COMMISSIONERS OF THE SINKING FUND OF THE CITY OF NEW YORK.

Proceedings of the Commissioners of the Sinking Fund, at a Meeting Held in Room 16,
City Hall, at 11 o'clock a. m., on Wednesday, May 1, 1907.

Present—George B. McClellan, Mayor; Herman A. Metz, Comptroller; John
H. Campbell, Deputy Chamberlain; Patrick F. McGowan, President, Board of Alder-
men, and John R. Davies, Chairman, Finance Committee, Board of Aldermen.

The minutes of the meeting held April 17, 1907, were approved as printed.

The following communication was received from the Commissioner of Docks,
recommending a lease of lands and lands under water at Corlears and South streets,
East river, Borough of Manhattan, to the Crane Company:

April 19, 1907.

N. TAYLOR PHILLIPS, Secretary, Sinking Fund Commission:

SIR—I beg to advise that, after due consideration, I am of the opinion that the
interests of the City would be best served by leasing to the Crane Company, who
have made application therefor, the following described property:

All the uplands, filled-in lands, lands and lands under water, wharf property,
wharfage rights, terms, easements, emoluments and privileges of and to the uplands,
filled-in lands, lands, lands under water and wharf property situate, lying and being
in the Borough of Manhattan, City of New York, bounded and described as follows,
to wit:

Beginning at a point in the prolongation of the easterly side of Corlears street,
said point being distant about 5 feet south of the southerly side of South street;
running thence northerly and along the easterly side line of Corlears street about
140.50 feet to the northerly side of the platform, erected by the Crane Company,
produced westerly to where it intersects said easterly side line of Corlears street;
thence easterly and along the aforesaid northerly side of platform about 40.5 feet
to the easterly side of aforesaid platform; thence southerly and along said easterly
side of platform about 137.60 feet to the southerly side of said platform; thence
westerly and along said southerly side of platform about 37.50 feet to the point or
place of beginning.

The lease to be for a term of ten years from May 1, 1907; the rental to be at
the rate of \$1,500 per annum; the lease to contain the usual terms and conditions
embodied in forms of leases now in use by this Department, including the clause
providing for the cancellation of the lease in case the Department requires the
premises for improvement under the new plan.

The Crane Company occupy the premises under a permit, during the pleasure
of the Commissioner, at the rate of \$1,216.24 per annum, but, in view of the fact
that lease is now granted to them, it is considered that an advance in the rental
should be paid.

Very respectfully, your obedient servant,

J. A. BENSEL, Commissioner.

In connection therewith the Comptroller presented the following report and
offered the following resolution:

April 25, 1907.

I consider the rental just and reasonable, and I see no reason why the lease
should not be made as proposed by the Commissioner of Docks and Ferries.

CHANDLER WITHINGTON,
Chief Engineer, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and
consent to the execution, by the Commissioner of Docks, of a lease to the Crane
Company, of the following described property:

All the uplands, filled-in lands, lands and lands under water, wharf property,
wharfage rights, terms, easements, emoluments and privileges of and to the uplands,
filled-in lands, lands, lands under water and wharf property situate, lying and being
in the Borough of Manhattan, City of New York, bounded and described as follows,
to wit:

Beginning at a point in the prolongation of the easterly side of Corlears street,
said point being distant about 5 feet south of the southerly side of South street;
running thence northerly and along the easterly side line of Corlears street about
140.50 feet to the northerly side of the platform, erected by the Crane Company, pro-
duced westerly to where it intersects said easterly side line of Corlears street; thence
easterly and along the aforesaid northerly side of platform about 40.5 feet to the
easterly side of aforesaid platform; thence southerly and along said easterly side
of platform about 137.60 feet to the southerly side of said platform; thence westerly
and along said southerly side of platform about 37.50 feet to the point or place of
beginning,

—the lease to be for a term of ten years from May 1, 1907; the rental to be at the
rate of fifteen hundred dollars (\$1,500) per annum; the lease to contain the usual
terms and conditions embodied in forms of leases now in use by the Department of
Docks and Ferries, including the clause providing for the cancellation of the lease
in case the Department requires the premises for improvement under the new plan,
and as recommended by the Commissioner of Docks in communication dated April
19, 1907.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Commissioner of Docks,
submitting for approval a plan for changing the lines of the pier at the foot of
West Fifty-ninth street, North river, Borough of Manhattan:

March 18, 1907.

N. TAYLOR PHILLIPS, Esq., Secretary, Sinking Fund Commission:

SIR—I submit herewith plan for changing the lines of the pier at the foot of
West Fifty-ninth street, North river, in the Borough of Manhattan, which has this
day been adopted by me.

I beg to request the approval of the Commissioners of the Sinking Fund thereto.
A technical description of the plan is as follows:

Whereas, The pier at the foot of West Fifty-ninth street, North river, as de-
termined by the Board of Docks, April 13, 1871, and approved by the Commissioners
of the Sinking Fund, April 27, 1871, is 60 feet wide with the northerly line of the
pier in the westerly prolongation of the northerly line of West Fifty-ninth street;
be it

Resolved, To change the width of said pier by adding about 18 feet along the
northerly side, so that the pier as changed hereby shall be bounded and described
as follows:

Beginning at a point in the bulkhead line established in 1871 where the westerly
prolongation of the southerly line of West Fifty-ninth street intersects the same, and
running thence westerly and in said prolongation 700 feet to the pierhead line as
modified and established by the Secretary of War in 1897;

Thence northerly along said pierhead line 78 feet to a line drawn parallel with
and 18 feet northerly from the westerly prolongation of the northerly line of West
Fifty-ninth street;

Thence easterly and along said parallel line 623 feet;

Thence northeasterly in a straight line to a point in the said bulkhead line distant
26 feet northerly from the westerly prolongation of the northerly line of West Fifty-
ninth street;

Thence southerly and along said bulkhead line 86 feet to the point or place of
beginning.

Very respectfully, your obedient servant,

J. A. BENSEL, Commissioner.

In connection therewith the Comptroller presented the following report and of-
fered the following resolution:

April 13, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. J. A. Bense, Commissioner, Department of Docks and Ferries, in com-
munication under date of March 18, 1907, transmits for the approval by the Com-
missioners of the Sinking Fund, a plan adopted by him March 18, 1907, for changing
the lines of the pier at the foot of West Fifty-ninth street, North river, in the Bor-
ough of Manhattan.

The present legally adopted and approved plan for the pier at the foot of West
Fifty-ninth street shows a pier sixty (60) feet wide and seven hundred (700) feet
long outside of the established bulkhead line. Under the proposed plan, this pier is
widened on the north side, the extra width being twenty-six (26) feet at the bulk-
head line and eighteen (18) feet from a point seventy-seven (77) feet from the
bulkhead line to the end of the pier.

The pier has already been widened on the lines of the proposed plan.

On October 15, 1905, the Dock Commissioner granted a permit to the New York
Central and Hudson River Railroad to erect a trestle for car tracks along the north
side of the pier, charging the company an annual rental of fifteen (15) cents per
square foot of land under water so occupied from the inshore side of Thirteenth
avenue to the pierhead line. The land from the inshore side of Thirteenth avenue
to Twelfth avenue is owned by the company.

The change now proposed in the lines of the pier is in order to make this ad-
dition a legal part of the waterfront plan of the City.

The track connection from this trestle to the company's yard north of Sixtieth
street has been torn up by the City, as it is claimed that the company has been using
Twelfth avenue for this connection without a franchise and without compensation to
the City.

An opinion has been given me informally by an Assistant to the Corporation
Counsel, that it will be impossible for the company to reestablish this track con-
nection to the trestle without occupying either Twelfth avenue or a portion of
Sixtieth street, and that the approval of the Commissioners of the Sinking Fund
to the change in the lines of the pier at the foot of West Fifty-ninth street as
requested will not prejudice the City's right to prevent the occupation of Sixtieth
street or Twelfth avenue by the company without franchise.

I therefore see no objection to the approval of this plan by the Commissioners of the Sinking Fund, as requested by the Dock Commissioner.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of the plan for changing the lines of the pier at the foot of West Fifty-ninth street, North river, Borough of Manhattan, made and adopted by the Commissioner of Docks in accordance with law, March 18, 1907, and transmitted with communication dated March 18, 1907.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Commissioner of Docks, recommending an amendment to the resolution authorizing the Commissioner of Docks to acquire certain property for the improvement of the waterfront in the vicinity of Whale creek, Borough of Brooklyn (see minutes, 1906, page 719):

April 18, 1907.

N. TAYLOR PHILLIPS, Esq., Secretary, Sinking Fund Commission:

SIR—Under date of April 4, 1907, the Corporation Counsel advised this department that a technical error has been discovered in the description of the property sought to be acquired by the City for the improvement of the waterfront in the vicinity of Whale creek, Borough of Brooklyn, said error consisting of the use of the word "westerly" when the word "easterly" should have been used.

