"(b) The portrait of General Swift be placed in the office of the Borough President, over the mantel on the west wall.

"Your Committee further report: As the Commission will recall, while it became necessary as the repairs and alterations of one portion after another of the City Hall, beginning with the Mayor's offices, became complete, to select pictures to be hung therein, it was so impracticable finally to allot the greater number as between the several rooms of the City Hall, except with regard to their finished state, that this Committee recommended, and the Commission permitted, our reports to be made of provisional location, and as of progress; so that, while as to the greater number of the portraits, etc., in question the propriety of our provisional location has been approved by experience, exceptions have from time to time been made the subject of further provisional reports, until with the one just made all such works of art at the City Hall of which we are advised are now located.

"We therefore recommend that the provisional locations of such, heretofore reported, as indicated upon the Exhibits marked "A" and "B" accompanying this report be adopted as permanent locations thereof respectively and your committee discharged."

Sec. 34. The Municipal Explosives Commission may at any time adopt resolutions authorizing the Fire Commissioner to grant supplementary permits for larger quantities than in the foregoing Schedule "E" in cases where buildings are so located and have been so especially constructed and arranged for lessening danger that life and property are more secure than by the storage of the above specified maximum quantities in buildings of the usual location and type, or where persons in charge who have received certificates of fitness are known to be specially qualified by technical experience and habits to handle and care for the hazardous articles that may be specifically named in the supplementary permits.

Sec. 35. Chapter 3 of this part of these regulations shall go into effect thirty (30) days after its approval by the Mayor.

## PART IX.—MISCELLANEOUS REGULATIONS.

## CHAPTER III.

## Acetylene.

Section 8. Acetylene generating apparatus of a capacity fitted for a single burner only, and the storage of the calcium carbide necessary therefor, but not exceeding twenty pounds, shall be exempted from the provisions of this chapter.

Sec. 9. All acetylene generating apparatus shall be used only under permits obtained from the Fire Commissioner.

Sec. 10. All apparatus used for generating or holding acetylene gas shall be so constructed, located and used as to secure the greatest measure of safety, as may be prescribed by the Fire Commissioner, i. e.:

(a) Copper and any alloys of same must not be used in any part of the apparatus; the various parts shall be of adequate strength.

(b) Escape of gas from the apparatus must be carefully guarded against.

(c) Satisfactory provision must be made against dangerous development of heat.

(d) In all generating apparatus, and when necessary in holding apparatus, satisfactory provision must be made against the dangerous effects of undue pressure, by the employment of an approved safety device, connected with an escape pipe discharging into the open air above the roof of the highest contiguous building. In all lighting systems using acetylene, the pressure must be indicated by suitable pressure gauge.

(e) Provision must be made for the residuum of calcium carbide, being deposited out of doors immediately upon its being removed from the apparatus, away from all drains, so that it will not be a hazard to combustible material.

(f) No person shall have charge of a generating apparatus until he has been properly instructed in its management.

Sec. 11. All acetylene generating or acetylene gas-holding apparatus, except as hereinafter provided, must be installed in an outhouse building of fireproof construction and with approved ventilation, and so located that it will not be a hazard to adjoining property; the dimensions of said building must be confined to the requirements of the apparatus and the limited supply of calcium carbide, as follows:

(a) With all generators having a capacity of not more than twenty-five pounds, there may be stored an additional amount of not more than fifty pounds, the whole to be located in an outhouse vault, separated from the main building by a blank wall and an air space of at least five feet, provided said vault is properly ventilated and drained.

(b) Acetylene generators or acetylene gas-holding apparatus of larger capacity

than the above-mentioned must, excepting as hereinafter provided, be located in a detached fireproof building properly ventilated.

(c) All generating apparatus must be charged by daylight.

Sec. 12. The storage of calcium carbide by consumers on premises other than in generator building is absolutely prohibited.

Sec. 13. The ventilation of buildings in which generators are installed or calcium carbide is stored must be secured by approved and safe methods.

Sec. 14. The manufacture, transportation, storage, sale, or use of liquified acetylene is absolutely prohibited within the limits of the City.

