PUBLIC HEARINGS.

On Franchises.

Union Railway Company of New York City (Cal. No. 2).

Hearing on the order to show cause why a resolution declaring forfeited the contract, dated May 18, 1917, granting a franchise to the Union Railway Company of New York City to construct, maintain and operate a street surface railway upon and along Amsterdam and Nagle avenues and Dyckman street, from West 207th street to the right of way of the New York Central Railroad Company near the foot of Dyckman street, Borough of Manhattan, shall not be adopted, and why such resolution shall not provide that, under and pursuant to section 2, Thirty-first, paragraphs "(e)" and "(f)" of said contract, the Comptroller of the City shall deduct from the sum of \$19,500, heretofore deposited with the Comptroller by said company as security for the faithful performance of certain ordinances or contracts specifically named in said section of the contract dated May 18, 1917, the sum of \$5,000 as liquidated damages for failure to perform said contract pursuant to the terms thereof, and notify said company to restore said security fund to the original amount of \$19,500 within ten days from the date of such notice.

(On September 20, 1918 (Cal. No. 49), the resolution fixing the hearing for this day was adopted.)

Alfred T. Davison, of counsel for the company, presented a protest in opposition, and Edward A. Maher, Jr., vice-president and general manager of the company, appeared and requested action be deferred until one year after the termination of the war. No one else appeared and the Chair declared the hearing closed.

The following resolution was offered:

Whereas, By franchise contract dated May 18, 1917, the Union Railway Company of New York City was granted the right and privilege to construct, maintain and operate a street surface railway extension upon and along Amsterdam and Nagle avenues and Dyckman street, from West 207th street to the right of way of the New York Central Railroad Company, near the foot of Dyckman street, Borough of Manhattan; and

Whereas, Section 2, Eighth, of said contract of May 18, 1917, provides as follows:

"The Company shall commence construction of the railway hereby authorized within thirty (30) days from the date upon which the copies of the consents of the property owners are filed with the Board, or from the date of the order of the Appellate Division of the Supreme Court, made pursuant to section 174 of the Railroad Law, confirming the determination of the Commissioners appointed thereunder, that such railway ought to be constructed, and shall complete the construction and place the same in full operation within three (3) months from the date of filing the copies of such consents or the date of such order; otherwise this right and privilege shall cease and determine, and all sums which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City as liquidated damages for failure of the Company to comply with the terms of this contract; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided, further, that when the commencement or completion of such construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided, further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board, the Company shall, in writing, consent that the Board either, in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings."

—and

Whereas, By resolution adopted by the Board of Estimate and Apportionment September 21, 1917, and approved by the Mayor October 5, 1917, said Union Railway Company of New York City was granted an extension of time up to and including March 18, 1918, within which to commence construction of the street surface railway extension authorized by said contract of May 18, 1917, and an extension of time up to and including May 18, 1918, within which to complete construction of said street surface railway extension; and

Whereas, Said Union Railway Company of New York City failed to commence construction of the street surface railway extension authorized by said contract of May 18, 1917, on or before March 18, 1918, and failed to complete construction of said extension on or before May 18, 1918; and

Whereas, Section 2, Twenty-ninth, of said contract of May 18, 1917, provides as follows:

"In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board or any official of the City, acting under the powers herein reserved, the right and privilege hereby granted may be forfeited by resolution of the Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring this right and privilege forfeited, should not be adopted. In case the Company fails to appear action may be taken by the Board forthwith."

"Any false entry in the books of the Company or false statement in the reports to the Comptroller as to a material fact, knowingly made by the Company, shall constitute such a violation or breach or failure to comply with the provisions herein contained as to warrant the forfeiture of the right and privilege hereby granted. Nothing herein contained shall affect in any way the right of the Company to apply to a court of competent jurisdiction for a review of any action of the Board forfeiting the right and privilege hereby granted."

—and

Whereas, At a meeting of the Board of Estimate and Apportionment held September 20, 1918, a resolution was adopted, reading in part as follows:

"Resolved, That the Union Railway Company of New York City be and it is hereby notified, under and pursuant to Section 2, Twenty-ninth of said franchise contract of May 18, 1917, by and between the Union Railway Company of New York City and The City of New York, to appear before the Board of Estimate and Apportionment of said City on October 4, 1918, at a meeting of the said Board to be held on said date, at 10.30 o'clock a. m., in Room 16, City Hall, Borough of Manhattan, and show cause why a resolution declaring forfeited said contract dated May 18, 1917, should not be adopted, and why such resolution

shall not provide that, under and pursuant to Section 2, Thirty-first, paragraphs "(e)" and "(f)" of said contract dated May 18, 1917, the Comptroller of said City shall deduct from the sum of nineteen thousand five hundred dollars (\$19,500), heretofore deposited with said Comptroller by said Company as security for the faithful performance of certain ordinances or contracts specifically named in said Section 2, Thirty-first, of said contract dated May 18, 1917, the sum of five thousand dollars (\$5,000), as liquidated damages for violation to perform said contract dated May 18, 1917, pursuant to the terms thereof, and notify said Company to restore said security fund to its original amount of nineteen thousand five hundred dollars (\$19,500) within ten (10) days from the date of such notice; and be it further

"Resolved, That the Secretary of this Board be and he hereby is directed to forward to the Union Railway Company of New York City a copy of this resolution and notify said Company, in writing, that on the aforementioned date, at said time and place, said Company will be allowed a hearing before final action is taken, and that in case the Company fails to appear action may be taken by the Board forthwith."

—and

Whereas, On September 20, 1918, a certified copy of the aforesaid resolution was forwarded to the Union Railway Company of New York City and said Company was notified, in writing, that it would be allowed a hearing on October 4, 1918, before final action is taken; and

Whereas, Such hearing was held October 4, 1918, at which time there were heard, Alfred T. Davison, Counsel for the Company, and Edward A. Maher, Jr., Vice-President and General Manager of the Company, in opposition thereto; and

Whereas, In the opinion of the Board of Estimate and Apportionment the Company has failed to comply with the provisions of the said contract, the violation or breach of which provisions rendered the contract liable to forfeiture; and

Whereas, Due deliberation having been had, the Board of Estimate and Apportionment hereby determines that the Union Railway Company of New York City has broken and failed and neglected to comply with the provisions of the said contract, dated May 18, 1917, and said consent, franchise and contract should be forfeited to The City of New York on account of such failure, breach and default, and all the securities deposited and moneys heretofore paid thereunder shall thereupon become the property of The City of New York; now, therefore, be it

Resolved, That the Board of Estimate and Apportionment, under and pursuant to the provisions of section 2, subdivision Twenty-ninth, of said contract of May 18, 1917, herein and hereby declares forfeited to The City of New York the contract dated May 18, 1917, between The City of New York and the Union Railway Company of New York City granting a franchise to said Company; and be it further

Resolved, That the Comptroller of The City of New York be and he hereby is directed to deduct from the sum of nineteen thousand five hundred dollars (\$19,500), heretofore deposited with said Comptroller by said Company as security for the faithful performance of certain ordinances or contracts specifically named in section 2, Thirty-first, of said contract, dated May 18, 1917, the sum of five thousand dollars (\$5,000) as liquidated damages for violation to perform said contract, dated May 18, 1917, pursuant to the terms thereof, and notify said Company to restore said security fund to its original amount of nineteen thousand five hundred dollars (\$19,500) within ten (10) days from the date of such notice; and be it further

Resolved, That the Secretary of this Board be and he hereby is directed to forward a copy of these resolutions to the Union Railway Company of New York City

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the President of the Borough of The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

New York Quotation Company (Cal. No. 3).

Hearing on the application of the New York Quotation Company, requesting the Board to so change the rate named in its franchise contract that the maximum amount permitted to be charged for the transmission of stock and bond quotations and financial news to customers shall not exceed the sum of \$20 per month for each ticker transmitting stock quotations, and a like amount for each ticker transmitting bond quotations.

(On September 20, 1918 (Cal. No. 225), a resolution was adopted fixing the hearing for this day.)

An affidavit of publication of the notice of hearing was received from the CITY RECORD.

Edmund L. Baylies, counsel for the company, appeared in favor. No one appeared in opposition, and the Chair declared the hearing closed.

The Secretary presented the following:

New York Stock Exchange, Secretary's Office, New York, October 1, 1918.

