The Washington-Lafsyette statue, including foundation and base, was erected.
A contract for paving with rock asphalt certain walks in the Central Park near the Lily Pond, Casino and North Meadow was executed and work on same was prosecuted to completion during

24,988 square feet of walk pavement of rock asphalt laid.

6 walk busine built.

11,924 square feet of sod furnished in place.

RIVERSIDE PARK AND DRIVE.

Work an contract fee constructing walks, readway, steps, drainage and otherwise improving Riverside Park and avenue, east of the westerly wall of the drive. Detween Seventy-ninth and One Hundred and Iwentieth streets, in the Borough of Manhattan, was continued during the

500 cubic yards of earth excavation.
34 cubic yards of rock excavation.
7,104 square feet of rock asphalt walk pavement.
507 square yards of gravel roadway.
413 lineal feet of new bluestone curb furnished and set.
50 lineal feet of all bluestone targing furnished and laid.
402 square feet of bluestone tagging furnished and laid.
402 square feet of bluestone tagging, old, relaid,
100 lineal feet of bluestone theeks.
13 road-basins, built complete.

o receiving-basins, built complete.

340 lineal feet of 15-inch drain pipe laid.

341 lineal feet of 12-inch drain pipe laid.

256 lineal feet of 16-inch drain pipe laid.

564 lineal feet of 5-inch drain pipe laid.

564 lineal feet of 5-inch drain pipe laid.

58 lineal feet of 5-inch drain pipe laid.

17,451 square feet of sodding furnished and laid.

184 cubic yards of mould furnished and laid.

184 cubic yards of mould furnished in place.

In addition to the above work, one receiving basin was built, together with the laying of 12 feet of 12-inch drain pipe at One Hundred and Fourteenth street.

The anglacering force was engaged, in addition to the above-named work, on the surveys for contemplated improvements, as follows:

Topographical survey and map of Washington square, Stapleson, S. I.

Topographical survey and map of Port Richmond Park, S. I.

Topographical survey and map of prounds adjoining the new greenhouses in Central Park,

Topographical survey, map and sections of the addition to Riverside Park at One Hundred and Twenty-accord street.

Surveys of Battery Park and streets adjoining, made in connection with proposed removal of elevated railway structure from the Battery Park.

Sections and computations of quantities in connection with new water-pipe system of irrigation in Central Park.

Surveys in connection with proposed new gutter system in Central Park.

Sections and computations or quantities in connection with new water-pape system of irriga-tion in Central Park.

Surveys in connection with proposed new gutter system in Central Park.

Surveys of extension of Riverside Park, from Seventy-ninth street north to Eighty-third street, with topographical maps and sections.

Soundings and levels in connection with Soldiers and Salfors Monument at Eighty-ninth street and Riverside Park.

Surveys and soundings for proposed planting of Riverside Drive.

Levels for proposed viaduct over Riverside Drive at Ninety-sixth street.

Measurement of all materials for maintenance, such as shale, broken stone, screening—sand, gravel, etc., tabulating all bids for contracts and supplies for all the boroughs, preparing specifications for proposed new work and inspecting asphalt walks laid under guarantee.

Work OF LANDSCAPE GARDENER N. JONSSON ROSE, AND GARDENING FORCE.

1. Planting.

The work in Riverside Park was completed as far as Ninety-sixth street. In all 4,500 evergreens, shrubs and trees were planted in the section between Righty-sixth and Ninety-sixth streets, as well as smaller numbers between Seventy-second and Eighty-sixth streets. Considerable ground was also graded and sodded in connection with the planting.

In the city parks a number of trees were replaced with new ones. Corlears Hook and Mulberry Bend parks were thoroughly renovated and all missing trees and shrubs replaced.

In the Ramble, Central Park, a number of herbaccous plants, bulbs and evergreens were planted early in the season.

The usual planting of spring flowering bulbs in the flower heds throughout the city parks was commenced in October and completed early in November. Bulbs were also planted in several of the lawns of Central Park, in the borders along the Alice and elsewhere. Old bulbs, in all 45,000, were saved for this purpose. These bulbs have formerly been thrown away as useless, but as the old bulbs saved and planted for spring display in 1800 made an effective display, all such bulbs were saved and used for a similar purpose this fail. Including the old bulbs, 150,000 in all were planted for spring display.

2. Sodding.
The defective horders and lawns in Corlears Hook, Mulberry Rend and City Hall parks were solded and restored to a proper condition. Sodding was also done along the Alles, from Eighty-sixth to Ninety-seventh streets, where the gutters of the drive had been raised.

A considerable area was graded in the neighborhood of the Conservatory. Another area was filled in and partially graded north of Ninety-sixth street in Riverside Park. The embankments in East River Park not previously finished were graded to proper lines.

4. Spading.

Manure spread over bare spots throughout Central Park during the latter part of September was spaded in to enrich and improve the soil. The lawns on Park avenue were spaded from Fifty-sixth to Ninety-sixth streets, more than half the grass area being defective. The grass here is destroyed by cinders and ashes from the railroad and also by crowds of boys that cannot be kept unton account of inefficient Folice protection.

Impoverished and bare lawns in Madison square and other parks were also spaded and prepared for early seeding in the spring.

5. Top-Descring.

Most of the bare apots, poor and impoverished ground, in Central Park were covered with a dressing of manure, as well as all herbaceous borders and special plantations of andergrowth. This work is still going an and will be finished during the present quarter. The manure used was taken from the Department's supply at Ninety-sixth street and proved excaptionally good. Considerable work was done in its proper treatment.

The newly sodded lawns on Riverside Drive were also top-dressed.

b. Frenching.

Trenching and cleaning of ground infested with weeds (Polygonum Sachalieuse) was carried on in the Ramble on a large scale and involved a large amount of labor. This work was rendered necessary by the enormous vitality and power of reproduction of this plant, which had increased to a great extent, destroying lawns and shrubberies.

7. Recoving of Lawns.
Defective patches on the lawns in Central Park, Riverside Park and elsewhere were resown during the early part of October, with good results.

S. Cultivation.

Cultivation of newly planted trees and shrubs continued during part of October in Mulberry Bend, Corlears Hook. Harlem Lane, East River and Riverside Parks, as well as in different sections of other parks. Herbaceous plants generally were looked after and the borders cleaned, renovated and replanted where necessary.

p. Framing.

Pruning commenced later than usual on account of more pressing work, but it was carried on in a satisfactory manner all over the parks in the latter part of December. It consisted of the removal of dead wood and the thinning of overgrown shrubs and is still being carried on.

to, Removal of Insects, etc., from Trees.

The trees throughout the parks were cleaned by the Entomologist. In the city parks especially the trees were in a very bad condition, but the evil has been reduced considerably within two years so that the trees are now in a better condition than for a long time, and I apprehend so difficulty in kreping injurious insects in check from now on.

11. Propagation.

Propagation of large quantities of plants for spring hedding was commenced in August and September and continued until November. There is now a very good stock of plants for spring bedding in the Sheepinki nursery and in the old greenhouses, in all 95,000 strong plants. The propagation of spring bedding has been carried on according to lists prepared last summer and stock is already well advanced. An unmunally large number of effective flowering plants are large rules. Propagation of onedcor plants, such as ruses, honeysuckies, etc., has been done or a small scale.

32. Opening and Maintenance of Conscreatory.

The new Conservatory in Central Park was completed and planted by the 1st day of November and opened on the following day. The number of visitors from November 2 to December 31 was 180,050, an average of about 2,000 per day. The largest number of visitors was

traces on November 26, and the smallest 200, on December 18. The work of planting the Conservatory was done by the gardening force of the old greenbouses, and some of the men rendered exceptionally goal service. Plants had previously been raised, and a chrysanthemom sakibit was large up nearly to Christmus. Palms and other plants were planted in the main building of the Conservatory. One of the connecting wings was filled with ferms and orchits, the other with slove plants, and the larger wings were used for chrysanthemoms, with good results. Owing to the fact that no appropriation was available for stocking the new houses only a small number of plants were bought. Hence the Conservatory is far from being as well supplied with shows plants as it ought to be. The establishment, even in its present imperfect condition, has become of great popular interest, and I regret that no funds were available for the fuller development of the conservatory and surrounding grounds.

#### 13. Old Greenhouse.

The condition of the old greenburse back of the McGown's Pass Tavern was such that the public had in he excluded during the latter part of the summer. In October this structure was in dangerous that it was considered advisable to remove it. This has since been done, but the wall that formed part of the house and which served for a retaining-wall, still remains, an ugly blocch upon the landscape, and cannot be dispensed with under present conditions. Plans were, however, prepared suggesting a treatment which I believe will be satisfactory.

#### 14. Contracts Completed.

The following contracts were completed during the month of November;
1. The construction of a new range of greenlaunes, now known as the Conservatory, The contract for mould.

3. The contract for solding.

4. The commet for preparing the ground for planting in Riverside Park between Eighty-tixth and Ninety-sixth streets.

15. Designing.

A large amount of work was done in the office of design. Plans were prepared and finished for the following improvements, vir.:

1. Planting from One Hundred and Sixteenth to One Hundred and Twenty-seventh street and around Grant's Tomb, Riverside Park.

2. Planting Riverside Park from One Hundred and Eighth to One Hundred and Sixteenth street.

Completed plans of the several sections of Riverside Park

 Completed plans of the several sections of Riverside Park.
 Flans for new steps for the Conservatory, One Handred and Fifth street and Fifth avenue.
 Plans for steps in rear of conservatory.
 Plans for adjustic house, and specifications for same.
 Plans for new propagating houses.
 General plan of Conservatory grounds.
 Meso plans and improvements.
 Work was communical on plans for the improvement of the Riverside Park water-front, between Eighty-first and Eighty-siath streets.
 One ing to lack of funds, the construction work on improvement of Riverside Park was expeculed from November 23 to about December 15, during which time the force was transferred to other work or laid all. to other work or laid off.

WORK OF GENERAL FOREMAN P. W. ST. JOHN, LABORING AND MICHANICAL FORCE. During almost the entire quarter under review the above-mentioned forces were practically

working on half time.

In Central Park the usual routine maintenance work was performed. About 1,300 loads of reluse, etc., were handed to the dumps of the Street Cleaning Department, and nearly the same number of foods of brush, etc., to the department dump in Central Park, near West Ninety-

During this quarter the bridle made were repeatedly harrowed and the surface kept soft.

As an experiment, which has proved successful, clean, sharp sand was spread on a portion of these roads to prevent their hardening. As the sand did not form a bond, these roads are in good condition.

The notinges were kept open in charge of Attendants, a portion of the time from 7 A. M. to 6 c. in., and later from 5 k. M. to 5 k. M.

The drives were resultaced with shale in many places.

The drives were resultaced with shale in many places.

The laws of the park were open for the playing of croquet, tennis and football until December 1, when it was found necessary to close them on account of the flost.

At Enghty-fifth Street Stables the horses were ted, sheltered and properly cared for. The various pieces of redling stock were cleaned and cared for in the different sections. The light wagons and driving horses were also kept in proper condition.

At Electric Park and Drive the usual realization work was performed, the drive, where necessary, was resurfaced with grayed and the cycle path was resurfaced with acceptings.

The usual rotatine work was performed at Matniagoide, Mount Morris, East River and the Park Avenue parks; then at Fort Washington Park, Washington Bridge Park and Harlem Lane Park.

In the city parks below Fafty-ninth street nothing outside the ordinary work was undertaken. The certages at the several parks were kept open in charge of Attendands. The small triangles, Jackson square, Abingdon square, Christopher Street Park, Canal Street Park, Duane Street Park and Bowling Orein were closed at 5 P. M. during a portion of this quarter, in accordance with the

usual practice of the Department.

The small park at Fort Richmond, States Island, was maintained and cared for in a proper

The mechanical force has been engaged as follows:

CARLESTERS.

This force has been engaged upon the repairs of the following buildings in Central Park:

Repaired stadls Eighty-56th Street Stables, taid new floor in engine-room at workshops, required does and partitions of builder room at greenboures, made new door, new platforms and stairs and idented up proof of Blackhotne, put up storm doors at north end of Casino, put on new shingle roof, now skytight and lower at Women's Coutage, Seventy-seventh street and West Drive, also made occurs by repairs to coutages near Arsenal and Dairy at Seventy-learth street and East Drive, lower tenns grounds, Men's Coutage, user Dairy and cottage opposite the Sheepfold and necessary repairs at Menagene and Arsenal Building.

In prepuration for the skatting season, shate britisings and platforms at the Lake and at the Harsism Mear were put up, also steps, platforms, etc., at the pand near Pifty-eight street and Fifth avenue.

The following tools were made and repaired for use in connection with removing the snow and so from the walks, via.:

Made—60 walk scrapers, 5 snow plows, 8 V snow scrapers.

Repaired—71 walk scrapers, 11 snow plows, 1 V snow scrapers.

Repaired—71 walk scrapers, 11 snow plows, 1 V snow scraper, 1 ice plane.

The following buildings were repaired in the city parks:

At Mulberry Bend Park friest and put in 39 window screens, altered sask, repaired doors, est.; made repaired doors at men's and women's tollets, Hadson Park; repaired doors, sask, clusers and urinal racks in nien's partion of cottage at Union square; made ice box, 3 feet by 5 feet, and repaired doors, skylight, etc., at Aquarium; inclosed upper panels, put up fence on Fourth avenue side, and made coal box for Lavatory at Cooper Park; repaired doors and put on new looks and repaired music stand at Tompkins square; repaired doors, sash and fence at Eighty-ninth street and East River, East River Fark, together with other odd jobs at other points.

#### BOROUGHS OF BROOKLYN AND QUEENS.

OFFICE OF THE DEFARTMENT OF PARKS-BORDUGHS OF BROOKLYN AND QUEENS, ) ROBM 14, BORDEGH HALL, BROOKLYN,

How. Robert A. Van Wyck, Mayor of The City of New York;

DEAR SIR-I have the honor to transmit to you, in accordance with the provisions of the Charter, a general statement of the finances and of the work performed by the Department of Parks of the boroughs of Brooklyn and Queens for the three months from October 1 to December 31, inclusive, 1899.

Yours very buly, GEO. V. BROWER, Commuscioner.

STATEMENT OF WORK PERFORMED BY THE DEPARTMENT OF PARKS OF THE BOROUGHS OF BROOKLYS AND QUEENS DURING THE THERE MONTHS FROM OCTORES 1 TO DECEMni 31, 1899.

