Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is returned copy of a resolution adopted on April 18, 1902, by the Local Board of the Bay Ridge District of the Borough of Brooklyn, initiating proceedings to open Ninety-sixth street, between Third avenue and the Shore road. This street is open for public travel within the limits named and houses have been erected upon both blocks.

I am informed that there is no present occasion to extend the limits of the proceeding, and that possession is desired at once so that the street may be entered upon for the purpose of constructing a sewer. From an inspection of the street it does not appear that there are any encroachments of buildings upon the line of the street to be opened, although no statement to this effect accompanies the papers, and I would recommend that the Corporation Counsel be requested to apply to the Court for the appointment of Commissioners of Estimate and Assessment under the provisions of section 990 of the Charter, and that title vest in the City upon the filing of the oaths of such Commissioners.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of sections 970 and 990 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of Ninety-sixth street, from Third avenue to the Shore road, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York at a fixed or specified time.

Resolved, That this Board directs that upon the date of the filing of the oaths of the Commissioners of Estimate and Assessment who may be appointed by the Supreme Court in proceedings for the acquisition of title to such street or avenue, that the title to any piece or parcel of land lying within the lines of such Ninety-sixth street, from Third avenue to the Shore road, so required shall be vested in The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending of Ninety-sixth street, from Third avenue to the Shore road, in the Borough of Brooklyn, City of New York.

Resolved, That the entire cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

SIR—Herewith I return copy of a resolution adopted on April 18, 1902, by the Local Board of the Bay Ridge District, of the Borough of Brooklyn, initiating proceedings to open Sixtieth street, between Second and Third avenues.

This street, within the limits affected, is now open to public travel, and several houses have been erected.

There are no buildings in the street, and I am informed that there is no present

need for extending the proceedings beyond this block, which it is proposed to further improve as soon as title can be acquired. I would therefore recommend that the Corporation Counsel be requested to apply to the Court for the appointment of Commissioners of Estimate and Assessment, and that the title vest in the City upon the date of filing the oaths of said Commissioners. The cost of these proceedings should be assessed upon the property to be benefited.

LAW DEPARTMENT OF THE CITY OF NEW YORK,
OFFICE OF THE CORPORATION COUNSEL,
BOROUGH HALL, BOROUGH OF BROOKLYN, March 18, 1902.

Hon. J. EDWARD SWANSTROM, Borough Hall, Brooklyn, N. Y.:

DEAR SIR—In the matter of the opening of East Eighteenth street, from Avenue S to Gravesend Neck road, it appears that the street as proposed to be opened will take a strip 12 feet in width from the right of way of the New York, Brooklyn and Manhattan Beach Railway Company. It is very doubtful whether this can be legally done. The Court has appointed commissioners in the proceedings, with the suggestion that the proceedings be amended by omitting this 12 feet strip from the opening proceedings. As there will be no necessity for a sidewalk or court yards on the side of East Eighteenth street now occupied by the railroad, it would seem to me that this matter might very easily be amended without injury to adjoining property owners, as a proper roadway could be provided, with sidewalk and court yard on the east side, and a curb on the west side. I concur with Mr. Kelly's request that these proceedings be amended accordingly, and ask that you notify him of the meeting of the Local Board at which this petition will be presented.

Yours respectfully,

(Signed) CHAS. TABER, Assistant Corporation Counsel.

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
NEW YORK, June 10, 1902.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—There is returned herewith a resolution of the Local Board of the Bay Ridge District, requesting the Board of Estimate and Apportionment to amend the proceedings for the opening of East Eighteenth street, between Avenue S and Gravesend Neck road by omitting therefrom that portion of the street now occupied by the Manhattan Beach Division of the Long Island Railroad. The resolution is accompanied by copies of a communication from Mr. Charles Taber, the Assistant Corporation Counsel in charge of street openings in the Borough of Brooklyn, recommending the change, and a petition signed by the President and Secretary of the New York, Brooklyn and Manhattan Beach Railway Company setting forth the reasons for the proposed amendment which may be briefly summarized as follows:

The said Railway Company occupies a right of way 40 feet in width, about 12 feet of which is within the lines of the said East Eighteenth street, as laid down on the map of the City, which 12 feet would occupy four-fifths of the westerly sidewalk of the street. The petition quotes Mr. Justice Dickey, before whom the application for the appointment of Commissioners of Estimate and Assessment for the opening of the street was made, as saying: "It seems questionable whether the City can take the land now in use by the Railroad Company for street uses, but as the proceedings can be amended by taking this land out I have concluded to appoint Commissioners with the expectation that this will be done."

