No. 3332.

PETITION to the Board of Aldermen of The City of New York in the State of New York:

This is a petition for the removal of an enormous marquise or shed overhanging the street in front of premises known as 9, 11, 13, 15 Park place, Borough of Manhattan, City of New York, the undersigned petitioners all being owners of adjoining premises.

The American News Company own and occupy premises on the northerly side of Park place, known as 9, 11, 13, 15 Park place, Borough of Manhattan, City of New York. In front of their premises they have erected an enormous marquise or shed, in width covering the whole sidewalk and being about 86 feet 6 inches in length. This gigantic shed is suspended from their second story, being about 18 feet above the street, and is made of some opaque material.

That the Manhattan Electric Company own and occupy premises known as 17 Park place, which immediately adjoins the premises occupied by the American News Company on the west; that Puson & Remrick are the owners of premises known as 19 Park place; that Mr. Morris Fatman is the owner of premises known as 21 Park place; that David Banks is the owner of premises known as 23 Park place; and that Heilner & Wolf are the owners of premises known as 25 Park place.

The undersigned respectfully petition for the removal of said marquise or shed on the grounds that it is a nuisance and impairs the use and enjoyment by your petitioners of their premises by seriously interfering with their easements of light, air and access and is a violation to your petitioners' property rights and an encroachment upon said easements.

That the said marquise or shed is of such an enormous size that it cuts off and shuts out the light from the lower portions of the premises adjoining on the west during the greater part of the day.

That Park place is a public thoroughfare, the fee thereof being in the City, in trust for the public use and benefit.

That owing to the protection afforded by said marquise, the public sidewalk under said shed is used by the American News Company practically as a private warehouse. Numerous bundles and piles of papers are continuously on the sidewalk under said marquise and that for the greater part of the day it is absolutely impossible to use that part of the walk under the marquise as a public thoroughfare.

That the use of the public street for this purpose is not an ordinary, usual or customary use thereof for street purposes, but constitutes and is contrary to the uses and purposes for which the fee of the said street was acquired and is held by the City, thus preventing free access to and from the property of your petitioners along said sidewalk, and that it greatly damages the use and occupation of your petitioners' property.

The property of your petitioners has an increased value because of its being readily seen by passersby along Broadway. That this marquise obstructs the property of your petitioners adjoining on the west from people passing along Broadway, and many prospective tenants are lost thereby, and further, that it obstructs the show windows and store on the ground floor of premises occupied by the Manhattan Electric Company, losing many prospective customers, and thereby greatly reducing the rental value of said store.

That Park place is a wide street, in fact, one of the widest cross streets in the lower portion of the City. That it is at present being improved with one of the finest and tallest office buildings in the world, and other high-class office buildings will be constructed on said street.

That the enormous shed of almost 90 feet in length, covering a large portion of the westerly side of said Park place, will change the entire outlook and character of the street by giving it the appearance of a street used by warehouse and express companies. That this shed will prevent the development of said street into one of the finest cross streets in this City, and will keep it as a street of the second grade. That a shed of this sort, over a street, giving it the appearance of a street used by warehouse and express companies, greatly reduces the value of the realty fronting on said street.

That this marquee was erected under permission given by a resolution of the Board of Aldermen, approved December 17, 1908, but said permission was expressly given to continue only during the pleasure of the said Board of Aldermen.

That for the reasons above enumerated, the maintenance of said marquee greatly damages the adjoining property of your petitioners, to an extent impossible to calculate or estimate in terms of money damages and causes, and will cause your petitioners irreparable injury.

Wherefore your petitioners pray that the permission granted by this Board to continue during their pleasure be discontinued and the said shed be removed.

Dated New York, April 5, 1911.

No. 3333.

April 17, 1911.

To the Honorable Board of Aldermen, City Hall, New York City:

Dear Sirs—At the monthly meeting of the Wyckoff Heights Taxpayers' Association held Tuesday, April 4, 1911, the enclosed resolutions were unanimously approved and a copy ordered to be forwarded to your honorable body for your favorable consideration. Yours very truly,

ADAM E. FISHER, Chairman, Building Committee.

Whereas, The recent disastrous fire at Washington place and Greene st., whereby more than 140 lives were lost, has shown the inadequacy of the recent Building Code, especially as relates to those sections of the Code pertaining to exits, stairs and fire-escapes, egress from rear yards, courts, shafts, etc.; and

Whereas, This lack of proper exit facilities available in case of fire or panic in connection with all classes of buildings, and especially in the cases of the so-called fireproof buildings, many of which lack proper and adequate stairs as required by the present Code, whereby a false security has been engendered in the public mind with regard to such buildings; and

Whereas, Repeated efforts on the part of numerous bodies, including the former Code Revision Committees, and of Fire Chief Croker, who have repeatedly called attention to the inadequacy of the present law as respects the section governing the construction of fire-escapes now being erected on buildings; and

Whereas, The present Code permits the erection of flimsy and dangerous outside balcony fire-escapes, totally inadequate and unsuitable in case of fire and panic; be it therefore

Resolved, That the Wyckoff Heights Taxpayers' Association recommend that the Building Code be so amended that all existing buildings in use for factory, warehouse, storehouse, loft or office purposes, and more than two stories above the sidewalk, shall be provided with fire-resisting stairs enclosed in brick walls on all sides and to extend from ground floor to bulkhead above the roof; the said fire-resisting stairs to be placed on street side of the building. No door or other opening to lead directly on to the stairway but on to a separate fireproof landing open on the street side of building with railing across the said landings.

Resolved, That where such fire-resisting stairs cannot be placed on the street side of the building a fireproof passageway not less than four feet wide to be installed on the sidewalk, or first tier level, said passageway to be constructed of brick walls, steel beams and brick floor arches.

Resolved, That all rear yards or courts to be connected to the above mentioned fire passage as to allow of proper egress in case of fire or panic.

Resolved, That as this matter is of vital importance to the community, the recurrence of such calamities being liable to happen at any moment, the matter of proper and adequate fire stairs, exits and passageways to be taken up immediately without regard to other points of the Building Code which are in need of revision.

Resolved, That the Superintendents of the various Boroughs be instructed to vigorously inspect all buildings of the class enumerated above, and order such additional exits, fire stairs and passageways to be installed as may be necessary to safeguard the public.

Resolved, That the honorable Board of Aldermen be requested to pass such ordinance as will cover these points and that the same take place immediately.

The President laid before the Board the following communication from the Board of Estimate and Apportionment:

No. 3337.

Board of Estimate and Apportionment, City of New York, Office of the Secretary, 277 Broadway, March 31, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of resolutions adopted by the Board of Estimate and Apportionment, March 30, 1911, approving of the establishment of a standard testing laboratory, and beg to call your attention to the request therein contained that your honorable Board recommend to this Board the issue of \$15,000 special revenue bonds to provide means for the preliminary work of organizing said laboratory, etc.

I also enclose copy of the report of the Commission on Standardization, approved by the Select Committee on Standardization of Supplies, relative thereto.

Very truly yours, JOSEPH HAAG, Secretary.

Whereas, The Select Committee on Standardization of Supplies, appointed by the Board on January 14, 1910, composed of the Mayor, the Comptroller, and the President of the Board of Aldermen, has recommended the establishment of a Standard Testing Laboratory under the direct control of this Board; be it

Resolved, That this Board hereby approves of the plan for the establishment of a Standard Testing Laboratory, and be it further

Resolved, That the Committee of the Board on the Establishment of Salaries and Grades, be instructed to report upon the creation of such salary grades as may be necessary for the organization and carrying out of the work planned; and be it further

Resolved, That the Committee of the Board on the Allotment of Space in the new Municipal Building be instructed to provide adequate space in the said building for the projected Standard Testing Laboratory; and be it further

Resolved, That for the purpose of providing means for the preliminary work of organizing the new Standard Testing Laboratory, and to provide the necessary equipment and the salaries of the necessary staff of Chemists and Assistants to begin work at once in the temporary laboratory, the Board of Aldermen be requested to recommend to the Board of Estimate and Apportionment the authorization of an issue of special revenue bonds, under the provisions of subdivision 8, section 188, of the Charter, in the sum of fifteen thousand dollars (\$15,000).

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 30, 1911. JOSEPH HAAG, Secretary.

Board of Estimate and Apportionment, February 27, 1911
The Committee on Standardization of Supplies, Board of Estimate and Apportionment, New York City:

Sirs—The Commission on the Standardization of Supplies, begs herewith to recommend the creation of a thoroughly equipped, adequately manned and centrally situated Standard Testing Laboratory for:

1. The testing of samples of all kinds of general supplies purchased by The City of New York for the use of the various Departments, and for the purpose of securing a proper audit of all claims therefor.

2. The testing of all materials used in construction work and in the laying and resurfacing of pavements, roadways and sidewalks in the five Boroughs of the Greater City.

3. The carrying on, concurrently, with the routine of general testing, and along specific lines of the City's needs, of such research work as will give the various City Departments the benefit of the best available scientific knowledge, worked out practically along definite lines suggested by the routine of general testing, as indicated herein.

4. The supplying to the Commission on Standardization of the scientific and technical data now urgently required in the work of preparing adequate and efficient specifications for the purchase by the City of all kinds of supplies.

5. The simplification of the work of auditing and inspecting claims for supplies and materials furnished the City under properly drawn specifications, prepared by the Commission on Standardization and promulgated by the Board of Estimate and Apportionment, for use by all City Departments. Cooperation in preparing specifications and in auditing and inspecting claims for work done and supplies furnished thereunder, so that the City shall, by the faithful carrying out of the specifications, receive full value for money expended.

6. The gradual evolution of uniform methods and standard tests of all supplies and materials purchased for City purposes, and the promulgation to all City Departments, by means of monthly bulletins, or otherwise, of the results of such tests, and the research work based thereon. The object of the dissemination of this information would be to enable City Departments interested to know fully and accurately the results in efficiency and economy of the general practices prevailing, and experiments made by every other Department. This would prevent mistakes made by one Department being repeated in others, as at present, and make methods by which valuable results are obtained in one Department, available to all others, instead of, as at present, each Department being permitted to work independently and in comparative ignorance of what is being done by other Departments.

7. The maintenance of records showing the relative life and relative good, or bad, qualities of all materials used by City Departments in construction work, especially of materials used in the laying of pavements and sidewalks, and in the making and surfacing of streets and roadways with macadam and road oils, wood blocks, asphalt, granite setts or other materials. These records to be so kept as to inform Departments in charge of such work, not only as to the best and most suitable materials to be used, but to demonstrate, from actual tests of such roadways and sidewalks made during a course of years, the reasons for their durability or lack of durability; information of this character to be disseminated from time to time in monthly bulletins, or otherwise, for the information of all City Departments.

8. The furnishing to the Corporation Counsel's office of such technical data, taken from the results of tests, and from the official records of such tests, as might be required from time to time, to protect the City's interest in legal actions for damages involving materials and supplies furnished to, and work done for,

any City Department. At the present time large amounts of money are annually expended for expert services and testimony in such actions for damages. It is submitted that such services and testimony could be furnished by the staff and official records of a Standard Testing Laboratory, in a manner and with a completeness which would much more efficiently and far more economically protect the City's interests than they are at present protected in all such legal actions.

Considering all the purposes which the creation of a Standard Testing Laboratory would serve in increasing efficiency and promoting economy in the administration of City business, and in view of the fact that large sums are being authorized by the City to be expended for the creation of laboratories to be used purely for educational and scientific research work (\$58,000 authorized February 9, 1911, to equip a new pathological laboratory in connection with the new Bellevue Hospital), the Commission respectfully recommends:

1. That a Standard Testing Laboratory be established upon the general lines indicated herein, under the direct control of the Board of Estimate and Apportionment.

2. That the laboratory be located in the new Municipal Building in Park row, when that building is ready for occupancy, and that application be made at once for the necessary space and special facilities required.

3. That a Committee of the Board of Estimate and Apportionment be appointed to report upon the establishment of such salary grades as may be necessary to secure the immediate appointment of the head of such a laboratory, in order that the organization may be planned and carried out with as little delay as possible.