The regular wark of maintenance, including the keeping of walks, drives, bridle paths, shelters, etc., class and in order, has been carried on as usual, the gutters and basins having been classed and the roadways repaired. The trees and shruthery were trimmed where necessary, and ald and diseased trees removed. A large number of trees have been planted in Prospect Park, on the mounds at the Plaza, and at the different entrances.

Over twenty thousand square feet of grass sods have been laid, principally along the borders of the walks and drives. Owing to the clear and mild weather, the sprinkling of the drives was rentinzed up to December 10.

Over one thousand feet of old drain pipe has been taken up and new pipe put down at a proper level, which will do away with several low places, where the water has been in the habit of forming peaks after each storm.

Over two hundred truck loads of must have been removed from the lake and carted to the Maintenance,

Over two hundred truck loads of mud have been removed from the lake and carted to the East Side Lands.

The drives have all received attention, and part of the East Drive has been resurfaced with 1,300 cubic yards of Hudson River gravel.

The flower gardens have been dug over, and over 11,000 hyaciath, tulip and narcissus bulbs have been planted for spring flowering. Over 70,000 bulbs have also been planted in the outside parks, about 50,000 of which were saved last spring from those taken up in Prospect Park.

Park.

At the greenhouses the chrysanthemom exhibition, which begue about November 1, proved very attractive, thousands visiting it daily, particularly on Saturdays, Sandays and holidays. After the chrysanthemoms had done flowering other plants and shrubs were placed in the greenhouses, and the displays are still continued, being greatly appreciated by the public.

The new palmhouse, adjoining the old greenhouses, is rapidly ensuring completion, having been delayed in construction by difficulty in the iron and steel markets.

A new and improved wire fence was built around the Deer Paddock, and the foundations for the new Miniature Vacht Club House have been laid on the personnels.

#### Fifteenth Street Entrance.

The roadenys at Filteenth street and Ninth avenue have been completed, being built of trap rock and acceptings, 1,225 lineal feet in length. Five hundred and eighty lineal feet of brick gutters have been built, 18 European linden trees planted on the inner circle, the stone copings and povements finished and the grass plots graded and filled in with top soil, preparatory to seeding down in the spring.

East Side Lands (Institute Gardens).

The work of forming the Terrace is being continued as rapidly as we can get the soil, 14,661 cubic yards having been received during the three months last past.

A large cold frame for bedding plants has been crected on these grounds by park employees for propagating purposes.

Mechanical Departments.

All the plumbing work, stoves, flues, fountains, etc., have been overhauled and put in order and the water in the various fountains turned all for the winter.

All the trucks, carts, carriages and tools have been put in order, as well as the snow plows and ice planers. The fences at Berlford, Carroll, Wintirop and Santioga parks have been painted, as well as the new building and stairway at Highland Park. The new greenhouse at Prospect Park, and the hot-bed sashes on the Past Side Lands have been glared, and the iron fence around the Deer Paddock, hand carts, sleighs, snow plows, tree boxes, vases, etc., resided refered.

paired and painted.

The Carpenters have been kept busy in getting work ready for the new shelters, miniature you'de-house, new store-mom, etc., and have repaired the fence around the Parade Ground, the shingle roof of shed, stalls, doors, etc., at the stable, as well as attending to the general repairs necessary throughout the entire park system.

#### FORT GEBENE PARK.

The regular work of minimunance has been carried on—the walks, gutters and sholters having been kept clean and in order, the trees and shrubbery trimmed, and the old flower-beds dug up and replanted with builts for apring flowering. Over 2,000 topars fest of grass sods have been laid along the borders of the walks, and 21 horse-chestnat trees have been planted on the outside of the park, to take the place of old and diseased trees that had been taken up.

The entire surface of the "Gant" has been graded with top-soil and fertilized with 600 truck-loads of minure, preparatory to sodding in the spring, and walks have been laid out ready for asphalting part waters.

for asphalting next seas

TOMPEOUS PARK.

In addition to the general work of keeping the park in order, which consisted in cleaning the walks, gatters, shelters, etc., raking up and destroying leaves and rubbish, and keeping the grass and shrubbery trimment, there have been 3,500 square feet of grass sods laid along the borders of the walks where the grass was wore off.

New walks were laid our around the library building in the centre of the park, the mounds around the building were gracied and grass ands were laid along the coping and borders of the new walks. Old flower beds were dug up and replanted with hulbs, to flower in the spring, and holes were dug for trees and filled with top-scal. Forty-six new sugar maples and evergreens were planted in the park.

SUNSET PARK.

Summer Park is kept upon to the public, the golf links there which the Department laid out last summer being very well patronized by various clobs in the vicioity.

The stonework on the Fifth avenue side of the park was carried on up to December 15th.

#### RED HOOK PARK.

The work of improving Red Hood Park has been steadily carried on, about 10,000 milds yards of top-soil having been put in. Walks were laid out, the fence painted and a new shelow partially built, and irrigating and sewer pipes have been laid throughout the park.

In addition to the regular work of guarding Forest Park, special vigilance being required to prevent reckless shooting, the men have been kept busy in repairing roads and guiters and cleaning out surplus trees and brush.

Dyker Beach Park, as well as Canarsie Beach and New Lots Playground, have been kept clean and in good condition. CONKY INLAND CONCOURSE.

The regular work of maintenance has been carried on on the Coney Island Concounte.

A very severe storm on Sunday, December 24, carried away a large part of the enourse payement on the Concourse, and otherwise severely damaged the beach at Coney Island.

Work at Fort Hamilton Park has been discontinued until spring, when the weather will be more favorable for the improvements contemplated there.

Bushwick, Bedford, Bensonhurst, Brooklyn Heights, City, Carroll, City Hall, Cooper, Cuyler, Cooper Gore, College Point, Flushing, Highland, Kings (Jamaics), Lincoln Terrace, Lincon, Municipal, Stuyvesant, Underhill, Winthrop, Woodpoint, Zindel, Long Island City, and Corona parks and Irving and Saratoga squares have all been properly maintained. The walks, gutters, basins, shelters, etc., have been kept clean and in order, and the old flower beds have been dug up and planted with hyaciuth, tulip and marcisus bulbs, to flower in the spring.

Old and diseased trees on the outside of various parks were dug up and replaced by new ones, as follows: Winthrop Park, 92 sugar maples; Bushwick Park, 4 criental planes; Saratoga square, 4 oriental planes; Irving square, 3 European lindens; City Park, 2 poplars. The trees, dirabbery and hedges inside the parks have been regularly trimmed and cared few.

OCEAN PARKWAY AND BAY PARKWAY (TWENTY-SECOND AVAILED).

The drives, hieyele paths, gutters, trucking roads and bridle paths have been kept clean and in good order and their borders trimmed.

The west drive of Ocean parkway, from Fort Hamilton avenue to Avenue M, has been resurfaced with 17, 300 cubic yards of trap-rock screenings.

A portion of Hay parkway (Twenty-second avenus) was also resurfaced with 1,000 cubic yards of trap-rock screenings.

The sprinkling of the drives was continued until December 10.

About two hundred American elm and maple trees were planted in place of old and diseased ones taken up, three new catch backs were built and 321 feet of 9-inch sever pipe were laid.

EASTERN PARKWAY AND EXTENSION.

All the drives, gutters and side roads of the Eastern parkway and Eastern parkway extension have been kept clean and in good order and the borders trimmed.

The drives were regularly sprinkled up to December 10. Part of the main drive of Eastern parkway was resurfaced with 4,000 cubic yards of Marcellus shale sandstone acreening.

The Eastern parkway extension was rebuilt from Atlantic avenue to Fulton avenue, for which to one while yards of translated and translated acree which wards of translated and translated acree where were used.

2,000 cubic yards of trap rock and trap-rock screenings were used. Over 250 oriental plane, American alm and maple trees were planted along the Eastern parkway extension and Highland boulevant.

TWENTY-SIXTH WARD PARKWAYS

These streets have all received the necessary attention, the roads, gutters, em., having been kept clean and in good condition.

Stone avenue was improved with gravel and trap-rock screenings, 4,530 cubic rards in all

FORT HAMILTON AVENUE,

Labor, Mainter

New Parkways,

The contract with The Manbattan Construction Company for the improvement of Fart Hamilton avenue, from Seventy-ninth street to the shore of New York bay, has been completed. The total amount of work done was as tollows:

Curbing, t2,41t lineal feet; macadam, 29,703 squre yards; belginn-black guttern. 2,752 square yards; excavation, 14,000 cubic yards; brick pavement, 75 square yards.

Resolved, That the foregoing resolution, approving of the above-named proposed change in the map or plan of The City of New York, by changing the grades of Bulky avenue, adopted by this Board, together with a statement of its reasons therefor, be transmitted to the Municipal Assembly for its action thereon.

Afternative—Comptroller, Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Public Buildings, Lighting and Supplies, Commissioner of Bridges, President of the Borough of The Bronx and President of the Board.

Negative—None.

In connection with the foregoing resolution, the following form of ordinance was approved for transmission to the Municipal Assembly:

#### IN MUNICIPAL ASSEMBLY.

In Municipal Assembly.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

That, in pursuance of section 436 of the Greater New York Charter, the following resolution of the Board of Public Improvements, adopted by that Board on the 23d day of May, 1900, be and the same hereby is approved, via:

"Resolved, That the Board of Public Improvements of The City of New York, in pursuance of the provisions of section 436 of chapter 178, Laws of 1807, deceming it for the public interest to alter the map or plan of The City of New York by changing the grader of Builey avenue, between Harlem River terrace and Kingsbridge road, in the Borough of The Bronx, City of New York, does hereby favor and approve of the same, so as to change the grades of the alorestid avenue, as follows:

Beginning at a point distant 244 82 feet northerly from the first the same of the same.

Beginning at a point distant 344.83 feet northerly from the first tangent point south of East One Hundred and Ninetieth street, the elevation to be 51.01 feet above mean high-water datum as

ist. Thence northerly for 942.79 feet, the grade to be 26.0 feet above mean high-water datum ;

2d. Thence northerly to the southeastern tangent point in Bailey avenue, at Kingsbridge road, the elevation to be 14.7 feet above mean high-water datum;

3d. The grade 22.0 feet in East One Hundred and Ninety-second street, on the eastern side of the New York Central and Hudson River Railroad, Putnam Division, is herewith discontinued.

All elevations refer to mean high-water datum as established in the Borough of The Brons."

#### LAYING OUT SHLIMAN PLACE, BROOKLYN.

The following report from the Topographical Engineer was read, and on motion of the Pees ident of the Borough of Brooklyn the matter was laid over for one week:

CITY OF NEW YORK,
PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS,
TOPOGRAPHICAL BUREAU, ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIED AVENUE, May 18, 1900.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements :

Mr. John H. Mooney, Secretary, Beard of Public Improvements:

Sin—In reply to the action taken by the Board of Public Improvements referring for investigation and report a communication from the President of the florough of Brooklyn, transmitting a letter from Mr. D. J. Holden, protesting against the laying out of Silliman place, between Second and Third avenues, Borough of Brooklyn, in accordance with the plan prepared by the Topographical Bureau, I have to state as follows:

A public hearing was given in this matter by the Board of Public Improvements June 28, 1809, and a second one March 21, 1900, at which later date the map as submitted by the Topographical Bureau was approved and the matter forwarded to the Municipal Assembly. Mr. Holden objects to the late course on the southern boundary of Silliman place at Third avenue, which forms a prolongation of the southerly line of Ovington avenue, as located easterly of Third avenue, believing that it would impair the value of the corner lat at Third avenue and Silliman place. This matter was considered by the Topographical Bureau when the map was made, and it was deemed of greater importance to preserve the continuity of the street. If the value of the corner lot is impaired, which is very doubtful, the owner will have reduces by making a claim for damages when the proceeding for acquiring title as in progress.

In relation to the difference of the fourth course in the description as described in the notice for a public hearing for March 21, 1900, I wish to say that a clerical error occurred, stating that this fourth course deflects to the left, instead of to the right. The description of Silliman place as it appears in the soulce for the public hearing of June 28, 1899, was correct, and the mistake must have been made by the printer in copying the same.

Papers and eketch in the natter are herewith returned.

Respectfully,

Respectfully,
F. GREIFFENBERG,
Principal Assistant Topographical Engineer.

OPENING PLATEAU STREET, QUEENS.

The following report from the Topographical Engineer was read and placed on file:

Lity of New York,

PREMIORAT OF BOARD OF PURIC IMPROVEMENTS,

TOPOGRAPHICAL BUREAU,

ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THERE AVENUE, May 18, 1900.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

Six—In reply to the action taken by the Board of Public Improvements referring for report communication from the President of the Borough of Queens, recommending the legal opening of Plateau street, from Comma avenue to Myrtle avenue, Second Ward, Borough of Queens, I have to state that Plateau street is located in Corone Heights and was retained on the tentative map or plan of the street system of the westerly part of Newtown, or Second Ward, which map has a no dimension or grades, and that a detail or final map or Plateau street will have to be filed before a resolution can be passed for acquiring title.

I recommend, therefore, that the matter be held in abeyance until the detail or final map is approved and bled,
Paper in the matter is becowith enturned.

Respectfully,
F. GHEIFFENBERG,
Frincipal Assistant Topographical Engineer.

LAVING-OUT PARE AT TREMORT AND WESTCHESTER AVENUES, THE BRONK.

The following report from the Topographical Engineer was read and placed on file:

CITY OF NEW YORK, PRESIDENT OF BOARD OF PUBLIC INFROVEMENTS,
TOPOGRAPHICAL BUREAU,
ONE HUNDERD AND SEVENTY-SEVENTH STREET AND THIRD AVENUE, May 18, 1900.

Mr. John H. Mooney, Secretary, Board of Public Improvements:

Sin. In reply to the action taken by the Board of Public Improvements, referring for report communication from the President of the Borough of The Brons, recommending that the Final Map of Tremont avenue, cast of the Bronx river, when filed, shall show the proposed public place or park at the intersection of Westchester avenue and Tremont avenue, I have to state that place or park at the intersection of Westchester avenue and Tremont avenue, I have to state
the recommendation of the Local Board will be complied with.

Mup and computations for Tremont avenue are under way.

Respectfully,

F. GREIFFENBERG,

Principal Assistant Topographical Engineer.

OPENING ELEVENTH AVENUE, BROOKLYN.

The following report from the Topographical Eureau was read :

CITY OF NEW YORK,
PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS,
TOPOGRAPHICAL BUREAU,
ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIRD AVENUE, May 17, 1900.

