BOARD OF ESTIMATE AND APPORTIONMENT.

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, MEETING HELD IN ROOM 16, CITY HALL, FRIDAY, APRIL 28, 1905.

The Board met in pursuance of an adjournment.

Present—George B. McClellan, Mayor; Edward M. Grout, Comptroller; Charles V. Fornes, President, Board of Aldermen; John F. Ahearn, President, Borough of Manhattan; Martin W. Littleton, President, Borough of Brooklyn; Joseph Cassidy, President, Borough of Queens; George Cromwell, President, Borough of Richmond.

Hon. George B. McClellan, Mayor, presided.

Minutes of meetings held March 10 and 16, 1905, were approved as printed.

The Secretary presented the following communication from the Commissioner of Street Cleaning relative to fixing the salaries of the Clerical and Uniformed Forces of said Department:

DEPARTMENT OF STREET CLEANING,
NEW YORK, April 19, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—I request that your Board recommend to the Board of Aldermen, pursuant to section 56 of the Greater New York Charter, as amended, that the salaries of certain members of the Clerical and Uniformed Forces of this Department be fixed at the amounts specified in the accompanying resolution.

Inviting attention to the fact that these increases in pay to employees of the Department of Street Cleaning in the Uniformed Force were recommended in 1902 in the shape of a bill which was forwarded to Albany, and in 1903 in the same form, which bill, being coupled with the request for the placing of the cognizance and control of the sprinkling and the sanding of the streets with the Department of Street Cleaning, was defeated, it is now deemed wise to submit this same measure under the provisions of section 56 of the Charter. In each of the cases where this increase of pay is recommended by the Department of Street Cleaning these recommendations are made for long and faithful service and added responsibilities.

This recommendation includes the creation of a new position for an additional Apothecary at \$1,200 a year, so that the total increase in the salaries in these thirteen places is \$6,750.

I would recommend further that inasmuch as at the present time there is no grade in the position of Stenographer and Typewriter in this Department between the compensation of \$1,050 per annum and \$1,500, grades be established for annual compensations of \$1,200 and \$1,350.

As this recommendation was deemed wise in 1902 and concurred in in 1903 and in 1904, it has become more distinctly wise in 1905 because of the greatly increased amount of work which is thrown upon the various members of both the Clerical and Uniformed Forces. The amount of labor is shown by the greatly increased amount of material handled and removed and the additional number of miles of streets swept, and the accounting incident to the purchasing of all material by public letting, together with the natural growth of the Department, renders it not only desirable, but a just compensation for the service rendered.

Respectfully, your obedient servant.

JOHN MCGAW WOODBURY, Commissioner.

In Board of Estimate and Apportionment.

Whereas, It is deemed advisable to increase the salary of certain members of the clerical force and of the uniformed force of the Department of Street Cleaning because of the increase in their work and responsibilities;

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, pursuant to section 56 of the Greater New York Charter, as amended, that the Board of Aldermen fix the salaries of the hereinafter members of the clerical force and uniformed force of the Department of Street Cleaning at the amounts hereinafter named, to wit:

Chief Clerk	\$3,900 00
Law Clerk	3,300 00
Chief Bookkeeper	3,300 00
Apothecary	1,200 00
Apothecary	1,500 00
Typewriter Copyist	1,350 00
Stenographer and Typewriter	1,200 00
Stenographer and Typewriter	1,350 00

District Superintendent in Charge, Borough of Brooklyn	\$3,000 00
District Superintendent in Charge, Borough of The Bronx	2,500 00
General Superintendent	3,500 00
Assistant Superintendent	3,000 00
Superintendent of Stables	2,500 00
Superintendent of Final Disposition	2,500 00
Assistant Superintendent of Final Disposition	2,000 00
Master Mechanic	2,500 00

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salaries of the following positions under the jurisdiction of the Department of Street Cleaning, be fixed as follows:

Clerical Force.

	Per Annum.
Chief Clerk	\$3,900 00
Law Clerk	3,300 00
Chief Bookkeeper	3,300 00
Apothecary	\$1,200 00 and 1,350 00
Stenographer and Typewriter	\$1,200 00 and 1,350 00

Uniformed Force.

	Per Annum.
District Superintendent in Charge, Borough of Brooklyn	\$2,500 00
District Superintendent in Charge, Borough of The Bronx	2,250 00
General Superintendent	3,250 00
Assistant Superintendent	2,750 00
Superintendent of Stables	2,250 00
Superintendent of Final Disposition	2,250 00
Assistant Superintendent of Final Disposition	1,750 00
Master Mechanic	2,000 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented a communication from the Commissioner of Street Cleaning, submitting an itemized account of the number and kind of articles which it will be necessary to purchase from the Bond Account—New Stock or Plant—amounting to \$315,835, for the boroughs of Manhattan and The Bronx and for the Borough of Brooklyn.

Referred to the Comptroller.

The Secretary presented a communication from the Commissioner of Public Charities, requesting the establishment of the position of Dock Superintendent at \$1,500 per annum.

Referred to the Comptroller.

The Secretary presented the following communication from the Commissioner of Correction, requesting the establishment of the grade of General Bookkeeper and Auditor, with salary at \$3,000 per annum, in place of \$3,600 per annum:

DEPARTMENT OF CORRECTION OF THE CITY OF NEW YORK,
COMMISSIONER'S OFFICE, No. 148 EAST TWENTIETH STREET,
NEW YORK, April 20, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment:

DEAR SIR—I would respectfully ask your Honorable Board to establish in the Department of Correction the grade of General Bookkeeper and Auditor, at a salary of \$3,000 per annum, in place of the position of General Bookkeeper and Auditor at \$3,600 per annum, in which position a vacancy now exists. Action to date from April 20, 1905.

Very respectfully yours,

(Signed) FRANCIS J. LANTRY, Commissioner.

The Secretary presented a communication from the Commissioner of Correction requesting an appropriation of \$40,000 to make various improvements on Hart's Island.

Referred to the Comptroller.

The Secretary presented the following communication from the Commissioner of the Fire Department requesting an appropriation of \$125,000 for the purchase of an additional boat:

HEADQUARTERS FIRE DEPARTMENT—CITY OF NEW YORK,
Nos. 157 AND 159 EAST SIXTY-SEVENTH STREET,
BOROUGH OF MANHATTAN, April 5, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman, Board of Estimate and Apportionment, City of New York:

SIR—On March 16 last the Board of Estimate and Apportionment passed a resolution authorizing the issue of Corporate Stock in the sum of \$250,000 for the purchase of two (2) boats for the use of the Fire Department. The application of this Department, however, was for \$375,000 to cover the purchase of three (3) fireboats. After the executive session of the Board of Estimate and Apportionment on the said date announcement was made to the effect that the Corporate Stock to cover the purchase of the third fireboat was not authorized in order to consider the advisability of purchasing one larger boat or two smaller boats, and the representative of this Department was instructed to present to the Board of Estimate and Apportionment a statement of the reasons that would seem to justify the choice of one boat instead of two.

Pursuant to such direction I beg to present the following reasons that seem to make it advisable to prefer the larger boat:

It is proposed that the larger boats have a water-line of about 125 feet. This length affords room enough to equip the boat with the great essential of good boiler power, with twin-screw engines, and, so far as possible, with twin plant in order to minimize the danger of the boat being put temporarily out of service.

The larger boat also has very much greater manoeuvring power.

If the appropriation of \$125,000 for one boat is divided in order to purchase two the two boats combined would have much less efficiency than the one single boat. The weight of the hull of the two boats combined would be much greater than that of the single boat; the speed would be greatly reduced, and the pumping capacity would have to be reduced considerably more than half for each boat. A small boat would not be as effective in pushing its way through ice or in making speed in bad weather. If twin screws were used in the smaller boats the force required in handling the machinery would be as great in each boat as in the larger boat, with the exception of an additional Fireman, so that the cost of maintenance of the two boats and the general expense, including repairs, would be very much greater. The boats now in service are small enough to subserve all the purposes for which small boats should be secured.

On account of the additional cost of the twin-screw boat over the single screw it would be found impracticable to purchase two smaller boats with twin screws for the sum of \$125,000. There can be no doubt of the greater facility of controlling a large boat with twin screws as contrasted with a smaller boat with a single screw. Furthermore, the draft of such larger boat would not materially exceed the draft of such smaller boats.

As between the larger and the smaller boats the efficiency of the machinery and the durability of it would be much greater in the larger plant than in the smaller. The above statement is the foundation for the opinion that the larger boat should be procured. This conclusion has been arrived at after discussion with experts and after mature deliberation.

I therefore renew my application for an additional boat of the larger pattern, and ask for the authorization of an issue of Corporate Stock in the sum of \$125,000 to cover its purchase.

Yours respectfully,
(Signed) NICHOLAS J. HAYES, Fire Commissioner.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding one hundred and twenty-five thousand dollars (\$125,000), for the purpose of providing means for the construction and equipment of fire boats for the use of the Fire Department of The City of New York, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one hundred and twenty-five thousand dollars (\$125,000), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented a resolution of the Board of Aldermen, requesting an issue of \$29,250 Special Revenue Bonds, to provide means for the maintenance of the fire alarm telegraph system in the Borough of Richmond, etc.

Referred to the Comptroller.

The Secretary presented a resolution of the Board of Aldermen, requesting an issue of \$200,000 Special Revenue Bonds, the proceeds to be applied to the payment of salaries of additional employees, of additional rent, etc., in connection with the Tenement House Department in the boroughs of Queens and Richmond.

Laid on table.

The Secretary presented a report of the Commissioners of Accounts, relative to an appropriation of \$123,559.80, requested by the Health Department, to meet deficiencies in the appropriation made for 1905.

OFFICE OF THE COMMISSIONERS OF ACCOUNTS,
ROOMS 103, 104, 105, 115, 119 AND 121 STEWART BUILDING, No. 280 BROADWAY,
NEW YORK, April 18, 1905.

Subject—Examination of the Conditions in the Department of Health, inducing its Commissioner to ask of the Board of Estimate and Apportionment an Additional Appropriation of \$123,559.80.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment:

SIR—In a communication received from your Honor, dated April 13, we were instructed to make an examination and report in the matter of a request made by the

Department of Health to the Board of Estimate and Apportionment for an additional appropriation of \$123,559.80.

We have concluded our investigation of the subject, and beg to report as follows:

Annual Appropriations.

The Budget appropriations to the said Department for each of the past five years were:

For 1901.....	\$1,053,990 00
For 1902 (as revised).....	984,391 48
For 1903.....	1,034,391 48
For 1904.....	1,109,391 48
For 1905.....	1,259,391 48

But in each year the Budget appropriation was found to be insufficient for the needs of the Department, and it was found necessary to add to the same by an appropriation of Special Revenue Bonds. This was done to the following extent:

In 1901.....	\$171,550 00
In 1902.....	242,000 00
In 1903.....	228,000 00
In 1904.....	429,458 00
In 1905 (to date).....	266,838 08

The true appropriation, therefore, will be found by adding the Budget to the Bond Account, which will produce the following result:

Total Appropriations.	
For 1901.....	\$1,225,540 00
For 1902.....	1,226,391 48
For 1903.....	1,262,391 48
For 1904.....	1,538,849 48
For 1905 (to date).....	1,526,229 56

This indicates that eliminating the present request for an additional appropriation of \$123,559.80, those already made are within \$12,619.92 of the total for 1904, and that if the request is granted, the appropriation for 1905 will exceed that for 1904 by the sum of \$110,939.80.

Reasons for Increase in Expenditures.

We have analyzed the existing reasons for an increased expenditure over former years by the Department of Health.

Considering first the bond appropriations made during the current year, we find an item for taking the census of the City, which duty is imposed upon the said Department, and which occurs only once in 10 years.....	\$35,000 00
For the operation of an Eye Hospital not established until 1904.....	25,000 00
For the operation of a Tuberculosis Hospital in Manhattan Borough, established in 1904.....	10,000 00
For reindexing certain records of the Department, neglected in past years and now given attention.....	5,000 00
For special consideration of the unusual increase in the cases of cerebro spinal meningitis.....	5,000 00

In addition to the unusual needs specified for the current year, there will be a Tuberculosis Hospital opened in Brooklyn Borough, during the month of May, and a portion of the funds now asked for will be devoted to furnishing the necessary supplies and paying the salaries of employees connected therewith.

Here we have a total of \$80,000, which, from the nature of the appropriations, should be eliminated, for the purpose of a fair comparison with the expenditures of the previous year.

Deducting that sum from \$110,939.80, which will be the excess of 1905 over 1904, if the present request is granted, it will be seen that for the same items the increase will be reduced to \$30,939.80, and this should be further reduced by whatever is required for the operation of the Brooklyn Tuberculosis Hospital.

The request for an additional appropriation is divided between two items,

namely:	
Salaries.....	\$116,059 80
Supplies.....	7,500 00
	<u>\$123,559 80</u>

In the Matter of Supplies and Contingencies.

When we analyzed the expenditures of the Department for this account in the two immediately preceding years, it is manifest that the request for \$7,500 additional to the Budget appropriation is a very modest one, and with the additional service demanded, it will require considerable economy to get through with that allowance.

The expenditures for that purpose were:

In 1903.....	\$46,318 70
In 1904.....	53,670 00

—but despite the fact that the estimate of the Department was that for the same purposes there would be required for 1905 the sum of \$55,485 in the adjustment of the gross appropriation made, there was allotted for "Supplies and Contingencies" only \$44,073, a sum under all the circumstances manifestly inadequate.

In the Matter of Salaries.

The annual salary account, based upon the pay-roll for December, 1903, called for an expenditure of.....

\$907,168 00
while basing the annual demands upon the pay-roll for June, 1904, the requirements would be.....
1,016,428 00
The budget allowance for Salaries for 1905 was but.....
815,222 00

—which, if no further appropriations were made, would require the dismissal or suspension of employees, or the reduction of salaries at the rate of \$201,204 for the year as compared with the pay-roll of June, 1904.

It must be considered that the Department of Health is a growing one; this is shown in the facts we have already stated as to the opening of new hospitals for the treatment of special diseases, and in this further fact: Beginning with 1902, the Boards of Estimate and Apportionment have voted Corporate Stock to the Health Department for the purchase of sites and the erection of buildings devoted to hospital and health purposes in the sum of \$2,820,000.

It needs no argument to support the proposition that upon the completion of these additions to what may be called the "plant" of the department there will be required additional amounts for supplies and for salaries to equip and operate them with the requisite force of Physicians, Nurses and other help. So that if the annual salary account in December, 1903 was.....

\$907,168 00
and in June, 1904, was.....
1,016,428 00
—there may be added to the appropriation for 1905, which was.....
\$815,222 00
the amount now asked for.....
116,059 80

and it will produce.....

\$931,281 80

—or considerably less than the requirements shown by the June, 1904, pay-roll, and not greatly more than the requirements based upon the pay-roll for December, 1903.

Conclusion.

Our inquiry has developed the fact that the increase asked for is not for the purpose of increasing the salaries of individuals, but for a necessary increase in the force of employees by reason of the new conditions and the facts as we have stated them.

It is proper to add, however, that we have gone over all the pay-rolls of the department from the first of January, 1904, to the first of the present month and find that within that period there have been 127 cases of increases in the salaries of indi-

vidual employees of the department, involving an additional annual expense of \$28,570.

We have not inquired into the reasons for these increases, contenting ourselves with a mere statement of the fact, and leaving it for the head of the Health Department to make an explanation should he be requested so to do by your Honorable Board.

Respectfully submitted,

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—Inclosed herewith you will find a copy of preambles and resolution adopted by the Board of Health at its meeting held March 22, 1905, requesting the Board of Estimate and Apportionment to hold a special meeting of said Board at the earliest possible moment, for the purpose of considering such requests for moneys needed to meet deficiencies that will exist in the funds appropriated by the Board of Estimate and Apportionment for the year 1905, as have been made by the Board of Health of the Department of Health, exclusive of all other matters.

Respectfully,

EUGENE W. SCHEFFER, Secretary.

DEPARTMENT OF HEALTH—CITY OF NEW YORK,
SOUTHWEST CORNER FIFTY-FIFTH STREET AND SIXTH AVENUE,
BOROUGH OF MANHATTAN, NEW YORK, March 27, 1905.

Hon. EDWARD M. GROUT, Comptroller, and Member, Board of Estimate and Apportionment:

SIR—Inclosed you will find a copy of preambles and resolution requesting the Board of Estimate and Apportionment to appropriate the sum of \$123,559.80 for the purpose of meeting the estimated amount of the deficiencies which will exist in the fund appropriated for the use of the Department of Health for the year 1905, provided the present rate of expenditure is maintained and no further appropriation is made, adopted by the Board of Health at its meeting held March 22, 1905, pursuant to the provisions of chapter 535 of the Laws of 1893.

The increase in the number of employees (Clerks, Medical Inspectors, Disinfectors, Laboratory Assistants, Sanitary Police Officers, etc.) made necessary by the increased work of the Department, owing to the prevalence of the large number of infectious diseases in the City, the increase in the population and also the need for a larger amount of supplies to be used by such employees for the sustenance of the patients in the contagious disease hospitals, is the cause for the request as embodied in said resolution, which is respectfully forwarded for your consideration.

Respectfully,

EUGENE W. SCHEFFER, Secretary.

At a meeting of the Board of Health of the Department of Health, held March 22, 1905, the following preambles and resolution were adopted:

Whereas, It appears that certain appropriations made to the Department of Health by the Board of Estimate and Apportionment for the year 1905, will not be sufficient to meet the necessary expenses required to be incurred, owing to the necessity for an increase in the number of employees to properly carry on the work of the Department, and by reason of the great number of cases of infectious diseases, especially cerebro-spinal meningitis, tuberculosis, diphtheria, etc., in The City of New York; and

Whereas, It is necessary to secure the services of additional Medical Inspectors, Disinfectors, Laboratory Assistants, etc., and to purchase a larger amount of supplies to be used by such employees, and for the sustenance of the increased number of patients in the contagious disease hospitals; and

Whereas, At the present rate of expenditure, which is necessary to be maintained, the estimated amount of the deficiencies which will exist in the funds hereinafter named, appropriated by the Board of Estimate and Apportionment for the use of the Department of Health for the year 1905, will be one hundred and twenty-three thousand five hundred and fifty-nine dollars and eighty cents (\$123,559.80), should no further appropriation be made for this Department; therefore be it

Resolved, That the Board of Health, pursuant to the authority conferred by the provisions of chapter 535 of the Laws of 1893, hereby certifies to the Board of Estimate and Apportionment that the sum of one hundred and twenty-three thousand five hundred and fifty-nine dollars and eighty cents (\$123,559.80) should be appropriated for the year 1905, for the purpose of defraying the necessary expenses required to be incurred by the Board of Health for the preservation of the public health, as follows:

Salaries	\$116,059 80
Supplies and Contingencies	7,500 00

Total..... \$123,559 80

A true copy.

EUGENE W. SCHEFFER, Secretary.

At a meeting of the Board of Health, held March 22, 1905, the following preambles and resolution were adopted:

Whereas, This Department has made several requisitions on the Board of Estimate and Apportionment for moneys additional to the amount contained in the appropriation of the Department of Health for the year 1905 for various purposes and to meet deficiencies that will exist in the funds so appropriated, provided the present rate of expenditure obtains and no further appropriations are made, which have not been acted upon by the said Board of Estimate and Apportionment; and

Whereas, The present needs of the Department are of such a character by reason of a reduction of eight hundred and sixty-four thousand one hundred and eight and fifty-two one-hundredths dollars (\$864,108.52) in the amount contained in the annual estimate for the current year, that immediate action on the requisitions stated above is very urgent; therefore be it

Resolved, That the Board of Estimate and Apportionment be and is hereby respectfully requested to hold a special meeting of said Board at the earliest possible moment for the consideration of such requests for money as have been made by the Board of Health of the Department of Health of The City of New York, exclusively.

A true copy.

EUGENE W. SCHEFFER, Secretary.

The following resolution was offered:

Resolved, That, pursuant to the provisions of chapter 535 of the Laws of 1893 and section 170 of the Greater New York Charter, and the requisition of the Board of Health, adopted March 22, 1905, the Comptroller be and is hereby authorized to issue Revenue Bonds of The City of New York to the amount of one hundred and twenty-three thousand five hundred and fifty-nine and eighty one-hundredths dollars (\$123,559.80), the proceeds whereof to be applied to defraying the necessary expenses required to be incurred by the Board of Health for the preservation of the public health.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented a communication from the Department of Health, requesting an appropriation of \$10,300, to defray the expenses in connection with the extermination of mosquitoes on Staten Island.

Laid on table.

The Secretary presented a communication from the Health Department, requesting the fixing of the salary of the position of Chemist at \$1,800 per annum.

Laid on table.

The Secretary presented the following communication from the Commissioner of Parks, Boroughs of Brooklyn and Queens, relative to establishing various positions in his Department:

THE CITY OF NEW YORK—DEPARTMENT OF PARKS,
BOROUGH OF BROOKLYN AND QUEENS,
LITCHFIELD MANSION, PROSPECT PARK,
BOROUGH OF BROOKLYN, April 26, 1905.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—I beg to request that your Honorable Board establish the grade of Assistant Engineer at, per year..... \$2,400 00
Rodman at, per year..... 1,500 00
Stenographer at, per year..... 1,500 00
Telephone Operator at, per year..... 750 00
Keeper, menagerie, at, per day..... 3 50
Stationary Engineer at, per day..... 3 50
Second Grade Clerk at, per year..... 900 00
Office Boy at, per year..... 300 00

—in the Department of Parks, boroughs of Brooklyn and Queens, and would call your attention to the following facts relating to these appointees:

Assistant Engineer—The position of Assistant Engineer has been in existence in the Department since 1895 and has always been filled, with the exception of a short period in 1902, when the then incumbent of the position was promoted to that of Superintendent of Parks. The present incumbent was appointed from an eligible list on September 17, 1900, as Inspector of Masonry, and his pay fixed at \$4 per diem. He entered an examination for promotion to the position of Assistant Engineer, passed the examination and was certified to the Department for appointment August 21, 1903, and his pay fixed by former Commissioner Young at \$5 per diem. In consideration of the additional service rendered by him during the illness of the Superintendent of Parks, and in view of the fact that the pay of the Assistant Engineer has usually been \$2,400 per annum, his pay was increased on January 1, 1905, to \$6.57 per diem, practically \$2,400 per annum, which amount he is now being paid.

Rodman—The present incumbent was transferred to this Department on June 13, 1903, from the Rapid Transit Commission, at \$3.30 per day. He subsequently passed a number of Civil Service examinations of a higher grade and was certified to various subdivisions of the Municipal Government, the appointments being declined (one of which was to the Aqueduct Commission at the rate of \$1,800 per annum, with the title of Assistant Civil Engineer) upon my promise to increase his pay and make it \$1,500 per year. His pay was subsequently, on February 18, 1905, fixed at \$4.11 per diem, an equivalent of \$1,500 per annum, the amount which he now receives.

Stenographer—The present Stenographer was appointed to this Department on June 1, 1902, as Confidential Stenographer to Commissioner Young at \$1.050 per year. Her name at that time was on an eligible list of Stenographers and was certified to the Borough President's office and the Department of Water Supply, Gas and Electricity. She declined appointment. On July 1, 1904, she resigned the position of Confidential Stenographer and was appointed by me from the eligible list at \$4 per diem, which amount she is now being paid, approximating \$1,500 per annum.

Telephone Operator—The present incumbent was certified by the Civil Service Commission and appointed by me March 1, 1904, at the rate of \$2 per diem, which amount she is now being paid.

Keeper of Menagerie—The present Keeper of the Menagerie was certified to this Department under the above title by the Civil Service Commission and appointed by Commissioner Young April 1, 1902, at the rate of \$3.50 per diem, which amount he is now being paid.

Stationary Engineer—The present incumbent was appointed from an eligible list by Commissioner Young under date of June 29, 1903, and his pay fixed at the rate of \$3.50 per day, which amount he has been paid ever since.

