### MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor, transmitting a communication:

No. 588.

City of New York, Office of the Mayor, }  
April 16, 1906. }

Secretary of the Board of Aldermen:

Dear Sir—The Mayor directs me to transmit, for consideration, inclosed petition from Dr. Hans Liebreich, concerning a system of preventing the plague, dust, smoke, poisonous gases, decrease in mortality, etc.

Respectfully,

WILLIAM A. WILLIS, Assistant Secretary.

Gloucester, Mass., April 11, 1906.

To His Honor the Mayor of The City of New York, City Hall, New York City:

Dear Sir—I am a resident of the United States and formerly lived in your City. I am a graduate civil engineer and chemist of European universities.

Inclosed please find a petition to your Honor and the City Council of New York City.

This petition concerns and relates to a system of preventing the plague, dust, smoke, poisonous gases, decrease in mortality and the prevention of sickness, etc., in your city.

If you will investigate this system and ascertain the vast benefit which the people will obtain if the same is installed in your city, you can thus recommend the passage of an order favorable to this system when the same comes before the City Council for action.

Would be pleased to explain any parts of same that you do not understand, if you will let me know. I would be pleased to correspond with you regarding same.

Yours very respectfully,

DR. HANS LIEBREICH.

Gloucester, Mass., March 31, 1906.

To the Honorable Body, the City Council of New York City:

Your petitioners, L. D. Lothrop and Dr. Hans Liebreich, both of Gloucester, Massachusetts, respectfully represent as follows:

A system of preventing the plague, smoke, dust, odor, and other poisonous gases that are in the air of the metropolis by a canalization and evacuation system by the use of the present sewer system.

The proportional amount of capital invested is small in comparison with the gain to health and the decrease in sickness and pestilence which is obtained by the use of this new atmospheric air canalization and evacuation system by the use of the present sewer system.

If the foregoing canalization and evacuation system is adopted by Greater New York, the atmosphere will become perfect, cool, fresh and healthful, making New York an agreeable summer resort, thus increasing the population and improving the health of the people of the City.

By this system the mortality of the metropolis will be reduced to the lowest minimum.

The proof will be hereinafter set forth of the absolute possibility of carrying out without difficulty this system of air canalization and evacuation which will produce the above mentioned enormous results.

Nearly the full amount of capital invested in this air canalization and evacuation system will be refunded by utilizing and gaining valuable side products out of the evacuated gases. Some of these side products are saltpetre, ammonia and many other valuable products for the use at large in all the industries.

The latest technical facilities are employed for cleaning the City's atmosphere and removing the plague, thus improving the health and decreasing the mortality and sickness by giving a compact population a clean atmospheric air.

To institute this system it is necessary to constitute two new departments, one for hygiene and one for fresh atmospheric air, because by this system the bad air and poisonous atmosphere is removed from such places as desired, as hospitals, pest houses, stables, dwellings, etc.

The undersigned founders should be appointed as heads of these two departments before mentioned with authority to carry out, with the assistance of a small technical and chemical force, the works, projects, estimates and other requirements previous to installing this system.

A committee or other authority should be appointed to correspond and negotiate with the founders of this new atmospheric air canalization and evacuation system, in order to have this new system investigated, previous to installing same.

Your petitioners, the founders of the above-mentioned marvellous system, represent to your Honorable Body a technical enterprise which is entirely unequalled in the wide world.

Your petitioners respectfully pray that your Honorable Body may pass favorable resolutions regarding this system, and especially in regard to Article X., because this will be the means of starting the ball rolling and will eventually lead to the installation of this marvellous system in The City of New York.

Your Honorable Body may investigate this system more in detail in all its different natures by the following experts:

- By experts of hygiene.
- By experts of chemists.
- By experts of civil engineers.
- By experts of machine engineers.
- By experts of meteorologists.

Also by the Board of Health and Sewer Departments and by general experts as may be designated by any tribunal.

The founders of this system have made a number of technical, chemical, difficult, dangerous and expensive entomological analyses of the different atmospheric air taken from the surface of the Metropolis of New York. The results of these analyses have not varied a great deal, but in the main result it was found that abnormal conditions and circumstances existed so that it cannot be forgiven to the present civilization to allow a compact population who are compelled to live in large cities to starve, suffer and die under the condition of such a terrible plague, poisonous gases and other disagreeable odors, when the clear, pure atmospheric air is given free to all by nature.

It looks as if the government was negligent in not endeavoring to prevent this state before this time, but it is probably due to the fact that the government did not realize the vast benefit to be derived from such a system, and the same was not fully explained and given due consideration.

It has now been proven possible to prevent this plague by the latest technical facilities at no cost whatever. Civilization should not stand still and take no action on this project, which may look as abnormal as the telephone, wireless telegraphy, etc., did at first, but technic takes gigantic steps forward and does not stop for any obstacles, and although people at first fight against the proven results of technic and philosophy, they are compelled to surrender to the truth, which always conquers in the end.

This is a Twentieth Century phenomenon, springing upon the technical horizon, bringing to a crowded population a blessing, if the government, whose duty it is to promote the welfare of its people, will assist in installing this system.

From analyses, the atmospheric air of The City of New York was found to contain, besides the regular mixture of oxygen and nitrogen, an extraordinary proportion of hydrogen, poisonous carbonic acid gas, ammonia and other different gases mixed with more or less carbon particles, smoke, dust, dirt and other dirt and a kind of mephitic, which is absolutely incapable of supporting human or animal life. The well noticed disagreeable odor which is more apparent in changeable weather, which is caused by said gases not rising on account of gravity, is derived mostly from the evaporation of all kinds of things, such as kitchen wastes, wash drying, overcrowded dwellings, closets, fires, stables, respirations and perspiration of crowded human and animal bodies, smoke, dust, sewer gases and fermentations of all kinds.

Scientific hygiene makes it more necessary to take this plague away from living beings than it is to carry away the garbage, etc., from the City to prevent pestilence, because it is extremely baneful and hurtful for the delicate breathing organs of human life to live in such an atmosphere. No matter how hard the Board of Health Department try to prevent this plague they cannot accomplish it under the present system. The worst form of the plague is the unusual large quantities of carbonic acid and sewer gases and next the ammonia and all other disagreeable odors and stenches. This mischievous, dangerous, poisonous nuisance can be entirely and permanently prevented, only by the use of your petitioners' radical air canalization and evacuation system, because, by this system, the plague, smoke, gases, etc., are taken completely away from the Metropolis surface, and driven out into the Atlantic Ocean, and all this is done in connection, with the present sewer system and additional exhaust canalization and evacuation pipe system, which can be accomplished at an extremely small expense.

If one travels toward New York City he will see a thick, dark cloud of vapor hanging or resting above the City, similar to a volcanic witch kettle. This constitutes the

plague. The average height of this cloud is about 1,500 feet, or 500 yards. When one arrives in the City, this plague can be quickly felt by the respiration of the delicate breathing organs, and before long they become affected. It can also be noticed in houses by the dust and other particles on the furniture. This has all been proven by best scientific authorities.

Consideration will now be given to the expense, possibilities and work required to install this system of air canalization and evacuation. The founders estimate that 5,000 horse-power will completely take away this plague from the Metropolis to some place where no life exists.

By careful approximate estimate, it was found that the plague lays or hangs about and around 100 square miles over all the complex of the Metropolis, and is about 500 yards in height. This black cloud represents a volume of 150,000 thousand million of cubic yards. This figure, at first glance, looks unsurmountable and enormous, but this plague can be remedied much easier by technical facilities than the technical facilities that replace mountains. The technic only has to chase the stench cloud away from the City by the newest European machinery, with the use of mammoth evacuators, and this can be easily accomplished by an enormous speed which will banish and drive away this plague as quickly as the same is created. This is not done by wagons and teams, but through pipes, and by such a speed that a hurricane is small in comparison with the speed which takes the plague away.

It is a well-known fact in the technic world that one Neartings Centrifugal air sling machine, under high speed, 10-foot hoop, 50 feet in diameter and only by 1 inch periphery exhaust, evacuates more than ten thousand cubic yards of air per minute. This has been proven by authorities, both in England and Germany. This was a continuous action and accomplished with less than 50 horse-power. One hundred of such centrifugal evacuators replace in from twenty-four to thirty hours, 150,000 to 200,000 million cubic yards of air by four to five thousand horse-power, which will drive out the air as far away as required. In working order, this represents every minute, a displacement of 100,000 cubic yards of rotten stinking putrid air out of the City range and creates a fresh air flow from all sides toward the City, which feels like a breeze of wind blowing at about ten miles an hour. This figure was carefully calculated by the founders, and also by meteorologists. If this system is installed in The City of New York, the population and business of the City will be increased to an enormous extent.

To accomplish the evacuation system through the sewer system it is necessary to place all outlets of sewers under the water level, thus making a so-called hermetical closed sewer net. To this net must be attached suction pipes for each and every evacuator centrifugal machine from sewer sections of hospitals, pest houses, dwellings, hotels and every locality where it may be desired to purify the air.

All the exhaust from every centrifugal evacuator must be led into the main pipe of the exhaust pipes, which will drive the plague out of the City at a speed of 500 miles per hour to any distance desired.

It is found by careful mathematical calculation that one or more thin iron pipes or brick tunnel will carry out the full capacity of 100 or more centrifugal evacuators. The square section of this exhaust pipe system represents about one-half of the 100 periphery centrifugal outlet walls, that is, 150, or 75 square inches to each one 100 times, or about 52 square feet of exhaust altogether, as the friction of the pipes represents only one-half or less of the centrifugal machine walls.

Any sewer inlets or openings are especially applied to this system in the full sewer net all over the City. The evacuation machinery constitutes a suction all over the sewer net, and this sucks in all the plague from wherever the pipes are installed.

The evacuation system represents a suction all over the sewer net and any inlet to the sewer represents a suction to the evacuated sewer canals. This sucks in all the poisonous gases, smoke, dust and all loose particles that are in the air by the swift vacuum of the sewer pipes. If a hospital, pest house or other dwelling is fitted with this system all the poisonous gases, etc., are taken away and fresh atmosphere is furnished which keeps the air fresh and cool at all times. All evaporations from closets, smoke, dust, fermentations, carbonic acid gases and all other odors will disappear quickly into the nearest sewer net hole. In this way the City is continuously supplied with fresh air, thus making the City famous throughout the world.

Not only will the mortality be decreased, but the plague will disappear, and sickness will be prevented, thus making The City of New York the world's paradise.

Scientific hygiene teaches us that a clean atmospheric air for respiration of our delicate breathing organs is to be more desired than pure air and clear water. This shows the great importance of this new system, which will prevent this plague of poisonous gases, etc. Millions of dollars are paid out to supply the people with water for their stomach, but not one cent has ever been laid out to supply the people with fresh air for their lungs, which are far more delicate organs to life than the stomach. Think how many young lives in The City of New York alone perish yearly from inhaling this poisonous air when, if this system was installed, fresh air could be furnished free to all.

Being aware that your Honorable Body is composed of the most intelligent and prominent men of the State, you will see at once the enormous importance of installing this system in your City, thus giving you a twentieth century miracle and an everlasting blessing to all mankind.

The founders reserve the rights to this system and would pray that your Honorable Body will protect the said founders and not give franchises to any other concerns or persons, because if your Honorable Body does not act favorably regarding this system a syndicate will soon be formed which will furnish all the capital required to put this system in operation in The City of New York and elsewhere, which the Government will be compelled to accept in the end.

In order to produce and utilize the side products which come from sewerage gases, etc., cold storage houses are erected between the evacuator and outlet; on the walls of these houses enormous quantities of saltpetre, ammonia, potash, soda and acids, such as urea, etc., form, all of which can be used for medicinal and general purposes of all kinds. Enormous profits will be derived from these side products, which will refund the entire investment and pay the running expenses. All this has been proven by careful estimate by the founders.

When this enterprise is accomplished, which will be in about two years from the time it is started, it will represent the leading system of air evacuation and canalization under the latest hygienic method and progress in technical facilities in this line all over the world.

If this system is installed during the present generation the people of the future generations will be ever thankful for the vast benefits which they will derive from this first installed evacuation and canalization system.

An approximate estimate resulted as follows:

Detailed.	Minimum.	Maximum.
Engineers' work.....	\$20,000 00	\$35,000 00
Hermetic sewer outlets.....	200,000 00	300,000 00
Power houses and other buildings.....	750,000 00	1,000,000 00
Machinery .....	960,000 00	1,200,000 00
Evacuation connections.....	140,000 00	200,000 00
Exhaust canalization.....	750,000 00	1,100,000 00
Surroundings .....	75,000 00	100,000 00
Extraordinary and accidental expenses.....	105,000 00	465,000 00
Buildings and sites.....	500,000 00	600,000 00
Complete cost.....	\$3,500,000 00	\$5,000,000 00

The amount of capital required for this system is extremely low in comparison with that which is laid out for the water works, and the gain is enormous and cannot be estimated at monetary value.

Your petitioners will be obliged if your Honorable Body desires to have copies of the chemical theses of the performed eudiometric atmospheric air analysis, with all copies, drawings, etc., but as this represents a voluminous and expensive work on this project, besides the expense of copying, etc., it will be necessary to have the actual expenses paid by the parties desiring the same. These figures may be obtained from your petitioners.

Having approximately explained and described this important, unequalled and wonderful project in brief, we will, if your Honorable Body so desires, explain in all details the system to any of the above-mentioned experts, either by writing and drawings or by personal interviews, if the money required for expenses and outlays is furnished or refunded by the City.

Your petitioners also pray that your Honorable Body will give orders to secretaries and clerks to be in constant correspondence with said petitioners regarding every action taken by your Honorable Body or Committee or experts appointed to investigate this system. All communications to be addressed personally to Dr. Hans Liebreich, Gloucester, Mass.

If you desire to experiment with this air canalization and evacuation system, an extremely cheap experiment can be made by cleaning the foul atmosphere out of the Rapid Transit Tunnel of The City of New York.

