Resolved, further, That such ordinance be and hereby is referred to the Board of Estimate and Apportionment for the purpose of making inquiry as to the money value of the franchise or right proposed to be paid therefor, in accordance with the provisions of section 74 of the Greater New York Charter.

AN ORDINANCE granting to the Union Railway Company of New York City the right or franchise to construct and operate a street surface railway as an extension of its existing railway in, upon and along the surface of certain streets, avenues and highways, and to, upon and across a bridge and viaduct constructed in and owned and maintained by The City of New York.

Be it Ordained by the Board of Aldermen of the City of New York, as follows:

Section 1. The Board of Aldermen of The City of New York hereby grants to the Union Railway Company of New York City, subject to the conditions and provisions hereinafter set forth, the franchise or right to extend its railway and to use the streets, avenues, highways, bridge and viaduct of the City, and to construct, maintain and operate a double-track street surface railway, as an extension of its existing railway for street railway purposes in the conveyance of persons and property, in, upon and along the following-named streets, avenues, highways, bridge and viaduct, viz.:

Commencing at the intersection of Jerome and Sedgwick avenues at the terminus of the tracks of this company's Jerome avenue line; thence upon and along the westerly approach, known as the Sedgwick avenue approach, formerly called Ogden avenue approach, to Central or Macomb's Dam Bridge; thence southerly upon and along said bridge and the One Hundred and Fifty-fifth Street Viaduct and Macomb's Dam road to the terminus of the railway of the Eighth Avenue Railroad Company, between West One Hundred and Fifty-fourth and West One Hundred and Fifty-fifth streets; also from the intersection of said Central or Macomb's Dam Bridge and the One Hundred and Fifty-fifth Street Viaduct; thence westerly upon and along said viaduct to the station, depot or terminus of the Manhattan Elevated Railway Company, situated between said bridge and Bradhurst avenue, together with the necessary connections, switches, sidings, turn-outs, turn-tables, cross-overs and suitable stands necessary for the accommodation and operation of said railroad by the overhead system of electricity or any other motive power which may be lawfully employed upon the same; all in the boroughs of Manhattan and The Bronx, City, County and State of New York. The phrases "said railroad" or "said railway" hereinafter used shall be construed to mean the railroad constructed under this ordinance.

Sec. 2. The grant of said franchise or right to use said streets, avenues, highways, bridge and viaduct is made subject to the following conditions:

First—The consent in writing of the owners of half in value of the property bounded on said streets, avenues, highways, parkways and public places to the construction and operation of said railroad shall be obtained by the grantee, or in the event that such consent cannot be obtained, the grantee shall obtain the favorable determination, confirmed by the Court, of three Commissioners, appointed by the Appellate Division of the Supreme Court, in the manner provided by the Railroad Law, before said railroad is built or operated.

Second—The said right, privilege and franchise to construct and operate said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right, privilege and franchise. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railroad by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successor or assigns. It shall be in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successor in authority; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder. The three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last five years of the original franchise.

Third—Upon the termination of said franchise or right, whether original or renewed, the plant and property of the grantee, its successor or assigns, in such streets, avenues and highways, and upon such bridge and viaduct, with its appurtenances constructed under this ordinance shall be and become the property of The City of New York upon the repayment to the grantee of the fair value of the said plant and property constructed in the streets and on the bridge and its approaches and on the viaduct under this ordinance, which valuation shall be the fair value thereof as property, excluding any value derived from the franchise, and such value shall be determined by the Board of Estimate and Apportionment or its successors in authority.

Fourth—The said Union Railway Company of New York City, its successors or assigns, shall pay into the Treasury of The City of New York for this franchise the following sums of money: During the first term of five years an annual sum which shall in no case be less than \$4,000, and which shall be equal to three per cent. of the gross annual receipts of the railroad constructed under this ordinance, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of \$4,000; during the next five years of the term an annual sum which shall in no case be less than \$4,500, and which shall be equal to five per cent. of the gross annual receipts of the railroad constructed under this ordinance computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of four thousand five hundred dollars; during the next five years of the term an annual sum which shall in no case be less than \$5,000, and which shall be equal to five per cent. of the gross annual receipts of the railroad constructed under this ordinance, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of \$5,000; during the next five years of the term an annual sum which shall in no case be less than \$5,500, and which shall be equal to five per cent. of the gross annual receipts of the railroad constructed under this ordinance, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of \$5,500; during the last five years of the term, an annual sum which shall in no case be less than \$6,000, and shall be equal to five per cent. of the gross annual receipts of the railroad constructed under this ordinance, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of \$6,000, and the terms hereafter to be fixed for any renewal term of such franchise shall not be less than \$6,000 per annum, and no renewal of the franchise shall provide for a further renewal.

Such sums shall be paid into the Treasury of The City of New York on November 1 in each year after the commencement of the operation of any portion of the said railroad, provided, however, that the first payment shall only be for that proportion of the above sum as the time of commencement of operation of any portion of the said railroad, before September 30 next preceding, shall bear to the whole of one year. The fiscal year shall end on September 30 next preceding said date of payment, and the provisions of the Railroad Law, as it now exists or as it may hereafter be amended, relating to the manner of payments and statements of percentages of gross receipts of street railway companies shall, as to said railroad, be strictly followed. The intention of this paragraph is to fix an annual charge to be paid by the grantee, its successors or assigns, to The City of New York for the rights and franchise hereby granted, and it shall not be construed as providing for the payment by the grantee, its successors or assigns, for said franchise of a percentage of gross receipts within the meaning of any general or special statute, referring particularly to chapter 340 of the Laws of 1892.

Fifth—The said annual charge or payments shall continue throughout the whole term of the franchise hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for street railway rights or franchises at a different rate, and no

assignment, lease or sublease of the rights or franchise hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives, so far as this franchise is concerned, any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this grant.