I enclose herewith copy of a resolution for adoption by the Commissioners of the Sinking Fund, amending the resolution adopted on June 20, 1906, and beg to recommend the adoption thereof.

Very respectfully, your obedient servant,

J. A. BENSEL, Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

April 22, 1907.

I would advise the adoption of the corrected resolution, as requested by the Commissioner of Docks and Ferries in communication under date of April 18, 1907.

CHANDLER WITHINGTON,
Chief Engineer, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the resolution adopted by the Commissioners of the Sinking Fund at a meeting held on the 20th day of June, 1906, which authorized the Commissioner of Docks to make and serve upon the owner or owners of the property in said resolution described an offer to purchase the same for the sum of two hundred and forty-three thousand one hundred dollars (\$243,100), and in the event of said offer not being accepted to direct the Corporation Counsel to take legal proceedings to acquire said property as provided for in section 822 of the Greater New York Charter, be and the same hereby is amended so as to read as follows:

Resolved, That, pursuant to the provisions of section 822 of the Greater New York Charter, the Commissioners of the Sinking Fund hereby authorize the Commissioner of Docks to make and serve upon the owner or owners of all the uplands, filled-in lands, lands and lands under water, wharf property, wharfage rights, terms, easements, emoluments and privileges of and to the uplands, filled-in lands, lands and lands under water and wharf property situated in the Borough of Brooklyn, and bounded as follows:

Beginning at a point in the pierhead and bulkhead line on the southerly side of Newtown creek, in the Borough of Brooklyn, established by the Secretary of War in 1890, where the easterly line of Henry place intersects the same, and running thence southerly and along said easterly line of Henry place and its prolongation until it intersects the easterly line of North Henry street;

Thence southerly and along said easterly line of North Henry street to the southerly line of Greene street;

Thence westerly and along said southerly line of Greene street 465 feet;

Thence northerly and along the line drawn parallel and distant 465 feet westerly from the easterly line of said North Henry street until it intersects a line drawn parallel with and distant 520 feet westerly from the easterly line of Henry place;

Thence still northerly and along said parallel line to the centre line of Paidge avenue;

Thence westerly and along the centre line of Paidge avenue to a line drawn in the southerly prolongation of the bulkhead on the easterly side of Whale creek;

Thence northerly along the said bulkhead and its southerly prolongation to the bulkhead and pierhead line on the southerly side of Newtown creek established by the Secretary of War in 1890;

Thence easterly and along said bulkhead and pierhead line to the place of beginning,

—an offer to purchase the same for the sum of two hundred and forty-three thousand one hundred dollars (\$243,100), and in the event of said offer not being accepted, the Commissioner of Docks is hereby authorized to direct the Corporation Counsel to take legal proceedings to acquire said property as further provided in said section.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution relative to an amendment to resolution authorizing a lease of premises No. 113 West One Hundred and Thirty-sixth street, Borough of Manhattan, for the use of the Trustees of Bellevue and Allied Hospitals:

April 23, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioners of the Sinking Fund, at their meeting held April 3, 1907, adopted a resolution authorizing a lease of the three-story and basement brownstone dwelling No. 113 West One Hundred and Thirty-sixth street, Borough of Manhattan, for the use of the Trustees of the Bellevue and Allied Hospitals, for a period of two years from April 1, 1907, with the privilege of renewal for an additional year upon the same terms and conditions, at an annual rental of \$1,200, payable quarterly.

In a communication under date of April 23, 1907, Honorable John W. Brannan, President of the Board of Trustees of the Bellevue and Allied Hospitals, states that inasmuch as the premises are at present in good condition and not likely to require any extensive interior repairs or alterations during the time the property will be occupied by his department, the Trustees have no objections to the insertion of a clause in the lease providing that all expenses for interior alterations, repairs or improvements that are required shall be borne and paid for by the lessee, and that such alterations, repairs or improvements shall be left upon the expiration of the lease.

The owner has requested that this clause be inserted before he will sign the said lease. The request being reasonable, I would respectfully recommend that the Commissioners of the Sinking Fund amend their resolution of April 3, 1907, in regard to the above matter by inserting the following clause:

"The expense for interior alterations, repairs or improvements that are required during the term hereof shall be borne by The City of New York, and all such alter-

ations, repairs or improvements shall be left remaining in the said premises upon the expiration of the lease, but it is understood that no repairs or alterations are to be made in the said premises without the consent of the owner, and that the said premises will be used for the purposes of a training school for Nurses."

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held April 3, 1907, authorizing a lease to the City of the three-story and basement brownstone dwelling No. 113 West One Hundred and Thirty-sixth street, Borough of Manhattan, for the use of the Trustees of Bellevue and Allied Hospitals, be and the same is hereby amended by inserting the following clause:

"The expense for interior alterations, repairs or improvements that are required during the term hereof shall be borne by The City of New York, and all such alterations, repairs or improvements shall be left remaining in the said premises upon the expiration of the lease, but it is understood that no repairs or alterations are to be made in the said premises without the consent of the owner, and that the said premises will be used for the purposes of a training school for Nurses."

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution, relative to a lease of premises at Nos. 127 and 129 Franklin street, and Nos. 200 to 206 West Broadway, Borough of Manhattan, for the use of the Commissioners of Accounts:

April 17, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioners of Accounts now occupy, among others, Rooms 103, 104 and 105, on the third floor of the Stewart Building, Borough of Manhattan, which have been used by the Commissioners for a laboratory and for other purposes. The nature of the work performed in the chemical and physical laboratories, and the materials used, has been deemed by the insurance department as being extra hazardous, and the owners of the Stewart Building have requested that outside quarters be furnished the Commissioners of Accounts for this branch of their work. The space occupied in the said building contains about 1,801 square feet, and the rent paid approximates \$3,300 per annum.

The Commissioners of Accounts have found floor space in the building Nos. 127 and 129 Franklin street, and No. 200 to 206 West Broadway, and the owner of the building, Mr. William H. Barron, has offered to rent the eighth, or top floor, containing 3,800 square feet, and 2,000 square feet of space on the roof, with the privilege of erecting thereon an iron shed or room suitable for a laboratory, at an annual rental of \$3,000, for a term of three years from May 1, 1907, with the privilege of a renewal for a further period of two years upon the same terms and conditions. The owners agree to provide water for the present connections, and in case the laboratory uses an additional supply, the City will have to meter the same. The owner also to furnish heat and elevator service, both freight and passenger.

The City now occupies a floor in the same building, for which a rental of \$2,000 per annum is charged, the floor space being about 3,800 square feet. The reason a higher rental is asked than that paid by the City for the Board of Water Supply, is that it is proposed to lease the top floor to the Commissioners of Accounts, which floor is more desirable, having light on all sides, whereas the floor occupied by the Board of Water Supply has light on two sides only, and in addition there is the 2,000 square feet of roof space.

I would, therefore, respectfully recommend that the Commissioners of the Sinking Fund approve of the request of the Commissioners of Accounts and authorize a lease of the top floor, containing 3,800 square feet, and a portion of the roof, containing 2,000 square feet, in the building known by the numbers 127 and 129 Franklin street and Nos. 200 to 206 West Broadway, in the Borough of Manhattan, for a period of three years from May 1, 1907, with the privilege of renewal for a further period of two years upon the same terms and conditions, at an annual rental of \$3,000, payable quarterly; the owners to furnish heat and elevator service, both freight and passenger, and to provide the water used for the present water meters for ordinary purposes, the City to pay for any additional supply which might be used in the laboratory, the said water to be metered, the rent charged being reasonable and just, and the necessity for the lease being the enforced removal owing to extra hazardous conditions of the quarters occupied at present by the Commissioners of Accounts. The City to have the privilege of erecting on the roof an iron shed or room suitable for laboratory purposes; the owners to put the building in proper condition for rental and to keep the outside of said building in good condition during the term of the lease. Lessor, Barron Realty Company, William H. Barron, president.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City, from the Barron Realty Company, William H. Barron, president, of the top floor containing 3,800 square feet, and a portion of the roof containing 2,000 square feet, in the building known as Nos. 127 and 129 Franklin street, and Nos. 200 to 206 West Broadway, Borough of Manhattan, for the use of the Commissioners of Accounts, for a term of three years from May 1, 1907, with the privilege of renewal for a further period of two years upon the same terms and conditions, at an annual rental of three thousand dollars (\$3,000), payable quarterly; the owners to furnish heat and elevator service, both freight and passenger, and to provide the water used for the present water meters for ordinary purposes; the City to pay for any additional supply that might be used in the laboratory; the said water to be metered; the City to have the privilege of erecting on the roof an iron shed or room suitable for laboratory purposes, the owners to put the premises in tenantable condition for occupancy and to keep the outside of the building in good condition during the term of the lease; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Commissioner of Street Cleaning, relative to a lease of premises No. 421 Columbia street, Borough of Brooklyn:

April 22, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman, Board of Sinking Fund Commissioners:

SIR—I request the consent and approval of your Board, pursuant to section 541 of the Charter, for a lease from Bridget Ryan (No. 429 Columbia street, Brooklyn), as administratrix of the estate of Patrick F. O'Neill, deceased, of the store and front half of the cellar of the premises known as No. 421 Columbia street, corner of Huntington street, Borough of Brooklyn, from the 1st day of May, 1907, for a term of three years, at the annual rental of \$360, payable quarterly; the lessor to put and keep the premises in good tenantable condition and repair during the term of the lease, and to pay for the water used on the premises.

