made this ninth day of June, in the year nineteen hundred and five, between The City of New York (hereinafter called the City), acting by the Board of Rapid Transit Railroad Commissioners for The City of New York (hereinafter called

the Board), party of the first part, and Rapid Transit Subway Construction Company, a corporation organized and existing under the laws of the State of New York (hereinafter called the Contractor), party of the second part:

Whereas, Heretofore and on or about the 21st day of July, 1902, the City, acting by the Board, entered into a contract with the Contractor for the construction and operation of a Rapid Transit Railroad in The City of New York and otherwise, as therein mentioned, the said contract being hereinafter styled the Contract for Construction and Operation; and

Whereas, The Contractor has deposited with Comptroller of the City certain security for the performance of the said Contract for Construction and Operation on his part and has given certain bonds as further security for such performance and upon such bonds there are sureties as follows: Fidelity and Deposit Company of Maryland, United States Fidelity and Guaranty Company, National Surety Company, the Aetna Indemnity Company and Empire State Surety Company; and

Whereas, The Contractor desires, and the Board approves a modification of the Routes and General Plan for the Rapid Transit Railroad referred to in the said Contract for Construction and Operation as set forth in certain resolutions adopted by the Board on the 13th day of April, 1905, a copy of which is hereto annexed; and

Whereas, The said modifications of the said Route and General Plan have been duly approved and consented to by the Board of Aldermen of The City of New York by resolution adopted the 2d day of May, 1905, approved by the Mayor the 9th day of May, 1905.

Now, therefore, in consideration of the premises and subject to the consents hereinafter provided,

It is agreed that the said Contract for Construction and Operation, including the Routes and General Plan therein set forth, be, and the same hereby are, further modified as follows:

1. By striking out from the said Routes and General Plan the words, "For the whole of the route above described, including each of the branches and loops aforesaid, two parallel tracks."

2. By inserting in the said Routes and General Plan, instead of the words thus struck out, the following words, to wit:

"For the portion of the route above described, beginning at a point in the Borough of Brooklyn, in Joralemon street, opposite the Kings County Court-house, near the junction of Joralemon street with Fulton street, and running thence along Fulton street to the end of the said route at or near the intersection of Flatbush avenue with Atlantic avenue, there shall be four tracks substantially parallel and placed on substantially the same level, except at the following points, where provision is to be made for connections with certain subways or tunnels which are expected to be hereafter constructed and which are expected to run as follows, that is to say: First, northwesterly under Fulton street, from its junction with Joralemon street; second, northwesterly from Flatbush avenue under the proposed extension of Flatbush avenue toward the Manhattan Bridge; third, northeasterly from Flatbush avenue under Lafayette avenue, and, fourth, southerly from Flatbush avenue under Fourth avenue. At and near each of the said points, at which provision is now to be made for future connections, one or more additional tracks may be constructed as a part of the railway herein described, and any one or more of the tracks of said railway may be depressed below the remaining tracks as far as shall be found necessary in order to avoid grade crossings, but not exceeding twenty feet. Along the whole of that portion of the route above described which lies under Flatbush avenue, there may be an additional or fifth track for use as a siding. And for the remainder of the route above described, being all of the said route lying westerly from the Kings County Court-house, both in the Borough of Brooklyn and in the Borough of Manhattan and including each of the branches and loops aforesaid, there shall be two parallel tracks."

3. By inserting after the words, "No wall of the tunnel or part thereof shall" the words, "except along the southerly side of Fulton street, between Bond street and Flatbush avenue, and," so that the whole sentence shall read as follows, to wit:

"No wall of the tunnel or part thereof shall, except along the southerly side of Fulton street, between Bond street and Flatbush avenue, and except at the stations, station approaches, curves and places of access to subsurface structures as hereinafter provided, be within a distance of five (5) feet of the exterior line or side of a longitudinal street of the route."

It is further agreed that in all other respects the provisions of the Route and of the General Plan of Construction set forth in the said Contract for Construction and Operation shall be applicable to the portion of the route hereby substituted.

And it is further agreed that the Contractor shall become entitled to additional payments for such additional work and materials as shall be made necessary by the changes hereby provided; the amounts of such additional payments to be determined as provided in Chapter II. of the said Contract for Construction and Operation so far as such work and materials shall be supplied in or about providing connections with subways which may be hereafter built under Fulton street, the proposed extension of Flatbush avenue, Lafayette avenue or Fourth avenue, including in the cost of such connections, the cost of constructing the approaches thereto, as shown on the drawing annexed to and forming part of this agreement and entitled "Proposed Four Track Subway," Sheet No. 232-2.

But so far as such work and materials shall be supplied in or about any other thing hereby provided for, then the amounts of the additional payments to be made to the contractor shall be only one-half of the amounts determined as provided in Chapter II. of the said Contract for Construction and Operation.

Provided, however, and it is expressly agreed that this agreement shall take effect when and only when the following consents hereto and approvals hereof shall be duly had, to wit:

First—The consents as subjoined of Fidelity and Deposit Company of Maryland, United States Fidelity and Guaranty Company, National Surety Company, the Aetna Indemnity Company and Empire State Surety Company.

Second—The consent of the owners of a majority in value of the property along those portions of Joralemon street, Fulton street and Flatbush avenue, in the Borough of Brooklyn, which are above mentioned; or, if such consent cannot be obtained, then, in lieu thereof, the determination of three commissioners to be appointed by the Appellate Division of the Supreme Court in the Second Department, duly confirmed by the said Appellate Division.

The plan hereto annexed is intended to show the modification of the routes as hereby proposed.

In witness whereof, this contract has been executed for The City of New York by its Board of Rapid Transit Railroad Commissioners, under and by a resolution duly adopted by said Board, concurred in by more than six of its members, and the seal of the Board has been hereto affixed and these presents signed by the Vice-President and Secretary of the said Board, and Rapid Transit Subway Construction Company has also caused its seal to be hereto affixed and these presents to be signed by its President and Secretary, all on the day and year first above written.

Copy of Resolutions of April 13, 1905.

Whereas, This Board did, on the 24th day of January, 1901, adopt certain Routes and General Plan for a rapid transit railroad in the City of New York, a copy of which is hereto annexed entitled "Copy Routes and General Plan adopted 24 January, 1905;" and

Whereas, The said Routes and General Plan were afterwards duly approved by the municipal authorities of The City of New York, and were duly consented to by

Commissioners appointed by the Appellate Division of the Supreme Court both in the First and Second Departments, which consents were duly confirmed by the said Appellate Divisions in lieu of the consent of the owners of a majority in value of the property along the said routes; and

Whereas, Thereafter, and on or about the 21st day of July, 1902, The City of New York did by this Board enter into a certain contract with Rapid Transit Subway Construction Company for the construction and operation of the said rapid transit railroad; and

Whereas, It is the interest of The City of New York, and, in the opinion of the said Rapid Transit Subway Construction Company, it is likewise in its interest as such contractor, and the said company desires that said Routes and Plan shall be changed in the respect hereinafter mentioned, but without other change in the said Routes and General Plan; now therefore it is

Resolved, That, subject to the consents and approvals to be first obtained as in this resolution hereinafter mentioned, the said Routes and General Plan heretofore adopted by this Board be, and they hereby are, modified as follows:

1. By striking out from the said Routes and General Plan the words

"For the whole of the route above described, including each of the branches and loops aforesaid, two parallel tracks."

2. By inserting in the said Routes and General Plan, instead of the words thus struck out, the following words, to wit:

"For the portion of the route above described beginning at a point in the Borough of Brooklyn in Joralemon street opposite the Kings County Court-house, near the junction of Joralemon street with Fulton street, and running thence along Fulton street to the end of the said route at or near the intersection of Flatbush avenue with Atlantic avenue, there shall be four tracks substantially parallel and placed on substantially the same level, except at the following points where provision is to be made for connections with certain subways or tunnels which are expected to be hereafter constructed and which are expected to run as follows; that is to say: First, northwesterly under Fulton street from its junction with Joralemon street; second, northwesterly from Flatbush avenue under the proposed extension of Flatbush avenue toward the Manhattan Bridge; third, northeasterly from Flatbush avenue under Lafayette avenue, and, fourth, southerly from Flatbush avenue under Fourth avenue. At and near each of the said points, at which provision is now to be made for future connections, one or more additional tracks may be constructed as a part of the railway herein described, and any one or more of the tracks of said railway may be depressed below the remaining tracks as far as shall be found necessary in order to avoid grade crossings, but not exceeding twenty feet. Along the whole of that portion of the route above described which lies under Flatbush avenue there may be an additional or fifth track for use as a siding. And for the remainder of the route above described, being all of the said route lying westerly from the Kings County Court-house, both in the Borough of Brooklyn and in the Borough of Manhattan, and including each of the branches and loops aforesaid, there shall be two parallel tracks."

3. By inserting after the words "no wall of the tunnel or part thereof shall," the words "except along the southerly side of Fulton street, between Bond street and Flatbush avenue, and," so that the whole sentence shall read as follows, to wit:

"No wall of the tunnel or part thereof shall, except along the southerly side of Fulton street, between Bond street and Flatbush avenue, and except at the stations, station approaches, curves and places of access to subsurface structures as hereinafter provided, be within a distance of five (5) feet of the exterior line or side of a longitudinal street of the route."

And it is further

Resolved, That whereas this Board has duly made the inquiries and investigations necessary or proper in the premises, and has determined that the modifications aforesaid of the said routes and general plan is necessary for the interests of the public and of The City of New York and should be established as hereinafter provided, this Board does hereby determine and establish the said routes and general plan as hereby modified, subject to the consents and approvals to be first obtained as hereinafter mentioned.

And it is further

Resolved, That the said modification of the routes and general plan shall take effect only upon and after the following consents thereto and approvals thereof shall be duly had, to wit:

1. The consent of the Rapid Transit Subway Construction Company, contractor, and of its sureties, as follows: Fidelity and Deposit Company of Maryland, United States Fidelity and Guaranty Company, the National Surety Company, the Aetna Indemnity Company and Empire State Surety Company.

2. The consent of the Board of Aldermen of The City of New York or of such other local authorities as may have the control of the portions of Joralemon street, Fulton street and Flatbush avenue, in the Borough of Brooklyn, above mentioned.

3. The consent of the Mayor of The City of New York.

4. The consent of the owners of a majority in value of the property along streets or such portions of streets as are included in the portion of routes by these resolutions proposed to be modified as aforesaid; or, if such consents cannot be obtained, then, in lieu thereof, the determination of three commissioners to be appointed by the Appellate Division of the Supreme Court in the Second Department, duly confirmed by the said Appellate Division.

And it is further

Resolved, That this Board hereby adopts the drawing now produced and entitled "Proposed Four Track Subway, showing Two Track Connections with extensions on Fourth avenue, Lafayette avenue, Fulton street and Flatbush avenue extension," as showing in substance the modification hereby adopted.

I certify that the above are true copies of resolutions adopted by the Board of Rapid Transit Railroad Commissioners at its meeting held on the 13th day of April, 1905, seven Commissioners being present and all voting in favor thereof.

In witness whereof I have hereunto set my hand and the seal of the Board this 17th day of April, 1905.

BION L. BURROWS, Secretary.

Copy Routes and General Plan Adopted January 24, 1901.

The centre line of the route shall commence at a point in the Borough of Manhattan at or near the intersection of Broadway with Park row, being the point of commencement of the rapid transit railroad now under construction upon the routes adopted by the Board of Rapid Transit Railroad Commissioners of The City of New York, by resolutions of the 14th day of January and 4th day of February, 1897; and such centre line shall run thence under Broadway and Bowling Green to State street; thence under State street and Battery Park to Whitehall street, and thence under and across Whitehall street and South street to the East river; thence under the East river to the Borough of Brooklyn at a point in Joralemon street between the East river and Furman street; thence under Joralemon street to Fulton street; thence under Fulton street to Flatbush avenue; thence under Flatbush avenue to a point at or near its intersection with Atlantic avenue. The route shall also include a branch or loop, the centre line of which shall begin at the point which shall be found most convenient in Broadway between Bowling Green and Exchange place, and shall run thence under Broadway to Bowling Green and thence under Bowling Green to State street; thence under and across the line of State street to Battery Park; thence under Battery Park to Whitehall street; thence returning under Whitehall street, Battery Park and State street to Broadway.

The route shall also include suitable tracks and connections in the nature of loops under the City Hall Park and around the City Hall in the Borough of Brooklyn. Wherever the route passes from one street to another, or from the street to the river, or from the river to a street, the route may pass under private property so far as may be convenient for the purposes of the curve or grade of the railway.

The said general plan of construction hereby adopted is as follows:

For the whole of the route above described, including each of the branches and loops aforesaid, two parallel tracks placed on the same level, except that wherever required by special necessities of surface or subsurface structures, or other special or local necessities, or for the purpose of avoiding grade crossings, either track may be depressed below the other track to a depth of not more than fifty feet; but the limitation as to level of the two tracks shall not apply to the portions of the route under the East river. The tracks shall be standard gauge, that is to say, of a width of four feet eight and one-half inches between the rails.

The tracks may at any point of the route (or of the branches or loops therein included) be placed in the same tunnel; or there may be a separate tunnel for each track; as shall be most convenient; and there shall be a width in the tunnels for

each track not exceeding fifteen feet, except that at stations, switches, turnouts, curves and cross-overs the width may be increased, provided, however, that the tracks shall be placed under the central part of the longitudinal street of the route, so far as may be practicable and convenient. No wall of the tunnel or part thereof shall, except at the stations, station approaches, curves and places of access to sub-surface structures as hereinafter provided, be within a distance of five (5) feet of the exterior line or side of a longitudinal street of the route. The roof of the tunnel when under a street shall be as near the surface of the street as grades and street conditions will conveniently permit. The tunnel shall not be less than thirteen feet high in the clear. Wherever necessary to the proper support of a street surface the roof of the tunnel or tunnels shall be of iron or steel girders, with brick or concrete arches, supported by iron or steel columns and masonry walls, or the roof shall be a masonry arch, or the whole of the lining may be of iron. Adjacent tracks shall be connected by necessary and suitable switches and connections and an additional track for siding accommodations may be constructed not to exceed in length one quarter of a mile for each mile of roadway; and wherever along any part of the route it shall be necessary for the proper maintenance or accommodation of pipes, wires, sewers and other subsurface structures, the width of the tunnel may be enlarged on either or both sides by an additional width not to exceed fifteen feet, provided always that the limits hereinbefore provided as to longitudinal streets of the route shall be observed. All or any pipes, wires, sewers and other subsurface structures may be placed in suitable galleries to be constructed within the additional width hereinbefore permitted. At each cross street where accommodation for pipes, wires, sewers and other subsurface structures shall be provided within the tunnel, the tunnel may, in order to provide convenient access to the same, have within the limit of the sides of exterior lines of such cross streets or such lines produced, an additional width on each side of the route not to exceed fifteen feet, provided always that the limits hereinbefore provided as to longitudinal streets of the route shall be observed. Pipes, wires, sewers and other subsurface structures shall, at any part of the said route, be removed and disturbed only when necessary for the construction and operation of the tunnel, and if removed or disturbed shall be placed under the streets in such manner and in such location that the use and service thereof shall not be permanently impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration and for the placing with them, so far as there may be space, or new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time. Stations and station approaches shall, so far as practicable, be at the intersection of streets and shall be built under streets or through private property to be acquired for the purpose or both under streets and through private property, as aforesaid. The streets under which stations or station approaches shall be built may include cross streets; but no part of any cross streets shall be used for a station or station approach at a distance greater than seventy-five feet from the exterior line or side of the street of the route. The word "street," wherever used herein, shall include an avenue, park or public place.

The general mode of operation shall be by electricity or some other power not requiring combustion within the tunnels, and the motors shall be capable of moving trains at a speed of not less than forty miles per hour, exclusive of stops. The manner of construction shall be by tunneling or open excavation.