Your petitioners respectfully submit this their wonderful system, and trust the same will be given due and favorable consideration by your Honorable Body.

## Reports of Committee on Salaries and Offices—

No. 541.

The Committee on Salaries and Offices, to whom was referred on April 10, 1906 (Minutes, page 100), the annexed resolution in favor of fixing salary of additional grade, position of Automobile Engineman, in the office of President, Borough of Brooklyn, at \$1,200 per annum, respectfully

## REPORTS:

President Coler appeared before the Committee and stated that if this grade is established it is his intention to promote to it a man who has now been in the Department for about two years, receiving \$3 per day. He states that this employee is not only a competent chauffeur, but is an expert mechanic, and by his ability in that line reduces the cost of maintenance and repairs. The Borough President stated his willingness to have the grade limited to one incumbent, and your Committee recommends the return of the resolution to the Board of Estimate and Apportionment, under the following resolution:

Resolved, That the Board of Aldermen hereby returns to the Board of Estimate and Apportionment the following resolution, being No. 541, with the request that the resolution be amended by fixing the number of Automobile Enginemen to be employed in this grade.

Whereas, The Board of Estimate and Apportionment at a meeting held April 6, 1906, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of an additional grade of the position of Automobile Engineman in the office of the President of the Borough of Brooklyn, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said additional grade be fixed at the rate of twelve hundred dollars (\$1,200) per annum.

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the additional grade of the position of Automobile Engineman in the office of the President of the Borough of Brooklyn at the rate of twelve hundred dollars (\$1,200) per annum.

JAMES COWDEN MEYERS, LEONARD L. JACOBSON, M. D., JOHN J. CALLAHAN, JOHN J. CRONIN, CHARLES KUNTZE, ARTHUR H. MURPHY, Committee on Salaries and Offices.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Meyers moved the adoption of this report.

Which report was accepted, and resolution embraced therein adopted.

No. 542.

The Committee on Salaries and Offices, to whom was referred on April 10, 1906 (Minutes, page 102), the annexed resolution in favor of fixing grades of the position of Cable Splicer in the Fire Department at \$3.50 and \$4 per diem, respectfully

## REPORTS:

A representative of the Fire Department appeared and stated that he was authorized by the Commissioner to say that he approved this resolution. Alderman Noonan appeared before the Committee and urged that \$4 per diem was the prevailing rate of wages; that the City should employ only the most competent mechanics in this line, and when such are employed they should be paid the full prevailing rate of wages. On behalf of the men affected he objected to the lower grade of \$3.50 per day. At his request, and in order that he may present the matter before the Select Committee of the Board of Estimate and Apportionment, your Committee recommends the adoption of the following resolution:

Resolved, That Resolution No. 542 be returned to the Board of Estimate and Apportionment, with the request that the said Board, through its select Committee on Salaries, make a further investigation into the matter of the prevailing rate of wages for this class of mechanics, and that if the facts warrant it, the resolution be amended to provide for one grade of \$4 per diem.

Whereas, The Board of Estimate and Apportionment, at a meeting held April 6, 1906, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of additional grades of the position of Cable Splicer in the Telegraph Bureau of the Fire Department, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salaries of said additional grades be fixed at the rates of three dollars and fifty cents (\$3.50) per day and four dollars (\$4) per day.

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salaries of additional grades of the position of Cable Splicer in the Telegraph

Bureau of the Fire Department at the rates of three dollars and fifty cents (\$3.50) per day and four dollars (\$4) per day.

JAMES COWDEN MEYERS, LEONARD L. JACOBSON, M. D., JOHN J. CALLAHAN, JOHN J. CRONIN, CHARLES KUNTZE, ARTHUR H. MURPHY, Committee on Salaries and Offices.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Meyers moved the adoption of this report.

Which report was accepted, and resolution embraced therein adopted.

No. 544—(G. O. No. 102).

The Committee on Salaries and Offices, to whom was referred on April 10, 1906 (Minutes, page 107), the annexed resolution in favor of fixing salary of additional grade of Principal Engineer, Department of Finance, at \$6,000 per annum, respectfully

## REPORTS:

The Comptroller and Deputy Comptroller McCooey appeared before the committee, and the committee was informed that it is the intention to promote to this grade, if established, Mr. Chandler Withington, who has been in the employ of the City for many years, and has, since the death of Engineer McLean, been to all intents and purposes the Chief Engineer of the Finance Department, although without such title. He now receives \$4,000 per year. The Comptroller states in a letter, which your committee appends and makes a part of this report, that he intends to place the entire responsibility of this branch of his office upon Mr. Withington, and that he will not make appointments to the grade of Principal Assistant Engineer at \$4,000 per annum. There are two vacancies in that grade at present, and another one is anticipated. The elimination of the \$12,000 of salaries for these three positions, and the increase of Mr. Withington's salary by \$2,000 will leave a net saving to the Department of \$10,000 per year. The committee thinks that this economy should be encouraged, and believes that the efficiency of the office will be promoted by the new plan, and therefore recommends the adoption of the resolution.

Whereas, The Board of Estimate and Apportionment at a meeting held April 6, 1906, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of an additional grade for one position of Principal Assistant Engineer in the Department of Finance, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said additional grade be fixed at the rate of six thousand dollars (\$6,000) per annum.

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of an additional grade for one position of Principal Assistant Engineer in the Department of Finance at the rate of six thousand dollars (\$6,000) per annum.

JAMES COWDEN MEYERS, LEONARD L. JACOBSON, M. D., JOHN J. CALLAHAN, JOHN J. CRONIN, CHARLES KUNTZE, ARTHUR H. MURPHY, Committee on Salaries and Offices.

Which was laid over.

## Report of Committee on Streets, Highways and Sewers—

No. 528.

The Committee on Streets, Highways and Sewers, to whom was referred on April 3, 1906 (Minutes, page 80), the annexed resolution in favor of changing the names of Dongan street and Hunt's Point road, Borough of The Bronx, to Hunt's Point avenue, respectfully

## REPORTS:

That, having examined the subject, they believe the proposed change of name to be necessary.

They therefore recommend that the said resolution be adopted.

Resolved, That the names of Dongan street, from Westchester avenue to the Southern Boulevard, and Hunt's Point road, from the Southern Boulevard to the East river, Borough of The Bronx, be and the same are hereby changed to and shall hereafter be known as "Hunt's Point avenue," and the President of the Borough of The Bronx is hereby authorized and requested to make the necessary changes on the maps and records of The City of New York.

HARRY L. LEVERETT, FRANK L. DOWLING, MAX S. GRIFENHAGEN, LEWIS M. POTTER, THOS. D. DINWOODIE, C. D. NOONAN, Committee on Streets, Highways and Sewers.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman O'Neill moved the adoption of this report.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative by the following vote, a majority of all the members elected failing to vote in favor thereof.

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Clifford, Collins, Cronin, Davies, Diemer, Dotzler, Dowling, Ellery, Farrell, Griffenhagen, Gunther, J. J. Hahn, Hatton, Herold, Jacobson, Kline, Krulish, Kuck, Kuntze, Lawlor, Leverett, Markert, Meyers, Moffitt, O'Neill, Peters, Potter, Rendt, Schloss, Schneider, Wentz—37.

Negative—Aldermen Doull, Doyle, Everson, Freeman, C. Hahn, Levine, Morris, Murphy, Stapleton, Sullivan, President Cromwell, President Bernel, by Lawrence Gresser, Commissioner of Public Works; President Haffen, President Coler, President Ahern and the Vice-Chairman—16.

On motion of Alderman Dowling, the above vote was reconsidered, and the paper referred to the Local Board of the district affected.

## Reports of Committee on Finance—

No. 585—(G. O. No. 103).

The Committee on Finance, to whom was referred on April 10, 1906 (Minutes, page 172), the annexed resolution in favor of paying bill of Dodd, Mead & Co. for full set of New International Encyclopædia for use in City Clerk's office, respectfully

## REPORTS:

That, having examined the subject, they recommend that the said resolution be adopted.

Resolved, That the Comptroller be and he is hereby authorized and requested to draw a warrant in favor of Dodd, Mead & Co. for one hundred and twenty dollars (\$120), the said sum to be payment in full for a set of the New International Encyclopædia (half Russia binding), for the use of the office of the City Clerk and Clerk of the Board of Aldermen; said sum to be charged to and paid out of the appropriation entitled "City Contingencies, 1906."

JOHN R. DAVIES, JAMES W. REDMOND, THOS. J. MULLIGAN, B. W. B. BROWN, A. L. KLINE, JOHN DIEMER, J. E. BUNTING, Committee on Finance.

Which was laid over.

## Report of Committee on Street Cleaning—

No. 294.

The Committee on Street Cleaning, to whom was referred on February 14, 1906 (Minutes, page 793), the annexed anonymous communication in relation to increase of salary of Section Station Keepers in Department of Street Cleaning, respectfully

## REPORTS:

That, having the subject, they recommend that the said communication be placed on file.

Department of Street Cleaning, Borough of Brooklyn,  
New York City, February 12, 1906.

Hon. WM. WENTZ, Alderman Sixty-fourth District:

Dear Sir—We, the Section Station Keepers in the Street Cleaning Department, appeal to you as a member of the Honorable Board of Aldermen to try and adjust a grievous wrong perpetrated upon us by the heads of the Street Cleaning Department officials, by being discriminated against by compelling us to work on Sunday without extra compensation, all Sweepers and Drivers receiving 25 cents per hour for Sunday work.

The Station Keepers are very important factors in the Department. They are janitors of stations, custodians of all Department property and work daily more than an hour in excess of Sweepers. We had to sign documents to waive the additional

extra pay for Sunday work or give up our positions as Station Keepers, and therefore appeal to you to bring this matter to the attention of the Board.

Thanking you in advance for endeavors, we remain,  
Yours very truly,

#### THE STATION KEEPERS.

JOSEPH KRULISH, JOSEPH F. ELLERY, HENRY CLAY PETERS,  
GEORGE MARKERT, GEO. J. SCHNEIDER, GEO. EVERSON, Committee on Street Cleaning.

The President ruled the whole matter out of order.

Reports of Committee on Bridges and Tunnels—  
No. 137.

The Committee on Bridges and Tunnels, to whom was referred on January 23, 1906 (Minutes, page 432), the annexed resolution directing said Committee to investigate terminal facilities of the Williamsburg Bridge, respectfully

#### REPORTS

the accompanying recommendations:

First—The authorities should exercise the utmost expedition in the letting of the contracts for all work in connection with the Manhattan sub-surface terminals, and that this work should be hastened to the utmost.

Second—That before the contract for the elevated service be executed, a public hearing on its terms shall be granted, and advertised in advance.

Third—That this contract shall stipulate that cars from the Manhattan side shall run at least as far as the loop, and not less frequently than one train every two minutes during rush hours, and one every four minutes during non-rush hours, and one train every ten minutes after 1 a. m.

Fourth—That until the completion of the underground Manhattan station, that a temporary skeleton platform be erected on the bridge for the elevated. The elevated structure on Broadway, Brooklyn, to be connected with the bridge elevated structure at once. That the temporary skeleton platform mentioned be removed just as soon as the permanent subway station is available.

Fifth—That on the Brooklyn plaza suitable shelters be constructed, not in the nature of elaborate terminal stations, but simple protections from the inclemencies of the weather.

Sixth—That suitable underground toilet accommodations be provided.

Seventh—That the south roadway occupied by the Brooklyn trolleys be immediately floored for the protection of passengers in the event of accidents.

Eighth—That the northern railings on the south track, occupied by the Brooklyn trolleys, be completed, and that they be raised sufficiently high to protect passengers from the danger of being swept off the platforms of the trolleys into the river in the event of panic on any of the cars.

Ninth—That suitable railings and additional flooring be provided for the north roadway occupied by the Manhattan trolleys.

Tenth—That the New York City Railway Company be required to promptly commence the operation across the bridge of the additional lines for which arrangements have been made. Also that additional and larger cars be run on the lines now in operation, to provide better accommodations for the people.

Whereas, Deplorable conditions of transit have existed for some time, and do now exist, on the Williamsburg Bridge, and whereas there seems to be no intention on the part of the railroad companies to relieve these conditions; be it

Resolved, That the Board of Aldermen direct the Committee on Bridges and Tunnels to investigate the terminal facilities on said bridge and such other conditions as create the present deplorable and unsatisfactory state of affairs, with a view to ameliorating them and giving the people the transportation to which they are entitled.

WM. WENTZ, JOSEPH SCHLOSS, GEORGE MARKERT, FREDERICK RICHTER, CHARLES KUNTZE, JOHN J. FARRELL, JOHN J. CRONIN, Committee on Bridges and Tunnels.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Wentz moved the adoption of this report.

Which report was adopted.

No. 269—(G. O. No. 104).

The Committee on Bridges and Tunnels, to whom was referred on February 14, 1906 (Minutes, page 785), the annexed resolution in favor of abolishing tolls, except for cars, on the Brooklyn and Williamsburg Bridges, respectfully

#### REPORTS:

That at a public hearing held April 2, 1906, a large majority expressed themselves in favor of abolishing these tolls, and that the general consensus of public opinion tends steadily in the same direction.

They therefore recommend that the said resolution be adopted.

Whereas, The New York and Brooklyn Bridge and the Williamsburg Bridge were authorized, and the former constructed and for many years maintained, as affording direct connection between the separate, independent cities of New York and Brooklyn, which since have become one municipality, and as the result of such consolidation these bridges have become in fact public highways connecting the boroughs of Manhattan and Brooklyn within the City of New York; and

Whereas, It is on these two only of the many bridges under the control of the municipality that tolls for vehicles are exacted; therefore be it

Resolved, That from and after July 30, 1906, in conformity with section 598 of the Greater New York Charter, which confers upon the Board of Aldermen authority to adopt and prescribe tolls, all vehicular tolls, with the exception of those charged for the passage of railway cars, shall be and the same are hereby abolished from and after that date on the New York and Brooklyn Bridge and the Williamsburg Bridge.