Gentlemen—Referring to the action of your Honorable Board taken Friday, September 20, 1918, in respect to the petition of the New York Quotation Company requesting a change in the rate named in its franchise contract so that the maximum amount permitted to be charged for the transmission of stock and bond quotations and financial news to customers shall not exceed the sum of twenty dollars (\$20) a month for each ticker transmitting stock quotations and a like amount for each ticker transmitting bond quotations;

And referring to the fact that the Committee on Franchises of your Honorable Board did request that the New York Stock Exchange notify its members of the public hearing in respect to said matter to be held on October 4, 1918, before your Honorable Board;

I, the undersigned, as secretary of the New York Stock Exchange, do hereby certify that notice in accordance with said request was given to all the members of said Exchange by publishing in the Weekly Bulletin of the New York Stock Exchange issued from the secretary's office on September 28, 1918, being Weekly Bulletin No. 1426, a notice, of which the following is a copy:

"The Committee on Franchises of the Board of Estimate and Apportionment has presented to the Board a report favoring the proposed change, but recommending that this public hearing be held."

"Any members of the Stock Exchange desiring to present their views to the Board in person or otherwise may do so at the above mentioned time. Mr. James B. Mabon, president of the New York Quotation Company, will be present and speak in favor of the petition if it should be necessary to do so."

REPORTS.

From the Department of Finance.

Department of Taxes and Assessments—Transfer of Appropriation (Cal. No. 4).

(On September 20, 1918 (Cal. No. 220-P), this matter was referred to the Comptroller.)

The Secretary presented a communication dated August 8, 1918, from the Department of Taxes and Assessments, herein; and the following report of the Comptroller:

September 30, 1918.

To the Board of Estimate and Apportionment, The City of New York:
Gentlemen—In a communication to your Board, dated August 8, 1918, No. 220-P, Calendar of September 20, 1918, referred to the Comptroller, the Department of Taxes and Assessments requested a transfer of \$500, within the appropriations to that office for the year 1918.

It is proposed to transfer this sum from Code 155, Supplies, \$200, to Code 162, General Plant Service, and \$300 to Code 163, Contingencies.

The appropriation for Code 162, 1918, General Plant Service, was \$1,109 and the expenditures therefrom to date are \$854.72. It is estimated that there will be required for the balance of the year \$453 for map corrections and other expenses, making it necessary to provide \$200 additional, as requested.

The appropriation for Code 163, 1918, Contingencies, was \$465 and the obligation incurred thereagainst to date aggregates \$697.47, making a deficit of \$223.47. It is stated that the transfer of \$300, as requested, will about meet the requirements of the account for the balance of the year.

The appropriation for 1918, Code 185, Supplies, from which a transfer of \$500 is requested, was \$4,504. The encumbrances thereagainst to date aggregate \$2,765.31, leaving an available balance of \$1,737.69, from which the requested transfer can be made.

The adoption of the attached resolution will effect the desired transfer.

Respectfully, CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves transfers within the appropriations to the Department of Taxes and Assessments for the year 1918 as follows:

FROM	
155 Supplies	\$500 00
TO	
162 General Plant Service.....	\$200 00
163 Contingencies	300 00
	\$500 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President, Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the President of the Borough of The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Public Markets—Transfer of Appropriation and Modification of Schedule (Cal. No. 5).

(On September 20, 1918 (Cal. No. 220-N), this matter was referred to the Comptroller.)

The Secretary presented a communication dated August 16, 1918, from the Commissioner of Public Markets, herein; and the following report of the Comptroller:

September 30, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—In a communication dated August 15, 1918, No. 220-N, Calendar of September 20, 1918, referred to the Comptroller, the Commissioner of Public Markets requested a transfer of \$140 within the appropriation to his office for 1918, as follows:

FROM	
287 Contingencies	\$140 00
TO	
277 Wages, Temporary Employees	\$140 00

The Commissioner states that his Department employs two Stationary Engineers to run the refrigerating plant in Washington Market, that, under the law, the Department is required to grant two weeks' vacation to each of its per diem employees; that, in order to comply with the law, it is necessary that a temporary Engineer be employed and that the purpose of the request is to provide funds to pay the

wages of a temporary Engineer for four weeks at the rate of \$35 per week of seven days.

In view of all the foregoing, the adoption of the attached resolutions, modifying the schedules and transferring \$140, is, therefore, recommended. As the request proposes a transfer from an other than personal service account to a personal service account, 12 votes are required to adopt the resolution transferring the sum of \$140.

Respectfully, CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to section 237 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the transfer of funds within the appropriations to the Department of Public Markets for the year 1918 as follows:

FROM	
287 Contingencies	\$140 00
TO	
277 Wages, Temporary Employees	\$140 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the President of the Borough of The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the schedules, as revised, for the Department of Public Markets for the year 1918, effective as of September 1, 1918, as follows:

277 Wages, Temporary Employees, Stationary Engineer at \$5 per day (758 days)	\$3,790 00
---	------------

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the President of the Borough of The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

College of The City of New York—Transfer of Appropriation (Cal. No. 6).

(On September 20, 1918 (Cal. No. 220-B), this matter was referred to the Comptroller.)

The Secretary presented a communication dated September 13, 1918, from the Curator of the College of The City of New York, herein; and the following report of the Comptroller:

September 28, 1918.

Board of Estimate and Apportionment, The City of New York:

Gentlemen—A request for a transfer of funds within the 1918 appropriation for the College of The City of New York dated September 13, 1918, was presented at the meeting of September 20th (Cal. 220B), and referred to the Comptroller. The items are shown below:

FROM	
1039 Equipment, Educational and Recreational.....	\$825 00
TO	
1036 Supplies, General Plant Supplies.....	\$250 00
1040 Equipment, General Plant Equipment.....	75 00
1042 Contract or Open Order Service, General Repairs.....	400 00
1046 Contract or Open Order Service, General Plant Service.....	100 00
	\$825 00

The insufficiency of the budgetary appropriations is explained as due in general to rise in prices. There is only a small balance in any of the accounts which it is desired to replenish. The specific needs not now provided for are supplies for engine and boiler rooms and lavatories and tools for the mechanics on the payroll. Some unexpected repairs are required, as one to the hoist that lifts the ashes from the cellar. The last item, \$100, is for towel service, which expense has been increased by the unusually heavy attendance, especially at summer and evening sessions.

The available balance in the account from which a transfer is sought arises, in part, from the impossibility of getting much of the customary scientific apparatus. The balance being ample for the purpose, the adoption of the attached resolution authorizing the transfer is advised.

Respectfully,

CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to section 237 of the Greater New York Charter, hereby authorizes the following transfers within the 1918 appropriation for the College of the City of New York:

FROM	
1039 Equipment, Educational and Recreational.....	\$825 00
TO	
1036 Supplies, General Plant Supplies.....	\$250 00
1040 Equipment, General Plant Equipment.....	75 00
1042 Contract or Open Order Service, General Repairs.....	400 00
1046 Contract or Open Order Service, General Plant Service.....	100 00
	\$825 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President, Board of Aldermen, the President, Borough of Manhattan, the Acting President, Borough of Brooklyn, the President, Borough of The Bronx, the Acting President, Borough of Queens and the President, Borough of Richmond—16.

Department of Parks, Boroughs of Manhattan and Richmond—Transfer of Appropriation (Cal. No. 7).

(On September 20, 1918 (Cal. No. 220-G-1), this matter was referred to the Comptroller.)

The Secretary presented a communication dated September 3, 1918, from the Commissioner of Parks, Boroughs of Manhattan and Richmond, herein; and the following report of the Comptroller:

September 30, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—The Commissioner of Parks for the Boroughs of Manhattan and Richmond, in a communication dated September 3, 1918, Calendar No. 220-G-1 of September 20, 1918, referred to the Comptroller for report, requested transfer of \$285.63 from Code 1145, 1918, Materials, Highways, to Code 1152, 1918, Shoeing and Boarding Horses, including Veterinary Service.

The original appropriation for shoeing and boarding horses (Code 1152), was \$300, which has all been encumbered except \$81.87. It is estimated by the Commissioner that \$367.50 will be required to clear existing and future liabilities against this account for the balance of the year. This money, it is estimated, will be required for the following purposes:

Veterinary service	\$300 00
Shoeing horses	30 00
Board of horses (25 days at \$1.50)	37 50
	\$367 50
Less unencumbered balance	81 87

Total

It is stated that the insufficiency of the original appropriation is, in part, due to the fact that one horse, which it was intended should be kept at the Manhattan departmental stables, the cost of whose maintenance would therefore not have been paid from this account, was, as a matter of fact for three or four months early in this year, boarded at Staten Island at a cost of one dollar per day, which was paid from this account.

The Commissioner states that the balance remaining in Code 1145 will meet the needs of the Department for the balance of the year. The adoption of the attached resolution will effect the transfer requested.

Respectfully,

CHARLES L. CRAIG, Comptroller.