Sixth—The rights and franchises granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Union Railway Company of New York City, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—The said railway may be operated by overhead electrical power substantially similar to the system of overhead electrical traction now in use by the Union Railway Company, or by the underground electric system now in use by the Metropolitan Street Railway Company, and by any other motive power except locomotive steam power or horse power which may be approved by the Board of Railroad Commissioners, and consented to by the owners of property in accordance with the provisions of the Railroad Law.

Eighth—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York, who have jurisdiction in such matters under the Charter of the City.

Ninth—Said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of said company shall be maintained in good condition throughout the term of this grant.

Tenth—The rate of fare for any passenger upon said railway shall be five cents, and said company shall not charge any passenger more than said sum for one continuous ride from any point on said railway or a line or branch operated in connection therewith to any point thereof, or of any connecting line or branch thereof, within the limits of The City of New York. The rates for the carrying of property over said railroad upon the cars of the grantee shall in all cases be reasonable in amount and shall be subject to the control of the Board of Estimate and Apportionment, or its successor in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successor or assigns, and no greater sums shall be charged for such services than provided for by it.

Eleventh—The cars on said railroad shall run at intervals of not more than ten minutes from 6 o'clock a. m. to 8 o'clock p. m., and at intervals of not more than twenty minutes from 8 o'clock p. m. to 6 o'clock a. m. of each day, and as much oftener as the reasonable convenience of the public may require or as may be directed by City ordinance.

Twelfth—The said railway company shall apply to each car run over said railway a proper fender and wheel guard in conformity to such laws and ordinances as are now in force or may hereafter be enacted or adopted by the State or City authorities.

Thirteenth—All cars on said railway shall be heated through the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and each car shall be well lighted either by the Pintsch gas system or by electricity, or by some system of lighting equally efficient.

Fourteenth—The said company shall at all times keep the streets, bridge and viaduct upon which said railroad is constructed, between its tracks, and for a distance of two feet beyond the rails upon either side of said streets, free and clear from ice and snow.

Fifteenth—The said railway company, as long as it shall continue to use any of the tracks upon said streets, avenues, highways, parkways, public places, bridge or viaduct, upon which said railroad is constructed, shall have and keep in permanent repair that portion of the surface of said streets, avenues, highways, parkways, bridge and viaduct, between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. And The City of New York shall have the right to change the material or character of the pavement of any street, highway, parkway, public place, bridge and viaduct upon which said railroad is constructed, and in that event the grantee, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper city officer at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Sixteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this grant may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the said railway company.

Sec. 3. This grant is also upon the further and express condition that the provisions of article 4 of the Railroad Law applicable thereto, and all laws or ordinances now in force or which may be adopted affecting the surface railroads operating in The City of New York, shall be strictly complied with as to said railroad.

Sec. 4. This grant is upon the express condition that the use of the said railroad, including the tracks, wires and other equipment constructed upon the Central or Macomb's Dam Bridge and its approaches, and upon the One Hundred and Fifty-fifth Street Viaduct, and upon the Macomb's Dam road, as above set forth, and within a distance of 1,000 feet from the end of such approaches to said bridge and viaduct, shall be granted by the Union Railway Company of New York City, its successors or assigns, to any other person or corporation to which The City of New York may have granted or may hereafter grant the right or franchise to use such bridge or approaches or viaduct for street railway purposes, upon payment of an annual sum which shall not exceed the legal interest on one-half the cost of the construction of such railway and its approaches, as aforesaid, and the actual cost of the power necessary for the operation of the cars of such person or company thereon, and one-half the cost of maintenance of the tracks, wires and other equipment of the Union Railway Company used by the said grantee, including the paving and cleaning of streets from ice and snow, and all the other duties imposed upon the Union Railway Company in connection with the maintenance of the portion of said railroad used by said grantee. The grant of this franchise shall not affect in any way the right of The City of New York to grant a similar franchise upon the same or other terms and conditions over the same streets, avenues, highways, bridge, approaches and viaduct upon which said railroad is constructed, to any other person or corporation, and such persons and companies shall have the right to make all track and other connections which may be requisite and necessary to connect with the tracks of the grantee, its successors or assigns, it being intended by this provision to restrict to two the number of tracks upon the bridge above described and the approaches thereto, including the viaduct in West One Hundred and Fifty-fifth street.

Sec. 5. The said railway company shall commence construction within ten days from the date when it has obtained complete legal authority to begin construction, including necessary permits from the City officials and departments, and shall complete construction within ninety days thereafter; otherwise this grant shall be forfeited. Provided that such time may be extended under and for causes specified in section 99 of the Railroad Law, and that the City officials or departments, who or which shall at the time of such construction have authority over the said bridge and viaduct, may extend said time for a period or periods not exceeding ninety days further, if reasonable, in their judgment, by reason of requirements as to the manner of construction imposed by the City officials.

Sec. 6. This grant is upon the express condition that the Union Railway Company, within thirty days after this ordinance takes effect and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of two thousand five hundred dollars, either in money or in securities to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially

those which relate to the payment of the annual charge for the franchise, the repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railroad, and in case of default in the performance by said company of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said company. Or in case of failure to keep the said terms and conditions of this grant relating to the headways of cars, fenders and wheel guards and the heating of the cars, the said company shall pay a penalty of \$50 a day for each violation, and the further sum of \$10 a day for each car which shall not properly be heated or supplied with fenders and wheel guards in case of the violation of the provisions relating to those matters. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice, in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of two thousand five hundred dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 7. The provisions and obligations of this ordinance shall only attach to the rights and franchise hereby granted and the railroads constructed thereunder and the operation thereof.

Sec. 8. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York.

No. 435.

AN ORDINANCE granting to the Erie Railroad Company the right or franchise to construct and operate a railroad in and upon Thirteenth avenue and the marginal wharf or way lying between Thirteenth avenue and the waters of the Hudson river, between Twenty-seventh and Twenty-ninth streets, in the Borough of Manhattan, City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen of The City of New York hereby grants to the Erie Railroad Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to construct and operate a double-track surface railroad, with a single switch connecting the two tracks, to be operated by steam locomotives or other motive power which may be lawfully employed, except horses or the overhead system of electricity, across Thirteenth avenue and the marginal wharf or way extending from the westerly side of Thirteenth avenue to the waters of the Hudson river, between Twenty-seventh and Twenty-ninth streets, in the Borough of Manhattan, City, County and State of New York.

