Upon motion of the President, the following preamble and resolution were adopted:

Whereas, It is important and essential to the proper performance of the duties of the Department of Health that it should have the information to be obtained from a census, to be taken during the months of May and June of the current year by Medical Inspectors and tabulated by Clerks in the Department, of the population of The City of New York by wards and districts, showing ages and sex, with number of dwellings and tenement houses, the number of children under five years of age, of the public school age, the extent and character of illness prevailing, and such other valuable information as will be useful to the City; be it

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Charter of The City of New York, the Board of Aldermen be and is hereby respectfully petitioned to request the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to the amount of thirty-five thousand dollars (\$35,000), for the purpose of defraying the necessary expenses required to be incurred by the Board of Health in taking a census of the population of The City of New York during the months of May and June of the year 1905, including the salaries of additional Medical Inspectors, Sanitary Police Officers and a tabulating clerical force.

Upon motion of the President, the following preambles and resolution were adopted:

Whereas, Owing to the continued prevalence of the contagious eye disease known as trachoma among the school children of The City of New York, the Medical Inspectors of the Department of Health are compelled to exclude the children so affected from the public schools; and

Whereas, The public dispensaries have been unable to provide treatment for all of the large number of children so excluded, it has been found necessary for the Department of Health to increase the facilities of its existing trachoma hospital and dispensaries, located at Gouverneur slip and at One Hundred and Eighteenth street and Pleasant avenue, in the Borough of Manhattan, respectively; and

Whereas, The Board of Estimate and Apportionment made no provision in the appropriation of this Department for the year 1905 for conducting these dispensaries and hospitals; it is

Resolved, That the Board of Health, pursuant to the provisions of chapter 535 of the Laws of 1893, hereby certifies to the Board of Estimate and Apportionment that the sum of twenty-five thousand dollars (\$25,000) should be appropriated for defraying the necessary expenses required to be incurred by the Board of Health during the year 1905 for the preservation of the public health, in furnishing, conducting and maintaining dispensaries and hospitals for the care and treatment of cases of trachoma, including the purchase of all necessary food supplies, apparatus, furniture, drugs and miscellaneous supplies, and for the payment of the salaries of Oculists, Medical Inspectors, Nurses, Orderlies and other employees connected with these institutions.

On motion of the President, the following preamble and resolution were adopted:

Resolved, That the Board of Health of the Department of Health of The City of New York, pursuant to the provisions of chapter 535 of the Laws of 1893, hereby certifies to the Board of Estimate and Apportionment that the sum of ten thousand dollars (\$10,000) should be appropriated for defraying the necessary expenses required to be incurred by the Board of Health during the year 1905 for the preservation of the public health, in conducting and maintaining a Clinic for the Treatment of Communicable Pulmonary Diseases, including the purchase of all necessary supplies, apparatus, drugs, etc., and for the payment of salaries of Nurses, Orderlies and others employed in this institution.

Report of the Acting Chief Engineer in the matter of encroachment on private property of the Subway Station at Elm and Worth streets, northeast corner, was presented as follows:

FEBRUARY 4, 1905.

BION L. BURROWS, Esq., Secretary, Rapid Transit Board:

DEAR SIR—I acknowledge your letter of February 2 in respect to the alleged encroachment of the Subway station at the northeast corner of Worth and Elm streets on the private property at that place. I have had a careful survey made and find that there is a slight encroachment for a short distance along the line of the Subway, but the encroachment does not interfere with the construction of a building as proposed by the owners. I have been in consultation with the owners for the last few days, and have notified them that they can remove any portion of the structure as already built without any damage to the property if properly done. The encroachments amount to about a maximum of 3 inches on a portion of the structure on Elm street, and an additional encroachment near the present building belonging to the Railway Company of a portion of the foundation which was not ordered to be built by the City, but was put in by the contractor to facilitate the construction of the Subway at this place. I am sure that the property-owners are now perfectly well satisfied that there is no serious interference with their property.

Very truly yours,

(Signed) GEORGE S. RICE, Acting Chief Engineer.

The following communication from the Interborough Rapid Transit Company as to advertising in subway stations was read:

INTERBOROUGH RAPID TRANSIT COMPANY,  
No. 23 NASSAU STREET,  
NEW YORK, February 6, 1905.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,  
No. 320 Broadway, New York City:

DEAR SIR—I am in receipt of your letter dated February 3, notifying me that at the next meeting of the Board, Thursday, February the 9th, the question of advertising signs in the subway will be taken up, and the adoption of a resolution to carry in effect the recommendations contained in the report of William Barclay Parsons, Chief Engineer, would be considered, all of which I have noted.

Yours very truly,

(Signed) AUGUST BELMONT, President.