It does not seem necessary to go through the formality of changing the map by reducing the width of the street as shown thereon, but I would recommend that

the opening proceedings be amended by excluding from the land to be taken that part of the street as laid down on the map which is at present owned and occupied by the New York, Brooklyn and Manhattan Beach Railway Company, as a right of way, and a form of resolution providing for such amendment is herewith submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, by the Board of Estimate and Apportionment of The City of New York, That the Corporation Counsel be and he hereby is requested to discontinue proceedings for acquiring title to that portion of East Eighteenth street, between Avenue S. and Gravesend Neck road, in the Borough of Brooklyn, which lies within the lines of the property owned and occupied as a right of way by the New York, Brooklyn and Manhattan Beach Railway Company.

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
NEW YORK, June 10, 1902.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—The resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, passed on March 19, 1902, which is herewith returned, recommends a change in the map or plan of The City of New York, by laying out and continuing Gravesend avenue, south of its junction with Avenue X and Eighty-sixth street, on the line of the Shell road for a certain distance, then diverging from the Shell road to connect with West Sixth street, which latter street it is proposed to extend to Sheepshead Bay road. The resolution is accompanied by copies of a report of the Chief Engineer of the Bureau of Highways, of a report from the Topographical Engineer and of communications from Wingate & Cullen, representing property owners at Coney Island, from thirty residents of the Thirty-first Ward, and from twelve officers of the Fire Department, all strongly urging the laying out of the said street as a greatly needed improvement.

The laying out of such a street has been proposed before. A plan was prepared and a public hearing given on January 9, 1901. This plan proposed a street 100 feet in width, curving until it connected with West Eighth street, which it was proposed to widen to 100 feet. This plan was opposed on account of the expense, and a new plan was prepared and another public hearing given on April 17, 1901. This later plan was the same as the one now submitted, and was approved by the Board of Public Improvements, but was not acted upon by the Municipal Assembly. Of the pressing need of another street leading to Coney Island there can be no question. There is none between the Ocean parkway and West Seventeenth street, a distance of over three-quarters of a mile, while between the ends of these streets runs Surf avenue, which in summer is thronged with people and vehicles of all descriptions.

The street, or rather the short lengths of different streets which this plan proposes, constitutes a narrow tortuous route, which ends at Sheepshead Bay road, one block north of Surf avenue, which is the principal street of this popular resort of the people of New York City. I submit a sketch showing the connection provided for by the resolution before the Board, and that which was first proposed.

It will be seen that the earlier plan provided a street 100 feet in width (which is the same width as the lower part of Gravesend avenue), leading directly to Surf avenue, while the latter makes use, as far as possible, of existing streets which are narrow and poorly suited to the end it is desired to attain. The street plan of this part of Brooklyn is so wretchedly bad that this opportunity should, in my judgment, be embraced, to provide a second suitable approach to Coney Island. It is true that the laying out of a 100-foot street would involve the taking of several buildings, but they are nearly all cheap frame structures of small value.

It is to be presumed that as soon as the street is placed upon the map steps will be taken to acquire title, and in view of the fact that there would not be much use for it during the winter months, but that it would be of great benefit to the thousands who flock to this seaside resort from all the boroughs of the city during the summer months, I believe this is a case in which the Board could properly determine that one-half of the expense of the opening proceedings should be borne by The City of New York.

I submit a resolution for a public hearing in order that the matter may be freely discussed, and it can then be determined whether to approve the present plan or to recommend a change which will result more satisfactorily to accomplish the object sought.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, deeming it for the public interest so to do, proposes to alter the map or plan of The City of New York, by laying out Shell road, from Avenue X to Canal avenue, and extending West Sixth street, from Neptune avenue to Sheepshead Bay road, in the Thirty-first Ward, Borough of Brooklyn, City of New York, more particularly described as follows:

The laying out of Shell road consists in laying out a street 70 feet in width, from Avenue X southerly to Canal avenue, covering and widening the existing

Shell road; the lines of Shell road to be connected with West Sixth street at Canal avenue.

The extension of West Sixth street consists in laying out a street, between Neptune avenue and Sheephead Bay, 60 feet wide, making thereby West Sixth street a continuous street from Canal avenue to Sheephead Bay road.

