THE CITY OF NEW YORK—DEPARTMENT OF PARKS,
BOROUGHS OF BROOKLYN AND QUEENS,
LITCHFIELD MANSION, PROSPECT PARK,
BOROUGH OF BROOKLYN, November 9, 1903.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

DEAR SIR—The Local Board of the Flatbush District, Borough of Brooklyn, on July 23, 1903, by vote approved a resolution to change the map of The City of New York by laying out as a park the small plot of ground bounded by Flatbush, Bedford and Newkirk avenues and Avenue D, the desire being to secure the plot upon which stands, in a fairly good state of preservation, the Vanderveer homestead, one of the very best types of Dutch architecture of the eighteenth century, erected about 1790. It is intended to be furnished and used as a museum of Colonial and Revolutionary records and articles, and the building and contents maintained by the Society of the Colonial Daughters of the Seventeenth Century. The ground which it is proposed to acquire was purchased by the Vanderveers about the year 1677, and has since remained in the family. I am informed the entire tract can be bought for about \$40,000. I considered it most desirable to preserve this property and that a museum such as that proposed to be established, in which may be preserved the valuable relics and records of the seventeenth, eighteenth and nineteenth centuries by the public-spirited women who are interested in it.

Yours very truly,

RICHARD YOUNG, Commissioner.

After hearing Mrs. Terry, Mrs. Boaz, Mrs. Wells, Park Commissioner Young and Commissioner of Public Works Redfield in support of the proposition, the President of the Borough of Brooklyn offered the following resolution:

Whereas, It appears from the affidavit of the Supervisor of the City Record and of the publishers of the corporation newspapers, that the aforesaid resolutions and notice have been published in the "City Record" and in the corporation newspapers for ten days prior to the 11th day of December, 1903; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed change who have appeared, and such proposed change was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest to change the map or plan of The City of New York by laying out a public park bounded by Avenue D, Bedford avenue, Newkirk avenue and Flatbush avenue, in the Borough of Brooklyn, City of New York, does hereby favor the same, so as to lay out the aforesaid public park as follows:

Beginning at the intersection formed by the easterly line of East Twenty-third street with the southerly line of Avenue D;

1. Thence easterly along the southerly line of Avenue D 200.00 feet, more or less, to its intersection with the westerly line of Bedford avenue;

2. Thence southerly along the westerly line of Bedford avenue 275.00 feet, more or less, to its intersection with the northerly line of Newkirk avenue;

3. Thence westerly along the northerly line of Newkirk avenue 89.00 feet, more or less, to its intersection with the northeasterly line of Flatbush avenue;

5. Thence northerly along the easterly line of East Twenty-third street 100.83 feet, more or less, to the point of beginning.

The resolution was lost by the following vote:

Which motion was adopted by the following vote:

LAYING OUT ADDITION TO HIGHBRIDGE PARK, MANHATTAN.

In the matter of the proposed laying out of an addition to Highbridge Park, in the Borough of Manhattan, the report of the Secretary was presented, showing that the matter had been duly advertised.

The following report from the Park Commissioner was presented:

CITY OF NEW YORK—DEPARTMENT OF PARKS,
ARSENAL, CENTRAL PARK, November 20, 1903.

To the Board of Estimate and Apportionment, The City of New York:

GENTLEMEN—My attention has been called to a recommendation made by the Local Board of Improvements of the Washington Heights District, that the following land be acquired by the City for an addition to Highbridge Park, viz.:

"Beginning at a point in the easterly line of Edgecombe road where it intersects the Croton Aqueduct near the southerly line of West One Hundred and Fifty-ninth street, produced, easterly and running thence northerly and along the easterly line of Edgecombe road to a point opposite the north line of West One Hundred and Seventy-second street; thence easterly to the westerly line of Highbridge Park; thence southerly along the said park to the Croton Aqueduct at the centre of old West One Hundred and Seventieth street; thence southerly along the west side of the Croton Aqueduct to the place of beginning."

I have carefully looked into this proposed extension to Highbridge Park, and it is my opinion that it would be a most desirable acquisition, and would not only add to the possibilities for future development of the lands already acquired for the park, but because of its nearness to the Harlem river driveway, and the recently acquired Jumel mansion, the strip would be additionally valuable for park purposes.

I therefore recommend to your Honorable Board that the proper steps may be taken for the acquisition of the strip of land above described.

Respectfully,

W. R. WILLCOX,

Commissioner of Parks, Boroughs of Manhattan and Richmond.

After hearing Park Commissioner Willcox and Mr. Flannery in support of the proposition, the following resolution was adopted:

Whereas, At a meeting of this Board, held on the 20th day of November, 1903, resolutions were adopted, proposing to change the map or plan of The City of New York so as to lay out an addition to High Bridge Park, in the Borough of Manhattan, City of New York, and appointing a hearing at a meeting of this Board to be held on the 11th day of December, 1903, at 11 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action would be considered, to be published in the "City Record" for ten days prior to the 11th day of December, 1903; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that the aforesaid resolutions and notice have been published in the "City Record" for ten days prior to the 11th day of December, 1903; and

Whereas, At the aforesaid time and place, a public hearing was given to all persons interested in such proposed change who have appeared, and such proposed change was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest to change the map or plan of The City of New York by laying out an addition to High Bridge Park, in the Borough of Manhattan, City of New York, does hereby favor the same, so as to lay out the aforesaid addition as follows:

Beginning at a point in the easterly line of Edgecombe road where it intersects the land of the Croton Aqueduct, near the southerly line of West One Hundred and Fifty-ninth street, produced easterly; thence northerly and along the easterly line of Edgecombe road to a point opposite the northerly line of West One Hundred and Seventy-second street; thence easterly to the westerly line of the land of the Highbridge Park; thence southerly along said line until it meets the land of the Croton Aqueduct at the centre line of Old West One Hundred and Seventieth street; thence southerly along the westerly line of the land of the Croton Aqueduct to the point or place of beginning, the easterly line of Edgecombe road, near West One Hundred and Fifty-ninth street.

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—13.

PARK SYSTEM FOR RICHMOND.

The following report from the Commissioner of Parks was presented:

CITY OF NEW YORK—DEPARTMENT OF PARKS,
THE ARSENAL, CENTRAL PARK, November 19, 1903.

To the Board of Estimate and Apportionment, The City of New York:

GENTLEMEN—In April of the present year there was presented to your Honorable Board the recommendation of the Local Board of Public Improvements of the Borough of Richmond for the establishment of a system of parks, playgrounds and boulevards in that borough, which was referred to Mr. Lewis, Chief Engineer of your Board, and myself for examination and report.

Soon thereafter, in company with Mr. Cromwell, President of the Borough of Richmond and several representatives of the Staten Island Chamber of Commerce, Mr. Lewis and I visited Staten Island and carefully inspected the proposed park system. The plan presented had been carefully prepared by committee appointed by the Staten Island Chamber of Commerce. Maps were made and a report at some length was submitted, all of which are now before your Honorable Board, and it is, therefore, unnecessary for me to outline the details of the said plan.

After having carefully weighed the recommendations of the committee, I feel that for the most part, they have been carefully made and I would recommend that, with some exceptions, steps be taken to acquire the property described in the report.

It is my judgment that some of the properties are undesirable for park purposes and should not be acquired; notably, in the Fourth Ward parcels described as New Dorp Beach Park, Great Kills Park and Gifford's Park; and I would, therefore, recommend that those plots should be excluded from consideration.

The proposed Christopher Billop Park in the Fifth Ward should be enlarged by the addition of the plot of ground practically bounded on the north side by the Amboy road, easterly by Bentley or Sixth street, southerly by the Lower Bay of New York, and westerly by the Arthur Kill or Staten Island Sound. This park is the magnificent site along the Arthur Kill, on high ground and affording a fine view of the Lower Bay and ocean, and also a fine bathing beach. Within its boundaries is located the historic Billop house and grounds, and with the proposed addition it embraces the whole of the southern end of the island, which is the southernmost point of the State of New York. So well is it adapted for park purposes that several efforts have been made in the Legislature to authorize its purchase for a State park. The plot recommended by the committee, with the addition described, seems to be particularly appropriate for park uses.