Sec. 2. The grant of this franchise is subject to the following conditions:

First—This ordinance as to the marginal wharf which extends from the westerly line of Thirteenth avenue to the waters of the Hudson river shall not be operative and no rights thereunder shall vest in the grantee, its successors or assigns until the Commissioner of Docks, under the provisions of section 819 of the Charter of The City of New York, shall approve by resolution, license or otherwise, the use of such marginal wharf by the grantee in the manner herein provided, or in such other manner as he may prescribe, not inconsistent with the terms of this ordinance.

Second—The said right, privilege and franchise to construct and operate such railroad shall be held and enjoyed by the grantee, its successors or assigns, for the term of twenty-five years from the date when this ordinance is signed by the Mayor, unless sooner terminated as hereinafter provided, with the privilege of renewal of the grant for a further period of twenty-five years, upon a fair revaluation of said right, privilege and franchise, but such renewal shall not provide for any further renewal. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railroad by itself, and is not to include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successors or assigns. It shall be made in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successor in authority; one disinterested freeholder shall be chosen by the railroad company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railroad company. The valuation so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last five years of the original franchise.

Provided, however, and this grant is upon the express condition that the right, privilege and franchise conferred by this ordinance may be canceled and annulled upon one year's notice in writing to the grantee, its successors or assigns, by the joint act of the Commissioner of Docks of The City of New York and of the Board of Estimate and Apportionment, or their respective successors in authority, and thereupon all the rights of the grantee, its successors or assigns in and upon the street and marginal wharf or way aforesaid shall cease, and the railroad and its structures thereon shall be forthwith removed and the pavement of the street or wharf restored under the same conditions and covenants as are contained in the following paragraph of this section, designated third:

Third—Upon the termination of such franchise, right or privilege, whether original or by way of renewal, the plant and property, with its appurtenances, of the Erie Railroad Company, its successors or assigns, in the street and upon the marginal wharf or way aforesaid, shall be forthwith removed by the grantee, its successors or assigns, and the surface of the said street or marginal wharf or way upon which such railroad was laid shall be restored to a condition equal to that of the surrounding surface and pavement of such street and wharf. In default of the performance of this condition by the grantee, its successors or assigns, the proper legal authorities may cause such property and plant to be removed from the street and wharf aforesaid and the surface thereof to be restored in the manner above described at the expense of the grantee, its successors or assigns, and such expense shall be recovered by The City of New York by action or otherwise.

Fourth—The grantee, its successors or assigns, shall pay for this franchise to The City of New York the following sums of money:

During the first term of five years the annual sum of \$675.
During the second term of five years the annual sum of \$700.
During the third term of five years the annual sum of \$725.
During the fourth term of five years the annual sum of \$750.
During the fifth term of five years the annual sum of \$800.

Such sums shall be paid into the Treasury of The City of New York on November 1 in each year.

Fifth—The rights and franchises granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Erie Railroad Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—The said railroad may be operated by locomotive steam power or by any other motive power which may be approved by the Board of Railroad Commissioners in accordance with the provisions of the Railroad Law, excepting overhead electrical power and horse power, provided, however, that the locomotive steam engines used shall be housed or boxed so as to conform to the type commonly known as the dummy engine.

The number of cars to be included in any train operated upon the railroad shall be limited to ten, and the speed of the engines and cars shall never exceed six miles per hour. No car or engine shall be permitted to remain stationary within the limits of Thirteenth avenue, or upon the marginal wharf or street at any time.

Seventh—The railroad constructed under this ordinance shall be maintained and operated solely for the purpose of the transportation of goods, wares and merchandise and for no other purpose, and especially for no purpose in connection with the passenger traffic as commonly understood.

Eighth—Such railroad shall be constructed and operated in the latest improved manner of street railroad construction and operation, and solely upon the terms and according to the lines and surveys and of the character of the rails and other parts of the construction approved by the Commissioner of Docks of The City of New York and the President of the Borough of Manhattan. Such railroad of the grantee, its successors or assigns, shall be maintained in good condition throughout the term of this grant.

Ninth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York, and especially shall in all respects be subject to the power and authority of the Commissioner of Docks to regulate and control the uses of the marginal wharf or way above described, and the transportation of property thereon.

Tenth—The grantee, its successors or assigns, shall at all times keep the street between the tracks, and for a distance of two feet beyond the rails on either side thereof, free and clear from ice and snow.

Eleventh—The grantee, its successors or assigns, shall keep in permanent repair the portion of the surface of the street and of the marginal wharf or way between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. And The City of New York shall have the right to change the material or character of the pavement of the street and marginal wharf or way, and in that event the grantee, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper City officer at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Twelfth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this grant may be forfeited and annulled by The City of New York by an action brought by the Corporation Counsel on ten days' notice to the grantee, its successors or assigns.

Sec. 3. This grant is upon the further and express condition that the provisions of the Railroad Law applicable thereto and all laws or ordinances now in force or which may be adopted relating to surface railroads operating in The City of New York shall be strictly complied with.

Sec. 4. The grantee, its successors or assigns, shall commence the construction of the railroad under this franchise and complete the same within six months from the date when it has obtained the necessary permits and resolutions of the City officials and Departments, and on or before January 1, 1904, otherwise this grant shall be forfeited forthwith and without any proceedings either at law or otherwise for that purpose, provided, however, that such time may be extended under and for causes specified in section 99 of the Railroad Law, by the Board of Estimate and Apportionment, for a period not exceeding six months.

Sec. 5. This grant is upon the express condition that the grantee, within thirty days after it has been duly authorized to construct or operate its railroad hereunder and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of \$1,500, either in money or in securities, to be approved by him, which fund shall be security for the performance of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the franchise, the repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railroad. In case of default in the performance by said company of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with in-

terest from such fund after ten days' notice in writing to the said company.