WM. WENTZ, JOSEPH SCHLOSS, GEORGE MARKERT, FREDERICK RICHTER, CHARLES KUNTZE, JOHN J. FARRELL, JOHN J. CRONIN, Committee on Bridges and Tunnels.

Which was laid over.

#### SPECIAL ORDERS.

The Vice-Chairman called up Special Order No. 21, being a report and resolution, as follows:

No. 343—(S. O. No. 21).

The Committee on Public Letting, to whom was referred on February 28, 1906 (Minutes, page 876), the annexed resolution in favor of authorizing the Commissioner of Docks to purchase, without public letting, two automobiles for the official use of the Department of Docks and Ferries, respectfully

#### REPORTS:

That Mr. Savage, the Secretary of the Department, appeared before the Committee and urged the necessity of some quick means of transportation. The water front of The City of New York is 448 miles. New docks being built will increase the area which must be constantly inspected by the Commissioner, Engineers and other employees of the Department to 662 miles. When these docks are completed, they will be the source of a large revenue to the City.

They therefore recommend that the said resolution be adopted.

Resolved, That, pursuant to the power conferred upon it by the provisions of section 419 of the Greater New York Charter, the Board of Aldermen, deeming such course to be in the public interest, hereby authorizes and empowers the Commissioner of Docks to purchase in the open market, instead of by contract at public letting, for the official use of the Department of Docks and Ferries, two (2) automobiles, at an expense not to exceed the sum of five thousand dollars (\$5,000) each.

A. L. KLINE, JOSEPH SCHLOSS, JACOB BARTSCHERER, WM. S. CLIFFORD, MAX S. LEVINE, DAVID S. RENDT, FRANCIS J. O'NEILL, Committee on Public Letting.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members elected failing to vote in favor thereof.

Affirmative—Aldermen Ahner, Bartscherer, Bunting, Callahan, Carter, Clifford, Cole, Collins, Cronin, Dinwoodie, Dotzler, Doull, Dowling, Doyle, Everson, Farrell, Fried, C. Hahn, Harnischfeger, Hatton, Herold, Jacobson, Kline, Krulish, Kuck, Lawlor, Leverett, Levine, Linde, Markert, Monahan, Morris, Mulligan, Murphy,

Noonan, Olvany, O'Neill, Peters, Potter, Redmond, Rendt, Richter, Schloss, Schneider, Smith, Stapleton, Sullivan, Wafer, Wentz; President Cromwell, President Bermel, by Lawrence Gresser, Commissioner of Public Works; President Haffen, President Coler, President Ahern and the Vice-Chairman—55.

Negative—Aldermen Downing, Ellery, Freeman and J. J. Hahn—4.

On motion of Alderman Doull, the above vote was reconsidered, and the paper was again laid over and made a Special Order for the next meeting at 2 o'clock p. m., and the Clerk directed to request the Commissioner of Docks and Ferries to be present at that time.

Alderman Jacobson called up Special Order No. 22, being a report and resolution, as follows:

No. 412.

The Committee on Public Health, to whom was referred on March 13, 1906 (Minutes, page 1029), the annexed ordinance in favor of placing cuspidors in theatres, on "L" stations and at subway and railroad stations, bridges and ferry houses, respectfully

#### REPORTS:

That, having examined the subject, they believe that public health demands such safeguards, and they therefore recommend that the said ordinance be adopted.

AN ORDINANCE for the promotion of sanitary conditions in certain public places in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. There shall be placed in the foyer or lobby of each theatre, on each elevated railway station, in each subway station, in each ferry-house, at each bridge terminal and the terminal of each railroad entering The City of New York, a sufficient number of spittoons or cuspidors, made of porcelain or lined with enamel, and to contain such antiseptic solution as may be deemed expedient and designated by the Board of Health, the better to promote sanitary conditions and minimize the danger of propagating disease.

Sec. 2. So far as the provisions of the foregoing section apply, the Commissioner of Bridges is authorized to carry them into effect.

Sec. 3. Each and every company, firm, corporation, individual, person or persons owning, controlling or operating any theatre, elevated railway station, subway station or railroad terminal, for each failure to comply with the provisions of section 1 of this ordinance shall, upon conviction thereof before a City Magistrate, be subject to a penalty not exceeding fifty dollars (\$50).

Sec. 4. This ordinance shall take effect immediately.

LEONARD L. JACOBSON, M. D., JOHN J. FARRELL, HARRY L. LEVERETT, J. F. ELLERY, ANDREW J. DOYLE, FRANCIS J. O'NEILL, JAMES LAWLOR, Committee on Public Health.

On motion of Alderman Doull, the above matter was recommitted to the Committee on Public Health for reconsideration and report.

#### GENERAL ORDERS.

President Coler called up General Order No. 92, being a report and resolution, as follows:

No. 492.

The Committee on Salaries and Offices, to whom was referred on April 3, 1906 (Minutes, page 3), the annexed resolution in favor of appointing a Consulting Engineer of Public Works, under the jurisdiction of President, Borough of Brooklyn, at \$8,000 per annum, respectfully

#### REPORTS:

President Coler and Comptroller Metz appeared before the Committee on this resolution and urged its adoption. Each Borough President is authorized by the Charter to employ a Consulting Engineer, and it has been the custom to employ Engineers on a fee basis. Such Engineers, of course, do not give their whole time to the City, and the fees are usually very large. Mr. Coler stated that it is his intention to appoint to this position Mr. Creuzbaur, now Principal Assistant Engineer in the Finance Department, and his experience as an Engineer in five City departments during the past twenty years has peculiarly fitted him for the position. Mr. Coler says that he has in hand \$2,000,000 worth of relief sewer work, and contemplates as much more, and that the fees of a Consulting Engineer for this work alone would run up into thousands of dollars. He stated definitely that it is his intention to use the new Engineer for all consulting work, thus fixing the cost at \$8,000 per year, instead of leaving it uncertain upon a fee basis. Mr. Coler thinks, and the Committee is inclined to agree with him, that this arrangement will prove one of economy, and from the testimony that has come to the members of the Committee from many sources they are convinced that Mr. Creuzbaur is an unusually capable Engineer, who has proved himself a worthy public servant. The Committee therefore recommends the adoption of the resolution.

Resolved, That the Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment March 30, 1906:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of the position of Consulting Engineer of Public Works, under the jurisdiction of the President of the Borough of Brooklyn, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said position be fixed at the rate of eight thousand dollars (\$8,000) per annum; and be it further

"Resolved, That, in pursuance of section 386 of the Greater New York Charter, the President of the Borough of Brooklyn be and he is hereby authorized, with the concurrence of the Board of Aldermen, to employ one Consulting Engineer of Public Works, to be under his jurisdiction, at a salary of eight thousand dollars (\$8,000) per annum."

JAMES COWDEN MEYERS, JOHN J. CRONIN, FRANK D. STURGES, MICHAEL J. CARTER, CHARLES KUNTZE, LEONARD L. JACOBSON, M. D., Committee on Salaries and Offices.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Cole, Collins, Cronin, Diemer, Dotzler, Doull, Dowling, Doyle, Ellery, Everson, Farrell, Fried, Gunther, C. Hahn, J. J. Hahn, Harnischfeger, Herold, Jacobson, Kline, Krulish, Lawlor, Linde, Markert, Meyers, Monahan, Olvany, Potter, Rendt, Richter, Schneider, Stapleton, Sturges, Sullivan, Wafer, Wentz, President Bermel, by Lawrence Gresser, Commissioner of Public Works; President Haffen, President Coler and the Vice-Chairman—46.

President Coler called up General Order No. 96, being a report and resolution, as follows:

No. 375.

The Committee on Finance, to whom was referred on March 6, 1906 (Minutes, page 947), the annexed resolution in favor of an issue of \$3,700 Special Revenue Bonds to pay wages of Enginemen and Stokers, Bureau of Sewers, Borough of Brooklyn, respectfully

#### REPORTS:

That, having examined the subject, they recommend that the said resolution be adopted.

Resolved, That, pursuant to the provisions of section 188 of the Greater New York Charter, as amended by chapter 24 of the Laws of 1905, for the purpose of meeting an estimated deficiency in the appropriation made to the office of the President of the Borough of Brooklyn for the year 1906, for the Thirty-first Ward Sewerage Districts 1 and 3, and the Twenty-sixth Ward Disposal Works in the Bureau of Sewers, set forth in a communication of the President of the Borough, dated March 5, the Board of Aldermen hereby requests the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to an amount not exceeding in the aggregate \$3,700.

JOHN R. DAVIES, JOSEPH FALK, J. E. BUNTING, A. L. KLINE, JAMES W. REDMOND, JOHN DIEMER, Committee on Finance.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Clifford, Cole, Collins, Cronin, Davies, Diemer, Dinwoodie, Doull, Dowling, Downing, Doyle, Ellery, Everson, Farrell, Fried, Grifenhagen, Gunther, C. Hahn, J. J. Hahn, Harnischfeger, Hatton, Herold, Kline, Krulish, Lawlor, Leverett, Levine, Linde, Markert, Meyers, Monahan, Morris, Mulligan, Murphy, Noonan, Olvany, O'Neill, Potter, Redmond, Rendt, Richter, Schloss, Schneider, Stapleton, Sturges, Sullivan, Wafer, Wentz, President Cromwell, President Bermel, by Lawrence Gresser, Commissioner of Public Works, President Haffen, President Coler, the Vice-Chairman and the President—60.

Negative—Alderman Freeman—1.

The Vice-Chairman (by request) called up General Order 95, being a report and resolution, as follows:

No. 497.

The Committee on Salaries and Offices, to whom was referred on April 3, 1906 (Minutes, page 10), the annexed resolution in favor of fixing salary of Secretary to Commissioner of Water Supply, Gas and Electricity at \$3,000 per annum, respectfully

#### REPORTS:

Commissioner Ellison appeared before the Committee and explained that his Secretary now receives \$2,500 per annum, and that he had asked the Board of Estimate and Apportionment for an increase of \$1,000, but that that Board had adopted this resolution giving an increase of \$500 and making the salary uniform with that of the Secretary to the Deputy Commissioner. Mr. Ellison explained that the Secretary has more than clerical duties, and that his experience in various City departments has made him a very useful man. The Committee recommends the adoption of the resolution.

Whereas, The Board of Estimate and Apportionment at a meeting held March 30, 1906, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of the position of Secretary to the Commissioner of Water Supply, Gas and Electricity be fixed at the rate of three thousand dollars (\$3,000) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the position of Secretary to the Commissioner of Water Supply, Gas and Electricity at the rate of three thousand dollars (\$3,000) per annum.

JAMES COWDEN MEYERS, JOHN J. CRONIN, FRANK D. STURGES, MICHAEL J. CARTER, LEONARD L. JACOBSON, M. D., Committee on Salaries and Offices.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Cole, Collins, Cronin, Diemer, Dinwoodie, Doull, Dowling, Downing, Ellery, Everson, Farrell, Freeman, Fried, Gunther, C. Hahn, J. J. The Vice-Chairman called up General Order No. 94, being a report and resolution as follows:

No. 495.

The Committee on Salaries and Offices, to whom was referred on April 3, 1906 (Minutes, page 7), the annexed resolution in favor of establishing additional grades in office of Superintendent of Buildings, Borough of Manhattan, respectfully

#### REPORTS:

This resolution is in form as requested by the Board of Aldermen in returning to the Board of Estimate and Apportionment the previous resolution. The responsibility is now placed upon the President of the Borough and the Superintendent of Buildings, and no Inspector will be given an increase of salary simply by reason of length of service. Mr. Murphy, the Superintendent, appeared before the committee, and stated that he intends to give the increase in salary only to those Inspectors whom he believes to be worthy, and he says that by withholding the increase from some of the Inspectors he will have funds sufficient to employ much needed additional Inspectors. The increases and salaries of new men will be cared for by an appropriation of Special Revenue Bonds of about \$27,000 already made by the Board of Estimate and Apportionment, based upon a resolution for a larger amount passed by the Board of Aldermen in 1904 and 1905. The committee recommends the adoption of the resolution.

Resolved, That the Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment March 30, 1906:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment February 2, 1906, which reads as follows:

Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of additional grades of the following positions in the office of the Superintendent of Buildings, Borough of Manhattan, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salaries of said additional grades be fixed as follows:

	Per Annum.
Chief Engineer.....	\$4,000 00
Assistant Engineer .....	2,400 00
Chief Inspector of Buildings.....	4,000 00
Inspectors employed for three years or less.....	1,350 00
Inspectors employed over three years.....	1,500 00

—be amended by adding thereto the words: "But no increase of salary herein provided for shall take effect without the express approval of the President of the Borough of Manhattan or the Superintendent of the Bureau of Buildings."

JAMES COWDEN MEYERS, JOHN J. CRONIN, FRANK D. STURGES, MICHAEL J. CARTER, CHARLES KUNTZE, LEONARD L. JACOBSON, M. D., Committee on Salaries and Offices.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Cole, Collins, Cronin, Dinwoodie, Doull, Dowling, Ellery, Everson, Farrell, Fried, Gunther, C. Hahn, J. J. Hahn, Herold, Kline, Krulish, Lawlor, Leverett, Levine, Linde, Markert, Meyers, Moffitt, Mulligan, Olvany, O'Neill, Potter, Redmond, Rendt, Schloss, Stapleton, Sturges, Sullivan, President Cromwell, President Bermel, by Lawrence Gresser, Commissioner of Public Works, President Coler and the Vice-Chairman—43.

Alderman Ahner called up General Order No. 87, being a report and resolution, as follows:

No. 366.

The Committee on Streets, Highways and Sewers, to whom was referred on March 6, 1906 (Minutes, page 926), the annexed resolution in relation to the street approaches to the St. George terminal in the Borough of Richmond, respectfully

#### REPORTS:

That the President and the Commissioner of Public Works of the Borough of Richmond appeared before your Committee and explained the necessity for laying out of adequate street approaches to the new municipal ferry terminus at St. George. This new terminus is now well on towards completion, and work on the proposed approaches should be begun at once in order that the public may reap the full benefit of the new ferry system.