Welfare was for \$1,710,000, but only \$1,500,000 was allowed. The allowances payable from this account for the first several months of this year amounted to \$986,487.54. The expenditures for July were \$142,817.31. At this rate, \$714,086.55 would be required for the remaining five months. The available balance on August 1, 1918, was but \$513,512.46, leaving a deficit for the year of \$200,574.09. It is deemed best, therefore, to allow but \$200,000 now, and to defer to the end of the year the consideration of the additional \$10,000 requested. The application for the transfer states, "If this appropriation is not granted to the Board it will be compelled to stop further allowances and also, perhaps, to discontinue them almost entirely during the closing months of the year * * *"

Upon investigation it is found that \$150,000 of the desired amount can be obtained from appropriations made to the various charitable institutions to which the City makes payment, and \$50,000 from Code 3052, Repairs and Replacements of Sidewalks. Since this latter appropriation was made an ordinance of the Board of Aldermen has placed upon the property owners the burden of repairs to walks, the expense of which it was intended should be paid from Code 3052.

The adoption of the attached resolution will effect the transfer as requested. Respectfully, CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Department of Docks—Transfer of Appropriation (Cal. No. 13).

(On September 20, 1918 (Cal. No. 220-E), this matter was referred to the Comptroller.)

The Secretary presented a communication, dated August 10, 1918, from the Commissioner of Docks, herein; and the following report of the Comptroller: September 30, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—Under date of August 10, 1918, the Commissioner of Docks addressed a communication to the Board of Estimate and Apportionment, Calendar No. 220-E, September 20, 1918, requesting a transfer of \$150 from Code 2855, 1918, Storage of Motor Vehicles, to Code 2824, 1918, Food Supplies (Meal Money). This communication was referred to the Comptroller for report.

The sum of \$250 was appropriated in the 1918 Budget for "Food Supplies (Meal Money)" for the Department of Docks and Ferries, and has proved insufficient, the present balance in the account being but \$1, and bills outstanding amounting to \$85 for supper moneys. These bills are for the period prior to September 1, 1918, and it is probable that the full amount now requested (\$150) will be needed during 1918.

The balance in Code 2855, Storage of Motor Vehicles, which will not be required for the purpose for which appropriated is more than the amount which it is proposed to transfer therefrom. I therefore submit a resolution which, if adopted by your Board, will authorize the transfer requested by the Commissioner of Docks. Very truly yours, CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to section 237 of the Greater New York Charter, hereby approves of the transfer of funds appropriated for the Department of Docks and Ferries for the year 1918, as follows:

FROM		
Contract or Open Order Service, Transportation.		
2855	Storage of Motor Vehicles.....	\$150 00

City Magistrates' Court—Modification of Schedule (Cal. No. 14).

(On September 20, 1918 (Cal. No. 209), this matter was referred to the Comptroller.)

The Secretary presented a communication dated September 5, 1918, from the Acting Chief City Magistrate, herein; and the following report of the Comptroller: September 27, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—In a communication dated September 5, 1918, No. 209, Calendar of September 20, 1918, Acting Chief City Magistrate Charles W. Appleton of the City Magistrates' Courts, requested the issuance of \$1,166.66 special revenue bonds to provide funds to pay the salaries of temporary City Magistrates George W. Simpson and Henry W. Pollack for a period of thirty days from the date of Appointment, by his Honor the Mayor. The appointment of Magistrate Simpson took effect on September 1 and that of Magistrate Pollack on August 31. These Magistrates were appointed under the authority of section 54 of the Inferior Criminal Courts Act to take the places of City Magistrates Matthew P. Breen and Robert C. Cornell who are incapacitated by reason of illness from performing their duties.

As section 54 of the Inferior Criminal Courts Act makes it mandatory to provide funds for the payment of the salaries of temporary City Magistrates, I have directed the Chief Auditor of Accounts of the Department of Finance to issue special revenue bonds to the amount of \$1,166.66 for the payment of the salaries of temporary City Magistrates George W. Simpson and Henry W. Pollack for a period of thirty days from August 31 and September 1 respectively.

The adoption of the attached resolution modifying the salary schedule is hereby recommended. Respectfully, CHARLES L. CRAIG, Comptroller.

Whereas, the amount so reserved and retained by the City from said partial payments heretofore made to the Contractor under the Contract up to and in-

Such payment by the City shall be made to the Contractor by returning to the Contractor corporate stock of the City of the par value of One hundred and sixty thousand dollars (\$160,000).

Except as herein expressly provided, the Contract and all the provisions thereof shall remain in all respects unchanged and in full force and effect as though this agreement had not been made.

The following resolution was offered:

Whereas, On September 17, 1915, the Board of Estimate and Apportionment authorized the awarding by the Public Service Commission for the First District of a contract to the Dock Contractor Company for the construction of Section No. 2, Route No. 29 (Nostrand avenue) of the Eastern Parkway Rapid Transit Railroad, Borough of Brooklyn, at an estimated cost of one million six hundred and ninety-two thousand three hundred and seventy dollars and seventy cents (\$1,692,370.70), of which the Interborough Rapid Transit Company is to provide ninety-five (95) per cent. and the City the remaining five (5) per cent.; of which there had been earned, as per certificates of the Public Service Commission Engineer rendered to September 17, 1918, the sum total of one million three hundred and twenty-nine thousand five hundred and twenty-seven dollars and ninety-eight cents (\$1,329,527.98), and of which there had been paid as per construction vouchers furnished, one million one hundred and forty thousand one hundred and sixty-two dollars and eighty-two cents (\$1,140,162.82), leaving a remainder of retained percentages of one hundred and eighty-nine thousand three hundred and sixty-five dollars and sixteen cents (\$189,365.16), consisting of corporate stock of the par value of one hundred and ninety-three thousand dollars (\$193,000), deposited in lieu of one hundred and eighty-nine thousand one hundred and sixty dollars (\$189,160) of cash retained percentages heretofore paid to the contractor, and two hundred and five dollars and sixteen cents (\$205.16) in cash; and

Whereas, The Public Service Commission adopted a resolution on September 17, 1918, under which a proposed agreement modifying the foregoing contract with the Dock Contractor Company was transmitted to and submitted for the consent and approval of the Board of Estimate and Apportionment so as to provide for the release and payment to said contractor of one hundred and sixty thousand dollars par value of corporate stock from the one hundred and ninety-three thousand dollars (\$193,000) par value now held by the City as retained percentages under the terms and provisions of the contract, and which, if released, would leave thirty-three thousand dollars (\$33,000) par value of corporate stock held, together with two hundred and five dollars and sixteen cents (\$205.16) as cash retained percentages, and the original bond of one hundred and seventy-five thousand dollars (\$175,000) to assure the faithful performance and completion of the contract, which is now practically finished, the estimated cost of the uncompleted work, consisting mainly of repairs to buildings, etc., being twenty-five thousand dollars (\$25,000); therefore be it

Resolved, That the Board of Estimate and Apportionment does hereby consent to and approve of the proposed agreement modifying the said contract with the Dock Contractor Company, and authorize and request the Comptroller, subject to the performance by the contractor of the conditions precedent set forth in said proposed modifying agreement, to pay over to the contractor one hundred and sixty thousand dollars (\$160,000) par value of corporate stock from the one hundred and ninety-three thousand dollars (\$193,000), par value of such now held by the City as retained percentages, in accordance with the terms of the contract.

(On September 27, 1918 (Cal. No. 80), this matter was referred to the Comptroller.)

The Secretary presented the following:

Public Service Commission for the First District, 49 Lafayette Street, New York.

To the Board of Estimate and Apportionment of the City of New York:

The Public Service Commission for the First District herewith transmits to you for your consent, as required by law, a proposed contract between The City of New York, acting by this Commission, and Powers-Kennedy Contracting Corporation, for the construction of a subway approach structure and the sub-surface restoration work at the southeast corner of William and Ann streets, Borough of Manhattan, City of New York, on Section No. 2 of Route No. 48, being a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, the proposal amounting to twenty-three thousand two hundred ninety-nine dollars (\$23,299); also a proposed contract between The City of New York, acting by this Commission, Charles F. Noyes, owner of the premises at the said southeast corner of William and Ann streets, and Interborough Rapid Transit Company, for the construction and maintenance of a subway approach within said premises. The proposed contract with Powers Kennedy Contracting Corporation covers all the work on the approach with the exception of station finish.

The Public Service Commission for the First District requests your Honorable Board to consent to said proposed contracts herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of the City of executing the said proposed contracts with Powers Kennedy Contracting Corporation, to wit, the sum of twenty-four thousand five hundred dollars (\$24,500), and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund of said City may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract with Powers, Kennedy Contracting Corporation, to wit, the sum of twenty-four thousand five hundred dollars (\$24,500). In order to cover the contingencies and extra work, which, as the experience of the Engineers of the Commission indicate, are bound to occur on work of this character, the amount hereby requisitioned is slightly in excess of the bid price of twenty-three thousand two hundred ninety-nine dollars (\$23,299).