In making the recommendations for the purchase of these lands, it is not designed that the properties should be immediately improved as parks, but that they should be held as reservations, for future development. Mr. Lewis, in his report, has set forth the percentage of acreage devoted to park purposes in the various boroughs, and it will be seen at a glance that in all of the boroughs of the city far better provision has been made for park development than in the Borough of Richmond. If the considerable areas recommended for acquisition are taken, no larger percentage of acreage will be devoted to park purposes in the Borough of Richmond than obtains in the Borough of The Bronx, or the Borough of Manhattan.

In the consideration of this subject the history of park development in this city may well be brought to your attention. Nothing of importance has been accomplished, except in those cases where the future needs of the City have been the chief consideration, and this has led to action being taken.

The lands for the Central Park and Riverside Park were acquired long before the development of the City in their immediate vicinity showed any need for parks at those points. The park areas of The Bronx were acquired at a cost of over \$9,000,000 at a time when that borough was practically an open country. Although criticism was made at the time that the needs of the City did not warrant the purchase of those parks, I think it may now be stated that it is the universal opinion that no funds of the City were ever invested for more useful purposes than the sums expended for the purchase of lands now included in the Central, Riverside and Bronx Parks.

In recommending the purchase of these lands in Staten Island, the same considerations are involved that were in the purchase of the tracts in the Borough of The Bronx, and not only will these reservations be ultimately needed for the health and comfort of the residents of the Borough of Richmond, but if they are purchased, they will afford health and recreation to the people of the other parts of our City, pending their actual development as parks.

Although The City of New York is the greatest maritime city of the western hemisphere, the fact remains that we have no great seaside park where the masses of our people can go for bathing and recreation. Among the tracts suggested in the recommendations before you, provision is made for the establishment of a large seaside park directly south of Fort Wadsworth, and it is believed that with an adequate ferry service to Staten Island, which will soon be afforded, the establishment of a seaside park would be a boon, not only to the inhabitants of Staten Island, but to a large portion of the population of the Borough of Manhattan as well. At the present time the park spaces of Manhattan are not sufficient in extent to permit of their being thrown open to those who wish to enjoy baseball, football, cricket, golf and other sports. The crowded condition of our largest park is well known. If these reservations in Staten Island are obtained, it will then be possible to throw open hundreds of acres to the pupils of our public schools and others who may there find upon City property an opportunity for the enjoyment of field sports.

It is not possible for me in this report to place before your Honorable Board the valuation of the property in the Borough of Richmond proposed to be acquired, but I am informed by those in whose judgment I have confidence that the lands embraced in the recommendation will not, in price, average more than five hundred dollars per acre. As it is proposed to take less than four thousand acres, the cost to the City would be less than two million dollars. While this is a comparatively large sum, it is a very small one when we consider the great benefits to be derived from the purchase.

It is proper to point out at this time that had the question of acquiring lands for parks been placed before the people and given proper consideration by the City authorities years ago, it would not have been necessary to purchase the very small tracts in the congested parts of the City, where it is now believed open spaces are necessary for the health and morals of the people. The single example of William H. Seward Park may be quoted. The lands for the park, situated at East Broadway and Canal street, only about three acres in extent, were acquired at a cost of over two million dollars, and yet even at this large cost no one doubts the wisdom of the purchase or questions the benefits that have already been derived and will accrue to the neighborhood where this park is situated.

It is now possible with an expenditure of even less than two million dollars to acquire a park system of about four thousand acres in the Borough of Richmond, which borough is the best adapted for park development of any of the boroughs of Greater New York.

Many of the plots recommended for purchase will make the finest sites for public parks along the entire coast. The high ridge of hills through the centre and north part of the island afford opportunities for the ultimate construction of the finest park in the whole city. Some of this land is the highest along the shore, and the landscape is of the varied and beautiful character which, at some future time, will afford an opportunity for improvement from which benefits will be derived that can hardly be indicated at this time.

In closing, I would urge that your Honorable Board give this matter your early consideration, and I would respectfully ask that a public hearing be afforded at an early date.

Respectfully,

WILLIAM R. WILLCOX,

Commissioner of Parks, Boroughs of Manhattan and Richmond.

The Comptroller moved that the Park Commissioner be requested to attend the meeting of the Board on December 22, and present his views on the matter.

OPENING EAST TWO HUNDRED AND THIRTY-THIRD STREET, THE BRONX.

The following communications and report from the Chief Engineer were presented:

LAW DEPARTMENT—BUREAU OF STREET OPENINGS,
NEW YORK, October 29, 1903.

In the Matter of Opening East Two Hundred and Thirty-third Street from the Bronx River to the Hutchinson River.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—We desire to call the attention of your Board to the fact that we believe a serious loss is resulting to The City of New York by reason of the delay of your Board to pass the necessary resolution to vest title of the lands to be acquired in this proceeding.

It appears by the testimony taken before us that one of the property owners is making a claim for a building which he had already received what is claimed by the City to be full compensation for in the White Plains road opening.

The contention made by this property owner is that by reason of the various changes which have been made by the City authorities in the lines of this street it is impossible for him to determine whether or not this proceeding will be finally concluded. Certain other property owners, appearing by their attorneys, have notified us that they have erected, or rather are about to erect, on the line of the proposed improvement and that they intend to ask the value of these improvements, provided they are completed by the time title in this proceeding vests.

It seems to us that your attention should be called to this matter and that your Board should take such steps in the matter as to vest title to the City to the lands to be taken by this proceeding as soon as possible.

Respectfully yours,

T. ELLETT HODGSKIN,
DANIEL M. CORCORAN,
JOHN W. WARD,

Commissioners of Estimate and Assessment.

LAW DEPARTMENT—BUREAU OF STREET OPENINGS,
NEW YORK, November 30, 1903.

In re East Two Hundred and Thirty-third Street.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment, City:

DEAR SIR—In April of last year a request was made to the Commissioners appointed for the opening of East Two Hundred and Thirty-third street to refrain from taking any further testimony in that portion of this proceeding extending from Baychester avenue to the Hutchinson river.

The attorneys representing the property owners appeared before this Commission and strenuously insisted upon this Commission proceeding to make awards for that portion of the property taken in this proposed improvement, and upon the ground that the Board of Estimate and Apportionment has taken no action whatever in regard to changing the lines of this improvement.

In view of the fact that testimony has been taken by this Commission and many hearings have been had, the Commission is anxious to know what the intention of the City authorities is in this matter, and whether or not it is advisable for them to make the awards upon the entire street at the present time.

Very truly yours,

JOHN W. WARD,

Acting Chairman of the Commission.

REPORT No. 1660.

November 10, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is submitted a communication from the Commissioners of Estimate and Assessment appointed for the opening of East Two Hundred and Thirty-third street from the Bronx river to Hutchinson river, recommending that the Board provide for the vesting of title to this street in the City at an early date.

Their reasons for this recommendation are that the Commission find, in taking testimony, that property owners have been erecting or are about to erect buildings within the lines of the street for which they will expect to obtain substantial awards; one case is also noted where a property owner who has received full compensation for a building in the opening of White Plains road has moved this building to a site within the lines of East Two Hundred and Thirty-third street in order that it may once more be sold to the City at a generous price. The Commissioners believe that the only way to effectually stop this abuse, of which this particular street does not furnish an isolated example, would be to vest title in the City at once, after which action property owners would not be entitled to compensation for any building erected upon or moved to a site included within the lines of the street now being opened.