The following communication of the Interborough Rapid Transit Company as to slot and weighing machines in the subway stations was read:

INTERBOROUGH RAPID TRANSIT COMPANY,  
No. 23 NASSAU STREET,  
NEW YORK, February 8, 1905.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,  
No. 320 Broadway, New York City:

DEAR SIR—I have your favor of the 3d inst, transmitting a copy of a resolution adopted by your Board on February 2, 1905, demanding the removal of slot and weighing machines from the stations of the Rapid Transit Railroad. As I have already informed you, this company is advised that the resolution transcends the jurisdiction of your Board with respect to the subject. This company has, however, just brought suit against The City of New York, as well as the President of the Borough, which enjoins interference with, among other things, these very slot and weighing machines, until the further action of the court. The decision upon the motion for the continuance of that injunction will determine whether or not this company is correctly advised concerning its rights in the premises.

I remain,

Yours very truly,

(Signed) AUGUST BELMONT, President.

The Comptroller moved the following resolution, which was seconded by the Vice-President:

Resolved, That counsel of this Board be and they hereby are instructed to take appropriate action to compel the removal of all slot and weighing machines from the stations of the Rapid Transit Railroad, in accordance with the resolution of this Board adopted at its last meeting.

Ayes—The President, Vice-President, Comptroller and Commissioners Smith and Jesup.

Nays—None.

Carried, Commissioner Langdon not voting.

Communication as follows from the Rapid Transit Subway Construction Company was presented and referred to the Committee on Plans:

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,  
NOS. 13-21 PARK ROW, NEW YORK,  
February 9, 1905.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,  
No. 320 Broadway, New York City:

DEAR SIR—Referring to the application made by this company for an extension of the section of the Rapid Transit Railroad from Kingsbridge to Van Cortlandt Park, lying between Two Hundred and Thirtieth street and Broadway and a point about 288 feet north of Two Hundred and Forty-second street and Broadway, under date of October 15, 1902, and April 20, 1904, and our subsequent letter of May 4, 1904, on this subject, we beg now to renew our request that your Board take the necessary action to authorize this extension.

It is the opinion of this company that this addition will open up a section of the City at present badly in need of Rapid Transit facilities, and we trust therefore that your Board will see its way clear to granting the same.

I remain,

(Signed) AUGUST BELMONT, President.

Communication as follows from the Interborough Rapid Transit Company as to elevated structure from the New York terminus of the Williamsburg Bridge was read and referred to the Committee on Plans:

INTERBOROUGH RAPID TRANSIT COMPANY,  
No. 23 NASSAU STREET,  
NEW YORK, February 9, 1905.

Hon. ALEXANDER E. ORR, President Board of Rapid Transit Railroad Commissioners,  
No. 320 Broadway, New York City:

DEAR SIR—Referring to the application made by this company on March the 10th, 1904, for an elevated structure, the Borough of Manhattan, from the New York

terminus of the Williamsburg Bridge to appropriate points of connection with the present system of Rapid Transit in that borough, a copy of which is inclosed herewith, we beg to renew our request that your Board take the necessary proceedings to authorize the extensions referred to.

It is the opinion of this company that these additions will serve a great public need, and we trust therefore that your Board will see its way clear to take appropriate action respecting the same.

I remain,

Yours very truly,  
(Signed) AUGUST BELMONT, President.

Communication from the Rapid Transit Subway Construction Company, as follows, as to necessity for four tracks in Fulton street, Brooklyn, was read and referred to the Committee on Plans:

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,  
Nos. 13-21 PARK ROW, NEW YORK CITY,  
February 9, 1905.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,  
No. 320 Broadway, New York City:

DEAR SIR—I understand that a committee is to wait upon the Commission to-day, urging the construction of four tracks on Fulton street, Brooklyn. We are familiar with the general outline of the plan, and this company will be prepared to act favorably on satisfactory decision by your Commission.

I also have information that a double-deck structure will be advocated, and it is therefore proper for me to state to you that our engineers are very strongly opposed to a structure of this nature, and that four tracks on the same level will, in our opinion, be a very much better arrangement.

I remain, yours very truly,  
(Signed) AUGUST BELMONT, President.

The following resolution was moved:

Resolved, That this Board hereby consents to the transfer to the Borough of Richmond of Stafford H. Ritchie, Rodman.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Jesup.

These rooms are to be in use both day and night, and a considerable amount of work is necessary in connection with their care. We have found a man who will take complete care of the rooms for the sum of \$26 per month. As I deem it necessary to engage the services of a caretaker, I recommend that this offer be accepted.

Very truly yours,  
(Signed) GEORGE S. RICE, Acting Chief Engineer.

ROBERT RIDGWAY, Division Engineer, Rapid Transit Railroad Commission, No. 4 Court Square, Brooklyn, N. Y.:

DEAR SIR—For the sum of twenty-six dollars (\$26) per month I will take care of the rooms in the Riverside Apartments, No. 317 Furman street, Brooklyn, occupied by the Engineers and Inspectors of the Rapid Transit Railroad Commissioners, and will supply the brooms, mops, soaps, etc., necessary for the purpose.