The Public Service Commission for the First District does hereby, pursuant to section 45 of the Greater New York Charter, make requisition for the authorization of corporate stock for the full amount sufficient to pay the entire estimated expense to the City of executing said proposed contract with Powers, Kennedy Contracting Corporation, to wit, the sum of twenty-four thousand five hundred dollars (\$24,500), such requisition to be charged against the appropriations made by your Honorable Board for the purpose of carrying out Contract No. 3, being the contract dated March 19, 1913, between The City of New York, acting by this Commission, and Interborough Rapid Transit Company for additional rapid transit railroads.

In witness whereof, the Public Service Commission for the First District has caused its official seal to be hereto affixed and these presents to be signed by its Secretary, this 25th day of September, 1918.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by JAMES B. WALKER, Secretary.

(Seal.)

Avenue-Lexington Avenue Rapid Transit Railroad, the proposal amounting to twenty-three thousand two hundred and ninety-nine dollars (\$23,299).

Resolved, That this Commission do and hereby does approve and adopt the proposed contract now submitted to this Commission between The City of New York, acting by this Commission, and Powers, Kennedy Contracting Corporation, for the purpose of carrying out said work, and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said contract in said form, if and when said proposed contract shall be consented to by the Board of Estimate and Apportionment of The City of New York, and approved as to form by the Corporation Counsel.

Resolved, That the Secretary of this Commission be and hereby is authorized and directed to request the said Board of Estimate and Apportionment to consent to said proposed contracts and to prescribe a limit to the amount of bonds available to meet the requirements of the City's obligations under said proposed contract with the Powers, Kennedy Contracting Corporation, to wit, the sum of twenty-four thousand five hundred dollars (\$24,500); and also to request the said Board of Estimate and Apportionment to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Board of Commissioners of the Sinking Fund of said City may prescribe for the purpose of providing the necessary means to meet the City's obligations under said proposed contract with the Powers, Kennedy Contracting Corporation, to wit, the sum of twenty-four thousand five hundred dollars (\$24,500); and also to make request for the authorization of corporate stock for the full amount sufficient to pay the entire estimated expense of the City of executing said proposed contract with the Powers, Kennedy Contracting Corporation, to wit, the sum of twenty-four thousand five hundred dollars (\$24,500), such requisition to be a subrequisition and charged against the appropriations made by said Board for the purpose of carrying out the contract dated March 19, 1913, between The City of New York, acting by this Commission, and Interborough Rapid Transit Company, known as Contract No. 3, for the construction of additional rapid transit railroads.

Resolved, That the Secretary of this Commission be and hereby is authorized and directed to give notice to said Powers, Kennedy Contracting Corporation that its proposal has been accepted, and the proposed contract for the structural and subsurface restoration work awarded to it by this Commission, subject to its being consented to in form and substance as required by law.

Resolved, That the Secretary of this Commission be and hereby is authorized and directed to give notice to said Charles F. Noyes, that the agreement for the construction and maintenance of the subway approach on his premises at the southeast corner of William and Ann streets, Borough of Manhattan, City of New York, has been approved, subject to its being approved in form and substance as required by law.

State of New York, County of New York, ss.:

I, James B. Walker, Secretary of the Public Service Commission for the First District, do hereby certify that I have compared the above with the original adopted by said Commission on September 17, 1918, and on file in the office of said Commission, and that it is a correct transcript thereof and of the whole of the original.

In testimony whereof, I have hereunto subscribed my hand and affixed the seal of the Commission this 25th day of September, 1918.

(Seal.) JAMES B. WALKER, Secretary.
(Copy of contracts referred to herein are on file.)

October 1, 1918.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—On September 25, 1918, the Public Service Commission for the First District accepted, subject to the consent of the Board of Estimate and Apportionment:

1. The proposal of the Powers, Kennedy Contracting Corporation for the construction of the subway approach structure and the work of subsurface restoration at the southeast corner of William and Ann streets, being a portion of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad (Route 48, Section 2).
2. The proposed agreement with Charles F. Noyes providing for the construction and maintenance of a subway approach at the southeast corner of William and Ann streets.

The estimated cost of the construction of the subway approach structure under the proposed contract with the Powers, Kennedy Contracting Corporation is \$23,299, for which an appropriation of \$24,500 is requested to provide for contingencies and extra work.

The contract for the construction of Section No. 2 of Route No. 48 (Contract No. 40976), included the construction of a station entrance in the sidewalk on the east side of William street, about 40 feet south of Ann street, but owing to the inability of the Public Service Commission to reach an agreement with the adjacent property owner (Charles F. Noyes), and on account of the narrow sidewalk on William street, it was deemed advisable to abandon this station entrance, and the construction was abandoned and the opening slabbed over.

The proposed agreement with Charles F. Noyes now provides for the extension of this entrance by a passageway under the east sidewalk of William street to Ann street and continuing under the south sidewalk of Ann street to a point about 40 feet east of the east building line of William street; thence connecting with a passageway and stairway through private property (152 and 154 William street) of Charles F. Noyes to the sidewalk of Ann street about 15 feet east of the east building line of William street.

The Proposed Agreement.

The proposed Noyes agreement provides in substance:

The owner grants and releases an exclusive right of way and easement in, through, over and upon his premises 152 and 154 William street, Manhattan, for means of access, ingress and egress, between the station and the street.

The City agrees to construct the approach at its own expense; also will construct windows in the premises fronting on the passageway for which the owner agrees to pay the City \$425.

The City will also provide an entrance from the passageway to the building, which entrance may be discontinued at the pleasure of the owner.

The Interborough Company agrees at its own expense to open the approach after the railroad is in operation, and to maintain said passageway and the owner agrees to such continuous use.

In case any present or future building on the premises is destroyed or removed, such building shall be rebuilt with a new approach at the owner's expense.

The proposed contract with the Powers, Kennedy Contracting Corporation provides for the construction of the approach in accordance with the agreement with Charles F. Noyes.

Four bids were received by the Public Service Commission for this work, as follows:

Powers, Kennedy Contracting Corporation	\$23,299 00
Rapid Construction Company	28,437 00
D. C. Serber	33,100 00
Grant, Smith & Co.	55,000 00

At the Fulton street station on the William street subway, there are two mezzanines, one extending from John street to Fulton street, the other from Fulton street to about the centre line between Fulton and Ann streets. The southerly mezzanine has two entrances, one at John street and the other at Fulton street. The northerly mezzanine has only one entrance located at Fulton street. In order to relieve the congestion at the Fulton street entrance to the northerly mezzanine it is essential that an additional entrance to said mezzanine be made at Ann street.

The plan proposed to have the entrance through the building Nos. 152-154 William street, located on the southeast corner of Ann and William streets will give the required relief.

The form of agreement granting the privilege to use a portion of said building for an approach to the subway station, taking into consideration all the conditions at this locality, appears to be properly and fairly drawn in the interest of all the parties concerned. The owner obtains certain advantages and the City a much needed additional entrance to this subway station.

The form of contract for the construction work for additional entrance and passageway is the usual form used by the Public Service Commission for said class of work, and the lowest price bid considering the present condition of the labor and material market is reasonable. I therefore recommend the adoption of the attached resolutions approving the requests. Respectfully,

CHARLES L. CRAIG, Comptroller.

William Fullen, representing the Public Service Commission, appeared, and requested that Rule 19 be waived.

On motion, Rule 19 was waived in this matter and the following resolution was offered:

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended; the provisions of section 45 of the Greater New York Charter, and a requisition of the Public Service Commission for the First District, duly made by said Commission on September 25, 1918, the Board of Estimate and Apportionment does hereby consent to the agreement proposed to be entered into between The City of New York, acting by said Commission, the Interborough Rapid Transit Company and Charles F. Noyes, owner of certain premises, known as Nos. 152 and 154 William street, New York City, which said agreement provides for an easement and right of way through the premises of said Charles F. Noyes to permit of the construction and maintenance of a subway approach at the southeast corner of William and Ann streets, and for the payment to the City by said owner of four hundred and twenty-five dollars (\$425), to cover the additional cost to the City of constructing windows on William and Ann streets, fronting from the premises on the passageway; and the Board of Estimate and Apportionment, pursuant to the provisions of law heretofore cited, does also hereby consent to the contract proposed to be entered into between The City of New York, acting by the Public Service Commission for the First District, and the Powers-Kennedy Contracting Corporation, for the construction of a structure for a subway approach and the work of subsurface restoration at the southeast corner of William and Ann streets on that part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, known as Section No. 2, Route No. 48, at an estimated cost of twenty-four thousand five hundred dollars (\$24,500); and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty-four thousand five hundred dollars (\$24,500); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding twenty-four thousand five hundred dollars (\$24,500), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe; the proceeds to the amount of the par value thereof to be applied to the purposes of the contract with the Powers-Kennedy Contracting Corporation, which contract provides for the construction of the subway approach in accordance with the agreement with Charles F. Noyes and Interborough Rapid Transit Company, as set forth in this resolution and more particularly described in the requisition of the Public Service Commission to this Board, dated September 25, 1918; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000), made by the Board on March 18, 1913, and the supplemental general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under rapid transit Contract No. 3.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the President of the Borough of The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Edward J. Mullane—Claim of (Cal. No. 17).