The proceedings to open East Two Hundred and Thirty-third street were instituted by the Board of Public Improvements on July 17, 1901, and the Commissioners of Estimate and Assessment filed their oaths on January 17, 1902. I am advised that the expenses which have been incurred up to the present time, including Commissioners' fees, amount to \$5,773.62.

On May 29, 1903, the Board of Estimate and Apportionment adopted a general map of that part of the Borough of The Bronx east of the Bronx river which in-

cludes East Two Hundred and Thirty-third street. According to this map the lines for the easterly half of the street were radically changed—in fact the street east of Baychester avenue is virtually discontinued, although the name of East Two Hundred and Thirty-third street is retained in a new street deflecting from the lines of the former East Two Hundred and Thirty-third street and reaching Hutchinson river at a point far distant from the foot of the street as formerly laid out.

It would seem very foolish to allow the expense of this opening, so far as it affects that part of the street which has been stricken from the map, to proceed any further, and, in order to put a stop to the abuses to which the Commission call attention, I would recommend: 1. That the proceedings to open East Two Hundred and Thirty-third street from the Bronx river to Hutchinson river be discontinued, so far as they affect that part of the street between Baychester avenue and Hutchinson river, and 2. That title to the land within the lines of East Two Hundred and Thirty-third street between the Bronx river and Baychester avenue be vested in the City on December 31, 1903.

A still further argument in favor of the vesting of title to the westerly end of the street is that a viaduct is now being built across the Bronx river and the tracks of the New York and Harlem and the New York, New Haven and Hartford railroads, for eliminating the grade crossings now existing on the line of East Two Hundred and Thirty-third street, and title is required in order to permit the erection of this viaduct.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That, in pursuance of the provisions of section 1000 of the Greater New York Charter, the Corporation Counsel be and he hereby is requested to take the necessary action for discontinuing proceedings to acquire title to East Two Hundred and Thirty-third street, from the Bronx river to Hutchinson river, so far as the same affects that part of the street between Baychester avenue and Hutchinson river, in the Borough of The Bronx, City of New York.

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—13.

Whereas, The Board of Public Improvements, on the 17th day of July, 1901, adopted a resolution requesting the Corporation Counsel to acquire title, whenever the same has not heretofore been acquired, for the use of the public to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending East Two Hundred and Thirty-third street, from the Bronx river to Hutchinson river, in the Borough of The Bronx, City of New York; and

Whereas, It appears to the Board of Estimate and Apportionment, from the surveys made and information furnished to it, that there are buildings upon the lands that shall or may be required for the purpose of opening and extending said East Two Hundred and Thirty-third street; and

Whereas, The said Board has received written notice from the Corporation Counsel that Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said East Two Hundred and Thirty-third street, and that the oaths of said Commissioners of Estimate and Assessment were duly filed, as required by law, on the 17th day of January, 1902; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 12th day of December, 1903, the title to each and every piece or parcel of land lying within the lines of said East Two Hundred and Thirty-third street, between the Bronx river and Baychester avenue, in the Borough of The Bronx, City of New York, so required, shall be vested in The City of New York.

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—13.

LAYING OUT VIADUCT ACROSS JEROME PARK RESERVOIR, THE BRONX.

The following reports from the Commissioner of Water Supply, Gas and Electricity and the Aqueduct Commissioners were presented:

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,
COMMISSIONER'S OFFICE, NOS. 13-21 PARK ROW,
NEW YORK, December 2, 1903.

JAMES W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—Your letter of the 18th ult., with enclosure of a copy of a resolution of the Local Board of Morrisania, recommending the construction of a new street or viaduct across Jerome Park Reservoir, which has been referred to me, has been duly received.

In reply, I desire to say that, from the point of the interests which are under the charge of this Department, the objection against the construction of such a street or viaduct is absolute. It would interfere with the preservation of the purity of the water supply in the reservoir.

Yours respectfully,
R. G. MONROE,
Commissioner of Water Supply, Gas and Electricity.

AQUEDUCT COMMISSIONERS' OFFICE, STEWART BUILDING,
NEW YORK, December 4, 1903.

Mr. JAMES W. STEVENSON, Secretary of the Board of Estimate and Apportionment of The City of New York:

DEAR SIR—The Aqueduct Commissioners are in receipt of your communication of November 18, 1903, inclosing a copy of a resolution of the Local Board of Morrisania, Borough of The Bronx, recommending the construction of a new street or viaduct across Jerome Park Reservoir, from Jerome avenue to Sedgwick avenue, together with a copy of the report of the Chief Engineer of your Board, and asking an expression of the views of the Aqueduct Commissioners upon the advisability of constructing this viaduct.

The Aqueduct Commissioners do not consider that they are expected to express any opinion as to the public necessity of such a structure, but only to express their views on the character of construction involved and its sanitary aspect.

The Commissioners have approved Report No. 844, dated November 27, 1903, of their Chief Engineer on this subject, and herewith inclose a copy as embodying the expression of their views.

If there is any further information in detail desired on this subject, the Commissioners will be glad to furnish it upon request.

Yours respectfully,
WM. H. TEN EYCK, President.

November 27, 1903.

REPORT No. 844.

To the Aqueduct Commissioners:

GENTLEMEN—Referring to the communication to the Commissioners from James W. Stevenson, Secretary of the Board of Estimate and Apportionment, dated November 18, 1903, inclosing copy of a letter from Nelson P. Lewis, Chief Engineer, dated September 14, 1903, and a copy of a resolution of the Local Board of Morrisania, regarding the construction of a bridge across Jerome Park Reservoir at East Two Hundredth street to Sedgwick avenue at its junction with Boston avenue, and asking for the views of this Department as to the advisability of constructing such a bridge, I beg to report as follows:

It appears to me that this Commission is concerned solely with the construction of this reservoir, and it is not called on to consider the convenience of the

people in the territory bordering on the reservoir, but only to state their objections to such a bridge in respect to this reservoir as a water supply.

If a solid causeway were built across the reservoir, it would very seriously encroach on the capacity of the reservoir, which, as stated by Mr. Lewis, is being built at very great cost to the City. If, however, a stone arch bridge or a concrete steel structure of moderate span, with only the piers displacing water, were built, the storage capacity of the reservoir would only be reduced to the extent of about five million gallons, which storage is to cost the City about thirty thousand dollars (\$30,000), and which, considering what would necessarily be the great cost of such a bridge, is a small item. I believe, also, that it would be possible to design an artistic bridge which would not seriously detract from the beauties of the large sheet of water.

It is with the sanitary aspect of the case, however, with which the Commissioners are principally concerned.

The public at large are becoming more and more particular regarding the preservation of the water used for domestic purposes from any remote chance of pollution, or even seeming pollution. The Commissioners are now spending large sums of money in order to keep persons and animals from approaching near the storage reservoirs even. The whole tendency of the times is toward the more careful protection of potable water from the storage reservation to the consumer.

With either style of bridge above mentioned, the parapet walls could be high, the floor could be made perfectly tight, and the drainage could be easily taken care of, so that none of it could find its way into the reservoir; but even in this condition, the bridge would be considered a menace to the purity of the water supply.

In view of this, it would seem to me unwise for the Commissioners to endorse a project for building a bridge across this reservoir, or do anything which will tend to attract people near its borders, and also in view of the fact that they are only the constructors of the work, which, on completion, will be turned over to the Department of Water Supply for operation, who should be chiefly concerned to preserve the purity of the water.

Respectfully yours,
J. WALDO SMITH, Chief Engineer.

The Comptroller moved that the matter be referred to the Corporation Counsel for an opinion as to whether or not this Board has any power to act.

Which motion was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—13.

PARK AT FLUSHING, BEDFORD AND LEE AVENUES AND LYNCH STREET, BROOKLYN.

The matter of the proposed laying out as a public park the territory bounded by Flushing avenue, Bedford avenue, Lee avenue and Lynch street, in the Borough of Brooklyn, which was laid over on November 13, was taken up.

