PETITIONS AND COMMUNICATIONS.

No. 691.

Public Service Commission For the First District,
Tribune Building, No. 154 Nassau Street,
New York, April 29, 1908.

P. J. SCULLY, Esq., Clerk, Board of Aldermen, City Hall, Manhattan:

Sir—With reference to the resolution adopted by the Board of Aldermen on April 21, recommending to this Commission that a station be located on the Lenox avenue division of the subway, between Ninety-sixth street and Broadway and One Hundred and Tenth street and Lenox avenue, I desire to state that a similar request had already been received from the West Side Taxpayers' Association, and that the Chairman of this Commission had, in reply to the request of the said association, sent an answer, of which I enclose herewith a copy. From this you will observe that the Commission does not deem it advisable to take up the matter of the establishment of a station in this section of the subway.

Very truly yours,

TRAVIS H. WHITNEY, Secretary.

April 28, 1908.

CHARLES HAASS, Esq., Chairman, Executive Committee, West Side Taxpayers' Association, No. 207 West Thirty-fourth Street, New York City:

Dear Sir—Your communication of April 10, in which you set forth the request of the West Side Taxpayers' Association, adopted by unanimous vote, that a new subway station be constructed at One Hundred and Fourth street and Central Park West, on account of the long distance between the Ninety-sixth street and the One Hundred and Tenth street station, has been duly considered. I have had the matter thoroughly investigated and have ascertained that during the construction of the subway, the proposal to place a station at this point was thoroughly discussed in 1902 and 1903. The minutes of the Rapid Transit Commission show that on March 19, 1903, the following resolution moved by the Mayor was passed:

"Resolved, That in view of the opinion of the Chief Engineer and of the contractor that the station at One Hundred and Fourth street cannot be constructed without causing serious delay in the completion of the subway, the station be definitely abandoned."

But the report of the Engineer upon which this resolution was made not only stated that the construction of the station at that time would cause delay, but it also stated that it would be exceedingly dangerous on account of the native rock being very treacherous in that location, and there was grave danger of interfering with five 48-inch water mains running through Central Park West. If it were found dangerous at that time to construct the station, it would be doubly so at the present time, for the dangers that then existed are still to be contended with, and we also have the additional danger of interfering with moving trains constantly, which would be likely to interrupt traffic so that trains would have to be stopped at this point part of the time.

Our Engineer reports that a station at this point would be sixty feet below the surface, and that in constructing the station it would be necessary to enlarge the present arch of the tunnel as well as to construct the station approaches for elevators, which would require the taking out of 9,000 cubic yards of rock, and that it would cost not less than \$300,000 to build under the present conditions. He also reports that there is a grade there of 1.4 per cent. and also a curve on a radius of 580 feet, both of which would make this a very undesirable place for a station location on account of the operation of trains.

As to the other point, of the distance between Ninety-sixth street station and One Hundred and Tenth street station, which you say is 6,500 feet, we find that this is divided really into three sections; first, from Ninety-sixth street to One Hundred and Fourth street, right along the line of the Broadway trains, a distance of about 2,000 feet; 2,200 feet is the length of the tunnel from Central Park West to One Hundred and Tenth street, nearly all of which is underneath the Park, and the line under One Hundred and Fourth street is about 2,300 feet.

All of this section would not be able to use the new station at One Hundred and Fourth street if it were built, for the people living west of Amsterdam avenue could just as readily go to One Hundred and Third street station of the Broadway line, so that the remaining section that would be able to use to the best advantage the station proposed would be those people living between Central Park West and Amsterdam avenue, a small section, and they have an elevated station at One Hundred and Fourth street.

It would seem too great a risk as well as too large an expense on behalf of the City to recommend the improvement you have requested for the purpose of accommodating a very small section of the City, which would at the same time delay and prejudice the large numbers that come on the Lenox avenue line by causing an extra stop and thus delaying the time of the express service.

For these reasons I am constrained to advise your association that this Commission is adverse to taking the action you have requested.

Very truly yours,

WILLIAM R. WILLCOX, Chairman.

Which was ordered on file.

Public Service Commission for the First District
Tribune Building, No. 154 Nassau Street.
New York, May 1, 1908.

P. J. SCULLY, Esq., Clerk of the Board of Aldermen, City Hall, New York City:

Dear Sir—In the matter of the complaint of the Board of Aldermen with respect to traffic conditions at Graham and Flushing avenues and Broadway, Brooklyn, upon which an order of the Commission, No. 417, was adopted, the company has made answer that the point in question is covered by three traffic officers of the Police Department from 8.30 a. m. to 6.30 p. m., and that the companies operating through this intersection employ a special inspector in the evening rush hours from 5 to 7 o'clock, whose duty it is to regulate traffic and avoid congestion.