This work will include cleaning the rooms, bath, closet, cellar, etc., daily, including Sunday; the care of three fires, day and night; making the coffee required by the force day and night; the removal of snow and dirt from the areaway, and incidental work connected with the above.

Yours very truly,  
(Signed) WM. H. MILLER.

The following resolution was moved:

Resolved, That the Acting Chief Engineer of this Board be and he hereby is authorized to execute a contract with William H. Miller for the care of the rooms of the Division Engineer of the Board at No. 317 Furman street, Brooklyn, at twenty-six dollars per month, in accordance with the above communications, same to take effect February 1, 1905.

BION L. BURROWS, Esq., Secretary, Rapid Transit Commission:

DEAR SIR—I have your communication of January 9 notifying this Commission of the appointment of William Barclay Parsons as Consulting Engineer of your Department, and in reply would inform you that this appointment cannot be recognized if such title is to appear on the pay-roll, as the position of Consulting Engineer does not appear in the classification of exempt positions in your Department.

Regarding the appointment of Mr. Rice as Acting Chief Engineer, would advise you that, in order to conform to the classification, his name must appear on the pay-roll as Chief Engineer.

Yours truly,  
(Signed) HENRY BERLINGER, Secretary.

The following resolution was moved:

Resolved, That the Secretary be and he hereby is authorized to request the Municipal Civil Service Commission to add to the list of positions under the employ of this Board which are exempt from competitive examination, that of Consulting Engineer.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Jesup.

Nays—None.

Carried.

Report of the Acting Chief Engineer was read, as follows, for the information of the Board:

NEW YORK, February 9, 1905.

Hon. ALEX. E. ORR, President, Rapid Transit Board:

MY DEAR SIR—Some of the daily papers have reported that a break has occurred in the Harlem River Tunnel, and that it has been partially filled with water.

I beg leave to report that there has been no break in the tunnel; but about a third of a mile to the east of the Harlem river, a part of the tunnel, which had not been waterproofed, allowed the water to flow in. This water is supposed to come from a break in the 6-inch pipe in a neighboring street, and naturally flowed to the lower part of the Harlem River Tunnel. The water was at once pumped out and no damage was done to the structure.

Very truly yours,  
(Signed) GEORGE S. RICE, Acting Chief Engineer.

The following letter of the Secretary of the City Club and reply of President Orr were read:

THE CITY CLUB OF NEW YORK,  
No. 55 WEST FORTY-FOURTH STREET,  
NEW YORK, February 6, 1905.

Hon. ALEXANDER E. ORR, President, Rapid Transit Commission, No. 102 Produce Exchange, New York:

DEAR SIR—I shall appreciate it if you will send me a statement defining the duties of the Consulting Engineer, as this information is important in connection with a matter that is now having the consideration of this club.

Sincerely yours,  
(Signed) LAWRENCE VEILLER, Secretary.

NEW YORK, February 8, 1905.

LAWRENCE VEILLER, Esq., Secretary, City Club, No. 55 West Forty-fourth Street, New York City:

DEAR SIR—I have your letter addressed to me as President of the Rapid Transit Commission, asking me to send you a "statement defining the duties of the Consulting Engineer." In reply I would say that the duties of Mr. Parsons as Consulting Engineer to this Board have not been defined by any resolution. The words "Consulting Engineer" are perfectly well understood in the engineering profession, and Mr. Parsons' duties will be those, no doubt, which usually attend such a position.

Yours very truly,  
(Signed) A. E. ORR.

The Secretary reported that the President had signed agreement as to the connection with the Trinity Building; also, agreement as to substitution of bond for securities under Contract No. 2; also, contracts for telephone service for the Acting Chief Engineer and his staff; also, contracts for telephones in Pittsburgh, Pa.

The Secretary reported that the President had executed certificate of the Board to the New York and Jersey Railroad Company containing the amendment suggested by the Board of Aldermen, and that the certificate had been accepted formally by the railroad company, and three of the originals returned to the Board, and a copy thereof transmitted to the Board of Aldermen.

The Secretary reported that the President had executed permit to the Southern Boulevard Railroad Company and to the Union Railway Company, under date of the 27th of January, 1905, as previously authorized by the Board.

The President presented petition and communication from property owners, residents, etc., in West Sixty-fifth and Sixty-sixth streets for cross-town subways at these points; also letter from the Harlem Board of Commerce, advocating a Third avenue subway in Manhattan Borough in preference to any other East Side extension. These were referred to the Committee on Plans.

The Board then went into executive session.

The Board then adjourned.

BION L. BURROWS, Secretary.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures. Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