4. That in order to supply present needs, especially in the making of coal tests required under the new specifications for the purchase of coal, promulgated by the Board of Estimate and Apportionment for the use of all City Departments, the operation of the small testing plant located in the Barron Building, corner of Franklin st. and W. Broadway, be continued. This laboratory is partially equipped with the apparatus necessary to do the testing work most urgently required under all new specifications for the purchase of supplies promulgated by the Board of Estimate and Apportionment. The Commissioner of Accounts, at the request of the Commission on Standardization, has renewed the lease of these quarters for a year from May next, and is willing to have the laboratory temporarily maintained under his nominal direction until it is transferred to the Board of Estimate and Apportionment. That the work of this temporary laboratory shall be so planned as to form the nucleus of the new Standard Testing Laboratory and ultimately become a part of it.

5. That special revenue bonds in the amount of \$15,000 be authorized to cover the preliminary work of organizing the new Standard Testing Laboratory, and to provide the necessary equipment and the salaries of the necessary staff of Chemists and Assistants to begin work at once in the temporary laboratory at the corner of Franklin st. and W. Broadway. Respectfully submitted,

EDMUND D. FISHER, OTTO H. KLEIN, CHAS. N. SWIFT, HENRY BRUERE, H. RAPHAEL, J. L. PULTZ, Commission on Standardization.

Frederick A. Ross, Fire Expert and Drill Instructor, 118 W. 90th st., New York City, February 9, 1911.

Hon. EUGENE W. SCHEFFER, Secretary, Department of Health, New York City, New York:

Dear Sir—I desire to set before you fully, my reasons for so strongly urging the installation of fire protective devices throughout the Sanatorium at Otisville, New York.

First of all, it should be remembered that that institution is so situated as to be absolutely dependent upon its own internal equipment in the event of fire. There is no possibility of outside help being secured.

Second, the nature of the buildings, their construction and occupancy, is such as to make them a particularly bad fire hazard. Of light wooden construction, they would offer no resistance to flames, and would be rapidly consumed unless a fire was checked at its start. The buildings are so situated with reference to each other, as to make it quite probable that a fire originating in one building and not quickly attacked, would communicate to others, and result in the destruction of a large section of the institution.

Third, the internal conflagration hazard of the institution is aggravated by its exposed situation on the hillside, where it would be subject to the unchecked sweeping effect of high winds, which would carry light burning embers to a great distance.

The installation of a fire-alarm system which would give instant and accurate notification of fire and its location, the use of the several large chemical engines which I have recommended, and the maintenance of a capable, well organized and drilled fire-fighting force, would reduce the hazard to this property very largely. Under such conditions, an efficient fire-fighting force, well equipped with extinguishing apparatus, could be quickly concentrated at any part of the institution.

I would also urge upon your consideration that the fire-alarm system, the fire-fighting apparatus, and the fire-fighting organization, are all co-ordinate factors in a plan of fire protection; and that any such plan is wholly incomplete and inadequate unless all of those factors are present in it.

We already have at Otisville an organized fire-fighting force which can be developed into a very efficient organization if it is supplemented by signal apparatus and fire-fighting apparatus.

The Department of Health, in this institution, is rendering a public service which may well be classed as national in its scope.

None of the buildings in this hospital are of fireproof construction, while others are highly combustible. This latter condition, of course, adds to our difficulties. I would, therefore, respectfully renew my recommendations, and urge that you consider them carefully. Respectfully,

(Signed) F. A. ROSS, Fire-Drill Expert.

February 9, 1911.

Hon. EUGENE W. SCHEFFER, Secretary, Department of Health, New York City, City, New York:

Dear Sir—Referring to the recommendations for fire prevention and fire protection, which I have made for the Kingston Avenue Hospital in Brooklyn, I desire to urge upon your consideration what I regard as very important points affecting the lives of the inmates of that hospital, and the property embraced within the institution.

In any institution of this character, the first and paramount duty in the event of fire is to save human life. We are here confronted with a condition which renders this duty a difficult one; namely, the sick and helpless condition of the patients.

Under any and all conditions, this duty will lie first with the local force, while under some conditions it will lie wholly with them. In the event of fire, three or

four minutes would be required by the City Fire Department, under the best conditions, to reach the hospital. This time could be used to the greatest possible advantage by our local organization, provided we install a signal system which will quickly and directly concentrate them where their services are needed. This amount of time required by the City Department to respond, would be greatly increased under storm conditions, where the streets were blocked by snow.

Under certain other conditions, which are not at all theoretical, but which are always present in their possibilities, the City Department would be ten or fifteen minutes or longer in reaching the hospital. I refer in this to the possibility of there being another large fire in Brooklyn, at which the services of many engine companies would be required. In such event, if fire broke out in the hospital, companies would have to cover such great distance to reach it that they would arrive too late to be of service in saving life.

During a fire which took place in Kings County Hospital, Department of Public Charities, in the summer of 1910, a very long delay in the arrival of City apparatus was occasioned by reason of a large fire elsewhere. In January, 1909, when three (3) serious simultaneous fires broke out in Manhattan, the services of so many engine companies were required that there was but one engine company and one hook and ladder company available for other service in the enormous territory between 23d st. and the Battery, and between the East River and the Hudson.

It is therefore my firm conviction that we should be prepared at all times to render life-saving aid to the helpless sick in this institution. A fire-alarm system such as I have recommended will enable us to quickly place a well-organized force of doctors, nurses and employees in any part of the institution, prepared to do everything humanly possible to get the patients to places of safety.

We are at present operating this institution under the constant danger of its being destroyed by fire, with the consequent long interruption of the work which it is doing. The expense of the essentials which I have recommended, and now again urge, to place this institution in condition where it can avert the calamity of fire, is but small in comparison with the investment in the property, and a totally negligible factor when the character of the public service being rendered is considered.

Respectfully,
(Signed) F. A. ROSS, Fire-Drill Expert.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 7, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On July 2, 1909, the Board of Estimate and Apportionment adopted a resolution authorizing the issue of corporate stock to the amount of \$623,356.70. One item of the authorization was for the purchase of two driven well stations in Parkville and Flatlands, Brooklyn, to cost \$275,000.

The resolution of July 2, 1909, was amended by a resolution adopted by the Board of Estimate and Apportionment July 1, 1910, and concurred in by the Board of Aldermen July 19, 1910, reducing the authorization for the two driven wells in Parkville and Flatlands from \$275,000 to \$150,000.

On February 15, 1911, the Commissioner of Water Supply, Gas and Electricity requested that the Board of Estimate and Apportionment amend the resolution adopted July 2, 1909, by making the \$275,000 authorized for well stations at Parkville and Flatlands apply to driven well stations at Mapleton and Flatlands. In reporting upon this request the amendment of July 1, 1910, to the resolution of July 2, 1909, was overlooked. The resolution was amended as requested by the Commissioner, but the amount of the item for the two driven well stations in Mapleton and Flatlands was left at \$275,000, as it had not been reduced to \$150,000. In order to correct this oversight it will be necessary to adopt the following resolutions.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 4, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—In reference to a request from the Commissioner of Public Charities on March 9, 1911, for amendment of a resolution authorizing an issue of corporate stock to the amount of \$1,350,000, we report as follows:

On November 19, 1909, the Board of Estimate and Apportionment approved of the \$1,350,000 issue for the erection and completion of the Sea View Hospital, Borough of Richmond. The resolution of authorization apportioned the amounts for several structures. When estimates were received, bidders were required to bid upon the work as a whole, and not on separate buildings. On November 7, 1910, a contract for the complete work was awarded to Luke A. Burke & Sons Co., for the lump sum of \$1,083,000.

The Commissioner states that the work of constructing the buildings is so interwoven that it is difficult, if not impossible, to determine with any degree of accuracy just how much is properly chargeable against each of the subdivisions in the original resolution. To obviate this difficulty, he proposes to strike out the line item amounts, the original indicating the cost of each building, so that payments may be charged against the total amount of the contract.

We recommend that the request be approved by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan; Corporate Stock Budget Committee.

The establishment for Chairman and Rodman at \$1,350 is for either Chairmen or Rodmen on the payroll at the rate. The Municipal Civil Service Commission has approved of the proposed change in title.

The establishment for Computer at \$900 is for a minimum grade. The lowest grade in the office is \$1,050 per annum. It is proposed to change the title of an Assistant Engineer at \$2,100 per annum to Computer at the requested rate.

It is stated that establishment of three grades is necessary for the non-budgetary schedule for the Topographical Bureau, submitted by the President to your Board on March 20, 1911.

We recommend the approval of the request by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Select Committee.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Armory Board of the grade of position in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Clerk	\$1,500 00	1

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 21, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On February 3, 1911, the Secretary of the Armory Board requested the establishment for the Board, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Clerk at \$1,500 per annum for one incumbent, and the abolishment of the position of Stenographer at \$1,500 per annum. On March 9, 1911, the request for abolishment was withdrawn.

The title of Clerk is for an incumbent previously employed as a Stenographer. The new title, without change in compensation, is to conform with a ruling of the Municipal Civil Service Commission. Payment of the incumbent is withheld pending establishment.

We recommend the adoption of the attached resolution approving the amended request. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Select Committee.

Title.	Rate Per Annum.	Number of Incumbents.
Clerk	\$360 00	Unlimited
Clerk	420 00	Unlimited

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 28, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—In relation to a request of the Comptroller on March 7, 1911, for the establishment in the office of the Comptroller, in the Department of Finance, pursuant to the provisions of section 56 of the Greater New York Charter, of the grades of position of Clerk at \$360 and \$420 per annum, your Committee reports as follows:

There are no intermediate grades in the Department between \$300 and \$480. The new grades are to provide for a uniform increase in the salaries of the junior clerks.

We recommend the adoption of the attached resolution granting the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 13, 1911:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Brooklyn Disciplinary Training School for Boys of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Stenographer	\$1,050 00	1

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 5, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On February 20, 1911, the Superintendent of the Brooklyn Disciplinary Training School for Boys requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the grades of positions of Stenographer at \$1,050 per annum and Investigator at \$900 for salary increases of \$150 and \$180 per annum, respectively, for the two incumbents. In connection therewith, we report as follows:

The \$1,050 grade of Stenographer is for Abraham N. Fauer, appointed in the office of the Superintendent in September, 1907, at \$720 per annum, with maintenance. In January, 1909, his salary was increased to \$900, without maintenance. The proposed grade also is to be without maintenance. It is stated that Mr. Fauer's services have been meritorious.

Ludwig Antonius is in the position of Investigator at \$720 per annum, without maintenance, his carfare, etc., being paid from the contingency account. It is proposed to increase his salary to \$900 per annum and allow him to pay his own expenses. Carfare and similar expenses incident to the work of an investigator are properly chargeable to the contingency account. It would appear to be undesirable to cover these by a salary increase, and we recommend that this item in the request be not approved.

The Superintendent states that no additional appropriation is involved.

We recommend the adoption of the attached resolution approving of the \$1,050 grade of Stenographer, for one incumbent. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 13, 1911:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Education of the grade of position, in addition to those heretofore established, as follows:

Title.	Per Week.	Number of Incumbents.
Junior Draftsman	\$17 50	Unlimited

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 1, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On March 16, 1911, the President of the Board of Education requested the establishment of three grades of positions in the Department of Education, in compliance with the provisions of section 56 of the Greater New York Charter, as follows:

Junior Draftsman	\$17 50 per week
Junior Mechanical Draftsman	17 50 per week
Junior Architectural Draftsman	17 50 per week

The grades of Draftsman's Helper and Junior Assistant Architectural Draftsman, each at \$17.50 per week, were established in September, 1910. The Civil Service Commission has refused to certify the payrolls under the titles, and the establishment proposed is for the incumbents in the positions. The grade of Junior Draftsman at \$17.50 per week will cover the request.

We therefore recommend the establishment by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 13, 1911:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Bridges of the grades of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents
Clerk	\$300 00	Unlimited
Clerk	360 00	Unlimited
Clerk	420 00	Unlimited
Clerk	480 00	Unlimited
Clerk	540 00	Unlimited
Clerk	600 00	Unlimited
Clerk	750 00	Unlimited
Clerk	900 00	Unlimited

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salaries of said positions as set forth therein.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 6, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On March 23, 1911, the Commissioner of Bridges requested the establishment in his Department, pursuant to the provisions of section 56 of the Greater New York Charter, of the additional grades of Clerk at \$360, \$600 and \$900 per annum, for an unlimited number of incumbents. In connection therewith, we report as follows:

The grade of Clerk at \$1,050 per annum is established in the Department for an unlimited number of incumbents. The only lower grade is at \$360 per annum for one incumbent. This position is now filled. It is proposed to appoint an additional Clerk at the rate in the Municipal Garage to save the time of higher-paid employees. Under the existing establishment, all new appointments must be made to the \$1,050 grade. The Commissioner states that the \$360, \$600 and \$900 grades are requested for economy and efficiency in departmental organization.

