### AQUEDUCT COMMISSION.

*Minutes of Stated Meeting of the Aqueduct Commissioners, held at their office, No. 209 Stewart Building, on Wednesday, June 9, 1886, at 3 o'clock P. M.*

Present—Commissioners Spencer, Dowd, Commissioner of Public Works, Commissioners Baldwin, Barnes, Ridgeway, and Fish.

Also, Chief Engineer Church, and Chief Engineer Birdsall and Consulting Engineer Adams of the Department of Public Works.

The meeting was opened for public hearing pursuant to public notice, said notice having been duly published in the CITY RECORD and "Tribune" of this city. The notice was read to those present, and in response to an announcement by the President that the Commissioners were ready to hear any person interested, George W. Lyon, Esq., of counsel, appeared for Mr. William H. Deforest, owner of certain lands affected by the proposed modification, and briefly stated that his client would neither object, or consent to the proposed modification in the plans of the Commissioners with respect to the nature of the estate to be acquired by the City, in the lands on the line of the proposed Convent avenue, between One Hundred and Fortieth and One Hundred and Forty-fifth streets, leaving that matter entirely to the decision of the Commissioners and reserving all his rights as to compensation, and otherwise.

No one else appearing, the hearing was suspended for the time being, and the regular order of business taken up.

The minutes of the stated meeting of June 2, were read and approved.

The Committee of Finance and Audit reported their examination and audit of bills included in Vouchers Nos. 1752 to 1767, and on motion of Commissioner Dowd, said vouchers were approved, and ordered certified to the Comptroller for payment.

The Committee then made report upon several requests for copies of the plans, contracts, etc., for the New Aqueduct, and recommended the adoption of the following resolution:

Resolved, That the Secretary be authorized to furnish to Walter Wood, Esq., a complete set of the drawings, plans, contract forms, etc., of the New Aqueduct, at the same cost that bidders and others have been supplied; and that he be authorized to furnish a set of the same to the University of the City of New York, and to complete the set of the Engineers of the Washington Aqueduct, free of charge.

On motion of Commissioner Barnes, the resolution was adopted.

The Committee on Construction made report, dated June 7, in relation to taking the fee, in lieu of an easement in perpetuity, in the right of way lands of the New Aqueduct in Westchester County; and recommended that the Chief Engineer be directed to prepare and submit for the consideration of the Commissioners, maps showing all the parcels of lands of which, in his opinion, the fee is essential, and of those in which an easement is sufficient, and to report his estimate of the probable cost of the fee parcels.

This recommendation was adopted, and on motion of Commissioner Spencer, it was

Resolved, That the Committee on Construction is hereby requested to consult the Counsel to the Corporation upon the proper course of action to be taken by this Commission to obtain the title of lands, for the New Aqueduct, from the line between Westchester County and New York County, north to Croton Lake, in fee, or a qualified or conditional fee, instead of, or additional to, the easement below the surface already taken.

The Committee next made report, of this date, adversely to a change of the line of the Aqueduct at Shaft Site No. 8.

The matter was discussed, and then laid over for the report upon the subject heretofore called for from the Chief Engineer.

Commissioner Ridgeway offered the following resolution:

Resolved, That the Committee on Construction is hereby requested to consult the Counsel to the Corporation with regard to the power of the Commissioners to order the contractors, (except upon Sections A. and B) to construct, under their respective contracts and at the prices named therein, such additional shafts upon the line of the New Aqueduct as the Commissioners may deem necessary.

The resolution was adopted.

Commissioner Ridgeway next offered this resolution, viz.:

Whereas, It has been stated to the Committee on Construction that the bricks delivered on Sections 4 and 5 are of a quality unsuitable for the arch work of the tunnel; therefore be it

"Resolved, That the Chief Engineer is hereby directed to examine the same and report whether such is the fact, and if so to require the contractors, Brown, Howard & Co., to remove from the line of the aqueduct all the bricks now delivered on said sections; and to furnish bricks strictly conforming to the specifications of their contracts.

The resolution was adopted.

The following resolution was offered by Commissioner Barnes and adopted, viz.:

Resolved, That the Chief Engineer is hereby directed to investigate and report to this Commission whether the requirements of Section 29 of the contracts respecting light and ventilation of the tunnels are complied with by all the contractors, and hereafter to require said contractors to strictly comply with said requirements, and to keep the tunnels sufficiently free from smoke and obnoxious gases for the proper progress of the work.