Resolution of the Board of Rapid Transit Railroad Commissioners adopted June 15, 1905:

Resolved, That the officers of this Board be and they are hereby authorized to submit to the Board of Estimate and Apportionment the contract with Rapid Transit Subway Construction Company, dated June 9, 1905, and also to make requisition upon the said Board of Estimate and Apportionment, pursuant to section 37 of chapter 4 of the Laws of 1891 (as amended by section 9, chapter 752 of the Laws of 1894; section 12, of chapter 519 of the Laws of 1895, and section 1 of chapter 562 of the Laws of 1904), for a further issue of bonds to such an amount as shall be sufficient to meet the requirements of such contract in addition to all obligations heretofore incurred and to be satisfied from bonds issued under the authority of the said section.

A true copy.

BION L. BURROWS, Secretary.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby consents to the proposed agreement dated June 9, 1905, between The City of New York, by its Rapid Transit Board, and the Rapid Transit Subway Construction Company (contractor), modifying the original contract dated July 21, 1902, by providing for additional tracks on Fulton street and Flatbush avenue, and suitable tracks for connecting with other roads to be built hereafter in the Borough of Brooklyn, and hereby prescribes that the issue of Corporate Stock to provide the necessary means for such additional work shall not exceed the sum of one million six hundred and twenty thousand dollars (\$1,620,000); and be it further

Resolved, That, pursuant to the provisions of law and a requisition of the Board of Rapid Transit Commissioners, duly made by its Vice-President under date of June 22, 1905, the Comptroller be and is hereby authorized to issue Corporate Stock of The City of New York to an amount not exceeding one million six hundred and twenty thousand dollars (\$1,620,000), the proceeds whereof to be applied to meet the requirements under the contract (No. 2) with the Rapid Transit Subway Construction Company for the construction of additional tracks on Fulton street and Flatbush avenue, and suitable tracks for connecting with other roads to be built hereafter in the Borough of Brooklyn.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Richmond—15.

The Secretary presented the following report from the Chief Engineer of the Board of Estimate and Apportionment relative to the approval of the modification of the plans for the extension of Riverside drive, between West One Hundred and Thirty-fifth street and its junction with the Boulevard Lafayette:

REPORT No. 3038.

BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK,
OFFICE OF THE CHIEF ENGINEER,
NEW YORK, June 16, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In the accompanying communication, bearing date of June 2, 1905, the President of the Borough of Manhattan requests the approval of modified plans for the extension of Riverside drive, between West One Hundred and Thirty-fifth street and its junction with Boulevard Lafayette. With this communication there is submitted a statement from Mr. F. Stuart Williamson, Consulting Engineer in charge of the work, showing in detail the nature and causes of the proposed changes.

The plans and specifications for the Riverside drive improvement, extending from West One Hundred and Thirty-fifth street to the Boulevard Lafayette, were approved by the Board of Estimate and Apportionment in three sections, as follows:

Section No. 2—Extending from West One Hundred and Thirty-fifth street to West One Hundred and Forty-fifth street. Approved on April 17, 1903.

Section No. 3—Extending from West One Hundred and Forty-fifth street to West One Hundred and Fifty-second street. Approved on July 15, 1903.

Section No. 4—Extending from West One Hundred and Fifty-second street to the Boulevard Lafayette. Approved on July 22, 1903.

These plans showed the general character of the work to be done in sufficient detail to permit of placing the work under contract, such contracts having been subsequently entered into. The contract for the work comprised under Section No. 2 was made on December 7, 1903, with Messrs. Ryan & Parker, and that for Sections Nos. 3 and 4 was awarded on December 10, 1903, to Mr. John C. Rodgers. From time to time the Consulting Engineer has prepared construction drawings as provided for in the terms of the contract, showing the work to be done in greater detail than was given in the contract plans. In making up these detail drawings it was found that certain modifications could be made with advantage to the City and practically without affecting the cost of the work. It seems to have been assumed by the borough authorities that they had the power to make these changes without again presenting the matter to the Board of Estimate and Apportionment. The Finance Department has raised a question as to the authority of the borough officials in this respect, and asked the advice of the Law Department. Under date of March 11, 1905, in response to this request, the Corporation Counsel, after reviewing the law under which the Riverside drive improvement is being carried out and the terms of the contracts entered into, states that he is of the opinion that:

"If a change or modification of the plans amounts to making what is in effect a substantial alteration, I am of the opinion that it is beyond the power of the President of the Borough to make such a change, even with the consent of the other parties, without first resubmitting the proposed change and modification for the approval of the Board of Estimate and Apportionment."

The Corporation Counsel also expresses the opinion that minor changes may be made without the approval of the Board of Estimate and Apportionment.

Some of the details provided under the construction plans differ radically from the original plans, and I believe that, following the lines laid down by the Corporation Counsel, the approval of the modified plans is necessary. It should be noted, however, that the plans now submitted involve every detail of construction. All past experience with work of this character shows that alterations of at least a minor character, and which cannot be predetermined, will be required from time to time as the work advances. In my judgment the approval of the construction plans in all their detail is inadvisable, and I would recommend that the action in this case be limited to so much of the plan as modifies the plan originally adopted.

The modifications are as follows:

Section 2.

1. In the original plans the sewers and water-pipes are located in the roadway on an earth foundation. It is now proposed to locate them on the benches which are a portion of the east wall, thus securing an unyielding support. These changes are indicated on Construction Plans Nos. 2030, 2031 and 2032.

2. In the original plans openings were to be left in the east wall so that the lateral sewers could be later carried through the same. In the new plans it is proposed to carry 6-inch laterals through the walls, thus avoiding future interference with the work. These modifications are shown on Construction Plans Nos. 2030, 2031 and 2032.

3. It is proposed to construct new manholes and sewer connections on abutting streets where existing ones are interfered with by the retaining wall, or where the latter have been broken or rendered useless. This work is in addition to that originally contemplated.

4. In the contract drawings the east wall is shown to finish in a granite coping set practically level with the sidewalk. This wall in many cases is very high, and for the sake of securing a better protection for passengers it has been deemed advisable to carry the wall about two feet higher, finishing it in a parapet. The gas-pipe railing originally provided is retained. The change is shown on Construction Plan No. 2031.

5. It was originally proposed to carry the water-pipes under the bridges, as the headroom above the bridges was insufficient for a 12-inch pipe. To meet the objections raised by the Department of Water Supply it is now proposed to carry the pipe over the bridges, using four lines of 6-inch pipe to replace a 12-inch line. This modification is shown on Construction Plan No. 2042.

6. As originally proposed, overhead covering and tower were provided at the break in the stairs at West One Hundred and Thirty-fifth street. The new plan omits this tower on the ground that it did not add to the appearance of the structure in any way and served no useful purpose. The modification is shown on Construction Plans Nos. 2005, 2006, 2007, 2008, 2010, 2021 and 2038.

7. In working out the slopes of the embankment between West One Hundred and Fortieth and West One Hundred and Forty-third streets it has been found necessary to slightly lengthen the retaining wall. This modification is shown by Construction Plans Nos. 2039, 2040 and 2041.

Sections 3 and 4.

1. The modifications proposed under this item are similar to those designated under Item No. 1 of Section No. 2. The changes are indicated on Construction Plans Nos. 3002, 3003 and 3004.

2. These changes are similar to those proposed under Item No. 2 of Section No. 2. They are shown on Construction Plans Nos. 3002, 3003 and 3004.

3. The modifications proposed are similar to those described in Item No. 3 of modification in Section No. 2.

4. The modification is similar to that proposed in Item No. 4 of Section No. 2. It is indicated on Construction Plan No. 3003.

5. This modification is along the same lines as that proposed under Item No. 5 of Section No. 2. The Construction Plans for these water-mains have not yet been prepared, and are not submitted at this time.

6. In the original plan two retaining walls were provided on the westerly side just north of the West One Hundred and Fifty-first Street Bridge. In the new plan the lines have been modified so as to hold up the slopes with one wall, slightly increasing the area which may be used for park land. This modification is indicated on Construction Drawings Nos. 3013 and 3034.

7. The towers or piers at the north and south ends of the steel viaduct have been emphasized and enlarged. This improvement adds very much to the dignity of the structure. The modifications are shown on Construction Plans Nos. 3023, 3025, 3038 and 3039.

8. In the original plans it was proposed to support the viaduct where it crosses the Trinity Cemetery upon a broken ashlar wall on the easterly side facing the cemetery, and on the westerly side by steel columns resting on a low retaining wall. After making the detailed surveys at this point it was found that the columns would be exceedingly short and unsightly, making it desirable to omit them and carry the masonry wall on the westerly side up to the base of the steel beams carrying the roadway. These modifications are shown on Construction Plans Nos. 3010 and 3027.

9. Although not indicated in the papers herewith presented, I would call attention to a further modification in the plan for crossing the Trinity Cemetery. As stated under Item No. 8, the plans contemplate a broken ashlar retaining wall. The plan approved on July 22, 1903, provided for finishing this wall at the top with a series of relief arches. The Construction Plan now presented, No. 3011, shows that it is proposed to replace these arches with a belt of cut stone. The modification will unquestionably give an improved appearance to the wall.

With the papers submitted by the Borough President there is presented a detailed estimate of cost of the work proposed under Sections 2, 3 and 4, which are based on the detail plans and include the modifications now proposed. These estimates show that there will be a decrease in the cost of the work proposed under Section No. 2 aggregating \$37,960, while the work included under Sections Nos. 3 and 4 will be increased \$24,241.

The modifications do not include any item of work for which a unit price is not fixed in the original contract, and I believe that there should be no question as to the adjustment of the contract to include these changes, and their approval is recommended, it being understood that the same will form the basis of an agreement to be entered into between the Borough President and the contractors.

Attention might also be called at this time to the fact that further amendments in the contract for Sections Nos. 3 and 4 will later be required by reason of the change adopted in the grade of West One Hundred and Fifty-first street on May 19, 1905, the same providing for a direct connection between this street and Riverside drive

and removing the necessity for a bridge. A revision of the plans in consequence of this action has not yet been made.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,
CITY HALL, June 2, 1905.

JAMES W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—Pursuant to the request of the Comptroller of March 20 herewith is transmitted for the approval of the Board of Estimate and Apportionment modified plans and a detailed statement of changes in the construction work of the extension of Riverside drive, from One Hundred and Thirty-fifth street to its junction with the Boulevard Lafayette. After these plans and schedule of changes in the above mentioned work have been approved by the Board of Estimate it is requested that they be returned to this office.

Yours respectfully,

JOHN F. AHEARN, President.

F. STUART WILLIAMSON, CONSULTING ENGINEER,
No. 25 BROAD STREET,
NEW YORK, April 7, 1905.

Hon. JOHN F. AHEARN, President, Borough of Manhattan, City Hall, New York City:

DEAR SIR—I beg to reply to yours of the 24th ult., and to submit in accordance therewith the inclosed statement re extension of Riverside drive.

Two books of detailed construction plans, one for Section No. 2 (Contractor John C. Rodgers), and one for Sections Nos. 3 and 4 (Contractors Ryan & Parker), of the extension of Riverside drive, are also submitted in order to comply with the request of the Comptroller, that they be submitted to the Board of Estimate and Apportionment for approval.

The alterations made in the original contract plans are inconsiderable, and are shown on the several construction plans now submitted. There is no extra expense attached to these changes and modifications, all of them being made for the purpose of improvement in the general construction of the drive, as the details came to be worked out.

These modifications have been fully explained to the Comptroller's Principal Assistant Engineer, Mr. Merritt H. Smith, in charge of this work, and, I believe, to his satisfaction and approval. Duplicate copies of these detailed plans have always been furnished this Engineer as completed from time to time, so that he is fully conversant with the same.

It is evident from the Comptroller's letter that when the plans are approved by the Board of Estimate and Apportionment, an agreement must be drawn up by the Corporation Counsel between the City and the contractors, signifying their assent to the alterations.

As these construction plans are needed for reference from time to time on the work, I respectfully ask that they be submitted for approval at your earliest convenience.

I remain,

Yours respectfully,

F. STUART WILLIAMSON, Consulting Engineer.

EXTENSION OF RIVERSIDE DRIVE—SECTION NO. 2.

Alterations and Modifications, as Developed by Detailed Construction Plans.

1. Sewers and water pipes are built on the east wall, instead of being laid in the ground.

This change avoids all possibility of settlement, likely to arise from laying sewers and pipes in the newly filled-in roadway. It also makes possible a connection with the future house drainage without any tearing up of the street.

The extra cost of this change is the slight one of building up a bench upon which to lay the sewers and pipes.

2. Six (6) inch sewer pipe connections have been inserted, instead of leaving 12-inch openings through the east wall, thus avoiding tearing up the sidewalk, and possibly cutting away irregularities in the wall itself.

3. New manholes and sewer connections on abutting streets have been built where existing ones have interfered with our wall, or where they have been either rendered useless or broken.

Perhaps this has occurred in six or eight cases throughout the work.

4. The east wall, as shown on the contract drawings (although not shown clearly), had merely a granite coping, a few inches above the sidewalk, upon which a single rail gas pipe railing was set. This seemed upon consideration a poor protection to passengers, when the wall is, in many cases, twenty or thirty feet high.

A parapet two feet high, therefore, has been inserted under the coping.

5. The contract drawings provided for carrying the water supply under the several bridges, by means of a syphon, with all the necessary air cocks, blow-offs, etc. Our headroom over streets was so limited that the 12-inch pipe could not be carried over the arch and yet leave sufficient material above.

This method, however, was criticised by the Water Department. Therefore it has been arranged to carry the water supply over the bridges, by means of four pipes six inches in diameter.

The tower at One Hundred and Thirty-fifth street has been modified, to the extent of omitting the archway, under which the stairs passed; also the superstructure of same. It seemed an unnecessary amount of ornamentation, serving apparently no purpose, not even an architectural one.

7. The west retaining wall, between One Hundred and Fortieth and One Hundred and Forty-third streets, has been increased in length by one panel; also the wall has been moved southward some fifty feet. In working out the slopes and wall in detail, it became apparent that the slopes were too steep, and that in order to retain them and the roadway, this modification was necessary.

From the revised approximate quantities attached hereto, it will be seen that the main increase is in Items 12, 16 and 28.

Item 12. The courses have been made deeper than originally estimated on, therefore increasing the bed, and therefore the quantity of face masonry.

Item 16. The increase in this material is chiefly due to the insertion of a deeper base course in the west retaining wall, also to the increase in the high wall between One Hundred and Fortieth and One Hundred and Forty-third streets.

The piers or pilasters along this west wall are also slightly wider than perhaps figured on originally.

Item 28. Owing to the many springs and leaking sewers along the line of the work, also from the fact that the excavated trench is so near the river, only separated therefrom by a rock filled railroad bank, a large amount of sheeting has been used. The Consulting Engineer must admit that it was a fault on his part not to have foreseen this. The Item 28 was mainly put in to provide for an eventuality not expected to arise.

In extenuation of the omission of this T. & G. sheeting, it may be said that if the sheeting was not used, a greater expense would have resulted from excavating back from the rear side of the trench, so as to hold up a slope of one and one-half to one (1½ to 1), more than offsetting the cost of the sheeting.

Heavy sheeting must also be used to hold up One Hundred and Thirty-fifth street at its junction with this extension, and with the viaduct.

The main decrease in quantities is in Items 9 and 13.

Item 9. Less of this material is, of course, in use, owing to the increased amount of face masonry (Item 12).

Item 13. None of this material has been used, and it is not probable that any will be. It was thought at one time that a considerable amount of broken range work would be used, but after the specifications were printed, this material was not shown on the Contract Plans.

EXTENSION OF RIVERSIDE DRIVE—SECTIONS NOS. 3 AND 4.

Alterations and Modifications, as Developed by Detailed Construction Work.