In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of fifteen hundred dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 6. This grant shall not become operative until said railroad company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty days after the signing of this ordinance by the Mayor.

Sec. 7. This ordinance shall take effect immediately.

Adopted by the Board of Aldermen July 7, 1903.

Approved by the Mayor July 17, 1903.

BOROUGH OF THE BRONX.

Special Meeting of the Local Board of Morrisania Twenty-fourth District, Borough of The Bronx.

Pursuant to call by President Haffen the members of the Local Board of Morrisania, Twenty-fourth District, met on July 2, 1903, at 5 o'clock p. m., at the office of the President of the Borough of The Bronx.

Present—President Haffen, Alderman Goldwater, Alderman Leitner and Alderman Peck.

The following complaint of property owners was read:

New York, July 2, 1903.

To the Honorable Louis F. Haffen, President, Borough of The Bronx:

Dear Sir—We, the undersigned property owners of the Twenty-third Ward, being a delegation from East Morrisania Property Owners' Association to interview President Haffen and solicit his best offices in abating the nuisance emanating from the continuance of the incinerator situated at the foot of St. Joseph's street and Whitlock avenue, do hereby complain in the most strenuous terms against this objectionable nuisance and ask the Local Board of Morrisania to take such action as may be necessary under the law to abate such nuisance.

PETER FRIESS, No. 536 Union avenue.

RUDOLPH DOHERR, corner Timpson place and 145th street.

JACOB FLEISCHER, No. 498 Wales avenue.

JOHN HENFLING, 147th street, east of Timpson place.

C. R. LESTER, 144th street and Southern Boulevard.

A large delegation of property owners appeared at this meeting and each one was called upon to state to the Local Board his complaint in regard to the operation of the incinerator.

Mr. C. R. Lester, of One Hundred and Forty-fourth street and Southern Boulevard, stated that the property owners of that section deemed it wise that this meeting of the Local Board be called in accordance with the provisions of the Greater New York Charter; that their property was being depreciated and spoiled by the nuisance caused by the incinerator at the foot of St. Joseph's street and Whitlock avenue and by the wagons carrying refuse into that vicinity; that windows had to be closed, thus causing much suffering to families during the present warm weather, and we positively know where people are actually sick in bed from the foul odors from this incinerator, and the smoke from it is harmful to the eyes.

He further requested that the Local Board take action toward having this incinerator discontinued.

Mr. John Henfling, One Hundred and Forty-seventh street, east of Timpson place, stated that recently while he was at dinner at his home he saw the smoke blowing in the direction of his house and it had a greasy smell, and that his children were sick from it. Some agent of the incinerating plant, he stated, came to him and wanted him to sign a statement to the effect that the incinerator did not cause any smell, and that he had told the agent that his wife was then sick from the smell.

Mr. P. Friess, Nos. 536, 538 and 540 Union avenue, stated that he went around to many of the houses in that neighborhood to obtain signatures to the protest against the continuance of the incinerator and he noticed that the walls of the houses were getting full of grease which smelled badly. Some people were made sick from the smells and told him they could not sleep; some people said they would not stay in the neighborhood if the smell continued.

Mr. C. R. Lester again asked to be heard and at this point stated that he intended to appear before the Tax Commissioners and ask for a reduction of his taxes on property in that neighborhood.

Miss Lester appeared and stated that she could not say anything bad enough about the incinerator.

Mrs. J. F. Welch, of 487 Robbins avenue, appeared and stated that the incinerator was a nuisance; that it smelled, and that she could not keep her children there because they would become sick from the smells from it.

Mr. Jacob Fleischer, of 489 Wales avenue, appeared and stated that he lived about 400 feet away from the plant; that his tenants told him they would move if the smells did not cease. He said the smell was worse than from a sewer, and that the smoke made one cough.

Secretary Gumbleton stated that on last Sunday he had an experience in this matter while riding on a Southern Boulevard car between 10 and 11 o'clock in the morning, and while still some distance from the incinerating plant he noticed smoke and met with a foul odor, but thought it came from the meadows; when he went three or four blocks further north he discovered that the smell was coming from the incinerator, and it was a smell like decaying garbage. He smelt it distinctly, although he was a good distance from the plant.

On motion, the following preambles and resolutions were adopted:

Whereas, A complaint was made to the President of the Borough of The Bronx by a delegation of property owners, representing the East Morrisania Property Owners' Association, soliciting his best efforts and offices in abating the nuisance resulting from the continuance of the incinerating plant situated at the foot of St. Joseph's street and Whitlock avenue, and the dumping of garbage and light refuse in its vicinity; and

Whereas, Immediately after the receipt of said complaint the President of the Borough of The Bronx called a meeting of the Local Board of Morrisania, pursuant to section 429 of the Greater New York Charter, to convene at his office in the Municipal Building, Borough of The Bronx, on July 2, 1903, at 5 o'clock p. m.; and

Whereas, At the said meeting said association was represented by Peter Friess, Rudolph Doherr, Jacob Fleischer, John Henfling, C. R. Lester and others, who explained the nature of the foul odors emanating from said incinerator which constitute the nuisance complained of; therefore be it

Resolved, By the Local Board of Morrisania, Twenty-fourth District, pursuant to section 429 of the Greater New York Charter, after hearing said complaints in relation to the said incinerator, and as to the dumping of garbage and light refuse in its vicinity, that the continuance of said incinerator now in operation at said St. Joseph's street and Whitlock avenue, in the Borough of the Bronx, together with the dumping of garbage and light refuse upon the meadows and adjacent thereto is and hereby is declared to be a nuisance, and its continuance will be violative of good order, peace, comfort and good government of said neighborhood within the district of Morrisania, in the Borough of The Bronx; and be it further

For the Construction of Drains or Sewers and Appurtenances in East Two Hundred and Thirty-third Street, between Webster Avenue and Napier Avenue, with Branches (Woodlawn Heights District).