There appears to be no reason why the establishment should be limited to the specific rates requested, as the existence of the customary intermediate grades will provide a greater administration elasticity. Grades at \$300, \$420, \$480, \$540 and \$750, therefore, would seem to be advisable.

We recommend the adoption of the attached resolution approving the request, and the additional intermediate grades. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 13, 1911:

Whereas, By opinions of the Corporation Counsel, as of June 28, 1910, and July 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in the Department of Education is illegal, unless such salary shall have been established under the provisions of section 56 of the Greater New York Charter; and

Whereas, The matter of adjusting the compensation of Janitors, and the fixation of their salaries under the provisions of section 56 of the Charter is now in the hands of a Special Committee of the Board of Estimate and Apportionment; therefore be it

Resolved, That, pursuant to the provisions of section 56 of the Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen that pending the report of said Committee the compensation of the Janitor, Public School 35, Queens, be fixed temporarily and until further modified, at the rate of \$1.296 per annum.

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the compensation of said position as set forth therein.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 12, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On March 8, 1911, the Board of Education requested the Board of Estimate and Apportionment to amend its resolution of December 1, 1910, recommending to the Board of Aldermen the fixation of the compensation of the Janitor of Public School 35, Queens, at \$1.298 per annum.

Owing to a clerical error in the original request of the Board of Education, the compensation was fixed January 31, 1911, at the rate of \$1.298 per annum instead of \$1.296. The proposed amendment is for correction of the error.

We recommend approval of establishment of the \$1.296 rate by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Select Committee.

The President laid before the Board the following communication from the Department of Water Supply, Gas and Electricity:

No. 3350.

Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, City of New York, April 11, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—A new system of bookkeeping was established by the Finance Department for the control of the accounts in the Bureau of Water Register, Borough of

Manhattan. This system provided for the listing of all meter readings and other features necessitating a considerable amount of scheduling. The scheduling required could only be accomplished with the aid of adding machines. Several were purchased and have been in practical use for some months past and have demonstrated their usefulness. In fact, it would be a physical impossibility to accomplish the work if these schedules were to be prepared by hand.

The new system of control is now in practical operation in the Bureau of Water Register, Borough of Manhattan, and is being installed as rapidly as possible in all the other Boroughs.

The machine selected is the adding and listing type with fifteen figures across the keyboard. The special feature of the machine which makes it of such valuable service to the Department, is the variable split, the shuttle carriage, and the duplex accumulator. It is also constructed to be operated by electric power. The printed forms have been standardized so as to conform to the spacing of the machine.

There are four additional machines required. Their cost with all attachments complete is \$668.12 each. It would be practically impossible to draft specifications without selecting one particular style or infringing upon the patent rights of others. I would therefore respectfully request that the Board of Aldermen grant me the authority to purchase these machines on open order. Attached hereto will be found a form of resolution which I would request that you submit to the Board for adoption. Yours truly,

HENRY S. THOMPSON, Commissioner.

The President laid before the Board the following communication from the President, Borough of Queens:

No. 3351.

The City of New York, Office of the President of the Borough of Queens, Long Island City, April 17, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, New York City:

Dear Sir—This office is in receipt of a communication from the Superintendent of Highways, to wit:

"April 10, 1911.

"Hon. WALTER H. BUNN, Commissioner of Public Works, Borough of Queens: "Dear Sir—I beg to call your attention to the following facts:

"In 1910, the sum of \$18,742.08 was expended for stone, screenings, etc., being the cost of 7,200 yards of broken stone and 1,300 yards of screenings. The allotment for hired teams, horses and carts for the same year was \$90,000 and we had the use of three Department rollers.

"For 1911, the sum of \$80,000 has been allotted, and we have contracted for the delivery of 20,175 yards of stone and 4,775 yards of screenings, which is being delivered at the present time, as well as 5,000 cubic yards of sand at a cost of \$4,450. This is a net increase of approximately 300 per cent. in the amount of material to be handled, which according to the schedule is to be delivered simultaneously in all Wards, but the allowance for teams and horses and carts has been decreased \$10,000 and no provision has been made for the purchase or hire of additional rollers. This Bureau plans to resurface about 13 miles of macadam roadway during the present season and to have the main arteries of travel in proper condition for the summer travel; to do so we must have at least two additional steam rollers and 12 teams. It is now too late to advertise, etc., for the purchase of steam rollers and I therefore request that you apply for an issue of special revenue bonds as follows:

"Hire of 2 steam rollers, including Engineer, for 324 days.....	\$3,240 00
"Hire of 12 teams for 1,924 days	11,544 00
	\$14,784 00

"Unless we can get these funds at once, the work of the Bureau will be seriously handicapped; in fact, we will not be able to carry out our plans, and I recommend that you give the matter immediate and favorable consideration. Yours truly,

"(Sgd.) EMANUEL BRANDON, Superintendent of Highways, Borough of Queens."

We venture to say that the Superintendent of the Bureau of Highways has not made his case strong enough. We personally know that he is seriously handicapped by reason, not only of lack of funds, but by the restrictions placed upon the Budget allowances for this year.

We therefore enclose resolution for the issue of special revenue bonds, amounting to \$14,784, which we would thank you to present to the Board.

Yours respectfully,

WALTER H. BUNN, Commissioner of Public Works and Acting President, Borough of Queens.

Resolved, That pursuant to subdivision 8, section 188 of the Charter of The City of New York, the Comptroller be and is hereby authorized to issue special revenue bonds to the amount of fourteen thousand, seven hundred and eighty-four dollars (\$14,784), the proceeds whereof to be expended by the President of the Borough of Queens:

To hire two (2) steam rollers and two (2) Engineers for 324 days.....	\$3,240 00
To hire twelve (12) teams, with Drivers, for 1,924 days.....	11,544 00
	\$14,784 00

—to be employed during the year 1911, under the supervision of the Bureau of Highways in repairing and resurfacing roads, the appropriation therefore being insufficient.

The President laid before the Board the following communication from the Department of Education:

No. 3352.

Board of Education, Park Ave. and 59th St., New York, April 15, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I have the honor to transmit herewith certified copies of a report and resolutions adopted by the Board of Education at a meeting held on the 12th inst., as follows:

1. Relative to the issue of special revenue bonds to the amount of \$40,805.87 for the payment of certain judgments in favor of Inspectors employed in the Bureau of Buildings of the Board of Education.

2. Relative to advancing from time to time to the principal of the School for the Deaf, Manhattan, a sum not to exceed \$400 for the payment of carfares of pupils attending said school.

3. Relative to advancing from time to time to the Inspector of Classes for the Blind, a sum not to exceed \$150 for the payment of carfares of pupils attending classes for the blind, etc.

4. Relative to advancing from time to time to the Inspector of Classes for the Blind, a sum not to exceed \$100 for the payment of carfares of pupils attending classes for the blind, etc. Respectfully yours,

A. E. PALMER, Secretary, Board of Education.

To the Board of Education:

The Committee on Finance respectfully reports that certain judgments have been entered against the Board of Education in favor of Inspectors employed in the Building Bureau, amounting to \$40,805.87, for which unforeseen liabilities no funds are available; it therefore becomes necessary to secure the issue of special revenue bonds to the amount requisite to pay the judgments, plus interest to the date of settlement.

The following correspondence has occurred between the President of the Board of Education and the Comptroller:

"April 10, 1911.

"Hon. W. A. PRENDERGAST, Comptroller:

"Dear Sir—Referring to the matter of judgments entered against the Board of Education in favor of Inspectors employed in our Building Bureau, amounting to \$40,805.87, will you kindly advise me of the date on which you will be prepared to make payment of the same, so that the interest to be allowed on the judgments may be computed and included in the requisition upon the Board of Estimate and Apportionment and the Board of Aldermen for special revenue bonds?"

"I shall be obliged if you can let me have this information before the meeting of the Board of Education on Wednesday of this week. Yours very truly,

"EGERTON L. WINTHROP, Jr., President, Board of Education."

"April 12, 1911.

"Hon. EGERTON L. WINTHROP, Jr., President, Department of Education:
"Sir—This office is in receipt of your communication of the 10th instant in which you refer to certain judgments entered against the Board of Education by Inspectors employed in the Building Bureau amounting to \$40,805.87, and you request to be advised as to the date upon which the Department of Finance will be prepared to make payment of the same, so that the interest may be computed and included in the requisition upon the Board of Estimate and Apportionment and the Board of Aldermen for special revenue bonds.

"In reply thereto I have to say that the specific date of payment will depend entirely upon the receipt of the judgment papers in the Department of Finance.

"It is the practice to progress as rapidly as possible all judgments carrying interest and to make the warrants ready for payment within five days after the receipt of the papers.

"When the funds have been made available, you may safely consider that payment of the judgments now in question will be made within the usual five days after the filing of the approved payrolls. Respectfully,

"EDMUND D. FISHER, Deputy Comptroller."

In view of the inability of the Comptroller to provide the information requested, it is recommended that a sum be asked covering, specifically, the face of the judgments, coupled with a request for such further amount for interest as circumstances and conditions may justify.

The following resolution is submitted for adoption:

Resolved, That the Board of Aldermen be and it is hereby respectfully requested to adopt a resolution requesting the Board of Estimate and Apportionment to authorize the issue of special revenue bonds to the amount of forty thousand eight hundred and five dollars and eighty-seven cents (\$40,805.87), pursuant to the provisions of subdivision 8 of section 188 of the Revised Charter, said sum to be used to provide means for the payment of certain judgments which have been entered against the Board of Education in favor of Inspectors employed in the Building Bureau, plus such further amount as may be necessary to cover the interest charges up to a day of settlement, to be fixed by the Comptroller.

Resolved, That the Board of Aldermen be and it is hereby requested to authorize the Comptroller to advance from time to time to the principal of the School for the Deaf, Manhattan, from the special school fund of the Department of Education for the year 1911 and from the item contained therein entitled "Transportation of Pupils, 1,267, Borough of Manhattan," a sum not to exceed \$400, said sum to be used for paying the carfares of the pupils attending said school, and to be accounted for by vouchers to be subsequently submitted for approval.

Resolved, That the Board of Aldermen be and it is hereby requested to authorize the Comptroller to advance from time to time to the Inspector of Classes for the Blind, from the special school fund of the Department of Education for the year 1911 and from the item contained therein entitled "Transportation of Pupils, 1,267, Borough of Manhattan," a sum not to exceed \$150, said sum to be used for paying the carfares of pupils attending classes for the blind, also the guides who accompany them to and from schools in Manhattan, and to be accounted for by vouchers to be subsequently submitted for approval.

Resolved, That the Board of Aldermen be and it is hereby requested to authorize the Comptroller to advance from time to time to the Inspector of Classes for the Blind, from the special school fund of the Department of Education for the year 1911 and from the item contained therein entitled "Transportation of Pupils, 1,269, Borough of Brooklyn," a sum not to exceed \$100, said sum to be used for paying the carfares of pupils attending classes for the blind, also the guides who accompany them to and from school in Brooklyn, and to be accounted for by vouchers to be subsequently submitted for approval.

The proposed increase of these men to \$4 per day will require the extra amount of \$454.50 requested above.

No. 3313.

The Committee on Finance, to which was referred on April 11, 1911 (Minutes, page 106), the annexed resolution requesting an issue of special revenue bonds for rental of school facilities in The Bronx, respectfully

REPORTS:

That the Board of Estimate and Apportionment having already notified this Board that it has under consideration plans for additional educational facilities in the Bronx, it recommends that the said resolution be placed on file.

Whereas, The section known as Claremont Heights is in need of immediate relief from the present school conditions that exist in that locality, a section that has increased over fifty (50) per cent. in building and population, leaving it impossible to give the children of this locality the proper education except that known as half or part time in this rapidly growing neighborhood; therefore, be it

Resolved, That the Board of Estimate and Apportionment issue special revenue bonds sufficient to rent the building on 167th to 168th st. and Findlay ave., in the Borough of The Bronx, for a temporary school.