1. Similar modifications as for Section No. 2.
2. Similar modifications as for Section No. 2.
3. Similar modifications as for Section No. 2.
4. Similar modifications as for Section No. 2.
5. Similar modifications as for Section No. 2.
6. A change in the arrangement of west retaining wall immediately north of One Hundred and Fifty-first Street Bridge.

Instead of building the wall shown as curving in a westerly direction from the bridge, retaining the drive at this point, as well as the wall along the railroad, the first mentioned wall has been omitted, and the latter built up higher to hold up the bank. The arrangement shown on the contract plans duplicated walls, and really cut off a small area of park which may as well be utilized.

This may more readily be seen by a reference to the revised construction plans.

7. The arrangement of walls, which may be called towers or piers, at north and south ends of steel viaduct, have been emphasized and somewhat enlarged, making more of a feature in the work.

8. The wall on westerly property line through Trinity Cemetery has been carried up higher and has made the use of the steel columns shown on contract plans unnecessary. The bank at this point was considerably higher than shown originally, and on

working out the details of this most unsatisfactory portion of the contract the wall had to be made higher than shown.

Then by the time the big caps and bases of the columns or posts came to be detailed it was found that not a great deal of the post was left. When it is taken into consideration also that there would have been a dark hole under the viaduct, into which every kind of rubbish would be thrown, and offering a rendezvous for the bad element resorting to this neighborhood, it seemed well to run the wall up and shut up this space.

So much corrosion, too, of metal work will take place from the gases of the locomotives that for this reason alone it is well to diminish the steel work as much as possible.

Altogether this viaduct portion of the extension, from One Hundred and Fifty-second to One Hundred and Fifty-third streets, has required more thought and detailing than all the rest of the work taken together.

From the revised approximate quantities attached hereto it will be seen that the main increase is in Items 3, 12, 16, 21, 22 and 30.

Item 3. Rock has unexpectedly been encountered all along the work.

Item 12. The courses have been made deeper than originally estimated on, therefore increasing the bed, and therefore the quantity of face masonry.

Additional masonry caused by increasing the height of wall under steel viaduct.

Item 16. Increase in this material is mainly due to the insertion of a deeper base course in the west retaining wall and wall under viaduct.

Items 21 and 22. Mainly caused by building a parapet on east wall.

Item 30. The thickness of all rubble walls has been increased over dimensions originally shown; a precaution where it is so difficult to obtain good work in rubble masonry.

The main decrease in quantities is in Items 9, 15, 39 and 40.

Item 9. Owing to the increase in face masonry the rubble backing is decreased.

Item 15. Six (6) cut work has been more generally substituted for eight (8) cut.

Items 39 and 40. The steel work has been reduced in all portions of the viaduct as the detail plans were worked out.

This apparent increase in cost is expected to be wiped out before the work is completed.

The work of construction is not more than 20 per cent. completed, and the summary of prices must necessarily be only approximate.

Then, again, there is a doubt if the bridge at One Hundred and Fifty-first street will be built at all, so that portion of the contract cannot be figured on or revised in any way.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the following modifications in the plans of section 2 of the Riverside Drive Improvement, adopted on April 17, 1903, and comprising that portion of the work between West One Hundred and Thirty-fifth street and West One Hundred and Forty-fifth street, subject, however, to the presentation by the President of the Borough of Manhattan of a satisfactory agreement with Messrs. Ryan and Parker, contractors, providing for carrying out the same, to wit:

1. The sewers and water pipes to be located on the masonry benches, as indicated by Construction Plans Nos. 2030, 2031 and 2032.
2. The 6-inch lateral sewers to be carried through the retaining wall, as indicated by Construction Plans Nos. 2030, 2031 and 2032.
3. New manholes and sewer connections to be built in place of existing ones when found to be necessary in carrying out the work.
4. The east retaining wall to be carried about two feet above the sidewalk level and finished in a parapet, as shown by Construction Plan No. 2031.
5. The water pipes to be carried over, instead of under, the bridges, several lines of small pipe to be used for this purpose, as shown on Construction Plan No. 2042.
6. The overhead covering and tower to be omitted at the break on the West One Hundred and Thirty-fifth street stairway, as shown on Construction Plans Nos. 2005, 2006, 2007, 2008, 2010, 2021 and 2038.
7. Retaining wall between West One Hundred and Fortieth and West One Hundred and Forty-third streets to be lengthened, as shown by Construction Plans Nos. 2039, 2040 and 2041.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Richmond—15.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the following modifications in the plans for sections 3 and 4 of the Riverside Drive Improvement, adopted on July 15, 1903, and July 22, 1903, and comprising that portion of the work between West One Hundred and Forty-fifth street and the Boulevard Lafayette, subject, however, to the presentation by the President of the Borough of Manhattan of a satisfactory agreement with Mr. John C. Rodgers, contractor, providing for carrying out the same, to wit:

1. The sewers and water pipes to be located on the masonry benches, as indicated by Construction Plans Nos. 3002, 3003 and 3004.
2. The 6-inch lateral sewers to be carried through the retaining wall, as indicated on Construction Plans Nos. 3002, 3003 and 3004.
3. New manholes and sewer connections to be built in place of existing ones when found to be necessary in carrying out the work.
4. The east retaining wall to be carried about two feet above the sidewalk level and finished in a parapet, as indicated on Construction Plan No. 3003.
5. The water pipes to be carried over, instead of under, the bridges, several lines of small pipe to be used for this purpose, as shown on Construction Plan No. 2042.
6. One of the retaining walls to be omitted just north of the West One Hundred and Fifty-first street bridge, the slope to be held up by one wall, as shown by Construction Plans Nos. 3013 and 3034.
7. The towers or piers at both ends of the steel viaduct to be emphasized and enlarged, as shown by Construction Plans Nos. 3023, 3025, 3038 and 3039.
8. The steel columns supporting the westerly side of the roadway across Trinity Cemetery to be replaced by a masonry wall, as shown by Construction Plans Nos. 3010 and 3027.
9. The easterly retaining wall carrying the roadway across Trinity Cemetery to be modified by substituting for the relief arches a belt of cut stone, as shown by Construction Plan No. 3011.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Richmond—15.

The Secretary presented the following communications from the Commissioner of Correction as Chairman of the Board of Parole, requesting the establishment of certain positions in said Board, and report of the Investigations Division, Department of Finance, relative thereto.

DEPARTMENT OF CORRECTION OF THE CITY OF NEW YORK,
COMMISSIONER'S OFFICE, NO. 148 EAST TWENTIETH STREET,
NEW YORK, June 7, 1905.

Hon. GEORGE B. MCCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment:

DEAR SIR—The Board of Parole of the New York City Reformatory would respectfully request the Honorable the Board of Estimate and Apportionment to establish the following positions in this Department, for the Reformatory on Hart's Island:

	Per annum.
One Secretary to the Board of Parole.....	\$2,500 00
One Secretary to Chairman of Board.....	1,500 00
One Overseer of Reformatory	1,800 00
One Special Parole Officer	1,400 00

As it is desired to comply with the law and establish the Reformatory, it is hoped that action may be taken at an early date.

Very respectfully,

(Signed) FRANCIS J. LANTRY,
Chairman Board of Parole.

A true copy.

JOHN B. FITZGERALD, Secretary.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
June 22, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—In the matter of the request of the Board of Parole of the New York City Reformatory for the establishment of the following positions for the Reformatory on Hart's Island:

	Per annum.
One Secretary to the Board of Parole.....	\$2,500 00
One Secretary to Chairman of Board.....	1,500 00
One Overseer of Reformatory	1,800 00
One Special Parole Officer	1,400 00

I beg to report as follows:

The request of the said Board would appear to be reasonable so far as the first three positions sought to be created and the salaries therefor.

The Board of Parole requires a Secretary to take charge of its office and manage its business generally. For the character of work demanded by such a position, a salary of \$2,500 does not seem to be unreasonable.

The Secretary to the Chairman of the Board, at a salary of \$1,500 per annum, is to provide a Clerk or Secretary to the Commissioner of Correction in his work as Chairman of the Board of Parole, a clerk necessary because of the fact that the work of the Chairmanship of the Board must often be during hours when the Commissioner is engaged with his regular departmental work. According to the statement of Commissioner Lantry, this said Secretary to the Chairman will act as the Stenographer at the meetings of the Board and will have charge generally of the work of the Board in connection directly with the Commissioner of Correction in those details which, through lack of time, cannot be attended to by the Commissioner himself.

According to the further statement of Commissioner Lantry, the Overseer for the Reformatory must be a man not only competent to take charge of the discipline of the boys, but also to manage the shops and direct the shop work of the inmates. In view of the obviously unusual requirements of such a position, the suggested compensation of \$1,800 appears to be reasonable.

It is desired that all of these positions shall be classified as exempt positions because of the confidential character of the work to be performed. In reply to the suggestion of your Examiner relative to the position of Secretary to the Chairman of the Board, that such a position might be properly within the competitive classification, Commissioner Lantry insisted that the position must of necessity be confidential to such an extent that the appointment should not be from the competitive classified service.

In regard to the "Special Parole Officer" at a salary of \$1,400, it would seem to me that persons competent for such employment as is contemplated under the act creating the Board of Parole could be employed at a salary of \$1,200 and might reasonably be obtained in the manner usual for the appointment of City employees in the competitive classification.

Probation Officers in the City Courts are compensated at the rate of \$1,200 per annum. The Attendance Officers employed by the Department of Education are compensated at rates varying from \$900 to \$1,200 per annum.

I would therefore recommend that the request of the Board of Parole for the appointment of one Secretary to the Board at \$2,500, one Secretary to the Chairman of the Board at \$1,500, and one Overseer of Reformatory at \$1,800 be approved, all the appointments to be in the exempt class, and that the appointment of one Special Parole Officer at \$1,200 be approved, pending preparation of a Civil Service eligible list for said position.

Although not directed to report thereon at this time, I beg to respectfully call your attention to the provisions of chapter 305 of the Laws of 1905, which amends chapter 627 of the Laws of 1904, the latter being the law under which the Board of Parole was first organized.

In a report to you under date of December 16, 1904, copy of which is attached hereto, I called your attention to the fact that said chapter 627 of the Laws of 1904 was loosely drawn as regards the financial administration of the institution. This law as amended during the present year does not seem to fully meet the objections which appeared in the original law, namely, that there is no provision in the law as to whether the appropriations or bond issues provided for the work of the Board shall be administered as part of the funds of the Commissioner of Correction or as exclusively under the direction of the Board of Parole.

The only changes which chapter 305 of the Laws of 1905 makes in chapter 627 of the Laws of 1904 are the addition of part of a paragraph, as follows:

"The board of estimate and apportionment of the City of New York may annually appropriate such money as it deems proper to carry out the purposes of this section, and for the purpose of meeting such appropriation for the year nineteen hundred and five the said board of estimate and apportionment may direct the comptroller of the city to issue the necessary revenue bonds."

—and the elimination of section 2, so far as it relates specifically to Queens County. The amended law retains the following clause:

"The comptroller of the city of New York * * * shall prepare and issue corporate stock of the City of New York for the purpose of providing for and paying out such sums of money as may be necessary to establish and maintain the said reformatory in accordance with the provisions of this act."

The maintenance of a public institution out of the proceeds of the issue of Corporate Stock would appear to be unusual.

Yours respectfully,

CHARLES S. HERVEY,
Auditor of Accounts, Investigations Division.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the following positions, in addition to the positions already established, under the jurisdiction of the Department of Correction, be established, with salaries as follows:

	Per Annum.
Secretary to the Board of Parole.....	\$2,500 00
Overseer of Reformatory.....	1,800 00
Special Parole Officer.....	1,200 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Richmond—15.

The Secretary presented the following report of the Engineer of the Department of Finance, relative to a proposed deed of the portions of Depew place and Forty-fourth street, which the City has agreed to sell to the New York Central and Hudson River Railroad Company, and which said company has agreed to purchase for the sum of \$355,000:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
June 22, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Ira A. Place, General Counsel for the New York Central and Hudson River Railroad Company, in communication under date of May 29, 1905, transmits proposed deed of the portions of Depew place and Forty-fourth street, which the City has agreed to grant to the New York Central and Hudson River Railroad Company, and which the company has agreed to purchase for the sum of \$355,000, in accordance with the grant and agreement, dated April 28, 1905.

Embodied in proposed deed are forms of resolution to be adopted by the Board of Estimate and Apportionment.

I would report that the description of the property conveyed by the City to the New York Central and Hudson River Railroad Company, and the compensation, \$355,000, to be paid by the New York Central and Hudson River Railroad Company to the City, are correct and in accordance with agreement adopted by the Board of Estimate and Apportionment at meeting of April 28, 1905, and I would recommend that the resolutions as proposed should be adopted by the Board of Estimate and Apportionment.

Respectfully,

EUG. E. McLEAN, Engineer.

NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY,
GRAND CENTRAL STATION,
NEW YORK, May 29, 1905.

Hon. GEORGE B. McCLELLAN, Chairman, Board of Estimate and Apportionment, City Hall, New York City:

DEAR SIR—I inclose to you herewith proposed deed of the portions of Depew place and of Forty-fourth street, which the City has agreed to grant to this company, and which this company has agreed to purchase for the sum of \$355,000; in accordance with the grant and agreement, dated April 28, 1905 (pages 16-17), a copy of which I inclose to you herewith.

Embodied in this proposed deed are forms of resolutions to be adopted by the Board of Estimate and Apportionment, and I send the same to you in order that appropriate action may be taken and that the proposed deed may be approved as to form by the Corporation Counsel.

Yours truly,
IRA A. PLACE, General Counsel.

This indenture, made the _____ day of _____ in the year one thousand nine hundred and five, pursuant to the provisions of an act of the Legislature of the State of New York, entitled "An Act to provide for further regulation of the terminals and approaches thereto of the New York and Harlem Railroad at and north of Forty-second street in The City of New York and of the public highway structures over said terminals and approaches and of the motive power to be used on said railroad," being chapter 425 of the Laws of 1903, in effect May 7, 1903, as amended by chapter 639 of the Laws of 1904, by and between The City of New York, party of the first part, and the New York Central and Hudson River Railroad Company, a railroad corporation duly organized and existing under the Laws of the State of New York, party of the second part, witnesseth:

That, Whereas, On the _____ day of _____, 1905, the Board of Estimate and Apportionment of The City of New York, adopted the following resolution:

Whereas, The New York Central and Hudson River Railroad Company, on the 23d day of December, 1904, pursuant to sections 5 and 8 of chapter 425 of the Laws of 1903, as amended by chapter 639 of the Laws of 1904, submitted to this Board plans and profiles showing modifications of the plans and profiles (approved by this Board on the 19th day of June, 1903, as modified by the plans and profiles approved by this Board on the 4th day of December, 1903), of the viaducts or bridges required to carry the streets from Forty-fifth street to Fifty-sixth street, both inclusive, and Park avenue, over the tracks of the New York and Harlem Railroad Company, and showing the portions of Forty-fifth street, Depew place, Vanderbilt avenue, Forty-third street and Forty-fourth street, the subsurface of which is required, and showing the portions of Forty-fourth street and Depew place, described as follows:

1. All that part of Forty-fourth street, sixty (60) feet in width, extending from the westerly line of Lexington avenue to the westerly line of Depew place.
2. All that part of Depew place fifty (50) feet in width, extending from the northerly line of Forty-third street to the southerly line of Forty-fifth street.
3. All that part of Depew place bounded and described as follows: Beginning at a point in the westerly line of Depew place, that is one hundred and twenty-one and eighty-three one-hundredths (121.83) feet distant northerly from the northerly line of Forty-second street and running thence easterly at right angles to said westerly line twelve (12) feet; thence northerly parallel to said westerly line thirty-five (35) feet; thence westerly at right angles to said westerly line twelve (12) feet, and thence southerly along said westerly line thirty-five (35) feet to the point or place of beginning.