The dimensions of the store are 20 feet in width by 60 feet in depth.

The proposed lease is intended to furnish a new section station in the place of No. 728 Hicks street, the lease of which expires on May 1, 1907, and is described as much more conveniently located for the purposes of this Department.

Respectfully,

WM. H. EDWARDS, Deputy Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

April 24, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—William H. Edwards, Deputy Commissioner of the Department of Street Cleaning for the Borough of Brooklyn, in a communication addressed to the Commissioners of the Sinking Fund, under date of April 22, 1907, requests that a lease be entered into for the store floor and front half of the cellar of the premises No. 421 Columbia street, at the southeast corner of Huntington street, Borough of Brooklyn, for a period of three years from May 1, 1907, at an annual rental of \$360, payable quarterly, lessor to put and keep the premises in good tenantable condition and repair during the term of the lease and to pay for the water used on the premises, the premises to be used for a new section station in place of No. 728 Hicks street, the lease of which expires on May 1, 1907.

I have had an examination made of the premises in question and it appears that they consist of the store floor and front half of the cellar in a four-story brick building, 20 by 60 feet, at the southeasterly corner of Columbia and Huntington streets, Borough of Brooklyn. The store is in fair repair, has water and gas, but no gas fixtures, and is heated by stoves.

The building, as stated, is 20 by 60 feet, but the rear portion of the store, about two-thirds of its full depth, is not more than 14 feet wide, the remainder being taken up by a side hall entrance way and stairs. The rent asked, \$360 a year, is in my opinion reasonable, and I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of the store floor and front half of the cellar of the premises known as No. 421 Columbia street, corner of Huntington street, Borough of Brooklyn, for a period of three years from May 1, 1907, at an annual rental of \$360, payable quarterly. The lessor to put and keep the premises in good tenantable condition and repair during the term of the lease and to pay for the water used on the premises. Lessor, Bridget Ryan, administratrix of the estate of Patrick F. O'Neill.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution, by the Commissioner of Street Cleaning, of a lease to the City from Bridget Ryan, administratrix of the estate of Patrick F. O'Neill, of the store floor and front half of the cellar of the premises known as No. 421 Columbia street, corner of Huntington street, Borough of Brooklyn, for a period of three years from May 1, 1907, at an annual rental of three hundred and sixty dollars (\$360), payable quarterly, the lessor to put and keep the premises in good tenantable condition and repair during the term of the lease and to pay for the water used on the premises; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report relative to a renewal of the lease of premises at No. 238 Broome street, Borough of Manhattan, for the Department of Street Cleaning:

April 22, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—Honorable William H. Edwards, Deputy and Acting Commissioner of the Department of Street Cleaning, in a communication under date of April 19, 1907, addressed to the Commissioners of the Sinking Fund, requests a renewal of the lease of the premises No. 238 Broome street, in the Borough of Manhattan, for a period of two years from May 1, 1907, at an annual rental of \$900, payable monthly. The rental now paid for the premises is at the rate of \$600 per annum, and the increase of rental at the rate of \$300 per annum was considered high by this office. A representative of the Department of Street Cleaning was interviewed in regard to the matter, and he stated that every effort had been made to remove from the premises, without avail, as no suitable quarters could be obtained. Under these conditions, I am of the opinion that the rental asked is not excessive. I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize a renewal of the lease of the store of the premises No. 238 Broome street, Borough of Manhattan, for a period of two years from May 1, 1907, at an annual rental of \$900, payable monthly, otherwise upon the same terms and conditions as contained in the existing lease. Lessor, John Schween.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Discussion followed. The following resolution was then offered:

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution by the Commissioner of Street Cleaning of a renewal of the lease to the City of the store of premises No. 238 Broome street, Borough of Manhattan, for a period of two years from May 1, 1907, at an annual rental of nine hundred dollars (\$900), payable monthly, otherwise upon the same terms and conditions as contained in the existing lease; lessor, John Schween; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution relative to an amendment to resolution authorizing a lease of the front portion of the third floor of premises No. 44 East Twenty-third street, Borough of Manhattan, for the use of the Tenement House Department:

April 24, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioners of the Sinking Fund at their meeting held April 23, 1907, adopted a resolution authorizing the lease of the front portion of the third floor of the building situated on the southwesterly corner of Fourth avenue and Twenty-third street, Borough of Manhattan, for the use of the Tenement House Department, said rooms having a frontage of about 72 feet on Fourth avenue and about 96 feet on Twenty-third street, for a period from the date of occupation until May 1, 1910, at an annual rental of \$5,000, payable quarterly, the lessors to furnish water rent, steam heat, janitor and elevator service; the City to keep the premises in repair and supply the necessary light.

In view of the fact that the rental per square foot which the City pays for these rooms is less than that paid for the rooms on the third floor of said building, occupied by the Tenement House Branch of the Law Department, the lessors refuse to render janitor service for the rooms in question, and, after an examination of the details of the matter, I am of the opinion that their request is reasonable. I would therefore respectfully recommend that the Commissioners of the Sinking Fund amend their resolution of April 3, 1907, in regard to the above matter, by striking out the word "janitor" after the words "the lessor to furnish water rent, steam heat."

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held April 3, 1907, authorizing a lease to the City of the front portion of the third floor of the building on the southwesterly corner of Fourth avenue and Twenty-third street, Borough of Manhattan, for the use of the Tenement House Department, be and the same is hereby amended by striking out the word "janitor" after the words "the lessor to furnish water rent, steam heat."

The Comptroller presented the following report and offered the following resolutions, relative to the lease of premises on the northeasterly corner of Avenue G and East Ninety-second street, Borough of Brooklyn, for the use of the Police Department (see page 107):

April 23, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioners of the Sinking Fund, at their meeting held February 20, 1907, adopted a resolution authorizing a renewal of the lease to the City of the stable premises near the northeasterly corner of Avenue G and East Ninety-second street Borough of Brooklyn, for the use of the Police Department, for a term of one year from May 1, 1907, at an annual rental of \$360, payable monthly, with the privilege of renewal for an additional year upon the same terms and conditions. Lessor, Mrs. Katharine Mullally.

It appears that an error was made in the original report in stating that this was a renewal lease when the same was a new lease. I would therefore respectfully recommend that the Commissioners of the Sinking Fund amend their resolution of February 20, 1907, in regard to this matter by striking out the words "renewal of the" in said resolution, and authorize the Corporation Counsel to prepare the same.

The Comptroller presented the following report and offered the following resolution relative to a lease of room No. 805 in the Tribune building, corner of Nassau and Spruce streets, Manhattan, for the Hudson-Fulton Celebration Commission:

April 16, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—Henry W. Sackett, Secretary of the Hudson-Fulton Celebration Commission, in a communication under date of April 11, 1907, addressed to the Commissioners of the Sinking Fund, requests that a lease be entered into of room 805 in the Tribune building at the northeasterly corner of Nassau and Spruce streets, in the Borough of Manhattan, for the use of his Commission, for a period of one year from May 1, 1907, at an annual rental of \$1,000, payable monthly, and further states, with reference to this application, that under resolutions of the Commissioners of the Sinking Fund of June 20, 1906, and October 10, 1906, room No. 605 was rented for one year from the date of occupation for this purpose.

The room now requested to be re-leased is a corresponding room to the present quarters, two floors higher, which will have better light and be more conveniently located with reference to the offices of the Secretary and Assistant Secretary for the transaction of business. The present lease will not expire until June 13, 1907, and it is the intention of the agents of the building to cancel the said lease as of May 1, 1907, if the new lease is entered into. The rental asked of \$1,000 per annum is at the same rate as now paid for the room on the sixth floor, and is in my opinion reasonable. I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of room No. 805 on the eighth floor of the Tribune building at the northeasterly corner of Nassau and Spruce streets, Borough of Manhattan, for the use of the Hudson-Fulton Celebration Commission, for a period of one year from May 1, 1907, at an annual rental of \$1,000, payable monthly, the lessor to furnish light, heat, elevator and janitor service. Lessor, Tribune Association.

