From the Municipal Civil Service Commission—  
1 (75509). Authorizing the reassignment of Michael F. Horrigan, Michael J. McNamara and Charles F. Mulligan, Dock Laborers. All ordered reassigned.  
2 (75510). Certifying, in response to this Department's request, the name of John Carroll from the preferred eligible list for Stonecutter. Carroll reinstated, with compensation at the rate of 56¼ cents per hour while employed.

From the Police Department (75394)—Requesting that three piles be driven near the foot of One Hundred and Twenty-second street, Harlem River, for the purpose of mooring the Police Department's launches thereat. Order issued to Engineer-in-Chief to drive the piles.

From the Department of Street Cleaning (75503)—Requesting that this Department construct a dumping board on pier foot of Sixtieth street, East River, and agreeing to furnish the timber required. Engineer-in-Chief of this Department directed to construct the dumping board and to report cost for collection.

From the Commissioners of the Land Office, State of New York (75377, 74869)—Stating that an application has been filed by the Southern Shipbuilding Company for a grant of land under water of Arthur Kill, in the Fifth Ward of the Borough of Richmond, and requesting the certification of the Commissioner of Docks in relation thereto. Certification forwarded, with the recommendation that a covenant be inserted in grant reserving therefrom outshore areas of present or proposed streets; and, further, that no particular kind of construction be authorized by the Commissioners of the Land Office.

From Theodore Sperling (75456, 74886)—Requesting permission to occupy plot of ground at Broad Channel, Jamaica Bay, Borough of Queens. Privilege granted to occupy Lot No. 1 of Block 54, 2,750 square feet, commencing May 1, 1907, and continuing during the pleasure of the Commissioner until May 1, 1912, rental to be at the rate of \$33 per annum, payable in advance to the Cashier.

Dr. S. T. Armstrong, the General Medical Superintendent, reported as follows:  
From March 22 to April 4, inclusive, eighty-eight operations were performed at Bellevue Hospital, twelve at Gouverneur Hospital, twenty-five at Harlem Hospital and thirty-five at Fordham Hospital, at all of which the attending Surgeons or their Assistants were present.

The lowest estimate received for furnishing plants, shrubs and trees at Harlem and Fordham hospitals is that of Siebrecht & Son, which is \$658.07 for Harlem Hospital and \$939.24 for Fordham Hospital.

Messrs. William Horne & Co., who have the contract to provide dressing rooms at Harlem Hospital, at a cost of \$390, submit a claim for \$60 additional, having found on removing the closets that the walls were plastered in the rough. This makes necessary replastering instead of patching the plastering, which was called for in the specifications.

It is recommended that the Board of Health be notified that the swamp north of Fordham Hospital is a breeding spot for mosquitos and a serious nuisance to the hospital.

On March 26 the Police Commissioner issued an order, No. 22, that nursing children are not to be separated from their mothers who are prisoners, but are all to be brought to Bellevue Hospital. As this is impracticable, and as prisoners who are not sick are not eligible for admission, it is recommended that the attention of the Police Commissioner be invited to this matter, as such children could be sent to the House of Detention.

Authority is requested to have an officer of the United States Marine Hospital Service study mental diseases in the psychopathic wards, under the direction of our resident Alienist, who approves of the plan.

It is recommended that the Board of Aldermen be requested to authorize the purchase in the open market of three ambulances, at a cost not to exceed \$2,100.

The mangles of the American Laundry Machinery Company placed in Harlem and Fordham hospitals are very unsatisfactory because of faulty installation, and it is recommended that the contractors of each hospital take the matter up.

It is recommended that the salary of the Chief Cook at Bellevue Hospital be increased from \$65 to \$75 a month, the amount paid to chief cooks in all State hospitals. He has served here for eighteen years and has charge of the preparation of all food for patients and Orderlies. It is further recommended that the salary of the Helper in charge of the patients' clothes room be increased from \$25 to \$30 a month, and that a woman Helper be placed in charge of the women's clothing, at a salary of \$25 a month. The Registrar of the Out-Patient Department (a Nurse) asks for an increase in her salary from \$40 to \$50 a month.

In January, 1906, the Supervising Nurses of the hospitals were directed to have fire drills every fortnight. These drills were carried into effect at the time, but on moving into the new fireproof buildings the system went into abeyance. The Nurses have been directed to resume the drills, and an employee from Bellevue has been directed to visit the hospitals and report upon the drills.