The fee of which is required, and showing such portions of Forty-fourth street and Depew place as necessary and reasonably required for the proper operation of trains in and through the Fourth or Park avenue tunnel and in and upon the said terminals and the approaches thereto by some motive power other than steam, and the said Board of Estimate and Apportionment having approved said plans and profiles and having agreed with the said New York Central and Hudson River Railroad Company upon the sum of three hundred and fifty-five thousand dollars (\$355,000) as the compensation to be paid for the fee of said portions of said Forty-fourth street and Depew place, to be paid upon the execution and delivery of a deed or deeds thereof; now, therefore,

Resolved, That the grant of the said land and premises which The City of New York, acting by its Board of Estimate and Apportionment, is authorized and empowered to make to the said New York Central and Hudson River Railroad Company, in and by section 5 of chapter 425 of the Laws of 1903, shall be by a full covenant and warranty deed conveying the following described premises:

All those certain lots or pieces of land situate, lying and being in the Borough of Manhattan, in The City of New York, in the County of New York, and State of New York, bounded and described as follows:

1. All that part of Forty-fourth street, sixty (60) feet in width, extending from the westerly line of Lexington avenue to the westerly line of Depew place.
2. All that part of Depew place, fifty (50) feet in width, extending from the northerly line of Forty-third street to the southerly line of Forty-fifth street.
3. All that part of Depew place bounded and described as follows: Beginning at a point in the westerly line of Depew place, that is one hundred and twenty-one and eighty-three one-hundredths (121.83) feet distant northerly from the northerly line of Forty-second street and running thence easterly at right angles to said westerly line twelve (12) feet; thence northerly parallel to said westerly line thirty-five (35) feet; thence westerly at right angles to said westerly line twelve (12) feet, and thence southerly along said westerly line thirty-five (35) feet to the point or place of beginning.

Such conveyance shall be given by the City and accepted by the railroad company for the uses and purposes in accordance with the provisions of chapter 425 of the Laws of 1903, as amended by chapter 639 of the Laws of 1904; and be it further

Resolved, That the above resolution, after adoption by this Board, shall be presented to the Commissioners of the Sinking Fund for their approval, and that said deed shall be prepared by the Corporation Counsel and submitted to the Comptroller for his approval, and presented to the Mayor for his signature; and

Whereas, The Commissioners of the Sinking Fund did adopt a resolution approving of and concurring in the said resolution of the Board of Estimate and Apportionment, dated the _____ day of _____, 1905, above recited;

Now, therefore, the said party of the first part, in consideration of the sum of three hundred and fifty-five thousand dollars (\$355,000), lawful money of the United States, paid by the party of the second part, does hereby grant and release unto the said party of the second part, its successors and assigns forever, all those certain lots or pieces of land, situate, lying and being in the Borough of Manhattan, in The City of New York, in the County of New York and State of New York, bounded and described as follows:

1. All that part of Forty-fourth street, sixty (60) feet in width, extending from the westerly line of Lexington avenue to the westerly line of Depew place.
2. All that part of Depew place, fifty (50) feet in width, extending from the northerly line of Forty-third street to the southerly line of Forty-fifth street.
3. All that part of Depew place bounded and described as follows: Beginning at a point in the westerly line of Depew place, that is one hundred and twenty-one and eighty-three one-hundredths (121.83) feet distant northerly from the northerly line of Forty-second street, and running thence easterly at right angles to said westerly line twelve (12) feet; thence northerly parallel to said westerly line thirty-five (35) feet; thence westerly at right angles to said westerly line twelve (12) feet, and thence southerly along said westerly line thirty-five (35) feet to the point or place of beginning, together with the appurtenances and all the estate and rights of the said party of the first part in and to said premises.

To have and to hold the above granted premises unto the said party of the second part, its successors and assigns forever.

And the said party of the first part does covenant with the said party of the second part as follows:

- First—That the said party of the first part is seized of the said premises in fee simple, and has good right to convey the same.
- Second—That the party of the second part shall quietly enjoy the said premises.
- Third—That the said premises are free from incumbrances.
- Fourth—That the party of the first part will execute or procure any further necessary assurance of the title to said premises.
- Fifth—That the said party of the first part will forever warrant the title to said premises.

This conveyance is given by the party of the first part and accepted by the party of the second part, pursuant to and subject to the provisions of chapter 425 of the Laws of 1903, as amended by chapter 639 of the Laws of 1904.

In witness whereof, the said party of the first part has caused these presents to be subscribed by its Mayor and Comptroller, and the corporate seal of The City of New York to be thereunto affixed the day and year first above written.

Mayor.

Comptroller.

Approved as to form:

JOHN J. DELANY, Corporation Counsel.

Attest:

City Clerk.

State of New York, City of New York, Borough of Manhattan, ss.:

On this _____ day of _____, nineteen hundred and five, before me personally came P. Joseph Scully, with whom I am personally acquainted, and known to me to be the City Clerk of The City of New York, and who being duly sworn, says that he resides in said City of New York and is the City Clerk of said City; that he knows the corporate seal of the said The City of New York, and that the seal affixed to the foregoing instrument is such corporate seal, and that same is affixed thereto by due authority of said corporation, and that he signed his name as City Clerk by like authority. And further that deponent is acquainted with George B. McClellan and Edward M. Grout, and knows them to be respectively the Mayor and the Comptroller of The City of New York; that the signatures of the said George B. McClellan and Edward M. Grout subscribed to the foregoing instrument are in the genuine handwriting of the said George B. McClellan and Edward M. Grout and were thereto subscribed by like order of The City of New York and signed in the presence of said deponent.

The following was offered:

3. All that part of Depew place bounded and described as follows: Beginning at a point in the westerly line of Depew place, that is one hundred and twenty-one and eighty-three one hundredths (121.83) feet distant northerly from the northerly line of Forty-second street, and running thence westerly at right angles to said westerly line twelve (12) feet; thence northerly parallel to said westerly line thirty-five (35) feet; thence westerly at right angles to said westerly line twelve (12) feet; and thence southerly along said westerly line thirty-five (35) feet to the point or place of beginning.

Such conveyance shall be given by the City and accepted by the railroad company for the uses and purposes, in accordance with the provisions of chapter 425 of the Laws of 1903, as amended by chapter 639 of the Laws of 1904.

And be it further

Resolved, That the above resolution, after adoption by this Board, shall be presented to the Commissioners of the Sinking Fund for their approval, and that said deed shall be prepared by the Corporation Counsel and submitted to the Comptroller for his approval, and presented to the Mayor for his signature.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Richmond—15.

The Secretary presented a communication from the Consolidated Marine Engineer's Beneficial Association No. 33, relative to the wages paid to members of said association, employed in the Department of Charities and the Department of Correction.

The following resolution was offered:

Resolved, That copy of this communication be referred to the Commissioner of Charities and the Commissioner of Correction for their action or recommendation to this Board.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Richmond—15.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, recommending the approval and concurrence of the Board of Estimate and Apportionment in the resolution of the Board of Education, dated June 14, 1905, recommending that the title to the premises known as No. 592 East One Hundred and Forty-first street, Borough of The Bronx, be acquired, subject to the easement of the owner of the adjoining property on the west, known as No. 590 East One Hundred and Forty-first street, in and to said party or division wall, so long as said wall shall stand:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
June 16, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Education, at a meeting held June 14, 1905, adopted the following resolution:

"Resolved, That the title to the premises known as No. 592 East One Hundred and Forty-first street be acquired, subject to the easement of the owner of the adjoining property on the west known as No. 590 East One Hundred and Forty-first street in and to said party or division wall, so long as the said wall shall stand.

"Resolved, That the Board of Estimate and Apportionment be, and it is hereby, respectfully requested to adopt a resolution similar to the foregoing, in accordance with the advice of the Corporation Counsel."

It appears that the Board of Estimate and Apportionment, at a meeting held July 1, 1904, authorized condemnation proceedings for the acquisition of certain property on the north side of One Hundred and Fortieth street and the southerly side of One Hundred and Forty-first street, near Alexander avenue, Borough of The Bronx, for the use of the Board of Education, and from a survey of the premises it appears that the westerly wall of the premises, No. 592 East One Hundred and Forty-first street, Borough of The Bronx, which is within the area of the property authorized to be condemned, there is an eight-inch party wall, and the owner of the adjoining property has an easement in this party wall, which consists in the right to have the wall remain as a whole for the protection and benefit of the adjoining property.

The Corporation Counsel, in an opinion under date of May 25, 1905, states:

"If the easement is to be extinguished and the City vested with all the legal rights to remove or destroy the wall, the owner of said easement must be compensated for the damage he will sustain by reason of such removal, and which damage may be regarded as very large in proportion to the benefits resulting to the City by its obtaining the right to build on a few additional inches of land which it would acquire."

—and further states that the Board of Education shall adopt a resolution which should be concurred in by the Board of Estimate and Apportionment.

I believe that the interests of The City of New York will be best subserved if the property, No. 592 East One Hundred and Forty-first street, Borough of The Bronx, is acquired subject to the easement of the owner of the adjoining property on the west to the party wall now standing, and I would respectfully recommend that the Board of Estimate and Apportionment adopt a resolution, concurring in the request of the Board of Education.

Respectfully submitted for approval,
MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

Approved:

EDWARD M. GROUT, Comptroller.

To the Board of Education:

The Committee on Sites, which has under consideration the following communication:

"NEW YORK, May 25, 1905.

"Hon. HENRY N. TIFFT, President, Board of Education:

"SIR—It appears from a survey of the premises sought to be acquired in the school site on the northerly side of One Hundred and Fortieth street and the southerly side of One Hundred and Forty-first street, near Alexander avenue, in the Borough of The Bronx, and from the documentary evidence submitted to the Commissioners of Estimate and Appraisal, that the westerly wall of premises No. 592 East One Hundred and Forty-first street is an 8-inch party wall, and that the City, according to the survey, is to acquire to the centre of the wall.

"The premises No. 590 East One Hundred and Forty-first street has an easement in this party wall which consists in the right to have the wall remain as a whole for the protection and benefit of the adjoining property. If the easement is to be extinguished and the City vested with all of the legal rights to remove or destroy the wall the owner of such easement must be compensated for the damage he will sustain by reason of such removal and which damage may be regarded as very large in proportion to the benefits resulting to the City by its obtaining the right to build on the few additional inches of land which it would acquire.

"If it is not the intention of your Board to acquire said easement I would suggest the adoption of the following resolution as soon as possible:

"Resolved, That title to the premises known as No. 592 East One Hundred and Forty-first street be acquired, subject to the easement of the owner of the adjoining property on the west known as No. 590 East One Hundred and Forty-first street in and to said party or division wall so long as the said wall shall stand."

"If your Board should decide to adopt the resolution suggested by me I think it would be expedient to request the Board of Estimate and Apportionment to adopt a similar resolution.

"In view of the fact that the Commissioners of Estimate and Appraisal have made their preliminary report in this proceeding I would suggest that this matter be acted upon by your Board and by the Board of Estimate and Apportionment at as early a date as possible.

"Respectfully yours,

"JOHN J. DELANY, Corporation Counsel."

—respectfully submits for adoption the following resolutions:

Resolved, That title to the premises known as No. 592 East One Hundred and Forty-first street be acquired, subject to the easement of the owner of the adjoining property on the west known as No. 590 East One Hundred and Forty-first street in and to said party or division wall so long as the said wall shall stand.

Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to adopt a resolution similar to the foregoing, in accordance with the advice of the Corporation Counsel.

A true copy of report and resolutions adopted by the Board of Education June 14, 1905.

A. EMERSON PALMER, Secretary, Board of Education.

The following was offered:

Whereas, This Board at a meeting held July 1, 1904, authorized the institution of condemnation proceedings for the acquisition of certain property on the northerly side of One Hundred and Fortieth street and the southerly side of One Hundred and Forty-first street, near Alexander avenue, in the Borough of The Bronx, for the use of the Board of Education;

Whereas, It appearing that the owner of the property adjoining on the west of the property selected has an easement in the party wall which consists in the right to have the wall remain as a whole for the protection and benefit of the adjoining property;

Resolved, That the Board of Estimate and Apportionment hereby concurs and approves of the resolution of the Board of Education, under date of June 14, 1905, that the title to the premises known as No. 592 East One Hundred and Forty-first street, Borough of The Bronx, be acquired, subject to the easement of the owner of the adjoining property on the west, known as No. 590 East One Hundred and Forty-first street, in and to said party or division wall so long as said wall shall stand.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Richmond—15.

The Secretary presented the following communication from the President of the Borough of The Bronx, and report of the Engineer of the Department of Finance, relative to an appropriation to provide means for the improvement in the water supply system of The City of New York:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
June 2, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. John T. Oakley, Commissioner, Department of Water Supply, Gas and Electricity, in communication under date of May 16, 1905, transmits to the Board of Estimate and Apportionment report from the office of the Chief Engineer of the Department, showing the estimate of money required to carry out the improvements to the water supply system in the Greater City.

The Commissioner states that the proposed work affecting each borough is as follows:

Manhattan and The Bronx.....	\$3,665,000 00
Queens	230,000 00
Richmond	151,000 00
Brooklyn	5,090,000 00
Total	\$9,136,000 00

The Commissioner also requests the Board to authorize the issue of bonds to the amount of \$9,136,000, to provide means to carry out the improvements as noted in the Chief Engineer's report.

I would report:

First—Boroughs of Manhattan and The Bronx..... \$3,665,000 00

For convenience, I will eliminate some of the detailed items as shown in the Chief Engineer's report and divide the application into the following heads:

(a) One Hundred and Seventy-ninth Street Pumping Station—Enlarging and repairing certain appliances.....	\$255,000 00
(b) High Bridge Station—New boilers and engines, laying new mains in connection with enlarged pumping station.....	175,000 00
(c) 36-inch main from One Hundred and Seventy-ninth Street Pumping Station to Eighty-sixth street, Central Park.....	175,000 00
(d) Jerome Park Reservoir—New mains in order to use the reservoir when complete, one section could probably be used within a year....	2,285,310 00
(e) 48-inch main from Old Reservoir, Central Park, to Eighth avenue, south to West Tenth street.....	350,000 00
(f) Mains for local distribution.....	364,690 00
(g) Bronx, Byram Water Shed.....	60,000 00
Total	\$3,665,000 00

From a careful examination of these items, in consultation with the Chief Engineer and Consulting Engineer Birdsall, I am led to believe that all of these items are necessary and eventually will have to be done, in order to provide an adequate water supply; but I do not think that all the work can be contracted for within a year, and would suggest the following allowances, which, in my opinion, are urgent and should be started as soon as possible, viz.:

One Hundred and Seventy-ninth Street Pumping Station—Enlarging and repairing certain appliances.....	\$200,000 00
Jerome Park Reservoir—New mains, etc., in order to use the reservoir when completed	1,400,000 00
48-inch main from Old Reservoir, Central Park, to Eighth avenue, and on Eighth avenue south to Tenth street.....	350,000 00
Mains for local distribution.....	200,000 00
Total.....	\$2,150,000 00

Second—Borough of Queens..... \$230,000 00

Engineer's Estimate:

Extension of water mains, Third Ward.....	\$118,316 00
Extension of water mains, First Ward.....	111,684 00
Total	\$230,000 00

In the Engineer's estimate the number of houses on the proposed lines are given. While all lines may eventually be required, in my opinion, I think it will be sufficient at present to lay mains in streets, avenues and roads that have ten or more houses upon them. To provide for the laying of these mains, according to the Engineer's estimate, it would cost about \$100,000. I would recommend that this allowance be made.

Third—Borough of Richmond..... \$151,000 00

Engineer's estimate for additional water supply (City's plant) at Tottenville:

(a) New wells and an air-lift system complete, including all necessary air and water piping, air receiver and air compressor.....	\$20,000 00
(b) Two new pumping engines (low duty, triple type), each 1,500,000 gallons capacity	10,000 00
(c) Two new boilers, piping, etc.....	6,000 00
(d) New engine-house	12,000 00
(e) Drain through grounds.....	3,000 00
(f) Water mains	100,000 00
Total.....	\$151,000 00

In view of the contract authorized by the Board of Estimate and Apportionment to purchase water from the Hudson County Water Company of New Jersey to supply the Borough of Richmond with filtered water, and the authorization by the Board of \$1,500,000 to provide for the laying of mains upon the island, I would recommend that no action be taken upon this application at present.

