EXECUTIVE DEPARTMENT.

To the People of The City of New York:

On the second of February, 1653, Governor Peter Stuyvesant, of the Province of New Netherland, issued a proclamation granting the privileges of city government to the then City of New Amsterdam. Two centuries and a half have been added to the world's story since then, and the little City of New Amsterdam, later known for a season as New Orange, and now become the proud City of New York, still dominates the noble bay and the stately rivers that marked it for the site of a great city even at that early day. The handful of population—about one thousand in number—who greeted with acclaim the proclamation of Governor Stuyvesant, establishing municipal government here, has grown to be a vast multitude of more than three and a half millions of souls.

Many vicissitudes have befallen Manhattan Island and our country in this long interval; but The City of New York greets this anniversary year as a city that is inspired alike by the stirring memories of its past, and by its confident anticipations of a still more glorious future.

In no spirit of unworthy pride, but with grateful recognition of the Divine blessings that have made our beloved city what it is, I call upon the people of New York to make the week beginning May 24 and ending May 30, which has been designated by the Board of Aldermen for this purpose, a gala week in this city, in celebration of this interesting event. During the whole of this week, the citizens are requested to fly their flags from dwellings and buildings of every description; the newspaper press of the city is asked to bring home to the people a sense of New York's long history; and the ministers of religion are requested, at their usual places of worship, to remind their hearers of the event that is being celebrated, and to invoke the Divine blessing upon the municipality.

It is hereby ordered that flags shall be displayed upon the school houses, and upon every city building, during this entire week; and the Board of Education is requested to provide for special exercises, in every school in the City, on the 26th day of May; the day upon which the granting of the first City Charter will be celebrated in the Aldermanic Chamber, so that the children of the City may have a realizing sense of the long history of New York, and be filled with the public-spirited desire to be worthy citizens of such a City.

Given under my hand and seal this seventh day of May, A. D. on thousand
[SEAL] nine hundred and three.

SETH LOW, Mayor of The City of New York.

Communication was read from H. Cohn respecting the selling of matches. Secretary directed to reply.

Commissioner Charlton offered the following resolution:

That the Inspector of Combustibles and the Fire Marshal be each requested that, in securing statistical information with respect to fires and accidents which may be caused from the use of fireworks during the ensuing twelve months, they obtain, in addition to other information for this Commission as much specific information as possible as to the exact character, quality and name of the particular firework or fireworks piece in use and causing such fires or accidents.

—which was seconded and carried.

The proposed regulations governing the manufacture, sale, etc., of fireworks, as amended, were read over in their entirety and some minor changes made.

The Inspector of Combustibles appeared before the Commission and stated that the contractor was preparing to begin operations for building the Rapid Transit Tunnel under the East River at Battery Park, that a large quantity of high explosives would be used daily for blasting operations, and requested that this Commission fix the location of the powder magazine at that point.

Upon motion of Commissioner McKenna, Commissioner Charlton was appointed a committee of one to look into the matter.

Upon motion duly seconded, the Commission adjourned until Saturday, February 7, 1903, at 8.30 a. m.

JOHN F. CUNNINGHAM, Secretary.

Communications were read from Messrs. Frank B. Green and Edwin H. Sayre, sub-committee of the N. Y. Board of Trade and Transportation, respecting paragraph 3 of the regulations governing storage and sale of matches, license fee for jobbers; from Mr. Jacob J. Detwiler, of Detwiler & Street Fireworks Co., respecting storage of fireworks, and from Edw. H. The foregoing communications were carefully considered by the Commission, and the Secretary was directed to make special note of certain suggestions contained in same. Also to acknowledge receipt.

Commissioner Charlton offered the following resolution:

That a committee, consisting of Commissioners Eaton and McKenna, be appointed to investigate the character and composition of chlorate of potash mixtures as used in the manufacture of fireworks, and the conditions of manufacture in factories.

—which was seconded and carried.

MUNICIPAL EXPLOSIVES COMMISSION.

Proceedings of the Municipal Explosives Commission at meeting held on Monday, February 9, 1903, at 8.30 a. m.

Present—Fire Commissioner Sturgis and Commissioners Charlton and Eaton, Commissioner Sturgis presiding.

Minutes of meetings held February 6 and 7 were read and approved.