It is further recommended that the said lease should not be entered into unless the present lease is canceled as of May 1, 1907.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City, from the Tribune Association, of room No. 805, on the eighth floor of the Tribune building on the northeasterly corner of Nassau and Spruce streets, in the Borough of Manhattan, for the use of the Hudson-Fulton Celebration Commission, for a period of one year from May 1, 1907, at an annual rental of one thousand dollars (\$1,000), payable monthly, the lessor to furnish light, heat, elevator and janitor service; the lease to be on condition that the lessors cancel the lease of room No. 605, occupied by the Hudson-Fulton Celebration Commission, which expires on June 13, 1907, as of May 1, 1907; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel as provided by sections 149 and 217 of the Greater New York Charter.

thousand dollars (\$1,000) per annum for the first three years, payable at the end of the year, and the remaining two thousand dollars (\$2,000) to be paid at the expiration or sooner termination of the lease; the lease to contain a provision that the term of occupation may be shortened or terminated at any time by the Commissioner of Bridges, with the approval of the Commissioners of the Sinking Fund if it is deemed that the land is no longer necessary for the construction of said bridge; and the Commissioners of the Sinking Fund, deeming the said rent fair and reasonable, and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same, when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

Which resolution was unanimously adopted.

The Comptroller presented the following report and offered the following resolution relative to an assignment of the premises No. 176 Mulberry street, Borough of Manhattan, to the Department of Street Cleaning:

April 17, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioners of the Sinking Fund at their meeting held April 17, 1907, adopted a resolution authorizing the Comptroller to derive such revenue from the property No. 174 Mulberry street, in the Borough of Manhattan, turned over to it by the Board of Education, as may be possible until some other disposition of the property is made.

It appears that the Board of Education at its meeting held March 27, 1907, adopted a resolution that the premises No. 174 Mulberry street, Borough of Manhattan, were no longer required for the use of its Department. The building in question is now known by the number, 176 Mulberry street, Borough of Manhattan (formerly No. 174), and was the old headquarters of Volunteer Hose No. 9, located on the easterly side of Mulberry street, 99 feet 2 inches south of Broome street. This is a short lot measuring 28 feet 3 inches front by 50 feet 6 inches by 28 feet 4 inches by 50 feet 6 inches, and has on it an old three-story and cellar and high attic brick building.

William H. Edwards, Deputy Commissioner of the Department of Street Cleaning, in a communication under date of April 15, 1907, states that after an inspection of this building he would request that his Department be allowed to use the same for a section station for the Sixth Section of his Department. This would save \$900 per annum, the rental of the present section station, and would serve their purposes very well.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund assign the premises known by the No. 176 Mulberry street, Borough of Manhattan, to the Department of Street Cleaning.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That, pursuant to the provisions of section 205 of the amended Greater New York Charter, the Commissioners of the Sinking Fund hereby assign to the Department of Street Cleaning, the premises known as No. 176 Mulberry street, Borough of Manhattan.

The report was accepted and the resolution unanimously adopted.

The Comptroller brought up the matter of the report of the Appraiser of Real Estate, recommending that the Commissioners of the Sinking Fund concur in the resolutions adopted by the Board of Estimate and Apportionment authorizing the Comptroller to enter into contracts for the acquisition of property known as No. 180 Graham avenue, in the Borough of Brooklyn, for the use of a Magistrates' Court House. This matter, together with the matter of the proposed lease of the building No. 180 Graham avenue, Borough of Brooklyn, for the use of the Fifth District Magistrates' Court, were referred to a Select Committee, consisting of the President of the Board of Aldermen, the Comptroller and the Chairman of the Finance Committee, Board of Aldermen, with instructions to report thereon at the next meeting.

The Comptroller presented the following report of the Appraiser of Real Estate, relative to an application of the President of the Borough of Richmond for a lease of premises located on Amboy avenue, Tottenville, Borough of Richmond:

April 18, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—Honorable George Cromwell, President of the Borough of Richmond, requests the Commissioners of the Sinking Fund to approve of a lease of the following premises:

"Premises located on Amboy avenue, Tottenville, Richmond Borough, New York City, 200 feet from Central avenue, being approximately 126 feet deep by 51 feet 9 inches front, excepting and reserving the frame dwelling situate on the above described premises, this lease being intended to cover a certain tool house and a certain barn located on the above premises, for a term of two years and four months from March 1, 1905, with the privilege of a renewal for an additional year, at an annual rental of fifty dollars (\$50), payable quarterly; Lizzie Higgins, lessor," —and states that these premises have been in use by his office since the date specified, but through an oversight no lease has been executed, and he desires that the same shall run only until June 30, 1907, which is the time such lease in his Department expires.

Several times the President of the Borough of Richmond has requested the Commissioners of the Sinking Fund to approve of leases, for periods running back a year or so, of premises which his various departments have used without the consent or approval of the Commissioners of the Sinking Fund, and several times the Commissioners of the Sinking Fund have approved of these leases, and have called his attention to the fact that the action of his Department in taking possession of property contrary to the provisions of the Charter was illegal and would place him in a position whereby he would be personally liable for rent.

Upon receipt of his communication, addressed to the Commissioners of the Sinking Fund, the Secretary of the Commissioners sent to the President of the Borough of Richmond the following letter:

"I am in receipt of a communication from your Commissioner of Public Works, Louis L. Tribus, requesting approval of a lease of premises located on Amboy avenue, Tottenville, Borough of Richmond, which have been in use, as he says, since March 1, 1905, without the authority of the Commissioners of the Sinking Fund.

"Your attention has repeatedly been called to the fact that under the law the sole power of leasing property for public use is vested in the Commissioners of the Sinking Fund, and that no lawful occupation of any property can be taken until the authority of the Commissioners is first obtained. Notwithstanding this, however, you still continue the unlawful occupation of premises and thereby make yourself personally liable for the payment of the rent.

"The Commissioners of the Sinking Fund resent very much such wilful disregard of the authority vested in them, and the matter in question will be the subject of a special report by the Comptroller to the Commissioners of the Sinking Fund.

"Respectfully,

(Signed) "N. TAYLOR PHILLIPS,

"Secretary, Commissioners of the Sinking Fund."

The above letter shows that since March 1, 1905, the President's office has been in possession of certain premises located at Amboy avenue, Tottenville, the property being 51 feet 9 inches width in front by 126 feet in depth, for which the Borough President was obligated to pay the sum of \$50 rent per annum, the terms of the occupation being understood between the owner of the property and the Borough President as two years and four months from March 1, 1905, with the privilege of a renewal for an additional year, at an annual rental of \$50, payable quarterly, the lessor being Lizzie Higgins.

There is erected on the property a certain tool house and a barn, which the Department has had use of. The two years and four months will expire on June 30, 1907, and the one year additional renewal period would carry it to June 30, 1908.

I see no reason, as long as the Borough President has certified that his office has been in possession of this property since March 1, 1905, why the City should not pay the rent, and I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize a lease nunc pro tunc for a period of two years and four months from March 1, 1905, at an annual rental of \$50, payable quarterly, the lease to contain a clause granting the privilege of renewal for an additional year from June 30, 1907, upon the same terms and conditions, of the premises located at Amboy avenue, Tottenville, Borough of Richmond, being 51 feet 9 inches width in front by 126 feet in depth, and beginning 200 feet from Central avenue, excepting and reserving from the lease the frame dwelling situated on the above described property, but the lease to cover a certain tool house and barn located thereon. Lessor, Lizzie Higgins.

I also certify that the rent charged is fair and reasonable, and would further recommend that the Commissioners of the Sinking Fund again call to the attention of the Borough President the matter of occupying property not owned by the City without first obtaining the consent and approval of the Commissioners of the Sinking Fund.

Respectfully submitted for approval,
MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Discussion of the matter followed and the Secretary was directed to inform the President of the Borough of Richmond that, while this lease is approved, the Board will in future positively refuse to authorize the payment of the rent of any premises occupied by him unless the approval of the Commissioners of the Sinking Fund is first obtained.

The following resolution was then offered:

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City from Lizzie Higgins of premises located on Amboy avenue, Tottenville, Borough of Richmond, 200 feet from Central avenue, being approximately 126 feet deep by 51 feet 9 inches front, excepting and reserving the frame dwelling situate on the above described premises, this lease being intended to cover a certain tool house and a certain barn located on the above premises, for the use of the President of the Borough of Richmond, for a term of two years and four months from March 1, 1905, with the privilege of renewal for an additional year, at an annual rental of fifty dollars (\$50), payable quarterly; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

Which resolution was unanimously adopted.

April 26, 1907.

SIR—On January 16, 1907, William J. Such payment is in excess of the rightful charge in the sum of two dollars and forty-two cents (\$2.42), as a prior payment was made by said William J. Haase on December 19, 1906.

The amount so overpaid was deposited in the Sinking Fund of the City of Brooklyn; the refund will be made through account Refunding Assessments Paid in Error, Borough of Brooklyn.