Resolved, That the President of the Borough of Brooklyn cause to be prepared for submission to this Board three similar maps or plans, for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed laying out, and the location of immediate adjacent or of intersecting open or established public streets, avenues, roads, squares or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed laying out of the above-named street at a meeting of this Board, to be held in the Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 11th day of July, 1902, at 11:30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby, that the proposed laying out of the above-named street will be considered at a meeting of this Board to be held at the aforesaid time and place, to be published in the "City Record" and the Corporation newspapers, for ten days continuously, Sundays and legal holidays excepted, prior to the 11th day of July, 1902.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens, and President of the Borough of Richmond—16.

REDUCTION OF ASSESSMENT FOR OPENING EAST ONE HUNDRED AND THIRTY-SECOND STREET, THE BRONX.

The following petition and report of the Chief Engineer were presented, and the matter was laid over:

In the Matter
of

The application of The City of New York relative to acquiring title, etc., to East One Hundred and Thirty-second street (although not yet named by proper authority), from Locust avenue to the East River, etc.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—The undersigned, the Port Morris Land and Improvement Company, the owner of property assessed in the above-entitled proceeding, respectfully requests your honorable Board to direct that fifty per cent. of the cost and expense of this proceeding be made a charge against The City of New York as a matter of general benefit to the public.

Your petitioner respectfully shows:

That the land of your petitioner, being water front property, is not benefited by being separated.

That the opening of this street will afford a means of direct access to the water front.

That the water front in this locality, with the exception of that adjacent to the foot of East One Hundred and Thirty-second street, is either controlled by private interests or is of a beach formation.

That adjacent to the foot of East One Hundred and Thirty-second street the East river has the greatest depth of any point along the shore in this locality, and is the only available, as well as practicable, location for docks.

That such docks will be owned by, and afford a source of revenue to, The City of New York, and will be under the jurisdiction of the Commissioner of Docks, as provided in section 818 of the Greater New York Charter.

Wherefore, your petitioner prays that your Board will by resolution rescind the provision of the former Board of Street Opening and Improvement that the entire cost and expense of the proceeding for acquiring title to said street be assessed on the property deemed to be benefited thereby, and that your Board will provide that fifty per cent. of such cost and expense be assessed on the property deemed to be benefited and fifty per cent. of same be assumed by The City of New York.

Dated New York, March 25, 1902.

Respectfully submitted,

THE PORT MORRIS LAND AND IMPROVEMENT COMPANY,

By Thos. S. Bassford, Its Attorney, No. 280 Broadway, New York City.

ERNEST HALL, of Counsel.

BOARD OF ESTIMATE AND APPORTIONMENT,

CHIEF ENGINEER'S OFFICE, CITY HALL,

June 10, 1902.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—In the matter of the application of the Port Morris Land and Improvement Company, of March 25, 1902, through their attorney, Thos. S. Bassford, for relief from the payment of fifty per cent. of their assessment for costs of opening of East One Hundred and Thirty-second street, between Locust avenue and the East river, I beg to report that the records of the Commissioners of Estimate and Assessment in this case show that the assessment against this company for all of their holdings in the district (consisting of sixteen plots) amounted in the aggregate to \$32,578.55, and that they were awarded \$43,000 as damages. The total length of the street covered by the proceedings was about 415 feet, of which about 379½ feet was owned by the Port Morris Land and Improvement Company, and the remainder, or about 35½ feet of water front, by the City, for which it was awarded \$50.

I can see no reason why this petitioner should be relieved from payment of the costs of owning a street wholly through their property, and fully believe that the benefits which will accrue to them abundantly justify the assessment as it stands.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is returned copy of a resolution adopted on April 18, 1902, by the Local Board of the Bay Ridge District of the Borough of Brooklyn, initiating proceedings to regulate and grade Twelfth avenue, between Sixtieth and Sixty-fifth streets, and to set or reset curb, pave gutters, and pave the walks with cement.

Title to Twelfth avenue, between Sixtieth and Sixty-fifth streets, was acquired by the City on February 4, 1899.

Between Sixty-first and Sixty-second streets the avenue crosses two double track railroads in a deep cut, requiring the construction of a viaduct, which, under the Railroad Law and after the approval of the crossing by the State Board of Railroad Commissioners has been obtained, should be built under an arrangement whereby one-half of its cost would be borne by the City and the other half by the railroad companies.