Mr. John H. Mooney, Secretary, Board of Public Improvements:

Six—In reply to the action taken by the Board of Public Improvements, referring for report communication from the President of the Board of Public Ingrovements, referring for report communication from the President of the Borough of Brooklyn, recommending that proceedings in initiated to acquire title to Eleventh avenue, from Eighty-sixth street to Dyker Beach Park, in the Borough of Brooklyn, I have to state as follows:

Eleventh avenue is laid down on the map of the Town Survey Commission of Kings County, itself in the Register's office, Kings County, June 17, 1874, and there is no legal obstacle against appropring the recommendation.

approving the recommendation.

There are buildings on the land to be acquired.

Paper in the matter is be rewith returned.

Respectfully, F. GREIFFENHERG, Principal Assistant Topographical Engineer,

Principal Assistant Topographical Engineer.

The following resolution was thereupon adopted to the Resolved. That the Board of Public Improvements of The City of New York, in pursuance of the provisions of section 970 of chapter 478, Laws of 1897, deems it for the public interest that the title to the lands and premises required for the opening and extending of Eleventh avenue, from Eighty-sixth street to Dyker Beach Park, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

"Resolved, That the Board of Public Improvements, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the suppointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title whenever the same has not been herefolore acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Eleventh avenue, from Eighty-sixth street to Dyker Beach Park, in the Borough of Brooklyn, City of New York.

"Resolved, That the entire cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby."

Afternative—Comparoller, Commissioner of Water Supply, Commissioner of Highways, Cammissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Public Buildings, Lighting and Supplies, Commissioner of Bridges, President of the Borough of Brooklyn and President of the Board.

Negative—None.

MAP OF FIRST WARD, QUEENS. The following report from the Topographical Engineer was troi :

report from the Topographical Engineer was the City of New York,
President of Board of Public Improvements,
Topographical Bureau,
One Hundred and Seventy-seventh Street and Third Avenue,
May 22, 1900.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—I return herewith the map entitled "Map or Plan showing the street system in the First Ward, Borough of Queens (formerly Long Island City), as modified and proposed by the Board of Public Improvements under anthority of chapter 378 of the Laws of 1897," later having placed thereon a number of alterations which were petitioned for by property-owners, and which were considered to be beneficial to the property, or, at least, not projudicial to the interests of the City. This map or plan was achoritied to the Board of Public Improvements November 8, 1899, and on January 24, 1900, a resolution was pussed by the Board to refer the map back to the Topographical Engineer, with discretionary power, and for re-submitted of the same to the Board.

I believe that those petitioners whow suggestions were not favorably considered should have an opportunity to examine the map before its final adoption by the Board, and I wish to suggest, therefore, that another public hearing be given before the map is adopted and forwarded to the Municipal Amembly.

Respectfully.

Respectfully, F. GREIFFENBERG, Principal Assistant Topographical Engineer.

The Commissioner of Sewers moved that the master he laid over, which resolution was defeated by the following vate:

Affirmative—Commissioner of Sewers and Commissioner of Bridges—2.

Negative—Compiteller, Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Public Hulldings, Lighting and Supplies and President of the Board—5.

On motion of the Commissioner of Public Buildings, Lighting and Supplies, the following resolution was then adopted:

Whereas, At a meeting of this Board, held on the 5th day of November, 1899, resolutions were adopted, proposing to alter the map or plan of The City of New York, by Inying out new

streets, avenues, parks and public places, as shown on a proposed plan, showing the street system in the First Ward. Bereagh of Queens, formerly Long Island City, as modified and proposed by this Board, and for a meeting of this Board to be held in the office of this Board on the raph day of November, 1899, at a 'o'clock 'r. M., at which meeting such proposed laying out would be considered by this Board, and for a notice to all persons affected thereby of the afforeshif time and place, at which such proposed laying out would be considered, to be published in the City Record for at least ree days continuously, exclusive of Sundays and legal holidays, prior to the 20th day of November, 1899; and

Whereas, It appears from the affoliavit of the Supervisor of the City Record that the aforeshif resulutions and notice have been published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to the 29th day of November, 1899; and

Whereas, At the aforeshif time and place a public hearing was given to all persons affected by such proposed laying out, who have appeared, and such proposed laying out was duly considered by this Board, as well as at other times; now, therefore, be it

Resolved, That the Board of Public Improvements of The City of New York, in puramace of the provisions of section 436 of chapter 378, Laws of 1897, deeming it for the public interest to after the map or plan of The City of New York by laying out new streets, avenues, parks and public places, as shown on a proposed map or plan showing the street system in the First Ward, Borough of Queens, down an said proposed map or plan.

Resolved, That the foregoing resolution, approving of the above-towned proposed clauge in the map or plan of The City of New York, by laying out new streets in the First Ward, Borough of Queens, adopted by this Board, together with a statement of its reasons therefor, be transmitted to the Municipal Assembly for its action thereon.

Affirmative—Comptralier, Commissioner of Public Buildings

of the Board. Negative-None.

In connection with the foregoing resulution the following form of ordinance was approved for transmission to the Municipal Assembly:

IN MUNICIPAL ASSEMBLY.

In Municipal Assembly.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:
That, in pursuance of section 436 of the Greater New York Charter, the following resolution of the Board of Public Improvements, adopted by that Board on the 23d day of May, 1900, he and the same beyely is approved, size:

Resolved, That the Board of Public Improvements of The City of New York, in pursuance of the provisions of section 436 of chapter 338, Laws of 1807, described it for the public the public size in after the map or plan of The City of New York by laying out new streets, avenues, parkend public places, as shown on a proposed map or plan, showing the street system in the First Ward, Borough of Outens, formerly Long Island City, as madified and proposed by the said Board, does bereby favor and approve of the same so as to lay out the aforesaid streets, avenue, parks and public places as shown on said proposed map or plan.

#### HURIN STREET SEWER, BROOKIAN.

The President of the Board moved that the action taken by the Board at the meeting held on the 16th of May in regard to the construction of sewers in Huron and adjacent streets, in the Borough of Brooklyn, he reconsidered, which resolution was commimously adopted.

On motion of the President of the Borough of Brooklyn, the following resolution was then

On motion of the President of the Hosough of Brooklyn, the following resolution was then adapted:

Resolved, by the Board of Public Improvements, That, in paratimes of sections 415 and 422 of the Greater New York Charter, the construction of severs in Haron street, from East river to Provou street; in Provost street, between Huron street and Greenpoint avenue; in Greenpoint avenue, between Provost street and Jewell street; in Jewell street and one hundred feet east of Humboldt street, and in Mescanic avenue, between Jewell street and one hundred feet east of Humboldt street, and in Mescanic avenue, between Jewell street and Jumond street, with connections, in the Boards of Brooklyn, under the direction of the Commissioner of Sewers, be and the same hereby is authorized and approved, there having been presented to said Board an estimate in writing, in such detail as the said Board has directed, of the cost of the proposed work or improvement, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, the usinated cost and work being one hundred and seventy-five thousand dollars. The said assessed value of the real estate included within the probable area of assessment, the usinated cost in the real estate included within the probable area of assessment, the usinated cost in the real estate included within the probable area of assessment, the usinated cost in the said Beard should be been and the probable area of assessment in the bundred and thirty-anne thousand nine hundred and eighty dollars.

And the said Beard show hereby determine that no portion of the cost and expense shall be assessed upon the property deemed to be benefited thereby.

Another said Beard should be the Commissioner of Highways, Commissioner of Sewers, Commissioner of Bridges, President of the Baragh of Brooklyn and President of the Bardlings.

Negative—Commissioner of Street Cleaning, Commissioner of Public Buildings, Lighting and Sapalics—Commissione

and Supplies-2.

Assessment for Severe of One Hundred and Twenty-virtue Street, Manhattan, In accordance with the action taken by the Board on May 9 (Minutes, p. 1602), the hearing was opened in regard to the petition to have the City bear a portion of the expense of constructing sewer in One Hundred and Twenty-fifth street, between Lenox and Eighth avenues, Borough of Manhattan.

Mr. Edinand L. Mooney and Mr. John C. Shaw were present representing the petitioners.

The President raised the question of the authority of the Board in act in the matter, and on motion of the President of the Boardph of Broaldyn the following resolution was adopted:

Resolved, That the petition be referred to the Corporation Counsel, with a request that he advise us whether se not this Board has any power in the premises.

The hearing was adjourned until after the receipt of the opinion of the Corporation Counsel.

COMMUNICATIONS FROM THE CORPORATION COUNSEL.

The following communication from the Corporation Counsel was read and referred to the Commissioner of Sewers :

LAW DEPARTMENT,
OFFICE OF THE CONFIGRATION COUNSEL,
NEW YORK, May 21, 1900.

Board of Public Improvements:

Gentlement.—I am in receipt of a communication from your President, under date of May 9, 1900, relative to the investigation of charges against Patrick Ready, the contractor engaged in the togetraction of a sower in One Hundred and Sixteenth street, between Fifth and Madison avenue, for violating the provisions of the Labor Law.

With his communication be incloses the testimony and certain affidavits, apparently with the puspose of having me pass upon the question whether the charges are sustained.

The proper procedure to be adopted, as pointed out by section 2 of chapter 192 of the Laws of 187s, is to present complaints for violation of the provisions of said article r of the Labor Law to the Factory Inspector, whose duty it is to enforce the provisions of said article. If he finds such complaints to be well founded he is required to present evidence of such non-compliance to the officer, department or board having charge of such work.

Without passing on the question whether you have any power to act in the premises prior to an investigation by the Factory Inspector, I advise you that you recommend the complainant to present his grievance in the Factory Inspector.

Respectfully yours,

JOHN WHALEN, Corporation Counsel.

REPORTS FROM COMMISSIONER OF WATER SUPPLY,

The following communication from the Commissioner of Water Supply was read:
DEFARTMENT OF WATER SUPPLY, May 18, 1900.

How. MARRICE F. HOLAHAN, President, Board of Public Improvements :

How. Macrice F. Holahas, President, Board of Public Improvements; and top 1900.

Dear Six—On the estimat, the Fire Commissioner transmitted to this office complaint addressed to him by a citizen, that there is not a sufficient number of fire-hydrants on Printing House Square, or Park row and Centre street, between Chambers and Sprace streets, for the protection of the large printing establishments and buildings from fire. After due examination and report from the United Engineer of this Department, I made reply to the Commissioner, under date of 7th inst., that the complainant was wrong in claiming there were only two hydrants covering that field, as there are four hydrants within the space mentioned, and four other large hydrants on Mail street in the immediate vicinity; further, that the absence of a water-main on the westerly side of Centre streat and Park row, invoting on City Hall Park, and the existence of large vaults in frost of the printing establishments which extend into the carriageway, made it impossible to place two additional hydrants under existing chromotomers. Thereupon I received a reply from the Pire Commissioner, through his secretary, transmitting and approving the following report by the Deputy and Acting Chief of the Fire Department;

"Respectfully returned with the information that in my opinion additional fire-hydrants are very necessary along Centre street and Park row, from Chambers to Sprace streets, and as the hydrants mentioned herein in Mail strend are too for distant to be maile available I would recommend that an additional main be laid as stated therein,"

In contamity with this recommendation, approved by the Fire Commissioner, which this Department finds reasonable, I recommend the adoption by your flourd of the inclosed resolution, authorising the Commissioner of Water Supply to place a 12-inch water-main under the sidewalk of City Hall Park, on the line of Centre street and Park row, from Chambers street to Mail street, with six fire-hydrants thereon, the distance being 1,100 feet, and the estimated cost \$3,500, and I further recommend that a corresponding ordinance by transmitted to the Municipal Assembly for adoption, and that the Board adopt a further resolution requesting permission from the Department of Parks to place the water-main and pipes in the sidewalk, which is within the jurisdiction of that Department. of that Department.

Very respectfully, WILLIAM DALTON, Commissioner of Water Supply.

WILLIAM DALTON, Commissioner of Water Supply.

Thereupon the following resolution was adopted unanimously:
Resolved, That the Department of Farks be requested to give permission to the Commissioner of Water Supply to place a water-main and fire-hydrants in and along the casterly sidewalk of City Hall Park, from Chambers street to Mail street, in the Boraugh of Manhattan.

The following resolution was then adepted:
Resolved, by the Board of Public Improvements, That, in pursuance of section 413 of the Greater New York Charter, the laying of a twelve-inch water-main and the placing of six fire-hydrants therein in and along the casterly sidewalk of the City Hall Park, along Centre street and Park row, from Chambers street (o Mail street, in the Borough of Manhattan, and the making of a contract for the same by the Commissioner of Water Sopply, be and the same is hereby authorized and approved, the cost of said public work or improvement to be paid for from the appropriation for "Laying Croton Pipes, beroughs of Manhattan and The Borough of Manhattan and President of Sewers, Commissioner of Bridges, President of the Borough of Manhattan and President of the Board.

In connection with the foregoing resolution, the following form of ordinance was approved for transmission to the Monicipal Assembly:

IN MUNICIPAL ASSEMBLY.

In Ministral Assembly.

Be it Ordained by the Ministral Assembly of The City of New York, as follows:
That, in pursuance of section 413 of the Greater New York Charter, the following resolution of the Board of Public Improvements, adopted by that Board on the 23d day of May, 1900, be and the same hereby is approved, and the public work or improvement therein provided for is hereby authorized, viz.:

"Resolved, by the Board of Public Improvements, That, in pursuance of section 413 of the Greater New York Charter, the laying of a twelve-inch water-main and the placing of six freshouts therein in and along the noterly sidewalk of the City Hall Park, along Centre street and Park row, from Chambers street to Mail street, in the Biorough of Manhattan, and the making of a contract for the same by the Commissioner of Water Supply, be and the same is hereby authorized and approved, the rost of said public work or improvement to be paid for from the appropriation for 'Laying Centon Pipes," boroughs of Manhattan and The Brons for 1900,"

The following report from the Commissioner of Water Supply was read :

DEPARTMENT OF WATER SUPELY-CITY OF NEW YORK, May 18, 1900.