If the complainants in this proceeding desire to present testimony before the Commission, a hearing will be ordered.

Very truly yours,

TRAVIS H. WHITNEY, Secretary.

Which was ordered on file.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The Vice-Chairman laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 693.

Board of Estimate and Apportionment—City of New York,
Office of the Secretary, No. 277 Broadway.
May 4, 1908.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment May 1, 1908, authorizing the issue of \$1,200 Corporate Stock for the erection of new bookcases and new partitions in the rooms occupied by the Appellate Division, Supreme Court, Kings County, in the Borough Hall, Borough of Brooklyn; together with copy of report of the Comptroller recommending said issue.

I also transmit form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

April 29, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. Bird S. Coler, President of the Borough of Brooklyn, in communication dated April 10, 1908, requests the Board of Estimate and Apportionment to authorize an appropriation of \$2,500 Corporate Stock for the purpose of making certain alterations in the rooms occupied by the Appellate Division, Borough Hall, in the Borough of Brooklyn.

I would report, that it is proposed to move the library into the two rooms adjoining the court room, cutting a doorway through between the court room and library, also changing the location and sizes of the rooms for lawyers and Stenographers.

All of the proposed work with the exception of new bookcases and new partitions, the estimated cost of which is \$1,200, is in the nature of repairs and alterations, and is therefore not properly chargeable to Corporate Stock.

The work being a valuable improvement, I think that the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by section 409 of the Laws of 1904, to issue Corporate Stock to the amount of \$1,200 for the purposes of erecting new bookcases and building new partitions in the rooms occupied by the Appellate Division, Borough Hall, Borough of Brooklyn, and I would advise that the President of the Borough of Brooklyn be notified that the Board of Estimate and Apportionment can take no action toward the authorization of the remainder of the funds requested by him until suitable action is taken by the Board of Aldermen, pursuant to subdivision 8 of section 188 of the Greater New York Charter.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

(Signed)

H. A. Metz, Comptroller.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of twelve hundred dollars (\$1,200), for the purpose of providing means for the erection of new bookcases and new partitions in the rooms occupied by the Appellate Division of the Supreme Court, Kings County, in the Borough Hall, Borough of Brooklyn.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment May 1, 1908, and authorizes the Comptroller to issue Corporate Stock of The City of New York, to the amount and for the purposes therein specified:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding twelve hundred dollars (\$1,200), to provide means for the erection of new bookcases and new partitions in the rooms occupied by the Appellate Division of the Supreme Court, Kings County, in the Borough Hall, Borough of Brooklyn, and when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding twelve hundred dollars (\$1,200), the proceeds whereof to be applied to the purposes aforesaid.

Which was referred to the Committee on Finance.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment May 1, 1908, recommending the establishment of an additional grade of the position of Chief Engineer, with salary at the rate of \$10,000 per annum, for one incumbent; and the establishment of the position of Deputy Chief Engineer, with salary at the rate of \$6,000 per annum, for one incumbent, in the Department of Docks and Ferries; together with copies of communications from the Commissioner of said Department, relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

April 24, 1908.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—I beg leave to recommend the establishment of a salary of \$10,000 per annum for the position of Chief Engineer in this Department. The responsibility attached to this position warrants the increase recommended, and I submit the following facts for your perusal:

1. On July 15, 1870, General George B. McClellan was appointed Engineer-in-Chief at \$10,000 per annum; on January 1, 1871, his salary was increased to \$20,000 per annum, and on November 1, 1872, on his own recommendation, his salary was reduced to \$10,000 per annum.

2. On July 8, 1873, General McClellan resigned, and General Charles K. Graham was appointed to succeed him as Engineer-in-Chief, at a salary of \$5,500 per annum.

3. On July 16, 1876, Mr. George S. Greene, Jr., was appointed Engineer-in-Chief at a salary of \$6,000 per annum, and the compensation for this office has remained the same ever since.

I would further state that the Chief Engineers of other large Departments in this City receive salaries ranging from \$10,000 to \$16,000 per annum, viz.:

Chief Engineer, Board of Water Supply.....	\$16,000 00
Chief Engineer, Board of Estimate.....	12,000 00
Chief Engineer, Aqueduct Commission.....	10,000 00
Chief Engineer, Bridge Department.....	10,000 00
Chief Engineer, Department of Water Supply, Gas and Electricity.....	10,000 00
Chief Engineer, Public Service Commission.....	15,000 00
Chief Engineer, Subway Construction.....	10,000 00

Yours very respectfully,

(Signed) ALLEN N. SPOONER,
Commissioner.