Commissioner Charlton reported in connection with his appointment as a committee of one to investigate the matter of location of magazine by the contractor for the East River Tunnel, work on which is about to begin at Battery Park, stating that the situation was very complicated, and it was extremely difficult to locate a magazine at that point because of the danger to great numbers of people who are necessarily passing at almost all hours, and the further possibility of danger to the Elevated Railroad. In view of the grave conditions involved, Commissioner Charlton requested that he have the assistance of some one of the other members of the Commission to consider the locating of a magazine at Battery Park. The Chair appointed Commissioner Eaton to co-operate with Charlton.

Upon motion duly seconded the Commission adjourned until 4 o'clock p. m. February 11, 1903.

JOHN F. CUNNINGHAM, Secretary.

MUNICIPAL EXPLOSIVES COMMISSION.

Proceedings of the Municipal Explosives Commission at meeting held on Wednesday, February 11, 1903, at 4 p. m.

Present—Fire Commissioner Sturgis, presiding, and Commissioners Charlton, Eaton and McKenna.

Minutes of meeting held February 9 were read and approved.

Report of Commissioners Charlton and Eaton with respect to the locating of a powder magazine at Battery Park for use of the contractor engaged in construction of the East River Tunnel, was read and approved.

Commissioner Charlton offered the following resolution:

That a copy of the report of the committee appointed to consider the location of a powder magazine at Battery Park be forwarded to the Inspector of Combustibles, with instructions that, in the issuance of a permit for that purpose, he be guided by the recommendations and limitations therein expressed.

—which was seconded by Commissioner McKenna and carried.

Communication was read from C. E. Swingley, Chief of the Fire Department of the City of St. Louis, Mo., in answer to communication from this Commission to the Mayor of that city concerning an explosion of chlorate of potash fireworks in St. Louis, resulting in destruction of property and loss of life. Communication ordered on file and Secretary to acknowledge receipt.

The proposed regulations governing the manufacture, storage, sale and use of fireworks in The City of New York were taken up for final consideration, and after discussion and some slight changes, the following resolution was offered by Commissioner Charlton:

That the proposed regulations governing the manufacture, storage, sale and use of fireworks in The City of New York, in their present amended form, be adopted by this Commission and transmitted to his Honor, Mayor Low, for approval.

—which was seconded by Commissioner Eaton and carried.

Upon motion of Commissioner Charlton, seconded by Commissioner McKenna, the Chair appointed Commissioners Eaton, Haskell and McKenna as a committee of three to visit places where fixed ammunition is stored and sold, in order that certain data may be obtained for the information and consideration of the Commission.

A communication was prepared for transmission to the President of the Department of Parks, suggesting that certain additional precautions be taken by that Department at Battery Park in order to remove the avenue of travel to a greater distance than at present from the proposed location of powder magazine in connection with tunnel work at that point.

Upon motion duly seconded, the Commission adjourned subject to call of the Chair.

JOHN F. CUNNINGHAM, Secretary.

MUNICIPAL EXPLOSIVES COMMISSION.

Present—Commissioners Charlton, Eaton, Haskell and McKenna, Commissioner Haskell acting as Chairman of the meeting.

Minutes of meeting held February 11 were read and approved.

A communication was read from the Inspector of Combustibles respecting the storage of dangerous chemicals in premises Washington and Hubert streets, occupied as a supply depot for the U. S. Army. Upon motion of Commissioner Eaton the communication was referred to Commissioner McKenna for investigation and report.

Commissioner Eaton offered the following resolution:

That a communication be sent to Admiral O'Neil, Chief of the Bureau of Ordnance, U. S. Navy, Washington, D. C., requesting that when the report of the Board appointed to investigate the explosion at Fort Lafayette on February 19, 1903, is received, that he furnish this committee with a copy of same.

—which was seconded and carried.

Commissioners Eaton and McKenna reported that they had visited several establishments and examined the conditions under which fixed ammunition is stored in this city, and that the information and data obtained are available for the consideration of this Commission in the preparation of regulations on that subject.

Upon motion duly seconded the Commission adjourned until Monday, March 2, 1903.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen of The City of New York hereby grants to the New York and Long Island Traction Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to construct and operate a double-track surface railway, with all connections, turnouts, switches, crossovers and suitable stands necessary for the accommodation and operation of said railway, by the overhead system of electricity, or any other motive power which may be lawfully employed upon the same, in, upon and along the following named streets and highways and bridges, all situated in the boroughs of Queens and Brooklyn, City and State of New York, set forth in the following description of routes:

Third—Beginning at a point at the boundary line between The City of New York and the