The Secretary presented the following certificate of the Comptroller:

September 30, 1918.

To the Honorable the Board of Estimate and Apportionment:

Sirs—Pursuant to section 246 of the Greater New York Charter, I hereby certify that a claim has been presented in favor of Edward J. Mullane, an Assistant Engineer in the Department of Parks, Borough of Brooklyn, amounting to \$286.66, as the difference in salary from November 1, 1917, to December 31, 1917, between what he received as Assistant Engineer at the rate of \$2,280 per annum, and what it is claimed is due him as Superintendent in said Department of Parks, at the rate of \$4,000 per annum; that it appears from a report addressed to me under date of March 19, 1918, by a Law Clerk in the Bureau of Law and Adjustment of the Department of Finance that Mr. Mullane was transferred from the position of Assistant Engineer to that of Superintendent (effective November 1, 1917), in accordance with Rule 14, paragraph 3 of the Municipal Civil Service Rules and Regulations; that said Mullane performed the duties of Superintendent from November 1, 1917, to January 18, 1918, and in addition thereto also performed part of the duties of Assistant Engineer at the same time; that the monthly payrolls for the period covered by this claim bears claimant's name under the title of Assistant Engineer at the rate of \$2,280 per annum, and on each payroll he received for the pro rata amount without protest, and upon the recapitulation sheet attached to each payroll the schedule line of Superintendent at \$4,000 per annum has not been extended; that the Committee on Salaries and Grades did not approve the appointment of Mr. Mullane as Superintendent, as required by the provisions of the Budget of 1917; that the claim therefore is deemed illegal and invalid as against The City of New York, but notwithstanding in my judgment it is considered equitable and proper for the City to pay the same in the sum of \$286.66, which should be paid out of an appropriate fund in full satisfaction of the claim presented, on the execution by Edward J. Mullane of a full release in favor of The City of New York in such form as shall be approved by the Corporation Counsel. Respectfully,

CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 246 of the Greater New York Charter, as amended, hereby determines that The City of New York has received a benefit and is justly and equitably obligated to pay to Edward J. Mullane the sum of \$286.66, without interest, being the difference in salary for the position of Superintendent of Parks, Borough of Brooklyn, at the rate of \$4,000 per annum, and that of Assistant Engineer in said Department at the rate of \$2,280 per annum for the period from November 1, 1917, to December 31, 1917, by reason of his performing the duties of a Superintendent, as aforesaid; that the said sum, viz., \$286.66, shall be paid in full satisfaction of the claim herein; that the interests of the City will be best subserved by the adjustment of said claim in said sum; that payment thereof will only be made upon the execution of said Edward J. Mullane of a full release in favor of The City of New York in such form as shall be approved by the Corporation Counsel, and the Comptroller is hereby authorized to pay said sum from the appropriate fund.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the President of the Borough of The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

William J. Boylan—Claim of (Cal. No. 18).

The Secretary presented the following certificate of the Comptroller:

September 26, 1918.

To the Honorable the Board of Estimate and Apportionment:

Sirs—Pursuant to section 246 of the Greater New York Charter, I hereby certify that a claim has been presented by William J. Boylan for salary alleged to be due him for services rendered as an Inspector of Masonry in the Department of Public Charities, from January 1 to January 29, 1918, inclusive; that no action has been instituted on this claim; that an investigation of the facts on which this claim is based discloses that claimant was employed in the Department of Public Charities as an Inspector of Masonry at \$1,200 per annum and that his salary in said department was paid up to December 31, 1917, from corporate stock; that he continued work in the

capacity aforesaid up to January 31, 1918, when he was notified that his services ceased as of January 29, 1918, as the Board of Estimate refused to allow salary for that year to be charged against corporate stock; that claimant had actually worked twenty-nine days during the month of January aforesaid, for which payment has not been made; that as no corporate stock has been authorized to be issued to cover payment of claimant's salary during the year 1918, this claim is illegal and invalid as against The City of New York, but notwithstanding, in my judgment, it is equitable, and proper for the City to pay the same, inasmuch as it has received value and a benefit from the services rendered by claimant, and that the sum of \$93.55 is the value of that benefit, which should be paid in full satisfaction thereof. Respectfully,

CHAS. L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to section 246 of the Greater New York Charter, hereby determines that the City has received a benefit from William J. Boylan and is justly and equitably obligated to pay to the said William J. Boylan, without interest, the sum of \$93.55 for services rendered as an Inspector of Masonry in the Department of Public Charities, from January 1 to January 29, 1918, inclusive; that the said sum shall be paid in full satisfaction of the claim which has been presented on behalf of William J. Boylan for the services above mentioned; that the interests of the City will be best subserved by the payment of said sum, and that the same shall be paid only upon the execution by the said William J. Boylan of a full release in favor of the City in such form as may be approved by the Corporation Counsel, and the Comptroller is hereby authorized to pay said claim from a proper fund.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the President of the Borough of Manhattan, the Acting President of the Borough of Brooklyn, the President of the Borough of The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Education—Acquisition of Site for School Purposes (Cal. No. 19).

(On September 20, 1918 (Calendar No. 178-A), a resolution of the Board of Education, requesting the institution of proceedings for acquiring title to this property, was presented, referred to the Comptroller, and the Chief Engineer was directed to submit a report, pursuant to the provisions of Rule No. 35, and on September 27, 1918 (Cal. No. 49), another resolution of said Board, relative to the appropriation of \$135,000 for this purpose, was referred to the Comptroller.)

The Secretary presented a communication, dated August 16, 1918, from the Board of Education requesting the acquisition of title to property on the northwesterly corner of 176th street and Washington avenue, The Bronx; and the following report of the Chief Engineer:

Report No. 17747.

September 30, 1918.

Hon. JOHN F. HYLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board of Estimate and Apportionment held on September 20, 1918, your Engineer was directed to submit a report, pursuant to the provisions of Rule No. 35 of the Board, relative to the request presented at that time by the Board of Education through its Chief Clerk, for the acquisition of title to a parcel of property located at the northwesterly corner of Washington avenue and East 176th street, Borough of The Bronx (Cal. No. 178A).

The description of the property as incorporated in the resolution of the Board of Education is based upon a property map prepared in 1848, since which time Washington avenue has been widened. The area in private ownership which it is proposed to acquire under the resolution consists of two parcels designated as Lots 35 and 38, of Block 2909, the former having a frontage of 60 feet on Washington avenue and of about 91 feet on East 176th street, while the latter, occupying a position immediately adjoining on the west the one first described, has a frontage on East 176th street of 50 feet and a depth of 108 feet. The former parcel is occupied by a church and the latter, which is occupied by a parish house, has been leased to the City for school use. Title to both of the streets have been acquired, both of them have been improved, and there does not appear to be any occasion for a modification of the street plan of the territory.

The project appears to be consistent with the City Plan.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The report of the Chief Engineer was referred to the Comptroller.

Academy Street from a Point 200 Feet South of Nagle Avenue to the Bulkhead Line of the Harlem River, Borough of Manhattan—Closing and Discontinuing (Cal. No. 26).

(On September 20, 1918 (Cal. No. 78), the petition herein was referred to the President, Borough of Manhattan.)

The Secretary presented a communication, dated September 17, 1918, from Beardsley, Hemmens & Taylor, attorneys for the United Electric Light and Power Company, enclosing petition verified the 6th day of September, 1918, from said Company, for closing a portion of the above street, and the following report of the President, Borough of Manhattan:

October 1, 1918.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, Municipal Building, Manhattan:

Dear Sir—On September 20, 1918, the application of the United Electric Light and Power Company for closing and discontinuing a strip of Academy street 31 feet wide adjacent to Sherman's Creek for a distance of 406.6 feet was referred to the Borough President.