Fourth—Borough of Brooklyn..... \$5,090,000 00

The Chief Engineer in his report says:

"After making due allowance for the appropriation granted in 1904, the following is an estimate of the work to be done and the probable cost of the same:"

1. New conduit from Massapequa to Ridgewood Reservoir.....	\$2,750,000 00
2. Remodelling Ridgewood engine-house.....	650,000 00
3. Extension of distribution	200,000 00
4. A driven-well plant within the borough limits, including a connecting main with the distribution system.....	275,000 00
5. Watts Pond infiltration gallery.....	100,000 00

6. Infiltration gallery at Oconee.....	200,000 00
7. Removing and relaying small tuberculated mains.....	200,000 00
8. Boundary trunk mains for the Mt. Prospect system.....	170,000 00
9. Trunk mains through the old Long Island water supply system in the Twenty-sixth Ward.....	70,000 00
10. Additional hydrants on existing large mains.....	50,000 00
11. Filter beds for Valley Stream.....	75,000 00
12. Filter beds for Shodack brook and Pines pond.....	50,000 00
13. Land on the watershed for protection from pollution.....	200,000 00
14. Coal sheds for the Millburn Pumping Station.....	100,000 00
Total estimated cost.....	\$5,090,000 00

I have taken up these items with the Chief Engineer and concur in his report that all of this work is necessary to provide for safely maintaining the water supply in an efficient and economical manner; but, in my opinion, a portion of the work may be deferred for an appropriation in 1906, and I would recommend the following be allowed at present:

New conduit from Massapequa to Ridgewood Reservoir.....	\$1,500,000 00
Remodeling Ridgewood engine house.....	650,000 00
Extension of distribution.....	200,000 00
A driven well plant within the borough limits, including a connecting main with distribution system.....	275,000 00
Infiltration gallery at Oconee.....	200,000 00
Removing and relaying small tuberculated mains.....	100,000 00
Boundary trunk mains for the Mount Prospect system.....	170,000 00
Trunk mains through old Long Island water supply system in the Twenty-sixth Ward.....	70,000 00
Additional hydrants on existing large mains.....	50,000 00
Filter beds for Valley Stream.....	75,000 00
Land on the watershed for protection from pollution.....	100,000 00
Total.....	\$3,390,000 00

In conclusion, if the financial condition of the City warrants the expenditure, I would recommend that the Board of Estimate and Apportionment authorize the Comptroller to issue Corporate Stock, pursuant to section 178 of the Amended Greater New York Charter, to the amount of five million six hundred and forty thousand dollars (\$5,640,000), to provide for the improvements of the water supply system in the Greater City, estimated as follows:

Manhattan and The Bronx.....	\$2,150,000 00
Queens.....	100,000 00
Brooklyn.....	3,390,000 00
Total.....	\$5,640,000 00

Respectfully,
EUG. E. McLEAN, Engineer.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,
COMMISSIONER'S OFFICE, NOS. 13 TO 21 PARK ROW,
CITY OF NEW YORK, MAY 16, 1905.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment, No. 280 Broadway, Manhattan:

DEAR SIR—Herewith is transmitted copy of report from the office of the Chief Engineer of this Department, showing the estimate of money required to carry out the improvements to the water supply system in the Greater City. I have carefully considered each item in this paper and deem the improvements contemplated by the Chief Engineer to be absolutely necessary.

The probable cost of the proposed work affecting each borough is as follows:	
Manhattan and The Bronx.....	\$3,665,000 00
Queens.....	230,000 00
Richmond.....	151,000 00
Brooklyn.....	5,090,000 00
Total.....	\$9,136,000 00

I request that your Honorable Board carefully examine this application and authorize the issue of bonds to the credit of this Department, for the above-named sum of money.

Very truly yours,
(Signed) JOHN T. OAKLEY, Commissioner.

Transmitted to Hon. Edward M. Grout for his information.

APRIL 11, 1905.

Hon. THOMAS R. FARRELL, Deputy Commissioner:

DEAR SIR—I am in receipt of letter addressed to you on January 9, 1905, by Mr. Joseph F. Prendergast, Secretary to the Department, in relation to the funds necessary for the maintaining and increasing the supply of water in the Borough of Brooklyn, and also a letter from the Secretary dated February 1, 1905, on the same subject.

Owing to the pressure of work, both in Brooklyn and the other boroughs, I have been unable to make the estimates at an earlier date.

In my letters of March 22, 1904, and July 9, 1904, I gave the following estimates of the works to be carried out and the probable cost:

Item.	Proposed Works.	Estimated Cost.
1.	Increased pumping and boiler capacity for Ridgewood, south side.....	\$70,000 00
2.	Extending and remodeling Ridgewood, north side.....	500,000 00
3.	Cross-connecting force mains leading from the Ridgewood engine-house to Ridgewood Reservoir.....	10,000 00
4.	Replacing existing small tuberculated mains and laying additional mains to remove dead ends on the Mt. Prospect and New Lots systems....	700,000 00
5.	Filter beds for Valley Stream.....	40,000 00
6.	Extension of distribution.....	300,000 00
7.	Additional hydrants on existing large mains.....	90,000 00
8.	Remodeling of New Lots Station.....	160,000 00
9.	Remodeling of Spring Creek Station.....	175,000 00
	Total estimated cost.....	\$2,045,000 00

The total amount allowed the Borough of Brooklyn during the year was \$920,000, which is to be applied to carrying out Items 1 and 8, and a portion of the work under Items 2, 4, 6 and 7.

After making due allowance for the appropriation granted in 1904, the following is an estimate of the work to be done, and the probable cost of the same, to provide for safely maintaining the water supply in an efficient and economical manner:

Item.	Proposed Works.	Estimated Cost.
1.	New conduit from Massapequa to Ridgewood Reservoir.....	\$2,750,000 00
2.	Remodeling Ridgewood engine-house.....	650,000 00
3.	Extension of distribution.....	200,000 00
4.	A driven-well plant within the borough limits, including a connect- ing main with distribution system.....	275,000 00
5.	Watts Pond Infiltration Gallery.....	100,000 00
6.	Infiltration gallery at Oconee.....	200,000 00
7.	Removing and relaying small tuberculated mains.....	200,000 00
8.	Boundary trunk mains for the Mount Prospect system.....	170,000 00
9.	Trunk mains through the old Long Island water supply system in the Twenty-sixth Ward	70,000 00
10.	Additional hydrants on existing large mains.....	50,000 00
11.	Filter beds for Valley Stream.....	75,000 00
12.	Filter beds for Schodack brook and Pine's pond.....	50,000 00
13.	Land on the watershed for protection from pollution.....	200,000 00
14.	Coal sheds for the Millburn Pumping Station.....	100,000 00
	Total estimated cost.....	\$5,090,000 00

The above schedule covers most of the items which were asked for in 1904, and for which no provision has been made.

Item No. 3 in 1904 schedule has been omitted, as the new force main has, to a great extent, done away with the need of this work.

Item No. 9 in 1904 schedule has been omitted in order to reduce as much as possible the amount of the appropriation required for this year, although the work contemplated at the Spring Creek Station under the omitted item would add to the efficiency and economy of the system.

The schedule of works required for this year have been arranged in the order of their relative importance. All the items asked for are essential to enable us to provide the necessary supply to meet the requirements of the consumers and to protect its purity.

Item 1—New conduit from Massapequa to Ridgewood Reservoir..... \$2,750,000 00

In my letter of March 22, 1904, I called attention to the necessity of an additional conduit and stated:

"In addition to the work outlined above, there will be required not later than next year additional conduit capacity, both for the eastern and western watersheds, and it will probably prove to be economical to have this conduit constructed to withstand a pressure sufficient to pump the water directly into the Ridgewood Reservoir."

At that time it was hardly expected that there would be such a high increase in the consumption as has been shown during the past winter, and as a consequence of which in December the reservoirs within the City limits steadily fell even with the old brick conduit and the two 48-inch cast iron pipe lines forced to their maximum capacity with the normal pressure at Millburn. This capacity was about 118,000,000 gallons per day. By putting one of the 48-inch mains under an increased pressure, by running the two new Worthington engines at the Millburn station at their maximum capacity, we were able to raise the delivery of the conduits to about 125,000,000 gallons per day. Even with this increased supply, we were, during the cold weather, unable to meet the demands of the consumers and had to draw from the stored water in the Ridgewood reservoir. With the end of severe winter weather we fortunately succeeded, however, in again raising the level in the Ridgewood basins. The conduit line east of Millburn delivered a little over 60,000,000 gallons per day, and was run at practically its maximum safe capacity. The brick conduit on the old water shed was run up to the limit of its capacity between Hempstead Storage Reservoir and the Jamaica Terminal Gate House, just below the Jameco Pumping Station. From this point to the Ridgewood Engine House the conduit is of much larger section and could carry an additional supply. This additional conduit capacity at the west end of the line can be utilized to carry the additional supply needed to help out the system during the high consumption of the coming summer and next winter, but as it will take nearly two years to complete the proposed pipe conduit we must have it under contract before the end of this summer so that we will be able to utilize it for the consumption during the winter of 1906 and 1907. For the winter of 1905 and 1906 we will have to depend upon the additional available conduit capacity between Ridgewood and Jameco and develop the stations on this part of the water shed. The gravity of the situation that would be caused were there delay in granting this appropriation, is, I think, amply shown by the facts stated above, so that this work is the most important of any to be taken up in connection with the supply for the Borough of Brooklyn. It is proposed to use 48-inch steel pipe at the east end of the line, and to make the greater part of the pipe 60 inches in diameter. The amount of water derived from the infiltration galleries will determine the relative advantages of starting the pipe line at Massapequa or at Wantagh. The appropriation asked for is sufficient to commence the line at Massapequa and the laying of the line to this point may be found to be advisable also in connection with the possible extension of the system into Suffolk County.

The work to be done under this appropriation could be completed in about 18 months from the time of commencement.

Item 2—Remodeling Ridgewood Engine House..... \$650,000 00

One hundred and ninety-five thousand dollars was apportioned for this work last year, of the \$920,000 appropriated during the year. This amount will be needed for the buildings and the additional amount is required for two 15,000,000 gallon engines for the Mount Prospect service, two 20,000,000 gallon engines for the Ridgewood Reservoir service, ten boilers and the necessary piping, pump wells, conduit connections, etc. It is expected to remove the old beam engine which was installed nearly forty years ago. With the present equipment at Ridgewood it has been extremely difficult to keep up the supply during the winter months and all of the engines have been kept in constant service, it only being possible to stop any engine long enough to make repairs which were absolutely necessary to prevent the complete breaking down of the engine.

The engines installed in the south side plant in 1891 and 1893 are worn out and require very large expenditures for repairs. They are uneconomical, and after the

installation of the new engines on the north side would be gradually replaced as required.

The new engines for the Mount Prospect Station would enable us to shut down the Mount Prospect Station, and thus secure a yearly saving of about \$35,000 which, capitalized at 3 per cent., would represent \$1,180,000. The force main to utilize these engines has been laid, and is now in service on the Mount Prospect Reservoir.

In my report of last year I based the appropriation requested on the use of centrifugal units connected to steam turbines, and as our experience and the experience of other water works has not indicated that this type of machine would prove economical in this case, the estimated cost of remodeling has been made so as to cover the cost of installation of high duty crank and flywheel engines and pumps.

The work to be done under this appropriation could be completed in about eighteen months from the time of beginning of same.

Item 3—Extension of distribution..... \$200,000 00

The work to be done in the extension of distribution is constantly increasing with the rapid growth of the borough, and the amount asked for will only provide a small amount in excess of the cost of the small mains required in those streets in which buildings will be commenced, and in which no mains have yet been laid. The balance will be used for laying trunk mains which must be installed to provide an adequate supply of water for fire purposes and avoid the difficulties hitherto encountered owing to lack of such provision.

The work to be done under this appropriation could be completed in about one year from the time of making the appropriation.

Item 4—A driven well plant within the borough limits, including a connecting main with the distribution system..... \$275,000 00

The condition of the supply has already been given under Item 1, and as at least one winter and possibly two winters will pass before we can complete the new pipe conduit, it will be necessary to utilize all possible sources of supply lying west of the Jameco Pumping Station.

There are within the borough limits locations where a plant to utilize the underground supply can be installed and continue in operation probably for ten to fifteen years. The cost of the water delivered into the distribution system from such a plant is about one-half of the cost of our Ridgewood system, as there are no expensive works to construct to carry the water from the point of supply to the distribution system, and, furthermore, the water is pumped only once and then by high duty engines, making the cost very low. The estimated cost includes everything necessary to complete the plant and put it in operation, together with the connecting main necessary to deliver the water into the distribution system. The plant could be constructed in about one year after commencing the work.

A driven well station is proposed, instead of an infiltration gallery, on account of the lower cost of the well station and the probable short life of the station, both on account of the development of the borough and the expectation of receiving the increased supply from up State sources.

Item 5—Watts Pond infiltration gallery..... \$100,000 00

In 1902 an appropriation was granted of \$200,000 for filter beds at Hempstead. Only about \$15,000 of this money was utilized for filter beds on the Hempstead valley and about \$60,000 was utilized for filter beds at Forest Stream.

There will be about \$15,000 more required for additional filter beds in the Hempstead valley, leaving available, in round figures, about \$100,000 out of this appropriation. It is expected to use this balance, together with the appropriation now asked, to construct an infiltration gallery at Watts Pond, the gallery running easterly to the crossing of the Merrick road and the conduit line, and westerly to the Rosedale railroad station. By the construction of this gallery the Watts Pond and Clear Stream stations would be consolidated, with the resultant economy of having only one crew instead of two crews, and a much larger supply of water obtained than is now pumped at the two stations.

The present Watts Pond station is about 27 years old, and is in a very poor condition, making it expensive to operate.

The Clear Stream Pumping Station pumps about 2,500,000 gallons per day, and the expense of operation is high, on account of the small amount of water pumped.

The new station could be completed in about one year from the date of commencing work.

Item 6—Infiltration gallery at Oconee..... \$200,000 00

In order to fully develop the water shed between Jameco and Spring Creek, it is proposed to lay an infiltration gallery from Jameco to the salt meadow swamp at Hawtree Creek Gate House, the total distance being about 10,000 feet.

The central station would be located where the present Oconee station is located, and this station would utilize the underground flow both above and below the clay bed. Its construction would enable us to do away with the Baiseleys and Shetucket Pumping Stations, to increase largely the amount of water now supplied by Baiseleys, Oconee and Shetucket stations and to reduce the salary expense about 50 per cent.

The water would be delivered into the conduit in the section where we have additional carrying capacity, even under present conditions, and would be of great aid in enabling us to tide over the period which must elapse before the completion of the new pipe conduit.

This station would be completed in about one year from the time of commencing work, but it could be in use so as to give an additional supply within six months after commencing work.

Item 7—Removing and relaying small tuberculated mains..... \$200,000 00

The necessity of this work has been repeatedly stated in previous reports, and while about \$700,000 has already been expended in the work it will require several times this amount to complete the work and put the distribution system in such a condition that its efficiency from a fire standpoint cannot be reasonably questioned. Our experience of the past year, during which time about 20 miles of old mains were removed and relaid, showed the absolute necessity of replacing the old mains laid previous to 1860. These mains were laid without any protective coating, and the rust tubercles have grown so that in the 6-inch pipe there is not, as a rule, a clear waterway equal to that in a 2-inch pipe. It is absolutely impossible to expect a flow of water through such a main of sufficient volume to provide for fire protection.

The amount asked for would be used in about nine months from the commencement of work, and this work should go on uninterruptedly until all the tuberculated mains have been replaced.