Town of Hempstead, Nassau County, New York, on private property contiguous to and lying north of the conduit of the Brooklyn City Water Works in the Borough of Queens; running thence westerly on and along private property contiguous to and adjoining the property of the Brooklyn City Water Works on the northerly side thereof; crossing Ocean avenue (otherwise known as the road to Wright's mill), Rosedale avenue, Foster's Meadow road, the property of the Brooklyn City Water Works, known as conduit branch, Springfield road, Farmers avenue, New York avenue, Rockaway turnpike, to the junction of the Three-Mile road and Old South road; thence westerly on and along said Old South road to the road to Bergen's Landing; thence westerly on and along private property contiguous to and adjacent to the right of way of the Brooklyn City Water Works and on the northerly side thereof crossing Old South road, Hawthree Creek road, road to Remsen's landing, Centreville avenue at the southerly end thereof, road to landing or Woodhaven road at the southerly end thereof, and Cedar lane, to the right of way of the Cross Country Railroad Company; thence northwesterly on and along private property crossing Old South road to a point on Eldert lane about 500 feet south of Liberty avenue, in the Borough of Brooklyn; thence northwesterly on and along Eldert lane to Liberty avenue.

Fourth—Beginning at a point on the Jerro turnpike at the extreme easterly boundary line of The City of New York and the Town of North Hempstead, Nassau County, New York, and running thence westerly on and along said Jerro turnpike to a point at the intersection of said Jerro turnpike and the Hempstead and Jamaica turnpike (otherwise known as Fulton street), all in the Borough of Queens.

And with the right or franchise to cross such other streets and highways and bridges (named and unnamed), as may be encountered in said routes.

Section 2. The grant of this franchise is subject to the following conditions:

First—The consent in writing of the owners of half in value of the property bounded on said streets and highways and bridges, to the construction and operation of said railway shall be obtained by the grantee, or in the event that such consent cannot be obtained, the grantee shall obtain the favorable determination, confirmed by the Court, of three Commissioners, appointed by the Appellate Division of the Supreme Court, in the manner provided by the Railroad Law, before said railway is built or operated.

Second—The said right, privilege and franchise to construct and operate said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years from the date when this ordinance is signed by the Mayor, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right, privilege and franchise, but such renewal shall not provide for any further renewal. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railway by itself, and shall not include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successors or assigns. It shall be made in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successors in authority; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last five years of the original franchise.

Third—Upon the termination of the said franchise, right or privilege, whether original or renewal, if the Board of Estimate and Apportionment of The City of New York, or its successors in authority shall so desire, there shall be a fair valuation of the plant and property of the grantee necessary for traction purposes upon the said streets and highways and bridges, and of the land in private ownership upon which the said railway shall be operated or the easements of right-of-way or other necessary easements in such lands, as the case may be, including power-house, equipment, tracks and appurtenances, which plant and property shall be and become the property of the City of New York at the option of the said Board of Estimate and Apportionment, or its successors in authority, on the termination of this grant and the payment to the grantee of such valuation. The valuation shall be based upon a fair appraisal of the property, excluding any value derived from the franchise, and such value shall be determined by the Board of Estimate and Apportionment, or its successors in authority; provided that in the valuation of the land in private ownership, on which such railroad is constructed, or the easements affecting such land, as the case may be, their value shall not be fixed at an amount in excess of the original cost thereof, to the grantee of said franchise, its successors or assigns. A sworn statement of such cost executed by such grantee and verified by the affidavit of one of its officers, shall be filed with the Comptroller of the City of New York, before any act is done by the grantee or its successors or assigns in the construction or operation of the railway upon any route hereinbefore mentioned, which includes private property.

Fourth—The New York and Long Island Traction Company, its successors or assigns, shall pay for this franchise to The City of New York, the following sums of money: During the first term of five years an annual sum which shall in no case be less than \$1,000, and which shall be equal to three per cent. of its gross annual receipts derived from passenger and freight traffic, within the limits of The City of New York, if such percentage shall exceed the sum of \$1,000; during the remaining twenty years of the term, an annual sum which shall not be less than \$2,000, and which shall be equal to five per cent. of its gross annual receipts as above, if such percentage shall exceed the sum of \$2,000.

In computing the amount of the gross receipts derived from passenger traffic and above referred to, the routes hereinafter mentioned shall be considered, and the persons who are upon the cars of the company at any point upon such routes shall be deemed to have paid the fare provided to be paid by the ordinance granting the franchise aforesaid, whether they enter or leave the car upon such route or upon any other route upon which the grantee or its successors or assigns operates its cars.