Hen, MAURICE F. HOLAHAM, President, Board of Public Improvements :

Hen. Maurica E. Holahan, President, Band of Public Improvements:

Dhar Sir—In the matter of the communication addressed to your Band under date of February, 27 ultimo, by the President of the Borough of Queens, and the accompanying resolution of the Local Board of that borough, asking that permission be granted to the Ustraens' Water Supply Company to extend its water-mains in and through the section known as North Beach, in the Second Ward of the borough, I desire to state that from report which I now have from the Chief Engineer of this Department I find that there is no objection to such extension of the water-mains and water service by the Citizens' Water Supply Company, and always recommend that permission be granted to the company to lay mains from the corner of Forest and Evergreen streets, through Evergreen street to Park avenue, through Park avenue to Clinton street, through Maple avenue to Old Rowery Bay road, and through Jackson's Mill road to Maple avenue, through Maple avenue to Old Rowery Bay road, and through Old Bowery Bay road for a distance of 500 feet, and to place eighteen fire-hydrants thereon. The total distance for which the mains are to be laid in 17,500 feet, and the mains and hydrants are required to give water supply and fire protection to 47 buildings.

Very respectfully,

Very respectfully, WILLIAM DALTON, Commissioner of Water Supply.

The following resolution was then adopted:

Resolved, by the Board of Public Improvements, That authority is hereby granted to the
Commissioner of Water Supply to Esse a permit that will enable the Citizens' Water Supply
Company to lay water-mates in the following streets and avenues in the barough of Queens:

From the corner of Forest and Evergreen streets, through Evergreen street to Park avenue;

Through Park avenue to Citaton street;

Through Glinton street to Jockson's Mill road;

Through Jackson's Mill road in Maple avenue;

Through Maple avenue to Old Bowery flay road, and

Through Old Bowery Bay road for a distance of 500 feet, and to place eighteen (18) firehydrants thereon, provided said company shall enter into an agreement not to make any
charge for fire-hydrant service or hydrant rentals on account of any bydrants which may be
placed on these mains. charge for fire-hydrant service or hydrant rentals on account of any hydrants which may be placed on these mains.

Resolved, That the Commissioner of Highways is hereby authorized to issue a permit to the Citizens' Water Supply Company for opening the above streets, upon the presentation to him of the permit of the Commissioner of Water Supply for the above work.

Aftermative—Comptrailer, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges and President of the Board.

Negative—Name.

The following report from the Commissioner of Water Supply was read :

DEFARTMENT OF WATER SUPPLY—COMMISSIONER'S OFFICE, NOR. 13 TO 21 PARK ROW, CITY OF NEW YORK, May 19, 1900.

Hen. MAURICE F. HOLAHAM, President, Board of Public Improvements.

Hen. MAURICE F. HOLAHAN, President, Board of Public Improvements;

DEAR SIR—In the matter of the cammunication ablireased to your Board under date of February to, ultimo, by the President of the Borough of Queens, and the accompanying resolution of the Local Board of that beraugh, asking that permission be granted to the Jamaica Water Supply Company to extend it water-mains in, through and on Shelton avenue, from Myrtle avenue west to Carlam avenue, a distance of about 300 leet, with one fire-hydrant thereon, I desire to state that from report which I now have from the Chief Engineer of this Department, I find it necessary and praper that a water-main be laid in Shelton avenue, between Myrtle and Carlton avenues, for a distance of 360 feet, with one fire-hydrant, there being three houses on the line of the proposed main to be supplied with water and fire protection.

I therefore recommend that the required permission be granted the Jamaica Water Supply Company.

Company.

Very respectfully, WILLIAM DALTON, Commissioner of Water Supply.

WILLIAM DALTON, Commissioner of Water Supply.

The following resolutions were then adopted:
Resolved, by the Board of Public Insprovements, That authority is hereby granted to the Commissioner of Water Supply to issue a permit that will enable the Jamaica Water Supply Company to lay water-mains in Shelton avenue, between Myrile and Carlton avenues, Borough of Queens, for a distance of three hundred and sixty feet, with one fire-hydrant thereon, provided said company shall enter into an agreement not to make any charge for fire-hydrant survice or hydrant rentals on account of any hydrants which may be placed on these mains.

Resolved, That the Commissioner of Highways is hereby authorized to Issue a permit to the Jamasica Water Supply Company for opening the above arrests, upon the presentation to him of the permit of the Commissioner of Water Supply for the above work.

Afternative—Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Public Buildings, Lighting and Supplies, Commissioner of Bridges and President of the Board.

Negative—None.

The following communication from the Commissioner of Water Supply was laid over for one

DEPARTMENT OF WATER SUPPLY, May 14, 1900, How, MAURICE F. HOLAHAN, President, Board of Public Improvements :

Data: Six-I have the honor to place herewith before your Board, for its consideration and action, under the concluding paragraph of section 472 of the Greater Rev York Charter, the following facts and chromatances concerning a dispute or contention between Mr. Martin Ackerman, of Marton street, Wakefield, Burough of The Bronz, and the New York and Westchester Water Company, or the receivers of that company, as to the proper charge for the water apply which Mr. Ackerman receives from the company.

The terrespondence between this Department and Mr. Ackerman and between the Department and the New York and Westchester Water Company began in August, 1850, and has continued at intervals to this date, without practical or satisfactory results. Mr. Ackerman claims that under the contract of 1894, lanvent the New York and Westchester Water Company and the

former Village of Wakefield, his annual charge should be not more than \$7.50, while the company and its receivers contend that the proper annual charge under that contend is \$10.

That contract provided that the rates to be charged by the New York and Westchester Water Company to consumers in the Village of Wakefield aboutd not exceed the rates then and thereafter established for similar purposes in the City of Mount Vernon or Williamsbridge. (See copy of the contract in pamphlet or book, contracts with private water companies, printed by direction of the Board of Public Improvements, pages 95 and 95.)

From the copies of my letters to Mr. Ackerman and to the receivers at the New York and Westchester Water Company, which are hereto attached, you will find that I am inclined to the opinion that Mr. Ackerman is right in his committee, you will find that I am inclined to the opinion that Mr. Ackerman is right in his committee, you will find that I am inclined to the opinion that Mr. Ackerman is right in his committee, the decision in this case tests with your Board, and the copies of letters herewith inclosed contain all the information which I have been able to gather in relation to this matter, and I hope the information may be found sufficient for a basis of decisive action by the Doard.

Very respectfully,

WILLIAM DALTON, Commissioner of Water Supply.

(Copy.)

WARRIELD, August 5, 1899.

Hon. THOMAS J. MULLIGAN, Esq., Deputy Commissioner of Water Supply of the Borough of The Bronx, New York City:

Hon. Thomas J. Millianan, Esq., Deputy Commissioner of Water Supply of the Borough of The Bronx, New York City:

Dear Six—The illegal action of the New York and Westchester Water Company (a concern which supplies water to that territory formerly known as the Village of Wakefield, now a part of The City of New York) compels me to appeal to you, as the head of the Department of Water Supply in the Borough of The Bronx, and ask the protection of the City against the attempt of existing a former under false pretense by said company.

The facts are as follows: In the year 1800 the late Village of Wakefield (then known as the Village of South Mt. Vernon) granted a franchise to the New York and Westchester Water Company for the supply of water for fire and domestic use.

This franchise fixed the rates to be charged by the company for domestic use in very plain language, and read something like this: "The rates to be charged shall not exceed those charged in the village of Mt. Vernon now or hereafter."

At the time of the granting the franchise the rate to be charged for one faucet was \$to per annum at Mt. Vernon, but was reduced 25 per cent., in other words to \$7.50 per annum, by the time I took the water in my house, which was some time in 1893.

The first bill I revived from the company was made out at the rate of \$10, but I promptly called their attention to the reduction of rates at Mt. Vernon, which also called for a reduction on their part. They apologized and accepted the money at the rate of \$7.50 per annum.

At this rate I have paid (and I hold receipted bills of theirs for those amounts) until the Village of Wakefield was annexed to the city in 1895, then without any agreement on my part the company demanded me to pay the tate of \$10 per annum. I have never submitted to their demands, but I have paid them promptly when a quarter was due the amount which I used them ander their franchise.

Since October, 1895, I have made payment to them by postal money order, sent the same by registered mail, thus ascertaini

accept my payment so made, and I hold these refused postal money orders in the same condition as they came back to me.

Notwithstanding the prompt payment of what was due to them, the company often wrote to me that they would cut off the water on me if I do not send them at once an amount of so and so much, the last demand of that kind being of July 12, 1859, for the amount of \$24,96. I refused to pay that outrageous charge (as I don't mend to allow anybody freece me like that), and on July 28, 1899, a man presented himself as the Superiotendent of the New York and Westchester Water Company, with a typewritten order from the said company to cut off the water on me. I was and at home at the time, so my wife stated the case to the party, who then went away without executing the order. I at once profested by letter against their action, but on Monday, July 31, 1899, the same party appeared again and attempted to cut off the water, but was prevented from doing so by the action of my wife by standing over the stop-box. This was in the afternoon, but when I wanted to draw a class of water at about 11 o'clock v. M. I found the water cut off.

Now, Mr. Commissioner, these are facts which I place before you for this outject. I am mit the only party so overcharged; people not knowing any better pay any amount asked for Previous to June 6, 1895, our village authoraties were in the position to act in a matter of this kind, and hold the company to line up to the condition of its franchise, and since its authority has been legislated out of office, I look to its successor the government of The City of New York and ask relief of them on the ground that: First, I have never made a special agreement with the New York and Westchester Water Company, but took water under the franchise granted to them by the former Village of Wakefield (South Mt. Vercann). Second. I have always paid promptly whatever was due to it under said franchise. Third. I never gave my consent, neither verbal not in writing, to have the water cut off.

Bellev

Believing it being my duty as a citizen to inform you of the state of affairs, you being a part of the government of The City of New York, and trusting you will implement to protect the people against the assault on their purse by the New York and Westchester Water Company, I Yours very respectfully.

(Signed) MARTIN ACKERMANN.

(Copy.)

Angust 11, 1899.

MARTIN ACKERMANN, Esq., Mariem street, Wahefield, New York City:

MARTIN ACKERMANN, Esq., Mariem street, Walsefield, New York City:

THEAR SIR—I have received from the Departy Commissioner of Water Supply for the Borough of The Broax your letter in him of 5th instant, invoking action on the part of this Department to protect you from what you consider to be an unjust and excessive charge for water supply if the New York and Westchester Water Campany, and from a threatened cutting off of your water supply if you did not pay the charges in tull.

You refer to a contract made in 1890 between that company and the Village of South Mount Vernon (subsequently Village of Wakefield) whereby the rares to be charged were not to exceed those charged in the Village of Makefield) whereby the rares to be charged were not to exceed those charged in the Village of Mount Vernon then and thereafter. You also state that the rate per fancet then was \$10 per annum, and was subsequently reduced at Mount Vernon to \$7.50 per annum and you claim that you are entitled to the reduced rate of \$7.50 per annum.

On examination I find that in 1895 a new contract was made between the Village of South Mount Vernon (Wakefield) and the New York and Westchester Water Company which provides for the rates then charged in the City of Mount Vernon or the Village of Williamsbridge. The water rates for the Village of Williamsbridge have been published and therefore apparently obtain in your case.

I can find no power in this Department to make any decision in this matter, or to grant you the relief you seek. I can, therefore, only salvise you to apply to the courts to such relief as you deem yourself entitled to.

Very respectfully,

WILLIAM DALTON, Commissioner of Water Supply. (Signed)

> (Copy.) WAKEFIELD, August 22, 1899.

Hon. WILLIAM DAITON, Eng., Commissioner of Water Supply of New York City:

Hon. William Daliton, Esq., Commissioner of Water Supply of New York City:

Drak Sir.—Your letter of August 11, 1899, received with thanks.
In missure to that section in which you inform me that a new contract was made between the Village of South Mannt Vernon (Wakefield), and the New York and Westchester Water Company, in the year 1895, I submit to you the affidavits of the President and three of the trustees, who were in office from November 28, 1895 (or longes) up to the day of annexation, and who were the only parties authorized by law to enter into any such a contract.

By these affidavits you can readly convince yourself, that any paper or document contrary to the said artifavits must be obtained fraudulently or a forged. As the rates for domestic use were fixed by and in the franchise, under which the said company still claims the right to supply water in this territory, and not by or in any contract whatsoever, the rates are still in force as stipulated in 1899.

On inquiries I learn that the minute book of the proceedings of the Board of Trustees of the late Village of Wakefield (South Mount Vernon) is in the office of the Comptroller, Mr. McCoy as Custodian, or the Corporation Counsel's office, and the record on said book will surely be the less evidence.

Lest evidence.

Transing you will further sift the matter, as most of the people up here are affected by it, I remain.

Yours very respectfully, good) MARTIN ACKERMANN, Marion street, Wakefield, New York City. (Signa!) N. E.—As it is my desire to put only facts before you, and to secure the inclosed andawits took some time, you will please excuse me for not answering your letter sooner.

Sign of the local benewith a copy of my letter of this date to Mr. Martin Ackermann, of Martin arrier, Wakefield, who claims that he is overcharged by you for mater supply, and that he abould not be charged more than the Moont Vernon rate of \$7.50 per year.

I desire to have an explanation of your position in this disputed matter at your earliest con-

Very respectfully, (Signed) WILLIAM DALTON, Commissioner of Water Supply.

(Copy.) MARCH 12, 1900.

MARTIN ACKERNAS, Esq., Marion street, Wakefield, New York City:

In an Sin.—I duly received your letter of 7th inst., referring to yours of January 27, distino, concerning the dispute between yourself and the New York and Westchester Water Company regarding your mater remi.

You claim that you should not be charged more than the Mount Version rate of \$7,50 per year. On the other band, I understand from report made to me by Mr. Charles H. Bull, Assistant Engineer, that the company claims that you are using water from more than one faucet, promisemently, and that you waste water.

On the information in hand it is impossible for one to determine whether you or the company are correct in the contention, and I have in-day written to the company for an explanation of the case.

Very respectfully,

Very respectfully, (Signed) WILLIAM DALTON, Commissioner of Water Supply.

(Cupy.)

March 15, 1900.

Mr. Martie Ackesmann, Marion Street, Wakefield, N. Y.

These Size-I beg to call your attention further to my letter to you of March to. It is not a question between the company and you as to the price of water, etc. I notice you have written to the Commissioner of Water Works at the Water Department. I have teld you that I had information that after this company had dust off your water you dog up the streets without a permit. Or, even if you had a permit from the City, you had no right under the law to tap the mains of this company and turn on the water, as you have done—at least, it has been so reported

Now, I am perfectly willing to arrange any difficulties between you and the company where the company is to blame, and I assure you that we treat all of our customers alike. But, in your case, you, or some one clee for you, has tapped out mains and turned on the water after I had made investigations, and I sent our Superintendent the second time and we found the water was shot oil from your premises on July 31, 1859, about to 30 o. s., and when we recently examined the pipes in troot of your place, we found that the water had been turned on and that you had been getting water and you absolutely refuse to pay your bill.