The following communication from the Engineer in Charge of Sewers was read:

The City of New York,

Office of President of the Borough of The Bronx,

Municipal Building, Crotona Park, Bureau of Sewers, July 13, 1903.

Mr. JOSIAH A. BRIGGS, Chief Engineer, Borough of The Bronx:

Sir—I return the papers hereinafter described which were handed to me by you on the 11th instant:

1. Notice to Board of Estimate and Apportionment from Secretary Gumbleton, dated May 12, 1903, transmitting:
2. Copy of resolution of the Local Board of Morrisania, Twenty-fourth District, for constructing drains or sewers and appurtenances in East Two Hundred and Thirty-third street, between Bronx river and Napier avenue, and various other streets in Woodlawn Heights, adopted May 7, 1903.
3. Copy of estimate of cost and statement as to assessed value of real estate included in the probable area of assessment in this proceeding.
4. Copy of petition of property owners for the construction of said drains or sewers.

After the estimate of cost was prepared and presented to the Local Board, representatives of the petitioners appeared at the hearing and requested certain modifications of the original petition, which the Local Board adopted, as such modifications resulted in the lessening of the amount of work originally asked for; the result of such procedure, however, was to render the estimate of cost, as based upon the original petition, erroneous. At the same time it was necessary to prepare a modification plan of the Sewerage District Map for this section, which was done, but the changes proposed did not agree with the changes which I assumed would be made, and upon which assumption the estimate of cost was based, therefore such estimate was further made to be erroneous. In view of all these circumstances, and in accordance with your oral instructions of the 11th instant, I have prepared and herewith transmit (in duplicate) a revised estimate of cost and statement of assessed value of real estate included within the probable area of assessment (to be substituted in place of former estimate) in the matter of

Constructing Drains or Sewers and Appurtenances in

East Two Hundred and Thirty-third street, between Webster avenue and Napier avenue.

Webster avenue, between East Two Hundred and Thirty-third street and East Two Hundred and Thirty-fourth street.

Webster avenue, between East Two Hundred and Thirty-sixth street and the City Line.

Vireo avenue, between Two Hundred and Thirty-third street and East Two Hundred and Thirty-fifth street.

Vireo avenue, between East Two Hundred and Thirty-seventh street and the City Line.

Napier avenue, between East Two Hundred and Thirty-third street and East Two Hundred and Thirty-fifth street.

East Two Hundred and Thirty-fourth street, between Vireo avenue and Webster avenue.

East Two Hundred and Thirty-fourth street, between East Two Hundred and Thirty-third street and Katonah avenue.

East Two Hundred and Thirty-sixth street, between Vireo avenue and Martha avenue, and between Katonah avenue and Kepler avenue.

East Two Hundred and Thirty-seventh street, between Katonah avenue and a point about 200 feet west of Kepler avenue.

East Two Hundred and Thirty-eighth street, between Martha avenue and Kepler avenue.

East Two Hundred and Thirty-ninth street, between Vireo avenue and Kepler avenue.

East Two Hundred and Fortieth street, between Webster avenue and Vireo avenue.

East Two Hundred and Fortieth street, from a point about 580 feet east of Martha avenue to Mount Vernon avenue.

A new resolution should be adopted in the form of preceding title in lieu of former resolution of May 7, 1903, which should be rescinded.

A new resolution should also be adopted requesting the vesting of title of East Two Hundred and Fortieth street (McLean Avenue), between Webster avenue and Vireo avenue.

Respectfully,

CHARLES H. GRAHAM, Engineer in Charge of Sewers.

Estimated cost, \$120,750; assessed value of the real estate included within the probable area of assessment is \$906,704.

The following correspondence was submitted concerning the minutes of the Sinking Fund Commission:

Department of Finance,

City of New York,

April 3, 1903.

Mr. PHILIP COWEN, Supervisor of the City Record:

Sir—I transmit herewith an extract from the minutes of the meeting of the Commissioners of the Sinking Fund, held April 1, 1903, in regard to the printing and binding of the minutes of the meeting of the Commissioners of the Sinking Fund from 1887 to 1898.

Very truly yours,

N. TAYLOR PHILLIPS,

Secretary Commissioners of the Sinking Fund.

(Copy.)

Department of Finance,

Comptroller's Office,

March 31, 1903.

To the Commissioners of the Sinking Fund:

Gentlemen—On December 24, 1902, this Board authorized the printing of 100 copies of the minutes of the meetings of the Commissioners of the Sinking Fund from 1844 to 1887. The bound volumes of the minutes from 1887 to 1898 have all been distributed, and it is necessary that more copies be printed.

I have obtained bids from the Martin B. Brown Company, who printed the originals, and the Mail and Express Company, they being the only concerns familiar with the work, and they bid as follows:

The Martin B. Brown Company—	
50 copies of each volume at (per page).....	\$2 65
100 copies of each volume at (per page).....	3 00
Folders and cuts extra, as per rule of the trade.	

The Mail and Express Company—	
50 copies (per page).....	\$2 77
100 copies (per page).....	3 07

Reproducing and inserting the map folders at trade rates.

With the view of making some provision for possible future needs, I requested the Martin B. Brown Company, who are the lowest bidders, to submit me an estimate for furnishing electrotypes plates from which an edition might at any time be printed, and they submitted the following:

"For electrotypes plates, 68 cents each.

"Alternative would be an increase in the present order to 150 or 200 copies; charge per page for 50 additional copies, 30 cents; for 100 additional copies, 60 cents, if printed at the same time; binding included in the price per page."

There are about 3,600 pages. The cost of this work is properly chargeable to the appropriation of the "Board of City Record—Printing, Stationery and Blank Books for City Departments and Offices, and Arrearages," pursuant to section 1528 of the Charter.

I believe it would be for the best interests of the City to have this work done without contract let after advertisement for bids or proposals, and recommend that the matter be submitted to the Board of City Record for a concurrent vote, and that the bid of the Martin B. Brown Company be accepted.