April 24, 1908.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—In connection with the work of this Department is is desirable, in my opinion, that a Deputy Chief Engineer be appointed.

The position is classified by the Municipal Civil Service Commission in the Engineering Schedule, but a grade has not been established for that position in this Department.

I have this day sent you a recommendation that the salary of the Chief Engineer of this Department be fixed at the rate of \$10,000 per annum, and the responsibility attached to the position of Deputy Chief Engineer warrants, in my opinion, the payment of compensation at the rate of \$6,000 per annum, inasmuch as the Deputy Chief Engineer must perform the duties of Chief Engineer in his absence, and will have immediate supervision of all the work under the direction of the Chief Engineer.

I have explained in a communication addressed to you to-day, relative to an increase in salary for the position of Chief Engineer, the necessity for the change recommended herein, and I hereby respectfully request that a resolution be adopted by you recommending to the Board of Aldermen the establishment of a grade for the position of Deputy Chief Engineer in this Department at the rate of \$6,000 per annum.

Yours very respectfully,

(Signed) ALLEN N. SPOONER,
Commissioner.

Whereas, The Board of Estimate and Apportionment at a meeting held May 1, 1908, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen, the establishment of the following grade of position in the Department of Docks and Ferries, in addition to those already existing therein:

	Incumbents.	Per Annum.
Chief Engineer	1	\$10,000 00

—and the establishment of the following position in said Department:

	Incumbents.	Per Annum.
Deputy Chief Engineer.....	1	\$6,000 00

Resolved, That the Board of Aldermen hereby concurs in the above resolution and fixes the salaries of said positions as set forth therein.

Office of the Secretary, No. 277 Broadway,
May 4, 1908.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment, May 1, 1908, recommending to the Board of Aldermen the establishment of the grade of position of Assistant Engineer in the office of the Chief Engineer of the Board of Estimate and Apportionment, in addition to those already existing therein, with salary at the rate of \$2,700 per annum for two incumbents, together with copy of report of the Comptroller and copy of communication from the Chief Engineer of the Board relative thereto.

I also enclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,

JOSEPH HAAG, Secretary.

April 30, 1908.

To the Board of Estimate and Apportionment:

Gentlemen—At the meeting of the Board of Estimate and Apportionment, held April 3, 1908, there was presented a communication from the Chief Engineer of this Board, recommending increases of salaries of certain members of his force, such increases having been provided for in the Budget for the current year. The communication was referred to a Select Committee consisting of the President of the Board of Aldermen and myself, but at the meeting of April 24, the Committee was discharged from further consideration of the matter and the same was referred to me.

I would, therefore, report that I have examined the proposed increases and find that they are in all instances reasonable and just, and the provision having been made for the same in the Budget, I would recommend the adoption of the resolution which is attached hereto.

Respectfully,

H. A. METZ, Comptroller.

Board of Estimate and Apportionment, City of New York,
Office of the Chief Engineer,
March 30, 1908.

Hon. GEORGE B. MCCLELLAN, Chairman of the Board of Estimate and Apportionment:

Sir—In preparing the estimates of the expenses of the office of the Chief Engineer of the Board of Estimate and Apportionment for the Budget for the present year, provision was made for certain increases in the salaries of the members of the staff, these increases being in nearly every instance equivalent to one grade of \$150, this being directly in line with the policy recommended in the report of the Select Committee on Salaries and Grades, of which the Secretary of the Board was Chairman. The same allowances were provided in nearly all of the public departments, and where the grades existed, as was the case except in a few instances, these modest promotions have, I understand, already been made, being based upon the length of service and efficiency. No changes have yet taken place in the Engineering Staff of the Board of Estimate and Apportionment. Believing that the intent of the Board was to carry out this plan of a modest increase predicated upon the length of service and efficient work, I beg to recommend the following changes in the salaries of the members of this staff, to take effect April 1, 1908:

Division of Public Improvements.