Second Grade Clerk—The present incumbent was appointed Office Boy under date of June 11, 1901, and his pay fixed at 84 cents per day. He passed an examination for promotion to Junior Clerk, September 27, 1902, and was appointed to that position at \$1.25 per day, which was increased October 5, 1903, to \$1.75 per day. On August 6, 1904, he was appointed by me to the position of Second Grade Clerk after passing a Civil Service examination, and his pay was fixed at \$3 per day, the amount which he now receives.

Office Boy—The present Office Boy was certified to this Department for appointment by the Civil Service Commission October 31, 1904. He was appointed by me, and is now receiving compensation at the rate of 98 cents per day.

The required approval of your Honorable Board, under section 56 of the Charter, establishing the grade and compensation of the above employees of this Department, was inadvertently overlooked, and I respectfully ask, if consistent in fixing the grade and pay, that you approve the same from the date of January 1, 1905. Every one of the above enumerated employees are actually necessary for the proper conduct of the business of the Department, and I most respectfully ask your favorable action on my request.

Very respectfully,

M. J. KENNEDY, Commissioner.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salaries of the following positions under the jurisdiction of the Commissioner of Parks, Boroughs of Brooklyn and Queens, be fixed as follows:

	Per Annum.
Assistant Engineer	\$2,400 00
Rodman	1,500 00
Stenographer	1,500 00
Telephone Operator	750 00
Clerk, second grade.....	900 00
Office Boy	300 00
<hr/>	
	Per Diem.
Stationary Engineer.....	\$3 50
Keeper of Menagerie.....	3 50

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented a resolution of the Board of Aldermen requesting the issue of \$1,750 Special Revenue Bonds for the purpose of providing means to purchase ten book-typewriting machines for the use of the Clerk of Queens County.

Referred to the Comptroller.

The Secretary presented the following communication from the Commissioner of Accounts requesting the fixing of the salary of the position of Clerk at \$750 per annum:

OFFICE OF THE COMMISSIONERS OF ACCOUNTS,
ROOMS 103, 104, 105, 115, 119 AND 121 STEWART BUILDING, No. 280 BROADWAY,
NEW YORK, March 28, 1905.

Hon. GEORGE B. MCCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment:

SIR—We respectfully request that your Honorable Board fix the salary of Clerk in this Department at the rate of \$750 per annum, to correspond with Grade 1 of the Municipal Civil Service Commission, for the following reasons:

I. We have now no grade established by law between Grade D, at \$600 per annum, and Grade 2, at \$900 per annum.

II. There is now a vacancy in Grade 2 and the only employee in our Department who is eligible for promotion is a Grade D Clerk, whom the Civil Service Commission intends to examine on April 5 next for promotion to Grade 1, the said Commission having, in its discretion, refused to examine him for promotion to Grade 2 although he passed an examination in April, 1904, open to all comers, which entitled him to have his name placed on the eligible list of Grade 4 Clerks, who are compensated at the rate of \$1,200 per annum.

III. The Clerk referred to has been employed in this Department for about three years, and is competent, faithful and justly entitled to an increase in salary. As the Civil Service Commission will not consent to his promotion to Grade 2, but is willing that he be promoted to Grade 1, and as we have no such position in this Department, we ask your Honorable Board to fix such position which carries with it a salary of \$750 per annum.

Respectfully submitted,

JOHN C. HERTLE,
WILLIAM HARMAN BLACK,
Commissioners of Accounts.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of the position of Clerk in the office of the Commissioners of Accounts be fixed at the rate of seven hundred and fifty dollars (\$750) per annum.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented the following communication from the Commissioner of Licenses, relative to fixing the salary of the position of Clerk at \$1,050 per annum, as of date January 1, 1905:

OFFICE OF THE COMMISSIONER OF LICENSES FOR THE CITY OF NEW YORK,
No. 277 BROADWAY,
BOROUGH OF MANHATTAN, April 3, 1905.

Hon. EDWARD M. GROUT, Comptroller, City of New York, No. 280 Broadway:

DEAR SIR—I herewith forward you form of resolution creating the grade of Clerk in the office of the Commissioner of Licenses at \$1,050 per annum, as of date January 1, and in explanation thereto would state the present incumbent of the position, Mr. Henry Frank, was transferred to this office from the Department of Water Supply on October 1, 1904, and paid at the rate of \$1,500 per year for October, November and December, 1904. These rolls were passed by the Municipal Civil Service Commission before the question had been brought to their attention by the State Civil Service Commission of the validity of the raise in salary from \$1,050 to \$1,500 per annum. The Municipal Civil Service Commission failed to approve Mr. Frank's name for January, 1905.

After the matter had been discussed by the Municipal Civil Service Board they agreed to certify his name at the rate of \$1,050 per year, and did so for the months of February and March, and Mr. Frank did receive the salary at that rate for the month of February. Supplementary roll was sent to the Civil Service Commission for Mr. Frank's salary for the month of January, and was properly certified by them at that rate, but the Department of Finance then raised the question that there was no \$1,050 grade Clerk in the office of the Commissioner of Licenses.

I cite these circumstances to show you that this is not a question of raising anyone's salary, but simply to enable Mr. Frank to receive some salary from January of this year.

Yours very truly,

FREDERICK L. C. KEATING, Commissioner of Licenses.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment at a meeting held March 24, 1905, and which reads as follows:

"Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of the position of Clerk in the office of the Commissioner of Licenses be fixed at the rate of ten hundred and fifty dollars (\$1,050) per annum,"

—be and the same is hereby amended by adding thereto the words "as of date January 1, 1905."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented an application from Richard J. Garland, Messenger in the office of the Board of Estimate and Apportionment, requesting an increase in salary from \$900 to \$1,200 per annum.

Laid over for report from Assistant Secretary of the Board.

The Secretary presented a communication from the Sub-Committee of the Board of Estimate and Apportionment relative to the request of the Commissioner of Parks, Boroughs of Brooklyn and Queens, to fix the salary of the position of Superintendent at \$4,000 per annum:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOARD OF ALDERMEN,
CITY HALL, NEW YORK, April 5, 1905.

To the Board of Estimate and Apportionment:

GENTLEMEN—Your committee, to whom was referred the communications from the Commissioner of Parks, Boroughs of Brooklyn and Queens, requesting that the salary of the position of Superintendent in that Department be increased from \$3,000 to \$4,000, begs leave to report that he has no further information to lay before this Board other than that contained in the communication of the Park Commissioner, Boroughs of Brooklyn and Queens. Owing to the refusal of the State Civil Service Commission to permit the creation of the position of Assistant Superintendent of Parks in the Boroughs of Brooklyn and Queens, this increase in salary is asked for because of the extra labor and responsibility devolving upon the Superintendent of Parks for those boroughs. The Superintendent of Parks, Boroughs of Manhattan and

Richmond, is provided with two Assistants at \$2,500 each per annum, and the Superintendent of Parks, Borough of The Bronx, is also provided with two Assistants at \$1,500 each per annum.

It seems to me that in view of these facts an increase in salary should be granted to the Superintendent of Parks for the Boroughs of Brooklyn and Queens until such time as an Assistant Superintendent shall have been provided.

Respectfully submitted,

C. V. FORNES,

Sub-Committee, Board of Estimate and Apportionment.

THE CITY OF NEW YORK—DEPARTMENT OF PARKS,
BOROUGH OF BROOKLYN AND QUEENS,
LITCHFIELD MANSION, PROSPECT PARK,
BOROUGH OF BROOKLYN, February 15, 1905.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—I desire to increase the salary of Mr. W. J. Zartmann, the Superintendent of this Department, from three thousand to four thousand dollars (\$3,000 to \$4,000) per annum. The Superintendent is in immediate charge of all the employees of this Department, and as I have been unable to appoint any assistant to him he is compelled to attend to all the work himself. Under the circumstances I feel that his services should receive larger compensation.

I respectfully request your Honorable Body for permission to fix his salary at four thousand dollars (\$4,000) per year. Your Honorable Body granted sufficient money for salaries for the year 1905 to make it possible to pay the additional one thousand dollars (\$1,000).

Respectfully,

M. J. KENNEDY, Commissioner.

THE CITY OF NEW YORK—DEPARTMENT OF PARKS,
BOROUGH OF BROOKLYN AND QUEENS,
LITCHFIELD MANSION, PROSPECT PARK,
BOROUGH OF BROOKLYN, February 20, 1905.

Hon. JAMES W. STEVENSON, Secretary, Board of Estimate and Apportionment, New York City:

SIR—Your communication of the 16th inst., requesting that full information be given relative to fixing of salaries, came duly to hand.

I desire to say concerning my application to have the salary of the Superintendent of this Department, Mr. William J. Zartmann, increased from three to four thousand dollars per year, that Mr. Zartmann has entire charge of all construction and maintenance work in the Department. Some time ago I made application to have an Assistant Superintendent appointed, but the proposition was not allowed by the State Civil Service Commission. There are two Assistant Superintendents in Manhattan and two in The Bronx. Mr. Zartmann was formerly an Engineer in the Department, but was appointed Superintendent of Parks by my predecessor, the Hon. Richard Young, and the salary fixed at three thousand dollars. Efforts were subsequently made by Mr. Young to have the salary advanced. It will be recalled that in 1896 the Superintendent of this Department received thirty-five hundred and in 1901 thirty-six hundred dollars per year, when there was less than half the park area to be looked after and less than half the number of men now employed. The Superintendent is compelled to work every day in the year and for many hours each day. I am most anxious that this increase be allowed, so as to make the salary of the Superintendent the same as paid by the City in other departments for similar positions. The money required to make this increase possible is available, your Honorable Board having allowed it in the Annual Budget.

Very truly yours,

M. J. KENNEDY, Commissioner.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of the position of Superintendent in the Department of Parks, Boroughs of Brooklyn and Queens, be fixed at the rate of four thousand dollars (\$4,000) per annum.

Which was adopted by the following vote:

The Secretary presented a resolution of the Board of Education, requesting the fixing of the salaries of the positions of Chief Clerk at \$3,000, Clerk at \$2,100, Book-keeper at \$1,950, and various other positions in said Department.

Laid on table.

The Secretary presented the following communication from the Board of Education, relative to fixing the salary of the Janitor of the High School of Commerce, Borough of Manhattan, at \$5,256.12 per annum, as of date December 1, 1904:

To the Board of Education:

The Committee on Care of Buildings respectfully reports that it has had under consideration a communication from the Supervisor of Janitors submitting a report on the sidewalk to the recently acquired property to the west of the High School of Commerce, and finds that the Janitor is entitled to additional compensation to the amount of \$23.12 per annum, from December 1, 1904, the date on which the Janitor began to care for said sidewalk.

The following resolutions are offered for adoption:

Resolved, That the action of the Committee on Care of Buildings in increasing the salary attached to the position of Janitor of the High School of Commerce, Borough of Manhattan, from \$5,233 to \$5,256.12 per annum, subject to the approval of the Board of Estimate and Apportionment and of the Board of Aldermen, taking effect from and after December 1, 1904, be and the same is hereby approved and ratified.

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to recommend to the Board of Aldermen that the salary of the Janitor of the High School of Commerce, Borough of Manhattan, be increased from \$5,233 to \$5,256.12 per annum, for the reason above set forth, said increase to date from December 1, 1904, as above stated.

A true copy of report and resolutions adopted by the Board of Education on April 12, 1905.

A. EMERSON PALMER, Secretary, Board of Education.

The following resolution was offered:

Resolved, That, subject to the concurrence and approval of the Board of Aldermen, the Board of Estimate and Apportionment hereby ratifies and confirms the action of the Board of Education, taken and dated April 12, 1905, in fixing the salary of the position of Janitor of the High School of Commerce, Borough of Manhattan, at the rate of five thousand two hundred and fifty-six dollars and twelve cents (\$5,256.12) per annum, from December 1, 1904.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented a communication from the Police Commissioner requesting the fixing of the salaries of the positions of Stenographer to the Commissioner at

\$1,500, Stenographer to the Third Deputy Commissioner at \$1,500 and Stenographer in the office of the Commissioner at \$1,500 per annum.

Referred to the President, Board of Aldermen.

The Secretary presented the following communication from the President, Board of Trustees, Bellevue and Allied Hospitals, requesting authority to change the title of Assistant Director of Pathological Laboratories to that of Pathologist:

BELLEVUE AND ALLIED HOSPITALS,
OFFICE OF THE BOARD OF TRUSTEES,
BELLEVUE HOSPITAL, FOOT EAST TWENTY-SIXTH STREET,
NEW YORK, April 5, 1905.

Board of Estimate and Apportionment, No. 280 Broadway, New York City:

GENTLEMEN—The Trustees of Bellevue and Allied Hospitals respectfully request the Board of Estimate and Apportionment to authorize the change of the title of Assistant Director of Pathological Laboratories in their Department to that of Pathologist; this change to take effect from March 1, 1905, and the salary to remain the same—\$1,500 per annum. The Municipal Civil Service Commission have promulgated an eligible list of Pathologists, and we have selected two persons from this list for appointment, one having begun his services on March 1, 1905, before our attention was called to the fact that the place of Pathologist did not exist in our Department.

Respectfully,

JOHN W. BRANNAN, President, Board of Trustees.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of the position of Pathologist, under the jurisdiction of the Board of Trustees of Bellevue and Allied Hospitals, be fixed at the rate of fifteen hundred dollars (\$1,500) per annum, as of date March 1, 1905, said position to take the place of Assistant Director of Pathological Laboratories which is hereby abolished.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented the following communication from the President, Borough of The Bronx, requesting the establishment of the grade of Clerk, with salary at the rate of \$750 per annum:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
MUNICIPAL BUILDING, CROTONA PARK,
April 5, 1905.

Hon. GEORGE B. MCCLELLAN, Mayor, and Chairman, Board of Estimate and Apportionment:

DEAR SIR—Will you kindly present to the Board of Estimate and Apportionment for their approval the establishment of a grade for the position of Clerk at a salary of \$750 per annum for the Bureau of Buildings in the office of the President of the Borough of The Bronx.

Respectfully,

LOUIS F. HAFFEN, President of the Borough of The Bronx.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of the position of Clerk in the Bureau of Buildings under the jurisdiction of the President of the Borough of The Bronx, be fixed at the rate of seven hundred and fifty dollars (\$750) per annum.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented a communication from the President of the Borough of The Bronx, requesting that the matter of the request of the Department of Bridges for the fixing of the salary of the position of Telephone Operator in said Department at the rate of \$900 per annum, be taken from the table.

The President of the Borough of The Bronx moved that the request be granted.

The Chair directed a roll call, the Comptroller voting in the negative, the request was not agreed to.

The Secretary presented a communication from the Secretary of the Queens Borough Library, requesting the fixing of the salaries of the positions of Librarian at \$2,000, Assistant Librarian at \$1,200 and Junior Assistant Librarian at \$660 per annum.

Ordered on file.

QUEENS BOROUGH LIBRARY,
No. 101 EAST AVENUE,
LONG ISLAND CITY, April 4, 1905.

Honorable Board of Estimate and Apportionment, No. 280 Broadway, New York City:

GENTLEMEN—At a recent meeting of our Board it was resolved that your Board be requested to pass the following resolutions:

"Resolved, That the following grade be and the same is hereby established, and the compensation therefor fixed at the rate of two thousand dollars, the same to be under the jurisdiction of the Board of Trustees of the Queens Borough Library:

"Librarian, \$2,000 per annum.

"Resolved, That the following grade be and the same is hereby established, and the compensation therefor fixed at the rate of twelve hundred dollars, the same to be under the jurisdiction of the Board of Trustees of the Queens Borough Library:

"Assistant Librarian, \$1,200 per annum.

"Resolved, That the following grade be and the same is hereby established, and the compensation therefor fixed at the rate of six hundred and sixty dollars, the same to be under the jurisdiction of the Board of Trustees of the Queens Borough Library:

"Junior Assistant Librarian, \$660 per annum."

Yours very truly,

ALFRED H. SCHLESINGER, Secretary.

The Secretary presented the following communication from the Secretary of the Department of Public Charities relative to the prevailing rate of wages of Laborers in said Department, which was ordered on file:

DEPARTMENT OF PUBLIC CHARITIES OF THE CITY OF NEW YORK,
FOOT OF EAST TWENTY-SIXTH STREET,
April 14, 1905.

Hon. J. W. STEVENSON, Deputy Comptroller:

DEAR SIR—I beg to acknowledge receipt of your favor of April 10, which reads as follows:

"At a meeting of the Board of Estimate and Apportionment held April 7, 1905, the President of the Board of Aldermen presented a report relative to your request

for an increase in the salaries of certain positions in your Department, and also for the establishment of the positions of Private Secretary and Auditor.

"The matter was laid over until the next financial calendar and I was directed by the President of the Board of Aldermen to request that you advise this Board in the meantime as to whether or not the Laborers employed by your Department are receiving the prevailing rate of wages."

In reply I would say that the only Laborer on the pay-rolls of this Department is a man employed at Randall's Island receiving \$720 per annum, and in addition to his salary he receives board and lodging for himself and lodging for his sister and two boys. He is the only man employed in this Department under the title of "Laborer."

We have a "Skilled Laborer" employed at the City Hospital receiving \$600 per annum, board, lodging and laundry, and there is a "Laundry Laborer" employed at the Cumberland Street Hospital receiving \$600 per annum.

These are the only people employed in this Department under the title of "Laborer."

As to what the prevailing rate of wage is for Laborers employed in this Department we have no definite knowledge. Therefore we do not know whether they are receiving the prevailing rate of wage or not.

By direction of the Commissioner.

Yours truly,

J. MCKEE BORDEN, Secretary.

The Secretary presented the following communication from the Commissioner of Public Charities, requesting the fixing of certain salaries in his Department, and report of the President of the Board of Aldermen relative thereto:

DEPARTMENT OF PUBLIC CHARITIES OF THE CITY OF NEW YORK,
FOOT OF EAST TWENTY-SIXTH STREET,
December 19, 1904.

To the Honorable the Board of Estimate and Apportionment, Hon. J. W. STEVENSON, Secretary:

DEAR SIR—I would respectfully ask that you take favorable action upon my recommendation of August 29, requesting that certain new grades of salaries be established for the following positions in this Department:

	Per Annum.
1. Investigator	\$1,800 00
2. Driver	900 00
3. Registrar	600 00
4. Draughtsman	1,500 00
5. Superintendent of Almshouse	1,500 00
6. Matron	600 00
7. Bookkeeper	2,100 00
8. Clerk	2,400 00
9. Superintendent of Asylums and Schools	2,700 00

And that the salaries of the following positions be changed as follows:

1. Secretary to Department, \$3,500 to \$3,600 per annum.
2. Private Secretary, \$2,036 to \$2,500 per annum.
3. Auditor, \$3,000 to \$3,600 per annum.

I am especially anxious to have the Board of Aldermen take action upon the matter this year.

Yours respectfully,

JAMES H. TULLY, Commissioner.

DEPARTMENT OF PUBLIC CHARITIES OF THE CITY OF NEW YORK,
FOOT OF EAST TWENTY-SIXTH STREET,
August 29, 1904.

To the Honorable the Board of Estimate and Apportionment, Hon. J. W. STEVENSON, Secretary:

DEAR SIR—I beg respectfully to recommend that the following salaries be established in this Department, in addition to the salaries heretofore established:

	Per Annum.
1. Investigator	\$1,800 00
2. Driver	900 00
3. Registrar	600 00
4. Draughtsman	1,500 00
5. Superintendent of Almshouse	1,500 00
6. Matron	600 00
7. Bookkeeper	2,100 00
8. Clerk	2,400 00
9. Superintendent of Asylums and Schools	2,700 00

And that the salaries of the following positions be changed as follows:

1. Secretary to Department, \$3,500 to \$3,600 per annum.
2. Private Secretary, \$2,036 to \$2,500 per annum.
3. Auditor, \$3,000 to \$3,600 per annum.

My reasons for asking for the establishment of the new grades as above indicated, are as follows:

1. Investigator at \$1,800.

The only existing salary for Investigator in this Department at present is \$1,200. There should be an opportunity to promote from a lower to a higher grade for meritorious service.

2. Driver at \$900.

The highest salary at present for this position is \$800. Some of the Drivers getting \$800 do not receive maintenance. There should therefore be another grade for those who do not receive maintenance.

3. Registrar at \$600.

This is a new position classified in this Department, although a similar position is in other Departments.

4. Draughtsman at \$1,500.

The only salary now is \$1,000, which is not commensurate with the services rendered, as the Draughtsman is practically the Architect as well of the Department and saves the Department Architects' fees on a great deal of work awarded for alteration, additions and repairs to buildings, etc., that was formerly given to outside Architects on which they were paid in fees.

5. Superintendent of Almshouse at \$1,500.

The salary at present paid is only \$1,200 to the Superintendent of the Farm Colony, Borough of Richmond. Heretofore the Farm Colony has been only a small place, having about one hundred inmates. This year, buildings have been added, so that before the close of the year there will be about seven hundred inmates, which involves more responsibility, and the salary should be more in keeping with the added responsibilities of the head of such a large institution.

6. Matron at \$600.

The highest salary at present for Matron is \$480. This is not sufficiently large to allow us to retain the services of competent Matrons in our large institutions. I therefore ask for the higher grade.

7. Bookkeeper at \$2,100.

The only grade we have established at present is \$1,950. There was formerly a grade of \$2,000 in this Department for Bookkeeper, and I wish to restore the incumbent to his former salary of \$2,000, but I find there is no such grade. As the position is a very responsible one, I think \$2,100 is none too large.

8. Clerk at \$2,400.

The position originally paid \$2,500 and the title was Chief Clerk, but was decreased to \$2,250 and title changed to Clerk. I wish to restore the salary to the position, but find there is no \$2,250 grade, so have asked for \$2,400.

9. Superintendent of Asylums and Schools at \$2,700.

This position originally paid \$2,500, but was reduced in 1902 to \$2,400. I wish to restore the salary, but find there is no \$2,500 grade. I have therefore asked for \$2,700, as the position is a very responsible one. The incumbent not only acts as Superintendent, but directs and devises all methods of teaching the defective children on Randall's Island.

Secretary at \$3,600.

The position in this Department is one requiring ability, responsibility, industry and close application to the multitudinous duties devolving upon a Secretary of a Department as large as this. I therefore think the salary should be at least what is paid in some of the other City Departments.

Private Secretary at \$2,500.

Among his responsibilities is the custody of all the moneys belonging to the Department kept in the Court Fund, money from deceased patients and moneys received from the sale of refuse material. The position is a very responsible one and should at least be as high as similar positions in other Departments.

Auditor at \$3,600.

The work of the Auditor has increased very considerably since the consolidation of the work of all boroughs in the Central Office. The salary of the position should therefore be increased in proportion to his increased responsibilities and it certainly should not be less than is paid in similar positions in other City Departments.

Yours respectfully,

JAMES H. TULLY, Commissioner.

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOARD OF ALDERMEN,
CITY HALL, NEW YORK, March 10, 1905.

To the Board of Estimate and Apportionment:

GENTLEMEN—Your Committee, to whom was referred on January 13 the recommendations made by the Hon. James H. Tully, Commissioner of the Department of Charities, relative to the establishment or change of compensation for services in certain positions in the Department of Charities, begs leave to report that the salaries of the following positions be changed as follows:

Private Secretary, from \$2,036 to.....	\$2,250 00
Auditor, from \$3,000 to	3,300 00

—and that new grades of salaries be established for the following positions:

Investigator	\$1,800 00
Driver	900 00
Registrar	600 00
Draughtsman	1,350 00
Matron	600 00
Clerk	2,250 00
Superintendent of Asylums and Schools.....	2,550 00

Your Committee made a report on the above matter to this Board on February 24, 1905, and subsequently recalled it for revision. The only change in the report made February 24 is in regard to the salary of Investigator, which, upon further inquiry, is recommended at \$1,800 instead of \$1,500.

All of which is respectfully submitted.