To carry out the improvement requested under the resolution, a retaining wall must be built on each side of the cut, and this should be suitable to act as an abutment for the bridge.

It does not appear from the papers accompanying the resolution that the plan proposed for this crossing has yet been formally agreed upon between the City and the railroads, or that the consent of the Railroad Commissioners has been obtained.

I would recommend that the President of the Borough of Brooklyn be authorized to proceed with the desired improvement, the cost thereof to be assessed upon the property to be benefited, and that the work should not be undertaken until after the bridge abutments or retaining walls have been built. The estimated cost of the improvement requested is \$8,800, and the valuation of the property within the district of assessment is \$42,700.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

On motion of the President of the Borough of Manhattan, the matter was laid over until the bridge work shall have been completed.

The following communication from the President of the Borough of Brooklyn and report of the Chief Engineer were presented and, on motion of the Comptroller, the matter was referred back to the President of the Borough:

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—I return herewith a resolution adopted on April 18, 1902, by the Local Board of the Bay Ridge District of the Borough of Brooklyn, initiating proceedings to grade and macadamize Twelfth avenue, between Seventy-ninth and Eighty-second streets, and also to provide curb and sidewalks.

The records show that on September 15, 1890, prior to the annexation of the Town of New Utrecht, in which district the proposed improvement is located, Commissioners were appointed to take charge of opening proceedings between Kings highway and Eighty-sixth street, and that a map of the street between these limits

was filed on October 19, 1891; I have not been able to ascertain that any report was made or that the proceedings of these Commissioners have ever been confirmed.

I also find that on May 23, 1900, the Board of Public Improvements passed a resolution requesting the Corporation Counsel to apply to the Court for the appointment of Commissioners of Estimate and Assessment for the purpose of opening Twelfth avenue, between Seventy-third street and Kings highway; and between Eighty-sixth street and Dyker Beach Park, but this resolution was practically rescinded on July 17, 1901, when the Board of Public Improvements passed a resolution requesting the Corporation Counsel to take no steps in the matter "pending the report of the Local Board."

It is therefore recommended that the resolution be returned to the President of the Borough of Brooklyn with the suggestion that it be withheld until the opening proceedings have been instituted, and that such proceedings should include the portion of Twelfth avenue between Kings highway and Eighty-sixth street, unless satisfactory evidence of opening or dedication can be obtained.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
June 10, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is returned a resolution adopted by the Local Board of the Bay Ridge District, passed on April 18, 1902, and approved by the President of the Borough of Brooklyn on May 1, 1902, initiating proceedings for the construction of a sewer in Eighty-ninth street, between Fourth and Fifth avenues.

The opening of this block was authorized by the Board of Public Improvements under section 970 of the Charter on September 14, 1900, and the oaths of the Commissioners of Estimate and Assessment were filed with the proper court on January 8, 1902.

There are no buildings on the property to be acquired so that title can be vested in the City.

The estimated cost of the work is \$1,330, and the assessed value of the real estate within the probable area of assessment is \$16,100.

I would, therefore, recommend the adoption of a resolution vesting title in the City on July 15, 1902, and also the authorization of the desired improvement, the cost thereof to be assessed wholly upon the property deemed to be benefited.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Public Improvements on the 14th day of September, 1900, adopted a resolution requesting the Corporation Counsel to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Eighty-ninth street, from Fourth avenue to Fifth avenue, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment has received written notice from the Corporation Counsel that Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said Eighty-ninth street, from Fourth avenue to Fifth avenue, and that the oaths of said Commissioners of Estimate and Assessment were duly filed, as required by law, on the 8th day of January, 1902; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 15th day of July, 1902, the title to each and every piece or parcel of land lying within the lines of said Eighty-ninth street, from Fourth avenue to Fifth avenue, in the Borough of Brooklyn, City of New York, so required shall be vested in The City of New York.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and President of the Borough of Richmond—16.

The estimated amount of work is given as

- 2,200 cubic yards of grading,

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 18th day of April, 1902, and approved by the President of the Borough of Brooklyn on the 1st day of May, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$8,600, and a statement of the assessed value, according to the last preceding taxroll of the real estate included within the probable area of assessment, to wit, the sum of \$34,000, having also been presented; it is

The following report of the Chief Engineer was presented:

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
NEW YORK, June 9, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The resolution of the Local Board of the Morrisania District, passed April 28, 1902, which is herewith returned, provides for macadamizing, on a telford base, Webster avenue, between Mosholu parkway and Gun Hill road.