Your Committee therefore recommend the adoption of the resolution.

Resolved, That, in pursuance of the provisions of the Greater New York Charter, the following resolution of the Board of Estimate and Apportionment, adopted by that Board on the 9th day of February, 1906, be and the same hereby is approved, and the public work or improvement therein provided for is hereby authorized, and it is hereby

determined that the cost and expense thereof shall be borne and paid as therein provided, namely:

"A copy of a resolution of the Local Board of the Staten Island District, duly adopted by said Board on the 29th day of December, 1905, and approved by the President of the Borough of Richmond, on the 29th day of December, 1905, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"For improvement of the streets within the 'St. George ferry approach plan,' extending from Hannah street on the south to the intersection of Stuyvesant place and Jay street with Richmond terrace on the north; namely, South street, Jay street, Hyatt street, Stuyvesant place to Weiner place, extension of Stuyvesant place to Griffin street, and the widening of Griffin street; the work to consist in general of building retaining walls, with their copings and railings, regulating and grading, paving, constructing sidewalks, curbing, turfing, planting trees, setting of street lamps, culverts and all other necessary features in connection with carrying out the work outlined,

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$765,300, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$1,241,600 to \$44,581,235, having also been presented, it is

"Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that 30 per cent. of the cost and expense thereof shall be assessed upon the property deemed to be benefited by the said local improvement, and that the remainder of such cost and expense shall be borne and paid by The City of New York, except that where the streets are occupied by a street railway the cost of paving that part of the roadway occupied by the street railway company operating thereon, between its tracks, the rails of its tracks and two feet in width outside of its tracks, shall be paid or repaid to the City, pursuant to law, by the said street railroad company.

"Resolved, That nothing in the above resolutions contained shall prevent the street railway company from paving that portion of the roadway between its tracks, the rails of its tracks and two feet in width outside of its tracks, at its own cost and expense, under the supervision of the President of the Borough.

"Resolved, That in the judgment of this Board, the 30 per cent. which is to be assessed in the above proceeding should be distributed over the entire Borough of Richmond."

JOHN HANN, HARRY L. LEVERETT, FRANK L. DOWLING, C. D. NOONAN, THOS. D. DINWOODIE, Committee on Streets, Highways and Sewers.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Collins, Cronin, Dinwoodie, Dotzler, Dowling, Downing, Ellery, Everson, Freeman, Fried, Grifenhagen, Gunther, C. Hahn, J. J. Hahn, Hatton, Herold, Jacobson, Kline, Krulish, Kuntze, Lawlor, Leverett, Linde, Markert, Moffitt, Mulligan, Olvany, O'Neill, Potter, Redmond, Rendt, Schloss, Stapleton, Sturges, Sullivan, Wafer, Wentz, President Cromwell, President Bermel, by Lawrence Gresser, Commissioner of Public Works, President Coler and the Vice-Chairman—49.

Alderman Ahner called up General Order No. 93, being a report and resolution, as follows:

No. 494.

The Committee on Salaries and Offices, to whom was referred on April 3, 1906 (Minutes, page 6), the annexed resolution in favor of fixing salary of additional grade of Stenographer and Typewriter, Department of Water Supply, Gas and Electricity, at \$1,800 per annum, respectfully

#### REPORTS:

This resolution is in amended form as recommended to the Board of Estimate and Apportionment by this Board, and the Committee upon the statements of Commissioner Ellison and Chief Engineer de Varona believes that it is desirable to provide the salary of \$1,800 for one Stenographer, so as to retain in the Department a man who is especially valuable, and who, by reason of a place on the Civil Service list as Court Stenographer is in danger of being tempted to transfer in order to secure a larger salary. The Committee recommends the adoption of the resolution.

Whereas, The Board of Estimate and Apportionment, at a meeting held March 30, 1906, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of an additional grade of the position of Stenographer and Typewriter in the Department of Water Supply, Gas and Electricity, the same to be held by but one incumbent, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said additional grade be fixed at the rate of eighteen hundred dollars (\$1,800) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the additional grade of the position of Stenographer and Typewriter in the Department of Water Supply, Gas and Electricity at the rate of eighteen hundred dollars (\$1,800) per annum, the same to be held by but one incumbent.

No. 453.

The Committee on Laws and Legislation, to whom was referred on March 20, 1906 (Minutes, page 1091), the annexed resolution in relation to the Baron Hirsch Cemetery, Third Ward, Borough of Richmond, respectfully

#### REPORTS:

That the purpose of the resolution is to confirm and maintain the Baron Hirsch Cemetery in the exercise of the rights and privileges derived from the former Baron Hirsch Synagogue Corporation. No additional property or rights are granted.

It was suggested that a clause be added to avoid any effect of the repeal of the earlier resolutions, which was assented to by the counsel for the cemetery corporation. The committee therefore recommends the adoption of the following substitute resolution:

#### SUBSTITUTE.

Resolved, That the Baron Hirsch Cemetery, a corporation organized under the laws of the State of New York, be and it is hereby authorized and empowered to maintain a cemetery on land, not exceeding seventy-six (76) acres, now owned by it, in the Third Ward of the Borough of Richmond, City of New York, this consent being granted in place and stead of the consents heretofore granted to the Baron Hirsch Synagogue Corporation by the Municipal Assembly of The City of New York by two resolutions adopted respectively January 17, 1899, and June 6, 1899, which said two resolutions are hereby repealed. Nothing herein contained shall be construed as interfering with the vested rights of the Baron Hirsch Synagogue.

Alderman Downing moved to refer this matter to the Committee on Affairs of Boroughs.

Alderman Morris moved as an amendment that the paper be sent back to the Committee on Laws and Legislation, with instructions to hold a public hearing. Which motion of Alderman Morris was adopted.

Alderman Bartscherer called up General Order No. 98, being a report and resolution, as follows:

No. 125.

The Committee on Laws and Legislation, to which was referred January 23, 1906 (Minutes, page 393) the annexed communication from the Brotherhood of Painters, Decorators and Paperhangers of America, requesting that the City do its own work, instead of letting same out to contractors, respectfully

#### REPORTS:

That a public hearing was held, at which this matter was considered, which was attended by representatives of the organizations at whose instance the resolution was introduced, and by others interested in work on public buildings.

Criticism of the present method of letting work by contract was made, more especially with regard to repairs, and particularly upon school buildings; it being claimed that the result was inferior work, due to the employment by the contractors of incompetent and cheap labor; and from a communication received from Mr. Richard H. Adams, Chairman of the Committee on Buildings of the Board of Education, the Committee is led to the conclusion that such criticism, at least as to that department, is not without foundation.

Mr. Adams states, however, that the Board of Education at one time maintained a workshop, in which mechanics were employed; but that it was discontinued because the result was unsatisfactory as matter of economy.

He further states that the employment of mechanics directly has been repeatedly considered by the Committee on Buildings of that Board, with the invariable conclusion that it is for the best interests of the City to let work out by contract.

The Committee is unable to appreciate that the City should accept inferior work in any department, because of the system adopted for its performance; but recognizes that if work is not up to the required standard, either with regard to the materials used or as to the manner of their use, such results are due not to the system, but to the contractors themselves.

The Committee is of opinion that this Board is without power to enact an ordinance regulating this subject, in which it is confirmed by advice from the Corporation Counsel.

The situation, however, fully justifies that the Board recommend to the departments in charge of work on public buildings that they make a thorough inquiry into the manner in which such work is performed under contract, and adopt such measures as will secure an efficient inspection and supervision of such work, and hold contractors to a strict and full performance of their engagements.

The Committee is confident that such action will result in benefit to the City, and obviate any supposed necessity for the employment of incompetent labor on public works.

To the Honorable Body, the Board of Aldermen:

Whereas, It has been demonstrated that the various City Departments have shown themselves competent to conduct their work in an efficient and satisfactory manner.

We, the painters of New York City, in convention assembled, do request and petition you that you do immediately proceed to enact a law whereby all work in any of the various City Departments shall be done by mechanics in that Department, as has been done heretofore by the Department of Bridges, Docks, Ferries, Parks and Public Buildings, these having been done and conducted to the satisfaction of the public and the various committees of the Council.

Therefore we, the painters of New York City, do request that your Honorable Body do enact a law whereby all the work in the various departments be done direct by the City, thereby guaranteeing efficient work under better and healthier conditions as prevails at present in the various departments above mentioned.

Respectfully submitted,

GEORGE B. GANNON,  
JOSEPH ALLEN,  
GEORGE FINGER,

Committee of the Brotherhood of Painters, Decorators and Paperhangers of America, New York District Council.

Alderman Brown called up General Order No. 100, being a report and resolution, as follows:

No. 48c.

The Committee on Laws and Legislation, to which was referred on March 27, 1906 (Minutes, page 1149), the annexed resolution in favor of indorsing Assembly Bill No. 775, compelling the use of life-saving chairs on vessels governed by section 15 of the Navigation Law, respectfully

#### REPORTS:

That the Committee has given the subject careful consideration and has examined the Assembly bill referred to in the resolution.

The Committee is thoroughly in sympathy with the purpose of the measure and desires to express its hearty approval of the enactment of laws for the better protection of human life on vessels.

The object of the bill in question is to enable passengers more readily to obtain life preservers when needed, by providing that chairs shall be furnished to each of which a life preserver shall be attached.

The Committee is in doubt as to the practicability of the method proposed by this bill, among other reasons because of the effect of incumbering the decks and saloons with such chairs, in many instances duplicating seats, and of impairing the virtue of the preservers through constant and frequent handling.

The Committee therefore recommends the adoption of the following substitute resolution:

#### SUBSTITUTE.

Resolved, That the Board of Aldermen of The City of New York hereby approves of the enactment of laws by the State Legislature which will tend to afford better protection to human life on vessels, and as a means to that end will enable passengers more readily to secure life preservers when required.

Resolved, That in its consideration of Assembly Bill No. 775 the Legislature be urged to inquire into the various methods by which, when the necessity arises, life preservers may be most easily and quickly placed in the hands of passengers, and that it enact a law which will best accomplish so greatly desired a result.

#### ORIGINAL.

Whereas, Assembly Bill No. 775, introduced by Assemblyman Stanley, which will compel the use of life-saving chairs on all vessels governed by section 15 of the Navigation Law, is recognized as a meritorious measure; therefore

Resolved, That the Board of Aldermen hereby approves of this method for the better preservation of human life and protection of passengers, and urges upon the State Legislature the speedy passage of said bill.

Alderman Brown called up General Order No. 101, being a report and ordinance, as follows:

No. 516.

The Committee on Laws and Legislation, to whom was referred on April 3, 1906 (Minutes, page 76), the annexed ordinance amending section 14, article I, of the Rules of the Road, respectfully

#### REPORTS:

That the condition of traffic at the intersection of One Hundred and Thirty-fifth street and Eighth avenue, in the Borough of Manhattan, has been productive of serious accidents, and requires the adoption of such measures as will tend to promote the safety of the traveling public.

In the opinion of the Committee the proposed ordinance is reasonable, and will assist in lessening the dangers of the locality in question.

The Committee therefore recommends the adoption of the ordinance.

AN ORDINANCE to amend section 14 of article I. of "An Ordinance in Relation to the Rules of the Road."

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. Section 14 of article I. of "An Ordinance in Relation to the Rules of the Road," approved and signed by the Mayor December 14, 1903, is hereby further amended so as to read as follows:

Sec. 14. Surface Cars Taking On or Discharging Passengers—Surface cars shall stop on the far side of the street at the crosswalk to discharge or take on passengers (.), *excepting that the surface cars operated on Eighth avenue, in the Borough of Manhattan, shall stop both on the near and far side of the street at the intersection of West One Hundred and Thirty-fifth street with said avenue.*

Sec. 2. This ordinance shall take effect immediately.

Note—Old matter in parentheses ( ) to be omitted; new matter in italics.

By Alderman Meyers—  
AN ORDINANCE to amend section 105 of the Ordinance of The City of New York, known as the Building Code.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Section 105 of the Ordinance known as the Building Code, is hereby amended so as to read as follows:

Every building hereafter erected or altered, to be used as a hotel, lodging house, school, theatre, jail, police station, hospital, asylum, institution for the care or treatment of persons, the height of which exceeds (thirty-five feet), *thirty-six feet six inches*, excepting all buildings for which specifications and plans have been heretofore submitted to and approved by the Department of Buildings, and every other building, the height of which exceeds seventy-five feet, except as herein otherwise provided, shall be built fireproof, that is to say:

They shall be constructed with walls of brick, stone, Portland cement concrete, iron or steel, in which wood beams or lintels shall not be placed, and in which the floors and roofs shall be of materials provided for in section 106 of this Code.

The stairs and staircase landings shall be built entirely of brick, stone, Portland cement concrete, iron or steel.

No woodwork or other inflammable material shall be used in any of the partitions, furrings or ceilings in any such fireproof buildings, excepting, however, that when the height of the buildings does not exceed twelve stories nor more than one hundred and fifty feet, the doors and windows and their frames, the trims, the casings, the interior finish when filled solid at the back with fireproof material, and the floor boards and sleepers, directly thereunder, may be of wood, but the space between the sleepers shall be solidly filled with fireproof materials and extend up to the underside of the floor boards.

When the height of a fireproof building exceeds twelve stories, or more than one hundred and fifty feet, the floor surfaces shall be of stone, cement, rock, asphalt, tiling or similar incombustible material, or the sleepers and floors may be of wood treated by some process, approved by the Board of Buildings, to render the same fireproof. All outside window frames and sash shall be of metal, or of wood, covered with metal. The inside window frames and sash, doors, trim and other interior finish may be of wood covered with metal, or of wood treated by some process, approved by the Board of Buildings, to render the same fireproof.