The following was received from the Department of Bridges relative to a lease of rooms Nos. 1135 and 1136 in the Park Row Building, Borough of Manhattan:

April 11, 1907.

Hon. N. TAYLOR PHILLIPS, Secretary, Commissioners of the Sinking Fund, No. 280 Broadway, Manhattan:

SIR—I hereby make application for a lease of offices in the Park Row Building, Borough of Manhattan, City of New York, consisting of rooms Nos. 1135 and 1136, on the eleventh floor of said building, with heat, light and cleaners' services, at a rental of \$1,062 per annum.

These offices desired to be leased are for the additional engineering force required on the Blackwell's Island Bridge.

The following information is furnished, pursuant to the directions of the Commissioners of the Sinking Fund:

1. The agents are Douglas Robinson, Chas. S. Brown & Co., Park Row Building, New York.
2. The offices desired to be leased are rooms Nos. 1135 and 1136, on the eleventh floor of the Park Row Building, Borough of Manhattan, and the area is about 481 square feet.
3. The lease should be drawn to date from April 15, 1907, and be for one year, with privilege of renewal for same period.
4. The annual rental to be \$1,062.
5. Repairs will be made by the lessors.
6. The lessors will supply heat, light and janitor service.
7. Water taxes to be paid by the lessor.
8. The necessity for leasing these premises is to provide offices for the additional engineering force required for the Blackwell's Island Bridge.
9. The premises are recommended as the most reasonable that can be secured for the purposes of this Department, being convenient to the present offices of this Department.

Respectfully,

J. W. STEVENSON, Commissioner of Bridges.

April 26, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—Under date of April 11, I requested the Commissioners of the Sinking Fund to lease for the use of this Department rooms Nos. 1135 and 1136, on the eleventh floor of the Park Row Building.

This additional room is for the use of the draughting force of the Department, which has been considerably increased to facilitate the construction of the Manhattan and Blackwell's Island Bridges. This force has been increased by twelve men within the last few weeks, and just as soon as I can obtain more men from the Civil Service list I shall appoint them.

It is only possible for these men to do their work properly under the direct supervision of the Engineers who are located in this building. Their services could not be used advantageously if they were to be quartered in any other place. I wish to call your attention to the fact that there is more work in progress at the present time in this Department than ever before in its history.

I should like very much to have you favor the authorization of the lease for the rooms requested when the matter is brought up before the Board.

Very truly yours,

J. W. STEVENSON, Commissioner of Bridges.

In connection therewith the Comptroller presented the following report and offered the following resolution:

April 29, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—Honorable James W. Stevenson, Commissioner of the Department of Bridges, in a communication under date of April 11, 1907, requests that a lease be entered into of Rooms Nos. 1135 and 1136, on the eleventh floor of the Park Row Building, for the purpose of providing offices for the additional engineering force required for the Blackwell's Island Bridge. The said rooms contain 481 square feet, and the rental asked of \$1,062 per annum is at the same rate as now paid for rooms in the said building in a like location, and is in my opinion reasonable. This additional room is for the use of the draughting force of the Department of Bridges, which has been considerably increased to facilitate the construction of the Manhattan and Blackwell's Island bridges. This force has been increased by twelve men within the last few weeks, and the Commissioner of the Department of Bridges states that just as soon as he can obtain more from the Civil Service list he shall appoint them; that it is only possible for these men to do their work properly under the direct supervision of the Engineers who are located in this building, and their services could not be used advantageously if they were to be quartered in any other place. He also calls attention to the fact that there is more work in progress at the present time in this Department than ever before in its history.

I would, therefore, respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of Rooms Nos. 1135 and 1136, on the eleventh floor of the Park Row Building, Nos. 13 to 21 Park Row, Borough of Manhattan, for a period from the date of occupation to April 1, 1908, at an annual rental of \$1,062, payable quarterly; the lessor to furnish light, heat, elevator and janitor service. Lessor, Park Row Realty Company.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City, from the Park Row Realty Company, of Rooms Nos. 1135 and 1136, on the eleventh floor of the Park Row Building, Nos. 13 to 21 Park row, Borough of Manhattan, for use of the Department of Bridges, for a period from the date of occupation to April 1, 1908, at an annual rental of ten hundred and sixty-two dollars (\$1,062), payable quarterly; the lessor to furnish light, heat, elevator and janitor service; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Department of Street Cleaning, relative to a lease of premises Nos. 141 and 143 West End avenue, Borough of Manhattan:

April 29, 1907.

Hon. GEO. B. McCLELLAN, Mayor, Chairman, Board of Sinking Fund:

SIR—I request the consent and approval of your Board, pursuant to section 541 of the Charter, for a lease from Charles H. Bohland, Arthur Alkier and Samuel D. Davis, of the two stores, and the two basements beneath, of the premises No. 143 West End avenue, Borough of Manhattan, 40 feet 5 inches north of West Sixty-sixth street, for a term of five years from May 1, 1907, at the annual rental of \$1,200, payable monthly; the lessors to put and keep the premises in good tenantable condition and repair and to pay for the Croton water used on the premises during the term of the lease, and to alter the premises so as to connect the two stores; the lease to be made subordinate to any mortgage or mortgages which the lessors may put upon the premises during the term of the lease.

The two stores contain about 850 square feet, and the basement about 550 square feet. This lease is intended to furnish a section station for the Department in place of the one at Nos. 59 and 61 West Sixty-sixth street, which expires May 1, 1907.

Respectfully,

WM. H. EDWARDS, Deputy and Acting Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

April 30, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—Mr. William H. Edwards, Deputy and Acting Commissioner of the Department of Street Cleaning, in a communication addressed to the Commissioners of the Sinking Fund, under date of April 29, 1907, requests that a lease be entered into of the two small stores and basements underneath of the premises Nos. 141 and 143 West End avenue, west side, 50 feet 5 inches north of West Sixty-sixth street, Borough of Manhattan, for a term of five years from May 1, 1907, at an annual rental of \$1,200, payable monthly; the lessors to put and keep the premises in good tenantable condition and repair and to pay for the Croton water used on the premises during the term of the lease, and to alter the premises so as to connect the two stores; the lease to be made subordinate to any mortgage or mortgages which the lessors may put upon the premises during the term of the lease, the premises being intended to furnish a section station for the Department of Street Cleaning in place of the one now occupied by it at Nos. 59 and 61 West Sixty-sixth street.

I have had an examination made of the premises in question and it appears that they consist of two small adjoining stores and basements in the new six-story store and tenement building on the west side of West End avenue, 40 feet 5 inches north of West Sixty-sixth street. The basements have concrete floors and the stores have toilets, sinks and gas fixtures. The rent, \$1,200 a year, is the same as asked for similar premises in the same building, and is in my opinion reasonable.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of the two small stores and basements underneath, being the premises Nos. 141 and 143 West End avenue, 40 feet 5 inches north of West Sixty-sixth street, Borough of Manhattan, for a term of five years from May 1, 1907, at an annual rental of \$1,200, payable monthly; the lessors to put and keep the premises in good tenantable condition and repair, to pay for the Croton water used on the premises during the term of the lease and to alter the premises so as to connect the two stores; the lease to be made subordinate to any mortgage or mortgages that the lessors may put upon the premises during the term of the lease. Lessors, Charles H. Bohland, Arthur Alkier and Samuel D. Davis.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution, by the Commissioner of Street Cleaning, of a lease to the City, from Charles H. Bohland, Arthur Alkier and Samuel D. Davis, of the two small stores and basement beneath, of premises Nos. 141 and 143 West End avenue, Borough of Manhattan, for a term of five years from May 1, 1907, at an annual rental of twelve hundred dollars (\$1,200), payable monthly; the lessors to put and keep the premises in good tenantable condition and repair, to pay for the Croton water used on the premises during the term of the lease, and to alter the premises so as to connect the two stores; the lease to be made subordinate to any mortgage

or mortgages that the lessors may put upon the premises during the term of the lease; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

Adjourned.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF QUEENS, NEW YORK, MAY 8, 1907.

NOTICE IS HEREBY GIVEN THAT PUBLIC HEARING WILL BE HELD IN THE BOROUGH OFFICE, HACKETT BUILDING, LONG ISLAND CITY, ON THE 23D DAY OF MAY, 1907, AT 10.30 A. JOSEPH BERMEI,
President.

HERMAN RINGE,
Secretary.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF QUEENS, NEW YORK, MAY 8, 1907.