Sec. 15. The transportation, storage, sale and use of acetylene when it is dissolved in acetone and simultaneously absorbed in porous materials and confined in steel cylinders of approved design and construction up to pressures not exceeding three hundred pounds to the square inch, may be allowed within the limits of the City under special license. Such license shall be granted only to the manufacturer of such material, and upon the payment of a fee of fifty dollars.

Sec. 16. The storage and installation for use of the tanks containing acetylene, as specified in section 15, shall be in places which are subject to the approval of the Fire Commissioner.

Sec. 17. The number of cylinders of acetylene, as provided for in section 15, which shall be permitted to be stored at any one point in the City for distribution shall not exceed the quantity which is necessary for one day's supply in the business conducted at that point.

Sec. 18. All calcium carbide in transit through the City and on storage must be inclosed in hermetically sealed iron receptacles and plainly marked "Calcium Carbides—Dangerous if not kept dry." No single package shall exceed one hundred pounds in weight of carbide.

Sec. 19. A permit may be issued for the storage or keeping of calcium carbide in hermetically sealed iron receptacles and in quantity not exceeding one hundred pounds in the aggregate, provided it is stored or kept in isolated buildings of fireproof construction, where it will not be a hazard to any adjoining property, and that the buildings are waterproof, well ventilated and drained, and with floors raised above the grade upon which they stand.

Sec. 20. If the building is used exclusively for the storage of calcium carbide, and is detached at least twenty-five feet from other buildings, a written permit may be granted by the Fire Commissioner for the storage of quantities in excess of one hundred pounds and not exceeding five hundred pounds in the aggregate, and in such buildings no artificial light or fire shall be permitted.

Sec. 21. Not more than one hundred pounds of calcium carbide, either in bulk or in cartridges, shall be stored or kept in any building used for dwelling, mercantile or manufacturing purposes, and this amount shall be kept only upon permit obtained from the Fire Commissioner, which shall provide that all quantities in excess of two pounds shall be in tight metal packages and kept elevated at least six inches from the floor in a fireproof safe or vault located above the street grade, or in galvanized iron cans set on metal legs at least six inches long and with securely fastened covers.

Sec. 22. Chapter III of this part of these regulations shall go into effect thirty days after its approval by the Mayor.

Approved.

SETH LOW, Mayor.

Commissioners Ogden, Banta and Spencer were present.

A public hearing was held upon the request of the Police Commissioner that the position of Complaint Clerk be transferred from the exempt to the competitive class. Deputy Police Commissioner Davis addressed the Commission in behalf of the request. There was no opposition.

The matter was laid over.

A public hearing was held upon the request of the Commissioner of Street Cleaning to include in the classification the position of Superintendent of Stables. Deputy Commissioner Gibson and Mr. Galway, of the Department of Street Cleaning, addressed the Commission in behalf of the request. There was no opposition.

The matter was laid over.

Deputy Commissioner Gibson also addressed the Commission with reference to the proposition to include the position of Driver with horse and cart in either the exempt or the non-competitive class.

Mr. C. B. J. Snyder, Superintendent of School Buildings, Department of Education, appeared before the Commission in support of the request that an examination be held for the position of Architectural Draughtsman in order that an eligible list from which persons may be appointed at salaries ranging from \$18 to \$35 per week may be established. The President read a letter from the Secretary of the Department of Education with reference to the matter. Mr. Snyder and Commissioner Adams requested that pending the establishment of the eligible list authority be given for the temporary appointment of such persons as might pass a non-competitive examination held under the provisions of Rule 12, paragraph 3.

On motion, it was

Resolved, That the Secretary be and is hereby directed to proceed with an examination for the position of Architectural Draughtsman, and that pending the announcement of the eligible list the Department of Education be authorized to make temporary appointments to such position, under the provisions of Rule 12, paragraph 3.

Mr. Snyder stated that he was desirous of appointing in his Department a person with knowledge of blue-print work, and called the attention of the Commission to the fact that there was no eligible list of persons whose ability to perform this class of work had been tested by examination. He requested that an examination be held in order that he might make an appointment in the near future.

On motion, it was

Resolved, That under the provisions of Rule 6, paragraph 6, a special examination be held for the position of Clerk with knowledge of blue-print work, grades A, B and C, it appearing that there is no appropriate eligible list for this position, and that the services of a person possessing knowledge of blue printing are required in the Department of Education.