This application is the outcome of the petition of the United Electric Light and Power Company made some time ago for a revocable consent to construct and operate a screen house on Academy street adjacent to Sherman's Creek, which could not be granted for lack of authority. It is proposed under the present petition to close a portion of Academy street and turn jurisdiction thereto over to the Department of Docks, so that the Dock Commissioner may give a lease to the Power Company for the purpose of maintaining and operating the proposed screen house.

At various other times embarrassing situations have arisen because of requests which had been made to the Department of Docks for permission to operate loading and unloading apparatus along the bulkhead line of Sherman's Creek, which could not be granted for lack of jurisdiction.

I believe that a strip of land along the bulkhead line of Sherman's Creek for its entire length should be transferred to the jurisdiction of the Dock Commissioner, to be administered in connection with the use of Sherman's Creek.

I therefore recommend that a strip 31 feet in width and extending along the southerly side of Academy street and adjacent to the bulkhead line of Sherman's Creek be closed as a public highway and that the Dock Commissioner present a map to the Commissioners of the Sinking Fund for adoption, laying out this strip as a marginal way and the jurisdiction thereto be transferred to the Dock Commissioner.

I therefore present for the adoption of the Board a map entitled: "The closing and discontinuing of a portion of Academy street from a point 200 feet south of Nagle avenue to the bulkhead line of the Harlem River. Dated October 1, 1918."

Very truly yours, FRANK L. DOWLING, President, Borough of Manhattan.

The matter was referred to the Committee on City Plan and Public Improvements, and the Secretary directed to request the Chief Engineer to report to said Committee.

MATTERS LAID OVER FROM PREVIOUS MEETINGS.**Department of Street Cleaning—Approval of Contracts for Removal of Snow and Ice During the Winter Season of 1918-1919 (Cal. No. 90).**

(On July 19, 1918 (Cal. No. 75), this matter was referred to the Comptroller.) (On September 27, 1918 (Cal. No. 19), the report of the Comptroller was presented and the matter was laid over until this meeting.)

The Secretary presented a communication, dated July 15, 1918, from the Commissioner of Street Cleaning, herein, and the following report of the Comptroller: September 17, 1918.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—At the meeting of the Board held on July 19, 1918, there was referred to the Comptroller a communication from the Commissioner of Street Cleaning, dated July 15, 1918, submitting for approval, as to the terms and conditions, five (5) forms of contract for snow removal during the winter season of 1918-1919, to wit:

- (1) Borough of Manhattan, entire.
- (2) Borough of Manhattan, by three snow removal districts.
- (3) Borough of The Bronx, entire.
- (4) Borough of Brooklyn, entire.
- (5) Borough of Brooklyn, by four snow removal districts.

These five forms of contract are identical except for territory included and are similar as to form to those used in the season of 1917-1918, except that the forms for the Boroughs of Brooklyn and The Bronx provide that the City will do the piling instead of the contractor, as was required by the 1917-1918 contracts for said Boroughs of Brooklyn and The Bronx.

The above change will make the snow removal contracts similar for all Boroughs. The purpose of these contracts, as expressed in the forms submitted, is to provide for the loading, hauling and removing of snow and ice, by the contractor, to the disposal points, at the respective bid prices per cubic yard.

The Contractor agrees to furnish at his own cost all the work necessary, to load on cars or other vehicles, to transport to the dumping places, and there unload, dump and finally dispose of all snow and ice as required by the respective contracts. The City agrees to furnish at its own cost all the labor and service necessary to pile once snow and ice in the manner defined and set forth in the respective specifications.

Form (1) Borough of Manhattan, entire. The proposal calls for bids on all the scheduled areas in the Borough of Manhattan.

Form (2) Borough of Manhattan, by three (3) snow removal districts. This form is an alternative to form No. 1 and has the scheduled area in the borough di-

vided into three districts, and bidders are permitted to bid on any one or all of the districts.

The districts are approximately defined as follows:

District 1—Area south of 14th street.
District 2—Area north of 14th street and west of an irregular line which ends on 5th avenue in south and Lenox avenue in the north.
District 3—Area north of 14th street and east of above stated line.
Form (3) Borough of Bronx entire, bids are requested on all the scheduled area in the borough.

Form (4) Borough of Brooklyn entire, a contract for all the scheduled area in the borough.

Form (5) Borough of Brooklyn by four snow removal districts. This form is an alternative to form No. 4 and similar to form No. 2, that is, the scheduled area is divided into four districts, and as in the case of the Borough of Manhattan (form No. 2) the bidders are permitted to bid on any one or all of the districts.

The districts are outlined approximately as follows:

District 1—All the area south and west of a line from the Navy Yard, along Fulton street, Flatbush avenue, 15th street and 22d avenue to Gravesend Bay.
District 2—Includes the area lying chiefly between Broadway and Fulton street.
District 3—Lies mostly north and east of Broadway.
District 4—Includes the area of the southeastern part of the borough.

The proposed contracts will provide for the removal of about 20 per cent. of the total snow removed by the City, the remaining 80 per cent. being removed or disposed of by the City by being deposited in the sewers, not by contract, but by labor employed by the Department of Street Cleaning.

Being advised that the forms of contracts as submitted will give satisfactory results, I recommend the adoption of the attached resolution approving the request. Respectfully,
CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 544 of the Greater New York Charter, hereby approves of the terms and conditions of five forms of contract and specifications submitted by the Commissioner of Street Cleaning under date of June 15, 1918, for the removal of snow and ice in the Boroughs of Manhattan, Brooklyn and The Bronx during the winter season of 1918-1919, to wit:

- (1) Borough of Manhattan, entire.
- (2) Borough of Manhattan, by three snow removal districts.
- (3) Borough of the Bronx, entire.
- (4) Borough of Brooklyn, entire.
- (5) Borough of Brooklyn, by four snow removal districts.

—for the period beginning with the certification thereof by the Comptroller of The City of New York, and ending the 15th day of April, 1919; said contract to be subject to approval as to form by the Corporation Counsel.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the President, Borough of Manhattan, the Acting Presidents, Boroughs of Brooklyn, The Bronx and Queens, and the President, Borough of Richmond—16.

Commissioner of Jurors, Richmond County—Modification of Schedule (Cal. No. 91).

(On September 27, 1918 (Cal. No. 23), the matter was laid over until this meeting).

The Secretary presented the following report of the Comptroller:
September 18, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—On August 9, 1918, your Board adopted a resolution modifying the schedules of the Commissioner of Jurors, Richmond County. It now appears that this modification is incorrect in that it failed to include an item of \$1,200 special revenue bonds issued to that office on May 24, 1918.

The adoption of the attached resolution rectifying this error is therefore recommended. Respectfully,
CHARLES L. CRAIG, Comptroller.

MATTERS CONSIDERED BY UNANIMOUS CONSENT.

The following matters not on the Calendar for this day were considered by unanimous consent:

United States Railroad Administration; New York Central Railroad; Post Office Department (Cal. No. 93).

In the matter of the joint petition of the United States Railroad Administration, New York Central Railroad and Post Office Department, U. S. A., requesting permission be granted to maintain and operate a sidetrack in 11th avenue about 65 feet south of West 33d street and running northerly to the intersection of the northerly line of West 33d street with the westerly line of 11th avenue, and there connecting with a track be laid upon lands of the New York Central Railroad Company.

(On September 20, 1918 (Cal. No. 123), this matter was referred to the Committee on Franchises.)

His Honor the Mayor, Chairman of the Committee on Franchises, presented the following:

Post Office Department, United States of America, Office of the Postmaster General, Washington, D. C., October 2, 1918.
Hon. JOHN F. Hylan, Mayor, New York, N. Y.:

Dear Sir—The problem of providing adequate and efficient postal transportation facilities in the City of New York is of serious moment, in view of the rapidly

increasing volume of mails handled. During the last winter it was frequently necessary for the mail wagons of publishers and mail order houses to stand in line in the vicinity of the post office at the Pennsylvania Station for the entire night awaiting an opportunity to reach the platform to unload their publications, due to the unavoidable congestion of the platform. With a view to relieving this congestion the Post Office Department has accepted a proposal of the New York Central Railroad Company for the leasing of the building, commonly known as the "hay-shed" between 33d and 34th streets on the west side of 11th avenue, for a term of ten years. It is the desire of the Department to have the curvature of the present tracks on the north side of the building changed so that the standard sixty foot and seventy foot mail and express cars can be accommodated for direct loading of mails from the building. It is understood that the New York Central Railroad Company has made application to the proper City authorities for permission to make such track changes as are necessary to accomplish this, but I have been advised that this application was returned to the Company with the information that a charge of \$1.00 per car would be made by the City for the use of the streets by this track in its proposed location. I am also informed that the matter was again submitted to the City authorities by the railroad company early last week but as yet no action has been taken thereon.