All hall partitions or permanent partitions between rooms in fireproof buildings shall be built of fireproof material and shall not be started on wood sills, nor on wooden floor boards, but be built upon the fireproof construction of the floor and extend to the fireproof beam filling above.

The tops of all door and window openings in such partitions shall be at least twelve inches below the ceiling line.

Sec. 2. This ordinance shall take effect immediately.

N. TAYLOR PHILLIPS, Deputy Comptroller.

## DEPARTMENT OF DOCKS AND FERRIES

### ACTIONS OF THE COMMISSIONER OF DOCKS, MARCH 21, 1906.

The following communications were received, action being taken thereon as noted, to wit:

From the Comptroller (66856)—

Transmitting communication from Theodore M. Roche, requesting to be advised as to when the City intends to take possession of and start improvements on the plot of ground bounded by Twenty-second and Twenty-third streets, Eleventh and Twelfth avenues, in the Borough of Manhattan. Notified that there is no immediate necessity for acquiring for improvement purposes the property between Twenty-second and Twenty-third streets, North river, and that no recommendation for the vesting of the title has been made, but that if the City progresses with the contemplated improvements as rapidly as present conditions indicate, request will be made upon the Commissioners of the Sinking Fund for the vesting of the title in about three or four months.

From the Empire State Surety Company (66857)—

Requesting to be informed as to whether contract with Augustin Walsh for building pier at Wall street, East river, has been completed, and as to whether contract with William H. Jenks for building pier between Catharine and Market slips, East river, has been completed. Notified that the pier at Wall street, East river, was completed on March 13, but that payment of the final estimate for same has not been made, and that the pier between Catharine and Market slips, East river, was completed on January 23, 1906.

From A. W. Welch (66831)—

Requesting permit for berth on the north side, inner end of pier at the foot of East Eighteenth street, East river, with the privilege of erecting a platform thereon. Notified that the pier is at present undergoing reconstruction, but that the application will be placed on file until the Department is in a position to take the matter under consideration.

From Charles S. Hirsch & Co. (66802)—

Requesting an extension of time within which to complete the delivery of sawed new white oak timber called for under Class II. of Contract No. 948. Extension granted to and including March 13, 1906.

From the Cornell Steamboat Company (66829)—

Asking that repairs be made to the southerly half of the pier foot of West Fifty-first street, North river, by the force of this Department at the expense of the company. Engineer-in-Chief directed to make the repairs and report the cost for collection from the company.

From Joseph A. Connelly (66873)—

Tendering his resignation from the position of Rodman in this Department. Resignation accepted to take effect March 20, 1906.

From the R. G. Packard Company, contractors for John Lee & Co. (66858)—

Requesting permission to dredge to a depth of 16 feet at mean low water along the bulkhead at the foot of Smith street, Borough of Brooklyn. Permit granted, the work to be done under the supervision of the Engineer-in-Chief.

From Michael Egan (66824)—

Requesting permission to make the necessary repairs to the dumping board on the pier at the foot of West Thirty-ninth street, North river. Permit granted, the work to be done under the supervision of the Engineer-in-Chief and to be kept within existing lines.

From the American and Red Star Lines (66853)—

Requesting permission to make repairs from time to time as may be necessary to Piers 14 and 15, North river. Permit granted, to continue until July 1, 1906, unless sooner revoked, all work to be kept within existing lines and to be done under the supervision of the Engineer-in-Chief, at least 24 hours' notice to be given to the Department prior to the commencement of any work.

From H. P. Yeatman (66803)—

Requesting permission to maintain a float at the foot of One Hundred and Thirty-ninth street, North river. Notified that there is no space available at the foot of One Hundred and Thirty-ninth street, North river, but that space could probably be assigned on the north side of One Hundred and Thirty-eighth street, North river, and that application therefor will be considered if desired.

From Jacob Ruppert (66868)—

Accepting terms of the Department for a lease of the bulkhead at the foot of Second avenue and East One Hundred and Twenty-ninth street, Harlem river. Commissioners of the Sinking Fund requested to approve lease for a term of three years from May 1, 1906, at a rental of \$1,000 per annum, the lessee to have the privilege of erecting and maintaining upon the bulkhead or upon a scow moored in front thereof appliances for the hoisting and unloading of coal, the remaining terms and conditions of the lease to be similar to those contained in leases of wharf property now used by this Department.

From the Oak Point Land and Dock Company (66830)—

Requesting a lease of land under water belonging to the City between Tiffany and Cabot streets, southerly of the Eastern Boulevard, in the Borough of The Bronx, for a period of ten years, with the privilege of two renewals of ten years each. Commissioners of the Sinking Fund requested to approve lease of said lands under water for a term of ten years, with the privilege of two renewals of ten years each, the rental for the first term to be 10 cents per square foot for the land under water belonging to the City, the rental for each renewal term to be 10 per cent advance upon the rental for the preceding term; the lessee to have the privilege of erecting upon the property certain piers and portions of piers as shown on plan to be attached to the form of lease; in case the City shall at any time institute condemnation proceedings for the acquisition of the property on which the piers or portions of piers are situate, or of the land under water adjacent thereto, the lease shall be canceled and shall be void from a date thirty days after the filing in the office of the Clerk of the Supreme Court of the judicial district in which the property is situated, of the oaths of the Commissioners of Estimate and Assessment in said proceedings appointed; no additional item of value is to be claimed by or allowed to the company, nor shall the

City be required to pay any damage or additional compensation by reason of the granting of the lease; the remaining terms and conditions of the lease to be similar to those contained in leases of land under water now in use by this Department.

The following order was issued:

No.	Issued To and For.	Price.
22891.	Martin B. Brown Company, printing, etc.....	\$22 00

J. W. SAVAGE, Secretary.

## DEPARTMENT OF DOCKS AND FERRIES.

### ACTIONS OF THE COMMISSIONER OF DOCKS, MARCH 22, 1906.

The following communications were received, action being taken thereon as noted, to wit:

From the Department of Public Works, Borough of Manhattan (66135)—

Transmitting copy of letter received by him from Hon. Charles A. Stadler, complaining of the condition of the roadway from Avenue A to the river front, at the foot of Sixty-fourth street, East river. Filed. The Commissioner of Public Works notified that the premises have been placed in good condition.

From the Department of Public Works, Borough of Brooklyn (66578)—

Transmitting copy of opinion from the Corporation Counsel with reference to the levying of the cost of dredging adjacent to the outlets of sewers in the Borough of Brooklyn, in which it is stated that such cost for dredging should be assessed upon the adjoining private property owners. Requested to advise as to some particular instance of shoaling at the outlets to sewers in order that the Department may determine whether it would be possible to assess the cost of the necessary dredging upon the adjoining property, the matter being in a somewhat complicated state owing to the difficulty of placing the responsibility for the shoaling at the points in question.

From the National Board of Steam Navigation (66821)—

Transmitting resolution adopted by the Board requesting the Commissioner of Docks to provide additional dock facilities in the vicinity of Sixty-third street, East river. Notified that the Department is now at work building a platform which will provide considerable additional wharfage accommodations.

From the New York Lumber Trade Journal (66886)—

Requesting to be placed on the mailing list for any corrections or additions to the list of public piers which may be made from time to time. Notified that the information will be furnished as requested.

From J. W. Millard and H. de B. Parsons (66889)—

Submitting suggestions as to the relative advantages of a two and four-boiler system in the ferryboats of the proposed Municipal ferry to Thirty-ninth street, Brooklyn. Notified that it would seem that the interests of the City would be best served by having four boilers giving estimated 175 square feet of grate surface, and requesting that Messrs. Millard and Parsons call on the Commissioner with sketch showing how these boilers can be placed in the hold so as to allow the boats to be coaled by the centre hatchway, as proposed.

From the Montauk Steamboat Company, Limited (66783)—

Requesting accommodations for their steamboat service to Sag Harbor, Sea Cliff and Glen Cove, to commence on April 17, 1906. Notified that there is no City pier that can be assigned for the service at present.

From the New York Central Railroad Company (66809)—

In relation to the track trestle on the north side of the West Fifty-ninth street pier, North river, and the right of the Company to lay tracks thereto across Twelfth avenue. Company advised to take up the matter of its trackage rights with the Comptroller's office, to whom such matter has been referred by the Commissioners of the Sinking Fund, and that when it has secured the right to lay the tracks the proposition of granting a further permit for the portion of trestle now building and not covered by permit will be taken up.

From P. Sanford Ross, contractor for Lowell M. Palmer (66875)—

Requesting permission to drive about eight bearing piles in the interior of the pier foot of North Sixth street, Borough of Brooklyn. Permit granted, the work to be done under the supervision of the Engineer-in-Chief.

From the North River Steamboat Company (66768)—

Requesting berth for the steamer "Raleigh" at the pier foot of Bloomfield street, North river, and requesting also that a sluiceway be cut so as to admit of loading and unloading, the company to pay the cost of cutting such sluiceway. Privilege for the berth granted, to continue until April 30, 1906, unless sooner revoked, rental to be at the rate of \$5 per day, payable at the end of each week to the Dockmaster of the district. Engineer-in-Chief directed to cut sluiceway as requested and report the cost for collection from the Company.

From the Monmouth Steamboat Company (66766)—

Requesting berth for the steamer "William V. Wilson" at the foot of Bloomfield street, North river, or at some pier below Fourteenth street. Privilege granted for the berth at the Bloomfield street pier, to continue until April 30, 1906, unless sooner revoked, rental to be at the rate of \$5 per day, payable at the end of each week to the Dockmaster.

From the Department's Pilots (captains) in the Ferry Service (66902)—

Submitting petition for an increase in compensation. Board of Estimate and Apportionment requested to recommend to the Board of Aldermen the establishment of the position at the grade of \$160 per month.

From the Engineer-in-Chief—

1 (66905). Recommending the issuance of an order for the construction of bulkhead wall over that section of the water front commencing at the easterly side of the easterly pier of the Staten Island Ferry and running easterly to the westerly limit of the Broad street section, and also for the necessary dredging thereat, to be done under the Department's existing contracts. Order for the construction of the wall and dredging issued to the Engineer-in-Chief as per recommendation.

2 (66903). Recommending the issuance of an order to drive about seven test piles in Newtown creek and Whale creek adjoining the area to be improved at Whale creek, in order that the necessary information may be obtained regarding the bottom, etc., for the preparation of plans, specifications and form of contract for the building of crib work and piers on the Whale Creek Improvement, Borough of Brooklyn. Engineer-in-Chief directed to drive the test piles as per recommendation.

3 (66904). Recommending that the Manhattan Borough President be requested to finish under his contract the necessary work of paving, curbing and regulating the marginal street under the control of the Department of Highways, between East Sixty-fourth and East Sixty-fifth streets, East river, and between East Sixty-ninth and East Seventieth streets, East river, and also to remove any encumbrances which exist thereat, so that the premises may be placed in condition for traffic. Borough President requested to have the marginal street area under his jurisdiction completed and cleared of encumbrances as recommended.

From the Superintendent of Ferries (66901)—

Submitting data in relation to compensation paid to ferry employees on the East and North rivers, together with the number of hours that such employees work. Filed.

The following order was issued:

No.	Issued to and for.	Price.
22892	L. Katzenstein & Co., repairs to ferryboat "Bronx".....	\$80 00

J. W. SAVAGE, Secretary.

## DEPARTMENT OF DOCKS AND FERRIES.

## ACTIONS OF THE COMMISSIONER OF DOCKS, MARCH 23, 1906.

The following communications were received, action being taken thereon as noted, to wit:

From the Corporation Counsel (66912)—  
Returning, approved as to form, lease to the Henry B. Turner Coal Company of 265 feet of the south half of the pier at the foot of East Twenty-first street, East river, and lease to the New England Navigation Company of the pier at the foot of East Twenty-second street, East river. Companies notified that the leases are ready for execution.

From the Municipal Civil Service Commission—  
1 (66883). Asking to be advised as to the borough to which assignment of Financial Clerk, for which this Department requests eligible list, is to be made, and whether there are any persons in the Department eligible for promotion to the position. Notified that there are no persons in the Department eligible for promotion to the position, and that the person to be employed will be required for work at either the Manhattan or Richmond terminal of the Staten Island Ferry.

2 (66898). Stating that an examination for promotion from the positions of Laborer and Marine Souder to the position of Messenger will be held in May. Filed.  
3 (66871). Requesting reasons for the dropping of Patrick A. Malone, Stationary Engineer, and Peter S. Prunty, Financial Clerk, from the rolls of the Department. Notified that Malone has not reported for duty since October 31, 1905, and that Prunty failed to report for duty after notification so to do.

From the Department of Education (66606, 66899)—  
Asking that it be permitted to remain in occupation of the East Third street recreation pier for school purposes until June 30, 1906. Notified that the pier may be used for school purposes until the date specified, viz.: June 30, 1906.

From the President of the Borough of Queens (66828)—  
Requesting this Department to dredge in the Amstel canal at Arverne, Jamaica Bay, Borough of Queens, in order that access may be had to the Street Cleaning dump, located at the foot of Carlton avenue. Notified that the canal is a private waterway and that there is no authority vested in this Department to dredge thereat.

From the Department of Street Cleaning (66800)—  
Requesting permission to deposit filling in the rear of the bulkhead wall at the foot of Wall street, East river, and in rear of the bulkhead wall extending from the temporary retaining structure near the easterly line of Pier, new 17, running easterly a distance of about 100 feet. Permit granted to deposit the filling, as requested.

From the Consolidated Telegraph and Electrical Subway Company (66823)—  
Requesting permission to make openings in the pavement under the jurisdiction of this Department from time to time as may be required, in order to make subsidiary connections. Permit granted, upon the usual terms and conditions, to continue until December 31, 1906, unless sooner revoked, the work to be done under the supervision of the Engineer-in-Chief.

From the Pennsylvania, New York and Long Island Railroad Company (66918)—  
Requesting permission to deposit about five scow loads of clay on the river bottom over the area embraced within the pier site at the foot of Thirty-second street, North river, to serve as a blanket for the roof of the tunnel now in course of construction thereat. Permit granted, the work to be kept within the established pierhead line and to be done under the supervision of the Engineer-in-Chief.

