FINDINGS

The City Planning Commission hereby makes the following findings pursuant to Section 13-45 (Special Permits for Additional Parking Spaces) of the Zoning Resolution:

- (1) the location of the vehicular entrances and exits to such parking facility will not unduly interrupt the flow of pedestrian traffic associated with #uses# or public facilities, including access points to mass transit facilities in close proximity thereto, or result in any undue conflict between pedestrian and vehicular movements, due to the entering and leaving movement of vehicles;
- (2) the location of the vehicular entrances and exits to such parking facility will not interfere with the efficient functioning of #streets#, including any lanes designated for specific types of users or vehicles, due to the entering and leaving movement of vehicles;
- (3) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow
- (4) for public #parking garages#, that where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion; and
- (5) such parking facility will not be inconsistent with the character of the existing streetscape.

The City Planning Commission hereby makes the following findings pursuant to Section 13-451 (Additional parking spaces for residential growth) of the Zoning Resolution:

(a) the number of off-street parking spaces in such proposed parking facility is reasonable and not excessive in relation to recent trends in close proximity to the proposed facility with regard to:

(1) the increase in the number of dwelling units; and

(2) the number of both public and #accessory# off-street parking spaces, taking into account both the construction, if any, of new off-street parking facilities and the reduction, if any, in the number of such spaces in existing parking facilities. In making this determination, the Commission may take into account off-street parking facilities for which building permits have been granted, or which have obtained City Planning Commission special permits pursuant to Section 13-45.