Item 8—Boundary trunk mains for the Mount Prospect system..... \$170,000 00

In my report on bond issues for last year I requested an appropriation for boundary trunk mains for this system, as the present method of forming the boundary is simply shutting the gates between the high and low service. This forms numerous dead ends, which are a source of annoyance to our citizens, and complaints are frequent of the condition of the water in these dead ends.

The distribution system supplied by the Mount Prospect service was not laid out with proper provision for distribution of water for fire service, and the proposed boundary mains would be of sufficient size to remedy this defect. There are at present about 160 dead ends connected with the Mount Prospect system which will be done away with by the proposed boundary mains. The boundary mains would also prevent the leakage from the high to the low service, which increases the amount of water which has to be pumped under a high head.

The work to be done under this appropriation could be completed in about nine months after the contracts were let.

Item 9—Trunk mains to the old Long Island water supply system in the Twenty-sixth Ward..... \$70,000 00

The majority of the mains in the Twenty-sixth Ward were laid by the Long Island Water Supply Company, and, as is usually the case, the company did not lay the mains of sufficient size to provide for adequate fire protection. The largest main in the section is a 16-inch main, with a few thousand feet of 12-inch cross-connecting mains. It is proposed to lay 24 and 20-inch mains through this territory, cross-connected to the existing mains, and thus furnish an adequate supply for fire purposes, as well as provide sufficient pressure to meet the demands of the consumers.

Item 10—Additional hydrants on existing large mains..... \$50,000 00

I requested last year an appropriation of \$90,000 for this work, but on account of the reduction in the amount allowed I have been able to apply only \$40,000 to this work. The work consists of cutting in connections for improved double-nozzle fire hydrants on the existing 20 and 30-inch mains in the borough. In past years no hydrant connections were made on the mains larger than 12 inches in diameter, and these proposed hydrants would greatly improve the supply, from a fire standpoint, in the vicinity of the streets through which the large mains are laid. Under these conditions the supply would be such that three (3) engines could draw from each hydrant if the Fire Department deemed it advisable to connect up this number of engines to any one hydrant. The work could be done in about five months after the contract was awarded.

Item 11—Filter beds for Valley Stream..... \$75,000 00

The water supply from the Valley Stream Pond is liable to dangerous contamination and will only be safe after it has been filtered. The plan provides for filter beds connected to the pump well of the proposed infiltration gallery at Watts Pond. The filters would be slow sand filters, and the annual cost of filtering would be very small under these circumstances. These filters could be completed in about nine months after letting contracts.

Item 12—Filter beds for Schodack brook and Pines pond..... \$50,000 00

These filters are needed for the same reasons as given for the Valley Stream beds, and upon their completion we would not be deriving any unfiltered surface supply from the old watershed. With the exception of the supply from the Hempstead Storage Reservoir, Hempstead Pond and Smith's Pond, the supply from these sources is not open to contamination, as the City owns the land surrounding the ponds, and also land extending for a considerable distance on each side of the stream leading into the ponds, with the single exception of the stream between Pines pond and Smith's pond, and steps are about to be taken to acquire lands along this stream. The feeder for the Hempstead Storage Reservoir has been entirely cut off for some time, and its waters are filtered through the Hempstead filter beds, and the supply for the Storage Reservoir is derived from the springs and underground water flowing in through the sides of the reservoir. The beds to be provided for could be constructed in about nine months after the contracts were let.

Item 13—Land on watershed for protection from pollution..... \$200,000 00

With the comparatively rapid growth of population on our watershed, it is necessary to purchase land to prevent sources of pollution, which are offensive to the eye and detrimental to the purity of the supply and to the health of our citizens in this borough. The land is rapidly increasing in value, and while it would be advisable to purchase all the land immediately bordering on the streams which form part of our supply, this action would require an appropriation of several million dollars. It is, therefore, proposed to purchase at present only those plots of land which have on them sources of dangerous pollution, and those which seem likely in the future to prove dangerous. We will continue our surveys of the land to be acquired on all the streams and gradually acquire the necessary land to give reasonable protection. The supply from these streams will have to be filtered, and with filtered water the zone of protecting lands need not extend more than 200 feet each side of the stream.

Item 14—Coal shed for Millburn pumping station..... \$100,000 00

This station, which pumps 60,000,000 gallons daily, and is next to our largest station in the system, has absolutely no means of protecting the coal from the weather, or of storing it, except on the open ground. The cost of handling coal under these conditions is excessive, and the coal is not kept in a condition to give good results when fed to the boilers. It is proposed to erect brick coal sheds, with coal handling appliance, so as to reduce the cost of handling the coal and provide adequate covered storage room. There is probably not in the whole country a plant of equal size and importance which does not have some means for handling and storing its coal supply. This work could be completed in about eight months from the time of letting the contracts.

Balance on Previous Appropriations.

In my letter of July 9, 1904, I called attention to the balance left under Water Construction, Borough of Brooklyn, from the appropriation of \$1,000,000 made for the additional pipe conduit. The balance consists of about \$150,000, and if it were available it would be utilized for the extension of distribution, or other construction work. I would, therefore, renew my recommendation that it be definitely decided whether this balance is available, or can be made available for the work.

There is also a bond issue amounting to \$500,000, authorized for the repairs of the Millburn Reservoir. Under the recent system of developing the water shed the utility of this reservoir is more than ever remote and questionable. In my opinion, it would not be advisable, therefore, to attempt any further work on the Millburn Reservoir. It would seem possible to cancel the original authorization for this work and to utilize the additional \$500,000 for the important work now required to be done.

Work for Which Appropriations Were Not Asked, but Which Must be Taken Up in the Near Future.

As has previously been stated, no appropriations have been asked for before this year for the remodeling of the Spring Creek Station, but this work should be taken up as soon as the necessary funds are authorized.

The additional infiltration galleries will be required, and possibly the additional conduits to connect some of the infiltration galleries on the old water shed directly with the Ridgewood Reservoir. The pumping plants provided for the infiltration galleries at Wantagh and at Massapequa are only for pumping directly into the brick conduit under a low head. It will be necessary to install permanent fireproof buildings with high duty engines and pumps to force the water from the galleries directly into the Ridgewood Reservoir. Appropriations for this work would be required next year.

The Forest Park Reservoir would add to the safety of the supply by having a large quantity of water stored within the City limits, but the construction of this reservoir is not as important as the works for which appropriations have been requested. As within the next two or three years the water shed will develop to its maximum capacity, it is time to take steps to determine the possibility of entering Suffolk County for the purpose of obtaining a supply therefrom. The determination of the right of the City to secure such a supply has never been brought to an issue, and a test case should be made unless some suitable agreement can be made with the county officials.

As the pipe lines and other works required to utilize any supply from this county could not be built in less than about two years, and as the decision on the legal questions involved might require an equal length of time, it can readily be seen that prompt action should be taken if any definite results are to be reached in time to enable Brooklyn to avail itself of the waters of Suffolk County by the time such an additional supply will be required.

I have not made any request for appropriations to purchase the plants of private companies within the borough limits, but these plants should be purchased so that the system may be developed harmoniously in all parts of the borough.

Respectfully yours,

(Signed) I. M. DE VARONA, Acting Chief Engineer.

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
MUNICIPAL BUILDING, CROTONA PARK,
June 7, 1905.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman Board of Estimate and Apportionment:

DEAR SIR—I beg to call your attention to the constant complaints of the lack of Croton water in certain section of the Borough of The Bronx, and I would respectfully request that an additional appropriation of at least one million dollars (\$1,000,000) be allowed the Department of Water Supply, Gas and Electricity for the purpose of providing water-mains for the supply of the sections of the Borough of The Bronx which are now without the necessary water supply.

Yours truly,

LOUIS F. HAFFEN,
President of the Borough of The Bronx.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 178 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to the amount of five million six hundred and forty thousand dollars (\$5,640,000) to provide means for the improvement of the water supply system of The City of New York, as set forth in said section 178 of the Charter, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding five million six hundred and forty thousand dollars (\$5,640,000), the proceeds whereof to be applied to the purposes aforesaid, and apportioned as follows:

Boroughs of Manhattan and The Bronx.....	\$2,150,000 00
Borough of Queens.....	100,000 00
Borough of Brooklyn.....	3,390,000 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Richmond—15.

The Secretary presented a communication from the President of the Borough of Manhattan and communication from the Superintendent of Buildings of said borough, relative to an additional appropriation of \$61,000 for the proper conduct of the Bureau of Buildings in the Borough of Manhattan for the balance of the year 1905; also communication from the President of the Borough of Brooklyn, requesting an additional appropriation of \$25,000 for the same purpose in the Borough of Brooklyn.

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,
CITY HALL, JUNE 23, 1905.

JAMES W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—Herewith is submitted for the consideration of the Board of Estimate and Apportionment an application from the Superintendent of the Bureau of Buildings for an additional appropriation of funds to be used for the purpose of increasing the force of Inspectors of his Bureau, and also for the purpose of increasing the salaries of the present force of Inspectors, Chief Inspector, Engineers and Assistant Engineers. The new laws recently passed by the Legislature, known as the Raines and Ambler Laws, require the co-operation of the Bureau of Buildings with the Excise Department in the work of enforcing the provisions of these laws. Additional funds, therefore, should be provided to enable the Superintendent of Buildings to employ a sufficient force of Inspectors in order that he may co-operate, in a substantial manner, with the Excise Department in this work without in any way diminishing the regular work of his Bureau.

The amount of money required for the year 1906 to properly equip the Bureau of Buildings with a sufficient force of Inspectors to discharge the duties imposed upon it by the enactment of these new laws and for the purpose of increasing the salaries of the present force of Inspectors, etc., will approximate \$122,000. To permit the Bureau to assist the Excise Department in this work from July 1 to December 31, 1905, about \$61,000 will be required.

Yours respectfully,

JOHN F. AHEARN, President.

CITY OF NEW YORK,
OFFICE OF THE SUPERINTENDENT OF BUILDINGS FOR THE BOROUGH OF MANHATTAN,
No. 220 FOURTH AVENUE,
June 22, 1905.

Hon. JOHN F. AHEARN, President of the Borough of Manhattan:

DEAR SIR—The enforcement of the new laws, known as the Raines and Ambler Laws, requires the services of this Bureau, in connection with the Excise Department. I find that a great amount of additional work is imposed upon us by these laws. With the large amount of regular work, this Bureau finds itself very much in need of additional help. During the past five months this Bureau has had more work to do than in any previous five months during the past ten years, and I am therefore obliged to appeal to you for the following additional help:

- 10 Inspectors of Masonry and Carpentry,
- 8 Inspectors of Iron and Steel Construction,
- 10 Elevator Inspectors,
- 5 Plumbing Inspectors,

—at \$1,800 per annum, which will amount to \$59,400.

Further, I would ask for an increase in pay of the present one hundred Inspectors from \$1,200 to \$1,800, amounting to \$60,000.

I also ask you to increase the salaries of the Chief Engineer from \$3,000 to \$4,000, and the four Assistant Engineers from \$2,250 to \$2,400; Chief Inspector of Buildings from \$3,000 to \$4,000. Making a total increase of \$122,000.

Our appropriation for this year was \$235,050. With the additional help and increase, this Bureau would want for the ensuing year on the foregoing basis \$357,050.

In view of the work ahead for this Bureau, which is increasing daily, and with the desire to carry out the laws and ordinances to the satisfaction of the public, and knowing from experience that good results cannot be obtained for any less money or with any less men than this letter asks for, I hope it will receive your favorable attention.

ISAAC A. HOPPER,
Superintendent of Buildings, Borough of Manhattan.

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,
BROOKLYN, JUNE 24, 1905.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment:

DEAR SIR—I am directed by the President of the Borough to request that a supplemental appropriation of twenty-five thousand dollars (\$25,000) be made for the use of the Bureau of Buildings in the Borough of Brooklyn, to provide for the appointment of additional Clerks and Inspectors. The necessity for this additional appropriation is due to the tremendous increase of building operations in Brooklyn, which indicate that seventy million dollars (\$70,000,000) will be spent in this borough this year. This extraordinary increase of building operations has doubled the demands upon the working force of the Bureau of Buildings, and created a condition which calls for immediate consideration. Superintendent Collins' report for the quarter ending March 31, 1905, shows that there were in progress 7,189 new buildings and 2,808 alterations. The Board of Estimate and Apportionment appropriated the sum of \$157,725 for said Bureau for the year 1905, although in the preliminary estimate submitted by the Superintendent he urgently requested the sum of \$170,750 for the said year. Unless this appropriation is made the work of the Bureau will be retarded, and grave risk incurred of damage or disaster due to lack of thorough and frequent inspection of buildings while under construction, and it will be difficult to hold Inspectors to strict account for the work assigned to them in their districts.

The President of the Borough is therefore constrained to respectfully urge that this matter be given proper consideration.

Yours respectfully,

DENIS A. JUDGE, Private Secretary.

The following resolution was offered:

Resolved, That the Commissioners of Accounts be requested, through the Mayor, to analyze the present appropriations for the Bureau of Buildings in the different boroughs and to make comparative statements, and report to this Board.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Richmond—15.

The Secretary presented a communication from the President of the Borough of Brooklyn, requesting authority to award a contract for repaving with asphalt block, Broadway and Havemeyer street to Lafayette avenue in the Borough of Brooklyn, to the Brooklyn Alcatraz Asphalt Company, they being other than the lowest bidder. Referred to the Engineer of this Board to report at the next meeting.

The Board adjourned to meet Friday, June 30, 1905, at 10.30 o'clock a. m.

J. W. STEVENSON, Secretary.

FIRE DEPARTMENT.

ANNUAL REPORT, 1904—NEW YORK FIRE DEPARTMENT RELIEF FUND.

New York, June 1, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, City Hall, City of New York:

Sir—We, the undersigned members of the Auditing Committee of the Pension and Relief Funds of the Fire Department, City of New York, appointed by your honor on the 7th day of February, 1905, do hereby certify that we have examined the books, accounts and securities of the said fund for the year 1904, and find the same correct to the best of our knowledge and belief, as per annual report made by the Fire Commissioner as Trustee and Treasurer of said fund to your honor, pursuant to chapter 466, section 789, paragraph 8, Laws of 1901.

We find the bonds and Corporate Stocks described in Schedule "A" of the Commissioner's Annual Report to be deposited at the Garfield safe deposit vaults, Masonic Building, northeast corner of Sixth avenue and Twenty-third street, Borough of Manhattan.

June 16, 1905.

HOWDEN TILE COMPANY, No. 41 West Twenty-fourth Street, City:

Gentlemen—Your proposal of June 13, 1905, to furnish and set three-fourths-inch ceramic white tiling, with white and blue key border, the pattern being similar to the work we are now setting in the Cumberland Street Hospital; the work to be set on the floor of the dressing room, size being 11 feet 7 inches by 10 feet 10 inches, in the fourth story in the Cumberland Street Hospital, Cumberland street, Borough of Brooklyn, including the taking up of the present wood flooring, deafening and concreting, for the sum of seventy-five dollars (\$75), and to omit the flooring and tile base under stairs to second floor, as specified in the specifications and included

in your proposal of May 4, 1905, and the agreement entered into on May 18, 1905, for furnishing labor and material required to lay tile flooring in various rooms and corridors in the Cumberland Street Hospital, Borough of Brooklyn; it being understood that the work can be done while your men are now employed doing the other tile work in the building, is accepted, and you are hereby notified to proceed with the work.

By direction of the Commissioner.

Yours truly,
J. McKEE BORDEN, Secretary.