Webster avenue is one of the most important thoroughfares in the Borough of The Bronx, having a roadway sixty (60) feet in width except for a short distance along Parkside place, where it is narrowed on the westerly side. It is also occupied by a double track surface railroad. The avenue for its entire distance south of Mosholu parkway is well paved, either with granite block or vitrified brick, and it would seem as if so important a street should be improved with something more permanent than macadam.

Such a material is certainly unsuitable between the railroad tracks, which seem to be included in the proposed improvement without cost to the company owning and using them. If these spaces were omitted or paved by the railroad company, as they should be, enough money would probably be saved to the property owners to enable them to have a permanent and much more satisfactory pavement. I think such a change so desirable that a strong effort should be made to accomplish it before approving the action of the Local Board, and would so recommend.

The estimated cost of the work as proposed is \$43,000, while the assessed value of the property within the probable area of assessment is \$206,480.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The Comptroller offered the following resolution:

Resolved, That the Corporation Counsel be requested to advise the Board whether or not macadam is a pavement within the meaning of section 948 of the Charter, so that in case a street is once macadamized the property owners are in

a position, under such section, to demand that the City shall repave it at the expense of the City.

The President of the Borough of Queens moved to amend, by striking out that part which refers to property owners demanding repaving at the expense of the City.

The amendment was lost by the following vote:

Affirmative—President of the Borough of Queens, President of the Borough of The Bronx, President of the Borough of Richmond—3.

Negative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn—13.

Action was then taken on the original resolution, which was adopted by the following vote:

Affirmative—The Mayor, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of Richmond—14.

Negative—President of the Borough of The Bronx, President of the Borough of Queens—2.

On motion of the Comptroller, the following resolution was adopted:

Resolved, That the Corporation Counsel be requested to advise the Board whether or not we have the right to compel the Union Railway Company to pave, and keep paved, the roadway between its tracks.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens, and President of the Borough of Richmond—16.

On motion of the President of the Borough of Manhattan, the matter of paving Webster avenue was referred back to the President of the Borough until the receipt of the opinions asked for in the foregoing resolution.

The following communication from the President of the Borough of The Bronx, and report of the Chief Engineer, were submitted:

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Morrisania District, passed March 27, 1902, initiates proceedings to build a sewer in Hughes avenue, between Crescent avenue and the grounds of St. John's College.

I find that the street is now in process of being regulated and graded, the grading being practically completed, and the curbstones being delivered for part of the distance. This work is being done under a contract authorized by the Board of Public Improvements on May 17, 1899, and an ordinance approved by the Mayor on November 19, 1899.

I would recommend that the building of the sewer be authorized. Its estimated cost is \$18,660, and the assessed value of the property within the probable area of assessment is \$138,325.

SIR—Herewith I return the resolutions of the Local Board of the Morrisania District passed on March 12, 1902, initiating proceedings to regulate and grade Lorillard place, between Third avenue and Pelham avenue.

I find that the said Lorillard place is shown on the Final Maps of the Borough of The Bronx and that it has been opened by regular proceedings, inaugurated by the Board of Street Opening and Improvement, and that title was vested in the City on January 14, 1898.

While for about 275 feet south of Pelham avenue the street is narrow, with a row of trees on the westerly side which will have to be cut down, the remainder of the street is quite well built up with detached and semi-detached houses, except between East One Hundred and Eighty-eighth and East One Hundred and Eighty-ninth streets, where there is a block of frame houses on the easterly side, while a sewer has been built in the street. I would recommend that the improvement be authorized. Its estimated cost is \$9,800, while the assessed value of the property within the probable area of assessment is \$175,450.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is returned copy of a resolution adopted on May 15, 1902, by the Local Board of the Red Hook District of the Borough of Brooklyn, initiating proceedings for the construction of a sewer in Denton place, between First and Carroll streets. This is accompanied by a letter from the Chief Engineer of Highways stating that the lines of this street were not fixed upon the original map of the city, but that the street has been recognized by the Department of Taxes and Assessment by having been exempted from taxation for nearly thirty years. The act of dedication to the city appears satisfactory from its being now and having been in the past open to public traffic, and I am of the opinion that it may be considered an open highway. The district is now in very bad sanitary condition, and I recommend that authority be given to the President of the Borough to proceed with the improvement, the cost thereof to be assessed upon the property to be benefited. The estimated cost of the work is \$1,150, and the value of the property within the probable area of assessment is \$23,300.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Sir—The accompanying resolution of the Local Board of the Morrisania District, Borough of The Bronx, initiates proceedings for the regulating and grading of Clay avenue, from Webster avenue to East One Hundred and Seventy-sixth street, including curbing, flagging of sidewalks, building approaches, and erecting fences where necessary. This part of Clay avenue is laid down on the final maps of the Borough of The Bronx, and has been opened by regular proceedings, title having vested in the City by a resolution of the Board of Street Openings on November 18, 1897. BOARD OF CITY RECORD.