Frederick F. Fuess, Assistant Engineer, from \$2,550 to.....	\$2,700 00
Vernon S. Moon, Transitman and Computer, from \$1,800 to Assistant Engineer, at.....	2,100 00
Berthod Scheiman, Topographical Draughtsman, from \$1,650 to.....	1,800 00
Edgar M. Burr, Topographical Draughtsman, from \$1,500 to.....	1,650 00

John W. Meade, Stenographer and Typewriter, from \$1,050 to.....	1,350 00
Alex. J. Chambers, Stenographer and Typewriter, from \$1,050 to.....	1,200 00
James J. O'Connor, Clerk, from \$900 to.....	1,050 00
Alex. E. Anderson, Clerk, from \$300 to.....	480 00
Douglas J. Pitts, Clerk, from \$300 to.....	480 00

Division of Franchises.

E. W. Libaire, Assistant Engineer, from \$1,950 to.....	\$2,100 00
C. H. Vanderbilt, Assistant Engineer, from \$1,950 to.....	2,100 00
Frederick P. Peirce, Topographical Draughtsman, from \$1,500 to.....	1,650 00
Jos. A. Devery, Law Clerk, from \$1,350 to.....	1,500 00
Joseph A. Young, Clerk, from \$750 to.....	900 00
Lillian G. Keefe, Stenographer and Typewriter, from \$1,050 to.....	1,200 00
Josephine E. A. Schmidt, Stenographer and Typewriter, from \$900 to....	1,050 00
Andrew Matthews, Clerk, from \$300 to.....	480 00

Office of the Chief Engineer.

Frederick W. Koop, Assistant Engineer, from \$2,550 to.....	\$2,700 00
John E. Kelly, Stenographer and Typewriter, from \$1,650 to.....	2,100 00

All of the above changes correspond with the estimates submitted and the allowances made for the Budget of this year except in the following cases:

Mr. Moon was allowed an increase of \$150 as Transitman Computer. He has, however, been certified by the Municipal Civil Service Commission for appointment as Assistant Engineer, and there being no grade of Assistant Engineer at \$1,950, but there being a grade at \$2,100, and Mr. Moon's work having been most efficient and valuable, his promotion to the latter grade is recommended.

In the case of Mr. Scheiman the usual increase was not recommended for the reason that Mr. Scheiman was at the time the estimate was submitted considering a transfer to another Department. This idea was abandoned, and he has done excellent work in this office and is entitled to an advance corresponding with that of other members of the staff.

In the case of Mr. Kelly, his duties have been far more than those indicated by his title, he acting as Secretary to the Chief Engineer, relieving him of many demands upon his time, and he has shown a knowledge of the work of the office and a tactfulness and courtesy in dealing with the public which fully entitle him to the advance recommended.

All of these grades have been established except that of Assistant Engineer, at \$2,700. I beg to submit herewith a resolution providing for the establishment of such grade for two incumbents, and providing that Messrs. Fuess and Koop be promoted to the grade named and that their salaries be fixed at \$2,700 per annum, to date from the approval by the Mayor of the resolution of the Board of Aldermen establishing the proposed grade, together with a resolution carrying into effect the other changes herein recommended.

Respectfully,

(Signed) NELSON P. LEWIS, Chief Engineer.

Whereas, The Board of Estimate and Apportionment at a meeting held May 1, 1908, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the grade of position of Assistant Engineer in the office of the Chief Engineer of the Board of Estimate and Apportionment, in addition to those already existing therein, with salary at the rate of twenty-seven hundred dollars (\$2,700) per annum for two incumbents."

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

Which were severally referred to the Committee on Salaries and Offices.

The Vice-Chairman laid before the Board the following communications from the Comptroller:

No. 696.

City of New York—Department of Finance, }
May 1, 1908.

To the Honorable Board of Aldermen of The City of New York:

Gentlemen—Section 149 of the Greater New York Charter reads in part as follows: " * * * All accounts rendered to or kept in the other departments shall be subject to the inspection and revision of the officers of this department (the Department of Finance). It shall prescribe the forms of keeping and rendering all city accounts. * * * "

In order to comply with the above provisions of the Charter and place the entire bookkeeping of the City government upon a practical and businesslike basis, I hereby request that the Board of Aldermen will approve of the accompanying resolution for the issue of Special Revenue Bonds to the amount of \$30,700.

This request is made as the result of an investigation, made at my suggestion, by the Bureau of Municipal Research, of the methods and procedure of the Department of Finance and its various functions, in connection with which a report has been submitted to me by the said Bureau. In this report, among other things, emphatic attention is called to the absence of a proper accounting control by this Department over the disbursements and receipts of the City. Stress is also laid upon the present inability of the Department of Finance to perform one of its most important statutory functions, viz.: to devise, install and supervise the accounts of the various other City departments.