CORPORATION SALE OF REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction, on

WEDNESDAY, JULY 19, 1905.

at 12 o'clock m., at the Comptroller's office, No. 280 Broadway, Borough of Manhattan, City of New York, all the right, title and interest of The City of New York in and to the following-described property, which it has by virtue of a lease from Cornelius Ferguson, Supervisor of the Town of New Utrecht, to the City of Brooklyn, which lease is recorded in the Register's office of the County of Kings, in Liber 1715 of Conveyances, page 143, in and to all those certain lots as mentioned and described in the following-described parcels:

All those certain lots known as and by the numbers 146, 147, 148 and 149, designated on a certain map filed in the Register's office of Kings County, known as Map 1, Fort Hamilton Village, which were sold on September 6, 1884, for 100 years, to the Town of New Utrecht, as follows:

Lot Nos.	Amount Sold For.	Interest to Date of Sale.	Total.
146	\$10 96	\$44 91	\$64 87
147	19 96	44 91	64 87
148	19 96	44 91	64 87
149	3 15	7 09	10 24
			\$204 85

The minimum or upset price at which the interest of the City in and to the said premises to be sold is appraised and fixed by the Commissioners of the Sinking Fund at two hundred and four dollars and eighty-five cents (\$204.85).

The purchaser, in addition thereto, to pay the auctioneer's fee on such sale, and also to pay the further sum of one hundred dollars (\$100) for the expense of examination, advertising, etc. The sale of the said premises is to be made on the following

TERMS AND CONDITIONS.

The highest bidder will be required to pay the full amount of his bid or purchase money, and the \$100 on each parcel, as above provided for, and also the auctioneer's fee at the time of sale. The quit-claim deed for the above-described premises to be delivered within thirty days from the date of sale.

The Comptroller may, at his option, resell the property if the successful bidder shall fail to comply with the terms of the sale, and the person failing to comply therewith will be held liable for any deficiency which may result from any such resale.

The right to reject any bid is reserved.

By order of the Commissioners of the Sinking Fund, under resolution adopted at a meeting of the Board held June 26, 1905.

EDWARD M. GROUT,
Comptroller.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court and the entering in the Bureau for the Collection of Assessments and Arrears, of assessments for OPENING AND ACQUIRING TITLE to the following-named streets in the BOROUGH OF QUEENS:

FIFTH WARD.

A NEW STREET, between BAYVIEW AVENUE and BELMONT AVENUE, from THE BOULEVARD TO THE SOUTHERLY LINE OF THE NEW YORK AND ROCKAWAY BEACH RAILWAY. Confirmed March 30, 1905, and entered June 23, 1905. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.: Beginning at the point of intersection of a line parallel to and 100 feet southerly from the southerly line of the Boulevard with the easterly line of Holland avenue; running thence northerly along the easterly line of Holland avenue to its intersection with the southerly shore of Jamaica Bay; thence easterly along the southerly shore of Jamaica Bay and a line parallel to and 100 feet northerly from the northerly line of the right of way of the New York and Rockaway Railway to its intersection with the westerly line of Grove avenue; thence southerly along the westerly line of Grove avenue to its intersection with a line parallel to and 100 feet southerly from the southerly line of the Boulevard; thence westerly along said parallel line to the point or place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

The above-entitled assessment was entered on the date hereinafter given in the Record of Titles of Assessments kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of entry of the assessments, interest will be collected thereon as provided in section 1016 of the Greater New York Charter.

Said section provides that, "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment, to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, at the Hackett Building, No. 51 Jackson avenue, Long Island City, Borough of Queens, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. until 12 m., and all payments made thereon on or before August 22, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

CORPORATION SALE OF REAL ESTATE.

BRYAN L. KENNELLY, AUCTIONEER.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on

FRIDAY, JUNE 30, 1905.

at 12 o'clock m., at the New York Real Estate Salesroom, Nos. 14 and 16 Vesey street, the following described real estate, belonging to the corporation of The City of New York, and located in the Borough of Manhattan, viz.:

All those certain lots of land, with the improvements thereon erected, bounded and described as follows:

Beginning at a point on the westerly side of Elm street distant 25 feet northerly from the

northwesterly corner of Elm street and Leonard street; running thence westerly parallel with Leonard street 45 feet 9 inches; thence northerly 25 feet; thence again westerly 43 feet 6 inches; thence northerly 30 feet 9 inches; thence again westerly 5 feet; thence again northerly 19 feet 3 inches; thence easterly 5 feet; thence again northerly 25 feet; thence easterly 90 feet to the westerly side of Elm street; and thence southerly along the westerly side of Elm street 100 feet to the point or place of beginning, be the said several dimensions more or less. The minimum or upset price at which said property shall be sold is hereby fixed at seventy thousand dollars (\$70,000).

The sale of the said premises is made upon the following

TERMS AND CONDITIONS:

The highest bidder will be required to pay ten (10) per cent. of the purchase money and the auctioneer's fee immediately after the sale; thirty (30) per cent. upon the delivery of the deed within thirty days from the date of sale; and the balance, sixty (60) per cent. of the purchase money, or any portion thereof, may remain at the option of the purchaser, on bond and mortgage for five years, with interest at the rate of six per centum per annum, payable semi-annually, the mortgages to contain the customary thirty days' interest and ninety days' tax and assessment and insurance clauses.

The bond and mortgage may be paid off at any time within the term thereof on giving thirty days' notice to the Comptroller, or it may be paid by installments of not less than five thousand dollars on any day when the interest is due, or on thirty days' notice. The bond and mortgage will be prepared by the Counsel to the Corporation, and the sum of twelve dollars and fifty cents will be charged for drawing, acknowledging and recording each separate mortgage. If more than one lot of land is included in any mortgage, the whole mortgage must be paid off before any release can be given by the corporation, as a release of any part of the premises included in a mortgage to the corporation is forbidden by law.

The Comptroller may, at his option, resell the property if the successful bidder shall fail to comply with the terms of the sale, and the party who may fail to comply therewith will be held liable for any deficiency that may result from any such resale.

The right is reserved to reject any and all bids. Maps of said real estate may be seen on application at the Comptroller's Office, Stewart Building, No. 280 Broadway, Borough of Manhattan.

By orders of the Commissioners of the Sinking Fund, under resolutions adopted at meetings of the Board held April 24, 1905, and June 7, 1905.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held Friday, June 2, 1905, the following petition was received:

WILLIAM C. TRULL, ATTORNEY AND COUNSELOR AT LAW, No. 26 LIBERTY STREET, MUTUAL LIFE BUILDING, NEW YORK, June 2, 1905.

The Honorable the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—On behalf of the New York and Port Chester Railroad Company, I herewith submit its petition for the assent of your Honorable Body to the construction and operation of its railroad across the streets intersected by its route within the limits of The City of New York.

Respectfully yours,
WILLIAM C. TRULL.

In the Matter of
The petition of the New York and Port Chester Railroad Company.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The petition of the New York and Port Chester Railroad Company respectfully shows and avers upon information and belief:

First—It is a domestic corporation duly incorporated under the laws of the State of New York for the purpose of constructing and operating a railroad of the standard gauge, to be built upon and through a private right of way to be acquired by the company, crossing all streets, avenues, highways and railroads intersected by its route above or below the grade thereof as may be determined by the Board of Railroad Commissioners or other lawful authority.

Second—The said railroad is to be operated by electricity or other motive power authorized by law, except locomotive steam power.

Third—Such railroad is to be built, maintained and operated upon and along a main route commencing at or near the intersection of East One Hundred and Thirty-second street and Willis avenue in the Borough of The Bronx in The City of New York; running thence in an easterly and northeasterly direction through the said Borough of The Bronx, as hereinafter more specifically described, and the cities, towns and villages of Mount Vernon, Pelham, New Rochelle, Larchmont, Mamaroneck, Rye and Port Chester in the County of Westchester to the boundary line between the State of New York and the State of Connecticut; also upon and along a branch route commencing at a point in the aforesaid main route at or near the intersection of the Bronx river and Westchester avenue; running thence in a southeasterly direction to Clason's Point on the East river.

Fourth—The route of said railroad crosses and intersects the following streets and avenues in The City of New York, to wit:

Beginning at a point at or near the intersection of the easterly line of Willis avenue with the northerly line of East One Hundred and Thirty-second street, in the Borough of The Bronx; thence crossing the Southern Boulevard near its intersection with Willis avenue, and thence running parallel to the Southern Boulevard to Brown place; also running from said point of beginning to the Southern Boulevard at a point between Willis avenue and Brown place; thence crossing the Southern Boulevard to join the line above described, in order to form a loop; thence crossing Brown place and Brook avenue, between the Southern Boulevard and East One Hundred and Thirty-fourth street; thence crossing the Southern Boulevard between Brook avenue and St. Ann's avenue; thence crossing St. Ann's avenue, between the Southern Boulevard and East One Hundred and Thirty-second street; thence running approximately parallel with the Southern Boulevard to its junction with Whitlock avenue, at or near East One Hundred and Forty-second street, and crossing Cypress avenue, East One Hundred and Thirty-third street, East One Hundred and Thirty-fourth street, East One Hundred and Thirty-fifth street, East One Hundred and Thirty-sixth street, East One Hundred and Thirty-seventh street, Willow avenue, East One Hundred and Thirty-eighth street, East One Hundred and Thirty-ninth street, East One Hundred and Fortieth street, East One Hundred and Forty-first street, the Southern Boulevard, Whitlock avenue and East One Hundred and Forty-second street; running thence northerly approximately parallel with Whitlock avenue to its intersection with Westchester avenue, and running between Austin place and Whitlock avenue, and between the Southern Boulevard and Whitlock avenue, and between Longfellow street and Whitlock avenue, and crossing East One Hundred and Forty-third street, St. Joseph's street, East One Hundred and Forty-ninth street, Austin place, Timpon place, Leggett avenue, East One Hundred and Fifty-sixth street, Longwood avenue, Lafayette avenue, Tiffany street, Barretto street, Hunt's Point road, Hoe street, Faile street, Bryant street, Longfellow street, Aldus street, Guttenberg street; thence crossing Westchester avenue, Home street, Freeman street, Boone street, West Farms road and Jennings avenue, between Boone street and West Farms road; thence running northerly approximately parallel with Boone street to its intersection with East One Hundred and Seventy-sixth street, between Boone street and West Farms road, crossing East One Hundred and Seventy-third street, East One Hundred and Seventy-fourth street; thence crossing Boone street, West Farms road, East One Hundred and Seventy-sixth street and Rodman place; thence crossing West Farms road, near its intersection with the Boston Post road, and again crossing West Farms road, or Oremont avenue, near its intersection with the Bronx river; thence crossing East One Hundred and Seventy-ninth street, Lebanon street, East One Hundred and Eightieth street, Bronx Park avenue to the southeastern corner of Bronx Park, and running thence approximately parallel with Morris Park avenue to its intersection with Bear Swamp road, and crossing East One Hundred and Eighty-first street, the northerly branch of West Farms road, Unionport road, Victor street, Washington street, Louise street, Lincoln street, Jefferson street, Madison street and Bear Swamp road or Bronxdale avenue; thence crossing Williamsbridge road approximately 2,400 feet southeast of Bronx and Pelham parkway; thence crossing Bronx and Pelham parkway approximately 2,100 feet east of its intersection with Williamsbridge road; thence running thence northerly between Williamsbridge road and Eastchester road, crossing Saw Mill lane, near its intersection with Eastchester road; thence crossing Eastchester road or Corsa lane, between Boston Post road and Saw Mill lane; thence crossing Boston Post road, near its easterly intersection with Schieffelin's lane, and across Schieffelin's lane, near its easterly intersection with Boston Post road; thence northerly to the city line.

Also a branch line beginning at a point on the main line above described at or near the southeastern corner of Bronx Park, crossing Bronx Park avenue, East One Hundred and Eightieth street, East One Hundred and Eighty-first street, Lebanon street, Morris Park avenue at or near its intersection with West Farms road, and crossing West Farms road at or near its intersection with Morris Park avenue, Southern turnpike or Westchester turnpike or avenue, at or near its intersection with Clason's Point road, and crossing Clason's Point road near its intersection with the Southern turnpike or Westchester turnpike or avenue; thence running approximately parallel with the Clason's Point road to the East river.

Fifth—The Board of Railroad Commissioners of the State of New York has duly granted your petitioner a certificate that public convenience and necessity require the construction of said railroad.

Sixth—The corporation of the City of Mount Vernon and the corporation of the City of New Rochelle have duly granted their assent to the construction of said railroad across the streets and avenues in said cities intersected by the proposed route.

Seventh—The Supreme Court of the Second District, at a Special Term thereof has duly made an order upon due notice, authorizing the construction of said railroad across the streets, avenues and highways intersected by its proposed route in the Village of Port Chester, Town of Rye, Village of Mamaroneck, Town of Mamaroneck, Village of Larchmont and Village of Pelham, in the County of Westchester.

Wherefore your petition prays that the assent of your Honorable Board of the Corporation of The City of New York be granted to it to construct, maintain and operate its railroad across said streets, avenues and highways, either above or below the grade thereof in manner and form as may be determined by the Board of Railroad Commissioners of the State of New York, or other lawful authority, and that an ordinance or resolution to that effect be adopted.

NEW YORK AND PORT CHESTER RAILROAD COMPANY,
By FRANCIS BLANCHARD,
Secretary.

City and County of New York, ss.:

Francis Blanchard, being duly sworn, says that he is the Secretary of the New York and Port Chester Railroad Company, the petitioner herein. The foregoing petition is true of his own knowledge, except as to the matters therein stated to be alleged upon information and belief, and as to those matters he believes it to be true.

That the reason why this verification is made by deponent, and not by the petitioner, is because the petitioner is a domestic corporation of the State of New York, and the deponent is Secretary of said corporation.

FRANCIS BLANCHARD.

JUNE 8, 1905.

CITY OF NEW YORK—BOARD OF ESTIMATE AND APPOINTMENT.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held Friday, June 2, 1905, the following petition was received:

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The petition of the Southern Boulevard Railroad Company respectfully shows:

First—Your petitioner is a street surface railroad corporation, duly organized and existing under the Laws of the State of New York, and has duly filed, pursuant to section 90 of the Railroad Law, a statement of the extensions or branches of its road herein proposed.

Second—Your petitioner desires to obtain from The City of New York, and hereby respectfully applies for its consent to, and a grant of the franchise or right to use certain streets, roads, avenues, highways, boulevards, driveways, parkways and public grounds within and belonging to The City of New York, for the construction and operation in, through, upon and along the surface thereof of double or single track street surface railways (including the necessary connections, switches, sidings, turnouts, turntables, crossovers and suitable stands and other structures necessary for the accommodation and operation of said railroad, by the overhead or other system of electricity or other motive power which may lawfully be employed upon the same) as extensions or branches of its existing road and for public use in the conveyance of persons and property for compensation, the following being a description of said certain streets, roads, avenues, highways, boulevards, driveways, parkways and public grounds within or belonging to said The City of New York, to wit:

(1) Beginning at and connecting with the tracks of the Southern Boulevard Railroad Company and the tracks of the Union Railway Company of New York City, at their intersection in the Boston road at the intersection of the Southern Boulevard and East One Hundred and Seventy-fourth street with said Boston road; running thence northerly in, through, upon and along the said Southern Boulevard to its intersection with East One Hundred and Eighty-second street; thence westerly and northerly in, through, upon and along said East One Hundred and Eighty-second street to its intersection with Crotona avenue; thence northerly and northerly in, through, upon and along said Crotona avenue to and connecting with the franchise route of the Union Railway Company of New York City, at the intersection of said Crotona avenue with Pelham avenue; all in the Borough of The Bronx, in the City, County and State of New York.

The said extension, as it winds and turns, crosses the following highways, avenues, streets and public places, etc.: Boston road, Crotona Park, East; East One Hundred and Seventy-fifth street, East One Hundred and Seventy-sixth street, Fairmount place, Elmsire place, East One Hundred and Seventy-seventh street (or Tremont avenue), East One Hundred and Seventy-eighth street, Mohegan avenue, East One Hundred and Seventy-ninth street, Marmon avenue, East One Hundred and Eightieth street, East One Hundred and Eighty-first street, Mape avenue, Prospect avenue, Clinton avenue, Garden street, Grote street, East One Hundred and Eighty-third street, East One Hundred and Eighty-fourth street and East One Hundred and Eighty-ninth street; all in the Borough of The Bronx, in the City, County and State of New York.