In view of the necessity of relief at the earliest possible date, may I urge that the importance of early action upon the petition for the change of this track be communicated to the proper board in order that alterations of the building and relocation of the track may be commenced with as little delay as practicable.

Very respectfully,

A. S. BURLISON, Postmaster General.

United States Railroad Administration, Grand Central Terminal, New York City, August 31, 1918.

To the Honorable, the Board of Estimate and Apportionment of the City of New York:

Gentlemen—Your petitioners, the United States Railroad Administration, William G. McAduo, Director General of Railroads, now in possession of and operating the railroads of The New York Central Railroad Company, and the Post Office Department of the United States of America, respectfully ask that permission be granted to lay, maintain and operate a side track beginning at a point in 11th avenue about sixty-five (65) feet southerly from the intersection of the southerly line of West 33d street, and running northerly to the intersection of the northerly line of West 33d street with the westerly line of 11th avenue, and there connecting with a track to be laid upon lands of the New York Central Railroad Company.

Your petitioner, the Post Office Department, desires to lease the building now located upon the block bounded easterly by 11th avenue and southerly by West 33d street, for the purposes of the Post Office Department, and said side track is necessary in order to make suitable railroad connections with such building for the use of the Post Office Department, and the main running tracks in 11th avenue. The location and the connections of said side track are shown upon the attached tracing submitted herewith, and which petitioners pray be taken as a part hereof. Such reasonable conditions as may be imposed by your Board will be complied with.

Respectfully submitted, UNITED STATES RAILROAD ADMINISTRATION,
WILLIAM G. McADOO, Director General of Railroads;
NEW YORK CENTRAL RAILROAD, by P. E. CROWLEY, Federal Manager;
POST OFFICE DEPARTMENT, by OTTO PRAEGER, Second Assistant Postmaster General.

The following is a part of the discussion on this subject:

The Comptroller: The United States Railroad Administration has presented a petition signed by Mr. McAduo, the Director General, and also signed by the New York Central Railroad Company, by P. E. Crowley, Federal Manager, and signed also by the Post Office Department, by the Second Assistant Postmaster-General, for permission to lay certain tracks in and around the old hay warehouse at 33d street and 11th avenue, New York City.

On October 2, 1918, the Postmaster-General wrote a letter to the Mayor, which I think it would be well for the clerk to read.

When this letter was received it was taken up by the members of this Board, who were in session considering the budget, on October 3 (yesterday afternoon), and the Postmaster-General was apprised of the fact that the difficulty existing, and the only one that existed, was the insistence on the part of the New York Central Railroad Company for a permit free without any charge, or, in other words, it persisted in its objection to the one dollar per car charge determined upon by this Board as a condition for such permits since January 1, 1918. The Postmaster-General understanding the situation disclaims any desire whatever on the part of the Federal Railroad Administration or the Postmaster-General's department to assist the New York Central Railroad Company in evading the payment of the dollar per car charge or any other responsibility that it owes to the City. Furthermore, he has stated that the arrangements of the Federal Government with the New York Central Railroad Company are not in any wise conditioned or dependent upon the payment of this charge by the railroad company. The Postmaster was represented by Mr. William J. Denning, General Superintendent of Railway Mail Service, Washington.

Now, in the light of what was the explanation then made, I move that a permit be granted for the use of this track in the usual form, revocable upon sixty days notice and containing the one dollar per car charge.

I may say that the Postmaster-General also assured us through Mr. Denning that their plan for the use of the building proceeded upon the basis that whenever there is a readjustment or rearrangement of the tracks on the west side that their lease shall also be protected in that case, because the City is protected by the sixty-day revocation clause.

The Mayor: If I remember right, he also said that the New York Central Railroad Company was getting through their contracts with the Federal Government many millions of dollars from the Federal Government, and there was no reason why the City is not entitled to proper consideration from the New York Central Railroad Company.

The Comptroller: My recollection also on that is, he said that the Government was paying over sixty million dollars for railway mail service and that the New York Central alone between New York and Chicago was getting between one and two million dollars.

The Mayor: And then the New York Central comes along and wants the City to give them something for nothing. While I am sitting in this Board here I will oppose such a proposition. Call the roll.

The following was then offered by the Comptroller:

Whereas, The United States Railroad Administration, William G. McAduo, Director General of Railroads, New York Central Railroad Company, by P. C. Crowley, Federal Manager, and the Post Office Department, by Otto Praeger, Second Assistant Postmaster General, present a joint petition dated August 31, 1918, to the Board of Estimate and Apportionment for permission to construct, maintain and operate a standard gauge railroad spur track in Eleventh avenue, between 32d and 33d streets, and running into property of the Railroad Company at the northwesterly corner of 33d street and Eleventh avenue, in order to furnish direct railroad connection to a building situated in the block between 33d and 34th streets, the said building to be occupied by the Post Office Department, under lease from the Railroad Company; now, therefore, be it

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the New York Central Railroad Company, a domestic corporation, to construct, maintain and operate a standard gauge track on the surface of Eleventh avenue, in the Borough of Manhattan, the said track to run from an existing track in Eleventh avenue, between 32d and 33d streets, to and into the block on the westerly side of Eleventh avenue, between 33d and 34th streets, the track to enter the said block at the northwesterly corner of Eleventh avenue and 33d street, for the purpose of affording direct railroad connection to a building located in the said block and to be occupied by the United States Post Office Department, under lease from the Railroad Company; the track to be as shown upon the plan accompanying the petition, and entitled:

"Plan showing location of proposed track to be constructed on Eleventh avenue, Borough of Manhattan, to accompany application dated August 31st, 1918, of United States Railroad Administration, W. G. McAduo, Director General of Railroads, New York Central Railroad, to the Board of Estimate and Apportionment, City of New York,"

—and signed P. E. Crowley, Federal Manager, a copy of which is attached hereto and made a part hereof, upon the following terms and conditions:

1. This consent shall continue only during the pleasure of the Board of Estimate and Apportionment and shall be revocable upon sixty (60) days' notice, in writing, to the grantee, but in no case shall it extend beyond a term of ten (10) years from the

date of its approval by the Mayor, and thereupon all rights of the grantee in said street, by virtue of this consent, shall cease and determine.

2. The grantee shall pay into the treasury of The City of New York, as compensation for the privilege hereby granted, and for expenses in connection with the examination and granting of the petition and in connection with the regulation, supervision and inspection necessary because of the track, the sum of one dollar (\$1) for each and every car moved into the said premises over the track hereby authorized. Payments shall be made on May 1 and November 1 of each year for the six months' periods ending, respectively, on April 1 and October 1 of each year. Such payments shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid under any ordinance of The City of New York or by any law of the State of New York.

The grantee shall keep accurate account of the number of cars moved into the said premises. In tendering the payments, hereinabove required to be made to the Comptroller of the City the grantee shall submit to said official a certified statement of the number of cars moved into the premises during the period for which payment is tendered, such certification to be in a form satisfactory to the Comptroller.

The grantee and the Post Office Department shall allow The City of New York to have access to their books and papers for the purpose of ascertaining the correctness of such certifications.

3. Upon the revocation or termination by limitation of this consent the said grantee shall, at its own cost, cause the said track and all appurtenances thereto to be removed, if required so to do by The City of New York or its duly authorized representatives, and all that portion of said street affected by this consent to be restored to its proper and original condition. If the said track shall not be required to be removed it is agreed that it and its appurtenances shall become the property of The City of New York.

4. This consent is for the exclusive use of the grantee, and shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person, firm or corporation whatsoever, either by the acts of the grantee or by operation of law, without the consent in writing of The City of New York, acting by the Board of Estimate and Apportionment.

5. The grantee shall pay the entire cost of:

(a) The construction, maintenance and removal of the track.

(b) The protection of all the surface and subsurface structures which shall in any way be disturbed by the construction or removal of the track.

(c) All changes in the sewer, water pipes or other structures made necessary by the construction or removal of the track, including the laying or relaying of drains, pipes, conduits, sewers or other structures.

(d) The placing, replacing or restoring of the pavement and sidewalks in said street which may be required or disturbed during the construction or removal of the track.

(e) Each and every item of the increased cost of any future substructure caused by the presence of the track.

(f) The inspection of all work during the construction or removal of the track, as herein provided, which may be required by the President of the Borough and the Commissioner of Water Supply, Gas and Electricity.

6. Before the construction or removal shall be begun, the grantee shall obtain permits to do the work from the President of the Borough and from the Commissioner of Water Supply, Gas and Electricity. The grantee shall perform all the duties which may be imposed by those officials as conditions of such permits, provided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to those officials working plans which shall include and show in detail the method of construction of the track and the mode of protection or changes in all subsurface structures required by the construction of the track.