After hearing Alderman Stewart and Park Commissioner Young in favor of the proposed park, the Comptroller moved that the matter be laid over until the first public improvement meeting in May, 1904.

The motion was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan and the President of the Borough of Richmond—9.

Negative—President of the Borough of Brooklyn and the President of the Borough of Queens—3.

PARK AT EAST, VAN ALST AVENUE, NINTH AND TWELFTH STREETS, QUEENS.

The following communication from the Commissioner of Parks was presented:

THE CITY OF NEW YORK—DEPARTMENT OF PARKS,
BOROUGHS OF BROOKLYN AND QUEENS,
LITCHFIELD MANSION, PROSPECT PARK,
December 8, 1903.

Board of Estimate and Apportionment, New York City, New York:

GENTLEMEN—I respectfully request your Honorable Board to take steps to acquire the land located between East avenue, Van Alst avenue, Ninth and Twelfth streets for a public park. The request for change of map was favorably acted upon by the Local Board of Improvement on June 2, 1902, and the same favorable action was taken by your Honorable Board on May 29, 1903.

The proposition is a most desirable one, the property being located in the centre of Long Island City, immediately fronting the public school, with a registry of about 1,900 pupils. There is but one building, a small frame church, on the property. The transformation into a public park will be inexpensive and of great value to that section of the City, which is practically without any park accommodation whatever.

Yours very truly,
RICHARD YOUNG, Commissioner.

After hearing Commissioner Young and Mr. Schuler of the Citizens' Association in favor of acquiring the park, the Comptroller moved that the matter be laid over until the first public improvement meeting in March, which motion was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, and the President of the Borough of Queens—12.

PARK AT EAST ONE HUNDRED AND TWENTY-THIRD STREET AND EAST RIVER, MANHATTAN.

The matter of the proposed park bounded by East One Hundred and Twenty-third street, East One Hundred and Twenty-fifth street, First avenue and the East river, Borough of Manhattan, which was laid over on December 1, was taken up, and the Comptroller moved that the matter be laid over until the first public improvement meeting in March, 1904, which motion was carried by the following vote:

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, and the President of the Borough of Queens—12.

ADDITION TO CORLEARS HOOK PARK, MANHATTAN.

The following resolution of the Local Board of Corlears Hook, Borough of Manhattan, was presented:

In the Local Board of the Corlears Hook District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the "City Record" that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, By the Local Board of the Corlears Hook District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, that the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

That the map or plan of The City of New York be changed by laying out on same as an extension of Corlears Hook Park and to be used as a public park, all that land to the East of South street, as now laid out, from Jackson to Corlears street and the East river; and it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

REPORT NO. 1696.

December 3, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is submitted a resolution adopted by the Local Board of the Flatbush District, Borough of Brooklyn, on November 16, 1903, providing for opening East Twenty-fifth street, between Newkirk avenue and Beverly road.

This opening is petitioned for by Addie L. German of 87 Canarsie lane. The street is laid down upon the map of the Borough of Brooklyn and has a width of 60 feet; and it begins at Beverly road, which is the northerly end of the proposed opening.

From Beverly road to Avenue D, a distance equivalent to two long blocks, the street is not in use upon the ground. From Avenue D to Newkirk avenue it is in use, and there are a number of houses fronting upon it, sidewalks have been laid, water mains have been put in, and the street is lighted. There is one house located within the lines of the street, and that is between Canarsie lane and Beverly road. There seems no reason why the proceeding initiated by the Local Board should not be approved, and such action is recommended, the entire expense of the proceeding to be assessed upon the property deemed to be benefited.

Respectfully,

NELSON P. LEWIS Chief Engineer.

REDUCTION OF ASSESSMENT ON EXTERIOR STREET, THE BRONX.

Petitions were presented by E. L. Barnard, M. J. Earley, and Otis & Pressinger, as attorneys, on behalf of various property owners asking that the City assume a portion of the cost of opening Exterior street, from East One Hundred and Thirty-fifth street to Gerard avenue, in the Borough of The Bronx.

The following report from the Chief Engineer was presented:

REPORT NO. 1693.

December 1, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying petitions of Lucy G. Barnard, Vashti G. Eaton, John J. Bell, Bradley & Currier and the Harlem River Lumber and Wood Working Company, request that 60 per cent. of the costs of opening Exterior street, between East One Hundred and Thirty-fifth street and Gerard avenue, be placed upon the City at large.

The petitioners recite that Exterior street has already been opened to a width of 60 feet, and that the proceedings now in progress for widening this street are for the purpose of using it as a bridge approach; that the street will border waterfront property which will ultimately be acquired by The City of New York, and that relief has already been granted owners of land affected by similar proceedings to open Exterior street at another point in its length.

These proceedings, comprising a length of two blocks, or about 1,500 feet, were inaugurated by the Board of Street Opening and Improvement on October 9, 1896, and the oaths of the Commissioners of Estimate and Assessment were filed on June 7, 1899. Title to the land has not yet been vested in the City.

Exterior street, between the limits named in these petitions, has been opened under previous proceedings to a width of 60 feet, and the proceeding of reference was originally intended to secure the widening of the street to 100 feet, and also to secure an outlet to the river approximately at One Hundred and Thirty-fifth street, the southerly limit named in the resolution. On May 29 last the map of the City was changed by reducing the width of Exterior street, between One Hundred and Thirty-fifth and One Hundred and Thirty-eighth streets from 100 feet to 80 feet, and by the elimination of the area bordering on the river. A resolution is now before the Board providing for narrowing the part north of One Hundred and Thirty-eighth street to 80 feet, but the same has not yet been acted upon.

The Commissioners of Estimate and Assessment, acting upon the original resolution, have made up the preliminary awards, the same aggregating for nine parcels taken \$443,050.50. These awards will be substantially reduced if the proposed narrowing north of One Hundred and Thirty-eighth street be made, and likewise by the new lines laid out for the southern portion.

In any event, by the rule of the Board of Estimate and Apportionment of July 25, 1902, the proceeding being unquestionably the widening of a street having an original width of 60 feet, the City should assume 50 per cent. of the costs. I would therefore recommend that relief be granted to the extent provided by the rule.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

After hearing the arguments in support of the application, the Comptroller, on motion of the Comptroller, the following resolution was adopted:

Resolved, That the matter be laid over until the Commissioners of Estimate and Assessment make their preliminary report, in accordance with the new lines laid down by this Board.

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of Queens and the President of the Borough of Richmond—12.

OPENING BELMONT AVENUE, THE BRONX.

The following communication from the President of the Borough of The Bronx and report of the Chief Engineer were presented, and the matter was laid over, under protest from the President of the Borough of The Bronx.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

In accordance with section 384, chapter 466, Laws of 1901, I hereby certify that the following resolution was adopted by the Local Board of Morrisania (Twenty-fourth District) at its meeting March 27, 1902, viz.:

Resolved, That proceedings be and they are hereby initiated by the Local Board of Morrisania (Twenty-fourth District) for Belmont avenue, acquiring title, from the south side of One Hundred and Seventy-seventh street (Tremont avenue) to the north side of One Hundred and Seventy-fifth street, in accordance with petition of August J. Papenbaum and others, duly advertised and submitted the 27th day of March, 1902.

Resolved, That a copy of this resolution be transmitted forthwith to the said Board of Estimate and Apportionment.

Certified April 1, 1902.

LOUIS F. HAFFEN,
President of the Borough of The Bronx.

REPORT No. 1674.

November 12, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is submitted a resolution adopted by the Local Board of the Morrisania District, Borough of The Bronx, on March 27, 1902, instituting proceedings for the acquisition of title to Belmont avenue, from the south side of East One Hundred and Seventy-seventh street (or Tremont avenue) to the north side of East One Hundred and Seventy-fifth street.