(2) Beginning at and connecting with the tracks of the Southern Boulevard Railroad Company at the intersection of the Southern Boulevard, East One Hundred and Thirty-fourth street and Cypress avenue; running thence southerly in, through, upon and along said Cypress avenue to its intersection with East One Hundred and Thirty-second street; thence westerly in, through, upon and along said East One Hundred and Thirty-second street to its intersection with St. Ann's avenue; thence northerly in, through, upon and along said St. Ann's avenue to and connecting with the tracks of the Southern Boulevard Railroad Company at the intersection of the Southern Boulevard and St. Ann's avenue, all in the Borough of The Bronx, in the City, County and State of New York.

The said extension, as it winds and turns, crosses the following highways, avenues, streets and public places, etc.: East One Hundred and Thirty-third street, all in the Borough of The Bronx, in the City, County and State of New York.

(3) Beginning at and connecting with the tracks of the Southern Boulevard Railroad Company at the intersection of the Southern Boulevard

and Leggett avenue; running thence easterly or southeasterly in, through, upon and along said Leggett avenue to its intersection with Garrison avenue, all in the Borough of The Bronx, in the City, County and State of New York.

The said extension, as it winds and turns, crosses the following highways, avenues, streets and public places, etc.: Whitlock avenue (or street), all in the Borough of The Bronx, in the City, County and State of New York.

(4) Beginning at and connecting with the tracks of the Southern Boulevard Railroad Company at the intersection of the Southern Boulevard and the Hunt's Point road; running thence southerly or southeasterly in, through, upon and along the said Hunt's Point road to its intersection with the westerly approach to the Hunt's Point Road Bridge over the tracks of the Harlem River Division of the New York, New Haven and Hartford Railroad Company; thence easterly or southeasterly in, through, upon and along the said westerly approach to said bridge, and upon, over, across and along said bridge and in, through, upon and along the easterly approach to said bridge to the intersection of said bridge with the Hunt's Point road; thence easterly or southeasterly in, through, upon and along the said Hunt's Point road to its intersection with Garrison avenue, all in the Borough of The Bronx, in the City, County and State of New York.

The said extension, as it winds and turns, crosses the following highways, avenues, streets and public places, etc.: Whitlock avenue (or street), all in the Borough of The Bronx, in the City, County and State of New York.

Provided, and it is hereby understood, that whenever in the description of the routes of the aforesaid extensions and branches of the said Southern Boulevard Railroad Company the names of highways, avenues, streets and public places to be crossed by said extensions and branches are omitted because such highways, avenues, streets and public places are at present unnamed or unlocated or not established by The City of New York, the said highways, avenues, streets and public places shall nevertheless be deemed to have been properly described.

Third—Said corporation proposes to operate said extensions or branches by the overhead electric trolley system, substantially similar to that now in use on its other lines, or by power, other than locomotive steam power, which may be approved by the State Board of Railroad Commissioners and consented to by the owners of property bounded on the same, as provided by law.

Wherefore, your petitioner prays that public notice of the time and place when this application will first be considered be given as required by the provisions of section 92 of the Railroad Law, and that your Honorable Board will set a date or dates for a public hearing thereon as provided by section 74 of the Greater New York Charter, as amended by chapter 630 of the Laws of 1905, and as may be required or provided by all other laws applicable thereto, and that the desired consent or grant be embodied in the form of a contract, with all of the terms and conditions as to compensation and otherwise, in accordance with the provisions of the Greater New York Charter.

Dated THE CITY OF NEW YORK, May 31, 1905.
[SEAL] SOUTHERN BOULEVARD RAILROAD COMPANY.

By EDWARD A. MAHER, President.

Attest:

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held Friday, June 2, 1905, the following petition was received:

To the Honorable Board of Estimate and Apportionment of The City of New York:

The Atlantic Telephone Company, a corporation duly organized and existing under and by virtue of the provisions of Article VIII. of the Transportation Corporations Law of the State of New York, entitled "Telegraph and Telephone Corporations," hereby makes application to your Honorable Board for the franchise or privilege set forth in the proposed ordinance, which is hereto annexed and made a part of this application, and respectfully request that the said proposed ordinance be granted to your petitioner.

Dated New York, May 31, 1905.
[SEAL] ATLANTIC TELEPHONE COMPANY,
By JOSHUA D. POWERS, President.

Attest:
ARTHUR B. LA FAR,
Secretary.

State of Kentucky, County of Jefferson, ss.:

On the 31st day of May, 1905, before me personally came Joshua D. Powers, to me known, who, being duly sworn, did depose and say that he resides in the City of Louisville, Jefferson County, State of Kentucky; that he is the President of the Atlantic Telephone Company, the corporation described in and which executed the above instrument; that he knew the seal of said corporation; that the seal affixed to such instrument was such corporate seal; that it was so affixed by order of the Board of Directors of such corporation, and that he signed his name thereto by like order, and that it is the intention of the said corporation to carry on the business of conducting and distributing electricity for telephone and telegraph purposes (or say, "to carry on the business of constructing, maintaining and operating telephone, telegraph and telerograph systems by electricity"), as set forth in said proposed ordinance in the territory therein described.

In witness whereof, I have hereto affixed my official signature as a notary public in and for the County of Jefferson and State of Kentucky, and my official seal is hereto attached.

[SEAL] E. H. MATTHEWS,
Notary Public, Jefferson County, Ky.

My commission expires March 10, 1908.

State of Kentucky, County of Jefferson, ss.:

I, W. J. Semonin, Clerk of the County Court of Jefferson County, in the State of Kentucky, the same being a court of record, do hereby certify that E. H. Matthews, by whom the foregoing affidavit was taken, and whose name is subscribed thereto, was, at the time of taking the same, a notary public residing in said County, duly commissioned and sworn, and authorized by the law of said State to take the proof or acknowledgment of deeds and other instruments in writing, and to administer oaths or affirmations in said County; and that I am well acquainted with his handwriting, and verily believe that the signature to the foregoing certificate is his genuine signature.

In witness whereof, I have hereunto set my hand and affixed my official seal, which is the seal of said County Court at Louisville, this 31st day of May, 1905.

[SEAL] W. J. SEMONIN,
Clerk, Jefferson County Court, Kentucky.

AN ORDINANCE granting to the Atlantic Telephone Company the right or franchise to lay, erect and construct in, upon and along the streets and highways and public places in The City of New York, wires or other conductors, etc., for the purpose of carrying on a general telephone, telegraph and telerograph business.

Be it Ordained by the Board of Estimate and Apportionment of The City of New York as follows:

Section 1. The Board of Estimate and Apportionment of The City of New York hereby grants to the Atlantic Telephone Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to lay, erect, construct and maintain suitable wires or other conductors with the necessary poles, pipes, conduits and appliances in or over, across and under the streets, avenues, highways, parks and public places within the territory comprised in the Borough of Manhattan, the Borough of the Bronx, the Borough of Brooklyn, the Borough of Queens and the Borough of Richmond, and each of them as now constituted (or within the limits of The City of New York), for the following objects or purposes, to wit, for conducting and distributing electricity in the operation of telephone, telegraph and telerograph lines within the territory bounded as aforesaid.

Sec. 2. The grant of this franchise is subject to the following terms and conditions:

First—The right, privilege and franchise herein granted shall be held and enjoyed by said Atlantic Telephone Company, its lessees, successors

or assigns, for a term of twenty-five years from the date when this ordinance is signed by the Mayor, with the privilege of renewal of said grant or franchise for a further period of twenty-five years upon a fair revaluation of said right, privilege and franchise. Such revaluation shall be made in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment, or its successors in authority; one disinterested freeholder shall be chosen by the Atlantic Telephone Company, its successors or assigns; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation without the presence of either party. They shall have the right to examine the books of the Atlantic Telephone Company. The valuation so ascertained, fixed and determined shall be conclusive upon both parties.

Second—The Atlantic Telephone Company shall not make a charge for telephone service within the Borough of Manhattan, in The City of New York, in excess of the following rates, namely: (a) Five cents per call where there is no guarantee by a subscriber to pay a fixed sum per annum.

(b) Sixty-six dollars (\$66) per annum for unlimited service where the telephone instrument is located in a private residence.

(c) One hundred and eight dollars (\$108) per annum for unlimited service where the telephone instrument is located in a place of business.

Third—Payment for this franchise shall be made to The City of New York by the Atlantic Telephone Company, its successors or assigns, in the manner following: It shall pay to the said City of New York for the first two years a sum equal to one per centum; for the next three succeeding years a sum equal to two per centum, and for the remaining twenty years thereafter a sum equal to four per centum, upon the gross sum received by the said Atlantic Telephone Company during said years for telephone, telegraph or telerograph service rendered to its commercial or domestic customers within the territory bounded as aforesaid, and the Atlantic Telephone Company shall furnish and install in the various municipal offices, for the use of City employees, free telephones to a number not to exceed five hundred telephones; that the telephone service of such telephones shall be free. The aforesaid sum shall be paid into the Treasury of The City of New York on November 1 in each year; provided, however, that the first payment shall only be made for that portion of the above sum as the time from the signing of this ordinance by the Mayor to September 30 next preceding shall bear to the whole of one year. The fiscal year shall end on September 30 next preceding said date of payment.

Fourth—The said Atlantic Telephone Company, its successors or assigns, shall maintain the business for which it was incorporated, and construct, maintain and operate its wires, conductors, poles, pipes, conduits and appliances in, on, over, across and under the streets, avenues, public parks and places within the territory above described, under the supervision and control of all of the authorities of The City of New York who have jurisdiction in such matters under the Charter of said City.

Fifth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this grant may be forfeited, and avoided by The City of New York by a suit brought by the Corporation Counsel of said City at the request of the Board of Estimate and Apportionment.

Sec. 3. This grant shall not become operative until said Atlantic Telephone Company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York within ten days after the adoption of this ordinance.

Sec. 4. This ordinance shall take effect immediately.

—and the following resolutions were thereupon adopted:

Whereas, The foregoing petition from the Atlantic Telephone Company, dated May 31, 1905, was presented to the Board of Estimate and Apportionment at a meeting held the 2d day of June,

Resolved, That, in pursuance of law, this Board sets Friday, the 30th day of June, 1905, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, in the Borough of Manhattan, as the time and place when and where such petition shall be first considered and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published at least twice in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the City Record immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

FIRST DEPARTMENT.

CITY AND COUNTY OF NEW YORK.

In the matter of the application of Charles H. T. Collis, Commissioner of Public Works of The City of New York, for an on behalf of the Mayor, Aldermen and Commonalty of The City of New York, relative to acquiring certain pieces or parcels of land, and the title thereto, wherever the same has not been heretofore acquired, for the use of the public, for the purposes of sewerage and drainage, pursuant to section 327 of chapter 410 of the Laws of 1882, as amended by chapter 423 of the Laws of 1888, and chapter 31 of the Laws of 1892, from Amsterdam avenue at Fort George to the Harlem river, in the Twelfth Ward of The City of New York.

PUBLIC NOTICE IS HEREBY GIVEN that we, the undersigned, Arthur H. Masten and Emanuel Blumenstiel, were duly appointed Commissioners of Estimate and Assessment in the above-entitled matter, by an order of the Supreme Court duly made and filed in the office of the Clerk thereof, in the City and County of New York, on the 15th day of February, 1898, and the undersigned, George A. Carroll, was also duly appointed a Commissioner of Estimate and Assessment herein by an order of the Supreme Court duly made and filed in the office of the Clerk thereof on the 24th day of April, 1905.

That we have severally duly taken and subscribed the oath required by title 5 of chapter 16 of chapter 410 of the Laws of 1882, and

section 327 of said chapter 410 of the Laws of 1882, as amended by chapter 423 of the Laws of 1888, and chapter 31 of the Laws of 1892, and chapter 17, title 4, of the Greater New York Charter as amended, and the acts or parts of acts supplementary thereto or amendatory thereof, which said oaths so taken and subscribed as aforesaid were duly filed in the office of the Clerk of the City and County of New York on the 18th day of May, 1905.

A brief statement of the purposes for which we have been appointed is as follows:

We are to ascertain and appraise the compensation to be made to the owners and all persons interested in the lands shown upon a certain plan for the sewerage and drainage of a certain sewerage district in The City of New York, laid out by the Commissioner of Public Works of said City of New York and known and designated as Sewerage District No. 28, duly filed by the said Commissioner on the 28th day of October, 1897, in the office of the Board of Aldermen and in the office of the Comptroller of The City of New York, which said land is shown in red color on a map attached to the petition of said Commissioner of Public Works for the appointment of Commissioners of Estimate and Assessment to acquire the right and title for the use and convenience of the public, to said pieces and parcels of land for the purposes of sewerage and drainage, namely:

Beginning at a point on the easterly side of Fort George avenue 211.46 feet north of the first point of curve north of One Hundred and Ninetieth street, and running northeasterly at an angle of 126 degrees 43 minutes 43 seconds to the westerly line of Amsterdam avenue extended 101.59 feet; thence southeasterly at right angles 16 feet; thence northeasterly and in the same direction as the first course 256.70 feet to the westerly line of the Harlem River Driveway; thence northeasterly along the westerly side of said driveway 30.13 feet; thence southeasterly parallel to and 30 feet distant from the last course but one 299.45 feet; thence southeasterly at right angles 6 feet; thence southeasterly parallel to and 18 feet distant from the first described course to the easterly side of Fort George avenue; thence along said easterly side of Fort George avenue 18.28 feet back to the point or place of beginning.

All the parties and persons or claimants interested in the land taken for the public use above mentioned, or affected thereby, are hereby notified and required to present any claim or demand on account thereof to us, the undersigned, Commissioners of Estimate and Assessment, duly verified, with such affidavits or other proofs in support thereof as the said parties and persons or claimants, so interested as aforesaid, may desire, at our office, Room No. 1522 Atlantic Building, No. 49 Wall street, in the City of New York, within twenty days after the date of this notice. We hereby set the fourteenth day of July, 1905, at 4 o'clock P. M., at said Room No. 1522 Atlantic Building, No. 49 Wall street, in the City of New York, as the time and place when and where the said parties and persons or claimants will be heard in relation thereto by us as said Commissioners, and at such time and place, and at such further or other time and place as we may appoint, we will hear such parties, persons or claimants, and examine the proofs submitted by them or such additional proofs and allegations as may then be offered by such parties, persons or claimants, or on behalf of The City of New York.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening BEDFORD AVENUE, from a point on the Eastern parkway, where said Bedford avenue is already opened, and extending in a southerly direction to Flatbush avenue, in the Twenty-fourth and Twenty-ninth Wards, in the Borough of Brooklyn, of The City of New York, as the same has been heretofore laid out.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all

houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate of damage and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objection thereto, do present their said objections in writing, duly verified, to us, at our office, in the office of the Law Department, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 8th day of July, 1905, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 11th day of July, 1905, at 3 o'clock P. M.

Second—That the abstract of our said estimate of damage, together with our damage maps and area of assessment as last laid out by us, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings of the Law Department of The City of New York, in the Borough of Brooklyn, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, there to remain until the 19th day of July, 1905.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, to wit:

Beginning at a point on the northerly side of Montgomery street distant 250 feet easterly of the easterly line of Bedford avenue; running thence southerly and parallel with Bedford avenue to the northeasterly side of Flatbush avenue; running thence northwesterly along the northeasterly side of Flatbush avenue to a point distant 250 feet westerly of the westerly side of Bedford avenue; running thence northerly and parallel with Bedford avenue to the northerly side of Montgomery street; running thence easterly and along the northerly side of Montgomery street to the point or place of beginning.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court-house, in the Borough of Brooklyn, in The City of New York, on the 16th day of October, 1905, at the opening of the Court on that day.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