Now, I skink the proper thing, for you to do, if you have any claim against the company, is a conse to the office and make it. It is impossible for me to call at your house at seven o'clock or at any other time. I am perfectly willing to send my collector to see you when you wish to pay your bills. But, if you have any compilates to make against the company, it is your duty to tome to the office and do so. Therefore, I will be glad in see you at the office at any time during business hours and will either see you is person or have one of my representatives attend to you.

Very truly yours.

(Copy.)

NEW YORK AND WESTCHESTER WATER COMPANY,
NEW YORK OFFICE, DRUKEL BUILDING, No. 3 BROAD STREET,
NEW YORK, March 15, 1900.

Mr. William Dalton, Commissioner of Water Supply, No. 13 Park Row, New York:

Dean Six-I beg to acknowledge receipt of yours of March 12, in reference to Mr. Martin Acknowledge of March 12, in reference to Mr. Martin We are not overcharging Mr. Acknowled, but acting in accordance with our charter; but not further presection of our company, we have referred the matter to our attorneys, and in the

meantime I have written to My. Ackermann asking him to call at this office and present his claim in order that I may carefully and personally investigate same.

I received a letter from Mr. Ackermann to-day, copy of which I herewith inclose you, to which he requests that I call on him some evening after 7, which, of course, you know is impossible; for, if I were in attempt to call on the customers to settle these difficulties, I would never be in my office. I have just suggested to Mr. Ackerman that he see one at my office, and I will be glad to take the matter up.

I assure your department that it is not the intention of this company to overcharge any one. On the contrary, it is a pleasure tor us to remedy any slips of mistakes of the company. We realize that the company, prior to our management, was exceedingly badly managed and we are trying in every way to please the customers and give them a good supply of water.

Thanking you for your kind expressions and for your letter to Mr. Ackerman, I beg to remain,

Very sincerely,

P. S. - As soon as Mr. Ackerman presents his claim to me and to my attorneys have passed upon same and the charter as referred to by Mr. Ackerman, I will then correspond with you

I also hand you berewith a copy of a letter that I have to-day written Mr. Ackerman. On March 10, I wrote to Mr. Ackerman telling him that my Superintendent had reported to me that he or some one else had tapped our mains after we had shot the water off. He (Ackerman) he or some one else had tapped our mains after we had stout the water off. He (Ackerman) reported that he was getting no water and that we were charging him for it. I then ordered the superintendent to shut off the water, and then we found out that he or some one else, without permits from this company, dug down into the street and turned the water on, as a great many of the people in the district are doing. According to our books, Mr. Ackerman's water was shut off July 31, 1899, and some time shortly afterwards he dug the street up (or some one else for him) and turned on, I wrote to Mr. Ackerman and asked him to come to this office and make some explanation as to why he had dug up the streets and turned on the water. Mr. Ackerman is now getting water from this company and we are not charging him only according to his contract, which is \$10 per year. Thus, Mr. Commissioner, you will plainly see that the company has been grossly imposed upon by this man, and as long as they can get any sympathy from the Water Department, I see no reclass for this company except they go to court. Now, in your position, I know you understand these complaints and how irresponsible these people are: makes they own property, we are in no position to collect but must take the making them pay, or else get a permit to shot off the water, and if we cannot get the permits, why we have a case on now at One Hundred and Fifty-eighth street, and we propose to make of this a test case and see what our rights reality are. rights really are.

rights really are.

You cannot appreciate, Mr. Dalton, how I appreciate and what a favor your letter to Ackerman, was; for if the Department of Highways was to sit down on these people as your office has done, we would soon straighten out this matter.

I have tried, and proposed to continue trying, to work in harmony with the City Department, as our interests are matual. On hearing from Mr. Ackerman I shall report to you in full.

I think Mr. Ackermann has gotten our company confounded with the charter of the Suburban Water Company. However, I am investigating it.

Thanking you again for your kind attention, I am,

Very sincerely yours,

(Signed) W H. ELLIS.

WAKEFIELD, N. Y., March 14, 1900.

W. H. Einer, Esq., New York and Westchester Water Company

Deax Sin — A communication I received from the Hon. W. Dalton, Commissioner of Water Supply, prompts me to answer your letter of March the 10th.

I have no time during the day to call on you, hot will most you after 7 F. M. any evening (except Turaday, March the 20th) you may designate at my house at Wakafield to No. 315 East Fifty-fourth street.

To adjust reafter A will formity non publication of the confined beautiful.

To adjust matters, I will furnish you with a list, verified by our Postmaster, as to the dates and amounts and numbers of all the postal money orders I have forwarded to your company since July 1, 1895. These aggregate to \$31.95.

I also will be pleased to convince you that I have only one faucet in my house, and, knowing of the scarcity of your water, do not allow any waste thereof.

Respectfully yours,

(Signed) MARTIN ACKERMAN, Marion Street, Wakefield, N. V.

(Copy.)

WAKEPIELD, NEW YORK CITY, March 14, 1900.

Hon. WHAIAM DALTON, Commissioner of Water Supply, New York City: DEAR SIR—Your letter of the rath instant received in-thay. I at some wrote to the New York and Westchester Water Company inviting them to convince themselves that I have only one function the premises; also offered them a copy of a list verified by our Postmaster as to amounts, dates and numbers of all the postal money orders sent by me to them.

If these people mean to do honest business, I shall do my best to help them straighten out my account on their book. Thanking you for the trouble you have taken, I remain,

Very respectfully,

(Signed) MARTIN ACKERMAN, Marion Street, Wakefield, New York City.

(Copy.)

City of New York-Office of the Mayor, April 13, 1900.

APRIL 18, 1900

Hon. WILLIAM DALTON, Commissioner of Water Supply, New York City;

DEAR SIR.—I am directed by the Mayor to transmit to you for your attention and report direct to complainant, copy of which report kindly forward to the effice, the inclosed communication from Martin Ackerman, Marion atreet, Wakefield, New York City to reference to the relucal of the New York and Westchester Water Company to supply him with water.

Very respectfully yours,

(Signed) ALFRED M. DOWNES, Secretary to the Mayor.

(Copy.)

MARTIN ACKERMAN, Esq., Marion Street, Wakefield, New York City:

DEAR SEE-I have received from his Honor the Mayor for attention and reply to you, your letter to him of noth instant, in which you rehears the controversy between you and the West-chester Water Company, concerning the rates which the Company has a right to charge for your water smooth

water supply.

The correspondence between you and this Department on this subject began early last August, and you have kept it up at intervals alone that time. On a re-examination of this correspondence, and of letters which I have received from the Receivers of the New York and Westerbester Water Company, I find that the case is se scated in my letter to you of August II,

chester Water Company, I find that the case is se scated in my letter to you or angust 13, 1899, viz.:

In 1895, a new contract was made between the Village of South Mount Vernon (Wakefield) and the New York and Westchester Water Company, which provides for the rates to consumers then charged in the City of Mount Vernon, of the Village of Williamsbridge. This rate, in your case, would be \$10. You contend that the Mount Vernon rate was subsequently reduced to \$7.50, and you claim that your case comes in under this reduction. This is denied by the Company.

You admit in your letter now before me that the other house-consens or residents in Wakefield pay the \$10 charge, and in the absence of any documentary proof from you that your contention is right. I have to assume that the Company's case is right.

It also appears from the voluminous correspondence that after you refused to pay the \$10 rate the Company shut off your water supply, and the Company claims that you then opened the street and reconnected your house with the Company's water supply, without its knowledge.

In respect to this I have nothing to say, as it is a private matter between you and the Water Company, except that I have nothing to say, as it is a private matter between you and the Water Company, except that I have nothing to say, as it is a private matter between you and the Water Company, except that I have nothing to say, as it is a private matter between you and the Water Company in the right to shut off your water supply.

I shall write to The Mayor of the City of Mount Vernon to obtain authentic information me to the rates charged there in 1895, and as to any subsequent change or reduction, so far as the same applies to your case, and shall further communicate with you after receipt of that information.

Yours respectfully,

(Signed) WILLIAM DALTON, Commissioner of Water Supply.

MOUST VERNON, N. Y., April 20, 1900.

Hon, Etwin W. Frien, Major, Mount Vernin, N. Y.

DEAR Siz.—In response to your inquiry of this date, I would say that our charge for domestic service, so called, is \$7.50; that this rate was in existence on January 1, 1894, and has not since been increased, and remains at that figure moday.

I inclose a copy of our rates at that time, in confirmation of the above.

Yours truly,

(Signed) CHARLES D. TURNEY, Manager.

MOUNT VERNON, N. V., April 23, 1900.

Hon. WILLIAM DALTON, Commissioner, Department of Water Supply, 21 Park Row, New York

MV DEAR Six—Replying to your favor of April 18th would say, I inclose a communication received from the manager of the New York Suburtan Water Co., which I think will give you the desired information. I treat this will be satisfactory, and if any further information is necessary I shall be pleased to furnish it for you. I remain,

Yours very truly,

(Signed) EDWIN W. FISKS.

APRIL 24, 1900.

Messus. J. P. O'BRIKS and W. J. ELLIS, Receivers, New York and Westchester Water Company, No. 3 Broad Street, New York City:

No. 3 Broad Street, New York City:

DEAR Street Since the receipt of Mr. Ellis's letter of 15th ult., concerning the contention between your Company and Mr. Martin Ackerwan, of Wakefield, in reference to the proper charge for his water supply. I have received a further complaint from Mr. Ackerwan, through his Honor the Mayor, still maintaining the position that the annual charge for his supply should not be snore than \$7.50.

As the contract under which your Company supplies water in the former Village of Wakefield provides that the charges shall be no higher than they are in the City of Mount Vermon, I have written to the Mayor of Mount Vermon for information as to what the charge is for a house with one fauest, and now have his reply, inclosing a copy of the schedule of rates charged by the New York City Suburhan Water Company, and find that for such a house it is \$7.50 per annum. Therefore, unless you furnish me with substantial reasons why you should charge Mr. Ackerman for all accused charges.

I await your prompt reply in the matter.

Very respectfully,

(Signed) WILLIAM DALTON, Commissioner of Water Supply.

(Copy.)

NEW YORK AND WESTCHESTER WATER COMPANY, NEW YORK OFFICE, DREXEL BUILDING, NO. 3 BROAD STREET, NEW YORK, APRIL 28, 1900.

MR. WILLIAM DALTON, Commissioner of Water Supply, No. 27 Park Row, New York.

Ma. William Dalton, Commissioner of Water Supply, No. 21 Park Row, New York.

Dean Sir.—Vours of the 24th inst. received, in further answer to mine of the 15th ult., regarding Mr. Martin Ackerman, of Wakefield.

There are some complications in this matter. I am now looking through our files and vanifs to find the contracts existing between this company and the Village of Wakefield in 1893 and 1894; and I have also written the Mayor of Mount Vernon to ascertain from him the water rates of 1894 and 1805, or the water rates that they were charging when this company made the contract with the Village of Wakefield. I am also having some trouble in finding the original contract with the Village of Wakefield, and as some as I have that in my passession, I will then be in a position to act properly in the matter. I beg also to inform you that we are not charging any higher than the contracts with the Village of Wakefield (as we interpret it) allows us to charge. We are simply enforcing the rates that were in force and that the company were charging when we took possession of it. However, I assure you we will give this smatter a thorough investigation, and we will live up to our charter in every respect. I will, 28 soon as I get the data in reference to Ackerman, then take a firm position and inform you of same in detail.

We claim the right, as a corporation, to make rates in accordance with our different franchises from the municipalities under which we operate; and any suggestion from you, my dear sir, I assure you will be highly appreciated and aftention will be paid to it immediately.

I will give you a definite answer as soon as I get the information referred to above.

Very respectually,

(Signed) NEW YORK AND WESTCHESTER WATER CO.,

W. H. Ellis.

(Copy.)

APRIL 30, 1900.

W. H. ELLIS, Esq., Receiver, New York and Westchester Water Company, 3 Brown street, City

Dear Stz—I have your letter of 28th inst, replying to mine of 24th inst, concerning the charge made by your company to Mr. Martin Ackerman for water supply.

You state that you are looking through your files and vaults to find the contracts existing between the company and the Village of Wakefield in 1891 and 1894, and that you have written to the Mayor of Mount Vernon to ascertain from him the water rates of 1894 and 1895, when the company made the contract with the Village of Wakefield.

You overlook the fact that I stated in my letter to you that the contract of 1895 provided that the charges made by your company to private consumers "shall not exceed those which are now or may be bereafter established for similar purposes in the City of Mount Vernon or Williage." or may be bereafter established for similar purposes in the City of Moont Vernon or Williamsbridge." I quote this from an authentic copy of the contract which has been printed in a pamphlist, embodying the contracts of other private water companies, under the direction of the Board
of Pablic Improvements. It seems to me messess for you to make any further search for the
original contract to ascertain what the rates were in 1893, 1892 or 1895. I have the information
from the Mayor of Mount Vernon that subsequent to 1895 the rate for houses like that of Mr.
Ackerman was reduced to \$7.50 and that it is now \$7.50.

I must renew my request for prompt action on the part of the Receivers of the New York and
Westebester Water Company to end the Icksome and voluminous currespondence in this matter.

Very respectfully,

(Signed) WILLIAM DALTON, Commissioner of Water Sapply.

(Copy.) NEW YORK AND WESTCHESTER WATER COMPANY, NEW YORK OFFICE, DRENEL BULLDING, No. 3 BROAD STREET, NEW YORK, May 7, 1920.

WILLIAM DALTON, Esq., Commissioner of Water Supply, No. 21 Park Bow, New City, No V. 1

My DEAR Stu-I beg now to take up the master as referred to in your letters of the 24th and 30th altimo, in reference to Martin Ackerman, of Wakefield, N. V., being overclarged for his

My Dear Sim—I her now in take up the manners referred to in your eleters of the 24th and 36th altimo, in reference to Martin Ackerman, of Wakefield, N. Y., being overclarged for his water.