C. V. FORNES,

Sub-committee, Board of Estimate and Apportionment.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salaries of the positions under the jurisdiction of the Commissioner of Public Charities be fixed as follows:

	Per Annum.
Private Secretary	\$2,250 00
Auditor	3,300 00
Investigator	1,800 00
Driver	900 00
Registrar	600 00
Draughtsman	1,350 00
Matron	600 00
Clerk	2,250 00
Superintendent of Asylums and Schools.....	2,550 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented the following communications from the Brooklyn League, the Title Guarantee and Trust Company and from the Auditor of Accounts, Investigations Divisions, Department of Finance, relative to the request for placing typewriting machines in the office of the Register of Kings County.

A hearing was had in the matter, and Mr. John B. Creighton, Secretary of the Brooklyn League, appeared in support of the proposition.

The Board determined that the request should come from the Register.

THE BROOKLYN LEAGUE,
TEMPLE BAR, NO. 44 COURT STREET,
BROOKLYN, N. Y., April 21, 1905.

Hon. J. W. STEVENSON, Deputy Comptroller, Stewart Building, Manhattan:

DEAR SIR—On behalf of the Brooklyn League I desire to acknowledge with thanks the receipt of your letter of April 20, informing us that the Board of Estimate and Apportionment will give a hearing on April 28, 1905, at 10.30 A. M.

The Brooklyn League desires to be heard at this hearing in support of the proposition to place typewriters in the offices of public record in Kings County.

Since our petition to the Board of Estimate regarding this matter I have ascertained that the expense for installing the typewriters in this county would be about \$8,000. Upon investigation I find that the machines used in New York County have proved entirely satisfactory and have resulted in a great saving in the expense of labor for that office. Furthermore the work of recording is kept up to date. I can add that over 300 members of the Brooklyn League have expressed themselves in writing as favorable to the introduction of typewriters in Kings County.

Yours very truly,

JOHN B. CREIGHTON, Secretary.

THE BROOKLYN LEAGUE,
TEMPLE BAR, NO. 44 COURT STREET,
BROOKLYN, N. Y., February 10, 1905.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—The Brooklyn League respectfully requests the Board of Estimate and Apportionment of The City of New York to inquire into the advisability of introducing typewriters into the offices of the Register and County Clerk and Commissioner of Records in the County of Kings.

We would call your attention to the fact that over three hundred members of this organization have expressed themselves in writing as favorable to this change for the following reasons:

1. The typewritten records are more speedily made, thus relieving the congestion in the offices of public record and bringing the records up to date, whereas they are now six months behind in the office of the register.
2. The typewritten records are more legible and require only one-third the vault space of hand writing.
3. The typewritten records in over 2,000 counties of the United States have proved without exception highly satisfactory, and not one of them would consider changing to the old system of penmanship. From actual observation covering a period of

seven years in many offices of public record in the State of New York, we are convinced that the typewritten record is as permanent as any made by ink and vastly more economical.

Respectfully,

JOHN B. CREIGHTON, Secretary.

TITLE GUARANTEE AND TRUST COMPANY,
NO. 175 REMSEN STREET,
BROOKLYN, March 6, 1905.

Hon. EDWARD M. GROUT, Comptroller of The City of New York, and Member of the Board of Estimate:

MY DEAR SIR—My purpose in writing you is to call the attention of your Honorable Board to the condition in the Register's Office of Kings County. The conditions existing there seem to be beyond the control of the Register, the work having increased without an opportunity to increase the force. The result is dangerous to the real estate interests of this Borough, which real estate interests are bearing the burden of taxation. It would seem as if the administration of the government should provide means of recording papers so that they should not be left in the number in which they are now, unrecorded in the hands of the Register, subject to inspection by those inquiring, which makes the entire real estate interests subject to additional risks which they should not be expected to assume.

I therefore petition your body to immediately arrange for an additional appropriation for the copying of papers in the Register's Office of Kings County, in order that papers may be returned within thirty days and not within seven months, which is the present time taken to record any instrument in that office. I would suggest at the same time that as far as it is within your power, the methods adopted in the Register's Office in New York County be applied in this County. I refer to type-writing instead of handwriting as being the improved system of copying.

Respectfully submitted,

FRANK BAILEY, Vice-President.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
March 20, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—In the matter of the communication of the Brooklyn League, under date of February 10, 1905, addressed to the Honorable the Board of Estimate and Apportionment of The City of New York, and the communication of the Title Guarantee and Trust Company, under date of March 6, 1905, addressed to Hon. Edward M. GROUT, Comptroller, relative to the introduction of typewriters in the offices of the Register, County Clerk and Commissioners of Records, in the County of Kings, I beg to report as follows:

In the said communications of the Brooklyn League and Title Guarantee and Trust Company particular attention is called to the congestion of work in the office of the Register of the County of Kings and the consequent delay in the returning of instruments placed with the Register for record. I have therefore given particular attention to the office of the Register of the County of Kings.

It appears that the office of the Register of the County of Kings was created by chapter 83 of the Laws of 1852, entitled "An act to provide for a register of deeds in and for the County of Kings," and that subsequently, in the year 1901, the office of said Register was made a salaried office by the provisions of chapter 706 of the Laws of 1901, entitled "An act to make the office of Register of the County of Kings a salaried office and regulating the management of said office." Said act provided for the compensation of Deputies, Clerks and Copyists. Section 2 of said act provided in part as follows:

"The Register may also appoint as many Copyists and Recording Clerks as in his judgment may be necessary for the proper conduct of his office. * * * Each Recording Clerk and Copyist shall receive as his full compensation therefor five cents for each folio recorded or copies made by him, pursuant to the direction or authority of said Register."

Said section 2 of chapter 706 of the Laws of 1901, was amended by chapter 699 of the Laws of 1904, the amendment providing as before for the compensation of the Deputies and the several Clerks, but eliminating from the Law of 1901 that portion which referred to the appointment of as many Copyists and Recording Clerks as, in the judgment of the Register, was necessary for the proper conduct of the office, and also eliminating that provision relating to the compensation per folio for the copies made, and substituting in its place the following:

"All Copyists or Recording Clerks of current records now appointed or hereafter to be appointed, but not to exceed thirty-five, twelve hundred dollars each."

Under this amendment, therefore, providing a monthly compensation instead of compensation per folio for Copyists and Recording Clerks, a limit is placed upon the Register in the appointment of said Copyists and Recording Clerks to the maximum number of thirty-five.

A bill is now before the Legislature for increase of the force of Copyists in the office of the Register of the County of Kings to the number of fifty. Mr. Patrick H. Quinn, Deputy Register of the County of Kings, stated to a representative of this Department that there has been a natural increase of business in the office of the Kings County Register; that there were delivered to said Register in the year 1903 51,886 deeds, mortgages and other papers for record, and in the year 1904 a total of 73,589, showing an increase for the year 1904 over that of 1903 of 41 per cent. plus.

In making comparisons for the month of January for several years Mr. Quinn's figures show that the papers filed during the months of January in the years 1903, 1904 and 1905 are as follows:

January, 1903	3,806
January, 1904	4,856
January, 1905	6,098

—showing a marked increase in volume of business for this month in the several years.

In the course of this investigation considerable criticism has been expressed as to the conduct of the Kings County Register's office, with reference to the delay experienced in securing the return of instruments placed with the Register for record; that in many cases six months or longer is required to make the necessary record and return of the instruments. This fact is not only substantiated by facts ascertained by a representative of the Finance Department, but admitted in the statements made at the office of the Register.

Not only is it claimed that this delay is a serious inconvenience to parties in interest, particularly in the searchings of title, etc., but that the retention of the instruments unrecorded, or rather uncopied, for such a period of time is of serious danger to the preservation of the records, for in the examinations necessary to be made of the various instruments in the searching of title, etc., opportunity is given for the alteration, mutilation or loss of said instruments before copy is made in the books of the office, it being of course impossible for the Register's office to detail a Clerk of the office to watch each paper as submitted for examination.

The delay in returning instruments left for record seems to have been coincident with, if not caused by, the change in the manner of payment of the Copyists and Recording Clerks, and to have increased rather than diminished under the salaried system of compensation, while in the County of New York, where Copyists and Recording Clerks are paid per folio, papers are returned within one month. In this connection, however, it is proper to state that the copying of the records in the office of the Register of the County of New York is done by the use of book typewriters, and, while it is reasonable to suppose that a greater volume of work may be accomplished under the folio rate of compensation, consideration should also be given to the fact that the use of book typewriters tends to greater rapidity and consequently to a larger volume of work accomplished.

In the course of the inquiry made in relation to the office work of the Register of the County of New York it was learned from Mr. Henry H. Sherman, Deputy Register, that in the introduction of the use of typewriters in the said Register's office it was the office experience that the Copyists and Recording Clerks acquired within a short time such proficiency in the use of the book typewriters that they were able to perform double the volume of work formerly accomplished by the use of the pen, and not only was the efficiency of the office increased, but the records are more legible and consume less space on the record books.

It appears that the book typewriters were introduced in the offices of the Register and County Clerk of the County of New York during the year 1898. Said book typewriters, the necessary furniture, etc., were furnished by the Elliott & Hatch Book Typewriter Company, whose bill for the same became the subject of considerable correspondence, as is shown by B. Voucher No. 528 of 1902, and said bill for amount \$21,144 became the subject of legislation and, under an act known as chapter 138 of the Laws of 1901, the Board of Estimate and Apportionment, under date of July 8, 1902, adopted a resolution allowing as a charge against The City of New York the said sum of \$21,144 in settlement of the claim of the Elliott & Hatch Book Typewriter Company, and authorizing the Comptroller to pay same, after proper audit by the Auditor of the Department of Finance, out of the proceeds of the sale of Revenue Bonds authorized to be issued under subdivision 7 of section 188 of the Greater New York Charter.

The use of typewriters in public offices is permitted under the provisions of chapter 166 of the Laws of 1894, entitled "An act relative to the recording of the public records, papers or documents or matter required by law to be recorded by public officers." Section 1 of said act reads as follows:

"Section 1. The public officers of this State, or any municipal corporation therein having charge of the recording of public records, papers, documents or matters now required by law to be recorded in their respective offices, are hereby authorized and empowered to use typewriting machines for recording the same."

From the investigation made it would appear that serious inconvenience is caused by the great delay in return of deeds and mortgages, a period of time extending to six months seeming necessary for the retention of said instruments in the office of the Register of the County of Kings, and also that there does not appear to be such a period of delay existing in the office of the Register of the County of New York. It does appear that the business of the office of the Register of the County of New York is expedited by the use of book typewriting machines and that the method of copying records by the use of typewriters is superior to that of pen copying.

The Brooklyn League, in the said communication, requests the Board of Estimate and Apportionment to inquire into the advisability of introducing typewriters in the offices of the Register, County Clerk and Commissioner of Records in the County of Kings. Section 6 of chapter 706 of the Laws of 1901, provides for the conduct of the office as follows:

"The Register of the County of Kings shall have the power to appoint and at will remove all Deputies, Clerks and other employees or Assistants in his office, subject to the provisions of the Civil Service Law, and shall prescribe and regulate their respective duties and, in his discretion, require of each of said subordinates a bond and determine the amount thereof."

Mr. Matthew E. Dooley, Register of the County of Kings, stated to a representative of this Department that the subject of the introduction of typewriters for the purpose of copying the records in the office of the Register had been under consideration for some time and that it was his present purpose to install a few of such typewriters, and if found available, to proceed as rapidly as possible to make this change in the method of copying records.

It is also stated by Mr. Dooley that he exacts from the Copyists and Recording Clerks an amount of work which would be equal to the amount accomplished if paid \$100 per month at the folio rate of compensation.

It is a question whether the Board of Estimate and Apportionment has a right to do more than recommend any change in the present management of the office of the Register of the County of Kings; that if there is to be a substitution of typewriting machines for hand work, the request should properly come from the Register, in which event the Board of Estimate and Apportionment could provide for the expense of installing in the office typewriters and necessary furniture, under section 5, chapter 706 of the Laws of 1901, which provides as follows:

"On and after the 1st day of January, in the year 1902, the expenses of conducting the office of the Register of the County of Kings shall be a charge upon the said City of New York and the said expenses shall be deemed a City and County expense."

In the event of the Register of the County of Kings asking for typewriting machines, it would seem, as a result of this investigation, that such request should be granted.

Respectfully,

CHARLES S. HERVEY,
Auditor of Accounts, Investigations Division.

The Secretary presented a communication from the Hon. Francis M. Scott, of the Supreme Court, relative to the construction of a new court-house, and stating that if the Board of Estimate would now reject the former report of the Commissioners they would be in a position to go ahead with the selection of a site.

The Secretary was directed to return the two reports previously made to the Court-house Commission.

SUPREME COURT—JUDGES' CHAMBERS,
COURT HOUSE, CHAMBERS STREET,
NEW YORK, April 4, 1905.

MY DEAR MR. MAYOR—We are informed that the Governor has signed the bill amending the act for the construction of a new court-house.

If the Board of Estimate and Apportionment would now reject the former report of the Commissioners they would be in a position to go ahead with the selection of a site.

Yours truly,

FRANCIS M. SCOTT.

The Secretary presented the following communication from the Commissioner of Water Supply, Gas and Electricity, also reports from the Engineer of the Department of Finance, relative to a form of agreement of the Hudson County Water Company for furnishing a pure and wholesome supply of water to the Borough of Richmond:

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,
COMMISSIONER'S OFFICE, NOS. 13 TO 21 PARK ROW,
CITY OF NEW YORK, April 11, 1905.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment, No. 280 Broadway, Manhattan:

DEAR SIR—The proposed form of agreement, being the final and binding proposition of the Hudson County Water Company for the furnishing of pure and wholesome water to the Borough of Richmond, modified to comply with the suggestions contained in reports by Chief Engineer E. E. McLean, dated December 10, 1904, and February 6, 1905, addressed to Hon. Edward M. Grout, is submitted herewith for the favorable action of your Honorable Board, in compliance with the resolution of July 22, 1904, on motion of the Comptroller, that I be requested to forward to the Board "a definite and binding proposition from this water company as a preliminary to the consideration of the appropriation" applied for in my letter of July 20, 1904.

A copy of this proposition has been transmitted to his Honor the Mayor, and the Comptroller, as provided by chapter 466, section 471 of the Laws of 1901. The prices and terms of said agreement are conditioned on the prompt acceptance of the contract by the City.

Very truly yours,

JNO. T. OAKLEY, Commissioner.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,
COMMISSIONER'S OFFICE, NOS. 13 TO 21 PARK ROW,
CITY OF NEW YORK, April 19, 1905.

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment, No. 280 Broadway, City:

DEAR SIR—Will you please substitute the inclosed form of agreement between The City of New York and the Hudson County Water Company, in place of the one transmitted by letter from this Department under date of April 11.

Section 2 of the agreement is the only amendment to the original, and the change made was suggested by Engineer E. E. McLean, of the Department of Finance.

Yours respectfully,

FRANK J. GOODWIN, Deputy and Acting Commissioner.

Agreement made this _____ day of _____, 1905, by and between The City of New York, a municipal corporation of the State of New York, by John T.

Oakley, Commissioner of Water Supply, Gas and Electricity of said corporation, hereinafter called The City of New York (as authorized by chapter 466 of the Laws of 1901), party of the first part, and the Hudson County Water Company, a corporation of the State of New Jersey, hereinafter called the Water Company, party of the second part:

Whereas, The said Water Company is duly incorporated under and pursuant to the provisions of the law of the State of New Jersey, and controls an abundant supply of pure and wholesome water; and

Whereas, The said Commissioner of Water Supply, Gas and Electricity has duly examined into the sources of water supply of the said Water Company and has determined that the same is wholesome and adequate for furnishing the quantity of pure and wholesome water to The City of New York for the uses and purposes of the Borough of Richmond and its inhabitants, which the Water Company hereinafter agrees to furnish; and

Whereas, The Commissioner of Water Supply, Gas and Electricity of The City of New York has agreed with the said party of the second part as to the terms and conditions upon which the said party of the second part will supply water for the purposes aforesaid; and

Whereas, The proposed contract, in all its details, was submitted to the Board of Estimate and Apportionment of the party of the first part, which assented to and approved of the execution of the said contract as submitted, by resolution adopted _____, 1905; and

Whereas, The proposed contract in all its details was submitted to the Mayor and the Comptroller of The City of New York, and the separate written consent and approval of both was obtained respectively on the _____ day of _____, 1905, and on the _____ day of _____, 1905, to the execution of said contract as submitted;

Now therefore this agreement witnesseth:

That in consideration of the mutual covenants herein contained, and of the expenditures to be made by the Water Company for construction for the purpose of this contract, it is mutually agreed by and between the parties hereto, as follows:

I. That the said Water Company shall, within one year after the execution and delivery of this contract, lay two water mains, not less than 30 inches in diameter each, to connect its water mains in the City of Bayonne, N. J., with the water mains of The City of New York, at the intersection of Richmond terrace and Van street, West New Brighton, in the Borough of Richmond, in The City of New York, or at such other convenient point or points as may hereafter be mutually agreed upon in writing between The City of New York and the Water Company.

II. The Water Company shall forthwith, upon the completion of such connections, furnish and supply through such connections from its water mains, to and into the water mains of The City of New York, an adequate supply of pure and wholesome filtered water for all the purposes for which the said City of New York may lawfully use, sell or supply water in said Borough of Richmond, as may be required by The City of New York; and thereafter while this contract shall remain in force, the said Water Company shall continue so to furnish such an adequate and ample supply of pure and wholesome filtered water to The City of New York, at a pressure at the above-mentioned point of connection of 60 pounds to the square inch.

III. The City of New York agrees, within one year from the date of the execution and delivery of this contract, to construct and install in the said Borough of Richmond an adequate system of piping, pumping and reservoirs for the distribution of said water; and The City of New York also agrees to purchase and accept from the Water Company, and to take, from the beginning of the delivery of water under this agreement, a minimum quantity of three million gallons per day, and in addition thereto such further quantity as shall be necessary from time to time at the following rates, namely:

For the first four million gallons purchased each day, \$70 per million gallons.

For the fifth million gallons purchased each day, \$65.

For the sixth million gallons purchased each day, \$60.

For the seventh million gallons purchased each day, and for all thereafter, \$55 per million gallons.

Payments are to be made monthly, within thirty days after the voucher for the same is presented to the Comptroller, for the quantity of water furnished during each next preceding month, according to meter register; and in the event that the average daily consumption during any month shall not equal the agreed minimum quantity of three million gallons per day, The City of New York shall pay, as an alternative fixed and agreed price for the amount of the water actually taken during the said month, the sum of \$210 per day.

IV. The Water Company is to carefully measure all water delivered under this contract by meters set for that purpose at the point or points of connection with The City of New York's distributing system, and The City of New York, by its proper officials of its Department of Water Supply, Gas and Electricity, shall at all times have reasonable opportunity to inspect, examine and test the meters and appliances for measurement, and if the same be found to register incorrectly the proper adjustment of the bills for water is to be made, by arbitration if necessary, one arbitrator to be named by The City of New York, one by the water company, and a third to be selected by those two, and the decision of the majority to be binding upon both parties, and the expense of such test and arbitration to be divided equally between the Water Company and The City of New York; the adjustment of the bills so to continue until the meter has either been repaired or a new one substituted that shall work satisfactorily.

V. The Comptroller of The City of New York shall retain out of the amounts first due to the Water Company 50 per cent. thereof each month until the sum of fifty thousand dollars (\$50,000) is held in his hands, to indemnify The City of New York against loss by reason of the failure of the Water Company to supply water under this agreement. Such sum may be invested by the Water Company in securities, to be deposited with and satisfactory to the Comptroller; or, in lieu of this provision, the Water Company may deposit with the Comptroller a satisfactory bond of a surety company for the same purpose and in the same amount. In case of the continued failure of the Water Company to supply a sufficient quantity of water at the agreed pressure, and of a pure and wholesome quality, The City of New York reserves the right, if such defect shall not be remedied after proper notice in writing and reasonable opportunity afforded the Water Company to correct the same, to cancel this agreement.

VI. The Water Company agrees to complete the work and begin the delivery of water hereunder within one year from the date of this contract, as hereinabove provided, unless prevented or delayed by reason of strikes, accidents, litigation or other cause unavoidable or beyond the control of the Water Company, and any time lost by such delays shall not be computed within the said year, but shall be added thereto; and the obligation of The City of New York to complete its system for the reception and distribution of the said water within one year shall be subject to the same exception.

VII. This contract shall continue in force for a period of ten years from the date of the first delivery of water hereunder, with the privilege to The City of New York to renew the same for a second period of ten years, upon the same terms and conditions, by giving to the Water Company one year's notice in writing of its intention so to renew; and the provisions thereof shall be binding upon and apply to the successors and assigns of the parties hereto.

In witness whereof the parties hereto have caused their names to be signed to these presents, by their duly authorized officers, and their corporate seals to be hereunto affixed, the day and year first above written.

THE CITY OF NEW YORK,

By _____,
Commissioner of Water Supply, Gas and Electricity.

HUDSON COUNTY WATER COMPANY,

By _____, President.

Attest:

_____, Secretary.

I, George B. McClellan, Mayor of The City of New York, do, pursuant to section 471 of the Charter of the said City, hereby consent to and approve of the foregoing proposed contract, in all its details.

MAYOR OF THE CITY OF NEW YORK.

I, Edward M. Grout, Comptroller of The City of New York, do, pursuant to section 471 of the Charter of the said City, hereby consent to and approve of the foregoing proposed contract, in all its details.

COMPTROLLER OF THE CITY OF NEW YORK.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
April 18, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon John T. Oakley, Commissioner, Department of Water Supply, Gas and Electricity, in communication under date of April 11, 1905, pursuant to the provisions of chapter 466, section 471 of the Laws of 1901, transmits a form of agreement of the Hudson County Water Company, for the furnishing of a pure and wholesome supply of water to the Borough of Richmond. I would report:

The form of agreement follows the suggestions and recommendations noted in my reports of December 10, 1904, and February 6, 1905, with the following exception, in relation to the rates to be charged:

The agreement, lines two to seven on page four reads:

"For the first four million gallons purchased each day, \$70 per million gallons.

"For the fifth million gallons purchased each day, \$65.

"For the sixth million gallons purchased each day, \$60.

"For the seventh million gallons purchased each day, and all thereafter, \$55."

This follows my schedule except that I added the note:

"When the consumption reaches seven million gallons daily all water shall be furnished at the uniform price of \$55 per million gallons."

The agreement proposes that the first seven million gallons shall be paid for at the sliding scale of prices and all thereafter at \$55 per million gallons.

The rates proposed will average:

	Per Million Gallons.
For the first four million.....	\$70 00
For five million gallons.....	69 00
For six million gallons.....	67 50
For seven million gallons.....	65 71
For eight million gallons.....	64 37
For nine million gallons.....	63 33
For ten million gallons.....	62 50
For eleven million gallons.....	61 81
For twelve million gallons.....	61 25

For comparison, I give memoranda of the prices paid for water by The City of New York in other localities:

New York Water Company, The Bronx, \$90 per million gallons and \$45 per million gallons for pumping City water.

Board of Water Commissioners, City of Yonkers, 13 cents per 100 cubic feet or \$173.79 per million gallons.

*Queens Water Supply Company, Brooklyn, \$30 per million gallons.

Citizen's Water Supply Company, Queens, \$65 per million gallons.

Bowery Bay Building and Improvement Company, \$65 per million gallons.

*Note—The charge of \$30 per million gallons made by the Queens Water Supply Company, is only for pumping water into the City's conduit at Valley Stream, Long Island.

It will be noted that the rates proposed by the Hudson County Water Company compare favorably with the prices paid by the City in other localities, and it should also be considered that the water to be supplied by the Hudson County Water Company is to be filtered water, which is not the case with water supplied by the other companies.

In relation to the advisability of making a contract for ten years with the Hudson County Water Company, for the supply of water for the Borough of Richmond, it is positively stated in all the reports upon the question of additional water supply for Staten Island that the island is greatly in need of additional and a better water supply.