7. The track shall be constructed and operated in the latest improved manner of railroad construction and operation, and solely upon the terms and according to the lines and surveys to be approved by the President of the Borough. The top of rails shall be laid flush with the surface of the roadway and sidewalks, and the grade of the roadway and sidewalks shall be altered and drainage provided as shall be directed and approved by the President of the Borough. The character of the rails and other parts of the construction shall also be approved by the said official and the track shall be maintained in good condition, by the said grantee throughout the term of this consent.

The grantee shall, when so directed, alter the position of or move or protect the said track hereby authorized, entirely at its own expense, whenever it may become necessary for the City to repair or replace any existing structure or install any new structure within the lines of the said street. If the grantee should fail or neglect to do so, when directed, the City shall have the right to break through or remove all or any portion of the said track hereby authorized, and the grantee shall pay to the City the expense of such work.

The grantee shall construct a new catch basin and sewer manhole and change the curb where the existing said structures are interfered with by the track hereby authorized. The entire cost of such work shall be paid by the grantee, and the catch basin and sewer manhole shall be constructed under the supervision and to the satisfaction of the President of the Borough. Upon the revocation or termination by limitation of this consent and the removal of the track, the grantee shall, at its own cost, restore the street, the basin and the sewer manhole to their present condition.

8. The tracks shall be constructed, maintained and operated subject to the supervision and control of the proper authorities of The City of New York who have jurisdiction over such matters under the Charter of The City of New York. No cars shall be permitted to remain stationary within the limits of the street and no merchandise shall be loaded into or unloaded from cars standing within the limits of the street. The track shall not be used for switching purposes of any kind.

The grantee shall, if so directed by the Board of Estimate and Apportionment, (a) Station flagmen at such points as shall be deemed necessary by the Board for the protection of the public.

(b) Erect, maintain and operate gates across the said street for the protection of the public; the work to be done within thirty (30) days after receipt of notice from the said Board to do so.

(c) Restrict the operation of cars over the said track to the night time only, between the hours of 7 p. m. and 7 a. m.

9. The grantee shall at all times keep the entire street between the rails of the track and for a distance of two feet beyond the rails on either side thereof free and clear from ice and snow.

10. Said grantee shall pave and keep in permanent repair the portion of the surface of the street and sidewalks between the rails of the tracks and for a distance of two feet on either side thereof, under the supervision of the proper local authorities and whenever required by them to do so and in such manner as they may prescribe, and The City of New York shall have the right to change the material or character of the pavement of the street and sidewalks, and in that event the grantee shall be bound to replace the existing pavement between the rails of the track and for a distance of two feet on either side thereof with such changed or altered pavement, and in the manner directed by the proper City officials, at its own expense, and the provisions as to repairs herein contained shall apply to such changed or altered pavement.

11. This consent is subject to whatever right, title or interest the owners of abutting property or others may have in or to said street.

12. Said grantee shall be liable for all damages to persons or property, including the street and subsurface structures therein, by reason of the construction, operation and maintenance of said track, and it is made a condition of this consent that The City of New York assume no liability to either persons or property on account of the consent.

13. This consent is granted upon the further and express condition that the provisions of the Railroad Law applicable thereto and all laws or ordinances now in force or which may hereafter be adopted shall be strictly complied with.

14. This consent is upon the express condition that the said grantee, within sixty (60) days after its approval by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City of New York the sum of one thousand dollars (\$1,000), either in money or securities, to be approved by him, which fund shall be security for the faithful performance of the terms and conditions of this consent. In case of default in the performance by said grantee of any of the terms or conditions of this consent, The City of New York shall have the right to cause the work to be done and the materials to be furnished for making the changes or repairs after ten (10) days' notice

in writing, and shall collect the reasonable cost thereof from said fund without legal proceedings, or in case of default in the payment of the charge for the privilege, shall collect the same from such fund, with interest, after ten (10) days' notice in writing to the said grantee.

In case of any draft so made upon the security fund, the grantee shall, upon thirty (30) days' notice in writing pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of one thousand dollars (\$1,000), and in default of the payment thereof, the consent hereby given may be cancelled and annulled at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

15. Said grantee shall give notice in writing to the President of the Borough and to the Commissioner of Water Supply, Gas and Electricity of its intention to begin the work hereby authorized at least forty-eight (48) hours before such work commences. The grantee shall also give to the Board of Estimate and Apportionment notice in writing of the date on which the work is commenced and also the date on which the same is completed, not later than ten (10) days after such dates.

16. Said grantee shall commence the construction of the structure hereby authorized and complete the same on or before July 1, 1919, otherwise this consent shall be forfeited forthwith and without any proceedings, either in law or otherwise, for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment.

17. This consent shall be null and void unless said grantee shall duly execute an instrument in writing, wherein said grantee shall accept this consent and shall promise, covenant and agree to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained and file said instrument with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor; provided, however, that such time may be extended by the Board of Estimate and Apportionment.

And said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, use, maintenance or operation of the structure hereby authorized.

Proposals.

SEALED BIDS WILL BE RECEIVED BY
the Commissioner of Street Cleaning, at Room
1244, Municipal Building, Manhattan, until 12
noon, on

THURSDAY, OCTOBER 31, 1918.
FOR (NO. 1) FURNISHING FORAGE;
(NO. 2) DELIVERING FORAGE AT THE 25
STABLES OF THE DEPARTMENT OF
STREET CLEANING IN THE BOROUGHS
OF MANHATTAN, THE BRONX AND
BROOKLYN.

The time for the completion of the contract
will be as follows:
Classes A1 and B1, on or before Nov. 30,
1918.
Classes A2 and B2, on or before Dec. 31,
1918.
The amount of the security required for the
faithful performance of the contract will be 30
per cent. of the contract price.
The amount of the deposit to be made with
the bid shall be not less than one and one-half
per cent. of the total amount of the bid.
Bids must be submitted in duplicate in sealed
envelopes.
The bidder will state the price of each item
for which he desires to bid, and awards, if made,
will be made to the lowest bidder on each item
in either class.

The City reserves the right to accept the bid
for furnishing forage and to reject the bid for
carting, or to accept both bids, but it does not
reserve the right to accept the bid for carting
alone or to award a contract for carting alone.
The City also reserves the right to accept the
bids on classes A1 and B1 and to reject the
bids on classes A2 and B2, or vice versa.
The bidder shall state separately in his bid
as follows: (1) Under the heading "Forage,
Unit Price," the sale price of prices per 100 lbs.
for furnishing each kind of forage in suitable
bags or bales at the "Contractor's Delivery
Point," as elsewhere designated in the sheets.
(2) Under the heading "Carting, Unit Price,"
the sale price or prices per 100 lbs. for delivering

each kind of forage from the "Contractor's De-
livery Point," as indicated in the bid sheets,
to the "Department Receiving Point." (3) On
the sheet headed "Schedule of Contractor's De-
livery Points" the location of the place or places
from which he will deliver forage to vehicles
furnished by the Department. The points shall
be designated in the column provided for that
purpose on the "Schedule of Quantities and
Prices" by means of "letters" corresponding
with those which appear opposite the described
locations, as shown on the "Schedule of Con-
tractor's Delivery Points," from which it is in-
tended that the item of forage is to be deliv-
ered.

Bidders desiring to furnish either or all of the
various items of forage required for the Bor-
oughs of Manhattan, Bronx and Brooklyn, but
not to deliver the same, may submit their bids
on the sheet entitled "Schedule of Quantities and
Prices, Classes B1 and B2." Bids may be
submitted on this form for furnishing the various
items of forage in the quantities required for
each of the said Boroughs.

The attention of bidders is directed to the con-
tents of the "Special Instructions and Additional
Instructions" attached to the proposal for bids.
Should the bidder make use of the schedules
specified under Classes A1 and B1 or Classes A2
and B2, extensions must be made and the total
prices stated for furnishing each item, and (in
case the bidder desires to deliver the forage)
the total prices for forage and carting combined.
Deliveries will be required to be made at the
time and in the manner and in such quantities
as may be directed by the Commissioner.

The U. S. Food Administration has granted to
this department the right to contract for
forage to the end of the year 1918, and the suc-
cessful bidder, if duly licensed by the U. S. Food
Administrator, will be granted the necessary
permit.

Blank forms of bid and proposals may be ob-
tained at the Main Office of the Department of
Street Cleaning, Room 1244, Municipal Building,
Manhattan.

A deposit of One Dollar (\$1) will be required
for each set of bid forms, to be returned in case

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause, or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the sale. The placing thereon by any tenant free, for rent or otherwise, excepting the necessary watchman or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that this has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions, being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signals by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
