### HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy

by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

#### Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS)  
 Department for the Aging (DFTA)  
 Department of Consumer Affairs (DCA)  
 Department of Corrections (DOC)  
 Department of Health and Mental Hygiene (DOHMH)  
 Department of Homeless Services (DHS)

 Department of Small Business Services (SBS)  
 Department of Youth and Community Development (DYCD)  
 Housing and Preservation Department (HPD)

## OFFICE OF MANAGEMENT AND BUDGET

### ■ NOTICE

#### COMBINED NOTICE OF JOINT RECORD OF DECISION (ROD) AND FINDINGS STATEMENT and NOTICE OF INTENT TO REQUEST RELEASE OF FUNDS (NOI RROF)

##### East Side Coastal Resiliency Project New York, NY

December 6, 2019

This provides notice that the City of New York's Office of Management and Budget (OMB), as the "Responsible Entity," as that term is identified by 24 CFR 58.2(a)(7)(i), together with the New York City Department of Parks & Recreation (NYC Parks), has issued a Joint Record of Decision (ROD) and Findings Statement that formally selects Alternative 4 as the Preferred Alternative to be implemented along a portion of the east side of Manhattan and related improvements to City infrastructure. OMB is the grantee of United States Department of Housing and Urban Development (HUD) Community Development Disaster Recovery (CDBG-DR) funds appropriated by the Disaster Relief Appropriations Act, 2013 (Pub. L. 113-2, approved January 29, 2013) related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster declared, pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1974 (Stafford Act) in calendar years 2011, 2012, and 2013. OMB implements HUD's obligations under the National Environmental Policy Act (NEPA) through duly authorized Certifying Officers.

The Joint ROD and Findings Statement was prepared, pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, and the City Environmental Quality Review Rules of Procedure found, at Title 62, Chapter 5 of the Rules of the City of New York (CEQR), and in accordance with SEQRA [New York Environmental Conservation Law (ECL) Article 8 (8-0101-8-0117)]. NYC Parks, as Lead Agency under SEQRA/CEQR, together with OMB, as Lead Agency under NEPA, has given consideration to the facts and conclusions relied upon in the FEIS and determined that the requirements of CEQR and Article 8, Section 8-0109 of the ECL and implementing regulations (6 NYCRR Part 617) have been met.

Pursuant to 24 CFR Section 58.43, this Notice of Intent to Request Release of Funds (NOI RROF) satisfies procedural requirements for project activities proposed to be undertaken by OMB.

**Project Title:** East Side Coastal Resiliency (ESCR) Project

**Purpose:** The purpose of the proposed project is to address coastal flooding vulnerability in a manner that reduces the flooding risk while enhancing waterfront open spaces and access to the waterfront.

**Location:** Borough of Manhattan, New York, NY

**Project Description:** On October 29, 2012, Hurricane Sandy made landfall, greatly impacting the east side of Manhattan and highlighting the need for the City of New York (the City) to increase its efforts to protect vulnerable populations and critical infrastructure during major storm events. Hurricane Sandy, a presidentially declared disaster, caused extensive coastal flooding, resulting in significant damage to residential and commercial property, open space, transportation, power, and water and sewer infrastructure, which in turn affected medical and other essential services. As part of its plan to address vulnerability to such major flooding, the City is proposing the East Side Coastal

Resiliency (ESCR) Project (the proposed project), which involves the construction of a coastal flood protection system along a portion of the east side of Manhattan and related improvements to City infrastructure. The Preferred Alternative for the proposed project is Alternative 4: Flood Protection System with a Raised East River Park.