Mr. N. S. Hill, Jr., former Chief Engineer of the Department of Water Supply, Gas and Electricity, in report dated July 28, 1903 (see report printed in minutes of Board of Estimate and Apportionment, page 1573, minutes of 1903), states:

"The water now supplied by the Staten Island Water Supply Company contains a high percentage of chlorine, which tends to show that the limit of the capacity of their wells has been reached, and the water is hard, impotable and unfit for boiler purposes or washing."

I am heartily in favor of the municipal ownership of the water supply for the Borough of Richmond, but with the City's present water supply there is not a sufficient supply to provide for this borough, but since the needs of the island are urgent and should be provided for in the near future, I think the best solution of the problem is to accept the offer of the Hudson County Water Company to supply, or rather deliver filtered water to the island for a term of ten (10) years; the City laying and owning the distributing pipes. As the City will ultimately furnish the water to this borough, it is proper that it should own the distributing system. It is further possible for the City to lay out a distribution system to meet the immediate demands for potable water for the period of ten (10) years, and coincidentally lay the foundation for a reticulation system which will be useful and available when the City is in a position to convey water to Richmond.

Considering it for the best interest of the Borough of Richmond that a contract should be made for a term of ten (10) years with the Hudson County Water Company to deliver filtered water to the island, with a few minor changes which I have noted in the agreement, all of which have been accepted by the representative of the Hudson County Water Company, I would recommend that the terms and conditions in the form of agreement, submitted by the Commissioner of Water Supply, Gas and Electricity under date of April 11, 1905, be accepted, subject to the approval as to form by the Corporation Counsel.

Respectfully,
EUG. E. McLEAN, Engineer.

April 20, 1905.

P. S.—The minor changes referred to in above report have been incorporated in form of agreement submitted to the Board of Estimate and Apportionment by the Deputy and Acting Commissioner of Water Supply, Gas and Electricity, under date of April 19, 1905.

Respectfully,
EUG. E. McLEAN, Engineer.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,
COMMISSIONER'S OFFICE, NOS. 13 TO 21 PARK ROW,
CITY OF NEW YORK, January 14, 1905.

Hon. EDWARD M. GROUT, Comptroller:

DEAR SIR—Since writing you on January 6, relative to a proposed contract for a supply of water for the Borough of Richmond, and suggesting a conference between yourself, a representative of the Richmond Water Company and myself, I have received a further proposition from that concern, a copy of which is herewith inclosed for your information.

From the information which I have at hand, I am disposed to regard this proposal as one which might be advantageously accepted by the City. I would, however, be very glad to have your views on the subject for my guidance in the premises.

Respectfully,
JNO. T. OAKLEY, Commissioner.

RICHMOND WATER COMPANY,
No. 26 BROADWAY, ROOM 304, STANDARD OIL BUILDING,
NEW YORK, January 10, 1905.

Hon. JOHN T. OAKLEY, Commissioner of Water Supply, Gas and Electricity, Park Row Building, New York:

DEAR SIR—Referring to our discussion relating to the report of Major McLean on the water supply for Staten Island, I have conferred with my people, and am authorized to say that our company is prepared to furnish a full and complete supply of pure and wholesome water, from the Little Falls Works, under a contract with The City of New York for a period of ten years (with the privilege to the City of renewal for a second period of ten years), the City to agree to take a minimum supply of five million (5,000,000) gallons per day, and delivery to begin within one year from the date of contract, at \$75 per 1,000,000 gallons for the first 5,000,000 gallons each day, and \$65

per 1,000,000 gallons for all additional water used each day. The prices now being paid us by the City of Bayonne, opposite Staten Island, are:

For the first 1,000,000 gallons each day.....	\$89 00
For the second 1,000,000 gallons each day.....	89 00
For the third 1,000,000 gallons each day.....	80 00
For the fourth 1,000,000 gallons each day.....	70 00

—or an average of \$81 per million gallons for four million gallons, and \$77.60 on a delivery of five million gallons daily.

When you consider the character of our supply, the long distance of transportation and the necessity of crossing the Kill von Kull and other navigable streams, I think you will agree with me that the market price for this water, as shown by the price paid by the City of Bayonne for about an equal quantity, is reasonable and equitable; and that it is not to be compared, in arriving at the price of the water, with the prices now paid by the City for hard water pumped from wells and delivered in the districts immediately adjacent to the pumping plant, where I understand you are paying \$65 per million gallons.

This proposal is made for immediate acceptance by the City; and if so accepted, we will endeavor to conform with the other requirements suggested in Major McLean's report, except that in lieu of our contract being guaranteed by the East Jersey Water Company, we would propose to furnish you an acceptable surety company bond.

Yours very truly,

RICHMOND WATER COMPANY,
By T. M. BEALL, President.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
February 6, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. John T. Oakley, Commissioner of the Department of Water Supply, Gas and Electricity, in communication under date of January 24, 1905, incloses a copy of a communication received from Mr. T. A. Beall, representing the Richmond Water Company, under date of January 14, 1905, together with a form of agreement submitted by him, all of which, the Commissioner says, were forwarded to you "for your information."

The offer of the Richmond Water Company is made in the form of an agreement. In my report to the Comptroller, under date of December 10, 1904, I presented very fully the points in the proposed agreement presented by Commissioner Oakley in his communication of November 10, 1904. In this report I stated "that the daily consumption of water on January 20, 1903, was about six million gallons, divided as follows:

	Per Day. Gallons
"Staten Island Water Supply Company.....	4,436,000
"Crystal Water Company.....	1,126,224
"South Shore Water Company.....	100,000
"City plant at Tottenville.....	100,000
"Total.....	5,762,224

"And it is probable that at the present time this has increased to six and one-half millions."

To the form of agreement submitted January 20, 1905, I can see no objection to any portion up to and including Article I.

I would note that the name of the contracting company is changed from the "Richmond Water Company" to the "Hudson County Water Company" by certificate filed with the Secretary of the State of New Jersey, dated December 12, 1904.

Article II. I see no reason for stating or referring to the use of water delivered by the City mains. The company will have no control over the manner of using water distributed by the City, but it should be stated that the water delivered into the City mains is to be pure and wholesome filtered water, to be delivered at a pressure at the above mentioned point or points of connections of 60 pounds to the square inch. The words "at high-water level" should be stricken out.

Article III. "The City also agrees to purchase and accept from the Water Company all water necessary for a complete and adequate supply for the said purposes (except water from the City's present plant at Tottenville)."

The guarantee by the City that it will take a minimum quantity of water a day and pay for same is sufficient to protect the company from any loss, therefore, I strongly advise against any such agreement that this company will supply any water except from the City's present well plant at Tottenville.

The minimum quantity of daily supply is put down at five million gallons, and I am still of the same opinion, as expressed in my former report, "that the minimum amount which the City shall agree to take from the company shall not be over three million per day."

The rates proposed are:
For the first five million gallons purchased each day, \$75 per million gallons.
For each additional million gallons purchased each day, or any part thereof, \$65 per million gallons.

I see no reason for changing my views expressed in my former report, namely, that the price for the first four million gallons daily should not exceed \$70 per million, and that the sliding scale should make the minimum \$55 per million gallons, making the amount to be paid daily \$210, in the event that the average daily consumption during any month shall not equal the agreed minimum quantity of three million gallons per day.

Article IV. In relation to increasing the supply to twenty million gallons per day, the last clause, "an additional quantity of water daily equal to 60 per cent. of the additional supply so provided," should be omitted.

I see no objections to Articles V., VI., VII. and VIII.

In conclusion I would state that I have carefully examined all the papers submitted by Commissioner Oakley, and I think that my former report, dated December 10, 1904, expressed my views in general; my views are still the same in relation to the recommendation as to the price to be paid per million gallons and the minimum quantity of supply of water.

Respectfully,
EUG. E. McLEAN, Engineer.

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF RICHMOND,
NEW BRIGHTON, N. Y., September 22, 1904.

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment, No. 280 Broadway, New York City:

DEAR SIR—At the last meeting of the Board of Estimate and Apportionment the question of an appropriation for the greatly needed new water supply system for the Borough of Richmond was laid over to a future day, when the representatives of the private water companies on the island could be heard. At their request, notice of such hearing was to be sent them.

As this question of water supply for Staten Island is of equal, if not greater, importance than the ferry question, I ask that the day for the hearing in this matter be made the earliest possible, and suggest one week from to-morrow, to wit, September 30.

In addition to the representatives of the private water companies interested, a number of prominent citizens of this borough would like to be heard. I accordingly suggest that the Secretary of the Board give due notice of the hearing to the representatives of the private water companies. When the date of the hearing is fixed, I will see to it that public notice is given to other interests as may wish to be heard.

Respectfully yours,
GEORGE CROMWELL, President of the Borough.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
March 29, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Hon. George Cromwell, President, Borough of Richmond, in communication to the Board of Estimate and Apportionment October 21, 1903, states that

"for a number of years past the state of the public water supply in the Borough of Richmond has caused a great deal of uneasiness among those who have given to it the attention that the subject requires."

After naming various consultations with different parties, the President presents his conclusions as follows:

"I have since then had many further consultations with the Commissioner of Water Supply, Gas and Electricity as well as with Mr. Hill, Chief Engineer. I have also taken up the matter with Mr. Louis L. Tribus, Commissioner of Public Works of the Borough of Richmond, an engineering specialist in water questions, who, being particularly interested in the borough, has for many years given attention to its water supply, and has reported to me under date of September 3, 1903. (Copy hereto attached, marked C.)

"I have also carefully investigated the suggestions made by a number of residents of the island who have given much thought to the subject of Staten Island's water supply, and who have felt that it might be possible to secure from underground sources a considerable flow of good water. These sources have not yet been developed and, according to the opinion of many experts, are not likely to be found. At best, an investigation looking to the discovery of such possible sources would involve the expenditure of a large sum of money, and even if discovered, the cost of pumping to the higher elevations would be so great as to make such a supply, even if abundant, more costly in the long run than the gravity supply considered in this report.

"As a result of this consideration, I have reached the following conclusions:

"First—That the water supplied on Staten Island by private companies is for the larger part inferior in quality, and that neither the watersheds owned or controlled by said companies or any other watersheds or water-bearing lands on Staten Island are capable of such development as will insure to the inhabitants of the Borough of Richmond a permanent potable supply.

"Second—That while the acquisition of the plants of these private companies may, at proper prices, be desirable, such acquisition can only be valuable to supplement the main supply to be secured from outside sources.

"Third—That the distribution systems at present installed on the island are insufficient and the service districts improperly laid out, resulting in excessive pressure in some quarters and almost complete lack in others.

"Fourth—That the nearest available source of suitable supply is in the State of New Jersey, and that potable filtered water of good quality can be secured therefrom at a price which will permit the delivery through a distribution system owned by the City, at Manhattan rates, without loss.

"Fifth—That the City should immediately authorize the construction of a general trunk line distribution system, providing three service districts on the general plan, as laid out on a map prepared by the Chief Engineer of the Water Department and submitted to the Board of Estimate and Apportionment, the estimated cost being \$1,500,000.

"Sixth—That the City commence negotiations with the New York and New Jersey Water Company for the purchase of water in bulk, to be delivered at the City line, between the City of Bayonne and the Borough of Richmond, as soon as mains are ready to receive it.

"Seventh—That the Commissioner of Water Supply, Gas and Electricity be requested to report on the advantages and feasibility of acquiring the plants and rights of the present private water companies operating in the borough.

"The Commission on Additional Water Supply, Messrs. Burr, Hering and Freeman, makes the following brief report on the subject under date of September 17, 1903:

"The Borough of Richmond has no adequate supply available within its own limits, and its needs are also urgent. The increased supply for this borough may in time be taken from the water supply of Brooklyn, when increased by the additional supply to be secured from the north. We approve of the measures now being taken to secure in the meantime the needed water from the nearest available supply on the mainland of New Jersey.

"I recommend that the City should lay out its own distribution system and purchase the water in bulk on terms suggested rather than grant a franchise to any new water company. I take this position because I believe that the sentiment of the entire community is strongly in favor of the ownership by the City of its own water system, and in the event that at some time in the future an additional supply is brought to Greater New York from a distance which can be made available for Richmond Borough, the distribution mains asked for at this time will already be owned by the City. I would report therefore in favor of granting the desired appropriation."

The water now supplied being "inferior in quality, and neither the water sheds owned or controlled by said companies, or any other watersheds or water bearing lands on Staten Island being capable of such development as will insure to the inhabitants of the Borough of Richmond a permanent potable supply,"

—it becomes necessary to take measures for the introduction from other sources of good water, the health of the borough depending very largely on such new supply.

There are only two sources from which such new supply can be furnished, viz., from the Croton water supply, by pipes laid under the Narrows, and by purchase from the New Jersey Water Company by submerged pipes under the Kill von Kull.

The demand on the Croton water supply of the City approaching nearly its limit, it is not considered prudent to provide for the Borough of Richmond from that source; it is therefore thought that the new supply should be purchased from the New Jersey Water Company, to be delivered in bulk on the City line at a pressure of 60 pounds.

The scheme as proposed is fully and distinctly set forth in the communication of Mr. N. S. Hill, Jr., Chief Engineer of Department of Water Supply, Gas and Electricity, July 28, 1903, from which I quote as follows:

"The general scheme as proposed is to connect with submerged pipe lines laid by the New York and New Jersey Water Company at a point on the Kill von Kull midway between Port Richmond and West New Brighton, as shown on the maps appended hereto. The New York and New Jersey Water Company can supply, according to their statements, seven million gallons of filtered water per day, at a pressure of sixty pounds, or sufficient to supply the present needs of Staten Island, without consideration of the future extension of their filter system. It is estimated that the demands of the island will require twelve million gallons in 1913. It will be necessary therefore for this company to subsequently add to their filtration plant.

"The plans contemplate dividing the borough into three service districts. These three districts cover ninety-nine per cent. of the area of the island, leaving a very small part above grade 360 unprovided for. This section has at present no population.

"The three districts are designated as low, middle and high service. The low service area includes everything below grade 70—85 A. M. T. This district comprises approximately 40.46 square miles, being 70.1 per cent. of the area of the borough, and containing 78.7 per cent. of the population. From this it is seen that the supply for the major portion of the island will be obtained by gravity.

"The middle service district includes the area between elevations 70—85 and 220 A. M. T.; comprises 14.11 square miles, being 24.5 per cent. of the total area of the borough, and contains 19.5 per cent. of the population. It is proposed to subdivide this district into two parts. The northernmost area will be supplied from a pumping station located at a convenient point on the low service distribution system. The water will be pumped to either a reservoir or standpipe located at proper elevation to furnish adequate pressure.

"The southern middle service district will be supplied from the present Tottenville pumping station, thus doing away with long force mains and the concomitant frictional losses, and at the same time utilizing the plant now owned by the City. It will be necessary to build a new standpipe or else to change the location of the present one at Tottenville, as well as to lay a new force main in order to make this plant available, but the cost will be small as compared with delivering the water from the northern end of the island.

"The high service district includes all the territory between elevation 220 and 360 A. M. T., which embraces three square miles, being 5 per cent. of the area of the borough. The population amounts to 1.8 per cent. of the total population. This district is at present supplied by the Crystal Water Company, and it is proposed for the present to make no change in this section, but ultimately to acquire the Clove Road pumping station and the mains belonging to this company, and to furnish water from wells thereby saving pumping against an excessive head.

"The total ultimate cost of a system designed to supply the needs of the island up to 1920, as outlined, excluding cost of the Crystal Company's plant, will be approximately \$1,500,000."

The system of pipes proposed and described above is laid down on the plan submitted herewith.

I consider the lines so laid down on this plan as judiciously chosen, and in fact the only ones that could effectually accomplish the desired object. The water is introduced primarily into a 24-inch pipe with a pressure of 60 pounds, and the different size of pipes in the various localities decreased as required to meet the expected demand. The plan gives these various sizes throughout, marked on each projected line.

The approximate cost of the proposed system has been carefully made, excluding the cost of the Crystal Water Company, and amounts to \$1,500,000.

A previous report of Chief Engineer Hill, dated January 22, 1903, presents many points worthy of consideration. I quote from the report as follows:

"The consensus of the expert opinions drawn from the various reports upon the best sources for an additional supply for Greater New York is to the effect that no future supply can be developed on Staten Island proper, due to the conformation of the land and the small amount of ground storage.

"In August, 1900, according to a report of Mr. Louis L. Tribus, the estimated daily consumption of this borough was 5,000,000 gallons. It is probable that this estimate was excessive, owing to the water companies' failure to allow the proper amount for slippage in their pumps. From the most recent available data, the daily pumpage from the several plants on the Island is as follows:

	Gallons per day.
"Staten Island Water Supply Company.....	4,436,000
"Crystal Water Company.....	1,126,224
"South Shore Water Company.....	100,000
"City Plant, Tottenville.....	100,000
"Total.....	5,762,224

"This total was derived from actual reading, taken at the station January 20, about the middle of the day, and it is therefore probable that the average daily pumpage at this time is about 6,000,000 gallons. The population of Staten Island has increased about 3 per cent. per annum for the past thirteen years, and the present per capita consumption is 84 gallons per day. It is therefore hardly fair to assume less than a 5 per cent. increase per annum in the demand of water. On this basis there will be required about 12,000,000 gallons per day to supply the Island ten years hence.

"Chemical analyses of the water recently made (copies of which are herewith attached) indicate that the present wells are being pumped to the limit of their capacity. Additional wells would tend to aggravate the conditions.

"The water at present supplied to the major portion of the Island by the Staten Island Water Company is very hard and unfit for boiler purposes. This fact is important on account of the industrial development of the borough and its availability for manufacturing purposes. On account of the large quantities of iron, it is not suited for washing purposes, and on account of the large amount of solids contained and chlorine, it is probably deleterious to the physical conditions of residents. The water supply of the Crystal Company, from the analyses herewith attached, seems to be fairly good.

"The arrangement of the service districts in portions of the borough is poor, causing excessive pressures at low elevations and inadequate service on high ground, so that any consideration of local municipal development should provide for new mains, pumping stations, etc., dividing the Island, according to the elevations, into at least three service districts.

"The City has no property which is available for a sufficient additional supply, and local development of a municipal plant would include the purchase of the present private water companies, which, under the circumstances, would entail the acquirement of undesirable properties, without future value, and which would cost heavily to reconstruct.

"The rates charged by the local companies are high, being two and one-half times greater than the Manhattan rates, and the conditions imposed by the companies on consumers are very exacting. The revenue to be derived from these plants, therefore, if under municipal control, would be materially reduced, while owing to the rates of wages and hours of City employees, the operating expenses would be increased.

"From the several conditions outlined in what precedes, serious consideration of the matter of local municipal control is not warranted.

"With regard to the introduction of a supply from New Jersey, as proposed by the New York and New Jersey Water Company, this company owns no watersheds or source of supply, but is a conveying company, purchasing its water from the East Jersey Water Company under contract. It is entirely dependent, therefore, upon the East Jersey Water Company for the quantity of water it delivers.

"The following is a brief outline of the property of the East Jersey Water Company:

"Area of watershed, 773 square miles; average rainfall, 1877 to 1892, 46.77 inches. The Geological Survey of New Jersey, 1894, volume 3, gives the yield of the Passaic watershed at 515,000,000 gallons daily, with 7.5 inches of rainfall stored annually. The dam is located at Little Falls on the Passaic river above Patterson. Height of dam 8.25 feet. Length of spillway 285 feet. Elevation of lip 157.5 feet above mean tide.

"Equipment of pumping station at Little Falls dam.

"Three 10,000,000 gallon pumps made to run either by water or by steam.

"Five Heine water tube boilers, 250 horse power each.

"Head pumped against 270 feet.

"A distributing reservoir into which the water is pumped is located at Garrett Mountain.

"Elevation of water reservoir full 425 feet.

"Elevation of outlet 370 feet.

"Storage capacity when full, 152,000,000 gallons.

"A filtration plant is located at Little Falls, with a capacity of 20,000,000 gallons per day. Mechanical filters are used.

"The cities and towns now being partially or wholly supplied with water are:

(A) "Unfiltered—	Gallons.
"Kearney and Harrison.....	1,500,000
"Montclair, Glen Ridge, Franklin, Bloomfield and West Orange (Montclair Water Company)	3,000,000
"Bayonne	3,500,000
"Jersey City	33,000,000

"Total unfiltered

(B) "Filtered—

"Paterson and Passaic.....

"Deducting Jersey City, which will shortly acquire its own source of supply

"Future total

"8,000,000 of which is unfiltered and 5,000,000 filtered.

"It is seen therefore that even if all the water to be supplied by the East Jersey Company were filtered in the future, there would be a balance of filtered water with present plant equal to 7,000,000 gallons per day, or sufficient to supply Staten Island.

"A map of the main pipe lines accompanies this report.

"Specimens of the filtered and unfiltered water were forwarded to the Mt. Prospect Laboratory, and the reports herewith attached show the water to be of excellent quality.

"From what precedes it is seen that the East Jersey Water Company is fully prepared to deliver to the New York and New Jersey Water Company ample amount of filtered water to meet the requirements of Staten Island for some years to come."

No suggestion is made as to the terms on which the water is to be supplied by the New Jersey Company. That is a matter for special consideration. At present it would appear as if the supply must come from New Jersey. In the future, it may be taken from the New York Water Supply, when the increase contemplated by the Water Supply Commission shall have been obtained.

I consider the introduction of good wholesome water into the Borough of Richmond as the most important improvement that can be made there, in view of the condemnation of the present supply as set forth by President Cromwell, and I would respectfully recommend that the work be initiated, at the earliest possible day, by the appropriation of \$1,500,000 for laying the necessary mains, and that negotiations be instituted for obtaining the water in bulk from the East New Jersey Water Company.

Respectfully,
EUG. E. McLEAN, Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby assents to and approves of, in all its details, the proposed contract or agreement submitted by the Commissioner of the Department of Water Supply, Gas and Electricity, under date of April 19, 1905, between The City of New York and the Hudson County Water Company, a corporation of the State of New Jersey, for the furnishing of a pure and wholesome supply of water to the Borough of Richmond for a term of ten (10) years from date of first delivery of water.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented the following report of the Engineer of the Department of Finance relative to modifying Contract No. 4095 in an amount not to exceed \$4,457.35, relative to the reinforcement of the rooms designated as Nos. 9, 10 and 11 and central court of the basement of the new Hall of Records, etc.:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
April 19, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The President of the Borough of Manhattan, in communication under date of April 10, 1905, transmits to the Board of Estimate and Apportionment a letter for consideration by the Board from Horgan & Slattery, architects for the new Hall of Records Building, inclosing bid of \$4,457.35 from John Peirce for extra work.

The architects in their communication to the Borough President, under date of April 6, 1905, say:

"We recently discovered in figuring out the loads of the filing cases contracted for and to be erected in rooms Nos. 9, 10 and 11 and the central court of the basement of the new Hall of Records Building, to be occupied by the Department of Finance of The City of New York, that the floor of this basement, as designed and erected under the supervision of the late John R. Thomas, is only strong enough to carry a live load of 120 pounds per square foot, and that the filing cases, stacks, etc., will require a floor capable of carrying a live load of 400 pounds per square foot under the area covered by the files.

"We have therefore prepared drawings and procured an estimate from Mr. John Peirce, the general contractor for the Hall of Records Building, for the reinforcement of the basement floor beams in rooms Nos. 9, 10 and 11 and the central court, as per revised drawings No. 336, 337, 338 and 339.

"The amount of the estimate received from Mr. Peirce is \$4,457.35. We have carefully checked these figures and find that this is a reasonable amount and the true value of the work to be done."

I would report that I have had the matter investigated with considerable care and I consider that the reinforcement proposed should be done; it is proposed to erect iron columns in the cellar to extend from the grillage work below cellar foundations to steel beams placed under the basement floor beams; this will give the required strength to the floors in the basement rooms, which are to be occupied by the Record Room of the Department of Finance.