The minutes of the meeting held December 9 were approved after correction. Medical Examiner Warbasse appeared and informed the Commission of his methods of conducting examinations for promotion in the uniformed forces of the Police and Fire Departments. The matter was discussed at length, and

On motion, it was

Resolved, That Medical Examiner Warbasse be and is hereby requested and directed to set such standards in examinations for promotion of candidates in the uniformed service of the City as will determine whether or not they are, in his judgment, competent to fill the positions which they seek, and, in his judgment it is proper, to lower such standards as the candidates advance from grade to grade.

The Committee on Transfers reported that the following transfers had been approved:

Dr. Sidney D. Wilgus, Resident Physician, Department of Public Charities, to Bellevue and Allied Hospitals.

Joseph F. Hanley, from Assistant Foreman, Department of Water Supply, Gas and Electricity, to Inspector of Pipe Laying, Pipes and Hydrants, his name appearing on the eligible list for the latter position.

Dominick Rottkamp, Porter to Messenger, Department of Health, he having been originally appointed to the position of Janitor, —and that the following transfers had been disapproved:

John C. Stewart, from Clerk to Messenger, Department of Water Supply, Gas and Electricity, the positions being dissimilar.

Edward F. Hurd, M. D., from Assistant Sanitary Superintendent to Medical Inspector, there being an eligible list for the latter position.

Stewart Barr, from Pipe Calker to Inspector of Pipe Laying, Pipes and Hydrants, Department of Water Supply, Gas and Electricity, he having served less than one year in his present position.

On motion, the report of the Committee on Transfers was adopted.

The Committee on Reinstatements reported that the reinstatement of Edward T. Gunnan, Clerk, in the Department of Water Supply, Gas and Electricity, at \$900 per annum, had been approved.

On motion, the report of the Committee on Reinstatements was adopted.

On motion, it was

Resolved, That until otherwise ordered the dates of examinations be fixed by the President, Secretary and Chief Examiner.

A letter was presented from the Department of Taxes and Assessments, requesting the Commission to examine for continued temporary appointment a number of Topographical Draughtsmen appointed after non-competitive examinations, who had already served two months.

On motion, the request was denied for lack of power.

A letter was presented from the Department of Docks and Ferries, requesting the Commission to attach its certificate to the payrolls of Thomas V. McGloin and Francis J. Pender, temporary Stenographers and Typewriters, for services rendered after the expiration of two months from the date of their non-competitive examinations.

On motion, the request was denied for lack of power.

A letter was presented from the Board of City Magistrates, First Division, requesting the certification of an eligible list of Interpreters competent to speak Italian, German and Yiddish. The Secretary reported that he was unable to certify from the present lists persons who could speak those languages.

On motion, the Secretary was instructed to hold an examination for Interpreter in the languages stated.

A letter was presented from the Brooklyn Disciplinary Training School, requesting the Commission to attach its certificate to the payroll of B. J. Brophy, appointed as Printer for one week, under the provisions of Rule 12, paragraph 4. Mr. Brophy had been employed under the same rule as Caretaker during the week previous to that during which he served as a Printer.

On motion, the Secretary was instructed to request the school to send additional information with reference to the employment of Mr. Brophy.

A letter was presented from the Department of Bridges, stating that it would be necessary during the winter to employ the Laborers of that Department to perform emergency work, such as clearing snow, etc., but that the services of these Laborers would not be required steadily. The Department pointed out that their work would be seriously hampered if they were to be required to take the Laborers from the preferred lists as they were required, and asked the Commission to pass the payrolls with the names of all Laborers written thereon, and with explanatory notes opposite those names for the times that the Laborers were not actually employed.

On motion, duly seconded, the Secretary was instructed to pass the payroll in that form, and to call the attention of the Department of Bridges to the provisions of Rule 19, paragraph 11.

A letter was presented from the Commissioner of Public Works, Borough of The Bronx, making requisition for an eligible list for the position of Cable Splicer. The attention of the Commission was called to the fact that according to the classification the title "Cable Splicer" applied only to the Fire Department.

On motion, duly seconded, the Secretary was instructed to certify from the list for the Fire Department, that being the list most nearly appropriate.

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