While this resolution was passed early in 1902, a report has not been submitted, as information was lacking to indicate that the street had ever been properly laid out upon the City map, it not being shown upon what are known as the final maps of the Borough of The Bronx. I have recently learned, however, that on March 22, 1899, the Board of Public Improvements adopted a resolution widening Belmont avenue, between East One Hundred and Seventy-seventh and East One Hundred and Seventy-sixth streets, from 50 to 60 feet, and extending this street, between East One Hundred and Seventy-sixth and East One Hundred and Seventy-fifth streets, as a street 50 feet in width. (See page 535, minutes of the Board of Public Improvements for March 22, 1899.) This resolution was concurred in by the ordinance of the Municipal Assembly and approved by the Mayor on July 6, 1899. (See page 300 of approved resolutions for that year.)

There seems no reason, therefore, why steps should not be taken to acquire title to the street as laid out.

I am advised by the Topographical Bureau of the Borough of The Bronx that there are buildings within the street lines, and it is recommended that the resolution of the Local Board be approved and opening proceedings authorized, and that the entire expense thereof be assessed upon the property deemed to be benefited.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

ACQUIRING ADDITION TO BRONX PARK, THE BRONX.

The following communication from the Commissioner of Parks for the Borough of The Bronx was presented, and the matter was laid over:

NEW YORK, October 14, 1903.

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment, No. 280 Broadway, New York City:

DEAR SIR—I would most respectfully make application to your Honorable Board to take proceedings at once for the condemnation and acquisition by the City of the block recently added to Bronx Park, at the West Farms entrance. I understand that unless action is taken without delay the Rapid Transit Commission are likely to begin building operations on this block, and if so it will be very much more expensive.

Respectfully yours,

JOHN E. EUSTIS,
Commissioner of Parks, Borough of The Bronx.

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of Queens and the President of the Borough of Richmond—12.

There are no buildings upon the land to be acquired, the width of which is 50 feet.

ACQUIRING BENSONIA CEMETERY, THE BRONX.

The following resolution of the Local Board of Morrisania, Borough of The Bronx, report of the Park Commissioner and report of the Chief Engineer were presented, and the matter was laid over.

Whereas, It appears that the Local Board of the Twenty-first District, Borough of The Bronx, on December 27, 1900, recommended to the Board of Public Improvements that the plot of ground bounded by Rae street, German place, Carr street and St. Ann's avenue, be laid out as a public park; and

Whereas, A public hearing was held by the Board of Public Improvements on April 24, 1901, and a map which was submitted by the Chief Topographical Engineer of the Board of Public Improvements was approved by said Board of Public Improvements and sent to the Municipal Assembly, concurred in and approved by the Mayor of The City of New York on December 30, 1901, and filed December 31, 1901; now therefore be it

CITY OF NEW YORK—DEPARTMENT OF PARKS,
OFFICE OF COMMISSIONER FOR THE BOROUGH OF THE BRONX,
ZBROWSKI MANSION, CLAREMONT PARK,
NEW YORK, October 17, 1903.

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment, No. 280 Broadway, New York City:

DEAR SIR—I would respectfully ask the Board of Estimate and Apportionment to take the necessary proceeding to acquire title to the block of ground lying between

Rae street, Carr street, St. Ann's avenue and German place, which, I am informed, has been designated upon the official maps as a public park. This block is mostly an old, abandoned cemetery, known as Bensonia Cemetery, and is a nuisance in its present shape. If the City ever intends to take it as a park now is the time, because it is in a very crowded section of the borough, and could be improved without very much expense.

Yours truly,
JOHN E. EUSTIS,
Commissioner of Parks, Borough of The Bronx.

REPORT No. 1630.

November 4, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on July 27, 1903, recommends to the Board of Estimate and Apportionment that the Corporation Counsel be directed to take the necessary steps to acquire title to the plot of ground bounded by Rae street, German place, Carr street and St. Ann's avenue, as a public park.

It appears that this block has already been laid out as a public park, the Board of Public Improvements having on April 24, 1901, approved of a change in the map of the City providing for this park, and this action having been concurred in by the Municipal Assembly on December 30, 1901.

The proposed park covers one block, having an average length of about 402 feet and an average width of 215 feet. It is about 1,000 feet distant from St. Mary's Park. It was formerly used as a cemetery, but most of the bodies have been removed, and there are no buildings now located upon the block. Immediately to the west is the freight yard of the Port Morris Branch of the New York and Harlem Railroad.

The principal reason for acquiring this property as a public park appears to be the abatement of a nuisance, which the block under discussion in its present condition must be admitted to be. The plot has been fenced, but it has been found very difficult to maintain wooden fences, as they have been torn down and used for bonfires, and I am advised that during the floods following the heavy rains of October the old fences contributed largely toward the lumber required for rafts to amuse the boys of the neighborhood.

The plot is certainly unsightly and unattractive, and it should either be removed from the map as a public park, or it should be acquired by the City and used as a park or playground.

As has already been shown, it is quite near St. Mary's Park, and its proximity to the freight yards of the New York and Harlem Railroad does not make the site an especially desirable one for park purposes.

The value of the property, as given by the Tax Commissioners, is \$82,000, but it appears to be exempt from taxation, although not wholly, if at all, used for cemetery purposes.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

Petitions were received and placed on file from the following:

North Side Board of Trade, W. Stebbins Smith, John D. Crimmins, Wm. Cauldwell, Charles A. Mapes, Henry C. Schaefer, L. R. Comfort, Wm. H. Rowan, Charles E. Baldwin, M. P. Mulhall, Sidwell S. Randall and John H. J. Ronner.

VESTING TITLE TO BRIDGEWATER STREET, BROOKLYN.

The following communication was presented:

CITY OF NEW YORK—BOROUGH OF BROOKLYN,
OFFICE OF COMMISSIONER OF PUBLIC WORKS, BOROUGH HALL,
NEW YORK, December 10, 1903.

MR. JAMES W. STEVENSON, Secretary, Board of Estimate and Apportionment, No. 280 Broadway, New York City:

DEAR SIR—At the request of the Bureau of Street Openings of the Law Department in this borough, the Board of Estimate and Apportionment will be asked by me at its meeting on the 11th inst. to vest title immediately in Bridgewater street, between Norman avenue and Meeker avenue.

The opening is needed for an important outlet sewer and was authorized by the former Board of Public Improvements, and the application for the appointment of Commissioners was made in March, 1901. ("City Record," page 1446, March 12, 1901.)

The Commissioners have completed their work and their report now awaits confirmation by the Supreme Court. The Law Department inform me, however, that unless title is immediately vested proceedings which are threatened may delay or prevent the confirmation and nullify all the work of the Commissioners of Street Opening.

Yours very truly,
WILLIAM C. REDFIELD,
Commissioner of Public Works.

The following resolution was then adopted:

Whereas, The Board of Public Improvements on the 14th day of March, 1900, adopted a resolution requesting the Corporation Counsel to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Bridgewater street, from Norman avenue to Meeker avenue, in the Borough of Brooklyn, City of New York; and

Whereas, It appears to the Board of Estimate and Apportionment, from the surveys made and information furnished to it, that there are no buildings upon the lands that shall or may be required for the purpose of opening and extending said Bridgewater street; and

Whereas, The said Board has received written notice from the Corporation Counsel that Commissioners of Estimate and Assessment have been appointed by the Supreme Court, in proceedings to acquire title to said Bridgewater street, and that the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law, on the 8th day of April, 1901; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 12th day of December, 1903, the title to each and every piece or parcel of land lying within the lines of said Bridgewater street, from Norman avenue to Meeker avenue, in the Borough of Brooklyn, City of New York, so required, shall be vested in The City of New York.

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—13.

REPORT No. 1571.

October 16, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is submitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on August 27, 1903, recommending a change in the map of the City by closing and discontinuing Hawthorne street, between Kingston and Albany avenues.