From the New York and Baltimore Transportation Lines (66865)—  
Requesting permission to erect a steel freight shed on Pier, new 10, East river. Permit granted, the work to be done under the supervision of the Engineer-in-Chief, in accordance with plans submitted as amended.

From the New York Central and Hudson River Railroad Company—  
1 (66805). Requesting information as to whether they can obtain a pier or bulkhead in the vicinity of East Sixty-third street, East river, suitable for the handling of block stone and other freight, and as to the terms under which the lease may be obtained. Notified that the work of building platforms between Sixty-fourth and Sixty-sixth streets, East river, will be completed in about one month and that when the work is completed, the question of leasing any privileges thereat can then be taken up.

2 (66849). Stating that the plans for their new ferry house at the foot of West Forty-second street, North river, will be ready for submission to the Department in about two weeks. Company requested to advise how soon work will be commenced after approval of the plans.

3 (66872). Stating that they do not deem themselves liable for the loss of about 27 piles alleged to have been caused by the collision of their tug "C. M. Depew" with the catamaran of piles being towed for this Department to the East Twenty-fourth street yard, but suggesting that the Department permit its claim to be offset by the company's claims against the City for damage to the "C. M. Depew" by the ferryboat "Brooklyn" and to the barge "Arthur" by the ferryboat "Richmond." Notified that the captain of the tug is to blame, the collision with the catamaran being due to gross carelessness on his part, as evidenced by eye witnesses; notified also that any claims against the City must be presented to the Comptroller for adjustment. Copy of letter sent to Corporation Counsel for his information.

From the American Ice Company (66301)—  
Requesting permission to erect an ice bridge or platform on the bulkhead between East Ninth and East Tenth streets, East river, Borough of Manhattan, and submitting plans therefor. Notified that the plans have been approved and that the work may be proceeded with under the permit heretofore issued.

From William A. Leonhard (66920)—  
Requesting permission to occupy additional space of ground, about 20 by 40 feet in dimensions, adjoining and inshore of the lot now occupied by him under a houseboat permit, and designated as Lot No. 140, at Broad Channel, Jamaica Bay, Borough of Queens. Denied.

From the North Side Board of Trade (66827)—  
Requesting information as to what property the Department proposes to improve or acquire in the Borough of The Bronx. Notified that proceedings are now in progress for the acquisition of land in the vicinity of Fordham Landing, Harlem river, on which it is intended to construct a pier, and that the matter of improving the water front in the vicinity of Cheever place, Harlem river, and at Tiffany street, East river, is being considered.

From De Groot, Rawson & Stafford, Attorneys for Mary D. Taintor (66943)—  
Transmitting public notice of amended application made to the Commissioners of the Land Office by their client for grants of land under water of the Kill van Kull, in the Third Ward of the Borough of Richmond. Filed.

From the Engineer-in-Chief—

# DEPARTMENT OF DOCKS AND FERRIES.

## ACTIONS OF THE COMMISSIONER OF DOCKS MARCH 27, 1906.

The following communications were received, action being taken thereon as noted, to wit:

From the Commissioners of the Sinking Fund (66911)—  
Transmitting certified copies of resolutions adopted March 21, 1906, as follows: (a) approving of plan adopted by the Commissioner of Docks March 7 for improving the water front in the vicinity of Cheever place, Borough of The Bronx; (b) approving of plan adopted by the Commissioner of Docks February 1 for improving water front in vicinity of Whale creek, Borough of Brooklyn; (c) assigning to the Trustees of the Bellevue and Allied Hospitals new-made land in rear of bulkhead wall between Twenty-sixth and Twenty-eighth streets, East river, Manhattan Borough, turned over to the Commissioners of the Sinking Fund by the Commissioner of Docks. Filed.

From the Corporation Counsel—  
1 (66913). Calling attention to the fact that an application will be filed by Mary D. Taintor with the Commissioners of the Land Office for a grant of land under water on the Kill von Kull, east of North street, Port Richmond, Borough of Richmond, and asking whether there is any objection on the part of this Department thereto. Notified that the Department has no special objections if the usual conditions are inserted in the grant.

2 (66965). Requesting verification by this Department of petition to the Supreme Court for the appointment of Commissioners of Estimate and Assessment in the matter of acquiring title to Piers, old 2 and 3, East river, and certain adjoining bulkhead rights. Petition verified and returned to the Corporation Counsel.

From the Comptroller (66864)—  
Requesting to be advised in regard to claim of John M. Carrere for \$18,397.38, with interest, said to be due him for services as architect in connection with the construction of ferry terminal at St. George, Staten Island. Information furnished.

From the Municipal Civil Service Commission—  
1 (66832). Submitting list of persons eligible for appointment to the position of Topographical Draughtsman. Municipal Civil Service Commission requested to submit new list, the persons certified having declined appointment.

2 (66962). Asking that Owen McManus, Dock Laborer, be directed to call at the office of the Commission to correct his "declaration sheet." McManus notified as requested.

From the Board of Superintendents, Department of Education (66896)—  
Requesting to be advised as to the location of canal boats and coal barges within the harbor upon which children of school age reside. Notified that the section between Piers 4 and 8, East river, and between West Fifty-first and Fifty-fourth streets, North river, are designated by law as locations where boats engaged in traffic on the North river may remain for unlimited time; at all other localities the boats remain only long enough to take on or discharge cargo.

From the Commissioner of Public Works (66862)—  
Advising that the work of constructing a sewer at Thirty-ninth street, between Eleventh avenue and the Hudson river, is now in progress, and that it will be necessary to complete a barrel sewer underneath the pier, and requesting permission to pierce the bulkhead at Thirty-ninth street, North river, in order that the work may be expedited. Permit granted, the work to be done under the supervision of the Engineer-in-Chief, upon the condition that the work of piercing the bulkhead and the construction of the barrel sewer shall be conducted in such a manner as not to interfere with or hamper the Department's lessees of the pier at the foot of Thirty-ninth street, and that there will be maintained at all times proper approach to and from the pier.

From Clinton E. Stephens (66483)—  
Requesting permission to maintain a float at the foot of East One Hundred and Thirty-fourth street, Port Morris, to be used in connection with his motor boats plying between that locality and Clason's Point. Privilege granted, to begin May 1, 1906, and to expire April 30, 1907, unless sooner revoked, rental to be at the rate of \$15 per month, payable at the end of each month to the Dockmaster.

From Smith & Harkness (66876)—  
Asking to be permitted to examine drawings and maps showing excavations made by the City's contractors on West Twenty-second street and adjoining property to the north thereof, to be used in trial of suits brought against the City by Mrs. MacNutt and Mr. Ogden. Filed, the applicants having been verbally informed by the Commissioner that he would not grant the request to examine the papers to be used in a suit against the City, but that they might subpoena any papers desired.

From K. A. Butler (66964)—  
Requesting permission to use and occupy space at the outer end of the pier foot of East One Hundred and Thirty-eighth street, Port Morris, Borough of The Bronx. Request denied; notified that the Commissioner is prepared to take up the matter of building pier for the purpose of leasing same.

From B. C. Murray (66777)—  
Requesting lease for a term of years of property on the westerly side of Bronx river, located southerly of East One Hundred and Seventy-sixth street, Borough of The Bronx, and known as the Old Town Dock. Notified that if desired, permit will be granted at \$300 per annum, during the pleasure of the Commissioner, upon the condition that Murray furnish his own means of access to the premises.

From L. B. Newell (66914)—  
Requesting to be advised as to the dates on which the first recreation pier and floating bath were opened. Notified that the first recreation pier was opened, at the foot of East Third street, East river, on June 26, 1897; information in relation to the baths can be furnished by the Borough Presidents.

From the Gatemen of the Department (66967)—  
Submitting petition for an increase in compensation from \$60 to \$80 per month. Municipal Civil Service Commission requested to hold promotion examination so that the salary of the Gatemen may be fixed at \$80 per month.

From the Engineer-in-Chief—  
1 (66961). Reporting commencement of work of furnishing and delivering riprap stone under Class II. of Contract No. 933, by the Brown & Fleming Contracting Company, contractors, on March 26, 1906. Filed.

2 (66968). Recommending that the Municipal Civil Service Commission be requested to submit an eligible list from which three machinists may be appointed. Commission requested to submit eligible list.

3 (66969). Recommending the issuance of an order to make sundry repairs to the pier foot of Twenty-second street, East river, at a cost not to exceed \$1,000 for labor. Order issued to the Engineer-in-Chief as recommended.

4 (66970). Recommending that the Brooklyn and New York Ferry Company be directed to stiffen the ferry rack along the northerly side of the pier at the foot of Twenty-second street, East river, in such a manner as to remove all pressure from the pier. Company notified to brace the ferry rack as recommended by the Engineer-in-Chief.

From the Superintendent of Docks (66966)—  
Recommending that the permit granted the Hudson Navigation Company to berth the steamer "Adirondack" at the pier foot of West Fiftieth street, North river, be revoked to take effect March 22, the date on which the steamer vacated the berth for the season. Privilege revoked to take effect as of March 22, 1906.

Frank A. Cassidy, Financial Clerk. Compensation fixed at the rate of \$80 per month, to take effect April 1, 1906.

The following Department orders were issued:

No.	Issued To and For.	Price.
22899	Gerry & Murray, requisition book.....	\$5 50
22900	Mutual Towel Supply Company, toilet supply (Bureau of Ferries) for April, 1906.....	32 00

# DEPARTMENT OF DOCKS AND FERRIES.

## ACTIONS OF THE COMMISSIONER OF DOCKS, MARCH 28, 1906

The following communications were received, action being taken thereon as noted, to wit:

From the Board of Estimate and Apportionment (66890)—  
Transmitting certified copy of resolution adopted March 16, 1906, approving of an issue of Corporate Stock to the amount of \$5,000,000 for the uses and purposes of the Department of Docks and Ferries. Filed.

From the Comptroller (66786)—  
Transmitting communications addressed to the Mayor by ex-Justice John C. Mathews, requesting to be advised as to why the City does not collect rental for the oyster beds in Jamaica Bay, and as to whether the Brooklyn and Rockaway Railroad Company has authority to collect wharfage at the Canarsie Dock. Mathews notified that the City has not collected rental for the oyster beds pending the outcome of the suit to be instituted by the Corporation Counsel to determine the question of ownership; advised that the question of authority to collect wharfage at Canarsie Dock is still in litigation.

From the Municipal Civil Service Commission—  
1 (66897). Stating that in view of the difficulty experienced in obtaining a Mechanical Engineer, proficient in the construction of steel hulls, from the Civil Service eligible lists, the Department may, under the provisions of Rule XII. of the Civil Service Rules and Regulations, appoint such a person, and the Commission will approve the appointment. Filed.

2 (66915). Submitting list of persons eligible for appointment to the position of Deckhand. Joseph F. Martin, Thomas F. Dalton and Patrick J. O'Hare appointed as Deckhands, with compensation at the rate of \$60 per month, to take effect upon assignment to work.

From the Treasury Department, United States Government (67028)—  
Transmitting certificate on which is to be indicated the person or officer authorized to receive and receipt for all moneys due and payable to this Department and requesting that same be executed. Order issued by the Commissioner designating Silas Strauss, Cashier, and Robert Gere, Collector, as the persons authorized to receive and receipt for the moneys, as desired by the Treasury Department.

From Ravitch Brothers (66733)—  
Requesting permission to repair their building on the northeast corner of Madison avenue and One Hundred and Thirty-sixth street, Harlem river, Manhattan Borough, where damaged by fire. Permit granted, the work to be done under the supervision of the Engineer-in-Chief, for the portion of the structure lying within the jurisdiction of this Department. Notified that permit must be obtained from the Building Department for repairs to the portion of the structure within the jurisdiction of that Department.

From the Compagnie Generale Transatlantique (66935)—  
Requesting permission to repaint the shed on Pier, new 42, North river. Permit granted, the work to be done under the supervision of the Engineer-in-Chief.

From the East Side Citizens' and Taxpayers' Association (66851)—  
Calling attention to insufficient depth of water in the half slips adjoining pier foot of One Hundred and Twentieth street, Harlem river, and the unprotected condition of the southerly side of the pier, and asking that the East One Hundred and Seventeenth, One Hundred and Eighteenth and One Hundred and Twentieth Street Piers be kept open for general wharfage purposes. Notified that dredging in the slips adjoining the East One Hundred and Twentieth Street Pier is not necessary at present, that a backing log will be placed on the pier, and that the three piers are maintained as open wharfage structures.

From A. F. Merrell & Son (66866)—  
Advising that they have purchased the boat and business of the Woglam & Tim Shea Company, and requesting permission to maintain the boat in the berth that she has heretofore occupied at the foot of Bloomfield street, North river. Permit transferred to Merrell & Son, as requested.

From Snow & Emerson (66869)—  
Requesting permission to moor the bath "Stuyvesant" on the north side of the pier foot of East Fifth street, Manhattan Borough, for the summer season of 1906. Application denied.

From H. L. Herbert & Co. (66878)—  
Offering to pay \$1,200 per annum for a three years' lease from April 1, 1906, of bulkhead between Nineteenth and Twentieth streets, East river, Borough of Manhattan. Notified that if desired lease will be recommended for two years at \$1,200 per annum.

From the Snare & Triest Company (66893)—  
Submitting an offer to install a system of fire stops of concrete, to be placed in the walls of the ferry structures now in course of erection at St. George, Borough of Richmond, and agreeing to do the work for the sum of \$2,000. Work authorized to be done at an additional compensation to the company of \$2,000.

From the Merritt & Chapman Derrick and Wrecking Company (66926)—  
Stating that they are advised that the contractors who are about to build the bulkhead between Thirty-ninth and Fortieth streets, East river, will probably make a request on the Department for the use of one of its derricks, and that as the company are the owners of derricks capable of lifting weights up to 200 pounds, and are ready to contract with private parties for the services of said derricks, they should not be compelled to compete with the City in such matters. Notified that it is not the purpose of the Department to interfere with private parties, and that the Department derricks will be used by private concerns only in emergency cases.