The Committee on Finance, to which was referred on March 28, 1911 (Minutes, page 1118), the annexed resolution requesting the Board of Estimate and Apportionment to make provisions for Laborers in City employ, respectfully

REPORTS:

It recommends that the said resolution be referred to the Board of Estimate and Apportionment.

Whereas, The laborers of the various Departments employed by the City are laid off not for the lack of work, but owing to the lack of appropriation attached to each Department, and

Whereas, There is a considerable amount of damage arising not only to our highways but to our parks by the laying off of the forces when they are needed the most, and that is in the winter time, and

Whereas, In the Borough of The Bronx there is a considerable amount of damage done to property owing to lack of attention on our unpaved streets during snow and rain storms and there is no doubt that the same conditions prevail in all of the outlying Boroughs, and

Whereas, The heads of the various Departments desire to obtain the best men for their Departments, but they cannot expect men who have been employed for years by the City to remain idle for several months of each year and who have experience in the work which is allotted to them waiting for the beck and call of the various Departments, and

Whereas, Owing to the conditions that prevail by this system, the laborers and their families are compelled to exist on the charity and generosity of their neighbors and merchants of the neighborhood in which they reside, and

Whereas, This is unAmerican for the largest and richest city in the world to compel its laborers to exist on charity when there is so much can be done for them by giving them work; therefore be it

Resolved, That the Board of Aldermen hereby requests the Board of Estimate and Apportionment to appropriate enough money to the various Departments so as to enable the laborers to be employed all the year round.

The Committee on Finance, to which was referred on April 11, 1911 (Minutes, page 60), a request from the Department of Health for \$90,000 special revenue bonds for the purpose of replacing the present steam plant at Riverside Hospital on North Brother Island, respectfully

REPORTS:

That inasmuch as this issue is requested for a permanent improvement, under the provisions of the Charter it must be provided for by corporate stock. The Committee therefore recommends that the said request be referred to the Board of Estimate and Apportionment for consideration.

Department of Health, City of New York, Southwest Corner 55th Street and 6th Avenue, Borough of Manhattan, Office of the Secretary, New York, April 3, 1911. Hon. P. J. SCULLY, City Clerk, City of New York:

Sir—Enclosed herewith is a copy of a resolution adopted by the Board of Health March 28, 1911, petitioning the Board of Aldermen to request the Board of Estimate and Apportionment, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to authorize the Comptroller to issue special revenue bonds to the amount of \$90,000 for the purpose of replacing the present steam plant at Riverside Hospital of the Department of Health, located on North Brother Island, in the Borough of The Bronx, and to extend said plant to such an extent as may be necessary.

The action of the Board in advocating this appropriation is based in part upon the report and recommendation of the Superintendent of Hospitals (a copy of which is herewith also enclosed), submitted something over one year since. The amount necessary for this work was included in the estimates of the Department which were prepared to be embraced in the Budget for the year 1911, but was not allowed by the Board of Estimate and Apportionment.

The time has now come when this new heating plant is absolutely necessary to the successful operation of the Riverside Hospital, and it is urged that favorable action be taken without more delay than is absolutely necessary in order that the installation may be accomplished before the commencement of cold weather.

It is requested that you will be good enough to submit said resolution to the Board of Aldermen for consideration at your earliest opportunity.

Very truly yours,

EUGENE W. SCHEFFER, Secretary.

August 18, 1910.

Hon. ERNST J. LEDERLE, PH.D., 55th Street and 6th Avenue, New York City:

Dear Sir—In compliance with your request that I examine the piping and boilers of North Brother Island and make a preliminary estimate of the cost of repairs or renewal, I beg to make the following report:

The present piping, with the exception of pieces or short sections here and there where the pipes have been renewed or extended to serve new buildings, has become so weakened that under extreme weather conditions it is absolutely unreliable for the work required. This condition is aggravated by the fact that lines originally run

for certain buildings have been tapped and new buildings added, for example: The lines running to the Doctors' house have had the Nurses' home and stable dormitory added, thereby increasing the work on these lines by more than 150 per cent.

Sections of the pipes that have been removed show that their original capacities have been considerably reduced by the rust scale formed on the inside; this scale in many places leaves only a thin shell which the slight tap of a hammer breaks through.

You are familiar with the present operating conditions and the inadequate service that can be obtained through these pipes in many of the buildings.

It is my opinion that practically the entire piping must be shortly renewed.

As the old pipes are run promiscuously about the grounds in inaccessible places, serving only the older parts of the island, I would recommend that they be abandoned and a new system installed in a suitable tunnel sufficiently large to contain all steam and hot water lines and to admit of examination and repairs; this system to extend to the newly acquired grounds where the location of the buildings has been determined and be arranged for two future loop extensions to the parts where the locations are not yet fixed.

This would be more expensive in immediate cost, as it would be providing service mains for future buildings, but it would be less expensive in maintenance and operation, and is the only way in which a comprehensive plan looking to the future development of the plant can be executed.

I would recommend the placing of the gas lines adjacent to the tunnels, but outside, with a separate pit at the low point for the removal of condensation. The estimated cost of the work as above outlined is \$70,000.

I would suggest the extension of the water main to the newly acquired ground with hydrants for fire purposes, etc., but assume that this would be done by the Department of Water Supply, Gas and Electricity. I would further suggest the laying of electric conduits in connection with the tunnel work, which would cost approximately \$5,000, with manholes, etc., ready for the wires.

The boiler plant is of insufficient capacity to properly provide for the present requirements, exclusive of the two new buildings now being erected. The laundry to run economically should have from 75 to 80 pounds steam pressure. It is compelled to run at about 55 pounds and under, depending on the steam demanded for heating purposes. Should a boiler break down during a cold spell the laundry would probably have to close if the hospital service was full.

There is no room in the present boiler house for additional boilers.

I would recommend that the boiler room be extended to the west sufficiently to provide for four new 150-h.p. boilers and that these boilers be installed. This would meet the present needs, make possible the renewal of the three old horizontal tubular boilers, as the growth of the plant will require. Repairs on these old boilers are now a necessity and they have reached that point where they will be increasingly expensive to keep in operation and repair.

The cost of the boilers and the extension would be approximately \$30,000.

I believe it would be impossible to get new boilers or a new pipe system in operation for the present winter, and if such is the case, certain repairs will be required to make the plant reasonably fit to enter the winter service.

The pipe lines running to Pavilions 10, 11 and 12 should be renewed and the three old boilers should be relined and overhauled. This would cost approximately \$2,500.

No assurance can be given that other lines will not fail during the winter, but it is impossible to anticipate where the failure would be or to provide against it, unless it is decided to relay the old lines instead of executing the more comprehensive plan. Very truly yours,

(Signed) WILLIAM E. AUSTIN.

Department of Health, City of New York, Southwest Corner 55th Street and 6th Avenue, Borough of Manhattan, Office of the Secretary, New York, March 31, 1911.

Hon. PATRICK J. SCULLY, City Clerk, City Hall:

Sir—At a meeting of the Board of Health of the Department of Health, held March 28, 1911, the following resolution was adopted:

Whereas, The Department of Health, when submitting its estimate of amounts required for expenditure during the year 1911, included therein an item of \$90,000 to provide for the replacement of the existing steam plant at the Riverside Hospital, and directed attention to said item in an accompanying explanatory brief upon said estimate in the following language:

"This amount includes the proposed replacement of the present steam plant at Riverside Hospital at an estimated cost of \$90,000, for which provision must be made in the 1911 Budget or through issue of revenue bonds, with the alternative of closing the hospital, as the existing plant will not run another year"; and

Whereas, Provision was not allowed for such replacement by the Board of Estimate and Apportionment in the 1911 Budget; and

Whereas, The Present steam plant, principally constructed in 1889, is totally inadequate for the purpose of supplying heat to the existing buildings at said Riverside Hospital, the past winter having been successfully weathered only by reason of its having been comparatively mild and open, and through the exercise of constant watchfulness and repair to said steam plant; and

Whereas, There are now in course of construction at said hospital two concrete pavilions having an aggregate capacity of 250 patients, which upon completion will practically double the present capacity; and

Whereas, Said pavilions will be ready for occupancy before the commencement of the winter of 1911-1912, should provision then exist for an adequate supply of heat; and

Whereas, Competent authority has advised this Board that six months will be required to effect said improvements, and therefore such improvements should be initiated without delay to ensure their completion before the inception of the winter of 1911-1912, therefore be it

Resolved, That the Board of Aldermen, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, be and it is hereby respectfully petitioned to request the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds to the amount of ninety thousand dollars (\$90,000), the proceeds whereof to be used by this Board for the purpose of replacing the present steam plant at Riverside Hospital, North Brother Island, Borough of The Bronx, including the construction of an extension to the present boiler house, pipe galleries, conduits and other work incidental thereto.

EUGENE W. SCHEFFER, Secretary.

New York, March 1, 1910.

To the Sanitary Superintendent, Department of Health, New York City:

Dear Sir—I would respectfully recommend that the steam plant of the Riverside Hospital be thoroughly overhauled, new boilers installed, a pipe gallery constructed and the plant brought up to the standard necessary for the proper heating of the hospital.

At the present time the main steam line is carried through a brick conduit from the boiler house to the east 90 feet. This conduit contains 6-inch steam line, 5-inch return, 2-inch hot water line and 3-inch gas line, all of which have been in position over twenty years.

On this section the steam return and gas lines are in good condition. Hot water line is in very bad condition and must be renewed. From the end of this main conduit to the Doctors' house there is a 300-foot brick conduit containing 2½-inch steam line, 1½-inch return, 1¼-inch hot water, 1¼-inch gas line. This was originally intended for the Doctors' house only, but to it has been added Pavilions 8 and 9, the Nurses' home and the stable, with the result that the supply to all of these buildings is not sufficient for their wants. In addition to this the hot water and gas lines are in bad condition. From the end of the main conduit to Pavilion 1, a distance of 150 feet, is 4-inch steam line with the accompanying returns, hot water and gas lines in good condition. This line also supplies Cottages 1 and 2.

From the end of the main conduit to the kitchen, a distance of 60 feet, there is 3-inch steam line, 2-inch return, 1¼-inch hot water and 2-inch gas line. The steam and return lines are in fair condition. The hot water and gas lines are in very bad condition and must be renewed. From the kitchen to the front of Pavilion 4, a distance of about 80 feet, is a 3-inch steam line, 2-inch return, 1½-inch hot water, 2-inch gas line; all of these lines, with the exception of the steam, are in very bad condition and should be renewed. From Pavilions 4 to 7 there is an extension of these lines about 200 feet, 2-inch steam, 1½-inch return, 1½-inch hot water, 2-inch gas line, all in a very bad condition.

From Pavilion 4 to the chapel, a distance of about 150 feet, there is an extension of the above line, the same size pipes all in very bad condition. From the boiler room to the laundry, a distance of about 150 feet, there is a brick conduit contain-

ing 2½-inch steam line, 2-inch return, 1¼-inch hot water, 3-inch gas, all in bad condition. From the laundry to Pavilions 10, 11 and 12, and storehouse, a distance of 380 feet, a brick trench containing 2½-inch steam line, 2-inch returns, 1¼-inch hot water, 2-inch gas line, all in bad condition. All must be replaced by new installation. Yours respectfully,

(Signed) ROBERT J. WILSON, Superintendent of Hospitals.

The Committee on Finance, to which was referred on April 11, 1911 (Minutes, page 63), the annexed request from the Department of Public Charities for \$4,100 special revenue bonds for establishment of an ambulance service for insane patients, respectfully

REPORTS:

That, having examined the subject, it believes the proposed improvement to be necessary. This application is endorsed by the State Charities Aid Association in a letter which is hereto attached.

The Committee recommends that the accompanying resolution be adopted.

Department of Public Charities, April 6, 1911.

To the Honorable, the Board of Aldermen:

Gentlemen—Chapter 557 of the Laws of 1910, confers upon Magistrates definitely the power to send alleged insane persons to the psychopathic wards of Bellevue and Allied Hospitals and to the Kings County Hospital for observation. This law was brought to the attention of the Magistrates of the First and Second Divisions, and the former doubts as to the legality of these commitments were removed, alleged insane persons charged with minor offences are now being committed regularly by the Magistrates to the psychopathic wards of these hospitals for observation.