Such sums shall be paid into the treasury of The City of New York on November 1, in each year; provided, however, that the first payment shall only be for that proportion of the above sums as the time from the signing of this ordinance by the Mayor to September 30 next preceding shall bear to the whole of one year. The fiscal year shall end on September 30 next

preceding said date of payment, and the provisions of the Railroad Law as it existed at the time of the adoption of this ordinance relating to the manner of payments and statements of percentages of gross receipts of street railway companies shall, as to said railway, be strictly followed. The intention of this paragraph is to fix an annual charge to be paid by the grantee, its successors or assigns, to The City of New York for the rights and franchise hereby granted, and it shall not be construed as providing for the payment by the grantee, its successors or assigns, for said franchise, of a percentage of gross receipts within the meaning of any general or special statute.

Fifth—The said annual charge or payments shall continue throughout the whole term of the franchise hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for street railway rights or franchises at a different rate, and no assignment, lease or sublease of the rights or franchises hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives, so far as this franchise is concerned, any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this grant.

Sixth—The rights and franchises granted hereby shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the New York and Long Island Traction Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—The said railway may be operated by overhead electrical power, substantially similar to the system of overhead electrical traction now in use by the New York and North Shore Railway Company, or by the underground electric system now in use by the Interurban Street Railway Company in the Borough of Manhattan, and by any other motive power, except locomotive steam power or horse power, which may be approved by the Board of Railroad Commissioners, and consented to by the owners of property, in accordance with the provisions of the Railroad Law.

Provided that the Board of Estimate and Apportionment, or its successors in authority, upon giving to the grantee, its successors or assigns, one year's notice, in writing, may require it or them to operate its railway upon the whole or upon any portion of its route by underground electrical power substantially according to the system now in use on the railways in the Borough of Manhattan above referred to, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets and highways and bridges of The City of New York.

Eighth—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York, who have jurisdiction in such matters under the Charter of the City.

Ninth—Said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of said company shall be maintained in good condition throughout the term of this grant.

Tenth—The rate of fare for any passenger upon said railway shall not exceed five cents within the limits of The City of New York; the said company shall not charge any passenger more than said sum for one continuous ride from any point on said railway, or a line or branch operated in connection therewith to any point thereof, or of any connecting line or branch thereof within the limits of The City of New York. The rate for the carrying of property upon the cars of the grantee shall in all cases be reasonable in amount, and shall be subject to the control of the Board of Estimate and Apportionment, or its successors in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successors or assigns, and no greater sums shall be charged for such services than provided for by it.

Eleventh—The cars on the said lines as proposed shall run at intervals of not more than one hour, both day and night, and as much often as the reasonable convenience of the public may require or as may be directed by the city ordinances; provided, however, that said railway company during the first five years of this franchise shall not be required to operate its cars on any of its lines within The City of New York between the hours of twelve o'clock midnight and four o'clock a. m. each day, unless the Board of Estimate and Apportionment of said city shall determine after a hearing had thereon that public convenience requires the operation of its cars during said hours.

Twelfth—The said railway company shall apply to each car run over said railway a proper fender and wheelguard in conformity to such laws and ordinances as are now in force or may hereafter be enacted or adopted by the State or City authorities, and each car shall be well lighted either by the Pintsch gas system or by electricity, or by some system of lighting equally efficient.

Thirteenth—All cars on said railway shall be heated through the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and each car shall be well lighted either by the Pintsch gas system or by electricity, or by some system of lighting equally efficient.

Fourteenth—The said company shall at all times keep the street between its tracks, and for a distance of two feet beyond the rails upon either side of said streets, free and clear from ice and snow.

Fifteenth—The said railway company, as long as it shall continue to use any of the tracks upon said streets and highways and bridges, shall have and keep in permanent repair that portion of the surface of said streets and highways and bridges, between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. And The City of New York shall have the right to change the material or character of the pavement of any street and highway and bridge, and in that event the grantee, its successors or assigns, shall be bound to replace such pavement in the

manner directed by the proper city officer at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Sixteenth—The said railway company, its successors and assigns, so long as it shall continue to use any of the tracks upon the streets and highways and bridges hereby granted, shall cause the entire roadway of each of the same to be watered at least three times in every twenty-four hours when the thermometer is above 35 degrees Fahrenheit, except that when the width of any roadway between curb lines shall exceed 60 feet, then a roadway of but 60 feet shall be watered as above.

Seventeenth—In case of any violation or breach or failure to comply with any of the provisions herein contained this grant may be forfeited and avoided by the City of New York, by a suit brought by the Corporation Counsel on notice of ten days to the said railway company.