The laws and terms of the contract of John Peirce for the completion of the Hall of Records Building states that the contract may be modified or altered, but in no case to involve an increased expense greater than 5 per cent. of the whole expenditure provided for in said contract.

The contract of John Peirce for the completion of the building (known as Contract No. 4095) is for \$1,959,000 and 5 per cent. of this amount is \$97,950; against this amount the following has been allowed and authorized by the Board of Estimate and Apportionment:

December 18, 1903, mail chutes.....	\$7,300 00
June 24, 1904, making doors.....	175 00
August 2, 1904, extra plumbing.....	75 00
January 27, 1905, air cushions.....	19,800 00
March 24, 1905, reinforcement side walls of Chambers street vestibule.....	800 00
Total.....	\$28,150 00

If to this is added a cost of \$4,457.35 for the extra work in question, it will only make \$32,607.35, an amount greatly below the amount, \$97,950, allowed by the provisions of the contract.

The laws and terms of the contract of John Peirce for the completion of the Hall of Records Building, allowing the modifications without public letting, I would recommend that the Board of Estimate and Apportionment order and authorize the President of the Borough of Manhattan to enter into an agreement with John Peirce to modify and alter his contract for the completion of the Hall of Records Building (known as contract No. 4095), in an amount not to exceed \$4,457.35, for the reinforcement of the rooms designated as Nos. 9, 10 and 11, and the central court of the basement of the new Hall of Records as per revised drawings Nos. 336, 337, 338 and 339, prepared by the architects, Horgan & Slattery.

Respectfully,
EUG. E. McLEAN, Engineer.

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,
CITY HALL, April 19, 1905.

JAMES W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—Herewith is transmitted for the consideration of the Board of Estimate and Apportionment a copy of a letter received from Messrs. Horgan & Slattery, architects, recommending extra work in the new Hall of Records Building, the cost of which amounts to \$4,457.35. Plans of the proposed work are also herewith transmitted.

Yours respectfully,
JOHN F. AHEARN, President.

HORGAN & SLATTERY, ARCHITECTS,
No. 1 MADISON AVENUE,
NEW YORK, April 6, 1905.

Hon. JOHN F. AHEARN, President, Borough of Manhattan, City Hall, New York City:

DEAR SIR—We recently discovered, in figuring out the loads of the filing cases contracted for, and to be erected in Rooms Nos. 9, 10 and 11, and the central court of the basement of the new Hall of Records Building, to be occupied by the Department of Finance of The City of New York, that the floor of this basement, as designed and erected under the supervision of the late John R. Thomas, is only strong enough to carry a live load of 120 pounds per square foot, and that the filing cases, stacks, etc., will require a floor capable of carrying a live load of 400 pounds per square foot, under the area covered by the files.

We have therefore prepared drawings, and procured an estimate from Mr. John Peirce, the general contractor for the Hall of Records Building, for the reinforcement of the basement floor beams in Rooms Nos. 9, 10 and 11, and the central court, as per revised drawings Nos. 336, 337, 338 and 339.

The amount of the estimate received from Mr. Peirce is \$4,457.35. We have carefully checked these figures and find that this is a reasonable amount and the true value of the work to be done.

We have therefore made out Extra Order No. 1227, amounting to \$4,457.35, which we transmit herewith for your consideration and approval. We also inclose herewith the above-mentioned drawings.

It is necessary that this work be started as early as possible, as the contractor for the furnishing of the filing cases, etc., for the Hall of Records Building will start delivering his material and cases probably the early part of May.

Yours truly,
(Signed) HORGAN & SLATTERY.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby authorizes the President of the Borough of Manhattan to enter into an agreement with John Peirce to modify and alter his contract (known as Contract No. 4095), for the completion of the Hall of Records Building, in an amount not to exceed four thousand four hundred and fifty-seven and thirty-five one-hundredths dollars (\$4,457.35), for the reinforcement of the rooms designated as Nos. 9, 10 and 11 and the central court of the basement of said building, as per revised drawings Nos. 336, 337, 338 and 339, prepared by the architects, Horgan & Slattery.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented the following communication from the Police Department and report of the Engineer, Department of Finance, relative to an appropriation of \$175,000, to provide for the improving, permanently bettering and equipping the station-houses:

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
No. 300 MULBERRY STREET,
NEW YORK, March 16, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The following proceedings were this day directed by Police Commissioner William McAdoo:

Whereas, In the Departmental estimate of the Police Department for the year 1905 the amount of appropriation for account of "Police Station-houses, Alterations, etc.," was only \$44,000, the amount asked for such purposes being the sum of \$140,000; and

Whereas, Such amount allowed is insufficient to enable the Police Commissioner to properly alter and repair said station-house buildings, to place them in good sanitary condition and adapted to the purposes of the Police Department,

Ordered, That, in pursuance of the provisions of chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment be and is hereby respectfully requested to approve the issue of Corporate Stock of The City of New York to the amount of \$175,000, to provide for the improving, permanently bettering and equipping of the station-houses of the Police Department of The City of New York.

Ordered, That whenever the Board of Estimate and Apportionment shall have approved the issue of Corporate Stock of The City of New York to the amount of \$175,000, to provide for the improving, permanently bettering and equipping of the Police station-houses of The City of New York, the Board of Aldermen be and is hereby respectfully requested to authorize the issue of Corporate Stock of The City of New York, such amount for such purposes.

Ordered, That a copy of the report of Roundsman John L. Bergman, Acting Inspector of the Bureau of Repairs and Supplies of the Police Department, showing the necessity for such repairs to Police Department buildings and estimate of probable cost of same, be referred to the Board of Aldermen and to the Board of Estimate and Apportionment.

Very respectfully,
WM. H. KIPP, Chief Clerk.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
April 17, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—On March 16, 1905, the Police Commissioner

"Ordered, That, in pursuance of the provisions of chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment be and is hereby respectfully requested to approve the issue of Corporate Stock of The City of New York, to the amount of \$175,000, to provide for the improving, permanently bettering and equipping the station-houses of the Police Department of The City of New York."

John L. Bergman, Esq., Acting Inspector, Repairs and Supplies, in a communication addressed to the Police Commissioner, under date of March 15, gives in detail an estimate of how the money is to be expended, namely:

Steam heating—First, Seventh, Eighth, Twelfth, Thirteenth, Fourteenth, Fifteenth, Sixteenth, Seventeenth, Eighteenth, Twentieth, Twenty-first, Twenty-second, Twenty-eighth, Thirtieth, Thirty-first Precinct Stations.....	\$50,000 00
Painting—Second, Twentieth, Twenty-first, Twenty-second, Twenty-fourth, Twenty-fifth, Twenty-eighth, Thirty-fourth, Twenty-fifth, Thirty-seventh, Fortieth, Forty-third, Forty-fourth, Forty-fifth, Forty-sixth, Forty-seventh, Forty-eighth, Forty-ninth, Fiftieth, Fifty-first, Fifty-second, Fifty-third, Fifty-fourth, Fifty-fifth, Fifty-sixth, Fifty-seventh, Fifty-eighth, Fifty-ninth, Sixtieth, Sixty-first, Sixty-second, Sixty-third, Sixty-fourth, Sixty-fifth, Sixty-sixth, Sixty-seventh, Sixty-ninth, Seventy-fourth, Seventy-sixth (and two Subs), Seventy-seventh, Seventy-eighth, Seventy-ninth (and Sub), Eightieth (and two Subs), and Eighty-third Precinct Stations, exterior of Twenty-ninth and Thirteenth Precincts and portion of House of Detention.....	80,000 00
Masonry and alterations at Seventh, Fifty-seventh, Eighteenth, Thirty-fourth, Sixty-sixth Precinct Stations.....	20,000 00
Plumbing at First, Seventh, Tenth, Seventeenth, Eighteenth, Twenty-second, Thirty-sixth, Fiftieth, Sixty-third Precincts.....	25,000 00

In compliance with your instructions to report upon the amount that may be properly payable on bonds, I would report:

After an interview with the Inspector in charge of the Repairs and Supplies at the Police Department, and also personal knowledge of the condition of the station-houses in The City of New York, all the additional work, alterations and repairs noted in a general way are necessary and should be made in order to place the buildings in clean, sanitary and comfortable condition, but, in my opinion, only \$82,000 of the amount, \$175,000, requested, could properly be chargeable to a bond account, namely:

Steam heating.....	\$50,000 00
Painting, etc., new metal ceiling.....	2,500 00
Masonry, new additions.....	4,500 00
Plumbing.....	25,000 00
Total.....	\$82,000 00

Therefore, I think the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock of The City of New York, to the amount of \$82,000, to provide means for the improvement of the buildings, station-houses, etc., under the jurisdiction of the Police Department.

Respectfully,
EUG. E. McLEAN, Engineer.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding eighty-two thousand dollars, to provide means for the improving, permanently bettering and equipping station-houses of the Police Department, to wit:

Steam heating	\$50,000 00
Painting, etc., including new metal ceiling	2,500 00
Masonry, new additions	4,500 00
Plumbing	25,000 00
	<hr/>
	\$82,000 00

—and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding eighty-two thousand dollars (\$82,000), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented the following communication from the Comptroller relative to an issue of \$261,427.54 Corporate Stock to be applied to the payment of awards, etc., in the matter of acquiring title to lands and premises required for the construction of the bridge over Newtown creek, from Vernon avenue, in Queens, to Manhattan avenue, in Brooklyn:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
April 18, 1905.

To the Board of Estimate and Apportionment:

GENTLEMEN—I am advised by the Corporation Counsel that the report of the Commissioners of Estimate and Appraisal, in the matter of acquiring title to lands and premises required for the construction of the bridge over Newtown creek, from Vernon avenue in the Borough of Queens, to Manhattan avenue in the Borough of Brooklyn, in relation to the lands situated in the Borough of Queens, was confirmed by an order of the Supreme Court dated April 1, 1905, and filed in the office of the Clerk of the County of Queens April 5, 1905.

The title to the lands taken in this proceeding became vested in The City of New York on October 26, 1902, pursuant to a resolution of the Board of Public Improvements, adopted July 24, 1901.

The total amount of the awards is	\$219,836 00
Interest thereon from October 26, 1902, the date of vesting of title, to May 26, 1905	34,074 58
Amount of taxed costs	7,516 96

Total.....\$261,427 54

To provide means for the payment of this expense, Corporate Stock to the amount of two hundred and sixty-one thousand four hundred and twenty-seven dollars and fifty-four cents (\$261,427.54) should be issued.

A resolution for that purpose is herewith submitted.

Respectfully,

EDWARD M. GROUT, Comptroller.

The following resolution was offered:

Resolved, That pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Comptroller be and hereby is, subject to the concurrence herewith of the Board of Aldermen, authorized to issue Corporate Stock in the manner provided by section 169 of the Charter, to the amount of two hundred and sixty-one thousand four hundred and twenty-seven dollars and fifty-four cents (\$261,427.54), the proceeds whereof to be applied to the payment of awards, the interest thereon, and the costs and expenses, in the matter of acquiring title to lands and premises required for the construction of the bridge over Newtown creek, from Vernon avenue in the Borough of Queens to Manhattan avenue in the Borough of Brooklyn.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented a communication from the Department of Parks, boroughs of Manhattan and Richmond, relative to an appropriation of \$200,000 to meet the deficiency in the appropriation made for 1905 for the maintenance of the parks, parkways and playgrounds in said boroughs.

Referred to the Comptroller.

The Secretary presented a resolution of the Board of Aldermen, requesting an appropriation of \$200,000 Special Revenue Bonds to meet the expenses of the Park Department, Borough of The Bronx.

Referred to the Comptroller.

The Secretary presented a communication from the Moderation Society, requesting an appropriation to carry on its work.

Ordered on file.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the acquisition of property for the uses of the Street Cleaning Department, located at Tiebout avenue and One Hundred and Eighty-ninth street, The Bronx:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
April 12, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Thomas G. Holland and John L. Holland, doing business under the firm name of Holland Brothers, at the request of the Commissioner of the Department of Street Cleaning, approved by the Commissioners of the Sinking Fund, erected a stable on East One Hundred and Eighty-ninth street, between Tiebout avenue and Stevens place, in the Borough of The Bronx, and the City agreed to pay for a ten years' lease of the property the sum of \$4,000 annually. The lease was entered into October 1, 1904, and has about nine years and six months yet to run.

Messrs. Holland Brothers desire to dispose of this property to The City of New York, and the Commissioner of the Department of Street Cleaning, in a communication under date of December 15, 1904, requests the approval of the Board of Estimate and Apportionment for the acquisition of the property and the issue of Corporate Stock for the payment thereof. The price at which the property was originally offered to the City was \$56,000. The price at which Messrs. Holland Brothers, in a communication under date of April 10, 1905, offered to sell to the City was \$53,000, and this price, while not excessive, is, in my opinion, full value for the property.

Taking the principal sum of \$53,000 and computing interest thereon at 4½ per cent., which is the City borrowing rate, plus 1 per cent. for Sinking Fund purposes, and adding to these figures the sum of \$700 for taxes, which the City would lose when it becomes the owner, the total interest carrying charges would be \$3,085. Deducting that from \$4,000, the sum the City pays annually for rent, would leave \$915 net for the City. In other words, at the expiration of the term of the lease the City would be \$9,115 better off as owner than it would be as tenant.

I would therefore respectfully recommend that the request of the Commissioner of the Department of Street Cleaning be approved and that a resolution be adopted authorizing the acquisition of this stable for the Department of Street Cleaning, and that a resolution also be adopted authorizing the issue of Corporate Stock in the amount of \$53,500, which will cover the cost and expenses of the acquisition of the property and the examination of title.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

Approved:

EDWARD M. GROUT, Comptroller.

DEPARTMENT OF STREET CLEANING,
NEW YORK, December 15, 1904.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman Board of Estimate and Apportionment:

SIR—I request that your Board, pursuant to section 546 of the Charter, approve of the purchase, by the issue of bonds, as therein provided, from Thomas G. Holland and John L. Holland, composing the firm of Holland Brothers, of No. 588 High Bridge road, corner of Tiebout avenue, for the use of this Department, of all that lot, piece or parcel of land, in the Borough of The Bronx, bounded and described as follows: Beginning at the intersection of One Hundred and Eighty-ninth street and the south-east corner of Tiebout avenue; running thence 174 44-100 feet to the corner of Stevens place; thence southerly 114 18-100 feet; thence westerly 52 70-100 feet; thence northerly 42 9-100 feet; thence westerly to the line of Tiebout avenue 100 feet, more or less; thence northerly along Tiebout avenue 70 feet, more or less, to the point or place of beginning; together with whatever rights the owners may have to the centre lines of Tiebout avenue, East One Hundred and Eighty-ninth street and Stevens place; together with the three-story brick stable, wagon shed and blacksmith shop thereon erected.

The property above mentioned, which it is desired to purchase, is the same which is now held under a lease from the same parties for a term of ten (10) years from October 1, 1904, at the annual rental of \$4,000, payable quarterly.

It is desirable to purchase the said property for the following reasons: First—It is conveniently situated for the stable purposes of our Department in that part of the Borough of The Bronx. Second—The increase of land value in the Borough of The Bronx, owing to the great number of improvements, public and private, will make it much more difficult for this Department at the expiration of this lease to obtain a suitable stable.

The owners say that the property has been recently appraised by the Harlem Savings Bank at \$60,000, which they deem a conservative estimate of its value. They now offer to dispose of the property to The City of New York for \$56,000, and they have accompanied their offer by a table intended to show a saving to the City by its purchase of the land now instead of continuing to hold the property for ten (10) years under a lease.

Respectfully,

JOHN MCG. WOODBURY, Commissioner.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the selection by the Commissioner of the Department of Street Cleaning, for departmental stables, of the premises located in the Borough of The Bronx, bounded and described as follows:

All those certain lots, pieces or parcels of land, with the buildings and improvements thereon erected, bounded and described as follows:

Beginning at a point on the easterly side of Tiebout avenue distant 70 feet southerly from the intersection of the easterly side of Tiebout avenue to the southerly side of One Hundred and Eighty-ninth street and running thence northerly along the easterly side of Tiebout avenue 70 feet; thence easterly along the southerly side of East One Hundred and Eighty-ninth street 174.44 feet to the westerly side of Stevens place; thence southwesterly along the westerly side of Stevens place 114.18 feet; thence running northwesterly 52.70 feet; thence northeasterly 42.09 feet; thence northwesterly parallel with East One Hundred and Eighty-ninth street 100 feet to the point or place of beginning.

And the Comptroller be and he hereby is authorized to enter into contract for the acquisition of the above-described property at a price not exceeding fifty-three thousand dollars (\$53,000), said contract to be submitted to the Corporation Counsel for his approval as to form.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904 and section 546 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding fifty-three thousand five hundred dollars (\$53,500), to provide means for the acquisition of property located on East One Hundred and Eighty-ninth street, between Tiebout avenue and Stevens place, in the Borough of The Bronx, for departmental purposes for the Department of Street Cleaning, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding fifty-three thousand five hundred dollars (\$53,500), the proceeds whereof to be applied to the purposes aforesaid.

The Secretary presented the following communication from the Secretary of the Aqueduct Commissioners, relative to renewing the lease of Rooms 206 to 216, inclusive, Stewart Building:

AQUEDUCT COMMISSIONERS' OFFICE,
STEWART BUILDING, No. 280 BROADWAY,
NEW YORK, April 8, 1905.

To the Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of the Aqueduct Commissioners, held on the 7th inst., the following resolution was adopted:

"Resolved, That, subject to the approval of the Board of Estimate and Apportionment of The City of New York, the President of this Commission be and hereby is authorized and directed to enter into a lease with the owner of the Stewart Building, in said city, for the occupancy of rooms Nos. 206, 207, 209, 211, 213, 214, 215 and 216 by the Aqueduct Commissioners, for one year from May 1, 1905, at a rental of seven thousand five hundred dollars (\$7,500) per annum, payable quarterly, at the expiration of each quarter."

Yours respectfully,

THE AQUEDUCT COMMISSIONERS,

By HARRY W. WALKER, Secretary.

Recommended that the Board of Estimate and Apportionment authorize the renewal of a lease of rooms Nos. 206, 207, 209, 211, 213, 214, 215 and 216, No. 280 Broadway, for the use of the Aqueduct Commissioners, for a period of one year from May 1, 1905, at the annual rental of \$7,500, payable quarterly; otherwise upon the same terms and conditions as contained in the present existing lease. Lessor, Horace Russell and Edward D. Harris, executors.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau, Department of Finance.

April 14, 1905.

The following resolution was offered:

Resolved, That, pursuant to chapter 490 of the Laws of 1883, and section 518 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the renewal by the Aqueduct Commissioners of the lease of the rooms in the Stewart Building, No. 280 Broadway, known as Nos. 206, 207, 209, 211, 213, 214, 215 and 216, for one year from May 1, 1905, at a rental of seven thousand five hundred dollars (\$7,500) per annum, payable quarterly, at the expiration of each quarter, and upon the same terms and conditions as contained in the present existing lease.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the acquisition of property on Amsterdam avenue and West One Hundred and Twenty-ninth street, Manhattan, for school purposes:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
April 17, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Education, at a meeting held February 23, 1905, adopted the following resolution:

"Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described lands and premises on Amsterdam avenue, adjoining Public School 43, in Local School Board District No. 19, Borough of Manhattan, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$13,500:

"Beginning at a point formed by the intersection of the westerly line of Amsterdam avenue with the northerly line of the lands of Public School 43, which point is distant ninety-nine (99) feet and eleven (11) inches northerly from the northerly line of West One Hundred and Twenty-ninth street; and running thence westerly along the said northerly line of the lands of Public School 43 one hundred (100) feet; thence northerly and parallel with Amsterdam avenue twenty-five (25) feet; thence easterly and parallel with West One Hundred and Twenty-ninth street one hundred (100) feet to the westerly line of Amsterdam avenue; thence southerly along the westerly line of Amsterdam avenue twenty-five (25) feet to the northerly line of the said lands of Public School 43, the point or place of beginning.

"Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described."

The premises described in the above resolution is No. 1408 Amsterdam avenue, a lot 25 by 100 feet, adjoining Public School 43, and located 99 feet 11 inches north of One Hundred and Twenty-ninth street. It is known on the tax books as Lot No. 34, Block 1984, section 7, volume 2, and is assessed in the name of John R. Brady; land, \$9,000; building, \$4,500; total, \$13,500. There is erected on the property a three-story and basement brick building, 25 by 62½ feet, with a one-story and basement extension, 25 by 36 feet 6 inches. The building is used as a dancing academy and owner's residence. The first floor in both the front building and the extension is used as a ball room, and is 19 feet in the clear. The basement is used as a supper room, and the owner, John R. Brady, with his family, occupies the second floor. The upper floor is divided into two rooms, one used as a ladies' dressing room, and the other for storage purposes.

In negotiating with the owner, the price asked by him appears to be so far in excess of the real value of the property that condemnation proceedings will be necessary, and I would respectfully recommend that the Board of Estimate and Apportionment approve of the selection of the above described property by the Board of Education for school purposes, and authorize the institution of condemnation proceedings for the acquisition thereof.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

To the Board of Education:

The Committee on Sites respectfully reports that it has given careful consideration to the matter of the acquisition of one lot on Amsterdam avenue, adjoining Public School 43, Borough of Manhattan, so as to permit of the enlargement and rebuilding of said school building, and recommends that the same be selected for school purposes. It is the intention of the Board of Education to rebuild Public School 43 as soon as title to the above-mentioned lot shall have been acquired by The City of New York, provided sufficient funds are available therefor.

The following resolutions are submitted for adoption:

Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following-described lands and premises on Amsterdam avenue, adjoining Public School 43, in Local School Board District No. 19, Borough of Manhattan, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$13,500:

"Beginning at a point formed by the intersection of the westerly line of Amsterdam avenue with the northerly line of the lands of Public School 43, which point is distant ninety-nine (99) feet eleven (11) inches northerly from the northerly line of West One Hundred and Twenty-ninth street, and running thence westerly along the said northerly line of the lands of Public School 43 one hundred (100) feet; thence northerly and parallel with Amsterdam avenue twenty-five (25) feet; thence easterly and parallel with West One Hundred and Twenty-ninth street one hundred (100) feet to the westerly line of Amsterdam avenue; thence southerly along the westerly line of Amsterdam avenue twenty-five (25) feet to the northerly line of the said lands of Public School 43, the point or place of beginning.

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described.

A true copy of report and resolutions adopted by the Board of Education February 23, 1905.

A. EMERSON PALMER, Secretary, Board of Education.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Board of Education in the matter of the selection of the following described premises for school purposes, in the Borough of Manhattan:

"Beginning at a point formed by the intersection of the westerly line of Amsterdam avenue with the northerly line of the lands of Public School 43, which point is distant 99 feet 11 inches northerly from the northerly line of West One Hundred and Twenty-ninth street; running thence westerly along the said northerly line of the lands of Public School 43 100 feet; thence northerly and parallel with Amsterdam avenue 25 feet; thence easterly and parallel with West One Hundred and Twenty-ninth street 100 feet to the westerly line of Amsterdam avenue; thence southerly along the westerly line of Amsterdam avenue 25 feet to the northerly line of the said lands of Public School 43, the point or place of beginning.

Assessed valuation of the above described lands and premises, as shown on the books of record on file in the Department of Taxes and Assessments is \$13,500.

—and the Corporation Counsel be and he hereby is authorized to institute condemnation proceedings for the acquisition of all of the parcels of land within the area of the above described premises.

Nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into contracts for the acquisition of any portion of the above described premises at private sale, subject to the approval of this Board.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the acquisition of property on Oakland street and Norman avenue, Borough of Brooklyn, for school purposes:

April 17, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Estimate and Apportionment, at a meeting held June 24, 1904, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Board of Education in the matter of the selection of the following described lands and premises for school purposes, in the Borough of Brooklyn:

"Beginning at a point formed by the intersection of the westerly line of Oakland street with the northerly line of Norman avenue, and running thence westerly along the northerly line of Norman avenue twenty-five (25) feet to the easterly line of the lands of Public School 34; thence northerly along the easterly line of the lands of Public School 34 ninety-five (95) feet; thence easterly and parallel with Norman avenue twenty-five (25) feet to the westerly line of Oakland street; thence southerly along the westerly line of Oakland street ninety-five (95) feet to the northerly line of Norman avenue, the point or place of beginning.