Commissioner Barnes next offered the following resolution, which was adopted, viz.:

Whereas, At an inspection made by the Aqueduct Commissioners on June 8, 1886, it appeared that the brick work in that portion of the tunnel north and south of the open cut on Section No. 4 was of a character not in conformity to the contract specifications; be it

Resolved, That the Chief Engineer be and he is hereby requested to report what, in his judgment, is necessary to be done in order to correct the defects in the said work.

The Commissioner of Public Works presented a communication of this date, in relation to a reduction of the Engineer Corps of this Commission, and the saving of expense in that department, and also in the office of the Secretary.

The communication was read and the matter discussed, and on motion of Commissioner Ridgeway, seconded by Commissioner Barnes, that part of the communication relating to the Engineer Corps was referred to the Committee on Construction; and that part relating to the office of the Secretary, to the Committee of Finance and Audit, for consideration and report.

Commissioner Dowd presented the following memorandum and resolutions, viz.:

#### MEMORANDUM.

The Jerome Park Reservoir was begun in April, 1885; and at that time it was represented that the necessary surveys and soundings could be completed within a few months. I believe that the work could and should have been long since completed, and that that Engineer Corps should be at once disbanded.

I further believe, that with the information furnished by the Department of Public Works, and that since obtained by the Engineer Corps of this Commission, we now have all that is necessary with regard to the Quaker Bridge Dam and Reservoir, and therefore that the Engineer Corps on that survey can and should be dispensed with; therefore, I offer the following resolutions:

Resolved, That the Engineer Corps engaged upon the surveys and soundings of the proposed Jerome Park Reservoir, be disbanded on the 15th instant.

Resolved, That the Engineer Corps engaged upon the surveys of the proposed Quaker Bridge Dam be disbanded on the 15th instant.

The matter was discussed and the resolutions modified, and then adopted, as follows:

Resolved, That the Chief Engineer is hereby requested to report upon the surveys and soundings of the proposed Jerome Park Reservoir, and also upon the proposed Quaker Bridge Reservoir, and whether or not one or both of the Engineer Corps engaged on these surveys cannot be disbanded forthwith, without detriment to the work of the Commission.

Commissioner Baldwin called attention to the fact that the public hearings extending for over two years past in relation to the construction of the proposed Quaker Bridge Dam and the Muscot Dam were finally closed on the 27th of January last, and time given until the 1st of May for presenting written communications upon the subject, and believing that those questions should be determined without further delay, he moved that Wednesday, June 23, be now fixed for deciding said questions.

After discussion, it was agreed that on the above date the Commissioners would resume the consideration of those questions, and continue the same at each consecutive meeting until a decision is reached.

The Secretary submitted an application from Arthur B. Sinclair, for the position of Clerk, vice Buckley, resigned, and commended the applicant to the favorable consideration of the Board.

On motion of Commissioner Dowd, the Secretary was authorized to employ Master Sinclair, as office boy, at a compensation of \$5 per week.

The public hearing was resumed, and the notice again read to those who had come in since the first reading.

Mr. William S. Whiteman, owner of the parcel of land upon the Tenth avenue, opposite Shaft No. 27, appeared and stated that he would neither consent nor object to the taking of the property, having no purpose to interfere with or obstruct the work of the Commissioners, but meaning to retain all his rights in the premises.

On motion of Commissioner Baldwin, the hearing was then finally closed.

The Commissioners then adjourned.

JAS. W. McCULLOH, Secretary.

of the estimate, and shall not at any time after the submission of an estimate, dispute or complain of the statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Armory Board, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed, at the prices therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimate their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation or the Armory Board may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract and stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Board who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk, and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him by the Comptroller.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Bidders are requested, in making their bids or estimates, to use a blank prepared for that purpose by the Board, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the architect, James E. Ware, No. 239 Broadway.

The Board reserves the right to reject any or all estimates not deemed beneficial to or for the public interest. Plans may be examined, and specifications and blank forms for bids or estimates obtained, by application to the architect, at his office, No. 239 Broadway, New York.

—will be received at the Department of Public Charities and Correction, in the City of New York, until 9:30 o'clock A. M., of Friday, June 18, 1886. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Groceries, Dry Goods, Leather, Lime and Cement, and Lumber," with his or their name or names and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the estimated amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk, and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same, respectively, at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate, in addition to inserting the same in figures. Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, from time to time, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The form of the agreement, including specifications and showing the manner of payment, can be obtained at the office of the Department.

Dated New York, June 8, 1886.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 10 to 3 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or national banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall neglect or refuse, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.