Eighteenth—If any of the streets and highways and bridges above referred to, or described, shall not now be open or in use as public highways, no right or franchise therein shall vest in the grantee by virtue of this ordinance until after such streets and highways and bridges shall be legally opened as a public highway, and such right or franchise shall expire at the end of the term created by this ordinance as above set forth. Nothing in this ordinance contained shall be construed as an obligation on The City of New York in respect to the opening of such streets and highways and bridges, nor as in any manner granting property or rights of any kind in or upon its lands now owned or occupied by it under any title, except only the public streets and highways and bridges in the usual acceptance of such terms, which are specifically referred to above.

Section 3. This grant is also upon the further and express condition that the provisions of article 4 of the Railroad Law, as it existed at the time of the adoption of this ordinance applicable thereto, and all laws or ordinances now in force or which may be adopted hereafter affecting the surface railways operating in The City of New York shall be strictly complied with.

Section 4. This grant is also upon the further and express condition that at any time after five years from the commencement of the operation of any portion of the railway hereby granted, the Board of Estimate and Apportionment, or its successors in authority, if it deems it necessary in the public interest so to do, may require the grantee, its successors or assigns, in case the railway upon any portion of the routes above described shall consist of a single track, to construct and operate a second track upon any or all of the routes hereby granted, whether on streets, highways and bridges or upon any private property or right-of-way included in any of such routes so as to make a double-track railway.

Section 5. Said grantee shall commence construction within three months from the date when it has obtained complete legal authority to begin construction, including necessary permits from the city officials and departments and shall complete the construction of at least ten miles of single track railway on or before July 1, 1904, otherwise this grant shall be thereupon forfeited and immediately forfeited, without judicial or other proceedings. If upon any portion thereof, there shall not be constructed and in actual operation by July 1, 1905, a railway properly equipped and operated as provided by this ordinance, the said route or portion thereof shall be conclusively taken to have been abandoned by the company, and so much of the rights and franchises hereby granted as pertains to such routes, or parts of routes, not then constructed from and after July 1, 1905, shall be thereupon forfeited and immediately forfeited, without judicial or other proceedings. Provided that such time may be extended upon the same conditions as to forfeiture under and for causes specified in section 99 of the Railroad Law, as it now exists, and by a properly executed instrument in writing; and the Board of Estimate and Apportionment may similarly extend such time for a period or periods not exceeding one year, if, in their discretion, it seems best so to do, and that the city officials or departments who or which shall at the time of such construction have authority over the said streets and highways and bridges, may similarly extend, by properly executed instrument in writing, such time for a period or periods not exceeding one year further, if reasonable, in their judgment, by reason of requirements as to the manner of construction imposed by the city officials.

Section 6. If for any reason the right or franchise of the grantee in any of the streets, highways and bridges above described shall cease, or if for a period of six successive months the railway tracks upon any of such streets, highways and bridges shall not be operated as provided for in this ordinance, the Comptroller of The City of New York may require the grantee, its successors or assigns, to remove its tracks and other structures upon such streets, highways and bridges within thirty days after notice, and in default of their removal pursuant to such notice, the proper local authorities having jurisdiction may cause them to be removed and The City of New York may recover the cost and expenses of such removal, either by deducting them from the fund deposited as required in section 7 hereof, or by action; and the rights and franchises of the grantee, its successors or assigns, in such portions of the streets, highways and bridges, in case any such exist, shall forthwith and immediately cease upon the removal of such tracks, or structures and without judicial or other proceedings.

Section 7. This grant is upon the express condition that the New York and Long Island Traction Company, within thirty days after the said company has been duly authorized to operate its railway and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of three thousand dollars, either in money or in securities to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the franchise, the repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railway and, in case of default in the performance by said company of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said company. Or in case of failure to keep the said terms and conditions of this grant relating to the headways of cars, fenders and wheel guards and the heating of the cars and the watering of the streets, the said company shall pay a penalty of \$50 a day for each day of violation, and the further sum of \$10 a day for each car which shall not properly be heated or supplied with fenders and wheel guards in case of the violation of the provisions relating to those matters. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice, in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of three thousand dollars, and in default thereof the grant

hereby made may be cancelled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said city. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Section 8. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York within ten days after the adoption of this ordinance.

Section 9. This ordinance shall take effect immediately.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable. Each bid or estimate shall contain the name and place of residence of the person making the same, and the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath in writing of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City or New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