In answer to yours of the 30th ultimo, in which you say you have received a further complaint from Mr. Ackerman through his Honor the Mayor, still maintaining the position that his annual charge should be \$7,50 per year. In the second paragraph of your letter you state that the contract with the Village of Wakefield (or, as I understand it, South Munti Vernon) so provides. It beg to herewith quote you the exact wording of the contract between the New York and Westchester Water Company and South Mannt Vernon, as follows: That the New York and Westchester Water Company is the village of South Mount Vernon, as follows: That the New York and Westchester Water Company is chartered in said Village of South Mount Vernon for the purposes hereinafter mentioned. There is hereby granted to the New York and Westchester Water Company, its successor or assigns, the privilege of establishing, maintaining and superating a water-works within and near the Village of South Mount Vernon, for twenty (20) years from and after the passage of this ordinance, and for supplying the said Village of South Mount Vernon and inhabitants of all the adjacent territory with water pumped from the most syntable water source, providing that the water pumped he of a pure and wholestone character and not injurious to the public health. It being expressly understood and apreed that the water rates charged to private sonsamers, either for business or for any purposes, shall not exceed those which are now or may hereafter be established for shallar purposes in the Village of South Mount Vernon it the grantee always having the right to use the streets, alleys, sidewalks and public grounds of the Village of South Mount Vernon within the present and fature limit, for planing and taking up and repairing mains, hydrants and other structure for the service of water for th

"MOUNT VERNON, N. Y., April 27, 1900.

"Replying to your favor of April 16, I would state that under the terms of a contract between the City and ourselves, we are obliged to meter all houses in the city. We do not,

therefore, furnish water to new customers at other than meter rates. The planther you employ sets the nester and we farmish it free of cost. There will be a minimum charge of \$3 per quarter so long as the meter is in position and the water turned on; and all he excess thereof at 212 cents per 100 cubic fact. In other words, a well-regulated homehold aboutd have all the water necessary at a cost of from \$12 to \$18 per year.

Respectfully,

(Signed) CLARENCE D. TURNEY, Manager."

Now, my dear sir, you will know by this that instead of charging \$10 for one house, as our present rates are, the Mount Vernon water rate is \$12. And they compel the customers to have a meter and the minimum rate is \$3 per quarter, as the copy of the above letter will show.

I have to-day written a letter to Mr. Ackerman, as follows:

NEW YORK, May 7, 1000.

Mr. MARTIN ACKERMAN, Marion Street, Wakefield, N. V. 1

Marion Street, Wakefield, N. V. 1

DEAR SIR—In reference to your long chain of cotrespondence in regard to our company overcharging you for your water, and that according to our franchise with the Village of South Moant Vernon (or Wakefield), we were to regulate our rates correspondingly with the rates of Moant Vernon. I am informed through the manager's effice of the New York Suburban Water Company, which supplies the City of Moant Vernon with water, that they compel their customers to put a meter on and their minimum clarge is \$3 per quarter as long as the meter is set and the water on. Therefore, this rate corresponding with what we are now charging you, would entitle as in clarge you \$12 per year instead of \$10.

I hereby instruct you that we are prepared in your case to put a meter at your house and charge you correspondingly with the New York Suburban Water Company's rate, which company is now supplying the City of Mount Vernon. The manager of the company informs me that in excess of the charge of \$3 per quarter, water is sold at 22½, per 100 cubic feet. We are also prepared to sell you any quantity of water at this rate.

Now I have quoted you the rates that I have received in a letter signed by the manager of the New York Suburban Water Company. If these rates are not correctly quoted, I am perfectly willing to make a correspondence as we understand it, with any contract between the Village and this company.

(Signed) NEW YORK AND WESTCHESTER WATER COMPANY.\*\*

(Signed) NEW YORK AND WESTCHESTER WATER COMPANY."

You will see by the above copy of a letter that I have sent to Mr. Ackerman, that I have notified him that we are prepared to set a meter at his place, and charge him in correspondence with the prices we received from the manager of the New York Suburian Water Company.

I do hope that you have carefully read that extract that I have herewith quoted from the Charter, together with a letter that I have in my possession signed by the Manager of the New York Suburban Water Company, and that you will see that we have treated Mr. Ackerman in accordance with our franchise. However, it in any way I have erred and your department should discover it, I am glad and willing to correct same. I hope you will so inform Mr. Ackerman in accordance with our franchise. However, it in any way I have erred and your department should discover it, I am glad and willing to correct same. I hope you will so inform Mr. Ackerman.

It is not the duposition of this company to overcharge any of its customers for water; but, in Mr. Ackerman's case, he has given us a great deal of trouble and, no deals, lalars under a misapprehension. If the rotes from the New York Suburban Water Company are not correct, as I have quoted them, and you will furnish them officially from your department, I will then make some attrangement with Mr. Ackerman. We do not propose to let Mr. Ackerman be connected with our mains, using water promismounly, allowing his hydrant to run all night and even wate it, at a charge of \$7, to per year for an open sink. But if he wishes, we are perfectly willing to us diorns him with the New York Suburban Water Company or the Monat Vernon Ackerman be connected with our will the make of water, etc. I hope you will give us the benefit of your exponence and treat as right to the permise.

I beg, my dear Commissioner, to remain Very respectfully yours.

NEW YORK AND WESTUMESTER WATER COMPANY,

(Capy.)

(Copy.)

MAY 9, 1900.

W. H. Elans, Esq., Receiver, New York and Westchester Water Company, No. 3 Broad street, New York City:

DEAR SIR-T have your letter of 7th inst, roplying to mine of 24th and 30th alt,, concerning the contention between your Company and Mr. Martin Ackerman in reference to the proper

ing the contention active your Company and Mr. Marin Ackerman is reference to the proper charge for his water supply.

You meet my statement that I have received official information from the Mayor of Mount Vernon, that the charge for water supply to a house like Mr. Ackerman had been reduced to \$7.50 per year in the City of Mount Vernon, by quoting a letter addressed to you by the Manager of the Mount Vernon Water Company, in which he states that the Company is obliged to mater all houses in the City of Mount Vernon, and that the meter charges for a well-regulated bounded.

are from \$12 to \$18 per year.

I do not consider this as a refutation of the ullicial information gives me by the Mayor of Mount Vernon. However, I shall place the whole matter before the Board of Public Improvements for its action, under the concluding paragraph of section 472 of the City Charter, to which I call your attention.

Very respectfully.
(Signed) WILLIAM DALTON, Commissioner of Water Supply.

REPORTS TROM COMMISSIONER OF HIGHWAYS.

The following reports from the Commissioner of Highways were read and the matters were

DEFARTMENT OF HIGHWAYS, NEW YORK, May 21, 1900. }

How. Maurice F. Holaman, Freeident, Board of Public Improvements:

Dean Six—Replying to a lepter duced May 5, from the Socretary at the board, transmitting a resolution of the Municipal Assembly recommending that Hopkins street, from Noarmal avenue to Boardary, and Ellery street, from Nostrand avenue to Broadway, and Ellery street, from Nostrand avenue to Broadway, because the repaired and reset where necessary. I beg leave to report that the estimated cost of an asphalt pavement on concrete foundation on Hopkins street, from Nostrand avenue to Broadway, necluding the setting of new carb and the resetting of all curb, and on years' maintenance of the asphalt, is \$43,500.

The estimated cost of an asphalt pavement on concrete foundation, on Ellery street, from Nostrand avenue to Broadway, including the setting of new and the resetting of all curbatomes, also ten years' maintenance of the asphalt, is \$47,700.

There is no money to pay for these improvements at the present time.

Very respectfully,

JAMES F. KEATING, Commissioner of Highways.

The following report from the Commissioner of Highways was read and placed on 61e; DEPARTMENT OF HEGINALS—BORDOOD OF MANUATTAN, May 21, 1900.

Hen. Maurice F. Holanan, President, Board of Public Improvements:

Dean Star-I have the bonut to acknowledge receipt of a letter dated. May 14th, from the Sourciary of the Board, calling my attention to the provisions of section 414 of the Charter, and requesting an estimate of the cast of repaying with gramin blocks the junction of Wall, Pearl and Beaver streets, the resolution for this improvement having originated in the Municipal Assembly. In reply, I be; to say that the estimated cost of training up the present pavement at the intersection of Wall, Pearl and Beaver streets, Barough of Manhattan, and repaying the space with granite block pavement on concrete foundation, is \$615.

Very respectfully,

JAMES P. KEATING, Communicationer of Highways.

The following communication from the Commissioner of Highways was read : DEPARTMENT OF HIGHWAYS, May 18, 1900.

Hou. Maurice F. Holanan, President, Board of Public Improvements :

Dear Siz.—I recommend that, pursuant to section 415 of the Charter, the Board of Public Improvements authorize the making of a contract for repaving, with asphalt on the present purement. Lafayette avenue, herevern Waverly avenue and Vanderbilt ovenue. Burough of Brooklyn, and that the contractor be required in give a guarantee of maintenance for ten years.

The estimated cost of the work is \$5,800, to be paid from the appropriation made to the Department of Highways, Borough of Brooklyn, for "Repaying Streets and Avenues," 1900.

Very respectfully,

W. N. SHANNON,

Deputy and Acting Commissioner of Highways.

The following resolution was thereupon adopted:

Resolved, by the Board of Public Improvements, That, in pursuance of section 415 of the Greater New York Charter, the repaying with asphalt on the present pavement, with a ten (to) years' guarantee of maintenance from the contractor, of the carriageway of Lafayette avenue, between Wayerly avenue and Vanderbilt avenue, in the Bovough of Broaklyn, under the direction of the Commissioner of Highways, be and the same is hereby authorized and approved, the cost of said public work or improvement to be paid for from the appropriation for 't Kepaying Streets and Avenues,' Burough of Brooklyn, 1000.

Atherstive - Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Public Buildings, Lighting and Supplies, President Strough of Brooklyn and President of the Board.

Negative—Nince.

Negative-None.

The following report from the Commissioner of Highways was read:

DEPARTMENT OF HIGHWAYS, May 15, 1900.

DEPARTMENT OF HILLIAMAN, Provident, Board of Public Improvement:

DEAR SIX—With a letter date! February 16, 1900, from the Secretary of the Board, I received, for investigation and report, a resolution adopted by the Local Board of the Twenty-list District, Borough of The Broax, recommending that Tampson place, from One Hundred and Forty-lourth street to One Hundred and Forty-ninth street, be regulated and graded, curbstones set and sidewalks flagged a space four fact wide through the sentre thereof, crosswalks laid, approaches built and faces creety where necessary.

I have investigated this matter, and find that title to the street ims been acquired by the City, and that use section is under contrast for the construction of a sewer. There are a number of buildings in the street to which access is somewhat dangerous, and it is accessary to carry out, as soon as possible, the improvement provided for in the resolution of the Local Board.

The estimated cost of the work is \$18,500, and the assessed value of the real estate within the probable area of assessment is \$68,725.

I recommend that the improvement be authorized.

Very respectfully,

W. N. SHANNON,

Deputy and Acting Commissioner of Highways.

Deputy and Acting Commissioner of Highways.

Deputy and Acting Commissioner of Highways.

The following resolution was thereupon adopted:

Resolved, by the Board of Public Improvements, That, in pursuance of sections 413 and 422 of the Greater New York Charter, the regulating and grading of Timpson plane, from One Handred and Forty-fourth street to One Handred and Forty-math street, in the Borough of The Brown, setting of curbstones, flagging of sidewalks a space of four feet wide, laying of cross-walks, building of approaches and creeting of fences where necessary, under the direction of the Commissioner of Highways, be and the same hereby is authorized and approved, there baving been presented to said floard on estimate in writing, in such detail as the said Board has directed, of the cost of the proposed work or improvement, and a statement of the assessed value, according to the last preseding rax-rall, of the real state included within the probable area of assessment, the estimated cost of said work being righteen themsend five bundred dollars.

The said assessed value of the real estate included within the probable area of assessment is sixty-eight shousand seven hundred and twenty-five dollars.

And the said Board does hereby determine that no portion of the cost and expense thereof shall be burne and paid by The City of New York, but the whole of such cost and expense shall be assessed upon the property doment to be henefited thereby.

Afternative—Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sowers, Commissioner of Public Buildings, Lighting and Supplies, President of the Borough of The Brans and President of the Board.

Negative—None.

In connection with the foregoing resolution, the following form of ordinance was approved for transmission to the Municipal Assembly :

IN MUNICIPAL ASSEMBLY.

IN MUNICIPAL ASSEMBLY.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

That, in pursuance of sections 413 and 422 of the Greater New York Charter, the following resolution of the Board of Public Improvements, adopted by that Board on the 21d day of May, 1913, be and the same hereby is approved, and the public work or improvement therein provided for is hereby authorized, and it is hereby determined that the cost and expense thereof shall be keine and paid as therein provided; namely.

"Resolved, by the Board of Public Improvements, That, in pursuance of sections 413 and 422 of the Greater New York Charter, the regulating and grading of Timpson place, from One Hundred and Forty-fourth street to One Hundred and Forty-inith street, in the Borough of The Brons, setting of curbstones, flagging of sidewalks a space four feet wide, laying of crosswalks, building of approaches, and creating of fences, where necessary, under the direction of the Commissioner of Highways, he and the same hereby is amborized and approved, there having been presented to said Board an estimate in writing, in such detail as the said Board has directed, of the cost of the proposed work or improvement, and a statement of the assessed value, according to the last preceding tax-roll, or the real estate included within the probable area of assessment, the estimated cost of said work being eighteen thousand five hundred dallars. The said assessed value of the real estate included within the probable area of assessment is sixty-eight thousand seven hundred and twenty-five dollars.

And the taid Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but the whole of such cost and expense thereof shall be borne and paid by The City of New York, but the whole of such cost and expense thereof

The following communication from the President of the Borough of Brooklyn was referred to the Commissioner of Water Supply : BORODON OF BROOKLYN, May 18, 1900.

Bosoden or Brooklyn, May 18, 1900.

Bosoden or Brooklyn, May 18, 1900.

Gentlemen—The Local Board of the Eighth District, Borough of Brooklyn, after hearing had at a meeting held on May 4, 1900, duly advertised, adopted the following:

"Resolves!, That the Local Board of the Eighth District, Borough of Brooklyn, after hearing had this ath day of May, 1900, hereby declines to pass on the opening of certain streets in the Eighth Local Improvement District, suggested by the Department of Water Supply in a communication addressed to the Board of Pablic Improvements on December 16, 1859, until it is first in possession of information as to the capacity of the Flathash Wasser Works Company and the shifty of its plant, provided it were acquired by the City, to supply the territory intraded to be supplied by the water-main which the Department of Water Supply proposes to place in the streets specified in the above referred to communication."