NOTICE IS HEREBY GIVEN, IN ACCORDANCE WITH SECTION 432 OF THE CHARTER OF THE CITY OF NEW YORK, THAT PETITION SIGNED BY PROPERTY OWNERS AND RESIDENTS OF THE NEWTOWN DISTRICT FOR LOCAL IMPROVEMENTS TO CHANGE THE MAP OF THE CITY OF NEW YORK, AT MASPEH, IN THE SECOND WARD OF THE BOROUGH OF QUEENS, BY REMOVING THEREFROM THAT PORTION OF SHAFER STREET AND SOPHIE STREET EXTENDING FROM FLUSHING AVENUE TO THE BUSHWICK BRANCH OF THE LONG ISLAND RAILROAD, HAS BEEN FILED IN THIS OFFICE, AND IS NOW READY FOR PUBLIC INSPECTION, AND THAT A MEETING OF THE BOARD OF LOCAL IMPROVEMENTS OF THE NEWTOWN DISTRICT FOR LOCAL IMPROVEMENTS WILL BE HELD IN THE BOROUGH OFFICE, HACKETT BUILDING, LONG ISLAND CITY, ON THE 23D DAY OF MAY, 1907, AT 10.30 A. M., AT WHICH MEETING SAID PETITION WILL BE SUBMITTED TO THE BOARD.

The reasons for this change are as follows: "This property is now owned and occupied by two large manufacturing interests requiring a large area for the operation of their business, and employing, when in full operation, at least one thousand hands."

"There is no possibility of any future demand for the opening of this portion of these two streets, owing, first, to the fact that they would have to cross the Long Island Railroad property and the expense of such crossing, owing to the present grade crossing law, would be prohibitive, and as there is now a crossing at Garrison street on one side of this property and at Metropolitan avenue on the other side, there would be no reason for additional crossings between these two points; second, the (attached) map of this section of the city will indicate that these two streets are not necessary, and do not lead to any continuous thoroughfares, and hence any request for street opening on this basis is eliminated."

"This particular section is essentially a manufacturing district, and the proximity of the railroad, making it possible for manufacturers to have a siding on their own property, enabling them to handle their product with the least possible expense, makes it altogether desirable that these streets be taken from the map, as they would only be required in case the property were desirable for building dwelling houses, when small lots of ground would be necessary fronting on intersecting streets."

"It will of course be plain to you that the establishing of manufacturing enterprises of this character in the section indicated is the very best method of advancing the general interests of the neighborhood and bringing home builders to this section, thereby adding largely to the general growth of the Borough and increasing the assessed value of the neighboring property."

JOSEPH BERMEI,
President.

HERMAN RINGE,
Secretary.

It being understood that the purchasers, at

 the work or in guarding the same, or from any
 improper or defective materials or machinery,
 implements or appliances used in the removal of
 the said buildings by the said successful bidder.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within six months of the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within two months thereafter make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law, to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine, unless the period shall be extended by the Board of Estimate and Apportionment.

Second—This consent is upon the express condition that the Company within sixty days after the signing of this contract by the Mayor and before anything is done in the exercise of the rights conferred thereby, shall enter into a traffic agreement with the Interborough Rapid Transit Company whereby passengers entering the cars of either the Company or the Interborough Rapid Transit Company (subway) shall be entitled to a continuous passage on both of the said lines upon the payment of a single fare of five cents; such agreement shall be for a period of at least twenty-five years.

Third—The said right to construct, maintain and operate a street surface railroad as herein described, shall be held and enjoyed by the Company, its successors or assigns, for the term of twenty-five years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty-five years, upon a fair revaluation of such right and privilege. Such revaluation shall be of the right and privilege to maintain and operate the said railroad by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the Company, its successors or assigns. The Company shall, however, not have the right to exercise such privilege of renewal until it has entered into a traffic agreement with the Interborough Rapid Transit Company, or its successors, in the operation of the Rapid Transit Railroad (subway), as above, for said renewal period.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than that sum required to be paid during the last year in this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders, selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiry and investigation, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Fourth—Upon the termination of this original contract, or if the same is renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract within the streets and highways of the City, shall become the property of the City, without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

At the termination of this grant as above, the City, at the election of the Board, shall have the right to purchase all the property of the Company not within the streets or avenues, at its fair market value, exclusive of any value which such property may have by reason of this contract. Such valuation shall be determined in the same manner as revaluation for a renewal of this contract, as herein provided.

If, however, at the termination of this grant as above, the City (by the Board) shall so order by resolution, the Company shall upon thirty (30) days' notice in writing from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract,

and the said streets and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The Company, its successor or assigns, shall pay to the City for the right to construct, maintain and operate a street surface railway on the route herein described, the following sums of money:

1. Five thousand dollars (\$5,000) in cash, within thirty (30) days after the signing of this contract by the Mayor.

2. During the first five years of this contract an annual sum, which shall in no case be less than five hundred dollars (\$500), and which shall be equal to three per cent. of the gross receipts of the Company, if such percentage shall exceed a sum of five hundred dollars (\$500).

During the remaining twenty years of this contract an annual sum, which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to five per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of one thousand dollars (\$1,000).

The payment of such minimum sums shall begin from the day on which the contract is signed by the Mayor.

The terms hereafter to be fixed for any renewal term of this contract shall not be less than the sum required to be paid for the last year of this original contract, and no renewal shall provide for a further renewal.

Such minimum annual sums shall be paid into the Treasury of The City of New York on November 1 of each year, and shall be for the amount due to September 30, next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid to the said Comptroller on or before November 1, in each year, for the year ending September 30, next preceding. The fiscal year shall end on September 30, next preceding said date of payment, and provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the matter of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract, shall be strictly complied with. The intention of this paragraph is to fix an annual charge to be paid by the Company, its successors or assigns, to the City for the rights and privileges hereby granted, and it shall be construed as providing for the payment by the Company, its successors or assigns, for said right and privilege of a percentage of gross receipts within the meaning of any general or special statute, or of any ordinance of the City.

Any and all payments to be made by the terms of this contract to the City, by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or resolution of the Board or by any law of the State of New York.

Sixth—The annual charges or payments shall continue throughout the whole term of the contract hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchise at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any part of the route mentioned herein, shall be valid or effectual for any purpose unless the said assignment, lease or sublease contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Seventh—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successors or assigns, or by operation of law whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving, or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Eighth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways, and the right to make the requisite and necessary connections with the tracks of the Company, its successors or assigns, which shall be constructed under this contract.

The use of the railroad which shall be constructed and maintained in the streets, avenues and highways under this contract, including the tracks, wires and other equipment used in connection therewith, shall be permitted by the Company, its successors or assigns, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways, for street railroad purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railroad and of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract, in connection with the maintenance or the operation of the said railroad so used.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railroad which may necessitate the use of any portion of the railroad which shall be constructed under this contract.

Ninth—The railroad to be constructed under this contract may be operated by overhead electrical power substantially similar to the system of overhead electrical traction now in use by the New York City Interborough Railway Company or by the underground electric system now in use by the lines of the New York City Railway Company. Provided, however, that the Board of Estimate and Apportionment, or its successors in authority, after five years from the date of this contract, may, upon giving to the grantee,

its successor or assigns, six months' notice in writing, require it or them to operate the railroad upon the whole or upon any portion of its route by underground electrical power substantially similar to the system now in use on the lines of the New York City Railway Company in the Borough of Manhattan, above referred to, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets and highways. When the change shall have been made to the underground system, all wires for the transmission of power or otherwise, shall be placed in conduits underneath or alongside of the railroad. The Company shall provide two conduits, not less than three (3) inches in diameter each for the exclusive use of the City. Such conduits shall be used only by the Company and by the City.

This provision shall in no way be taken as a limitation on the Police powers of the City, as provided in sections 525 et seq. of the Greater New York Charter.

Tenth—The Company shall commence construction of the railroad herein authorized within three months from the date upon which the consents of the property owners are obtained, or upon the decision of the Appellate Division of the Supreme Court that such railroad ought to be constructed, and shall complete the construction of the same within twelve months from the same date, otherwise this grant shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each.

Eleventh—The said railroad shall be constructed, maintained and operated, subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City.

Twelfth—The said railroad shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railroad and property of the Company shall be maintained in good condition throughout the term of this contract.

The Company shall remove the stub-end terminal at St. Nicholas avenue, north of West One Hundred and Eightieth street, hereby authorized, upon six (6) months' notice in writing from the Board of Estimate and Apportionment.

Thirteenth—The rate of fare for any passenger upon such railroad shall not exceed five cents, and the Company shall not charge any passenger more than five cents for one continuous ride from any point on said railroad, or a line or branch operated by it, its lessees or assigns in connection therewith, to any point thereof, or of any connecting line or branch thereof, within the limits of The City of New York.

Transfers shall be given between the Interborough Rapid Transit Company (subway division) and the Company at the Interborough Rapid Transit Railway station at Dyckman street for a single fare of five cents, as required by traffic agreement between said companies.

The rate for the carrying of property over the said railroad upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, or its successors in authority, and may be fixed by such Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, its successors or assigns, and no greater sums shall be charged for such service than provided for by it.

