#### OFFICE OF THE SECRETARY-NOTICES OF THE BOARD.

OFFICE OF THE SECRETARY—NOTICES OF THE BOARD.

The notices of the Board for the abatement of naisances are issued upon the facts and evidence contained to the written reports of the Sanitary Inspectors, the result of personal inspection of premises complained of. During the quarter ending March 31, 1898, the number of notices issued by the Board was 7,203. These notices call the attention of owners, lessees and agents to violations of the Sanitary Code in each case, and require the necessary alteration, repair, cleaning and improvement of the premises named within five days from the receipt of the notice. If, spon reinspection, it is found that the requirements of the notice have not been complied with, a suit for parality is commenced against the delinquents under section 82, chapter 355, Laws of 1873.

The subjects of the notices of the Board above referred to are as follows:

Air shafts cleaned, disinfected, graded, paved, connected with sewer.

Alleys cleaned, disinfected, graded, paved, connected with sewer.

Apartments cleaned, disinfected or ventilated.

Areas connected with sewer, cleaned, disinfected, pavements of graded and repaired.

Balesters of stairs repaired.

#### BOARDS OF LOCAL IMPROVEMENTS.

#### TWENTY-FIRST DISTRICT, DOROUGH OF THE DRODGE,

Minutes of the Twenty-first Meeting of the Last Region of the Tamity first Indepth of the Reining's of The Brings.

Pursuant to call by President Haffen, the members of the Local Board, Twenty-first District, met at 2 s. st., June 23, 1898, at the office of the President of the Borottels of The Brown, Municipal Building, Croiona Park,

Present -- President Haffen, Councilman Hottenroth, Councilman Murray, Alderman McGrath

und Alderman Geiger.
Minutes of meeting held June 16 last rend and sulopted.

HERRINGS

Mag. Place, Local Opening, from Propert As was to the att Place

Perition of Theodore E. Macy, agent, and another was road, and, on motion of Councilman

Murray, it was

Resolved, That this Board herely recommends to the Board of Public Improvements that

Many place, from Prospect avenue to Hewitt place, he legally opened.

Out Southeast Line West of Taird

East One Hundred and Thirty-eighth Street, Laying Out Southerly Line West of Third

Petition of Almon Carr, daned June 6 last, was read.

The matter was laid over for one week and Alderman McGrath was appointed a committee to investigate and report. Mr. Carr was also requested to produce a proper servey-

Mankettan Elevated Railway Column at two Hundred and Fifty-ninth Street and Third

Acvenue.

The Manhattan Rallway Company was represented by Lawyer Erra A. Tuttle. The Union Railway Company was not represented. Mr. Tuttle said be was prepared to argue the legal and practical aspect of the stuation. The Manhattan Company's position in the street was one that they were entitled to maintain. When the elevated structure was pot up at that point, the tracks of the barse cars were not in the location that the irollay tracks are now. The trollay cars came years afterward and located their tracks as they are at present. "We are there," Mr. Tuttle said, it by authority, and we were located by authority."

As in the practical side of the matter, the Manhattan Company's representative said, that if his company remsented in the removal of the column it would necessitate the shoring up of the elevated road for quite a time, as well as a change of frandations, which would mean some outlay of money. He thought it a perfectly proper thing for the local authorities to take notice of any dangerous obstruction in a street, but he contended that the column in question was not dangerous when streeted and that if it was dangerous now to surface passengers it had been made to be some agency for which the Manhattan Company was not responsible. He had not been informed, he said, just in what manner the column was dangerous, but, assuming that are element of danger did

exist by the contiguity of the itelley tracks to the colorus, he thought that if any change were required to be made it should be made by the itelley company. Mr. Tuttle exhibited a print showing the present and former location of the surface tracks, the elevated railroad and the location mentioned, as well as a suggested change of the trolley tracks on the west side of Third avenue. The map showed the column is question to be two test five and one-half laches from the westerly rail of the south-bound track, while, if the tracks were shifted as proposed, there would be a space of four feet hetween the column and the outside westerly rail. Councilman Murray thought that such a change might endanger other traffic. Councilman Hottenroth thought that an agreement existed between the two companies relative to the suspension of overbend wires and that such an agreement inglet affect the situation. Lawyer Tuttle said he did not know whether any agreement of the kind existed. It was not unlikely, however, he said, that such an agreement did exist and be would inquire about it. President Haffen said that us the whole instead very sectious one, in view of the fact that many persons had been injured, it would be well to have a further hearing when the Union Railway Company might be represented. The subject was then laid over for one week.

Gentermore Place, Water and Gen Mains, between One Homired and Sixty-risels and One

Genterment Place, Water and Gas Mains, between Dus Humbred and Sixty-stath and One Humbred and Sixty-seventh Streets.

Petition of August Jacob and others was read. It developed that Gouvernous place was a

private street and it was

Kesoived, That this Board hereby recommends to the Commissioner of Water Supply that a
permit be granted to August Jacob to connect with the water-main in Vanderbillt avenue at his
own expense. As to the gas supply, Mr. Jacob was referred to the gas company.

Third Avenue, Asphalt Strips on Both Sides, from St. Ann's Avenue to Boston Road,

On motion of Councilman Hottenroth, it was Resolved, That this Board hereby recommends to the Commissioner of Highways that the

Adopted.

Kingsbridge Road, Proposed Change of Grade between Webster Avenue and One Hundred and Nonety-around Street.

Communications addressed to Councilman Murray and Alderman Geiger were presented to President Haffen arging speedy action in this matter. The President announced that the matter was pending before the Board of Fublic Improvements and the Local Board had taken all the action possible in the matter.

One Hunared and Fifty-tixth Stever and Union Avenue, Crosswalks,
Alderman Geiger called attention to the necessity of crosswalks at the point mentioned. The
matter was referred to the Commissioner of Highways with recommendation.

Bridge Creating the New York and Harlem Railroad at Our Hundred and Sixty-seventh Street,
Petition of Charles II. Kirk and 29 others was read. After an examination of the grades at
and near the location it was decided, in the interest of economy and as meeting all practical
demands, that a foot-bridge would be sufficient. Mr. Kirk was requested to present a new petition
accordingly and the matter was laid over for one week.

Adjournment.

Adjournment

JOSEPH P. HENNESSY, Secretary.

#### DEPARTMENT OF SEWERS.