The reason for this proposed change is that the Hospital for Contagious Diseases now occupies the two blocks bounded by Tulip and Hawthorne streets, Albany and Kingston avenues. The additional block between Hawthorne and Winthrop streets has been secured for the extension of this hospital, and a comprehensive plan for its development has been prepared by the Department of Health, a copy of which is presented with the resolution. In order to utilize this additional ground to the best advantage, it would be necessary to discontinue and close Hawthorne street.

It may be fairly assumed that Hawthorne street would not be a popular thoroughfare, passing between two divisions of a hospital for contagious diseases, and that the public will not be disposed to resent the fact that they are deprived of its use. I can see no reason, therefore, why the recommendation of the Local Board should not be acted upon, and would recommend that a public hearing be given in the matter. A technical description for such hearing is incorporated in the resolution adopted by the Local Board.

The action of the Local Board was prompted by a petition signed by Dr. Lederle, Commissioner of Health of The City of New York.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by closing and discontinuing Hawthorne street, between Kingston and Albany avenues, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at the intersection of the eastern line of Kingston avenue with the southern line of Hawthorne street, as the same are laid down on the map of the City.

1. Thence northerly along the eastern line of Kingston avenue 60 feet to the northern line of Hawthorne street.
2. Thence easterly along the northern line of Hawthorne street 700 feet to the western line of Albany avenue.
3. Thence southerly along the western line of Albany avenue 60 feet to the southern line of Hawthorne street.
4. Thence westerly along the southerly line of Hawthorne street 700 feet to the point of beginning.

Resolved, That the President of the Borough of Brooklyn cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed change and the location of the immediate adjacent or of intersecting open or established streets, roads, squares, or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed change at a meeting of this Board, to be held in the Old Council Chamber, Room 16, City Hall, Borough of Manhattan, City of New York, on the 29th day of December, 1903, at 10.30 a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the "City Record" and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 29th day of December, 1903.

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—13.

Two Hundredth street is a broad thoroughfare which is part of the park system of the Borough of The Bronx, and has been macadamized. Decatur avenue has been regulated, graded and curbed, but is not paved. There is now a basin at the south-

The following communication from the Corporation Counsel was read:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, December 4, 1903.

To the Board of Estimate and Apportionment:

GENTLEMEN—I have received, under date August 21, 1903, a communication signed by J. W. Stevenson, Secretary, enclosing a copy of a resolution of the Local Board of Newtown, initiating proceedings for the construction of a sewer in Victor place, from Broadway to Third street, Borough of Queens, together with copies of two affidavits of property owners purporting to show the dedication of said street to the City and a copy of the report made by the Engineer of your Board.

It appears from the report of the Engineer that the street is laid down on the map to a width of 60 feet, and that the dedication is only of a street 50 feet in width, and you ask my opinion as to the advisability of the construction of a sewer there by the City.

It also appears from said report and from the affidavits submitted that this street to the width of 50 feet has been thrown open to public use for more than five years and that the dedication has been accepted by the public authorities; the roadway has been graded and curbed, sidewalks have been constructed and water and gas mains have been laid; the street has been regularly cared for by the public authorities and regularly policed, and dwellings and other buildings have been erected on the line thereof which have been assessed and taxed by the City as fronting upon said street or place.

There seems to be no doubt that the legal effect of these facts is the dedication to public use by the owners of the property and the acceptance thereof by the municipality.

A question, however, is suggested by your Engineer, having reference to two opinions heretofore rendered by me. The first of these opinions was rendered to the Commissioner of Public Works of the Borough of Brooklyn, on January 10, 1903, and had reference to a contract for grading, curbing, etc., Glenn street in that borough. It appears that Glenn street was laid down on the map of the Town Survey Commissioners' Map of the town of New Lots, at a width of 60 feet, but had been dedicated to the width of 50 feet only. In prosecuting the improvement under the contract mentioned, an attempt was made to occupy the entire 60 feet, the width of the street as laid down upon the map. I held that the City had no jurisdiction over the 10 feet which had not been dedicated, and that the improvement must be confined to the dedicated 50 feet.

The second opinion was rendered by me to your Board on the 21st day of January, 1903, and had relation to the construction of a sewer in Greenpoint avenue, in the Borough of Queens. I there stated the general principles which govern the creation of public highways, and held that the evidence submitted was not sufficient to establish the fact that the street had become a public highway by dedication and acceptance, and that therefore it would be unsafe to carry out the improvement contemplated.

In the case now under consideration, however, the street has been dedicated to the width of 50 feet, and has been accepted as so dedicated by the municipality. To that extent the City has jurisdiction over the premises as a public highway.

It has been held by the Court of Appeals that where a street or avenue is dedicated by the property owners and accepted by the public, it is not necessary that the street should be laid out upon the map.

People vs. Loehfelm, 102 N. Y. 1.

I am of opinion, therefore, that upon the facts as presented to me there is no legal objection to the building of the sewer upon Victor street, as contemplated by the resolution of the Local Board of Newtown.

Respectfully yours,

G. L. RIVES, Corporation Counsel.

REPORT No. 1679.

November 18, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on September 3, 1903, provides for the construction of a sewer and appurtenances in Heath avenue, between Boston avenue and Fort Independence street.

The improvement was petitioned for early in the year by Edward Lucas and eleven others. The street is laid down upon the final maps of the borough, and title was vested in the City under condemnation proceedings on March 23, 1903. The street is partly in use, although it has not been entirely cut through, and there are buildings within the line of the street; these, however, have been acquired under the opening proceeding and will be removed. The building of this sewer is a logical improvement, and the approval of the resolution is recommended.

The approximate amount of work involved is as follows:

420 linear feet of 18-inch pipe sewer.

430 linear feet of 15-inch pipe sewer.

570 linear feet of 12-inch pipe sewer.

14 manholes.

The total estimated cost of the improvement is \$11,500, and the assessed value of the property within the probable area of assessment is \$90,376.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 1678.

November 18, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on October 2, 1902, provides for regulating and grading East Two Hundred and Third street, from the Grand Boulevard and Concourse to Briggs avenue, including curbing, flagging, crosswalks, etc.

This street is laid down on the final maps of the Borough of The Bronx, and title was secured by opening proceedings in 1897. The improvement is asked for by one petitioner who is the owner of 50 feet of frontage. The street is quite well built up with detached frame dwellings, some of which have been built according to the established grade, but others have not, and there will probably be damage allowed them for raising the present surface to the established grade.

A suggestion was made to the Borough authorities that it might be well to modify the legal grade, which will involve ten feet of filling at Valentine avenue, the height of the fill gradually diminishing in both directions from this street. The Local Board, however, concluded that it would not be wise to make any change, as this street will form one of the approaches to the Grand Boulevard and Concourse, which is now being constructed. There seems no reason, therefore, for further delay, and it is recommended that the improvement be authorized.

The approximate amount of work involved is as follows:

720 cubic yards of excavation.

9,200 cubic yards of embankment.

2,050 linear feet of curbing.

7,950 square feet of flagging.

660 square feet of bridgestone.

The total estimated cost of the improvement is \$10,500, and the assessed valuation of the property to be benefited is \$72,860.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The Comptroller offered the following resolution:

Resolved, That the matter be laid over, because the contract can be authorized next Spring and the work done just as quickly as if it were authorized now.

The vote resulted as follows:

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan and the President of the Borough of Brooklyn—10.

Negative—The President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—3.

The President of the Borough of The Bronx then offered the following resolution:

IN THE BOARD OF ESTIMATE AND APPORTIONMENT.

A copy of a resolution of the Local Board of the Morrisania, Twenty-fourth District, duly adopted by said Board on the 2d day of October, 1902, and approved by the President of the Borough of The Bronx, on the 3d day of October, 1902, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"For regulating and grading, setting curbstones and flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary in East Two Hundred and Third street, from the Grand Boulevard and Concourse to Briggs avenue, in the Borough of The Bronx, City of New York,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$10,500, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$72,860 having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

The resolution was lost by the following vote:

Affirmative—The President of the Borough of Manhattan, President of the Borough of Brooklyn and the President of the Borough of The Bronx—5.