From Emilio Tomasi, agent for the Compania Trasatlantica (66980)—  
Complaining of the dumping of stone in the slip between Piers 10 and 11, East river, and requesting that the work be suspended, as it will interfere with the berthing of their vessels. Filed.

From the City Club of New York (67001)—  
Requesting to be advised as to the Department's views in relation to legislative bill for the acquirement of certain wharf property between the Battery and Cortlandt street, North river. Notified that the Department desires the passage of the bill, as it would enable the City to secure quick possession of the property, which would not be possible on account of the number of small interests into which the property is divided, if the bill failed of passage.

From "West Thirty-fourth Street Taxpayer" (66981)—  
Complaining that certain contractors are using Department property for the storage of dirt, sand, stone and wagons at the foot of West Thirty-fourth street, North river. Filed.

From the Engineer-in-Chief—  
1 (66977). Reporting that the work of furnishing and delivering sawed oak timber under Class II. of Contract No. 970, was commenced on March 22, 1906, by Stanley H. Miner, contractor. Filed.

2 (66978). Reporting that the work of furnishing and delivering 300 oak piles under Contract No. 969 was completed on March 26 by Nichols Brothers, contractors. Filed.

3 (66979). Recommending the issuance of an order for the placing of four oak spring piles at the southerly corner of Pier, new 33, East river, and three oak spring piles to be refastened and chocked on the westerly side of said pier. Engineer-in-Chief directed to repair and place the piles as recommended.

From the Superintendent of Docks (66982)—  
Reporting that scow "E No. 38," belonging to the Brown & Fleming Contracting Company, was sunk on the south side of Fifty-fifth street, North river, on March 24, and was removed on March 26, 1906. Filed.

A map was transmitted to the Pennsylvania Railroad Company showing the existing water front arrangements between Pier, new 7, and Pier, new 1, North river, including water front occupied by the company at this locality. Information was requested as to when the company will be able to arrange in some definite shape the matter of carrying out the old piers to the new pierhead line.

J. W. SAVAGE, Secretary.

Financial Clerk of Bureau, Boroughs of Manhattan and The Bronx.

DEPARTMENT OF PARKS.

Department of Parks, Boroughs of Brooklyn and Queens,  
Litchfield Mansion, Prospect Park,  
Brooklyn, April 2, 1906.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—I have the honor to submit to you herewith, in accordance with the provisions of section 1544 of the Charter, a quarterly report of the proceedings and finances of the Department of Parks, Boroughs of Brooklyn and Queens, from January 1 to March 31, inclusive, 1906.

Very truly yours,

M. J. KENNEDY, Commissioner.

Statement of Work Performed by the Department of Parks of the Boroughs of Brooklyn and Queens During the Three Months from January 1 to March 31, 1906.

The open winter permitted work to be done during the quarter just ended, which ordinarily is delayed until later in the season. On the other hand, the absence of snow and ice from the roads in the parks and parkways and the frequent climatic changes, necessitated numerous repairs to the roadways and paths.

The resoiling of Prospect Park, a work which has long been delayed, was started in January and has satisfactorily progressed. Over five thousand cubic yards of good rich soil were received, nearly all of which has been spread and levelled.

The Ocean parkway likewise experienced a renewal of the soil around the trees as far south as Avenue A.

The smaller parks, such as Bushwick, Winthrop, Cooper and Carroll, were also supplied with fresh soil, a large part of which has been spread.

The plantations in Prospect Park have been gone over, all the dead and useless trees have been removed and the pruning of trees and shrubbery has been carried on to an unusual extent. Large quantities of fertilizers were distributed, and the resulting rubbish raked up and removed.

Preparations are now being made for planting several hundred trees and some three thousand shrubs. Bids for this nursery stock have already been received, and the work of selecting and purchasing the same is now under way.

The smaller parks and parkways likewise received due attention as regards trees and shrubbery. It is confidently expected that the coming spring and summer seasons will witness marked improvement in the growth and appearance of the same.

As above indicated repairs to the roadways, gutters, paths, etc., have been markedly numerous, and were carefully attended to. In this connection I desire to express my appreciation of the fact that the Department of Correction has permitted the use of some six hundred cubic yards of broken stone, which was furnished at the Kings County Penitentiary and carted by the teams of this Department to the points where most needed.

The buildings located in the various parks have been put in good condition; repairs have been made wherever necessary, and the painters have been kept busy attending to the work throughout the winter.

The rolling stock, such as the sprinkling carts, trucks, lawn mowers and the outfits of the arboriculturists, have been put in first-class condition for the coming season.

The five steam rollers owned by this Department are now being repaired under contract, and we expect to put them into active operation by the middle of April.

The greenhouses in Prospect Park were thoroughly overhauled and extended. The new portions recently completed were filled with suitable plants, and a large amount of spring and summer flowering plants were propagated and made ready for the coming season.

There was no skating on the lakes in Prospect Park, and but two or three days of indifferent sleighing on the park drives.

The routine work during the winter months, such as cleaning the walks, gutters, basins, etc., has been faithfully attended to throughout the system, and the parks and parkways presented at all times a clean and wholesome appearance.

The buildings in course of construction in the various parks, owing to the open winter, have made great progress.

The shelter and comfort houses in Carroll Park, in Bedford Park and in Irving square have already been opened and are used by the public. Those in Bushwick Park, Cooper Park and Forest Park are far advanced, and it is confidently expected that they will be open to the public some time in May.

The athletic building on the parade ground is likewise very much advanced in construction, and it should be ready for occupancy by Decoration Day.

The new boathouse in Prospect Park is also nearing completion. It will be necessary to construct steps and approaches around same before it can be opened and turned over to the public.

The stone wall on Prospect Park West, between Fifth street and Fifteenth street, is practically completed, and needs but pointing up before being accepted by the City.

Plans and specifications for the continuation of the walk on Prospect Park West, of the same design as that laid last season from the main entrance to Fifth street, have been prepared, and a contract for the construction of the same will be let within a few days.

The privileges of operating the carrousel and goat carriages, the swan boats, and the catering privileges at the various shelters of the park system have been let for the next four years at a largely increased rental to the City. That of operating the boats on the lake, park carriages and automobiles are now being advertised and will be let during the coming week.

Forest Park.

The work of cutting out the underbrush, removing dead and decayed trees, cleaning out, pruning and otherwise caring for the healthy vegetation, has been carried on throughout the quarter just past as the weather permitted.

While the financial condition of the Department was such as to make the temporary discharge of about one hundred and fifty men necessary, the results achieved in this park were very gratifying, and the place now presents a much cleaner and healthier appearance.

The forces in the greenhouses were kept busy propagating spring and summer flowering plants, and we now can boast of a stock of the latter of some one hundred and twenty-five to one hundred and thirty thousand fine healthy specimens, which will be used for this place and the various parks through the two boroughs. The contemplated nursery has been leveled off and is ready for the spreading of fertilizer and topsoil.

The site of the proposed extension to the greenhouses has been graded, and the shop work preparatory to the erection of the same is completed.

A large cesspool, 20 feet deep and 16 feet in diameter, was built below the new golfhouse. This was made necessary by the absence of all sewers or other drainage facilities in the immediate vicinity.

#### New Parks.

But little progress has been made in the construction of the proposed new parks, the land for which was turned over to this Department either late last year or during the month of January, for two reasons. One is, that the removal of the buildings on the various park sites, which were sold to the highest bidders by the Sinking Fund Commission, has been slow during the winter season, some of the buildings encumbering the park sites even now; and the other is the lack of available funds, the Board of Estimate and Apportionment not as yet having granted any allowance for that purpose.

Rainey Park, in Long Island City, has been inclosed with a temporary wooden fence, and plans are now under way for its development.

Williamsburg Park is bisected by four trolley car lines owned by the Brooklyn Rapid Transit Company. This company has expressed its willingness to remove its tracks from the park lands, provided the City pay the expense of doing so.

#### Revenue from Parks and Parkways.

During the three months from January 1 to March 31, 1906, inclusive, the sum of three thousand one hundred and seventy-two dollars and sixty-three cents (\$3,172.63) was received from rents of houses and revenue from park privileges and bay windows, which amount was turned over to the Hon. Patrick Keenan, City Chamberlain, for deposit to the credit of the "Revenue Fund."

### BOROUGH OF RICHMOND.

#### LOCAL BOARD, STATEN ISLAND DISTRICT.

Meeting March 20, 1906, 10.30 a. m.

Present—Aldermen Collins, Rendt and Cole, President Cromwell.

The minutes of the meeting of February 27 were approved.

Petition 657. Resolutions 11 and 12.

President Cromwell stated that the title of The City of New York had not been made clear in relation to certain streets embraced in a resolution of the Local Board initiating proceedings to lay sewers in Sewer District No. 6a, and that the delay thus occasioned in providing relief for the district could be partly obviated by rescinding the resolution and adopting a new one to include only the streets in which work could be proceeded with at once; and

The following resolution was moved by Alderman Rendt and was adopted:

Resolved, That a certain resolution, No. 72, series of 1904-5, adopted by the Local Board of the Staten Island District at a meeting held July 11, 1905, to wit:

"To construct a combined sewer with appurtenances in Richmond avenue, from Tompkins avenue to Sea avenue; in Sea avenue, from Richmond avenue to Valley street; in Valley street, from Sea avenue to Tompkins avenue; in Tompkins avenue, from Valley street to Fingerboard road; in Lyman avenue, from Tompkins avenue to Summer street; in Summer street, from Lyman avenue to Fingerboard road; in Fingerboard road, from Tompkins avenue to the Staten Island Rapid Transit Railroad tracks; and from Summer street to New York avenue; in New York avenue, from Fingerboard road to St. John's avenue; in St. John's avenue, from New York avenue to the Staten Island Rapid Transit Railroad tracks; in First street, from Maryland avenue to St. John's avenue; in Second street, from St. John's avenue to a point about one hundred feet southward from Maryland avenue; in Third street, from St. John's avenue to a point about one hundred feet southward from Maryland avenue; and in Nautilus street, from New York avenue to Cliff street, and extending therefrom through an easement to the pier line, as approved by the Secretary of War, June 21, 1889; all within Sewer District No. 6a and in the Fourth Ward of the Borough of Richmond; and to do such other work as may be necessary to the completion of the work described,"—be and the same hereby is rescinded; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Affirmative—Aldermen Collins, Rendt and Cole, President Cromwell.

Negative—None.

The following resolution was moved by Alderman Rendt and was adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Richmond; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the City Record that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Staten Island District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To construct a combined sewer with appurtenances in a right of way from the pier line to the easterly end of Nautilus street; in Nautilus street, from its easterly end to New York avenue; in New York avenue, from Fingerboard road to St. John's avenue; in Fingerboard road, from New York avenue to Summer street; in Summer street, from Fingerboard road to Lyman avenue; in St. John's avenue, from New York avenue to Staten Island Rapid Transit Railroad right of way; in First street, from St. John's avenue to Maryland avenue; in Second street, from St. John's avenue to a point about 100 feet south of Maryland avenue; and in Third street, from St. John's avenue to a point 100 feet south of Maryland avenue; in Sewer District No. 6a, in the Fourth Ward of the Borough of Richmond; and to do such other work as may be necessary to the completion of the work described; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Affirmative—Aldermen Collins, Rendt and Cole, President Cromwell.

Negative—None.

Petition 640.

To change grade, pave with macadam, lay and relay sidewalks, lay and relay gutters, set and reset curb, etc., in Prospect avenue, from York avenue to Lafayette avenue, Ward 1. Second hearing.

The Commissioner of Public Works reported that as the street, except the paving of the roadway, had already been improved by direct tax on the property benefited, the cost of a large part of the general improvement proposed would be defrayed by a repaving fund, and the direct assessment on the abutting property would thus be reduced to an amount which the property would easily bear; and he laid a statement in detail before the Board.

Owners of abutting property between Far View avenue and Lafayette avenue addressed the Board in support of the proposed improvement, and urged that it be proceeded with at once. Charles H. Ingalls, member of the Board of Education for the Forty-fifth District; Darwin L. Bardwell, District Superintendent of Schools, and S. McK. Smith, Principal of Public School 17, urged the improvement of Prospect avenue as a school approach from east and west.

Alderman Collins desired to confer with owners of abutting property between York avenue and Far View avenue before moving to initiate proceedings, and moved that the petition be laid over to the next meeting, with the understanding that it be referred meanwhile to the Commissioner of Public Works for preparation of a change of grade map.

Which was carried.

On motion, the Board adjourned.

MAYBURY FLEMING, Secretary.

### MUNICIPAL EXPLOSIVES COMMISSION.

Headquarters New York City Fire Department, }  
Monday, April 10, 1906.

Meeting of the Municipal Explosives Commission held at the Headquarters of the New York City Fire Department on Monday, April 10, 1906.

Present—Commissioners Piser, Sherry and Montgomery.

Commissioner Montgomery was elected Chairman pro tem.

The proposed regulations governing the use of gasoline torches and fire pots were taken up for consideration.

An amendment (offered by Commissioner Montgomery) prohibiting the use of such torches and fire pots in all buildings other than those in process of construction were considered and were made a special order for the next meeting.

Commissioner Piser offered the following:

Resolved, That Part II., section 5 of the regulations of the Municipal Explosives Commission be amended by adding a new paragraph to be known as aa. and to read as follows:

aa. Be a citizen of the United States, if not a citizen, shall have declared his intention to become a citizen of the United States and have taken out his first papers.

Laid over.

The following amendments were considered and laid over.