The allows action was taken by the Local Board after repeated hearings on the operation of opening the streets requested by the Department of Water Supply. Citizens in the district affected are very much opposed to having Ridgewood water taken into the district, provided the plant of the Flathesh Water Works Company can be used to supply them with water. They desire that the plant and franchise be acquired by the City, and to that end and far the purpose of determining whether such a step is advisable, I request that the Department of Water Supply be arged to make the report which it has been repeatedly asked by this Board to make in relation to this subject.

Vours respectfully,

Voors respectfully, EDWARD M. GROUT, President of the Borough.

BOROUGH OF BROOKLYN, May 15, 1900.

Board of Public Improvements:

Gentlemen—The Local Board of the Eighth District, Borough of Brooklyn, after hearing had at a meeting held this 4th day of May, 1900, duly advertised, adopted the following:

"Resolved, That the Local Board of the flighth District, Borough of Brooklyn, after hearing had this 4th day of May, 1903, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York that, in pursuance of the provisions of section 436 of chapter 378 of the Laws of 1897, prunedings be initiated to after the map or plan of the City of New York by laying out Sullivan street, between Nostrand avenue and New York avenue, in the Eighth Local Improvement District of the Borough of Brooklyn."

The above action was taken by the Lucal Board on account of petition baving been filed with it for the opening of Sullivan street, between Nostrand avenue and New York avenue.

Yours respectfully,

EDWARD M, GROUT, President of the Borough.

CITY OF NEW YORK—BOROUGH OF BROOKLYN,
OFFICE OF THE PRESIDENT OF THE BOROUGH,
May 8, 1900.

Board of Public Improvements, Park Row Building, New York City:

Gentumen—I inclose herewith a copy of an addavit by George P. Puke, on tile in my office, in which he estition that he consents to the closing of East Fifteenth and East Sixteenth streets, between Paster areans and Avenue H, and to the laying out of vertain new streets in the locality as pelitioned for by the Germania Real Estate and Improvement Company.

This affidical: to presented in accordance with the suggestion of the Topographical Reason to the Board of Public Improvements under date of March 30, in which attention is called to the laying that the proposed attention of the map of the city, petitioned for by the Germania Real Estate and Improvement Company, had not been consented to by Mr. Fiske. His consent now makes the petition unanimous, and I request that proceedings for the change he furthered as much as possible.

Vants 1609.

EDWARD M. GROUT, President of the Barough.

(Copy.)

BEOOKLYN, N. V., April 14, 1900.

To the Local Bound of Public Improvements :

GENTLEMEN-This is to certify that I, the underagued, herewith consent to the closing of East Fibreath and East Sixteenth streets, between Fosser avenue and Avenue II, as politioned for by the Germania Real Easte and Improvement Company, and induces their plan for the laying not of Wellington court and Walderf court.

(Signed) GEO. P. FISKE.

Enward E. Carman,

Commissioner of Deeds, City at New York, residing in the Borough of Brooklyn.

ROBBERTH OF BROOKLYN, May JN. 1000.

Board of Public Improvements :

Generalizes—The Local Board of the Ninth District, Borough of Brooklyn, after hearing had at a meeting held this 7th day of May, 1900, duly advertised, adopted the following r.

"Resolved, That the Local Board of the Ninth District, Borough of Brooklyn, after hearing had this 5th day of May, 1900, hereby recommends to the Board of Public Improvements of The City of New York that proceedings be instated for the establishing of a grade-crossing over Setter avenue, between Rockman avenue and Alahama avenue, in the Borough of Brooklyn."

The above action was taken by the Local Board in accordance with the recommendation of the Department of Highways to the Board of Public Improvements, which was transmitted to the Local Board to the Board of Public Improvements, under date of April 15, 1900. The Local Board requests that proceedings for the establishing of a grade-crossing at this point be advanced as rapidly as possible.

Yours respectfully.

EDWARD M, GROUT, President of the Borough.

Barough of Brooklys, May 18, 1900.

Board of Public Improvements :

Board of Public Improvements:

GENTLEMEN—The Local Board of the Ninth District, Borough of Breaklyn, after hearing had at a meeting held this 5th day of May, 1900, duly advertised, adopted the following:

"Resolved, That the Local floard of the Ninth District, Borough of Brooklyn, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York that proceedings be initiated to open Belmont avenue, between Reckaway avenue and Wyons street, and between Enfield street and the former city line, in the Borough of Brooklyn."

Inclosed is a copy of protest from the Long Island Railroad Company against the opening of Belmont avenue, between Pawell street and Vesta avenue.

As the opening of this street is Jesired, in order that a sewer may be constructed therein, I request that title in the street be vested in the City upon the filing of the oaths of the Commissioners of Estimate and Apportionment.

Yours respectfully,

EDWARD M. GROUT, President of the Borough.

(Copy.) In the Matter of The Opening of Beimont Avenue.

Hon. Enwant M. Grout, President of the Borough of Brooklyn :

DEAR SIR—The undersigned respectfully represent and show, that they are the owners of the properly shown on the innexed diagram and marked with their sames, on the line of the properly shown on the innext diagram and marked with their sames, on the line of the proposed opening and immediately adjoining thereon, or interested or connected therewith, and that they hereby respectfully object and remonstrate against the opening of the said Belmont avenue, briween Powell street and Vesta avenue.

The grounds of this remonstrance and objection are:

1. That all of said property is vacant property and there is no call or used for a saver through the said Belmont avenue, one is there any call or occasion for the opening of said avenue, and the undersigned do not wish or desire nither the opening of the said avenue or the laying of severs therein.

If the hells of this avenue, has been avenue and the said avenue or the laying of severs therein.

and the undersigned do not wish or desire wither the opening of the said avenue or the laying of sewers therein.

If The bulk of this property has been purchased by the undersigned and parties and owners whom they represent for the purpose of establishing a milroud freight yard and railroad terminals and facilities so us to bring this portion of the Borough of Brooklyn into immediate milroud connection with the Borough of Brooklyn, and the opening of astroct or avenue through the property would absolutely roin the property for such purposes, and it therefore seems in the undersigned that it would be highly prejudicial, not only to the undersigned but to the entire neighborhood and to this section of the Borough of Brooklyn, to interfere with or frustrate the plans and purposes of the undersigned is developing said property.

III.—There is also intended to be created upon the property immediately adjoining the said Belmont avenue, coal sheds and pockets connected with said cultoned, and the enablishment of a depot or depois for the distribution of coal for this section of the Borough of Brooklyn, which will also be of vast importance to this section of the Borough of Brooklyn, and the laying out of a street or avenue through the said property will absolutely spail it for any such purpose and will entirely frustrate the purposes of the undersigned is carrying out set such improvements.

IV.—Many thousands of dollars have been spent in acquiring this property and other properties for the purpose of carrying out such plans and purposes, and it does not therefore seem just the for the purpose of carrying out such plans and purposes, and it does not therefore seem just for the purpose of carrying out such plans and purposes, and it does not therefore seem just the purpose of carrying out such plans and purposes, and it does not therefore seem just the purpose.

and equitable that this investment should go for naught, when the proposed opening is nor in any sense for the benefit or advantage of this property, and any benefit or advantage which is an arraw is to arcrue to owners of distant property and property less valuable than that owned or represented by the undersigned.

V.—If the plans and purpose of the undersigned are allowed to be carried out it will result in making freight rates the same in East New York as they now are in the Borough of Manhattan, which will certainly be an enormous benefit and advantage, so only to this immediate locality but to the onlying and adjoining sections and portions of the Borough of Brooklyn, and it therefore seems to the undersigned that these purposes should not be interleated with by the opening of a strent through this property.

strent through this property.

It is therefore respectfully asked that no proceedings be taken or communiced for the opening or laying out of Belmont avenue, between Powell street and Vesta avenue.

Respectfully submitted,

LONG ISLAND RAILROAD COMPANY.
LOWELL M. PALMER.

REPORTS FROM TOPOGRAPHICAL ENGINEER.

The following reports from the Topographical Engineer were read, and the matters were referred to the Commissioner of Sewers: TOPOGRAPHICAL BUREAU, May 19, 1900.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements :

Mr. John H. Mooney, Secretary, Board of Public Improvements, referring for report communication from the President of the Board of Public Improvements, referring for report communication from the President of the Board of Public Improvements amend the map or plan of drainage in the Ariesta Book watershed, designated Sewerage District No. 1A, in the First and Second Wards, Borongh of Richmond, which was adopted April 11, 1500, by adding therein plan for a sewer in Brooke street, from Pine street to Jersey street to Richmond turnpile. I transmit berewith, for adopting and filing, map entitled "I'lan of Drainage, showing location, see and grades of sewers in Brooke street, from Pine street to Jersey street, and from Jersey street to Richmond turnpile, designated Sewerage District No. 16, in the First Ward, Borongh of Richmond."

Papers in the matter are berewith returned.

Respectfully.

Respecifully,
F. GREIFFENBERG,
Principal Assistant Topographical Engineer. TOPOGRAPHICAL BURKAU, May 19, 1900.

Mr. Joun H. Mooney, Secretary, Board of Public Improvements:

Mr. John H. Modney, Secretary, Board of Public Improvement:

Siz.—I transmit berewith, for adoption, map or plan entitled "Modified Plan of Drainage, showing location, size and grades of sever in Newtown avenue, from Van Alst avenue to Rapelje avenue, designated Sewerage, No. 6c, in the First Ward, former Long Island City, Borough of Queens." This severage district plan was propared as a supplementary plan to the plan of drainage showing sewer in Flushing avenue, from Van Alst avenue to Calinet street, designated Sewerage Districts No. 5n, and No. 7a; it connects the newer in Grand avenue at the intersection of Rapelje avenue with the sewer in Van Alst avenue at the intersection of Flushing avenue and is intended for the relief of the Grand avenue sower, which is overcharged.

Respectfully,

F. GREIFFENBERG,

Principal Assistant Topographical Engineer.

MISCELLANSOUS COMMUNICATIONS.

The tollowing communication was referred to the Commissioner of Water Supply: GERMANIA REAL ESTATE AND IMPROVEMENT COMPANY, BOROGGII OF BROOKINN, NEW YORK, May 23, 1900.

To the President and Public Board of Improvements, New York:

Garrianian—We herewith respectfully petition for the privilege of laying six-inch water mains on Grand View avenue, from Stanlope street to Greene avenue, and from Ralph street to 50 feet east of Linden street.

On Fairview avenue, from Stanlope street in Harmon street, and from Greene avenue to 75 feet east of Linden street. Also on Stanlope street, Hissond street, Harmon street, Bleecker street, Ralph street, Grove street and Linden street, between Fairview and Grand View avenue, as shown on attached map.

Venue very train.

Yours very traly, TAL ESTATE AND IMPROVEMENT COMPANY HENRY A. MEYER, President.

N. B .- The above petition applies to land sitested in the Second Ward of the Borough of Queens.
The following communications were placed on file:

BEFORE THE BOARD OF PUBLIC IMPROVEMENTS.

In the Matter

The Application of the Mayor, Aldermee and Community of the City of New York, etc., for the puspear of opening East One Hundred and Thirty-lith etrest, from Third avenue to Exterior street, etc., in the Twenty-third Ward of the City of New York. Pariting. To the Honorable the Board of Public Improvements :

The undersigned property owners affected by the proposed assessment by the Commissioners of Estimate and Assessment in the proceeding in the Supreme Court for the widening and extension of East One Hundred and Thirty-fifth street, from Third areans to Exterior street, a schedule of whose property is berefo annexed, respectfully show!

One Hundred and Thirty-fifth street, as originally laid out, from Third avenue to Park arenue, was a 60-fout street. Under its old name of Edsell street it had been but 50 feet wide. Its width of 60 feet, however, was sufficient for the ordinary purposes of traffic between those points, and it is still but 60 feet wide from Third avenue must to Long Island Sound. This proposed widening and extension of One Hundred and Thirty-fifth street, which runs northerly and westerly from the end of One Hundred and Thirty-fifth street, which runs northerly and westerly from the end of One Hundred and Thirty-fifth street and about parallel with the Harlem river. Exterior street is also to be 50 feet wide (the width of the widened One Hundred and Thirty-fifth street) and extends along the Harlem river up to Jerome avenue. In order to extend Exterior street so as to make its southerly terminus at the Third avenue Bridge and to accommodate the large traffic which Exterior street would be naturally called upon to hear in the way of tracking commodities unloaded at the water front, it became necessary, as part of a general scheme, to widen and extend One Hundred and Thirty-fifth street. It is also part of the plan to connect the terminus of One Hundred and Thirty-fifth street. It is also part of the plan to connect the terminus of One Hundred and Thirty-fifth street. It is also part of the plan to connect the terminus of One Hundred and Thirty-fifth street. It is also part of the plan to connect the terminus of One Hundred and Thirty-fifth street. Bridge areas the Harlem river with the Third Avenue new badge, and as a result of this proposed widening and extension of the selection of the public at

the public at large and for improved transit facilities along Exterior street up to Jerome avenue—
a distance of several miles.

In accordance with the policy adopted by your Homerable Board in similar matters (notably Mott avenue, One Hundred and Thirty-eighth street and One Hundred and Sixty-third street) where the policy was amounced that in So-foot streets a large portion of the assessment abould be borne by the public at large; and in view of the fact that it reliet is not be given by your Board it will be incumbent upon the owners of the land abutting One Hundred and Thirty-fifth street to alone bear the enormous assessment of between 1900 and \$1,000 per city lat in addition to the large assessments which they are called upon to pay for many other improvements in the neighborhood.

We respectfully request that the Homesable Board will place at least one-half of the cost of

We respectfully request that the Honorable Board will place at least one-half of the cost of above proceeding upon the Municipality.

Dated New York, May 2, 1900.

Respectfully submitted,
JORDAN L. MOTT,
AUGUSTUS W. MOTT.

Hon. MAURICE F. HULAHAN, Prelident Board of Public Improvements, City:

DEAR Siz.—Your communication of May 17, 1900, informing me that pelition for extending East One Hundred and Eighty-fifth street had been denied by your Department, has been duly

Hast One Hundred and Eighty-fifth street had been denied by your Department, has been duly received.

On behalf of property owners to the extent of about \$500,000 along the line of the proposed improvements, who are desirous of having this street opened, permit me to submit the following facts for your consideration:

Your Board has denied this polition because of the report of Topographical Engineers to the effect that the opening of this street would divide three blocks which are only 770 feet in length, and three others of a shorter length, and because it would necessarily mean the taking of same improved property.