Additional accommodation is required for tubercular patients who apply to Bellevue Hospital for admission, and it is recommended that temporarily they be admitted to the regular medical wards.

The Red Cross Society has requested that the use of the red cross on the ambulances of this Department be discontinued, and that some other emblem be substituted to designate the Department's work.

On motion, duly seconded, it was

Resolved, That the estimate of Messrs. Siebrecht & Son on furnishing plants, shrubs and trees to Harlem at \$658.07 and to Fordham Hospital at \$939.24 be approved and accepted, and that the Park Department be requested to oversee the work.

On motion, duly seconded, it was

Resolved, That the claim of \$60 additional on the bid of Messrs. Horne & Co. be allowed, in view of the necessity of plastering the walls of the dressing rooms at Harlem Hospital instead of merely patching the defective plaster, as was expected when the estimate was submitted.

On motion, duly seconded, it was

Resolved, That the matter of the swamp north of Fordham Hospital be referred to the President and Mr. Barry.

On motion, duly seconded, it was

Resolved, That a communication be sent to the Police Commissioner regarding order No. 22, recently issued by him concerning women prisoners, suggesting that the nursing children of women prisoners be referred to the House of Detention, there being no accommodations for them at Bellevue Hospital.

On motion, duly seconded, it was

Resolved, That at the request of the Surgeon-General of the United States Public Health and Marine Hospital Service an officer of that Department be permitted to study mental diseases in the psychopathic wards.

On motion, duly seconded, it was

Resolved, That application be made to the Board of Aldermen for permission to buy three ambulances in the open market at a cost not to exceed \$2,100.

On motion, duly seconded, it was

Resolved, That the matter of the defects in the mangles of Fordham and Harlem hospitals be referred to the General Medical Superintendent, to be taken up with the contractors and architects.

On motion, duly seconded, it was

Resolved, That the salary of the Chef at Bellevue Hospital be increased from \$65 to \$75 a month; that the salary of the Helper in charge of the clothes room be increased from \$25 to \$30 a month; that the appointment of a woman Helper for the clothes room (to be in charge of the clothing of the women patients), at a salary of \$25 a month, be authorized, and that the application of the Registrar of the Out-Patient Department for an increase in salary be referred back to the General Medical Superintendent for further information.

On motion, duly seconded, it was

Resolved, That a fire drill shall be held at least once in every week in each hospital of the Department under the direction of the General Medical Superintendent at Bellevue and the Supervising Nurses in the allied hospitals; further

Resolved, That such drill shall be held in accordance with the rules originally laid down by Mr. Ross, fire expert, and shall include members of the house staff and Nurses, as well as all other employees concerned; and further

Resolved, That reports of the holding of such drills shall be furnished the Board of Trustees weekly.

On motion, duly seconded, it was

Resolved, That the General Medical Superintendent be instructed to consult with the Attending Physicians and arrange for the assignment of one or more medical wards in the hospital proper to the tuberculosis service, due regard being had for the work of the several divisions in arranging for attendance upon the same.

On motion, duly seconded, it was

Resolved, That consideration of the request of the Red Cross Society (that the use of the red cross on the ambulances of the Department be discontinued) be deferred.

#### Reports of Committees.

Dr. Brannan reported receipt of the following bids on furnishing and setting of lighting fixtures in Pavilions A and B:

A. Feldman Construction Company (Inc.) .....	\$1,500 00
The Enos Company .....	3,189 00
Cassidy Son Manufacturing Company .....	3,871 85
Sterling Bronze Company .....	6,458 00

On motion, duly seconded, it was

Resolved, That all bids be rejected, inasmuch as, with one exception, they fail to comply with the specifications; further

Resolved, That advertisements be again inserted immediately in the CITY RECORD calling for other bids upon the work.

Dr. Brannan spoke of plans for a new dispensary at Gouverneur Hospital, and upon his suggestion it was, on motion, duly seconded,

Resolved, To require of any architect who may be selected for such work to visit a list of dispensaries to be furnished him by the Board and to examine them with a view to meeting in his plans all the requirements of the most modern and improved type of dispensary.