The proposed project area begins, at Montgomery Street to the south and extends north along the waterfront to East 25th Street and is composed of two sub-areas: Project Area One and Project Area Two. Project Area One extends from Montgomery Street on the south to the north end of John V. Lindsay East River Park (East River Park), at about East 13th Street. Project Area One is approximately 61 acres and consists primarily of the Franklin Delano Roosevelt East River Drive (the FDR Drive) right-of-way, a portion of Pier 42 and Corlears Hook Park as well as East River Park. The majority of Project Area One is within East River Park and includes four existing pedestrian bridges across the FDR Drive to East River Park (Corlears Hook, Delancey Street, East 6th Street, and East 10th Street Bridges) and the Houston Street overpass. Project Area Two is approximately 21 acres and extends north and east from Project Area One, from East 13th Street to East 25th Street. In addition to the FDR Drive right-of-way, Project Area Two includes the Consolidated Edison Company of New York (Con Edison) East 13th Street Substation and the East River Generating Station, Murphy Brothers Playground, Stuyvesant Cove Park, Asser Levy Recreational Center and Playground, and in-street segments along East 20th Street, East 25th Street, and along and under the FDR Drive. The proposed flood protection system is completed on the north with a connection to the existing U.S. Veterans Administration (VA) Medical Center flood protection system.

The area that would be protected under the Preferred Alternative (the protected area) includes lands within the Federal Emergency Management Agency (FEMA) 100-year special flood hazard area (SFHA). In addition, the protected area also takes into consideration the 90th percentile projection of sea level rise to the 2050s. Based on these assumptions, the protected area includes portions of the Lower East Side and East Village neighborhoods, Stuyvesant Town, Peter Cooper Village as well as East River Park and Stuyvesant Cove Park inland of the flood alignment. Within the project area, the City is proposing to install a flood protection system generally located within City parkland and streets, which would consist of a combination of floodwalls, levees, closure structures (e.g., floodgates), and other infrastructure improvements to reduce the risk of flooding. The Preferred Alternative would raise the majority of East River Park by approximately eight feet and would limit the length of exposed wall between the community and the waterfront to provide for improved neighborhood connectivity and integration. In addition to providing a reliable coastal flood protection system for this area, another goal of the proposed project is to improve open spaces and enhance access to the waterfront, including East River Park and Stuyvesant Cove Park.

Subsequent to the FEIS, the City identified a phased construction approach in Project Area One for the Preferred Alternative where substantial portions of East River Park would be kept open throughout the construction period to partially mitigate significant adverse construction effects on open space resources. As with the construction schedule presented in the FEIS, activities under the revised construction phasing plan would commence in March 2020 and the flood protection system would be in place by the hurricane season of 2023. Although access and open space improvements for the entire project area would not be completed until 2025 under the revised construction phasing plan, unlike the previous construction plan, a substantial part of East River Park would always be available for public use during the construction period. The details of the modified Preferred Alternative, including the revised construction phasing plan, have been analyzed in a Technical Memorandum. As presented in the Technical Memorandum, the modified Preferred Alternative would not

result in any new or different significant adverse effects not already identified in the FEIS.

A Programmatic Agreement (PA) has also been prepared for the proposed project. A draft of the PA was included in the FEIS; the PA has been executed among OMB, the New York State Office of Parks, Recreation and Historic Preservation (SHPO), and the Advisory Council on Historic Preservation (ACHP), and also signed by five consulting parties – NYC Parks, the New York City Landmarks Preservation Commission (LPC), The Municipal Art Society, the Lower East Side Preservation Initiative (LESPI), and the New York Landmarks Conservancy.

The City has entered into a grant agreement with HUD to disburse \$338 million of CDBG-DR funds for the design and construction of the proposed project. The City is the grantee of CDBG-DR funds related to Hurricane Sandy for the development of a coastal flood protection system, which would be provided to the City through OMB, acting under HUD's authority.

**Estimated Project Cost:** approximately \$1.45 billion

#### **Availability of Joint Record of Decision and Findings Statement**

This is to give notice that OMB has prepared a Joint ROD and Findings Statement in accordance with the National Environmental Policy Act (NEPA; 42 USC § 4321 et seq.) and the Council on Environmental Quality (CEQ) regulations implementing NEPA 40 CFR Parts 1500 to 1508. This Joint ROD and Findings Statement is also prepared in accordance with SEQRA [New York Environmental Conservation Law (ECL) Article 8 (8-0101-8-0117)], and, pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, and the City Environmental Quality Review Rules of Procedure found, at Title 62, Chapter 5 of the Rules of the City of New York.

