Where the amount of the purchase price does not equal or exceed the sum of fifty dollars the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract but unfinished at the expiration of the contract period.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said building extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed, in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any portion thereof, within sixty days from the day of the sale will work forfeiture of ownership of such buildings, appurtenances, or portion thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and

expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water-tight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Comptroller.

## PUBLIC SERVICE COMMISSION—FIRST DISTRICT.

### PROPOSALS FOR CONSTRUCTION OF RAPID TRANSIT LINES IN BROOKLYN.

#### INVITATION TO CONTRACTORS.

(FLATBUSH AVENUE EXTENSION, NASSAU STREET TO WILLOUGHBY STREET, MANHATTAN BRIDGE, No. 1.)

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn which begins at the northerly side of Nassau Street and runs thence under said Flatbush Avenue Extension to a point about 20 feet north of the centre line of Willoughby Street.

The general plan of construction calls for a four-track subsurface Railroad, but the Contractor will not be required under the contract proposed to provide or lay tracks, ties or ballast. A station between Tillary Street and Johnson Street will be constructed; and suitable cross-overs, turn-outs and sidings are also to be provided, all as indicated on the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose, or on the streets, or on the sidewalks adjacent to private property, as indicated on the plans.

The manner of construction shall be by open excavation unless otherwise provided in the contract or directed by the Commission; such portions of the street, however, where the work may not be completed and the backfill is not placed at the expiration of fifteen months from the time of executing the contract, must be substantially boarded over to permit freedom of traffic, if so ordered by the Commission.

In the detailed plans for construction, provisions for pipe galleries along the line of the tunnel are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and station to be built under this contract and note the present conditions along the line of the proposed railroad. The buildings standing within the lines of the said Flatbush Avenue Extension are being, or are to be, demolished and the materials removed by other contractors.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908,

at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission to enable it to determine upon what basis the proposal is made and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the sureties or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to the defaulting bidder. And the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD—FLATBUSH AVENUE EXTENSION, NASSAU STREET TO WILLOUGHBY STREET," and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York and satisfactory to the Commission, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

### PROPOSALS FOR CONSTRUCTION OF RAPID TRANSIT LINES IN BROOKLYN.

#### INVITATION TO CONTRACTORS.

WILLOUGHBY STREET TO ASHLAND PLACE.

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement, invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn which begins at a point about 20 feet north of the centre line of Willoughby Street and runs through Flatbush Avenue Extension, private property and Fulton Street to and under Ashland Place to a point about 40 feet south of the south line of Fulton Street.

The general plan of construction calls for a subsurface Railroad having four or more tracks, but the Contractor will not be required under the proposed contract to provide or lay tracks, ties or ballast. A station at DeKalb Avenue will be constructed; and suitable cross-overs, turnouts and sidings are also to be provided, all as indicated

on the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but several of the tracks will branch and be depressed both north and south of the station in order to avoid grade crossings and to provide convenient connections with other subways now building or to be hereafter built. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose, or on the streets, or on the sidewalks adjacent to private property as indicated on the plans.

The manner of construction shall be by open excavation in Flatbush Avenue Extension and by excavation under cover under Fulton Street and Ashland Place, unless otherwise provided in the Contract or directed by the Commission; such portions of the Flatbush Avenue Extension, however, where the work may not be completed and the backfill is not placed, at the expiration of fifteen (15) months from the time of executing the contract, must be substantially boarded over to permit freedom of traffic, if so ordered by the Commission.

In the detailed plans for construction, provisions for pipe galleries along the line of the railroad are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and station to be built under this contract and note the present conditions along the line of the proposed railroad. The buildings standing within the lines of the said Flatbush Avenue Extension are being, or are to be, demolished and the materials removed by other contractors.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908,

at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission to enable it to determine upon what basis the proposal is made and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of two hundred thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the sureties or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to the defaulting bidder. And the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD—(WILLOUGHBY STREET TO ASHLAND PLACE)" and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York and satisfactory to the Commission, payable to the order of the Comptroller of The City of

New York, for the sum of fifteen thousand dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

ship of the check accompanying his or its proposal as a payment on account of such damages. #### PROPOSALS FOR CONSTRUCTION OF RAPID TRANSIT LINES IN BROOKLYN.

##### INVITATION TO CONTRACTORS.

(FOURTH AVENUE FROM TWENTY-SEVENTH STREET TO FORTY-THIRD STREET.)

THE City of New York, acting by the Public Service Commission for the First District by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn between points on Fourth Avenue 15 feet south of the south line of Twenty-seventh Street and 150 feet south of the south line of Forty-second Street.

The general plan of construction calls for a four-track subsurface Railroad, but the Contractor will not be required under the contract proposed to provide or lay tracks, ties or ballast. A station at Thirty-sixth Street will be constructed; and suitable cross-overs, turnouts and sidings are also to be provided, all as indicated on the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose, or on the streets or on the sidewalks adjacent to private property, as indicated on the plans.

The manner of construction shall be by excavation in open trench, unless otherwise provided in the contract or directed by the Commission.

In the detailed plans for construction, provisions for pipe galleries along the line of the railroad are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad, and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and stations to be built under this contract and note the present conditions along the line of the proposed railroad.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908,

at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission to enable it to determine upon what basis the proposal is made, and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the sureties or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by

the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit, or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to the defaulting bidder. And the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interest of the City to contract with, or may, by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD (FOURTH AVENUE, TWENTY-SEVENTH STREET TO FORTY-THIRD STREET)" and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York, and satisfactory to the Commission, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission, will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed, and its provisions as to security are complied with.

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or her name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For the supplies, or the nature and extent of the work, references must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