Negative—The Mayor, Comptroller and the President of the Borough of Queens—7.

The following communication from the office of the President of the Borough of Manhattan and report of the Chief Engineer were presented:

CITY OF NEW YORK,

OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN, CITY HALL,

NEW YORK, October 17, 1903.

Hon. JAMES W. STEVENSON, Secretary, Board of Estimate and Apportionment, New York City:

DEAR SIR—There is sent you herewith form of resolution to be adopted by the Board of Estimate and Apportionment, providing for the repaving of East Eightieth street from East End avenue to Avenue A, where the abutting property appears

after a most thorough investigation not to have borne the expense of the original pavement.

Yours very truly,
GEORGE W. BLAKE, Secretary.

REPORT No. 1661.

November 10, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Under date of October 17, 1903, the President of the Borough of Manhattan, through his Secretary, requests the Board of Estimate and Apportionment to authorize the repaving of Eightieth street, between East End avenue and Avenue A, with sheet asphalt, it having been found impossible to discover any record showing that an assessment for the original paving of this block had been laid on the abutting property owners.

Upon inquiry at the office of the Chief Engineer of the Bureau of Highways I find that a contract was made for repaving this block, the cost of the work to be taken from the bond issue for repaving allotted to the President of the Borough of Manhattan, but that the Comptroller declined to register the contract without a special resolution of this Board authorizing the repaving, inasmuch as the Borough President could not show satisfactory evidence that the original pavement had been laid under an assessment proceeding.

I find upon investigation that this street was probably paved under a private contract by the abutting owners, and that such paving was not the subject of an assessment proceeding. Some years ago the City repaved this block with granite, and the proposed improvement would constitute the second repaving of the street.

When the Board of Estimate and Apportionment authorized the bond issue for repaving purposes it was understood that the repaving, the cost of which was to be paid from the proceeds of the sale of these bonds, should be limited to cases where there was satisfactory evidence that the original pavement had been laid by assessment, unless special consent of the Board of Estimate and Apportionment were obtained.

This case is somewhat similar to that of the repaving of Liberty street in the Borough of Brooklyn, where, in the absence of evidence to show an assessment for the original paving, the Board, on June 12, 1903, authorized the Borough President to repave the street, the expense to be paid from the bond issue for repaving allotted to that Borough.

It is therefore recommended that the request of the President of the Borough of Manhattan be complied with, and that the resolution submitted by him be adopted, although I would recommend that to the resolution be added the words, "the expense of the said improvement to be paid from the proceeds of the sale of bonds for the purpose of repaving streets in the Borough of Manhattan."

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment hereby authorizes the repaving of East Eightieth street, from East End avenue to Avenue A, with sheet asphalt, under the direction of the President of the Borough of Manhattan, the cost of the said repaving to be paid out of the appropriation for repaving streets in the Borough of Manhattan.

Affirmative—The Mayor, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of Queens and the President of the Borough of Richmond—12.

Negative—President of the Borough of The Bronx—1.

REPORT No. 1620.

November 2, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on September 17, 1903, initiating proceedings for grading, curbing and flagging Academy street, from Broadway to Jamaica avenue.

Title to this street was vested in the City under opening proceedings, which are yet pending, on April 25, 1900. The roadway is in use through the block for which the grading is proposed, but is largely unshaped. The abutting property has been improved by the erection of four dwellings and a factory. I see no reason why this improvement should not be authorized, and would recommend favorable action.

The work to be done comprises the following:

1,250 cubic yards of earth and rock excavation.

2,100 linear feet of new and old curbing.

9,700 square feet of flagging.

The estimated cost of construction is \$6,700, and the assessed valuation of the property to be benefited is \$50,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 1573.

October 23, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Riverside District, Borough of Manhattan, adopted on June 16, 1903, initiating proceedings for altering and improving the outlet sewer in Ninety-sixth street, between the Hudson river and West End avenue, with an overflow at the Hudson river.

Title to this street was acquired by the City in 1861. The Commissioner of Public Works states that the present outlet is through an old box sewer, which is badly rotted, and that it is located in an old pier formerly in use back of the present bulkhead line, but now filled in. The Dock Department has built a twin barrel sewer through the new dock at the foot of the street. The sewer now proposed is required to connect the existing brick sewer with the sewer constructed by the Dock De-

partment, and to provide an overflow for storm water. The authorization of this work is recommended, with the understanding that before it is undertaken a map be submitted for the approval of the Board of Estimate and Apportionment, placing it upon the drainage map of the City.

The work to be done comprises the following:

250 linear feet of 6-foot circular brick sewer.

207 linear feet of 6 feet 8 inches by 5 feet brick sewer.

100 linear feet of 6 feet 8 inches by 3 feet overflow and chamber.

17 linear feet of 5 feet 9 inches box sewer.

5 manholes.

The estimated cost of the work is \$16,000 and the assessed valuation of the property to be benefited is \$206,254,500.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 1686.

NEW YORK, November 24, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is submitted a resolution adopted by the Local Board of the Flatbush District, Borough of Brooklyn, on October 8, 1903, which provides for regulating and grading Bedford avenue, between Eastern parkway and Flatbush avenue, including setting of curb and the laying of cement sidewalks.

On the same date the Local Board rescinded a resolution which had been adopted by it on March 30, 1903, providing for grading and paving Bedford avenue between Eastern Parkway and Flatbush avenue, with asphalt, block and sheet asphalt. The resolution which has now been rescinded was considered by the Board of Estimate and Apportionment on June 30, 1903, and again on July 24, 1903, and on the latter date it was referred back to the Borough President.

In reports which were submitted upon this previous resolution, reference was made to the fact that the special law under which it was proposed to carry out this improvement, provides that two-thirds of the entire expense shall be borne by the City, while the property owners are allowed to pay the remaining third in twenty annual installments. Attention was also called to the fact that on certain portions of the street, namely between Eastern Parkway and Malbone street, there is a large amount of grading to be done, and that while a sewer has been authorized and is nearly if not quite completed, the water and gas mains have not been laid and cannot be laid until the street shall have been placed approximately at grade. These considerations have prompted the Local Board to rescind the previous resolution and substitute for it two others, one providing for regulating and grading between Eastern Parkway and Flatbush avenue, and the other providing for the surface improvement. It is the former of these resolutions which is herewith submitted.

The serious objections which have been presented to this improvement on account of the extraordinary provisions of the act—chapter 765 of the Laws of 1900, amended by chapter 590 of the Laws of 1901—still exist, although it is claimed that the act is mandatory in its nature. The resolution is, therefore again submitted to the Board of Estimate and Apportionment for such disposition as it may think best.

The estimated amount of work involved in the present resolution is as follows:

50,000 cubic yards of grading.
22,000 linear feet of curbing.
100,000 square feet of cement sidewalk.
1,000 square feet of flagging to be relaid.

The total estimated cost of the proposed improvement is \$60,000, and the assessed valuation of the property within the probable area of assessment is \$1,726,900.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Vice-President McInnes arrived, and took the seat of the President of the Board of Aldermen.

The Board then took up the consideration of financial matters.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE—BUREAU OF REAL ESTATE,
December 17, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—J. H. Williams & Co., in a petition under date of May 4, 1903, requests the action by the Board of Estimate and Apportionment for the change of the plan on map of the Borough of Brooklyn, City of New York, by closing Bowne street, from Richards street to Columbia street.

Bowne street extends from Columbia street to Commercial wharf, at Atlantic basin, and that part from Columbia to Van Brunt was declared open by an assessment confirmed May 25, 1850, and the assessments so confirmed were paid by the abutting property owners. No improvements upon the block petitioned to be closed have ever been made by the City.