Respectfully,

EDWARD M. GROUT, Comptroller.

Discussion followed as to the advisability of having electrotypes plates made for all the minutes from 1844 to 1887, inclusive, and the members of the Board were all of the opinion that it would be wise to have them.

The Comptroller thereupon offered the following resolutions:

Resolved, That the Commissioners of the Sinking Fund hereby recommend to the Board of City Record that the work of reprinting and binding one hundred (100) copies of the minutes of the meetings of the Commissioners of the Sinking Fund, for the years 1887 to 1897, inclusive, in five volumes, as originally printed, be let without contract after advertisement for bids or proposals, and that the bid of the Martin B. Brown Company for printing and binding one hundred (100) copies at three dollars (\$3) per page, with electrotypes plates at sixty-eight cents (.68) each, additional, be accepted; the cost thereof to be charged to the appropriation for 1903, entitled "Board of City Record—Printing, Stationery and Blank Books for City Departments and Offices, and Arrearages"; and

Resolved, That the Commissioners of the Sinking Fund hereby recommend to the Board of City Record that the Martin B. Brown Company be requested to furnish electrotypes plates for the minutes of the meetings from 1844 to 1886, inclusive, at sixty-eight cents (.68) each.

A true copy of the resolution adopted by the Commissioners of the Sinking Fund, April 1, 1903.

N. TAYLOR PHILLIPS, Secretary.

On motion of the Comptroller, it was

Resolved, To award the order for reprinting the records of the Sinking Fund and making the necessary electrotypes to Martin B. Brown Company at the price bid by them, as stated in the foregoing resolutions.

BOARD OF EXAMINERS.

July 14, 1903.

Present—Messrs. William J. Fryer, Warren A. Conover, William C. Smith, Charles D. Purroy, Charles G. Smith, Charles Buek and Walter Cook (Chairman). Meeting called to order at 2 p. m.

On motion, minutes of meeting of the 7th instant approved as read.

Appeal 152 of 1903, New Building 58 of 1903, Walnut avenue and One Hundred and Thirty-eighth street, The Bronx; William Paul Gerhard, C. E., appellant.

It is proposed to provide for sewerage and rain water drainage on the south side of One Hundred and Thirty-eighth street, commencing at southwest corner Walnut avenue and extending 322 feet west; the Superintendent of Buildings for the Borough of The Bronx having rejected or refused to approve the mode, manner of construction or materials proposed to be followed or used in the drainage of such building or structure on the ground that the 8-inch private sewer can only be of earthenware if solid ground is available for foundation, and also that the 8-inch private sewer should be laid not where shown, but in the public street.

1. Is not earthenware pipe for a private sewer outside of building, and to be used for rainwater only, superior to iron pipe? Is it not permissible, even if ground is not solid, because it can be well supported on saddle pipe, as is always done in sewer construction?

Note—The City Departments never use anything but vitrified earthen sewer pipe for sewers in streets or alleys, and the proposed private 8-inch sewer is in every respect like a street sewer.

2. Is not the location of private sewer on the grounds of the owners perfectly admissible?

Note—How could it be laid in One Hundred and Thirty-seventh street, as the Superintendent of The Bronx requires? It would not be necessary there at all, as we could connect the rainwater leaders to the street sewer. Is it not perfectly proper as shown, if connected at east end of building with the public sewer in Walnut avenue?

No appearance.

On motion, laid over, the Clerk being instructed to request the appellant to appear before the next meeting of the Board, to be held on the 21st instant.

Appeal 153 of 1903, Alteration 286 of 1903, southwest corner of Brook avenue and One Hundred and Forty-eighth street, The Bronx; S. B. Ogden & Co., architects and appellants.

It is proposed to erect a two-story and cellar extension to a non-fireproof factory.

The main building is 65 feet by 115 feet, 4 stories above a cellar covering an area of 7,475 square feet.

The south extension is 35 feet by 35 feet, four stories above a fireproof cellar, 1,225 square feet.

West extension, 48 feet by 120 feet, one story above cellar, 5,760 square feet.

Proposed extension, 15 feet by 60 feet, two stories above a fireproof cellar, 960 square feet.

Total, 15,420 square feet.

The main buildings and extensions are separated by walls of masonry extending from cellar to roof.

Mr. S. B. Ogden appeared before the Board.

Lot diagram filed.

On motion, approved on condition that the window and door openings at the easterly and westerly ends of the said extension be either bricked up or provided with fireproof doors or shutters.

Appeal 154 of 1903, New Building 269 of 1903, west side Gerard avenue, about 200 feet from One Hundred and Sixty-eighth street, The Bronx; Harry S. Howell, architect and appellant; to allow of 8-inch thick walls, as per plans, as buildings shall only be two stories high and wall only 30 feet high.

Mr. H. S. Howell appeared before the Board.

On motion, approved.

Appeal 155 of 1903, Alterations 1120 of 1903, No. 8 East Ninety-second street; Turner and Kilian, architects and appellants.

We would ask to be allowed to construct the first story walls of new extension of 4-inch tee and angle irons, filled in with terra cotta blocks laid in cement mortar and covered on the exterior with galvanized iron. The roof to be skylight of tee iron bars glazed with wire-glass.

On motion, dismissed by reason of information forwarded by the Superintendent of Buildings.

Appeal 156 of 1903, fireproof shutter case No. 20 of 1903, premises No. 11 Pine and No. 5 Nassau streets, Manhattan; James B. Baker, architect and appellant.

On motion, referred to Chief Purroy for examination and report.

Adjourned.

JAMES GAFFNEY, Clerk.

BOARD OF ALDERMEN.

AN ORDINANCE GRANTING TO THE Ocean Electric Railway Company the right or franchise to construct and operate a street surface railway in, upon and along certain streets and highways and bridges in The City of New York.