"Together with all the right, title and interest of the owners of said premises of, in and to the streets in front thereof to the centre thereof.

"And also

"Beginning at a point formed by the intersection of the easterly line of Eckford street with the northerly line of Norman avenue, and running thence easterly along the northerly line of Norman avenue twenty-five (25) feet to the westerly line of the lands of Public School 34; thence northerly along the westerly line of the lands of Public School 34 ninety-five (95) feet; thence westerly and parallel with Norman avenue twenty-five (25) feet to the easterly line of Eckford street; thence southerly along the easterly line of Eckford street ninety-five (95) feet to the northerly line of Norman avenue, the point or place of beginning.

"Together with all the right, title and interest of the owners of said premises of, in and to the streets in front thereof to the centre thereof,

"—and the Comptroller be and he is hereby authorized to enter into contracts for the acquisition of the above-described premises at a price not exceeding seventeen thousand five hundred dollars (\$17,500), said contracts to be submitted to the Corporation Counsel for his approval as to form."

Contracts were entered into with the owner of the property on the northeasterly corner of Eckford street and Norman avenue, Borough of Brooklyn, for the acquisition thereof at a price not exceeding eight thousand five hundred dollars (\$8,500), and the title thereof is now vested in The City of New York.

In regard to the property on the northwesterly corner of Oakland street and Norman avenue, in the Borough of Brooklyn, this office has had considerable negotiation with the owner, William F. Dryer, and the price asked by him is considered excessive. I would therefore respectfully recommend that the Board of Estimate and Apportionment rescind so much of the resolution of June 24, 1904, as relates to the property on the northwest corner of Oakland street and Norman avenue, Borough of Brooklyn, which authorized its purchase, and adopt the following resolution authorizing the institution of condemnation proceedings:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Board of Education in the matter of the selection of the following-described lands and premises for school purposes in the Borough of Brooklyn:

"Beginning at a point formed by the intersection of the westerly line of Oakland street with the northerly line of Norman avenue, and running thence westerly along the northerly line of Norman avenue twenty-five (25) feet to the easterly line of the lands of Public School 34; thence northerly along the easterly line of the lands of Public School 34 ninety-five (95) feet; thence easterly and parallel with Norman avenue twenty-five (25) feet to the westerly line of Oakland street; thence southerly along the westerly line of Oakland street ninety-five (95) feet to the northerly line of Norman avenue to the point or place of beginning.

"Assessed valuation of the above-described lands and premises, as shown by the books and records on file in the Department of Taxes and Assessments, for the year 1905, is six thousand five hundred dollars (\$6,500); and the Corporation Counsel be and he hereby is authorized to institute condemnation proceedings for the acquisition of all of the lands and premises within the area above described.

"Nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into contracts for the acquisition of any portion of the above-described property at private sale, subject to the approval of this Board."

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

The following resolution was offered:

Resolved, That so much of the resolution adopted by the Board of Estimate and Apportionment on June 24, 1904, as relates to the acquisition at private sale of the northwesterly corner of Oakland street and Norman avenue in the Borough of Brooklyn, for school purposes, be and the same is hereby rescinded.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Board of Education in the matter of the selection of the following described lands and premises for school purposes in the Borough of Brooklyn:

Beginning at a point formed by the intersection of the westerly line of Oakland street with the northerly line of Norman avenue, and running thence westerly along the northerly line of Norman avenue twenty-five (25) feet to the easterly line of the lands of Public School 34; thence northerly along the easterly line of the lands of Public School 34 ninety-five (95) feet; thence easterly and parallel with Norman avenue twenty-five (25) feet to the westerly line of Oakland street; thence southerly along the westerly line of Oakland street ninety-five (95) feet to the northerly line of Norman avenue to the point or place of beginning.

Assessed valuation of the above described lands and premises, as shown by the books and records on file in the Department of Taxes and Assessments, for the year 1905, is six thousand five hundred dollars (\$6,500); and the Corporation Counsel be and he hereby is authorized to institute condemnation proceedings for the acquisition of all of the lands and premises within the area above described.

Nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into contracts for the acquisition of any portion of the above described property at private sale, subject to the approval of this Board.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the acquisition of property on Fifty-first street and Sixth avenue, Borough of Brooklyn, for a school site:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
April 13, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Estimate and Apportionment at a meeting held March 10, 1905, authorized condemnation proceedings for a parcel of land on the westerly side of Sixth avenue, running from Fiftieth to Fifty-first streets, Borough of Brooklyn, size 200 feet 4 inches by 200 feet, for the use of the Board of Education for the erection of a new school building in this growing section of Brooklyn.

In a previous report, a recommendation was made for the acquisition of four parcels of land within the area of this plot, and the Board of Estimate and Apportionment authorized their acquisition.

The owner of the property on the northerly side of Fifty-first street, 100 feet westerly from Sixth avenue, size 100 by 100 feet 2 inches, which plot is within the area of the property in condemnation proceedings, has offered to dispose of the same to the City at private sale for \$7,350, and the Assistant Corporation Counsel in charge of the condemnation proceedings is of the opinion that the price is reasonable. Inasmuch as the original resolution allows a purchase at private sale with the consent of the Board of Estimate and Apportionment, I believe that it will inure to the best interest of the City if the property is purchased for \$7,350, which price, while full value, cannot be considered excessive, in view of the fact that the property is in the heart of the Bay Ridge boom, where further increase is expected, cause by future tunnel operations. I would therefore respectfully recommend that the Board of Estimate and Apportionment authorize the acquisition at private sale of the property on the northerly side of Fifty-first street, 100 feet westerly from Sixth avenue, size 100 feet 2 inches by 100 feet, Borough of Brooklyn, at a price not exceeding \$7,350.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

The following was offered:

Whereas, The Board of Estimate and Apportionment at a meeting held March 10, 1905, adopted a resolution that the title to all of the premises on the westerly side of Sixth avenue, between Fiftieth and Fifty-first streets, Borough of Brooklyn, shall be acquired for the Board of Education, and by said resolution authorized the Corporation Counsel to institute condemnation proceedings for the acquisition of all of the parcels of land within the area of the described premises; and

Whereas, The Comptroller of The City of New York having presented to this Board a report and recommendation that a parcel of land within the area described in said resolution of March 10, 1905, can be acquired at private sale for the sum of \$7,350; and

Whereas, It appearing that the interest of the City will be served by the acquisition of said parcel of land at private sale; therefore be it

Resolved, That the Comptroller be and he hereby is authorized to enter into contracts at a price not exceeding seven thousand three hundred and fifty dollars (\$7,350) for the acquisition of all that certain lot, piece or parcel of land, situate, lying and being in the Borough of Brooklyn, bounded and described as follows:

Beginning at a point on the northerly side of Fifty-first street distant 100 feet westerly from the northwesterly corner of Sixth avenue and Fifty-first street; thence northerly and parallel with Sixth avenue 100 feet 2 inches; thence westerly and parallel with Fifty-first street 100 feet; thence southerly and again parallel with Sixth avenue 100 feet 2 inches to the northerly line of Fifty-first street; thence easterly along the northerly side of Fifty-first street 100 feet to the point or place of beginning, together with all the right, title and interest of the owner of said premises of, in and to the streets and avenues in front thereof to the centre thereof.

—said contracts to be submitted to the Corporation Counsel for his approval as to form.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the acquisition of certain lands and premises located at Pearl and York streets, Brooklyn, for use in connection with the Manhattan Bridge (Bridge No. 3):

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
April 24, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Estimate and Apportionment, at a meeting held January 20, 1905, in accordance with section 1436a of the Greater New York Charter, approved and authorized the acquisition of certain lands and premises selected by the Commissioner of Bridges as an approach to the Manhattan Bridge (Bridge No. 3), in the Borough of Brooklyn.

Included within the area of the property described in said resolution are premises situated on the northwesterly corner of York and Pearl streets. The line of the bridge cuts diagonally through the two buildings owned by the Nassau Brewing Company, located on said corner, beginning at a point on York street 6.58 feet west of Pearl street, and extending northwesterly, so that it means the total destruction of the corner house and the partial destruction of the house adjoining.

The entire property owned by the Nassau Brewing Company has been offered to the City for the sum of \$23,000. Taking into consideration the amount of money that will be recovered, first, for the value of land taken as an approach to the bridge; second, the value of the buildings, because it means their destruction, and third, the consequential damages to the land, I believe that the interests of the City would be better served by acquiring the entire property than by permitting the same to go to condemnation proceedings in accordance with the lines as laid out by the Department of Bridges. I would therefore respectfully recommend that the Board of Estimate and Apportionment adopt a resolution authorizing the acquisition of the property owned by the Nassau Brewing Company on the corner of York and Pearl streets at a price not exceeding \$23,000.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

The following was offered:

Whereas, The Board of Estimate and Apportionment, at a meeting held January 20, 1905, in accordance with the provisions of section 1436A of the Greater New York Charter, approved of the selection by the Commissioner of Bridges of certain lands and premises for the use of the Manhattan Bridge (Bridge No. 3), in the Borough of Brooklyn, and authorized the institution of condemnation proceedings for the acquisition of all of the property within the area of said property selected by the Commissioner of Bridges, and mentioned and described in said resolution; and

Whereas, The Comptroller of The City of New York has reported to this Board that the City has been offered a piece of property located on the northwest corner of York and Pearl streets, in said Borough of Brooklyn, part of which is included within the area as laid down by said Commissioner and described in said resolution, and part of which is without the area described in said resolution; and

Whereas, The Comptroller, in said report, has stated that in his opinion it would be advisable for the City to acquire the entire premises for said Bridge Commissioner; therefore be it

Resolved, That the Comptroller of The City of New York is hereby authorized to enter into a contract for the acquisition of the land and buildings thereon, bounded and described as follows:

All that certain plot, piece or parcel of land with the buildings thereon erected, in the City (now Borough) of Brooklyn, Kings County, and State of New York, bounded and containing as follows, to wit: Beginning at the northwesterly corner of Pearl and York streets, running thence northerly along Pearl street seventy-nine (79) feet and four (4) inches; thence westerly and parallel or nearly so with York street fifty-one (51) feet and seven (7) inches; thence southerly and parallel or nearly so with Pearl street seventy-nine (79) feet and six (6) inches to the northerly side of York street, and thence easterly along York street fifty-one (51) feet and six (6) inches to the place of beginning, be the said several dimensions more or less. Subject to the right of the owner of the lot adjoining on the west to maintain the beams of the shed on said lot in the westerly wall of the westerly building on the land hereby described, —at a price not exceeding twenty-three thousand dollars (\$23,000), said agreement to be presented to the Corporation Counsel for his approval as to form.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

The Secretary presented the following report of the Engineer of the Department of Finance and communication from the Commissioner of Water Supply, Gas and Electricity, relative to the contract between The City of New York and the Flatbush Water Works Company for supplying water for fire and other purposes in the Borough of Brooklyn for a term of five (5) years, commencing January 1, 1905:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
April 24, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. John T. Oakley, Commissioner, Department of Water Supply, Gas and Electricity, in communication under date of April 15, 1905, submits to the Board of Estimate and Apportionment a renewal of the contract which expired on December 31, 1904, between The City of New York, through the Department of Water Supply, Gas and Electricity and the Flatbush Water Works Company, for furnishing water to certain buildings, flushing sewers, fire protection, etc., in the Twenty-ninth Ward, Borough of Brooklyn.

I would report that the form of contract is similar in form to the contract for the three (3) years which expired on December 31, 1904, which contract was approved by the Board of Estimate and Apportionment on March 2, 1902, with the following exceptions:

First—The term is for five (5) years instead of three (3) years. I see no objection to increasing the term of the contract, for it is specially stipulated that the City can buy or start condemnation proceedings for the acquisition for the franchise and property of the company at any time. It is also stated that the City is not restricted from laying pipes or mains in said ward. The compensation, \$25,000, from all the information I have been able to obtain, appears fair, and as this section of the Borough of Brooklyn is increasing in size and more hydrants will necessarily be required in the near future, it appears to me that it will be beneficial to the City to have a longer term contract.

Second—After the first of July no mains are to be smaller than 8 inches; this will insure a better supply. In the former agreement no mention was made as to the size of main; this clause I consider very beneficial to the City.

Therefore I think the Board of Estimate and Apportionment, pursuant to section 471 of the Amended Greater New York Charter, may properly approve, subject to the approval as to form by the Corporation Counsel, form and execution of the proposed contract between The City of New York and the Flatbush Water Works Company for supplying water for fire and other purposes in the Borough of Brooklyn, submitted by the Commissioner of the Department of Water Supply, Gas and Electricity, under date of April 15, 1905, and when the contract is approved of as to form by the Corporation Counsel, I think the separate written consent and approval of both the Mayor and the Comptroller may properly be given.

Respectfully,
EUG. E. McLEAN, Engineer.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,
COMMISSIONER'S OFFICE, NOS. 13 TO 21 PARK ROW,
CITY OF NEW YORK, April 15, 1905.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment, No. 280
Broadway, Manhattan:

DEAR SIR—A renewal of the contract, which expired on December 31, 1904, between The City of New York, through the Department of Water Supply, Gas and Electricity, and the Flatbush Water Works Company, for furnishing water to certain public buildings, flushing sewers, fire protection, etc., in the Twenty-ninth Ward, Borough of Brooklyn, is inclosed herewith, in accordance with the provisions of chapter 466, section 471 of the Laws of 1901.

The principal changes in the new contract are that it is to continue in force for a period of five years instead of three, and that after July 1, 1905, said water company shall make no connection with pipe less than eight inches in diameter.

Duplicate copies of this paper have been transmitted for approval to his Honor the Mayor and to the Comptroller. I respectfully ask favorable consideration of this matter by your Honorable Board.

Very truly yours,

JNO. T. OAKLEY, Commissioner.

This agreement, made this _____ day of _____, nineteen hundred and _____ between the Flatbush Water Works Company, a corporation duly organized and incorporated under the Laws of the State of New York, party of the first part, and The City of New York, a municipal corporation duly organized and incorporated under the Laws of the State of New York, party of the second part:

Whereas, The party of the first part is duly authorized to lay pipes and mains in the streets, avenues and highways of the Twenty-ninth Ward of the Borough of Brooklyn (formerly the Town of Flatbush), for the purpose of supplying water to the said ward and the inhabitants thereof; and

Whereas, The party of the first part has constructed its works and laid its pipes and mains in said streets, avenues and highways, and has supplied water for public purposes, and also to the inhabitants of said town and ward; and

Whereas, The contract heretofore made between the said party of the first part and The City of New York, acting through its duly constituted authorities for the supply of water for public purposes has expired; and

Whereas, The party of the first part is desirous of entering into a contract with the party of the second part to supply water in said ward for public purposes, for the period of five (5) years from January 1, 1905, unless the title to the property of the party of the first part is previously vested in The City of New York, by condemnation or other legal proceedings, when this contract shall terminate; and

Whereas, The Commissioner of Water Supply, Gas and Electricity of The City of New York, with the separate written consent of the Mayor, dated _____, and of the Comptroller, dated _____, copies of which are hereto annexed, has agreed with the said party of the first part as to the terms and conditions upon which the said party of the first part shall supply water for the purposes aforesaid; and

Whereas, Said terms and conditions and the proposed agreement to supply water were, on the _____ day of _____, submitted to the Board of Estimate and Apportionment, who approved and assented to the same upon the day named, and authorized this agreement to be made, by resolutions, a copy of which is hereto annexed;

Now, therefore, in consideration of the premises and of the sum of one dollar, each in hand to the other paid, the receipt whereof is hereby acknowledged, the parties hereto do agree as follows:

1. The said party of the first part shall, at its own cost and expense, during the period covered by this contract, keep all of the fire and drinking hydrants in said ward, which are now or shall hereafter be connected with its mains, in good order and repair; and shall furnish a supply of water to extinguish fires and to flush the sewers in said ward, and also supply with water all the public buildings now in said ward, or hereafter, during the term of this contract, to be erected therein, and which buildings belong to the party of the second part (except only those buildings which formerly belonged to the County of Kings and which are under the control of the Board of Charities and Corrections), and shall at all times keep constantly in said mains and hydrants, already laid and furnished, or to be hereafter laid and furnished, a sufficient supply of water for the purposes aforesaid.

2. The said party of the first part further covenants and agrees with the party of the second part contracting in its own behalf and in behalf of those of the inhabitants of said City of New York residing in the territory now known as the Twenty-ninth Ward of the Borough of Brooklyn and formerly known as the Town of Flatbush, that it will, at its own cost and expense, supply wholesome water to the said inhabitants of said ward at a rate not to exceed the regular rate charged by The City of New York and at that time prevailing, for the supply of water to those persons residing in the other wards of said city, together with such extra and special rates as are charged by said City in the territory aforesaid, it being expressly understood and agreed that the party of the first part in determining such rates shall not include or consider any vacant land, either uninclosed or inclosed with any building, but shall regard only the building and the land upon which it stands to the width thereof.

3. The said party of the second part shall pay to the party of the first part, for the water so furnished to it, as aforesaid, at the rate of twenty-five thousand dollars (\$25,000) per year, in equal quarterly payments of six thousand two hundred and fifty dollars (\$6,250) each, on the 31st day of March, the 30th day of June, the 30th day of September and the 31st day of December during the continuance of this contract.

4. The party of the first part agrees, at his own cost and expense, and without any additional cost whatsoever to the party of the second part, to set fire hydrants at proper distances upon its mains wherever the party of the second part shall desire such hydrants to be set, and further agrees, at its own cost and expense, to extend its mains to points where fire hydrants may be desired by the party of the second part, and whenever the same shall be desired, such extensions to consist, after July 1, 1905, of mains no smaller than eight (8) inches in diameter; and further agrees that whenever the party of the first part supplies water to persons or corporations owning mains in the Thirty-first and Thirty-second Wards of the Borough of Brooklyn, the persons or corporations owning such mains shall be allowed to erect upon them fire-hydrants, which fire-hydrants are to be used, however, for fire purposes only.

5. The party of the first part further agrees that the party of the second part, its agents and servants, shall have the privilege at any and all hours of the day and night, of using the hydrants of the party of the first part for the purpose of extinguishing fires, without any permit whatsoever. And the party of the second part shall have access to the hydrants, also without permit, between April 1 and November 15 in each year for other purposes than the extinguishing of fires. But between November 15 and April 1 in each year, the party of the second part shall have access to the hydrants, for other purposes than the extinguishing of fires, only after permits have first been obtained from the party of the first part, but the party of the first part shall grant such permits at any hours, whenever the same shall be desired. When the hydrants are used by the party of the second part for other purposes than the extinguishing of fires, the party of the second part shall, on the same day the hydrants are used, notify the water company of their use, and the location of the hydrants used; such notice may be given by telephone.

6. It is further understood and agreed that this contract is not to bar or in any manner affect the right of the party of the second part to acquire the franchises and property of the said party of the first part, by condemnation or other legal proceedings, at any time, or to restrict its rights, if any it has, to lay pipes or mains in said ward, to furnish water for its own use or the use of the inhabitants thereof, or to confer any exclusive franchise upon the party of the first part, or to enhance the value of or add to its franchise or assets, or to extend the territory or franchises of the company; but, on the contrary, the stock, assets and franchises of said company shall be valued in any such proceeding to condemn or acquire the same, without enhancement by reason of any provision of this contract; and the said company expressly stipulates not to file any certificate under any law of the State, to extend its franchise into other wards than that for which it now has a franchise, to wit, the Twenty-ninth Ward of the Borough of Brooklyn.

7. This contract is to commence on the 1st day of January, 1905, and is to continue for five (5) years from said date, unless the title to the property of the party of the first part is previously vested in The City of New York, by condemnation or other legal proceedings, when this contract shall terminate.

8. This contract shall not be binding or of any force unless the Comptroller of The City of New York shall indorse hereon his certificate that there remains unexpended and unapplied, as provided in the Greater New York Charter, a balance of the appropriation or fund applicable thereto sufficient to pay the estimated expense of executing this contract, as certified by the officers making the same.

In witness whereof, the party of the first part hath hereunto caused its corporate seal to be affixed and these presents to be attested by its Secretary, and the party of the second part hath caused these presents to be executed by the Commissioner of Water Supply, Gas and Electricity, the day and year first above written.

The Secretary presented the following communication from the Board of City Magistrates, Second Division, relative to the transfer of \$1,130.27 to "Supplies and Contingencies, Including Telephones":

OFFICE OF THE BOARD OF CITY MAGISTRATES, SECOND DIVISION, }
BOROUGH OF BROOKLYN, March 9, 1905.

To the Honorable the Board of Estimate of The City of New York:

GENTLEMEN—At a special meeting of this Board, held on the 8th inst, the following resolution was offered and unanimously adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York did allow this Board the sum of \$3,500 to pay the contingent expenses for the year 1904; and

Whereas, The bills for such expenses presented by this Board for payment during the year 1904 and paid by the Comptroller of The City of New York amount to the sum of \$3,301.41, leaving a balance in such contingent fund of \$198.59; and

Whereas, There are unpaid bills due for supplies furnished during the year 1904 amounting to \$1,328.86, leaving a deficiency in such contingent fund of \$1,130.27; and

Whereas, There is a surplus in the salary account of this Board for the year 1904 amounting to \$1,837.79; therefore be it

Resolved, That the officers of this Board request the Board of Estimate and Apportionment of The City of New York to transfer from the salary account of this Board for the year 1904 the sum of \$1,130.27 to pay such deficiency in the contingent fund for 1904.

I trust that this matter will receive your favorable consideration.

Respectfully yours,

JAMES G. TIGHE, President.

LAWRENCE F. CARROLL, Secretary.

The following resolution was offered:

Resolved, That the sum of one thousand one hundred and thirty dollars and twenty-seven cents (\$1,130.27) be and the same is hereby transferred from the appropriation made to the City Magistrates' Courts, Second Division, for the year 1904, entitled "Salaries of Clerks, Assistant Clerks, Stenographers and Employees," the same being in excess of the amount required for the purposes thereof, to the appropriation made to said Court for the same year, entitled "Supplies and Contingencies, Including Telephones," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the acquisition by purchase of property, buildings and machinery therein, located at Nos. 196 to 202 Forsyth street, Borough of Manhattan, as a site for school purposes:

CITY OF NEW YORK—DEPARTMENT OF FINANCE, }
COMPTROLLER'S OFFICE,
April 25, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Education at a meeting held December 28, 1904, adopted the following resolution:

"Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described lands and premises on Forsyth and Stanton streets, in Local School Board District No. 6, Borough of Manhattan, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$202,000.

"Beginning at a point formed by the intersection of the northerly line of Stanton street with the easterly line of Forsyth street, and running thence northerly along the easterly line of Forsyth street two hundred (200) feet four (4) inches; thence easterly and parallel with Stanton street one hundred (100) feet; thence southerly and parallel with Forsyth street two hundred (200) feet four (4) inches more or less, to the northerly line of Stanton street; thence westerly along the northerly line of Stanton street ninety-nine (99) feet six (6) inches to the easterly line of Forsyth street, the point or place of beginning.

"Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described."

The property described in the resolution of the Board of Education is known by the Numbers 42 to 48 Stanton street and Nos. 196 to 202 Forsyth street, Borough of Manhattan, being 200 feet front on Forsyth street and 100 feet front on Stanton street. The Stanton street frontage is occupied as tenements and the Forsyth street frontage is occupied by Halstead & Company as a pork packing establishment.

The price at which this property is offered to the City is \$280,000. The property to be sold for this amount of money includes lands, buildings and machinery therein contained.