Fourteenth—The cars of the Company shall be run both day and night as often as the reasonable convenience of the public may require, or as may be directed by the Board, but at no time shall the headway at any point on the railway be more than twenty minutes between the hours of 5 o'clock p. m. and midnight.

Fifteenth—The Company shall attach to each car run over the said railroad proper fenders and wheel guards in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Sixteenth—All cars which are operated on said railroad shall be equipped with both hand and power brakes.

Seventeenth—All cars which are operated on said railroad shall be heated during the cold weather in conformity with such laws and ordinances as are now in force or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Eighteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which the railroad shall be constructed under this contract, shall cause to be watered the entire roadway of such streets and avenues at least three times in every twenty-four hours, when the temperature is above 35 degrees Fahrenheit, when so required by the Board of Estimate and Apportionment.

Nineteenth—All cars operated on said railroad shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Twentieth—The Company shall at all times keep the streets, avenues or highways upon which the said railroad is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-first—The Company shall cause to be paved that portion of the street between its tracks, the rails of its tracks and two feet in width outside of its tracks upon and along the streets, avenues and highways of the route hereby authorized, which are now either unpaved or paved with macadam. The work of such paving shall be done under the supervision of the Municipal authorities having jurisdiction in such matters. Such authorities shall designate the character of the pavement to be laid.

As long as the said railroad, or any portion thereof, remains in the street, avenue or highway, the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railroad is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And it shall not be necessary, in the event that the portion of the surface of the street, avenue or highway in which said railroad is constructed, shall not be repaired by the Company as hereinbefore provided, for the City to give any notice to the Company of such state of disrepair, but the City may make such repairs and charge the same to the Company, which the said Company agrees to pay, any statute to the contrary notwithstanding. And the City shall have the right to change the material or character of the pavement of any such street, avenue or highway, and in that event the Company, its successors or

assigns, shall be bound to replace such pavement in the manner directed by the proper city officer at its own expense and the provision as to repairs herein contained shall apply to such renewal or altered pavement. The Company agrees to pay to the City any sum or sums that the City may pay, either as a result of a judgment against it or by way of settlement or compromise, for any injuries either to person or property arising from failure of the Company to pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed, as hereinbefore provided.

Twenty-second—Any alteration which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, conduits, etc., laid in the streets on account of the construction or operation of the railroad, shall be made at the sole cost of the railroad company and in such manner as the proper City officials may prescribe.

Twenty-third—The Company hereby agrees not to issue stock other than has been heretofore issued until a certificate of authority therefor has been issued by the Board of Estimate and Apportionment, or until such Board shall further certify in writing as to the amount of stock reasonably required for the purposes of the Company. The stock of the Company shall not be issued in excess of the amount so certified.

The Company shall not increase its capital stock above the \$25,000 now authorized, without the consent in writing of the Board of Estimate and Apportionment, stating the amount of the authorized increase. For the purpose of making this determination as to the amount of stocks to be issued, or the amount of the authorized increase of the capital stock of the Company, the Board of Estimate and Apportionment may take and hear testimony under oath, and examine the books and papers of the Company, and require verified statements from the officers thereof pertaining to the value of the property and of the franchise owned or operated by the Company. Such determination shall be made within sixty (60) days after the final submission of the papers or of the final hearing on the application for the issue or increase of capital stock.

Twenty-fourth—The Company shall at all times keep accurate books of account of the gross earnings from the privileges granted under this contract. The Company shall on or before November 1 of each year make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain a statement of the gross receipts from operation of the railway, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-fifth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity.

Twenty-sixth—If the Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains, except for those defaults or defects for which penalties are hereinafter provided, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures which may affect the surface of the streets shall not be put in condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided.

Twenty-seventh—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-eighth—This grant is upon the express condition that the Company within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of seven thousand dollars (\$7,000) either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railroad; and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the headway, heating and lighting of cars, fenders, wheel guards and watering of street pavements, the Company shall pay a penalty of twenty-five dollars (\$25) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of the violation of the provision relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its President, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in default, said Comptroller shall forthwith impose the prescribed penalty, or where the amount

of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of seven thousand dollars (\$7,000), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Sec. 3. This contract is also upon the further and express condition that the provisions of the Railroad Law, applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railroads operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held November 9, 1906, the following petition was received:

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The petition of New York and Richmond Gas Company respectfully shows:

First—Your petitioner is a corporation duly organized and existing under and by virtue of the laws of the State of New York, for the purpose of manufacturing and supplying gas for light, heat and power for public and private use, in the County of Richmond, in the State of New York.

Third—Your petitioner is and has been for several years last past engaged in the business of manufacturing, supplying and distributing gas for light, heat and power in the territory comprised in the First, Second, Third and Fourth Wards of the Borough of Richmond, in The City of New York, and has constructed, maintained and operated and now maintains and operates numerous lines of pipes, mains and conductors in the streets, avenues, highways and public places within said wards.

Wherefore your petitioner prays that the assent of your Honorable Board of the Corporation of The City of New York be granted to it to construct, lay, maintain and operate pipes, mains and conductors with the necessary branches and connections therefrom in, under and along the streets, avenues, highways, parks and public places within the territory comprised in the Fifth Ward of the Borough of Richmond for transmitting and distributing gas for light, heat and power to public and private consumers, and that

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance to such laws this Board adopted a resolution September 14, 1906, fixing the date for public hearing thereon as September 28, 1906, at which citizens were entitled to appear and be heard, and publication was had for at least two days in "The Sun" and "The New York Times," newspapers designated by the Mayor, and in the CITY RECORD for ten days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the New York Central and Hudson River Railroad Company and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the New York Central and Hudson River Railroad Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the New York Central and Hudson River Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

New York Central and Hudson River Railroad Company.

PROPOSED FORM OF CONTRACT.

This Contract, made this day of 190 , by and between THE CITY OF NEW YORK, party of the first part, by the Mayor of said City acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City, and the NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY, for itself, and as lessee of the NEW YORK AND HARLEM RAILROAD COMPANY, a domestic corporation of the State of New York, hereinafter called the Company, party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City of New York hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to construct, maintain and operate a subway not to exceed two feet and eleven inches in width, with the necessary applying chambers, for the sole purpose of transmitting power for the operation of its trains by electricity, as required by chapter 425 of the Laws of 1903, said subway to be beneath the surface of the following named streets, avenues and highways between the points described as follows, all situate in the Borough of The Bronx, City of New York, to wit:

Beginning at a point in Webster avenue where East One Hundred and Ninety-fourth street, if prolonged southeasterly, would intersect the right of way of the New York and Harlem Railroad Company; thence northwesterly across Webster avenue to East One Hundred and Ninety-fourth street and thence northwesterly through East One Hundred and Ninety-fourth street to a point between Valentine avenue and the Grand Boulevard and Concourse, at the intersection of East One Hundred and Ninety-fourth street and Kingsbridge road; thence in a general northwesterly direction through Kingsbridge road to a point where said Kingsbridge road intersects the right of way of the New York Central and Hudson River Railroad Company.

Also beginning at a point on the westerly side of the right of way of the New York Central and Hudson River Railroad Company on the easterly side of Exterior street, about 300 feet south from West One Hundred and Ninety-fourth street; thence westerly across said Exterior street to and along private property of the New York Central and Hudson River Railroad Company;

—the said right of way and the location of the said splicing chambers being shown on a map entitled:

"N. Y. C. & H. R. R. R. Leased and Operated Lines. Electrification of Lines. Location Plan—Cable Ducts. Kingsbridge Road and 194th Street, New York City."

—dated October 30, 1905, signed by W. J. Wilgus, Vice-President, copy of which is annexed hereto and made a part of this grant.

Sec. 2. The grant of this franchise, right and privilege is subject to the following conditions:

First—The said franchise, right and privilege to lay one subway in each of the streets, avenues or highways, and between the limits as hereinbefore described, and the franchise, right and privilege to maintain and operate the same shall be held and enjoyed by the said Company, its lessees or successors, for a term of twenty-five years from the date of the signing of this contract, with the privilege of renewal of said grant for a further period of twenty-five years, upon a fair revaluation of said franchise, right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board of Estimate and Apportionment of The City of New York, or to any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the Company, and by the Board of Estimate and Apportionment, or by such other authority in its place. If the Company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding twenty-five years shall be reasonable, and either the City (by the Board or by such other authority in its place) or the Company shall be bound upon request of the other to enter into a written agreement with such other, fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment, or its successors in authority; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the contract, and their report shall be filed with the Board of Estimate and Apportionment, or its successors in authority, within three months after they are chosen. They shall act as appraisers, and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of this original grant. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—Upon the termination of this contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, all subways and appurtenances thereto, constructed pursuant to this contract, shall be and become the property of The City of New York, without compensation therefor, and the same may be used by The City for any purpose whatsoever. If, however, at the termination of this grant, as above, the City, by the Board of Estimate and Apportionment, or its successors in authority, shall so order by resolution the said Company shall remove, at its own expense, said subway and all appurtenances thereto, and shall restore the streets and pavements to their original condition.

