HEALTH DEPARTMENT OF THE
CITY OF NEW YORK,
BUREAU OF VITAL STATISTICS,
April 27, 1875.

To the Secretary of the Board of Health:

SIR—There were 580 deaths reported in the city during the week ending on Saturday the 24th inst.; 572 were reported, and 541 actually occurred during the previous week. The death-rate in the latter week was equivalent to 27.05 per 1,000 inhabitants annually. The following diseases continue to cause more than their usual share of mortality: Phthisis, which caused 301 deaths in the past three weeks; bronchitis and pneumonia, 262 in the same time; diphtheria, 126; small-pox, 87; and puerperal diseases, 31.

The mean temperature last week was 36.6 degrees Fahr., with a minimum at 22, and a range of 38 degrees. The mean atmospheric pressure was at the unusually low figure of 29.711 inches of the mercurial column, and the winds traveling 1,859 miles during the week.

The average death-rates in 21 chief cities of Great Britain in the week ending on April 10, was equal to 27 per 1,000 yearly. This was the rate in London, but in Edinburgh it was 24, and in Liverpool, Dublin, and Bristol, it was 28 per 1,000. Paris reported 29.9 per 1,000; Brussels, in the week ending on April 3, 29.7; Amsterdam, 30.9; Berlin, 28.5; Hamburg, 36; Munich, 46; and Vienna, 29 per 1,000.

Respectfully submitted.

ELISHA HARRIS, M. D.,
Registrar of Vital Statistics.

To the Honorable the Board of Health of the Health Department of the City of New York:

The petition of the undersigned wholesale dealers in milk, doing business in the City of New

York, and members of an organization known as the Orange County Milk Dealers' Association, respectfully state to your Honorable Body as follows:

That your petitioners are desirous of securing a vigorous enforcement of the laws prohibiting the sale of adulterated or impure milk, believing that thereby not only will the health of the community be improved, but a direct benefit will be done to the business of your petitioners and all dealers in milk.

That, as your petitioners believe, the milk which is delivered by farmers and producers thereof in the country to dealers in this city, is frequently adulterated by the producers before leaving their hands.

That the circumstances attendant upon its delivery to the wholesale dealers in this city are such that it is almost impossible for them in the very brief period during which it remains in their hands to make thorough examinations or to apply satisfactory test as to its purity. The said milk arrives at the railroad depots in this city at night, is delivered in haste to the wholesale dealers, remains but a moment in their hands, and is instantly delivered by them to the retailers in a hasty and confused manner, the darkness, haste, and confusion preventing the wholesale dealers from doing more than to ascertain the quantity delivered.

That recently, in accordance with the laws on that subject, persons in the employ of the officers of said Department have caused the arrest and imprisonment of several retail milk dealers on a charge of selling impure or adulterated milk. That, as your petitioners believe, the fault does not lie as much with the retail dealers as with the farmers and producers. That should the milk arriving in this city at the railroad depots be examined immediately on its arrival, such impure milk would no doubt be discovered; its seizure and destruction would inflict pecuniary loss upon those who have adulterated it (and, who being personally beyond the jurisdiction of your Board, cannot be punished in any other manner), and thus make it to their interest in the future to send to this city none but pure milk, such as conforms to the required standard. Your petitioners further represent, that the test now in use for the purpose of ascertaining the purity of milk is not adequate or proper. That the impure milk bears the test of a lactometer more readily than that which is good and pure, but that should a chemical test be applied much milk that now readily conforms to the standard would be found unfit for use.

Wherefore your petitioners ask that your Board will cause proper persons, clothed with the authority of law, to attend at the several depots in this city, and, upon the arrival of the usual milk trains, to examine, inspect, and test the milk which arrives, or so much thereof as may be practicable, and to seize or destroy such as may be impure or unfit for public sale. Should the expense thereof be not properly, in the opinion of your Board, a public charge, your petitioners are willing to defray the same, if required.

And your petitioners will ever pray.
ANDREW KNAUER,
HENRY SCHAFER,
And Twenty-one others.

NEW YORK, April 15, 1875.