Mr. Paulding, of the Bellevue Hospital Conference Committee, recommended the appointment of Drs. J. H. Cudmore and Philip Prioleau, and, on motion, duly seconded, it was

Resolved, That Dr. J. H. Cudmore and Dr. Philip Prioleau be and they hereby are, upon the recommendation of the Medical Board and the Conference Committee, appointed to the positions, respectively, of Assistant Physician to Out-Patients, Second Division, and Assistant Gynaecologist to Out-Patients, Fourth Division, at Bellevue Hospital.

## PUBLIC SERVICE COMMISSION—FIRST DISTRICT.

### PROPOSALS FOR CONSTRUCTION OF RAPID TRANSIT LINES IN BROOKLYN.

#### INVITATION TO CONTRACTORS.

(FLATBUSH AVENUE EXTENSION, NASSAU STREET TO WILLOUGHBY STREET, MANHATTAN BRIDGE, No. 1.)

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn which begins at the northerly side of Nassau Street and runs thence under said Flatbush Avenue Extension to a point about 20 feet north of the centre line of Willoughby Street.

The general plan of construction calls for a four-track subsurface Railroad, but the Contractor will not be required under the contract proposed to provide or lay tracks, ties or ballast. A station between Tillary Street and Johnson Street will be constructed; and suitable cross-overs, turn-outs and sidings are also to be provided, all as indicated on the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose, or on the streets, or on the sidewalks adjacent to private property, as indicated on the plans.

The manner of construction shall be by open excavation unless otherwise provided in the contract or directed by the Commission; such portions of the street, however, where the work may not be completed and the backfill is not placed at the expiration of fifteen months from the time of executing the contract, must be substantially boarded over to permit freedom of traffic, if so ordered by the Commission.

In the detailed plans for construction, provisions for pipe galleries along the line of the tunnel are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and station to be built under this contract and note the present conditions along the line of the proposed railroad. The buildings standing within the lines of the said Flatbush Avenue Extension are being, or are to be, demolished and the materials removed by other contractors. A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908,

at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission to enable it to determine upon what basis the proposal is made and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the sureties or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to the defaulting bidder. And the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be inclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD—FLATBUSH AVENUE EXTENSION, NASSAU STREET TO WILLOUGHBY STREET," and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York and satisfactory to the Commission, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

### PROPOSALS FOR CONSTRUCTION OF RAPID TRANSIT LINES IN BROOKLYN.

#### INVITATION TO CONTRACTORS.

WILLOUGHBY STREET TO ASHLAND PLACE.

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn which begins at a point about 20 feet north of the centre line of Willoughby Street and runs through Flatbush Avenue Extension, private property and Fulton Street to and under Ashland Place to a point about 40 feet south of the south line of Fulton Street.

The general plan of construction calls for a subsurface Railroad having four or more tracks, but the Contractor will not be required under the proposed contract to provide or lay tracks, ties or ballast. A station at DeKalb Avenue will be constructed; and suitable cross-overs, turnouts and sidings are also to be provided, all as indicated

#### PROPOSALS FOR CONSTRUCTION OF RAPID TRANSIT LINES IN BROOKLYN.

##### INVITATION TO CONTRACTORS.

(FOURTH AVENUE, SACKETT STREET TO TENTH STREET.)

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn between points on Fourth Avenue 60 feet north of the north line of Sackett Street and 10 feet north of the north line of Tenth Street.

The general plan of construction calls for a four-track subsurface Railroad, but the Contractor will not be required under the contract proposed to provide or lay tracks, ties or ballast. Two stations, one between Union Street and President Street, and one between Eighth Street and Ninth Street, will be constructed; and suitable cross-overs, turnouts and sidings are also to be provided, all as indicated on the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the stations are intended to be placed within private property, rights in which will be acquired for the purpose, or on the streets, or on the sidewalks adjacent to private property, as indicated on the plans.

The manner of construction shall be by excavation under cover, unless otherwise provided in the contract or directed by the Commission.

In the detailed plans for construction, provisions for pipe galleries along the line of the tunnel are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and stations to be built under this contract and note the present conditions along the line of the proposed railroad.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908,

at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission to enable it to determine upon what basis the proposal is made and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the sureties or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to the defaulting bidder. And the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD—(FOURTH AVENUE, SACKETT STREET TO TENTH STREET)" and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York and satisfactory to the Commission, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to make a deposit in cash or securities, then this Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