There have been many changes in the bookkeeping methods of this Department and of other City departments, made at the suggestion of the officers of this Department, since I assumed the duties of Comptroller on January 1, 1906. Nevertheless, it is my conviction that there are many bookkeeping methods and systems, so called, in use at the present time, which are so antiquated as to have outgrown their usefulness, and this report simply strengthens a conviction, which I have had almost since the beginning of my administration, that a complete reorganization of the entire system of City bookkeeping is necessary. The present condition is not of sudden origin, but is a result of the development of years, and the necessity for such a reorganization has been realized by many persons, both in and outside of the City's service, long before I assumed the duties of Comptroller.

The Bureau of Municipal Research, together with the staff of the Department of Finance, has elaborated a definite plan of reorganization, as set forth in its report, which plan, with a few minor changes, I propose, as far as I am able, to put into immediate effect.

The report mentioned recommends the creation of various additional positions, the salaries for which, assuming that I will be able to make the appointments at an early date, will amount to \$25,700 for the balance of the present year, in addition to which amount I have estimated that \$5,000 will be required for filing cases, furniture, etc., to be used by these employees, in connection with the work mentioned.

I desire to call your attention to the following which appears upon page 75 of the report of the Bureau of Municipal Research:

"That as a prerequisite to the appointment of additional Expert Accountants, the applicants shall have had at least five years of experience as Accountants in the office of a public accountant, or shall have the title of 'certified public accountant' as conferred by the Board of Regents of the University of the State of New York after examination, and not less than three years of accounting experience subsequent to obtaining such title."

Similar qualifications in regard to all the additional employees, to be engaged on the work mentioned, with the exception of the clerical force, have been agreed to by me. It will, therefore, be seen that only men of the highest standing will be appointed to these positions, and I believe that the results which will be obtained will fully justify the proposed expenditure.

Very truly yours,

H. A. METZ, Comptroller.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment be and it hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of thirty thousand seven hundred dollars (\$30,700), the

proceeds of the same to be used by the Comptroller in carrying out the provisions of section 149 of the Greater New York Charter, and in effecting a reorganization of the present system of City bookkeeping.

No. 697.

City of New York—Department of Finance,
Comptroller's Office,

April 24, 1908.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I hereby make application for an issue of Special Revenue Bonds to the amount of \$4,000 for the purpose of purchasing the necessary equipment for the Bureau of Real Estate, and for the proper installation and tabulation of the records of the City in said Bureau.

I make this application in view of the fact that the Contingent Fund of the Comptroller's office is not sufficient to warrant allowances to Bureaus of this Department for furniture, filing cases, or such other equipment as is now required by the said Bureau of Real Estate.

Respectfully,

H. A. METZ, Comptroller.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—There is transmitted herewith for consideration of your Honorable Board, request for the issue of Special Revenue Bonds to the amount of twelve thousand dollars (\$12,000), for the purpose of fitting up new offices in the old East River Bank Building, for the use of the Bureau of Licenses and the Marriage Bureau.

Nos. 157 and 159 East Sixty-seventh Street,
Borough of Manhattan, May 5, 1908.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Sir—There is pressing need for an automobile for the use of the Deputy Chief of Department in Charge, Boroughs of Brooklyn and Queens, and in view of the fact that the formalities attendant upon the procurement of the same by contract at public letting would necessarily require a considerable period of time, and the machine being desired at the earliest practicable moment, I have the honor to request that the Board of Aldermen, pursuant to the provisions of section 419 of the Greater New York Charter, authorize the purchase of such automobile in the open market instead of by contract at public letting, at an expense not to exceed the sum of five thousand dollars (\$5,000).

I enclose draft of resolution designed to accomplish the object in view with the request that it receive early and favorable consideration.

Respectfully,

NICHOLAS J. HAYES, Commissioner.

Resolved, That, pursuant to the power conferred upon it by the provisions of section 419 of the Greater New York Charter, the Board of Aldermen of The City of New York, deeming such course to be in the public interest, hereby authorizes and empowers the Fire Commissioner to purchase, in the open market instead of by contract at public letting, for the use of his Department in the Boroughs of Brooklyn and Queens, an automobile for its official use, at an expense not to exceed the sum of five thousand dollars (\$5,000).

The Vice-Chairman laid before the Board the following communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond:

No. 702.

The City of New York—Department of Parks,
Boroughs of Manhattan and Richmond,
The Arsenal, Central Park,
May 4, 1908.