Be it ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen of The City of New York hereby grants to the Ocean Electric Railway Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to construct and operate a double-track surface railway, with all connections, turnouts, switches, crossovers and suitable stands necessary for the accommodation and operation of said railway, by the overhead system of electricity, or any other motive power which may be lawfully employed upon the same, in, upon and along the following named streets and highways and bridges, all situated in the Borough of Queens, City and State of New York, set forth in the following description of route:

Beginning at the termination of the existing railroad tracks on Washington avenue, so-called, in Rockaway Park upon Rockaway Beach, in the Fifth Ward of the Borough of Queens; running from thence in an easterly and southerly direction along Eastern avenue to the Boulevard; thence easterly along the Boulevard to Park avenue; and thence northerly along Park avenue to the existing right of way and railroad track of the New York and Rockaway Beach Railroad Company in what is now known as Hammels in said Fifth Ward of the Borough of Queens and City of New York.

Being a distance of about 9,430 feet or 1.8 miles.

And with the right or franchise to cross such other streets and highways and bridges (named and unnamed) as may be encountered in said route.

Section 2. The grant of this franchise is subject to the following conditions:

First—The consent in writing of the owners of half in value of the property bounded on said streets and highways and bridges to the construction and operation of said railway shall be obtained by the grantee, or in the event that such consent cannot be obtained, the grantee shall obtain the favorable determination, confirmed by the Court, of three Commissioners, appointed by the Appellate Division of the Supreme Court, in the manner provided by the Railroad Law, before said railway is built or operated.

Second—The said right, privilege and franchise to construct and operate said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years from the date when this ordinance is signed by the Mayor, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right, privilege and franchise, but such renewal shall not provide for any further renewal. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railway by itself, and shall not include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successors or assigns. It shall be made in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successors in authority; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company, the valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last five years of the original franchise.

Third—Upon the termination of the said franchise, right or privilege, whether original or renewal, if the Board of Estimate and Apportionment of The City of New York, or its successors in authority shall so desire, there shall be a fair valuation of the plant and property of the grantee necessary for traction purposes upon the said streets and highways and bridges, including equipment, tracks and appurtenances, which plant and property shall be and become the property of The City of New York at the option of the said Board of Estimate and Apportionment, or its successors in authority, on the termination of this grant and the payment to the grantee of such valuation. The valuation shall be based on a fair appraisal of the property excluding any value derived from the franchise and such value shall be determined by the Board of Estimate and Apportionment, or its successors in authority.

Fourth—The Ocean Electric Railway Company, its successors or assigns, shall pay for this franchise to The City of New York the following sums of money: During the first term of five years an annual sum which shall in no case be less than \$500, and which shall be equal to three per cent. of its gross annual receipts from the route constructed under this ordinance, if such percentage shall exceed the sum of \$500. During the next term of five years an annual sum which shall not be less than \$1,000, and which shall be equal to five per cent. of its gross annual receipts as above, if such percentage shall exceed the sum of \$1,000; during the remaining fifteen years of the term a sum of money not less than \$1,000 per annum and which shall be fixed and determined by the Board of Estimate and Apportionment, or its successors in authority at least three months prior to the expiration of the first ten years of this franchise. The gross receipts to be computed in the manner provided in section 95 of the Railroad Law.

Such sums shall be paid into the treasury of The City of New York on November 1 in each year; provided, however, that the first payment shall only be for that proportion of the above sums as the time from the signing of this ordinance by the Mayor to September 30 next preceding said date of payment shall bear to the whole of one year. The fiscal year shall end on September 30 next preceding said date of payment and the provisions of the Railroad Law as it existed at the time of the adoption of this ordinance relating to the manner of payments and statements of percentages of gross receipts of street railway companies shall, as to said railway, be strictly followed. The intention of this paragraph is to fix an annual charge to be paid by the grantee, its successors or assigns, to The City of New York for the rights and franchise hereby granted, and it shall not be construed as providing for the payment by the grantee, its successors or assigns, for said franchise, of a percentage of gross receipts within the meaning of any general or special statute.

Fifth—The said annual charge or payment shall continue throughout the whole term of the franchise hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for street railway rights or franchises at a different rate, and no assignment, lease or sublease of the rights or franchises hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or the charter of such assignee or lessee to the contrary notwithstanding, and the said assignee or lessee waives, so far as this franchise is concerned, any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this grant.

Sixth—The railway and other structures constructed by the grantee, its successors or assigns under this ordinance, shall in all respects comply with the provisions of chapter 686 of the Laws of 1894, as amended.

Seventh—The grantee, its successors or assigns, shall cause to be laid, under the supervision of the municipal authorities having jurisdiction in such matters, upon and along the public highway known as the Boulevard, as hereinbefore described, a good and sufficient macadamized pavement of a depth of not less than eight inches, to extend from either side of the present macadamized pavement to the curb line on the north and south sides of the said Boulevard.

The grantee shall pay the entire cost thereof, together with the cost of the necessary inspection, and no cars shall be operated under this franchise over any part of the route hereby granted, until the said pavement is fully and completely laid.

Eighth—The rights and franchises granted hereby shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Ocean Electric Railway Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its suc-

cessors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Ninth—The said railway may be operated by overhead electrical power, substantially similar to the system of overhead electrical traction now in use by the New York and North Shore Railway Company, or by the underground electric system now in use by the Interurban Street Railway Company in the Borough of Manhattan, and by any other motive power, except locomotive steam power or horse-power, which may be approved by the Board of Railroad Commissioners, and consented to by the owners of property, in accordance with the provisions of the Railroad Law.

Tenth—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York, who have jurisdiction in such matters under the Charter of the City.

Eleventh—Said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of said company shall be maintained in good condition throughout the term of this grant.

Twelfth—The rate of fare for any passenger upon said railway shall not exceed five cents between Far Rockaway, and any point westerly thereof.