Upon examination of this property for the purpose of determining its value, it was discovered that in the manufacturing plant the bottom of the cellar was over thirty feet below the level of the curb, and this office communicated with the Board of Education in a letter dated February 9, 1905, and called the attention of the Board of Education to the condition of affairs, and asked whether, if the property was acquired, the Board of Education could utilize it for school purposes with that depth of cellar. In a communication dated March 2, 1905, the President of the Board of Education transmitted a paragraph from a report of the Superintendent of School Buildings in relation to the communication of February 9. Said paragraph reads as follows:

"In answer to the Comptroller's inquiry as to whether or not the present cellar, being thirty feet deep on the Stanton and Forsyth street site, would be any detriment, would say that our Engineers have examined the same and report that the difficulty can be easily overcome, and that by far the greater portion of the present excavation can be utilized for school purposes, and I can see no objection to proceeding with the acquisition of the property."

Although this property which the Board of Education desires to acquire has been in the market for some time for the reason that the owners desire to establish a plant in another location, and while I believe that the price asked is full value, I do not consider it excessive, in the face of what might be obtained in condemnation proceedings, when it is considered that this is a going plant and that in condemnation there are many things which the City would have to pay for that is not now included in this price. I would therefore respectfully recommend that the Board of Estimate and Apportionment approve of the request of the Board of Education and authorize the acquisition of the property described in said resolution, which includes the lands, buildings and machinery of the going plant therein contained, at a price not exceeding \$280,000.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Board of Education in the matter of the selection of a site for school purposes, located in the Borough of Manhattan, bounded and described as follows:

Beginning at a point formed by the intersection of the northerly line of Stanton street with the easterly line of Forsyth street, and running thence northerly along the easterly line of Forsyth street two hundred (200) feet four (4) inches; thence easterly and parallel with Stanton street one hundred (100) feet; thence southerly and parallel with Forsyth street two hundred (200) feet four (4) inches, more or less, to the northerly line of Stanton street; thence westerly along the northerly line of Stanton street ninety-nine (99) feet six (6) inches to the easterly line of Forsyth street, the point or place of beginning, together with all the right, title and interest of the owners of said premises of, in and to the streets in front thereof to the centre thereof.—and that the Comptroller of The City of New York is hereby authorized to enter into a contract for the acquisition of the land, buildings and machinery thereon and therein contained at a price not exceeding two hundred and eighty thousand dollars (\$280,000), said contracts to be presented to the Corporation Counsel for his approval as to form.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

The Secretary presented the following communication from the Corporation Counsel, relative to offers of sale of property located at Nos. 238 to 242 East Fifty-seventh street, Manhattan; and of Lots Nos. 25, 26, 41 and 42 on Barretto and Fox streets, Borough of The Bronx:

LAW DEPARTMENT, }
OFFICE OF THE CORPORATION COUNSEL, }
NEW YORK, April 24, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—I am in receipt of a communication signed by H. L. Smith, Esq., Assistant Deputy Comptroller, dated April 12, 1905, inclosing two offers of sale of real estate made in accordance with section 1436C of the Charter, one being for premises Nos. 238 to 242 East Fifty-seventh street, in the Borough of Manhattan, for \$82,500, and the other, Lots Nos. 25, 26, 41 and 42, in Blocks 27 and 26, on Barretto and Fox streets, in the Borough of The Bronx, for \$16,000. He asks to have these offers examined by the Assistant Corporation Counsel in charge of the proceedings, and a report made to your office in order that the same may be presented to the Board of Estimate and Apportionment.

I have caused these two offers to be investigated, and find that they are both far in excess of the values placed upon the property by the experts who have been employed on behalf of the City.

I therefore advise the rejection of the same.

Respectfully yours,

JOHN J. DELANY, Corporation Counsel.

In the Matter

of

Acquiring title by The City of New York to certain lands and premises situated on the easterly side of Barretto street and the westerly side of Fox street, adjoining Public School 20, in the Borough of The Bronx, in The City of New York, duly selected as a site for school purposes according to law.

To the Board of Estimate and Apportionment:

GENTLEMEN—Please to take notice that in conformity with section 1436C of the Greater New York Charter, we will sell the property known as Block 2726, Lot Nos. 25, 26, 41 and 42, owned by me and sought to be acquired by The City of New York for school purposes, in the above-entitled proceeding, at and for the sum of sixteen thousand dollars (\$16,000).

GEORGE B. VANDERPOEL and FREDERICK W. LOEW,

Executors and Trustees of the Estate of Jacob Vanderpoel,

By JOSEPH A. FLANNERY, Attorney,
No. 149 Broadway, New York City.

The following resolution was offered:

Resolved, That, in accordance with the opinion of the Corporation Counsel, the offers of sale made by the attorney for the owners of premises Nos. 238 to 242 East Fifty-seventh street, Borough of Manhattan, at \$82,500, and Lots Nos. 25, 26, 41 and 42, in Blocks 27 and 26, on Barretto and Fox streets, Borough of The Bronx, at \$16,000, as sites for school purposes, be and the same are hereby rejected.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens—15.

The Secretary presented a resolution of the Board of Aldermen requesting the issue of \$20,000 Special Revenue Bonds for the expenses of the New York City Improvement Commission, which was laid over.

The Secretary presented the following report of the Commissioners of Accounts relative to the request of the Board of Education for the fixing of the salaries of various Inspectors in the Department of Education, which was ordered on file:

OFFICE OF THE COMMISSIONERS OF ACCOUNTS,
ROOMS 103, 104, 105, 115, 119 AND 121 STEWART BUILDING, NO. 280 BROADWAY,
NEW YORK, April 20, 1905.

Subject—Consideration of the request made by the Board of Education for increasing the rate of compensation that may be paid to the holders of certain positions in that Department.

Hon. GEORGE B. MCCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment:

SIR—On April 13, we received from your Honorable Board copies of two communications from the Board of Education, requesting action in the matter of increasing the rate of compensation that might be paid to the holders of certain positions in that Department.

The reference to us was stated to be:
"For an examination and report as to the salaries paid for similar positions in general business."

Positions to be Affected.

The titles to the positions that would be affected by the proposed action, together with the number of each, now employed by the Board of Education, are as follows:

- 1 General Inspector of Repairs.
- 4 General Inspectors.
- 10 Inspectors of Masonry.
- 2 Iron and Steel Inspectors.
- 17 Inspectors of Repairs.
- 4 Inspectors of Heating and Ventilating.
- 2 Inspectors of Furniture.
- 11 Sanitary Inspectors.
- 2 Inspectors of Masonry and Sewers.
- 6 Inspectors of Carpentry.
- 4 Inspectors of Masonry and Carpentry.
- 2 Inspectors.
- 2 Inspectors of Buildings.
- 3 Inspectors of New Buildings.

70

As these titles do not obtain generally in private employment, we made it our first duty to ascertain from the Education Department the specific duties performed by the holders of the various positions.

Possessed of this information, we sent our Examiners to numerous firms and companies engaged in building operations, with such letters of introduction as were calculated to elicit the desired information.

General Information.

We found it to be true in this case, as we had learned from a previous investigation concerning the "prevailing rate of wages," conducted at the instigation of your Honorable Board, that there was no strictly uniform rate of compensation paid to employees engaged in labor of a similar nature, or what seemed to be similar to the lay mind.

Numerous considerations determined the rate paid by various employers in the same line of business—ability, trustworthiness, and length of service being the main factors considered.

We find a strong tendency among all employers of labor of the class under consideration, especially the largest and most successfully conducted concerns, to do precisely what we understand to be the purpose of the Board of Education in its communications to your Honorable Board; to have various rates of wages lawfully established for the same title of position, to the end that new appointees should begin at the lowest rate and in course of time work up to the highest, if they prove themselves to be worthy.

There is a recognition in a true sense of the spirit of the Civil Service Law, and it may be pertinent to state that all of the positions that will be affected by any action that may be taken in this matter by your Honorable Board are held by appointments from the Civil Service lists.

As showing the animus of private employers, we can do no better than to quote the statement of a prominent firm of architects, their reference being to Architectural and Mechanical Draughtsmen:

"The question of wages is largely one of conditions and experience. The average for work of this nature can be fairly placed at \$25 per week, running from \$15 to \$45 per week. Some of our men have started with us as boys, and having shown a natural taste for work of this nature and by night study have equipped themselves as competent Draughtsmen. Others having graduated from schools of architecture in other cities come to us for the experience to be gained in such work as we aim to do. Men drawing more than \$30 to \$35 per week are those competent to make high class designs, as well as being men of good address and qualified to advise and consult with our clients."

Specific Information.

From eight different concerns engaged in masonry construction we learn that wages paid to employees, whose duties may be classed with those of the Inspectors in the employ of the Board of Education, run from \$30, \$33, \$36 and \$40 to \$42 per week, the last named rate being the one now sought to be fixed by the Board of Education.

From those engaged in the work of iron and steel construction, the rates vary between the same limits as those named above.

Wages paid to Foremen and Inspectors of Carpentry Work seem not to be quite so high, ranging from \$24 to \$36 per week, although it should be considered that our field of inquiry embraced but five employers and had there been time for a more extended investigation, a higher as well as a lower rate might have been found.

As nearly as may be, the duties of the "Sanitary Inspector" are allied to those to be found in the employ of concerns doing plumbing and general sanitary work and in the installing of heating apparatus. Inquiry from half a dozen of such firms established the fact that the range of compensation was greater than in other lines of business, running from \$21 to \$27, \$30, \$36, \$40, \$48, and in one case as high as \$60 per week.

It is thus evident that among private concerns as well as in the municipal government, the question of sanitation is considered of the highest importance, and the mere wages paid of secondary importance to the securing of the highest talent.

In electric lighting work the rates paid to men performing similar duties to those of "Electrician" in the Education Department, so far as we could learn, were \$27, \$30 and \$35 per week, the latter rate equalling the one now sought to be fixed by the Board of Education.

We found no case where "Draughtsman" were paid so low a rate as is paid by the Board of Education, though our inquiries were made from only the highest class of architects. The range of compensation, as we learned it, was between \$15 and \$45 per week, the latter sum being paid to the best class of talent, of proved worth to the business outside of their ability as Draughtsmen.

To sum up the results of our labor it would seem that the new rates sought to be established by the action of your Honorable Board, at the request of the Board of Education, are not in excess of those to be found in private business, but in the case of the latter, speaking generally, the rates are paid only to the highest class of talent and ability.

Respectfully submitted,

JOHN C. HERTLE,
WILLIAM HARMAN BLACK,
Commissioners of Accounts.

BOARD OF EDUCATION,
PARK AVENUE AND FIFTY-NINTH STREET,
NEW YORK, March 18, 1905.

To the Board of Estimate and Apportionment:

GENTLEMEN—I beg leave to call your attention to action recently taken by the Board of Education in reference to increasing the rates of compensation of certain Inspectors

and Draughtsmen in the Building Bureau of this Department, as to which action by the Board of Estimate and Apportionment and the Board of Aldermen is necessary before the increased rates may go into effect.

The positions referred to and the present and proposed rates of compensation are as follows:

Position.	Present Salary.	Proposed Salary.
Sanitary Inspector, per week.....	\$40 00	\$45 00
Inspector of Masons' Materials, per annum.....	2,400 00	2,550 00
Chief Draughtsman, per week.....	37 50	42 50
Electrician, per week.....	30 00	35 00
Architectural Draughtsman, per week.....	10 00	12 50
Draughtsman, per week.....	10 00	12 50
Mechanical Draughtsman, per week.....	10 00	12 50

As the resolution adopted by your Board on February 16, 1905, stated that said Board will not consider any requests for the fixing of salaries unless said requests be accompanied by full information on the subject, I desire to call your attention to the following facts:

R. W. Rodman, Sanitary Inspector, whom it is proposed to promote, was appointed April 29, 1896, and is at present in charge of the sanitary division of the Brooklyn branch of the Building Bureau, and looks after the sanitary work in the Brooklyn schools. He also lays out all plans and writes specifications for alterations and repairs to the sanitary work in old buildings, and the plans, etc., for plumbing work for many of the new buildings in Brooklyn. He is also in charge of the plumbing force employed in the shop of the Department of Education in Brooklyn. The Sanitary Inspectors report to him. Mr. Rodman has always discharged his duties in a faithful and efficient manner, and the increased rate of compensation recommended is considered reasonable in view of the duties performed.

Caleb W. Cameron, Inspector of Masons' Materials, whom it is proposed to promote, was appointed July 1, 1895. He has charge of the laboratory of the Building Bureau, testing cements used in the construction of school buildings, the examination and inspection of brick, all masons' materials, etc. He is also detailed to the office of the Superintendent of School Buildings to prepare various statements for the Committee on Buildings, which require special and thorough knowledge of the workings of the Building Bureau. Matters pertaining to leases of premises for school purposes have also been placed in his hands, and he collects and prepares the evidence for the Bureau in suits of law affecting the erection of school buildings, etc., and in damage and lien cases involving the Building Bureau. The increase in his salary is deemed to be commensurate with the duties performed.

Maurice Bause, Chief Draughtsman, whom it is proposed to promote, was appointed December 2, 1885. He has charge of the plans, etc., for heating and ventilating school buildings, under Mr. McCann, Engineer. He has been for many years in his present position, with the duties and responsibilities imposed upon him constantly increasing. He is faithful and conscientious in the performance of his work, and the proposed increase in his salary is considered merited.

Christopher A. Kassenbrock, Electrician, whom it is desired to promote, was appointed December 18, 1895. His duties are very nearly identical with those performed by an Electrical Inspector in this Department, whose salary has recently been increased to \$35 per week. His work is very satisfactory and is performed in a faithful and conscientious manner.

Louis S. Furchtenicht, Architectural Draughtsman, appointed February 23, 1904; William S. Irving, Draughtsman, appointed November 30, 1903, and Hyman Stein, Mechanical Draughtsman, appointed November 30, 1903, whom it is desired to promote, are rendering efficient services, are diligent in the discharge of their duties and are considered to be fairly entitled to the increased compensation proposed.

May I request the Board of Estimate and Apportionment to give the matters herebefore mentioned early and favorable consideration?

Very respectfully yours,

HENRY N. TIFFT, President, Board of Education.

Referred to Commissioners of Accounts for an examination and report as to the salaries paid for similar positions in general business, April 7, 1905.

Mr. Adams, on behalf of the Committee on Buildings, offered the following:

Whereas, The Board of Education on January 25, 1905 (see Journal, page 118), increased the salaries of sundry employees in the Bureau of Buildings by reason of efficiency and fidelity in the performance of their duties; and

Whereas, The increased rates of compensation in certain cases have not been fixed by the Board of Estimate and Apportionment and the Board of Aldermen; therefore be it

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to recommend to the Board of Aldermen that the salaries of the following-named positions in the Department of Education be fixed as follows:

Chief Draughtsman, per week..... \$42 50

Maurice Bause, Chief Draughtsman, whom it is desired to promote, has charge of the plans for heating and ventilating school buildings. He has been employed in this Department for many years, his duties and responsibilities constantly increasing. He is faithful and conscientious in the performance of his work.

Electrician, per week..... \$35 00

Christopher A. Kassenbrock, whom it is desired to promote, performs very satisfactory work in a faithful and conscientious manner, and is considered deserving of the promotion recommended.

Architectural Draughtsman, per week..... \$12 50

Draughtsman, per week..... 12 50

Mechanical Draughtsman, per week..... 12 50

The persons whom it is desired to promote are performing satisfactory work and are efficient and capable employees.

A. EMERSON PALMER, Secretary, Board of Education.

The resolution of the Board of Aldermen requesting an issue of \$20,000 Special Revenue Bonds to be applied to the account of Salaries and Contingencies of the Surrogate's Office, King's County, 1905, was laid over.

The resolution of the Board of Aldermen requesting an issue of \$50,000 Special Revenue Bonds to provide means for repairing street pavements in the Borough of Manhattan was laid over.

The resolution of the Board of Aldermen requesting an issue of \$12,000 Special Revenue Bonds for the payment of the necessary expenses of the Advisory Commission appointed to report on matters affecting the City Debt, Special Assessments, etc., was laid over.

The Secretary presented the following communication requesting an additional appropriation for Carnegie libraries in the Borough of Brooklyn:

BROOKLYN PUBLIC LIBRARY,
NO. 26 BREVOORT PLACE,
April 24, 1905.

To the Honorable the Board of Estimate and Apportionment, New York City:

GENTLEMEN—In accordance with a letter from the Comptroller, dated November 4, 1904, the Brooklyn Public Library desires to submit a request for an appropriation

for the purchase of book for the new Greenpoint (Carnegie) Branch, and for the additional cost of maintaining the Flatbush and South (Carnegie) branches. In the same table will be found an estimate of the cost of maintaining the Brownsville Branch, which has recently been given to the City by the Hebrew Educational Society.

In the case of the Greenpoint Branch we desire to say that the building will be ready for occupancy about June 1, and as this is an entirely new branch, money must be obtained for the purchase of books with which to stock the library, just as was done in the case of the DeKalb and Pacific branches when the Board of Estimate appropriated \$10,000 for the purchase of books for each branch.

Your attention is also called to Table B, which shows the amount required to carry the library through the present year 1905 without a deficit. You will recall that the only addition to our appropriation for 1905 over 1904 was \$38,370, which was intended solely for the new branches—Pacific, DeKalb and Greenpoint—and the new buildings occupied by the Bedford, Williamsburg and Carroll Park branches. That amount does not appear to have been based upon the cost of the different buildings, but upon the supposed additional expenses. Three months of occupancy of these buildings shows that we cannot get through the year on the amount appropriated, and you are respectfully requested to provide for the library an additional amount as shown in Table B, namely, \$17,180, making the total amount needed for the purposes stated, \$36,611.

The work of the branches established in the new Carnegie buildings has increased enormously and the circulation of books in like proportion.

Very truly yours,

DAVID A. BOODY, President.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby appropriates the sum of ten thousand dollars (\$10,000) to provide means for the purchase of the original stock of books for Carnegie libraries in the Borough of Brooklyn, and, pursuant to the provisions of chapter 296 of the Laws of 1905, the Comptroller be and hereby is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Comptroller suggested a new form of arrangement for the seating of the members of the Board so as to afford better accommodations for the public and the press.

Matter referred to the Comptroller and the President of the Borough of Manhattan.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the selection of a site in the Borough of The Bronx for a corporation yard for said borough:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
April 27, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The President of the Borough of The Bronx, in a communication under date of March 29, 1905, requests that the plot on One Hundred and Seventy-seventh street, from Belmont avenue to Crotona avenue, of 15,140 lots, be placed on the calendar for the next meeting of the Board of Estimate and Apportionment, and that, if possible, the two plots submitted by him in a communication under date of March 23, 1905, be acted upon.

The matter of the acquisition of sites for a storage yard in the Borough of The Bronx has been under discussion and examination for a long time past. The site originally selected by the President of the Borough of The Bronx was reported upon adversely by this office on account of there being an enormous amount of rock on the property. This office submitted to the President of the Borough of The Bronx, in a communication dated December 10, 1904, alternative sites, but these were declined by him in a communication dated December 17, on the ground that they were entirely inadequate for the purpose of a corporation yard for his borough. He then submitted three sites and transmitted sketches thereof showing their locations.

Of the three sites selected by the President of the Borough of The Bronx, and transmitted to this office site No. 1, located on Webster avenue and Park avenue, north of East One Hundred and Eightieth street, comprised 34,959 city lots, the asking price of which was in the vicinity of \$85,000. Site No. 2, bounded by East One Hundred and Eighty-fourth and East One Hundred and Eighty-seventh streets, Webster avenue and Park avenue, comprised about 60 city lots, and no price has been put upon this for the reason that the owners do not care to sell. Site No. 3 is really composed of two sites, one containing 18,70 lots, located on the corner of East One Hundred and Seventy-eighth street and Hughes avenue, and the other, comprising 15,14 lots, on Belmont avenue, East One Hundred and Seventy-seventh street (Tremont avenue), and Crotona avenue, the price of the two parcels being in the vicinity of \$130,000.

On or about June 10, 1903, the Commissioners of the Sinking Fund adopted a resolution assigning part of a piece of property on White Plains road, acquired for the Board of Education, to the Police Department, part to the Fire Department, and the balance to the President of the Borough of The Bronx. This is in the upper part of The Bronx, and would have nothing whatever to do with the present location, and the only reason it is mentioned at this time is because, although having been assigned some time ago, it is not now occupied by the President of the Borough of The Bronx.

The Commissioners of the Sinking Fund, at the request of the President of the Borough of The Bronx, have authorized leases for various departments under the control of the said President, the rentals for which leases amount to \$9,000 annually. Three of these leases are for storage-yard purposes for the President of the Borough, within a radius of one mile of the Borough Hall, and approximate 37,750 square feet, or about 15 lots, the annual rental of which is \$1,540. The rentals for the other parcels located in various parts of the Borough of The Bronx for the purpose of offices for the several heads of departments amount to \$7,460.

For the sake of comparison of the areas of storage yards in the five boroughs I desire to submit the following:

	Square feet.
In the Borough of Manhattan the City is the owner of a parcel of land (acquired under the Charters of 1686 and 1730), containing in area....	25,000
The City leases two other parcels of land containing in area.....	50,000
—for which it pays in annual rent, \$8,100.	
In the Borough of Brooklyn there are leased for storage-yard purposes three parcels of land containing in area approximately.....	50,000
—the annual rental of which is, \$1,510.	
In addition to this the City assigned to the Borough President a piece of property, acquired under a tax sale, on DeKalb avenue, containing in area	20,000
In the Borough of Queens there are three large storage yards, the actual dimensions of which we have been unable, up to the present moment to find, but the annual rental paid is.....	\$1,290 00

One of these parcels is located at Jamaica, one at Elmhurst and one in Long Island City.

From the above statement it will be seen that site No. 1 on Webster avenue, which the President of the Borough of The Bronx submits, containing 34 city lots, or approximately 87,500 square feet, would be larger than the total area of the sites of the storage yards under the control of either of the Presidents of the Boroughs of Manhattan,

Brooklyn and Queens. For all purposes site No. 1 is, in my opinion, the best of the three submitted by the President of the Borough of The Bronx for the following reasons:

1. It is in one parcel, and the latest information that I have is that it can be acquired at private sale.

2. It is more centrally located than the site shown as No. 3 by the President of said Borough, which contains two plots separated by a full block, and which would have to have a double set of watchmen patrolling it. It is at least \$40,000 cheaper.

Some time since a communication was transmitted to the President of the Borough of The Bronx, asking how many of the leased parcels of land would be surrendered to the City, which were not required for future use, in case the City purchased the storage yard desired by him. The answer was so indefinite that if the Board of Estimate and Apportionment authorizes the acquisition of a site for the use of the President of the Borough of The Bronx it should be with the understanding that when such site has been acquired all of the storage yard leases are to be surrendered.

I would respectfully recommend that the Board of Estimate and Apportionment approve of the request of the President of the Borough of The Bronx for the acquisition of a storage-yard site for his borough, that they select site No. 1 on Webster avenue and Park avenue, north of East One Hundred and Eightieth street, and that the Comptroller be authorized to acquire the same at private sale at a price not exceeding eighty-five thousand dollars (\$85,000).

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the selection by the President of the Borough of The Bronx of a site for a storage yard for said borough, bounded and described as follows:

Beginning at a point on the westerly side of Park avenue distant 83.7 feet northerly from the northwesterly corner of Park avenue and East One Hundred and Eightieth street, and running thence northerly along the westerly side of Park avenue 177.14 feet to the southwesterly corner of Park avenue and East One Hundred and Eighty-first street; running thence westerly along the southerly side of East One Hundred and Eighty-first street 216.13 feet to the southeasterly corner of Webster avenue and East One Hundred and Eighty-first street, and running thence southerly along the easterly side of Webster avenue 157.90 feet; running thence southeasterly 224.53 feet to the point or place of beginning; together with all the right, title and interest of the owners of said premises of, in and to the streets and avenues in front of said premises to the centre thereof, the premises being known as Lot No. 6, in Block 3030, section 11 on the tax maps of the Borough of The Bronx, for the purposes of taxation.