To the Honorable the Board of Aldermen, The City of New York:

Gentlemen—Pursuant to section 188 of the City Charter, I beg to hereby petition your Honorable Board to request the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to the amount of \$100,000, to provide for the deficiency between the amount appropriated and the amount actually required to properly maintain the parks, parkways and playgrounds in the Boroughs of Manhattan and Richmond.

At the rate the appropriation is now being used, and the further imperative demands for the proper maintenance of the parks, parkways and playgrounds during the coming season, unless this amount is forthcoming, a large number of men will be laid off in the fall, with all the hardship that this implies, and to the great detriment of the parks, which require a constant force the year round, greater even than the present number.

Each season has its peculiar demands, and owing to the curtailment of the force last season, the early spring maintenance work of the parks suffered severely, and this can only be avoided next year by keeping the force constant throughout the year.

Respectfully,

HENRY SMITH,

Commissioner of Parks, Boroughs of Manhattan and Richmond.

Report of Committee on Bridges and Tunnels—

Nos. 405 and 546.

The Committee on Bridges and Tunnels, to which was referred on March 18, 1908 (Minutes, page 1220), the annexed resolution, together with the communication from the Central Railroad of New Jersey, which was referred to your Committee at the meeting, held on April 7, 1908, respectfully

REPORTS:

That, in the opinion of your Committee, it is absolutely necessary for the protection of life and limb that access should be provided to the recreation pier at West and Liberty streets by means of an overhead bridge and not subject those desiring to avail of the use of said pier to the danger of crossing on the surface of the street.

Vehicular traffic in that section is very heavy and in order to avoid accidents an overhead bridge would appear to be the most satisfactory means of access thereto.

The proposition of the Central Railroad of New Jersey to construct, maintain and keep in repair the proposed overhead bridge free of expense to the City for the privi-

lege of connecting with the company's building at No. 101 West street, and No. 144 Liberty street, would seem to be a fair and reasonable proposition.

Inasmuch as the Board of Estimate and Apportionment possesses the power to pass upon this matter, your Committee recommends that the subject be referred to that Board for its favorable consideration.

Whereas, The recreation pier at the foot of Liberty street, North River, Borough of Manhattan, will in the near future be completed and opened for the use of the public, and

Whereas, Access thereto over the surface of West street will be extremely dangerous to the many women and children availing themselves of the use of the said pier.

Resolved, That the President of the Borough of Manhattan be and he is hereby requested to construct and maintain an overhead bridge over West street to connect with such recreation pier and that he ask the Board of Estimate and Apportionment for an appropriation to meet the expense connected therewith.

JOHN F. WALSH, JOHN LOOS, MICHAEL STAPLETON, JOHN J. McDONALD, THOS. J. McALEER, Committee on Bridges and Tunnels.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Walsh moved the adoption of this report.

Which report was accepted.

MOTIONS, ORDINANCES AND RESOLUTIONS.

Alderman Doull asked and obtained unanimous consent to introduce the following communication and resolution:

No. 703.

Committee on Patriotism, New York City Federation,
No. 95 Elm Street,
New Rochelle, N. Y., April 16, 1908.

Hon. REGINALD S. DOULL, No. 418 West Thirty-fifth Street, New York City:

Dear Sir—The Committee on Patriotism of the New York City Federation of Women's Clubs, an organization composed of more than 35,000 women in Greater New York, urges you to lay before the Board of Aldermen the subject of the celebration of Independence Day (the Fourth of July) in New York City, worthy of the day itself and the great and memorable deeds it commemorates.

We respectfully request that in all appropriate places under the direct jurisdiction of the City, such as prisons, recreation piers, parks, etc., patriotic exercises be held on that day, made up of music and brief but eloquent addresses glorifying patriotism—not alone the patriotism of war, but the patriotism of peace—civic patriotism—to the end that the people, both native and foreign born, may have an appreciation of their privileges as citizens of this great Republic, and their rich heritage of liberty handed down by the forefathers.

Very truly yours,

MRS. J. HERON CROSMAN, Chairman.

By Alderman R. S. Doull—

Resolved, That his Honor, the Mayor, be and he is hereby respectfully requested to urge all persons residing in this City to display the national colors from their residences and places of business from sunrise to midnight on the 4th day of July, and on all public buildings and structures, and to order the bands of music playing in public parks and on public piers to play only patriotic airs, with a view to inspiring in the hearts of the people a better understanding of the true import of the day and a greater realization of their duties as citizens to maintain the dignity of the law and to promote the general welfare of our City to the everlasting glory of our country—a great Republic founded July 4, 1776, by the immortal Declaration of Independence, whereby the right of the people to govern themselves was made manifest to the whole world. This mandate which sounded the death knell to the doctrine that some men were born to rule and others to be ruled, and which was baptized by the best blood of our land, should never be forgotten by the American people, and each recurring anniversary of its birth should be celebrated with befitting honors.