Monday, 2 p. m., June 23, 1902.

A regular meeting of the Board of City Record was held this day in the old Council Chamber, City Hall, New York.

Present, Hon. Seth Low, Mayor; Hon. Geo. L. Rives, Corporation Counsel, and Hon. Edward M. Grout, Comptroller.

The minutes of the meeting held June 9 were approved as submitted.

The secretary read the following communication from the Martin B. Brown Company:

Nos. 49 to 57 Park place, New York, June 20, 1902.

PHILIP COWEN, Esq.,
Supervisor City Record:

Dear Sir—We wish to call your attention to Requisitions Nos. 2798, series of 1901, for Register, New York County, \$3,935.53, and No. 2799, series of 1901, for Register, Kings County, \$4,969.51. Their history is:

On December 20, 1900, bids for blankbooks for the year 1901 were received and opened from the Martin B. Brown Company, The J. W. Pratt Company, John Cassidy, and the Jordan Stationery Company.

On December 28, 1900, on the coming in of a report of the Supervisor, award was made, by Departments, to the respective lowest bidders.

The resolutions awarded to the Martin B. Brown Company, among other items, the following:

"New York County—
County Clerk, Surrogate, District Attorney, Register and Public Administrator..... \$5,932 40"
This contained the item of \$3,935.53 for the Register's office covered by Requisition No. 2798.

"Kings County—
County Court, County Treasurer, Register..... \$5,581 16"
This contained the item of \$4,969.51 for the Register's office covered by Requisition No. 2799.

After the award was made, it was discovered by the Supervisor that the appropriations for New York County and Kings County, respectively, were insufficient.

It was therefore agreed that the amounts named should not be charged on the contract, but on special orders, to be drawn later.

The work was done and the goods delivered, but, so far as we are informed, the requisitions were never formally passed by the Board of City Record.

May we ask that you will present them to the Board for approval?

Yours respectfully,

MARTIN B. BROWN COMPANY.

A letter from the Supervisor's secretary was submitted in support of the statement of the Martin B. Brown Company.

On motion of the Mayor it was unanimously resolved that Requisitions Nos. 2798 and 2799 of the series of the year 1901 for work done for the Registers of New York and Kings Counties by the Martin B. Brown Company be approved.

A communication was received from the Commissioners of Taxes and Assessments concerning the assessment rolls of real and personal estate for the year 1902, which they had filed with the Board of Aldermen. In reference thereto the following resolution was unanimously adopted:

Resolved, That, in pursuance of the requirements of section 38, chapter 908 of the Laws of 1896, the Commissioners of Taxes and Assessments be and hereby are authorized to publish a notice of the opening of the assessment roll for public inspection in the office of the Board of Aldermen, said publication to be for fifteen days, from July 7, 1902, in the following newspapers, viz.:

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the crib-bulkhead, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the crib and carried from the crib toward the shore until the bank of same has been carried out to the finished grade for a distance of about 20 feet from the face of the crib, at which time, if so directed by the Engineer, the filling may be commenced from the shore toward the crib.

All material must be dumped and filled in only in such manner, at such points and in such order or procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and whenever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

No filling shall be placed directly on the top of the crib until all the remainder of the filling is done, unless specially so directed by the Engineer.

Rip-rap stone coming directly on or against the crib-work must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of silica, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the crib the filling shall be brought up level with the under side of the backing log of the crib at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, and shall be completed within ninety days from the date of the receipt of said notification. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling the time for completing said filling shall be extended so much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper.

The purchaser shall, during the work of filling in and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless the City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper.

The purchaser will be required to furnish a bond in double the amount of the purchase price, as security for the satisfactory performance of the said work, in accordance with the terms and conditions hereof.

Dated THE CITY OF NEW YORK, July 1, 1902.