And also,

Beginning at the point of intersection of the northerly side of East One Hundred and Eighty-first street with the westerly side of Park avenue, and running thence northerly along the westerly side of Park avenue 181.36 feet; thence northwesterly 205.02 feet to the easterly side of Webster avenue; thence southerly along the easterly side of Webster avenue 199.29 feet to the northeasterly corner of Webster avenue and East One Hundred and Eighty-first street, and running thence easterly along the northerly side of East One Hundred and Eighty-first street 213.75 feet to the point or place of beginning; together with all the right, title and interest of the owners of said premises of, in and to the streets and avenues in front of said premises to the centre thereof, the premises being known as Lot No. 28, in Block 3030, section 11, on the tax maps of the Borough of The Bronx, for the purposes of taxation.

And the Comptroller be and he hereby is authorized to enter into contracts for the acquisition of said property at a price not exceeding eighty-five thousand dollars (\$85,000), said contracts to be submitted to the Corporation Counsel for his approval as to form.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding eighty-six thousand dollars (\$86,000), to provide means for the expenses connected with the acquisition of property located at Park avenue, East One Hundred and Eightieth street, Webster avenue and East One Hundred and Eighty-first street, in the Borough of The Bronx, as a site for a storage yard, under the jurisdiction of the President of the Borough of The Bronx, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding eighty-six thousand dollars (\$86,000), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented the following request of the President of the Board of Aldermen and the consent of the Commissioner of Bridges for the transfer of \$225 from the appropriation made to the Department of Bridges for the year 1905, to the appropriation, made to the Board of Aldermen and City Clerk for the same year, entitled "Salaries":

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOARD OF ALDERMEN,
CITY HALL, NEW YORK, April 28, 1905.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—You are respectfully requested to transfer the sum of two hundred and twenty-five dollars from the appropriation entitled "Salaries, General Administration—Salaries of Commissioner, Deputy Commissioner and Employees in Main Office, Department of Bridges, 1905," to the appropriations entitled "The Board of Aldermen and City Clerk, Salaries, 1905," the Commissioner of Bridges having assented thereto.

Respectfully,

C. V. FORNES, President of the Board of Aldermen.

DEPARTMENT OF BRIDGES—CITY OF NEW YORK,
Nos. 13 to 21 PARK ROW,
MANHATTAN, N. Y., April 25, 1905.

Honorable Board of Estimate and Apportionment, No. 280 Broadway, Manhattan:

GENTLEMEN—I respectfully request the transfer of two hundred twenty-five dollars (\$225) from "Salaries, General Administration—Salaries of Commissioner,

Deputy Commissioner and Employees in Main Office," 1905, Department of Bridges, to "Salaries," 1905, City Clerk and Board of Aldermen.

Respectfully,

GEO. E. BEST, Commissioner of Bridges.

The following resolution was offered:

Resolved, That the sum of two hundred and twenty-five dollars (\$225) be and the same is hereby transferred from the appropriation made to the Department of Bridges for the year 1905, entitled "Salaries, General Administration—Salaries of Commissioner, Deputy Commissioner and Employees in Main Office," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the Board of Aldermen and City Clerk, for the same year, entitled "Salaries," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Board adjourned to meet May 5, 1905.

J. W. STEVENSON, Secretary.

DEPARTMENT OF HEALTH.

New York, May 3, 1905.

The Board met pursuant to adjournment.

Present—Commissioners Thomas Darlington, M. D., President; Alvah H. Doty, M. D., Health Officer of the Port; Thomas F. McAvoy, First Deputy Commissioner for the Police Commissioner.

The minutes of the last meeting were read and approved.

4th. Certificates in respect to the vacation of premises at No. 44 Columbia street (rear) (b), No. 25 Montauk avenue, No. 46 Prince street (front), No. 44 Columbia street (rear) (a), Borough of Brooklyn, No. 24 Water street, Second Ward, No. 22 Water street, Second Ward, Borough of Richmond, and No. 48 Prince street (rear), Borough of Brooklyn.

On motion, the following preambles and resolutions were adopted:

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 44 Columbia street, rear (b), in the Borough of Brooklyn, has become dangerous to life and is unfit for human habitation because of defects in the plumbing thereof, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants.

Ordered, That all persons in said building situated on lot No. 44 Columbia street, rear (b), in the Borough of Brooklyn, be required to vacate said building on or before May 9, 1905, for the reason that said building is dangerous to life and is unfit for human habitation because of defects in the plumbing thereof, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And, further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 25 Montauk avenue, in the Borough of Brooklyn, has become dangerous to life and is unfit for human habitation because of defects in the plumbing thereof, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants.

Ordered, that all persons in said building situated on lot No. 25 Montauk avenue, in the Borough of Brooklyn, be required to vacate said building on or before May 9, 1905, for the reason that said building is dangerous to life and is unfit for human habitation because of defects in the plumbing thereof, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And, further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 46 Prince street (front), in the Borough of Brooklyn, has become dangerous to life and is unfit for human habitation because of defects in the draining thereof, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants.

Ordered, That all persons in said building situated on lot No. 46 Prince street (front), in the Borough of Brooklyn, be required to vacate said building on or before May 9, 1905, for the reason that said building is dangerous to life and is unfit for human habitation because of defects in the drainage thereof, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And, further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 44 Columbia street, rear (a), in the Borough of Brooklyn, has become dangerous to life and is unfit for human habitation because of defects in the plumbing thereof, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants.

Ordered, That all persons in said building situated on lot No. 44 Columbia street, rear (a), in the Borough of Brooklyn, be required to vacate said building on or before May 9, 1905, for the reason that said building is dangerous to life and is unfit for human habitation because of defects in the plumbing thereof, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And, further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 24 Water street, Second Ward, in the Borough of Richmond, has become dangerous to life and is unfit for human habitation because of defects in the draining thereof, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants.

Ordered, That all persons in said building situated on lot No. 24 Water street, in the Borough of Richmond, be required to vacate said building on or before May 9, 1905, for the reason that said building is dangerous to life and is unfit for human habitation because of defects in the drainage thereof, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And, further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 22 Water street, Second Ward, in the Borough of Richmond, has become dangerous to life and is unfit for human habitation because of defects in the draining thereof, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants.

Ordered, That all persons in said building situated on lot No. 22 Water street, Second Ward, in the Borough of Richmond, be required to vacate said building on or before May 9, 1905, for the reason that said building is dangerous to life and is unfit for human habitation because of defects in the drainage thereof, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And, further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 48 Prince street (rear), in the Borough of Brooklyn, has become dangerous to life and is unfit for human habitation because of defects in the draining thereof, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants.

Ordered, That all persons in said building situated on lot No. 48 Prince street (rear), in the Borough of Brooklyn, be required to vacate said building on or before May 9, 1905, for the reason that said building is dangerous to life and is unfit for human habitation because of defects in the drainage thereof, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And, further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

5th. Report on compliance with certain orders to vacate premises, etc.

On motion, it was

Resolved, That the following orders be and are hereby rescinded for the reason that the causes for the same have been removed:

BOROUGH OF MANHATTAN.

No. 17540. No. 248 East Broadway.

733. No. 217 West Twenty-second street.

6th. Certificates declaring premises at No. 410 Baltic street and No. 422 Columbia street, Borough of Brooklyn, public nuisances.

On motion, the following orders were entered:

Whereas, The premises No. 410 Baltic street, Borough of Brooklyn, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the report of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the floor of the stable be made water-tight and that the horse stalls be provided with a valley drain properly trapped and connected with a sewer-connected drain; that the manure vault be cleaned and disinfected, and all manure removed therefrom, and its use discontinued; that hereafter all manure be kept inside the stable, and removed from the premises daily, unless pressed in bales, barrels or boxes, so as to reduce it to not more than one-third the original bulk.

Whereas, The premises No. 422 Columbia street, Borough of Brooklyn, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the report of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the premises be connected to the street sewer by extra heavy iron pipe, at least six inches in diameter, with all joints properly lead-caulked; and that it be provided with a fresh-air inlet of similar material, at least four inches in diameter, and with running trap, placed near the front wall of the building, provided with proper hand holes and trap screw ferrules; that the walls and ceiling of stable be whitewashed; that the floor of stable be made water-tight and that the horse stalls be provided with a valley drain properly trapped and connected with sewer-connected drain.

7th. Reports on applications for permits.

On motion, it was

Resolved, That permits be and are hereby granted as follows:

Also City Superintendent Maxwell.

Absent—Mr. Barrett, Mr. Eppig, Mr. Francolini, Mr. Harrison, Mr. Higginson, Mr. Ingalls, Mr. John P. Kelly, Mr. McGowan, Mr. Man, Mr. Partridge, Mr. Payne, Mr. Schaedle, Mr. Thompson, Mr. Wilsey—14.

Reports Laid Over.

The President announced for consideration the report of the Committee on High Schools and Training Schools, relative to changes in the DeWitt Clinton High School. (See Journal, pages 318, 319 and 452.)

Mr. Babbott asked for and obtained unanimous consent to withdraw said report.

The President announced for consideration the report of the Committee on By-Laws and Legislation, relative to amending subdivision 11 of section 38 of the By-Laws, referring to the prescribing of examinations by the City Superintendent. (See Journal, pages 495-496.)

The report was approved and the resolution adopted by a unanimous vote.

The President announced for consideration the report of the Committee on Buildings, relative to taking out for three years a policy of insurance in the sum of \$1,000,000 on all contracts to be let for new school buildings, additions, alterations and repairs, heating, ventilating, electric, sanitary, furniture, etc. (See Journal, pages 474-475.)

In connection therewith the Secretary read the following communication from the Comptroller:

Department of Finance—City of New York, }
April 10, 1905. }

Hon. HENRY N. TIFFT, President, Board of Education:

Sir—Referring to the present uniform policy of the City, as determined by the Board of Estimate and Apportionment and the Sinking Fund Commission, of carrying its own fire and marine risks on public property, the adoption of which has resulted in a very large saving to the City, I beg to suggest that the present custom of requiring contractors to insure buildings while in the course of construction be abandoned as a means of additional saving to the City.

I am of the opinion that if this requirement be waived in future contracts it will insure largely to the benefit of the City by eliminating the cost of insurance in the bids.

Respectfully,

EDWARD M. GRÖUT, Comptroller.

Thereupon the report was referred back to the Committee on Buildings, together with the communications from the Comptroller.

The President announced for consideration the report of the Committee on By-Laws and Legislation, relative to amending section 13 of the By-Laws so as to increase the membership of the Committee on Supplies from seven to nine.

Mr. Greene moved that this report be laid on the table.

Adopted.

The President announced for consideration the report of the Committee on Elementary Schools, relative to authorizing the Board of Superintendents to assign a substitute Teacher of Physical Training to act in the vacant position of Assistant Director of Physical Training.

Mr. Wingate moved to amend the resolution attached to the report so as to provide that such Teacher shall receive the pay of a substitute, as provided in the By-Laws.

Adopted.

The report was approved, and the resolution, as amended, was adopted by a unanimous vote.

The President announced for consideration the report of the Special Committee on the Revision of the Budget.

Mr. Schmitt moved that this report be laid on the table, to be taken up in connection with the matter of changes in the course of study, etc.

Considering Frederick Krumme, Cleaner in Public School 6, Borough of Queens, who has absented himself from duty without leave for more than five days, as having resigned, in accordance with subdivision 2 of Rule XIII. of the rules of the Municipal Civil Service Commission, which provides that absence without leave for a period of five days as having resigned.

Approving the action of the Committee on Care of Buildings in accepting the resignation of Ferdinand W. Church, Cleaner in the Truant School, Borough of Brooklyn, taking effect April 1, 1905.

Approving and ratifying the action of the Committee on Care of Buildings in assigning, temporarily, to the care of public schools, the following-named Janitors:

William S. Mackenzie, to Public School 102 and annex, Brooklyn, taking effect March 28, 1905.

William F. Hammer, to Public School 29, annex, The Bronx, taking effect April 10, 1905.

Edwin H. Rhoades, to Public School 37 (new addition), Queens, taking effect March 16, 1905.

—the Janitors to receive the salary of the position, less the rent allowance, in each case.

Whereas, A request has been received from the President of the Borough of Manhattan for the transfer of Sarah Coyle, Cleaner in Public School 188, Borough of Manhattan, be it

Resolved, That consent is hereby given to the transfer of Sarah Coyle, Cleaner in Public School 188, Borough of Manhattan, to the office of the President of the Borough of Manhattan.

Approving and ratifying the action of the Committee on Care of Buildings in making the following appointments of Janitors and Cleaners, said appointments having been made from eligible lists submitted by the Municipal Civil Service Commission:

Robert J. Cory (Jan.), to Public School 114, Manhattan; annual salary, \$1,131; taking effect April 1, 1905.

William J. Flynn (Jan.), to Public School 62, Queens; annual salary, \$997.32; taking effect April 10, 1905.

Alfred Eckert, Jr. (Cl.), to Public School 6, Queens; annual salary, \$480; taking effect March 27, 1905.

James E. Smith (Cl.), to Public School 81, Queens; annual salary, \$480; taking effect April 1, 1905.

Edward E. Dunlap (Cl.), to Public School 84, Queens; annual salary, \$480; taking effect April 1, 1905.

Mary A. Doran (Cl.), to Public School 81, Queens; annual salary, \$360; taking effect April 1, 1905.

Excusing the absence of Emma F. Carpenter, a Teacher in Public School 33, Manhattan, on January 5 and 6, 1905, due to the severe storm on January 4, 1905, and suspending all By-Laws and parts of By-Laws inconsistent herewith for the purpose of this resolution.

Whereas, The Board of Education possesses a small strip of land on the northerly side of Seventy-first street, between Second and Third avenues, Borough of Brooklyn, which was separated from the present site of Public School 102 by the cutting through of the said Seventy-first street; and

Whereas, The said strip of land is not required for school purposes, and the Board of Education has been requested to turn the same over to the Commissioners of the Sinking Fund; therefore be it

Resolved, That the strip of land, 102.39 feet by 6.74 feet by 102.61 feet, on the northerly side of Seventy-first street, about 247.61 feet east of Second avenue, Borough of Brooklyn, formerly a part of the site of Public School 102, be and it is hereby turned over to the Commissioners of the Sinking Fund for such use as they may deem advisable.

Whereas, By Assembly bill No. 1865, entitled "An act to amend the Greater New York Charter relative to anniversary day, so called, as a holiday in the public schools of the Borough of Brooklyn, City of New York," it is proposed to make the first Friday in June in each year a holiday in all the public schools of the Borough of Brooklyn, and this Board is thereby directed to cause all public schools in such borough to be closed on such day; and

Whereas, In the opinion of this Board such legislation interferes with the proper administration of the school system, is detrimental to the educational system, and establishes a bad precedent; therefore be it

Resolved, That this Board hereby disapproves said Assembly bill No. 1865 and hereby instructs the Committee on By-Laws and Legislation to urge the defeat of said bill.

Requesting the Committee on Supplies and the Committee on Care of Buildings to look into the matter of supplying a sufficient number of fire extinguishers for the various school buildings of the City and to the instruction of the Janitors and Janitors' Helpers in their use, and asking that they report at the next meeting of the Board whether or not any improvement in these matters can be effected.

On motion, all absent members were excused for non-attendance at this meeting.

On motion, the Board adjourned at 5.22 o'clock P. M.

A. EMERSON PALMER, Secretary.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, by the Corporation Counsel, for the appointment of Commissioners of Estimate and Assessment to ascertain and determine the compensation which should justly be made for the discontinuance and closing of CYPRESS AVENUE, between the northerly line of the property of the Harlem River and Port Chester Railroad and the Bronx Kills, in the Twenty-third Ward, in the Borough of The Bronx, in The City of New York.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court, bearing date the 10th day of April, 1905, and entered in the office of the Clerk of the County of New York on the 17th day of April, 1905, Commissioners of Estimate and Assessment for the purpose of ascertaining and determining the compensation which should justly be made to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises, rights, easements or interests therein taken, affected, damaged, extinguished or destroyed by the discontinuance and closing of that portion of Cypress avenue, in the Twenty-third Ward, Borough of The Bronx, which lies between the northerly line of the property of the Harlem River and Port Chester Railroad and the Bronx Kills, as shown on a certain map, duly certified and filed, as follows: One copy thereof in the office of the Register of the County of New York on the 14th day of February, 1905; one copy thereof in the office of the Corporation Counsel on the 15th day of February, 1905; one copy thereof in the office of the President of the Borough of The Bronx on the 20th day of February, 1905, and which said portion of Cypress avenue, so discontinued and closed, had been legally acquired as a public street by the Mayor, Aldermen and Commonalty of The City of New York in proceedings duly confirmed by the Supreme Court, and for the purpose of performing the trusts and duties required of us by chapter 1006 of the Laws of 1895, and by the Greater New York Charter, revised.

All parties and persons interested in any lands, tenements, hereditaments, premises, rights, easements or interests therein taken, affected, damaged, extinguished or destroyed by and in consequence of the discontinuance or closing of the said Cypress avenue, between the northerly line of the property of the Harlem River and Port Chester Railroad and the Bronx Kills, and having any claim or demand on account thereof, are hereby required to present the same to us, duly verified, the undersigned Commissioners of Estimate and Assessment, at our office, 14th floor, Nos. 90 and 92 West Broadway, Borough of Manhattan, in The City of New York, with such affidavits or other proofs as the owners or claimants may desire, within ten days after the date of this notice, and we, the said Commissioners, will be in attendance at our said office on the 12th day of June, 1905, at 11 o'clock in the forenoon of that day to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners and claimants in relation thereto and examine the proofs in support of such claim or claims and such additional proofs and allegations as may then be offered by such owners or claimants or on behalf of The City of New York.

SECOND DEPARTMENT.

In matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of the first street (unnamed) east of the Bronx river, extending from Tremont avenue to Bronx Park, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by orders of the Supreme Court, bearing date the 31st day of March, 1905, and duly entered in the office of the Clerk of the County of New York at his office in the Borough of Manhattan, in The City of New York, on the 10th day of April, 1905; in the office of the Clerk of the County of Kings at his office in the Borough of Brooklyn on the 10th day of April, 1905, and in the office of the Clerk of the County of Westchester at his office at White Plains on the 10th day of April, 1905, a copy of which order was duly filed in the office of the Register of the County of New York, and indexed in the Index of Conveyances, Annexed Territory, Commissioners of Estimate and Assessment, for the purpose of making a just and equitable estimate and assessment of the loss and damage, if any, or of the benefit and advantage, if any, as the case may be, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening the above-mentioned street or avenue, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 10th day of April, 1905; in the office of the Clerk of the County of Kings on the 10th day of April, 1905, and in the office of the Clerk of the County of Westchester on the 10th day of April, 1905, and a just and equitable estimate and assessment of the value of the benefit and advantage of said street or avenue so to be opened or laid out and formed, to the respective owners, lessees, parties and persons respectively entitled to or interested in the said respective lands, tenements, hereditaments and premises not required for the purpose of opening, laying out and forming the same, but benefited thereby, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4, of the Greater New York Charter, as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening the said street or avenue, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our

office, fourteenth floor, Nos. 90 and 92 West Broadway, Borough of Manhattan, in The City of New York, with such affidavits or other proofs as the said owners or claimants may desire, within twenty days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 13th day of June, 1905, at 4 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

FIRST DEPARTMENT.

In the matter of the application of the Mayor, Aldermen and Commonalty of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the purpose of opening EAST ONE HUNDRED AND SEVENTY-SECOND STREET (although not yet named by proper authority), from Jerome avenue to Morris avenue, as the same has been heretofore laid out and designated as a first-class street or road, in the Twenty-fourth Ward, of The City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate of assessment for benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 9th day of June, 1905, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 12th day of June, 1905, at 4 o'clock P. M.

Second—That the abstract of our said supplemental and amended estimate of assessment for benefit, together with our benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings, in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 19th day of June, 1905.

Third—That, pursuant to the notice heretofore given when we filed our estimate of damage, the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the westerly prolongation of a line drawn parallel to and distant 100 feet southerly from the southerly side of that part of East One Hundred and Seventy-second street lying between Inwood avenue and Jerome avenue, with a line drawn parallel to the westerly side of Macomb's road and distant 100 feet westerly therefrom; running thence northerly along said parallel line to the southeasterly side of Cromwell avenue; thence northeasterly along said southeasterly side of Cromwell avenue to the southwesterly side of Macomb's road (said southwesterly side of Macomb's road being the line connecting said southeasterly side of Cromwell avenue with the westerly side of Macomb's road); thence southeasterly along said southwesterly side of Macomb's road to the westerly side of Macomb's road; thence easterly to the intersection of the easterly side of Macomb's road with the westerly prolongation of a line drawn parallel to and distant 100 feet northerly from the northerly side of that part of East One Hundred and Seventy-second street lying between Inwood avenue and Jerome avenue; thence easterly along said westerly prolongation and parallel line to its intersection with a line drawn parallel to the northwesterly side of Jerome avenue and distant 100 feet northwesterly therefrom; thence northeasterly along said parallel line to its intersection with the northwesterly prolongation of a line drawn parallel to and distant 510 feet northeasterly from the northeasterly side of that part of East One Hundred and Seventy-second street extending southerly from Jerome avenue; thence southeasterly along said northwesterly prolongation and parallel line and its prolongation southeasterly to the easterly side of the Grand Boulevard and Concourse; thence easterly on a line drawn parallel to East One Hundred and Seventy-second street to the westerly side of Teller avenue; thence southerly along said westerly side of Teller avenue to its intersection with a line drawn parallel to and distant 100 feet northerly from the northerly side of that part of East One Hundred and Seventy-second street extending from Teller avenue to Morris avenue; thence westerly along said easterly prolongation and parallel line to the middle line of the block between College avenue and Morris avenue; thence southerly along said middle line of the block to its intersection with a line drawn parallel to the southerly side of East One Hundred and Seventy-first street and distant 100 feet southerly therefrom; thence westerly along said parallel line to the southeasterly side of Jerome avenue; thence westerly to the intersection of the northwesterly side of Jerome avenue with the easterly side of Macomb's road; thence northerly along said easterly side of Macomb's road to its intersection with a line drawn parallel to the northwesterly side of Jerome avenue and distant 100 feet northwesterly therefrom; thence northeasterly along said parallel line to its intersection with a line drawn parallel to the southerly side of East One Hundred and Seventy-second street and distant 100 feet southerly therefrom; thence westerly along said parallel line and its prolongation westwardly to the point or place of beginning, as such streets are shown upon the Final Maps and Profiles of the Twenty-third and Twenty-fourth Wards, of The City of New York, excepting from said area all streets, avenues and roads or portions thereof heretofore legally

opened as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That our supplemental and amended last partial and separate report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part I, to be held in the County Court-house, in the Borough of Manhattan, in the City of New York, on the 27th day of July, 1905, at the opening of the Court on that day.

Dated BOROUGH OF MANHATTAN, NEW YORK, May 11, 1905.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court, bearing date the 29th day of March, 1905, and duly entered in the office of the Clerk of the County of Richmond, in the City of New York, on the 10th day of April, 1905, Commissioners of Estimate and Assessment for the purpose of making a just and equitable estimate and assessment of the loss and damage, if any, or of the benefit and advantage, if any, as the case may be, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening the above-mentioned street or avenue, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of Richmond on the 10th day of April, 1905; and a just and equitable estimate and assessment of the value of the benefit and advantage of said street or avenue so to be opened or laid out and formed, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the said respective lands, tenements, hereditaments and premises not required for the purpose of opening, laying out and forming the same, but benefited thereby, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4, of the Greater New York Charter, as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening the said street or avenue, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office, fourteenth floor, Nos. 90 and 92 West Broadway, Borough of Manhattan, in the City of New York, with such affidavits or other proofs as the said owners or claimants may de-

sire, within twenty days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 20th day of June, 1905, at 12.30 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

Dated BOROUGH OF MANHATTAN, NEW YORK CITY, May 26, 1905.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or her name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application thereto at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