Which was adopted.

AN ORDINANCE in relation to the regulating and licensing of motor vehicles for hire, commonly called sight-seeing automobiles.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Definitions. A sight-seeing automobile within the meaning of this ordinance is a motor vehicle with a seating capacity for more than six passengers, operated on the public highways for sight-seeing purposes. The owner is the person who maintains a sight-seeing automobile service. The operator is the chauffeur or driver of a sight-seeing automobile.

Sec. 2. It shall be unlawful to own, maintain or operate on the public highways of The City of New York any sight-seeing automobile service unless licensed, and it shall be unlawful for any sight-seeing automobile to pick up or carry any passenger for hire unless a license has been duly granted so to do, as hereinafter provided.

Sec. 3. The Mayor of The City of New York shall from time to time issue, as hereinafter provided, annual licenses under his hand and seal to so many and such persons as he shall deem proper to own, maintain and operate sight-seeing automobiles in The City of New York.

Sec. 4. Before any such license shall be granted, the company or individual applying for a license to own and maintain a sight-seeing automobile service shall provide and maintain one or more commodious offices or waiting rooms for passengers. Such application must be made in writing, signed and sworn to by the owner, and shall state:

- (1) The name of the owner and his or its residence and address;
- (2) The number of vehicles to be used in said service;
- (3) The number of passengers to be carried by each vehicle;
- (4) The location of the offices or waiting rooms.

The license when issued shall have a number, state the name of the person to whom issued, the number of vehicles to be used in the service, the number of passengers to be carried by each vehicle, and the location of the offices or waiting rooms. No such office or waiting room shall be maintained in The City of New York within two hundred (200) feet of any other such office or waiting room on the same avenue, street, highway or thoroughfare, and no such sight-seeing automobile shall stand in front of any such office or waiting room except for a period of time sufficient to load or unload its passengers. Upon the signing of such license by the Chief of the Bureau of Licenses the same shall be recorded in a book to be kept by him for that purpose, and he shall transmit the said license to the applicant, who shall at all times show same to any police officer whenever required so to do.

Sec. 5. The annual license fee for such sight-seeing automobile shall be based on the carrying capacity of each automobile at the rate of one dollar (\$1) for each passenger, the number of whom is stated in the license.

Sec. 6. The license number of such sight-seeing automobile shall always be displayed conspicuously upon the back thereof in Arabic numerals in black on a white ground, each numeral to be not less than three (3) inches in height, and each stroke to be not less than one-half (1/2) inch in width, and also, as a part of such number, the initial letters N. Y. C.

Sec. 7. It shall not be lawful for any person to solicit passengers for any sight-seeing automobile upon any park, square, street, avenue, road or highway in The City of New York, within two hundred (200) feet on the same avenue, street, highway or thoroughfare of any duly licensed sight-seeing automobile office or waiting room other than the office or waiting room for which he solicits passengers. Any person violating this section shall, upon conviction thereof before a Magistrate, for the first offense, be fined \$25, and for each subsequent violation and conviction be fined \$50, or in default of the payment of such fine or fines, be imprisoned for ten days.

Sec. 8. No person shall operate upon the public highways of The City of New York a sight-seeing automobile until he shall have obtained a license as hereinafter provided for.

Sec. 9. The Mayor of The City of New York shall from time to time issue annual licenses under his hand and seal to so many and such persons as he shall deem proper to operate sight-seeing automobiles, the annual license fee for which shall be two dollars (\$2), and upon the signing of such license by the Chief of the Bureau of Licenses the same shall be recorded in a book to be kept by him for that purpose, and he shall transmit such license to the applicant, who shall at all times when operating a sight-seeing automobile carry with him said license and exhibit same to any police officer whenever required so to do.

Sec. 10. No license shall be granted to any operator of a sight-seeing automobile unless his application shall be made to the Mayor in writing and the application approved by two reputable citizens of The City of New York certifying to the competency of the applicant to operate a sight-seeing automobile.

Sec. 11. For each and every failure to comply with any of the provisions of this ordinance except section 7, which is otherwise provided for, the owner shall, upon conviction thereof before a Magistrate, be fined one hundred dollars (\$100) for each offense, or in default of the payment of such fine to imprisonment for thirty (30) days.