Thirteenth—The cars on the said lines as proposed shall run at intervals of not more than one hour, both day and night, and as much oftener as the reasonable convenience of the public may require or as may be directed by the City ordinances; provided, however, that said railway company during the first five years of this franchise shall not be required to operate its cars on any of its lines within The City of New York between the hours of 12.30 and 4.30 o'clock a. m., each day between the first day of May and the first day of November in each year, and between 12 o'clock midnight and 6 o'clock a. m. during the balance of the year, unless the Board of Estimate and Apportionment of said City shall determine after a hearing had thereon that public convenience requires the operation of its cars during said hours.

Fourteenth—The said railway company shall apply to each car run over said railway a proper fender and wheelguard in conformity to such laws and ordinances as are now in force or may hereafter be enacted or adopted by the State or City authorities.

Fifteenth—All cars on said railway shall be heated through the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and each car shall be well lighted either by the Pintsch gas system or by electricity, or by some system of lighting equally efficient.

Sixteenth—The said company shall at all times keep the street between its tracks, and for a distance of two feet beyond the rails upon either side of said streets, free and clear from ice and snow.

Seventeenth—The said railway company, as long as it shall continue to use any of the tracks upon said streets and highways and bridges, shall have and keep in permanent repair that portion of the surface of said streets and highways and bridges, between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. And The City of New York shall have the right to change the material or character of the pavement of any street and highway and bridge, and in that event the grantee, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper city officer at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Eighteenth—The said railway company, its successors and assigns, so long as it shall continue to use any of the tracks upon the streets and highways and bridges hereby granted, shall cause the entire roadway of each of the same to be watered at least three times in every twenty-four hours when the thermometer is above 35 degrees Fahrenheit, except that when the width of any roadway between curb lines shall exceed 60 feet, then a roadway of but 60 feet shall be watered as above.

Nineteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained this grant may be forfeited and avoided by The City of New York, by a suit brought by the Corporation Counsel on notice of ten days to the said railway company.

Twentieth—If any of the streets and highways and bridges above referred to, or described, shall not now be open or in use as public highways, no right or franchise therein shall vest in the grantee by virtue of this ordinance until after such streets and highways and bridges shall be legally opened as a public highway, and such right or franchise shall expire at the end of the term created by this ordinance as above set forth. Nothing in this ordinance contained shall be construed as an obligation on The City of New York, in respect to the opening of such streets and highways and bridges, nor as in any manner granting property or rights of any kind in or upon its lands now owned or occupied by it under any title, except only the public streets and highways and bridges in the usual acceptance of such terms, which are specifically referred to above.

Section 3. This grant is also upon the further and express condition that the provisions of article 4 of the Railroad Law, as it existed at the time of the adoption of this ordinance applicable thereto, and all laws or ordinances now in force or which may be adopted hereafter affecting the surface railways operating in The City of New York shall be strictly complied with.

Section 4. This grant is also upon the further and express condition that at any time after five years from the commencement of the operation of any portion of the railway hereby granted, the Board of Estimate and Apportionment, or its successors in authority, if it deems it necessary in the public interest so to do may require the grantee, its successors or assigns, in case the railway upon any portion of the routes above described shall consist of a single track, to construct and operate a second track upon any or all of the routes hereby granted, whether on streets, highways and bridges or upon any private property or right-of-way included in any of such routes so as to make a double-track railway.

Section 5. Said grantee shall commence construction within three months from the date when it has obtained complete legal authority to begin construction, including necessary permits from the city officials and departments, and shall complete the construction of a single track railway upon all of the route hereby granted on or before July 1, 1904, otherwise this grant shall be thereupon forfeited and immediately forfeited, without judicial or other proceedings. If upon the route above described, or upon any portion thereof, there shall not be constructed and in actual operation by July 1, 1904, a railway properly equipped and operated as provided by this ordinance, the said route or portion thereof shall be conclusively taken to have been abandoned by the company, and so much of the rights and franchises hereby granted as pertain to such route or portion thereof, not then constructed from and after July 1, 1904, shall be thereupon forfeited and immediately forfeited, without judicial or other proceedings. Provided that such time may be

extended upon the same conditions as to forfeiture under and for causes specified in section 99 of the Railroad Law, as it now exists, and by a properly executed instrument in writing; and the Board of Estimate and Apportionment may similarly extend such time for a period or periods not exceeding one year, if, in their discretion, it seems best so to do, and that the city officials or departments who or which shall at the time of such construction have authority over the said streets and highways and bridges, may similarly extend, by properly executed instrument in writing, such time for a period or periods not exceeding one year further, if reasonable, in their judgment, by reason of requirements as to the manner of construction imposed by the city officials.

Section 6. If for any reason the right or franchise of the grantee in any of the streets, highways and bridges above described shall cease, or if for a period of six successive months the railway tracks upon any of such streets, highways and bridges shall not be operated as provided for in this ordinance, the Comptroller of The City of New York may require the grantee, its successors or assigns, to remove its tracks and other structures upon such streets, highways and bridges within thirty days after notice, and in default of their removal pursuant to such notice, the proper local authorities having jurisdiction may cause them to be removed and The City of New York may recover the cost and expense of such removal, either by deducting them from the fund deposited as required in section 7 hereof, or by action; and the rights and franchises of the grantee, its successors or assigns, in such portions of the streets, highways and bridges, in case any such exist, shall forthwith and immediately cease upon the removal of such tracks or structures and without judicial or other proceedings.

Section 7. This grant is upon the express condition that the Ocean Electric Railway Company, within thirty days after the said company has been duly authorized to operate its railway and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of two thousand dollars, either in money or in securities to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the franchise, the repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railway, and, in case of default in the performance by said company of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said company. Or in case of failure to keep the said terms and conditions of this grant relating to the headways of cars, fenders and wheel guards and the heating of the cars and the watering of the streets, the said company shall pay a penalty of \$50 a day for each day of violation, and the further sum of \$10 a day for each car which shall not properly be heated or supplied with fenders and wheel guards in case of the violation of the provisions relating to those matters. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice, in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of two thousand dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Section 8. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York within ten days after the adoption of this ordinance.

Section 9. This ordinance shall take effect immediately.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