This makes it important to provide adequate facilities for transferring these alleged insane persons in a special ambulance in charge of special trained nurses, as well as transferring others apparently insane who are in need of temporary care and observation. Bellevue Hospital has established a special ambulance service for these alleged insane persons. The Kings County Hospital already possesses a power ambulance to be used for this service, but we have the necessary help to

maintain it only part of the day. It is proposed to increase the force in order that this special ambulance service for the insane may be maintained 24 hours in the day. To do this will require the following additional help:

1 Chauffeur	\$1,200 00
2 Resident Physicians (alienists), at \$1,200	2,400 00
1 Stenographer and Typewriter Clerk	1,200 00
1 Supervising Nurse (male)	750 00
1 Trained Nurse (female)	600 00
Total.....	\$6,150 00

I would, therefore, respectfully request that special revenue bonds to the amount of \$4,100 be issued to pay the salaries of the aforesaid help for eight months of this year, beginning May 1, in order that this ambulance service may be maintained for 24 hours a day from that date. Respectfully yours,

M. J. DRUMMOND, Commissioner.

State Charities Aid Association, United Charities Building, 105 East 22d Street, New York, April 17, 1911.

Hon. FRANK L. DOWLING, Chairman, Finance Committee, Board of Aldermen, City Hall, New York City:

Dear Sir—May I say a word in behalf of the request of Commissioner Drummond, bearing date of April 6, for special revenue bonds to the amount of \$4,100 to pay the salaries of additional help in connection with the psychopathic ward at Kings County Hospital, in order to make possible an adequate ambulance service for persons suspected of being insane in the Boroughs of Brooklyn and Queens? The Standing Committee on Hospitals has made a careful study of the problem of transporting persons apparently insane to a proper place for observation. As a result of the study made by our Committee, the Trustees of Bellevue and Allied Hospitals on February 16, 1910, requested a bond issue of \$8,000 to establish such a service in connection with the psychopathic ward at Bellevue Hospital. This was granted by the Board of Aldermen March 8, 1910, and was subsequently approved by the Board of Estimate and Apportionment at their regular meeting April 29, 1910.

The service at Bellevue and Allied Hospitals has given uniform satisfaction to all concerned. Since this service became available, the number of patients coming to the hospital in an excitable state of mind has been very materially reduced, and this is entirely attributed to the fact that ambulances and trained nurses have been substituted for patrol wagons and police officers. These trained nurses in addition to having a less disturbing effect upon the patients than policemen, have been able to secure considerable data bearing upon each case coming under their care and observation. This is of great value to the alienist in the subsequent diagnosis of the case.

From the time of the establishment of this service in October, 1910, to February 28, 1911, 284 persons have been transferred to the psychopathic ward at Bellevue Hospital in an ambulance with special trained attendants as follows:

	Men.	Women.	Total.
From private homes of patients.....	58	65	123
From City Magistrates' Courts.....	40	14	54
From workhouse and jail.....	2	..	2
From precinct stations.....	37	17	54
From private hospitals.....	9	9	18
From public hospitals and Department of Public Charities..	13	20	33
	159	125	284

These would have otherwise been transferred to the hospitals in patrol wagons and under the supervision of a policeman.

The fact that Kings County Hospital has already a power ambulance, which is used for transporting insane persons, makes it a comparatively inexpensive matter to provide a similar service at Kings County Hospital, for the Boroughs of Brooklyn and Queens. With the present staff, it is impossible to use this ambulance for emergency work. With a small increase in the staff, this ambulance could be made available for emergency work with a trained attendant for twenty-four hours in the day. This increase is contemplated in the request of the Commissioner, bearing date April 6, 1911. As stated in his letter, chapter 557 of the Laws of 1910 has imposed additional work upon the psychopathic ward at Kings County Hospital. It is quite impossible for them with their present staff to do the work which is now made imperative. I enclose herewith data from the psychopathic wards of both Kings County and Bellevue Hospitals. It will be seen from these statistics that the psychopathic ward at Bellevue Hospital, with a total of 14,400 days' treatment, has a salary budget of \$21,616, whereas the psychopathic ward at Kings County Hospital, with 10,752 days' treatment, has a salary budget of only \$12,570. It can be seen from this and other statistics included in the attached memoranda that Kings County psychopathic ward is badly undermanned as compared with the psychopathic ward at Bellevue Hospital, and certainly no one will say that Bellevue is overmanned.

Inasmuch as experience at Bellevue Hospital has demonstrated the value of such a service as is contemplated, and inasmuch as the present method of using patrol wagons and patrolmen for transporting alleged insane persons is detrimental to the possible cure of such persons and because of the fact that additional work has been imposed on the psychopathic ward by virtue of the enactment of chapter 557 of the Laws of 1910, we trust that the Finance Committee will report favorably this request of the Commissioner of Public Charities for the modest amount of \$4,100.

Very truly yours,

HOMER FOLKS, Secretary.

March 29, 1911.

Psychopathic Ward, Kings County Hospital.

No. 3289.

The Committee on Finance, to which was referred on April 11, 1911 (Minutes, page 72), a request from the Board of Health for \$10,000 special revenue bonds for food supplies at the tuberculosis camps on ferry boats "Middletown" and "Susquehanna," respectfully

REPORTS:

That having examined the subject, it believes the proposed issue to be necessary. Heretofore these supplies were purchased by private subscription, and it is now deemed proper to have the City assume this burden. Attached hereto is a schedule showing supplies required. The Committee recommends that the accompanying resolution be adopted.

Application for Bond Issue of \$10,000 for Food Supplies for Tuberculosis Boat Camps.

City of New York, Department of Health, Office of the Commissioner of Health, April 18, 1911.

Hon. FRANK L. DOWLING, Chairman, Finance Committee, Board of Aldermen, City Hall, New York, N. Y.:

Dear Sir—Referring further to the above application now before your Committee, I beg to advise you that the average daily attendance at the tuberculosis day camps located on the ferryboats "Middletown" and "Susquehanna," between May 1 and December 31, 1911, will approximate 100 on the "Middletown" and 80 on the "Susquehanna."

There is on file in the office of the Chief Clerk a statement prepared by the Charitable Committee heretofore meeting the cost of food supplies, which shows that such cost between January 1 and September 30, 1910, amounted to \$6,626.64. The average cost per diem, therefore, dividing such cost by the number of days during this period (273) amounts to \$24.28 per diem. The average attendance during this period was 80. The average daily-patient-cost is therefore \$0.30.

Assuming that the average census between May 1 and December 31, 1911, will be 180, the total cost per diem is, therefore, \$54, which, multiplied by the number of days between May 1 and December 31 (245) amounts to \$13,230. The proposed bond issue is for \$10,000. It is probable that, with economy, this sum will suffice.

There is enclosed a copy of a report of the General Medical Officer relative to the necessity of furnishing these food supplies.

Very truly yours,

ERNST J. LEDERLE, Commissioner.

Report of General Medical Officer to the Commissioner of Health, Relative to Tuberculosis Boat Camps.

City of New York, Department of Health, Office of the Commissioner of Health, March 29, 1911.

Hon. ERNST J. LEDERLE, Commissioner of Health, Department of Health, City of New York:

Sir—I desire to direct your attention to the following facts:

An essential part in any comprehensive scheme for the administrative control of tuberculosis in a large city consists in some form of day camp for the care of those cases of tuberculosis which for one reason or another cannot be removed from their homes and yet who greatly need more fresh air and better food than can be obtained in their homes.

In New York it has been difficult to meet this requirement owing to the excessive value or absolute lack of land available for such purposes near the crowded parts of the City where such day camps should be established. About three years ago two volunteer organizations undertook to supply this need in part by the establishment of such camps on discarded ferryboats. One of these was opened on the ferryboat "Middletown," moored at the foot of East 91st street, and the other, the "Susquehanna," moored at the foot of North 2d street, Brooklyn, the former under the supervision of

the Women's Auxiliary of the Department of Health Clinics, of which Mrs. J. Borden Harriman is Chairman, and the latter under the supervision of the Committee for the Prevention of Tuberculosis of the Brooklyn Bureau of Charities.

The ferryboat "Middletown" was first loaned by the City authorities to the Auxiliary and the "Susquehanna" was loaned by the Erie Railroad to the Brooklyn Committee. About the same time the Trustees of Bellevue and Allied Hospitals opened two camps on ferryboats, one at Bellevue Hospital, at the foot of East 26th street, and the other at Gouverneur Slip, near Gouverneur Hospital, and these have been maintained by the Trustees of Bellevue and Allied Hospitals since that time.

The ferryboat "Middletown" was wholly maintained by the Auxiliary until about one year ago, when the undertaking having proven distinctly successful and important, by a resolution of the Sinking Fund Commissioners the boat was transferred to the custody of the Department of Health for the purpose mentioned above, and the employees on the boat, with the exception of one nurse, who has been paid by the Auxiliary, have been supplied by the Department of Health. The expenses for provisions, supplies, etc., have been and are still being borne by the Auxiliary. The conditions with reference to the "Susquehanna" are essentially the same.

Both these organizations asked to be relieved of the expenses of carrying on of these boats some months ago, as the value had been demonstrated and the actual control of the boats had been assumed by the Department of Health. The Board has taken no definite action in response to this request, but the time has now arrived when it will be necessary for the Department to either provide supplies for these boats or their use will probably soon be discontinued.

For sometime in the past, the Department has been conducting a clinic in addition to the other work on the "Susquehanna" in Brooklyn. On each of these boats a school has been conducted for the past two years for tuberculous children, the teachers for which are furnished by the Department of Education.

The patients come to the boats in the morning, are supplied with milk and eggs in the middle of the morning, given a full meal in the middle of the day and milk and eggs in the afternoon. The daily census of the "Susquehanna" is about 45 patients, and of the "Middletown" from 60 to 100 patients.

These two boats provide for an important need in tuberculosis work in large districts where they are greatly needed. They are to be regarded, in my opinion, as essentially a part of the tuberculosis work of the Department of Health, as the conduct of the tuberculosis clinics or of the Riverside Hospital for tuberculosis, or of the Sanatorium at Otisville. In my judgment, the Department and the City cannot properly expect or ask these two organizations to longer continue their contributions for this purpose, and I would strongly recommend that arrangements be made to supply the necessary provisions and to meet all the necessary expenses connected with the conduct of the boats. The Department of Health by accepting and conducting these boats has accepted a responsibility which it had not, up to this time, properly met.

Respectfully,

HERMANN, M. BIGGS, General Medical Officer.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be used by the Department of Health for the purpose of purchasing food supplies for issuance to tuberculosis patients attending the day camps located upon the ferryboats "Middletown" and "Susquehanna."

The Committee on Finance, to which was referred on April 11, 1911 (minutes, page 73), the annexed request for \$8,750 special revenue bonds for salaries of Nurses to be temporarily employed during summer months, respectfully

REPORTS:

That this application is to provide means for employing extra Nurses during summer months to relieve regular employees during their vacation time. The scheme is fully set forth in the letter of request. The Committee recommends that the accompanying resolution be adopted:

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st Ave. and 26th St., New York, April 6, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize the issue of special revenue bonds to an amount not exceeding \$8,750, in order to meet the salaries of 35 additional Nurses at \$50 per month for a period of five months. These extra Nurses are required in order to provide for vacations for the other Nurses permanently employed in the Department. The need for these Nurses is fully shown in the accompanying report received from the General Superintendent of Training Schools.

Respectfully,

J. K. PAULDING, Secretary, Board of Trustees.

Bellevue and Allied Hospitals, Bellevue Hospital, Office of Training Schools, March 20, 1911.

W. H. SMITH, M.D., General Medical Superintendent, Bellevue and Allied Hospitals:

My Dear Doctor Smith—As we shall be obliged to give one hundred and sixty vacations between June 1 and November 1, varying in length from ten days to four weeks, I beg that some arrangement be made whereby we can secure a sufficient number of graduate Nurses at \$50 to provide for covering the situation. Not only must we provide for vacations, but we have sixteen Nurses from the senior class leaving between March 17 and October 1. The next section does not enter until September 1, when we hope to admit a possible class of thirty pupils.