Third—The Company, its successors or assigns, shall pay to The City of New York for this privilege an annual sum of four thousand five hundred dollars (\$4,500). Such sum shall be paid into the treasury of The City of New York on November 1 of each year, and shall be for the annual amount due to September 30 next preceding; provided, however, that the first payment shall be only for that proportion of four thousand five hundred dollars (\$4,500) as the time of signing of this contract by the Mayor before September 30 next preceding shall bear to the whole of one year.

Any and all payments made by the terms of this franchise to The City of New York by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other company, providing for payments of subway rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original

or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payment, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgagee or mere lienor, but shall apply to any purchaser upon foreclosure or under or by virtue of any provision of a mortgage or lien.

Fifth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Sixth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways on the route heretofore described.

Seventh—The Company shall commence construction of the subway herein authorized within two months after the signing of this contract, and shall complete the construction of the same within five months from the same date, otherwise this grant shall cease and determine, and all sums paid or which may be deposited with the Comptroller of the City as hereinafter provided, shall thereupon be forfeited to the City; provided, however, that the Board of Estimate and Apportionment may in its discretion extend such time for a period not exceeding one year, but such extension shall not be made unless the reasons given by the grantee for non-fulfillment are in the opinion of the Board, for causes over which the grantee had no control and was in no wise responsible.

Eighth—The operation of electrical conduits, conductors and devices, is subject to such rules and regulations as the Commissioner of Water Supply, Gas and Electricity shall from time to time have adopted or may hereafter adopt, for the installation and operation of apparatus of this character in and through the streets of this City, and no work shall be done under its franchise until and unless the Commissioner of Water Supply, Gas and Electricity shall have issued a permit for its construction.

Ninth—All construction which shall be made under this grant shall be done in a manner solely upon the terms and conditions hereafter to be imposed by the President of the Borough of The Bronx and the Commissioner of Water Supply, Gas and Electricity, or their respective successors in authority. The said Company shall submit a working plan of construction to the said President and to the said Commissioner, which shall include and show in detail the method of construction of said subway, connections, splicing chambers or manholes and other appurtenances, and the mode of protection of all subsurface construction under the streets, avenues and highways described in the routes.

Tenth—The Company shall give notice to the President of the Borough of The Bronx and to the Commissioner of Water Supply, Gas and Electricity, in writing, of its intention to begin construction of the work hereby authorized, at least forty-eight hours before such construction commences. The Company shall also give notice to the Board of Estimate and Apportionment, in writing, of the date on which work is commenced and also the date on which the same is completed.

Eleventh—Any pavement disturbed during the construction or repair of said subway at any time during the term of the grant shall be restored to its original condition by the Company. The Company shall pave and keep in permanent repair that portion of the surface of the street in which said subway is constructed immediately adjacent to and for a distance of five feet in all directions around the cover or covers of each and every splicing chamber, under the supervision of the local authorities whenever the same become in a state of disrepair or whenever required by them to do so, and in such manner as they may prescribe. And it shall not be necessary in the event that the portion of the surface of the street, avenue or highway which the said Company obligates itself to keep in repair shall not be repaired by the Company as hereinbefore provided, for the City to give any notice to the Company of such state of disrepair, but the City may make such repairs and charge the same to the Company which the said Company agrees to pay.

Twelfth—The Company shall, in the course of construction of the subway, maintain and care for all underground and overground structures in its route, or directly interfered with by its construction, and any necessary interference shall be subject to reasonable regulation by the department of the government of the City under control or charge thereof.

Thirteenth—Any alteration which may be required in the sewerage or drainage system of the City, or to any subsurface structures laid in the streets, avenues and highways along the route of the subway, on account of the construction or operation of the same, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Fourteenth—Any alteration in the subway and its appurtenances which shall be made necessary shall, after due notice of the said alteration has been served upon the Company by the Board of Estimate and Apportionment, be made at the sole cost of the Company, and in such manner as the City officials having authority and jurisdiction may prescribe.

Fifteenth—Should the City require for any public improvement the space occupied by the subway in the streets, avenues or highways for which permission is herein granted, the Company shall, at its own expense, alter the position of and rebuild said subway as directed by the proper City officials.

Sixteenth—All plans for the drainage of the subway and splicing chambers shall be submitted to and approved by the President of the Borough of The Bronx.

Seventeenth—The said Company shall bear the expense of inspection, which may be required by the President of the Borough of The Bronx and the Commissioner of Water Supply, Gas and Electricity, of all the work of construction required, or removal of the said subway, which shall be done under this grant.

Eighteenth—Correct maps shall be furnished to the Board of Estimate and Apportionment, the Comptroller, President of the Borough of The Bronx and the Commissioner of Water Supply, Gas and Electricity, by the Company, showing the exact location of the subway, the splicing chambers or other appurtenances constructed, with reference to the curb lines of the streets and the street surface, and the same shall be furnished to the said several departments or officials within sixty days after the completion of the work authorized by this grant.

Nineteenth—The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Twentieth—The Company shall assume all liability by reason of the construction and operation of the subway, and the City shall assume no liability whatsoever to either persons or property by reason of its construction.

As a condition of this grant the Company, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the Company, its successor or assigns. Due notice of any such demand shall be given to the Company.

Twenty-first—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited or avoided by The City of New York by a suit brought by the Corporation Counsel, on notice of ten days to the said Company.

Twenty-second—The subway hereby authorized shall be used only by the Company, and for no purpose other than transmission of electrical current in the operation, management and maintenance of its railroads owned or leased.

Twenty-third—If the said Company, its successors or assigns, shall fail to maintain its structures in good condition throughout the full term of its occupancy of such streets, the Board of Estimate and Apportionment of The City of New York may give written notice to the said Company, specifying any default on the part of said Company, and requiring said Company to remedy the same within a reasonable time, and upon the failure of the Company to remedy said default within a reasonable time, said Company shall for each day thereafter during which the default or defect remains, pay to The City of New York a sum of fifty dollars (\$50) as fixed or liquidated damages, or the said City, in case such structures which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the said Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund heretofore provided.

Twenty-fourth—This grant is upon the express condition that the Company, within thirty days after the execution of this contract and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of ten thousand dollars (\$10,000), either in money or in securities to be approved by him, which fund shall be security for the performance by the Company of the terms and conditions of this grant, especially those which relate to the payment of the annual charges for the privilege and the penalties herein provided, and in case of default in the performance by said Company of such terms and conditions, The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same, with interest, from said fund after ten days' notice in writing to the said Company. In case of any drafts so made upon this security fund, the said Company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of ten thousand dollars (\$10,000), and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Twenty-fifth—The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS, NO. 320 BROADWAY, NEW YORK.

NOTICE IS HEREBY GIVEN OF A PUBLIC hearing on the form of contract for that portion of the Brooklyn Loop Lines in the new extension of Delancey street, from Centre street to the Bowery (section 9-0-4), Borough of Manhattan, in this office, on Thursday, the 16th of May, at 3 p. m.

INVITATION TO CONTRACTORS.

(CENTRE STREET, FROM CANAL TO BROOME.)

THE CITY OF NEW YORK (HEREIN after called the City) acting by its Board of Rapid Transit Commissioners (hereinafter called the Board) contemplates building a certain Rapid Transit Railroad, known as Route No. 9, in Centre street (Manhattan) and other streets in the Boroughs of Manhattan and Brooklyn, including ultimately Delancey street, Grand street, Desbrosses street, Canal street and William street, in Manhattan, and Fulton street, Lafayette avenue and Broadway, in Brooklyn.

By this advertisement the City invites proposals to construct that part of said railroad which is situated in Centre street, between Canal street and Broome street, in accordance with the detailed plans and specifications adopted therefor.

The general plan of construction calls for a sub-surface railroad. There will be four tracks in Centre street, and provisions for a spur turning west into Grand street.

A station between Hester and Grand streets will be constructed, and suitable cross-overs, turn-outs and sidings are also to be provided, all as shown in the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but will be depressed whenever necessary to avoid grade crossings. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose.

The manner of construction shall be by excavation under cover, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries through Centre street, from Canal street to Broome street, are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Board reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries. The price stated for railroad construction is to include the furnishing of all materials and the performance of all labor requisite to the complete construction of that part of the proposed railroad which is to be built under this contract, including all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

TUESDAY, MAY 14, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and acknowledged, and the affidavit sworn to, by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will in the judgment of the Board best promote the public interest, and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security

to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder or bidders will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to the defaulting bidder or bidders. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder or bidders shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder or bidders.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Rapid Transit Railroad—(Centre Street, from Canal to Broome)" and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be enclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder or bidders will be returned when the contract is executed and its provisions as to security are complied with.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