Resolved, that sections 6, 21 and 26 of the Garage Regulations be amended to read as follows:

#### Section 6. Licenses.

Licenses shall—

1. Be issued—

a. By the Fire Commissioner,

b. Subject to all the conditions of these regulations, and such further restrictions as the Fire Commissioner may deem necessary.

c. For the term during which all the conditions and restrictions are strictly observed, for the period of one year;

2. Terminate immediately on any violation of these regulations or the restrictions imposed by the Fire Commissioner;

3. Be revoked by the Fire Commissioner should he deem that the interest of public safety so demands;

4. Not to be issued for a building—

a. Occupied in any part as a dwelling, a hospital, a theatre, a church, a school, or as a boarding, or tenement house,—the only exception to this provision is that a license may be granted for a private garage in a building occupied in part as a dwelling by the family of an owner, a lessee, or an employee;

b. Where, at any one time, more than ten people congregate in a portion of the building that is outside of the garage and is not separated therefrom by unpierced approved fire-walls and floors;

(Amendment offered by Commissioner Montgomery):

c. Where, within the fire limits of the City, any floor or floors on which an automobile containing a volatile inflammable liquid is to be kept, stored, or had, or on which a volatile inflammable liquid is to be handled, are not unpierced approved fireproof floors, and are not provided with an approved fireproof base, at least eight inches high, on the walls inclosing same;

d. Where all sewer connections from washstands and sinks are not provided with an approved oil trap, with glass gauge pipe and draw-off cock in a readily accessible place;

5. Not authorize the keeping of more than—

a. Ten gallons of volatile inflammable liquid in approved safety cans,

b. Thirteen hundred and seventy-five gallons (25 barrels) of volatile inflammable liquid in underground storage tanks,

c. One hundred and twenty pounds of calcium carbide in air-tight containers;

6. Be issued for a garage at an annual fee of ten dollars, and may authorize—

a. The keeping of—

(1) Automobiles carrying volatile inflammable liquid,

(2) Volatile inflammable liquid,

(3) Calcium carbide;

b. The sale of—

(1) Volatile inflammable liquid for filling the tanks of automobiles by transferring such liquid from the underground storage tanks into the tanks of automobiles on the premises of the garage,

(2) Calcium carbide;

7. Be issued for a private garage at an annual fee of two dollars, and—

a. May authorize the keeping of—

(1) Automobiles carrying volatile inflammable liquid, provided that all such vehicles are used for the licensee's individual use, and are neither rented out nor used to carry passengers for hire,

(2) Volatile inflammable liquid for use in such automobiles,

(3) Calcium carbide for use in such automobiles,

b. Shall not authorize the sale of—

(1) Volatile inflammable liquid,

(2) Calcium carbide.

#### Section 21. Filling Stations.

Filling stations shall be located at least twenty feet distant from the entrance to the garage, shall have a tight, unpierced, cement or other approved floor, graded to a centre, and unconnected with the sewer or drainage system of the building. The floor shall be kept free from volatile inflammable liquid by sponging or swabbing. The room shall be kept free of inflammable vapors, either by natural or by forced ventilation.

#### Section 26. Handling and Use of Volatile Inflammable Liquids.

No volatile inflammable liquid shall be—

1. Used in a garage for cleaning or for any other purpose whatsoever other than filling the tanks of automobiles;

2. Allowed to run upon the floor or to fall or pass into the drainage system of the garage;

3. Put into or removed from the tank of an automobile while any light or fire on the same is burning;

4. Carried or kept in open vessels;

5. All volatile inflammable liquids and oils recovered from the oil taps, or by swabbing or sponging up spilled liquid, shall be placed in an approved safety can of not over five gallons capacity. And all quantities in excess of five gallons shall be returned to the underground storage tank, or removed from the premises forthwith.

Adjourned to Thursday, April 12, 1906, at 10 a. m.

FRANZ S. WOLF, Secretary.

#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

**AT THE REQUEST OF THE PRESIDENT** of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for street purposes in the

##### Borough of Brooklyn.

All of the buildings, parts of buildings, etc., standing within the lines of property acquired for the widening of Roebing street, from the Bridge Plaza at South Fourth street to Union avenue, in the Borough of Brooklyn. A map showing the property to be sold is filed in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan, and bidders should acquaint themselves with the extent and portions of the buildings to be sold and owned by the City.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue. The sale will take place on

**FRIDAY, APRIL 20, 1906,**

at 11 a. m. on the premises, and will be sold for the highest marketable price at public auction on the following

##### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor, beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to

withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

#### POLICE DEPARTMENT.

POLICE DEPARTMENT OF THE CITY OF NEW YORK, No. 300 MULBERRY STREET.

**SEALED BIDS OR ESTIMATES WILL BE** received by the Police Commissioner of the Police Department of The City of New York at the above office until 10 o'clock a. m. on

**WEDNESDAY, APRIL 25, 1906,**

FOR FURNISHING AND DELIVERING PRINTING, BOOKS, BLANKS AND LITHOGRAPHY.

The time for the delivery of the articles, materials and supplies and the performance of the contracts is during the year 1906.

The amount of security required is fifty per cent. (50%) of the amount of the bid or estimate.

The bidder will state the price of each item or article contained in the specifications or schedule herein contained or hereto annexed, per pound, ton, dozen, gallon, yard or other unit of measure, by which the bids will be tested.

Bids must include the furnishing and delivering to the Police Department of all steel die plates, as stated in specifications, used in doing work under this contract, and upon execution of the contract such steel die plates shall thereafter become the property of the Police Department. The extensions must be made and footed up, as the bids will be read from the total for each item, and the Police Department reserves the right to award the contract by the entire schedule or to award for each item of the articles, materials or supplies specified and contained in the annexed specifications and schedule, unless bids or estimates for the same shall have been rejected by the Police Commissioner if he deem it for the interest of the City so to do.

Delivery will be required to be made from time to time and in such quantities and places as may be directed by the Inspector of Repairs and Supplies of the Police Department of The City of New York.

Blank forms and further information may be obtained at the Central Office of the Police Department, No. 300 Mulberry street, Borough of Manhattan.

SALE OF GREASE, BARRELS, BONES, RAGS, METAL AND MISCELLANEOUS ARTICLES.

THE UNDERSIGNED WILL SELL AT public auction to the highest bidder, on the grounds of the Kings County Hospital, Clarkson street, Brooklyn, N. Y., on

**WEDNESDAY, APRIL 25, 1906,**

at 11 a. m.:

About 120,000 pounds bones.  
About 20,000 pounds grease.  
About 20,000 pounds rags.  
About 2,000 pounds iron.  
About 200 pounds lead.  
About 200 pounds brass.  
About 1,000 pounds tea lead.  
About 100 pounds copper.  
25 oil barrels.  
10 vinegar barrels.  
25 turpentine barrels.  
10 pork barrels.  
10 miscellaneous barrels.  
Ashes (hard coal), per cubic yard.  
2 steam boilers, in good condition, at Kings County Hospital, each.  
1 hot water generator, at Cumberland Street Hospital.

Bids on metals, bones and fat must be per pound—on barrels per piece.

All quantities to be "more or less." All quantities to be "as are."

All aforesaid articles must be received by the purchaser at the aforesaid hospitals, and removed therefrom immediately upon being notified that same are ready for delivery, except in the case of bones and grease, which must be removed every other day by the purchaser without previous notice.

Each successful bidder will be required to pay 25 per cent. of the estimated amount of his purchase. Such amount shall be fixed by the Commissioner, and said purchasers shall pay said sum to him on the day of the sale, and shall pay the balance in cash or certified check on a New York City bank to the General Medical Superintendent upon delivery of the goods.

The Commissioner reserves the right to reject any or all bids, also the right to order a resale of any articles that shall not have been removed by the purchaser within ten days after a written notice has been mailed to him to do so. This, however, does not apply to the bones and grease, which, if not removed every other day, the Commissioner reserves the right to sell without notice.

In all cases of resale, the purchaser is to forfeit to the use of The City of New York the 25 per cent. paid at the time of sale.

Kerosene barrels (estimated), 100.  
Pork barrels (estimated), 100.  
Packing cases, 200.

Bids will be received by the single pound, barrel or article, and awards will be made to the highest bidder per pound, barrel or article.

All the above, except as otherwise mentioned, to be received by the purchaser at the pier foot of East Twenty-sixth street, and removed upon being notified that the same are ready for delivery.

Quantities marked "estimated" are for the accumulation of year 1906, and contracts based on such quantities are for such period of time.

All quantities to be more or less and estimated only.

All quantities to be "as are."  
ASSIGNMENTS OF CONTRACTS WILL NOT BE RECOGNIZED UNLESS APPROVED BY THE COMMISSIONER.

Each successful bidder will be required to pay Twenty-five Per Cent. of the estimated amount of his purchase to me at the time and place of sale, and the balance to the General Storekeeper, at Blackwell's Island, in cash or a certified check on a New York City bank, upon delivery of the goods.

The Commissioner reserves the right to order resale of any goods that shall NOT have been removed by the purchaser within TEN days after he shall have been notified that they are ready, and in case of such resale to forfeit to the use of the Department of Public Charities the TWENTY-FIVE PER CENT. paid in at the time and place of sale. Goods can be examined at Blackwell's Island by intending bidders on any week day before the day of sale.

OF SECRETARY, NEW YORK, April 13, 1906.

**AT A MEETING OF THE BOARD OF**  
Health of the Department of Health, held  
April 11, 1906, the following resolution was  
adopted:

Resolved, That section 178 of the Sanitary  
Code be and is hereby amended so as to read  
as follows:

"Section 178. Spitting upon the sidewalk of  
any public street, avenue, park, public square or  
place in The City of New York, or upon the  
floor of any hall in any tenement house which  
is used in common by the tenants thereof, or  
upon the floor of any hall or office in any hotel  
or lodging house which is used in common by  
the guests thereof, or upon the floor of any

"The corporations or persons owning or having  
the management or control of any such building,  
store, factory, ferry boat, railroad car or other  
public conveyance, ferry house, depot or station,  
station platform or stairs of any elevated railroad  
or other common carrier, are hereby required to  
keep permanently posted in each of said places  
a sufficient number of notices forbidding spitting  
upon the floors and calling attention to the pro-  
visions of this section.

"It is hereby made the duty of every corpora-  
tion or person engaged in the manufacture  
of cigars, cigarettes or tobacco, or conducting the  
business of printing in The City of New York,  
where ten or more persons are employed on the  
premises, to provide proper receptacles for ex-  
pectoration. Such receptacles are to be in pro-  
portion of one for every two persons so employed,  
and they are to be cleaned and disinfected at  
least once in every twenty-four hours.

"A copy of the preceding paragraph must be  
kept posted in a conspicuous place in every  
factory or printing office mentioned therein."

railroads, all in the Borough of Brooklyn, City and State of New York.

3. Your petitioner further shows that there is no adequate means of transportation provided between the termini of the proposed railroad, and your petitioner believes there is a public demand for the construction and operation of this proposed railroad, and that such construction and operation will be a public convenience and benefit, the said railroad to be used for freight only.

Wherefore, your petitioner prays that the notice of the time and place when and where this application will be first considered be given, pursuant to provisions of section 92 of the Railroad Law, and all other laws applicable thereto, and that consent or grant be given in the form of an ordinance subject to the laws and ordinances applicable thereto, and upon terms and conditions to be fixed in accordance with the provisions of the Greater New York Charter. THE WILLIAMS TERMINAL RAILWAY COMPANY,

By JAMES H. WILLIAMS,  
Vice-President.

Dated City of New York, Borough of Brooklyn, February 23, 1906.

State of New York, County of Kings, ss.:

James H. Williams, being duly sworn, deposes and says that he is the vice-president of the Williams Terminal Railway Company, the petitioner named in the foregoing petition; that he has read the foregoing petition and knows the contents thereof; that the same is true of his own knowledge, except as to the matters therein stated to be alleged on information and belief, and as to those matters he believes it to be true.

JAMES H. WILLIAMS.

Sworn to before me this 23d day of February, 1906.

A. Y. BRITTON, Notary Public, Westchester County.

Certificate filed in Kings County.

And the following resolutions were thereupon adopted:

Whereas, The foregoing petition from the Williams Terminal Railway Company, dated February 23, 1906, was presented to the Board of Estimate and Apportionment at a meeting held March 30, 1906.

Resolved,

7. This company further petitions that it may have the right or option at the expiration of the said term of ten years to a further term of ten years upon paying a like tax of 5 per cent. upon the gross receipts from all its lines, as above specified, excepting the standholders in the new market.

8. That said proposed pipe line will not interfere with any fixtures or appurtenances forming part of the water mains, sewers, conduits, subways or sub-pavement fixtures of any kind, or of any sub-structures existing by virtue of any franchise heretofore granted, all of which appears from the map herewith submitted. The company will do all work under the said franchise under the directions of the proper officers and departments of the City Government and will comply with all requirements thereof.

Therefore your petitioner prays that such license and franchise be granted as aforesaid. Dated New York, March 2, 1906.

MANHATTAN REFRIGERATING COMPANY,  
T. A. Adams, President.

City and County of New York, ss.:

Thomas A. Adams, being duly sworn, says: He is the president of the Manhattan Refrigerating Company, the petitioner named in the foregoing petition; that he has read the foregoing petition and that the same is true; that the reason this verification is made by deponent is that the petitioner is a domestic corporation organized and existing under the laws of the State of New York, and that he is the president thereof, as aforesaid, and has been duly authorized by the board of directors of said corporation to present and verify the foregoing petition.

T. A. ADAMS.

Sworn to before me this 5th day of March, 1906.

STEPHEN BARKER, Notary Public, New York County.

(When this petition was presented it was not verified, and was subsequently verified.)

At a meeting of the Board of Estimate and Apportionment held March 30, 1906, the following resolutions were adopted:

Whereas, The foregoing petition from the Manhattan Refrigerating Company, dated March 2, 1906, was presented to the Board of Estimate and Apportionment at a meeting held March 2, 1906.

Resolved, That, in pursuance of law, this Board sets Friday, the 20th day of April, 1906, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the City Record immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

JOSEPH HAAG,  
Secretary.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICE TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 480 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