**Public Review:** The Environmental Review Record (ERR) for this project, which includes the ROD, Final Environmental Impact Statement (FEIS), and Technical Memorandum 001, is available online, at <https://www1.nyc.gov/site/cdbgdr/documents/environmental-records.page>. Hard copies of the ERR documentation are available for public review during regular business hours at:

- Submit comments online, at <https://www1.nyc.gov/site/escr/index.page>
- Submit comments via email, at CDBGDR-Enviro@omb.nyc.gov

All comments should be received by December 23, 2019, or fifteen (15) days from the actual date of publication, whichever is later, to be considered by OMB prior to authorizing submission of a Request for Release of Funds and Environmental Certification to HUD. If modifications result from public comment, these will be made prior to proceeding with the expenditure of funds. Once complete, responses to comments will be published on the following website: <https://www1.nyc.gov/site/cdbgdr/documents/environmental-records.page>.

#### **Request for Release of Funds and Certification**

On or about January 2, 2020, OMB's certifying officer will submit a request and certification to HUD for the release of CDBG-DR funds in the amount of \$338 million as authorized by related laws and policies for the purpose of implementing the East Side Coastal Resiliency Project.

**Environmental Certification:** OMB certifies to HUD that Melanie Hartzog, in her capacity as Certifying Officer, consents to accept the

jurisdiction of the U.S. federal courts if an action is brought to enforce responsibilities in relation to the environmental review process and that these responsibilities have been satisfied. HUD's approval of the certification satisfies its responsibilities under NEPA and related laws and authorities and allows OMB to use CDBG-DR program funds.

**Objection to Release of Funds:** HUD will consider objections to its release of funds and OMB's certification for a period of fifteen (15) days following the anticipated submission date of the Request for Release of Funds or its actual receipt of the request (whichever is later) only if they are on one of the following bases: (a) the certification was not executed by the Certifying Officer of OMB; (b) OMB has omitted a step or failed to make a decision or finding required by HUD regulations, at 24 CFR part 58; (c) the grant recipient or other participants in the development process have committed funds, incurred costs or undertaken activities not authorized by 24 CFR Part 58 before approval of a release of funds by HUD; or (d) another Federal agency acting, pursuant to 40 CFR Part 1504 has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality.

Objections must be prepared and submitted in accordance with the required procedures (24 CFR Part 58, Sec. 58.76) and shall be addressed to Tennille Smith Parker, Director, Disaster Recovery and Special Issues Division, Office of Block Grant Assistance, at U.S. Department of Housing & Urban Development, 451 7th Street SW, Room 7272, Washington, DC 20410; Phone: (202) 402-4649. Potential objectors should contact HUD to verify the actual last day of the objection period.

### **New York City Office of Management and Budget (OMB) Community Development Block Grant – Disaster Recovery (CDBG-DR) Build It Back: Disposition and Redevelopment of Single Family Housing Early Notice and Public Review of a Proposed Activity in a 100-Year Floodplain**

#### **To: All interested Agencies, Groups, and Individuals**

This is to give notice that the City of New York (the City) is proposing to undertake activities within the 100-year floodplain, relating to the U.S. Department of Housing and Urban Development's (HUD) Community Development Block Grant-Disaster Recovery (CDBG-DR) program. President Obama signed the "Disaster Relief Appropriations Act, 2013" (Public Law 113-2) into law on January 29, 2013. Among other appropriations, the Act included \$16 billion in CDBG-DR funds for "necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from Hurricane Sandy." Pursuant to 24 CFR Part 58, the City, as the subrecipient of the grant funds, has identified its Office of Management and Budget (OMB) as the Responsible Entity for maintaining the CDBG-DR Environmental Review Record. This notice is required by Section 2(a) (4) of Executive Order (EO) 11988 for Floodplain Management, and is implemented by HUD Regulations found, at 24 CFR 55.20(b) for the HUD action that is within and/or affects a floodplain.