We have, at the present time, thirty-four post-graduates in the school; twenty of these finish between March 15 and October 1. To partially fill these vacancies, four new affiliations have been secured, which give us eight additional Nurses. We are hoping that all the other vacancies will be filled by post-graduates; there is, however, a noticeable decrease in the applications for summer work, consequently it will be seen that there is considerable uncertainty as to securing post-graduates during the summer.

It would seem, upon first thought, to be exceedingly bad management to wait until September 1 before admitting the first section of the next class, but with a two years' and six months' course, we cannot bring in our sections in the spring and fall six months apart, as we could with a three years' course, as it would lead to complications, which would be impossible to discuss in a communication of this length; therefore, I feel that we shall always have the present situation to face with our present length course; an outgoing senior class in the spring and an incoming class in the fall, with a decreased force during the summer months. Therefore, to provide for "vacation relief," and vacancies caused by outgoing Nurses, we shall need to make temporary provision for thirty-five graduates at \$50 per month from June 1 to November 1.

I should like to present for your kind consideration a resume of the present Nursing situation in the Hospital:

Supervision	12
Graduates employed as Head Nurses, etc.....	108
Post-Graduates	34
Pupils (including nine in the Mills' School).....	110
Affiliating pupils	17
Total	281

We have in the Hospital 1,220 beds, which must be covered day and night. These 1,220 beds, however, give a very imperfect idea of the real surface covered. We may have 1,330 patients (as recently occurred) in the Hospital. This number of Nurses includes those employed in the associated departments, such as Social Service, Dispensary, Southfield and Westfield, Dressing Office, Reception Office, Admitting Baths, Amphitheatre (7 Nurses), Diet Kitchen, Nurses' Home Supervision, Infirmary, etc., consequently the number actually engaged in the nursing care of the patient is exceedingly small.

It is our earnest desire to give these patients the best possible care, at the same time, we must not lose sight of the fact that we are conducting a training school for student nurses, also special courses for post-graduates and affiliating pupils, and that we must be prepared to give them in return for the nursing care of our patients, the best possible preparation for their chosen work. Therefore, I feel that thirty-five Nurses for "vacation relief" the very least we should require to enable us to meet the situation as herein presented. Respectfully submitted,

(Signed) C. D. NOYES, General Superintendent of Training Schools.

Approved: W. H. SMITH, General Medical Superintendent, Bellevue and Allied Hospitals.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of eight thousand seven hundred and fifty dollars (\$8,750), the proceeds whereof to be used by the Trustees of Bellevue and Allied Hospitals for the purpose of paying salaries of thirty-five additional Nurses at \$50 a month for a period of five months at Bellevue Hospital during the summer of 1911.

No. 3294.

The Committee on Finance to which was referred on April 11, 1911 (Minutes, page 76), the annexed request from the Park Commissioner of Manhattan and Richmond for \$20,000, special revenue bonds, for concerts in the parks of Manhattan and Richmond, respectively

REPORTS:

That the details of this application are set forth in the letter of request. The amount asked for 1911 totals \$5,000 less than amount allowed for 1910, notwithstanding increase in rate of pay for musicians. There is also attached a schedule showing proposed concerts. The Committee recommends that the accompanying resolution be adopted.

Department of Parks, City of New York, Boroughs of Manhattan and Richmond, Arsenal, Central Park, April 11, 1911.

To the Honorable, the Board of Aldermen, The City of New York:

Gentlemen—I beg leave to submit herewith, to your honorable Board, the application of the Department of Parks, Boroughs of Manhattan and Richmond, for an issue of special revenue bonds, under section 188 of the Greater New York Charter, to the amount of twenty thousand dollars (\$20,000), for the purpose of providing for free municipal concerts in the various parks of New York City, Boroughs of Manhattan and Richmond, during the summer season of 1911.

This special issue, along with the budget appropriation of \$30,000, will provide \$50,000 for park concerts in Manhattan and Richmond during the present year, whereas, during the year 1910, the budget appropriation and revenue bonds amounted to \$55,000, of which amount there was an unexpended balance of about \$1,149.

There are two main reasons for asking for this special revenue bond issue: The annual appropriation of \$30,000 has been the customary one for several years past, and experience has shown that it does not any longer suffice to satisfy the musical demands of the public in the Boroughs of Manhattan and Richmond.

Secondly, this year there is in force a new and higher schedule of musical union rates, which certainly, in respect to the orchestral concerts, will entail a much heavier expenditure for the same number of concerts as were given last year.

For instance, whereas the 61 orchestral concerts of 1910 cost \$18,360, the same number of concerts this year will cost just about \$25,000. The balance of \$5,000 at the band concert rate of last year would provide less than 50 concerts by the usual band of 21 members, while last year, under the \$55,000 appropriation, the band concerts numbered 280 and cost \$34,134.

In this comparison it should also be noted I have made no reference to the long established Saturday afternoon concert on The Mall, Central Park, by the Seventh Regiment Band, the cost of which was \$240 per concert, there being 43 members in the band. Respectfully,

CHAS. B. STOVER, Commissioner of Parks, Boroughs of Manhattan and Richmond.

Whereas, For many years The City of New York has maintained a system of free floating baths which have proven a boon to the many who have had occasion to use them; and

Whereas, Along the water-front of the North River there have been several, to wit: At the Battery and at the foot of W. 51st st., W. 82d and W. 98th sts., the interval of space between the two first being altogether out of relation between the intervals of the others; and

Whereas, It is reasonable to assume that no bath of the kind here referred to was established in the lower section because of the lack of open docks or appropriate space at which to locate one of said baths; and

Whereas, Inasmuch as there is now an open dock at the foot of Bloomfield st., North River, which point would prove a most desirable location for one of said baths, and of great advantage to the population of this most congested section of the City; therefore

Resolved, That the President of the Borough of Manhattan be and he is hereby respectfully requested to locate and maintain a free floating bath at the foot of Bloomfield st., in the Borough of Manhattan, and, if possible, so that the same may be ready for service and the advantages thereof enjoyed this season.

Section 224. The Borough President and the Park Commissioner having jurisdiction shall issue permits for the erection of bay windows projecting beyond the building line, provided in the opinion of the officer having jurisdiction no injury shall come to the public thereby (nor that such projection shall in any wise cause any obstruction to the street upon which such bay window is to be erected). Permits for the erection of bay windows lying within any park, square, or public place or within a distance of three hundred and fifty feet from the outer boundaries thereof shall be issued by the Park Commissioner having jurisdiction as provided in Section 612 of the Charter, as amended by section 1, chapter 723 of the Laws of 1901. Report of the Committee on Rules—

No. 2191.

The Committee on Rules, to which was referred on February 7, 1911 (Minutes, page 838), the annexed resolution in favor of requesting the Mayor to appoint a Committee to investigate requirements of law applicable to moving picture shows, respectfully,

REPORTS:

That inasmuch as any ordinance to regulate this subject must be passed by the Board of Aldermen, it would seem fitting that a Committee of this Board should make any necessary investigation, and in order to have this subject properly covered the Committee on Rules appoints the following Special Committee: Aldermen White, Chairman; McCann, Kenney, Cornell and Bolles.

FRANK L. DOWLING, WILLIAM J. HEFFERNAN, BRYANT WILLARD, W.M. T. KENNEALLY, Committee on Rules.

The Committee on Laws and Legislation, to which was referred on November 1, 1910 (Minutes, page 595), the annexed resolution in favor of the appointment of a committee to investigate the requirements of law now applicable to moving picture shows, etc., respectfully

REPORTS:

That the subject of Special Committees, under the procedure of the Board, having always been considered by the Committee on Rules, it is recommended that this matter be referred to said Committee.

Whereas, There are licensed in the City of New York upwards of 600 moving picture shows, which provide entertainment for nearly 500,000 persons daily, the attendance being nearly five times as great as that at the theatres; and

Whereas, The moving picture shows are now subject to some of the requirements of law relative to common shows and other requirements relative to theatres, which do not definitely meet the needs and problems of the moving picture situation; and

Whereas, It is of great importance that a law should be provided making definite the requirements of light, ventilation, sanitation, fire protection, inspection and licensing; therefore be it

Recommended, That his Honor, the Mayor, appoint a committee of nine to investigate the requirements of law now applicable to moving picture shows, and be it further

Recommended, That said Committee render a report as to the kind of pictures that are exhibited, and the light, sanitation, fire protection and inspection that are now actually provided, together with such recommendation as to them may seem just and proper in the premises.

MAX S. LEVINE, SAMUEL MARX, A. BRYANT WILLARD, JAMES E. CAMPBELL, CHARLES DELANEY, ROBERT F. DOWNING, MICHAEL STAPLETON, Committee on Laws and Legislation.

Which report was accepted.

Alderman Esterbrook moved that the Board do now adjourn.

The President put the question whether the Board would agree with said motion.

Which was decided in the affirmative.

And the President declared that the Board stood adjourned until Tuesday, April 25, 1911, at 1.30 o'clock p. m.

BUREAU OF WEIGHTS AND MEASURES.

Mayor's Bureau of Weights and Measures, April 14, 1911.

To His Honor the Mayor, WILLIAM J. GAYNOR:

Sir—I have the honor to submit herewith the report of the Mayor's Bureau of Weights and Measures for the quarter ending March 31, 1911.

In the following tabulated statements are given the number of investigations and inspections made, instruments sealed, complaints filed against offenders, the number of arrests made, places visited, and the kinds of business carried on where violations were found.

Measuring of Snow Vehicles.

During two months of this quarter the time of the Inspectors of this Bureau was entirely taken up with the tabulation of the cubical capacities of wagons used in the removal of snow. This work practically incapacitated the Bureau from doing its regular duties of investigation, inspection and sealing of weights and measures used throughout The City of New York, thereby resulting in a smaller number of investigations, violations and sealing of instruments than in previous years for the same period.

Under the contract as awarded by The City of New York for the removal of snow from the streets, sections 14 and 17 of the specifications provided as follows:

Section 14. Each and every vehicle used in the work under this contract shall be measured, sealed and marked by the Commissioner of Weights and Measures or by an Inspector of Weights and Measures of The City of New York before beginning upon said work. The time or times and place or places of such measurement shall be determined by the Commissioner of Street Cleaning, who shall notify the Contractor of the time or times and the place or places for such measurement. The Contractor agrees to have the vehicles present at the time or times or place or places named in such notice or notices.

Section 17. The number of cubic yards of snow and ice removed and disposed of by the Contractor shall be ascertained in the following manner: The Commissioner shall station at each of the places designated by him for loading snow and ice a loading foreman or other representative whose duty shall be to mark and punch the official tickets presented by the drivers of the vehicles engaged in the removal of snow and ice. These tickets are to be punched at the nearest division of time as printed on said tickets and only when the vehicle is fully loaded at the place designated and the ticket is presented by the driver himself with the vehicle containing the snow or ice. These tickets are to have entered upon them in indelible ink the owner's name and address, the series number of the vehicle and the capacity in cubic feet as certified by the Commissioner of Weights and Measures or the Inspector of Weights and Measures of The City of New York with a certified allowance for heaping where such allowance should be made. Computation will be made by multiplying the capacity in cubic feet given by the number of loads recorded as hauled each day; and this computation shall be reduced to the nearest one-quarter of a cubic yard for the day's work on each ticket, and shall be paid for at the price bid per cubic yard.

Upon entering office, I found that the Bureau was just recovering from entire incapacity caused by attempting to fulfill the provisions of this contract after the first snowstorm. I immediately undertook to prepare this Bureau for future storms, and found in consequence that the primary object of the Bureau of Weights and Measures (honest weights and measures) was entirely suspended. At the time it was, and it still is, a matter of serious doubt in my mind as to whether the Board of Estimate and Apportionment had the authority to place upon this Bureau the burden which belonged entirely to the Street Cleaning Department.

Knowing your Honor's desire to avoid any unnecessary litigation which would increase the burden of our taxpayers, I undertook the work of measuring the snow vehicles as a moral obligation which rested upon me, as the head of this Bureau, as The City of New York had already let its contract providing that the snow vehicles should be measured by the Bureau of Weights and Measures, and I therefore felt that the City was bound to fulfill its obligation.

Under the terms of this contract, the Street Cleaning Commissioner designated twenty-four stations to which vehicles were to be sent for measurement. At each one of these stations I placed an Inspector of Weights and Measures and assigned to him, under his direction, at least four men, temporarily transferred to this Bureau from other Departments of the City. This resulted in the work being very well done, as shown by the results thus far obtained.