Sec. 12. For each and every failure of any operator to comply with any of the provisions of this ordinance, except section 7, which is otherwise provided for, or any of the provisions of the ordinances relating to "the rules of the road," such operator shall, upon conviction thereof before a Magistrate, be fined ten dollars (\$10). Upon a second conviction of any operator of a violation of any of the provisions of this ordinance or of the ordinances relating to "the rules of the road," the Mayor may cancel and revoke the said license, and the holder thereof shall not receive another license for the period of one year from the date of such revocation.

INVITATION TO CONTRACTORS.

(FLATBUSH AVENUE EXTENSION, NASSAU STREET TO WILLOUGHBY STREET, MANHATTAN BRIDGE, No. 1.)

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn which begins at the northerly side of Nassau Street and runs thence under said Flatbush Avenue Extension to a point about 20 feet north of the centre line of Willoughby Street.

The general plan of construction calls for a four-track subsurface Railroad, but the Contractor will not be required under the contract proposed to provide or lay tracks, ties or ballast. A station between Tillary Street and Johnson Street will be constructed; and suitable cross-overs, turn-outs and sidings are also to be provided, all as indicated on the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose, or on the streets, or on the sidewalks adjacent to private property, as indicated on the plans.

The manner of construction shall be by open excavation unless otherwise provided in the contract or directed by the Commission; such portions of the street, however, where the work may not be completed and the backfill is not placed at the expiration of fifteen months from the time of executing the contract, must be substantially boarded over to permit freedom of traffic, if so ordered by the Commission.

In the detailed plans for construction, provisions for pipe galleries along the line of the tunnel are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and station to be built under this contract and note the present conditions along the line of the proposed railroad. The buildings standing within the lines of the said Flatbush Avenue Extension are being, or are to be, demolished and the materials removed by other contractors.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908, at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission to enable it to determine upon what basis the proposal is made and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the sureties or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to the defaulting bidder. And the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD—FLATBUSH AVENUE EXTENSION, NASSAU STREET TO WILLOUGHBY STREET," and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York and satisfactory to the Commission, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with securities, or make a deposit in cash or securities, then this invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

WILLOUGHBY STREET TO ASHLAND PLACE.

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement, invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn which begins at a point about 20 feet north of the centre line of Willoughby Street and runs through Flatbush Avenue Extension, private property and Fulton Street to and under Ashland Place to a point about 40 feet south of the south line of Fulton Street.

In the detailed plans for construction, provisions for pipe galleries along the line of the railroad are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and stations to be built under this contract and note the present conditions along the line of the proposed railroad.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908, at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission to enable it to determine upon what basis the proposal is made and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the sureties or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to the defaulting bidder. And the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD—FOURTH AVENUE, TENTH STREET TO TWENTY-SEVENTH STREET" and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York and satisfactory to the Commission, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the bond with sureties, or to make a deposit in cash or securities, then this Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the owner-

ship of the check accompanying his or its proposal as a payment on account of such damages. All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

PROPOSALS FOR CONSTRUCTION OF RAPID TRANSIT LINES IN BROOKLYN.

INVITATION TO CONTRACTORS.

(FOURTH AVENUE FROM TWENTY-SEVENTH STREET TO FORTY-THIRD STREET.)

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn between points on Fourth Avenue 15 feet south of the south line of Twenty-seventh Street and 150 feet south of the south line of Forty-second Street.

The general plan of construction calls for a four-track subsurface Railroad, but the Contractor will not be required under the contract proposed to provide or lay tracks, ties or ballast. A station at Thirty-sixth Street will be constructed; and suitable cross-overs, turnouts and sidings are also to be provided, all as indicated on the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose, or on the streets or on the sidewalks adjacent to private property, as indicated on the plans.

The manner of construction shall be by excavation in open trench, unless otherwise provided in the contract or directed by the Commission.

In the detailed plans for construction, provisions for pipe galleries along the line of the railroad are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad, and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and stations to be built under this contract and note the present conditions along the line of the proposed railroad.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908, at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission to enable it to determine upon what basis the proposal is made, and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the sureties or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by

the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit, or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to the defaulting bidder. And the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interest of the City to contract with, or may, by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD—(FOURTH AVENUE, TWENTY-SEVENTH STREET TO FORTY-THIRD STREET)" and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York, and satisfactory to the Commission, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, then this invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission, will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed, and its provisions as to security are complied with.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