There are insumerable blocks in this Borough and other parts of New York that are of much shorier length than 770 feet, and we cannot see any reason why any discrimination should be made in this particular section, as this street, if opened, would terminate near the entrance of the Zoological Garden, and would facilitate the many thousands of people reaching this park; it must eventually be opened, and delay will mean considerable more cost and expense than if the improvement takes place at once. At present there are only a few small buildings on the line, but of such little value that the cost of condemnation would be very small as compared with other improvements of a similar nature.

In view of these facts, I respectfully ask that your Board reconsider this matter and grant the application of the petitioners.

Respectfully,

Respectfully,
Respectfully,
WM. STONEBRIDGE,
No. 951 East One Hundred and Eighty-Jourth street. The following communication was referred to the Commissioner of Highways:

PUBLIC SCHOOL 78,
ONE HUNDRED AND NINETERSTH STREET AND PLEASANT AVENUE.

Mr. MAURICE F. HOLAHAN :

DEAS SIR—We, the undersigned, buy that you will give attention to the following matter:
At the foot of the street on which our school is situated are a cont-yard and an ice dock. All
day long the carts pass through the street from and to those places. The noise is most distracting. At times it is so deafening that all work has to be aspended. Our pupils either become
apathetic or surrous and irritable, through their inability to hear. Our voices are strained, our
acress overstrought in our lutile effort to make ourselves heard.

We understand that the street between Pleasant and First avenues is to be asphalted and beg
that the work may be continued to the river. Parents and pupils join with us in the plea for a
nuiter street.

quieter street.

KATE CALLAHAN, K. M. FALVEY, VINNIE WEED, And others.

#### RESOLUTIONS.

On motion of the President of the Borough of The Bronz, the following resolution was adopted:

On motion of the President of the Borcogn of the Bronz, the Indianaly resolution was adopted:

Resolved by the Board of Public Improvements, That, in pursuance of sections 413 and 422 of the Greater New York Charter, the regulating and grading of East One Hundred and Seventy-nith street, from Third avenue to Scathern Bealevard, Borough of The Bronx, setting of curbatomes, flagging side-walks a space four feet wide, laying crosswalks, erecting fences, planting trees on the sidewalks and the paving of the roadway of said street with telford macadam, under the direction of the Commissioner of Highways, be and the same hereby is authorized and approved, there having, been presented to said Board on estimate in writing in such detail as the said Roard has directed, of the cost of the proposed work or improvement, and a statement of the assessed value, according to the last preceding inx-roll, of the real estate included within the probable area of assessment, the estimated cost of said work being fifty thousand dollars. The said assessed value of the real estate included within the probable area of assessment is three hundred and fifty-two thousand two hundred and fifty dellars.

And the said Board does hereby determine that an portion of the cost and expense thereof shall be borne and paid by The City of New York, but the whole of such cost and expense shall be assessed upon the property deemed to be benefited thereby.

Aftermative—Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Public Buildings, Lighting and Supplies, Commissioner of Bridges and President of the ligrough of The Broax.

Negative—None.

Negative - None.

In connection with the Soregoing resolution, the following form of ordinance was approved for transmission to the Municipal Assembly:

#### IN MUNICIPAL ASSEMBLY,

In Monicipal Assembly.

Be it Ordained by the Manicipal Assembly of The City of New York as follows:

That, in pursuance of sections 413 and 422 of the Greater New York Charter, the following resolution of the Buard of Public Improvements, adopted by that Board on the 23d day of May, 1900, be and the same hereby is approved, and the public work or improvement therein provided for is hereby authorized, and it is hereby determined that the cost and expense thereof shall be borne and paid as therein provided, namely:

"Resolved, By the Board of Public Improvements that, in pursuance of sections 413 and 425 of the Greater New York Charter, the regulating and grading of East One Hundred and Seventy-fifth street, from Third avenue to Southern Boelevard, Borough of The Broux, setting of carbatones, flagging sidewalks a space of four feet wide, laying crosswalks, erecting fences, planting trees on the sidewalks, and the paving of the readway of said street with telinal macadam, under the direction of the Commissioner of Highways, be and the same is authorized and approved, there having been presented to said Board on estimate in writing in runch detail to the said Board has directed, of the oray of the proposed work or improvement, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probabile area of assessment, the estimated cost of asid work being fifty thousand dollars. The said assessed value of the real estate included within the probabile area of assessment is three hundred and fifty-two thousand two bandred and fifty dollars.

"And the said Board does hereby determine that no parties of the cost and expense thereof shall be borne and paid by The City of New York, but the whole of such cost and expense shall be assessed upon the property deemed to be benefitted thereby."

The President of the Borough of The Bronx offered the following resolution, which was laid

The Presonent of the Borough of The Bronx offered the following, resolution, which was laid over for one week.

Resolved, That the Baard of Pablic Improvements, deeming it for the public interest so taken berely fixes the 15th day of November, in the year 1970, as the date to acquire title, wherever the same has not herselone been acquired, for the are of the public to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending. White Plains road, in the Borough of The Bronx, City of New York.

Resolved, That the entire cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby,

#### TRANSFERS.

The following communications from the Rapid Transit Commission were read.

BOARD OF RAPID TEANSIT RAILROAD COMMISSIONERS, NO. 320 BROADWAY, NEW YORK CITY, May 22, 1900.

MAURICE F. HOLAHAN, Esq., President, Bours of Public Improvements, New York City:

DEAR SIR—It is desired by the Board of Rapid Transat Railrand Commissioners to have transferred from your staff to that of the Chief anginess of this Board Mr. Bayley Hopkins, now a draughtsman in your department. If there is no objection to this, will you kindly certify in that fact to this Board?

Yours respectfully, A. E. OWR, Fresident.

RAPID TRANSIT RAILEOAD COMMISSIONERS, April 26, 1900.

MADRICE F. HOLAHAN, Esq., President, etc., Hoard of Public Improvements, City:

DEAR SEE—The Board Rapid Transit Railroad Commissioners would like to have transferred from the Topographical Bareau of your Department to the staff of the Chief Engineer of this Board, Jesse O. Shipman, now employed in your Department as Transitman.

If this is satisfactory to you, will you kindly certify in that effect to this Board.

Yours respectfully,

A. E. ORR, Franklens.

Both transfers were approved, the Commissioner of Highways suting in the measure.

In this connection, the President submitted the following list of salary increases in the Topographical Bureau, for the approval of the Board:

The President of the Beard explained that his reason for submitting a revision of the salary list of the Topographical Bureau, was in order to pay the employees to the extent that the present annual appropriation would permit fair compensation for their services.

In the proposed changes, except in a few instances, the minimum rate of wages prescribed by the Civil Service Board is not reached and so far as the first grade of Engineers having charge of divisions are concerned, the highest rate which it is proposed to pay is \$750 less than the fixed measurements.

During the first sees of the powent Maniaipal Government, the appropriation made for the Topographical Bereau made it impossible to retain the full force without reducing the stary of every employee. The clustrian was replained to the men and they agreed to accept lower salaries lant with the distinct understanding that they would be restored the following year. During the reparation at the annual City Budget, the President of this Board appeared before the licand of Estimate and Apportionment, and the understanding with the employees was fully explained. The additional appropriation enabled only a partial reducation of the old salaries.

During the past six months, and particularly slear the beginning of the present pear, considerable discontant has been manifested by members of the farce. Some of the most efficient, whose services were needed by the City, resigned and accepted positions in the National and State Governments, and with railroad and refer corporations, because the compensation offered was from at part and, to 50 per cent more than they were receiving in the Department. Several second transfers to other municipal department, where they secured higher wages for the same class of work they were doing in the Topographical Barcau.

Since the first of April, Engineers, Transitions and Draughtsmen have sent to this office communications asking to be transferred to the Eapid Transit work, by which they would gain an increased salary ranging from \$500 to \$500 per annum. From President Ore and Chief Engineer Parsons letters have also been received asking for the transfer of several of our employees. While it was an apparent injustice to deny these employees to better their financial condition, still, it would be idiotic to agree to a proposition which would certainly lead to the present degree of perfection. It is evident that there is but one way to prevent such a condition of affairs, and that is to pay these employees, as far as the appropriation will permit, what they are fairly entitled to receive.

This resolution provides for an increase of the salaries of 42 employees at an annual cost of

This expenditure will to a great extent ward all future difficulty. It will prevent the postparameter of Damage and Benefit Maps in nearly 400 street opening proceedings, and thereby
save in interest above, during the next twelve munifie, at least \$250,000.

It will not interrupt the surveying, plotting and mapping of territory in the various boroughs,
and particularly in Brooklyn, Queens and The Bronz, where the work is now vigorously

To show the grave injustice of the present salary list it is only necessary to mention that there are skilled droughts one in the flareau receiving but \$500 per annua, or \$2.87 per day, which is considerably less than the prevailing rate for skilled labor inside or outside of the Government service. These men have secured a high position on the Civil Service eligible list after passing the severest examination, and got do not receive within \$420 per year what the Civil Service rules under the last three Mayors declared should be the lowest salary paid for the class of work these draw-physical are now performing.

under the has three Mayors declared should be the lowest salary paid for the class of work these drain shown are now performing.

While a vote for this resultation may invite untain and beattle criticism from those who are only too anxious to anatom to based apon equity and fair play and benefitial to the City, there should be no healtancy in doing our duty.

The President of the Ecrosoph of Brooklyn reised the point that the Board had no authority in the matter, as under section 443 of the Charter had power was given to the President of the Board to regulate the salaries of the comployees at the Topographical Bureau.

The President stated that he had been doubtful of his authority to are without the consent of the Board, but that he would make the increases set forth in the foregoing schedule, same to take effect June tet, assuming that he had such authority under section 443.

On motion of the President at the Basuegh of The Brons, the next meeting of the Board was fixed for Turnslay, May 29.

#### AQUEDUCT COMMISSION.

Minutes of Shaled Meeting of the Aquestust Commissioners, held at their office, No. 207 Stewart Building, on Turnbay, May 1, 1900, at 11 o'clock A. M.

Present—Commissioners Ryan (President), Ten Eyck, Power and Windolph.

The minutes of stated meeting of April 24, 1922, were read and approved.

Commissioner Ten Eyck, as Chairman of the Committee of Finance and Audit, reported the examination and audit of bills contained in Vouchers Noz. 13,419 to 13,431, inclusive, amounting

to \$913.3ft.

Which were approved and ordered certified to the Comptroller for payment by the following

Affirmative-Commissioners Ryan, Ten Eyck, Power and Windolph-4.

The following communication was received from the Secretary a

New York, May 1, 1899.

To the Aqueduct Commissioners:

GENTLEMEN—This is to report that the sum of \$275. 82 has been received at this office from Division Engineer Craven, being the amount of rent collected on buildings on the Croton River Division of the New Croton Aqueduct during the month of April, 1900; which amount has been transmitted to the City Chamberlain for the credit of the "Additional Water Fond," and bis receipt therefor is on file.

Respectfully, HARRY W. WALKER, Secretary.

Which was approved and ordered filed by the following vote:
Affirmative—Commissioners Ryan, Ten Eyck, Power and Windolph—4.
The following communication was received from the Chief Engineer:

REPORT No. 169.

To the Honorable the Agreedant Commissioners :

NEW YORK, May 1, 1900.

General pare-house for Jerome Park Reservoir. I believe it would cost about four bundred dislars (\$400).

Vous respectfully, W. R. HILL, Chief Engineer.

Commissioner Ten Eyck moved that the authority saled for by the Chief Engineer be

Commissioner Ten Eyes moves and State of the Commissioners Ryan, Ten Eyek, Power and Windolph—4.

Which was carried by the following role:
Aftirmative—Commissioners Ryan, Ten Eyek, Power and Windolph—4.

The Construction or Erecutive Committee referred back to the Commissioners Report No. 160 of the Chief Engineer, dated April 3, 1900, submitting a preliminary report of a plan for conveying water from Ierome Park Reservoir across the Harlem river, with the recommendation that it be referred back to the Chief Engineer for a more full and complete report.

Which was approved by the following vote:
Alternative—Commissioners Ryan, Ten Eyek, Power and Windolph—4.
A communication was received from the Mayor, dated April 24, 1900, intensmitting copy of a communication addressed to him by the Association of Masser Planthers, concerning the matter of estimating or accepting plumbing contracts on Municipal Buildings by members of that association.

of estimating of a critical control of the following vote:

Which was ordered filed by the following vote:

Affirmative—Commissioners Ryan, Ten Eyck, Power and Windolph—4.

The Secretary presented deplicate forms of certificate of accessity providing for preparing plans and specifications for an engine, balling apparatus, etc., at Shatt No. 25 of the New Croton Aqueduct.

Which were ordered executed by the Commissioners by the following vote:

Which were ordered executed by the Commissioners by the following vote:

Aqueduct.

Which were ordered executed by the Commissioners by the following vote:

Afternative—Commissioners Ryan, Ten Eyck, Power and Windolph—4.

A communication was received from the Mayor, date I April 25, 1900, transmitting copy of a communication from a committee of the Building Trade. Section of the Central Federated Union of this city, concerning the laborers employed on the New Loron Dam.

Which was referred to the Construction or Executive Committee by the following vote:

Afternative—Commissioners Ryan, Ten Eyck, Power and Windolph—4.

A petition was received from a committee, representing certain employees of John B. McDimald, of the firm of McDonald & Onderdonk, Contractors for the Jerome Park Reservoir, requesting that the Aqueduct Commissioners give the contractors an estimate every two weeks instead of once a month, in order that the employees of said contractors may be paid every two weeks.

Weeks.

Which was referred to the Construction or Executive Committee by the following vote:
Affirmative—Commissioners Ryan, Ten Eyck, Power and Windulph—4.

The following communication was received:

New York, April 25, 1922.

New Your, April 25, 1900.

Hon, June J. Rvan, President, Aqueduct Commissioners, Sumast Building, New York :

Total Str.—On behalf of the Association I extend you a continuition to be present at our Twentieth Annual Convention, to be held in Richmond, Va., May 15 to 18, 1900.

If circamstances should occur that may prevent your presence, we would feel honored if you will send a representation of your Commission.

Yours truly,

PETER MILNE, Secretary, American Water Works Association,
No. 14 John Street, New York City.

In accordance with the request to send a representative, Commissioner Ten Byck moved that the Chief Engineer be requested to attend the Convention as the representative of the Aquadort Commissioners.

Commessioners.

Which was carried by the following vate:

Aftermative—Commissioners Ryan, Ten Erek, Dower and Windolph—4.

A communication was received from Daniel Ulrich, No. 269 West One Hundred and Thirty-sixth street, dated April 24, 1900, making application for the position of Division Engineer.