I would recommend to your Honor that in the future this work be assigned to the Street Cleaning Department, where it logically belongs, and not to the Bureau of Weights and Measures, as I do not think it was your purpose when this Bureau was reorganized, or the intent of the statute, that the Department should be removed from its function, viz.: the protection of the honest merchant and the purchasing public.

Testing and Sealing of Measures.

In order that the people of the City might be protected during the summer in the purchase of those things which are more liberally used as a result of the season, this Bureau called to this office the manufacturers of ice cream and ice cream measures, and from this hearing it developed that not one of the measures in use in The City of New York for this purpose had ever been tested or sealed. It was shown also that there were upwards of a quarter of a million of such measures in

use in this City. An order was issued to the dealers to have all their measures submitted to the Mechanical Division of this Bureau in order that they might be tested and sealed, and we found as a result of that that 25 per cent. of the measures thus far submitted were short, and therefore condemned. It further appeared from this investigation that many of these measures were made short by deliberate intent, varying from one pint to one quart, according to the size of the measure.

After finding this apparent deliberate deficiency, this Bureau made sure to get in touch with every liquid measure manufacturer of The City of New York, that the public might be assured in the first instance that, upon leaving the factory and before reaching the user, that this Bureau would have examined and certified to the capacity of the measures to be used in The City of New York. This resulted in a demand from the manufacturers that an Inspector be sent to their factories in order to test and seal their measures. Owing to the lack of help, it was found that it would be impossible to comply with their requests, which resulted in the formation of an ordinance by your Honor (now in the hands of the Board of Aldermen) that will entirely cure this situation and bring about the correction of the wrongs perpetrated by the manufacturers in their compliance with orders given by cheats and frauds for short measures.

Peas and Beans.

After an investigation made by this Bureau into the methods of dealers in dried peas and beans, the fact was disclosed that the custom for years was to sell their goods by bushel measure. The General Business Law specifies the weight of a bushel of dried peas or beans to be sixty pounds net. We found, after a hearing given all the dealers of such commodities, that most of their number sold beans by the arbitrary weight of fifty-five to fifty-eight pounds to a bushel, instead of sixty, as required by the statute. Further, that in the sale of beans the bag and dirt accumulating therein amounted to from three to four and a half pounds, and was sold as net weight.

As a result of this investigation, and the orders issued from this Bureau, we find a material change in the manner of sale from the so-called bushel weight (or dirt weight, as it is familiarly termed in the Bureau) to the weight in accordance with the standard.

Farmers' Markets.

The attention of this Bureau was centred on the farmers' markets situated in Wallabout Market, Brooklyn. On March 24, this market was visited by a staff, which arrived there before the opening hours of the market, viz.: 5.30 a. m., with a full testing outfit for the purpose of testing bushel baskets. This work was done by comparing the bushel basket with our dry standard bushel by filling the standard with beans and then pouring them into the basket to be tested. This testing resulted in the condemnation and confiscation of 1,600 so-called bushel baskets which were short of standard from two to five quarts. This raid and confiscation had the effect of bringing to this office the basket manufacturers to get the exact dimensions that this Bureau requires for a standard bushel, because the farmers, knowing that a penalty will hereafter be imposed upon the user of a false bushel basket, refuse to purchase those which the basket manufacturer terms the bushel basket but which in reality does not contain full measure.

In order to make this correction doubly sure, this Bureau has stationed two inspectors at each of the farmers' markets on market days, in order that there may be an assured correction before the spring crops are sent here for sale to the consumer.

Branch Stations of the Bureau.

Knowing of your Honor's anxiety to supply means of correcting false weights and measures in the adjoining Boroughs, and to make it more practical for the merchant to have his scale tested and sealed, I have been devoting my attention to the opening and equipping of a mechanical division in the Boroughs of Queens and Brooklyn, respectively. There has been established a station in the Borough of Queens, located at 48 Jackson avenue, which is about to be opened as a testing station of this Bureau for the merchants there. Negotiations are also under way for establishing a branch office in the Borough of Brooklyn.

In the equipment which we contemplate purchasing, we hope to have stations established in each of our Boroughs which will surpass any weights and measures department in any State of the United States.

Recommendations.

I earnestly recommend that there be a bond issue for the employment of ten additional Inspectors, in order that there may be a more regular supervision of the retail stores, which with the present staff it is impossible to cover with any regularity.

I know of no department in the City government in which an automobile can be of greater service than in the Bureau of Weights and Measures. It is necessary in order to carry on our raiding system, which is done spasmodically.

In order that there may be no knowledge as to when a raid might be expected, it is required that the Inspectors use great haste in going from one market to the other, as I have learned by experience that a system of notification prevails as between the buyer and jobber.

If this Department had an automobile, the Inspectors could be carried along and dropped into each one of these stalls, and could strike at once before any information of the intended raid could be sent out.

An automobile would be of further use when it is necessary for the Department head to leave his office under an urgent call in which an Inspector might have some doubt as to his or her authority to arrest. In case of such doubt, my instructions to the Inspectors make it compulsory that the main office be consulted.

It would also keep me in closer touch with the executive work of the men and the Borough offices, and the personal supervision of the field work.

Public Weighers.

There exist within The City of New York about seventy-five persons engaged in the weighing of merchandise for the public. They pass under the following different designations: Licensed City Weigher, Public Weigher, City Weigher, Official Weigher, Weigher. They receive their licenses from the various exchanges, such as the Produce Exchange, Cotton Exchange, Metal Exchange, etc., and they are entirely without supervision.

I would earnestly recommend that an ordinance be enacted wherein these so-called Weighers be placed under the jurisdiction of the Mayor's Bureau of Weights and Measures.

The official coal weighing stations are under the supervision of the Mayor's Bureau of Weights and Measures, which gives the public an assurance of their correctness. The other so-called Weighers are responsible to no one but the exchanges by whom they are employed, which gives absolutely no assurance to the general public. Respectfully,

JOHN L. WALSH, Commissioner.

The width of said sidewalks shall be twenty-two and one-half (22½) feet;—except that on the easterly side of 5th avenue between 58th and 59th streets the cut is to be diagonal; starting at the seven and one-half foot point on the northerly side of 58th street and diminishing to nothing at the present curb on the southerly line of the Savoy Hotel property; and on the westerly side of the avenue a slight change is to be made in the curvature of the curb, starting from the present sewer-basin-head and moving back the curb approximately two (2) feet at its greatest point, so as to make a roadway approximately uniform in width, with the westerly curb parallel to the easterly curb, as above described; and be it further

Resolved, That this resolution shall not be deemed to in any way alter, amend or affect a certain order issued by the Superintendent of Buildings for the Borough of Manhattan, and approved by the President of the Borough of Manhattan, under date of January 3, 1911, providing for certain ornamental projections as therein specified; and be it further

Resolved, That the President of the Borough of Manhattan be and he is hereby directed to construct the said roadway to the said width of fifty-five (55) feet, and the said sidewalks to the said width of twenty-two and one-half (22½) feet from the curb line, except as above described, in accordance with the foregoing resolutions; except that where there are existing encroachments or encumbrances which do not extend outward from the building line for distances greater than those given by the above mentioned notice of the Superintendent of Buildings, then said sidewalks are to be constructed up to said encroachments or encumbrances; and where encroachments or encumbrances extend for greater distances than those specified from the building or house line, then the said Borough President is hereby authorized and directed to remove or cause to be removed all that portion or portions of said encroachment or encumbrances less than ten (10) feet above the curb grade back to the distances specified; and he is further hereby authorized and directed to remove or cause to be removed all portions of vaults which may be found to exist below the elevation of the curb and extending beyond the new curb line, as above established, which are not altered by the occupants of said vaults, or the owners of the adjoining property, so as to make possible the physical change in roadway and sidewalk widths in conformity with the requirements of this resolution, and to the satisfaction of the Borough President.

Whereas, The Richmond Light and Railroad Company has under date of January 6, 1911, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a street surface railway, as an extension to its existing system, upon and along Wadsworth avenue and other streets and avenues in the vicinity of Fort Wadsworth, Borough of Richmond; and

Whereas, Section 172 of the Railroad Law and Sections 72, 73 and 74 of the Greater New York Charter, as amended by Chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on January 19, 1911, fixing the date for public hearing thereon as March 2, 1911, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in "The Sun" and "New York Commercial," newspapers designated by the Mayor, and in the City Record for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Richmond Light and Railroad Company, and the adequacy of the compensation proposed to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Richmond Light and Railroad Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Richmond Light and Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant of the same, embodying all the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of the City of New York be and he is hereby authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This contract, made this _____ day of _____, 1911, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Richmond Light and Railroad Company (hereinafter called the Company), party of the second part, witnesses:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double track street surface railway, as an extension to its present railway, with the necessary wires and equipment, for the purpose of conveying persons and property in the Borough of Richmond, in The City of New York upon the following route, to wit:

Beginning at and connecting with the existing tracks of the Company in New York avenue at or near its intersection with a private street known as Wadsworth avenue; thence by double

track southwesterly in and upon said Wadsworth avenue to Tompkins avenue; thence across said Tompkins avenue to a private right-of-way; thence in a southerly direction along said private right-of-way to Sea avenue; thence across Sea avenue to a private right-of-way; thence southerly along said private right-of-way to Florida avenue; thence along Florida avenue to Richmond avenue; thence across Richmond avenue to Ocean avenue and there connecting with the existing tracks of the Company.

And to cross such other streets and avenues, named and unnamed, as may be encountered in said route.

The said route with turnouts, switches and crossovers hereby authorized is shown upon a map entitled: "Map showing proposed alteration in the Richmond Light and Railroad Company, in the Borough of Richmond, to accompany petition dated January 6, 1911, to the Board of Estimate and Apportionment, City of New York," and signed by S. F. Hazeltine, Vice-President, and Walter E. Pettigrew, Engineer; a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description, and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said three (3) months or within one (1) month thereafter make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and terminate.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor until the expiration of the term of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate thereafter prevailing until the new rate shall be determined and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

(a) The sum of five hundred dollars (\$500) in cash within sixty (60) days after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum which shall in no case be less than four hundred and seventy-five dollars (\$475), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of four hundred and seventy-five dollars (\$475).

During the second term of five (5) years an annual sum which shall in no case be less than eight hundred and seventy-five dollars (\$875), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of eight hundred and seventy-five dollars (\$875).

During the third term of five (5) years an annual sum which shall in no case be less than nine hundred and seventy-five dollars (\$975) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of nine hundred and seventy-five dollars (\$975).

During the fourth term of five (5) years an annual sum which shall in no case be less than one thousand and seventy-five dollars (\$1,075) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand and seventy-five dollars (\$1,075).

During the remaining term, expiring*
*Limit 25 years. To be made coterminous with grant for rights at St. George for which application is now pending.

an annual sum which shall in no case be less than one thousand one hundred and seventy-five dollars (\$1,175), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand one hundred and seventy-five dollars (\$1,175).

As the Company is operating both railway and electric light and power properties, it is agreed that the gross annual receipts mentioned above shall be the portion of the gross receipts from the railway property of the Company, as distinguished from the electric light and power property, as shall bear the same proportion to the whole gross receipts from such railway property as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City, pursuant to the Railroad Law as amended.

The sum of five hundred dollars (\$500) which is hereinbefore required to be paid to the City by the Company within sixty (60) days after the date on which this contract is signed by the Mayor shall not be considered in any manner in the nature of a tax, but such payment shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially such conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the route hereinbefore described.

The use of the railway constructed by the Company under this contract, including the tracks, street and other equipment or any structure used in connection therewith, in streets and avenues and private property hereinbefore described shall be permitted by the Company, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets and avenues for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall equal the legal interest on such proportion of the actual cost of the construction of such railway and structures, and additions and betterments thereto, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation. Provided, however, that if, in the opinion of the Company, the legal rate of interest upon the cost of such railway shall be an insufficient sum to be paid for the use of such tracks, it may appeal to the Board and the Board may fix a percentage upon the cost to be paid to the Company, at a sum in excess of the legal rate of interest, if, in its opinion, such action is justified.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company, pursuant to this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed, pursuant to this contract, within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original

condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway herein authorized within three (3) months from the date upon which the consents of the property owners are filed with the Board or from the date of the order of the Appellate Division of the Supreme Court made pursuant to Section 174 of the Railroad Law confirming the determination of the commissioners appointed thereunder, that such railway ought to be constructed and shall complete the construction and place the same in full operation within three (3) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided, further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other order which may have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure of the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Richmond, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York.