There are three primary purposes for this notice. First, people who may be affected by activities in floodplains, and those who have an interest in the protection of the natural environment, should be given an opportunity to express their concerns and provide information about these areas. Second, an adequate public notice program can be an important public educational tool. Commenters are encouraged to offer alternate methods to serve the same project purpose and methods to minimize and mitigate impacts. The dissemination of information and request for public comment about floodplains can facilitate and enhance federal efforts to reduce the risks associated with the occupancy and modification of these special areas. Third, as a matter of fairness, when the federal government determines it will participate in actions taking place in floodplains and wetlands, it must inform those who may be put, at greater or continued risk.

#### **Background**

On November 18, 2015, the Tier I Environmental Review for the BIB Single-Family Houses (1-4 unit) program was re-evaluated in order to include an Acquisition for Redevelopment (AFR) activity. The purpose of this activity was to manage the timely disposition of single-family housing properties, severely damaged by Hurricane Sandy that could not be addressed by other options available. Via the AFR program, single-family properties that were determined to be suitable for home rehabilitation or reconstruction were acquired by the City.

**Project Description**

The proposed project involves the rehabilitation or redevelopment of properties previously purchased through the BIB AFR program in a manner that is resilient and limits future flood risk. These properties, which would be located primarily in the Federal Emergency Management Agency (FEMA) designated Special Flood Hazard Area (SFHA), would be sold to development teams, with an intent to create high-quality homes with flood-resistant materials, energy efficient features, and elevated utilities, to meet FEMA standards. All homes would be elevated above the Base Flood Elevation (BFE), as seen on the FEMA preliminary Flood Insurance Rate Maps (pFIRMS), in accordance with Appendix G of the New York City (NYC) Building Code. Upon completion, these homes would be targeted for sale to low and moderate income populations in order to create new affordable homeownership opportunities in New York City. Redeveloped homes may increase density as compared to the pre-storm density of the property, however, no home redeveloped within this program will exceed a total density of 4 units (HUD definition of single family housing is 1-4 units), and would also conform with existing NYC zoning regulations.

**Activities Within the Floodplain**

At this time approximately 62 proposed project sites (located in over 67 lots), have been identified. All of these sites fall, at least partially within the 100-year floodplain according to the FEMA 2015 Maps pFIRMS which were issued on January 30, 2015. Overall, approximately 4.04 acres of the known sites fall within the 100-year floodplain. Additional sites, which are not known, at this time, may enter the total population of sites, after being acquired through the BIB Single-Family Houses (1-4 unit) program. However, the total population of the proposed project is not expected to exceed 70 sites. Approximately 1,013 acres of the active BIB Single-Family Houses (1-4 unit) program fall within the 100-year floodplain. Future additional sites would only come from the active BIB Single-Family Houses (1-4 unit) population within Kings, Queens, or Richmond County, in New York. Acreage of the active BIB Single-Family Houses (1-4 unit) population, that falls within the 100-year floodplain, within these counties, is as follows:

- Kings County – approximately 167.58 acres
- Queens County – approximately 668.62 acres
- Richmond County – approximately 129.76 acres

Maps of the proposed project sites, and a list of floodplain information specific to each proposed project site, including pFIRM panels, is available, at <https://www1.nyc.gov/site/cdbgdr/documents/environmental-records.page>.

All interested persons, groups, and agencies are invited to submit written comments regarding the proposed use of federal funds to support the proposed disposition and rehabilitation or redevelopment activities within a floodplain. The City is interested in alternatives and public perceptions of possible adverse impacts that could result from the proposed project as well as potential mitigation measures.

Written comments should be sent to OMB, at 255 Greenwich Street, 8th Floor, New York, NY 10007, Attention: Calvin Johnson, Assistant Director CDBG-DR or via email, at [CDBGDR-Enviro@omb.nyc.gov](mailto:CDBGDR-Enviro@omb.nyc.gov). The minimum 15 calendar day comment period will begin the day after publication and end on the 16th day after publication. Such comments should be received by OMB on or before December 23, 2019.