The petitioners desire the closing of the street for the purpose of enlarging their plant. The street intended to be closed is described as follows:

"Beginning at the intersection of the eastern line of Richards street with the northern line of Bowne street, as the same are laid down on the map of the City; thence southerly along the easterly line of Richards street sixty feet; thence easterly along the southerly line of Bowne street 286.58 feet to a point in the westerly line of Columbia street distant 215.14 feet northerly from the intersection of the northerly line of Seabring street with the westerly line of Columbia street as the same are laid down on the aforesaid map; thence northerly along the westerly line of Columbia street 64.53 feet; thence westerly 262.83 feet to the point of beginning."

In my opinion the value of the land in the street, of which I am informed the Williams are the owners of the fee title, while the City has only an easement, is \$20,750. That is to say:

Three lots on Columbia street, at \$3,000 each.....	\$9,000 00
Three lots on Richards street, at \$2,500 each.....	7,500 00
Two and one-eighth lots in Bowne street, at \$2,000 each.....	4,250 00
Total.....	\$20,750 00

I think that the Corporation Counsel should be requested by the Board of Estimate and Apportionment to furnish an opinion as to whether The City of New York would be liable for damages by the closing of the one block on Bowne street (between Richards and Columbia streets) to the owners of the property fronting on the balance of Bowne street from Richards street northwesterly to Commercial wharf, under the provisions of chapter 1006 of the Laws of 1895.

That point being settled, it then becomes a question as to how much the owners of the abutting property fronting on Bowne street (between Richards and Columbia streets) should pay to the City for the closing thereof. The value of the land, as I have hereinbefore stated, is \$20,750, and Williams & Company will acquire the use of this property now lying in the street for business purposes practically upon the same basis as they would acquire property within the block on either side of the street, and although they may own the fee of the land in the street, I am of the opinion that the sum of at least \$10,000 should be paid to the City for all its right, title and interest of, in and to that part of Bowne street lying between Richards and Columbia streets which is more particularly hereinbefore described.

Should the Corporation Counsel decide that the owners of abutting property on Bowne street from Richards street northwesterly to Commercial wharf at Atlantic basin have certain rights under chapter 1006 of the Laws of 1895, then the Board of Estimate and Apportionment should, before adopting a resolution closing that part of Bowne street desired by the petitioners, exact from the petitioners a bond of indemnity in such an amount as would save the City harmless by reason of the closing thereof.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

Approved, except that the sum to be paid, proportionate to what the Board exacted in case of Fulton place, should be \$3,500.

EDWARD M. GROUT, Comptroller.

ACQUIRING BENSONIA CEMETERY, THE BRONX.

The matter of instituting proceedings to acquire the park bounded by Rae street, Carr street, St. Ann's avenue and German place (Benson Cemetery), in the Borough of The Bronx, which was laid over on December 1, was taken up.

The following communication was placed on file:

BRONX, December 12, 1903.

Hon. SETH LOW:

DEAR SIR—I would respectfully ask your attention to the subject of the Benson Cemetery on St. Ann's, between Ray and Carr streets, in The Bronx. The adjoining property-owners and the public in that vicinity have at different times asked the proper city authorities to take the unsightly and unhealthy spot and improve it into a public park and playground for the housed-up children in the tenements close by. This spot is a public comfort depository behind the fences and old dilapidated court stones, a public dumping ground, a dangerous place at night to passers-by and a retreat for any unruly person. This abandoned burial place is a serious detriment to the improvement of the surrounding streets. This is not a costly property, and the City would be the gainer in collecting taxes on the property that would be improved about it over the cost of the purchase of the property.

Hoping you will advocate its taking by the attorney before your term of office expires,

Very respectfully,
WM. G. RULE.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title of the lands and premises required for the opening and extending of a public park bounded by Rae street, German place, Carr street and St. Ann's avenue, in the Borough of The Bronx, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a special term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings in the name of The City of New York to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending a public park bounded by Rae street, German place, Carr street and St. Ann's avenue, in the Borough of The Bronx, City of New York.

Resolved, That the entire cost and expense of said proceedings shall be borne and paid by The City of New York.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn and the President of the Borough of Queens—14.

The matter of regulating and grading Bedford avenue, between the Eastern parkway and Flatbush avenue, in the Borough of Brooklyn, was taken up.

The Comptroller moved that the matter be laid on the table, which motion was carried by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan and the President of the Borough of Queens—11.

Negative—The President of the Borough of Brooklyn—2.

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

For regulating and grading, setting curbstones, flagging the sidewalks a space four feet wide, laying crosswalks, in Westchester avenue, from Trinity avenue to the angle westerly thereof, also paving with granite blocks that part of the roadway not paved, in the Borough of The Bronx, City of New York; and it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of Morrisania, Twenty-fourth District, on the 11th day of December, 1902, Aldermen Harnischfeger, Peck, Leitner and Goldwater and the President of the Borough of The Bronx voting in favor thereof.

LOUIS F. HAFFEN,
President of the Borough of The Bronx.

REPORT No. 932.

December 15, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on December 11, 1902, providing for regulating and grading the small triangular space at the westerly intersection of Westchester and Trinity avenues, and for laying a granite block pavement, including curbing, etc.

This space has recently been added to the streets, the Board of Estimate and Apportionment having approved the necessary change in the map on October 3, 1902, the Board of Aldermen concurring in that action. As was explained when the change in plan was before the Board, the deflections in the two sides of Westchester avenue occurred at different points, resulting in a contraction at the westerly corner of Trinity avenue, and the change in the plan was made in order that the street might be fixed at a uniform width. It has since been found that this change was not necessary, as the final maps of the Borough of The Bronx show this widening, and it is now desired to carry it out physically.

Proceedings to acquire title to this triangular area were authorized by the Board of Estimate and Apportionment on June 12, 1903. The Commissioners of Estimate and Assessment have been appointed, and their oaths were filed on December 1, 1903. As there are no buildings on the land to be acquired, it is recommended that title be vested in the City on December 31, 1903.

The approximate amount of work involved is as follows:

600 cubic yards of rock excavation.
90 linear feet of curbing.
90 square yards of granite block pavement.
360 square feet of flagging.

The total estimated cost is \$1,200, and the assessed value of the property within the probable area of assessment is \$3,360.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment on the 12th day of June, 1903, adopted a resolution requesting the Corporation Counsel to acquire title, whenever the same has not heretofore been acquired, for the use of the public to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending the small triangular space at the westerly intersection of Westchester avenue and Trinity avenue, in the Borough of The Bronx, City of New York; and

Whereas, It appears to the Board of Estimate and Apportionment from the surveys made and information furnished to it that there are no buildings upon the lands that shall be or may be required for the purpose of opening and extending said small triangular space; and

Whereas, The said Board has received written notice from the Corporation Counsel that Commissioners of Estimate and Assessment have been appointed by

the Supreme Court in proceedings to acquire title to said small triangular space, and that the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 1st day of December, 1903; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 31st day of December, 1903, the title to each and every piece or parcel of land lying within the lines of said small triangular space at the westerly intersection of Westchester avenue and Trinity avenue, in the Borough of The Bronx, City of New York, so required, shall be vested in The City of New York.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, and the President of the Borough of Queens—14.

IN THE BOARD OF ESTIMATE AND APPORTIONMENT.

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by this Board on the 11th day of December, 1902, and approved by the President of the Borough of The Bronx on the 16th day of December, 1902, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"For regulating and grading, setting curbstones, flagging the sidewalks a space four feet wide, laying crosswalks in Westchester avenue, from Trinity avenue to the angle westerly thereof, also paving with granite blocks that part of the roadway not paved, in the Borough of The Bronx, City of New York,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$1,200, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$3,360, having also been presented; it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized; and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn and the President of the Borough of Queens—14.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either enclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