Twelfth—Upon six (6) months' notice by the Board to the Company, all wires for the transmission of power, except trolley wires, for the operation of the railway, upon all or any portion of the route hereby authorized, shall be placed in conduits beneath or alongside of the railway. The Company shall provide in such conduits two (2) ducts not less than three (3) inches in diameter for the exclusive use of the City. Such ducts shall be used only by the Company for the operation of its railway and by the City, as above.

Thirteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents and the Company shall not charge any passenger more than five (5) cents for one continuous ride, from any point on its road or on any road, line or branch operated by it or under its control to any other point thereof, or any connecting branch thereof within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fourteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars, cars for the transportation of express matter, mail matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

The rate for the carrying of such property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, and may be fixed by the Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no greater sum shall be charged for such services than provided for by it.

Fifteenth—The Company shall attach to each car run over the said railway proper fenders and wheelguards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Seventeenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Eighteenth—Cars on the said railway shall run at intervals of not more than thirty (30) minutes both day and night, and as much often as reasonable convenience of the public may require, or as may be directed by the Board.

Provided, however, that the Company shall not be required to operate its cars between the hours of 1 o'clock a. m. and 5 o'clock a. m. each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Nineteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall, if required by the President of the Borough of Richmond, cause to be watered

at least three (3) times every twenty-four (24) hours when the temperature is above thirty-five (35) degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed sixty (60) feet between curb lines, in which case the Company shall cause to be watered only sixty (60) feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Provided, however, that the Company may, with the approval of the City official having jurisdiction over such matters, oil that portion of the surface of the streets and avenues between the tracks, the rails of the tracks and two (2) feet beyond the rails on each side thereof, at least twice each summer season, in such manner as may be necessary to prevent the rising of dust, and if the Company shall so oil such portions of the surface of the streets and avenues, then the Company shall not be required to water such streets and avenues as herein provided.

Twentieth—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the President of the Borough, enter into an agreement for each winter season, or part thereof, to clear an equivalent amount of street surface from house line to house line.

Twenty-first—As long as said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. In case of the neglect of the Company to make pavement or repairs after the expiration of thirty (30) days' notice to do so from the President of the Borough of Richmond, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

The Company shall cause to be paved a strip sixty-four (64) feet in width across the entire roadway of New York and Tompkins avenues at their intersections with Wadsworth avenue, and a strip sixty (60) feet in width across the entire roadway of Richmond avenue at its intersection with Ocean avenue. The precise location of such pavement and the kind and character of the same shall be as determined by the President of the Borough of Richmond, and the work shall be done in the manner directed by said President.

Twenty-second—Any alteration to the sewerage or drainage systems, or to any other sub-surface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-third—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-fourth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized to be constructed, and after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care to protect the tracks and appurtenances at its own expense, and to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-fifth—The Company covenants and agrees to abandon and relinquish and does hereby abandon and relinquish to the City all its rights and franchises to construct, maintain and operate a street surface railway upon the route beginning at the intersection of New York avenue with Wadsworth avenue; thence upon New York avenue to Richmond avenue; thence upon Richmond avenue to Ocean avenue, and the Company shall, within one year from the date on which this contract is signed by the Mayor, comply with the provisions of Section 184 of the Railroad Law in regard to the abandonment of said route so abandoned and relinquished, and shall remove therefrom any and all existing tracks of the Company within such time, and restore the pavement in the manner prescribed by the President of the Borough of Richmond. If the Company shall fail to secure the approval of the Public Service Commission or shall fail for any other reason to comply with the provisions of this subdivision within the time stipulated this contract shall be void and of no effect, and the grant made herein shall thereupon cease and determine. Provided, however, the Board may extend said period for a period or periods not exceeding in the aggregate six months.

Twenty-sixth—Should the City at any time during the term of this contract lay out a street of sixty-four (64) or more feet in width, the lines of which shall approximately correspond with the proposed street shown upon the map hereinbefore described, and made a part of this contract, as Wadsworth avenue, then the Company shall convey or cause to be conveyed the free and clear title to a strip of land sixty-four (64) feet in width lying within the lines of such new street and extending from New York avenue to Tompkins avenue, and the Company agrees on one year's notice to alter the position of the curbs in said Wadsworth avenue to such position as shall be directed by the municipal authorities having jurisdiction and the Company shall cause to be paved the entire portion of the roadway between the new curb lines of said Wadsworth avenue which is not now paved under the supervision of the municipal authorities having jurisdiction in such matters and such authorities shall designate the kind and character of the pavement to be laid.

Should the City at any time during the term of this contract lay out a new street along all or any portion of the railway hereby authorized, between the northerly line of Richmond avenue and the westerly line of Tompkins avenue, then the Company shall convey or cause to be conveyed the free and clear title to all of that portion or portions of land now claimed to be owned by the Company and shown upon the map hereinbefore described and made a part of this contract, which shall be within the lines of such new street or any portion of the same as may be laid out by the City, and should the City at any time during the term of this contract lay out the portion of such new street immediately

ly north of Richmond avenue, then the Company shall convey or cause to be conveyed the free and clear title to all of those two triangular pieces or parcels of land, one of which lies immediately south of the property of the Company, as shown upon said map and between the easterly line of Florida avenue and the easterly line of such new street, being shown upon the map hereinbefore described map as Parcel A, and the other of which has a frontage on Richmond avenue and lies between the westerly side of Florida avenue and the westerly side of such new street, being shown upon said map as Parcel B.

The conveyances hereinabove required shall be executed within thirty (30) days of the date of the approval by the Mayor of the resolution of the Board of Estimate and Apportionment adopting the map laying out such new street or streets.

The Company hereby agrees that if the City is, or shall become, entitled to acquire, and shall at any time during the term of this contract acquire or otherwise come into the possession of any of the property on which railway tracks shall be constructed on that portion of the route described herein as private property, no compensation shall be awarded for the right to have railway tracks thereon.

When the City shall have acquired or come into possession of any property, as provided above, then the rights hereby granted in the streets and avenues shall be extended to cover such property and all the terms and conditions of this contract shall be applicable thereto.

Twenty-seventh—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.

8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the Corporation held for such purpose.

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-eighth—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in the form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of the same, and may examine its officers under oath.

Twenty-ninth—In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board, acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel, on motion of the Board, to the City of New York, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Thirtieth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time, and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Thirty-first—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-second—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of one thousand dollars (\$1,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railway and the maintenance of the property in good condition throughout the whole term of this contract, and in case

of default in the performance by the Company of such terms and conditions or compliance with such orders, or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the headway, heating and lighting of cars, fenders and wheel guards, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of a violation of the provisions relating to those matters, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of one thousand dollars (\$1,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-third—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-fourth—The words "streets or avenues," and "streets and avenues," wherever used in this contract, shall be deemed to mean "streets, avenues, highways, driveways, concourses, boulevards, bridges, viaducts, public places or any other property to which the City has title or over which the public has an easement," encountered in the route hereinabove described, and upon or in which authority is hereby given the Company to construct a railway.

Thirty-fifth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This grant is also upon the further and express condition that the provisions of articles 5, 6, and 7 of the Charter of the City of New York, and the other provisions of the Railroad Law pertinent hereto shall be strictly complied with by the Company.

Sec. 4. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Sec. 5. The Company promises, covenants and agrees, on its part and behalf, to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

Dated New York, March 30, 1911. a18,m11

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment, held March 16, 1911, the following petition was received:

To the Board of Estimate and Apportionment:

The petition of New York, Westchester and Boston Railway Company respectfully shows:

Your petitioner is a railroad corporation duly organized by the consolidation of New York, Westchester and Boston Railway Company and New York and Port Chester Railroad Company, and is engaged in the construction of a railroad in The City of New York and in the County of Westchester, upon a private right of way, in accordance with the provisions of its charter, which provide for a main line from the Harlem River in The City of New York, to Port Chester, in the County of Westchester, with a branch line from Mount Vernon to White Plains, and a branch line from a point at about 180th street to Throgg's Neck, in the Borough of The Bronx. The portions of its line under construction at the present time are (1) that portion of the main line beginning at about 180th street in The City of New York and running to the City of New Rochelle, and (2) the branch line from Mount Vernon to White Plains.

In The City of New York the railroad is being constructed and will be operated in accordance with the terms of the franchises of the New York, Westchester and Boston Railway Company, one of the consolidating companies forming your petitioner, which were granted as follows:

The original franchise to cross streets intersected by its route in The City of New York was granted to New York, Westchester and Boston Railway Company by ordinance of the Board of Aldermen of The City of New York, adopted July 26, 1904, and approved by the Mayor, August 2, 1904. This franchise was amended by resolution of the Board of Estimate and Apportionment adopted July 14, 1905, approved July 21, 1905, and was further amended by contract between New York, Westchester and Boston Railway Company and The City of New York, dated January 29, 1909.

The franchise as thus amended contains the following provision:

"Said railroad company shall commence actual construction within one year from the date of the signing of this ordinance by the Mayor, and shall complete a four-track railroad upon the main line from the northerly line of the City as far south as East 174th street, on the 2d day of August, 1911; otherwise this grant shall cease and determine."

From the northerly line of The City of New York south to about 180th street the railroad is nearly completed. Practically all the grading has been done; about one-half of the steel structures for bridges and tunnels have been erected and the balance of the structures have been fabricated at the mills and are being shipped from time to time; rail has been laid over about one-third of the distance and the rail and ties necessary to complete the work are on the ground. Contracts for cars to be used on the line will probably be entered into before the first of April of this year. A large part of this work has been done in the last eighteen months. Prior to that time the work was seriously delayed, on account of litigation, and the consequent difficulty in obtaining right of way. From 180th street to 174th street no work has been done, and the electrification of the line has but recently been begun.

The delay in construction between 180th street and 174th street has been due to the necessity of reconsidering the plans for the location between those points of the railroad. Since the route of your petitioner was last amended, the uncertainty in the location of the proposed subway and rapid transit lines in the Borough of The Bronx now under consideration by your Board has made it advisable to await the final determination of the location of such proposed rapid transit lines so that the most practicable connections might be made by your petitioner's railroad with existing and proposed lines. Until these plans are fully determined, it will be unwise to complete the construction of your petitioner's railroad between the streets mentioned.

After the acquisition of the capital stock of your petitioner by the New York, New Haven and Hartford Railroad Company, the question of the method of electrification of the road became a very serious one, and the problem of determining whether or not to adopt the present New Haven system of overhead current or the existing subway system has caused delay in completing the plans for the electrification. The final plan has now been adopted and has recently been approved by the Department of Water Supply, Gas and Electricity of The City of New York and by the Public Service Commission of the First District, and will be installed as rapidly as possible. The completion of these plans, however, will occupy at least a year, and in the meantime your petitioner desires the right to operate its railroad by steam. If such right be granted, your petitioner by the end of the present year will be able to furnish rapid transit from about 180th street, near the present Subway Station at that point, to the northern part of the City and to the cities of Mount Vernon and New Rochelle.

Wherefore, your petitioner prays:

1. That section 5, paragraph 1, of the Ordinance of The City of New York, adopted July 26, 1904, approved by the Mayor, August 2, 1904, as amended by contract between the New York, Westchester and Boston Railway Company and The City of New York, dated January 29, 1909, be amended so that the figures "1911" shall be changed to "1912," thus extending the time for the completion of construction of the railroad from the northerly line of the City to about 174th street, for a period of one year.

2. That your honorable Board will further amend the said franchise by inserting in section 2 of clause 15 of the original franchise, as amended by the said contract of January 29, 1909, after the words "except steam locomotive power," the following:

"Said New York, Westchester and Boston Railway Company may, however, operate the said railroad by steam locomotive power for a period of one year from September 1, 1911, and for such further periods as may be permitted by the Board of Estimate and Apportionment, not exceeding in all a total period of two years."

Respectfully submitted,
NEW YORK, WESTCHESTER AND BOSTON RAILWAY COMPANY,

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but not to be applied to the amount of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, or situate thereon, except the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, non-paving brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the building, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioner of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
